Opposition To European Arms Weakening

Chances of approval of his \$1,450,000,000 arms aid plan looking brighter again.

Senator Taft Will Not Lead Fight Against It

Military Chiefs Are Strongly Supporting President Truman's \$1,400,000,000 Plan

WASHINGTON, D. C. (CP)—Friends of President Truman's \$1,450,000,000 arms-aid plan were cheered today by word that Senator Robert Taft (Republican-Ohio), one of the administration's chief critics, will not lead a fight against the plan and that strong support from military chiefs is assured.

Taft, who is chairman of the Republican policy committee, told reporters that he will probably vote against the plan for arming friendly countries but he added that he will not spearhead the opposition as he did against the Atlantic Treaty. Taft came nowhere near winning his fight on the pact but he gave it plenty of trouble.

Joint chiefs of staff—General Omar Bradley of the Army; Admiral Louis Denfeld of the Navy, and Gen. Hoyt Vandenberg of the Air Force—added words of form support for the arms plan yesterday. The military chiefs disclosed to three committees that the bulk of European assistance would go to

rearm the once-powerful France. Ten senators sought today to have General Douglas MacArthur recalled from Japan so that his views on European arms aid could be heard.

CITY CONSTABLE RESIGNS POST

Constable A. L. Rossiter, who has been a member of the city force here for the past four years, has resigned from the British Columbia Police effective August 21. He is remaining in the city.

THE WEATHER

(Synopsis)
Cool unsettled weather will persist in most sections of British Columbia today and tomorrow. However clearing is expected by evening over the north coast. Temperatures will continue below normal in all regions tomorrow.

(Forecast)
North Coast Region—Clearing by evening. Clear tomorrow. Little change in temperature. Wind light, becoming northerly (15 mph) by this evening. Lows and highs tomorrow—at Port Hardy 50 and 60; Masset 48 and 60; Prince Rupert 45 and 60.

Putting Up New Hotel

Modern Addition to Savoy Hotel Being Erected at Fraser Street Corner

W. L. Woods, proprietor of the Savoy Hotel, has purchased the double corner at Fraser and Fifth Streets, adjoining his hotel, from Mrs. M. T. Lee and Kenneth Lee and will erect thereon a new and modern addition containing twenty rooms and bath as well as an extension of the tavern.

The new structure will occupy the entire 100 by 50 foot of ground and will be two storeys in addition to basement. With concrete foundation, the building will be constructed of the new cement-pumice hollow blocks. Cost will be about \$40,000, it is estimated. Plans are now being prepared by J. M. Harvey, Vancouver architect, who was here last week.

Each of the twenty new hotel rooms will be 21 by 16 feet and each will have private bath, being of latest styling and appointment. Four rooms will be on the ground floor and the other sixteen on second floor. The property which Mr. Woods has purchased is occupied at present by a small taxi building, a bungalow dwelling and a tailor shop, all of which will be removed.

The deal for the property was handled through the office of

\$500 BAIL SET IN THEFT CASE

Bail of \$500 was set by Magistrate W. D. Vance in city police court this morning in the case of Pearl Manerey, who pleaded not guilty to a charge of theft of \$100 from Earl Carter, a canner worker. The accused, a waitress, was remanded until Friday afternoon for hearing after entering a plea of not guilty. She appeared without counsel.

CHARLIE KICKED BUCKET, NOT GIRL

It was all a mistake, Charlie Lee told the court. He had not intended to commit an assault—he merely kicked the bucket in exasperation.

Charlie, proprietor of the Eagle Rooms, was before Magistrate Vance on an assault charge laid by Alice Brown, a native girl, who claimed that he threw a waste paper basket at her. Several stitches were required to patch up the cut on her forehead.

When Charlie told his story, the court agreed that there had been no intent to assault the girl and dismissed the charge. Any assault that had been committed was against the bucket, not against the girl.

It seems that Charlie had returned on the night after posting a sign on the door of his room advising all and sundry that his rooms were all occupied and to be governed accordingly.

About 2:30 a.m. he was awakened to see the sign being slipped under the bottom of the door. This was followed by a thunderous beating on the door itself. Charlie rose in wrath.

He entered the hallway to see a group of pranksters disappear down the stairway. Exasperated, he kicked the bucket. It flew down the stairway and struck the girl on the head.

Charlie was sorry about it all and assured the court that he would look after any medical expenses caused by the girl's injury.

NEW FOOTBALL PREXIE NAMED

CALGARY—Charles E. Pinneil of Calgary was yesterday elected president of the Dominion Football Association, succeeding Dr. O. J. Todd of Vancouver. Dr. Todd, professor of classical languages at the University of British Columbia, was named honorary president and John Nolan of Montreal was elected vice-president.

NORTH SHORE WINS SOCCER

CALGARY—North Vancouver played heads-up play-off soccer last night to overpower the fighting Hamilton Westinghouse squad 2 to nothing and capture the Dominion football championship.

It was the second time the red-jerseyed veterans from the Pacific Coast had shut out their lighter, speedier opponents.

North Shore United took the opening game of the best of three series 4 to nothing while Hamilton forced the second with a well-deserved two to one victory in the second.

The coveted challenge cup, won last year by Montreal Carsteel in a series with Vancouver St. Andrew's, was presented to Captain Tom Cumming of North Shore in a brief ceremony following the game.

DROWNED OFF NOVA SCOTIA

INVERNESS, Nova Scotia—Four persons were drowned in the sea off this western Cape Breton mining town last night and two of a party that attempted to rescue the victims were feared missing today.

Body of one of the victims—Melvin White—was recovered this morning as grappling operations were started. White's body was washed up by the sea.

A courageous attempt by a 40-man human chain to save four victims—Malcolm Gillis, aged 16; Gerald MacNeil, 14; Simon White, 52, and his son, Melvin, 27—ended in failure. All are from Inverness.

TODAY'S BASEBALL ROOSEVELT PARK

6:30 P.M. MERCHANTS vs. COMMERCIALS

Gas Stolen From Plane Caused Recent Crash On Digby Island Near Here

Theft of gasoline from the aircraft as it was parked at the Seal Cove air base during a night previous to the ill-fated flight on July 29 is held responsible by Queen Charlotte Airlines Ltd. for the crash at Digby Island that morning which resulted in the virtual demolition of a twin-engined DeHavilland Rapide seaplane from which pilot and three passengers miraculously escaped. Following the making of official reports, the company has commended Pilot Roy Berryman for the presence of mind he displayed in the emergency and, due to which, it is admitted, a much more serious accident was averted. Arrangements have been made for special protection of aircraft at Seal Cove air base in future.

A. J. Spilsbury, general manager of Queen Charlotte Airlines Ltd., who thanks this newspaper for "excellent handling of the matter at the time," has presented the following official statement to the Daily News: "The crash was very carefully investigated by our company and all persons connected with it carefully questioned, and we are convinced beyond any doubt of the following

"The aircraft left Seal Cove on the morning of July 29 with insufficient fuel in the tanks. The aircraft has two engines and two entirely separate fuel tanks which are not cross-connected in any manner. Both of these fuel tanks ran out within forty seconds of each other leaving the pilot with no alternative than to effect a forced landing in the trees. Both fuel tanks had been filled on the evening of July 27 at the end of that day's flying and the aircraft had not been operated in the interval. From the reports of both mechanics, log book entries, and evidence of the gasoline used, from the available supply, there can be no doubt that this was carried out. Furthermore, the aircraft returned to base on July 27 with sufficient fuel in its tanks to carry out over an hour's flying without any being added.

"In addition to the evidence of the two mechanics, the pilot of the aircraft, Roy Berryman, personally witnessed the refueling on July 27. We are convinced that the gasoline was stolen during the night of July 27 or 28 by persons unknown. Theft of gasoline from an aircraft is such an unusual occurrence that such a possibility did not present itself to any of our personnel who dispatched the aircraft on (Continued on Page 2)

POLIO NOT ALARMING

VANCOUVER—A fourteen-year-old girl was Vancouver's latest poliomyelitis victim yesterday, bringing the total of cases so far treated at Vancouver General Hospital to eighty-one. There appears to be no let-up as yet in the outbreak although Dr. Stewart Murray, city health officer, stated yesterday that it was not alarming. He pointed out that there had been only two deaths and none of the present cases were acutely ill.

Jet Transport Plane Success

TORONTO—Designed and built by Canadians, a four-engined Avro jet liner successfully flew its first air tests yesterday. It is the first jet transport produced on the North American continent. The big plane, designed to carry fifty passengers and to cruise at 430 miles an hour at 30,000 feet, missed by only a few weeks the honor of being the first of its type in the air. A somewhat similar jet liner took to the air recently in Britain.

BOND ISSUE IN UNITED STATES

OTTAWA—Finance Minister Douglas Abbott yesterday announced the government's intention of offering a \$100,000,000 issue of Government of Canada bonds for sale in the United States. A registration statement covering an issue of 25-year 2 3/4 percent bonds in that amount will be filed with the Securities and Exchange Commission at Washington "in the near future," the minister said in a statement.

Proceeds of the issue will be used to redeem three issues of five percent long-term bonds of the Canadian National Railways and Harbor Commissioners of Montreal, all payable in United States funds.

MINE CHIEFS GIVE UP FIGHT

SYDNEY, Australia—The general coal strike, which has paralyzed winter-bound Australia for almost seven weeks, will end August 15. The communist-dominated executive of the Australian Miners' Federation has given up the fight and has authorized all miners to return to work on that date, R. Hamilton, acting president of the Federation, said today. Until the mines are brought back into full production by the regular miners, troops will remain in the pits, the government announced today.

Girl Is Selection Of Rupert For Miss P.N.E.

Rupert's 1949 nominee for "Miss P.N.E." is the National Exhibition in Vancouver this delightful Terrace girl—demure medium brownette Cynthia Norton who, by tidy choice of Capitol Theatre audiences past three nights in the elimination contest, has won the best of 6,207 votes.

Two Cases of Black Death

But Modern Treatment Works Wonders With Bubonic Plague. SANTA FE, New Mexico—The illness of two New Mexico residents was yesterday found to be bubonic plague—the black death of the Middle Ages.

Only twenty-one other cases of the disease have been listed in the United States during the past twenty-five years. Dr. Vernon Link of the Western Contagious Disease Control Centre at San Francisco told a press conference that modern drugs had, apparently, achieved a smashing victory over the ancient flea-borne disease. The treatment, he said, had brought dramatic improvement in both cases.

Time For Halt

WHERE WILL IT ALL END? The railways announce that, effective September 1, freight rates on 100 commodity items between Eastern Canada and the United States will be boosted five to thirty percent. At the same time, railway employees are seeking another pay increase. So the spiral of mounting production costs continues. These increasing costs are gradually pricing Canada out of her export markets. At the same time the domestic markets, which means the public, will be expected to pay the higher production bill. Eventually, the public will be able to stand it no longer and the domestic markets, by sheer necessity, will also dry up.

Every day the economic situation becomes more challenging. Ingenuity, reason and forbearance are required on all sides. The traffic can stand so much and then collapse. A situation is developing of which thinking people cannot be unmindful.

ADVERTISING MAKES STRENGTH

IN 1928 WHEN the Postum Co. paid \$43 millions for Maxwell House Coffee, it was estimated that not less than \$30 millions of that amount was goodwill for the much-advertised name.

In 1935 Adolph Zukor values the name Paramount at \$15 millions.

Pears Soap placed its first national advertising in 1901 and for the next 20 years spent more than \$1 million a year in advertising. Then, considering the brand well-established, advertising was stopped. That year sales dropped \$1.5 million, more the next. After several years of decline, small advertising was resumed. But its market had gone, and Pears was soon sold out to a competitor.

In a general way, there has been some understanding of advertising as a company asset but there is a Chicago investment analyst who has recently made the most penetrating analysis.

He's Stanley H. Morgan and his comprehensive study is called "The Power of Advertising to Increase the Capital Value of an Enterprise."

His finding is:

"The advertising dollar spent for indispensable product and prestige advertising can produce, in addition to income, long-term capital gains without further cost to the enterprise."

Morgan studied a group of actual cases and found that in times of general prosperity, the common stocks of the best known companies sell as high as 12 to 16 times earnings while the stocks of less well known companies sell as low as three to five times.

In these turbulent times, when the quality and farsightedness of business management plays such a big role in determining not only the general welfare but in preserving our free institutions, the penetrating analysis of people like Morgan has great value and importance.

Letters to the Editor

ANCIENT HOUSES

Editor, Daily News:

The undersigned has been greatly interested in your account of the discovery of ancient stone houses found in an interior valley. An examination of them by an archaeologist may prove most valuable in determining certain racial movements.

However, such buildings are not rare on the coast, in the proximity of ancient native settlements. They were not used as dwellings but served special purposes.

One at Port Essington, abutting a small cliff just south of the rectory building, was used for roasting out the "Spirit of Sickness" from ill folk.

Patients suffering particularly from pulmonary ailments, were put in these structures.

Fires were built, near at hand in which large rocks were heated, then rolled to the floor of the hut and covered to a considerable depth with green spruce and hemlock boughs. The sick, wrapped in furs or blankets, was then laid on top and the hut closed for a certain period. If at the expiration of the allotted time the patient was living, the devil had been roasted out. The patient was taken to his home which, meantime, had been thoroughly disinfected by fumigation. Wild helibore (an indigineous and prolific plant) was burned in the house and every germ of sickness driven out. The late Dr. R. W. Large said there was no more potent disinfectant conceivable than the poisonous smoke fumes of this plant.

The last patient to be treated (roasted) in the Essington hut was a native girl. She was rescued from the hut and afterwards adopted by the Rev. Mr. Jennings, the then Methodist Missionary at Port Essington. She may still be living.

In days gone by it was customary for native hunters, before starting on their annual fur hunts, to undergo a very severe ordeal. Huts, usually of stone, some of considerable size, were built near the village. At the appointed time, usually in February, I think, great fires were built at the huts, rocks were thrown in and, when thoroughly heated, rolled into the huts, then the nude hunters entered. Water was thrown on the rocks and an intense steam

bath resulted. Then the hunters drank purgatives (devil club bark solution) and fasted, taking nothing but pure water until it was ejected in as clear a state as when taken. During this ordeal domestic relationships were absolutely taboo. The supply of hot rocks was kept up by the women of the tribe.

When all human taint had been purged and sweated out every hunter was reclined in new previously unused garments.

The remains of these stone huts are still to be found.

There are still living a few natives who have thus graduated as hunters but, so far as I know, only one white man, Max Collison of Smithers. Mr. Collison told me that, after the event, he felt physically light, as if he might fly, agile, tireless and strong.

The men who underwent this discipline were undoubtedly the outstanding hunters of the tribe.

W. F. RUSHBROOK.

UNJUSTIFIED IMPRESSION

Editor, Daily News:

Tuesday's issue of the Daily News carried an item under the heading "Matter of Principle Brings Taxpayer Before City Council."

Though the reporting of the incident is correct, Mr. Editor, it leaves an impression with your readers that is not justified.

Why did our City Clerk H. D. Thain choose to make his statement after I left the presence of the Council? He had the opportunity of discussing this before I obtained permission to leave.

Would Mr. Thain answer through these columns so your readers may come to their own conclusions.

If only water accounts can be prepaid (quote Mr. Thain) why was my money accepted for garbage and phone and an official receipt duly given me?

Thanking you for valuable space in your paper Mr. Editor,
GEORGE McWHINNEY.
"George."

GAS STOLEN

(Continued from Page 1)

the morning of the 29th secure in the knowledge that the tanks were full.

"A warning has been issued by this company to all flying personnel to exercise every precaution in future to eliminate any possibility of its recurrence.

"The Provincial Police in Prince Rupert were immediately notified of our conviction that the gasoline was pilfered and, in view of its serious consequences, we have no doubt that the matter is receiving their attention.

"You will appreciate, of course that there have been many times in the past when the aircraft at Seal Cove air base have been left unguarded at night due largely to a misplaced faith in human nature which lead us to believe that no one would tamper with an aircraft in such a way as to endanger human life. It has therefore become necessary for us to provide protection for the aircraft at Seal Cove in future.

"You will be interested to know that this Company has commended Pilot Berryman for presence of mind displayed in the emergency and due to which a much more serious accident was averted."

Ray Reflects . . . and Reminisces

Visitors from the Southern States tour the north every summer and 1949 is no exception. They enjoy the change, and it is a pleasure to welcome them! Which reminds one of a story. During the war a lieutenant from Virginia, stationed here, was introduced to a party who obviously, could never have been far from home.

"Virginia?" he queried. "Where's Virginia?"

The Associated Boards of Trade convention in Smithers next week will have abundance of business to deal with. One resolution will urge air mail service for the Queen Charlotte Islands and northern coast towns of Alice Arm and Stewart. And how pleasant, some day, to have the temerity to hope for a postal mail delivery in Prince Rupert!

Rita Hayworth was spread all over the world's front page a month or more ago, and now she's coming back. This time, it's news. Rita had become

Among the facts to follow is the Premier's announcement of regular work continuation level while the draw unemployment claim of having more and more.

The Sun under a scare head, says July has been Rupert's wettest month. How interesting! And it had been taken for granted the silly practice started by the Vancouver press years and years ago and finally dropped because no one paid attention, actually was forgotten.

From a Massachusetts clergyman comes the suggestion that the word "love" be substituted for "live" in the phrase "as long as ye both shall live" in the

Plenty of milk is essential to any well-balanced diet. In Pacific you'll find an easily digested, economical milk containing the necessary minerals and vitamins for healthy meals. Vacuum packing insures farm freshness.

PACIFIC MILK
Irradiated and Vacuum Packed

ARTHUR KNUTSON FUNERAL TODAY

Funeral rites for the late Arthur Knutson who died in the city last week were held this afternoon at Grenville Court Chapel with B. C. Undertakers in charge. The service, which was attended by family members and friends, was conducted by Rev. George E. Sendall of First Presbyterian Church.

Hymns sung during the service were "Safe in the Arms of Jesus" and "Shall We Gather at the River." Mrs. E. J. Smith was organist.

Interment took place at Fairview Cemetery with the following acting as pallbearers: Donald Scherk, Sydney Scherk, John Currie, Stan Vickerman, Harry Harrison and Louis Crompt.

SHIPS and WATERFRONT

Carrying 246 round trip passengers and a number of passengers for Alaska, the Canadian National steamer Prince George, Capt. E. B. Caldwell, was in port this morning, northbound. She sailed at 1 o'clock this afternoon for Ketchikan, Juneau and Skagway.

Mr. and Mrs. W. H. Wilson-Murray are sailing tonight on the Prince Rupert for a vacation trip which will take them as far as the Kootenay Lake country. They will be accompanied south by Mrs. Wilson-Murray's parents, Mr. and Mrs. Thomas Peddie, returning to Vancouver after a two weeks' visit here.

ELECTRICITY SHOULD BE CHEAP, SPAAK IS PRESIDENT

Why British Columbia is not one of the most electrified areas on the continent is a matter of puzzlement to Albert A. Thorson, of Portland, Oregon, who has pondered the matter while watching endless torrents of water tumble down mountainsides while on the deck of a cruise ship.

Mr. Thorson's interest in hydro power is a logical one, since he is an electrical contractor in the American city. Also, he is a native of Sweden which, he says, has made electricity a universal servant to an extent unequalled anywhere else in the world.

A round trip passenger on the Camosun, which docked here southbound from Stewart Tuesday, Mr. Thorson said that he was fascinated by the obvious hydro electric potential along the British Columbia coast.

"With all that fast water going to waste, there is no reason why every home in Prince Rupert should not be completely

SPAAK IS PRESIDENT

STASBOURG, France (AP)—Paul Henry Spaak, Belgian Socialist leader, was unanimously elected today as first president of the European consultative assembly.

The chunky little Belgian resigned yesterday as acting Premier and foreign minister so he could take over the job in the newly-created council of Europe.

Former Prime Minister Winston Churchill of Great Britain nominated Spaak for the Assembly presidency.

The 101 delegates from a dozen countries quickly endorsed the selection without opposition.

LUXURY YACHT VISITS PORT

The luxury yacht Savitar of Los Angeles, owned by Phillip Berg, a Hollywood actors' agent, stopped in port here briefly yesterday to take on fuel while en route to Skagway. Accompanying Mr. Berg were his wife, the former actress Lila Hyams, and

several friends. They put in here about this month. The yacht is 300 feet long and is powered by 300 horsepower diesels. She is one of the most opulently appointed yachts in the world.

NOTICE OF SALE OF MINING EQUIPMENT

Pursuant to Section 36 of the Placer-mining act tenders are invited for the purchase of the following abandoned mining equipment removed from placer-mining leases, formerly held by Messrs. Cox and Benson, located on Dease Creek, near Dease Lake, B. C. in the Stikine Mining Division and now in storage in the Public Works' warehouse at Telegraph Creek.

One 12-inch Pelton Wheel
Tenders must be submitted by registered mail, accompanied by certified cheque for the full amount of the tender and will be received at the office of the undersigned at Victoria, B. C., at or before twelve noon on the 10th day of September, 1949.

The highest or any tender will not necessarily be accepted and such tender as may be accepted will be on the condition that the equipment is to be used for mining purposes and must be removed from its present position within ninety days from date of purchase.

Dated at Victoria, B. C. this 8th day of August, 1949.

K. B. BLAKEY, Gold Commissioner,
Stikine Mining Division,
Victoria, B. C.

A WEEKLY INFORMATION SERVICE

MONTREAL, August 11th. — Perfect desserts to grace any occasion . . . and high up on my list of "helps for quick meals" are delicious JELL-O PUDDINGS. Wonderfully economical . . . you'll find them real budget-savers . . . and so amazingly quick and easy to make! What a glorious assortment of these creamy, smooth-flavored puddings there are — so nourishing and wholesome, too! Such old-fashioned favorites as Chocolate, Vanilla and Orange Coconut Jell-O Tapioca Puddings . . . sumptuous, rich Chocolate, Butterscotch, Caramel and Vanilla Jell-O Puddings.

One Touch of Imagination plus deliciously smooth "CREAM OF WHEAT" will help to make your toddler's mealtimes as much fun as a circus! Play "surprise Party!" Put a spoonful of favourite jam or jelly in the bottom of a bowl and cover with smooth "Cream of Wheat", sugar and cream. Then, watch Junior spoon his way happily down to the hidden treat! Or — introduce your youngster to "Mr. Top of the Morning!" Simply outline a jolly smiling face with seedless raisins on top of a bowlful of "Cream of Wheat"! Just right for toddlers — 5 Minute "Cream of Wheat" cooks to baby-ready digestibility in only five minutes of boiling. It's so good . . . and so good for your baby . . . for it contains Iron, Calcium and Phosphorus for diets deficient in these elements. And the whole family will love that "Cream of Wheat" smooth-ness at breakfast! Order 5 Minute "Cream of Wheat" from your grocer today!

Complement Your Sun Tan with this light-as-air powder that will win you compliments on your glowing complexion! It's that wonderful NEW WOODBURY POWDER . . . in a very special, Summer-right shade . . .

Tropic Tan! You'll adore it! . . . for warm, glowing Tropic Tan gives your skin a natural look . . . doesn't look the least bit powdery—even under the Summer sun! That's because the new Woodbury Powder contains a very special, exclusive ingredient that gives a satin-smooth look to your skin . . . helps the powder cling longer and cover tiny blemishes! Small wonder that in a recent impartial test among women from Coast to Coast, the New Woodbury Powder was a 4 to 1 favorite! Ask for the new Woodbury Powder . . . choose Tropic Tan or one of six other lovely shades in two convenient box sizes and one "purse" size . . . 65c, 37c, 19c.

You'll Take To Baking Biscuits every night of the week . . . for with wonderful TEA-BISK to help you, it's not a hot — nor a tedious job at all! It's fun! Serve biscuits—light, fluffy—and piping hot from the oven to that enthusiastic family of yours! It's so very simple with Tea-Bisk, the original "ready-mix". Just add milk or water, then pop your biscuits in the oven! You can make marvelous dumplings and pancakes—chicken pies and puddings—with "magical" Tea-Bisk, too! The recipes are on every package of Tea-Bisk . . . and you'll enjoy making Tea-Bisk-treats almost as much as you'll enjoy eating them!

I'm Sure You Know that one way to be sure of a good French Dressing is to make it with MAZOLA Salad Oil! And Mazola makes fried foods taste better, too! But did you know that Mazola is the new — the better — and butterless way to make light 'n' fluffy cakes? Just write to me — Barbara Brent, 1411 Crescent St., Montreal, P.Q. — for these marvelous Mazola Cake Recipes — and discover this new cake-making secret for yourself! (Ask for Mazola Recipe Sheet MA 21)

"Summertime . . . And The Livin' Is Easy . . ." This line from a beautiful Gershwin lyric expresses a sentiment with which I'm afraid most burglars agree. During the hot months, many of us leave our valuables at home while we are away on holiday. Even though we lock up carefully, the clever burglar can usually find a way inside. Yet it's easy enough to foil him, as simple as renting a BANK OF MONTREAL Safety Deposit Box. Costs you only a cent or two a day and assures you of safety for all your important papers, jewels and keepsakes. That's why I urge you to ask about a Safety Deposit Box at your B of M branch—soon. It will be a happier holiday if you know your valuables are secure in the B of M.

Seeing A Show, reading a good book or playing cards are excellent forms of relaxation for all of you except your eyes. They never seem to get any time off! So give your eyes the care they deserve — cleanse, soothe and refresh them daily with MURINE! Truly, I've found that Murine is my most "soothing" companion wherever I go! I carry it in my purse for eyes tired from overwork or the effects of sun, wind or dust. Murine's skillful blend of 7 ingredients cleanses and soothes tired, used-up eyes quickly, and as gently as a tear. Ask your druggist today for Murine!

Your pickles can be "famous" too

When you are shopping for vegetables and for canning you do not hesitate to pay a few cents for the freshest and choicest you can find.

Why not do the same with vinegar—a few more will give you the flavour-secret that has made Heinz own pickles a world favourite.

When you offer your pickles, your family friends will exclaim: "Say, these are famous!"

WORLD EVENTS IN PICTURES

INS ITS BIRDMEN—A last-minute briefing by his and one of the 13 reserve naval pilots on the flying course at H.M.C.S. Shearwater will take his Firefly into the air. These dual-control aircraft are a training for the Firefly anti-submarine strike aircraft used by the naval air branch. They are advanced trainers designed for the change-over from standard trainer to first-line fighter. In the cockpit is Lieut. Verne Cunningham, of Toronto and on the wings is his Instructor Lieut. Woods, R.C.N. of West Vancouver.

MAN SAVES SHARK FROM DROWNING—Definitely not a thing for amateurs, is the job being undertaken by Diver Floyd Adams in the Oceanarium at Marine Studios, Marineland, Fla. He is in the process of reviving a giant tiger shark, by walking it. If water is not forced through the shark's gills in this manner, it will drown.

TOOK 40 YEARS, BUT HE DID IT!—After fishing for 40 years, Cal Johnson of Minneapolis hit the jackpot and caught a record-breaking 67½-pound muskie on Couderay lake, 10 miles south of Hayward, Wis. Johnson is shown with the 60¼-inch fish. Previously the record fish caught was a 58-inch weighing slightly under 65 pounds.

EGG-BEATER — The world's first amphibious helicopter—providing floats for water and land—has been developed for the U.S. air force and is being tested for commercial operation by the Civil Aeronautics Administration. Here you see the landing gear in use on land. At top the 'copter is taking off after a routine test. Below, the wheels are in play. Above the cockpit is the hydraulic rescue hoist. The floats on the side of the fuselage indicate the location of the floats which rescued injured may be transported.

AIR PAGEANT BRINGS OUT SOME ODD PLANES—Ace flyers from U.S., France, Holland and Britain were among the attractions at the International Air Pageant held at Gatwick airport, England. Glider displays, performances by the latest type of aircraft, and aerobatic demonstrations were features of the pageant. Here, Miss Betty Skelton, U.S. feminine international aerobatics champion, who gave displays at the pageant, chats with Karl Montide, pilot of the "Wee Bee," smallest piloted plane, who is strapped to the aircraft before taking off.

FLOOD CONTROL IN DELHI—The monsoons have started in Delhi, the capital of India. Heavy downpours have cooled down the temperature, but with this advantage they have brought more hardships and problems for homeless refugees, who are living in camps and makeshift homes in and around the city. Roofed accommodation is being built for these unfortunate people, but until it is ready they have to struggle against the forces of nature to keep their shelters and worldly possessions from destruction. Here inmates of the flooded camps are working hard to make outlets for the flood waters.

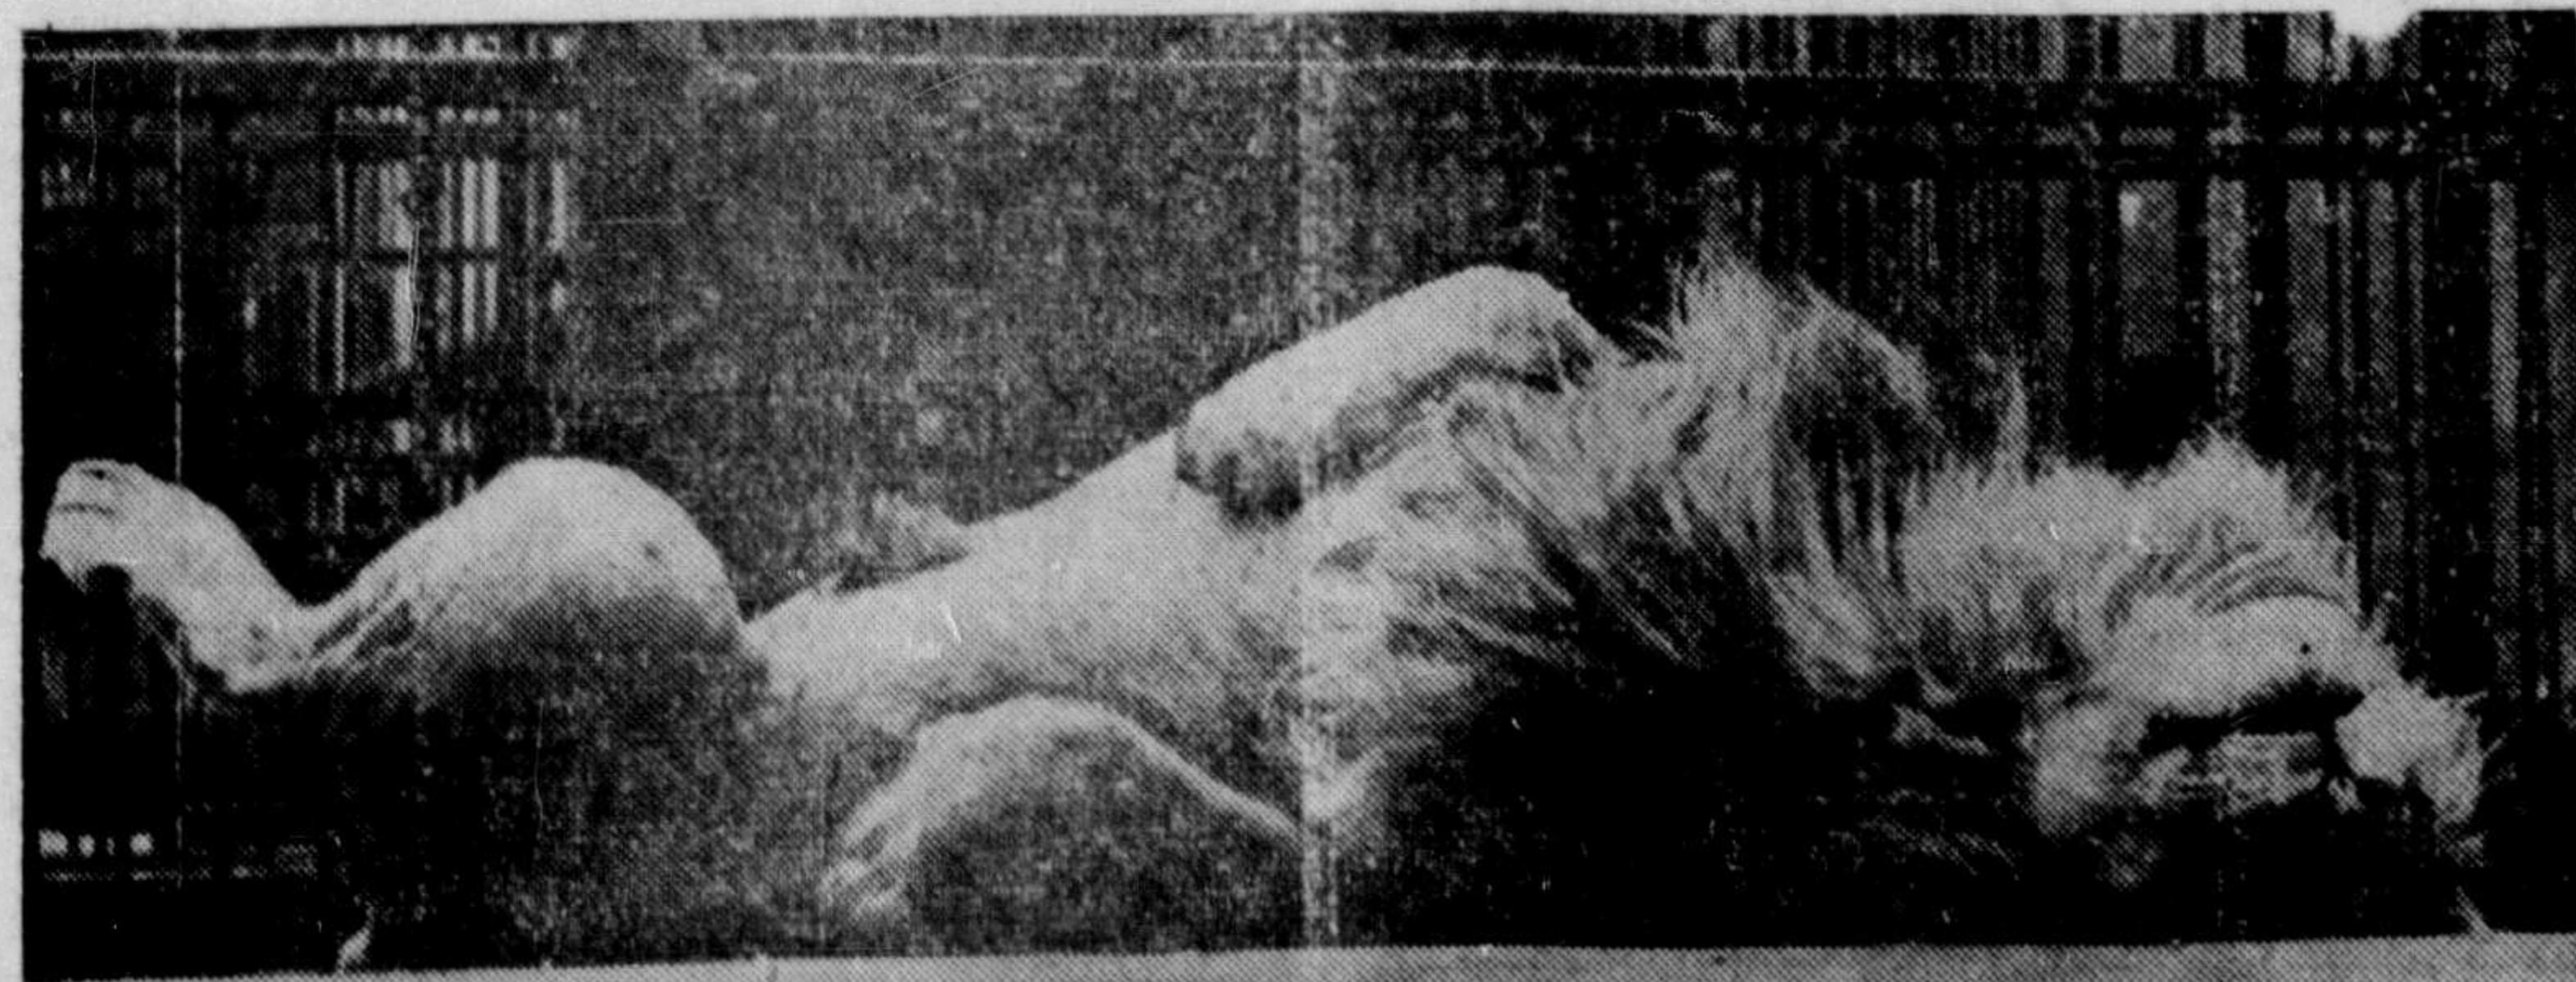

CHALK RIVER ATOMIC ENERGY PLANT MAY PRODUCE A-BOMBS FOR CANADA—David E. Lilienthal, left, chairman of the U.S. atomic energy commission; Louis Johnston, centre, defence secretary; and Dean Acheson, secretary of state, confer before going into a closed-door meeting with the congressional atomic committee on the subject of atom bomb secrets. President Truman's assurance to Congress that U.S. techniques in making A-bombs will no be shared with Britain and Canada, leaves the Dominion in the position of having to make the bombs herself.

HEAD OF G.S.U. THANKS DOCKERS — Harry Davis, president of the Canadian Seamen's union, who flew from Marseilles to address the striking British dockworkers, is shown speaking to the men at mass meeting in London's Victoria Park. The British dockworkers returned to work after Davis accepted terms of settlement on behalf of the C.S.U. and thanked dockworkers for their support.

YOUNGSTERS TRADE IDEAS IN JAPAN—A growing exchange of ideas among youngsters of the U.S. and Japan has resulted from the association between the young of the old and the new world in Japan since the occupation. U.S. children are rapidly picking up the favorite amusements of their oriental playmates and Japanese youngsters are learning to play ball, skip rope, and even master the tongue-twisting slang of most small-fry Americans. Little girls are the same the world over, and here three of the 1,700 children of U.S. occupation forces in Tokyo are captivated with the kimonos of Atsuko Hirano, a Japanese playmate who is fitting Mary Jo with one.

HIS ROYAL HIGHNESS SURRENDERS UNCONDITIONALLY—Like a big tomcat, Leo, the lion at Regent's Park zoo, London, Eng., just lies limply on his back in complete surrender to England's heat wave.

BIG GAME HUNTER AND VETERAN, TOO—Thirteen-year-old Elaine Monesmith, of Dayton, Ohio, is shown in her New York hotel room looking over her collection of firearms. Elaine, here with her dad, has already participated in two big-game hunts in Africa and is now making plans for her third expedition scheduled for next February.

You're absolutely right, it is vacation time now... but in a few months cold weather will be here again and you want to be prepared with a safe warmth-giving COAL supply. CALL 651 TODAY!

"If that young fool spoils my wife's new slippers..."

GREAT PLACE FOR CHILDREN

By LUD HAWKINS
JASPER PARK—The great Rocky Mountain area known as Jasper National Park, with its myriad of beautiful and mysterious mountains, its wide and narrow valleys, jeweled lakes and rushing torrents, has long been associated in people's minds as the playground of Canada.

This "playground" idea appeals to the adult mind, conjuring up memories of childhood and youth, when, with a carefree mind, all kinds of sport was indulged in with an abandon of body and spirit. Here, in the Canadian Rockies, can be found Ponce de Leon's mystic spring of eternal youth, and the grown-ups flock to this great park from the four corners of the world in search of it—and they do indeed find it. But for the really young, the little children and the teenagers, De Leon's spring is ignored, because it is not needed. Here, in the Rockies, children of all ages find at hand so many outlets for their limitless energies and imagination as to make them literally believe in Fairyland.

FORMER MOVIE STAR VISITOR

Former heart-throbbing moving picture star and now a public relations executive with Metro-Goldwyn-Mayer, Ben Lyon was a visitor in Prince Rupert today. He was heading north for the Alaska cruise aboard the steamer Prince George and will be back in port again next Tuesday night. Lyon and his wife, Bebe Daniels, also a popular star of a decade ago and more in the movies, spent the war years in England where they were prominent in the entertainment of troops.

SENATOR TURGEON IS COMING NORTH

Senator J. Gray Turgeon, former Member of Parliament for Cariboo, will be among the distinguished visitors coming north for the annual convention of the Associated Boards of Trade of Central British Columbia at Smithers next week. He will arrive next Wednesday morning on the Prince Rupert from Vancouver and proceed to the interior by train the same evening.

Charles Beats Gallant Gus

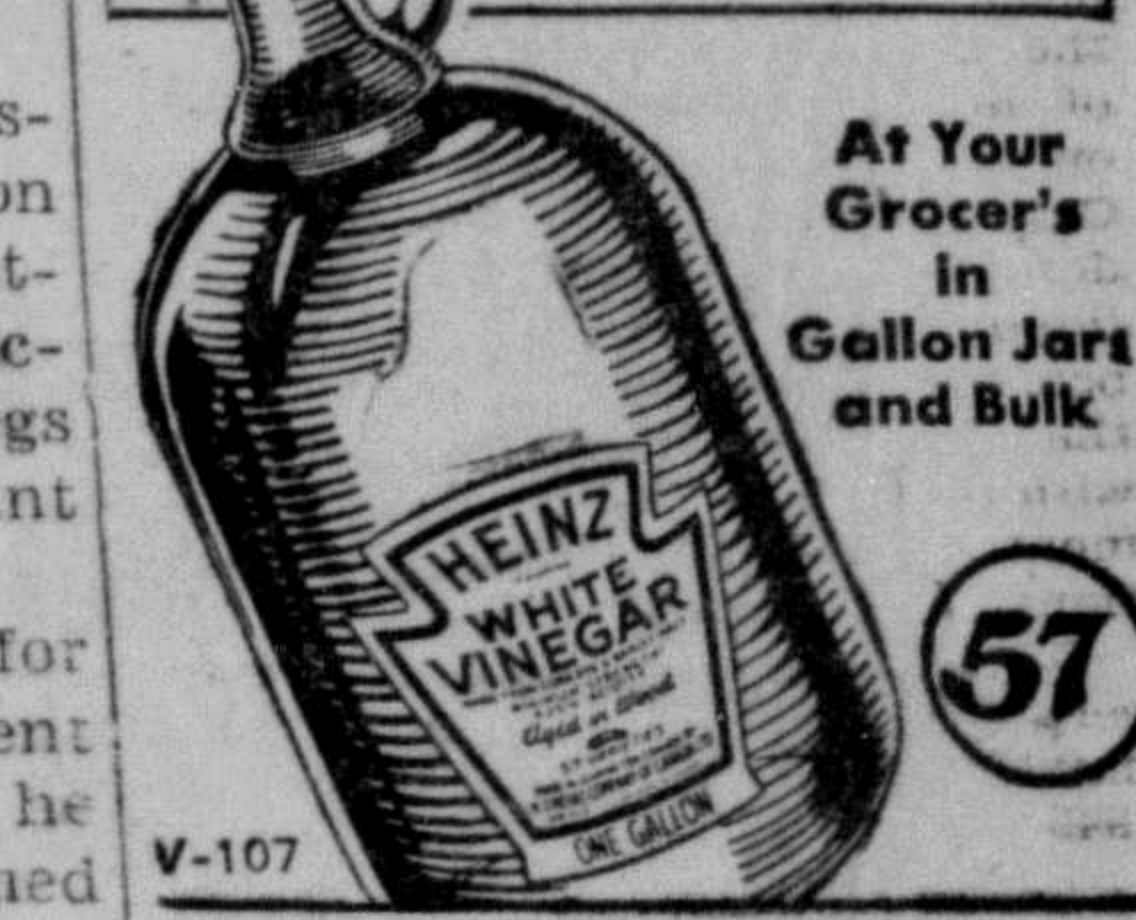

Heavyweight Title Bout Ended to Save Lesnevich
NEW YORK — Ezzard Charles, National Boxing Association-recognized world's heavyweight boxing champion, stopped Gus Lesnevich, 34-year-old ex-light-heavyweight king, last night when Referee Goldstein ended the contest at the end of the seventh round in Yankee Stadium. A small crowd of some 15,000 watched the 28-year old Charles, defending his title for the first time only 49 days after he won it at Chicago, give Lesnevich a bad pasting, cutting Gus around the left eye and plugging up the right eye. Manager Joe Vella asked Goldstein to stop the fight as Gus came back to his corner, a tired beaten fighter at the end of the seventh. He made a gallant stand in the sixth when he seemed to hurt Charles with a stiff over-hand right. Charles, much more aggressive than on the night he won the title by cautiously outpointing Jersey Joe Walcott at Chicago June 22, buckled Gus' legs in the fourth but the gallant Gus never did go down. The end came suddenly for Gus seemed all right as he went to his corner. Never had he been down but blood streamed

from cuts over and under the left eye. There was an egg-sized bump under his right eye.

for pickling success choose the best vinegar

Mustard Pickles
Wash 3 lbs. small pickling cucumbers. Combine 4 cups Heinz Distilled White Vinegar; 1/2 cup Heinz Prepared Yellow Mustard; 1/2 cup salt and 3 1/2 cups sugar. Heat to boiling. Add cucumbers and return to boiling. Quickly pack one hot, sterilized jar at a time. Fill to 1/8" from top. Be sure Vinegar solution covers the vegetables. Seal each jar at once. Yield: 7 pints.

At Your Grocer's in Gallon Jars and Bulk

BASEBALL—Ketchikan and Prince Rupert

Plans for the coming baseball series with Ketchikan were brought to the final stage Tuesday night when the Prince Rupert Baseball Association executive met. Following a telephone conversation with Bill Eastman of Ketchikan, Art Murray disclosed that the Alaskans would fly here for games Sunday afternoon and evening. The visitors had planned on coming by boat but agreed to the change in transportation so that, if the weather is not favorable, it would be possible to postpone the trip.

It will take better than \$600 to finance the series and, with a short margin in the bank, the local club is justifiably nervous about taking chances on the weather. An outstanding feature of the series will be the game in which veteran Bill Eastman of Ketchikan and the local oldtimer, Bill Lambie, will be paired off on the respective mounds. It is twenty-seven years since Lambie first pitched against Ketchikan and, while Eastman's record is not at present available, is believed that he made his debut almost as long ago. Judging by Lambie's performance in a local league game this season, Eastman will have to be in good form. Alex Bill was appointed manager of the local squad and Ed Davis and Johnny Odowes will lend their talent in coaching roles. Bill Scuby and S. J. Mellor, new members of the Prince Rupert Rotary Club, provided the program at the club's weekly luncheon today, giving autobiographical talks. President R. G. Van der sluis was in the chair.

RE: CERTIFICATE OF TITLE NO 8042-1 TO LOT TWENTY-FOUR (24), BLOCK TWENTY-NINE (29), SECTION SIX (6), CITY OF PRINCE RUPERT, MAP 923
WHEREAS satisfactory proof of loss of the above Certificate of Title issued in the name of Neil MacLean has been filed in this office, notice is hereby given that I shall at the expiration of one month from the date of the first publication hereof, issue a Provisional Certificate of Title in lieu of said lost Certificate, unless in the meantime valid objection be made to me in writing.
DATED at the Land Registry Office, Prince Rupert, B.C., this 19th day of July, 1949, A.D.
ANDREW THOMPSON,
Deputy Registrar of Titles. (194)

Such a Pretty Dessert!

SPARKLING and appealing, these gaily fruited Jell-O molds have the glowing color... and flawless brilliance... of a jewel! As for flavor — all seven of Jell-O's famous "locked-in" flavors are so delicious... full of tangy, fresh-fruit goodness. And Jell-O is one of the thriciest desserts, possible!
Serve Jell-O often. Remember to look for the big red letters on the JELL-O box.

What's found only in Jell-O? That "locked-in" Jell-O Flavor!
There are seven famous Jell-O flavors

Jell-O is a trademark owned by General Foods, Limited

BABY'S CRY IS NOT ALWAYS TEMPER

DISTINGUISH between your baby's cry of pain and cry of temper. The "pain cry" should have instant attention. For the feverish distressed due to gas on stomach or bowels or those common digestive upsets, give Baby's Own Tablets at once. Mrs. May Mundy, of Toronto, finds they work every time.
"I am the mother of nine children, three of them girls, and Baby's Own Tablets have been my only medicine in raising them to the healthy children they now are. As soon as my children become a little fussy, I at once give them Baby's Own Tablets and in a very short time the fever disappears and the children were normal again.
Equally effective for constipation, upset stomach, teething troubles and other minor ailments of babies.
Quickly effective. Sweet-tasting—easily crushed to a powder, if desired. No "sleepy" stuff—no dulling effect. Get a package today. Sickness often strikes in the night. 25 cents. Money back if you are not satisfied.

**MOBILE ANTI-TB
UNIT TO COVER
CITY, INTERIOR**

A campaign which will seek to ferret out unsuspected or incipient cases of tuberculosis in central British Columbia will begin in the Prince Rupert area on August 15 with the arrival here of two mobile x-ray vans

which will move inland after a week's visit.
The campaign, sponsored by the provincial Department of Health, has its local strategic centre at the Prince Rupert Health Unit which has organized a drive to interest people in having free x-rays taken to determine whether or not they are free of the disease.
According to Miss Joyce Leslie, senior nurse at the Health Unit, there has been a good response and a large list of names

**WHAT'S IN IT
FOR YOU?**

First, IMPORTED BOTANICALS... exotic seeds and berries to give it rare smoothness and flavour.

Second, PURE GRAIN SPIRIT... the all-important base of the finest Gin... made from the choicest crops of Western Canada and the glacier-fed waters of the Pacific Coast range.

Third, It's TRIPLE DISTILLED... to remove all harshness and impurity... and to produce a distinctive dryness.

THE RESULT?
"Silver Slipper"
The Perfect Base For
the Perfect Cocktail,
Collins, Dry Martini
and Fizz.

SILVER SLIPPER
LONDON DRY GIN

"I'd like to place a bet on a punctual horse."

has been prepared by a canvass of volunteer workers.
The mobile unit will consist of two vans, each with two technicians, who will make speedy x-rays of those taking advantage of the service. This is the third year that such mobile units have visited this area.
One of the vans will give coverage to industrial plants in this area, starting with the Nelson Bros. plant at Port Edward on August 15. The other will remain at the Health Unit where Prince Rupert people not x-rayed in the industrial circuit, will have an opportunity to be x-rayed.
The industrial plant unit will spend August 15 and the morning of August 16 at Nelson Bros., then move to the Columbia Cellulose plant where it will remain until the evening of August 17.
This unit will then move to the Canadian Fish and Cold Storage plant at Seal Cove for a three-hour session on August 18, changing its location to the dry dock that same afternoon.
It will spend three hours at Cow Bay on the morning of August 19, then move to the Fishermen's Co-operative plant

at Fairview Bay on the afternoon of August 19.
It will leave for Terrace on August 22 and cover interior towns as it moves eastward until September 2.

The "breakdown unit" which will be spotted at the Health Unit will be open to give x-rays for a two-day visit on August 30 and 31, then to Burns Lake September 1.

Mrs. George Hill and daughter, Kathleen, left today by air for Masset where they will visit Mrs. Hill's mother for several days.

Dr. and Mrs. L. M. Greene will be among those going to Smithers next week to attend the annual convention of the Associated Boards of Trade of Central British Columbia of which Dr. Greene is immediate past president. He is leaving Friday for a three weeks vacation at Lake Kathiyn.
