Queen To Be Colonel-in-Chief Canadian Guards Regiment

The Queen has received approval from Army HQ for the design of the badges, buttons, and rank to be worn by members of the recently formed Canadian Guards Regiment. The centre above is the hat badge with the collar badge to the left and a Major's crown on the right. The lower is the button design while right lower corner shows the new "pip" with the flash below.

Regiment of Canadian Guards. Royal approval has been received for regimental badges, buttons and rank insignia. Ceremonial dress will include scarlet uniforms and black bearskin headgear. At first, only the bands of the regiment's four battalions will wear the ceremonial uniforms, which will add a colorful touch to future Canadian military pageantry.

The new cap badge for the guards is a 10-pointed silver metal star, the points representing the 10 provinces. On top of the star is the gold crown of St. Edward and in the centre, a sprig of three gold maple leaves on a red enamel field, surrounded by the motto "a mari usque ad mare"—from sea to sea—of Canada's coat-of-arms.

At the suggestion of the Queen, stars required as officers' insignia of rank will be miniatures of the cap badge without the crown.

A shoulder flash denoting the battalion and regiment will be worn on the battledress. It will be on a white and red background.

The guards will wear blue forage or peak caps. All officers will have gold braid on theirs.

Por Cow Bay Float Repairs Hindrance to Big Project

Work for the Cow Bay government officials to discuss the emergency situation, Mr. Applewhite wrote that "against my strong advice" in several quarters, both at Prince Rupert and in Ottawa, the provincial government was permitted to get out from under and turn these floats over to the federal government on short notice and in winter months where there was no possibility of spending a cent because, not owning the floats, we had no appropriation available for them."

Mr. Applewhite said that, although the federal authorities owned nothing but the water lot, and considerable time would be required to get the necessary approach and other shore property, they had agreed immediately to repair the floats or replace them in time for the fishing season. He added that, to save time, the job most likely would be done through a local contractor without calling for tenders.

"It is my understanding that quite a major job is intended for this location," he continued. "But major jobs are not done overnight, and this one would involve taking over additional property and, I think, installing a much better approach to the floats than the one now in use. So, without prejudice to the major project hoped for, I persuaded them to do the emergency work at once."

Hunt Broadens For Fugitive

BURNABY, B.C. (CP)—A man hunt was spreading out through British Columbia Monday night for Lawrence Corbett, 18, who escaped from Oakalla prison farm here.

Corbett was serving two years less a day for a series of armed holdups. When he was convicted, city prosecutor Stewart McMorran told the court Corbett "hasn't been the same since a man killed his sister."

THE WEATHER Forecast
North coast region — Cloudy with scattered showers today and Wednesday. Little change in temperature. Winds southerly 15. Low tonight and high Wednesday at Port Hardy, 44 and 50; Sandspit and Prince Rupert, 42 and 50.

Chamber Will Repeat Demands For Drydock Operation Figures

ATHENS (Reuters)—A strong earthquake today shook the town of Tropaia in northern Greece, cutting off all phone communications.

The new tremor struck a few hours after a strong quake hit far in the south of Greece, in the Dodecanese islands just off Turkey.

Friday severe quakes battered towns in central Greece, killing more than a score and injuring more than 100 persons, and destroying 3,800 homes.

The Tropaia quake and the tremor in the Dodecanese islands were recorded by the Athens observatory.

Local Interests Need Financial Statement

Renewed demands that the CNR be called upon to release profit and loss figures in connection with its operation of the Prince Rupert drydock and shipyard were made last night at the monthly meeting of the Chamber of Commerce.

"There is no way to fight this game unless we have a financial statement," T. B. Black, maintained. "Moreover, there is no way of determining what part of the subsidy goes to depreciation or to interest on debts which, for all we know, should have been retired long ago."

A motion was carried that Mr. Applewhite should be asked to determine what subsidies were being received, both directly and indirectly, for west coast operations. In dissenting, Joe Scott said enough requests had been sent to Mr. Applewhite without asking for information of no specific use.

past seven or eight years. Emphasizing the need for the subsidy to be continued here, Norton Youngs deplored an attitude which seemed to be prevalent that the expenditure was not justified "so let the government take it away."

Cliff Gilker pointed out that, unless this information was made available, there was little chance of local interests joining together to buy all or any part of the property. He believed the figures should be made known so that the feasibility of such action could be studied.

As chairman of the city drydock committee, Orme Stuart reported he had figures on the drydock's general revenue showing that \$320,000 was received annually from repairs and docking, and \$150,000 from other revenue. He reminded the meeting that, on a recent visit to Prince Rupert, Bernard Allen, CNR representative in sale negotiations, had said a full break-down of figures would be made available here only if a local group showed a definite wish to enter negotiations.

Finally it was agreed that E. T. Applewhite, MP for Skeena, should be asked to approach the department of transport with a view to having the CNR release the information.

'Quake Rocks Greek Town Cuts Phones

ATHENS (Reuters)—A strong earthquake today shook the town of Tropaia in northern Greece, cutting off all phone communications.

Delegation of Vietminh Join Geneva Peace Talks

GENEVA—A five-man delegation representing the Communist Vietminh rebels of Indo-China arrived by plane from Moscow today to begin talks at the Far East conference here aimed at ending the seven-year-old Indo-China war.

The arrival of the delegation, coincident with the new Vietminh assault on the besieged French Union fortress of Dien Bien Phu in Indo-China, took the conference spotlight away from the Korean question, on which Canada's L. B. Pearson was scheduled to speak today.

The Canadian external affairs minister had originally planned to speak Monday, but changed his plans. The Korean debate has bogged down at the conference in the last few days.

The delegation of Indo-China rebels, headed by their deputy premier and foreign minister, Pham Van Dong, was met at the airport by an impressive array of Communist dignitaries. Among them was Russia's deputy foreign minister, Andrei Gromyko; Red China's premier-foreign minister, Chou En-lai; and the North Korean foreign minister, Nam Il.

In a statement after he stepped from the plane, Pham said the Vietminh delegation is "disposed to continue all its efforts toward peaceful solution of the Indo-China question."

Pham shook hands first with Chou and after a round of greetings, drove off in the Chinese diplomat's limousine.

Representatives of the French-sponsored, associated states of Indo-China, Viet Nam, Laos and Cambodia, are still in Paris, but they can get here in little more than an hour by plane once a starting time for the talks is set.

These four delegations, together with representatives of the Big Four and China, will make up the conference which will seek to end the war.

Many Attend Dudoward Rites

Hundreds of residents of Port Simpson, Kitkatla, Prince Rupert and District crowded the First United Church and lined Third avenue yesterday to pay last respects to Captain Rufus Dudoward of Port Simpson who died here last Wednesday night.

The Port Simpson 18-piece band led the funeral cortege at a slow march through the city en route to Fairview Cemetery, following an impressive service in the United Church at which the Rev. L. G. Sieber officiated.

Pallbearers and honorary pallbearers, chiefs of Port Simpson and Kitkatla and officers of the Port Simpson Athletic Club and Young People's Education Association escorted the hearse.

Ex-Minister Dies in Victoria

VICTORIA—James William Jones, 85, minister of finance in the Tolmie government from 1930 to 1933, died Sunday at his home here.

He was mayor of Kelowna from 1912 to 1917.

He was first elected to the provincial legislature in 1916, and was re-elected in 1920, 1924 and 1928.

Funeral will be held Thursday.

City's Quota Of Sunshine Gets Bigger

Despite the apparent "return to normal" being experienced at the moment, Prince Rupert is getting more sunshine all the time. Figures for April, provided by the weatherman, show that the sun shone more last month than it did in April, 1953. However, last month was colder and failed by 15 degrees to reach April, 1953's high temperature of 65.

Digby Island weather station shows 147.4 hours of sunshine for April, 1954, as compared to 140.3 for the same period last year. However last month's high temperature only came up to the 50 degree mark while in April 1953 the mercury climbed to 65.1. The low temperature for April last year was 29.1 degrees and this year the mercury slipped to 23 degrees. The mean temperature for the month just passed was 38.48 degrees compared with 45.18 last year.

Last month the temperature hit the maximum mark on the 19th, 22nd and 23rd, while the coldest day recorded was on April 3.

There were 15 days of measurable precipitation during which 6.32 inches of rain fell and 2.4 inches of snow. Snow cover for the last day of April was nil.

Maximum wind velocity at Digby reached the 43 mile-an-hour mark and this figure was recorded on April 15.

Patience Needed For Peace Massey Tells U.S. Congress

WASHINGTON—Rt. Hon. Vincent Massey, governor-general of Canada, today said peace "can be won only by the quality of infinite patience."

In a prepared address, the first ever delivered to a joint session of Congress by a Canadian governor-general, Mr. Massey said Canada believes as the United States does "that the problems of our time cannot be solved by military strength alone."

"The line can be held only by the deployment of force but the objective—peace—can be won only by the quality of infinite patience. In our collaboration, we may not always agree on every detail of the plans we must discuss together but there is no difference between us on the fundamental aims which we pursue; we may differ now and then on the 'hows' but never on the 'whys.'"

Mr. Massey's address to the joint session of the Senate and House of Representatives was the highlight of a 2½-day official visit by the governor-general to the U.S. capital where he opened Canada's legation in 1927. He is the first governor-general in 17 years to address any congressional House and the second in history. The first was Lord Tweedsmuir, who spoke to the Senate and House of Representatives separately in 1937.

Mr. Massey said the United States can depend on Canadians as faithful friends and comrades.

Survivors Of Crash Improving

TERRACE—Nine Terrace district people, injured in the tragic car accident here Sunday night which took three lives, are in "improved condition" in Terrace General Hospital.

Meanwhile, RCMP are continuing investigation of the crash in which a Prince Rupert car, owned by Dennis Waters and a Terrace car, owned by Miles Bell, collided head on, on Highway 16 a mile and a half west of this city. Dennis Waters, Mr. Bell's 18-month-old daughter Carol Ann, and five-year-old Fred Wesley were killed in the crash.

In hospital are Mr. and Mrs. Bell their other two children, Judy and Terry, Mr. and Mrs. Joseph Wesley, parents of the dead boy, Miss Melissa Panasuik, James Bolton and Stanley Walker, all of Terrace district. Also hospitalized briefly was Bill Becker, son of Fire Chief Earl Becker, who suffered broken teeth, cuts and shock. Becker has since returned home to Prince Rupert.

The three Wesleys and James Bolton were picked up on the highway by the Bell car, only about 300 yards west of the crash scene. The Bell car was bound for Terrace and the Waters car reportedly was heading east, attempting to catch a train which the boys had missed in Terrace.

To Probe Death On Waterfront

Deputy Coroner George Dawes said this morning he will open an inquiry into the death of James Blake, about 70 years of age, whose body was found this morning aboard his boat the "Kay-O" at the Co-Op Fairview wharf.

Police said they believed Mr. Blake was born in England, and lived in Nova Scotia before coming to this district. An old timer in Prince Rupert he lived for many years on Seventh Avenue West. At the time of his death it is thought that he was living on his boat.

The body, which was discovered this morning at 11 o'clock, has been removed to the B.C. Undertakers.

Mishap Fatal To Young Boy

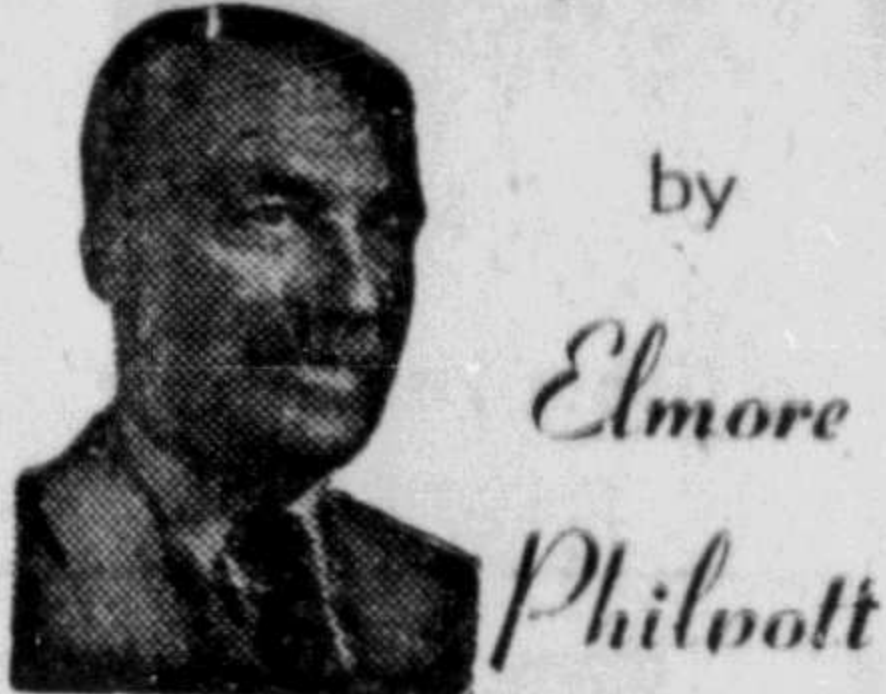

VANCOUVER (CP)—Kenneth Seney, nine-year-old Fort Langley boy, died in hospital here Monday from injuries suffered Saturday when he was dragged by a horse on his father's farm. He apparently toppled from the horse and caught his foot in a rope.

PRESENTATION of the annual Golden Trophy for the best safety record for 1953 to Columbia Cellulose Company Ltd., by Paul E. Cooper (right) is shown above. Mr. Cooper, chairman of the executive committee of the Canadian Pulp and Paper association made the presentation to Dan Doswell of Columbia Cellulose (centre) and Harry Black, safety director for the International Brotherhood of Pulp, Sulphite and Paper Mill Workers (left). The award was made at the annual labor-management safety conference in Vancouver.

As I See It

by Elmore Philbott

Free Asia Peace Key

THE AMERICAN leaders who were pressing for direct military intervention in the war in Indo-China have been rebuffed on two fronts.

Vice-President Nixon's "off the record" proposal that American troops might have to be sent has been hastily withdrawn as the result of the emphatic chorus of opposition from both parties in the U.S.

John Foster Dulles' diplomatic blitz, to line up a ten-power western team to intervene, has also failed. Sir Winston Churchill's announcement in the British House of Commons puts the question on that deliberately ill-timed move.

Now comes the third suggestion, from the American General Wedemeyer, who says that "Asiatic troops on Formosa or in South Korea should be sent to assist the French and Vietnam forces in Indo-China."

This last suggestion would be downright funny if it were not dealing with such a tragic subject, and if it could not lead to a disaster of immense magnitude.

WHO IS General Wedemeyer, or, for that matter, who in the whole United States government has the moral or legal right to assign Chiang's troops or Syngman Rhee's troops to try to bolster up the weakening cause of the imperial power in that harassed Asian country?

It always pays to try to take an Asian viewpoint on all these questions. Both Chiang Kai-shek and Syngman Rhee are regarded throughout Asia, not as self-sustaining leaders with solid support from any considerable number of their fellow-countrymen, but as creatures of the western powers. Stripped of western support, neither Chiang nor Rhee could last more than a few weeks.

To put American pressure on them to order Chinese troops or South Korean troops to offer up their lives in a foreign war would be not only self-defeating, but it would swing the whole balance of free Asian opinion, especially in India, Burma and Indonesia, emphatically against the West.

THERE IS only one way to save Indo-China from Communist conquest. That is the same way which must be used in all the other countries of Asia, the Middle East, and Africa, which have not yet won their full self-government.

That is, to build up a native, democratic movement, based on a program of guaranteed home rule, and complete freedom from imperialist overlordship. It may not be possible in all cases to grant immediate, instantaneous independence. Many of the countries are not as lucky as were India, Pakistan, Ceylon, Burma and Indonesia. Many of the countries literally have no democratic base from which to operate. But moves can be taken which will convince even the most impoverished and illiterate peasants of the Asian lands that the western powers are in earnest in promising the transfer of political control, and actual sovereignty, to the natives themselves.

That has not been done as yet, even in Indo-China. It is only a few months since the King of Cambodia, which is one of the constituent states of that land, was telling the whole world that his country might not resist a Communist invasion because of French reluctance to "come clean" on the granting of self-government.

The plan to "Let Asians fight Asians" is a suicidal and absurd plan. The only plan for real peace is to let the West free Asia and to build friends among these freed Asian democracies to be.

HAN CHI-TUNG, a six-year-old Korean lad, stands before a microphone in Seoul and tearfully reads to the crowd a letter written to his uncle, who is being held by the Communists in North Korea. Some 600 families of South Korean nationals, mostly women and children, staged a demonstration in Seoul recently, demanding that the Republic of Korea and the United Nations take steps to have kidnapped relatives returned by the Reds.

Ray REFLECTS and REMINISCES

The greatest water-power so far known to man is a woman's tears.

When we think of this \$600,000,000 aluminum enterprise right next door, there is ample reason to feel that Kitimat is a promising community. But how many in Prince Rupert realize an aluminum plant was recently put in operation in Norway. This will have an eventual output of 50,000 tons annually.

A bird in the hand can be said to be anything except good mannered, yet it does not lack entertainment. Especially the jolly old drumstick.

There is nothing particularly slow about a government which can take money from tax payers, and then make it resemble a gift when the time comes to hand it back remarks the Stratford Beacon-Herald.

The last hydrogen bomb explosion in the Pacific has been felt in chancelleries around the world. But do not run away with the notion that the situation is not needed elsewhere. Everywhere throughout the world, in humble and anxious fear of the future cannot be dismissed. It's there.

A cold, a snowy and a late spring is not exactly a novelty in Skeena. Umpteen years ago that railway tunnel up river tried to be too darned independent, or rather the weather did. The Grand Trunk Pacific stopped running and passengers used the river where it coursed through the tunnel. There was a lack of comforts and conveniences, but not many.

Latest photos of the Chinese Communist leader Mao Tse-tung who has been ill reveal his face "round and jolly." "Chubby but not chummy."—Ex.

A bank in New Westminster was relieved of \$10,000 shortly after ten o'clock by three masked yeggs who escaped at 80 miles an hour. Millions and millions have been handled, back and forth at Prince Rupert, but we never heard of a robbery—although there was once a bank where a young man was employed as a handy man in the bank's home. He picked up and stowed away whatever caught his fancy—until neatly trapped.

Ontario now has one motor car for every 3.2 people. Unhappily some of the cars take this fractional business too seriously. —Chatham News.

The fellow who looks everybody straight in the eye gives folks small chance to talk behind his back.

Tourists will flock to the old building on Second Avenue this summer where two tall totem poles brighten the entrance and a sign says the establishment is the city's museum. The place was originally a court house, built originally by the late W. H. Vickers and has had a lengthy and busy history.

Bowing and smiling, it was Sir Wilfred Laurier who spent a while at the court house on a sunny September afternoon in 1910. It was his first and only visit to Prince Rupert.

"I look out to the Pacific" said the Prime Minister to the multitude gathered before himself and party "and can realize the approach of passengers and produce coming to the new seaport of the north.

Present-day cars can travel twice as fast as the older ones. And we dare say motor casualties have increased proportionately. —Chatham News.

OTTAWA DIARY

By NORMAN M. McLEOD

Despite the sad minority in which they found themselves, the PC's are a little bit jubilant about the vote on their budget amendment. The feature that pleases them is the fact that the CCF lined up with the government to vote solidly against them.

In theory the CCF as an opposition group, could have been expected to join the Conservatives to vote against the government. But when all the chips were down it was evident that the Socialists were considerably more anti-Conservative than they were anti-government.

That discovery really pleases the Tories. For ever since they adopted their new and present policy of aspiring to be the business party of the nation, their chief political aim has been to show that they really are different from the other political parties. That hasn't been too difficult in the case of the CCF, since the gap between Progressive Conservatism and Socialism is still fairly wide. But in the case of the Liberal Party it has been harder to establish a clear-cut distinction. The margin of difference between the policies of the two old-line parties has narrowed notably in recent years.

Consequently, when the CCF swings solidly to the support of the Liberals, the PC's are elated, even although the government majority in the House benefits. For it casts at least the shadow of Socialism over the government party. And it advertises the PC's as the one party in the Chamber really opposed to the government—and therefore as the logical alternative to the government any time the voters decide that the reign of Liberalism has lasted long enough.

The Liberals are smart enough to sense the new game that the PC's are trying to play. As a result, they are not too happy about any support from the CCF benches. They have a sufficient majority without it, and they have no desire whatever to be tarred with the Socialist brush.

In brief, the Liberals don't want to concede the championship of the nation's business interests to the George Drew forces. They contend that Liberalism's middle-of-the-road policies have served the best interests of the largest section of general Canadian business. And they don't believe that the increasing disposition of the PC's to revive the tariff issues of other days should find any great merit in business eyes.

But just because the Liberals hope to hold the confidence of Canadian business interests, they don't want to get tagged with the Socialist label. They would be just as well pleased—indeed better pleased—if the CCF would behave as a real honest-to-goodness opposition party.

Profits and Prices

A WARNING that B.C. salmon prices will have to be cut still more if they are to meet world competition is contained in the monthly publication, Western Fisheries.

"Future salmon sales outside the country, especially to Britain, will not primarily be governed by the amount of dollars available, but will depend on B.C.'s ability to compete price-wise with Russia and Japan," the article points out. "Even with a better quality product, and an advantage in tradition, B.C. will have to shave its prices down to a reasonable competitive level."

This problem raises the age-old question of how much prices can be cut without eliminating profit, and where can savings be made. There are, of course, other methods of reducing the wholesale price of fish besides giving fishermen less for the raw product, there are many ways to trim costs. Greater efficiency and a wider use of time and labor-saving machines, resulting ultimately in less waste and less cost, is probably the most obvious answer to this.

But eventually, after all these have been put into effect, there is only one way left for the processor to lower his wholesale price. He must reduce his greatest cost, the cost of his raw product.

As past difficulties have shown, there is no ready formula for this final step. "The fisherman is entitled to a fair return," Western Fisheries emphasizes. "He should not be asked to accept a price which is insufficient to pay his way. Likewise it is foolish to expect the companies to continue operating at such a close margin that even Diamond Jim wouldn't see his way clear to gamble on it."

If there is any formula, it lies in the wish of each party to avoid trying to prove that one is bigger than the other. Too many labor-management discussions have collapsed over small points because the spirit of the meeting is one of competition instead of negotiation. There is every reason to hope that the obvious folly of this will prevent it happening to the fishing industry.

AGASSIZ PLANS TO PASS FLOOD EMERGENCY LAW

AGASSIZ, B.C. — A flood emergency bylaw is to be rushed through municipal council here to deal with the threat of the Fraser River going on the rampage.

Other Fraser Valley communities are taking similar action. Ratepayers at Matsqui meet Thursday to set up an emergency committee and appoint dike patrols.

The action will coincide with plans by the provincial diking commission and civil defence groups in nine Fraser Valley centres.

At Agassiz, authorities say the dikes are "really, solid" except for a 3½-mile stretch on both sides of the Rosedale ferry landing.

Navy Personnel, Cadets Stage Dress Rehearsal

A large crowd of parents and friends were on hand last night at the HMCS Chatham drill hall as the officers and men of the Royal Canadian Navy, the local reserve force, the Wrens and Captain Cook Sea Cadets staged an impressive dress rehearsal for its forthcoming inspection by Captain P. D. Budge, DSC, (CD), RCN, scheduled here Friday night.

Inspected were a company of officers, a platoon of seamen and a platoon of Wrens. A Company commander is Lt. W. J. Smith with the officers commanded by Lt. B. R. Wilson. Lt. Lloyd Berryman was in charge of No. 2 platoon and Sub. Lt. Diane Kennedy was in charge of No. 3 platoon of the Wrens.

The guard was under Sub. Lt. Tom Naka and the band under PO Peter Lien.

Lt. S. E. Alexander was B Company commander with Lt. Edward Dawes in charge of No. 1 platoon of Sea Cadets and Sub. Lt. G. P. Woodside was in charge of No. 2 platoon of Sea Cadets.

Following the inspection the unit took part in a march past in front of the Provincial court house.

In addressing the parade back in the drill hall, Cmdr. Johnstone congratulated the corps and expressed the hope that everyone would turn out for Friday's inspection.

A social session, where the cadets played host to parents and friends, concluded the evening.

Bursary Group Complete Plans

Final arrangements for the Parent-Teacher Association's \$350 bursary for Normal School students were made at a meeting last night of the P-TA Bursary Committee.

All Parent-Teacher groups in the city contribute to the fund which is designed to assist local students planning to attend Normal school for teacher-training.

Applications for the bursary must be in the hands of the committee by Monday, May 17. Rules set out by the committee last night are as follows:

Eligibility: The applicant must have achieved at least high school graduation on the university program; be a resident of Prince Rupert School District No. 52; be ultimately accepted for the 1954 session of either of the provincial Normal schools.

Other regulations note that the award shall be made on general proficiency and circumstances. The bursary will be payable in two installments, the first on receipt of a letter of acceptance from either of the provincial Normal schools, and the second when the student enters his second term.

Applications are to be sent to Mrs. A. E. Carlson, chairman of the Bursary Committee, 545 Seventh Avenue East, Prince Rupert.

D. Sutherland, Dies Suddenly

One of the city's old-timers, Douglas Sutherland, 141 First Ave. West, died in hospital here yesterday at the age of 80. His death followed a seizure while he was working in his garden on Sunday.

Born at Clifton, Ontario, Mr. Sutherland came to Prince Rupert in 1908. After serving as customs broker, he took a position as book-keeper at Mussalem's Variety store where he worked until he suffered a stroke two years ago. He then retired from business.

Mr. Sutherland is survived by his wife and a son, Douglas, who lives in Toronto. The funeral will take place from B.C. Undertakers at 2 p.m. Wednesday. There are no flowers by request.

TEACHERS FETE G. W. GRAHAM

A farewell reception for District School Inspector G. "Will" Graham, who is leaving for a new post at Victoria, was staged by city and district teachers Saturday at the Civic Centre, following the meeting of the Prince Rupert Teachers' Association.

At the business session, last of the current school year, reports were heard from delegates to the Easter teachers' convention in Vancouver. Delegates Miss Hicks, H. Johnson and G. Freeman reported on such topics as teacher evaluation, curriculum, report cards, teacher induction and initiation, teaching methods and others.

GIRL GUIDES TO OBSERVE NATIONAL COOKIE WEEK

More than 200 Prince Rupert girls are touring the city this week, hoping to sell 1,728 packages of cookies to raise funds for their own training.

They are the Girl Guides and Brownies of Prince Rupert and this is National Cookie Week. The cookies the girls are selling are specially made for the Girl Guides. Of a shortbread type, the cookies are attractively packaged in a Guide motif.

Proceeds from the cookie sale are divided between the various Guide companies and Brownie packs here, the Prince Rupert Guide division organization and provincial headquarters. The local groups use the funds to finance activities here, and B.C. headquarters using its portion for work throughout the province.

Face-Lifting Under Way As Museum Opens Season

Prince Rupert's museum opened yesterday for the summer season and Mrs. Jocelyn Bolton, newly-appointed curator, was kept busy showing visitors through the old but interesting building.

New and better things are in the offing for the old building which already has been given a minor face-lifting in the interior, providing a new office for Mrs. Bolton, who not only is curator but also secretary-treasurer of the new Prince Rupert tourist information bureau, operating from the same office. She has also taken on another job, that of secretary-treasurer for the Chamber of Commerce.

Mrs. Bolton has been busy for the past few days on a clean-up job in the museum, assisted Wednesday night by three Boy Scouts, Frank Anfield, Joe Scott and Jim McLean. The building committee of the Museum board, under W. C. R. Jones, tackled a clean-up in the basement, and girls of the Second Prince Rupert Guide Company have offered to help in the clean-up.

NEW PAINT JOB

Biggest job planned for the immediate future is a new paint job for the interior, to be undertaken by the Junior Chamber of Commerce. Eventually, the board hopes to erect a new building.

Yesterday, Mrs. Bolton greeted a flurry of visitors, answering their questions about the many interesting Indian exhibits in the building and in turn questioning them, especially out-of-town guests, about tourist accommodations in their home areas, so that she may assist tourists seeking such accommodation.

Mrs. Bolton also is hard at work studying up on the history of the many exhibits which include Totem Poles, ceremonial masks carved in wood, weaving, animal heads and skins, photographs of old-time Indians and primitive implements.

The new curator plans to keep the museum open daily from 9 a.m. till 4:30 p.m., Monday through Saturday. Later, the museum may be closed Saturdays and opened Sundays, depending on the interest shown. She expects also to open the museum some nights to accommodate tourists.

Mrs. N. Haywood Named Delegate

Mrs. Norman Haywood, president of the Prince Rupert Chapter, Registered Nurses' Association, was appointed delegate to a nurses' convention at last night's meeting of the chapter in the Nurses' Home.

She will attend the convention of the Registered Nurses' Association of British Columbia, to be held in Vancouver May 20-22.

A highlight of last night's session was a demonstration and talk by R. E. Eyoifson, first aid man for the Prince Rupert Fishermen's Co-operative, on the three main methods of artificial respiration.

Refreshments were served to end the meeting.

ATTEND CONVENTION

B. J. Bacon, president of the Prince Rupert Rod and Gun Club announced today that Buster Hill of Prince Rupert and Geoff Lamby of Terrace will attend the Game Convention in Nanaimo May 26 to May 29.

Court Dismisses Assault Charge

A charge of common assault laid by Marian Woods against Henry Calderwood, both of the city, was dismissed in police court this morning for lack of prosecution.

Calderwood was represented by Bruce Brown who entered a plea of not guilty.

"I am not entirely taken by surprise by the non-appearance of the plaintiff," Mr. Brown told Magistrate W. D. Vance before asking for a dismissal.

History of Guns, Cannons Outlined For City Sportsmen

Using his own collection of firearms, gun fancier Vic Williams traced the evolution of the small arms at the regular meeting of the Prince Rupert Rod and Gun Club in the Moose Hall last night.

Taking the various "ignition periods" as the basis of his talk, Mr. Williams combined the history of explosives with that of weapons.

"Earliest explosives of sulphur and saltpetre were not used as a propellant, but to cause confusion among the enemy ranks," Mr. Williams explained.

"Early cannons gave rise to hand cannons, and then to the evolution of long guns of the caliver and arquebus types, fired

while supported by a forked stick," he went on.

Mr. Williams stated that the most satisfactory system of igniting powder had been the flintlock, a method which was used for 200 years. This was outmoded by the percussion cap, he said, a method which minimized the danger of powder getting damp.

In his outline, Mr. Williams pointed out that up until fairly recent times, small arms manufacturers had placed a heavy stress on a large powder charge and heavy calibre bullet.

"With the introduction of rifling to barrels, accuracy improved immensely," Mr. Williams told Gun Club members.

"However, the desire to load faster and fire more rapidly led to the evolution of the breech loader and repeating arms."

Experiments with nitro-cellulose brought about the introduction of smokeless powder, and increased muzzle velocity for firearms. Mr. Williams explained. This resulted in a decreased calibration on most small arms.

Mr. Williams ended his talk with a brief explanation of calibres and ballistics and answered questions of Gun Club members.

Sonja Ladies Planning Sale

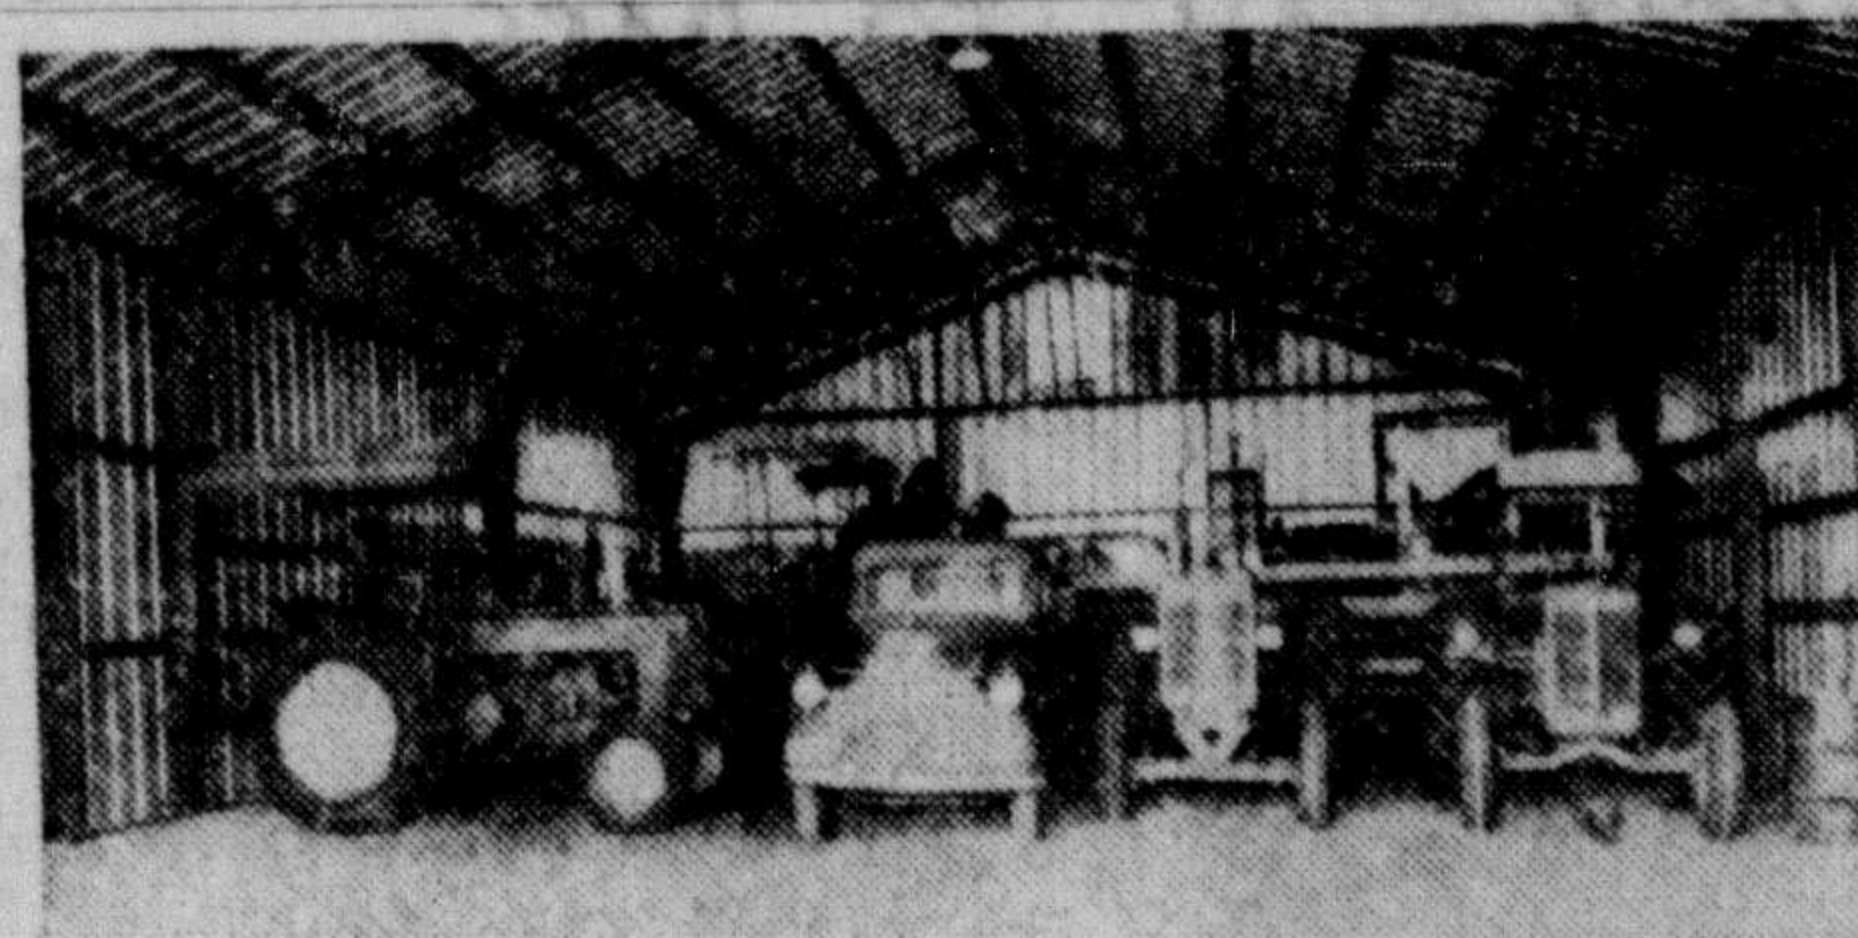

Plans for a home baking and delicatessen sale were made when members of the Sonja Ladies' group held their monthly meeting last night at the home of Mrs. W. Seymour.

Mrs. C. Strand, president, conducted the meeting at which a committee was appointed in charge of the sale, including Mrs. Seymour, Mrs. E. Wick, Mrs. Strand, Mrs. H. Knutsen, Mrs. K. Dehli and Mrs. J. Carpenter.

Mrs. P. Ellingsen was welcomed as a new member and the chair prize was won by Mrs. T. Jerstad.

Your machinery is always ready to go

in a BUTLER Building

You don't have to waste time overhauling rusted machinery when you keep it in a weather-tight Butler steel building! You get machinery in and out faster, too, through big sliding doors in sides, ends or both. Rigid frame steel construction with galvanized or aluminum covering gives unobstructed space from floor to roof. You get more space per dollar in a wind-safe, lightning-safe, fire-safe Butler building!

It will pay you to see us before you build!

Why waste dollars in temporary, high-maintenance construction when you get a permanent Butler building at such reasonable cost? Be sure to get our price before you build!

See us for facts about Butler machinery storage, grain storage, loading or feeding barns, hog houses, laying houses or combine buildings to fit your exact needs.

Healthy Baby-Happy Mother readers

Nothing is more important to parents, than seeing their babies growing and gaining as they should. Nothing is so important to normal growth, as proper food. So you'll want to know why more Canadian babies are fed Carnation Evaporated Milk than all other evaporated milks combined.

Babies and Carnation get along wonderfully together—Carnation is so easy to digest. It supplies milk's important calcium, phosphorus, high-quality protein and butterfat. Plus increased vitamin D—480 Units per pint. Carnation is absolutely safe—absolutely uniform.

Ask your doctor about Carnation for your baby!

THE MILK EVERY DOCTOR KNOWS

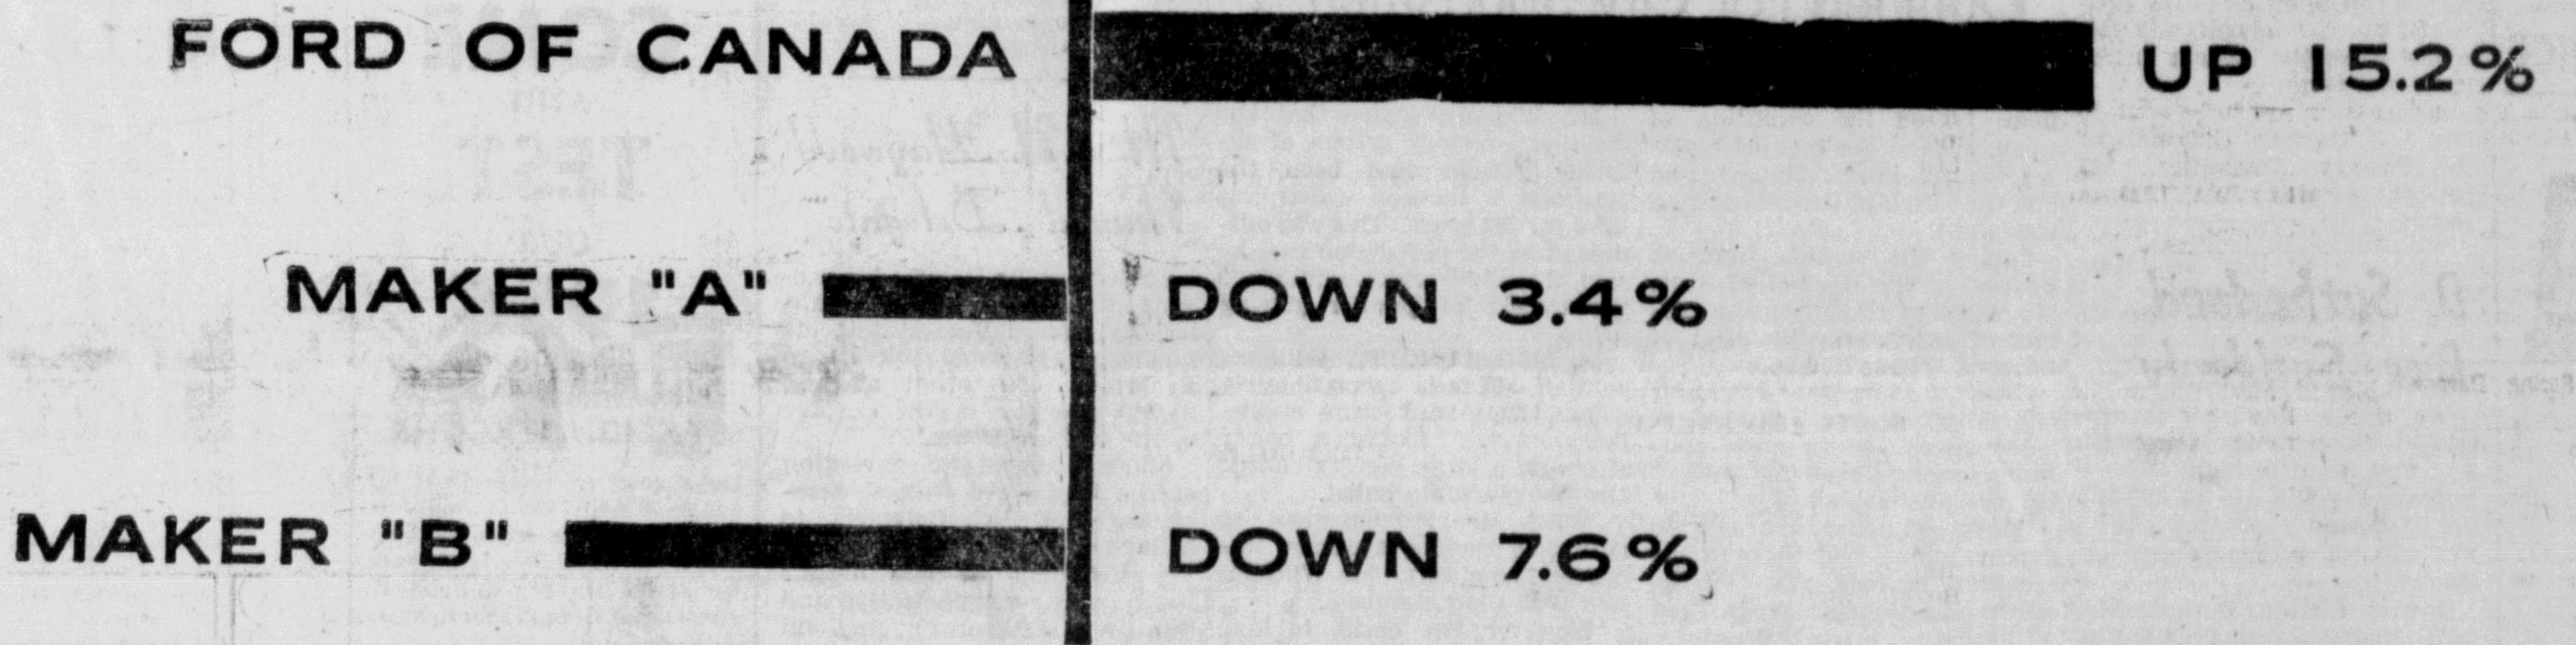

Vertical text on the left edge of the page, including 'REPORT', 'Cafe', 'FOOD COOKING', 'SERVICE', 'ON SHIPS', 'ST', '0.00', 'OLD RADIO', 'SPEED', 'VICTOR', 'PROS. LTD.', '6 or 36', 'Service Built'.

AGAIN ONLY FORD OF CANADA HAS GAINED!

PUBLIC ACCEPTANCE OF THE CARS OF "THE BIG THREE" ... 1954 VS. 1953

Which cars do Canadians prefer today? This chart tells the story. It shows you the relative gain or loss in public acceptance of the cars of the three leading Canadian manufacturers ... during the first three months of 1954 (according to latest available new car registration reports) as compared to

the complete year of 1953. ONLY FORD OF CANADA has registered a gain in public acceptance this year! CANADIANS are buying Ford, Meteor, Mercury, Monarch and Lincoln cars because these cars give MORE FOR THE MONEY.

Before YOU buy... here's WHY it pays to try a FORD OF CANADA V-8

- **V-8 means more for your money.** V-8's are outselling sixes today ... because only a V-8 is up to date in power, in smoothness, in value.
- **V-8 means more for your money tomorrow.** Think ahead, before you buy any car, and consider future "trade-in" value. A Ford of Canada V-8 is worth more when you buy it ... worth more when you sell it.
- **Back of your Ford of Canada V-8 is Unequaled V-8 Manufacturing Experience, Unmatched Owner Proof.** Through twenty-one years, nearly 14,000,000 Ford-built V-8's have been proved by millions of owners. No other V-8's in the world can offer you this proof of ownership satisfaction!
- **You drive a Style Leader** when you choose a Ford, Meteor, Mercury, Monarch or Lincoln. If you wish, you can enjoy the convenience of all of motoring's finest features and power assists, including Automatic Transmission, Power Steering, Power Brakes, Power Seat and Power Window Lifts.
- **NOW is the time to buy.** Never again will your present car be worth more than *right now!*
- **Try before you buy.** Over 1,000 Ford of Canada dealers are ready at their telephones to arrange a demonstration drive for you and your family. There is no obligation to buy. Please see the "yellow pages" of your phone book ... and may we suggest that you call your dealer at your earliest convenience.

IN SPRING A YOUNG MAN'S FANCY . . .

It used to turn to love and poetry but in this day and age, it seems to be love and a jalopy. Lover boys don't seem to be writing poetry any more and, from what we recall of our youth, it's probably just as well.

So now that the sap is beginning to flow, most of the young swains around town seem to have their eyes on some dame, or some jalopy—or both. In either case we wish them luck. We hope they all get both. But about that jalopy—whether you want some old boat to pole around in or one of the sleek newer models, we've got 'em. These and many others to choose from.

Nine Wins Put White Sox In American League Lead

By **BEN PHELEGAR**
Associated Press Sports Writer.

Chicago White Sox are making every effort to run away from the New York Yankees in the American League pennant race, and for a change they're getting some help.

For more seasons than they care to remember the rest of the managers in the league have found out the hard way that no team can beat the Bronx Bombers all by itself. But this year every team the Yanks have played has beaten them at least once—and they've played every team in the league except Baltimore. The Orioles open a three-

game series in New York today. Meanwhile the White Sox have recovered from three quick losses at the start of the season and have won nine of their last 12 games. They lead the league by one game over the surprising Detroit Tigers and hold a four-game edge over the Yankees.

HERE'S WHY

Johnny Groth, a .253 weakling with St. Louis Browns last year, is leading the Sox with a .364 average. Ferris Fain, who followed two straight batting championships with a miserable .256 performance last season, is hitting .328.

Pitchers Bob Keegan, Sandy Consuegra and Don Johnson have accounted for seven victories without being beaten.

Consuegra won his second one Monday. Despite the 14-3 score against Philadelphia Athletics he gave up only two hits—a bunt single and a wind-blown double—both by Forrest Jacobs.

St. Louis Cardinals beat New York Giants 8-2 Monday night in the only other activity in the majors. It was too cold at Milwaukee for Brooklyn to play the last-place Braves, and it was too wet at Washington for the Senators' game with Cleveland. The other clubs weren't scheduled.

At St. Louis, Stan Musial, who slugged a record five home runs in Sunday's twin bill with the Giants, didn't get a hit. He was walked four times and fouled out on his one official appearance.

Black Hawks' Al Rollins Most Valuable

MONTREAL (C) — Angular Al Rollins, sensational goaltender for Chicago Black Hawks, has been judged the National Hockey League player most valuable to his team last season, the NHL announced today. He wins the Hart Trophy and \$1,000.

In a pool of hockey writers and broadcasters in the six NHL cities, Rollins got the nod over Red Kelly of Detroit Red Wings. He won 80 points compared to 74 for Kelly. Maurice Richard of Montreal Canadiens was third with 44 points.

A remarkable feature of the Rollins victory was the fact that he played the entire season for a last-place club, the first player to accomplish such a feat since Tommy (Cowboy) Anderson won the award while playing defence for New York Americans in 1941-42.

Rollins is the first goalkeeper to annex the cup since Chuck Rayner took honors in 1949-50. Detroit's Gordie Howe has won the trophy for the last two seasons.

Elwin Ira Roufus, 28, was born at Vanguard, Sask., and played his last amateur game with Edmonton Flyers, Allan Cup winners in 1947-48. He won the Vezina Trophy in his first season as a professional with the Stanley Cup winning Toronto Maple Leafs of 1950-51.

Meanwhile in New York, George (Red) Sullivan of the Hershey Bears, who set a scoring record of 119 points in the season just ended, today was announced as the most valuable player in the American Hockey League for the 1953-54 campaign.

The circuit's sports writers and broadcasters sent him to the top in their voting. He compiled 26 points out of a possible 30.

Mixed League Leaders Unchanged As Footwear, News Score Wins

Leaders in the Mixed Five-pin bowling league remained unchanged over the week, and both Fashion Footwear of A league and the Daily News of B league managed to increase their hold on first place by one point each. Only two more sessions are left in regular league play.

In A League Fashion Footwear took two points off Shamrocks to move two points ahead of second place Shenton's. In third place are Headpinners who took two points off Whalen's Lucky Six.

In B League, the Daily News took four points off Thom Sheet Metal and increased their lead over second place Harold's to four points. Esquire Men's Wear split last week's session 1 to 3 with Chats and trail nine points behind in third spot.

In A League, Johnny Comandino of Headpinners took high single honors with 340, while Canada Life's A. Smith took similar honors for the ladies with 333. Agnes Pierce of Fashion Footwear rolled 818 for high three and Jack Sedgewick of Whalen's Lucky Six won men's high triple with 700. Headpinners took team high single with 1397 and Shenton's team high three with 3623.

In B League, Arkie Hewitt of Mixups took the men's high triple honors with 706 and split men's high single with team mate Archie Hodgkinson with a 281 score. Marie Richards of Harold's was ladies high scorer with 292, and Mary Postuk of the Daily News took ladies high triple honors with 691. The Daily News tally of 1166 was good for team high single and 3282 by Mixups took team triple honors.

Results:

A Division—Hi-Jackers 3, Orphans 1; Headpinners 3, Whalen's Lucky Six 1; Fashion Footwear 3, Shamrocks 1; Pushovers 3, Windy "6" 1; Fowle and Ruttle 2, Northern Glass 1; Shenton's 2, Canada Life 2.

LITTLE LEAGUE PRACTICES LAID DOWN BY EXECUTIVE

Little League executive today issued a schedule of practices which will be followed, weather permitting.

All practices are slated for 7 o'clock at Algoma Park.

Tonight the Super-Valu entry will be on deck. Tomorrow the North Stars practice. The Kinsmen team works out Friday, May 7, Lipsett's Saturday, May 8. Monday night Super-Valu practices again, and so on in rotation.

If a team is rained out, they miss that practice, the executive said.

Despite rain last night, a work bee was on deck at Algoma Park raking and smoothing the diamond.

Sudbury Edges Penticton V's To Go One Up In Cup Finals

PENTICTON, B.C. (C)—Sudbury Wolves hammered out a narrow 2-1 victory over Penticton V's here Monday night in the first game of a best-of-seven series for the Allan Cup.

The Allan Cup is the symbol of senior amateur hockey supremacy in Canada.

It was a game of breaks. A potentially tying Penticton goal was disallowed on an offside call and on Sudbury's first marker the puck snake-hipped through a forest of players, caromed off a leg and hopped into the goal.

Lennie Speck and Nick Tomluk scored for the easterners and Jim Fairburn tallied for Penticton.

Tonight both teams will rest from the bruising they took, a bruising which resulted in 17 penalties, before taking to neutral ice in Vernon for the second game Wednesday.

Eleven of the penalties went to Sudbury, who scored first and fought to keep the lead, and six went to Penticton who traded blow for blow in a bid to haul the contest out of the fire.

Speck put Sudbury ahead in the first period on a goal that stood up until the third period, when Tomluk stretched the margin to 2-0. Fairburn's one third-period effort wasn't enough to catch up.

Penticton flashed the goal light first, early in the first period when Jack McIntyre picked up a pass from across two lines and went in to score. It was disallowed.

Speck's goal came on a pass from Orval Levelle on a shot from just inside the blue line.

The second period, with Wolves riding on a 1-0 edge, was tense and tempers exploded several times. Pete Horeck picked up the first of two 10-minute misconducts by hammering his stick on the boards in protest against a call. Mauno Kauppi served it out.

Tomluk's goal was the swiftest of the night, coming only 55 seconds from the third-period face-off on an Andy Milne pass. Fairburn's goal came on a passing play with Grant and Bill Warwick. McLellan was pulled in the final seconds, but V's couldn't score.

Victoria Trims Tri-City at Home

By The Canadian Press

Two regularly scheduled games and an exhibition contest were on tap in the Western International League last night.

Victoria opened at home with a 7-5 win over Tri-City; Wenatchee shut out Yakima 2-0, and Vancouver blanked Seattle of the Pacific Coast League 6-0 in the exhibition game at Vancouver.

Tonight Edmonton will be at Lewiston. Salem invades Vancouver and the homeless Calgary Stampede move to Spokane for a three-game stand.

Stamps Meet Quebec Tonight

CALGARY (C)—Quebec Aces engage a potent battler on home ice when they take on Calgary Stampede here tonight in the opening game of a best-of-nine series to decide Canada's minor professional hockey championship.

The Stampede lost only one of their 10 home-ice playoff games in eliminating Victoria Cougars, Edmonton Flyers and Vancouver Canucks to win their first Western Hockey League title.

Both the Aces and Stampede have just emerged from two tough series, Aces came from behind a 4-2 deficit in games to win their best-of-nine series with Ottawa Senators for the Quebec Hockey League championship. Stampede eliminated Vancouver four games to two in their WIL final.
