

May Become World's Largest Aluminum Centre

1,000,000 U. S. Investment May Create Two New Cities in Coast Province

VICTORIA (CP)—British Columbia may become the largest aluminum producing area, but the province's objectives are dependent on plans of two cities now seeking electric power sites.

Minister Hon. E. T. Kenney Thursday concluded preliminary talks with J. L. Reynolds, vice-president of Reynolds Metals Co., Richmond, Virginia, who took away with him for study data on power sites available in the province.

Mr. Kenney said that the company is interested in the development of roughly 1,000,000 horsepower to turn out 1,000,000,000 pounds of aluminum yearly.

The Aluminum Company of Canada also is interested in power sites. It is reported that the combined investment may run to \$600,000,000 and mean the creation of two cities with a total population of 100,000 persons.

Public Works Plan Year

COUVER (CP)—A program of Public Works for 1949 would be the largest road and highway program in British Columbia history.

One of a gigantic program eventually to cost \$200 million will be a highway system of 1,000 miles of roads. The province of B.C., its peoples and its future.

Mr. Carson said, the province-provincial route through the Cariboo. The 1949 program to the Hope-Princeton to the northern route to the River country.

RESPECTS SOCIALISM

AL—Henry G. Birks, of the Canadian of Commerce, expressed opposition last night to socialism and communism.

Mr. Birks said that he was not a socialist and therefore did not believe in the overthrow of the present government by people who make a success of their own and therefore adhere to these creeds in their own interests.

School Teachers Strike

AL—Fifteen hundred speaking teachers in Catholic schools in this province on strike and speaking teachers will strike at the end of the week. A strike, wages are a maximum of \$3500 a month and \$2500 for women.

GENERAL SCHEME PLANNED, COLDWELL SAYS

AL—Speaking last evening J. Coldwell, national secretary of the C.C.F. party, said that if it came into power, it would socialize only by the doing of the people. There is no general socialization.

RIOT IN AFRICA

AL—South Africa, and African natives and to the market in the area of Durban at noon. A riot broke out at night. Fifty-eight Indians were taken to hospital after the evening. Most of them were receiving treatment.

A riot broke out when an Indian storekeeper was shot. A crowd took offence at the alleged to have been an Indian storekeeper.

FOUR GERMAN KILLERS HANGED

MUNICH, (P)—Six German war criminals were hanged today in a resumption of executions at Landsberg prison. Four of them were involved in the slaying of unarmed American servicemen and two in killing prisoners in concentration camps.

BILL ODOM SETS MARK

Even Though He Landed at Oakland Rather Than at New York

SAN FRANCISCO, (P)—Winter weather stopped lanky Bill Odom a continent's width short of the flight he had announced as a non-stop attempt from Honolulu to New York, but it didn't rob him of the world record for light planes.

The flier landed his single-engine craft at Oakland airport at 6:30 last night, 22 hours and six minutes and 2,375 statute miles from his Honolulu take-off at 8:32 P.S.T. Wednesday night.

Official recognition of his record must await approval of the National Aeronautics Association.

OAKLAND, Calif.—Bill Odom failed to reach his objective of New York in his long distance flight from Honolulu yesterday but, with his safe landing here, he set a non-stop new distance record for light planes. With his landing after encountering heavy head winds and unfavorable weather, he had covered 2,500 miles, 500 miles better than the record set some years ago by a Russian flier.

Septuagenarians Are Fire Fighters

SALEM, Ore.—Louis Smith, 75, and Louis Barnett, 72, are still volunteer firemen on the Salem fire department and turn out to fight fires with the same vim as "the young whippersnappers" as they express it.

LOST SCOTTIE PUP IS NOW SAFE AT HOME, MANY WOULD TAKE HIM IN

"Nipper," four-month-old part Scotty pup, was safe back at the home of his owner, Mrs. C. Martin, Biggar Place, soon after the appearance of the Daily News yesterday afternoon. The paper contained a news story about the lost dog which had been picked up on a downtown street by a man and turned over to the police. Elsewhere in the paper there was a classified advertisement through which the owner sought to get her pet back. The combined publicity was soon effective in effecting the restoration.

Even had "Nipper" not been restored to his rightful and happy mistress, he would not have lacked a good foster home for the story about his plight and the suggestion of a dire fate aroused much active interest and sympathy.

Offers to give home to the canine orphan were being phoned in to the police station throughout the afternoon and evening. Some people called at the station while others implored officers on the street with their offers of hospitality.

WINTER WEATHER PUNISHES U.S.

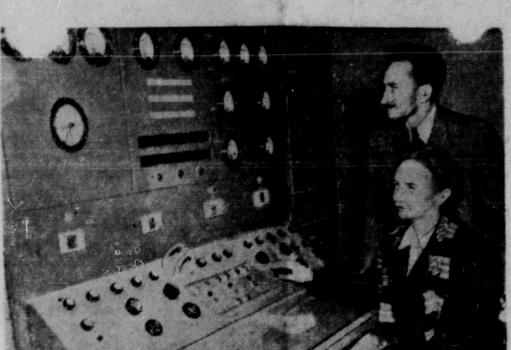

NEW YORK, (P)—Winter's January punch at the United States killed more than 100 persons, cost millions of dollars in damage to crops and property and brought misery and hardship to thousands. Weather today ranged to a climatic scale—tornadoes, blizzards, sleet and freezing rain, sub-zero temperatures, snow and frost in California and summer weather in the south.

Churchill Foresees Change In Gov't

LONDON—Winston Churchill, before leaving for the south of France on a vacation, in a New Year's message to the Primrose Club said: "This may be a year of destiny and the people go to the polls. If they do, we shall, without doubt, bring to an end one of the most inept governments this country has had in modern times."

Ottawa Nurses Raising Fees

OTTAWA—Ottawa registered nurses are to charge \$7 instead of \$6 for an eight hour day on private duty in hospitals or homes. A nurse, as a rule, works seven days a week and, when she stops working, her pay stops. She has no unemployment insurance or superannuation.

INSPECTING FRANCE'S ATOMIC ENERGY PLANT—Allowing newspaper men to visit the new atomic pile, now in operation in France, Mme. Irene-Joliot-Curie (top) operates the controls at the command station. With her is Francis Perrin. At bottom, her husband, director of France's Economic Commission, explains the "gamma ray" meter to reporters who were taken on a tour of the project. The French "Oak Ridge" is located just outside Paris.

Marshall Program Broadened Beyond Military Aid Scheme

By George Ronald, Canadian Press Staff Writer
WASHINGTON—The economic co-operation administration may be more than just a pattern for the military-aid program the United States is expected to put into operation this year.

In the case of certain commodities, it is believed, the Marshall Plan administrative body may be used as a purchasing agent. This arrangement would be similar to that which made the export-import bank the agent for E.C.A. in handling European-recovery loans.

The arms program, with the United States paying the biggest part of the shot, is considered an inevitable new move in the struggle to curb Communist aggression. But its size and scope are in the speculation stage, with those details locked in the briefcases of military experts and Truman administration officials.

One unofficial estimate is that military equipment for western Europe will cost between \$2,000,000,000 and \$3,000,000,000 a year. The Brussels Treaty powers—Britain, France, Belgium, The Netherlands and Luxembourg—presumably will get the major amount of United States "gift" arms. Canada is expected to participate as a manufacturer who will buy the equipment she needs for her own use.

The five European countries, with Canada and the United States, are drafting an Atlantic defence alliance; military aid, although not an integral part of the proposed pact, is of necessity linked closely with it. Military experts of the seven countries are conferring here at the same time that diplomatic representatives iron out details of the pact itself.

If, after the alliance is signed, other countries are invited to join—Italy, Ireland, Portugal, Denmark and Iceland are mentioned—they supposedly would be more in line for military help. Meanwhile, it is considered likely that something along the lines of E.C.A. will be organized to administer the arms program. E.C.A.'s general counsel, Alex Henderson, is a member of a committee working on the military phases of all United States foreign-aid projects.

WILLING TO TALK WITH UNCLE JOE

WASHINGTON, D.C.—President Truman reiterated, in answer to a newspaperman's question yesterday, that he was willing to talk at any time with Premier Joseph Stalin of Russia—if Stalin came to the United States.

ARCHBISHOP OUTSPOKEN

OTTAWA—Archbishop Vachon, at a New Year reception to the diocese clergy, deplored the action of the Hungarian government in imprisoning Cardinal Mindszenty.

In his reference to the Soviet he said: "Men and ideologies are working to lead humanity from God and to inspire men with hatred of Christ and his gospel of love. They imprison the spiritual leaders, they kill the bishops and priests behind the Iron Curtain. God is ignored, the love that unites is replaced by hatred that divides, brutal forces replace right, and war threatens us again. Around the peace table we feel there is continual antagonism, and the world is always living in fear and anguish."

Understanding of Policy Reached
WASHINGTON, (P)—The United States and Britain were reported today to have reached a better understanding on the explosive Palestine situation. Officials indicated after a fast round of diplomatic conferences here that important policy differences exist which may grow worse unless the Arab-Jewish fighting in the Holy Land is brought to an end quickly.

BUTTER OUTPUT IS INCREASING
OTTAWA (P)—Butter production is going up but stocks are going down. The Dominion Bureau of Statistics reported yesterday that output of creamery butter during December climbed to 11,936,000 pounds as against 10,254,000 in the corresponding month of 1947.

FIRE DEPARTMENT WATER-BORNE IN BATTLE WITH BLAZE AT FISH FLOATS
A blaze originating in the galley of a fishboat this morning forced three members of the fire department to become a temporary water-borne unit.

OLEO BANNED IN P.E. ISLAND
CHARLOTTETOWN (P)—The sale and manufacture of margarine was banned in Prince Edward Island Thursday by a proclamation under the province's Dairy Industry Act as passed in 1947 but never put into force until now. The act will be referred immediately to the Supreme Court for a ruling on its validity.

NEW PROBLEM FACING NAVY
OTTAWA (P)—Because it needs more men, the Royal Canadian Navy has now been forced to strike a not entirely happy compromise in the emphasis it places on two major functions, the training of regular recruits and the keeping them trim and up-to-date on anti-submarine operations.

With a regular strength of 7500 and some ships in moth balls, the Navy is not in a position to do both jobs adequately, defence sources said yesterday.

A transient solution is to combine them as well as possible.

OLDEST ARMY UNIT
BROCKVILLE, Ont. (P)—The Royal Canadian Regiment, oldest permanent force infantry unit in Canada, celebrated its 65th birthday with a special mess dinner Dec. 21.

Break With U.S. Demanded as Peace Condition of China Reds

SHANGHAI (CP)—Mao Tse-Tung, Chinese Communist leader, today demanded the abrogation of treaties between China and the United States as one of the eight prerequisites of peace.

In a Chinese language broadcast heard here, Red leaders also demanded the trial of "war criminals," presumably to follow the peace move.

Mao, accusing Chiang Kai-shek of warring against the Communists because he was lured by the glitter of American weapons, called upon the Nationalist leader to show the sincerity of his desire for peace by accepting Mao's conditions.

Mao said that China has been depending on United States' support against the peoples' will, and added that Red soldiers will liberate them.

Meanwhile, in Tientsin, negotiators with the Reds were reported as representing not only their own city, but Peiping and the rest of north China under General Fu Tso--Yi's command.

TIENSIN, (P)—Communist guns mercilessly pounded this doomed north China city today, taking a growing toll of the panic-stricken population and blasting roads and buildings in the main business area.

High explosives burst in the heart of the city as the Communists closed in. Casualties among the 2,000,000 residents mounted every minute in the rain of steel on the city which began early this morning. Utter confusion and despair has overcome the population.

Radar to Aid Blind People

OTTAWA, (P)—A battery operated seeing-eye device for use by the blind is being developed by a National Research Council scientist here. Based on the principle of radar, with sound instead of electrical waves used, the instrument is being designed so it will warn sightless persons of the location of obstacles.

United Nations Mediator Asks Countries Concerned to Keep Hands Off Palestine
RODI, Island of Rhodes—Jewish and Arab representatives sat down for the first time here yesterday to discuss peace in Palestine. The proceedings are under the supervision of Dr. Ralph Bunche, United Nations mediator who suggested that all governments except those directly concerned keep hands off Palestine. He named no country specifically but it was assumed that he was referring to Great Britain.

HOUSE BUILT BY BLIND MAN

TAMPA, Fla.—Melvin Jones, blind since 1931, has completed the building of a house for himself and sightless wife. It took him ten years.

PRIORITY TO ALUMINUM CO.

Further Statement by Mr. Kenney in Regard to Possible New Industry
VICTORIA—First choice of power sites on the British Columbia coast for the aluminum industry will go to the Aluminum Company of Canada which for some years has been looking into the possibilities, said Hon. E. T. Kenney, minister of lands and forests, yesterday, following the announcement that the Reynolds Aluminum Co. of the United States was interesting itself in the possibilities and was planning surveys this year.

Mr. Kenney said that adequate precautions were being taken to see that the fisheries would be protected should there be such large scale power development.

Notice of Meeting

The Annual Meeting of the Civic Centre Association of Prince Rupert will be held Friday, January 28, at 8 p.m. in the Civic Centre Auditorium. The order of business will include the presenting of Annual Reports, election of directors, etc. All paid up members of the age of 18 years and over will be entitled to voting privileges.
C. G. Ham, Secretary.

Moral Values, Too

AT THIS CRUCIAL STAGE in the world's affairs in which it appears that a decision must be made between chaos or cosmos and the very existence of mankind, social studies are a matter of the greatest importance, particularly in view of the continuing challenge to our free way of living.

Much of natural science today derives its foundations from the inventions and studies of the past. Men have labored through the years to further the progress of science and their efforts have been adopted and enlarged by modern scientists. We have made rapid advances in all the pure sciences.

But, while men of science have grasped avidly for discovered truths and inventions, the knowledge of man of his social, political and economic relationships has been sadly underdeveloped. How many of us comprehend or are even interested in anything beyond the merest surface of these matters? The fact is that natural science has probed far beyond man's capacity or desire to grasp. While we live in a scientific world beyond our conception, we live in a normal world which often seems little beyond the caveman stage.

It might as well be admitted that the path to world peace lies in knowledge and higher moral values. This should not be only a practical world. It should be a spiritual one. We must accept both practical and spiritual ideas in working toward world peace and unity. The ground for a secure future lies in the search and acceptance of moral values between man and man and nation and nation. Only with such an understanding can knowledge and spiritual values go hand in hand to build a better world. Until there is such a synchronization, we only grope and hope.

CLARIFICATION NEEDED

IF, AS ANTHONY EDEN SAYS, Foreign Secretary Ernest Bevin's terms in the Palestine situation are confused, it is equally true that the situation itself is a highly complex one. A lot of things are not being told or said, particularly when one essays to analyze the reasons for the attitude of United States and the less clarified one of Soviet Russia—or, for that matter, that of Britain which has been called anti-semitic by some but the actuating circumstances which, of course, have deeper motives and reasons than that.

Circumstances are precipitated in Palestine today such as have prevailed for many years. In this cradle of the Christian civilization, are concentrated not only cleavages in religious but also economic and political conceptions and commercial interests. The elements are all those tending to a final struggle for supremacy not only of the ideologies but for the economic control of the world.

There are so many factors which we might surmise or suppose in this Palestine situation that it is a daring person who would assume too strong convictions on the rights and wrongs.

WHAT NEXT IN CHINA?

WITH THE COMMUNISTS seemingly likely to take over control of China, no matter what happens to Generalissimo Chiang Kai-Shek who missed the boat on coalition and whose fate might be almost anything, things may not be greatly different in China.

The Communists will keep the vast territories they have overrun, including the industrial stronghold of Manchuria and, dictating to any new coalition government which may be formed, they will have political control over the rest of the nation of historic vicissitudes.

The outcome of the Chinese civil war will at least, it is to be supposed, upset the usurious rental system of the land under which China has long operated. Whether communist collectivism will be the next development remains to be seen. The western nations will be making such efforts as they can to preserve the honest democratic forces in that great land.

Letters to the Editor

SAVES DRIVING PLEA

Editor, Daily News:
I am writing this letter in the hopes that the party who ran over and killed my son's little collie pup Wednesday afternoon while on the rounds of his paper route will read with at least some feeling of regret! The pup had just recently been purchased and paid for by the lad, who is a carrier. Having recently lost another dog, the blow of the second pup's death was much harder to bear. The driver of this car did not have the decency to stop after running down the wee pup. The lad, broken-hearted, carried the little body home.

I do think that many cars travel at too high a speed, especially along Seventh Avenue no regard whatsoever for human or animal life. I hope that this particular party responsible for the pup's death, realizes he not only left a broken body but also a broken heart—so drivers please drive more slowly!

Thanking you, Mr. Editor,
JUST A SUBSCRIBER.

PRINCE RUPERT YEARS AGO

Twenty-Five Years
A fisheries biological station was to be established at Prince Rupert, according to John Dybhorn, a member of the Biological Board of Canada. The station was to be the third in Canada and the second on this coast.

The largest real estate deal from the standpoint of land involved, in the history of Prince Rupert, was closed when John Frederick Duthie of Seattle purchased 3,365 lots from the Grand Trunk Development Co. Ltd. for \$33,650.

S. J. McLeod, manager of the local branch of the Royal Bank of Canada, was elected president of the Board of Trade for 1924. J. W. Scott was elected vice-president.

Thirty-Five Years
Mr. and Mrs. F. C. Wright of Graham Island were visitors

FEELS GRATEFUL

Editor, Daily News:
On behalf of the congregation of Knox United Church, Terrace, I would like to use your columns to say "Thank You" to all those who worked so splendidly to save our church from flames.

The local fire brigade did a magnificent job and the generosity and helpfulness of numerous other volunteers and owners of trucks and storage space was indeed moving.

The kindness of the Anglican Church and the local Oddfellows in offering us accommodation will also be long remembered.

Yours sincerely,
(Rev.) P. H. MALLETT,
Minister,
Knox United Church,
Terrace.

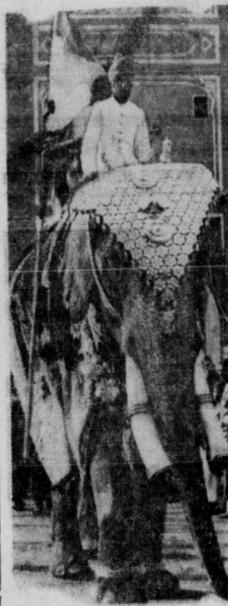

SLEEPER FARES ARE MOVING UP

Travelling costs will mount again next Monday when a general 25 per cent increase goes into effect in sleeping and chair car fares on Canadian railways. The increase will restore these fares to the same levels as 25 years ago. As from Monday the lower berth single minimum goes up from \$2 to \$2.50 (\$2.90 including tax) while the upper berth minimum is upped to \$2 plus tax (\$2.35).

CAMBERLEY, Surrey, Eng.,

enroute to Vancouver on a holiday. Mr. Wright was manager for the Graham Island Coal and Timber Syndicate.

Superintendent, Graham of the firm of Bates and Rogers, concrete contractors for the G. T.P., arrived in the city after a business trip to the south. He reported that concrete work on the big Duncan Ross tunnel would be completed in six weeks and that the tunnels near Kilselas had been completed and the slow order to train movements revoked. At Mile 44, he said, about 40 feet of the western end of the tunnel was being concreted and would be finished in a few days.

FREE INDIA'S FIRST NATIONAL CONGRESS — With the national flag of the Dominion of India carried by one of the riders, a huge elephant leads the procession that marked the opening of the 55th session of the Indian National Congress at Jaipur. This is the first congress to be held since India won its independence. The place has been named Gandhinagar in honor of India's dead leader.

HOSPITAL DUES NON-PAYMENT BRINGS PENALTY

VICTORIA—Because of the increase in hospital public ward rates persons not covered under the Hospital Insurance Act will have to pay an increased basis rate per day, plus the usual charges for all special services.

According to Dr. J. M. Hershey, director of the plan, the average bill for public ward care in many hospitals for such persons is likely to be in the neighborhood of \$12 to \$15 per day.

In making this announcement, Dr. Hershey pointed out that, in addition, they will be required to pay their outstanding Hospital Insurance premiums, plus the penalty for delinquency imposed under the Act. In no case can such a person be billed for an amount less than would be paid to the same hospital for similar services on account of a beneficiary under the Act.

The reported increase does not affect those covered under the Hospital Insurance Act since the Hospital Insurance Service pays for all services at a public ward level. Beneficiaries under the Act, using semi-private or private accommodation, will be billed only for the difference in type of accommodation.

Dr. Hershey pointed out that the increase in basic public ward accommodation is due to increasing costs of operating these

Said a Disillusioned Labor M.P.:

"SOCIALISM IS NOT THE ANSWER"

Alfred Edwards is a Laborite member for Middlesborough in Yorkshire, England.

Two years ago he toured the United States and his lecture subject was socialism—in theory.

Back in the United States recently, after seeing two years of applied socialism in Great Britain, Mr. Edwards said in an interview:

"I am retracting some of the things I said about the beauties of socialism.

"Whatever is wrong with capitalism, we British have found socialism is not the answer.

"When you look at the record and it shows a \$100,000,000 loss for 12 months of operation, that's not the solution to anything . . .

"The weird paradox of our social change is that despite the fact that our coal mines are nationalized, and therefore belong to the men who work in them, the laborer has proved that he has all the ills, all the selfishness, all the laziness of a capitalist."

Socialists, everywhere, have little understanding of the problems that arise in running a business until they get into business. The more realistic amongst them admit to disillusionment when they learn the facts. They may remain reformers but, with Mr. Edwards, they say:

"SOCIALISM IS NOT THE ANSWER"

REMINISCENCE INTERESTING

Pioneer Recalls Dr. W. J. Quinlan's Trip to Telkwa

The News not long ago published a reminiscence story descriptive of Dr. W. J. Quinlan, pioneer dentist, who was practising in Prince Rupert as long ago as 1909.

Surviving old timers found the yarn interesting, among them, Wiggs O'Neill of Smithers, who has been living in Smithers since railway building days, and who is also well known in Prince Rupert. He writes to The News, stating he knew Dr. Quinlan so well, and that he got a "kick" out of the little story recalling early days.

It was in 1912, Mr. O'Neill mentions, that business, having slackened off a bit in Prince Rupert, Dr. Quinlan decided to spend part of the summer in the hinterland. He packed his dental outfit in a couple of large trunks and shipped it to Telkwa aboard the steamer "Distributor." The property went through by boat along the Skeena River, and by freight without a hitch, to its destination.

It was in 1912, Mr. O'Neill mentions, that business, having slackened off a bit in Prince Rupert, Dr. Quinlan decided to spend part of the summer in the hinterland. He packed his dental outfit in a couple of large trunks and shipped it to Telkwa aboard the steamer "Distributor." The property went through by boat along the Skeena River, and by freight without a hitch, to its destination.

FORMER LOCAL BOY PUBLISHER

Cecil Hacker, formerly of Prince Rupert, has purchased the Abbotsford, Sumas and Matsqui News, one of the largest weekly newspapers published in the Fraser Valley.

Mr. Hacker is the son of the late Rev. G. G. Hacker, who for years served as pastor of the First United Church in Prince Rupert. The family will be well remembered in this city.

The new owner of the News was born in Saskatchewan and is a graduate of the University of British Columbia. He has had 20 years experience in the weekly newspaper business, having been associated with the Vernon News and Chilliwack Progress, as well as being identified with the publicity department of the B.C. Electric in Vancouver for a few years. Under the new ownership, the News will operate as the Hacker Press Ltd.

Repents After Hearing Carols

COBOURG, Ont. — Charley Clubine, 19, after listening to Christmas carols sung by the Salvation Army chorus, entered the police station here, saying he wanted to give himself up. He confessed to having given a bogus cheque at Guelph, Ont., in payment for an automobile. He said the carols had caused him to try and get caught he knew was wrong straightened out.

BOSTON, Eng. — Boston Youth Council in debate accepted that honesty is the best policy—by one vote.

Urges Provinces Get Gas Preference

CALGARY — Alberta was urged Thursday to give other Canadian provinces "first consideration" if she decides to export natural gas. Julian Garrett, of Western Pipelines, told the Royal Commission that Canadian communities should receive consideration over the United States. The Commission is investigating the natural gas reserves of Alberta to determine the feasibility of exporting it.

HOW CAN I ???

By ANNE ASHLEY

Q. How can I make use of old felt hats?
A. They can be cut into square or round pieces and used as table mats; or, small designs can be cut from them and used as appliques for decorating.

Q. How can I make the taste of olive oil more palatable?
A. A small pinch of salt added to the olive oil will make the taste more agreeable.

Q. Should potatoes be placed in the sun?
A. No; never place potatoes where the sun shines on them as the light will give them a queer, unpleasant flavor.

Reminiscences

By W. J. — and REFLECTIONS

Attorney General Wismer is reported to have informed the Transport Board at Ottawa that the Pacific Great Eastern Railway in British Columbia goes no where to no where. It need not have been so stark as all that. He might have suggested something like, say, "an examination for discovery." It would have been more lawyer-like and given the board at least something to chew on.

Well, there's always something to be thankful for. Consider today. It might have been Friday the thirteenth.

Never having had a \$25,000,000 industry working the year round and employing a thousand men for a starter, placed at her door before, Prince Rupert, as yet, "can't get the feel of it." Of course not. Whoever talked in millions before, except in happy fancy? And what a lot of it there was!

Doctors say Ernest Conduit, engraver, risks becoming a mental wreck, because of shock suffered when in the power of alleged counterfeiters in a Vancouver house. A strange and sinister case! Reporters, hungry for first hand statements are barred from reaching him. It's not the fault of the press that readers are being denied knowing more about it.

MARGARINE IS BANNED

CHARLOTTETOWN, P. E. I.—Manufacture and sale of margarine in Prince Edward Island has been prohibited under the provincial Dairy Industries Act of 1937. The question is expected to come up at the session of the provincial legislature which opens February 22. Meantime the existing act will be referred to the Supreme Court of Prince Edward Island for a test of validity.

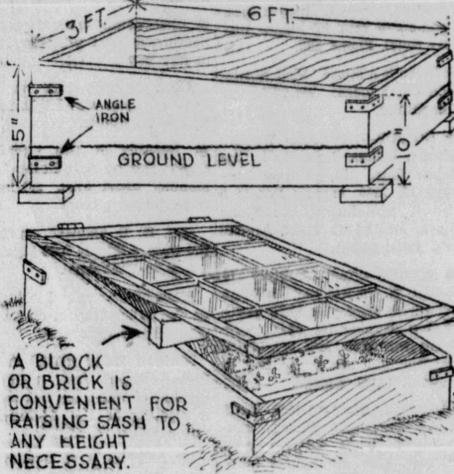

Almost as interesting watching someone manoeuvring her way across a Prince Rupert street, as it was umpteen years ago, staring at Eliza crossing the Ohio River ice, in "Uncle Tom's Cabin". The only difference is that now instead of bloodhounds, there are cars.

Small wonder Saskatoon where once we inhaled the prairie dust, is growing. That fair city has the nerve to boast about the "beauty" of a thirty below zero night. By Gar, Gad-zooks and little fishes, you're telling us far be it from this scribbler with a solemn passion for truth, to deride loveliness but not that kind.

BEAR-SHOOTING RECORD
KEMPTVILLE, N.S. —Lawrence Burrill of Kemptville set a record for this district and possibly for the Maritimes this year by shooting five bears in one week.

GARDEN NOTEBOOK

NOW IS THE TIME TO BUILD THAT GARDEN COLD FRAME

Working Drawing for Standard Single Sash Cold Frame

There is no better way to use 18 square feet in any sunny garden than by covering it with a garden frame. If you have none, then a few hour's work in the basement this winter will prepare all material, ready for a quick assembly job as soon as the weather outside permits. It can be put to use throughout the year for some garden purpose.

The pattern now used is much the same as has been followed since glass first became available, and serves for both cold frame and hot-bed. The standard size is 6 feet, made to fit the standard sash, which was scarce during the war but is obtainable again. You can build your frame to fit any sash you have on hand, however, and instead of glass many prefer one of the plastic substitutes which are much lighter and unbreakable—important advantages in windy locations.

Wood is by far the best material for a frame, because of its insulating value. Anyone who can use a saw and hammer can build a frame from the accompanying working drawing. Boards at least one inch, and preferably two inches thick should be used, of a type that resists dampness, such as cypress, redwood, or white pine.

When it is practical to assemble the frame outdoors, dig a hole in the ground slightly larger than the size of the frame. It should be at least a foot deep. Into this hole put the frame you have built so that 4 to 6 inches of it is beneath the surface and the remainder above. This will insure that no drafts enter from beneath. Place the frame so that the front slants toward the south

where the winter sun shines. It is well to hinge the sash at the top of the frame, so it can be easily opened for transplanting purposes and airing.

A sunny spot in the garden, protected as much as possible from the full force of winds and driving rain, is the best situation for the cold frame.

DATED at the Land Registry Office, Prince Rupert, B. C. this 14th day of December, 1948, A.D. ANDREW THOMPSON, Deputy Registrar of Titles. (18)

CITATION FACES OPERATION FOR LEG INJURY

Injured during his appearance in California recently, "Citation," wonder horse of the year, immediately underwent examination by Ben Jones (left), general manager of Calumet Farms (owners of the horse), upon arrival at Hialeah Park, Miami, Fla. Jim Jones (right), Ben's son, who trains Citation, is explaining the injury which will necessitate a minor operation. Citation should be well enough to run again in two months.

TO RAISE CATTLE IN AFRICA NOW

LONDON—British scientists have found a new drug for cattle which is believed will make Africa the world's biggest meat supplier. It will prevent or cure the sleeping sickness carried by the dreaded tsetse fly. Discovery of the drug—anttrycide—has been announced by Colonial Under Secretary D. R. Rees-Williams. An area of 4,500,000 square miles in Africa, hitherto deadly to man and beast because of sleeping sickness, will be made safe for cattle raising.

BEER PRICE IN HALIFAX UPPED

HALIFAX—Commencing New Year's Day, beer in Halifax increased in price three cents a quart. In future, Nova Scotia will sell beer at 43 cents a quart, and Quebec and Ontario at 53 cents.

As conscientious as he was 20 years ago

Gordon prefaces each opening of the flat season with three weeks' serious preparation, which includes plenty of early-morning road work, exercises and right diet. It's his formula for starting the season fighting fit. Even so, riding six races daily, he finds he often loses as much as three and a half to four pounds. That is adjusted by saddles of varying weights if his horses all are required to carry the same.

DETROIT IS WELL AWAY

Showing Heels to Boston Bruins Now in National Hockey League Race

NEW YORK—Scoring an easy 4 to 1 victory over the New York Rangers on Wednesday night, Detroit Red Wings added another full game for two points in their margin of leadership in the National Hockey League over the runner-up Boston Bruins who were taking a five to three defeat from the Montreal Canadiens at Boston. Five points now separate the Red Wings from the Bruins while their victory put the Canadiens into a tie for third place with the Chicago Black Hawks, two points ahead of the Toronto Maple Leafs.

Games scheduled for the week-end are as follows: Saturday—Chicago at Montreal, New York at Toronto. Sunday—Montreal at Detroit, Toronto at New York, Chicago at Boston.

The league standings to date:

National League						
Detroit	19	3	13	115	90	41
Boston	16	4	14	100	97	36
Chicago	15	3	16	108	123	32
Montreal	13	6	13	86	73	32
Toronto	11	8	14	84	93	30
New York	10	8	14	70	87	28

CALLINGTON, Cornwall, Eng.

Bert Maunders, ex-Navy cook, cornet player and football linesman, tried out his voice as town crier here. The council accepted him, so he chose six calling sites. His first news: "I'm town crier."

"Captain Morgan's in town!"

For a new drink that's really exciting, try a Captain Morgan Rumhatton... To one jigger of Captain Morgan Gold Label Rum add 1/4 jigger of dry Vermouth. Add plenty of cracked ice and stir well.

Captain Morgan GOLD LABEL RUM

The rich flavour and full body of Captain Morgan Gold Label Rum result from master blending of carefully selected rare old rums.

The Sign of CHARACTER

Ale-wise folk, the province over, rate Old Dublin as THE ale for perfect hospitality. In Old Dublin, there are extra dividends which can best be described as breeding, balance and delicacy of flavor. Where gracious hospitality prevails, Old Dublin stands high in preference. It is a satisfaction to know that this high rating is the achievement of our brew master to whom nothing less than perfection of product is the ever-constant goal.

DAILY NEWS CLASSIFIED ADVERTISEMENTS BRING RESULTS

Timely Topics from Terrace

Mrs. C. R. De Kergommeaux, Terrace Reporter

The Sunday services of the United Church will be held both morning and evening in the Anglican Church. The Sunday School will meet, however, in the Oddfellows' Hall at 11 a.m.

Mrs. Vic Giraud entertained on Monday evening in honor of Miss Adela Haugland whose marriage is scheduled to take place in Terrace next week. The guests included long-time friends of the bride-to-be and a gift of a wear-ever roasting pan was made. Games and refreshments filled the evening and a merry time was had by all. Among those present were, besides the hostess and the guest of honor, Mrs. G. Haugland, Mrs. Maxted, Elliott and Marion Head, Mrs. L. Johnstone, Mrs. C. Martin and Mrs. Alice Campbell.

A meeting of the Girl Guides' Association was very poorly attended at the Silvertip last Tuesday afternoon and at the next meeting on the first Tuesday afternoon in February, all members are being asked to attend and bring one or two friends with them who are interested in becoming members of the Association. A suitable hall is being sought for the Guides and Brownies to meet in as the one they use at present is too cold for winter meetings. Guide enrolment will take place next Wednesday afternoon at the home of the president, Mrs. Head.

Miss Merle West returned home from the south on Thursday morning's train much improved in health.

Mrs. H. Spencer is a patient in the local hospital, having contracted a cold on her return journey from the south last week.

Mrs. H. Philip, Carl and Claudia were passengers to Prince Rupert on Tuesday's train, going there for dental treatment.

Mrs. D. Kerr is a surgical patient in the local hospital.

DIFFERENCE ON SEASON OPENING

Divergence of Opinion at Seattle Conference Obvious
SEATTLE—There appears to be decided difference in the views expressed by coast fishermen, converging here for a conference of the International Fisheries Commission, concerning the date of the annual opening of the season. The Commission will meet Thursday of this week.

The Deep Sea Fishermen's Union of Seattle will ask the Commission to authorize the opening a month earlier which would be April 1.

The fishermen in Prince Rupert are favoring June 1.

How the Vancouver halibut operators feels about it does not appear to be definitely known as yet.

Everyone agree on this, however. The fishing season is becoming shorter, all the time. Last year, it was shortest on record.

CATERING TO MAGISTRATES

Vancouver City Solicitor Objects to Criminal Code Amendments
VANCOUVER, (C)—City Solicitor Arthur Lord suggested today that recent Criminal Code amendments were like buying crutches for small town magistrates with revenues taken from larger cities.

Lord said that changes in the Code which allowed persons charged with certain minor offences to elect for jury trial were enacted for the benefit of magistrates not formally trained in the law.

Formerly the most of minor offences mentioned—theft of over \$25, gambling, keeping bawdy houses—came before the police magistrate and the revenue from the fines poured into city coffers.

SHIPS AND WATERFRONT

Modern Etiquette

By ROBERTA LEE

Q. When a man goes horse-back riding with a woman, and a groom is present, should the woman's companion or the groom assist her in mounting and dismounting?

A. The woman's companion should do this.

Q. Is it good form to allow the children to enter the conversation at the table?

A. Yes, and they should even be encouraged to do so, and trained to converse intelligently and quietly.

Q. What is the meaning of "chateaubriand" when printed on a menu card?

A. Centre cut of fillet of beef.

The Fisheries Research Board which has been sitting in Ottawa, is out to still further modernize the fishing industry which has many complex problems. The idea is to have deep sea products practically ocean fresh when they reach the table. The first step is co-operation between a refrigerated fishing ship on the Atlantic and a low temperature freight car on the Pacific Coast.

Better English

By D. C. WILLIAMS

1. What is wrong with this sentence? "Let's us go to the dance."
2. What is the correct pronunciation of "dentifrice"?
3. Which one of these words is misspelled? Sargeant, sarsaparilla, sapphire.
4. What does the word "impertiousness" mean?
5. What is a word beginning with sa that means "disposed to be hopeful"?

ANSWERS

1. Say, "Let us go to the dance."
