## Victoria Day

N 1838, a year after Alexandrina Victoria ascended the British throne, an Empire holiday was established commemorating her birthday, May 24.

On her death January 22, 1901, the rest of the empire decided to mark Edward VII's birthday, but Canada passed a bill designating May 24 as an annual holiday in memory of Queen Victoria.

Continuing the tradition with firecrackers and festivity, Canadians tomorrow celebrate the 131st birthday of Victoria, By the Grace of God, of The United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, Empress of India.

A parallel with Victoria Day is held elsewhere in the Commonwealth as Empire Day, no longer a general holiday. Founded by an Ancaster, Ontario, in charge of the service, with woman, Mrs. Clementina Fessenden, Empire Day was first celebrated in 1899 with the Queen's approval. It was adopted in the United Kingdom in

While the rest of the British world holds Empire Day tomorrow, in Canada it is observed on the last school day preceding Victoria Day, this year being

At Queen Victoria's coronation in 1838 the Turkish ambassador is said to have muttered: "Al! this for a woman!" Had he been able to foresee this lasting tribute to herself and the perpetuation of her reign in the hearts of a nation whose birth and early growth took place during her reign, he would be even more astounded.

Victoria's reign-the longest in British history -saw wide development and colonization of the Empire and great extension of her power on land and sea. She became Empress of India. From a group of scattered colonies, sparsely-settled and restless, there grew the Dominion of Canada. At her death, the last scattered shots of the Boer War echoed the birth-pangs of the Dominion of South Africa.

Daughter of Edward, Duke of Kent, son of George III of Great Britain, Victoria's prospects at birth of becoming Queen were not great. Her uncle, afterwards George IV, was Regent.

He died and was succeeded by his brother, William IV. When William died, his 18-year-old niece, Victoria, was the sole surviving child of four sons of George III.

Victoria's reign lasted 63 years. Not only did she consolidate her throne to head the greatest empire the world had ever known, but she captivated her subjects and won the awe of such boundarymakers as Bismarck and her own politicians such as Gladstone and Disraeli.

Shortly before he died, Wiliam IV said of his niece:

". . . a good woman and a good queen. It will touch every sailor's heart to have a girl queen to fight for. They'll be tattooing her face on their arms, and I'll be bound they'll think she was christened for Nelson's ship."

How true his words were has been established by history. Tomorrow Canadians will celebrate at least one holiday whose implications are well realized, one symbolic of the golden age of British imperialism, during which British North America became the first of the Dominions.

#### Rummage Sale Nets Good Sum

A total of \$186.50 was realized as a result of a rummage sale conducted during the past week by the Women's Auxiliary of the Prince Rupert General Hospital in the vacant shop on Second Avenue which was made available by R. E. Mortimer.

At the regular monthly meeting of the Auxiliary, held in the Ladies' Lounge of the Civic Centre, the library committee reported having started work on the library for the hospital and the first lot of books and magazines will be placed this week, a citywide drive for donations now being planned.

Final arrangements were made for a tea and sale to be held June 1 at the home of Mrs. L. M. Greene. A hamper of groceries will be raffled at the tea.

#### Local Woman Sees Gracie

A Prince Rupert woman, on a recent visit to Vancouver, had the pleasure of meeting Gracie Fields, the eminent English music hall songstress.

Mrs. Walter Longwill had a special entre to the dressing room of the famous Lancashire Lass because a niece of Mr. Longwill is the wife of Miss Fields' brother.

Access was readily obtained by Mrs. Longwill owing to this connection as police stood without the dressing room door to prevent crowds from rushing forward in their enthusiasm.

Mrs. Longwill found Miss Fields quite as natural and unaffected as the roles she plays in some of her songs. She was obviously interested in the relationship in this part of the country.

# "Imaginary Tea"

An "imaginary tea" is the latest wrinkle in local entertainment. The meeting of Duchess of Edinburgh chapter, I.O.D.E., decided to stage it June 17.

An interesting report of the provincial annual convention in Vancouver was given by the delegate, Mrs. D. Stewart.

Mrs. M. Wightman, Mrs. N. F. MacDonald and Mrs. A. McCuaig were appointed to a committee to arrange the fall bazaar.

"Communists come to Shangrila," an interesting article by Mathew Halton, was by Empire study convener, Mrs. E. Barton. Mrs. Barton won the monthly

raffle. Regent Mrs. M. Wightman presided at the meeting. Twelve members were present.

A Penetrating Sealer and Paint Mix

Tim-Ber-Lox is a clear liquid made from the finest, toughest resins and water-repellent oils and is used as a thinner for oil based paints or as a clear primer before painting or varnishing.

You will be proud of your paint job when you use TIM-BER-LOX because: Tim-Ber-Lox helps prevent paint from "Peeling and Blistering" by affording

protection against moisture.

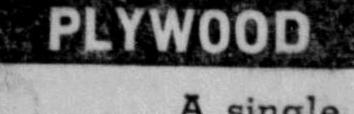

longer lasting paint job.

Tim-Ber-Lox, mixed with paint, reduces "brush drag" to a minimum, thereby giving increased coverage and a superior,

The use of Tim-Ber-Lox with paint actually saves YOU money because each quart of Tim-Ber-Lox you use replaces a guart of paint.

Paint mixed with Tim-Ber-Lox flows on more evenly, more smoothly, allowing an inexperienced painter to do a smooth professional looking paint job.

In order to secure a good paint job it is first necessary to secure a good ground or prime coat. It is in this prime coat that the addition of Tim-Ber-Lox to paint is highly recommended. Paint with Tim-Ber-Lox added. has superior penetrating and sealing qualities which provide a reinforced foundation against moisture and helps prevent the peeling and blistering of succeeding coats of paint.

A single application of Tim-Ber-Lox will prevent separating, will greatly reduce warping, buckling, surface checking and will eliminate "Grain Raise," leaving the surface smooth and uniform for subsequent coats of varnish or paint. It costs no more to use Tim-Bér-Lox -- as Tim-Ber-Lox replaces the prime coat of paint or acts as a varnish undercoat where plywood is later to be varnished.

Tim-Ber-Lox gives a beautiful, soft, natural floor that is water, dirt and stain resisting. Tim-Ber-Loxed floors are sealed beneath the surface and therefore easier to keep clean, and retain the wax much longer.

#### MILLWORK

Tim-Ber-Lox treatment of all millwork -sash, doors, window frames, etc., will help prevent moisture "pick up" which is the reason for paint peeling and blistering, will also greatly reduce warping, shrinking and checking. Millwork can be treated just as econom. ically with Tim-Ber-Lox as it can be with ordinary paint.

# YOU WALK INTO MY PARLOUR?"

Now there's a nice cosy invitation and it's being offered to us every day by the theory boys who would like to see the government providing everything (out of our money). But there's as big a catch in it for us, as there was for the fly.

> Because before you have anything. somebody has to produce it. And. why should someone produce it for you unless you also produce something of equal value to give him in return.

You know the answer to thathe won't.

> That's why you know that people who promise you an easy future, with "more pay for less production" are simply talking through their hats.

> > doomed to failure unless they're

Here's the hard, plain fact: you can only be paid out of what you produce in goods or services—there's no

other place for wages to come from. Plans for a better world in the future are fine but they will all be

founded on this fact—all the wishful thinking in the world can't change that. In the final analysis the only one who can make this a better world for you, with true security, is yourself. And if you

wish, under our present opportunity system you have the privilege of producing a better service or piece of goods and as a consequence drawing a larger wage for it. While nobody claims that this system

is perfect, it is still the only system that allows the individual the opportunity to choose his job; live where he pleases; make the best use of his abilities to get along in the world and hold his head up as an independent and free person.

That's the way to security.
