TUIUMIE Ruthless Ruler For

25 Years By the Associated Press

Joseph Stalin, the "man of steel" who "rose" from a student of the priesthood to a revolutionary agitator, has ruled Soviet Russia with a strong and ruthless hand for 25 years.

Today he is either very ill, or dead. At any rate his career appears to be ended.

And whoever will succeed the arch revolutionist cannot avoid being overshadowed by a history carved by an iron fist under which lives fell like that of wheat before the scythe during the now-famed Red Purges.

A Costly Strike

THOUSANDS of dollars are being lost daily as I the strike of grain workers continues in Vancouver and New Westminster. Five elevators in the two cities have been idle now for 17 days.

Twelve ships are anchored in the harbor, and still there are no signs of a settlement.

The grain handlers, members of the Grain Elevator Workers' Union (CIO), went on strike February 16 to back up demands for a 121/2-cent increase over their present wage of \$1.50 an hour, made after operators had rejected a five-cent boost recommended by a conciliation board.

In effect the strike has virtually tied up the majority of export grain shipments out of British Columbia. There are small elevators working in North Vancouver, Victoria and here in Prince Rupert, but they only handle a fraction of the millions of bushels of wheat exported from British Columbia during the crop year.

Meanwhile, J. L. Phelps, chairman of the Prairie Interprovincial Farm Union Council, is attempting to get mediation started through the federal Department of Labor.

Owners of the idle ships estimate costs at between \$1,000 and \$1,200 a day. The union claimed last week that the railways-Canadian National and Canadian Pacific-and the elevator companies are losing \$500,000 a week by the strike.

Seven ships at anchor in Vancouver harbor are costing their owners upwards of \$1,000 a day in wages, cost of general upkeep, feeding the complement, heating and other costs. Some ships tied up at docks are paying another \$150 a day berthing charges.

Union spokesmen and agents of the elevator companies say there is "no change" in the strike picture.

At this time last week hopes for an early settlement were high. The union accepted the offer of Mr. Phelps to mediate the dispute. But nothing has happened.

The strikebound elevators are: United Grain Growers Ltd., Alberta Wheat Pool, Pacific Elevators and Kerr-Gifford in Vancouver, and Searle Grain in New Westminster.

More than 8,000,000 bushels of grain are tied up in the elevators.

FRANCOIS LAKE

The annual meeting of the Farmers' Institute was held for the election of new officers for

1953 with the following results: President, Robert Peebles; vicepresident, K. Shaffer; secretary A. Peters; directors, D. Eaton and J. Keefe; auditors, Rev. A. Atkinson and H. H. Neave.

There were thirteen present at the meeting. The most important topic brought up for discussion was the prospect of bringing in electric power to this district from Burns Lake.

It was decided to have the usual St. Patrick's Day dance in the hall here.

British Columbia will have the largest plant of its kind on earth.

\$500,000,000 FOR POWER 6000 NEW JOBS

A NEW CITY OF 50,000 IS IN THE MAKING

That's the exciting story told in the leading article of the March "Reader's Digest" of a modern miracle created by free enterprise. All North America is reading and talking about it.

The Aluminum Company of Canada's smelting plant at Kitimat is hailed as "the most spectacular Canadian construction feat since the Canadian Pacific Railroad."

In glowing terms, the article classifies the 1,650,000 horsepower hydro development as the equivalent of Bonneville Dam, Shasta Dam, and Wilson Dam at Muscle

Kitimat will be the largest aluminum smelting plant on earth with an annual capacity of 550,000 tons, equal to 65% of present U.S. production.

In the building, more than \$500,000,-000 will be spent, much of it pouring into the bloodstream of British Columbia's economy. More than 6000 men are at work, creating a city at Kitimat where, by 1954, there will be 7500 inhabitants. When the plant is operating to capacity, it will have a population of 50,000 to rank it as British Columbia's third citywhere none existed before.

This is a spectacular example of free enterprise at work. The decision to build Kitimat was influenced by the existence in British Columbia of a population which repeatedly has endorsed free enterprise. Only under the stimulus of a free enterprise government will MORE industry be attracted to British Columbia. Good jobs and job security depend on the freedom system . . . and confidence.

After her Town Hall debut last December in New York she was acclaimed by the New York critics. She signed a three-year contract with one of New York's important agencies, Judson, O'Neill and Judd. This starts June 1. Meanwhile, she has a series of concerts to give in Ontario and Quebec.

Still a bit dazed by the swift moving events of the last few months, Miss Marshall, five feet tall, with warm, brown eyes and expressive features, admits it has been "hard, hard work."

She has had to battle long odds most of the way. She suffered from polio between the ages of two and eight, and still has slight limp. Her voice, when she started training at the Royal Conservatory of Music, Toronto, 14 years ago, was high and light. Now it ranges more than three octaves from D below Middle C to F above high C.

day at the Totem Theatre. In a story mixing laughs and tears. Skelton plays the role of Dodo Delwyn, once a famous Ziegfeld comedian who through drinking, gambling and quarreling has descended close to the bottom of the entertainment ladder. His wife, Paula, has divorced him and has remarried but has permitted him to keep their little son, Dink, It is Dink whose hero worship of and devotion to his father buoys up the latter in his darkest moments, when circumstances land him in jail, Dodo is convinced the boy would face a happier future with his mother and wellto-do stepfather. Desolate and inconsolate, he cannot show interest in a come-back via television, offered him by his former Ziegfeld agent. But now Dink runs away from Paula, unable to endure the separation from the father he adores, and the child's devotion inspires Dodo to make his last try. His debut on television is an overwhelming success but the strain has been too much for his heart and he dies on the crest of a new suc-

The famed comedy team, Bud Abbott and Lou Costello, combine their talents again in what is reportedly their funniest screen offering. It's "Abbott and Costello Meet Captain Kidd," a Woodley production in Supercinecolor for Warner Bros. with Charles Laughton playing Captain Kidd in the new film. It opens Thursday at the Capitol Theatre.

The story tells how Captain Kidd, with his pirate crew, sails to the island of Tortuga for a rendezvous with a beautiful blonde buccaneer competitor and then becomes involved with two tavern waiters. When Kidd mistakenly receives a love note, and the map to a hidden treasure falls into the hands of the waiters, hilarious complications result. As the tavern waiters who vie with Captain Kidd in search for buried treasure, comics Abbott and Costello are given ample opportunities to display their zany antics.
