Increased Grants Make Possible Purchase of More And Better Books

Outstanding event for the Prince Rupert Public Library during the past year, the report of the librarian, Miss Olive van Cooten, and the chairman of the book committee, Mrs. W. S. Kergin, agreed at the annual meeting of the library board last week was a grant-in-aid of \$500 by the provincial Public Library Commission which was matched by a similar grant from the city of Prince Rupert. The Commission's grant was earmarked for the purchase of free juvenile books and that of the city for free adult books.

The increased financial aid placed the library in a position to add a number of worthwhile books to the shelves. During the year, 527 new books were catalogued—496 by purchase and 31 by donation. Discarded books numbered 182. To the juvenile and young people's sections 204 new volumes were added. The adult shelves received 323 books. During the year 152 worn books were rebound.

"Our young people's section, which was started early in 1948, is a going concern and we hope to give it more attention in the coming year as the teen-agers are using it constantly," said the librarian's report.

A donation of \$15 from the Women's Canadian Club was acknowledged.

The circulation for the year 1948-49 showed a decrease of 1247, the only section showing an increase being adult non-fiction. Registration also showed a decrease with 336 cards issued as compared with 387 in the previous year while cancellations amounted to 468. There were now 1568 active borrowers—1014 adult and 554 juvenile.

The annual meeting of the Prince Rupert Public Library had a full attendance of the board. Those present were Mrs. M. M. Roper, Mrs. Basil Prockter, Mrs. W. S. Kergin, Bruce Stevens, A. D. Ritchie, T. B. Black and Olive van Cooten, librarian.

Mrs. M. M. Roper was re-elected as chairman and Mrs. Basil Prockter, secretary.

The Book Committee was chosen, with Mrs. W. S. Kergin again being asked to take the position of chairman, assisted by A. D. Ritchie.

The annual report was discussed and the budget for 1950 drawn up.

THE WEATHER

Synopsis
Prince George once again last night was the coldest spot in the province with a temperature of 39 below zero. On the coast Vancouver Airport recorded 4 above and Victoria 20 above. Milder air which is moving down from Alaska will bring some cloudiness and a little higher temperatures to the northern half of British Columbia tonight but all southern areas will remain clear and extremely cold.

Forecast
North Coast Region—Clear today, cloudy tonight and tomorrow. Not quite so cold tonight. Northerly winds, 15 miles per hour. Lows tonight and highs tomorrow—at Port Hardy, Sandspit and Prince Rupert, 25 and 35.

MASS FOR HAINAN
TAIPEI, Formosa—An official Nationalist source reported Sunday that Chinese Reds have massed more than 5,000 motor-powered junks and other small craft for an invasion of Hainan Island. The vessels are intended to transport 100,000 to 300,000 Red regulars to the big Nationalist island, ten miles off China's south coast, said General Hsia Yu-Tsai, director of the Taipei office of the Hainan defence command.

Interior Radio—"Boosters" Coming Up

E. T. Applewhaite, M.P. for Skeena, stated at the week-end that he had received word from Ottawa that "it is expected that the establishment of lower power transmitters at intermediate points between Prince George and Prince Rupert will be undertaken as soon as possible after an on the ground survey has been made in the spring."

Such "booster stations have been sought for some time as a means of improving radio service in the central interior.

Keilback Head Of Toc H Here

S. A. Keilback has been elected chairman of Prince Rupert branch of Toc H for the coming year, with P. H. Linzey as secretary-treasurer, E. A. Evans as jobmaster, N. L. Jones as pilot and Rev. Basil S. Prockter as padre. The annual meeting was curtailed owing to the power shortage and business other than election of officers was left over to a future date.

\$1,000,000 Search—No Trace Of Lost Plane

WHITEHORSE—Search for a missing United States transport plane and its 44 occupants turned today to two mountainous, heavily timbered areas Northwest of here. They were by-passed earlier in the gigantic aerial search because of bad weather.

The hunt from the sky, greatest such search in Canada, has covered about 58,500 square miles from Fort Nelson B. C. north to Snag in the Yukon.

But two sections, 900 square miles immediately northwest of Whitehorse and an area of about half that extent south of Snag, have been blocked off by overcast weather.

Engaging seventy aircraft and 3,000 men, the search has so far cost over \$1,000,000.

The missing passengers included an expectant mother, wife of a United States Army sergeant, and her 10-year-old son.

The plane had probably been sufficient to last.

Particular attention is being paid to an area forty miles from Whitehorse where an explosion is reported to have been heard last Thursday about the time the plane became missing.

Ernest Bevin Is Retiring?

LONDON—No matter which party wins the general election, February 23, it is generally expected that Great Britain will have a new foreign secretary after that date. Suffering from a heart condition and blood pressure, Ernest Bevin is expected to ask to be relieved if the Labor government is returned. Anthony Eden would be foreign secretary if the Conservatives win and should Winston Churchill again be Prime Minister.

Foot Thick Ice At Morgan's Camp

One foot thick ice again blocked the entrance of Morgan's camp in Cumshewa Inlet and forced the Union Steamer Chicoutin to stop one-half mile from the dock during its fortnightly call over the week-end. Freight was loaded on to sleds and transported to the dock. The only passenger disembarking was George Kennedy, superintendent of the camp who returned after a business visit to Vancouver.

BATTLESHIP IS STILL AGROUND

NORFOLK, Virginia—The battleship Missouri, after two weeks, is still hard aground in the mud off Hampton Roads. The mud is being blasted away from the hull and, with the high tides prevailing this week, there are hopes of refloating the great vessel by Thursday of this week and the firearms confiscated.

NO RELIEF IN SIGHT—

Hoping For Better But Fearing For Worse In Power Situation

Thomas B. Black, general manager of the Northern B. C. Power Co., alderman, acting president of the Chamber of Commerce and Prince Rupert's most harassed citizen unless it might be Mayor George Rutherford and City Engineer Don Stewart with their water problems, hoped for the best today but grimly, had to contemplate an even further deterioration in the shaky power supply situation.

"Most anxious to shorten curtailment hours as soon as and as generously as possible, Mr. Black, facing the realities of the situation, said "we can't do anything like that now" and hinted that it might be necessary even to extend the hours of shut-off more. There were no particularly encouraging factors as yet, as far as could be gathered from Mr. Black.

Fall of the water levels at Falls River and Woodworth Lake have been reduced to a minimum of 2 feet per day, but the rub is that with continued freezing weather, (it was still registering below zero at Falls River at the week-end), there is absolutely no run-off from the mountains.

Mr. Black said that it might be necessary to shut-off the supply from Falls River, normally the city's principal source, altogether, keeping the plant running there only sufficiently to prevent freezing up. "The plant must be protected," the power company manager said.

Woodworth Lake supply seems to be holding up better, Mr. Black admitted, but in order that the city's water supply be protected as far as possible, the company was making a minimum draw of water from there and this must continue to be the governing factor in the amount of power which could be generated from the Shawatans Lake plant. Accordingly, the steam plant

WRECKAGE OF PLANE

PARIS—An Agence France-Presse Dispatch from Madagascar said today the wreckage of a French plane missing for three days with 14 persons aboard had been spotted 30 miles west of Tamatave. The plane was enroute from Tananarive to Tamatave, both cities on the island off the west coast of Africa.

STRIKE STILL ON

PITTSBURGH—Six thousand coal miners continued to strike today—only a few hours after reports were heard that President Truman may step into the coal situation. Later today the remainder of 88,000 men who went on strike three weeks ago will decide whether they will pay more attention to a hint from the President than a suggestion from John L. Lewis.

Decade of Growth

CANADA HAS COME THROUGH the ten-year period since the beginning of the second World War in better circumstances than most other countries of the world.

The accident of geography which permitted Canada to escape the devastation of war, and her location and resources which determined that she could be one of the major producers of munitions and materials for the allied cause, undoubtedly were factors in the development. These were not, however, the only factors, for the end of the war, which brought an end to much of war's demands, did not stay that progress. The continued development of natural resources and the adaption of her war-expanded industries to peaceful uses continued her progress and made her a large contributor to world recovery.

Canadian industry has had its own impressive part not only in meeting extraordinary demands of war but in preparing for the demands of peace. As the Business Review points out, "Canada has been adding to and modernizing its productive facilities probably at a more rapid rate than any country in the world."

STANDARD NOT TOO HIGH

PRINCE RUPERT MAY NOT CONSIDER itself so badly off after all as far as standard of living is concerned when we consider the rest of Canada.

Even though we have advanced our private and public health to a high level through modern sanitation, in Canada today more than two dwellings in five still use outside facilities, and half have neither bath-tub nor shower.

Government survey reports in 1948, which are the latest available, show that 50 per cent of Canadian homes do not enjoy the advantages of a bath-tub; 54 per cent are without the comforts of even a furnace; 70 per cent are without modern refrigerators; and 30 per cent lack washing machines. Half of the Canadian homes which do have refrigerators are using older equipment manufactured before 1940.

All of which should dispel the belief that the great days of top production are passed, that the saturation point has been reached and that a depression need be in the offing.

One would think that even a basic standard of living should call for a bath-tub for every Canadian family. "The fact is, though, far too many people in this country are still without a bath-tub for Canadians to start thinking in terms of tapering off of production and employment."

We do not need to start patting ourselves on the back about our high standard of living, even though it may be better than the rest of the world.

LOS ANGELES TODAY

VOLUPTUOUS LOOKING, in its number of pages, wealth of assorted colors, variety of illustrations, ingenuity of makeup and wide choice of reading subjects, a copy of the Los Angeles Examiner has found its way to Prince Rupert. It's another "special", and helps celebrate the city's centennial.

Los Angeles, has a population of 2,051,348. In 1850 the proud metropolis of today was a sandy, thirsty, tough little town of a few thousand.

LANGUAGES HER HOBBY—Learning languages is the hobby of Mrs. Laurence Steinhardt. The wife of the United States ambassador can speak seven and says the best way to learn a new tongue is to study it where it is spoken. In the last 15 years she has accompanied her husband to Sweden, Peru, Russia, Turkey, France, Czechoslovakia and finally to Canada. Vastness Of This Province

Rotarians Hear of Adventures in Northern Wilds

"We have a great province, not only great in size but also in forests and other natural resources that have not been tapped. It extends to both sides of the continental divide," said W. N. Campbell, assistant forest ranger from Prince George and a pioneer surveyor and tracker of the B. C. interior. Mr. Campbell spoke to members of the Rotary club at their weekly luncheon in the Broadway Cafe and told of personal adventures from out of the past when this province was young and uncharted.

He spoke of a recent article by a scientist writing in a Vancouver paper, who dealt with the vast oil bearing area in Northern Alberta, which he believed surpasses any field in the United States.

"He no doubt means," said Mr. Campbell, "that the area will take in a large part of B. C. as that particular section of our province is in the same terrain."

Mr. Campbell related an experience in 1914 when he was asked to explore and map a region west of the Rockies in northeastern B. C. It was in 1886 that the famous trail breaker Rev. Father Maurice, penetrated into the unknown region, returned, and in 1888, issued a map. Armed with this map, Mr. Campbell, began the journey in an Indian canoe, and found a new beautiful country. "I found rivers, lakes and features of that area that were unknown and when I completed my map, Forestry officials couldn't believe it."

Mr. Campbell still travels in the B. C. Interior for the forestry department but now by plane and boat. He visits various log schools and screens films to children who have never visited a theatre and to some that have never seen electric lights.

His job is to try and impress these forest bred children with the value of protection to timber lands.

"We have many resources but no one has given us the permission to waste them", Mr. Campbell said.

President Roy Van der Sluys presented the speaker with a can of salmon as being the guest from the farthest away point. Following the meeting, members went to the Capitol theatre where forestry pictures were shown by Mr. Campbell. Sgt. Lance Potterton operated the projector through three reels of film.

POWER SHORTAGE STOPS EVENTS

Due to the electric curtailment, many events were cancelled last week, including card tournaments of the Women of the Moose and a Civic Centre group in addition to a Civic Centre Art Club meeting. A dance at the Odd-fellows' Hall, which was to be held Friday night, was cancelled.

After all, candle light was virtually the only light for centuries. And the chances are eyesight was pretty fair and there may not have been so many terrifying fires as occur today. In our cool superiority, it's been customary, in Prince Rupert to sneer at candles, but, when real need comes, they are viewed with respect. Any articles are when they become sold out.

Comes word from somewhere within sound of the Arctic that there's a district or area where winter has been delayed. It's in Alaska. No reason is given. It's also hard to explain why a bit of the Arctic seems to have drifted south to spread its icy breath over the Pacific Coast, land of verdure and comforting air. Why all this? There is no explanation, unless it can be traced to the inquiring scientists who, in their delight to tinker with natural laws, atoms, hydrogens and what have you, are gradually getting things out of balance. That's as far as we can go—speaking from the highbrow point of view.

O For Rain!

In this fair city of ours, During the present cold spell, Many of us pray for some rain, But skies are as clear as a bell.

Reservoirs are going empty, Our power is cut down low, Coal piles getting smaller, How long this will last, we don't know.

Everyone prays for warmer weather, And that is all anyone can do, But it seems prayers go unanswered, As temperatures drop a point or two.

Everyone hopes for rain clouds, Forecast is for cold and clear, The unemployed line-up gets longer, No break in the weather is near.

We walk about in a coma, Efforts for jobs are in vain, But someday in the sky above us, Will appear a cloud, and with it—RAIN.

For that day we can only wait, Walk around restless, and sigh, I notice I'm not the only one, To walk the street with one eye at the sky.

WORST MISERIES OF CHILDREN'S
Colds Relieved Overnight
Warming, soothing relief from the misery of children's colds comes quickly when you rub on Vicks VapoRub at bedtime. Often by morning most of the distress of a cold is gone. VapoRub is so effective because of its special double action. First, VapoRub penetrates deep into cold-congested bronchial tubes to relieve congestion... soothe the irritation. At the same time, it stimulates chest and back areas like a warming, comforting poultice. Tonight, use Vicks VapoRub for your child's cold.

Rod and Gun Club Meeting

Meeting to discuss the 1950-51 game regulations in respect to the Migratory Game Birds Convention Act was held by the

Prince Rupert Rod and Gun Club in the Civic Centre Thursday night. T. Boulter sr., was in the chair. About 50 members attended the meeting and drew up recommendations for changes in the season, bag limits and big game fur regulations which will be submitted to the Game Commission in Victoria at some future date.

Workless In City Fewer
Compared With Year Ago Although Claims Are Risen In January

In spite of an increase of about 400 in unemployment insurance claims in Prince Rupert during the month of January, there are still, considerably fewer claimants this year than there were last, it is reported at the local National Employment Service office.

Due almost entirely to lay-offs at the Columbia Cellulose construction work at Watson Island owing to cold weather conditions, the list of unemployment insurance claimants has risen from between 300 and 400 to between 700 and 800 during the month, it is reported.

Last year at this time between 900 and 1000 were drawing unemployment insurance payments here.

EVENT OF YEAR—

Black-out Lifting as House of Davids Basketballers Show Here

George Anderson's bearded 'House of David' basketball team flew into Prince Rupert this afternoon in the course of a barnstorming tour of Alaska to meet Prince Rupert All Star Jets tonight and tomorrow night as well as a matinee engagement at noon tomorrow with Bo-Me-Hi.

It will be Prince Rupert's outstanding basketball show of the year and will bring a welcome lifting of the gymnasium blackout at the Civic Centre which has been attending the current electrical shortage in Prince Rupert and as a result of which all league basketball activities here have been meantime suspended.

The towering House of Davids—only one of them is less than six feet in height—were a threatening looking crowd of masculinity as they alighted from their aircraft today.

Their appearance here, judging from the volume of advance sales, will enjoy a measure of popularity rivaling that of the 'Harlem Globe Trotters' which came to the city during last winter's blizzards to give the fans here a show that went down in basketball history.

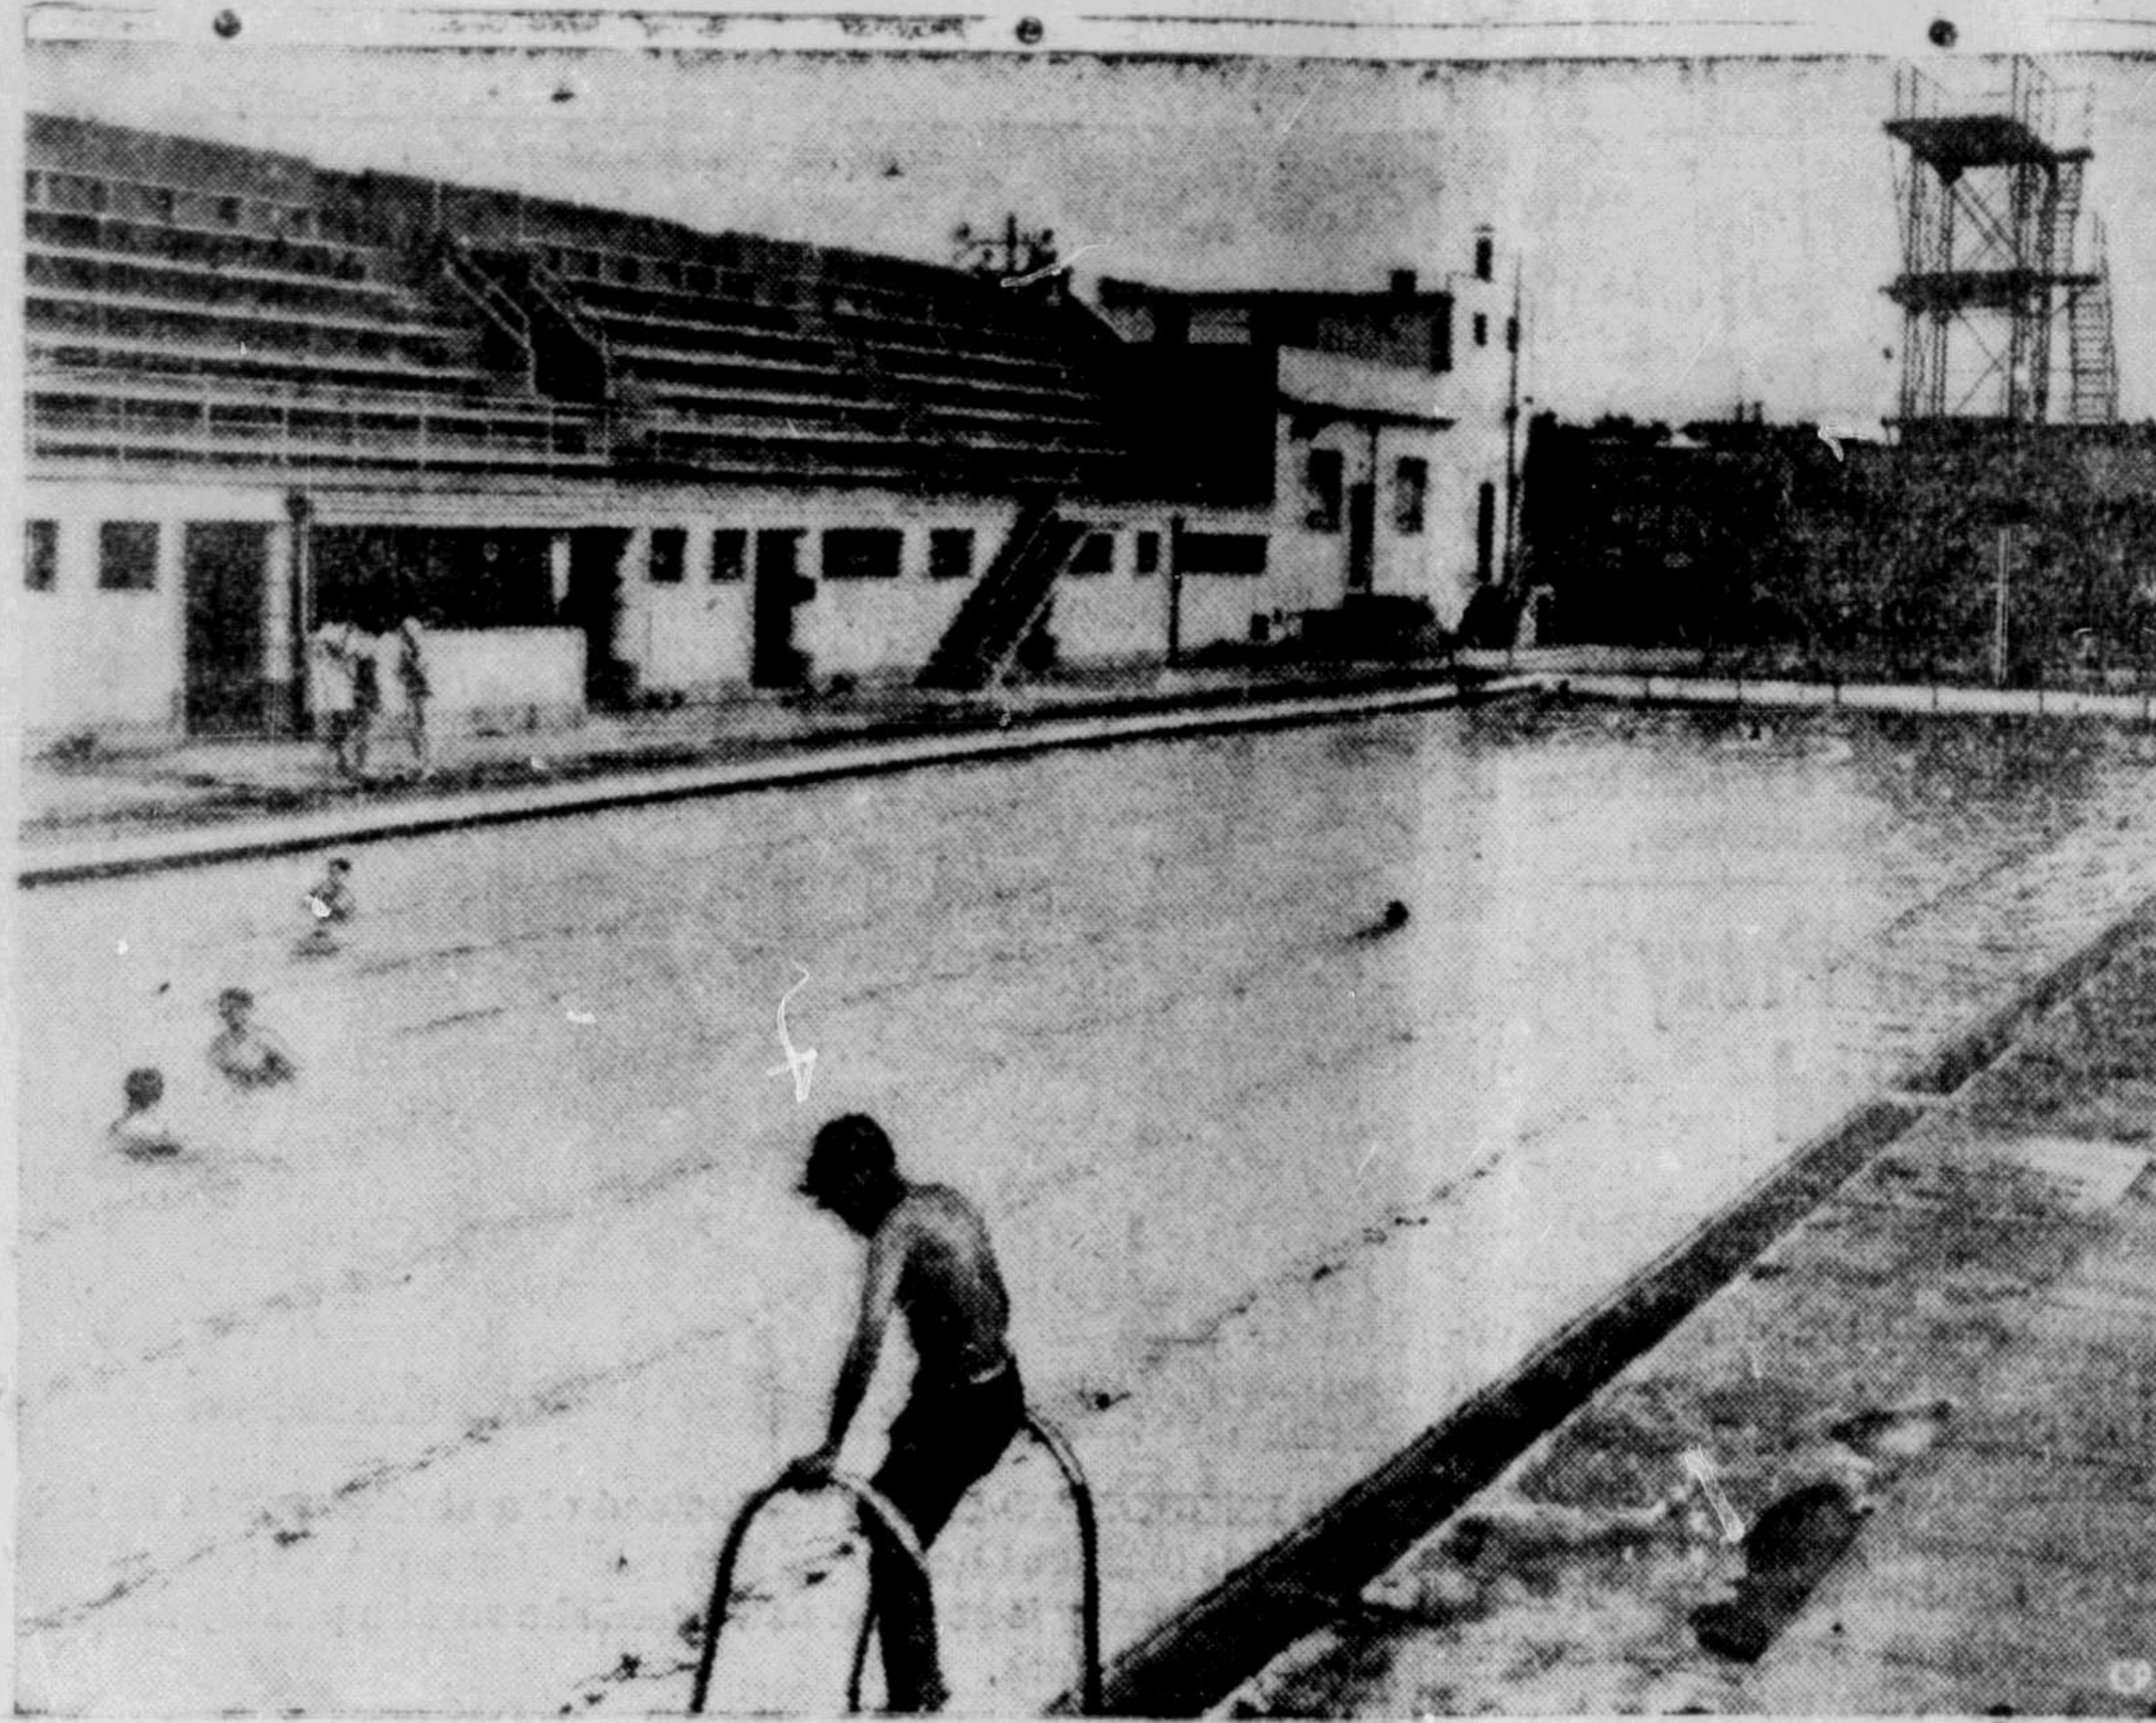

Basketball Time Table

Basketball league schedule for the remainder of the 1949-50 season is as follows:

Jan. 30 and 31—House of David vs. Rupert Jets Series.

Feb. 4—Stones vs. High School, Sea Cadets vs. Kinsmen, North Star vs. Fashion, Co-op vs. Bo-Me-Hi.

Feb. 7—Rupert Hotel vs. Stones,

Wedding Fair

Kergommesaux of Louis

The spacious and home of Mr. and Mrs. Osborne on Lakelse was the setting for the wedding ceremony on Wednesday which united the two young people of Kergommesaux and Mrs. Harry Corlett. The bride was wearing a gown of dove grey crepe with embroidered flying panels. Her small plumed hat and accessories were in tone. She carried an ivory prayer book and wore a corsage of pink carnations. Mrs. McNabb had chosen a gabardine suit in wine color with matching accessories and corsage of white carnations. Following the ceremony, a reception was held at which the happy couple received the congratulations of many friends.

Mrs. W. C. Osborne, as hostess for the guests was assisted by Mrs. McNabb. The hostess was gowned in an afternoon dress of soft blue, with embroidered panels and corsage of white carnations.

A dainty buffet supper was served from a lace covered table in the dining room. The table was centred by pink and white chrysanthemums and white tapers as was the smaller table from which the bridal cake was cut and served. The cake was very unusual, the lower layer being in the form of a Maltese cross.

Garnet Jackson was groomsmen and Mrs. Norman McNabb was her mother's attendant.

Toasts to the bride and groom were proposed by Rev. P. H. Mallett, Harry King and Garnet Jackson to which the groom responded.

Mr. King also proposed a toast to the host and hostess, Mr. and Mrs. Osborne, whose thirty-fourth wedding it was.

Congratulatory telegrams were received by the newlyweds, including one from Hon. and Mrs. E. T. Kenney in Victoria.

Mr. and Mrs. Newhouser left on the early morning train for a honeymoon trip to Edmonton, Alberta. On their return they will reside on Lakelse Avenue East.

Funeral Of O. T. Sundal

TERRACE—Funeral services for the late Olaf T. Sundal, for so many years a resident and business man of Terrace, were held from Knox United Church, Rev. P. H. Mallett officiating. Officers and members of the Loyal Orange Lodge of Terrace attended in a body and business men of Terrace were present to pay their last respects. The Terrace and District Board of Trade was represented by the president, C. J. Norrington.

Mr. Mallett preached an appropriate and sympathetic sermon with words of comfort for the bereaved. A solo, "The Old Rugged Cross," was sung by Mrs. Tommy Fraser, also the hymn "Abide With Me." Mrs. Harry Seaman acted as organist. Honorary pallbearers were W. Donald, James Nelson, L. H. Kenney (Prince George) and J. W.

TAKE-OFF FOR PARTS UNKNOWN!—Gaston Anger, one of four Quebec skiers representing Canada, is shown taking the jump at Salisbury, Conn., as he competed in Class A of the open International Inyitation Ski jump. Anger, who placed 20th in the meet, along with rest of Canada's jumping team for the world ski championship, lost out to Norway's crack jumping squad. Before 11,000 spectators on an enlarged 800-foot incline that was covered with artificial snow—Norway's Arlinn Bergmann won jumping honors with his first jump of 188 feet and his second for 200 feet. Twice winner of the Olympic jumping trophies, Berger Ruud came second with jump of 182 feet.

Grant (Yarmouth, Nova Scotia) son were unable to attend owing to illness. Mrs. Sundal is at present a patient in the Terrace Red Cross Hospital.

Chief mourners were Mr. and Mrs. J. H. Smith and Mrs. Gladys Jordan. The grand-children, Alec Jordan and Mrs. Jo. Harri-

Cold But Plenty Of Water, Power

TERRACE—Zero weather still prevails in Terrace, with some parts of the town experiencing a stiff wind, which is not at all comfortable. When the wind dies down, the weather although cold, is not too bad but many parts of the business section have been without water for some time, due to the freezing of the mains. Most houses, even if frozen temporarily, manage to get thawed out, and there is a plentiful water supply, while electricity is abundant.

JET BOMBER HAS NO ARMOR—Looking very much like a whale with wings, the Canberra, Britain's front-line jet bomber, is now in quantity production for the RAF. It is one of the few bombers to carry no armor protection, relying on speed, still on the secret list, and height, 40,000 feet or more, to escape the fire of enemy shells or anti-aircraft fire.

New Halibut Regulations For 1950 Proposed—Alaska Fish Moving Through Here

If the present International Halibut Treaty between Canada and the United States is not amended fishermen along the western coast of both countries hope the governments can get together and allow the practice of alternating halibut fishing periods.

This was recommended to the International Fisheries Commission during a conference board hearing of the Commission in Seattle, January 19. Delegates from points along the west coast including G. Andersen, secretary of the Prince Rupert Deep Seas Fishermen's Union, recommended that this year's season open May 1 and that next year's opening date barring treaty amendments would be June 1 and 1952 would commence April 1. This would enable fishermen to get different stocks of fish.

presenting them to the Commission the following day.

The present Halibut Treaty stipulates the season open May 1. For some time now, fishermen here and along the west coast have been running up against a brick wall in attempting to amend the treaty so split season be allowed. But the two governments have given opposing interpretations which are holding back any change.
