

OIL QUEST ON QUEEN CHARLOTTES

Drilling Starts on Graham Is. End of Month

PRINCE RUPERT (CP)—Canada's largest independent oil company, Royalite Oil Co. Ltd., will begin drilling on the Queen Charlotte Islands within a month, it was announced yesterday. It will be the first major oil drilling in British Columbia by one of the pioneer operators.

The British Columbia government has claimed an oil reserve on all the Queen Charlotte Islands in the public's interest.

The company announces that its permit will cover 100 acres on Graham Island, the largest of the northern end of the Queen Charlotte Islands.

It is that a large oil pool practically on Graham Island may be discovered.

It will make a major change in British Columbia's economy.

Canada-United States Joint Army Exercises

OTTAWA—Canadian and United States troops will conduct a joint winter training exercise in the Yukon and Alaska next January and February. Defence Minister Brooke Claxton said here today that the exercise, designated "Cross-Index" for planning and operational purposes, will be local in nature and on a comparatively small scale.

It will be a continuation of the combined training program carried out by both countries during the past few years.

Present plans call for the United States Army and Air Force to join the Canadian Army and the Royal Canadian Air Force in peacetime simulated combat culminating in movements against a theoretical enemy.

The Canadian Army and the United States Army will each provide a one-battalion combat team including infantry—some of which will be employed in a parachute role—artillery, engineers, signals and other supporting arms and services.

The Royal Canadian Air Force and the United States Air Force will combine to provide fighter cover, ground attack forces, and a bomber, reconnaissance and transport aircraft. In addition to existing communications, mobile R.C.A.F. and U.S.A.F. signals equipment will be used. Mobile air force radar and control centres will also be employed.

The exercise will take place in the Whitehorse area. The United States will name the overall commander of the exercise and will provide the allied forces commander and the allied army commander. Canada will provide the allied air force commander.

Canadian Army Engineers are already in the Whitehorse area and are now being joined by advance detachments of U.S. Army Engineers and service troops who will prepare facilities for the combat elements. The latter are not expected to move northward until January after preparatory training at camps in their respective countries.

The majority of troops of both countries will be flown from concentration areas to the exercise area and the remainder will travel over the Alaska Highway, involving in some cases a total one-way travel distance of more than 3,000 miles.

"The objective of the exercise," Mr. Claxton said, "are to develop procedures, doctrine and technique for the employment of combined Canada-United States army and air forces operating in the far north."

P.G.E. Construction To Start Soon From Prince George End

Concern Over School Bylaw

Its Effect Upon Mill Rate—Will Mean 5.1 Mill Increase

A special meeting of the Prince Rupert City Council was held in the City Council Chamber of the City Hall yesterday afternoon to consider the school loan by law and the transfer of school sites from the city to the school board.

The members of the council felt that they had no choice in the matter and that the final decision was up to the voters on the bylaw. Details of the items in the proposed expenditures were considered. They had been approved by the school inspector and the Department of Education. Alderman Black stated that he spoke entirely without prejudice on the matter but he wanted to know how approval of the bylaw would affect the mill rate.

City Clerk H. D. Thain said it would result in an increase of 5.1 mills.

Mr. Black regretted that the bylaw could not have been postponed for two years as by then the city repayments of capital amounting to approximately \$50,000 a year would have been completed and only interest on the outstanding debentures would have to be paid.

Alderman Forman thought that a wing on each of Booth Memorial High School and King Edward School would have been enough at present. With the expense of this school loan bylaw there would be no money left for sewers, water and telephone. Mr. Forman said. It had been the feeling that a rate of approximately 60 mills was the limit.

In discussion it was pointed out that, if the bylaw were defeated, another one could be introduced leaving out the parts of the first one that were not acceptable. Mayor Arnold pointed out that new building construction might help to ease the burden.

The bylaws were then given the first and second readings unan.

START TO BE MADE FROM NORTH-ERN END OF LINE ON SEPTEMBER 9

VANCOUVER (Special to Daily News)—Construction work from the Prince George end of the P.G.E. Railway is scheduled to start September 9, it was stated here upon arrival of H. G. T. Perry to attend a meeting of Liberal leaders including Hon. R. W. Mayhew, minister of fisheries, and Hon. Colin Gibson, minister of mines and resources.

Mr. Perry refused to be quoted but, at the Department of Railways, Victoria, comment was that construction from Prince George was to be launched shortly.

The Dominion government is bonussing construction of the P.G.E. but work is directed by provincial authorities.

Terminal facilities at Prince George are being prepared and Ralph Chetwynd, agent for the railway, recently completed purchase of twenty acres of ground for railway yards near the Canadian National bridge over the Fraser River at Prince George.

Communism No Longer Threat to Japan, Says Gen. Douglas M'Arthur

TOKYO (CP)—At a ceremony observing the fourth anniversary of Japanese surrender, General Douglas MacArthur made a statement that Communism was no longer a major threat to Japan.

"Today," MacArthur said, "Japan might, indeed, be viewed as a symbol of hope for less fortunate peoples who have been overwhelmed by despotic rule of coercive force."

"The Japanese people have fully and faithfully observed their surrender commitments and advanced steadily along the road of spiritual regeneration and physical reconstruction.

The formal surrender of Japan took place September 2, 1945. In the four years since then Japan's population has grown by 9,500,000, MacArthur reported.

UNION BACKS GOVT

LONDON—Britain's Trade Union Congress made it clear that it intends to go along with the government in its "restrained" policy of wages, prices and profits. In plainest language used to date, the T.U.C. showed it was convinced that Britain, in its present economic crisis, cannot afford higher wages or to obtain a sweeping reduction in the cost of living.

CHANGES ON Q.C.I.

VANCOUVER—Fishermen arriving here say that there have been great changes on the Queen Charlotte Islands as a result of the recent earthquake. Some rocks have disappeared and others appeared. There have been changes in the shoreline.

Cominform Makes Charges Against Tito of Undue Forces

BUCHAREST (CP)—Yugoslavia has 500,000 more men under arms today than when the battle against Hitler's invasion forces reached its climax, the Cominform's official organ reported today.

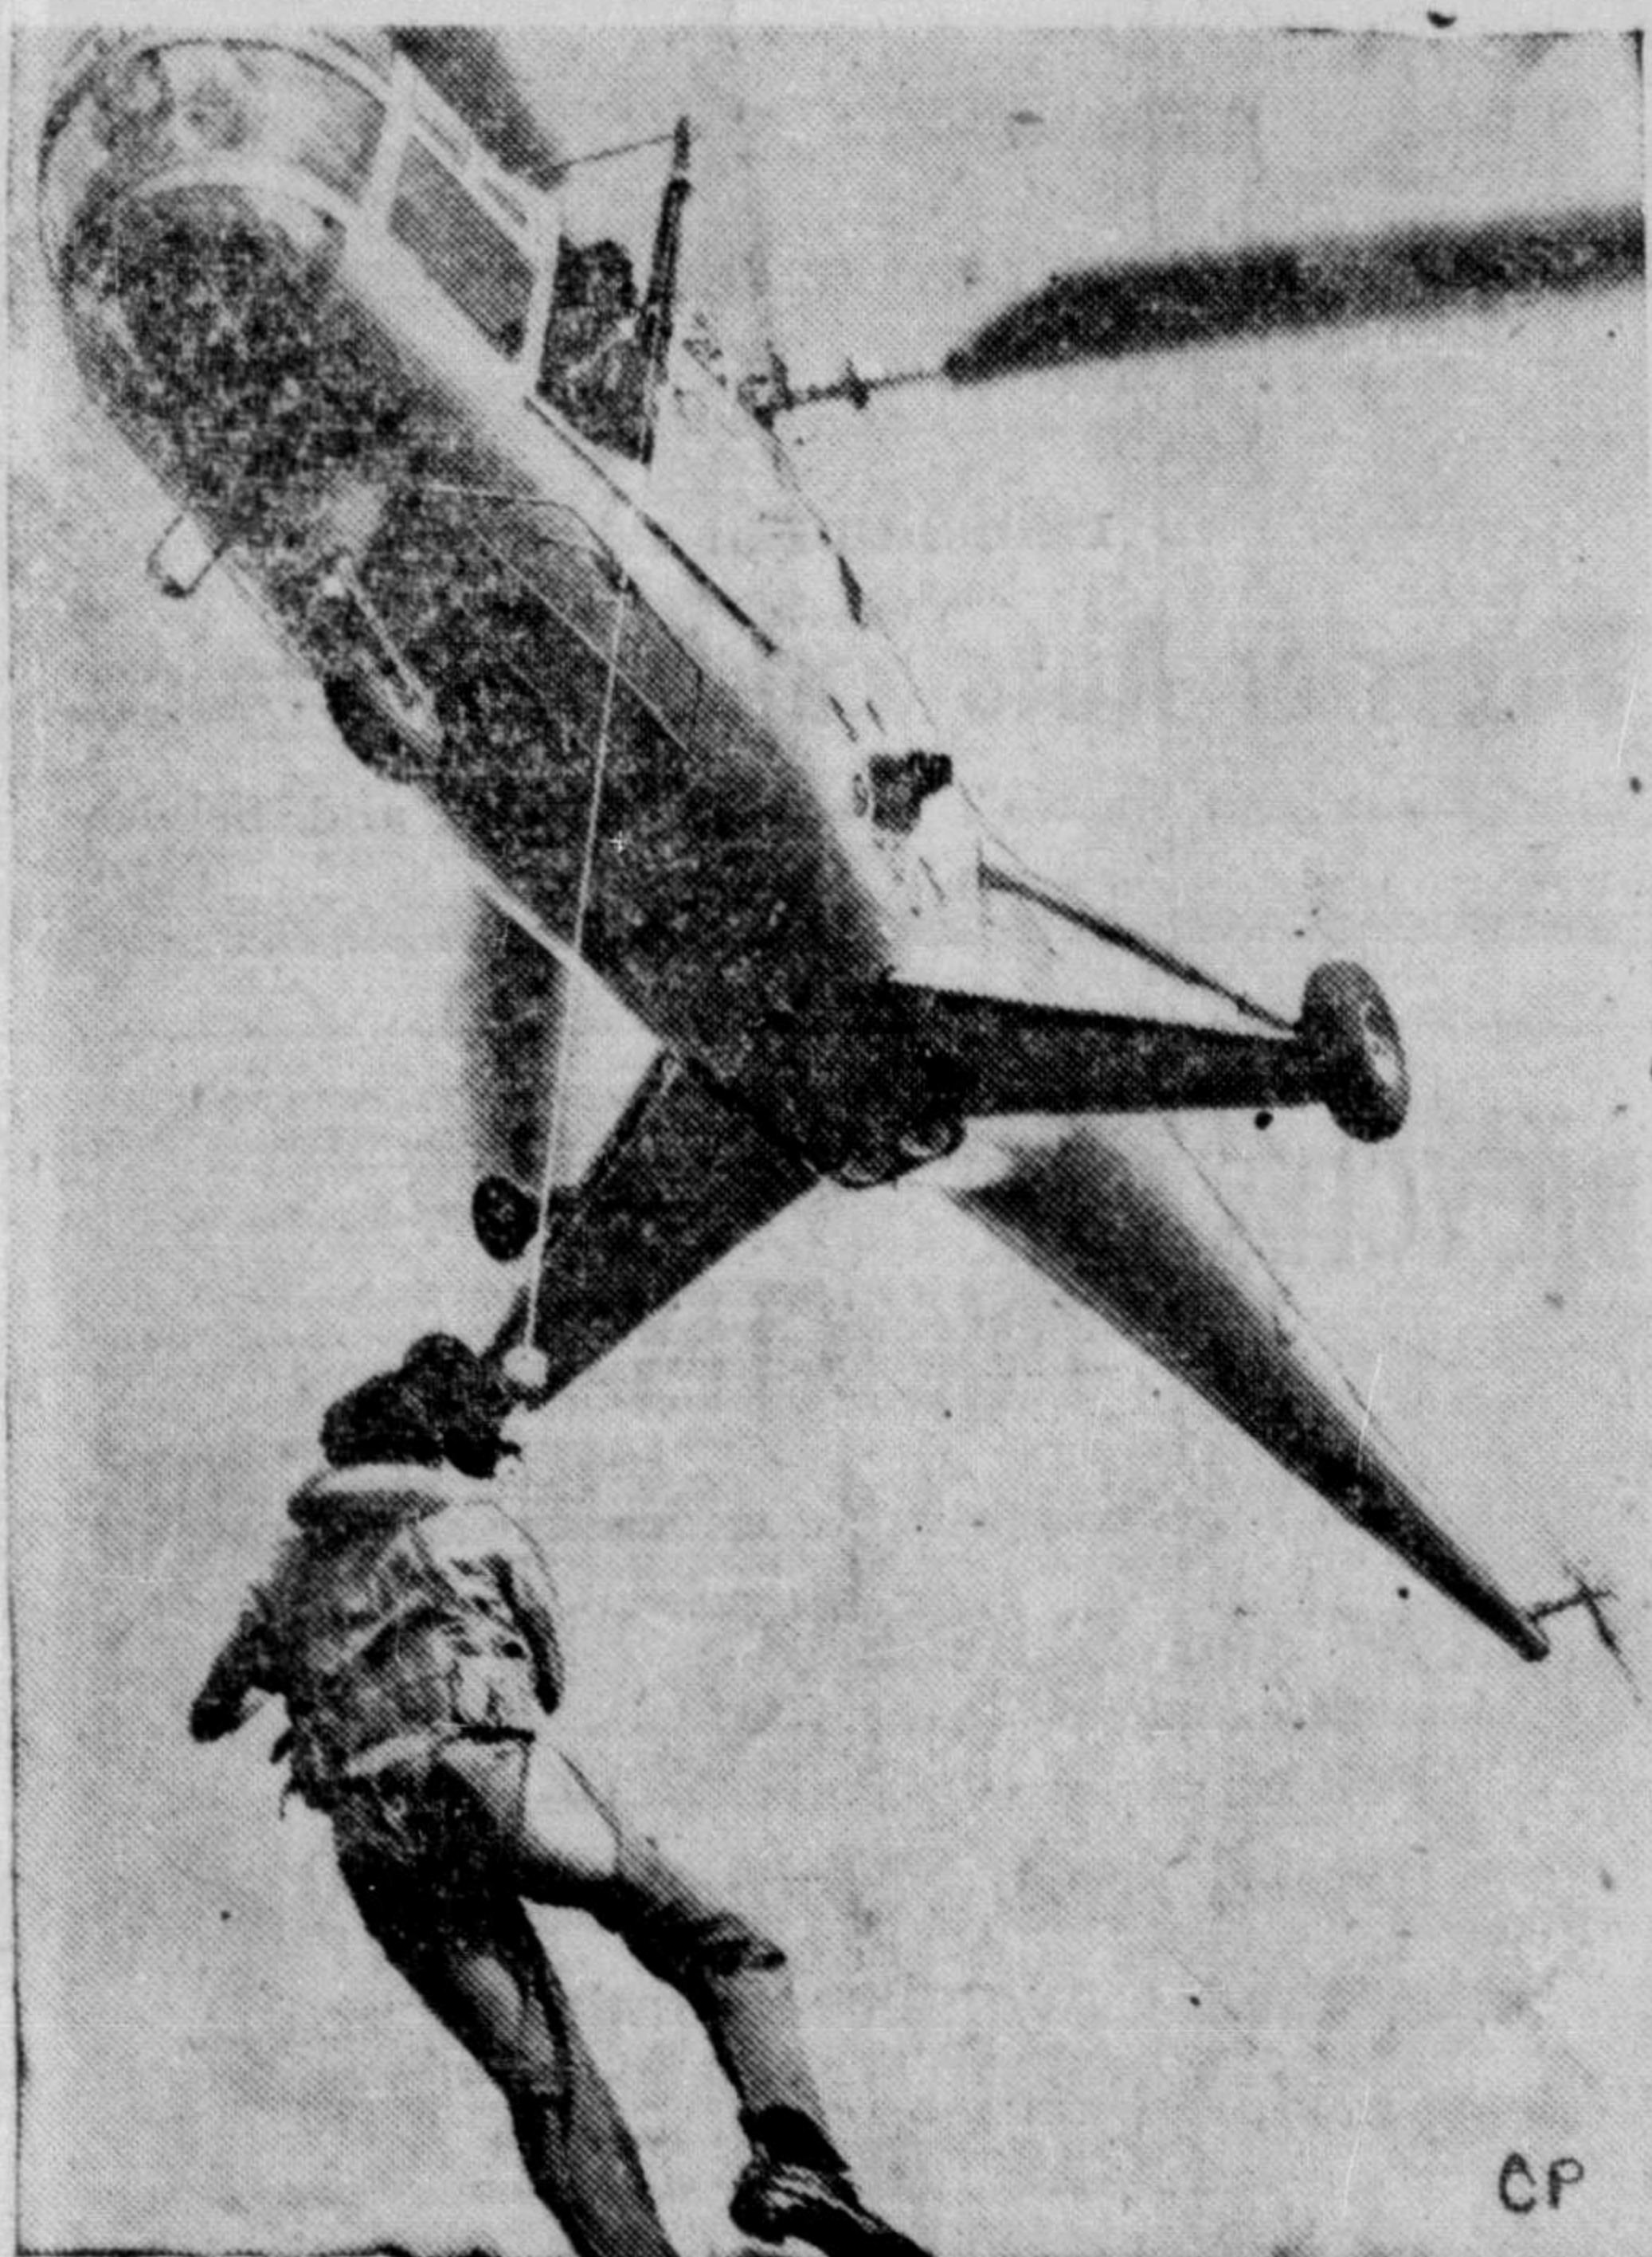

The journal charges that Marshal Tito has transformed Yugoslavia into an armed camp and says "it is terror by the military and the power which enables him to keep in power."

SOLD OUT BY RUSSIA

In Belgrade, Yugoslavia's official newspaper charged today that Russia is getting \$50,000,000 for selling out Yugoslavia's claims to a slice of southern Austria.

The charge was the latest propaganda blast in the war of nerves between Russia and Yugoslavia.

The newspaper Borba declared that Russia had dropped her support of Yugoslavia territorial claims on Austria last June after she got a western agreement to the raising of Soviet war claims against Austria from \$100,000,000 to \$150,000,000.

Fateful September

IT IS THE FATEFUL month of September and our reflections hark back to those days a decade ago when there broke into flame conflict which was to be the world's most catastrophic struggle of arms between men. We cannot but see a parallel situation today with a war of nerves even more intense and stifling.

We see in the Yugoslavia of today a country potent of the possibility of igniting international conflict as was Poland ten years ago when Great Britain and the other nations said that Adolf Hitler would not pass further.

The cold war is going to great lengths but somehow or other there is the difficulty to believe that it will break into actual flame. However, there may have to come the point when war must be fought with war.

We have come a long way and we have had many experiences and many vicissitudes since those early days of September 1939, which are now in decennial. Unfortunately, we do not seem to have made much headway in the dispelling one with another the elements of war. It is a poor commentary on the state of our civilization that it seems to be only the fear of war that keeps us from it. As long as this is the attitude of madly imperialistic nations, as we still have with us today, there is the continuing danger that failure to cherish peace may make it impossible for us to keep in leash the terrible dogs of war.

Would that September 1949 were less similar in certain aspects to September 1939!

THE SCHOOL BYLAW

THE CITY COUNCIL which was so enthusiastic a few months ago about a half a million dollar telephone undertaking appears to be concerned about the extent at least of the bylaw for new school construction which has now been presented to it by the board of school trustees and is passing it along to the ratepayers with a kind of a reluctant "what else can be done about it?" attitude.

The council appears anxious to emphasize to the ratepayers that the new school bylaw will increase the annual tax rate by upwards of five mills. The ratepayers, of course, must appreciate, without even being reminded by the city council, that the new schools are not going to be built for nothing. The ratepayers, at the same time, might keep in mind that half of the cost of the fine new buildings will be borne by the provincial government. In other words, the government matches every dollar put up by the people of Prince Rupert with another dollar.

Of course, if we want to have good and adequate services and fitting and creditable things, we must be prepared to pay the bills. As we on many occasions suggested when the city council was so hot about its half a million dollar telephone project, we would again suggest that first things be considered first. It is plain enough that our disgraceful old school buildings are an eyesore today and might well be beyond redemption tomorrow. As far as our civic needs are concerned we would say that schools rank high in priority.

We can get along without certain things and we can endure some discomforts and inconveniences but a city would be considered uninhabitable if we did not have fitting educational facilities.

The city council, while no doubt justified in reminding the citizens of the financial obligations involved in the new school program, need not be seriously concerned about the school program and its mill rate implication. However, thrift and good business are always to be commended.

Ray Reflects and Reminisces

An earthquake one week and a good old-fashioned thunder storm the next! Life in Prince Rupert was quiet enough some time ago but verily, things are looking up.

It took the late Margaret Mitchell twelve years to write "Gone With the Wind." The first chapter was re-written seventy-one times. No one was more surprised than she at the novel's success. Another southern story scoring a prodigious sale and stage patronage was "Uncle Tom's Cabin." Like Mrs. Mitchell, it is doubtful if Harriet Beecher Stowe ever expected such marvelous hit. "Tom" shows are going the rounds even today. So, all you folks who get rejection slips, keep pegging away. It does no harm, and none know in what direction the cat will jump.

Daylight saving will soon be put back to where it should never have been taken from, and the long nights and short days following Nature's plan draw near. Even now motorists as well as others, notice it. Lights approaching Prince Rupert and Port Edward, look good. Only through experience can one discover how dark it can become, up river and back in the interior. The lights of Prince Rupert can help a lot, in more ways than one. May they flourish and expand.

Noel Jones of Prince Rupert never notes a lightning flash or hears rolling crashes of thunder without feeling exceedingly solemn. Years ago, at Lloydminster in the lush and romantic prairie land, a bolt of lightning shot down the household chimney and cracked a steel range right across the top. Incidentally, it shook up a beautifully

browned chicken in the oven. Mr. Jones says he prefers the coast to the great plains as a place of residence.

The attraction over on First Avenue is mainly mechanical but its potency is evident to all. Looking back to the early days, and since, Prince Rupert has seen enough, in the real and alleged entertainment line, to fill a book. Some were comedies without ever having had any such intention, originally. One even essayed to be a big top circus, staging it on ground now occupied by the court house. However, there was a parade, of sorts, and that, in view of unexpected emergencies, had to serve. And it was typical of Prince Rupert that she regarded all this with good natured tolerance. A thing would have to be pretty far gone where there would not be a laugh or, a "kick" left in it somewhere.

Prince Rupert's own rodeo, way back in the dismal thirties or thereabouts, was a home grown affair. Held on the Acropolis, and witnessed by a packed grandstand from which would come yells of "Ride Him Cowboy," it tested the skill and endurance of Prince Rupert's cow punchers, near all of whom had a strangely familiar look, even if each one did wear an eight gallon hat. There might have been a horse or two, but most of the snorting steeds turned out to be able-bodied steers that seemed to be wondering what it was all about. The beef came from the Bulkley Valley, the show was new and novel, and I reckon, partner, everyone had a swell time.

LETTERBOX

ANSOMB PRAISED

Editor, Daily News:

As a visitor to Prince Rupert I was amazed to read in your newspaper the criticism by the Prince Rupert Liberal Association of the "letters" sent out by Hon. Herbert Anscomb. I have

not had an opportunity of perusing any of the letters but I presume they have been in the "coalition" cause. What if he has claimed some credit for the Progressive - Conservatives in the success of the Coalition! They certainly deserve it and so does Mr. Anscomb who, in spite of full blame for the so-called three percent sales tax, won out

NOW PREACHING NEAR NEW YORK

Writing to a member of his former congregation of First United Church, Prince Rupert, Rev. R. A. Wilson tells of his being in charge of a church at Mahopac Falls, N.Y. He states that he is about fifty miles from New York City and forty-five from the seminary where he is taking post-graduate work. He notices that things there have a character of permanence as it is a much older settlement than Prince Rupert. The church itself goes back to the eighteenth century although the present building is not so old.

not by 2 to 1 in his own riding but by about 7 to 1.

Actually Mr. Anscomb has had to take most of the blame for the taxation policies of the government. He deserves more credit than he will ever get from the taxation policies of the government—especially from a few presumptuous Liberals in Prince Rupert who could not have won the seat alone if they had tried.

The sooner the Liberals of British Columbia realize that they cannot get along without Herb Anscomb, as I am sure the Premier does, the better it will be for all of us.

**SHRINERS DELIGHT
NATIVE CHILDREN**
Nobles of Gizeh Shrine Tem-
ple were on the job at Vancou-
ver Tuesday when they met the
steamer Coquitlam and took
Indian Superintendent F. E. An-
field and thirty-three native
children from this district,
whom he was escorting back to
schools in the south, and took
them to the big Shrine circus
for the day.
"They had the time of their
lives," Mr. Anfield says in a
message to H. F. Robins of the
Prince Rupert Shrine Club. The
Shriners in Vancouver "really
get things done," enthused Mr.
Anfield.

New Pastor is Inducted

Rev. Lawrence Sieber Formally Installed in First United Church

In the presence of the congregation of the First United Church, Prince Rupert, the induction of the recently appointed minister, Rev. Lawrence G. Sieber, was carried out last evening by Rev. H. S. Forbes, chairman of the Prince Rupert Presbytery, assisted by Rev. A. J. Lawton of Port Simpson and Rev. R. McColl of the United Church marine mission boat Thomas Crosby. The service was a most impressive one.

The reading of the scripture was by Mr. McColl who also led in prayer. He referred to the privilege enjoyed by the congregation in having their pastor minister to them but there was also a great responsibility for the congregation too.

The address to the congregation was given by Mr. Lawton. Speaking from the text "Not by might, or by power but by My spirit," Mr. Lawton stated that too often people looked for the fruits without regarding sufficiently the greater importance of the roots. He stressed to the congregation the vital necessity of their active participation in the public worship of God and loyalty to the minister and his fellow ministers. They must also do their full part in stewardship and in the work of the many agencies connected with church life. He reminded them that there could not be a double standard of life for the minister and a somewhat lower one for the congregation. All must strive for the higher one.

In his address to the minister to be inducted Mr. Forbes hoped that he might receive a mighty increase of strength in the inner man to enable him to meet the outer strain and stress of daily life and its problems. The value of prayer could not be overestimated. The minister would gain strength from meeting with his congregation, from the reading and study of the scriptures but most of all from prayer. This was not the act of begging but a fellowship with God in which the minister would be strengthened and renewed and further would find the great power of prayer to release him for better service.

The induction ritual was then carried out with the congregation signifying their acceptance of the charge, and the minister, in turn, undertaking to carry

INDUCTED—Rev. L. G. Sieber of First United Church.

out all the services of his position. Mr. Sieber was then conducted to the pulpit and pronounced the benediction.

After the service the members of the congregation and the visiting ministers gathered in the church hall for a social hour. At the conclusion, members of the official board met in session with Rev. C. H. Forbes and Rev. Sieber. Miss Peggy Large was at the organ.

Modern Etiquette

Q. Does the bridegroom or his best man present the donation of money to the priest or minister who performs the marriage ceremony?

A. The money should be placed in an envelope and should be given to the priest or minister by the best man.

Q. Is it correct for a man to wear his hat in the corridor of an office building?

A. Certainly; this is comparable to the street.

Q. In seating guests at a dinner, should the husbands and wives and engaged couples be separated?

A. It is customary to separate married couples, but to allow an engaged couple to be seated together.

HOW CAN I ???

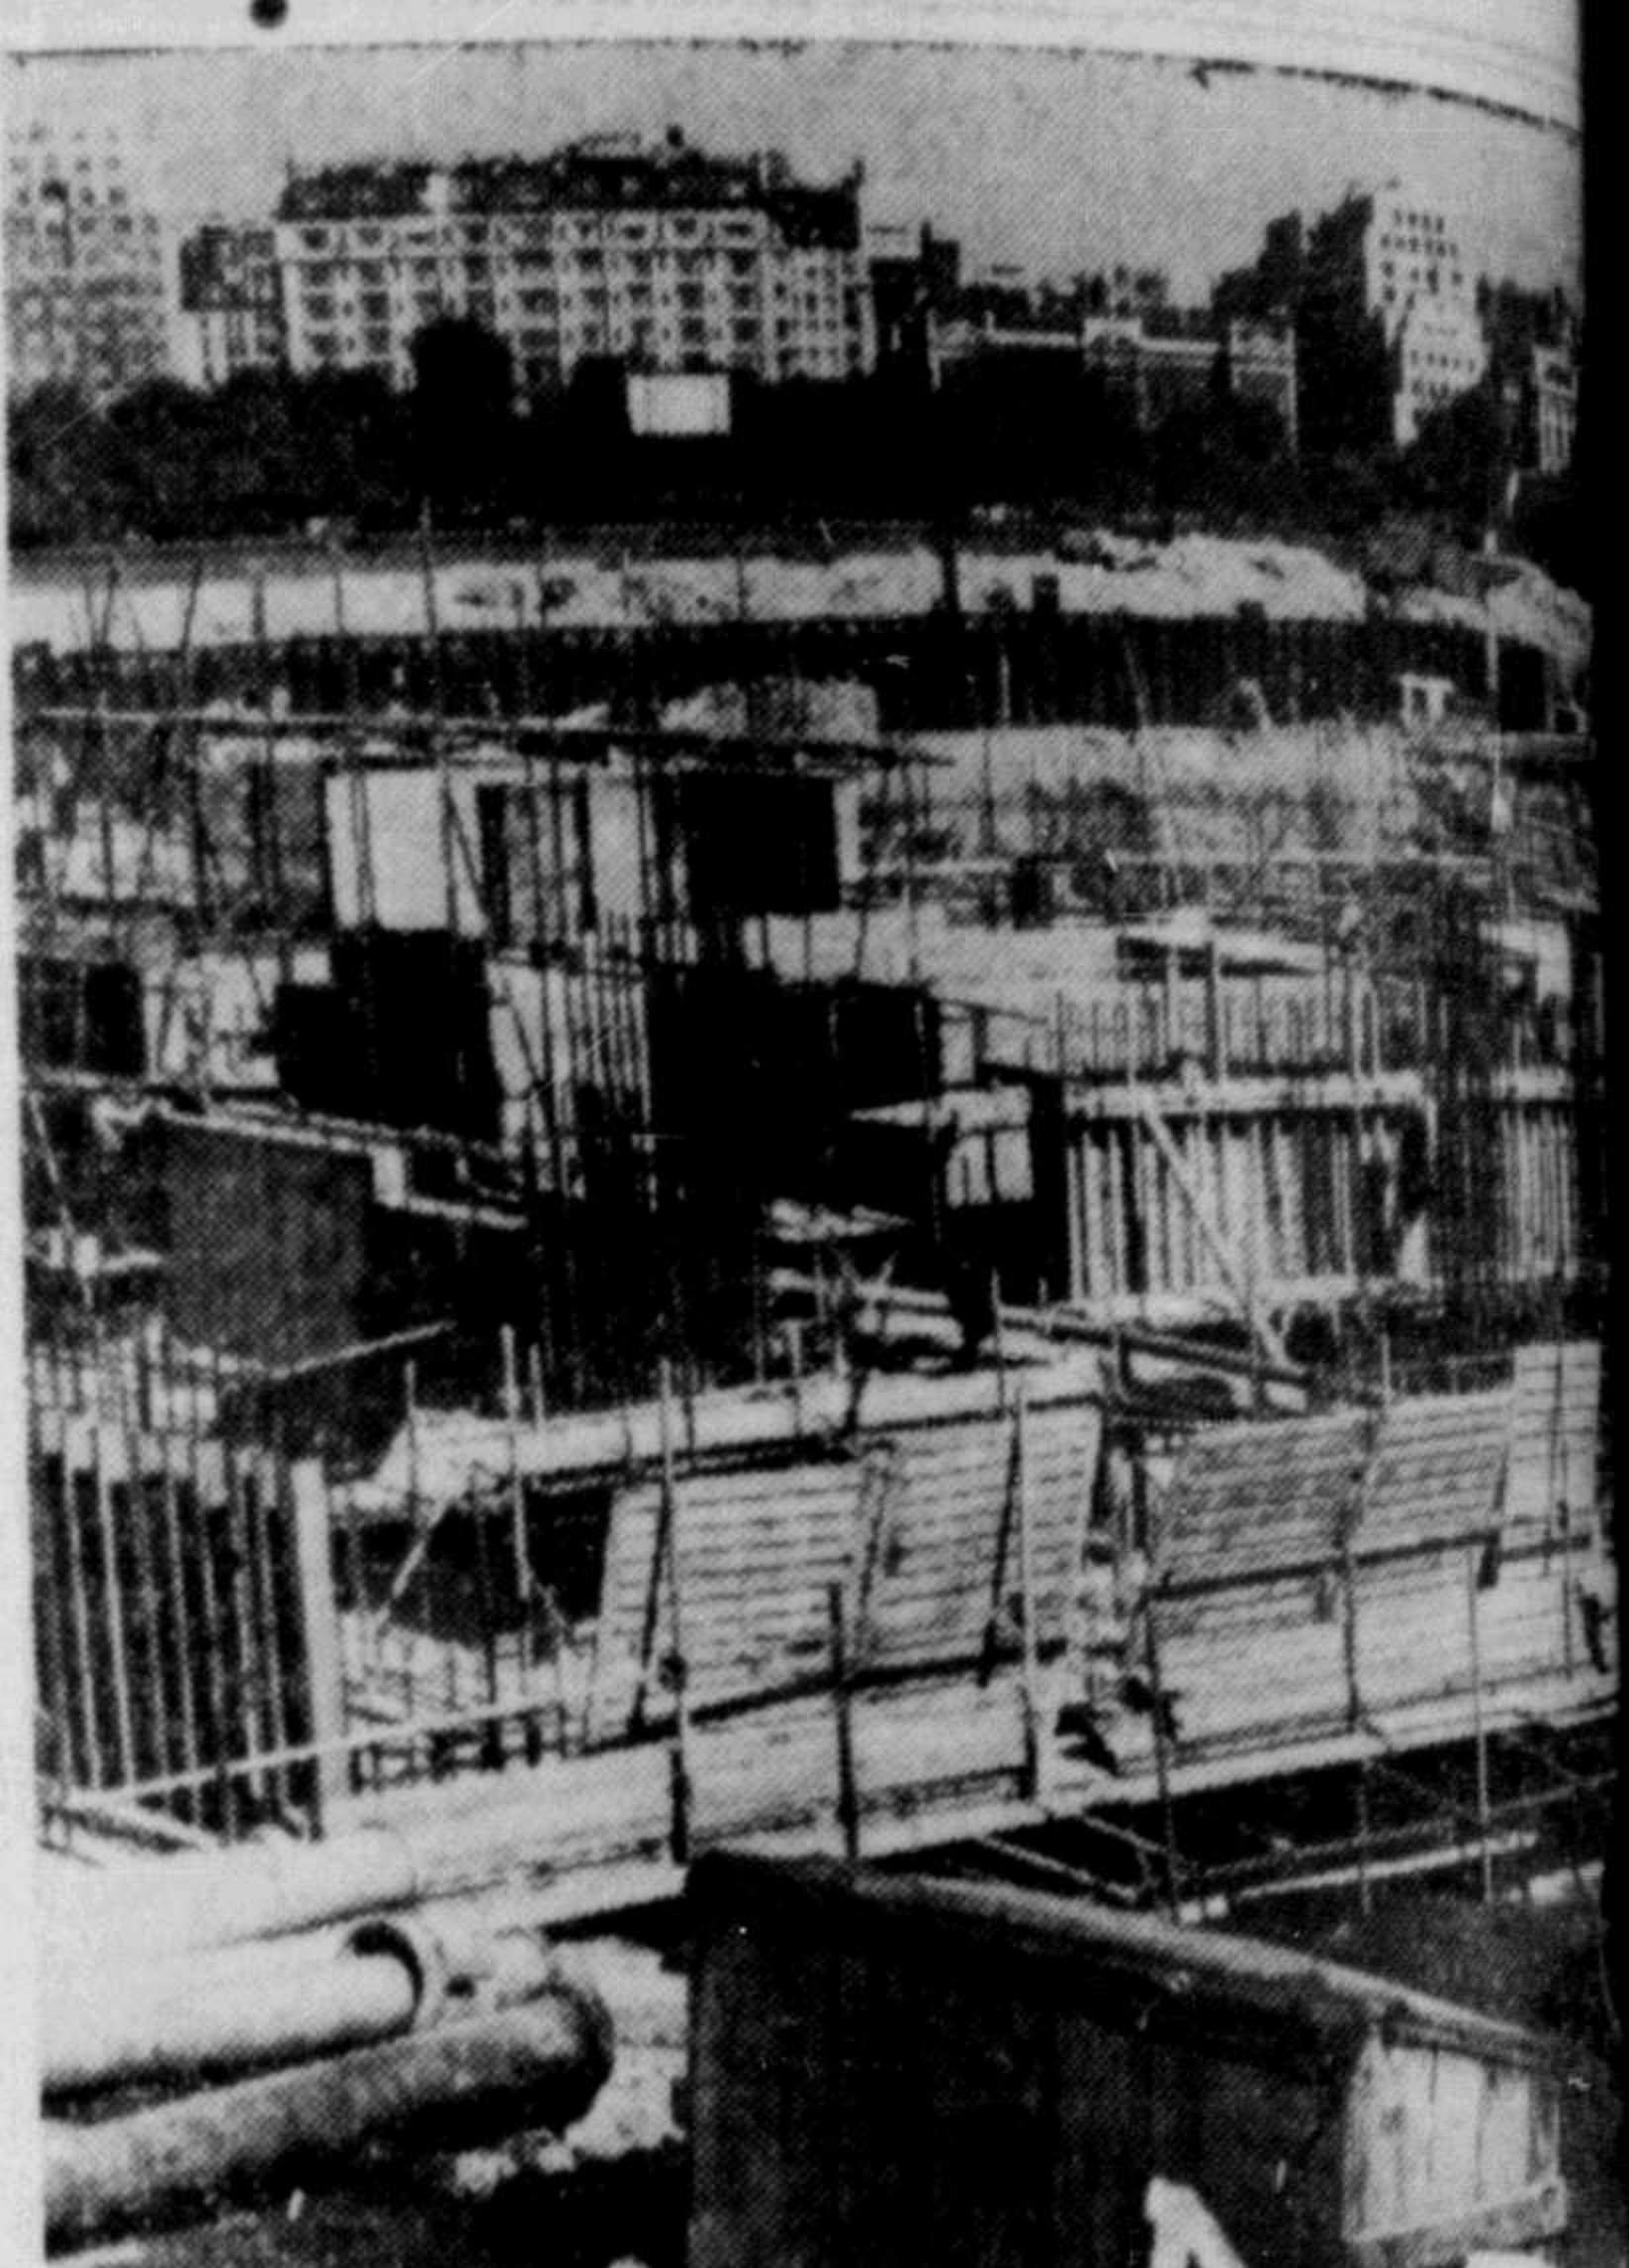

By ANNE ASHLEY

Q. How much cocoa must be used when it is being substituted for chocolate?

A. If one wishes to substitute cocoa for chocolate, it is well to remember that three tablespoons of cocoa are equal to one square of chocolate. And a little more butter must be added, as the cocoa is not so rich as the chocolate.

Q. How can I clean unpainted wicker furniture?

A. Wash it as quickly as possible with a strong solution of salt and water, then place in a hot sun to dry. Do not use soap, and do not let it dry slowly.

Children Love Libby's Deep-Browned Beans

● Yes, Libby's is the dish for eager young appetites—hearty, wholesome, nourishing. And it's no wonder that Libby's Deep-Browned Beans are so popular with every member of the family. Libby's are cooked by a patented process which browns every single bean right through to the centre so it comes out mealy and tender, like a well-baked potato. And Libby's are a joy to serve—just heat and they're ready to tempt family appetites in less than 10 minutes. Libby's are thrifty, too—cost about 5c a generous serving.

Libby's Deep-Browned Beans a "regular" on your family menu—the beans with a "double your money back" guarantee.

CRASH PROVES JET AIRLINER SAFETY—Canada's greatest contribution to world airplane design, the jet airliner, crashed in landing during a test flight at Malton airport, Ontario. Plane engineers and crew consider the crash a triumph rather than a catastrophe. The big ship hit the ground at 90 m.p.h., only scratched the underbody. Faulty hydraulic system is believed to be the cause of the accident. Here airport employees examine the ship after the landing, which proved the capacity of the propellerless plane to crash land in comparative safety.

"Save on Desserts WITH CARNATION MILK"

Garden of Eden Pie

Delicious... and it costs so little!

It tastes gorgeous—it looks expensive. Yet this wonderful pie is easy on your budget. A thrifty dessert temptation—if you follow the recipe exactly, and use Carnation Evaporated Milk.

Carnation's velvet blend recipes appear often on menus of women like Mrs. Arntfield, graduate dietitian with eleven years' professional experience, and mother of a sturdy Carnation baby boy. These food experts know that all Carnation dishes are economical mealtime bits. Try Carnation!

Garden of Eden Pie

Pastry for 9-inch pie shell ¼ teaspoon (each) cinnamon and nutmeg
1 cup Carnation Milk ¼ teaspoon salt
1 tablespoon lemon juice 2 cups finely-chopped apples
1 cup brown sugar 2 cups raisins, ground
½ teaspoon mace

Line 9-inch pie-pan with pastry, fluting the edges. Mix Carnation Milk, lemon juice, sugar, spices and salt. Add fruit, pour into unbaked pie shell, and bake in hot oven (350°F.) 10 minutes to set crust; then reduce heat to moderate (325°F.) and bake about 40 minutes, until filling is set.

CHURCH HALL TO BE USED

In order that children living in the Conrad School area may have a Sunday School and kin- dergarten handy to their homes, the women of the Conrad Circle, United Church Women's Auxil- iary, have undertaken rehabili- tation of the church hall locat- ed in the 1200 block, Seventh Avenue.

A number of men under the direction of Jack Hardin, put a new roof on the building last week and this week members of

the Conrad Circle have been busy making the interior spic and span.

Organizers of the project plan to have the hall ready for Sun- day School classes early in Sep- tember. A number of women have agreed to conduct classes and Rev. Lawrence Steber will attend Sunday School sessions two Sundays a month.

Gillis Royer returned to the city yesterday on the Prince Rupert after attending a con- vention of the Moose at San Francisco where he was the official representative of the local lodge.

THE WEATHER

Synopsis
Clear warm weather is in store for the southern areas of the province from Vancouver Island to the Kootenays for the next two days. A weak storm which stalled over Northern British Columbia now shows no signs of moving southward. Northern areas from Prince George to the Yukon and including Prince Rupert will remain cloudy and cool.

Forecast
North Coast Region— Prince Rupert area cloudy with occasional light rain today and tomorrow. Little change in temperature. Light winds reaching southerly (20 mph) exposed areas. Lows tonight and highs tomorrow — At Massett and Prince Rupert 50 and 60.
Port Hardy Area—Clear and warm today and tomorrow. Light winds. Lows tonight and highs tomorrow—at Port Hardy 48 and 65.

Sailing for Vancouver on the Princess Louise last evening was Harry Daggett, son of Alderman and Mrs. H. M. Daggett. Mr. Daggett is joining the staff of the University of British Columbia as assistant professor in chemistry.

Mr. J. B. Densmore of the staff of the Booth Memorial High School and Mrs. Densmore returned to the city on the Prince George today.

PLAY BALL

Tonight's City League Baseball game is definitely a crucial one. The Savoy's are leading the league by half a game and a win for the Commercials would swap their position with the first place club. If the Commercials can do the trick it will be the first time in at least three years that the Savoy's have not been on the top of the heap.

Commercials took the latest contest between the two teams when Dick Letourneau assumed command of the game and set the Fraser Street gang down in decisive style. It would not be surprising to see the young right hander out for a repeat performance.

Play-off plans are still indefinite and the way the teams are bunched, any play-off arrangement would add little climax to the schedule. Past experience has shown that little baseball weather can be expected in September. Last year the final game was played on August 22. Should the schedule be cut off and play-offs started it would be possible that there could not be enough games played to form a decision. On the other hand, if the present schedule is continued, the top team at the end of baseball weather would be champions. However, this is a problem for the managers to settle and an announcement will likely be made at tonight's game.

Heilbroner Sells Out

Vancouver Man Is Purchaser of Pioneer Business

One of the earliest pioneer businesses of Prince Rupert is changing hands. Announcement is made today of the sale by Max Heilbroner of his jewelry business to George W. Cook of Vancouver. The deal becomes effective September 15.

Mr. Cook takes over the Heilbroner business and leases the entire building on Third Avenue including upstairs suite now occupied by Mr. and Mrs. Heilbroner.

Mr. Cook, after having been here for the past few days in connection with the negotiating of the deal, left today by plane on his return to Vancouver but will be back by the middle of the month, accompanied by Mrs. Mr. and Mrs. Heilbroner will leave for the south but have not as yet decided upon a permanent future location. They may spend the winter in California but expect to revisit Prince Rupert frequently.

It was back in 1909 that Max Heilbroner arrived here from the Yukon and soon established in business. The building on Third Avenue was erected some 25 years ago.

Mr. Cook, formerly with the Birks organization in Windsor, Ontario, has been manager of People's Credit Jewellers in Vancouver for the past three years.

FAVORITES MOVE AHEAD

FOREST HILLS, New York — All the favorites, including the defending champion, Pancho Gonzales, Los Angeles, advanced yesterday to the third round of the United States amateur tennis championships before rain cut the program short.

Moving ahead with Gonzales were Jaroslav Drobný, Czech star, Australia's John Bromwich and Earl Cochell of San Francisco.

Owing to delayed connections at Jasper the train arriving in Prince Rupert tonight from the East will be three hours late, not coming in until 2:30 a.m., but the southbound steamer Prince Rupert will be held to enable train passengers to board her.

FLYING ELEPHANT—Little Sam, a 1,000-pound elephant which was flown by cargo plane from Siam to New York last winter, takes a first look at Toronto's Canadian National Exhibition grounds before putting in daily appearances as a special children's attraction in the grandstand productions. On hand to greet Little Sam and George Hamid, her trainer, are Carole Turofsky, 10, and her five-year-old sister Rita. (C. P. Photo)

FIRST CANAL—The first known canal lock system in North America has been uncovered in excavations at the old Huron fort of Ste. Marie, near Midland, Ont. Wilfred A. Jury, curator of the University of Western Ontario, who directed the investigations, stands beside the timber sides of the old canal, burned to ground level when the Hurons abandoned the Jesuit stronghold to the Iroquois 300 years ago. News of Francois Lake

Visitors here from Prince Rupert during the week were Dr. and Mrs. Jens Munthe, Mr. and Mrs. C. G. Ham and Mr. and Mrs. Mark Hill.

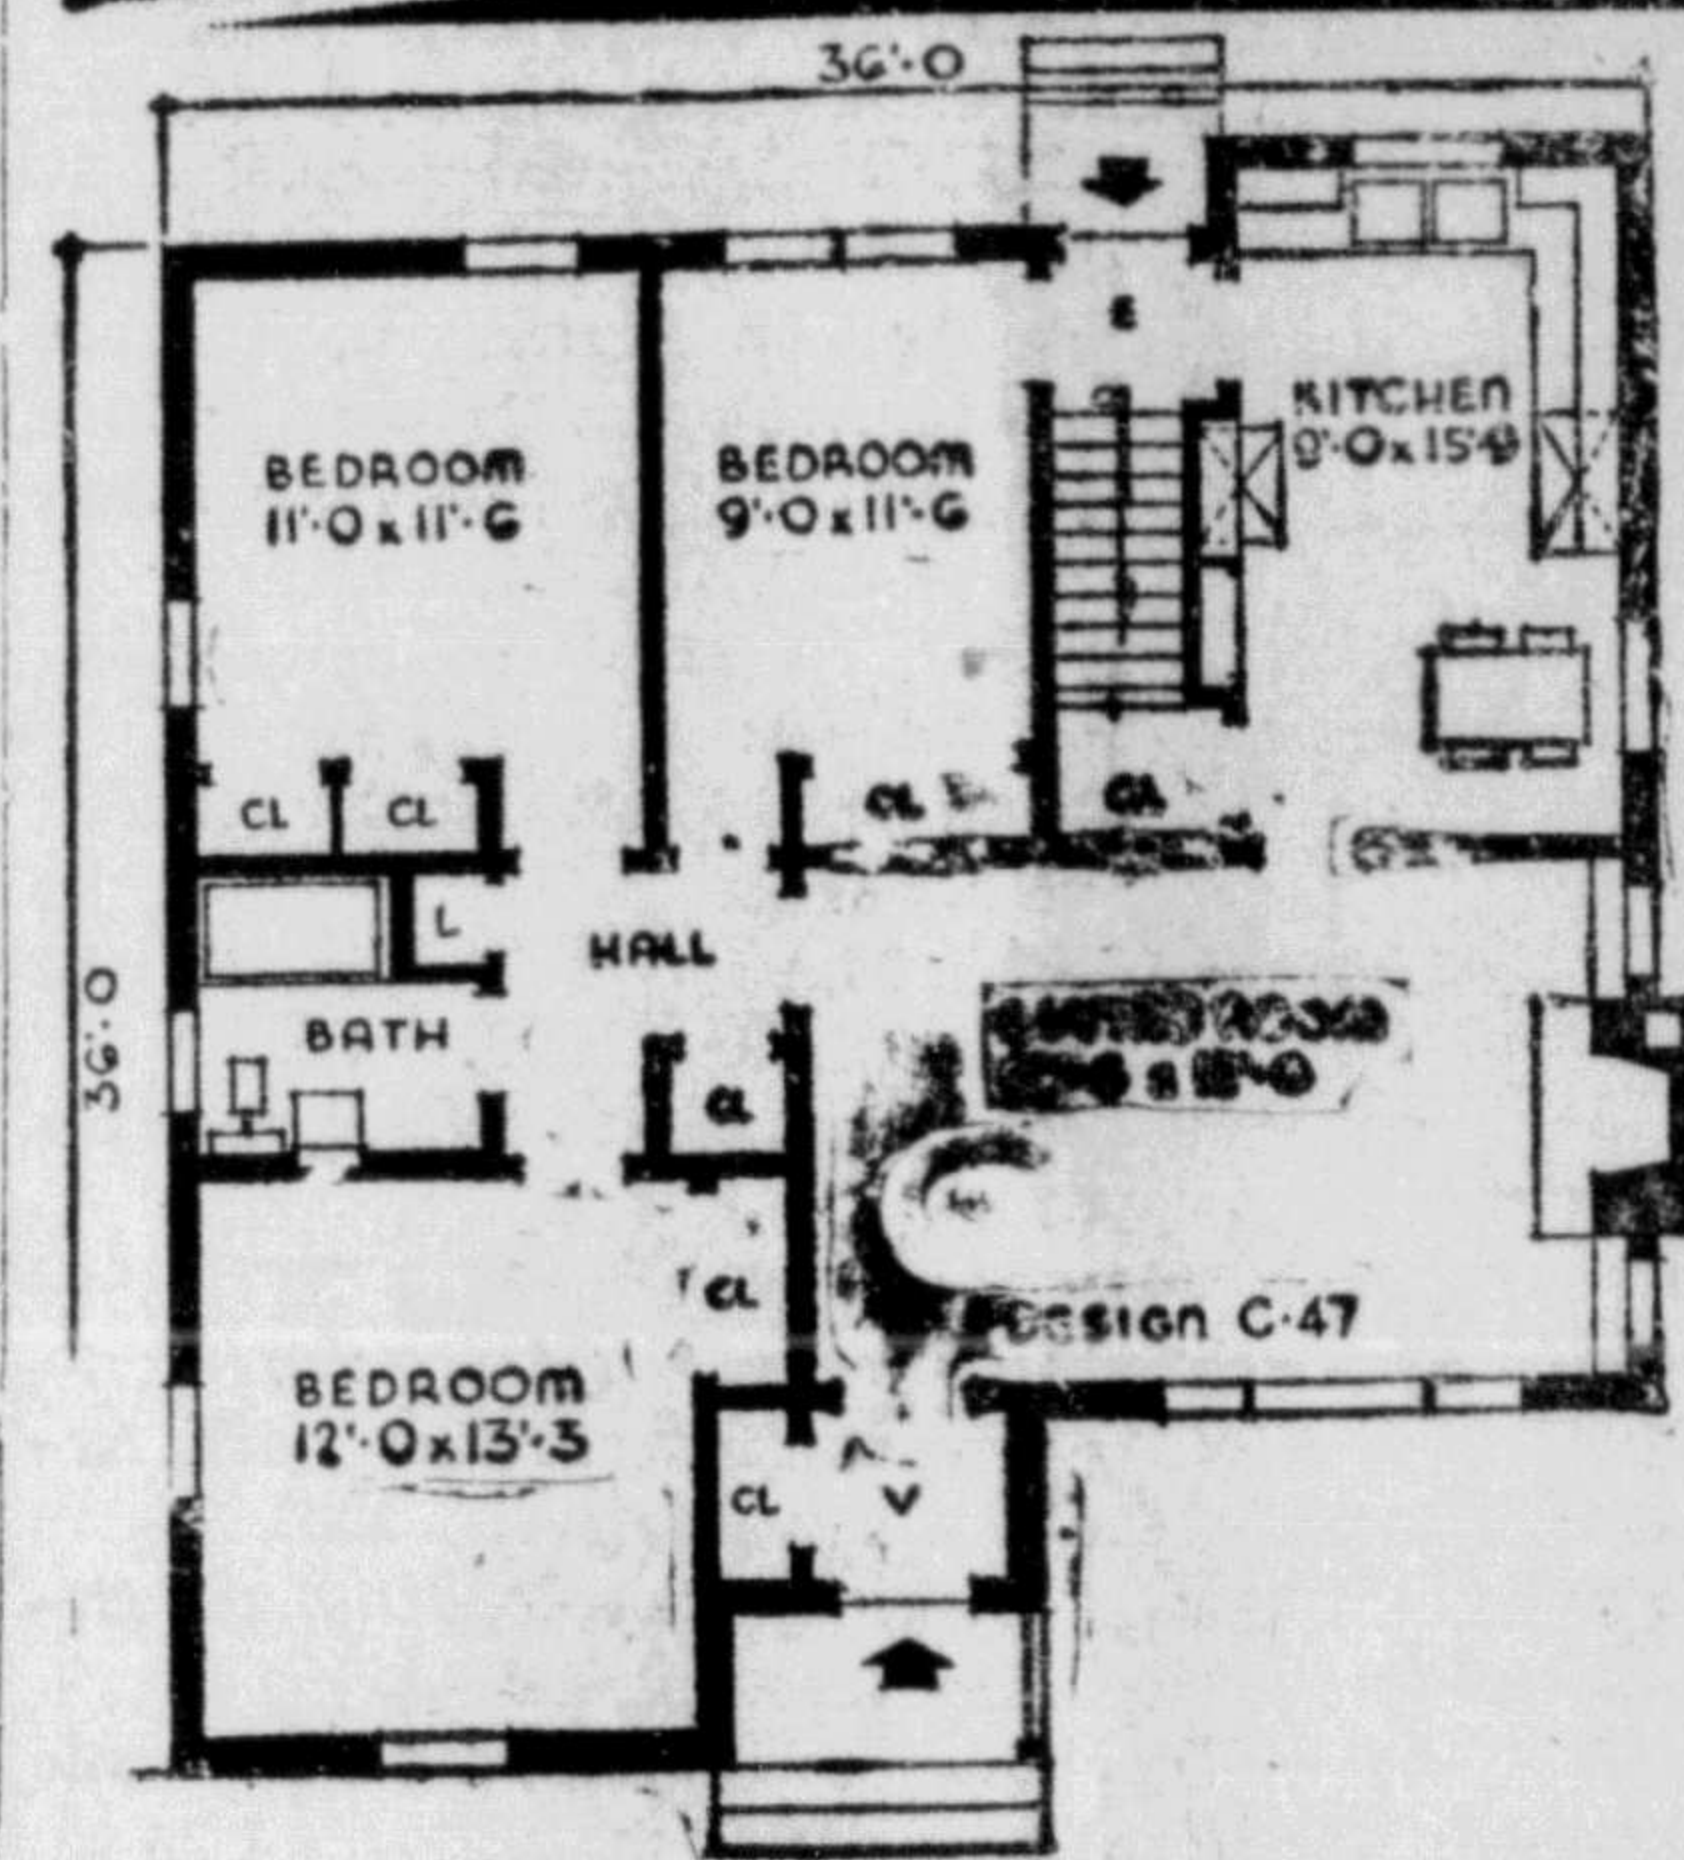

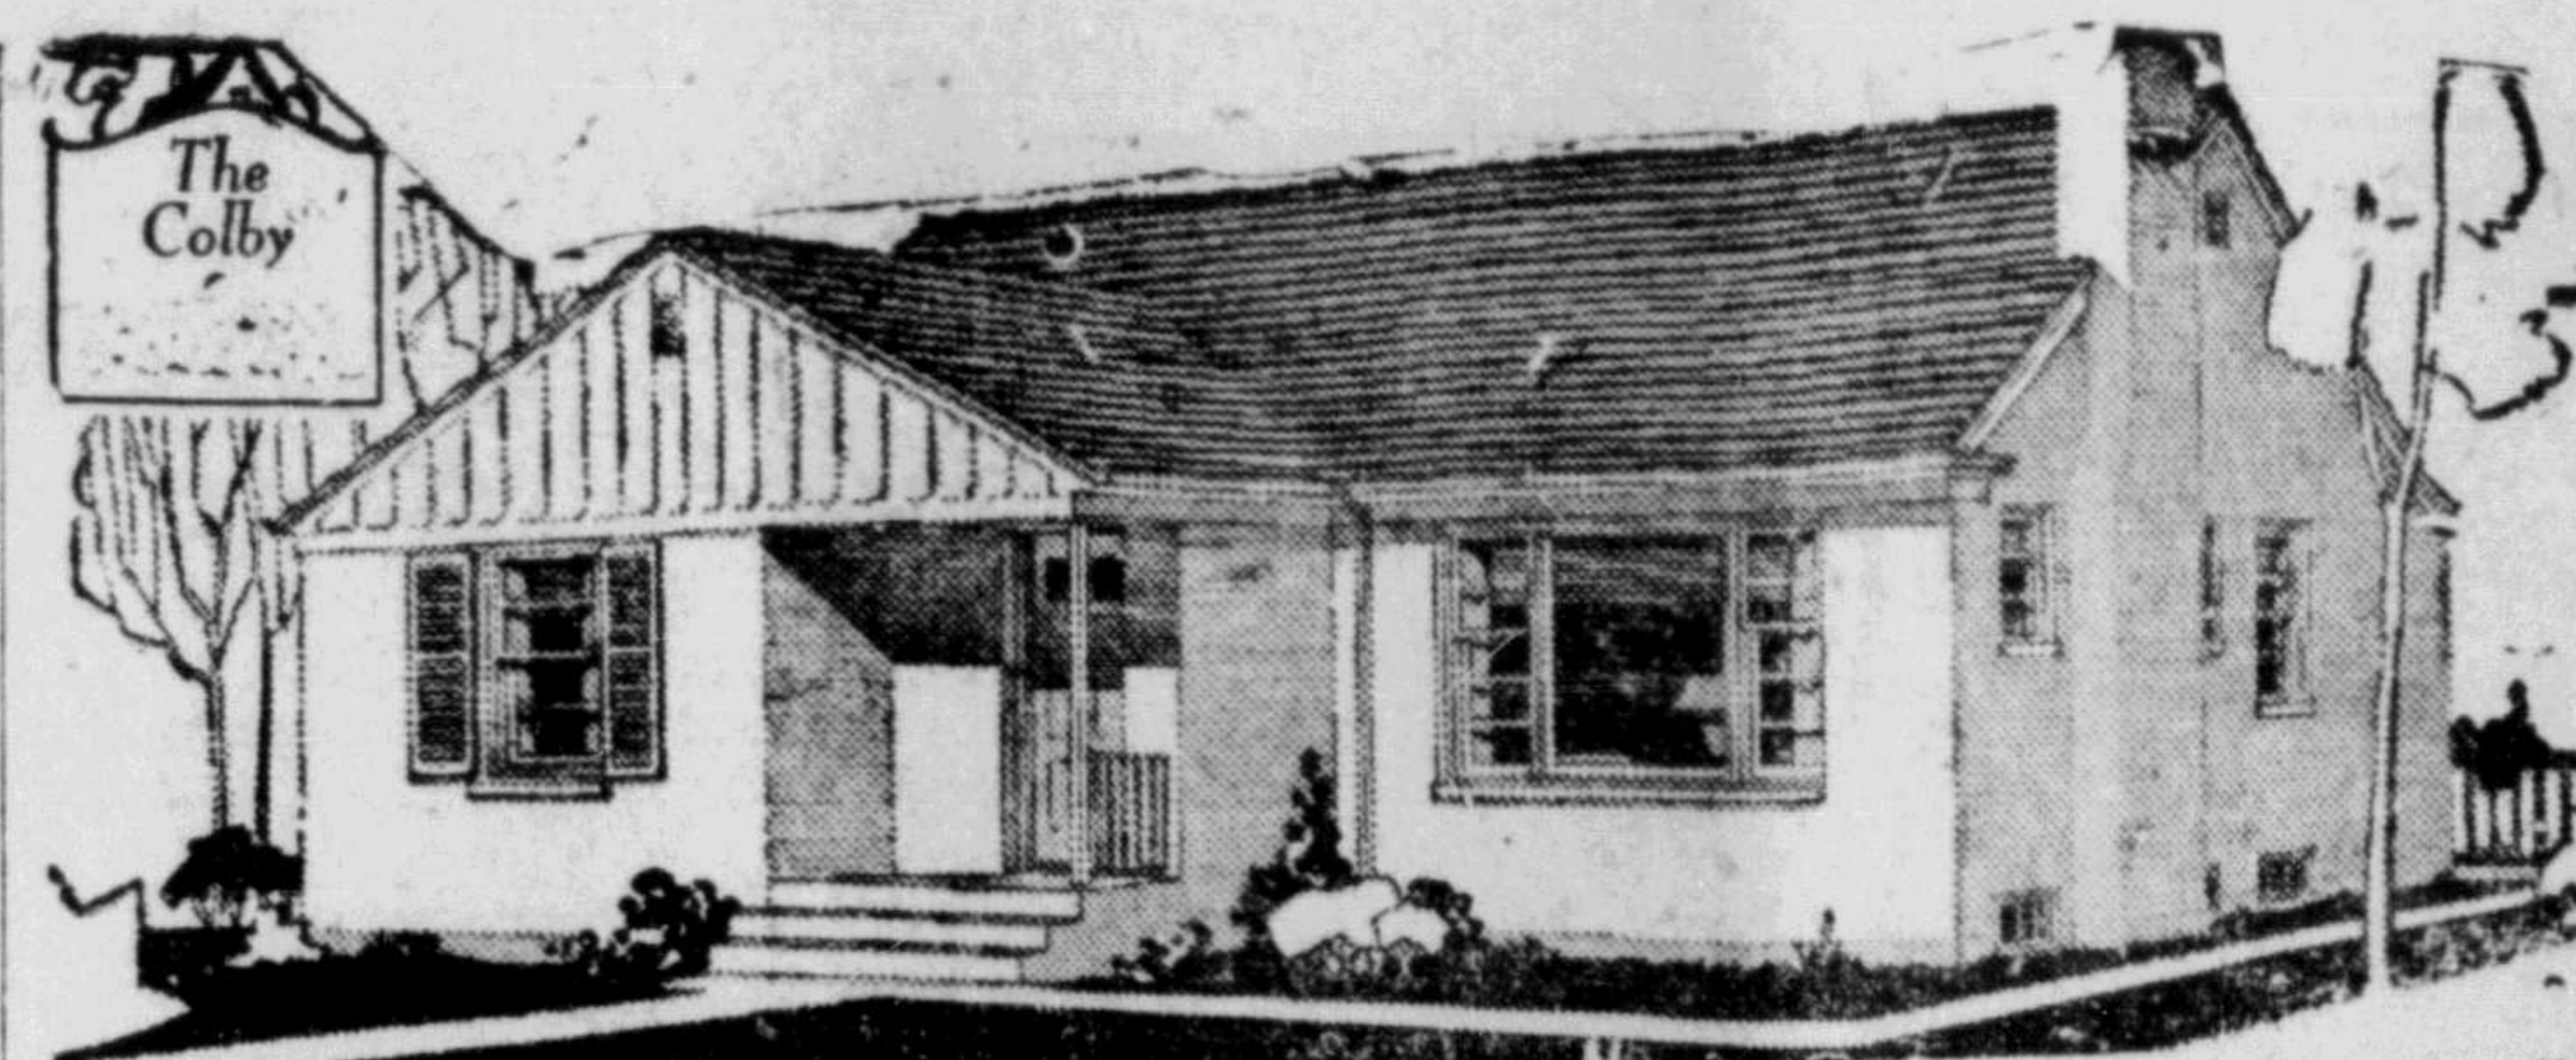

Bruce Coats of Jackson, Mississippi, is staying at the Landing for a few days with the intention of coming back to stay.

Mr. and Mrs. Charles Beck were visitors at the Landing on Sunday.

Mr. and Mrs. Floyd McCone and small Rachelle of Downey, California, have come to join their friends Mr. and Mrs. Fredrickson. They have a house trailer.

Warm, dry weather is very welcome and it is possible to get the hay in, in good condition. The weather has been perfect and the fishing excellent—both trout and char.

The Hall was crowded on Saturday evening for a dance given by Mr. and Mrs. Lyman Merrill on the occasion of their wedding in Burns Lake that day.

THE COLBY has plans which call for a particularly low roof line. The plans also specify that the exterior of The Colby be brick veneered. The combination of these two special features provides this house with extra sturdiness.

The floor plan of The Colby includes three bedrooms. Every one of the three bedrooms is equipped with a generous amount of closet space. There is a comfortable living room and a kitchen provided with ample dining area.

There is convenient closet space in The Colby. The front vestibule of The Colby is furnished with a large, handy coat closet. There is a linen closet as well as a general storage closet located in the bedroom hall. The kitchen is provided with a large general storage closet and there is also a pot and pan cabinet situated next to the refrigerator. The combination kitchen and dining room has cross ventilation.

The main body of The Colby is 28 feet by 36 feet. The Colby's plan calls for a full basement. The plan covers an area of 1,170 square feet. There is a volume of 23,391 cubic feet.

TERRACE READIES FOR FALL FAIR

TERRACE—A meeting of the executive and committee members of the Fall Fair Association was held at the home of B. R. Dodds on Monday evening. Several changes were made in the Fair prize list. In the flower section, annuals and perennials were added, also the most attractive arrangement of flowers for a centerpiece. In this livestock section dairy cows were added to the list. There was considerable discussion concerning the time limit required for the completion of an article of fancywork or knitting, etc. for judging and it was decided that for this year only, any article can be entered which has been made within the past few years provided the owner has not entered it in any other Fair before. Volunteers are being called for to help with the concessions and stalls on September 15, the day of the Fall Fair.

Better English

1. What is wrong with this sentence? "The audience at the prize fight was unruly."
2. What is the correct pronunciation of "hauteur"?
3. Which one of these words is misspelled? Ludicrous, lucrative, luminous.
4. What does the word "dilemma" mean?
5. What is a word beginning with ec that means "odd"?

ANSWERS

1. Say, "the spectators at the prize fight were unruly." Audience means listeners.
2. Pronounce ho-tur, o as in obey, u as in fur, accent first syllable.
3. Ludicrous.
4. A necessary choice between equally undesirable alternatives; a perplexing predicament. "I found myself in a dilemma, not knowing which invitation to accept."
5. Eccentric.

R. B. Klein, president of the University of Southern California, was a visitor in the city today in the course of his making the round trip to Alaska on the Prince George.

BETTER FIRE FIGHTING—Major-General F. F. Worthington tells fire fighters in east there should be standardization of fire fighting equipment, aerial co-ordination between communities and use of women in the fire-fighting organization. Canada's lack in fire fighting research is being remedied.

Hong Kong More Secure

Russians Would Not Have Easy Time as Japanese
HONG KONG—The British commander-in-chief in Hong Kong says that any aggression from the Chinese mainland will be met with much stiffer opposition than the crown colony offered the Japanese in 1941.

Lt. Gen. Festing, commanding British land, sea and air forces, said that the Japanese gained access to Hong Kong area from the sea. "That would not arise today," he told a press conference. "The Japanese also had air power. That also would be different today."

In a review of recently intensified defence plans for Hong Kong now close to the advancing Communist armies in China Gen. Festing said that reinforcement of the whole garrison was going well and had gone completely according to plan.

U. S. ARMY GETS NEW CHIEF OF STAFF—After President Truman had nominated him to become army chief of staff, Gen. J. Lawton Collins (right) confers in Washington with Gen. Omar Bradley (left), whom he succeeds, and Gordon Gray, army secretary. Gen. Bradley was named for the nation's highest military post—chairman of the joint chiefs of staff.
