Editorial

by request from Daily News editorial, October 1, 1948. Applicable then, applicable now.)

house-to-house canvass is planned in the annual Civic Centre membership drive, now being. Instead, it has been decided to let the citizens to take out their membership voluntarily. There will be no direct sales. It is a new technique of money-raising for the Civic Centre and we hope it will work out. There is every good reason why it should. There are few people in Prince Rupert not convinced of the boon of the Civic Centre. If there are still any who are not so convinced, we would only suggest, as we have often suggested before, that they try to picture what Prince Rupert would be like without this fine institution already the envy and example of much of the communities both in Canada and the United States.

It might also suggest that there are few people in Prince Rupert to whom the Civic Centre is not of use and advantage. And to everybody, even if they may not use it very much, there is an advantage and pride in the possession of a Civic Centre. It is a rendezvous with all the conveniences and it has available for use at such small cost as to be involved in the annual membership fee.

There have been trying to think up reasons for neglecting to voluntarily respond to the appeal "invest in citizenship." The only reasons we can think of are sheer neglect or refusal to meet an obligation.

It would suggest that the people of Prince Rupert consider the appeal which they receive either in the newspaper, by mail or otherwise in the same way as they would a statement for goods sold or delivered or for services rendered and make no remittance.

Legally, by payment of one's Civic Centre membership, one is entitled to a voice in the affairs of the Civic Centre and if he or she has any suggestions to make for improvements in the better Civic Centre they are not only entitled to be expected to make themselves heard in useful and constructive criticism.

All means join and support the Civic Centre. It is no better investment.

CAPTURE OF SEOUL HELD AS TURNING POINT IN KOREAN WAR

Relief in Sight— Considering New Housing Scheme Here

Mayor G. W. Rudderham, Ald. G. B. Casey and Ald. G. D. Frizzell returned home by car last night after attending the annual convention of the Union of British Columbia Municipalities at Nelson and taking up city business in Vancouver.

An immediate outcome of their trip is a specially called meeting this afternoon of the joint committee of the city council and Prince Rupert Chamber of Commerce on housing to consider a low rental plan under federal-provincial auspices which, as a result of interviews at Nelson, with an official of the Central Mortgage and Housing Corporation, it was felt might be applicable in Prince Rupert to meet the growing dearth of accommodation here.

The mayor and Ald. Casey told the Daily News this morning that, in addition to the convention sessions, they had had private sessions with government and other officials on important city matters such as water system extension and finances generally. These will be reported upon fully to the city council.

City Clerk H. D. Thain, who was also at the convention in Nelson, went on to Calgary, now being on his annual vacation.

Chapter of Tragedy

Mine, Plane and Flood Disasters Kill 236

At least 236 persons are dead or missing in mine, flood and plane disasters around the world Monday and today.

A raging underground fire in a coal mine at Creswell, England, has trapped or killed 83 men.

At least 100 persons were drowned in a flash flood in the mountainous regions of Sefru in French Morocco.

In Argentina, eight persons were drowned and 20 are missing after a barge full of Roman Catholic pilgrims overturned in the Doce River.

A Korean-bound transport plane plunged into the sea off Southern Japan today. Of the 51 persons aboard, one body has been recovered, 22 are missing and 28 rescued.

In Spanish Morocco, all five occupants of a Spanish military plane died when the plane crashed Monday in the sea off Mrachia base.

CCL Kicks Out Reds

United Electrical Workers' Union Expelled

WINNIPEG—The Red-dominated United Electrical Workers' Union was fired out of the Canadian Congress of Labor at the annual convention here yesterday on account of the communist views of its leaders. It was the first expulsion over Communism at the convention. The union, which has a membership of 25,000 and is one of the largest in the Congress, had been under suspension by the executive for non-payment of dues.

The expulsion came after Pat Conroy, secretary-treasurer of the C.C.L., described the union as being subservient to Moscow. It was the complete vassal and slave of the Communist party in Canada and the United States. It had been suspended for withholding on its debts to the C.C.L. The official reason for the suspension was given as delays in paying dues.

George Aldridge, spokesman for the U.E.W.U., declared that the union had been illegally expelled. He attacked the C.C.L. for its association with the C.C.F. Conroy bitterly assailed the Union's officers as "crawling on their bellies to Joe Stalin."

Bomber Crew At Goose Bay Now

GOOSE BAY, Labrador — All sixteen men who bailed out of a disabled B-50 United States bomber which crashed last Thursday in the wilderness of Labrador after taking off from here for Tucson, Arizona, were evacuated safely yesterday to Goose Bay by rescue planes.

Most serious injury was a brok-en leg sustained by one man.

The men were picked up first by a helicopter and taken to a nearby lake where two planes took them on board to bring them here.

They had been spotted Sunday by a Royal Canadian Air Force search plane 95 miles south of the big northern base.

The plane became disabled when two engines caught fire and a third stalled.

Those on board then jumped and it was thus that the one injured man suffered the broken leg.

Moon Eclipse Is Seen Here

Between showers last evening the skies cleared beautifully and gave Prince Rupert people the opportunity to witness at total eclipse of the moon in the south-eastern sky.

The eclipse was in actual progress from 5:20 p.m. until 11:13 p.m. with the total obscuring at 7:53 p.m.

As the clouds came and went, the phenomenon could be observed at several stages.

Big Blazes Persistent

EDMONTON — Rains came yesterday to somewhat alleviate the serious forest fire situation in Northern Alberta and British Columbia and to somewhat clear the air but much more rain is still needed before they are completely quelled.

The plight of Northern Alberta, experiencing the worst forest fire situation in more than ten years, has been broadcast three thousand miles as Eastern Canada and northeast United States were darkened by a blanket of yellow smoke which reached Montreal yesterday as it travelled on its way out to the Atlantic Ocean.

One hundred forest and bush fires, blazing in northern Alberta and British Columbia in an abnormally hot fall, sent skies blue, pink, brown, yellow and grey.

Floodlights were turned on for major league baseball games at Cleveland and Pittsburgh.

The smoke bank rendered visibility zero for planes inside and extended 4500 to 20,000 feet off the ground, travelling 35 miles an hour.

Telegraph communications between Edmonton, Yukon and Alaska—severed by forest fires during the week-end—were restored yesterday as a temporary line was strung along the scorched section of the Alaska Highway, 50 miles south of Fort Nelson.

A report that flames are threatening the settlement of Fort Nelson, are unconfirmed. At Dawberry, 100 miles north of Dawson Creek, the crew of the repeater station were ordered to stand by to tear out the equipment and move down the highway as flames licked near the point. Forty persons of the army's highway maintenance camp across the road have been evacuated.

In Edmonton, a blanket of smoke 4,000 feet thick moved over the city late Sunday continued to dim the sun.

Flash

TWO FORCES JOIN

SEOUL—An Army spokesman said last night that United States troops south of Seoul had made contact with First Cavalry tanks speeding up from the old southeast beachhead. If the link-up is solidified, thousands of North Korean troops will be hopelessly trapped in South Korea.

INDIAN PAIR RELEASED

VANCOUVER—Police Monday released an Indian couple when an autopsy showed that the death of their seven-weeks old infant Sunday resulted from pneumonia. They were arrested Sunday when the child had died suddenly and that five other of their children had died in the past under similar circumstances.

FIRE THREAT EASED

EDMONTON — Cooler temperatures today, accompanied in some cases by rain, eased the forest fire hazard in Northern Alberta. But the situation remained serious over the southern end of the Alaska Highway, where some of the biggest fires are raging. No rains were reported along the highway.

SHOPS SEIZED

BERLIN — The seizure of several hundred small shops in East Berlin by the Communist government was reported today. The East Zone government assigned several hundred employees of various "people's owned" plants to the title to the shops.

Communist Resistance Crumbling

TOKYO (CP)—General Douglas MacArthur announced today that United Nations forces have liberated Seoul from the North Koreans who held the South Korean capital in communist bondage for almost three months. This is the big initial victory for 53 non-communist countries behind the first armed peace-enforcement measure undertaken by the United Nations.

However, mopping up of an estimated five thousand diehard communist defenders in Seoul remains to be done by Allied forces fighting house to house and street by street.

The Americans battled in the flaming, smoke-filled city of horror, advancing behind flame-throwing tanks, heavy artillery, air bombardment and rattle of machine guns and rifles.

Four big fires are burning in the city.

General MacArthur announced the end of effective Red resistance in Seoul in a special communique which said: "Seoul's communist garrison is fleeing northward in disorder and the Reds appeared to be shattered everywhere as a unified fighting force."

Allied forces hammered out sharp new gains throughout the whole battle zone in what may be the war's conclusive offensive against resistance raging from bitter to feeble character.

The gap between the two United Nations drives from the west and southeast has been narrowed to 38 miles, threatening the entrapment of tens of thousands of Communists.

Point blank street struggling in Seoul made the battle one of the most severe of the campaign to date. Trenches had been dug in the narrow streets. There was nothing to give either side any particular advantage.

Seoul is one of the ancient cities of China. There was little in the weather-stained masses of one and two-story buildings to strengthen the positions of the United Nations or North Korean forces. Seoul is just miles and miles of elbow-to-elbow houses and buildings built of mud plaster that could give way under a hard shove. The wooden framework is tinder dry with age.

A shot from a tank gun or mortar could touch off a blaze that would level half a square block in a matter of minutes. A stick of fire bombs could bring on a holocaust. There was no place for civilians when war hit the dust-hued old capital city. The houses have no cellars. There is no underground construction—no raid shelters, no tunnels and no subways.

83 Perish In Mine Disaster

CRESSWELL, England — A raging underground fire trapped and killed 83 men yesterday at Cresswell coal mine. Eighty men were caught behind a wall of flame and choked to death with gas and fumes. Three others were brought out dead by fellow workers who crept to safety on their hands and knees.

After rescue operations had been carried out for seven hours, the blazing pit was sealed off. Smoke and intense heat drove back the rescuers.

More than half the approximately 200 men working in the mine escaped when the fire flared, crawling through dense smoke and rubber fumes to reach the main shaft.

Volunteers reported: "It is hell down there." It was Britain's second coal mine disaster in recent weeks. Thirteen men were killed and 116 others entombed for two days before rescue after the cave-in September 8 near New Cumnock, Scotland.

Bankers Are Being Moved

H. M. Wightman, accountant in the Prince Rupert branch of the Royal Bank of Canada since January 1947, has been transferred to Terrace under a switch-around of bank personnel in this area which has just been made known.

James Stevenson, who has been manager of the Terrace branch since its opening three or four years ago, is going to Brighouse, Lulu Island, near Vancouver in a similar capacity.

D. S. Darling, from the Fort Street branch in Victoria, succeeds Mr. Wightman at Prince Rupert and is due here October 4 with his wife.

Mr. Wightman takes over at Terrace October 6.

Another district change is the transfer of R. J. Bourque, manager of the Royal Bank at Burns Lake, to Chilliwack. Mr. Bourque is first vice-president of the Associated Boards of Trade of Central British Columbia.

R. G. Drayson, who Mr. Stevenson succeeds at Brighouse, is transferred to Burns Lake.

Yanks Move Farther Up

NEW YORK — New York Yankees took a double-header victory from the Washington Senators yesterday and now have a three-and-a-half game lead over the Detroit Tigers as the American League nears its sensational finish. The Boston Red Sox are half a game behind the Tigers. The Red Sox improved their position yesterday by blanking the Philadelphia Athletics twice.

In the National League the Phillies split a double bill with Boston Braves and solidified their hold on first place, although Brooklyn also split with New York Giants.

Yesterday's Big League scores:

American
Washington 3-4, New York 8-7
Boston 8-3, Philadelphia 0-0

National
Philadelphia 12-3, Boston 4-5
New York 2-4, Brooklyn 3-3

Win Double-header to Stretch Lead to 3 1/2 Games

Quonset Hut To House Pump

A recommendation by the Board of Works committee that the city engineer be authorized to purchase and erect a second hand quonset hut for the pump installation at Shawatlans Lake at an approximate cost of \$1000, the amount to be defrayed by the waterworks reserve account, was approved by last night's meeting of the city council.

Speaking to the motion, Ald. D. Fitch said, when the installation was put in, it had been the intention of the committee to house it. He thought the quonset hut was a good solution.

Ald. T. B. Black was assured by the acting city clerk that there were sufficient funds in the reserve account to meet the cost and that the estimate for the building had been \$1500.

LOCAL TIDES

THE WEATHER

Synopsis
Weather stations high on the slopes of the West Kootenay mountains reported the first snow of the season last night. However, a cloud blanket held temperatures in the valleys well above freezing. It was frosty in the northern part of the province with Quesnel reporting a low of 29. It will continue cool and showery over most of the province today with clearing evident on the coast this evening and in the interior tomorrow afternoon. Ground frost will be felt in some southern interior valleys tonight but the most serious danger of frost will come tomorrow night.

Forecast
North coast region—Variable cloudiness today and Wednesday. Little change in temperature. Wind westerly (15 miles per hour). Lows tonight and highs tomorrow—at Port Hardy, Sandspit and Prince Rupert, 42 and 55.

Conference In Secret Parley

QUEBEC — The Federal-Provincial constitutional conference decided today to go into secret session on its complex discussions of Canada's constitutional set-up. The secret session started at 2 p.m.

Leaders of the 11 governments have agreed that Canada, as a sovereign national, should have complete control over her own constitution, but they are miles apart on the question of how Canada should go about getting that control.

BRITAIN'S COAL EXPORT
Britain supplies about one-quarter of Brazil's coal imports.

Fishing Plant Wants Paving

A letter from Brown & Harvey suggesting the piece of road near the Seal Cove air base leading to the B.C. Packers plant (Canadian Fish & Cold Storage) might be paved without assurance from the CNR that it would be approved came up for considerable discussion at last night's meeting of the city council. Consensus of opinion was that the strip should be paved but that the city should be protected for the work they did. The city clerk was instructed to reply to the letter saying the city would do the work but wanted assurance that the city was protected.

Business and Speeches

Too many businessmen appear to believe the making of speeches should be left to politicians, clergymen and lawyers, and yet they will be fortunate if at some time they are not called on to speak for themselves, with much at stake on the quality of their performance.

Winston Churchill, Harry Truman and Louis St. Laurent did not become able speakers through a happy accident of birth; their impressive performance are the result of study and practice.

Anyone who examines the records of public figures will find that some of the most articulate of today were the stammerers, the painfully embarrassed speakers of yesterday. And the way to ease and eloquence in public speaking is through practice.

In this the businessman is perhaps at some disadvantage as compared to the politician, the labor leader, the clergyman and the professor. The House of Commons and the backwoods hustings, the meeting of the union local, the pulpit and the lecture hall all provide platforms on which the art of public speaking can be learned, and indeed, where a willingness to speak to an audience is an absolute essential.

The last few years, however, have made it increasingly clear that there is plenty of opportunity, and certainly an urgent necessity for the businessman to present his case convincingly on the public platform. The enemies of business are growing in strength, chiefly because of their willingness to undertake these personal propaganda jobs themselves. They have grown glib and convincing with constant practice. Meanwhile businessmen have been busy running their own affairs.

It is time that businessmen take on the task of telling their own story every time a forum presents itself. The voice of business must be made more clear than it is at present.

How to do this? First of all, by being willing to speak when the opportunity offers. After the businessman has tried it a few times, he may find he likes getting up on his hind legs and telling his neighbors what he thinks. Second, by studying the technique of public speaking. The Junior Chamber of Commerce has made a worthwhile contribution in this field by its campaign among its members. This is developing some excellent speakers among the younger businessmen.

But there is no reason that the older men should be left out of this picture. They have an opportunity to give leadership and there is a real necessity for them to accept this opportunity.

SHIPYARD CONTRACTS

Most of the shipyards in British Columbia, except Prince Rupert, will share in filling naval orders, the contracts to run into a good many millions of perfectly good orders. Yet, no one can say the local plant is unable to perform a first class job when given the opportunity.

Prince Rupert people are justified in wondering why, in the spreading of contracts all over the country, the yard here has been so obviously overlooked. The Chamber of Commerce may feel like asking for an explanation.

It could be that Prince Rupert may be going to play some other sort of a role in the intensified national defence picture. If rumors extant these days are true, that might very well be the case and there may be plenty of activity here—desirable or undesirable as it may really be.

As I See It

By ELMORE PHILPOTT CHURCH PLANS PEACE

IT IS A MATTER OF historical fact that in the two world wars the Christian Church did nothing effective for peace. The clergy in all countries, and of all denominations did exactly what you and I did—that is, lined up behind our respective governments, right or wrong.

In the Civil War in the U.S.A. the clergy of the south stood with their own kith and kin—slavery and all. Those in the north were for the north. So in the first two world wars, the German church was for Germany, the Russian church was for Russia, the Italians for Italy and the Canadian was for Canada and Co.

THE THREATENED THIRD world war is on somewhat different lines. This time one of the contestants is governed by a force that spurns the religion of the west. So the predicament of the Christian church is even more unhappy. To fight or not to fight—and if so, how?

Here and there small groups like the Quakers, Jehovah's Witnesses, and followers of Gandhi apply their own answer. They simply renounce war personally. Some of them would give up their own lives rather than take the lives of others.

Men of Distinction CHOOSE Calvert Whiskies ... and VICKERS' London Dry GIN

VICKERS' IS DISTILLED IN CANADA AND IS DISTRIBUTED BY Calvert This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

RESEARCH FOREST — Camp buildings of the new U.B.C. Research Forest, near Haney, B.C. The forest, consisting of 9,800 acres of timberland, was Crown granted to the University by the provincial government. The British Columbia Loggers' Association levied an assessment of \$120,000 on its members to pay for the buildings, and to provide a working fund.

Yet the vast majority of us cannot see and do not see our honest duty that way.

It is easy for cynics and critics to blame "the Church" for having no effective peace plan. But who is the Church if not you and me and Tom, Dick and Harry? What is your answer to the threat of world war three? What is mine? I wish I had one, easy, sure, quick.

THE UNITED CHURCH OF Canada has prepared an historic document on war and peace. Its central point is this:

"The time has come when in the politically new and contrasting world it should be possible, on spiritual foundations to build, organize and administer a system of law and government that would effectively out-law war. Peoples or governments unwilling to accept such a system, at first, should be granted permission to do so at a later date."

The above is almost word for word what I have been saying in this column, and elsewhere, for many years past. The time has come to lay the foundations of world government. This world government would differ fundamentally from the United Nations organization because the latter is a mere association of separate nation government EACH OF WHOM RETAINS POWER OF LIFE OR DEATH OVER ALL ITS CITIZENS.

Any national government can order any of its citizens to attack other countries—to drop atom bombs—to uncork bottles of deadly germs. The penalty for refusal to obey the national government's orders is death.

THE FIRST REAL LAW OF A real world government must be something like this: No nation shall attack any other nation and any person who takes part in any such attack by land, sea

Ray Reflects and Reminisces

Brigham Young's fifty-fourth child, Mrs. Sanborn, died last week in Salt Lake City in her 89th year. She was the last surviving member of his family. Brigham, wherever he is, ought to thank God he did not live in 1950.

A copy of the Evening Empire dated September 25, 1925, prints a telegram from R. Hetherington, grain commissioner, Fort William, to Mayor McCaffery. It reads: "Grain Commission will be in Prince Rupert October 7. Do not think any necessity to book space in elevator as expect to take care of all grain offering."

Acheson and Vishinsky evidently possess histrionic talent. The United Nations masterful spokesman and the Soviet's arch strategist, are frequently seen in pictures, apparently bosom friends. Their handshakes and facial expressions exude pleasant thoughts. Compare this with the bitterness of their speeches, the heaviness of their frowns.

When blossom time returns in 1951, Second Avenue between Third and Fourth Streets will be easier on the eyes than ever before. The beautiful garden of G. F. Forbes has already contributed toward this happy state but the work now in progress will widen it.

This means that next summer the grounds in front of the museum and health unit, and through to Fourth Street, will consist of lawns and flower bordered walks and ornamental

or air shall be subject, on conviction in court, to death, or other just penalty.

We can set up such a world government when the English speaking nations are ready to lead. We do not need to wait for Russia.

The real struggle to build peace, under law, is with ourselves much more than it is with Russia.

shrubbery, an improvement to be gladly welcomed by citizens, as well as a source of delight to tourists. Such will greatly enhance the approach to the museum, with its spectacular entrance.

Statisticians are reported to have found tea the most popular beverage there is. Probably one of the reasons is that it does not cost fifteen cents per cup.

GIVES WIFE ADVICE

"Do you mind a mere male having something to say about washdays? My wife keeps my shirts sparkling white, which is important in my business. She tells me the secret is Reckitt's Blue, which prevents clothes turning yellow. She takes no chances with anything that may damage fabric. Just a swish or two of Reckitt's Blue in the final rinse is all there is to it. The fact that Reckitt's Blue costs only a few pennies a month makes sense to me, too."

One Price That Has Not Gone Up In Twenty-Five Years—Want Ads

Dan Lippett, tearing down an old building on McBride Street to make room for his expanding garage and service station business, ran across an issue of the Daily News of 1925 date and showed it to the editor.

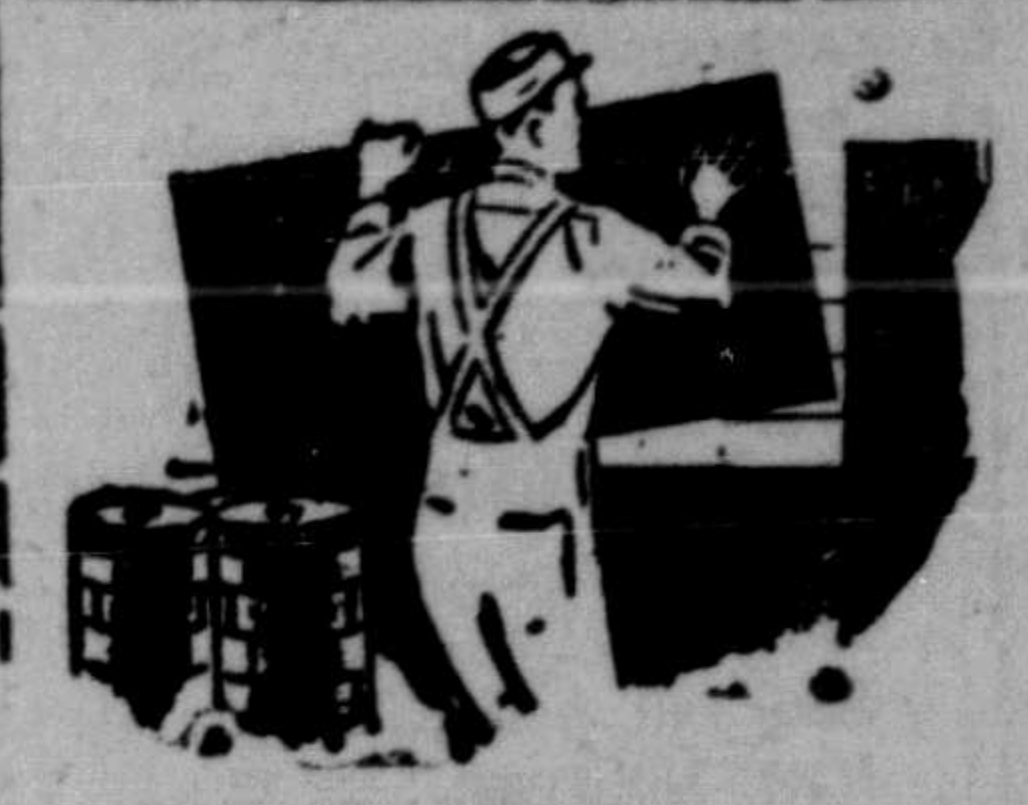

Prices of those days make interesting comparison with those of today.
A Ford coupe, in first class condition, was selling at \$400. Other commodity prices, as shown, disclosed similar ratio with those of today with the exception of Daily News classified ads—which were 2c a word twenty-five years ago—the same as they are today.

Yet the circulation of the Daily News today is double what it was twenty-five years ago and the paper is considerably bigger than it was in those days.

Would Rush Rail Crossing

A letter from K. W. Morton, Department of Public Works, Canada, saying they had contacted the contracting firm now building the breakwater near the Prince Rupert Fishermen's Co-operative Association plant at Fairview Bay regarding construction of a railway crossing at mile 117.5 said the firm had informed the department that the equipment they were using was urgently needed elsewhere as soon as the breakwater job was finished. They would, therefore, not be able to undertake the crossing job.

The city clerk was instructed to reply to the letter thanking Mr. Morton for his interest in the matter and suggesting that he might contact Wood & McClay and Campbell-Bennett regarding the matter, as both companies had machinery in the district capable of carrying out the job.

Fruit Bread — made with New Fast DRY Yeast!

● Don't let old-fashioned, quick-spoiling yeast cramp your baking style! Get in a month's supply of new Fleischmann's Royal Fast Rising Dry Yeast — it keeps full-strength, fast-acting till the moment you bake! Needs no refrigeration! Bake these Knobby Fruit Loaves for a special treat!

KNobby FRUIT LOAVES

● Scald 1½ c. milk, ¾ c. granulated sugar, 2 tps. salt and ½ c. shortening; cool to lukewarm. Meanwhile, measure into a large bowl ¾ c. lukewarm water, 3 tps. granulated sugar; stir until sugar is dissolved. Sprinkle with 3 envelopes Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 minutes, THEN stir well.

Add lukewarm milk mixture and stir in 2 well-beaten eggs, ¼ c. maraschino cherry syrup and 1 tsp. almond extract. Stir in 4 c. once-sifted bread flour; beat until smooth. Work in 2 c. seedless raisins, 1 c. currants, 1 c. chopped candied peels, 1 c. sliced maraschino cherries and 1 c. broken walnuts. Work in ¾ c. (about) once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and

Women Car Pilots Helping Strangers

LONDON (C)—During the last few months, women drivers in neat khaki uniforms have been "piloting" cars through and around London. They are members of the pilot service of Britain's Automobile Association.

Their principal job is to escort members of the association who are strangers to London. Overseas drivers find them particularly useful.

The women, like their male counterparts, meet a car on request at the given point and take over the driving—or give instructions—and do not leave the car until the driver is all clear for his destination.

Sometimes they will be called upon to accompany an owner to take delivery of a new car, explain the controls if necessary, and drive it to a garage.

The pilots can be hired by the hour or by the day and make a small charge for their services. They are in great demand by strangers to town who want advice about shopping in the metropolis.

Membership Drive is On

The Civic Centre annual membership drive starts tomorrow with a target of over 2,000. By the end of December last year there were 1,748 on the roll and some joined after that. The number in 1948 at the same time was 1,515.

As in past years, the drive will take the form of invitation. Letters have already been sent to 1,000 members containing the recreational program and instructional courses free to members. Also in the envelope is a membership card, which the recipient is asked to fill in and return immediately, preferably with a cheque to cover cost of membership as stated on the card.

The report for 1949 showed a total of 6,634 events and classes during the year with a total attendance of 216,553. This compares with 4,053 and 190,871 for the preceding year.

Participants in Civic Centre activities was as follows (1948 figures in brackets):

Sports—636 (433)
Rup-Rec—437 (436)
Crafts—221 (295)
Special Groups—215 (185)
Total—1,509 (1,309)

Over 90 organizations and community groups used the Civic Centre for at least some of their activities during the year.

Thirty members of the board of directors were appointed by organizations and four are to be elected at the annual meeting.

What City Council Did

City council, on recommendation of the finance committee, last night approved the sale of Lot 6, Block 35, Section 5 to William McKenzie for \$175. The report also announced a donation of \$100, as shown in the estimates, had been paid to the Prince Rupert band. Further, the report recommended that other accounts, as outlined in the estimates, be paid. The report was adopted.

Expenditures for the fire department comprised the majority of recommendations of the utilities committee to last night's meeting of the city council. They provided for purchase of 400 feet of 1 1/2-inch single jacket fire hose at an approximate cost of \$400, installation of three storm windows at the fire hall at an approximate cost of \$85, and expenditure of a sum of \$300 for alterations to the men's quarters and kitchen at the fire hall. In presenting his report Ald. W. J. McLean said all expenditures had been provided for in the estimates.

On recommendation of the health, social assistance, police and licence committee, the following trade licenses were granted by last night's meeting of the city council: Arthur Davey, taxi operator; Robert McKay, jr., groceries, meat and confectionery; Academy of Arts, transient photographer. A further recommendation of the committee that police accounts be paid was also approved.

BOOTS ONE OUT — Gerry McNeil, Montreal Canadiens' new netminder, boots one out as the National Hockey League squad opens training for the 1950-51 season at the Montreal Forum. McNeil, last year with Cincinnati Mohawks of the American Hockey League, succeeds veteran Bill Durnan who has retired after seven seasons in the N.H.L. (CP Photo)

Minutes came in for amendment at last night's meeting of the city council when Ald. T. B. Black said he disagreed with the recording of one motion. The minutes said Ald. George Casey's resolution that the city ask the National Housing Administration for an allotment next year sufficient to build between 75 and 100 houses was adopted. Ald. Black said the motion passed by the council had been to refer the resolution to the housing committee to act with other interested bodies in the city and report back to the council. He moved an amendment to that effect. The motion was carried and the minutes were adopted as amended.

Referring to a letter from the Chamber of Commerce asking that the curfew law be more rigidly enforced to the police committee to take up with the police.

Referred a letter from Mrs. Agnes E. Woods, stating she had

bought a property in 1928 and that her taxes had gone up although there was still no access to the street, to the Board of Works committee in conjunction with the city engineer for information. (Continued on page 5)

Golden Wedding Is Celebrated

KITSELAS—With guests present from Port Simpson, Usk, Terrace and Hazelton as well as from their own village, Mr. and Mrs. Joseph Hudson celebrated their golden wedding anniversary recently. Many beautiful gifts were presented.

Mr. and Mrs. Hudson were married at Port Essington half a century ago by the late Rev. W. H. Pierce.

Following a reception at their home, dancing was enjoyed until 4 o'clock in the morning. Refreshments featured a large wedding cake on a handsomely decorated table.

On Dental Survey Here Need Of Attention

The annual meeting of the Prince Rupert Teacher Council last evening in the Civic Centre for the new season were elected and there were discussions on the result of the dental survey recently made in grades one and four in the importance of safety habits. The latter reference to the need for safety habits rather than among adults rather than children.

President—F. Wright, Teachers' Association.
Vice-president—W. D. Griffiths
Secretary-treasurer—Mrs. H. C. Flood
Convener Safety and Traffic Committee—R. G. Moore
Publicity—Mrs. Logan
Literature and Library—Mrs. R. E. Mortimer

A. J. Dominato
Study Groups—Mrs. M. Greisel
Membership—Mrs. E. W. Becker
Civic Centre representative—J. S. Wilson
Music and Drama Festival—Mrs. Hardy
Kindergarten—Mrs. E. W. Becker

The report on the dental survey stated that there was a large number of grade one children who needed immediate dental care. A committee had been instructed to get in touch with the College of Dentists to see what arrangements could be made to have the matter attended to at an early date. The need for the extension of the sidewalk on Seventh Avenue eastward was stressed. This will be taken up by the safety and traffic committee.

MONTREAL'S PUNCH LINE—Montreal Canadiens' "Punch Line" of right wing Maurice (Rocket) Richard, centre Elmer Lach and left wing Norman Dussault, cut their skates into the ice at Montreal Forum. The Canadiens are an dergoing pre-season training for the 1950-51 N.H.L. season opening only a few weeks away. (CP Photo)

More Diesel Locomotives

MONTREAL—The Canadian National Railways has placed an order for eight diesel-electric road locomotives with the Montreal Locomotive Works at a cost of approximately \$1,500,000.

In announcing the new order here, E. A. Bromley, vice-president, purchases and stores, said that it brings the total cost of new equipment, including locomotives and other items of rolling stock ordered by the Canadian National during 1950 to \$13,700,000.

The eight new diesels, each of 1600 horsepower, will be delivered early next year. They will consist of four "A" units, which are lead units with engineer's control cab in the streamlined nose, and four "B" units, commonly known as boosters, which pair up behind the lead units. They can however, be operated also in higher multiples of three and four to provide greater power for heavier loads. They are destined for mainline freight service with the railway.

Make Farming Professional

BIRMINGHAM, England—Elevation of farming to the status of a chartered profession, was advocated at the annual meeting here of the British Association for Advancement of Science by Prof. H. D. Kay of Reading.

Addressing the agricultural section of the organization, Prof. Kay said that anyone interested in entering the field of farming should be required to possess a certificate of competence, except where it was on a small scale. Merely to have enough capital to buy a farm or become a tenant, should not be the deciding factor.

"There should be a nationally-accepted qualification after two years' training in agricultural science, followed by two years' practical experience," he said. A party seeking to rent a farm should have a recent history of successful farming good enough

to satisfy a central registration authority.

"We should earnestly consider how to introduce to our farmers the new knowledge that agricultural science has made available," he added. "If we earnestly follow that policy the less hard it will go with us as a nation when in 1952, or possibly a little later, the highly artificial and somewhat inglorious receipt of aid from abroad comes to an end."

First Aid At Conrad Street

A successful start in the Conrad Street Parent-Teacher Association St. John Ambulance first aid classes was made last night when 17 members turned out. Although the classes are sponsored by the P.T.A., others interested are welcome, it was explained. R. E. Eyoifson will be instructor at the regular Monday evening meetings.

CITY COUNCIL

(Continued from page 4)

Investigation and report back to the next meeting.

Instructed the city clerk to reply to a letter from the Department of Transport regarding lease and insurance of the Aero Club property advising that the committee had met with the representative of the department but had no authority to act in the matter and that the department would be notified of the results of a meeting with the executive of the club after such meeting had taken place.

Thanked Ald. Black for a letter from Northern B.C. Power Co. giving information on the flow of water from Woodworth Lake and storage capacities and referred it to the Board of Works for consideration while discussing the matter.

Acting Mayor H. F. Glassey was in the chair during the absence of Mayor George Rudderham, who was absent at convention. Also absent for the same reason were Aldermen George Casey and Douglas Frizell and City Clerk H. D. Thain.

MOLASSES ALL-BRAN MUFFINS

NEW QUICK-MIX RECIPE
No creaming, no egg-beating—no easy mixing this Kellogg-quick way!

1 cup Kellogg's All-Bran 1/2 teaspoon salt
1/2 cup milk 1/2 cup molasses
1 egg 2 tablespoons soft shortening
1/2 cup seedless raisins (or chopped dates)
1. Combine All-Bran and milk in mixing bowl.
2. Sift together flour, baking powder, soda and salt into same bowl. Add molasses, egg, shortening, raisins or chopped dates. Stir only until combined.
3. Fill greased muffin pans 3/4 full, or for pan bread spread in greased 8" x 8" pan. Bake in pre-heated moderately hot oven (400°F.) 20 to 25 minutes. (Slightly longer for pan bread.) Makes 12 medium muffins, or 9 squares of bread.

Canada's most famous natural bran cereal for diets of sufficient bulk—try a bowlful today!

Canadian Pacific PRESENTS

THE "SLEEPY HOLLOW" Deluxe Coach

Blackwood On Bridge

By Easley Blackwood

When Miss Lucy Brash sits down at the bridge table things begin to happen. Bright and spry—and you can guess her age yourself—Miss Brash always expects everything to turn out for the best. Because of this she almost never passes. Give her a few picture cards and a little distribution and she'll bid her head off.

Neither side vulnerable. North dealer.

North (Masters)
S-A K Q 7 5
H-9 7
D-K J 9 6 3
C-4 2

East
S-J 10 8 3
H-A Q 4
D-8 7 5 4 2
C-K

South (Brash)
S-4 2
H-J 6 5 2
D-A
C-Q J 8 7 5 3

THE BIDDING:

North	East	South	West
1 S	2 C	Pass	Pass
2 S	Pass	2 NT	Pass
3 C	Pass	3 NT	All Pass

In today's hand Miss Brash had no more business insisting on three no trump than the man in the moon. But like many overbidders she plays her cards well and is a shrewd judge of the

Blackwood

whims and weaknesses of her opponents.

Notice how Mr. Masters plays down his cards when Miss Brash is his partner. For every one of his bids today he had a little "left over." And yet Miss Brash still reached a highly speculative contract.

West opened the six of diamonds and Miss Brash looked the situation over. She knew West was a deliberate player—and not too quick a thinker. So she won the first trick with the ace of diamonds and without wasting a second banged down the queen of clubs. West did not wince, frown or squirm but played the deuce of clubs calmly and without delay.

"He can't have the king," thought Miss Brash. So she bounced up with the ace in dummy and dropped East's singleton. Both East and West were considerably upset by this play—so much so that when the next club was led West revoked, playing a small spade.

Thus Miss Brash won six clubs, three spades and the ace of diamonds for ten tricks. To this she added two more tricks as the penalty for the revoke—twelve tricks in all.

"A small slam partner," said Miss Brash brightly.

"And I'm very surprised," said West sarcastically, "that you didn't bid it."

Aluminum serves breakfast in bed!

An "Inside Story" about **HOSPITALS—**

HOSPITALS select equipment with unusual care. That's why aluminum utensils are used in hospital kitchens everywhere. Health authorities recommend aluminum because it meets every need of hygienic food preparation. Enjoy this food protection in your home, too. No other metal is more "food-friendly" than aluminum.

Hints to the Housewife! Whenever you see aluminum on the outside of a food or a drink, there's an "inside story" of purity well-protected. Aluminum utensils clean easily. To remove natural deposit left by foods and water, use steel wool with soap and water.

ALUMINUM COMPANY OF CANADA, LTD.

... Aluminum is friendly to food!

SHIPS and WATERFRONT

Union steamer Chilcotin, Capt. Harry McLean, had a bad time of it at the week-end on her Queen Charlotte Island cruise with fog and bad weather. Delayed in leaving Vancouver, the ship was late arriving in Prince Rupert and late in leaving. Large cargoes made it impossible to make up time at ports of call. Fog and bad weather made landing difficult at island points. The vessel finally docked here at 2 a.m. Monday morning, sailing two hours later for Vancouver.
