

United States Senate Favors Alaska Railway

President Authorized Deal With Canada

Senator Magnuson Tells Upper House of Benefits of Line

WASHINGTON, D.C. (CP)—Construction of a line from Prince George to Fairbanks would be bearing a rich potential in coal, oil and gas as well as providing a vital defence link in the north, Senator Magnuson of Washington told the Senate yesterday.

Present transportation facilities are not being put to the fullest use, he said.

Premier Byron Johnson visited Washington last week to confer with United States parties interested in the deal. It did not alter the Premier's stand that Ottawa and Washington must settle the matter.

It was announced here yesterday that British Columbia is to get a \$15,000-a-mile aid grant to finance the extension of the Pacific Great Eastern Railway.

OONA RIVER VOTES AGAINST SCHOOL BYLAW

The small Porcher Island community of Oona River was the only centre of the seven communities in the district to vote against the school money bylaw on October 6, according to the voting report which reached city clerk H. D. Thain from there yesterday.

Oona River property owners rang-up 11 votes against the bylaw with no one voting for it, the only village in the district which failed to give the new school measure support.

However, the solid anti-bylaw front will not affect the preponderant city and district majority which was far greater than the necessary three-fifths required by the Schools Act.

Complete count of ballots in the city and district gave a vote of 760 in favor of the bylaws and 172 against.

Here is a recapitulation of the voting:

	Yes	No
City	717	154
City rural poll	13	5
Hunt's Inlet	10	0
Port Edward	1	0
Osland	6	0
Digby Island	3	2
Port Simpson	5	0
Oona River	0	11

Steel Strike May Go to President Truman

S. G. DOBSON
Chairman of the Board

JAMES MUIR
President

T. H. ATKINSON
General Manager

ROYAL BANK EXECUTIVE CHANGES—Election of Sydney G. Dobson to the Chairmanship of the Board of Directors of The Royal Bank of Canada is among many executive changes announced by the bank today. Succeeding Mr. Dobson as President is James Muir, who has been General Manager of the bank since 1945. T. H. Atkinson, Assistant General Manager since 1943, succeeds Mr. Muir as General Manager.

Final Effort Being Made To End Paralyzing Tie-up

Automobile Industry Is Operating On Borrowed Time and May Have to Close

WASHINGTON, D.C. (CP)—Government labor officials decided today on a big, final fling at trying for voluntary settlements in the United States steel and coal strikes. It was strongly indicated that, if the federal mediation chief, Cyrus Ching, fails in various moves planned for this week, he will turn the

EPIDEMIC OF MEASLES HITS CITY SCHOOLS

An epidemic of red measles, great in number but so far not serious in effects, is sweeping the city. The Prince Rupert Health Unit today reported that 30 children had come down with the disease over the week-end.

The epidemic was described as being in its "second wave," calculated on the incubation period, since it first spread through city schools three weeks ago.

It was described as being "real" or red measles, as contrasting with German measles, which are similar.

No immediate figures on how many children have been stricken with the disease were available, but all three of the city's public, elementary schools have children absent because of measles.

The Unit had received no report on Annunciation School.

Miss Freda Hilton, senior Public Health Nurse at the Health Unit, said that generally the attacks were mild. However, there were a few cases where complications had combined to make the cases more serious.

two big strikes over to President Truman. Then it will be up to Truman to decide if and when he wants to employ emergency powers of the Taft-Hartley labor law including strike-stopping injunction or industry seizure.

Authoritative sources at Detroit said today that the United States automobile industry is operating on borrowed time as far as steel supplies are concerned. Shutdowns of three weeks and more are not unlikely.

Car and truck makers had a four to six weeks inventory of steel when the strike began.

Aldermen Are Warm Toward Phone Project

Unless the aldermen change their minds within the next week, city council will put its formal stamp of approval on Telephone Superintendent J. F. Edwards' plan to start renewal of the city telephone system on a pay-as-you-go basis on an immediate increase in subscriber rates.

Threshing the proposal out in committee-of-the-whole session last night, the aldermen expressed general approval of the plan in principle after dredging up what criticisms they could on their initial view of the document.

Their final word on the matter will be reserved until the regular meeting of council next Monday night when, after a week of pondering its implications, they will vote on its acceptance or rejection.

Judging from their initial reaction, however, it appears that the plan will be adopted almost unanimously, since views expressed last night indicated that it was considered an acceptable alternative to the overall financing plan which was approved earlier this year, but which was shelved because of the city's questionable ability to raise the \$500,000 necessary to put the initial plan into action.

Major criticism expressed by the aldermen to the "five-year" plan, which is published in detail in another Daily News story today, was against its failure to levy the rehabilitation costs against the city generally in the form of taxes, rather than against the portion of taxpayers who are telephone subscribers.

Coupled with this criticism was recognition of the fact that the plan will be unable to supply any great increase in new telephones until at least three years after its inception.

RATE HOIST FAVORED

However, the aldermen looked favorably on the proposal to increase rates, which, Alderman J. N. Forman pointed out "are at the same level they were in 1910." In the meantime, he said, costs in every field have gone up greatly.

Finance Chairman T. B. Black said: "If we don't increase the rates with this idea of improving the system, the people will find themselves taxed to pay the deficit incurred by the present worn-out system."

In explaining the likely outcome of his plan, Superintendent

SHIP BURNS, CREW SAVED

SEATTLE (CP)—Seventeen members of the crew of the wooden lumber schooner Saina Cruz were taken from lifeboats to-night after the schooner burned and rolled over 180 miles west of Gray's Harbor, Washington. Ten men were taken from one lifeboat and seven from another by the Fish and Wildlife service vessel Black Douglas.

Present and Proposed Phone Rates

	Business		Residence	
	Present	Proposed	Present	Proposed
Individual Line				
Mono desk	\$5.50	6.50	4.50	5.50
Mono wall	5.00	6.00	4.00	5.00
Standard desk	5.25	6.25	4.25	5.25
Standard wall	4.75	5.75	3.75	4.75
4 Party Line				
Mono desk	4.50	5.50	3.50	4.50
Mono wall	4.00	5.00	3.00	4.00
Standard desk	4.25	5.25	3.25	4.25
Standard wall	3.75	4.50	2.75	3.50
Extensions				
Mono desk	1.50	2.00	1.25	1.75
Mono wall	1.25	1.75	1.00	1.50

No changes are recommended in the monthly cost of standard wall or desk extensions either in business places or residences. However, installation charges for new telephones would be increased from \$3 to \$3.50, while installation charge for extensions would be boosted from \$1.50 to \$2.

The present discount system for bills paid by the fifteenth of the month would be continued.

"Five Year" Telephone Plan Being Considered by Council

Rehabilitation Program Based On Increase In Present Telephone Rates

A "five-year plan" for rehabilitating the city telephone system, based on a pay-as-you-go financing scheme involving an increase in telephone rates was presented to city council last night by Telephone Superintendent J. F. Edwards.

Sitting in informal committee-of-the-whole session, the aldermen discussed the proposal and referred it to the next formal meeting on October 24 when their final decision will be rendered.

The plan calls for an increase in subscriber rate schedules which will amount to roughly \$1 per telephone a month. The proceeds of the increase would be set aside in a special fund for rehabilitating the lines which serve the city. Estimated amount to be raised for the purpose by the rate increase will be \$1,882 a month.

Under the proposed rate increase schedule, all types of telephones would pay \$1 a month more than they do now with the exception of standard desk and wall installations, which would be increased by 75 cents monthly. Wall and desk monophones extensions would be raised by 50 cents a month, while the rate for standard desk and wall instruments would remain the same.

Installation costs for new telephones would be raised from \$3 to \$4.50, while the cost of installing extensions would be boosted from \$1.50 to \$2.

The proposed new rate schedule would be subject to the same \$1 discount now in effect if the charges are paid by the due date. Objective of the increases

THE WEATHER

Synopsis

The first serious snow outbreak of the winter hit the southern prairies overnight, accompanied by drifting snow and near zero temperatures. In British Columbia the storm was marked by a few snow flurries in the interior mountains.

Cloudiness persisted in the southern interior overnight, keeping temperatures in the low thirties. However, in the Prince George region, where skies were clear, temperatures dropped to four above early this morning. Ground frost was reported at a few coastal points overnight but temperatures were kept up at many places by the strong winds which developed.

A flow of warm moist air was beginning to spread over the Northern Coast this morning and will bring cloudy skies and occasional rain to that section of the province during the next twenty four hours. However, the remainder of the province will continue to have cool clear weather.

Forecasts

North Coast Region—Overcast in northern section and clear elsewhere, becoming overcast in entire region by this afternoon. Occasional rain over the Queen Charlottes beginning this evening. Milder. Light winds becoming southeast (20 mph) in vicinity of Queen Charlottes by this evening and over entire region tomorrow morning. Lows tonight and highs tomorrow—at Port Hardy, 37 and 50; Sandspit, 39 and 52; Prince Rupert, 40 and 50.

LOCAL TIDES

Wednesday, October 19, 1949			
High	11:23	20.7 feet	
	23:44	20.9 feet	
Low	5:10	4.5 feet	
	17:37	4.7 feet	

side plant and I would suggest that this be accomplished by letting a contract for the hanging of messenger cable throughout the entire city, following which the existing (telephone) crew, with the occasional addition of other local help, could gradually renew the remaining cable.

Messenger cable is the wire which carries the lead-covered transmission cable so that it will not sag or break because of its own weight.

"Since it appears impossible to borrow for even this portion of the work, I suggest that the work be done progressively and the expense thereof be defrayed from monthly income of the system if this were augmented by the increase of rates.

"I estimate the total cost of the material to be in the neighborhood of \$110,000 and my plan

(Continued page 6)

SANDSPIT MAN SUCCUMBS HERE

John Mather, a pioneer resident of Sandspit, Queen Charlotte Islands, died in hospital here Monday after a two months' illness. He was 75 years old.

Mr. Mather was born in Ireland and came to Canada as a boy. For many years he lived at Alert Bay, where he was a farmer, later settling at Sandspit, where he followed the same occupation.

He is survived by his wife and five children at Sandspit and two married daughters in the south, one in Vancouver and one at North Vancouver. The late Mrs. Edward Wahl of Digby Island, who died a year ago, also was a daughter.

Family members from Sandspit will arrive on today's plane from Sandspit.

Flat Top And Freighter Hit

Twenty-one Members of Collier's Crew May Have Perished

BERWICK, Northumberland, (CP)—The aircraft carrier Albion and the small coal freighter Maystone, 2,000 tons, collided in a gale in the North Sea yesterday. The freighter sank swiftly and eight hours later only three of the 24 crew members aboard were known to have survived.

Lifeboats fought foaming waves to hunt for survivors near the Farne Islands on the north-east coast of England.

The newly-built 18,300-ton Albion was manned by a civilian crew and was in tow to dry dock for completion. The collision rammed a hole in the carrier and she is reported to be taking water.

The Albion had three survivors from the freighter which was carrying coal to London.

Spokesman for the Maystone's owners said lifeboat crews were still at sea and had some hopes of picking up other survivors.

CRASH KILLS FIVE

PROVINCETOWN, Mass.—A small plane crashed in the sea today off this Cape Cod resort town, killing five passengers including a mother and two infants.

WARNING

All water used for drinking purposes should be boiled until the present pipeline emergency is over.

A. G. BOAS, City Sanitarian.

Work on New Theatre Under Way With Digging of Site

Breaking of ground for the new Paramount Theatre, to be erected on Third Avenue at First Street by Famous Players (Canadian Corporation), got under way this morning when Allan E. Barr, sub-contracting for the general contractors, Mitchell & Currie, started a big clam power shovel on digging out the overburden. This phase of operations will, it is expected, take about a week's time after which the ground will be in readiness for the excavation of the rock for the basement, which will be carried out by Mitchell & Currie themselves.

The material now being dug out is being removed in trucks to First Avenue near McBride Street where it is being used by the Department of Public Works for filling purposes.

Thoughts on Smoking

THE EDITOR of the official Communist youth paper, one Dr. Kusnetsov, thinks that smoking is a menace to the manhood of Russia and he backs up his opinion with the statement that it is only in the decadent capitalist countries that "hunger, misery and despair make a man cloud his brain with tobacco."

We wonder how much weight Dr. Kusnetsov's editorial on nicotine carries with Comrade Gottwald, the Communist boss of Czechoslovakia, who is a heavy smoker? Probably not much, but Comrade Gottwald himself carries a lot of weight with the Prague chief of police. Gottwald mislaid his favorite pipe and remarked to the chief that someone must have stolen it. A few hours later the Premier's wife, located it somewhere around the house and Gottwald telephoned the chief to call off the search for the missing pipe.

"But it's impossible," argued the chief. "You can't have found your pipe. I've already arrested five people and each of them has confessed."

ETIQUETTE

DRINKING FROM A BOTTLE is an art used to be known to all small boys, and some of their sisters if they were allowed to follow their own tomboyish inclinations. In those days, antedating the atomic bomb by some forty years, strict etiquette condemned the direct method as unladylike. Girls blessed with genteel parents and unblessed with brothers never progressed beyond the point of drinking from a straw. To follow the masculine way would have been as repulsive to them as the wearing of slacks or shorts.

Times have changed, as some great thinker has remarked. Not only is drinking out of a bottle now tolerated, provided always that the drink is non-alcoholic, but it is even recommended. The manufacturer of one of the most popular soft drinks is authority for the statement that direct drinking is more sanitary than either pouring the beverage into a glass or using a straw. The point is that the top of the bottle, known as the locking ring, is sterilized at the bottler's and protected by the cap until it reaches the consumer. Straws, on the other hand, stand on a counter, exposed to dust, and moreover do not, it is said, permit the drinker to receive the full flavor of his drink. Suction through a narrow aperture is said to destroy much of the carbonation.

It has now become advisable to teach the girls the art unknown to their grandmothers. An article that has come to hand from the pen of an unknown authority supplies instruction, so that a girl drinking from a bottle (again provided that the drink is non-alcoholic) should be able to avoid awkwardness.

The trick, girls, is to use what the author calls the "cornet" method, and not the "sucking-calf" approach. Lips should be placed gently on the locking ring of the bottle, leaving a slight space at each side for air to replace the liquid. Raise the bottle slightly above the horizontal and let the liquid flow naturally. Don't suck and, above all, don't blow.

If you should be invited to Buckingham Palace, this etiquette may not be quite correct. Better watch the other guests and do as they do.

Union steamer Catala, Capt. John Boden, southbound from Alice Arm and Stewart to Vancouver, is due in port from the north at 8:30 this evening.

Ray Reflects and Reminisces

The international tottem golf prize, competed for at Jasper Park annually, was captured this year by George Coleman, who hails from the great State of Oklahoma. "Oh, What A Beautiful Trophy!"

Few in Canada have ever known that, during the early stages of the war, no fewer than twenty-three vessels and many hundreds of lives were lost by German submarines in the Gulf of St. Lawrence. A Canadian magazine, this month, discloses what has been a well-kept secret. The country knew there had been a few sinkings but nothing like that.

Two can live as cheaply as one large family used to.—Phoenix Flame.

The Canadian National is one of the North American continent's two true transcontinental railroads. To connect the Atlantic Seaboard with the Pacific Coast its lines run farther east and farther west than any railroad in the United States. It operates far more route mileage than even the mighty Santa Fe, longest in the United States, and if you were to ride its fastest passenger trains from the easternmost point on the main line (Halifax, Nova Scotia) to the westernmost point (Prince Rupert, British Columbia) the 3956 would take you 126½ hours including a 13½ hour lay over in Montreal.

Plenty of gas has already been discovered on the Queen Charlotte Islands where they will shortly be drilling for oil. It's usually a preliminary to production.

Two men who had been bachelor cronies and then got their separate ways met for the first time in five years.

"Tell me, Tom," said one, "did you marry that girl or do you still darn your own socks and do your own cooking?"

"Yes," said Tom.
A psychologist says it isn't the world, but the worried, anxious, sickly men who try to run this universe that explains why there is so much grief and

sedness in the general business of living, as we understand it today. Anyone who essays to propound a policy, lead a movement, defeat opposition, or guide a nation, should not have stomach ulcers or be afflicted with nerves or strange fears and fancies.

VAUGHAN URGES BOND PURCHASE

MONTREAL—R. C. Vaughan, Chairman and President, Canadian National Railways, today sent the following message to all employees of the railway system:

"We are all aware of the stability in family resources that comes from the habit of saving. There is no better way to save

systematically than by investing in Canada Savings Bonds and I urge all officers and employees of the Canadian National system to take advantage of the opportunity presented by the fourth series of bonds which go on sale today. As in previous years you may purchase bonds for cash or arrange to space our payments over a year by means of the payroll deduction plan. Let us make provision for our future by investing as much as we are able."

NOTICE OF REDEMPTION GOVERNMENT OF CANADA 3% Second War Loan Bonds

Dated October 1, 1940

Due October 1, 1952

NOTICE is hereby given to all holders of outstanding 3 per cent Second War Loan Bonds dated October 1, 1940 due October 1, 1952, series K1, of the Government of Canada, that pursuant to the provisions thereof, all the outstanding bonds of the said issue are hereby called for redemption and principal payment as an entirety on October 1, 1949, at any Agency of the Bank of Canada, at the principal sum thereof upon surrender of said Bonds with the April 1, 1950 and subsequent coupons attached. Interest on all said Bonds shall cease to accrue from and after October 1, 1949.

LETTERBOX

HALLOWEEN PATROL

Editor, Daily News:
With reference to the above may I suggest that members of above would kindly visit, at intervals, up to "curfew time," the totem hill, or outlook, to curb the exuberance of any youth on mischief bent and in order to prevent the destruction of what remains of the railings and seats which were, by the courtesy of the superintendent of the Canadian National Railways, replaced early in the summer but later on were broken up and the pieces thrown over the hill by the hoodlum element of the city. The outlook was fixed up for the enjoyment of visitors, both townsfolk and tourists who come here in summer to take photos and admire the panorama and beauties of the harbor and mountains beyond and the C.N.R. gardens supplied by Nature. Many of the visitors went into ecstasies of delight over the view. Several of the tourists made sketches of the scenery and many were heard to remark how lucky we are to have such a beautiful city. Looked at from the proper perspective, Rupert is a beautiful city.
Thanking you for the space.
INHABITANT.

In Mixed League bowling on Wednesday, Maceys, Sport Shop and Blowouts won four points each of which brought Maceys and Sport Shop into a three-way tie for first place with the Pioneers.

High scores for Mixed Bowling on Wednesday were 305 for high ladies' single and 676 for ladies three-game total, both made by June Thornton of Maceys.

Ed Mussellam had high men's single and men's three games total with 277 and 734.

Mussellam also rang up high scoring honors in Men's Five Pin league bowling Friday night with 302 and 670.

Men's League bowling results after Friday night's tussles brought two teams into a draw for first place with each team winning three points to gain a total of 14 points. The top place teams are Manson's and Brownwoods, two teams very evenly matched and nicely balanced with good bowlers.

Mansons won three points last night in a very exciting match with Home Oil while Brownwoods did likewise with Gadd-fellows.

GRADUATES: 1949 STYLE—Time was when college students were irresponsible youngsters. But Mr. and Mrs. Alvin Mayotte indicate a change in styles. The couple were graduated from McGill University's school of social work and the most interested spectator was eight-month-old Margaret Eileen, their daughter. The couple were married while attending the university.

CLERK'S OFFICE TO BE OPEN FOR REGISTRATION

City Clerk H. D. Thain's office will be open for special periods on October 28 and 29 for the receipt of names for the 1949 civic voters' list, entries for which close on October 31.

At last night's special committee-of-the-whole meeting of the city council, Mr. Thain was instructed to hold his office open for extra periods as a convenience for those who wish to register.

Periods on which the City Clerk's office will be open for that purpose will be Friday from 7 to 9 p.m. and Saturday from 2 to 6 p.m. Ordinarily the City Hall is closed Saturday.

The registration period officially closes at 5 p.m. Monday, October 31.

MISSION COMPLETED—With clear visibility, Lt. Col. Angle and Lieut. Warren Wilkie determine positions of units on both sides from prominent peak. They are Canadian United Nations observers in Kashmir. With the assistance of a sergeant they identify landmarks and locate the forces on a map. Their mission completed, they return to their headquarters to finish their report and prepare for another field trip.

TELEPHONE PLAN

(Continued from Page 1)

contemplates the renewal of the entire outside plant within the ensuing five-year period. The cost of labor and material may be subject to fluctuation which during that time but I feel, if I am assured of an additional revenue of \$1800 per month for a period of 60 months, the work can be done.

"At present, we have 2,386 connected telephones and the suggested rates would increase our revenue by \$1,882 per month. I respectfully suggest that the proposed rates be adopted and that \$1,800 be allocated from the receipts each month, commencing with the month in which the new rates become effective.

"I estimate that the initial expenditure will be \$6,000, for messenger, with an additional \$6,000 for hardware. The contract for stringing the messenger could be let six months after the conception of the plan in which time the fund so created would amount to \$14,400. Subsequent monthly allotments could be utilized for labor or material as circumstances warrant.

"The telephone Utility Reserve account at present amounts to \$16,000, of which \$6,000 has already been allocated for the purchase of cable which will form part of the proposed new system. I would recommend that the remaining \$10,000 be kept in trust and be increased during the five years of this plan by deposits, as at present, of 25 percent of net proceeds, so that at the expiration of that period, we

would have about \$30,000 toward the purchase of a new building.

"The building should be of either fire-resistant or fire-proof construction and must definitely be on a concrete slab, as successful operation of automatic equipment can be assured only by eliminating vibration. I would suggest that the building be of insulated frame construction with asbestos shingle siding. Details can be worked out later but I recommend that the site be chosen immediately in order that our cable plans may be laid on a sound foundation.

"It will then be necessary to borrow sufficient to cover the purchase and installation of the central office equipment but, as deliveries on such equipment would take from two to three years, an order placed in 1951 or 1952 would ensure delivery to coincide with completion of the outside work, and I am given to understand that the bond issue around that time would not necessitate an increase in the tax rate, as payments to the sinking fund will have been reduced materially by that time.

"I realize that this plan has its weaknesses, the main one being that it contemplates no increase in the present exchange board capacity until early in 1954. Under existing circumstances, addition to the present equipment are impossible due to limitations in space and to the fact that they would be financially uneconomical at the present time.

"On the other hand, this plan will enable a large portion of the work to be done from current revenue, thereby saving a considerable amount which would otherwise be paid out in interest on borrowed capital."

FALL FIRES DANGEROUS

Mr. D. F. Ford, the fire insurance adjuster for the Province of British Columbia, on his visit here, said that one of the few things that had gone down in price this year was general fire insurance but he warned that between now and the year-end was the worst time of the year for house fires due to inadequate precautions being taken in the home.

One of the most common causes of fires is found to be in the furnaces. Especially those that are in poor state of repair.
