B.C. PREMIER
TO TALK P.G.E.
AT WASHINGTON

SEATTLE (C)—The Seattle Post-Intelligencer said in a Friday edition that Premier Byron Johnson of British Columbia has been invited to Washington, D.C., next week to "discuss the Pacific Great Eastern Railway" with government officials. The newspaper said that President Truman presumably would be one of those taking part in the discussion. The British Columbia-owned railroad has been discussed as a possible link in a proposed rail line to Alaska.

TRUSTEES DIFFER
OVER PRINCIPALS

Board Debates Zip and Lack of it Among Schoolmasters
WINNIPEG (C)—Which is the better school principal—the man who laughs and slaps pupils on the back, or the man who is reserved and doesn't laugh easily?

A debate on that question brought forth differing opinions at a meeting of the school board of suburban St. James.

School Inspector E. D. Parker advised the trustees that children soon "got on" to the type which "laughed and slapped them on the back. That makes an impression on the public—but you can't fool the youngsters."

"They size a man up, and soon know just how far they can go," said Mr. Parker, who favored the "reserved" type.

Trustee A. Conklin took the opposite view. He complained of a "lack of zip" among principals in St. James.

He explained that he meant principals—with exceptions—did not show enough interest in extra-curricular activities.

"Experience doesn't cut much ice with me," he said.

Chairman T. B. Findlay feared a "reserved type" was not suitable. "In the long pull, the extrovert is the man we want. A reserved man, true, was better in dealing with complaints of parents. He would listen to them patiently.

In such circumstances, even the public did not want to be slapped on the back, another trustee suggested to Mr. Parker.

When Mr. Parker remarked that one teacher was "good in dramatics," Trustee R. H. Funnell said, "that is just the trouble with him; he dramatizes himself all over the field."

After the discussion, the trustees referred to the staff and management committee the appointment of a principal.

"APOSTLE OF LOVE"—Rev. Riccardo Lombardi, the Italian priest whose "crusade of love" is credited with helping swing his country's people against communism, is in Canada on a speaking tour. At a Montreal press conference, where this photo was taken, he described his crusade as "the gospel sincerely applied." (C. P. Photo)

Earl Johnson
Acquitted On
Murder Count

Earl Johnson, 34-year-old Nanaimo fisherman was acquitted at 12:45 this morning of a charge of murdering his brother, Capt. Vic Johnson last August 13, by an Assize Court jury which returned its "not guilty" verdict three hours after the conclusion of the two-day hearing.

The verdict was brought in as climax to a night session which concluded the second day of the trial before Mr. Justice J. O. Wilson and in which Johnson himself took the stand to tell the court that he had shot his brother to protect himself from a violent knife attack aboard the seine boat Izumi III.

In the knife attack in the crowded forecastle of the fishing boat, Johnson said, he had received a two-inch wound on the left arm. He had picked up a 22 rifle from a bunk and shot his brother to protect himself from further attack.

The Crown, supported by testimony from Mrs. Janet Johnson, the slain man's widow, claimed that the accused man had received the wound on his arm from Mrs. Johnson when she hysterically attacked him with an axe following her husband's death.

In his charge to the jury, which began at 8:10 p.m., Mr. Justice Wilson suggested that "if you find Janet Johnson's story is correct, then you must find murder, or, if you find that Earl Johnson's story is correct, then it is not murder or manslaughter, but an acquittal on grounds of self-defence."

Both Mrs. Johnson and Corporal A. H. Taylor of the provincial police, testified that Mrs. Johnson had caused the cut on the arm of the accused after she returned to her husband's boat from telephoning the police about the shooting.

Corporal Taylor said that he had received a cut on the finger as he tried to stop the axe blow which Mrs. Johnson aimed at her husband's brother.

In telling his story before a packed court room, Earl Johnson said that the trouble between himself and Vic, who was owner and skipper of the boat, started when he returned to the vessel at 6 p.m. on August 13. He found Vic and his wife in the galley.

His cheerful greeting to his brother was responded to by an accusation from Vic that he had been making improper advances to Vic's wife. He told Earl that he was fired.

Earl said that he went below and began to pack when another brother, Clifford Johnson, accompanied by Mickey Dolan, a brother-in-law, and Tony Silvey, a friend, came on board. Vic made similar accusations to Clifford and an argument ensued in the forecastle while the two men were packing.

Testimony of Mrs. Johnson and some other witnesses indicated

This young woman was trained by The Canadian National Institute for the Blind as a Home Teacher. It is her job to teach Braille, typing and many crafts to those who have newly lost their sight. Because she is without sight, she can encourage others to do the things which she has successfully accomplished. Here, an alert pupil receives a lesson in Braille while another is taught how to make bags. Such skills are first steps on the road to complete rehabilitation—to a new way of life. No matter where a blind person lives, the services of a Home Teacher are available without charge. Blind Canadians look to the Institute for the training they need. And the Institute looks to you. Will you help? The I.O.D.E. is sponsoring a Tag Day in Prince Rupert Saturday in aid of the C.N.I.B.

WILLIAMS GETS
FOUR YEARS

Peter Williams, Kitwano Indian, was sentenced to four years in the penitentiary this morning by Mr. Justice J. O. Wilson, following his conviction here Wednesday by an Assize Court Jury on a charge of rape.

The sentence was handed down by Mr. Justice Wilson at the conclusion of the week-long trial which saw two murder charges and one rape charge before the court.

In handing down the sentence Mr. Justice Wilson termed Williams' offence a "beastly crime." He was charged with attacking a 13-year-old native girl at Casiar cannery on August 13.

On a secondary charge of having carnal knowledge of a girl under the age of 14 years, Williams received a similar four-year sentence, to run concurrent to the first.

A plea in mitigation was put to the court by Indian Superintendent F. E. Anfield, who outlined Williams' background as a church and community leader in the upper Skeena River village. Mr. Anfield said that Williams had had a good record and that he had been a "good citizen and a leader among his people."

Williams wife also pleaded for leniency, declaring that he had been a good father and provider for his family.

FLIES TO FIANCE'S SIDE—Harriet Freidman, 22, right, is shown with her sister, Elaine, 24, shortly after landing at Montreal aboard a Trans-Canada Air Lines plane. Harriet was enroute to Chicago where her fiancé, Milton Freudenheim, a reporter for the Akron Beacon-Herald, had been stricken with poliomyelitis. The girls were aboard a liner at Liverpool when they received an urgent call to return home to Freudenheim who is paralyzed from the neck down. (C. P. Photo)

Premier Johnson May Visit U.S.
To Talk On P.G.E. Extension

VICTORIA (CP)—Premier Byron Johnson and the Cabinet probably will make a decision today as to whether or not the Premier will accept an invitation to discuss railway connections between Alaska and the state of Washington with the United States government.

Premier Johnson is leaving at the week-end for Ottawa to discuss the housing situation and he may go from there to Washington.

On several previous occasions, the Premier has made it clear that he is willing to discuss extension of the government-owned Pacific Great Eastern Railway, providing the plans of U.S. authorities were free from promotional aspects and did not involve large grants of British Columbia's resources.

Farmer-Scientist
Is Petunia Expert

EDMONTON (C)—At a glance, Robert Simonet of Edmonton is an ordinary citizen-farmer who can be seen any Saturday morning selling his produce at the city market place.

But Mr. Simonet also is a scientist. Unknown to many of his fellow Edmontonians, he is one of the world's leading producers of 100-percent pure strain, double-headed petunia seeds.

His laboratory is the hot-house in his back yard. His laboratory technicians are five or six young girls who, with the aid of tweezers, artificially cross-pollinate hundreds of petunia seed specimens.

Mr. Simonet's method of deriving pure strain double-headed petunias began by crossing two doubles. The next year 75 percent were found to be doubles, the rest singles. Doubles then were crossed with singles. In the third year, one-third of the original 75 percent turned out doubles.

Theoretically, this one-third was pure strain double-headed petunias. But the proof of purity is further cross-pollination. Mr. Simonet spends most of his time on his knees, continuing his research among his beloved petunias.

High-Heel Warning
Meets Cold Front

LONDON (C)—A London surgeon has plenty to say about women's high heels—none of it good.

Writing in the medical publication, Practitioner, Dr. Norman C. Lake, senior surgeon of Charing Cross hospital, warned that from a medical point of view high heels were all wrong and could, in time, do harm. But he held little hope women would depart from "the fashion" because of that.

The high heels caused thinning of the natural protection under the forefoot bones, caused calluses and a tendency to "turn" the ankle. But women appeared unable to resist their "tapering effect," the camouflaging of size and shape of the feet and the effect of greater height.

"Apart from fashion for fashion's sake (and women readily conform to the herd instinct in this respect) these are probably the main reasons which influence the choice of high heels," Dr. Lake wrote.

But, unless "fashion" can be made subservient to anatomical and physiological demands, as there was little hope women could be persuaded that they should not wear high heels."

P.C.L. PLAY-OFFS
IN 4-WAY TIE

LOS ANGELES (C)—Pacific Coast League playoffs are squared at one-all after Sacramento scored two unearned runs in the tenth inning to down Hollywood 4-2, and San Diego scored six runs in the first three innings to take a 9-6 decision from Oakland. Each of the four clubs have lost one and won one.

BUMS ADVANCE
TO FRONT IN
PENNANT RACE

NEW YORK (C)—The dauntless Dodgers squeezed past the St. Louis Cardinals into first place in the National League pennant race Thursday.

The battling Bums did this by defeating Boston twice, 9-2 and 8-0. The Cardinals lost again to Pittsburgh Pirates 7-2 in the only games scheduled in the National loop yesterday.

The Dodgers now lead by a half game, with two to play, both at Philadelphia. The Cards have three games left, all with the Chicago Cubs.

The equally hectic American League flag chase was sidetracked for the day as rain washed out the Boston-Washington game. The New York Yankees were not scheduled to play.

CANADA IN FORE
GERM WARFARE

By DOUGLAS HOW
Canadian Press Staff Writer

OTTAWA (C)—The big hush-hush name in Canadian defence comes from a small community 16 miles from Medicine Hat, Alta. It is Suffield.

On 1,000 square miles of prairie, Canada is making experiments that are believed to have put her in front among the Allied nations in the haunting fields of chemical or gas, and bacteriological or germ warfare.

This is probably the most spectacular if most underpublicized example of the growth of Canadian defence preparedness beyond the limits of the three forces.

Maj-Gen. Brock Chisholm, a Canadian and director-general of the World Health Organization, said recently there is a biological product, seven ounces of which is enough to kill everyone in the world. Suffield knows all about it.

Canadian scientists say there are a number of germ agents capable of fantastic human havoc. The great obstacle is distribution, the problem of spreading them around. That problem is being tackled but is far from licked.

EDSON BRIGADE
LEADS PROVINCE

Volunteer Firefighters Show Up Professional Big-City Brothers

EDSON, Alta. (C)—Led by one of the youngest fire chiefs in the country, Edson's volunteer fire department is causing quite a stir among Alberta firefighters.

One of the reasons is that 30-year-old Chief Don Riggan and his 12 men believe that vigilance is the price of fire safety even in the smallest town.

The department has competed against fire departments, some of them full-time paid brigades—in many smaller towns and larger centres such as Lethbridge, Red Deer, Calgary and Edmonton. In Calgary, they defeated all comers in the provincial hose-laying contest recently, laying 200 feet of hose in 32 4/5 seconds.

Chief Riggan says continued vigilance and weekly practices are the secrets of the department's success.

Concerning The Blind

THROUGHOUT THE YEAR this community responds generously to the many calls made upon it to support the needs of others less fortunate. The request for our practical concern and interest for the welfare of the blind is one call which knowingly we never overlook. We find it difficult to understand how life might continue to be complete without sight.

To us blindness is puzzling, bewildering, almost without understanding. We do not know how we could continue our family and community relations, our employment, our full life with respect to recreation, social and cultural activities. We do not know how we would meet blindness if it came to us tomorrow. It is good therefore, to know that something is being done about all this for our blind fellow citizens throughout this province.

The Canadian National Institute for the Blind is constantly assisting many hundreds of our blind friends to understand blindness and all that it means. The staff of the Institute counsel and teach in all things which will be supplementary and helpful to those who are without sight.

We may well ask ourselves "What would we do if we were to lose our sight tomorrow?" The obvious answer would be for us to seek the service and advice of the Canadian National Institute for the Blind in order to help us to a fuller understanding of life without sight and the method by which we might become adjusted to it.

Our consideration of the needs of the blind and of the Canadian National Institute for the Blind which provides the answer will prompt us to be more generous than ever as we respond to the current appeal on behalf of the blind. Opportunity in this regard will be forthcoming tomorrow when the I.O.D.E. sponsors its annual tag day in behalf of the C.N.I.B. Give generously.

TO KILL A RUMOR

A KETCHIKAN MERCHANT was surprised the other day to have a Filipino cannery worker, just in from his season's work, remark that he couldn't buy anything in Ketchikan "because the Canadians will take it away from me when we go through Canada."

He assured the Filipino and his friend that this is not true. Under an old agreement, Canadian and American grant equal access to the ships and planes of each other in their adjoining waters and allow free passage to travelers on ordinary business and pleasure travel, including their usual baggage.

Where the Filipino was given his information he did not say. It is a rumor that should be nailed at once because it could hurt business in Ketchikan and build international ill will if allowed to spread.

—Ketchikan Chronicle.

MANY IN NORTH SEE FIRST MOVIES

WINNIPEG — The airplanes and radio have become routine in Manitoba's lonely northland but many thousands of Indians and a few white people have yet to see a motion picture.

The Canadian Forestry Association, as part of its educational program of forest fire prevention, recently undertook to send sound movies to northern inhabitants.

The images that move and talk are to many of the natives one of the most amazing types of "black magic" to come out of the white man's cities.

In several communities 1,000 miles north of here, Indian audiences packed churches, schools and halls to witness their first movie. They travelled for many miles by canoe to see the show which was advertised by poster and moccasin telegraph. Whole families came, from the smallest paposes to tribal patriarchs.

Personality Of Canadians Has Wide Variety

CHICAGO — The fact that Canadians are different from what Americans often look upon them as being, plus the fact that they differ as well from each other, provides the citizens of the United States with many interesting experiences when they are visitors of Canada. A. A. Gardiner, General Passenger Traffic Manager, Canadian National Railways, told members of the downtown Kiwanis Club of Chicago at their luncheon meeting Thursday.

The difference between Canadians are as marked as are those of Americans, he said. "In the case of Canadians, however, there is a distinctive and attractive difference arising from the fact that most of the 30 per cent of Canadians are French speaking reside in the province of Quebec. This, quite naturally results in that province presenting much more than ordinary amount of interest and in many respects a foreign atmosphere right at your door."

"French speaking and English speaking Canadians alike are one in the realization that they live in a good neighborhood," he continued. "This has regard for the fact that they are next door to the United States. Exemplary in all respects in our present world of distrust and uncertainty are United States-Canadian relations."

RE-ARMING FORTS NEAR VICTORIA

VICTORIA — Coastal forts here, largely dismantled and idle since the war, are to be rehabilitated and manned again shortly by local reserve army units, it was learned today. Some 500 additional reservists will be required to man the forts, compared with a wartime strength of 1,000. The forts command vital coastal defences.

LABOR-SAVING SHRIMP SORTER DEMONSTRATED

A. W. Lance, Associate Research Engineer, of the Pacific Fisheries Experimental Station in Vancouver is visiting Prince Rupert this week in connection with the development of a new equipment which has been designed and built in this Province. The new shrimp sorter that will be demonstrated by Mr. Lance is at the Fishermen's Co-operative. This apparatus sorts shrimps into three commercial grades of prawns, giant reds, size stripes or pinks, right on board the boat and can be operated manually or by the boats drive mechanism. Besides saving labor in sorting shrimp it also returns the under commercial size shrimps to the sea undamaged thus conserving them for future catches.

Another operation to be demonstrated is the use of a washer screen attachment which when used as a washer prior to filleting operations reduces bacterial count very substantially.

AGED FURNACES, HEAT ROBBERS

The owner of an average heating system five or more years old is warned by National Warm Air Heating Association, that the odds are 7 to 10 his winter heating bill is at least 10 percent more than necessary. This is because 7 out of 10 older type systems of heating are in need of repairing and cleaning. Air leaks in and around furnace combustion chamber, soot in the chimney or furnace, warped burned bars, corroding smoke pipe all create loss of heat right in the furnace itself. Therefore using more fuel to keep the proper temperature. Heating experts report that home owners are "robbing Peter to pay Paul" through use of improper firing methods and negligence in furnace maintenance.

The majority of costly repairs could have been avoided if owners had followed a regular program of having heating systems inspected each year says the heating association. Minor repairs can add longer service to heating systems and insure health and safety of families.

OCEAN SCIENTISTS WILL INVESTIGATE PACIFIC'S SECRET

British Columbia University To Chart Ocean Depths Impervious to Radar

VANCOUVER — The Pacific Ocean will come in for some close study in the near future. The University of British Columbia has decided to submit plans for an institute of oceanography to the university senate.

The plans call for close liaison with government departments to "develop an intensive study of the ocean."

President N. A. M. MacKenzie said "we are glad that it seems possible to begin this work in oceanography. The study of ocean currents and the chemical, physical and biological aspects of large ocean areas have come to play an increasingly vital role in the welfare of this nation in peace as in war."

Col. H. B. Hachey and Dr. J. P. Tully, scientists with the Dominion fisheries board, conducted extensive oceanic studies during war service with the R.C. N. The two men may again be prominent in the post-war study of oceanography.

Already the university is going ahead with its plans for the specialized training required in this field.

Graduate students are to be given instruction immediately, with the introductory courses included in the fall schedule.

Radar operations during wartime discovered large bodies of ocean water nearly impervious to radar waves. Scientists believe that temperature and degree of saltiness have an effect on the radar signals.

Dr. G. M. Shrum, head of the physics department, said, "It is quite possible for schools of fish or other objects to lie undetected in such a body of water. There are many such areas in the Pacific."

"We want to chart them and learn how to overcome the radar problem involved."

\$18,000 FINE ON TAX COUNT

MONTREAL — Joseph Ferdinand Fide Tibault, St. John's fined \$18,000 for making false Quebec merchant, today was income tax reports during the 1939-1946 period.

STRIKES BREAK OUT ON EVE OF STEEL TIE-UP

PITTSBURGH (C)—Big steel and the C.I.O. get together today with federal mediators in a last-ditch try to stave off a country-wide steel strike at midnight which would make idle a million workers.

But even as they met, the news was not good. Already thousands of workers jumped the gun in wildcat strikes and thousands of others were idle as the steel mills banked their furnaces.

The issue is a pension-insurance program.

'SELLS' DOMINION IN U.S. CAPITAL

Canadian Club Does Good Job in Fostering Friendly Relations

WASHINGTON (C)—The several hundred members of Washington's Canadian colony have a club of their own.

Aim of the Canadian Club of Washington is to promote good fellowship among Canadians and former residents of Canada now residing in Washington and to foster friendly relations between the people of Canada and the United States.

The "sell Canada" assignment, although carried out primarily on a social level, has been a chief one since the club was founded in 1924.

Whether club members or not, Canadians here find themselves doing a pretty constant public-relations job, pointing out that it isn't all forests and snow north of the 49th parallel and that Canadians don't use pounds, shillings and pence.

The club provides a common ground for persons with special Canadian ties—Canadian-born United States citizens, former residents of Canada, persons who own Canadian property and Canadians employed in Washington.

In this latter category are scores of officials, secretaries and stenographers working for the Canadian and other Commonwealth embassies and legations.

Club president is Mrs. John T. Lucker, a native of Rosthern, Sask., and former resident of Red Deer, Alta.; New Westminster, B. C., and Vancouver.

CANADA DEPARTMENT OF AGRICULTURE

Prairie Farm Rehabilitation Act TENDERS

Sealed Tenders will be received by the undersigned until 2:00 o'clock p.m., Regina Time, October 12, 1949, for the construction of a rolled earth fill and reinforced concrete spillway structure. The work is located on Shattlesworth Creek in Lot 3639, Similkameen District about eleven miles east of Okanagan Falls, in the Province of British Columbia.

Tenders must be submitted on the forms attached to the specifications in the envelope provided.

The following are the main items of work and the approximate quantities of each:

1. Clearing 5 acres
2. Stripping 4,500 cu.yd.
3. Common Excavation 18,000 cu.yd.
4. Placing Fill 15,000 cu.yd.
5. Additional Rolling 16,000 squares
6. Fencing Backfill 230 cu.yd.
7. Tamping Backfill 200 Jack Hammer Hours
8. Concrete, less cement 370 cu.yd.
9. Cement 555 bbl.
10. Reinforcing Steel, in place 27,000 lb.
11. 2 ft. by 2 ft. gate and hoist 1 only
12. Rock Riprap 70 cu.yd.
13. Open tile drain 300 lin.ft.
14. Copper water stop 200 lin.ft.
15. Wire Mesh 7000 lb.

Plans, specifications and form of contract are on view at the following P.F.R.A. Offices:

418 Public Building, Calgary, Alberta.
P.F.R.A. The Airport, Lethbridge, Alberta.
910 McCallum-Hill Bldg., Regina, Saskatchewan.
V.I.A. Building, Victoria Avenue, Kamloops, B. C.

Plans, specifications and tender forms for bidding may be obtained from the undersigned at his office in Regina, Sask., and from the P.F.R.A. Office in Kamloops, B. C., upon the deposit of Ten Dollars (\$10.00) cash or a certified cheque for the amount, payable to the Receiver General of Canada, redeemable upon the return of the plans and specifications in good order within one month after tenders have closed.

Any tenders which are not prepared strictly in accordance with the "Instructions to Bidders" may be rejected.

The lowest or any tender not necessarily accepted.

By Order,
L. B. THOMSON,
Director of Rehabilitation,
910 McCallum-Hill Building,
Regina, Saskatchewan.

HOME NURSING COURSE PLANNED

A women's home nursing division of the Prince Rupert St. John Ambulance Brigade will be formed at an organizational meeting to be held at the armory on October 7. Instructor will be R. E. Eyoifson, who also directs classes for the Brigade which have been resumed for the winter.

Object of the home nursing division is to round out the St. John Ambulance structure in this city, which was organized as a brigade a year ago. Trainees for the course are being sought.

Weekly meeting of the St. John Ambulance Brigade was held in the armory last night, when Instructor Eyoifson gave a lecture and answered questions concerning fractures.

Hundreds of letters tell us only one bottle was needed. Others used more but always with amazing results. PYLTONE, a liquid taken by mouth, goes direct to the internal trouble, removing the cause. Results you expect with one bottle of PYLTONE or price refunded. At all modern druggists. PT-3

"CHARLIE" WELL RECEIVED BY LARGE AUDIENCE

The curtain went up this week on the Little Theatre's latest production "Here Comes Charlie" at the Civic Centre and the audience of more than 300 each night were treated to one of the most comical plays staged here in many a season.

It would be hard to pick the outstanding performer in this play but the character acting of Mel Skalmerud who played the part of Charlie's uncle Aleck Twiggs was something that will not soon be forgotten.

Mr. Skalmerud managed to hold the audience in fits of laughter from the moment of his arrival until the final curtain. Possibly one of the hardest tasks of this play was allotted Miss Helen Marchion in the role of Mrs. Fanny Farnham as Larry's aunt by marriage. She performed brilliantly and deserves the highest praise for her acting ability.

Marie Lavigne in the role of "Charlie" and Allan Forman as Larry Elliott the eligible young swain did a masterful job in their difficult parts.

Harold Skalmerud did a remarkable performance as Larry's pal with less than two weeks in that part.

The supporting cast deserve credit for their splendid supporting jobs which added no little to the overall production. Kathie Kerr as Nora Malone was the robust Irish maid, Nina Youngman as Vivian Smythe-Kersey as the girl-friend of Larry and his money who finally loosed out to Charley. Elspeth Mac-

BOSOM PALS—Fat or lean, it makes no difference to these Windsor, Ont., animals—they lick any platter clean. The two amicable tabernacles are Rusty a small dog of mixed ancestry, and a still smaller orphan kitten. The cat and dog affection grew when Rusty lost her pups and the kitten lost its mother. (C. P. Photo)

Kenzie as Mrs. Smythe-Kersey as the high-toned society lady who tries to out highhat everyone. Cliff Knutsen as Mortimer Smythe-Kersey the lazy tired fellow who adds many a laugh to the show and John Currie as Tim McGill the Irish cop who spends most of his time in the kitchen with the maid.

This play, for those who like legitimate stage performance, was a comical treat and it was a happy audience who applauded the actors at curtain call time.

Behind the scenes there were as director, Mrs. Myra L. Chaplin, M. E. Prompter, Mrs. Edith A. Black, Publicity, Martin F. Stuart, Make-up, Miss Enid Ball, Staging, Harley Lewis; under study and wardrobe, Miss Maria Brett and make-up and wardrobe, Mrs. D. Heal. Furniture courtesy Gordon & Anderson.

Freddie Lincoln was taken from Miller Bay to General Hospital yesterday by the City Ambulance Service.
