

## Nationalist China Names Peace Delegation

### Communists Not Likely to Treat On Anything But Own Terms

NANKING (CP)—China's tottering government tonight announced the appointment of five delegates to negotiate peace with the Communists. Heading the delegation will be Shao Li-Ize, veteran peace advocate. Appointment of the delegation came a few hours after Acting President Li Tsung-Jen

assumed the place of Chiang Kai-Shek who retired yesterday after twenty-two years at the helm of the Nationalist government.

Li had announced his intention of sending a peace delegation earlier at a tea party of government officials.

The move puts the issue squarely up to the Communists as to whether they will deal with the Nanking government minus Chiang Kai-Shek.

There is, apparently, no indication as yet that the Communists will treat on anything but Red terms.

SPEAKER—Former Premier John Hart to preside over Legislature, succeeding Robert H. Carson.

### Speaker of House Quits

Former Premier John Hart May Succeed Robert H. Carson

VICTORIA—Premier Byron Johnson announced yesterday that the Speaker, Robert H. Carson, has resigned due to ill-health and that the government has recommended to the Legislature the appointment of Former Premier John Hart as Speaker.

Mr. Hart is now a private member of the Legislature for Victoria.

### MUCH STEEL IS SALVAGED

C.N.R. Assists Canadian Mills in Production

MONTREAL—To assist Canadian mills in the production of steel, the Canadian National Railways in 1948 turned in a total of 234,000 tons of scrap, according to a report made yesterday by E. A. Bromley, vice-president of purchases and store for National System. This was an increase of 26,000 tons over 1947 and 28,000 tons over the nine year average, 1939-1948 inclusive, Mr. Bromley added.

In the 1948 total of scrap salvaged by the C.N.R. 57,500 tons were returned to the foundry on an exchange basis.

The C.N.R.'s efforts throughout Canada in the salvaging of scrap metals, Bromley said, had been of considerable assistance in Canada's output of steel and the continuing production of this systematic collecting will have an important bearing on steel production for 1949.

political organization, the quiet and serious personal promotion of the advantages of party aims and principles. As for the candidate himself, the expression of views and support of the members collectively and individually was a pre-requisite. He asked that he be kept posted at all times on needs and problems.

Tribute to the energy and ability of the candidate was paid by several speakers with the urge that he as well as the party be backed to the limit.

RED CROSS SOCIETY  
Annual Meeting in Civic Centre, Wed. Jan. 26, 8 p.m.  
There must be a representative attendance if Red Cross work is to be carried on.  
(21)

BIG POWER PROJECT—One of the largest power projects now under construction in eastern Canada is the Des Joachims development on the Ottawa River, 140 miles from the capital. Work is proceeding during the winter. This Department of Mines and Resources photo shows one of the diversified operations necessary to build the dam. (CP Photo)

### RESCUE IS UNDER WAY

R.C.A.F. Endeavouring to Take Eleven Men Off Hudson Bay Ice Floe

WINNIPEG—The Royal Canadian Air Force moved rapidly today to effect the rescue of eleven men from a Hudson Bay ice field which was their overnight home after their plane was forced down on the last lap of a 4,000-mile mercy mission into the Arctic.

The first man to be removed will be Harold Dunn, radio operator, employee of the Department of Transport, whose illness started the flight.

The spot is about 70 miles southeast of Churchill where the weather is 45 below zero.

A stretch of open water intervenes between the ice field and shore so dog teams cannot make a rescue.

The R.C.A.F. is using a ski-equipped plane, borrowed from the Saskatchewan government air service, which can take off in 500 feet.

With the crew members, including three British Columbia men, is an unidentified Eskimo, also an ill Army doctor.

Pilots who checked the area said the plane had been brought down in the only good spot in fifteen miles.

### THE WEATHER

Forecast

Queen Charlottes and North Coast—Variable cloudiness with an occasional snow flurry today and overnight, becoming cloudy Sunday by noon and overcast by evening. Intermittent light snow Sunday evening. Winds light, becoming southeasterly (15 m.p.h.) tomorrow afternoon. Little change in temperature. Lows tonight and high tomorrow: Port Hardy 25 and 36, Massett 25 and 36, Prince Rupert 23 and 37.

### VANCOUVER ARROWS COMING TO PRINCE RUPERT IN EARLY FEB.

Big news for basketball fans comes from the Civic Centre with the announcement that Vancouver Arrows, one of Canada's top basketball teams, will visit Prince Rupert early in February for a two-game series with local All-Stars.

The last time Arrows were here they dropped two close ones to the local reps, thereby going home a bit surprised and disappointed.

The series will give the locals just the kind of stiff opposition they need prior to the provincial showdown in early spring.

### FINDS AGAINST OIL CO.

CALGARY, Ont.—William H. Cotter of Vancouver was awarded a court order for \$54,000 and costs against General Petroleum Limited and Superior Oils Limited in the Leduc area.

Limited of Calgary in a written judgment issued at the Court House here today.

Cotter claims \$100,000 from the two oil companies for their alleged failure to drill a well on his oil lease in the Leduc area.

### Louis Would Fight Again

MIAMI, Florida—Heavyweight champion Joe Louis said Friday that, as far as he was concerned, there were only two candidates to meet him in a title fight this June—Ezzard Charles and Lee Savold.

Here for the first of a series of six exhibition matches in Florida, Louis said he would meet the winner of that match but, if there was no such match, he would go to Canada on an exhibition tour.

## Age of Communism, Says Pravda Editor

### Anglo-American "War Mongers" Are Assailed

MOSCOW (CP)—Pravda's editor, in the presence of Premier Stalin, said last night that this is the century of Communism. At the same time P. N. Postelov, addressing Soviet leaders on the twenty-fifth anniversary of the death of Lenin, said that Russia has an "unshakeable will for international co-operation."

The Red editor bitterly attacked Anglo-American "war mongers" and reminded his listeners of Stalin's assertion that peace was possible. He scored President Truman's inaugural address which termed Communism as "false philosophy."

### Village Near Extinction

Merx Flight Goes to Arctic Where Mysterious Malady N Hits Eskimos

TRENTON, Ont.—A mercy plane prepared to leave today for Winnipeg on the first leg of a flight to the Arctic intended to save a tiny Eskimo village which is being wiped out by a mysterious epidemic which has already killed nine of its 17 inhabitants.

Making a second start due to bad weather, a ski-equipped Dakota is heading for the hamlet of Creswell Bay on Somerset Island, 1000 miles north of Churchill, Manitoba, and 400 miles within the Arctic Circle. News of the epidemic, three months old, was carried part way by dog team.

### Toronto Extends Daylight Saving

TORONTO—Toronto, it is expected, will have two extra months of daylight saving because of the hydro power shortage. Mayor Hiram McCallum makes this announcement.

### TOUGH TASK FOR LEAFS

Wavering Smythe Men Have Double Week-end Date With Pace-Making Red Wings

TORONTO, Ont.—A big week-end is coming up in the National Hockey League with three bottom clubs—Chicago, Toronto and New York—running neck-and-neck in a fourth-place, or play-off position, battle. None of the three can afford to lose too many more.

The Maple Leafs, blowing hot and cold, face the toughest task. Only two points ahead of the cellar-dwelling New York Rangers, they will clash twice with the league-leading Detroit Red Wings in a home and home series starting at the Gardens here tonight.

Chicago Black Hawks entertain the New York Rangers on Sunday.

Boston and Montreal play a double date at Montreal and Boston.

### Bulletins

#### AMNESTY DEMANDED

LAKE SUCCESS—A joint resolution submitted to the United Nations security council calls on the Netherlands to immediately release all political prisoners in Indonesia. The resolution was submitted by China, the United States and Norway. Cuba and Canada will support it. The resolution is considered to be sure of the seven votes needed to pass it.

#### SHIP SABOTAGE

VANCOUVER—Fred Gray of Verdun, Quebec, is being held by police on a charge of sabotaging the 1,000-ton Vancouver freighter, s.s. Tahsis, causing the vessel to founder for two hours in Puget Sound waters. Gray allegedly told police that he had damaged the steering machinery of the ship which was loaded with 5,000 tons of cargo from Honolulu. Capt. G. S. Docherty of the Tahsis said that lives of 43 members of the crew had been gravely endangered.

#### HOME OIL DISLISTED

TORONTO—Shares of Home Oil Co. Ltd. were delisted from the Toronto Stock Exchange Friday following suspension of trading in shares January 4. Trading in Home issues continues on other Canadian exchanges. Original suspension and subsequent delisting were made on the grounds that the company had broken two bylaws in connection with its current offer to shareholders of the privilege of applying for extra stock.

#### TWO SURVIVORS

ANCHORAGE, Alaska—Searchers yesterday reached a crashed Alaska Air Lines DC-3 transport plane on Kenai Peninsula and found four of its six occupants dead. Two survivors are pilot and one passenger. Co-pilot, stewardess and two other passengers were killed.

IN CANADA—Rt. Hon. Anthony Eden, former British Foreign Secretary.

### MAY THROW MINERS OUT

Crisis Between C.C.L. and U.M.W. Union

OTTAWA—The Canadian Congress of Labor yesterday threatened with indefinite suspension the International Union of Mine, Mill and Smelter Workers from C.C.L. ranks for defying the Congress.

The C.C.L. took this stand because of the Union's refusal to move out of the gold mining field at Timmins and the nickel plant at Port Colborne.

The Union had been previously asked to vacate the fields to allow the Congress to organize new unions there.

The Union had been suspended earlier following a previous tussle but was later reinstated.

## The Coming Session

IN A FEW DAYS, Ottawa will be the scene of the opening of the fourth session of Canada's twentieth Parliament. This Parliament, elected in June 1945, may well extend into 1950 and another session. However, most observers appear to agree that the present session will be its last and that a general election will be called within the next twelve months. All parties are already showing signs of pre-electoral activity.

By-elections since 1945 have not altered in any way the strength of the Liberal government in the present House of Commons and it is still probably strong enough to withstand any storm and relatively free to set its own date for a call to the polls. The course of this fourth session however may be a determining factor in the selection of such a date.

Both the government and the opposition will be operating under new leaders. For the first time, Rt. Hon. Louis St. Laurent will appear in the House of Commons as Prime Minister of Canada, while the new leader of the Opposition, George Drew, will be making his first appearance, both as a Member of Parliament and as leader of the Opposition.

Many important issues will be presented to Parliament in the next few months. Defence plans and External Affairs are due for their share of headlines while this year's budget will assuredly be followed more closely and by more citizens than ever before in the history of Canada.

## CARRY ON, RED CROSS!

INTEREST AND ACTIVITY having flagged since its great war effort, the Prince Rupert branch of the Canadian Red Cross appears to have reached the point where it will have to be decided whether it will carry on or fold up. The annual meeting of the branch is called for Wednesday of next week.

We can think of many organizations in Prince Rupert which are performing a far less useful and worthy function than the Red Cross and which we could a great deal afford to lose than we would the Red Cross.

Although it has peacetime functions, the Red Cross does its greatest work as a wartime or emergency organization. One never knows when war or emergency may strike. The Red Cross is one organization that must stand prepared—in Prince Rupert as well as elsewhere. Its greatest peacetime work is preparation. The last thing it should do is throw up the sponge.

Fortunate has been Prince Rupert that it has never been in a position when the emergency aid of the Red Cross has been required to any great degree in a sudden crisis. But there might come a day when we would be many fold repaid for the support we may give through work and organization year after year.

By all means, carry on the Red Cross. It would show mighty poor spirit if Prince Rupert citizens did not. Let there be a large and enthusiastic attendance at the annual meeting next week!

## ST. LAWRENCE WATERWAY

IF THERE WAS co-operation in 1941 between Premier King and President Roosevelt in working out an agreement for a St. Lawrence seaway, there may be today, even greater reason than ever, for pushing through construction. At least that is the contention of the project's supporters. In other words, it would be part of United-States-Canadian defence. Years ago, the main purpose of such a waterway were transportation and defence. There are more purposes in 1949. These would give increased ability to arm; bring resources of the continent's interior closer to the fighting front; allow more effective industrial mobilization; permit building of all but the largest of vessels in centres bordering on the Great Lakes; furnish an alternative to railways; harness power potential of the St. Lawrence and open a safe corridor for the vast iron ore deposits from Labrador and Quebec to reach the smelters of the United States and Canada.

**SLAVERY ABOLISHED**  
Great Britain abolished slavery in 1833, 29 years before Abraham Lincoln emancipated United States negroes.

**BACK TO NORMAL**  
The 1948 yield of Dutch crops were all over 80 per cent of pre-war production, with five crops well over the pre-war level.

## SMITHERS JAYCEE CHARTER GIVEN

SMITHERS—Members of the newly-formed Smithers Junior Chamber of Commerce honored Brent Murdoch, regional councillor of the Junior Chamber of Commerce of Canada, during a visit here in which he presented the group with its charter at a dinner meeting in the Bulkley Hotel.

Mr. Murdoch addressed the meeting on the aims of the Junior Chamber movement, both locally and nationally, and extended greetings from the Prince Rupert Junior Chamber, which had sponsored the Smithers body. He was welcomed officially by Gordon L. Williams, president of the Smithers Junior Chamber.

The meeting was also addressed by Roy Calderwood, president of the Smithers Board of Trade, who declared that it would have been to the town's advantage had a Junior Chamber been organized a decade ago.

Other guests at the meeting included Phil Hoskins, vice-president of the Smithers Board of Trade, Colin McCarthy, R. Cochrane, president of the public speaking group, William Vinson and Dr. H. Prouse.

## SATURDAY SERMON

**SECRET**  
HELEN R. HURD, FIRST UNITED CHURCH  
The secret of the Lord is with them that fear Him; and He will show them His covenant, Psalm 25:14.

Everybody loves a secret—some for its content, some simply because it is a secret, others again because it is something exciting to tell, making them for a moment the centre of interest. How such mystery-crammed words at this one, cropping up in the Great Book, would intrigue us if only we took thought of them.

Secrets—the secret of radiance or overheard it in an un-announced way. It is the answer to the secret about the new baby that is coming, the secret that sometimes haunts us, the secret ambition to write a book and surprise everyone—if only we had the secret of how to write it! The list is as long as the hopes and fears of mankind.

But the "secret" in our text is "something else again." "The secret of the Lord"—what is it? It may be different to different people but one thing it is to each who knows it, having stumbled upon (which is pos-

sible) or overheard it in an un-announced way. It is the answer to the secret about the new baby that is coming, the secret that sometimes haunts us, the secret ambition to write a book and surprise everyone—if only we had the secret of how to write it! The list is as long as the hopes and fears of mankind.

When Hardy in bitter irony closes the story of his much-wronged heroine with the words "The President of the Immortals had finished with Tess," he is publishing abroad that he has not found the secret and is very angry about it. He is hitting back. Poor Hardy! His petty anger serves only to further confuse the many who already confuse brains with integrity, who must follow the clever ones at all costs.

Our text tells us who can and does find the answer which all seek: they "that fear Him." This might be simply put as they who recognize that each is a part of God's creation and has a part in His plan. This recognition—when real—carries

STUDENTS DEMONSTRATE—When Montre 1,700 Roman Catholic French and English-speaking school teachers went on strike, police had to be called to deal with disturbances and demonstrations by some of the 70,000 students. About 200 students carrying placards calling for 'Justice for the Teachers,' and 'Long Live Our Teachers' paraded in front of the hall where the striking teachers were meeting. (CP Photo)

## PRINCE RUPERT YEARS AGO

**Twenty-Five Years**  
For the first time since 1913 the Canadian National passenger liners Prince Rupert and Prince George were scheduled to enter the Alaska run. They were being lined up to make calls at Ketchikan and Skagway after May.

Prince Rupert was to be a point of call for Lieut. Bissell in his round-the-world seaplane flight in early April. His starting point was to be Seattle.

Mayor S. M. Newton was re-elected mayor of Prince Rupert for the fifth time at the annual municipal elections. He defeated M. M. Stephens by a majority of 98.

A new long-wave wireless transmitter was shipped from Victoria for installation at the Digby Island weather station.

**Thirty-Five Years**  
As a result of a recent Supreme Court case in which he was found guilty of slander and ordered to pay \$10,000, L. E. McFarlane was brought back to Prince Rupert to face a charge of perjury on information laid by E. J. Abbott.

## EARLY TERRACE PIONEER DIES

George Dover Passes Away In Hospital Here  
George Dover, one of Terrace's earliest and most highly respected residents who lived at the interior community for 41 years, died in hospital here last night after an illness of two weeks. He was 66 years old.

Mr. Dover went to the interior town in 1908 and became the district's first forest ranger, a post which he held until several years ago when he retired and entered the employ of the J. H. Smith general store as book-keeper.

Retiring Mayor T. D. Pattullo urged Mayor Newton and the new council to shorten the terms and reduce interest rates on new bond issues.

**ORDER INCOMPLETE**  
Many building contractors have their troubles nowadays, too, not the least of which is a poor quality of lumber frequently offered them. A despairing contractor recently dispatched this telegram to the mill that had just sent him a carload of lumber: "Knot holes received. Send me knots."

Herring Running In This Area—  
Flat Fishing Resumes—Halibut  
Fishing Changes Are Mooted

The west coast herring fishery, which so far this season is greater than for any corresponding period since 1944, has expanded to the north coast this week with reports of the first catches of the 1949 spawning run in this area.

A relatively small amount of the migratory fish were delivered Thursday to Nelson Bros reduction plant at Port Edward, first delivery of the migratory variety this season. Small deliveries of local herring have been landed frequently during the fall and early winter. One boat made a 130-ton catch from a set in Surf Inlet, near Butedale this week. On Friday, two vessels made sets in Ogden Channel, near Captain's Cove, but no reports on their success have been received.

Up to Friday afternoon no herring had been reported in other northern areas.

This year's spawning run, if it continues, will have started about four days earlier than did last year's. Seiner and packer crews are hoping that current cold weather will abate so that the fishing can be done without the handicap of frozen nets and sub-freezing temperatures.

Cold weather has hampered seining on the south coast, but not so much that this year's catch has not been greater than that of a year ago. Total coast date for which figures are available, was 115,713 tons, more than 11,000 tons greater than for the corresponding period a year ago.

However, the frigid temperatures did bring fishing almost to a halt during the early part of the month. Catches between January 8 and January 15 totalled only 965 tons as fishermen hugged sheltered waters during the frosty spell.

After an extended lull between Christmas and the second week in January, some otter trawlers have returned to the Hecate Straits grounds and a few cargoes of flatfish have been coming in. The landings have made some difference in the local labor picture, resulting in the hiring of fish workers who had been idle for several weeks.

A sympathetic attitude on the part of the International Fisheries Commission met a suggestion from representatives of the fisheries industry that the halibut season this year be split into two parts, opening for a month on May 1 and then closing for a month and re-opening on July 1.

The idea, according to George Anderson, representative of the Prince Rupert Deep Sea Fisheries Union, originated with the Prince Rupert delegates and met with the approval of some delegates who waited on the Commission. Others, to whom it was new, wanted to study it further.

In addition to extending the season over a greater part of the summer, the split period would allow fishermen to go after two different populations of halibut, one of which, it is believed, has

remained untouched for several years.

From their experience, the fishermen believe that the halibut which are on the banks early in the season are a younger grouping of fish than those which appear in July and August. Because the season has been so short during the last few years, the latter age group of fish have not been caught.

Since small halibut have lost favor with consumers, the halibut men would be in a position to market the better-paying larger fish which appear in the late summer.

Under the new schedule for C.P.R. Princess steamships on the Alaska run, as recently announced, ports of call on the northbound voyages will include Petersburg instead of the previous call port of Wrangell. Southbound, the ships will call at Wrangell and not Petersburg. There will be earlier sailings from Vancouver, the hour being 8 p.m. instead of 9 o'clock. There is to be an extension of layover time at Skagway. The Princess boats will remain at the northern terminal 36 hours instead of the previous twelve hours.

Canada's vast fishing industry has excellent prospect of a new lease on life. This was forecast by Dr. S. A. Beatty, director of the Atlantic experimental station at Halifax, addressing the conference of the Fisheries Research Board, meeting recently at Ottawa. He told of experiments which have already revolutionized fish processing methods. Where formerly fish could

**FIFTY VESSELS AT DRY DOCK FOR OVERHAUL; 75 MEN ARE EMPLOYED**

With repair of the 125-foot Ketchikan motorship freighter Discoverer, which was wrecked and sunk down the coast from here two-and-a-half months ago, still the major job in hand, some fifty-five vessels are undergoing overhaul at the local dry dock and there are more on the waiting list, Superintendent

**DOUBLE DAILY AIR SERVICE ANTICIPATED**

Confirming an earlier statement in the Daily News, A. V. Burns, traffic representative, Canadian Pacific Air Lines, told the Public Relations Council Thursday night two daily air trips between Prince Rupert and Vancouver may be scheduled by Canadian Pacific Air Lines next summer to take care of an anticipated increase in travel. Mr. Burns spoke briefly at the council's annual meeting.

No definite policy had been laid down in this regard, he said, but it was believed that, in order to give service to increasing traffic from Prince Rupert, Sandspit and Port Hardy, two daily flights might be necessary in the summer months.

Mr. Burns also offered the company's co-operation to the Council in broadening the scope of outside publicity for Prince Rupert.

not be kept fresh for more than five or six days, today the time could be extended for more than three weeks. This would mean doubling production. All this tied in with work on the Pacific Coast where other scientists were developing a new type of low temperature refrigerator freight car which would enable shipment of fish across long distances. "When," said Hon. Mr. Mayhew, Minister of Fisheries, addressing the Board on the same subject, "the car has been successfully designed and tested, you will have opened the way to means of completely changing the frozen foods business in Canada."

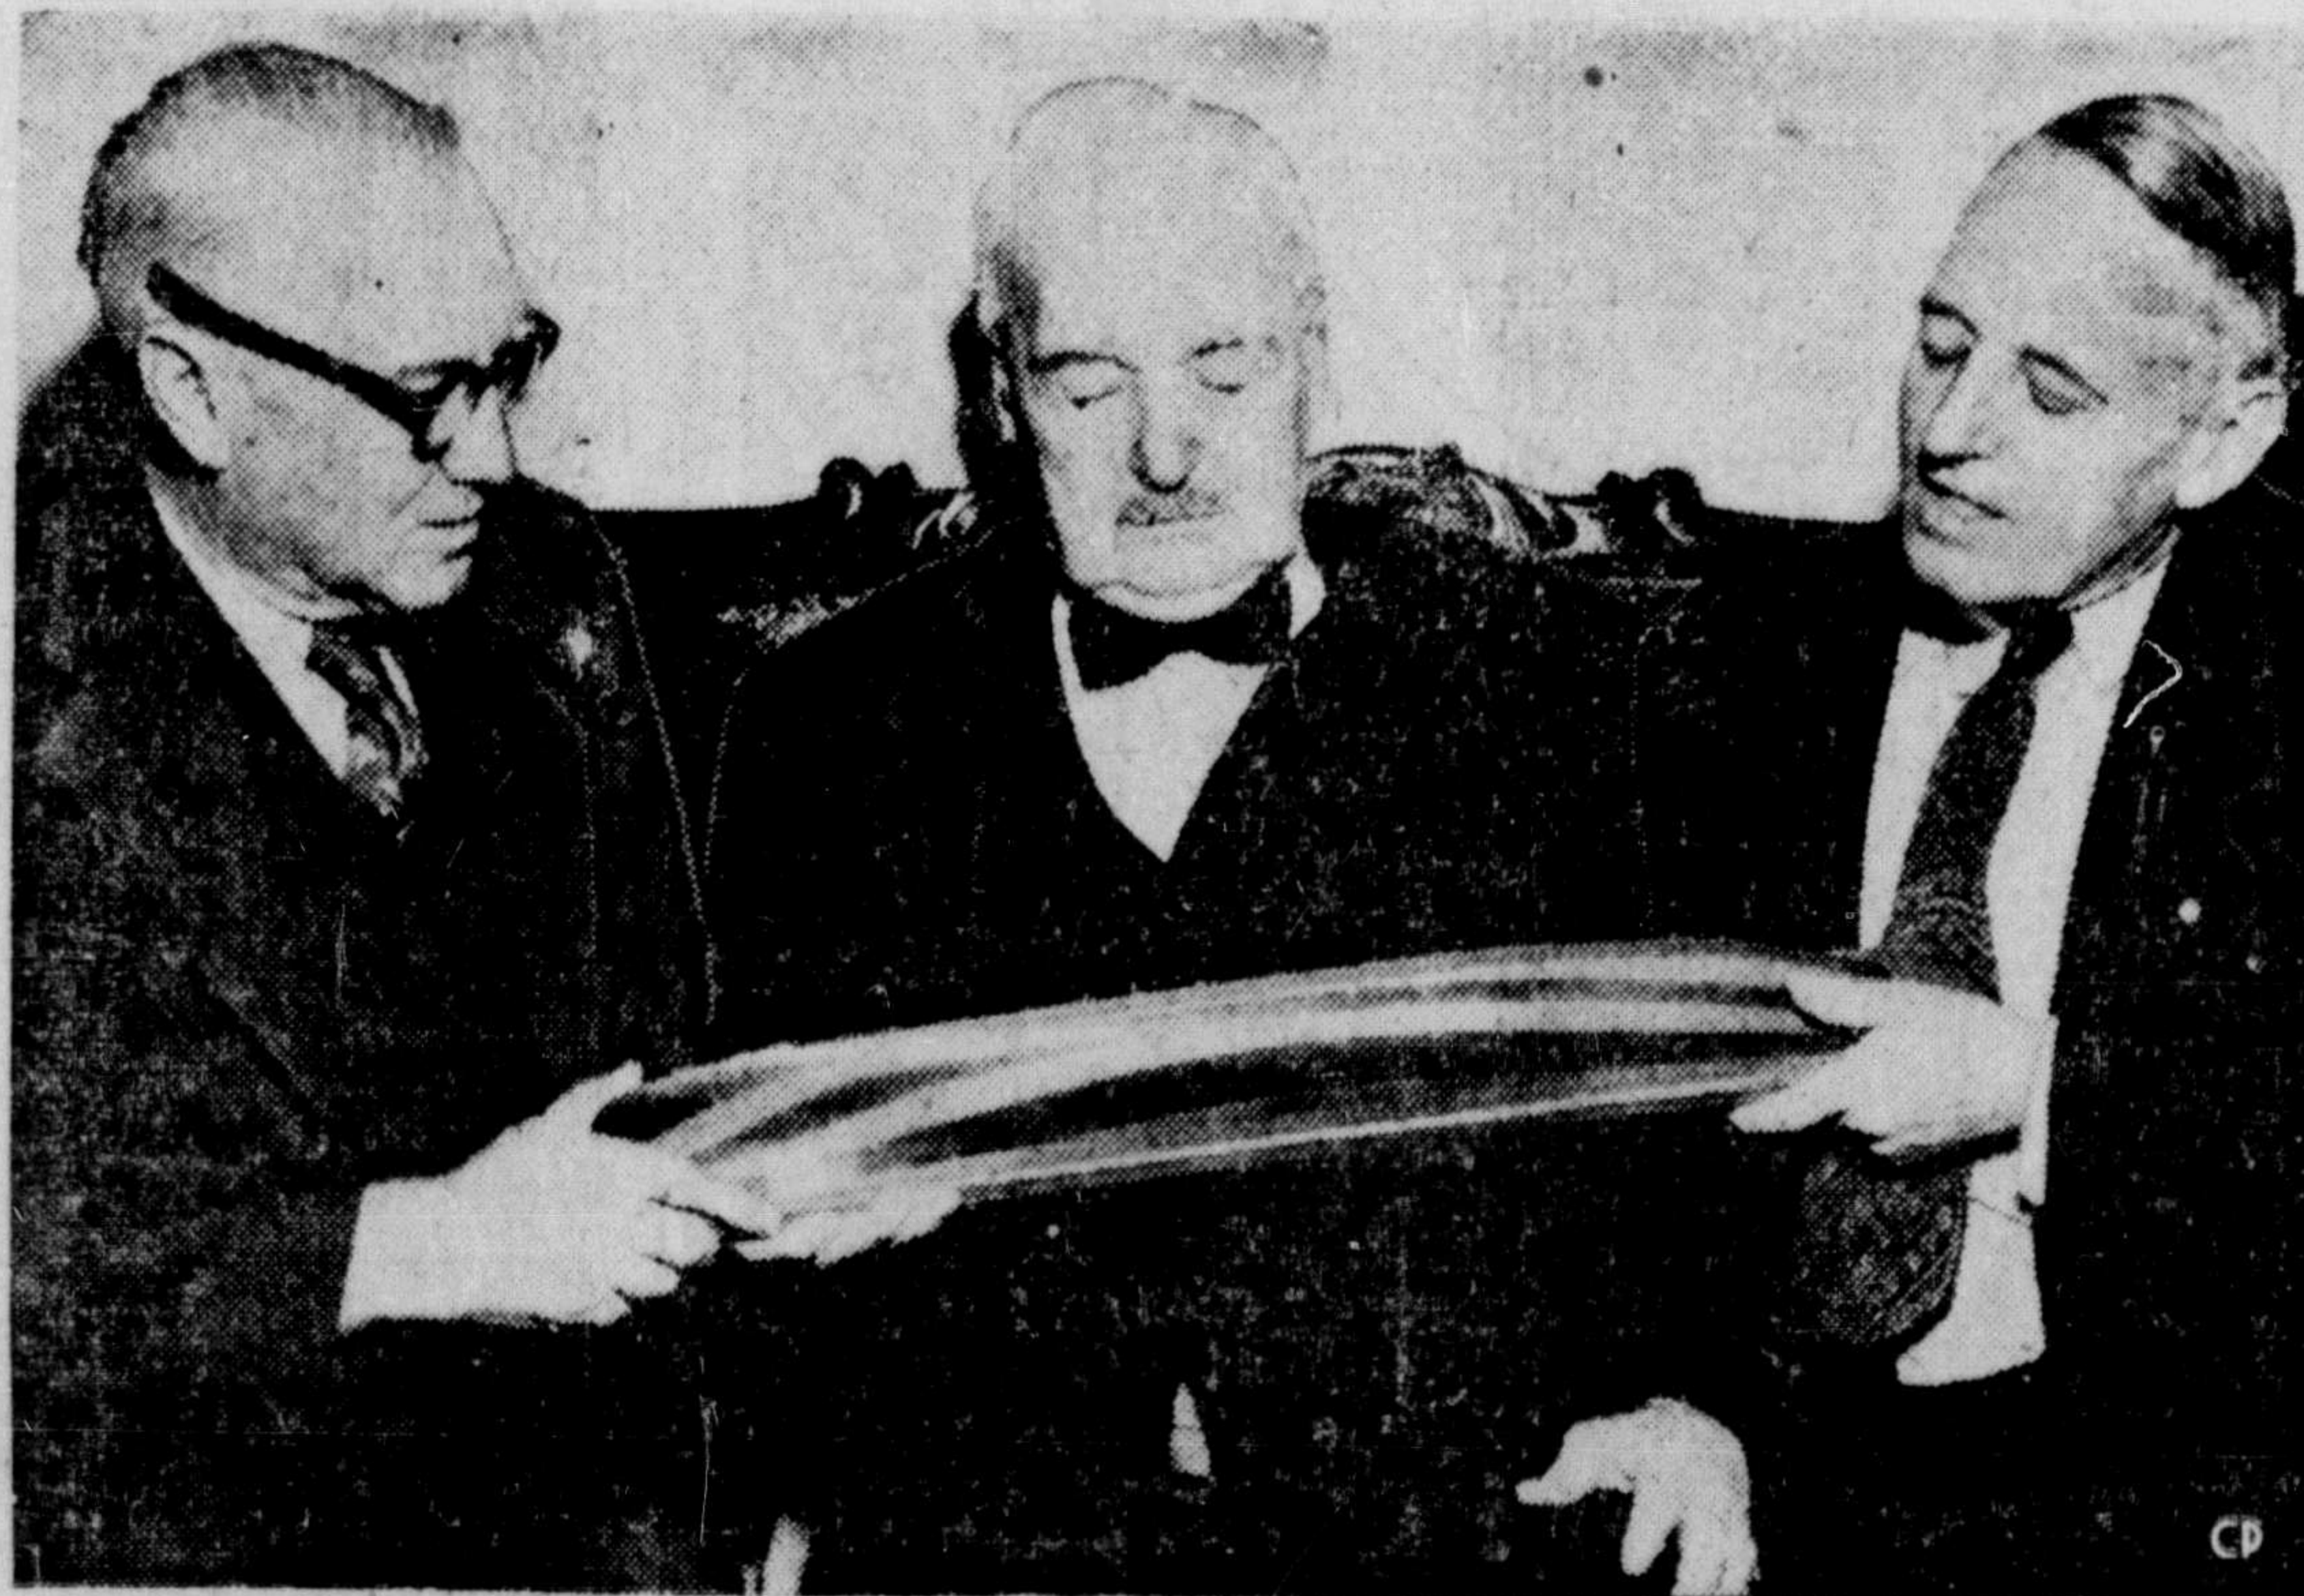

**GROUNDS**

She: "My husband has flat feet. Can I get a divorce for that?"  
Lawyer: "Not unless his feet visit the wrong flat."

**THIS AND THAT**

"I'd like an estimate on a few rooms that'll need redecorating as soon as my husband finishes."

VETERAN SAILOR—Captain John Carnegie of Kingston, Ont., one of the oldest Great Lakes mariners, celebrated his 84th birthday this week. After a colorful career on the lakes and the St. Lawrence, Capt. Carnegie retired several years ago. Shown here discussing with their father the features of a model boat are his two sons, R. Kenneth, left, Ottawa superintendent of The Canadian Press and Roy Carnegie of Kingston.
