### Flying Glass Injures Eyes

Local Woman Being Flown To Vancouver Today

A local woman today is being flown to Vancouver for treatment for her eyes which were severely cut last night by flying glass when a man drove his fist through a door of a cafe she was about to leave.

The man had previously been asked by the cafe proprietor to leave the establishment. The proprietor walked with him to the door where the man struck him. When the proprietor took him to the sidewalk, the man again struck him, knocked him to the ground. By this time a patron of the cafe came out, pulled off the man who had been ejected and started him on his way down the street. The patron was struck on the eye but again turned the man loose and re-entered the cafe.

At about this time the woman started to take her departure from the cafe and was struck by the shower of glass. The man had apparently gone a short distance down the street and returned to the cafe and smashed the window.

The woman was rushed to Prince Rupert General Hospital, where the attending surgeon found her condition critical and made arrangements to get her to Vancouver General Hospital as quickly as possible for treatment by specialists.

Name of the man was being held by police pending investigation. Other names have been withheld by request.

### Crash Could Have Caused Election

LONDON — There might have been an immediate general election in Britain if an automobile accident today had had more serious results. Four Labor M.P.'s were riding in a car which crashed into a railing. None was seriously hurt.

With the critical vote in Parliament on the nationalization of steel and iron impending, one Labor member, who is to undergo an operation tomorrow, was brought to the House in an ambulance today.

### Foreign Ministers Would End State of War with Germany

FRANKFURT, Germany (CP)—Great Britain, the United States and France joined today in a warning to Russia to keep hands off Western Germany. The three powers moved to end their state of war with Germany industrially and defensively but announced there was no call for recreating a national army in the western zones.

The ministers, in their New York session, also decided to:

1. Permit establishment of mobile police formations organized on land (state) basis but with a provision which would enable the federal (West German) government to make effective use of all or part of this force in order to fully meet the exigencies of the present situation.

2. Review present prohibitions and limitations on German industries.

3. Remove immediately all restrictions on size, speed and number of commercial cargo ships built for export.

4. Permit steel to be produced beyond the present limits laid down by the Allies wherever such increased production would "facilitate defence effort of the west."

5. Permit western Germany to set up a ministry of foreign affairs to handle its own foreign relations now handled by the Allies.

The ministers ruled out any idea of rebuilding the German army outside the framework of common European defence. They said:

"The ministers are fully agreed that recreation of a German national army would not serve in the best interests of Germany or Europe."

### Boosters For Weather Here

It took a stranger to tell Prince Rupert all about its good climate. The trouble is it started raining shortly after his train left and continued to rain all during the following morning.

Yesterday the Daily News ran a story telling of H. J. Wyatt's satisfaction during his five week stay here. According to his count (and he did keep count) there were only six rainy days out of the 34 he spent in Prince Rupert. Possibly for his benefit the weatherman held off the rain that has been threatening since before the week-end until after his departure on last night's train.

But no matter how one looks at it, there has been a fine spell of weather in Prince Rupert and the story will be carried from Canada's westernmost port to its easternmost port of St. John's, Newfoundland. What happens after the visitor's departure will not change his report of his stay here.

### Attack Upon Canada Across Arctic Considered Unlikely

NEW YORK (CP)—An attack over the Arctic regions upon Canada is not now considered likely, Lester B. Pearson, minister of external affairs, said yesterday. Not many years ago such an attack had been considered a real possibility.

Mr. Pearson said last night that the government was not so worked up about the possibility as it was several years ago.

Questioned by United Nations correspondents, Mr. Pearson was asked about the scorched earth plan to put air bases along Canada's Arctic border. He replied that his talks with military men gave him the impression that attack over the Arctic was not now considered likely.

He said that these opinions were, apparently, based on the scale of attack that would be necessary for such an operation.

### Phoenix Hit By Big Storm

PHOENIX, Arizona (CP)—A violent wind, hail and rain storm caused damage of \$1,000,000 here late Monday. More than 400 airplanes were damaged, fifty families were left homeless and forty small frame houses were destroyed.

### New Power Plant Ready Soon

Northern B.C. Installation At Dry Dock

The generators of the new Northern British Columbia Power Co. Ltd. diesel auxiliary power plant being installed in the power house at the local dry dock should be ready to turn in November, according to General Manager T. B. Black of the company. It had been hoped, Mr. Black said, to have the plant ready by the end of October but two or three weeks were lost due to disruption of supply services to the manufacturers.

When installed, the new plant and the steam plant now in operation are expected to produce 25 per cent more power than present peak loads. That would leave a good margin of safety even if both hydro plants were out of commission. The 24 hour capacity of the new plant is rated at 2,500 kilowatts.

One cement foundation is already poured ready to receive its diesel unit. Another is expected to be poured next week and one the following week. All diesel units are on their way here, Mr. Black said. Switchboard equipment, generators and exciters are expected about the end of this month.

### Quit Trading With Russia

NEW YORK—William Green, president of the American Federation of Labor, suggested yesterday at the annual convention that the United States should suspend trading with Russia. To do so was merely playing into the hands of the Soviet Communists and was like sending scrap iron to Japan before the last war.

### Vishinsky Talks Peace

NEW YORK—Andre Vishinsky arrived today to attend the General Assembly of the United Nations. He declared the intention of his country to work to strengthen peace and co-operation among the nations.

### Sentenced For Trying Murder

SANTA MONICA, Cal. (CP)—John H. Grant, aged 32, convicted of attempting to murder his wife and two children and three other persons by placing a gas-line bomb aboard an air liner, was sentenced yesterday to from one to twenty years in prison. The bomb went off prematurely at the airport and none was injured.

Tonight's train, due from the East at 11:15, is reported to be two hours late.

### BASEBALL SCORES

American  
Boston 3, Detroit 2  
National  
Chicago 9, Brooklyn 7  
St. Louis 0, New York 13  
No Pacific Coast League games scheduled.

### Communists Take Outpost

HANOI, Indo-China (CP)—Communist-led Vietnam troops have captured the French outpost of Dongkhe, 100 miles northeast of here, French sources said last night.

Several battalions of Vietnam forces, numbering about 2,500 men, attacked the outpost Saturday.

Almost simultaneously French and Vietnam police smashed what they considered to be a Red plot to launch a general attack inside the capital city of Saigon.

These Communist moves indicate the possibility of a new crisis developing in this sector of the Asiatic front.

### Nfld. Industries Seize Initiative

ST. JOHN'S Nfld. (CP)—Newfoundland's industries, on the defensive when union with Canada brought an influx of salesmen from the mainland peddling their wares, are now hitting back. Some of the island province's secondary industries find they can hold their own at home and do all right when invading the other fellow's territory.

The Colonial Cordage Company of St. John's recently received an order from the "mainland" for 30,000 pounds of rope. A biscuit company, Brown-Harvey, Ltd., has established a warehouse at Halifax.

The United Nail and Foundry Co. Ltd. has gone further. Recently the firm purchased a foundry in Cape Breton.

Several Newfoundland industries, however, claim their location off the beaten track is against them. The Associated Newfoundland Industries, Ltd., claims freight rates in the province are higher than on the mainland, particularly in the maritimes, which means an unfair advantage for Newfoundland's competitors.

### Liquor Prices In B.C. Increasing

VICTORIA — W. F. Kennedy, chairman of the Liquor Control Board, is working on a schedule of price increases for this province.

Manufacturers are passing on to consumers the new taxes on liquor under the defence budget, Mr. Kennedy announced.

Two are Dead—

### Bowen Island Plane Crash

VANCOUVER—The pilot of a British Columbia Airways plane was killed instantly and a passenger is missing and believed dead in a crash near Bowen Island yesterday. The plane was on flight from Vancouver to Stillwater logging camp. Two other passengers were slightly injured. The mishap is believed to have been as a result of fog.

A treacherous blanket of fog closed in on the chartered plane and caused it to crash into a wall of rock when the pilot attempted an emergency landing.

The bodies of the pilot, Allan M. Beach, aged 22, and one of the three passengers, N. J. Lebars, about 38, were expected to be retrieved today from the waters off Bowen Island, 15 miles northwest of here.

Shaken up by otherwise unharmed were Gerald A. Brennan, 37, and Edward Sonne, 21. Brennan, thrown clear by the impact, pulled his companion from the plane.

"I saw the wall of rock right smack in front of us," said Brennan. "The next thing I knew I was in the water."

### Average Life Span 67 Years

EDMONTON—Dr. Norman Goss, President of the Canadian Medical Association, told the annual meeting of the Association here yesterday that, due to the great advances in medical science, man's life expectancy had been increased by thirty-three years. A few years ago the average man could expect to live for 34 years. Today he had a reasonable chance of living to 67 years.

### Floridan Wins St. Louis Title

ST. LOUIS (CP)—Cary Middlecoff of Ormond Beach, Florida, won the \$15,000 St. Louis open golf championship yesterday in a sudden death play-off with Ed (Porky) Oliver of Seattle. Middlecoff snatched the title on the second extra hole with a birdie three.

GETS U.N. COMMAND — Capt. Jeffrey V. Brock, D.S.C., commander of the three Canadian destroyers which helped cover the United Nations amphibious landing in Korea, has been appointed to take charge of a United Nations task force. He is seen checking enemy installations on a chart. Shown with him on the bridge, in this R.C.N. photo, are Lt.-Cmdr. Lee, centre, and Lieut. W. Kim, right, both of the South Korean Navy. Lieut. Kim is attached to the Cayuga as liaison officer. (CP Photo)

### COMMIES STILL FALLING BACK—

### Waegwan Falls to American Forces in Southeast Korea

TOKYO (CP)—American forces today captured Waegwan, North Korean strong-point in Southeast Korea on the main road leading back to Seoul. The Reds appeared to be withdrawing all along the perimeter of the Allied beachhead defence box. Red columns are pulling out of the long besieged Taegu-Waegwan area and may be racing northward to defend Seoul.

U.S. Marines are battling there at the gate of the 500-year-old Korean capital, 140 miles north of Waegwan. The U.S. Marines leading the 40,000 Allied liberation force from Inchon port still has to cross the half mile wide Han River to enter Seoul.

A South Korean division entered Pohang port after the battleship Missouri's big guns pounded the Reds in the bitterly

A special general meeting of the Canadian Legion last night approved the executive's appointment of William Murray as secretary-manager of the branch and Club 27.

### THE WEATHER

#### Synopsis

Rain and southeast winds of gale force were occurring along the northern British Columbia coast this morning as another in the series of Pacific storms sweeps in from the Gulf of Alaska. This storm is not expected to have any effect on the southern sections of the province but will cause cloudiness and showers over the northern and central interior as it continues to move eastward.

Fresh winds in the vicinity of Georgia Strait kept this section relatively free from fog during the night. Along the west coast of Vancouver Island the fog has lifted to form low cloud and some light rain has fallen during the night over the northern part of this region.

#### Forecasts

North coast region — Gale warnings issued. Intermittent rain this morning. Cloudy this afternoon, tonight and Wednesday with showers until Wednesday morning. Little change in temperature. Winds southeast (25) occasionally reaching gale force over exposed water this morning, decreasing to southerly 20 by this afternoon. Lows tonight and highs tomorrow at Port Hardy, Sandspit and Prince Rupert, 50 and 58.

## Mental Bullying

THE difficulty often about argument or well intended criticism relative to the actions of such people as government heads, politicians, labor leaders or the like is that one who engages in such argument or criticism is at once accused of being antagonistic.

So it is that the more vocal spirits in many movements and organizations are able to intimidate or talk down the more quiet and submissive by making them think that any variance of opinion represents disloyalty, lack of understanding or some such condition.

Too often the rank and file will accept a view or a cause not because they believe in its righteousness but for fear of a challenge of loyalty, popularity or even intelligence. Too often it may not be a case of agreement but unresisting acceptance.

Possibly the sober and unassuming person in a world that cries for leadership and too seldom gets the right type fails to express, much less act upon, his own opinion. Every opinion in a democracy should be made to count but, unfortunately, that is seldom the case. Is it just a case of lack of interest, laissez-faire or plain inability to express one's individual convictions?

## THAT APPEAL FOR PEACE

It is one of the easiest things in the world to get the average person to sign a petition for what appears to be a good cause and what better cause could there be in these days than the preservation of world peace? It is therefore not surprising that 87 Canadian clergymen have put their signatures to the Peace Petition circulated by the Canadian Peace Congress. The wonder is that so few signed it, for there are some five thousand clergymen in Canada. One of those who signed the petition was no less a personage than the Rev. A. J. Wilson, D.D., editor of The United Church Observer, the official organ of that denomination. But he has since come to regret it, and has made an open confession of his mistake in a letter to the Montreal Gazette, which he has reproduced in an editorial in the Observer.

Dr. Wilson says he signed the petition in good faith, as its statement was "one to which any peace lover might honestly subscribe." "However," he continues, "a day or two after I signed it, to my consternation, my picture was published under a six-column banner heading in the Toronto Communist paper, The Canadian Tribune. This demonstrated a close tie-up between the sponsors of the petition and the Communists. . . Had I known of the tie-up between the petitioners and the Communists. . . I would certainly have had nothing whatever to do with it." Dr. Wilson concludes by warning "ministers and members of the Church what they may expect if their passion for peace should lead them, as it led us, to sign the peace petition, which is being widely circulated and has come to be known as the 'Stockholm Appeal'."

# Victoria Report

... by J. K. Nesbitt

## Conservative Fight is on for Fair—Government House to Glitter Again

By JIM NESBITT

VICTORIA.—The fight is on for Tory leadership between Chieftain Herb Anscomb and W. A. C. Bennett, M.L.A. for South Okanagan.

After hearing Bennett speak here the other day there's no doubt in my mind that he hopes to unseat Anscomb at the Conservative convention in Vancouver next month.

Bennett didn't mention Anscomb by name but you could see he was blaming the leader because the Tories lost seats in the general election of 1949.

I'd say that Bennett will bid for B.C. Tory leadership on a platform that includes a "don't let the Liberals fool us any more" plank.

Bennett fears Anscomb, when election time comes again, might once more go for the old Hart formula—Liberal Coalitionists in Liberal ridings, Conservative Coalitionists in Conservative ridings. Mr. Bennett says, and rightly so, that Tories won't get anywhere that way, especially now that there are enough Liberals in the House to run the government on their own, without any Tory help.

As "Duff" Pattullo would say, the Tories are ham-strung and hog tied. Bennett and his crowd don't like it and want to bolt; Anscomb and his crowd tolerate it, hoping for some miracle.

Anscomb is meeting with more opposition than at first seemed possible. So strong a rank-and-filer as Ald. Waldo Skillings of Victoria is against the chief. He said at a Bennett meeting here that there's no longer a Conservative party in B.C., only an Anscomb party.

When Bennett is introduced to his audience by an admirer his life and works are recited from cradle to the present moment. But never mentioned is the flop he did 1948—when he resigned his South Okanagan seat in the Legislature to run in the Yale Federal by-election to be defeated by Owen Jones of the C.C.F.

When Anscomb's introduced by an admirer it's never mentioned he first got into the legislature in 1933 as an Independent. Even so staunch a Tory as he wouldn't run as a Conservative, because the Tories were down and out, after the five-year Tolmie debacle.

So, all in all, it's easy to see there's going to be a mighty interesting tussle at next month's convention, with lots of mud-slinging and plenty of plotting in smoke-filled hotel bedrooms.

Old time brilliance will be restored to Government House when Clarence Wallace and his wife move in early in October.

Plans are afoot to double the staff, which means there's going to be plenty of entertaining. It's not easy to get expert help these days, so Victoria and Vancouver are being combed for cooks and maids. Under the Wallaces, Government House will have a housekeeper, three cooks, five maids, a butler, a valet, a lady's maid, a chauffeur (there'll be three limousines), a social secretary. Most of the servants are paid for personally by the lieutenant-governor. The government pays the housekeeper, the office staff and the gardeners.

The Wallace regime is expected to be as brilliant as that of the Hambers (1935-51). Hon. and Mrs. W. C. Woodward, while they entertained a great deal, had to face wartime restrictions. Hon. and Mrs. C. A. Banks have preferred to live as quietly as possible.

## 10 Years Ago

September 19, 1940

Miss Mae Murray of the City Hall staff returned to the city on the Prince Rupert yesterday from a vacation trip to Vancouver.

At a special meeting called yesterday afternoon, members of the hospital board said official farewell to Matron Mrs. R. H. Bedford (formerly Miss Jean Harrison) who is leaving after 15 years of service.

## 25 Years Ago

September 19, 1925

A geodetic survey of Prince Rupert harbor by the government steamer Lillooet has been going on for the past few days.

A meeting in the City Hall last evening to organize a series of billiard matches elected the following officers: Honorary Pres.—John Bulzer; Honorary Vice-President—Olier Besner; President—Richard Howe; Vice-President—Bert Morgan; Secretary-Treasurer—Joseph F. Hutchinson.

## TRIPLET CALVES

OXBOW, Sask. — Six calves in three years is the enviable record of a Shorthorn-Herford cross cow. In 1948, when she was 13, she gave birth to twins. This year she outdid herself and produced triplets. The all-male trio average 25 pounds and are doing well.

CHAMBER VICE-PRESIDENT — Homer Zwicker of Lunenburg, N.S., was elected national vice-president of the Canadian Chamber of Commerce at the annual meeting at Banff, Alta. This position normally leads to the presidency the following year. Of United Empire Loyalist stock, Mr. Zwicker was born at Cambridge, Mass., in 1894. He is general manager and secretary of Zwicker and Company, Ltd. (CP Photo)

## By ELMORE PHILPOTT WHO'S WOOLY-HEADED?

My wife has just come home from the store with the news that the wool she uses for knitting has gone up twenty percent!

She got a smile out of the explanation by the clerk: "The Russians are buying it all."

Russians are to blame for many things. But the high price of wool is hardly one of them.

Readers will recall that, starting in 1946, I exposed in this column one of the greatest hold-ups in all history—that is the price boosting arrangement whereby wool prices were hoisted to the highest point in history at the very time when the law of supply and demand should have brought prices tumbling down.

THE STORY is there for anyone to see in any good library. (Refer for instance to Encyclopedia Britannica year 1945-1950, books.) For perfectly legitimate reasons Britain purchased the entire war time wool clips of Australia, New Zealand and South Africa. When the war ended these four interested countries set up an agency to thwart normal working of the

law of supply and demand. They called this agency "Joint Organization" or JO for short. The name was certainly apt, for the consumers of the world most certainly got joed.

The technique was simple. At all the big wool auctions JO's men were on the job. They opened the bidding. No wool was sold except at a level above their floor price—which was not a fixed level, but jacked up from time to time on the basis of what the traffic would bear.

THE WORLD SURPLUS OF wool at the end of Hitler's war was equivalent to twenty years' normal international trade in wool. But so successful was this JO policy of feeding wool into world markets through a bottleneck that prices never did fall, but increased.

The entire 20 years' surplus was sold off in five years. Here is what the 1950 Encyclopedia Year Book says, page 738:

In addition to disposing of most of the 1949 clips, the United Kingdom—Dominion Wool Disposals Limited reported that its stocks were about 450,000,000 lbs. less than on June 30, 1948, leaving only 300,000,000 lbs. to be sold out of an original (1945) total of 3,000,000,000 lbs.

NOW COMES the pay-off and the question: Who's woolly-headed? With the armament race in full play all the nations are

## They discovered Aluminum!

### AN "INSIDE STORY"

**1900**—It wasn't only Grandma's cooking that drew the crowds. She had the first aluminum saucepan in town! In many other Canadian homes, too, this was the beginning of a bright, new era of better cooking utensils.

**1925**—When mother got married, she already knew how to enjoy life with aluminum. She brewed Dad's coffee in an aluminum pot... cooked those big family meals more easily in quick, even-heating aluminum.

**1950**—Today, daughter's kitchen belongs to the "aluminum age". She enjoys a larger selection of aluminum utensils. This "food-friendly" metal also protects the flavour, quality and purity of the foods she buys.

**HINTS TO THE HOUSEWIFE**

Whenever you see aluminum on the label of a food or a drink, there's an "inside story" of cleanliness and purity.

Aluminum utensils clean easily. To remove natural deposit left by foods and water, use a tablespoon of vinegar in boiling water.

**ALUMINUM COMPANY OF CANADA, LTD.**

*Aluminum has been friendly to food for 50 years!*

grabbing for wool. The United States is putting the squeeze on Australia, and other major wool countries, to set up a new kind of Joint Organization.

The new JO would portion out wool, much as sugar and other scarce commodities were portioned out in the Hitler war. The auction sale system would be suspended.

But a terrific howl has gone up from Australia. This would be interfering with ordinary international commerce. The free auction sale system is o.k. say the Aussie wool men.

HOW COME IT is permissible to interfere with the law of supply and demand when somebody wants to hold prices up; yet all wrong when the time comes to hold them down?

And let anyone think that the Aussies are any different from the rest of us—our own government now has 33½ million pounds of butter, bought to hold prices up.

## Tender OATMEAL ROLLS

They "pan out" perfectly with new  
Fast DRY Yeast!

No more yeast worries!  
No more yeast that stales and weakens! New Fleischmann's Royal Fast Rising Dry Yeast keeps FULL STRENGTH till you use it—FAST ACTING when you use it! Needs no refrigeration—get a month's supply and keep in your cupboard!

## OATMEAL ROLLS

Stirring constantly, quickly pour 1 c. boiling water into 3/4 c. oatmeal. Scald 3/4 c. milk, 2 tbs. granulated sugar, 1 1/2 tbs. salt, 2 tbs. molasses and 3 tbs. shortening; cool to lukewarm. Meanwhile, measure into a large bowl 1 1/2 c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 minutes, THEN stir well. Mix in oatmeal, then lukewarm milk mixture. Stir in 2 c. once-sifted bread flour; beat smooth. Work in 2 1/2 c. (about) once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of dough. Cover and set in a warm place, free from draught. Let rise until doubled in bulk. Punch down dough and turn out on board sprinkled with oatmeal; cut into 2 equal portions and cut each portion into 16 pieces. Knead into smooth balls and arrange in 2 greased 8" square cake pans. Grease tops. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, about 30 minutes. Yield—32 small rolls.

# HOUSEKEEPING

## AUTUMN IN AIR, VEGETABLES IDEAL BASE FOR MAIN DISH

Vegetables make an ideal base for the main dish of fall suppers. Squash, tomatoes, eggplant, cauliflower and peppers lend themselves particularly well to this type of dish and combine well with other foods. Often the addition of a little meat will give flavor and make a satisfactory dinner.

The casserole is the favored utensil of the thrifty cook. She is able to combine a little left over food with fresh vegetables and perhaps a cereal and serve a steaming, mouth-watering meal in short order. Similar combinations may be cooked in the frying pan or double boiler. The golden brown topping is missing but if these topstove dishes are served on, or with crisp toast the effect is excellent.

Home economists like these vegetable supper dishes which are easy to prepare.

### Egg Plant Creole 1

- 1 medium egg plant
- 3 tablespoons shortening
- 1 small green pepper, chopped
- 1 small onion, chopped
- 3 tablespoons flour
- 1/2 teaspoon salt
- 1 tablespoon brown sugar
- 3 large tomatoes (peeled and chopped)
- OR 2 cups chopped, canned tomatoes
- 3/4 cup bread crumbs
- 3 tablespoons grated cheese
- Pare, slice and dice egg plant in 1-inch pieces. Cook for 10 minutes in a small amount of boiling, salted water. Drain. Place egg plant in greased baking dish. Melt shortening, add green pepper and onion and fry

### Egg Plant Creole 2

- 3 tablespoons fat
- 1/2 small green pepper, cut in strips
- 2 tablespoons chopped onion
- 1 medium egg plant, peeled and diced
- 5 large tomatoes
- Salt and pepper
- Melt fat in frying pan. Add chopped green pepper and onion and cook for 2 to 3 minutes. Add egg plant. Cover and steam for about 5 minutes. Peel and chop tomatoes, add to egg plant and cook, uncovered, until egg plant is tender, about 15 minutes. Season to taste with salt and pepper. Yield: six servings.

### September Casserole

- 5 large tomatoes OR 2 cups canned tomatoes
- 1 tablespoon flour
- 1 tablespoon sugar
- 1/2 cup chopped onion
- 1/2 teaspoon marjoram
- 1 tablespoon, chopped parsley
- 1 1/2 cups cooked corn or canned whole kernel corn
- 1 teaspoon salt
- Pepper
- 4 tablespoons grated cheese
- 2 cups hot, mashed potatoes
- Peel and slice tomatoes. Place in casserole and sprinkle with flour, sugar, onion, marjoram and parsley. Over this, place the corn and season with salt and pepper. Combine 2 tablespoons of the grated cheese with the hot mashed potatoes and place in a ring on top of corn layer. Sprinkle the remaining two tablespoons of cheese over the potatoes. Place casserole in a moderately hot oven, 375 degrees F., and bake until a golden brown, about 20 minutes. Yield: six servings.

### Stuffed Squash

- 3 acorn squash
- 1 cup water
- Salt and pepper
- 1/2 cup chopped onion
- 1 1/2 cups chopped cooked meat
- 2 cups thick white sauce
- 1/2 cup bread crumbs
- 2 tablespoons butter
- Cut the squash in half, crosswise. Scoop out the seeds. Cook in a covered kettle with one cup of water until tender about (15 to 20 minutes). Sprinkle with salt and pepper. Add onion and meat to white sauce and fill squash halves with mixture. Cover with crumbs, dot with butter and bake in a hot oven 400 degrees F., until brown bubbling. Yield: six servings.

## Ray Reflects and Reminisces

In the melancholy thirties, some folks used to say that in Prince Rupert they lived on fish and strangers. We do yet, in certain respects. Lots of the strangers married, and how to properly prepare and serve the finest sea food in the world, has become one of the fine arts.

Daylight saving time for 1950 will end within another week or so, and no one will give much of a hang, one way or the other, for we are becoming used to it. Yet, it's entirely possible to have things on a much more systematic basis. The Canadian Chamber of Commerce held its 21st annual meeting in Saskatoon this month, and received numerous suggestions and recommendations from all over Canada. Among these was a proposal from Saskatoon Board of Trade that daylight saving uniform legislation become an item on the agenda of a dominion-provincial conference. Sounds sensible.

Some members at Ottawa deplore the dullness of press dispatches supposed to describe the services of the three Canadian destroyers in Korean waters. They put it down to censorship. States one: "The stuff has all the human interest of a column of Saskatchewan wheat figures." And that's pretty flat. But a correspondent today is just another soldier. Like enough he writes what he wants to, but it does not follow it will ever see type. He's just another soldier, obeys orders and takes his chance on getting killed.

A Victoria daily asks which is the most dangerous to human safety, a drunk at the wheel, or a drunk on foot? Any responsible newspaper should be ashamed to make such an inquiry. We all know, or should, that annually thousands—young mature and robust, or aged and helpless—die under the wheels of a speeding car, or from the effect

of a blow inflicted by a passing automobile. True, whiskey and a pistol never go well together. An intoxicated man, gun in hand, has taken many a life. But between the two casualty lists, there is no comparison.

There come times, it is said when, in some Canadian cafes, tourists are disappointed. They fare well enough, yet miss plenty of little attentions welcome in more ways than one. A thoughtful matron says what Canada needs is a national dish, and mentions apple pie and cheese. Be sure, however, the cheese does not bounce, and the apples were never dried. Under other and more Christian like circumstances, the suggestion is not without merit.

A California machinist, arrested for intoxication told the police the name of the man, responsible for murdering Sir Harry Oakes, in his home at Nassau, seven years ago. Oakes, mining multi-millionaire, had made his strike at Kirkland Lake Canada. The latest review of the case appeared only a few weeks ago in a magazine. Oakes son-in-law, disliked by Sir Harry and charged with the killing, was acquitted. The crime, and subsequent developments still keep a lot of people interested.

With the North Koreans boot- ed back to where they came from what then? Some one starting something somewhere else? Just how uneasy is Formosa? Will France stand for the arming of West Germany? Will China's Communists give Hong Kong an extra hard look? Will more than one iron curtain be seen? How sick is Stalin? At all costs, the world, somehow must be kept jittery.

## Mooseheart Women Enjoy Card Party

Whist was enjoyed by the Mooseheart Committee of the Women of the Moose when they met in monthly session at the home of Mrs. V. E. Morrison with Mrs. A. Auroil as a joint hostess. A brief business session preceded the playing of cards in which the prize-winners were Mrs. V. E. Morrison, Mrs. A. Auroil, Mrs. A. Hamilton, Mrs. R. Murray, Mrs. A. J. Croxford, Mrs. K. Mulder, Mrs. R. B. Skinner, Mrs. H. Paulson, and Mrs. J. Flewin with Mrs. Jack Hoskins as chairman. Mrs. H. McVety and Miss Frances Corliss were visitors. Delicious refreshments were served by the joint hostesses.

Mrs. Eugene Dutton left by air today for Vancouver to visit her daughter, Lorna, who is about to have surgical treatment in the Vancouver General Hospital for heart ailment.

## Sign Posts Are Erected

Jaycee Workers Doing Good  
Job of Putting Up Directional  
Aids on Streets

First of the street sign posts which the Junior Chamber of Commerce undertook several months ago to erect following the desirability being suggested in the editorial columns of the Daily News, and elsewhere, made their appearance on Sunday. The neat 4x4 inch white painted sticks with stencilled lettering were erected at a number of strategic intersections by Jaycee workers and more will be going up as time permits. The intention is to get forty in place this year and another sixty in 1951 for a total of 100.

Among the corners where the posts have been already placed are Second and McBride, Third and McBride, Second Avenue and Third Street, Second Avenue and Fifth Street, McBride at Fifth, Sixth and Seventh Avenues, Seventh Avenue and Eberts Street, Eleventh Avenue and Frederick Street, Seventh Ave. and Hays Cove Circle and Hays Cove Avenue and Conrad.

The general idea is to install the sign posts along the highway route within the city limits. Lumber for the sign posts was provided by the city and the paint by Island City Builders Supplies.

Dan Williamson is chairman of the Jaycees' sign post committee with Geoff Hill, Archie Wudel, Harry Burrow and Eric Speers also on the committee.

## AIR PASSENGERS

To Vancouver (today) — W. Kirker, M. J. Ayer, A. Paul, W. V. Lowry, A. K. Davidson, T. Rennie, J. Wilson, Mrs. D. Dutton, Mrs. V. Phillips and infant, R. Mayhew, L. G. Thomas, J. E. Elliott, R. MacDonald, L. F. Gosse, J. Williams.

## NEW GRAIN ELEVATOR

LETHBRIDGE, Alta. — The largest single-unit grain elevator in Alberta was opened recently three miles south of here. Costing \$80,000 it has a capacity of 120,000 bushels.

## Woman Gets C.L.U. Degree

EDMONTON — Mrs. Mollie Stevenson of Edmonton has been awarded the ninth Chartered Life Underwriters degree ever awarded a Canadian woman. Though many men in the insurance field have passed the examinations, Mrs. Stevenson is the third woman in western Canada to pass the three-year course given by the University of Toronto which is necessary to receive the C.L.U. degree.

Mrs. Stevenson, a school teacher before her marriage, re-entered the business world with the Canada Life Assurance Company four years ago.

She now is a life member of the Women's Round Table Club of America, having sold \$250,000 worth of insurance every year for the last three.

Enthusiastic about the possibilities of insurance salesmanship for older business girls, she thinks it is one of the few professions in which women can still find plenty of opportunities.

## Britons "Wolves" Say French Girls

BRITONS "WOLVES" — P. W. L. HELL, North Wales — Claude Fabius, 20-year-old jeweller's assistant from Paris, spending her summer vacation at a holiday camp here, says of the British male:

"They are the freshest pack of wolves I have ever met."

"I think someone has been telling them tales about French girls. When I explained that all I wanted was to argue seriously, to learn more about the English, they considered that a waste of time."

Claude has solved her problem by asking permission to work in the coffee bar, for free, so she can listen to the conversation around her and perhaps join in.

## Former Local Man Succumbs

Ernest Exley, who for many years lived in Rupert but for the past thirteen or fourteen years has resided on the family farm near Smithers, passed away last evening at 7 o'clock in Smithers, according to word received today by local relatives. Death followed a heart attack.

Eldest son of the late Mr. and Mrs. John Walker Exley, formerly of Prince Rupert, Mr. Exley at one time assisted his father as janitor of the City Hall.

Born in Yorkshire, England, sixty-five years ago, Mr. Exley arrived in Canada as a young man, coming to Prince Rupert with his parents.

Deceased is survived by five sisters — Mrs. Charles Morris and Mrs. Chester Thoman of Smithers, Mrs. Edward Kane of Vancouver, and Mrs. O. L. Carlson and Mrs. C. V. Leavitt of Prince Rupert.

The funeral will be held in Smithers on Thursday and the sisters are leaving on tomorrow night's train to attend.

Oxfords and hard-wearing Boots

FASHION FOOTWEAR

GOLDEN HARVEST — Dewain Jensen, left, and his brother Norman, both of Cardston, Alta., watch their harvest being piled beneath the skies for lack of granary space. The pile, containing 45,000-50,000 bushels of Marquis wheat, is 260 feet long, 33 wide and 12 high. It was grown on land of the Blood Indian Reserve leased by white men in the largest grain field within one fence in the Commonwealth—1,000 acres. (CP Photo)

## 26,000 PAPER BAGS A DAY.

26,000 paper bags "Made in B.C." each holding 100 pounds of a finished product "Made in B.C."

The Consolidated Mining and Smelting Company of Canada, Limited, uses this quantity of bags to package its daily production of chemical fertilizers which are shipped from Trail, B.C., to all parts of the world.

"Made in B.C." means a great deal when applied to Cominco's purchases from the Forest Products Industry for it emphasizes the Company's policy of buying as close to home as possible.

In addition to paper products the large amount of lumber necessary for Cominco's extensive operations is purchased from British Columbia's interior mills.

By these purchases from the Forest Products Industry Cominco provides employment for British Columbians in the woods, in the mills, and in the manufacturing plants of this industry.

Co-operation between industries means co-operation between groups of people, each supplying the needs of the other and each in turn contributing to the prosperity of the other by providing money for expansion of plants, added employment, and other items that mean progress and better living for all.

**COMINCO**  
and the  
**FOREST PRODUCTS**  
industry

The story of Cominco is told in a 38-minute, full-colour sound film entitled, "NO MAN IS AN ISLAND." Available free. Address requests to Cominco, Trail, B.C.
