

Strike In Coast Logging Industry Imminent

Thirty-Two Thousand Men Could Be Workless

British Columbia's Major Industry Is Threatened by Crisis at 'Crucial' Time

VANCOUVER (CP)—The multi-million dollar lumber industry, which provides one-third of British Columbia's dollars and attracts one-sixth of Marshall Plan aid to Canada, faces a strike of 32,000 coastal loggers. Trade experts describe the time of the threatened strike as "crucial."

Flash

SEALING OFF YUGOSLAVIA
BERLIN—A Berlin newspaper says that East German police are being sent to the Balkans to seal off Yugoslavia for the Russians. The British licensed Social Democrat said that 3500 heavily armed policemen left Saturday for anti-Tito action and said that 12,000 more were to be sent. They are commanded by the Russian General Fmironov.

Machinery to supervise a strike vote among members of the International Woodworkers of America is being geared by the provincial Labor Relations Board. It is the Board's biggest task since being established in 1947.

The Union claims that major locals, in week-end balloting, ratified President Stewart Alsbury's rejection that the recent conciliation board's majority report and his subsequent call for strike action.

In conciliation proceedings, operators of 165 plants asked for a 13 percent reduction in wages and a general return to pre-war conditions.

The men asked for a 15c raise, employer - sponsored welfare plan and closed shop.

The Board's recommendation left most of both requests alone, virtually retaining status quo. The recommendation is binding on neither side since neither side accepted it.

The last strike in 1946 paralyzed the industry for 36 days. Interior and northern loggers are still negotiating. Employers there have asked for a twenty percent reduction.

TRUMAN PLEDGES AID TO BRITAIN

PHILADELPHIA (AP)—President Truman yesterday pledged Great Britain that the United States would help her in her financial crisis. He laid down a four point program at the American Legion's 51st National Convention. It called for sound expanding economy essential to world peace, and a plan for trying to expand the exchange of goods and services among the nations. They were not looking for any trick solutions in an attempt to solve deep-seated problems.

The President said that the problems could not be solved unless they were dealt with all the time, from time to time. Finally the democratic nations were not proposing to interfere with one another's internal politics.

Czech Plot Is Crushed

PRAGUE (AP)—Czechoslovakia government announced it had crushed an anti-communist underground movement just as the group began preparations to start an armed revolution.

The official press bureau linked the underground with a "certain western Imperialist power" which it did not identify.

The purported plot came after a secret trial where six were condemned to death, ten to life and an unspecified number to lesser terms. Ten were acquitted.

The charges were treason and spying on behalf of a western power "with which they had been in contact."

The government said that the leader of the plot was Dr. Jaroslav Borkovec, brother of the former chief of Prague police criminal investigation department. His brother was ousted when the Communists took over in 1948.

WAWA HARD HIT— Banks Collapse, Railway And Quake-Damage

and Beaches Polluted—Numerous Slides Along the Shoreline
Logging camp of Powell River Co. Ltd. at Inlet, Queen Charlotte Islands, appears to be the worst hit of any place on the coast in earthquake. According to belated reports from Prince Rupert, thousands of dollars damage on the waterfront at Aero by the disturbance.

ALL SET FOR WASHINGTON

LONDON (AP)—The monetary recovery plan for Britain has now been finally approved by the cabinet preparatory to the dollar talks in Washington which are now in the preliminary stages. The proposals, compiled by the treasury foreign office and trade experts, list suggestions to help Britain recover her financial strength and also asks the United States to give more help. The plan will be taken to Washington by Sir Stafford Cripps, chancellor of the Exchequer, and Ernest Bevin, foreign secretary, for financial talks with American and Canadian representatives which assume top-level stature on September 7.

TUNA JUST NOT BITING

The tuna fishing situation is still rather strange. There are great schools of fish. They are jumping all around and the schools are large but the fish are not biting.

In addition to the 9,000 pounds that the Fishermen's Co-operative Association boats caught yesterday the Atlin Fishery report landings of 6,000 pounds. The B. C. Packers have 1,200 pounds to date.

The boats are on the grounds but catches are light and disappointing. The price being paid is down from last year's \$635, the current rate being about \$325. This would be satisfactory if the fish would only bite, but some of the fishermen are considering turning their attention to the codfishing where catches are more assured.

Revolution In Bolivia

General Call-up to Head Off Threat Against Government

LA PAZ, Bolivia, (AP)—Fighting for survival against the Rightist revolt, the government of Bolivia began today to draft all 24 are called up and orders citizens. Reservists between 20 for general mobilization of men between 19 and 50 have been issued.

The call-ups will fight a revolt against the middle of the road government which broke out in scattered sections Saturday and now controls all of Bolivia's major cities except this.

Bolivian air force bombers attacked rebel air field installations again and massed troops against nationalist revolutionaries defying a surrender-or-die ultimatum. The bombers made their second raid in 24 hours at Cochabamba after the first at Santa Cruz.

Tuna Fish Are Bigger

Run Large But Albacore Are Not Biting

The largest number of tuna fish to be landed this year to date totalled 8,000 pounds which eleven boats of the Prince Rupert Fishermen's Co-operative caught off Marble Island. However the feeling is that this may be the total catch.

There are several interesting features of the run this year. The fish are there in great numbers but are not feeding. One boat fished all day apparently in the school all the time, yet caught only two fish. The temperature seems to be suitable.

Another feature is the size of the fish. This year they are averaging nineteen pounds against last year's average of thirteen. The largest one in this catch measured about three feet six inches and weighed thirty-three pounds.

CHEMICALS TO PORT EDWARD

James Griffiths shipping interests of Seattle, whose Canadian subsidiary is the Coastwise Steamship and Barge Co., has landed an important contract in connection with the operation of the Columbia Cellulose Co.'s pulp mill now under construction at Watson Island. It involves the transportation of 15,000 tons of liquid caustic and chlorine chemicals annually from the Hooker chemical plant at Tacoma to the big Port Edward plant, the chemicals to be used in connection with the manufacture of the pulp at Port Edward. The chemicals will be transported north in barges which have been purchased by the Griffiths concern from Canadian Transport Co. of Vancouver. The barges have been used for log carrying and will be fitted with tanks in connection with their conversion for the new purpose.

Auto Court Badly Needed

Former Local Business Man Sees New Look and New Spirit Here

Revisiting Prince Rupert after having left three-and-a-half years ago, J. H. Macey, former local business man, is impressed with the new appearance and new spirit of the city.

"Prince Rupert is certainly on the way now," he observed this morning in looking about and noting the stir and activity on Third Avenue—so unlike the old quiet pre-war days. "I only wish I was a few years younger and I'd be back again myself to stay."

Mr. Macey sees not only an opportunity but a real need for the establishment of auto court facilities here.

"It's a shame to see the motor tourists coming here day after day and being unable to obtain suitable accommodation.

"A well-appointed auto court, it seems to me, is one of the city's most crying needs."

Mr. Macey arrived from Vancouver a few days ago by car. He will be returning south in a few days. Mrs. Macey is accompanying him. Their son, Glen, has been employed during the summer at the celanese mill construction.

NOM DE PLUME
The real name of George Sand, famous French woman novelist, was Armandine Lucile Aurore Dudevant.

NAVY PILOTS CRASH—Still burning after its collision with a similar aircraft at the Toronto suburb of Malton, this Royal Canadian Navy Seafire crashed, killing its pilot, together with the pilot of the other wrecked plane. The two fliers, Lt.-Cmdr. C. G. Watson and Lieut. Charles Elson, both of Toronto, were practicing formation flying for a display at the Canadian National Exhibition when the propeller of one plane chewed off the tail of the other. The planes were based at the naval air station at Dartmouth, N. S. (C. P. Photo)

Whirl of Excitement as Shrine Carnival Opens in Prince Rupert

Hundreds of Prince Rupert youngsters, and many an older too, enjoyed whirling excitement of numerous and ingenious types last night as Henry Meyerhoff's colorful Crescent Shows opened a ten-day stand in Prince Rupert under the auspices of the Prince Rupert Shrine Club. Crescent Shows have been coming into Prince Rupert for many years now but never before has Meyerhoff assembled such a diverse outfit. If opening night may be taken as any criterion, the show is to enjoy a substantial measure of patronage by well-satisfied customers. Incidentally, weather last night could not have been exceeded. Warm and clear, it was ideal fall carnival weather.

To mark the opening of the show, the Prince Rupert Shrine Club Band turned out to participate in a parade which led from the Civic Centre, along Third Avenue and around to the carnival grounds on First Avenue between Sixth and Seventh Streets. Fez-topped local Nobles of the Mystic Shrine participated in the parade. Distribution of the fez caps to the kiddies lent further colorful atmosphere to the scene. It was not long before everybody in Prince Rupert knew this show was on and was aware that it is carnival week again in Prince Rupert.

While the rides are the exciting feature which attract old and young alike, the show is not without other attractions such as the animal tents with their monkeys, rats and mice which intrigue all.

For those who like the usual carnival games there is no lack. These, like the rest of the show, pulled a substantial trade last night.

The dizzy show continues until September 5.

There will be special interest tonight when the Ahmes Shrine Temple party from Oakland, California, which has been making an Alaska cruise on the steamer Chilcotin, visits the show. The visiting Nobles will be met as the steamer arrives by the local Shrine Club and its band as well as by the local Job's Daughters, all taking part in a parade from the dock to the carnival grounds.

The mix is spread at a temperature of 200 degrees and with the thermometer registering 80 degrees, the workmen are having a hot time. Three trucks are hauling the hot mix, a small power roller is rolling it and the rest of the men are doing the necessary raking and smoothing.

The large city grader is doing the preparatory work in filling and levelling.

PILOTED CRASHED PLANE
—Lt. F. J. Rush, D.F.C., of Winnipeg was at the controls of the R.C.A.F. Canso aircraft which crashed 300 miles north of Winnipeg during a flight from Churchill, Man., killing all 21 persons aboard. (C.P. Photo)

Street Work Is Welcomed

Second Avenue Receiving Hard Surface Attention

Taking advantage of the present spell of good weather the city engineering department is making good progress in repairing the streets and the work is receiving general approbation.

Second Avenue is being levelled and graded with the block between McBride Street and First Avenue already finished with black top dressing.

The mix is spread at a temperature of 200 degrees and with the thermometer registering 80 degrees, the workmen are having a hot time. Three trucks are hauling the hot mix, a small power roller is rolling it and the rest of the men are doing the necessary raking and smoothing.

The large city grader is doing the preparatory work in filling and levelling.

Tommy and Bobby Holt, sons of Mr. and Mrs. J. W. Holt, formerly of this city but now at Kamloops, left on their return home on Monday evening's eastbound train. They were working here during the vacation. At Jasper they will meet Mrs. Holt and their sister, Carol, and brother Jimmy, all of whom have been visiting on the prairies.

BIG FIRE IN SOO

SAULT STE. MARIE—Firemen stood by helplessly today as a \$100,000 fire swept through the yards of the Chromium Mining and Smelting Corporation. None were injured. Flames ate power lines, left watermains without pressure and the city without lights and telegraphs.

FIRE IN FRISCO

SAN FRANCISCO—A \$4,000,000 fire swept an entire city block today occupied by a Safeway warehouse valued at \$1,000,000 and containing grocery stocks of \$3,000,000. Thirty-five firemen were injured, six going to hospital.

THE WEATHER

Synopsis
Moist Pacific air entering the southern coastal areas of British Columbia will bring an end to the warm spell of the past several days. Although the interior regions of the province are expecting to enjoy another day of relatively clear skies and somewhat above normal temperatures Cloudiness will spread to the coastal areas and the Lower Mainland during the day. There is some risk of isolated thunderstorms over the Lower Mainland this afternoon and evening. Tomorrow will be cloudy and cooler in the coastal areas with cloudiness spreading to the interior regions in the next 24 to 48 hours

Forecast

North Coast Region—Cloudy over the Queen Charlottes and northern Vancouver Island and clear over the northern mainland. Cloudy over the entire area this afternoon. Cloudy with occasional light rain Wednesday. Winds light except southwesterly (20 m.p.h.) over the exposed areas of the Queen Charlotte. Cooler. Lowes tonight and higher Wednesday—At Port Hardy 52 and 62, Masset 52 and 62, Prince Rupert 50 and 65.

A Worthy Keynote

SOMETIMES President Truman seems to hit a low point in political ineptitude. At other times he seems to reach the heights of broad visioned statesmanship. In his address at Philadelphia yesterday on the international situation he was in the latter heights.

The President spoke with practical frankness when he suggested that to expand the exchange of goods and services among the nations instead of building up trade barriers was not engaging in charitable enterprises but was an essential process in bringing about world peace and prosperity which is as essential to the well-being of the United States as to any of the other nations which are today harassed politically and economically.

United States would do well to forget political bickerings and accept the keynote of the President's speech at Philadelphia.

THE SHOULDER STRAP

IT IS A PLEASURE to welcome back again to the editorial desk "Shoulder Strap," highly interesting official journal of the British Columbia Provincial Police, after a lapse since December 1947 due to the death of the former publisher and editor, A. A. Brookhouse.

One hundred and 22-page volume, the resurrected "Shoulder Strap" is a well produced publication with timely articles and attractive illustrations. Northern and Central British Columbia receive a full modicum of attention among the stories and articles dealing with case histories and police activities.

Editor Alec Merriman and Associate Editors Inspector C. Clark and Sub-Inspector C. Ledoux are to be congratulated on their first effort and we look forward with pleasurable anticipation to the succeeding regular issues of "Shoulder Strap."

SIR HARRY LAUDER

HARRY LAUDER, famous singer and entertainer, was born in Portobello, Scotland, in 1870. His real name was MacLennin. In early life he was employed in flax spinning and coal mining. His stage career began when he joined a party of entertainers touring the British Isles, this including music halls in London.

He became first well known when his Scottish songs composed by himself attracted attention. It was in 1915 when he headed a company of bagpipers out for recruits that Lauder became a highly popular figure in camps, and on platform and stage. His "Roamin' in the Gloamin'" and "I Love a Lassie" were but a few of the favorite songs. After the entrance of the United States in the First Great War he became active in promoting the raising of war relief funds.

His son lost his life when fighting in Flanders in the common cause. He was the author of "Harry Lauder at Home and On Tour" and wrote, also, a Scottish comedy. In 1919 he was knighted, "for empire service rendered during war."

REAL APPRECIATION

AN ELDERLY COUPLE from Southern California describe, in a letter to the News, assistance and courtesies received while motoring along the Skeena Highway. It makes pleasant reading. Sometimes little attentions are longer remembered and are of more real importance than formality. The world is hard boiled in spots. Yet one never knows how far examples of gratuitous kindness can go.

MAKE IT STRAIGHT

REPORTS from Ottawa say the Federal government will introduce legislation in Parliament to enable it to bear half the cost of a TransCanada Highway system. The provinces are to foot the rest of the bill to complete a modern roadway from coast to coast.

Now that it is to be built, let it be a good one, wide, straight, with good grades and well-paved. It is to be used by succeeding generations as well as our own.

There will be much pressure from certain cities in Northern Ontario and the West that the TransCanada Highway run through them. Such pressure groups should be ignored. The shortest, most suitable route should be chosen. It shouldn't have to wander all around just to please certain communities. Provincial feeder lines can connect cities and towns with it. This is a transCanada route to serve the entire country, not a local road to meet local needs.

—Windsor Star.

LOOKING BACK

25 Years Ago

August 30, 1924

Owing to heavy rain second Gilhuly Cup football semi-final between the Great War Veterans and the Sons of England was again postponed.

In the Empress Theatre Professor Takagaki of Vancouver, a jiu-jitsu expert, won in two straight falls over Nels Jepson.

At the Empress Theatre Ernie Warren and Harry Anderson took part in a four-round boxing exhibition.

August 30, 1921

Arrangements for the Board of Trade excursion to Smithers, Telkwa and interior points are nearly completed and it is expected that a special railway coach will be secured.

Coastwise steamer and Barge Company's tug Marmion is at the drydock where she will pick up a scow of coal for Anyox.

Premier John Oliver was elected in Nelson and will there fore continue to lead his party in the House.

D. H. Hartness, principal of Booth Memorial School, returned to the city.

10 Years Ago

August 30, 1939

From 18,000 to 20,000 poles are being driven down the Skeena River by the Hanson Timber and Lumber Co. The Bulkley River drive, which is not so large, has been completed.

A fishing boat owned by Eli Green of Port Simpson was destroyed by fire in Metlakatla Passage following an explosion. Green had been cleaning a gas pipe at the time. Both occupants escaped in the dinghy but lost their possessions.

Seventy-five percent of the general taxes have been collected in the city to date, City Commissioner W. J. Alder announces.

MEDICAL ATTENDANT—One of the 21 victims of the crash of an R.C.A.F. amphibian Canso aircraft in northern Manitoba was Constance Beattie, 24-year-old physiotherapist from Brockville, Ont. who was attending a number of Eskimos being brought to Winnipeg for poliomyelitis treatment. Her eight patients also died in the crash. (C. P. Photo)

Britain Examines Itself, Economic Answer Lies In 17,000,000 Pair of Hands

Necessity of Changing Attitudes and Habits Seen—Government Puts It Up to Workers

By STUART UNDERHILL
(Canadian Press Staff Writer)

LONDON—Britain's future way of life—toward poverty or prosperity—depends largely on the willingness of 17,000,000 pairs of hands. They belong to the working force in trade and industry. Most are connected in some degree with the export program on which the Labor government is staking so much—a program that is falling disappointingly short of fulfillment.

Many factors are involved. One is the price of British products, which some foreign buyers think too high. The government, anticipating the criticism, has been trying for months to lower production costs.

"Use your ingenuity," it has asked British workmen. Co-operate with management in developing techniques that will cut down costs. It is to your own advantage to do so.

In some cases, the Labor ministry reports, response to the appeal has been so enthusiastic that production has jumped 50 percent. But this happens all too seldom.

LAZY AND INDIFFERENT
Is it because the working classes are lazy and indifferent to their country's welfare? Industrial experts who have visited the United States claim that the British workman toils as hard as his American counterpart but lacks mechanical devices to help him.

The Trade Union Congress, which has more than 7,500,000 trade union members, says the reason is more deep-seated.

It suggests that old habits of spinning out work and creating as many jobs as possible, acquired during depression years still have a strong hold. This suspicion and hostility remain the chief obstacles to higher production, the T.U.C. says.

If workers "are still looking back over their shoulders at the slump of 1931-38 and are determined that they will agree to nothing that will modify their working rules . . . clearly full employment will not become a permanent feature of our national economy," it says.

The Labor Party obviously hoped that a "government of the people" would inspire workers with the wartime fervor that kept them at their machines until they dropped exhausted. But it was the post-war inspirational appeals that fell flat.

GETTING OLDER

And You Can't Do A Thing About It
(Tempus Fugit)

I brush my hair, at least every morning and, for my age, I have a good head of hair. My barber assures me of this too and acquaintances whom I meet after years of separation are ready to compliment me on my youthful appearance. But I got a little shock some time ago. I was staying at a strange place and in the bathroom there were two mirrors on opposite walls. As a result I noticed the back of my head. Now it's usually the front of my head that I see and the barish—not bald—spots at the back surprised me. Since then as I see hatless men on the street I don't feel so annoyed. There are others!

Then an acquaintance remarked how, when he had to fill in some particulars for an official form, the clerk remarked "blue eyes, grey hair," and the grey hair reminded him that he was growing old, and showing it! And our waist lines are increasing—perhaps I should do something about it but I do like to eat.

Whether these grumbles will be reflected in the next general election is impossible to say. They are encouraged by Communists and some others opposed to the government, but on the whole working-class solidarity behind Labor seems unshaken. (Continued on page 4)

WINDING UP TOURIST RUN

Prince George and Prince Rupert Have Had Heavy Season

Concluding a busy Alaska tourist season, the Canadian National's new flagship, s.s. Prince George, will be here Thursday morning on her final 10-day tourist voyage to Skagway with 260 passengers from many parts of the continent. Tomorrow morning the company's Prince Rupert will be in port with another large group of tourists making the five-day cruise to Ketchikan and return.

A prominent passenger on s.s. Prince George will be Dr. Rufus E. Von Kleinsmid, Chancellor, University of Southern California. Also on board will be Mr. and Mrs. Lylal W. Holt, of Norwood, Ohio, near Cincinnati, who set out two years ago to "see the world" in a series of summer-time tours. Taking color photos wherever they go, the couple have already covered many parts of this continent and subsequently will tour South America, Africa, Europe and Asia. On her present trip Mrs. Holt, a writer, will be travelling over the territory of the first story she ever sold. Entitled "The Missionary Man and the Eskimo Imp," the story describes a girl's trip from Cincinnati to Alaska and the Yukon.

With this week's voyage, s.s. Prince George will have completed 10 voyages this summer, carrying 2600 passengers to the land of the midnight sun, compared with 2350 last year. This number, augmented by tourists making the shorter voyage to Ketchikan on s.s. Prince Rupert, bring the total of Alaska passengers handled in C.N. ships this season to nearly 4000.

Effective September 12 from Vancouver and September 14 here, the s.s. Prince George will be transferred to the Vancouver - Westview - Ocean Falls-Prince Rupert-Ketchikan run, arriving here each Wednesday morning. She will replace s.s. Prince Rupert which will be withdrawn from service for annual overhaul and inspection.

You Saw It In The News!

Ray Reflects . . . and Reminds

A Russian cruiser, passing quietly up the Danube River, signalled repeatedly to turn back by Yugo Slavia authorities but does nothing of the sort. In other words, the skipper from the bridge, shouts "what are you going to do about it?"

Anyone who has lived long enough in Prince Rupert rarely expects to be invited to pay for making a telephone call when he asks permission to use it. Usually, the instrument is pointed at, and the nod says "help yourself." A resident of Rupert as a rule, becomes used to having no serious lack of light and air on all sides of where he lives. But one can easily miss both in a city of any size.

July was not remarkable for sunshine, but, since then, the note of sourness has been dispelled. August, pellucid August, did it. Wave her a regretful farewell tomorrow. For Prince Rupert has been knowing starlight and moon beams, warmth and the bluest of blue skies.

Curiosity, as to the real cause of earthquakes continues. It's been like that for a week. No one seems to know positively. The ancient Greeks had different ideas. A party named Anaxagoras (who must have given the subject some attention) said they were caused by subterranean clouds bursting into lightning, and shaking the bolts that confined them. He neglected to say anything about dishes rattling in the pantry. Everyone else does.

About the same time, this month, a young Englishman swam the Channel a magazine told how a young Canadian swam from Catalina Island to California, the respective distances being similar, and tough enough. The Canuck made his swim years ago and for a while he had the continent by the tail by defeating all comers. But fame and funds withered away in a welter of lawsuits and other difficulties, and today he earns

Prince Rupert Florists wish to announce that their store will be closed from August 24th to Sept. 13th inclusive.
Mr. and Mrs. Eric Tycho left on last night's train for Burns Lake where Mr. Tycho will be stationed for the next few months with Canadian National Telegraphs.

ON STAGE HE'S A BRAT — Terry Semple, talented 10-year-old London, Ont., actor, cut short his vacation for a chance to join a summer stock company in his hometown. Shown with Laura Lee, leading lady of the Shelton-Amos Players of New York, Terry played Miss Lee's poisonous younger brother in "Kiss and Tell." (C. P. Photo)

Olof Hanson, after spending a few days in the city, returned yesterday by car to Smithers. He was accompanied by D. G. Stenstrom of Columbia Cellulose Co.
Miss Eileen Gibson, daughter of Bishop J. B. Gibson, after spending the summer here at her home, sailed this afternoon on the Camosun for Vancouver enroute to Courtenay, Vancouver Island, where she will take up home economics teaching duties.

A special meeting of the city council has been called for Wednesday afternoon to consider the school loan bylaw, the transfer of school sites to the school board and the sewer loan bylaw.
Rev. and Mrs. H. S. Forbes of Ocean Falls arrived in the city today aboard the United Church mission boat Thomas Crosby with Rev. R. McColl. The party is here to attend the induction of Rev. L. G. Sieber as pastor of First United Church Wednesday night.

Mr. and Mrs. Alex MacKenzie returned to the city at the end of the week after attending the recent international gathering of Job's Daughters in Spokane. Mrs. Simpson is loud in her praises of the fine showing which the group of local girls made against strong opposition in Spokane.
SHEARDOWNS have the 3 V's variety of peaches which are preferred by commercial canners at \$2.65 a crate delivered. Hales and Elbertas will arrive next week at slightly higher prices. Bartlett pears are now available for canning and the price is reasonable.

Loyal S. Dixon, head of a newspaper press erecting concern in Burbank California, was among round trip passengers yesterday aboard the Alaska tourist steamer Princess Kathleen. Mr. Dixon does a large scale world-wide newspaper mechanical business and has erected presses in China and Africa as well as in all parts of North and South America. He was a caller at the Daily News Office.

Mr. and Mrs. J. T. Harvey returned to the city at the end of the week from his summer home at Lake Kalthlyn. Mrs. Harvey and family will be returning at the first of next week.
R. C. MacKenzie of the Powell River Sales Co. Ltd., Vancouver, arrived in the city on this afternoon's plane from the south for a brief business visit. He will return to Vancouver on tomorrow afternoon's plane.

Local Boat Tows Whales
Towing whales to Stephens Bay, near Quatsino Sound, thirty miles to the west of Vancouver Island has been the work of the W. R. Lord, of the B. C. Packers. The ship is at the McLean Shipyards getting its mast repaired after it had been snagged by the upperworks of the Tahsis Chief.

The whales are caught with harpoons that weigh as much as 150 pounds. As a rule one shot is enough but occasionally two are required. The whales measure from sixty to eighty feet long and may weigh as many tons, for a rough way of estimating the weight is to count a ton to the foot. The tow may take several hours as sometimes they take two or even three whales at a time.
Three boats are engaged in the industry, the Nahmint, the Tahsis Chief and the Kimsquit, each with a crew of nine men.

The varieties of whales caught include sperms, humpbacks and humpbacks and one blue whale. The last was a seventy-eight footer. Last season 183 whales were towed into Coal Harbor and this year to date there have been about ninety but the harpooning is continuing.
Coal Harbor was an important naval base during the war and has been much improved and better equipped for the whale processing industry. Torge Rystad, a Prince Rupert man, is the captain of the W. R. Lord and Douglas McGreish, son of Mr. and Mrs. J. McGreish of the city, is mate. Mr. McGreish has quite a fine collection of photographs taken by himself of different activities in the harpooning, towing and flensing stages of the industry.

HOW CAN I ? ? ?
By ANNE ASHLEY

Q. How can I make an astringent lotion?
A. For oily nose or skin use this lotion: Alum 35 grains; rosewater, three ounces; thick almond milk, six drams. Dissolve the alum in the rosewater and pour the mixture slowly into the almond milk, beating it constantly with a silver fork; apply several times daily with a soft cloth.
Q. How can I clean irons?
A. By mixing rottenstone with sweet oil spreading it on a board, and running the iron back and forth until it is bright and clean.
Q. How can I remedy soup that is too salty?
A. When the soup is too salty, add a slice of raw potato, boil it for a short time, and the salty flavor will disappear.

Mrs. J. W. Scott left on Monday evening's train for a visit to Toronto.

40 years trouble ended—Now Regular

"After 40 years of trouble with constipation, I tried KELLOGG'S ALL-BRAN. Now I'm as regular as should be. I take half a cup with milk and fruit twice a day. It's delicious!" writes W. G. Young, 840 Nelson St., Ste. 80, Vancouver, B.C. This is just one of many unsolicited letters from ALL-BRAN users.
Want relief from constipation? Just eat an ounce of toasty crisp ALL-BRAN daily, drink plenty of water. Double your money back if results don't satisfy—send empty carton to Kellogg's, London, Ont.

Funds For Weapons

United States Votes on Line of Policy

WASHINGTON D. C. — Two Senate committees voted today in favor of permitting friendly European countries to build up their own weapons with funds from the proposed \$1,450,000,000 United States arms-aid program.

Chairman Tom Connally, Democrat-Texas, of the foreign relations committee announced that the two groups had voted 111 to 9 to permit the use of some of the huge arms-aid fund to buy tools, equipment and raw

SINGLE BOWLS DRAW IS MADE

The draw for games in the singles bowling championship series has been made as follows:

G. F. Forbes vs. F. Hardy.
John Lawrie vs. Victor Whitling.
C. Dixon vs. Bert Morgan.
W. Barton vs. L. Potterton.
V. Duncan vs. J. Nicoll.
Jack Frew vs. Jock Campbell.
J. S. Irvine vs. W. Terry.
Neil Cameron vs. W. J. Rance.
Bill Reid vs. Bobbie Reid.
Last evening's scheduled final of the doubles competition had to be postponed owing to business calls.

materials in European countries which are members of the North Atlantic Alliance

SPORTS

10 Years Ago

August 30, 1939
Jack Preece's rink defeated Angus MacDonald's rink 13-11 to qualify for the final of the Tip-Top Tailors' Cup in the lawn bowling and will qualify to meet Jack Frew's rink in the final.

George Hill's rink won the city lawn bowling championship by defeating Angus MacDonald's rink 27-16. After being a tie at 16-all the MacDonald rink failed to get another point. Hill's rink previously tied up the league by winning over Dave Borland's rink 18 to 12 and so forcing a play-off game.

Ocean Falls retained the Northern B.C. Football Championship by defeating the Prince Rupert representative team in two matches, 2-0 and 4-2.

PLANNING STRATEGY—Quarterback Johnny Gardiner grips the ball and plots tactics for the 1949 season with four members of the Winnipeg Blue Bombers. The players, left to right, are: Mike Kissell, Harold Neufeld, Gardiner Bill Clawson and Johnny Stroppa. All five are newcomers to the Western Interprovincial Union club this season. Kissell, Gardiner and Clawson rating high among the team's five United States imports. (C. P. Photo)

Thrilling Football as Legion Beats Battery to Enter Final for Trophy

Overtime Required to Settle Issue Last Night

Last evening's semi-final football game of the Stuart Shield provided another thriller with the Legion coming from behind twice to tie the score, then getting the deciding goal three minutes from the end of the second overtime period.

The final score was Canadian Legion 3, Heavy Battery 2, and so the final to be played on Friday evening will be between the Legion and the General Motors.

Morgan flisted away following Eby's good free and Smith's header. D. Gomez broke up an attack and sent his forwards away but Eby checked. Murray tested Morgan with a good cross and Sunberg stopped Veitch. Ferguson cleared twice and then the Battery went a goal up when Darrow Gomez scored with a shot from twenty yards out that Krause handled but was unable to stop. Bremner drove three fine shots in but the Battery defence cleared. Play was always interesting with Armstrong, Baxter and Bowman good but ineffective at close quarters. Veitch and Ward were foiled by Eby. Morgan saved from Armstrong following Baxter's centre. Then Murray centred well for Armstrong to head the ball to Smith who beat Morgan with his header to tie the score. Darrow Gomez was stopped by Eby and then Ferguson and Dunbar did well. Parkhouse was good but Vuckovich failed. Mazzone's high dropping shot went over.

Ferguson headed away a dangerous centre and Veitch lobbed over Bremner, Baxter, Bowman and Smith combined and Morgan had to run out to punch away. Legion pressed but Battery got away and a long, low shot from Veitch found the corner of the goal to beat Krause and put the

Battery ahead. F. Gomez stopped Armstrong. The Battery defence was giving no quarter. Krause saved at the upright. Morgan saved from Armstrong and Krause from Darrow Gomez. Vuckovich forced a corner. Yelland, Armstrong and Murray were neat. Dunbar was winded by a heavy drive but pluckily kept on playing effectively. Eby fed Armstrong who interchanged passes with Murray and then capped it with a splendid drive to equalize the score. Veitch was through after Darrow Gomez, Ward and W. Gomez made the opening but he missed a great chance. Then Smith was clean through, picked his spot and drove in a hard shot but Morgan brought off a sensational save that brought the spectators to their feet. Krause saved Vuckovich's centre. Both defences were sound but Legion was lucky when a bouncing ball hit an obstruction and then bounced high over Krause's head only to hit the crossbar and then Krause cleared. Ward crossed dangerously and Mazzone took a good free. Ward's first timer skimmed the bar but regulation time found the scores tied.

OVERTIME
The first period of overtime found the Battery hemmed within their lines with Sunberg driving them back on their only foray into the Legion half. Morgan was good and saved repeatedly while Dunbar, Ferguson, Darrow and Frank Gomez defended stubbornly. In a break-away Krause was lucky that when he ran out to kick clear, the ball rebounded wide of the goal. Veitch missed a rare chance.

In the second period of overtime Battery had more of the play but Legion was more dangerous. A penalty against Ferguson seemed to be the turning point but Armstrong topped the bar. Sunberg was good. Smith clinched the game when he converted one of Baxter's centres with three minutes left. Battery

FOOTBALL SHORTS

Krause was fair in goal. Eby and Sunberg were a grand pair of backs and gave nothing away. Yelland, Greer and Bremner were effective without being spectacular. It was Bremner's best game. Armstrong was the playmaker again with Baxter always fast, resourceful and dangerous. Murray was also good. Bowman was not up to the rest of the line though neat. Smith was always a dangerous bustling centre and got two goals.

Morgan gave a great display in goal. Dunbar and Ferguson were strong defenders against a good forward line. Darrow Gomez again got a goal and was always in the thick both defensively and aggressively. Mazzone was very good and Frank Gomez gave a strong display. The forwards failed to click effectively. Parkhouse made good runs and Ward centred well. W. Gomez tried hard. Veitch got a goal and worked hard but is not an effective centre-forward.

The biggest thrill—Morgan's great save from Smith.

The biggest piece of luck—The bouncing ball that beat Krause but hit the crossbar.

The biggest laugh—Jimmie Kelly's remark: "What's so lucky about it? That's what the crossbar is for."

fought hard and the final whistle found Krause saving.

Canadian Legion 3, Heavy Battery 2.

Teams:
Canadian Legion — Krause; Sunberg, Eby, Bremner, Yelland, Greer, Baxter, Bowman, Smith, Armstrong, Murray.
Heavy Battery — Morgan; Dunbar, Ferguson, Mazzone, Darrow Gomez, Frank Gomez, Vuckovich, Parkhouse, Veitch, W. Gomez, Ward.

Referee—S. P. Woodside.
Linesmen—Halverson, Karasosky.

NEW RIDERS—Two newcomers who hope to help Ottawa Rough Riders to the Dominion football title they just missed last year are Andy Gordon left and Ray Skerrett. Gordon counted on for the first-string quarterback's berth, played for Villanova College in Pennsylvania last season. Skerrett, a speedy young backfielder from Montreal, is the only Negro on the team. (P. Photo)

Seasonable Ideas for Housekeepers

**CREAMED DISHES DELIGHTFUL
ON WARM DAYS, CONSIDER PEAS**

Penny-wise hints for home-makers are eagerly sought when warm weather comes and appetites lag. The menu is confronted with the extra problem of providing meals that are substantial and still have the air of being light and delicate. When pennies must be considered, difficulties increase and complicate the picture.

Home economists suggest scalloped and creamed dishes to meet the need. The sauce, made with milk, is a light and excellent food for the whole family.

Peas, fresh and canned, are delicious when combined with other foods.

If peas or other canned vegetables are to be served hot, as a vegetable, the flavor will be improved if they are drained, the liquid boiled in an open saucepan until reduced to about half quantity, then the vegetables added and cooked just long enough to be well heated. The liquid contains some of the food value and should never be thrown away.

Here are several recipes worth trying for luncheon.

Creole Peas

2 tablespoons fat
¼ cup chopped onion
3 tablespoons flour
½ cup canned tomatoes or tomato juice
¼ teaspoon salt
½ teaspoon pepper
½ teaspoon curry powder
1 20-oz. can peas.
Melt fat, add onion and cook until clear but not browned. Stir in flour and blend well. Add tomato juice or canned tomatoes, salt, pepper and curry powder. Stir until thickened, and liquid from peas and continue stirring until smooth and well blended. Add peas, bring to boil and serve on toast. Yield: six servings.

Peas with Cheese

1 20-oz. can peas
1 cup grated cheese
3 tablespoons fat
6 slices buttered toast
3 slices crisp bacon.
Cook peas in their liquid until the liquid is reduced to ½ quantity. Add cheese and fat and cook slowly until cheese is melted. Serve on toast, garnished with crisp bacon. Yield: six servings.

Scalloped Peas with Eggs
1 20-oz. can peas
1 cup milk
3 tablespoons butter
5 tablespoons flour
1 teaspoon spicy meat sauce
3 hard-cooked eggs
½ cup soft bread crumbs

Drain liquid from peas, add milk to liquid and heat. Melt butter, add flour and blend well. Slowly add hot liquid, stirring constantly until thickened, then add spicy meat sauce. Slice eggs and combine with peas and sauce, pour into a greased casserole. Top with crumbs and bake in a moderately hot oven, 375 degrees F, for 15 minutes. Yield: six servings.

TO QUARRY LIME FOR CELLULOSE

Another new industrial development in the north coast area auxiliary to the operation of the Columbia Cellulose plant at nearby Watson Island will be the opening up of a lime quarry on Aristable Island off Princess Royal Island, to the south of Prince Rupert. F. J. Beale of Vancouver, who operates a lime quarry near Bella Bella for Pacific Mills, is opening up the new quarry. The limestone will be transported in sewms from Aristable Island to Prince Rupert.

U.S. Aid For Marshal Tito

**Certain of Getting Assistance
Providing He Stays Alive**

WASHINGTON D. C. — Marshal Tito is considered to be virtually a cinch to get the United States government loan of \$25,000,000 which he has applied for, providing he stays alive and independent from Moscow.

Top government officials say that Secretary of State Dean Acheson's strong support for the application clearly fore shadows a favorable verdict. He and Yugoslav Ambassador Cavendish Cannon have urged them to do it quickly.

Tito needs the loan to help weather an economic blockade which is now threatening to strangle the country as Soviet Russia draws its ring about it. New charges were made today by Moscow against Tito charging him with falsehood and calumny against the Soviet.

Yugoslavia formally applied for the export-import bank for an American loan, it was disclosed yesterday by government officials. This marks the first time that Tito has appealed direct to the United States for financial help since he split with Moscow fifteen months ago.

Acheson was understood to be strongly supporting the Yugoslav request as a means of helping Tito to combat the tight economic blockade imposed by Russia and her satellites. Officials said yesterday that the Yugoslav government wants around \$25,000,000 to buy American mining machinery, and equipment for lead, copper and zinc mines.

RIVERSIDE IS SHIPPING AGAIN

Relaxation until June 30 next of the Jones Act, as made effective a few days ago by signature of President Truman of the United States, permitted the Canadian coastal liner Camosun in port today southbound to Vancouver, to load fifty ton of tungsten concentrates from the Riverside mine on the Aleskan side of the Salmon River valley and take them to Vancouver where they will be transhipped to refinery at Bradley, Ohio.

After suspension of shipments for a year, they are now being resumed and J. H. Scott, managing director of Riverside who was in the city at the first of the week bound from San Francisco to the mine, said that it was expected to make regular weekly shipments.

The Riverside mine went into production again recently.

How to Make ICED TEA

Make tea double strength and while still hot pour into glasses filled with cracked ice... Add sugar and lemon to taste.

"SALADA"

Large Road Job Awarded

**\$278,583 to Get Under
Way Here Shortly**

Wood, Parr & McClay Ltd., Vancouver contractors, have been awarded the contract for reconstruction and widening of the northern transprovincial highway from Prince Rupert city limits to Galloway Rapids bridge at a figure of \$278,583.30. Expectation is that the work will soon be under way although no definite word has yet been received at local public works offices.

The job includes complete reconstruction for 8-10 of a mile immediately beyond the city limits and extensive straightening out and widening beyond.

There will be a standard 24-foot width.

Modern Etiquette

Q. Is it customary for a woman to take the arm of a man while walking along the street?

A. To an elderly woman or to an invalid a man offers his arm. Otherwise, a woman no longer takes a man's arm in the daytime unless to cross a very crowded street, or to be helped over a particularly rough piece of road.

Q. When a person helps himself from a service dish which is accompanied by a fork and spoon, which implement is taken in the right hand?

A. The fork is held in the left hand, the spoon in the right.

Q. Is the priest or rector given a fee for the christening?

A. It is customary, according to the means of the parents. None is absolutely required.

How many things made of aluminum can you see in a kitchen?

"Well," you say, "it depends on the kitchen."
Right! The more modern the kitchen, the more aluminum you will see. For aluminum is the modern metal. It has so many advantages. It is light, strong, good-looking, will not rust. No wonder more and more people want more and more things made of it.
Not only things for the kitchen. In fact, more than 1,000 Canadian

firms are shaping aluminum into products as big as railway cars, as small as hair curlers.
All this means a lot of work for Canadians. There are 15,000 people on the Alcan payroll. Then, too, there are all the fifty-odd thousand and-one aluminum articles which you see in the stores.
Yes, aluminum means a lot to you and to Canada!

ALUMINUM COMPANY OF CANADA, LTD.

MEALS IN AIR—This pretty hostess, thousands of feet up in a modern airliner, has the knack of serving delicious meals at a moment's notice. Anything from chicken a la maryland to filet mignon is prepared on the ground, by expert chefs, sealed in aluminum foil, deep-frozen and reheated aloft.

OFFICIAL HEAT IS 78 DEGREES

In spite of what citizens may have felt or thought the official thermometer yesterday recorded a maximum of 78 degrees. This

equals the highest recorded official record of 1947 when the mercury reached the same height but is still well behind last year's maximum of 83.8. Forecast for today indicates a continuance of the warm weather although light clouds were moving into the sky this morning.

SHIPS and WATERFRONT

On the pontoons at the local dry dock is the motor vessel Squamish Queen for repairs to propeller and steering gear following a stranding last week on a reef at Inverness cannery in the Skeena slough. The Squamish Queen, being operated under charter to J. H. Todd & Son, was coming into Inverness to load empty cans for delivery to Kientu when she ran over the reef. It is expected she will be ready to leave on Thursday.

Motorship Sydney, Capt. Osmond Henderson, arrived from Ketchikan with a shipment of four carloads of frozen fish for eastern points, and the M.V. Dagney, Captain Joe Burdette, had a cargo of canned salmon also from Ketchikan.

MINISTER IS BUYING HOME

OTTAWA—The Minister of Transport, Hon. Lionel Chevrier, has bought a home in this city. It is costing the Liberal member for Stormont, Dundas and Gengarry, \$30,000 and his wife and six children will move in in September.

RETURNS TO WORK—Cynthia Norton, back at her work as a telephone operator at Terrace, after the thrills of representing this district as "Miss Prince Rupert" at the "Miss P.N.E." contest in Vancouver.

HOW LIQUOR IS SELLING

Prices Seem to Be Varying, Police Court Hears

Magistrate W. D. Vance was busy in the city police court yesterday dealing with a number of cases mainly intoxication affecting white and natives who had been indulging unwisely over the week-end. Apparently the price of whisky as sold to various thirsty souls varies as one said he paid \$11 to an unknown white man for a bottle while others obtained theirs for \$5. The police are intent on arresting the salesman but, as a rule, the accused cannot or will not remember what the seller looked like.

Percy Alexander was fined \$25 and costs or one month for intoxication, Mickey Dolan for drunkenness \$10 and costs or seven days. Dora Johnson, for failing to appear as instructed on August 3, had her bail estreated and was fined \$10 and costs or seven days, for intoxication. Susie Jimmie, chambermaid, was fined \$10 and costs or seven days and was given a warning. Margaret Pete was fined \$10 and costs.

Jack Nyce paid \$3.00 for his bottle and was fined \$10 and costs; Leonard Wesley paid \$5 for his bottle and was fined \$10 and costs or seven days.

Cyprian Nisyok for intoxication and resisting arrest was fined \$10. His party had been in the open air. James Devlin pleaded guilty to intoxication and was fined \$10 and costs or seven days as was Eric Florens. Joseph V. Benson and John Robinson were each fined \$10 and costs or seven days for intoxication in a public place.

The case of Claude Dionne, a recent arrival from Quebec, brought strong condemnation from Magistrate Vance and a warning that the police were to be treated with respect and the laws of the province to be obeyed. The accused was charged with intoxication and using insulting and abusive language to the police. He was fined \$20 and costs or fourteen days.

In the case of Joseph Chart-rand, who had been previously ordered to leave the city and whose conduct and associations around the suspicions of the police, Magistrate Vance reserved sentence until Wednesday.

Lorne Dempsey on a third conviction of intoxication was sentenced to thirty days. Robert Pallen was fined \$10 and costs or seven days.

In the case of a juvenile native charged with intoxication Magistrate Vance gave the lad words of warning and sound advice and released him as it was his first offence.

BRITAIN EXAMINES

(Continued from Page 2)
Some economists have argued that British industry would function better if there were wider unemployment (the ranks of the jobless are stationary at around 300,000).
No government spokesman has associated himself with the theory, which only inflames the suspicion of the working classes and upsets the government's claim that the old workless days are gone forever.

Save 4WAYS

1. FACTORY-TRAINED SERVICE-MEN know your car or truck best.
2. FACTORY-APPROVED EQUIPMENT is specially designed to save you time and money in servicing your car or truck.
3. FACTORY-APPROVED METHODS are just right to do every job at lowest cost.
4. GENUINE FORD PARTS last longer, because they are made right, to fit right.

We know your Ford of Canada car or truck best and have "what it takes" to give the best service at the lowest cost. It will pay you to drive in today.
