Railways and Union Still Several Cents at Variance

OTTAWA RULING BEING AWAITED

HALIFAX (CP)—"I am holding the plane and its crew until we have a ruling from Ottawa," said Customs Collector Charles Collins after announcing the impounding of a flying fortress which arrived from New York on a purported training flight. "Ottawa has all the facts before it and I can say no more at this time." The collector's statement was made a few minutes before the plane, reported to be in the service of Hagana Israel Army, was scheduled to take off.

TRUMAN TO BE CHOSEN

PHILADELPHIA (CP)—The Democratic national convention is expected to vote tomorrow on the presidential nomination and President H. S. Truman is considered certain to be chosen on the first ballot.

Neither Senator Claude Pepper of Florida or Governor Ben Lahey of Arkansas are expected to prove any serious threat to Truman.

Supreme Court Justice William Douglas delivered an unequivocal "no" to his supporters and left the field to Truman who has enough pledged votes to insure the 618 necessary to win a majority.

Actually there is more interest in the vice-presidential nomination for which Senator Alben Barkley of Kentucky is favored. Justice William Douglas had been mentioned by Truman as his running mate but he has said he will be in the field for no office.

OCCUPANCY OF HOMES EASIER

OTTAWA (CP)—The Prices Board yesterday extended the field for landlords who may petition for occupancy of their own homes on the basis of "grievous hardship." Persons who bought houses before last April may now petition if they have what the Board considers a real grievance. The Board's announcement stressed that interpretation of "grievous hardship" remains unchanged.

SUPPORT FOR MARSHAL TITO

BELGRADE (CP)—Marshal Tito, who has defied the Soviet Coninform, won a resolution of support yesterday from the Communist party of Macedonia which condemned the action of the Bulgarian and Rumanian Communist parties in supporting the Coninform against YugoSlavia.

BEST SUPPLY OF URANIUM

OTTAWA (CP)—The government is developing in North Saskatchewan the "most promising" uranium deposits discovered since the end of the war. Rt. Hon. C. D. Howe, minister of trade and commerce, said yesterday.

THE WEATHER

Synopsis
Clearing has been general over the southern portion of the province and temperatures are rising to more normal readings. In the central and northern portions of the interior yesterday's day long rain gave amounts of between one-half and one inch of rain. Conditions in this region will be improving gradually from now on.

Queen Charlottes and North Coast—Variable today and Wednesday. Winds light. Little change in temperature. Lows tonight and highs Wednesday: Port Hardy 50-65, Massett and Prince Rupert 50-63.

CARS COMING FROM ALASKA

Movement of automobiles by steamer between Prince Rupert and Alaska points is showing an increased volume and a substantial proportion is to and from Haines to link the Skeena River Highway with the Haines cut-off to the Alaska Highway as the route gains in favor for motor traffic. The steamer Princess Louise, in port from Alaska on Saturday afternoon, landed no less than six cars—three from Haines and three from Ketchikan. By Sunday morning all were whisking eastward along the Skeena River Highway headed for Prince George and southward.

FUEL OIL IS SHORT

OTTAWA (CP)—Rt. Hon. Clarence D. Howe, minister of trade and commerce, expressed concern last night in regard to Canada's fuel oil supply. He doubted if there would be enough available to meet the requirements of all the oil burners in Canada during the coming winter. The situation in regard to fuel oil was ticklish, he said.

There should be enough gasoline, the minister said.

HARRY TRUMAN IS OFF TO ENGLAND

BOSTON—An airline clerk glanced at a passenger list here and excitedly called the press room.

"Harry Truman is here and is flying to England. Reporters dashed to the runway where they met Harry Truman—a British chemical engineer. He sensed their disappointment, and remarked:

"At Salt Lake City 200 people were on hand to meet me."

DIVORCE MILL STILL GRINDS

OTTAWA—In its pre-prorogation spurt, the House of Commons passed 29 divorce bills without a murmur from either side of the House. The bills provided for the separation of couples in Quebec, the only province without a divorce court.

Halibut Sales

Kodiak, 60,000, 21.5c, 21.5c and 10c. Storage.
Dollina, 17,500, 21.3c, 21.2c and 10c. Storage.
Sea Pride, 43,000, 21.3c, 21.3c and 10c. Atlin.
Island Queen, 40,000; and Dove B., 34,000, Co-op.
Gony, 20,000, Black Cod, Co-op.

FRANCE FACING GENERAL STRIKE

PARIS (CP)—France today faced the possibility of a general strike involving a million government employees.

Plane personnel have already walked off, causing a tie-up of air traffic between France and French North Africa.

The French cabinet, which rejected the union's demands for higher wages for low income groups, today ordered all radio and weather personnel back to work.

In Paris the order was ignored.

U.S. AMBASSADOR AT JASPER PARK

Ray Atherton, United States Ambassador to Canada, arrived at Jasper Park recently to enjoy park attractions and fishing and camp life. He was a visitor to Prince Rupert during the war, sailing here aboard a private yacht, and being received by Mayor Daggett and city council. Later, he was guest of honor at a largely attended dinner at the American military headquarters here and gave an address.

Railway Interested In Finding Use For Warehouse Installation

Watching It Very Carefully, Says New Vice-President — Impressed With Prince Rupert On First Visit

Canadian National Railways will do everything in its power to prevent the demolition of the great United States-built warehouse in the company yards here, declared J. P. Johnson, new vice-president and general manager for western lines with headquarters in Winnipeg, in the course of an interview with representatives of the Prince Rupert Chamber of Commerce and the Daily News which punctuated a busy few hours which the new western railway executive spent here yesterday inspecting the company's terminal facilities.

Looking To West Coast

Official Announcement Made By Aluminum Co. of Canada

MONTREAL (CP)—The Aluminum Company of Canada today announced officially that it is beginning engineering studies of potential power sites in British Columbia.

This increases the possibility of a new aluminum industry on the west coast similar to the huge plant at Arvida, Quebec, the world's largest plant of its kind.

Power sites in the Gardiner Canal, Dean Channel and Knight Inlet are being considered.

NEW ALLIED AIR STRIP AT BERLIN

Allies Bolstering Up Transport as Crisis Remains in Deadlock

BERLIN (CP)—United States engineers are rushing construction of a new air strip at the Tempelhof airport, Berlin terminal of Western Allied transports which are flying supplies into Berlin to beat the Russian railway and highway blockade. The new strip is designed to accommodate the largest aircraft such as superforts and monster transports.

Sir Brian Robertson, British military governor in Germany, insisted in London last night that aerial transport services to Berlin should be tripled as they were not at present keeping pace with the requirements.

Earlier yesterday, as Sir Brian conferred in London with the chief of staff of the Ministry of Defence, General Sir Percy Hollis, and other service chiefs, it was disclosed that considerable numbers of new troops were being flown into Western Germany and Berlin owing to the tenuousness and uncertainty of the crisis.

Still the Kremlin says nothing of the three Allied notes delivered several days ago demanding an end of the blockade.

German news agencies spread the report that Marshal Vassily D. Sokolovsky, Russian military governor, who stopped the movement of trains, trucks and barges from the west, will be transferred to a field command when the crisis is over.

Planes have been steadily increasing the flow of food to Berlin. With winter approaching, coal is another matter.

Economic paralysis spreads in western Germany with production dropping 40 to 80 per cent.

ASSIZE COURT

Fall session of Assize Court will be held at the Court House here during the week beginning September 27, according to an announcement published in the latest edition of the B.C. Gazette, official publication of the province.

LOCAL TIDES

Enough Food For Two Weeks

USE TRUCKS AND AIR IN RAIL STRIKE

VANCOUVER (CP)—Food supplies here are considered sufficient to last at least two weeks should the threatened railway strike isolate Vancouver commercially from the East. Board of Trade officials predicted at a meeting Monday.

At the same time transportation officials discussed the possibility of setting up emergency trucking facilities to handle freight in the event of a tie-up starting at midnight Wednesday.

Air Line officials stated that they were prepared to step up their services.

Russians Building New Base

Would Dominate Gulf of Finland With Naval Establishments On Finnish Site

STOCKHOLM (CP)—Reports reaching here from Porkkala in the Gulf of Finland, west of Helsinki, suggest that the Russians are constructing a big scale naval base on the Peninsula, the site having been leased to them under the Finnish treaty.

Fishermen report hearing explosions every day.

From the new base and the naval base at Tallinn, on the opposite side of the Gulf, the Russians could dominate the entrance of the Gulf and protect the approaches of the huge naval base of Kronstadt outside of Leningrad.

SHIP MUTINY IS PUT DOWN

LONDON (CP)—The United States Navy said today it had received a message saying that "everything is under control" aboard the United States freighter William Carson whose master had previously reported his crew mutinous. The battleship Missouri, in the Azores waters, messaged that the trouble had, apparently, been quelled. Earlier United States Navy headquarters had said that the American coastguard cutter Campbell had been ordered to intercept the William Carson aboard which mutiny was then reported. The Carson is plying somewhere between Portugal and the Azores. Capt. E. W. Braithwaite had sent an SOS, saying: "Crew mutinous. Cannot control. Please come at once." The Carson, a Liberty ship of more than seven thousand tons, is bound from Genoa to Nova Scotia.

ARABS MAY ACCEPT

CAIRO—It was indicated today that the Arabs might accept an extension of the truce in Palestine as proposed by the United Nations. King Abdullah of TransJordan is said to favor a truce and is endeavoring to induce Egypt, Syria and Iraq to accept it.

NO SOLUTION

TORONTO—A conciliation board in the dispute between Canada Steamship Lines and the Canadian Seamen's Union has failed to reach a solution. Conciliators L. W. Brockington and Douglas McNish criticize the company for refusing to negotiate.

AUSTRALIA WINS

MANCHESTER—The third test cricket match ended in a tie today so Australia retained the historic "Ashes" against England, having won the first two matches.

TIE UP HOTELS

VANCOUVER—A general railway strike might tie up both the Hotel Vancouver here and the Empress Hotel at Victoria as 800 employees of both are affiliated with the Canadian Brotherhood of Railway Employees.

WOULD CUT MAILS

OTTAWA—The Postmaster-General announced yesterday that, if the railway strike goes into effect, there will be a drastic curtailment in mail service. It will be confined to letters up to one ounce, pre-paid airmail and medicines.

BONUS NOT JUSTIFIED

OTTAWA—The government would not feel justified in granting a cost-of-living bonus to superannuated civil servants, the Finance Minister has announced.

WAGE INCREASE IS TURNED DOWN

WELLS, B.C., (CP)—A conciliation board's majority recommendation for a 10 cent an hour wage increase and union shop was turned down Monday by the Cariboo Gold Quartz Mining Co. Ltd. here. The dispute between the company and the Union of Mine, Mill and Smelter Workers (CIO) affects this town's entire population of 1700 persons.

No Major League Games Scheduled

NEW YORK (CP)—Because of the all star game today in St. Louis between National and American Leagues no games are scheduled for either of the major Leagues on Monday, Tuesday or Wednesday.

SHIP MUTINY IS PUT DOWN

LONDON (CP)—The United States Navy said today it had received a message saying that "everything is under control" aboard the United States freighter William Carson whose master had previously reported his crew mutinous. The battleship Missouri, in the Azores waters, messaged that the trouble had, apparently, been quelled.

Earlier United States Navy headquarters had said that the American coastguard cutter Campbell had been ordered to intercept the William Carson aboard which mutiny was then reported.

The Carson is plying somewhere between Portugal and the Azores.

Capt. E. W. Braithwaite had sent an SOS, saying: "Crew mutinous. Cannot control. Please come at once."

The Carson, a Liberty ship of more than seven thousand tons, is bound from Genoa to Nova Scotia.

New Railway Chief

THE DAILY NEWS interviewed the new vice-president and general manager for western region of the Canadian National Railways yesterday and found Mr. Johnson to be, apparently, very keen about the possibilities of railway company co-operation in the development of this port and line from an industrial standpoint, all, of course, with the very worthy object in mind of improving the position of the company from a traffic standpoint in this operation.

Mr. Johnson referred to the very alert industrial development department of the Canadian National Railways, always looking out to encourage in the location of new industries on company lines. If any spurring of the industrial department with a view to promoting Prince Rupert's interests, is needed, it sounded like Mr. Johnson is going to do it.

The new railway official gave us the impression of having progressive and future-looking ideas. He got his first picture of Prince Rupert during his initial visit in his new capacity. Time will tell whether he turns out to be a real friend of Prince Rupert as, from his attitude on the making of his acquaintanceship, we would judge him to be.

A DULL CONVENTION

COMPARED with the Republican scene three weeks ago, Philadelphia, on the occasion of the Democratic national convention, appears to be having just another quiet three days. Never probably has the old party ever gone into convention in such an atmosphere of defeatism and dissension. When General Eisenhower finally and irrevocably refused last week to be a candidate, the nomination of President Harry Truman became a virtual certainty. There may be a bit of an uprising for the not inappropriately named Pepper of Florida but it will probably not amount to much as far as vote opposition to Truman is concerned. It will be Truman for it and there is undoubtedly an almost unanimous opinion among observers of the political scene that the candidature of Truman will cook any poor chances the Democratic party ever had in this presidential contest. So the Democratic national convention is a very dull and uninspiring affair.

BRITISH COAL EXPORT

BRITAIN'S coal production program is in difficulties again and householders are being asked to help eke out supplies. Fuel Minister Gaitskell recently warned this "really must not go on" and has called for fuel economies.

His words came as a shock to consumers, who had been cheered by large stocks carried over from last year's mild winter. There were enough supplies to permit exports to be resumed, but recently production has sagged, and there has been an increase in the consumption of "large coal," which is the kind that the export market wants.

Savings had to be made and production increased. Gaitskell said, if the coal export program of 16,000,000 tons for 1948 was to be reached. He expressed concern about the output of deep-mined coal, which had been expected to yield 200,000,000 tons of the year's 211,000,000-ton target. The whole outlook was not so good as it was.

It had been hoped that production in the five weeks following May 1 would be 19,200,000 tons, but it had been only 18,600,000. Manpower in the mines had not increased, output per manshift had declined and attendance—which always drops in winter because of illness—had not improved.

"Achievement of the coal export program is in the balance and nothing but a sustained effort on the part of all concerned can bring us through," he said.

The main impact of any failure by Britain to attain the 1948 target of 211,000,000 tons is likely to be on the export program. This program is one of the pivots on which the struggle to balance British overseas payments turns. If Britain fails with coal, it may well fail altogether.

What City Council Did

Adopted a report of the utilities committee informing them that further study has been made of the rebuilding of the telephone system and that a comprehensive brief may be submitted to the next meeting of council.

Approved the sale of the following city-owned lots, as reported by the finance committee:

Lot 18, block 43, section 8 (Ninth Avenue East) to Robert McKay for \$15.

Lots 56, 57, 58 and 61, block 48, section 8 (Seal Cove) to V. E. Cavenale for \$240.

Lot 19, Cow Bay Subdivision, to J. Van Wallegham for \$1,275. Originally bids were received from Mr. Van Wallegham and Fred E. Jensen each for \$1,025, the assessed value of the property. Both were given an opportunity to re-tender and the highest tender was then accepted.

Accepted a recommendation by the board of works that the two remaining water tanks at Roosevelt Park be offered for sale to Spies and Mecklin for \$500 "as is, where is."

Authorized purchase of 500 feet of eight-inch cast iron pipe for renewal of the Seal Cove waterline as recommended by the board of works. The City Engineer was instructed to proceed with the renewal work.

Authorized the calling of tenders for the painting of the exterior of the city fire hall as recommended by the utilities committee.

Authorized installation of a 15-pair telephone cable from Section Two to waterfront block "A" (western section of the harbor front) and that construction expense be defrayed from the reserve account.

Adopted a licensing committee report granting trade licenses to R. Rahmer as a painter and Victor Cavenale as a service station operator.

Approved authorization, as reported by the board of works, for the City Engineer to conduct a survey and prepare plans and specifications and estimates for the construction of a six-foot wide sidewalks on Seventh Avenue East.

Adopted a report by the board of works that investigation had revealed that construction of a proposed sidewalk from Overlook Street to Sixth Avenue, for which a petition was recently received, is not "economically feasible."

Heard a report by the Social Assistance committee which stated that it had interviewed Mrs. Ross Richardson regarding her request for copies of correspondence in the Thomas Mellias case and that she had been given a receipt for money raised by public subscription for an operation on the eyes of the 64-year old former Pioneer Home inmate. Mrs. Richardson was thanked by the committee for her efforts in behalf of Mr. Mellias last year.

Granted leave of absence to Alderman A. S. Nickerson from July 17 to August 11 and extended the leave of absence of Alderman George Casey for the month of July.

Increased the salary of acting City Engineer Don Stewart from \$275 to \$300 a month on recommendation of board of works chairman Robert McKay.

Received a report from finance committee chairman T. B. Black which indicated that for the first five months of 1948 the city had operated within its estimated budget. Alderman Black was chairman of the meeting, having been appointed Acting Mayor in the absence of Mayor Nora Arnold.

Approved a request by the Department of Transport that the concrete apron at the Seal Cove air base be marked with an orange-colored triangle 50 feet long on each side for identification from aircraft. This will complete requirements for city's leasing of the airport and permit sub-leasing part of it to Imperial Oil Co. for a fuel depot.

SET UP SOCIAL CENTRE
PORT LOUIS, Mauritius—The first of a number of social centres to be established in remote villages in Mauritius was opened recently. The centre supplies milk to expectant mothers and babies, teaches handicrafts, and later supply clothes to children.

NEW SUP'T

R. H. Robertson Succeeds George Gray as C.N. Superintendent at Kamloops

VANCOUVER—R. H. Robertson, formerly assistant superintendent, Port Arthur division, Winnipeg, has been appointed superintendent, Kamloops division, Canadian National Railways, Kamloops, succeeding G. A. Gray, retired on superannuation. Mr. Robertson's territory covers the C.N.R. line between Vancouver and Jasper including Okanagan Valley.

Born in 1898 at Morrisburg, Ontario, Robert Harry Robertson joined the C.N.R. at Calgary in 1915 as local freight messenger. He transferred to the operating department in 1916, rising from clerk to chief clerk, following which he was chief timekeeper, Saskatoon. From 1930-33 Mr. Robertson was in the Personnel Department, at Montreal. He became assistant superintendent in 1940, working on the Port Arthur and Fort Rouge divisions and, again, on the Port Arthur division, with headquarters in Winnipeg, until his recent promotion to the B.C. district.

George A. Gray, 42 years with the C.N.R., started as brakeman at Dauphin, Man., in 1906, following which he became conductor, trainmaster, assistant superintendent and superintendent, Prince Rupert, before taking charge in Kamloops. For four years, 1925-29, Mr. Gray was general chairman, western region, Order of Railway Conductors. The veteran official with his family, will live in retirement at Duncan, C.C.

HOW CAN I ???

By ANNE ASHLEY

Q How can I prevent the food chopper from sliding around the table when using it?

A Slip a pot holder under the clamps of the grinder and then screw until tight. The soft pot holder will also protect the table.

Q How can I remove cocoa stains from linen?

A By soaking the spots overnight in a solution of borax dissolved in cold water. Then launder in the usual way.

Q How can I make the kitchen curtains wear longer and more evenly?

A Make the hems of the same width at both ends, and then the curtains can be reversed. They will wear longer and more evenly.

KERR CORRECT
NEW YORK—Buddy Kerr, Giants shortstop, set two major league marks in 1947, playing 68 errorless games and handling 383 consecutive chances safely.

Reminiscences
By W.J. and Reflections
Critics complain that in British Columbia there is too much boasting about the beauty, the glory and the greatness of the province. The criticism is not entirely without grounds. This is a grand land to live in but a lot of Canada is still left. There are some who do not care particularly for mountains and others who feel that fine apples can be grown a thousand miles from here. And others have a hunch that scenic charm does not always consist mainly of immensity and height.
Even the cost of a seaweed that grows on wave-washed rocks along the shores is going up. Duise is quoted in Vancouver at 57 cents. Shades of Captain Kidd; Duise on the east coast is to be had for nothing if you don't mind spending a little energy. Dried in the sun, the wet clusters crinkle and curl and provide something to chew on during the long winter. The stuff is easy to like and seems to improve with acquaintance. Besides, it's good for you.
When George Leek served as a city policeman here, he had one stock remark. This consisted of two words. George looked as if he had just been transferred from Piccadilly Circus or the Strand. He was impassive, deliberate, sturdy, with helmet and long blue greatcoat and belt. It never mattered what the weather was like. Suppose a hurricane was blowing, or rain splashing all over the shop? George had a remark that covered all circumstances and all degrees of climate. He always said "Great Day." He said it in such a calm, matter of fact way that one would sometimes glance at the sky, and wonder, after all, who was right.
Assuming there will be a \$25,000,000 industry a going concern at Port Edward in 1950, it is a modest enough prophecy to suggest that Prince Rupert will hardly be recognizable in, say, four years from now. It is astonishing the difference a few modern business blocks can make in the look of a town—especially when the town has never had any.
Whoever introduced the axiom "the first fifty years are the hardest" looked deep. It's a fact. They are. For a town to become really established on a map is not accomplished overnight. There must be constant publicity. The latest folder is a splendid example, to be followed consistently and backed by co-operation and work. The old saying might be thought intended as a pleasantry. Perhaps, but it's only now Prince Rupert is commencing to be known any distance away and it's hard to make it believed.
PHILADELPHIA—Ed Collins played 25 years in the American league with Philadelphia and Chicago.

RAILWAY INTERESTED (Continued from Page One)

west of Kitwanga, according to the information he had and the pictures he had seen, was worse than anything on the southern line. He acknowledged that an excellent job had been done under the direction of Divisional Superintendent C. A. Berner in getting the line back in operation so speedily. "I had not expected it would be open before July 10 whereas the trains were running again June 21," he observed. Mr. Johnson said that no changes were contemplated in local railway services and he had no announcement to make as to company undertakings.

port for the territory of Alaska. He again gave assurance of the company's co-operation in anything that could be appropriately done to bring about a change in United States shipping regulations, particularly the Jones Act, which restricted the use of Canadian vessels in transporting goods to and from Alaska. However, this was something the United States itself and such representations as Canada might make would have of necessity to be most discreetly couched. Asked as to company policy in regard to its dry dock and shipbuilding property here, Mr. Johnson pointed out even such plants as Yarrow's at Victoria and Burrard at Vancouver were running out of work and curtailing operations. The whole future of shipbuilding in Canada was a problem which was causing concern. Costs of shipbuildings had become so high on both sides of the Atlantic that shipbuilding plans were being curtailed. Speaking of the railway strike situation, Mr. Johnson expressed the opinion that it would not reach the point where a strike would actually take place. He had hopes of a compromise settlement being reached on the wage rate issue. Mr. Johnson left here at mid-afternoon yesterday for the interior. His intention, he said, was to see all the Prince Rupert-Jasper line by daylight, particularly the sections which had been damaged by the recent flood conditions. While the flood damage had not been so widespread on the Prince Rupert line as it had been on the Vancouver line, such damage as there was here had been of a major nature. The big washout

evening for Prince George to visit with his son, Douglas, Jr., who is identified with the Continental Lumber Co. He will be met at Prince George and driven to the family home about twenty miles out in the Giscome district. Douglas, Jr., has a son and three daughters and has been with the Continental Company for some years. Mr. Sutherland expects to be away for a month, or perhaps longer.

MIDWEST VISITORS

Minot, North Dakota, People Here to See Relatives Visitors in the city this week are Mr. and Mrs. William Alger and Mr. and Mrs. H. W. Mober of Minot, North Dakota, who motored from the midwest city, arriving last Friday. Mr. Alger is the son of Mrs. Alger and the late Sam Alger, pioneer C.N.R. section foreman and who took part in construction of the C.N.R. park here. Arthur Alger of this city is a brother and Mrs. J. L. Bethurem, a sister. In their 2,300-mile motor trip Mr. Alger said that he found the roads in the poorest condition between Williams Lake and Houston, where five days of rain had made them soft and slippery. Mr. Alger is no stranger to Prince Rupert, having first visited the city 33 years ago and many times since. He is a locomotive engineer on the Great Northern Railway. The party plans to leave for the east at the end of the week.

Kenzie was held largely responsible for the victory. W. C. McKenzie showed a fleet pair of heels to win the 100-yard dash. He also was a member of the team which won the relay race. Transportation difficulties caused a delay in the return trip and the Prince Rupert group did not arrive back in the city until early Monday morning. All were sincere in their praise of the hospitality shown at Terrace.

WAS MISSING, FOUND SAFE

The following is from the Vancouver Sun of last Friday: A partially blind girl, Helen Astoria, 14, reported missing here yesterday from a vessel in from Prince Rupert, was later found safe, with a friend.

FUNERAL NOTICE LIPTON-In the city, Saturday, July 10, 1948, Reginald Gilbert Lipton, age 68 years, of Prince Rupert. Services will be conducted at Grenville Court Chapel, 2:30 p.m., Wednesday, July 14, with Rev. Charles Lomas officiating. Interment to follow at Fairview cemetery. B.C. Undertakers in charge of arrangements.

INSTALLATION AT TERRACE

Combined installation and initiatory ceremonies featured a joint meeting of the Prince Rupert and Terrace lodges of the Independent Order of Oddfellows when 18 members of the city lodge motored to the interior town at the week-end. District Deputy Grand Master William Smith of Lakelse Lodge, Terrace, assisted by Deputy Grand Master John Davidson of Prince Rupert and Past Grand of the two lodges, installed officers of both groups for the coming year. The initiatory degree was also conferred on a Prince Rupert candidate, while a degree team from Prince Rupert conferred the Second Degree on three candidates from Bulkley Lodge, Smithers.

New officers of the Prince Rupert Lodge are: Noble Grand, H. M. Daggett. Past Grand, Harry Quick. Vice Grand, T. Ketcheson. Recording Secretary, Charles Viens. Financial Secretary, R. Bodie. Treasurer, J. Delorme. Warden, W. C. McKenzie. Conductor, John Davidson. Chaplain, Brigadier J. T. Gillingham. Right Scene Supporter, J. Eyoifson. Left Scene Supporter, F. McDonald. Right Supporter Noble Grand, S. V. Cox. Left Supporter Noble Grand, N. McGlashan. Right Supporter Vice Grand, W. Hammond. Left Supporter Vice Grand, P. Petersen. Inner Guardian, M. McLeod. Outer Guardian, L. C. Eby.

BANQUET AND SPORTS

Saturday night's installation ceremonies were followed Sunday afternoon by a banquet given by Lakelse Lodge for the visiting lodge members, their wives and children. Following the banquet, a sports program, arranged by the Terrace Lodge, was held. In a fast ball game between the Terrace lodge and the combined members of the Smithers and Prince Rupert groups, the visitors won by a score of 14 to 8. Batting prowess of W. S. Hammond and Jock Davidson and pitching ability of W. C. Mc-

Baseball Tonight, Moose vs. Merchants, 6:30 p.m. C. G. Withers, local manager of W. H. Malkin Co. Ltd., left by air today on a business trip to the Queen Charlotte Islands. Mr. and Mrs. J. S. Irvine sailed on the Princess Adelaide last night on a holiday trip to Victoria. Miss Helen Balagno returned to the city last night on the Princess Adelaide from Seattle. She was accompanied by her two small nephews, Gregory and Jeffrey Lundquist, who will spend the summer with their grandparents, Mr. and Mrs. C. P. Balagno. A Gift or a Souvenir "that is different," to the folks back home-The Totem Pole Gift Shop, 211 Sixth Street. (163) Mr. and Mrs. B. F. Lovin returned to the city Sunday night from a week's trip to Vanderhoof and north from there into the Nation River district. It was raining practically the whole week they were in the interior. Mrs. L. K. Rapp, who came here as a war bride and has been teaching in the city schools, will be leaving at the end of the month for the east coast where she will embark on August 5 for a visit with her parents in London, England. William Wells, former well known contractor of Saskatoon, now living in retirement in Victoria, and Mrs. Wells were passengers aboard the Princess George yesterday going north to make the round trip to Alaska. Prince Rupert Gyro Club was in executive session yesterday in preparation for the regular monthly business luncheon of the club which will be held tomorrow.

Fabulous Profits

Mr. W owns a business. This year he paid off the last installment on his house, traded his '36 car in for a brand new one, and sent his oldest son to University. People say he was doing pretty well. He is... compared to his lot fifteen years ago. It was 1932. Mr. W didn't have a house or a car. But he did have a good idea... a way of moulding cement, quicker and cheaper. So he took a chance and borrowed enough money (capital) to set up his own factory. He was executive, salesman, foreman and laborer. At the end of the year he'd made \$339.49. He knew he could do better, so he borrowed again, and hired his first employee. At the end of the second year his profits were \$527.58. Mr. W took the plunge again and put all those profits into new equipment and hired another man. Every year since, he has been doing the same thing... creating a few more jobs, building up his business... improving his product, until now, fifteen years later, he employs eighteen men. Last year he paid out nearly \$40,000 in wages. Without the profits he made, he doesn't see how those new jobs or that \$40,000 pay-roll would have been possible. With them he has been able to create jobs and a decent standard of living for himself and eighteen other men. If he continues to grow, Mr. W will probably be accused of making fabulous profits. But the people who have gained most from those profits are the men who receive that \$40,000 pay-roll and whose jobs those profits have made possible.

Olympic Team Today in Sports

G. AND A. BEAT 99 TAXI IN SOFTBALL

LOWLY MERCHANTS SCORE SECOND STRAIGHT VICTORY

Gordon and Anderson 16, 99 Taxi 8

Gordon and Anderson's stock on the city fastball exchange went up a second large-sized point last night when the merchants won their second straight game of the season, this time defeating none other than the fabulous 99 Taxi squad, pulling them down another notch below their erstwhile Olympian pinnacle of a 1000 average.

Involved explanations might be conjured up to explain this upset but, from the benches, it looked like a plain case of careless play since the taximen marked up a record of nine errors to come out at the short end of the 16-8 score.

It is one of those quaint vagaries of fastball mathematics that, despite the fact that G. and A. have won two games and despite the fact that the High School team has retired from the city league, the suddenly rejuvenated merchants still retain fourth and bottom place of the closely-benched league.

With 99 Taxi still in first place and General Motors and C.N.R.A. tied for second and Co-op and High School tied for third, it made no difference to Gordon and Anderson whether High School retired or not. It is some comfort to the league underdogs to know, however, that one more win could put them in third place.

The second inning of last night's game, since it saw most of G. and A.'s runs garnered in, will serve as a fair example of the nature of the encounter. Here, the merchants scored exactly half of their 16 runs, three of them off hits, three off walks. One off a fielder's choice and one off an error. This progress was abetted by two other errors on the part of the 99ers.

Sonny Beynon, who pitched the first four innings for 99 Taxi, was not only the major victim of his team mates' fumbblings but gave up an impressive list of hits as well to the sharp-eyed merchants. During his tenure on the mound G. and A. kept the circuit hot with their scoring efforts from 10 hits and six bases on balls.

Boyo Gurvich, who came from behind the plate to replace Beynon in the fifth, slowed the merchants down to four hits in the following four innings but the furniture boys came in with five runs anyhow.

B.C. GOLFERS SET RECORDS

HAMILTON, Ont. — British Columbia golfers, their games matching the sweltering heat which enveloped the Lancaster golf course, stroked their way to two national titles Monday and broke three records in the process.

The Pacific Coast province's four-man team breezed to victory in the Willingdon Cup inter-provincial championship with an aggregate score of 578 over the 36-hole medal play, five strokes less than the previous record set by the Ontario team in 1939 and 77 strokes less than the runner-up Ontarians yesterday.

Jim Robertson paced the British Columbian with a two under par 168, bettering the previous Willingdon Cup record of 139 set in 1927 by Maurice Hodgson of Montreal over the same course.

Bill Mawhinney of Vancouver captured the Canadian junior title with a 36-hole score of 147, one stroke less than the record set by Gerry Kesselring of Kitcheener, Ontario, in winning the title last year.

MIKE WILLIAMS RETAINS TITLE

PHILADELPHIA — Ike Williams retained his lightweight boxing crown Monday night by pouncing the challenger, Beau Jack, into submission in the sixth round of a scheduled fifteen-round bout at Shibe Park. Each fighter weighed 134 pounds.

**NAAS RIVER
COUPLE WED**

A full retinue of bridesmaids and groomsmen participated in the pretty marriage Saturday evening at St. Andrew's Anglican Cathedral of a well known Kincolth couple in the persons of Miss June Ellen Barton, daughter of the late William G. Barton and Mrs. Barton, and Arthur Edward Stewart, son of Mr. and Mrs. George Stewart. Rev. Basil S. Procter, the rector, officiated at 6:30 p.m.

The bride was given in marriage by her uncle, Cecil Barton. She wore a full bridal costume of white. The matron of honor was Mrs. Clarence Barton, gowned in sky blue. Paul Clayton was principal groomsman.

Fifteen motor cars took the marriage celebrants in a procession around the city following which a wedding repast took place in a downtown restaurant.

Mr. and Mrs. Stewart are spending the summer at North Pacific Cannery and will later proceed to their home village on the Naas River to take up residence.

FLOOD RELIEF

Elks' Lodge at Burns Lake Gets Busy

**REBUILDS
SAWMILL**

Len Griffith's sawmill near Shames up the Skeena River was put so badly out of line by the recent flood waters which filled it to a depth of six feet that he decided to rebuild nearby at a safer elevation. With the overhauled machinery transferred, he expects to have the plant in operation again by the end of the month. The new mill building, 120 by 20 feet, stands on a site three feet above the railway track and Mr. Griffiths feels assured that he will not again be knocked out by any future floods.

Mr. Griffith's residence was also entered by water but has now been cleared of silt and mud and is habitable again.

BURNS LAKE BUSY

Building is Particularly Active in Interior Town

BURNS LAKE—Building is active at Burns Lake.

The Royal Bank is putting on a double roof for snow protection.

A pile driver is busy driving the foundation piles for the new hotel.

A drag-line outfit is digging the pipe lines for the mains of the village water system, which puts the streets in a muddy condition owing to heavy rains. The new liquor store is rapidly nearing completion.

Gerow's Island promises to become a popular residential section of Burns Lake as all lots on the recent subdivision have been sold and modern bungalows are being rapidly erected.

LEXINGTON, Ky. — Citation, famous racer, has already won \$423,700 to rank sixth among the all-time money winners.

Russians "Milking" Germany

Soviet Zone Being Exploited On A Grand Scale

By RICHARD KASISCHKE

BERLIN (AP)—While Marshall Plan millions are being devoted to the economic rehabilitation of western Germany, the Russians are "milking" their eastern Germany occupation zone on an increasing scale, according to official Allied reports.

A partial but graphic account of how the Russians are exacting their "take" was given recently by Maj.-Gen. E. O. Herbert, British commandant of Berlin, in a meeting of the city's Allied Kommandatura.

Herbert made his report in reply to what he termed "wild assertions" and "travesties of fact" uttered by the Russian commandant, Maj.-Gen. Alexander Kotikov.

The Russians had claimed that the standard of living of the German population in the western-occupied areas was below that in the Soviet occupation zone and that the "anti-workers position" of the U.S., British and French authorities was to blame for lowering of living standards.

The British commandant quoted heavily from statistics compiled by the Russian zone's own German governments to support his assertions that the Soviets were conducting large-scale exploitation in industrial and manufactured reparations, building materials and in public finances.

Herbert asserted that the Russians had so depleted public fi-

ances of their zone that these now were largely dependent upon taxes on alcohol made from large-scale distillation of potatoes which should be used as food.

HIDE UNEMPLOYMENT

In the industrial field, he said, the Russians were covering up unemployment in their zone's run-down economy by sending thousands of German workers into their uranium mines in Saxony.

On the state of industry and reparations in the Russian zone, the British commandant reported:

"Reparations are taken from current production in contravention of the Potsdam agreement. They include large quantities of goods essential for Germany's rehabilitation as well as foodstuffs and consumer goods. The dismantling of Soviet zone railways is well known."

After dismantling many German factories for reparations and carting them off to Russia, Herbert asserted, the Russians seized ownership of hundreds more factories and lumped them into their Soviet Aktienselshafte trust to proceed reparations goods. This trust, he said, represented one-third of the remaining industrial capacity of the Soviet zone.

"The Soviet foreign industrial trust," Herbert said, "not only has a monopoly in many industrial industries but takes priority over German require-

ments in the allocation of raw materials and labor.

Gen. Herbert asserted that taxation in the Soviet zone was 450 reichsmarks per head compared to 270 marks in the British zone (the pre-war value of the mark was 40 cents).

In housing, Herbert said the Soviet occupation zone and Soviet sector of Berlin were behind because the Russians took most of the building materials for their own purposes.

SERVING CANADIANS THROUGH CHEMISTRY

Chemistry?
...YOU'RE ASKING ME?

WHILE CHEMISTRY may seem to be remote, it is actually at your elbow every day, a science of unlimited practical uses.

Wearing apparel is woven from chemically-created yarns. Chemical fertilizers stimulate plant growth; insecticides check pest destruction. The water we drink is purified by chlorine.

Chemistry plays a vital part in modern medicine and in the treatment of steel. Salt, soap, paint, nylon, "Cellophane" and plastics in all their colourful applications, are chemical products.

Yes, we live in a chemical world . . . with the C-I-L oval trade-mark as symbol of an organization devoted to serving Canadian through chemistry.

For instance . . .
NYLON
CHEMISTRY never stands still. First it creates, then it improves . . . the new nylon yarns being a case in point. So you'll be wearing even sheerer nylon hose than you've ever seen, knit from nylon yarn—made by Canadian Industries Limited. Head Office, 1135 Beaver Hall Hill, Montreal.

CANADIAN INDUSTRIES LIMITED

WOMEN WILL VOTE SECOND TIME

Few Cast Ballots 100 Years Ago But First Recognized In 1940

QUEBEC (C)—When election day comes around July 28 it will be the second time that women in a body take a hand in the choice of a Quebec Legislature though more than a 100 years ago a few of them slipped in votes through a loophole in the law.

Quebec women were recognized for the first time as qualified provincial electors in 1940 and they voted in Quebec general elections for the first time four years ago. They boosted the 1944 total provincial vote to more than 1,300,000 from 563,297 in the previous election in 1939.

It was the wording of Quebec's original election law which took effect in 1792 when the first provincial parliament was elected that let women vote more than a century ago.

This electoral law said that votes could be cast by "persons" with a required amount of property. Propertied widows and some women legally separated from their husbands and with substantial means applied that word "persons" to themselves and a few of them went out on voting day.

Some voted in Three Rivers division in 1820. A returning officer faced others in Upper Town division in Quebec in 1828 and refused them permission to vote.

First Law Disallowed
The result was a law in 1834 barring women voting, but it lasted only two years before the British parliament disallowed it, not in a feminist frame of mind but because of other features.

The question of the women's vote was settled for nearly 100 years by another law in 1849. The effect of this was that women weren't qualified voters. Quebec women had voted in federal elections for several years before the Quebec Legislature extended the right in

WOMEN WILL VOTE SECOND TIME

1940 to provincial election. This women's franchise act followed a long campaign in which Mrs. Pierre F. Casgrain, wife of Judge Casgrain of Montreal, was prominent.

Women have voted in by-elections in Quebec since then as well as in their first provincial election four years ago. They still have to elect a woman member to the provincial legislature.

This year no women candidates have yet appeared though one or two may be among the list of candidates on nomination day, July 21. However, a few women are on platforms supporting male candidates this year in some parts of the province.

In 1944, Mrs. Joseph-Paul Sauve took part in the absentee-campaign of her husband, with Les Fusiliers Mont Royal. Major Sauve, then in Normandy. The campaign was a success and her husband, now Brigadier Sauve, was minister of youth and social welfare in the last Quebec government.

IN THE SUPREME COURT OF BRITISH COLUMBIA IN PROBATE

In the Matter of the "Administration Act"

And In the Matter of the Estate of William Aitken, Deceased, Intestate.

TAKE NOTICE that by order of His Honor Judge W. G. Fulton made the 24th day of June 1948, I was appointed Administrator of the estate of William Aitken, deceased.

All parties having claims against the said estate are hereby required to furnish same, properly verified, to me on or before the 24th day of August, 1948, after which claims filed may be paid without reference to any claims of which I then had no knowledge.

All parties indebted to the estate are required to pay the amount of their indebtedness to me forthwith. DATED this 25th day of June A.D. 1948.

ROBERT F. JOHNSTON, Official Administrator, Telegraph Creek, B.C. (163)

1. What is wrong with this sentence? "His brother is very dark-complected."
2. What is the correct pronunciation of "supple"?

TO LOCATE AT TERRACE

Mr. and Mrs. G. Arnett of Seattle, who visited Prince Rupert and Terrace in 1940, have returned to this district to reside.

Eight years ago Mr. Arnett liked so much what he saw that he made up his mind to return north when travelling restrictions eased.

The Arnetts sold their place in Seattle and bought a two-ton truck. Into the big box body of the vehicle they packed most of their household furniture and set out. It was last Wednesday morning when they left Seattle.

The roads are in fair shape considering the flood damage. Mr. Arnett reports. He had praise for the repair crews and said that road signs were excellent, preventing accidents in many cases.

The Arnetts have bought property near Terrace and expect to do truck farming and use a truck to freight the produce to market.

Modern Etiquette
By ROBERTA LEE

Q. Is it all right to use "Respectfully" or "Restfully yours" as a close to a social letter written to a person of social position?
A. No. This closing is usually reserved for a business letter.
Q. Would it be good manners for a girl to ask her dinner partner for a cigarette?

Barge Shipments Are Working Out

SEATTLE — Shipping goods north by barge appears to be working well. A good sized quantity of watermelon was included in the latest cargo taken in tow by a tug bound for Seward.

DITCH CONTRACT (Continued from Page 1)

There had come from "higher up," he could do nothing about it.
"I couldn't see the purpose of putting a ditch on high ground when there was a natural water-course nearby," he said.

STORK IS LIQUORISH

NEW ORLEANS — Mrs. Morris Champagne gave birth to a son in the Baptist Hospital. Within 24 hours in the same hospital, another patient, Mrs. Joseph Liquor, had a daughter, and 18 minutes later, a daughter was born to Mrs. S. R. Stagers.

DEATH PENALTY ABOLITION WORKS

LONDON — A New Zealand visitor, commenting on the action of the government in amending provisions of the death penalty, says:
"You can't exactly compare conditions in one country with another. New Zealand abolished the death penalty some years before the war. In spite of that, and in spite of the intervention of war with all of the corrosive effects it has on moral standards, the incidence of crimes of violence in New Zealand has not gone up — on the contrary, it has gone down."

POLICE FINES HIT NEAR RECORD

Police Drive Against Illegal Liquor Traffic Nets \$2920

What is believed to be one of the highest aggregate of police fines ever collected in the history of the city was taken in during June as a result of a police drive against illicit sale and supply of liquor.

SPEED GRAVEL

Power Shovel and Two Scows Arrive

Arrival here of a new power shovel and the use of two scows will speed up delivery of rock and gravel for the city's summer street rehabilitation program from two scowloads a week to one scowload a day, City Engineer Don Stewart reported to council last night.

Highway Construction Co., which has the contract to bring in 10,000 cubic yards of road surfacing material is operating at Denise Arm. The new shovel is being set up at the gravel pit. At present, most of the gravel being delivered is being laid on Seventh Avenue East to build up the roadbed preparatory to hard surfacing. Similar treatment will be given to other streets.

Patching and repair work to other thoroughfares is also being carried on, the material being processed at the city's new hot-mix asphalt plant at Park Avenue.

WOMAN KEEPS UP MINE WORK

Away back in 1908, six years before completion of the Grand Trunk Pacific Railway, Mr. and Mrs. Kelch from California became interested in the Skeena River country and acquired mining property and land.

It was during this time they built a dwelling in some distance from the railway at a point between Terrace and Usk and it became a veritable showplace, being well constructed and unusually attractive.

DIVORCEE GETS BIG SETTLEMENT

RENO, Nevada — A divorce settlement of \$3,500,000 — probably the largest in Reno history — has been settled on Mrs. Evelyn Lehman of New York City.

EVERYTHING HASN'T RAISED IN PRICE . . .

It may surprise many but 1847 Rogers and Community Silver flatware is the same price as before the war.
And as the tax is now off it should be doubly attractive.
Bulger's always sell standard goods at Canadian advertised prices even though express charges are more than those of places nearer to the factories.

For instance a Big Ben clock or set of silver sells for the same price as in Ontario where it is made.
A large part of our stock is made up of standard advertised goods and we try to keep the balance in line with the prices of other cities. And we guarantee the satisfaction of our goods.

Something from Bulger's is always something worth having.

Bulgers

MANY HELPED DOMINION DAY

Appreciation to those assisted in connection with recent Dominion Day celebration of the Canadian Legion at Prince Rupert was expressed by James Nicoll who was chairman of the sports committee celebration, while failing out a financial success, revived in fitting manner annual observation of Dominion Day.

Have a GOOD Breakfast
A Delicious Breakfast Including Grape-Nuts

A well-balanced breakfast should include the special food values you get in Grape-Nuts, with milk or cream. The fine quality proteins, carbohydrates, minerals. The well-balanced nourishment — and the tempting, sweet-as-a-nut flavor! It takes only two tablespoons of Grape-Nuts for the cereal part of your breakfast—the most economical item on the menu. Get a package of Grape-Nuts from your grocer.

Advertisement for Grape-Nuts featuring a box of Grape-Nuts, a bowl of cereal, and a recipe: GRAPE-NUTS ECONOMY RECIPE: Nut-like flavor without the expense. GRAPE-NUTS ORANGE MUFFINS: 2 cups sifted flour, 3 tps. Calumet Baking Powder, 1/2 cup sugar, 1/2 tsp. salt, 2 eggs, well beaten, 3/4 cup orange juice, 1 tps. grated orange rind, 2 tps. melted butter, 1 cup Grape-Nuts. Sift flour once, measure, add baking powder, sugar and salt, and sift again. Combine eggs, orange juice and dampen all flour. Add Grape-Nuts, beating only enough to grease muffin pans in hot oven (425° F.) 20 to 25 minutes. Makes 12 muffins.

BROOKLYN — Dan Lurie, Brooklyn, did a total of 1,225 parallel bar dips in 1 1/2 hours to set an endurance mark in 1943.
