North Korean Offensive Being Slowed Up

Manoeuvres To End Korea War United States Will Insist On Departure Of Reds Into North

WASHINGTON, D.C. — (CP) — Diplomatic manoeuvres to end the Korean war continued today. A published exchange of letters between Prime Minister Nehru of India and Prime Minister Stalin of Russia in which the two leaders agreed that China must be admitted to the United Nations before any settlement of the conflict could be negotiated.

Secretary of State Dean Acheson has been expected to insist that the United States will not bow to the price of bowing to the Communists.

The United States and most other nations expected to insist that the United States can come only when the Communists return to the table.

Reuther Proposes— Big War On Communism

Asks Truman To Spend Trillion Dollars In 100-Year Campaign

DETROIT — President Truman yesterday was asked to propose that the United States invest more than a trillion dollars in a 100-year fight against Communism.

Walter Reuther, president of the United Automobile Workers' Union, made the proposal to the president.

Reuther proposed a vast nine-point program under United Nations sponsorship.

Brigadier Angle, Kelowna, Killed

CALCUTTA — Brigadier H. H. Angle, 42, of Kelowna, chief military observer for the United Nations commission on Kashmir, was included among twenty-two persons killed in the crash of an Indian National Airways airplane in the mountainous Punjab-Kashmir frontier yesterday.

Brigadier Angle was a former fruit farmer, magistrate and military man.

Wreckage of the transport, which carried 18 passengers and a crew of four, was found in 12,000-foot high Banihal Pass.

The plane was flying from New Delhi to Srinagar, capital of Kashmir.

Four other members of the Kashmir Commission were aboard the plane.

Sabotage In Naval Blast

LONDON — The blast which blew up nine barges full of naval ammunition Friday night may have been caused by sabotage, an Admiralty statement said Monday. The munitions barges exploded after one caught fire. About thirty persons were injured but no one was killed.

The explosion scattered live ammunition over a wide area around Gosport and neighboring Portsmouth naval yard.

The Admiralty said: "Further evidence which has come to light shows the possibility of sabotage being the cause of the initial fire. . . . This cannot be ruled out."

Naval and military security officers today combined in a country-wide hunt for sabotage suspects in the dockyard explosions. They were working on the theory that the explosions in Britain's main naval base and three reported fresh cases of sabotage on board destroyers were all part of a large scale plot.

BEST MAHOGANY

The export of mahogany has been the principal industry of British Honduras for more than two centuries.

BRITAIN DEVELOPS MIDGET SUBS — Looking like troglodytes, these frogmen, complete with flippers and breathing masks, dive off a raft at Portsmouth naval base, England. Development of diving equipment has been one of the marked advances in British naval research since the last war showed the destructive power of the individual underwater carrier of demolition charges.

To Be Tried On Murder Charge

SIMCOE, Ont. — A wartime firearms expert was ordered yesterday to stand trial for the cold-blooded murder of two farmers who tried to foil a bank bandit's escape.

Joseph Herbert McAllister, aged 32, was identified by three persons as the bandit who held up a bank in Langton, Ontario, June 21.

The bandit, police say, shot and killed Arthur Lierman, 31, and William Goddyn, 24, as they tried to overtake him and recover \$22,500 loot.

Oil Shipments To Red China Ended

LONDON — A Foreign Office spokesman announced today that Great Britain has stopped all oil shipments to Red China. British services in the Far East need oil for their own use, a spokesman said.

Fourth Alleged Spy Is Arrested

NEW YORK — A fourth American, allegedly linked to Dr. Klaus Fuchs' atom spy ring, was arrested at his home here last night by the Federal Bureau of Investigation. He is 32-year-old Julius Rosenberg, baldish, bespectacled engineer, married and father of two children.

The Department of Justice charged him with conspiracy to commit espionage and said he recruited for the cloak and dagger Soviet spy apparatus that penetrated United States atomic secrets.

Bigger Pensions May Be Deferred

OTTAWA — The Korean war, in addition to its many other ramifications, may have tipped the scales against any further Canadian advance into a welfare state at this time.

It is considered doubtful here that the federal government, faced with the prospect of mounting defence costs and months of world tension, will seriously consider a sharp increase in the old age pensions costs as recommended by the Joint Parliamentary committee last month.

Loggers Hurt; Rushed Here

An emergency flight of Queen Charlotte Airlines Monday brought Jack Greenlees and Donald Fentie to Prince Rupert following an accident at Kelley Logging Company's camp at Juskatla Inlet near Masset, Queen Charlotte Islands. Fentie had a broken leg and Greenlees was hit with a cable. Both men are reported doing well at Prince Rupert General Hospital.

The airlines answered a call from the island and landed the men here at 12:50. They were rushed by ambulance to hospital for treatment.

Is Heading For Korea

After a brief visit here with his parents, Mr. and Mrs. W. D. Faught, 701 Fifth Avenue West, Francis Faught left by air at the end of the week for San Francisco. He is rejoining his ship, Sultan, which is proceeding to the Korea area.

MONTREAL COLLISION

MONTREAL — Twenty-eight persons were injured in a serious accident this morning when a street car and a bus were in collision.

ONTARIO SENATOR — A life member of the Toronto Liberal Association, Senator Arthur Wentworth Roebuck of Toronto was born Feb. 28, 1878, at Hamilton, Ont. He is a former attorney-general and minister of labor for Ontario and sat in the House of Commons from 1940 to 1945. He was appointed to the senate in 1945.

Flash

REDS MURDER WOUNDED AT AN AMERICAN COMMAND POST IN KOREA — Thirty wounded American soldiers were reported tonight to have been shot to death on their litters by North Koreans who swarmed across the Kum River Sunday night.

PCL ALL STAR GAME — SACRAMENTO — Jim Tabor, Sacramento third baseman, homered with two on last night for a big punch as the north defeated the south in a Pacific League all-star game.

SEEK BETTER DEFENCES — VANCOUVER — The executive of the British Columbia Conservative Association, in session here, urged the replacement of the Pacific Coast of the three destroyers which have been sent to Korea and the increasing of ground and air forces on the West Coast.

ATTLEE STANDS FIRM — LONDON — Prime Minister Attlee told Parliament today that his government stands firm with the United States in complete opposition to appeasement of Russia in the Korean situation. Cease fire and return of the Communists to the 48th parallel, without any conditions, should be insisted upon.

SINGAPORE TO KOREA — LONDON — It was reported in authoritative quarters here today that Great Britain was ready to send eight battalions from Singapore to Korea if necessary.

BOY'S "CENTURY SPREE" — SAINT JOHN, N.B. — A ten-year-old boy was held in detention today after he had appeared on the street with \$100 bills which he gave away and then started throwing in the air. All but 23 bills were recovered.

REDS FLAY WALLACE — NEW YORK — The Communist Daily Worker today charged Henry Wallace with being a "traitor." The charge came after Wallace denounced the Communist aggression in Korea and backed the action of the United Nations there.

TRUMAN ON AIR — WASHINGTON — President Truman will speak on the international situation, with particular reference to Korea, at 7:30 tomorrow night.

Manitoba Fund Is \$7,500,000

WINNIPEG — Manitoba said "Thank You" yesterday to some 1,000,000 Canadians and others who gave more than \$7,500,000 to relieve damage caused by the Red River flood.

H. W. Manning, general chairman of the fund, said that public response represented a "great opening of hearts from many lands."

Donations are still coming in. The fund, however, closed Saturday.

Fishing Vessel Is Honeymoon Ship For Cruise Into Alaska

Honeymoon ship could be the name of the B.C. Producer as she sailed out of Prince Rupert this morning. Four well married men who had not seen their wives since the first of the year had their wives fly up to Prince Rupert Monday to join them and go on a sailing cruise. They went to Ketchikan.

For the first time in years the customs were asked to clear a halibut boat for an American port with wives, rather than fish, aboard. They could not refuse, as it was not a business trip.

All couples have been married for a number of years but they are still young enough to appreciate the benefits of young love.

There was a large gathering of friends to wish them well on their second honeymoon cruise. In fact, it was described as rivaling the departure of the Empress from Vancouver.

Couples included in the party were Mr. and Mrs. Fred Kohse, Mr. and Mrs. Pat Mahoney, Mr. and Mrs. Clarence Iverson, Mr. and Mrs. Fred Nelson.

Resistance And Air Attacks Are Having Effect On Enemy

North Korean forces, their ranks dented by "terrific" casualties, slackened their attack in South Korea and American forces were holding all along the front today, United States officials announced. Heroic United States 24th Division troops were battling against overwhelming odds in positions north of Tadjon. That rail centre, once considered the key to South Korea's defence, remains in American hands.

To the west South Korean troops attacked on the central sector Tuesday night and then withdrew to defence positions after inflicting heavy casualties.

The Reds were taking a battering from the air by United States jet fighters, mustangs and light bombers.

Heavy bombers struck behind the lines in strategic attacks which sooner or later would show up in slackening Communist supplies at the front.

So terrific was the air beating that fighter pilots reported the Reds moving their armor and motor columns only by night and lying low in daylight.

United States Far East headquarters reported the defenders holding all along the line and that enemy pressure had slackened. A spokesman warned against considering this a decided turning point. However, there is a definite stiffening of defences and there is more tactical support from artillery and the air. This has kept the Americans in the battle below the Kum River at Tadjon where Communist forces last were reported at the city's outskirts.

A Red force to the east posed a serious threat. General MacArthur's headquarters reported the Reds moving reinforcements to their fifth division driving south from Tanyang, sixty miles northeast of Tadjon, striking for American supply lines. South Korean First Corps had blunted this drive Sunday.

A lull has fallen over the main battle sector and over the central sector just to the east where South Korean troops dug into defensive positions.

General MacArthur's headquarters estimate the Red casualties to date at 11,000 but says that accurate figures are impossible to obtain.

Reports from United States Eighth Army headquarters in Korea indicate that United States casualties have been light in the last forty-eight hours while the enemy suffered heavily while trying to crack defenses north of Tadjon.

Legion To Aid Korea

Ottawa is Baffled Over Report of Vancouver Battalion

OTTAWA — The government is getting reports from Lake Success on informal explanatory proposals that an international legion be formed to fight in Korea but there was no sign yet of their jelling into reality. External Affairs Department officials said today.

At the same time, both External Affairs and Army spokesmen are baffled by reports from Singapore that a Canadian battalion—"reported mobilizing at Vancouver"—may become part of the British Scots brigade to fight in Korea. Neither of them could think of any justification for the report except the possibility that it is related to the annual summer training trip of Vancouver's Reserve Force Seaforth Highlanders. They go this year to the big army base at Wainwright, Alta.

Canadians For Korea

Three Destroyers Headed For Battle Zone—Local Man There

PEARL HARBOR — A reliable United States source said today that some ships of a new United States Pacific task force, possibly accompanied by three Canadian destroyers, may be steaming for the Korean battle zone.

The heavy United States cruisers Hammer and Chandler of this 12-ship combat force have been at sea for the last five days.

One Prince Rupert man is with the Canadian destroyer force which is heading for the Battle of Korea. He is Ted Mills, son of Mr. and Mrs. C. C. Mills of this city. He is aboard HMCS Cayuga.

Atom Bomb And Korea

SUGGESTIONS made both in London and Washington that the atom bomb be used to end the war in Korea might, at first thought, seem to have some merit but it is extremely unlikely that such an extreme measure will be taken there—nor would it appear on mature consideration to be justified.

In the first, no matter how much face might be lost by the United States and the United Nations if Korea should fall, it is not important enough to start atom warfare over. To do so would only give Russia great propaganda fodder.

In the second place, the United Nations would have to consent to the use of the atom bomb and its members would probably never give such consent.

The use of the atomic bomb will have to be reserved for some time. Russia and the communists are smart enough to know that and this will be one of the factors to encourage them in building more fires on other satellite fronts.

INTERNAL PROBLEMS

WHILE international issues are of all-absorbing interest these days, there are also domestic problems and one of these is the maintenance of employment and the development of reasonable social security.

After all it is of little use for a country, such as ours, to be engaging in a cold war against Communism if it allows to exist or grow up within its own borders conditions in which Communism may flourish — conditions in which unemployment may grow with all the political consequences that may flow from economic discontent.

Yes, domestic problems are of importance, no matter how absorbing the international situation may be. The enemy can strike effectively and insidiously from within as well as from without.

NO MORE ISOLATION

UNITED STATES is learning lessons the hard way in Korea. The lack of realism and indecision is costing the lives of American soldiers and bids fair to cost the loss of prestige.

Not only in Korea and Formosa has there been American indecision. There has been such U.S. indifference in vital Indo-China and Malaya where battles are even now being carried on against the encroachment of Communism.

With American failures, withdrawals and half-hearted gestures of support encouraging the Russians to move forward, United States should be learning that the time to show true fibre is before a crisis develops. Maybe she will be tougher and more realistic from now on because no one thinks the Communists are playing games any longer. There can be no isolationist feeling in the United States now except among the obstinately and recklessly political-minded.

ALL FOR STATEHOOD

THE San Francisco Examiner (Hearst) goes all out in favor of statehood for Alaska and Hawaii, devoting a whole editorial page to its immediate advocacy.

The newspaper urges the United States, in the national welfare, to lose no time in approving such statehood.

The paper says: "Alaska, in the neighborhood of fortified and perhaps hostile Siberia, guards our Pacific States and our northwest as far inland as Detroit and Chicago from air attacks through Arctic areas." Like Hawaii, Alaska should be absorbed more effectively into the national defence system by being given the deserved status of equal members of the Union.

"For our own country as well as a deed of political justice, the statehood bill should be passed, declares the Examiner."

SCRIPTURE PASSAGE FOR TODAY

Honor all men. Love the brotherhood. Fear God. Honor the King. I Peter 2: 17.

"CHIEF WISE LEADER" — Prime Minister St. Laurent, right, got a new name from the Plains Indians at Fort Qu'Appelle, Sask., when he addressed a picnic crowd of 8,000 last Saturday. The prime minister, wearing his new ceremonial headdress, was named Chief O-Tee-Ensiew-Donaka-Niew or Wise Leader. The headdress was the gift of Orchanguah (Dan Kennedy), leader of the Assiniboines, shown with the prime minister. (CP Photo)

Victoria Report

... by J. K. Nesbitt

Anscomb Backs Coalition—Fine Home For Attorney General

MAKING TORIES STRONG—Conservative Chief-tain Herb Anscomb says he's not going to take any action to break Coalition not before the next election anyway.

But he's preparing his party for any political eventuality. He told a public meeting here the other day that he's now touring the province calling on Conservative organizations and that he's finding them in good shape, enthusiastic, girding their loins to be ready to go it alone, if necessary, at the next provincial general election three years from now.

As to Coalition, Mr. Anscomb: "We made a bargain with the Liberals and it has three years to run yet—a bargain's a bargain, even though it may be a bad one and, as long as I have anything to do, with the Conservative Party, that bargain will be kept."

Mr. Anscomb said he is now engaged in making the Conservative party strong. The Coalition, he said, can't give good government if one partner is strong and the other weak. In such a partnership the weak party would be swallowed up.

"I don't propose to allow the Conservative Party to be swallowed up," Mr. Anscomb said. "Our party is coming alive in every section of British Columbia. I'm not saying everybody is bubbling over to be a Tory (how he defiantly loves that word Tory) but we're reviving the party after 20 years."

Mr. Anscomb said all the current talk that Coalition is going to break up is just nonsense.

"Nobody has the remotest idea what's going to happen three years from now," he said. "What's the use of discussing it now. We should make our party so strong with the people that we can move forward wherever it is necessary to go. In the meantime, we will stay in our rightful place in the Coalition as a strong partner, not as a weak one. In every provincial

riding we have an active organization and it's there to do whatever is necessary. WISMER'S BUY HOME—The Attorney-General and Mrs. Gordon Wismer have purchased and are living in one of Victoria's most beautiful historic residences.

It is "Highwood," in the exclusive Rockland Avenue Hill district, not far from Government House.

"Highwood," was built in 1869 for the managers of the Bank of British Columbia, later taken over by the Canadian Bank of Commerce. Once it sat in 10 acres of ground, has three tennis courts, formal terraced gardens, orchards, barns and a carriage house.

First occupant of "Highwood" was William Curtis Ward, manager of the Bank of B.C., his wife and nine children. They were pillars of Victoria's early day society and many were the tennis parties, brilliant dinners and elaborate weddings.

When Ward retired as bank manager, he was succeeded by George Gillespie, who moved into "Highwood" with his wife, daughter and seven sons.

Mrs. Wismer, who operates a prosperous antique store here on Fort Street's "antique row," now swarming with Americans, intends to re-create some of the early-day atmosphere which once surrounded "Highwood."

Union steamer Chilcotin, Capt. Harry McLean arrived in port at 9:15 last night on her return voyage to Vancouver from Alaska with the Christian Fellowship party. She sailed at midnight.

As I See It PONG AND YONG'S APPEAL

WITHIN 24 HOURS of the arrival in Vancouver of the Minister of Immigration, the two North Korean boy refugees voluntarily surrendered to his mercy.

The fact that the boys did so by coming to the Vancouver Sun speaks for itself. They are resting their appeal for justice and mercy on the press and public of Canada.

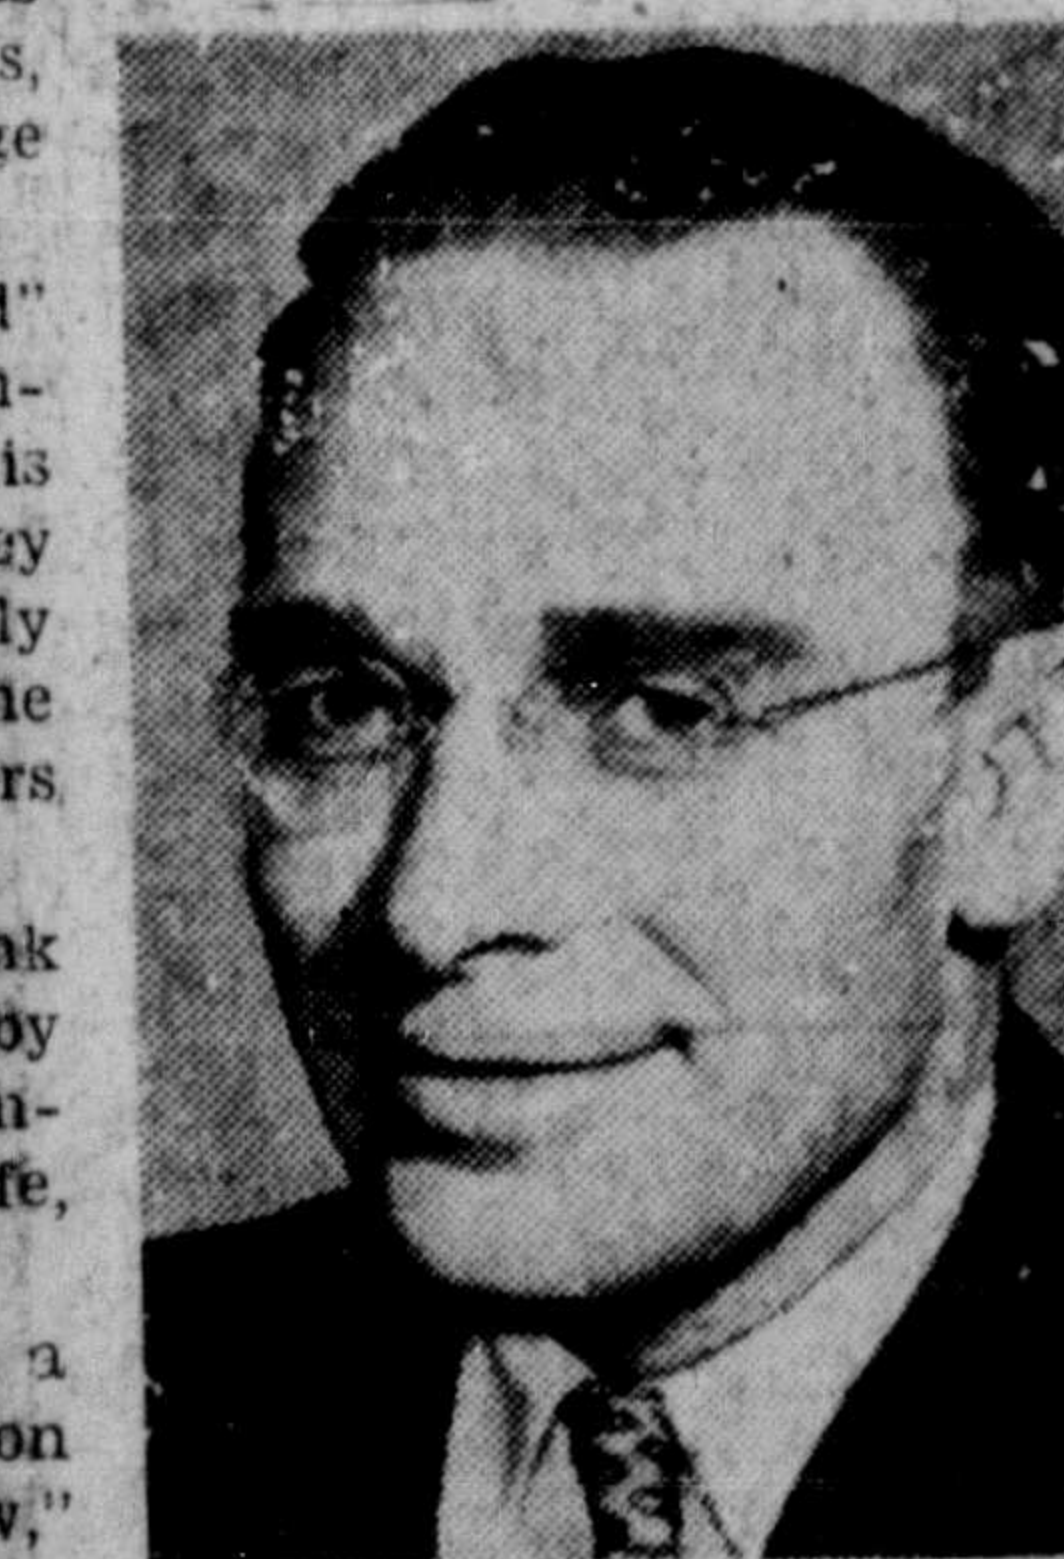

These boys never did wish to break the laws of Canada. They fled from North Korea because they had taken part in student demonstrations arising out of the substitution of Russian for English as the secondary language.

They escaped from South Korea because their northern accents made them as much "marked men" as a Virginian or Texan would be in Canada. One day before the boys voluntarily gave themselves up to the mercy of Hon. Walter Harris the cables from South Korea announced that security police there had shot over 1000 Reds and refugees as other "poor security risks."

Had these boys not escaped from the Immigration shed in Vancouver a few hours before their deportation they would have been among those so arbitrarily shot. For how could they hope to prove that they were not secret spies from the north?

THE IMMIGRATION EMERGENCY Committee of Vancouver, headed by the energetic young Henry Hicks has retained the lawyer John R. Taylor to act for the two Korean lads. During the weeks in which the two Koreans have been hiding out the committee has built up a powerful case in support of the boys' application to be allowed to stay in Canada as students.

The Shurpass Schools "certify that Pong Che Yue and Yong Man Lee have registered at this school to commence a course in English, preparatory to Sum-

BONA ARSENAULT—A former president of the Quebec Progressive Conservative Association, Bona Arsenaault now sits in the House of Commons as a Liberal member for Bonaventure. He was born in that constituency Oct. 4, 1903, and is a former newspaper publisher. (CP Photo)

Traffic Lights For First Time

Controlled traffic lights have been put in operation in Prince Rupert for the first time even if only on a temporary basis.

Cow Bay road has been cut off at the foot of Third Avenue for the next few days while the new city sewer line is being laid across the road.

Accordingly traffic is being diverted via Manson Way past the Standard Machine Works.

A railway crossing being involved on the narrow roadway there, red and green traffic lights have been installed and, midway in the road, a man has been stationed to observe the approach of traffic from both upper and lower ends and operate a switch control of the lights.

While the Cow Bay approach is closed, all traffic to that important east end of the waterfront is being diverted and, with the tourist season on and fish plants busy, it is heavy these days.

General Eva Booth Dies

TARTSDALE New York — General Evangeline Booth, aged 84, the "White Angel" who followed in her father's footsteps in Salvation Army work and as world commander of the organization he founded, died yesterday at her home. She had been ill for a year. Death was caused by heart ailment and hardening of the arteries.

IT PAYS TO ADVERTISE. Classified ads bring results.

Bet You Don't Know This About Advertising

Quiz No. 8

How much does it cost to advertise a loaf of bread? Are they spending 2¢? 3¢? 5¢? Or more?

Answer: It costs less than the wrapper to advertise the big-name brands of bread.

That's only half the story. Advertising lowers your cost two ways:

Cuts the selling costs. And by helping make mass production possible, lowers the production costs, too.

So advertising saves you many times the cost of that wrapper.

SOCIAL and PERSONAL

Word has been received by local friends from Mr. and Mrs. William Watts and son, William, who are on a motor trip East. They were in Halifax a few days ago.

John Basso, well known pioneer of the city, is still in Prince Rupert General Hospital but is reported to be progressing favorably.

● Dr. F. P. McNamee, Eye, Ear, Nose and Throat, is reopening his practice in Kamloops, Suite 6-10 Galloway Bldg., 220 Fourth Avenue, August 1st. (170p)

Gordon Wright, son of Rev. and Mrs. E. A. Wright, is due in the city in the course of a motor honeymoon tour following his recent marriage in Ottawa and will spend a few days here with his bride. Mr. Wright is a scientist with the National Research Council at Ottawa.

● Babes in Silverland. You should see our special case filled with Babies and Children's gifts. Child's cups from \$2.00 to \$10.00. Spoons, rings, bracelets, plates, etc. Bulger's. (17)

R. G. van der Sluis left on today's plane for a business trip to Vancouver.

Mr. and Mrs. G. Harrison and daughter, Lee Ann, sailed for Vancouver today on the Coquitlam.

Mrs. Annette Mansell and two granddaughters, Dianne Stone and Annette Windle, sailed today on the Coquitlam for a holiday at Peachland.

Mr. and Mrs. A. Thomey and baby, who have been visiting Mr. Thomey's mother, returned to Vancouver today on the Coquitlam.

Albert Stiles returned to the city on yesterday afternoon's plane from a trip to Vancouver and Seattle on Pacific Fisheries business.

PRIZE-WINNING DESIGN — This is the design that won Stephen Trenka of Thornhill, Ont., the \$1,000 first prize in the government's new nickel competition held to commemorate the 200th anniversary of the isolation of nickel. The design features three maple leaves and a refinery modelled from a smelter at Welland, Ont. (CP Photo)

Football Dance Popular Affair

The Prince Rupert Football Association held a very enjoyable cabaret dance in the Canadian Legion auditorium on Friday evening last. Footballers, their partners and guests all enjoyed to the full the lively music of the Legion orchestra under Stan Velch and the delightful refreshments prepared by Mrs. William Rothwell.

Arrangements for the dance were in the hands of Alex Haig and Ralph Smith with Wally Price assisting at the door and Graham Alexander with refreshments. With such a successful dance for their first venture it is likely that the Football Association will hold similar ones in the future.

HOTEL ARRIVALS

Prince Rupert
T. A. V. Tremblay, Victoria; R. Schmidt, V. Oredson and Mr. and Mrs. Gerber, Seattle; Mr. and Mrs. J. Sim, Victoria; W. N. Tarbuck, Queen Charlotte City; William Reid, E. A. Drake, A. Denham and E. Pauske and Mrs. P. Miller, Vancouver; Mr. and Mrs. G. Duffus, Pentleton; S. L. Wilkins, Prince George; J. W. Ross and J. H. Raymond, Windsor, Ont.; A. Fowle, Sandspit.

Port Edward Couple Wed

St. Andrew's Anglican Cathedral was the scene of a quiet wedding at 7:30 Saturday evening when Miss Mary Gagnon, daughter of Mr. and Mrs. Joseph Gagnon of Port Edward, became the bride of Quentin Clive Lodge of Faust, Alberta. Rev. Canon Basil S. Prockter officiated. Only relatives and immediate friends attended the ceremony.

Given in marriage by her father, the bride was attended by her sister, Mrs. William Menzies of Edmonton. The groomsmen was John Brillon of Queen Charlotte City.

The groom is in the service of Campbell & Bennett on construction work in connection with the Columbia Cellulose project.

Christianity Is Effective

The certain knowledge that Jesus Christ was the son of God had not only had its convicting effect upon the original apostles but this effect had gone on through the years to be reflected in the affairs of men as well as in literature and poetry. Even in this day, with all its perplexities and problems, the effect of the Christian belief was profoundly felt and so would there be effective evangelism unto the uttermost end of the world. Such was the stirring conviction of faith which Rev. E. A. Wright gave his congregation at evening service in First Presbyterian Church Sunday when he preached on the subject of Why I Know Jesus Christ to be the Son of God. Mr. Wright spoke entirely without scriptural reference.

In the morning Mr. Wright discussed indifference as the greatest menace to the Christian Church. The Church he likened to the body of Christ. He deplored the "indifference" of "respectable" people and appealed for a re-dedication of interest and support of Christian endeavour.

DELICIOUS... SPARKLING!

You'll get SURE RESULTS with CERTO Crystals. Tested recipes come in every package. Follow the simple directions exactly and you'll have no failures.

You get CERTO Crystals at your Grocer's

Because very little precious juice has time to boil away, you average 50% more jam or jelly from the same amount of fruit.

The CERTO Crystals retain natural taste and color... there's no "boiling down" to dull the ripe color or spoil the fresh-fruit taste.

It's no chore to make jams and jellies with CERTO Crystals... the pectin product in crystals form that helps all fruits to jell perfectly.

You boil only ONE MINUTE with CERTO Crystals... cut down time needed for jam and jelly-making by two-thirds... end tedious long boiling!

1. It's no chore to make jams and jellies with CERTO Crystals... the pectin product in crystals form that helps all fruits to jell perfectly.

Holiday School At United Church

The United Church vacation school opened yesterday with an enrolment of 37 children from four to 14 years of age. Children attending the opening day said there were many others who would be coming later and sponsors hope to double the number attending after the school gets under way.

Teachers for the school are: Beginners—Mrs. C. J. O. Olsen. Primary—Mrs. William Dunn. Junior—Miss Anita Stewart, community worker of the women's missionary society, and Rev. L. G. Sleber.

Mrs. Owen Green and several girls are assisting.

Baby Shower Is Happy Affair

A delightful baby shower for Mrs. Barney DeFer last night was featured by the presentation of a basinet containing most of the articles necessary to give junior a proper start in the world. Mrs. E. Linney was hostess.

That the guests were looking to the future was proved by the popularity of the ouija board and tea cup reading. Card games filled out the entertainment. Spotlighting the refreshment table was a cake ornamented with a stork.

Present beside the hostess and guest of honor were Mesdames R. Woods, H. Blackburn, B. Petersen, M. Ferguson, K. Beale, G. White, W. R. Smith, S. Bury, B. Dahl, R. B. Skinner, H. Nelson, B. Telford, P. Richards, L. Beaudry.

Mining Interest In Stewart High

Mining in the Portland Canal area has taken a boost this summer as a number of larger companies have sent engineer scouts out to look over various properties.

W. (Billy) George has a few men out at George Enterprises erecting a log bunkhouse. He is expecting an engineer in soon to line out the summer work on the property.

At Phillips had to be flown in from his Tide Lake property because of an injured back. He is back at work again, however, on his spectacular vein. The crew has taken in the holiday in town.

Silver Tip commenced summer work last week.

IN SALMON RIVER
Neil McGillivray, Victoria, arrived in town recently and will spend the summer prospecting. He will give the Salmon River country special attention.

Another property, the Mobile, is expecting examination by at least two companies. This property was highly recommended last year by Mr. Grady, government engineer. Trail clearing operations are now in progress while the summer program will include crosscuts and open cuts.

CARRIED CANADA'S HOPES — Canada's chances for the Davis Cup, emblematic of world tennis supremacy, rode on the shoulders of this squad but they failed. Meeting the Australian team at Montreal's Mount Royal Tennis Club last week were, left to right: George Robinson and Lorne Main of Vancouver, Henri Rochon and Brandon Macken of Montreal and Gordie MacNeil, non-playing captain. Radions Win In Softball

The second round of Senior Softball League got under way with a bang last night, when the Radio's beat Watson Island by a score of 14 to 4.

At the start of the game there were plenty of errors but things tightened up and in the top of the seventh inning the Radio scored the first triple play of the season and, according to the fans, the first triple play seen in local softball for many seasons.

On Friday night Watson Island will get a chance to redeem themselves in their cancelled game with Rupert Plumbing.

Last night's umpires were Reg Beckley and Reg Wilson. Both men turned in fair and impartial decisions throughout the game.

Golfing Prowess Of Tiny Toddler

RHYL, North Wales — Bobby Logan, who touched a golf club for the first time just nine months ago, has already startled members of the Rhyll Golf Club with his amazing feats.

Big, strong men, just taking up the game, have even threatened to toss their sticks into the ashcan after watching Bobby perform. Off the tee, Bobby invariably gets his drive straight down the middle, often beyond the 100-yard mark, pitches to the green with a backspin and explodes out of a sand trap in 260-yard, well-trapped hole.

So what? Well, Bobby has something to brag about for he is very much of a wee toddler—just two years and nine months old.

Slightly under three feet tall, Bobby has learned to use his sawed-off clubs, a hickory driver and light-weight iron, with eye-brow-raising precision. He turns out every morning for practice, at present confined to two holes.

Bert Southcott, the club professional, says Bobby's hitting power is quite phenomenal. "His drives, averaging around 60 to 80 yards are all carry and follow a correct trajectory. I think the secret lies in his wrists which are exceptionally strong for an infant."

Daddy Jimmy Logan, former Ayr United football player, also thinks he has a champion in the making.

Navigable Waters Protection Act R.S. 1927, Chapter 140
COLUMBIA CELLULOSE COMPANY LIMITED hereby gives notice that it has under Section 7 of the said Act, deposited with the Minister of Public Works, at Ottawa and in the Land Registry Office at Prince Rupert, B.C., a description of the site and the plans of Booms proposed to be stretched in the Skeena River from a point on the north bank of the Skeena River Twenty-one hundred feet (200') west of Canadian National Railways located at Mileage 74.9, to a point Seven Hundred feet (700') south of the eastern extremity of McLean's Island and from this latter point to the south bank of the Skeena River at a point approximately Three Thousand feet (3000') west of the outlet of Scotia River.

And take notice that after the expiration of one month from the date of the first publication of this notice, the said plans of Booms, under the said Act apply to the Minister of Public Works at his office in the City of Ottawa, for approval of the said site and plans.

DATED this 29th day of June, 1950.

COLUMBIA CELLULOSE COMPANY LIMITED
By Douglas, Symes & Brissenden,
its Solicitors.

NOTICE TO CONTRACTORS
Sealed tenders will be received up to noon August 1st, 1950, by the undersigned for the construction of an assistant Ranger Headquarters Building at Kitwanga, B.C.

Plans and specifications may be obtained from the District Forester, Prince Rupert, Forest Rangers at Terrace and Smithers or the undersigned upon a deposit of 5.00 refundable upon return of plans and specifications in good condition within thirty days of the date of opening of tenders.

Tenders will not be considered unless made out on the form supplied and signed, and a deposit of 10 per cent of the tender is enclosed. Cheques of the unsuccessful tenders will be returned when the contract is awarded.

The lowest or any tender not necessarily accepted.

Tenders must be submitted in the envelope marked "Tender for the construction of an assistant Ranger Headquarters Building at Kitwanga, B.C."

C. D. ORCHARD,
Chief Forester and Deputy Minister of Forests.

**DEPARTMENT OF CITIZENSHIP
AND IMMIGRATION
INDIAN AFFAIRS BRANCH**

SEALED TENDERS addressed to the Director, Indian Affairs Branch, Department of Citizenship and Immigration, Ottawa, Canada, and enclosed "Tenders for Rocher Delouche Indian Day School", will be received until noon on August 12, 1950, for the construction by contract of:

1. One-room school with attached residence, Hazelton Indian Reserve, Hazelton Indian Agency, B.C.
2. Indian Superintendent, Hazelton, B.C.

General Instructions to Tenderers, Drawings and Specifications are obtainable at the above offices upon deposit of Five Dollars (\$5.00) in the form of a certified cheque made payable to the Receiver General of Canada. This deposit will be refunded upon return of the drawings and specifications in good condition to either:

1. Indian Commissioner for British Columbia, Post Office Building, Vancouver, B.C.
2. Indian Superintendent, Hazelton, B.C. within one month from the date on which tenders closed.

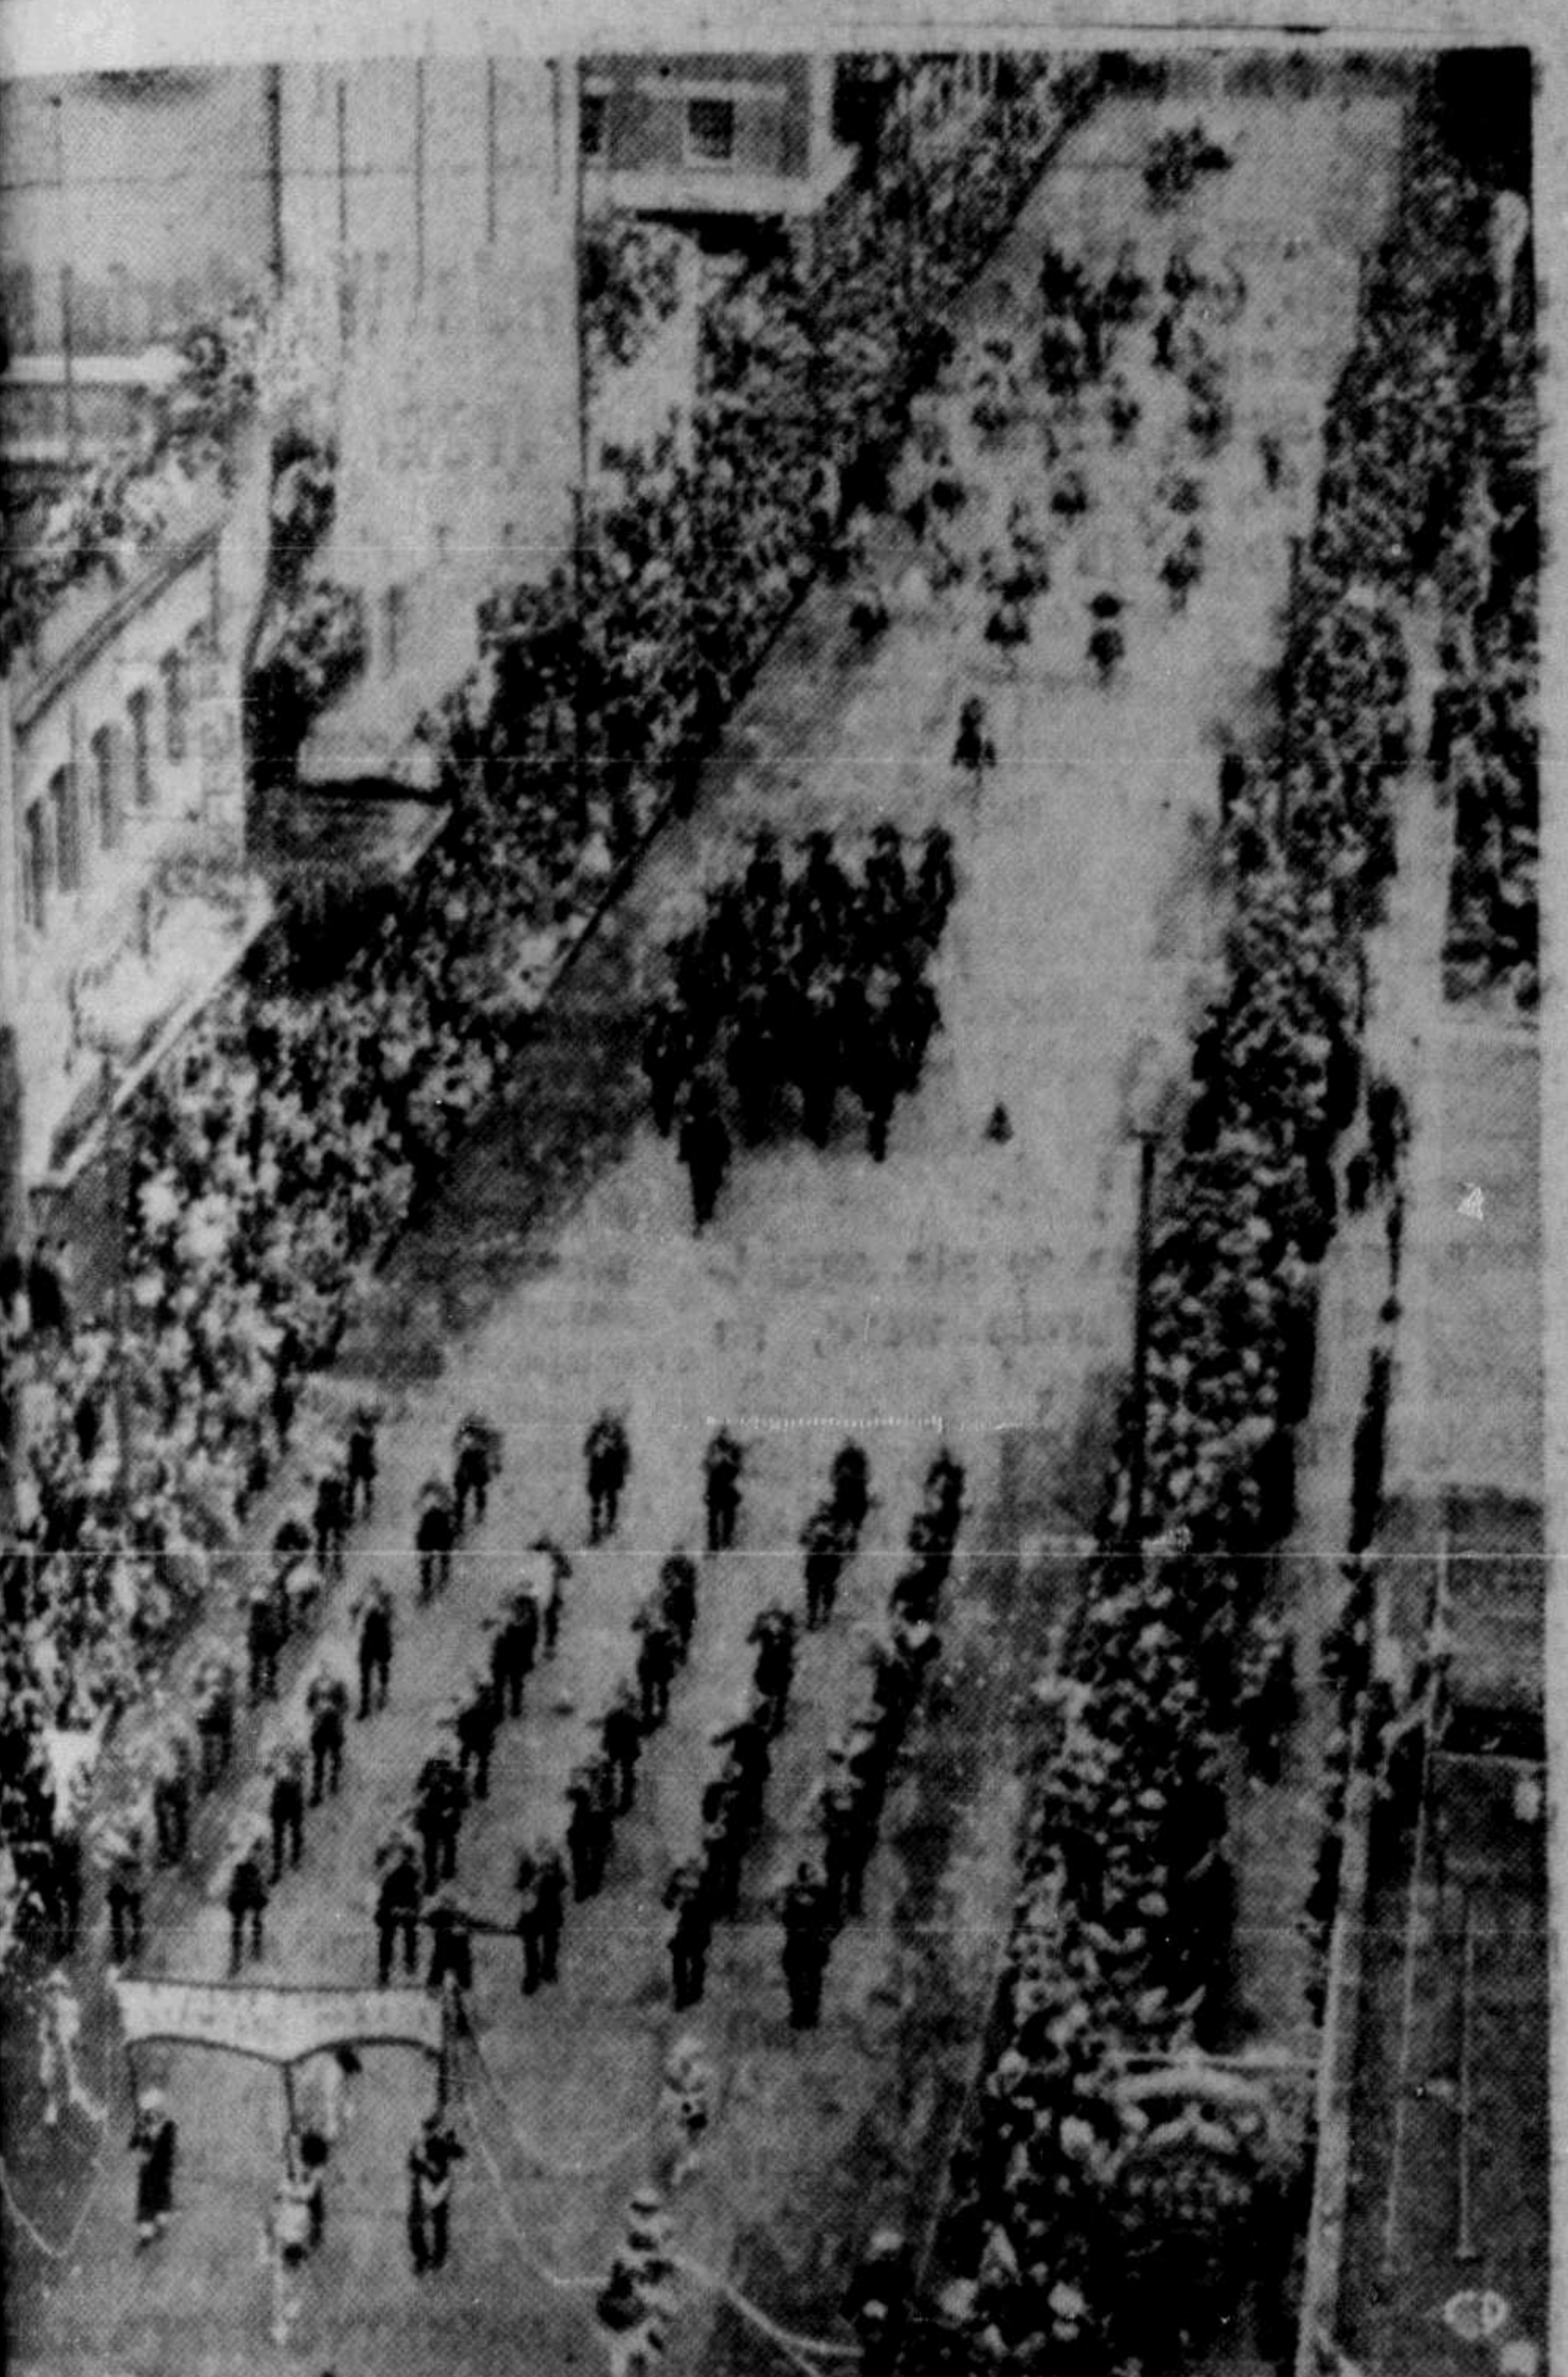

To receive consideration, tenders must be submitted on the tender forms provided and must be accompanied by a certified cheque on a chartered bank in Canada, payable to the order of The Honourable the Minister of Citizenship and Immigration, equal to ten per cent (10%) of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies, unconditionally guaranteed as to principal and interest by the Dominion of Canada or of the aforementioned bonds and a certified cheque if required to make up an odd amount.

The Department reserves the right to reject any or all tenders and the lowest tender will not necessarily be accepted.

LAVAL FORTIER,
Deputy Minister,
Department of Citizenship
and Immigration,
July 13, 1950. (198)

BOY NAMED LOU — A cowboy named Lou, otherwise known as Prime Minister Louis St. Laurent, was on hand to open the 1950 edition of the Calgary Stampede. Here Prime Minister Laurent waves to the crowds lining the streets to watch the parade. With him, in the drawn carriage which led the parade, was Mayor D. H. Mackay of Calgary. (CP Photo)

CH STAMPEDE — A colorful parade launched Calgary's Stampede last week. Shown here is a small section of the parade. Led by Prime Minister St. Laurent and Mayor D. H. Mackay of Calgary, it included cadets carrying a Stampede banner followed by an R.C.M.P. band and mounted troops, cowboys and Indians. (CP Photo)

Legion Wins Cup Opener

Defeated a Short-Handed Battery Team 3-2

In the first game of the Manson Trophy League last evening the Canadian Legion won over a battling Heavy Battery team by three goals to two in a game that was always interesting and hard fought.

Battery was short-handed and persuaded Pat Forman to take over the goal-keeping responsibilities and Percy Bond to play at half-back. Later on John Shroeder came on at back. Forman saved from Murray and then the short-handed Battery attacked with Darrow Gomez opening up the play. Dunbar was very effective. Forman saved from Murray. Vuckovich was clever. Bond neatly broke up a Legion attack and then Darrow Gomez' free kick was scrambled away with difficulty. A Gomez passed ahead to Pavlikis who scored with a beautiful drive from twenty yards out. Mitchell caught Vuckovich's shot. Smith muffed a free kick and Mitchell saved well from Parkhouse. Shroeder and Dunbar headed away and Battery were lucky to keep their goal intact. Shore shot over from Yelland's well-placed free kick but later converted Smith's pass to equalize the score. Pavlikis was just high when he first-timed Darrow Gomez' pass, a very clever attempt. Greer was neat and with Forman out of goal Shroeder saved. The Battery defence got in a tangle and Dunbar, thinking Forman was out of goal caught a high shot. From the resulting penalty Smith put the Legion ahead.

McAfee came on for Bowman and Krause for Mitchell. Darrow Gomez hit the upright with a fierce drive. Dunbar cleared twice and then Sunberg saved. Vuckovich crossed a beauty but Pavlikis mistimed it. Baxter crossed two centres. Johansen replaced Shore. Krause was

lucky to keep his goal intact. Murray put his team further ahead with a drive that Forman got his hands to but failed to hold. Murray shot past Johansen's pass. Dunbar played hard and came through with a pass that Pavlikis turned neatly past Krause to make the score 3-2. Play travelled quickly from end to end. Eby blocked a hard drive from Pavlikis. Legion seemed to be through but Forman blocked a hard drive at point-blank range from Smith and in a hot siege round the Battery goal Murray and Johansen hit the crossbar and upright. Dunbar and Shroeder saved and then Forman turned a great drive over the bar for a corner. Play was stopped while Forman recovered from a collision and the whistle went leaving the Legion winners by three goals to two.

Teams: Heavy Battery — Forman; Dunbar, Shroeder; Mazzoni, Darrow Gomez, Bond; Vuckovich, B. Gomez, Pavlikis, Parkhouse, A. Gomez.

Canadian Legion — Mitchell; Sunberg, Eby; Alexander, Yelland, Greer; Baxter, Bowman, Smith, Shore, Murray; Krause, McAfee, Johansen.

Referee, Sid Woodside; linesmen, Les. Parkes, A. Haig.

COMMENT
Starting with only ten men, and two of these substitutes, the Battery put up a fine game. Forman did very well in goal and at the end brought off spectacular saves. Dunbar was outstanding both in positional play and in kicking. He was unlucky to give away a penalty. Shroeder was very useful and improved as the game went along. He will be a real asset. Darrow Gomez was very effective and driving hard all the time. Mazzoni was very good and Bond did a more than useful job at half. Pavlikis got two good goals, the first being one of the best shots this season. Vuckovich was good and Billy Gomez did well too. Parkhouse was always driving hard. Alex. Gomez did not do so well. Mitchell is very good with his hands and should develop his kicking. Sunberg played his usual strong game with Eby replacing Shore. Krause was

Girl Form Is In Style Again

By DOROTHY ROE

NEW YORK (AP)—Girls will be girls again this fall.

The last hint of the flat-chested silhouette, the boyish bob and the flapper slouch has been removed firmly from the fall fashion picture. The designers vote unanimously for feminine curves.

Fall fashion previews will accentuate the positive, eliminate the negative.

The prevailing daytime silhouette for fall will be slim but sweet, with sharply nipped waistline and accented curves above and below. Padded hips are apparent in many of the new fall suits, and skillful draping dramatizes the bustline.

Skirts are almost uniformly slim and straight, slit for walking comfort and cut on peg-top lines. Their length is about the same as current styles or slightly shorter—14 to 16 inches from the floor, depending on the height of the wearer. Designers seem to agree that the most flattering skirt length is mid-calf.

Last season's abortive effort to bring back the unflattering slack silhouette of the 1920s has been killed definitely and finally by the roar of protest that went up from Mr. and Mrs. General Public.

HANDSOME FABRICS

worked very hard as did Alexander. Greer was very effective, placing the ball to advantage and intercepting passing plays. Smith added punch to the forward line and opened out the play. Baxter was the opposition aggressive. Shore got a goal but missed two close in chances. Murray got a goal. Krause took over from Mitchell in the second half. McAfee seems to improve every game and Billy Gomez did not do so well. played good ball.

Most dramatic news in the fall fashion line-up is in fabrics, which are handsomer and more varied than in many years. Surface interest and texture are of first importance. Winter coats will appear in a number of new and unusual fabrics such as an imported "doormat" cloth, heavy and shaggy in the manner of its namesake, used by designers in "poodle" coats and ven hats.

The Experts Say...

By KAY REX
Canadian Press Staff Writer

PLAYTHINGS

If Junior has enough to play with, mother should have no trouble keeping him in his own backyard — and safely off the street.

Nor by playthings do we mean expensive toys.

Any child psychologist will tell you a youngster can get more fun out of a few boxes and a board or two than the most glamorous toy on the market.

The Canadian Welfare Council's recreation division has collected some ideas about playthings which should catch a young child's fancy.

And it doesn't take a building expert to make them.

A sand-box provides the child with most of his small play. Four boards do the trick, solidly nailed together, with two more seats at either end.

The box should be at least three by four feet in size and the builder should make certain that the wood is smooth and that no nails or splinters are exposed.

There should be more than just sand in it. Mother could very well donate a few of her plastic kitchen utensils to the cause. Funnels, moulds or scoops will do. Wooden spoons also are good because they have no sharp edges or corners.

Swings also have a high rating among members of the teddy-bear brigade.

Council officials say there are several kinds which can be built with little or no expense.

THREE ROPE SWING

A three-rope swing is recommended for small children.

The council experts describe this as like the seat of a kiddie-car, handlebar and all, suspended from two ropes in front and one behind. The child can sit on it and make it go with his feet on the ground.

The difficulty with this kind of swing is finding suitable attachments for the ropes at the top. They must be just the same distance apart at the top as they are at the bottom and the supports must be secure.

The simplest swing is made by attaching a stout rope to a tree-limb and tying an inflated inner tube to the other end — just missing ground when the child is on it.

DIVING AND DISEASE

The health department warns summer swimmers to take special care to avoid disease — particularly those who can't dive. Water forced into the nostrils during a "feet first" jump not only stings unpleasantly but may carry dirt and germs to the tender surfaces of the nose, throat and sinuses.

Diving is a far smoother and more graceful way of entering the water. But if you can't dive at least hold your nose while taking the plunge.

Called To Calgary By Sister's Death

Mrs. H. M. Foote and Miss Margaret Sharp returned to the city on Saturday night's train from Calgary where they were called recently on account of the death of their sister, Mrs. T. L. Walker, who had been a recent visitor in Prince Rupert. Mrs. Walker suffered a severe heart attack from which she failed to recover.

PINT-SIZED MARCO POLO—Seven months old and weighing 20 pounds, this young traveler has managed to pile up an average of 400 miles air travel for every pound. Ronald Lance, son of Mr. and Mrs. David Lance, has more than 8,000 miles to his credit and is now visiting his grandparents in Hamilton, Ont. His father is a Trans Canada Air Lines engineer at Gander Airport and takes young Ronald with him whenever he flies on a visit. (CP Photo)

Local Woman Was Aboard Franconia

Another passenger from Prince Rupert aboard the stranded Franconia was Mrs. R. W. Nesbitt, on her way to England to visit for three months. She was detained in Montreal until passage could be arranged for her on the Corona from New York tomorrow.

PERSIAN PARADISE

The word "paradise" was first used by Xenophon, Greek historian and general, referring to a Persian enclosed park or pleasure ground.

One of the official envelopes used to inaugurate first jet airmail delivery in the western hemisphere is held by Miss C. S. Tilson, post office employee at Toronto. The envelopes on the trip will be prized by the collectors of such items.

Police Court Fines Higher

A total of \$2,940 in fines and \$408 in costs on 184 convictions was collected in police court during June, according to the monthly police report. Total fines were up \$830 over June 1949's \$2,110.

The monetary loss from Criminal Code complaints was assessed at \$2,892.50, while recoveries amounted to \$1,460. In this connection there were two major complaints investigated.

Two business establishments, Dom's Department Store and Midway Grocery, were broken into and \$13 in cash and goods valued at \$114 were taken from the former and \$40 in cash was taken from the latter.

A check up on drunken driving during the month led to one arrest and conviction.

There were five accidents during the month.

Greatest number of offences during the month was 59 convictions of Indians for drunkenness under the Indian Act. Next was intoxication in a public place. There were 47 of those. Of a total of 191 arrests, there were 184 convictions.

Reminiscences—

Is Pioneer But Modern

Capt. Henry Doiron Looks Back on Quarter of Century With Boat Sea Maid

Capt. Henry Doiron, with his boat, Sea Maid, has been kept over in Prince Rupert for several days while the boat has been in dry dock here. The Sea Maid is one of the heavier halibut boats ever built in Prince Rupert.

In 1924, when McLean's shipyards were trying to establish themselves here, Capt. Doiron rented the establishment to build his own halibut boat. It was equipped with the most essential gear necessary to invade the fishing grounds.

Today, Captain Doiron has one of the most up-to-date halibut boats on the Pacific Coast. It is fitted out with radar soundings gear, modernized accommodation for his crew, and all the things that go to make halibut fishing a position rather than a chore. At 63 he considers himself one of the oldest active skippers on the coast.

Capt. Doiron lived in Prince Rupert for many years and built one of the first halibut boats to work from this port. He has sold his fish all along the coast from Seattle to Kodiak and still considers Prince Rupert the place where he can get the best markets and service.

When he retrieves his Sea Maid from dry dock Capt. Doiron intends to try his luck at black cod in Herat Straits.

BEWARE OF URUSHIOL

Urushiol is the sticky substance in poison ivy which produces a rash on contact with a person's skin.

Timely Recipes

SUMMER SALAD

Make it pretty—make it good—make it easily. Attractive salads are fine for family dinners or warm weather entertaining. Everyone will enjoy this delicious one.

Jellied Chicken Salad
2 tablespoons plain gelatin
1 can water and juice from mushrooms (using soup can as a measure)
1 10-ounce can condensed cream of chicken soup
1 4-ounce can mushrooms, diced
1/4 cup sliced stuffed olives
1/2 cup finely diced celery
1/4 cup finely diced green pepper
1/2 cup mayonnaise
1/2 teaspoon salt
1 tablespoon lemon juice
1/2 cup heavy cream, whipped
Soak gelatin in half of the water. Empty soup into a saucepan; stir while gradually adding remainder of water. Heat to simmering point. Remove from stove and add relatin, stirring while it dissolves; cool mixture until it begins to set; add vegetables, mayonnaise, salt and lemon juice. Mix well. Fold in whipped cream. Turn into a salad mold that has been rinsed first in cold water. Chill thoroughly 4-5 hours. Unmold and serve on crisp greens. Makes 10 servings.

THIEF'S ACCOMPLICE FINDS A FRIEND—Louise Guthrie, of North Bay, Ont., is shown with her pet, Peter, a bear cub she adopted after his mother was caught in the act of raiding the commissary at North Bay airport. The cub was born in hibernation and he followed his mother on her fatal foraging expedition. Apparently he bears no malice; for he has taken to his new surroundings like the proverbial duck to water. Currently he is getting his nourishment from a bottle but will soon be able to fend for himself.

New De Luxe Rail Coach

MONTREAL—A new deluxe railway passenger coach was introduced into service yesterday by the Canadian National Railways. The first of an order of 25, the car left Central station on its inaugural run to Ottawa.

Prior to entering service, the new equipment with its modern innovations, was inspected by Donald Gordon, chairman and president, S. F. Dingle, vice-president of operation, O. A. Trudeau, assistant general passenger traffic manager and other company officers.

Many of the conveniences that in the past have been associated only with sleeping cars are now standard equipment to the coach passengers as the result of the successful adoption of new features and facilities in these coaches. A new development is the spacious lounge room at each end for men and women with adjacent toilet facilities. They have dental bowls, stainless steel wash basins with concealed fittings, full length mirrors and alcove lounge seats.

The women's lounge also has a winged mirror vanity dressing table and boudoir seats and the men's is equipped with electric razor outlets.

The need for increased smoking facilities is recognized in the division of the cars. They are separated into two compartments, one for the smokers, seating 28 and the other seating 32. Etched glass partitions divide the two compartments to provide an air of graciousness.

STEWART

The local ball grounds are proving very popular. Every Sunday a truck full of Premier baseball enthusiasts comes down the hill to give the town a game.

This year the weatherman has produced exceptionally dry weather. Bear Lake has proved a popular picnic spot, where large parties gather, particularly on Sunday afternoons.

Inquest Is Under Way

The inquest for Roy McLean, who was drowned last Sunday near Sunnyside cannery, was started at the week-end and adjourned until the coming Saturday afternoon. The body was identified by deceased's uncle, Reginald Simon Gun-Na-Noot, before the jury.

In evidence Peter Robinson, owner of a fishing boat which was at the cannery, said he had gone aboard his boat and had gone to sleep in the cabin. When he was awakened, the boat was beached 200 yards upstream from the cannery. He had not heard anything that had happened from the time he went to sleep until he was awakened. A man told him he had found the boat with motor running, had turned off the motor and awakened him. He did not know McLean had been aboard the boat but had been told by Port Edward police.

He had seen McLean earlier in the evening and McLean was not drunk although he had been drinking. He knew McLean had been drinking because McLean had told him he had. McLean had been on the boat Saturday night.

Robinson testified McLean had been a friend of his and that they worked in the woods together near Hazelton in the winters. He had known him ever since they were children.

Jury for the inquest consists of Gordon Brochu, A. J. Turcotte, Henry Deblastic, Dmytro Dorosh, Frank Taylor and Fred Taylor.

Ray Reflects and Reminisces

Down in California dwells a man who wonders if anyone, fifty years ago, was living on what became the townsite of Prince Rupert. In fact, he made a wager with a recent visitor from the city. This is just enough of a good bet to kindle interest. Not so long after the turn of the century Canada was being asked to "let Laurier finish his work." Survey parties were out, and the big job was on. Actually, the first surveyors were here in 1907.

In 1902, or even earlier, a new style map of Canada could be seen back east. On it, extended a scarlet stripe all the way from Moncton to a point called Port Simpson, that far away spot on the Pacific. Why it was next door to Alaska where snow was not supposed to melt. The all red route, eh? People were curious, and cash was scarce, although it did not cost much to talk. One never knew. A fellow might even be away out there himself, some day. The second transcontinental was getting under way. Rovers, scouts, squatters and adventurers were, as usual looking around, full of the "ground floor" idea. Some might have paused at Kaien Island. Anybody filling a guess?

John Fisher gave a razzle-dazzle word picture-broadcast of the Calgary anniversary-stampede Sunday and, by the time he finished, you could hear the jingle of your spurs and smell the dust. He will describe Nelson next. He's been about everywhere in Canada except—we think—Skeena. This is a splendid region and can stand a lot of publicity with a punch.

Civil servants in Ottawa are complaining that a forty-five minutes lunch hour is causing indigestion. Many an individual has been known to take an hour and a half for lunch and still feel the pangs.

Canada's destroyers have sailed from Pearl Harbor and perhaps by now have passed the international date line. Nor can they be so far from the equator. And how blue the widest of all oceans!
