Crackdown On Speeding Drivers Recommended By City Council

Action Sought To Prevent Tragedy

City fathers last night condemned a class of motorists they called "reckless speedsters" and the RCMP will be instructed "to make a concerted drive" on infractions of the speed limit portion of the traffic bylaw.

The subject was revived following a recommendation by Ald. Darrow Gomez, chairman of the police committee, that a 15-mile-an-hour zone be established on Sixth Avenue East between Immanuel Street and Seal Cove Circle.

Ald. Gomez said the area had no playground and children were forced to play on the roadside.

"I have noticed cars speeding in that area quite often and to prevent a tragic accident our committee recommends the slow zone."

Recommendation was adopted. Ald. H. F. Glassey then said that he noticed often "cars going at 40 to 50 miles an hour on the hospital road on Fifth Avenue East and in other parts of the city."

In answer to other complaints of speeding by aldermen, Ald. Gomez said his committee would instruct the police department to pay "special attention" to speeders in a concerted drive to keep such hazard at a minimum.

Kitimat Worker Freed by Court
 Special to The Daily News

VANCOUVER—The B.C. Court of Appeal today allowed the appeal and quashed the conviction of a former Kitimat worker who was sentenced in Prince Rupert last March to nine months imprisonment for theft of a co-worker's pay cheque.

Released was Sherman St. Jermain who, appeal judges held, had been charged under the wrong section of the Criminal Code.

Heard in Prince Rupert court before Judge W. O. Fulton, defence case was presented by Doug Hogarth who argued that the crown had laid the charge on a conflicting section of the Code and that on that basis accused should be acquitted.

St. Jermain was arrested in the Yukon in February. At the trial, police alleged he had attempted to cash a co-worker's payroll cheque before making a trip to Terrace from Kitimat last October, then had failed to return or to account for the money.

A request for the information by Ald. George Casey.

Mayor Harold Whalen said of the report: "As far as I know, each of these expenditures were endorsed by the city council and have saved the citizens a good deal of money in the long run."

A break-down of the expenses shows that \$1,797.07 was spent in connection with the power question; opposing a requested rate raise by the Northern B.C. Power Co. Ltd., out-of-town trips and legal fees, and the \$798.64 paid for expert opinion on the power company versus B.C. Power Commission benefits.

Other major expenses included in the total were \$812.11 for aldermen attending the Union of B.C. Municipalities convention; \$176.20 for municipal officers convention; \$229.58 for trips in connection with the new telephone system, and \$218.39 for assessor's expenses.

Speed limit within the city is 25 miles an hour with exception of Third and Second Avenue where it is 20 miles an hour.

In special playground areas, defined by signs, speed limit is 15 miles an hour. Two such areas on McBride and Eleventh Avenue, main city thoroughfare, are at Gyro and McClymont Parks.

\$300,000,000 Deal Made With Alcan

VANCOUVER—Possibility that accelerated expansion of the big Kitimat aluminum project would come soon was seen here following announcement by the Aluminum Company of Canada that it had contracted to sell 786,000 tons of aluminum in the United States over the next six years.

Announcement of the contract, worth about \$300,000,000, was made late today in Montreal.

Practically all metal to fill the contract will be supplied by the Alcan plant at Kitimat.

N. V. Davis, president of Aluminum Limited, parent company of Alcan, was quoted here as saying "authorization has been given for immediate preparation of a ground site at Kitimat for two additional smelter potlines. Additional potlines would have a production capacity of about 9,000 tons per year."

Decision on actual construction of smelting facilities and necessary hydro-electric generators is being deferred for the present.

Truce Plan Unacceptable To S. Koreans

SEOUL—Authoritative South Korean sources today revealed that a secret new Allied truce plan would give the United Nations General Assembly final say in determining the fate of war prisoners who refuse to return to their Red homelands.

Informants said the proposal, handed to the Communists Monday at Panmunjom, were clearly unacceptable to South Korea.

One government official called it "nothing but Allied defeat by the Communists."

The Republic of Korea sources said the new Allied plan:

- Drops the Allies' May 13 proposal that North Korean prisoners of war be freed in South Korea after the armistice.
- Retains the Red proposed five-country commission to take over 48,500 reluctant prisoners after a truce.
- Turns over to a post-war political conference all prisoners who still refuse to go back to Communism.
- Remaining POWs in custody would be handed to the UN General Assembly.

All decisions would be made by a majority vote.

U.S. Jets Down Twelve MIGs
 SEOUL (CP)—United States Sabre jets shot down 12 Communist MIGs today, boosting MIG kills this month to 51—11 less than the war's one-month record set last September.

Salmon Offer Raised

Union, Operators Meet Wednesday

By The Canadian Press

VANCOUVER.—B.C. salmon operators have made slight increases in their price proposals for the 1953 catch as they continued negotiations here with the TLC United Fishermen and Allied Workers Union.

They increased the sockeye offer from 18 to 19 cents a pound and proposed 6½ cents a pound for junks in place of the 6¼-cent original offer.

The union has demanded price boosts ranging from one to two cents in four species of salmon and last year's price—25 cents a pound—for sockeye. All operators' proposals are reduced from last year.

Negotiations continue next week with a meeting scheduled for Wednesday.

"There can be no salmon operation this year if we cannot obtain raw fish prices that are lower than last year's," an official of the Fisheries Association of B.C. said today. This, he stated, was due to "generally poor" market conditions.

Following a union charge during negotiations that a Fisheries Association statement on pack surplus at the end of April was not true, the operators proposed the appointment of an independent auditor to check the pack.

"He will be appointed soon and will check warehouses, the union said. The UFAW disputed the Fisheries Association statement that the "carry-over" pack at the end of April was 629,000 cases.

RCAF Plane Missing on U.S. Flight

VANCOUVER—An RCAF bomber is overdue on a flight from Vancouver Island to San Diego.

One report from the United States Air Force reported sighting an orange colored box floating on the Pacific Ocean, 24 miles south of the last reported position of the Lancaster.

The air force clamped down on all details of the flight but it is known the four-engined plane was on an exercise with the destroyer Algonquin now enroute to Halifax. Normal crew is about seven men.

GENERAL MATTHEW RIDGWAY, retiring supreme allied commander in Europe, and his attractive wife, are welcomed to Ottawa by Defence Minister Claxton, acting prime minister in the absence of Premier St. Laurent. Gen. Ridgway planned to hold discussion with Canada's chiefs of staff and, later, to do some fishing north of Ottawa. He has been appointed chief of the United States army.

Halibut Prices Better On Rupert Exchange

Halibut prices were slightly better on the exchange today with American vessels getting the benefit of one-half to one-cent increases.

A total of 118,500 pounds were landed here today by Americans; 166,000 by Canadians on the exchange and 263,000 pounds for the Prince Rupert Fishermen's Co-operative Association.

Top prices were paid to the Gloria II which sold 23,500 pounds at 13.9, 13.5 and 11 cents a pound to Pacific Fisheries.

In Vancouver, prices averaged about four cents higher as landings swung into stride. With arrival there of the second schooner from the grounds, prices were: Chicken, 14 cents; mediums, 17 cents, and large, 14 cents.

This price was the lowest since 1948, which in turn was the lowest price since pre-war days and is about three cents a pound less than for the first catches last year.

A halibut exchange spokesman said the low prices received by wholesalers during the winter and a large carryover of frozen stock were responsible for the depressed state of the market.

Other landings in Prince Rupert today were:

American
 Jean, 8,000, 13.5, 13, 11, Pacific; Gypsy, 5,000, 13.5, 13, 11, Pacific; J. B., 29,000, 13.8, 13, 11, Cold Storage; Reliance 1, 32,000, 13.8, 13, 11, Cold Storage; Frisco, 21,000, 13.8, 13, 11, Atlin.

Canadian
 Silver Horde, 30,000, 13.3, 11.5, 10.3, Royal; Capella I, 30,000, 13.3, 13.3, 10.3, Booth; San Tomas, 40,000, 13.6, 12, 10, Pacific; Deep Sea, 8,000, 13.3, 12, 10, Cold Storage; Waterfall, 58,000, 13.3, 12, 10, Cold Storage.

Co-op:
 Wales Island, 40,000; Kaia, 24,000; Helen II, 42,000; Clipper II, 36,000; Signal, 60,000; Neptune, 16,000; Sandy S., 13,000; Reward, 14,000; North Foreland, 18,000.

U.S. Border Closed to Mexican Cattle
 WASHINGTON—The United States border has been closed to Mexican cattle following reports of an outbreak of foot-and-mouth disease in Mexico.

The embargo was imposed just nine months after similar restrictions had been lifted following eradication of an earlier outbreak of the disease.

Agriculture Secretary Ezra Taft Benson named Dr. M. R. Clarkson, deputy administrator of agricultural research administration, to go immediately to Mexico City to deal with the new outbreak.

Since the beginning of 1952, the city spent \$4,586.70 on travelling expenses and special fees in connection with operation of city business, city council was told last night.

The expenditures were read by city clerk R. W. Long following a request for the information by Ald. George Casey.

Mayor Harold Whalen said of the report: "As far as I know, each of these expenditures were endorsed by the city council and have saved the citizens a good deal of money in the long run."

Tornado Wrecks City

THE QUARTERS OF THE CITY of Sarnia, Ontario, was either destroyed or damaged, city officials estimate, by the vicious tornado that crushed sections of Western Ontario. At least 42,000 residents were reported homeless. Damage estimates ran as high as \$10,000,000. Shown is a portion of the Sarnia business district, all 12 square blocks of which sustained some damage.

Attempt to Increase Salaries of Fire Chief, Assistant, Fail

Proposals by the utilities commission to increase the salary of the fire chief and assistant fire chief by five per cent was met with opposition in council last night.

Recommendation was filtered back to the commission for further study. Increase had been recommended earlier by the chief who gave as reasons the recent five per cent increase granted to city firemen.

Ald. H. F. Glassey, chairman of the utilities committee, said his body approved the increase because "as it stands now, some of the firemen are making as much if not more than the fire chief. We decided to do something about it."

THANKSGIVING DAY SET FOR MONDAY, OCTOBER 12

OTTAWA—Thanksgiving Day has been set this year as Monday, October 12, it was announced in an extra issue of the Canada Gazette.

For some years Thanksgiving has been observed on the second Monday in October.

Pro-Con Demands Apology for Statement by Premier

VICTORIA (CP)—A Progressive Conservative party member for Bay has threatened legal action if he does not get a public apology from Premier Bennett for a statement he made last Thursday.

Frank Partridge, campaign manager for former Progressive Conservative leader Herbert Anscomb in last year's election, said the premier should apologize for the statement "otherwise further action in the matter is considered necessary."

Mr. Partridge said he was referring to a statement by Mr. Bennett to the effect: "You are the man who defeated Herbert Anscomb in Oak Bay."

Mr. Partridge said Mr. Bennett made the statement during a question period at his election rally here Thursday. He said the statement was "scandalous, vicious, untrue, entirely uncalled for and unnecessary."

Mr. Partridge also goes by the name of Frank H. McLeod and is a resident of Borden, escaped while being escorted to Chicago.

—WEATHER—

Forecast
 North coast region—Extensive patches of fog and low clouds over the water, occasionally drifting onshore today and Wednesday, elsewhere clear. Little change in temperature. Light winds except northwest 20 in exposed areas vicinity Queen Charlottes. Low tonight and high Wednesday at Port Hardy and Sandspit, 45 and 65; Prince Rupert, 45 and 70.

THIS IS THE CONE (centre) of the tornado, photographed cutting across Western Ontario nine miles north of London, which ripped through the Sarnia-Port Huron-London area and left in its wake five dead, 200 injured and damage estimated

in the millions of dollars. The Indiana-born storm leaped across the international border at 5:43 p.m. EDT, and smashed into Sarnia, later snaking its way across southwestern Ontario, leaving injury and destruction wherever it touched.

An independent daily newspaper devoted to the upbuilding of Prince Rupert and Northern and Central British Columbia.

Rupert Sets Example

IT SEEMS that Prince Rupert has failed to impress its neighbor, Prince George, as a vigorous, progressive city.

We are pleased to be able to inform this same city official that, at least as far as Prince Rupert is concerned, he is all wrong.

It must be admitted, of course, that the installation was not accomplished without effort.

But in the final reckoning the citizens of Prince Rupert rose to the occasion admirably and can now look forward to a service which befits any growing city.

Get Out the Flags

WITH a week to go before Coronation Day, it is time to get the flags and bunting ready to give Prince Rupert a festive air and make the day one that will be remembered for a lifetime.

Reports by the Coronation committee indicate that the main program is going ahead like a jet-propelled bandwagon.

Yet the enjoyment of the occasion depends first of all on the enthusiasm of every individual.

There is another point about this which also should be remembered. Americans in Alaska, anxious to see how Commonwealth subjects celebrate the crowning of their Queen, will be coming to Prince Rupert by the score for the holiday.

They know we are proud of Elizabeth II, so let's show them just how much.

Scripture Passage for Today

"The spirit of glory and of God resteth upon you." —1 Peter 4:14.

Coronation Chair Has Intrigued Would-be Carvers For 650 Years

By ANNE KRAMER

LONDON (AP)—Twenty-eight monarchs and a naughty school-boy have sat on the Coronation chair on which the Queen will be crowned in Westminster Abbey.

Carl Halterman Funeral Service Set for Today

VANCOUVER (CP)—Funeral services will be held here today for 57-year-old Carl Halterman, vice-president and a director of Union Steamships Limited.

Mr. Halterman, who joined the steamship company as manager and later became managing director, retired from active management of the firm in 1948 because of ill health.

The lad who sat in the chair, Peter Abbott, also slept in it all night. He did it on a dare. Before he left, he took his knife to the chair and dug out the words: "P. Abbott slept in this chair 6 July, 1800."

That gave him a certain niche in history and probably a sound whacking as well.

One big carved signature—"N. Curzon"—is believed to be that of George Nathaniel Curzon 1859-1925, foreign secretary and leader of the House of Lords.

Westminster schoolboys today don't practice on the Coronation chair. A night and day security guard is posted. A police officer checks everyone in and out of the abbey. As a further precaution, an invisible ray is connected by warning signal to Scotland Yard.

All the sovereigns of England since 1307 were crowned on the chair with the exception of Mary, wife of William of Orange. It was designed in 1300 by Master Adams, goldsmith to Edward I. Only twice has the chair left the abbey: when Oliver Cromwell was inaugurated lord protector in Westminster Hall in 1657 and during the Second World War when it was taken for safety to Gloucester Hall.

As I See It

by Elmore Philpott

Mr. Business Man

THE LAST hope of Socialists is the ordinary business man—the decent, hard-working chap, so busy minding his own business he has never had time to study higher politics, much less complicated theories like Social Credit.

This business man does not read Hansard so he does not know that the main Social Credit planner for Canada, E. J. Hansell, M.P. said in parliament on December 1, 1952:

"Let nobody write or think that if Social Credit should take over the reins of government here they would only follow along the lines of good honest conservative government. If the Social Credit party took over the government of Canada let it be understood they will introduce Social Credit technique." (Hansard, Page 235).

THE TWO revolutionary measures which Social Crediters would implement in Canada are set forth in "Douglas Social Credit for Canada" by W. A. Tuttle. The book is published by The Social Credit Publishing Co. of Vancouver, and is available in the Vancouver Public Library, Kitsilano Branch.

It sets forth in great detail "Just Price Fixing" and "National Dividends."

On page 194 and 195 it shows that under the Just Price theories of the Socialists all goods would be sold in stores below cost price. The rate would vary from time to time. But when the book was written the author figured all goods should be sold at 40 cents on the dollar.

That is, Hardware Merchant Bennett would sell a \$100 washing machine for \$40. He would get a National Credit grant of \$60 to make up for the loss on the transaction.

Mr. Business Man: Would you accept that as a sound deal in YOUR store?

ALSO, UNDER the National Dividend everybody would get a monthly free cheque. It is made very clear that this National Dividend would be large enough so anybody or everybody could live without working.

The Sacred theorists argue that people are so high minded and noble that they will keep on working anyway. I don't believe that. Do you?

Here is the catch which the author admits on page 240:

"If as some, without adequate evidence imagine, too large a proportion of the employable population were afflicted with 'chronic idleness' industry would be unable to function... the National Credit would shrink to zero and the Just Price Factor climb back to where the Just Price Discount disappeared entirely, and Social Credit as a beneficial public policy would be extinct."

WHEN we get this election over, and people have more time to consider such things in friendship, I hope to write several articles on Social Credit. I hope to show that while there is much good in their negative arguments against the present system, their practical proposals just would not work—but would precipitate a terrible financial crisis, as in the French revolution.

But I am aware that vast numbers of decent citizens did join or support Social Credit last year in all good faith. I ask you to stop, look and listen.

For according to the Hansell scheme, the "Taking" of B.C. is primarily an On-To-Ottawa move.

MORE THAN A CENTURY AGO one of the houses of Whitehall Palace—the old residence of the Kings of England—was called "Scotland Yard." When the London police force started a detective branch in 1842, it was housed in this yard, and Scotland Yard became associated in the public mind with London police.

'Lilibet' Learned as Youngster To Earn Respect of All Britons

(Just seven days from now Queen Elizabeth II will be crowned and consecrated Queen. To give the story of her personality and upbringing, James F. King of the AP's London staff has written a series of five stories carrying Elizabeth from cradle to throne. This is the first of the series.)

By JAMES F. KING

LONDON (AP)—Even as a princess at the toddling age, Elizabeth II caught on to her royal prerogatives.

One of her early discoveries on a visit to Buckingham Palace was that the sentry presented arms every time she passed. This was amusing. So, slipping away from her nurse, she paraded back and forth smiling happily as the poor sentry clicked his heels to attention each time.

Elizabeth's early consciousness of her position may have been due to her grandfather, King George V. Once he held her up on the palace balcony to show her off to a crowd below and whispered, "They're cheering for you, you know."

The little girl beamed with delight and a few days later was caught testing her royal authority by ordering a playmate to bow low in homage.

THRONED FAR AWAY From these and other stories, Elizabeth has been called "the girl born to be queen."

Yet the throne seemed far removed for the first child of the popular young Duke and Duchess of York when she was born early in the morning of April 21, 1926 in the home of her maternal grandfather, the Earl of Strathmore in London.

Elizabeth Alexandra Mary Windsor was a royal princess in her own right, but third in line to the throne—behind her uncle David and her own father who told friends he himself was "not palace minded."

Before she was 10, King George died. Uncle David, the dashing Prince of Wales, became Edward VIII, and abdicated after 324 days. Her father became King George VI, and by a sharp twist in fate she had come into the direct line of succession.

George VI died Feb. 6, 1952 at the age of 56 and the princess became Queen. It was less than 26 years since her birth when, according to ancient custom, since discarded as archaic, the then home secretary, Sir William Joynson-Hicks, was on hand to verify the birth of the royal princess. The report is that the tiny princess showed her independence at once by yawning in the face of the home secretary. She won the hearts of Britons at once. The birth brought a

little brightness into the drab lives of a people torn by the impending general strike of 1926 and the miseries of mass unemployment. For the moment all Britons could unite at least in affection for the Royal Family.

Elizabeth came under the official royal inspection of her grandmother, Queen Mary, immediately.

The matriarch bent over the cot of her first granddaughter and sighed, "I wish you were more like your mother."

To this day Elizabeth is commonly known as "her father's daughter." She holds a remarkable likeness to the late George VI, the man who never expected or wanted to be king but won affection by application to duty as "the people's king," especially during the anxious days of the Second World War.

The rearing of children in the Royal Family, though modified down through the years, had long followed the general Victorian pattern that strength of character was developed by severity and even repression.

COUNTRY GENTLEMAN But the shy Duke of York preferred the life of a country gentleman to the limelight and was determined to shield his young daughter from the over-

See 'LILIBET'—Page 5

OTTAWA DIARY

By Norman M. MacLeod

All the political parties on Parliament Hill are spending the Coronation respite from active election campaigning in a crystal-gazing effort to ascertain what the next six months hold by way of economic activity.

The reason for the liveliness of their interest is obvious. A down-turn in business during the latter half of the year could have important political repercussions. The discontent which it normally would breed could be counted on to make things harder for the government, easier for the opposition parties.

Actually, no opposition party really wants to win at a cost of national prosperity. But all politicians are only human. Furthermore, they realize that the conditions which will underline August's expected election won't be deliberately of their making. Hence the motive back of their curiosity is simply the realistic one of wanting to know the situation they are likely to be facing.

The large corps of seasoned economic experts scattered throughout Parliament Hill's multitudinous departments agree almost to a man that scattered clouds already are visible on the economic horizon. The question is whether they are going to further darken the sky, or disperse. The opinion of the economists inclines to the latter view, but they are prepared to furnish argument on both sides of the question. For instance, here's their pessimistic size-up of the outlook:

Export trade is slipping and the nation's favorable trade balance of a few months ago has given place to a trade deficit. Threats of additional trade barriers are overhanging important foreign markets, access to which is essential to national prosperity. Food surpluses are piling up in a manner which makes agriculture's outlook grim. A clue to the change in the underlying situation is to be found in the increasing willingness of industry

in a number of lines to counter workers' pressures for pay hoists with proposals for pay cuts. This is the sort of action that industry normally takes only when it feels that it has little to lose and much to gain from a battle on the labor front.

All these factors could be the portents of a downturn in business that would be bad news for the government's political troops, while promising something of a "break" for the opposition forces. Or all these storm signals could disappear in a clearing of the economic sky by a fresh wind of optimism blowing strongly across the field of business. This latter alternative is the one that the majority of Ottawa economists expect to happen. Why will be related in tomorrow's diary instalment.

The town of Listowel, 80 miles northwest of Toronto, was named after Listowel in Kerry county, Ireland.

Probe of City Manager An Urged by Jaycees

Investigation by city council into the city manager's form of civic government was urged in a letter sent last night by the Prince Rupert Junior Chamber of Commerce.

Mayor Harold Whalen was granted leave of absence from June 3 to 12, and Ald. Mike Krueger was appointed acting mayor.

Renewal of city lease of the Prince Rupert water air port will be studied by the finance committee, to which the Department of Transport expiry notice was referred.

With arrival today of B. C. Bracewell, deputy minister of municipal affairs, investigation relative to procedure of city expenditures begins.

A council meeting in committee has been called for Wednesday, 7:30 p.m.

Council will also ask Mr. Bracewell what aid can be expected from his department in connection with regional planning of industrial potentials here.

The following expenditures and work program of the board of works was approved by council:

Screens on jail doors, costing \$75; a six-inch water meter at the government elevator, costing \$775; a sidewalk from Eighth to Eleventh Avenue on Immanuel Street, cost \$1292; a cinder sidewalk on east side of Dunsmuir Street from Fourth to Fifth Avenue, cost \$285.

Applications for a city assessor will be re-advertised, following a letter from an applicant, T. N. Stretton of Trail, advising council he could not accept the position after council gave its approval.

Members taking part were: K. Robertson, Mrs. H. A. Mrs. H. Bancroft, Mrs. M. W. F. Stone, Mrs. Kergin, Mrs. L. M. Greene, G. E. Moore, Mrs. J. W. W. Mrs. A. M. Hurst and S. Elkins.

PEACE of MIND
... a thing difficult of achievement so far as investments are concerned.

When we fill a client's order for shares in Canadian Investment Fund Ltd, we know the feeling that comes from a job well done. We know a client's capital is protected to the fullest extent that a continually supervised investment portfolio can be.

There is no record of this mutual fund ever having interrupted its dividend payments.

We know that this carefully supervised interest in over 60 of Canada's strongest companies is as stable as the economy of the nation.

That is what we mean by peace of mind. Let us send you our booklet.

A GROUP OF 50 TEEN-AGE GIRLS from various parts of Canada sail from Montreal for Britain and the Coronation. The girls are on the deck of the Empress of Canada. They are guests of W. Garfield Weston, Canadian-born international industrialist. They will also visit the continent before returning to Canada.

Alpine Club Holding Camp This Year Few Miles East of Jasper Park Lodge

The 1953 summer camp of the Alpine Club of Canada will be held in the scenic Scott Glacier area of Jasper National Park from July 20 to August 2.

The camp location is about 35 miles from Jasper Park Lodge. Surrounded by towering peaks, it includes the famous "Committee's Punch Bowl" which provides a link with the romantic fur traders of the early west.

Some 200 club members from all parts of Canada and from the United States, Great Britain and Australia, and their 50-horse pack train are expected to undertake the trip to the site in the valley of Scott Creek, which the Alpine Club has termed "Hooker Icefield Camp."

The main camp has a full view of magnificent Scott Glacier, with Mount Hooker, 10,782 feet, towering above the icefield. Rock, snow and ice climbing schools will be conducted and rope leaders will try to impart useful instruction in route finding to members of the party.

The climbers will scale Mount Scott, Mount Hooker, Mount Evans, Mount Oates, Mount Bowers, Mount Ermatinger, Mount Serenity, Mount Kane and others.

The "Committee's Punch Bowl," where a sub-camp will be located, is a lake at the summit of the Athabaska Pass named after the governing committee of the Hudson's Bay Company.

Organizations wishing to show the film may obtain it free of charge by writing Robert Muir, Aluminum Company of Canada, Vancouver. Exact date and time of the proposed showing should be mentioned.

Color Film of Development At Alcan Site Completed

Alcan's new film, "Prelude to Kitimat," is now available for public showings. It is reported by George Vincent, Vancouver. Completed in sound and color, the 16-mm. film runs 30 minutes and carries the story of Alcan developments in B.C. from the end of the survey stage to the end of November.

At Least 45 Floats to Show In Coronation Day Parade

The giant parade of the Coronation Day celebration on June 2 will include at least 45 floats. F. E. Anfield, celebrations chairman, said today.

Any further entries must be made in writing and mailed by Thursday by 6 p.m., addressed to Parade Chairman, P.O. Box 463.

Following are firms and organizations entering one or more floats:

Boy Scouts Association. Prince Rupert Air Cadets. Prince Rupert Sea Cadets. Girl Guides. Royal Canadian Navy. Royal Canadian Army Corps. Kinsmen. Electrical Workers' Union. Canadian Legion. Whalen's Cartage. M. J. Saunders. Northern B.C. Power Co. Ltd. Telephone Company. Trades & Labour Council. Carpenters' Union. Chinese Community.

Immigrant Baptists Form Church

In a business session in the annex of First Baptist Church, a group of immigrated Baptists from Germany organized as a Baptist church.

First of these immigrants arrived in Prince Rupert some 18 months ago. Since that time 14 families have come to the city.

As it became increasingly necessary that some religious services be held in their native tongue, the North American Baptist Conference sponsored a Mission for German-speaking people under the leadership of Rev. J. C. Schweitzer since the latter part of March. The newly organized church has adopted the name "Bethel Baptist Church."

Mr. Ernst Rompf has been elected church elder, G. Pesth as clerk, Walter Tutschek as treasurer. These with other officers were installed in a service last Sunday.

The newly-formed church holds meetings in the Oddfellows hall. It is planned to acquire some church hall, and for a permanent pastor to take charge before the end of August, when Rev. Schweitzer will leave for the United States.

The newly-organized congregation is affiliated with the North American Baptist Conference, who co-operate and are nominally associated with the Western Baptist Union of Canada.

Old Costumes Add Color to Fashion Show

SMITHERS—Four young ladies in costumes of the gay '90's added novelty to the annual fashion show staged in Elks' Hall by the Ladies' Auxiliary of the Canadian Legion.

Local merchants exhibited children's and ladies' spring and summer fashions from sports wear to evening clothes. Four children and 12 ladies modelled the apparel to full advantage. A separate millinery display of latest model hats added to the success of the show.

Two City Women Attend Convention

Mrs. R. B. Skinner and Mrs. R. R. Chater are in Harrison Hot Springs attending a convention of the ladies' auxiliary of the Canadian Legion.

Hamburgers* WITH THAT GOLDEN FRENCH'S FLAVOUR!

Send 10¢ for a copy of the new edition of "Culinary Art" recipe book to Reckitt & Calman (Canada) Limited, Dept. FR, 1000 Avenue Street, Montreal.

*Here's the way...
1 1/2 lbs. ground chuck beef,
1 1/2 teasp. salt, 2 tblsp. minced onion,
2 tblsp. French's Mustard,
1 egg, 1/4 teasp. pepper.
Knead ingredients together thoroughly, pat into cakes, pan fry. Serves 5.

Creamy, smooth French's blends better, and its rich mustard goodness doesn't fade out in cooking.

GOLDEN APPEARANCE—GOLDEN FLAVOUR—GOLDEN QUALITY

On July 23, 1904, Sir Henry Joly de Lotbiniere opened the Fraser River Bridge—the first bridge to span the mouth of the Fraser and provide a direct rail and road link to the United States.

HEY KIDS

HERE'S MORE NEWS ON "CURRIE"

"Currie"

To boys between 10 and 15 years, here's a chance to be a real cowboy and own a horse of your own.

All you have to do is ask Mom or Dad to drop in to the Social Credit Committee Rooms and enter your name in the contest to choose the lucky boy.

The winner will be outfitted with a real "Cowboy Stetson" and will be given this Beautiful Horse as a pet, or may return him after June 9th if Dad or Mom doesn't like the extra upkeep.

Suitable stable space has been reserved for 'Currie' already, so you have no worry in this regard.

Get your name in at once, Boys... Contest closes May 29 at 10 p.m.

'Currie's' first public appearance will be May 31st, at the GIANT SOCIAL CREDIT RALLY at Gyro Park.

Fishermen Propose Trade Plan

VANCOUVER (CP)—British Columbia coast fishermen want Canada to use sterling to trade in Commonwealth markets and to declare her independence of the U.S. dollar.

A meeting of the United Fishermen and Allied Workers Union (UFAW) issued a statement also urging:

- Barter agreements with any countries not trading with Canada because of currency difficulties.
- Long-term credits to other countries enabling them to buy Canadian products.
- Trade with all countries regardless of political differences.

The statement said the major trade barrier was Canada's reliance on the U.S. dollar coupled with a dollar shortage in most other countries.

The meeting voted to seek the support of trade unions, co-operatives and farm organizations for its proposals.

Atomic Shell Bursts Over Yucca Flats

LAS VEGAS (CP)—The first atomic shell fired from a canon roared across the Nevada proving grounds Monday and burst with a brilliant flash over a simulated enemy target. The test was held on Yucca Flats.

A nine-man crew loaded the atomic shell into a 44-foot 230-millimetre canon — "Amazon Annie."

The Atomic Energy Commission gave approval Sunday after shifting winds settled down and radiation threat dissolved.

From the control tower, 10 miles away, an electrical impulse detonated a propelling charge ejecting the shell.

The shell exploded 500 feet above the target seven to eight miles north-northeast of the giant gun which can fire both conventional and atomic shells.

Britain 'Owes' Free World Explanation

WASHINGTON (CP)—Senator Karl Mundt (R-S.D.) said today "Britain owes the free world a reply" to testimony that British-owned ships have transported Chinese Communist troops during the war.

"I am not inclined to wait too long for them to volunteer it," Mundt added in an interview, "and the answer had better not be Yes, so what?"

Mundt is a member of the Senate Investigations Subcommittee headed by Senator Joseph McCarthy (Rep. Wis.).

A staff investigator told a group Wednesday that the British-owned ships of Wheelock Marden Company of Hong Kong carried Chinese Communist troops on two occasions during the Korean war.

Greatest Gasoline Development in 31 Years!

TCP Shell-discovered additive, now blended into Shell Premium Gasoline puts an end to the greatest cause of power loss. Actually boosts power up to 15%, spark plug life up to 150% by counteracting the deposit on spark plugs and in combustion chambers.*

Though you may not realize it, the chances are that your engine is delivering far less than its original horsepower.

This is because, in the average engine, deposits constantly "build up" on spark plugs and in combustion chambers. These deposits actually "short circuit" your spark plugs causing them to misfire. They may also cause pre-ignition of the combustion mixture—resulting in severe knock. This is especially true when accelerating, climbing hills, or driving on the open highway.

This condition exists in the majority of cars on the road today.

To overcome this condition, Shell research discovered a fuel additive TCP. Blended into Shell Premium Gasoline, TCP stops the short-circuiting effects of the deposits on spark plugs and in

combustion chambers. This means, for the average motorist, a power boost of up to 15%, an increase in spark plug life of up to 150%, plus an increase in gasoline mileage!

Shell Premium with TCP is the most important advance in gasoline since the discovery of tetraethyl lead in 1922.

New and old engines benefit

If you have a new car, particularly one with a high compression engine, Shell Premium with TCP is essential if you want it to keep on delivering its original power for the normal life of the spark plug. But high compression or not, Shell Premium with TCP keeps it working like new.

Owners of older cars also benefit. Even if your car has gone thirty thousand miles or even more, your engine can get

back much of its original power by the use of Shell Premium with TCP.

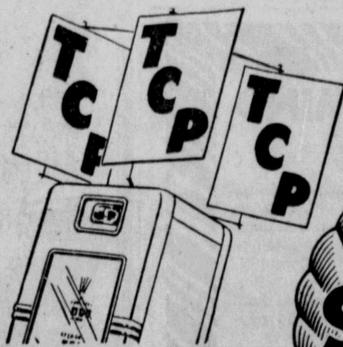

Shell Premium with TCP quick to act

So rapidly does Shell Premium with TCP counteract the deposit on spark plugs and in combustion chambers, that you'll feel your engine's had a tune-up before you've finished the second tankful. You enjoy that new car pep again.

Now in Canada—but only at your Shell Dealer's

TCP was originally developed by Shell research for aviation fuels and until now has been largely restricted to military aircraft.

Today, Shell Premium with TCP is available in this area, but only at Shell Service Stations.

SHELL PREMIUM GASOLINE

The most powerful gasoline your car can use

Disaster Committee Meets June 5

Plans to form a disaster committee in Prince Rupert will be discussed at a meeting called by W. H. Hill, civil defence co-ordinator here.

The committee will be organized particularly to step in to give aid to survivors in disasters similar to the recent King George Hotel fire and the more recent Canso plane crash.

The committee will also provide additional emergency ambulance service to augment the city unit now operated, Mr. Hill said.

Besides the mayor, civic officials and department heads, civil defence workers and St. Ambulance members, representatives of the Red Cross, Social Welfare Department and other interested organizations will be asked to attend.

The meeting will be held in council chamber of the city at 8 p.m.

LILIBET

(Continued From Page 2)

...ing shadow of the crown as possible. His wife, Elizabeth Bowes-Lyon, died the bleak rigidity of life, too.

...there was nothing austere or primitive about the princess' upbringing.

...in the days of my childhood," she remarked years later, "the seemed always to be shining."

...she invented a nickname for herself as soon as she could talk. Elizabeth was too much of a rule-twister. The best she could do was "Lilibet"—and "Lilibet" she remains even today in the Royal Family circle.

Elizabeth was only four when her Margaret was born. She showed no jealous resentment against the newcomer to the nursery. Instead Lilibet showed a maternal instinct and wanted to take complete charge of the new baby.

...AL SCRAP... Over the years an unusually strong bond of companionship, even for sisters, has grown. Elizabeth always has been the more serious and determined. Margaret the gayer and more mischievous.

They had the usual sisterly scraps. Lilibet, when provoked, showed a fiery temper.

Their early years were as near-normal as was possible for two daughters of a royal duke. They were as dirty making mud pies in the garden as any youngsters.

They spent hours dressing dolls and playing house, and ran wild about at hopscotch and hide-and-seek games.

They had many pets. Elizabeth loved animals, especially horses. She learned to ride at the age of three and was given her own pony on her fourth birthday.

A daily chore was sprucing up the furniture polish, a dozen wooden horses stabled in the stables.

...KID TO TEASE... King George V in his declining years looked forward eagerly to the Buckingham Palace visits of his lively granddaughter, who used to tease him. She shouted with laughter when he pretended to be angry as she ruffled his hair or stole food from his plate or her Welsh corgi dogs.

Like any healthy youngsters, the sisters enjoyed a good pillow fight. The trouble was that their great grandmother caught them roughhousing.

So Queen Mary decided it was time to take Lilibet under her wing.

It was the beginning of an apprenticeship for the reigning queen, Queen Mary, who held strong views on the bringing up of young princesses, was to have tremendous influence on Elizabeth through the years.

ALEC GUINNESS, British stage and film star, visits the property department at Stratford, Ont., where materials are being made for the Shakespearian festival to be staged there this summer and in which Guinness will play leading roles. At left is Jacqueline Cundall of the Old Vic theatre, London, in charge of making the properties. They are examining chains of office to be worn in one of the plays, "Richard III."

Vancouver Skipper Collects New Hat For First Halibut Landings

VANCOUVER (CP)—A Vancouver fishboat skipper collected a new hat when he landed the first catch of halibut at Vancouver.

The skipper—Olaf Borge—fished for five days on grounds off Scott Island with his seven-man crew to net a catch of 61,000 pounds. The National Harbors Board supplied the hat.

Skipper Borge and his crew got 114 cents for 8,000 pounds of chicken and 17 cents for 51,000 pounds of medium. Two thousand pounds of large sold for 14 cents a pound.

Douks Answer Warning With More Fires

VICTORIA (CP)—Premier W. A. C. Bennett's warning to radical Doukhobors that the "fooling around" is over was answered by a series of house fires at Krestova.

Details of the fires were not available, but first reports said several houses were destroyed last Friday in Krestova village, headquarters of the radical Sons of Freedom Doukhobors.

Krestova, in the Kootenays near Nelson, B.C., 350 miles east of Vancouver, has been the scene of many fires over the years.

Fire is a Doukhobor form of protest, and it is not uncommon for the "Sons" to put the torch to their own homes.

Premier Bennett announced his warning to the radical Doukhobors when he announced an eight-point program in an effort to settle a problem that has plagued British Columbia for 50 years.

A relocation plan has been under study, with the possibility of the Doukhobors finding new homes in Central America.

The religious sect numbers about 2,000 of the some 10,000 Doukhobors in the Kootenays.

A later report to RCMP said two houses were burned in Krestova and five at nearby Goose Creek. All are Sons of Freedom dwellings.

MURDER CHARGE LAID IN DEATH OF SEAMAN

VANCOUVER (CP)—Harold Ernest Graham, 41, has been committed for trial on charge of murdering a fellow seaman in a tugboat brawl.

Sylvio Zanatta, 39-year-old, died May 9 from injuries received in a fight aboard the tug Lapointe while it was berthed at Bellingham, Wash.

41-Year-Old Siamese Twins Undergo Surgery at Boston

BOSTON—A 41-year-old Siamese twin, Margaret Gibb, underwent major abdominal surgery for removal of a fibrous tumor in a case new in the annals of medicine.

Margaret and her sister, Mary, who also was anesthetized, were reported in excellent condition after the two-hour operation performed at New England Deaconess Hospital by Dr. Frank Lahey, head of the Lahey Clinic.

The surgeon refused to discuss exact nature of the operation but did say he found no evidence of malignancy.

He also said the operation marked the first time that major internal surgery had been performed on a Siamese twin over 40 years of age. The sisters, from Holyoke, Mass., are joined at the base of the spine, and have, in effect, a common circulatory system. They were administered penothal and cycloprane for the operation.

They entered the hospital last Wednesday and nurses said they were cheerful and calm as they underwent tests in preparation for the operation.

Dr. Lahey quoted Mary as saying that her "only concern was for Margaret."

Jury Reduces Murder Charge

NEW WESTMINSTER (CP)—An assize court jury Saturday brought in a reduced verdict of manslaughter against Henry Cooper Pennier, 23, in the rifle-slaying February 7 of his common law wife, Rita Thompson, 20.

Pennier was originally charged with murder. Sentence will be passed at the end of the assizes.

Miss Thompson's body was found with the skull fractured and a .22 calibre bullet wound in the back of her head.

CORONATION BONERRE
HALIFAX (CP)—Paul Silver, district Boy Scout commissioner, said Scouts are preparing to set up a huge bonfire in honor of the Coronation June 2. Special ceremonies with appropriate songs and prayers will be held around the beacon.

Had your aluminum today?

CHANCES are you have, because practically everything we eat—grains, vegetables, meat, milk, eggs—contains aluminum. This is not surprising, since one-eighth of the earth's crust is aluminum.

Aluminum is most readily available commercially, however, in the form of bauxite ore. Alcan ships this ore from South America to feed its pot lines at Arvida, Maligne, Shawinigan Falls and Beauharnois, P. Que. When the huge new Kitimat development is completed in B.C., refined ore will be shipped up the West Coast from South American or other abundant sources. Aluminum Company of Canada, Ltd. (Alcan).

A SUCCESS STORY OF INTEREST TO B.C. (Reading Time: 1 Minute)

HOW EASTERN CANADA REJECTED THE SOCIALISTS

... and forged ahead industrially

There are 11,000,000 out of Canada's 15,000,000 people living in Ontario, Quebec and the Maritimes.

These Canadians elected only two Socialists to the Federal Parliament at the last election. Two seats out of a total of 190.

In Provincial Legislatures of the East there are 329 seats. Socialists today hold 4 of them.

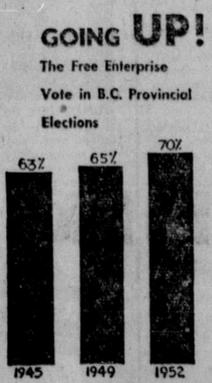

Thus of 519 legislative seats, Federal and Provincial, the C.C.F. holds only 6.

In the last Provincial elections in Ontario, NOT A SINGLE SOCIALIST WAS ELECTED TO THE LEGISLATURE FROM THE HIGHLY INDUSTRIALIZED CITIES OF TORONTO, HAMILTON AND WINDSOR.

For British Columbia, it is worth noting that the East is experiencing the greatest boom in its history—it is getting the kind of investment capital that spells progress.

East or West, ONLY FREE ENTERPRISE can promote new industries, payrolls, jobs, opportunities.

SPORTS ROUND-UP

By GAYLE TALBOT

CHICAGO (AP)—Desperately eager to take the so-called minds of boxing fans off something that happened a week ago last Friday night at Chicago, the International Boxing Club will shortly announce plans for a heavyweight title fight here in September between Rocky Marciano and Roland La Starza.

This will come as bad news to the several managers of Edward Charles, a former champion, but the IBC really has little choice. It wishes to hold the next big one in a local ball park for a number of reasons, and the men who run the cauliflower cartel regard Charles as a poor draw in these parts. They have reasonable hope that La Starza, a Bronx boy, can be bally-hoed into a business-getter in his own right.

We believe Al Weill, Marciano's manager, when he declared he has no choice between the two foremost challengers. He firmly believes that Rocky is good enough now to whip both of them the same night.

Actually, if the Marciano forces are to be suspected of fearing either man, the more logical choice would be La Starza. Back three years ago he gave Rocky the closest brush of his unbeaten career.

Where La Starza is young (25) and at his physical peak, Charles has been putting on the years and there are those who seriously doubt the Cincinnati bull-fiddle player would like

Marciano's game. At any rate, what we started out to do was tell you something about La Starza. For a boy with his record—55 fights, 52 wins, 24 knockouts—the butcher's son has gained remarkably little fame and has made but little money up to now.

Both La Starza and his worried-looking manager, Jimmy Deangelo, showed up at Chicago the first of last week and for five days spent most of their waking hours sitting around the hotel suite where the fight clan gathered. Boxing writers were there from all over the country, and it was obvious the pair wanted to get acquainted. You might say they were lobbying. They did a good job for themselves.

They aren't building heavyweights like they used to. Standing next to former champion Jimmy Braddock, La Starza looked no bigger than a middleweight. He's deceptive, though. His 190 pounds are beautifully distributed over his 5-10½, and only his wide shoulders, seen from front view, give him away.

FOOD FOR THOT, British Columbia contender for the Queen's Plate, has arrived in Toronto for the 94th running of the spring classic June 2. The three-year-old son of Cum Laude was bred and is owned by Dr. L. H. Appleby, prominent Vancouver surgeon. Before coming east the colt had a workout of seven furlongs in the sparkling time of 1:27. He is shown with his groom, Ernie Marginson.

Extensive Works Program Outlined For Curling Club

A heavy program of work to improve the curling rink at Seal Cove was outlined for the coming season by Curling Club president Jack Laurie at a recent executive meeting. Beginning June 3, volunteer members will be asked to spend three hours every Wednesday night (from 7 to 10 p.m.) until the work program has been completed.

First on the agenda, members decided, is to overcome the problem of excessive ice heaving. Volunteer workers will be allowed a credit of \$1 an hour for a maximum of \$10.

Other projects included in the works program: Installation of low level eave-troughs on the outside of the building at the home end and at ice sheet No. 3.

Arrange that refrigeration be turned on one month before making ice. Obtain prices on defroster equipment to overcome condensation.

Establish a reserve fund with nearly budget to provide for refrigeration equipment, etc.

Consider a seasonal contract for ice-making.

Complete drainage ditches, eave-troughs and slope grading around the building.

Install permanent drain holes in far end of building at all three sheets to allow water release when ice is being washed.

Install a 3000-watt heater in hot water tanks; insulate main water lines in the club house to prevent freezing.

Install water-lines at home end of ice to facilitate washing and flooding of single sheets when curling is in progress.

De-moss the roof of the building with consideration for staining or painting shingles.

It was also decided to accept

a few more applications for membership. Payment of the \$100 membership fee will be allowed with a \$10 down payment and a monthly \$10 payment until balance is paid in full.

Should a member leave the city or have to withdraw from the club for other reasons, all fees paid will be refunded, except any current dues during curling season.

The following committees and their chairmen were named by the president:

Finance—Neely Moore, chairman; Bob Rudderham, Gordon Bateman.

Membership—A. J. Dominato, chairman; Rusty Ford, Bob Rudderham, Mel Matthews.

Ice—Gene Holliston, chairman; Ford, Percy Berg and Ken Warren.

House—Lindsay Eby, chairman; Matthew and Holliston.

Draw and Competitions—Bill Baxter, chairman; Warren and Berg.

Umpire and Rules—Bateman, chairman; Baxter and Eby.

Volunteer Labor—Bill McKenzie, chairman; Harold Thom and Moore.

Members of the volunteer labor committee were also named as members of all other committees.

Plane Fails In Takeoff

AMSTERDAM—A KLM Royal Dutch Airliner failed to get airborne on its takeoff run near here today and plowed through the end of the runway into a crowded road. Two passengers on the road were reported killed and 27 others injured.

Four Modern Major League Records Set in Night Games

Night games turned into night mares in the Major Leagues on Monday night.

- A modern major league record for consecutive strikeouts.
- Longest nine-inning game in the history of baseball.
- A run scored on a "three base walk" plus a balk.
- One club using 23 players equalling the American League record.

Max Surkont of the Milwaukee Braves struck out seven Cincinnati batters in a row, waited 38 minutes for a rainstorm to subside then fanned one more for a modern record. He won the game 10-3 for his sixth in a row. He hasn't been beaten.

Boston Red Sox needed three hours and 52 minutes to whip New York 14-10 at Yankee Stadium.

In the ninth inning Joe Collins went all the way round for free. He walked, advanced to second and third un molested and scored on a balk by Ellis Kinder.

Chicago White Sox edged St. Louis 7-5 although the Browns threw 23 men into the fray to tie the American League record.

NATIONAL
St. Louis 14, Chicago 3

REAL VETERAN
STELLARTON, N.S. (CP)—Edward Mitchell, who recently celebrated his 95th birthday, has been a lodge member for 62 years and is still pretty active.

Alabama annually produces more than 500,000 bales of cotton lint.

OUTDOORS

With Marty —

During the past week anglers at Fairview Flats captured two female specimens of a creature not usually found in less than 40 fathoms, and much interest is shown concerning them. They are not properly to be called fishes, for they have not evolved sufficiently for that title, being allied to the lower orders of sharks and rays, (skates), they are minus gillcovers and have a fleshy flap which closes the single opening on each side of the head.

Skin is smooth and scaleless, head is overly large while the body tapers to a pointed tail, mouth is shaped like a rabbit's and there are strong knife-like teeth set in a bony jaw. The dorsal fin is high and large with a capable spike three or more inches long, and the color is silvery, but reflects many other colors very attractively.

These creatures are called Rat-fish, and are the only members of the family Chimaeridae, proper name being Hydrologus collieri. No commercial use has so far been made of them, but a valuable oil may be extracted from the liver upon mild heating; this oil will not gum and is tops for oiling guns, etc., and is odorless. Do not be indiscreet

around the mouth of a Rat-fish, they DO bite, and painfully. The specimens Marty witnessed were about two feet long, and were almost certainly on a spawning migration, since the young ones are sometimes captured in shrimp trawls during the fall.

Authentic figures on halibut sizes are: male 55 inches long and female 105 inches; weight of 470 pounds and age 35 years is recorded, and the males attain 40 pounds and 25 years; maturity is reached by females between eight and 16 years, the average being 12; males mature much earlier.

Evidently not enough attention is paid to the value of jigging for salmon in the chuk by local anglers. One crew member on the Princess Norah appears to have the art down pat for he took two springs, 14 pounds and 18 pounds, by this method during the weekend. His tackle is 8-oz. lead on hand-line, a No. 4 diamond spoon about four feet up; lead is sent to bottom then the lure is jigged in full arm-length snatches, lacerations perhaps, but certainly effective.

YEW LEE, NEAL CHAN and PANG WONG are meeting good success with dollies at Port Edward, a splendid run of fish better than two pounds are taking practically anything thrown at them around high tide.

Certain anglers are throwing an extra amount of work on the local Game Warden's staff by failing to take fishing licences with them on trips to Terrace; patience might wear thin, so perhaps it would be a good idea to have your license available for inspection upon official request.

Float and dock fishermen need not use hooks smaller than 5/0 this size will hold fish of 50 pounds or more, and are easily accepted by dollies too; better be on the safe side for that big one!

A very recent expedition along Silver Creek discloses the presence of a fair number of steel-heads in the first mile; this mighty pretty water beckons the flyrod enthusiasts in that there is ample back-cast space, many inviting pools, pictures aplenty, and easy travel now that the down-timbers are cleared; why not go see?

Somewhat of a lull in Derby entries of late, only a 3-pound jack spring weighed in last Sunday, weather probably more favorable for picnicking than trolling, methinks! Skate showing up with slight increase in water temperature, the occasional halibut is reported by two sport trollers who allowed spoons to get too deep; the latter are welcome accidents!

B.F. Goodrich Tubeless Tire

Because **IT HAS NO TUBE**

It may save your life...

The B. F. Goodrich LIFE-SAVER Tubeless Tire gives you maximum protection against the hazard of blowouts and dangerous skids, that frequently result in serious injury, and even death.

It can save you trouble...

The B. F. Goodrich LIFE-SAVER Tubeless Tire seals punctures on running wheels, protects against the annoying trouble caused by flat tires.

Act now to prevent this!

It will save you money...

The B. F. Goodrich LIFE-SAVER Tubeless Tire provides greater safety than any tire and tube, yet it costs less than the conventional safety tire-tube combination.

PUNCTURE PROTECTION

A gummy rubber compound under the tread immediately seals around puncturing objects, and permanently seals the hole when the object is removed. Inconvenience and delays are eliminated.

BLOWOUT PROTECTION

Instead of a tube, the LIFE-SAVER has a patented inner lining that's part of the tire. In event of damage there's no sudden blowout, only a small break in the liner, a s-s-s-slowout that lets you stop safely.

SKID PROTECTION

The LIFE-SAVER tread is cross-cut into thousands of tiny grip-blocks. At 30 miles per hour on wet roads, it stops you a car length quicker than regular tires... and gives you longer mileage too.

Your B.F. Goodrich dealer now has the

BLACKWOOD on Bridge

By EASLEY BLACKWOOD
Effective Defence Demands Quick, Resourceful Thinking

More errors are made in defending than in any other department of the game. One reason for this is that current textbooks stress bidding almost to the exclusion of material on defensive tactics.

Another reason is that defensive play is intrinsically more difficult than playing as declarer. The declarer can see his partner's hand and can plan his play, considering the 28 cards as a single unit.

A defender can see the dummy but he cannot see his partner's hand. A serious disadvantage. Successful defensive play requires keen thinking, spur-of-the-moment decisions and alertness to the necessity of changing your original plan.

Often a defender will dignify his error by referring to it as "an unfortunate lead." And of course some leads which give declarer a trick he does not deserve cannot be properly called errors.

It seems to me, however, that if a defender makes a certain lead when, by logical reasoning, he could have done better, then he should be charged with an error. What would you call Mr. Abel's lead at trick three in today's deal?

Mr. Champion led the 10 of hearts and Mr. Abel won the first two tricks with the ace and king of that suit. He then led the queen of hearts as he knew his partner was out of the suit.

Mr. Dale ruffed with the 10 of spades—and Mr. Champion did not overruff, but sluffed the seven of diamonds.

Question: who has the king of spades? Obviously, Mr. Abel. If he has it guarded, it is sure to win a trick. The only hope is that it is a singleton. So Mr. Dale promptly led a spade to the ace. Curtains.

Since Mr. Dale had bid and rebid spades without any of the

All Pass			

four top honors, wasn't it almost certain he had the 10? Mr. Abel should not have taken the chance of giving the enemy a blue-print of his hand by leading a third round of hearts.

A diamond return at trick three was the best bet. Now with four trumps out, undoubtedly Mr. Dale would have taken the spade finesse—his best play. The king of spades and the king of diamonds would have set the hand.

Question: who has the king of spades? Obviously, Mr. Abel. If he has it guarded, it is sure to win a trick. The only hope is that it is a singleton. So Mr. Dale promptly led a spade to the ace. Curtains.

LATE NEWS FLASH!

TAWAWA JUNC.
"Currie," sensational arm yse, passed through today on its way to Prince Rupert, B.C., where he is scheduled to make a number of personal appearances.

On being interviewed, the clever animal mentioned his disappointment at not being at Prince Rupert to hear Art Laing on Saturday night. "Currie," according to reports, knew Laing quite well, having been introduced to him at the last session in Ottawa.

Wearing his service medals proudly, "Currie" created quite a sensation... and will no doubt do likewise at the Pacific Coast City.

Moscow Declines To Attend Meet

LONDON — Moscow radio disclosed that Russia has declined to attend a four-power conference on the Austrian treaty, scheduled for tomorrow.

Deputy Soviet Foreign Minister, Jacob Malik, said: "There is no reason to suppose that the conference now proposed would give more favorable results than preceding conferences."

Singapore Plans Costly Celebration

SINGAPORE (Reuters)—Singapore is preparing to celebrate the city's churches, mosques, temples and synagogues. But the serious theme of services with dragons and fireworks the Coronation of the Queen. Loyalty and goodwill will be too.

For this historic week, Singapore's more than 1,000,000 Chinese, Malays, Indians, Singalese, Eurasians and Europeans are planning the greatest, and the most expensive, celebration in the settlement's history.

It is so expensive that voices were raised in alarm at the cost of one item alone — 2,000,000 straits dollars (\$658,000) for a street procession of decorated vehicles.

The voices were stilled when it was explained that public monies were not involved but that the cost was being met privately by the hundreds of Chinese participating.

This procession, composed of more than 300 decorated vehicles, will stretch two miles through the gaily-festooned city streets. There will be Chinese dragons whose long, writhing sliken bodies will be borne on the backs of innumerable coolies.

Out of the sea each night, snaking along the waterfront, will be another dragon, a 400-foot monster in the western sea-serpent tradition.

Coronation Day there will be a vast military parade of all services. Free meals will be given to the poor.

At night, rivaling the Chinese procession, will be a great waterfront firework display provided by the Indian Chettiar community, many of whom in Singapore are money-lenders.

MRS. M. SMITH OF SARNIA is one of 1,000 persons made homeless in the Western Ontario city when it was crushed by a devastating tornado. She was pinned in the wreckage of her home for nearly an hour before rescue workers could free her. This photo was taken just after she was removed from the rubble of her home.

SCREEN ★ ★ FLASHES

By CYNTHIA LOWRY

NEW YORK (AP)—Mary Pickford, now 60 years old, is one living legend without nostalgia.

Still golden-haired, but with a chic, short hair-do, the Toronto-born sweetheart of the early silent screen is a youthful, slim figure in high fashion clothes, modern as tomorrow's newspaper and as friendly as the lady next door.

Interviewed in her flower-filled New York hotel suite, she was as full of the future as a June college graduate, looking back warmly and without regret on the fabulous 54 years of her theatrical career.

Mary Pickford made her last movie 20 years ago. She's thinking about television. She's a founder of a major film company but it satisfied now to reap her reward as a major stockholder. She reigned supreme over Hollywood for years. Now as an abdicated monarch she seems perfectly content in bringing up her two adopted children and indulging her enthusiasm for volunteer work and hobbies.

BOND-SELLING TOUR

Now she is on a 13-city tour to stimulate sales of U.S. savings bonds.

In talking, her vivacious face took on that earnest, serious-little-girl look that another generation of movie fans adored.

She talked of going on the stage at six, barnstorming and playing the stock circuit with her widowed mother and younger brother and sister.

"I never had a real childhood," she said. "What I had, I lived out on the stage, playing little girl roles. It wasn't all bad. There was lots of laughter and we were together and we always had enough to eat."

ON BROADWAY AT 10

She told of the day she stormed her way in to see the great David Belasco and got her first Broadway role. She was 10 years old.

"I believe I was guided; I'm sure I was," she concluded. "There was one chance in a million I would have been successful."

See us to discuss that new construction

"Our yardstick is one millionth of a second"

"Airport overcast! Where's the plane that wants to be 'talked in' for a safe landing?"

"We send out a short burst of radar detector waves, they find the plane and bounce back on our radar screen. We've got him spotted and can guide him down to the runway."

The Ground Control Approach (G.C.A.) Technician grins.

"Radar waves travel at the speed of light so if the 'echo' took two seconds to reach our screen, we'd know the pilot was at the impossible distance of 186,000 miles from base. But, of course, he's only a few miles away, so distances have to be measured in millionths of a second—all done by automatic electronic computers."

G.C.A. uses radar tubes small enough to put in your pocket but more powerful than Canada's largest commercial radio transmitter! G.C.A. is a major safety factor on any landing field in the RCAF today... and the men who operate it are highly skilled technicians.

For interesting and important work in the service of your country, it's hard to beat the Air Force. The Air Force will teach you an important aviation trade for which you can qualify and for which you show special aptitude.

There are immediate openings for men to train as
RADIO-RADAR **ARMAMENT**
AERO-ENGINE **INSTRUMENT**
ELECTRICAL **AIRFRAME**
TECHNICIANS

Have a chat with the RCAF Career Counsellor at the address in the coupon—or mail the coupon today. When you go to the Recruiting Unit, be sure to take with you (1) Birth Certificate; (2) Proof of Education and (3) Marriage Certificate, if applicable.

Rosenbergs Again Refused Court Hearing

WASHINGTON (CP)—The United States Supreme Court refused for the third time Monday to grant a hearing to the condemned atomic spy couple—Dr. and Mrs. Julius Rosenberg. President Eisenhower rejected their plea for executive clemency last February and apparently Monday's high court ruling means the only hope the Rosenbergs have for escaping the electric chair is to tell the U.S. government whatever they may know about atomic spying.
