## Terrace Favored for Junction to Kitimat

Combined Railway-Highway Bridge Suggested—  
More Snow Equipment Ordered—  
To Speed Up Handling Here

Terrace, ninety-six miles east of Prince Rupert, is the junction point for the railway branch line to the Canadian National Railways to the Aluminum Co. of Canada smelters at Kitimat, it was indicated by F. H. Keefe, general manager of the railway from Winnipeg, who was in the city yesterday on the course of an official tour.

## Egypt Army Taking Hand

LONDON — It was reported here today that Egyptian troops, with tommy guns, are in positions at radio base in Cairo to prevent disorders.

## Immigrants Come by Air

WINNIPEG — The Canadian government has made arrangements to boost the flow of immigrants from the United Kingdom increased air and sea transportation, Immigration Minister Harris announced Friday night.

Starting next month, the government will charter the stratosphere. This aircraft will make a flight weekly to Canada carrying seventy immigrants.

The service, although provided only for a comparatively small group, will nevertheless be important because it will assist in the speedy passage here of high-skilled technicians who are needed in our defence industry.

In addition, the Canadian government has arranged for an annual 38 sailings from United Kingdom ports to Canada this year.

## Sentence Increased

VICTORIA — The three hours sentence given Joseph Dillane, 31, of Vancouver, convicted of manslaughter Friday was increased to eighteen months by the British Columbia Court of Appeal.

The judge had sentenced Dillane to three hours in jail, plus fine of \$250 for the death of a woman born Stanley Deren, 53, in Vancouver July 15, 1951.

The sentence was criticized by the Polish Communist press which claimed racial discrimination against Polish nationals in Canada.

Opening session of the appeal yesterday was attended by Donald D. Abramov identified as a second secretary in the Soviet embassy at Ottawa. He was present in court Friday for the judgment.

Reference at the trial revealed that Deren and a woman were in Polish on a down town Vancouver street.

Dillane, a stranger to him, was behind and said: "Why don't you talk English?"

Dillane then struck Deren, who fell to the pavement, suffering a skull fracture and died a few hours later.

Judgment of the appeal court was unanimous and described the conduct of Dillane as not only unwarranted, but "deliberately aggravated and unprovoked assault."

# Tough Language At Truce Session

## St. Laurent Defends New Appointment

OTTAWA — Premier St. Laurent expressed his personal belief that "Canada's great attachment to the crown will in no way be weakened by the appointment of a Canadian as governor-general." In a 90-minute press conference, the Prime Minister vigorously defended his government's recommendation that Rt. Hon. Vincent Massey, 64-year-old chancellor of the University of Toronto, be appointed to the post vacated by Viscount Alexander.

It was his personal view, said Premier St. Laurent, that there should be "no firm rule that a governor-general of this country must be a resident of the United Kingdom, or that he must be a resident of Canada or of any other nation in the Commonwealth."

In firm language, Mr. St. Laurent said Canadians "some day have got to grow up. They must have sufficient confidence in their own ability to run their country and must not be hamstrung by apron strings or traditions of the past."

## Scouts Honor Lord Alexander

OTTAWA — Viscount Alexander was made a Silver Wolf today. Order of the Silver Wolf is the highest scouting award in the Commonwealth.

It was presented to the retiring governor-general at Government House by Jackson Dods of Montreal, deputy chief Scout for Canada.

## Nickerson Chairman

SEATTLE — George W. Nickerson of Prince Rupert was named chairman of the International Fisheries Commission for the next two years.

Edward W. Allen of Seattle, chairman of the commission for two years, was chosen secretary at the annual meeting.

Halibut regulations were discussed but commission recommendations will not be announced until they have been approved by Canadian and United States governments.

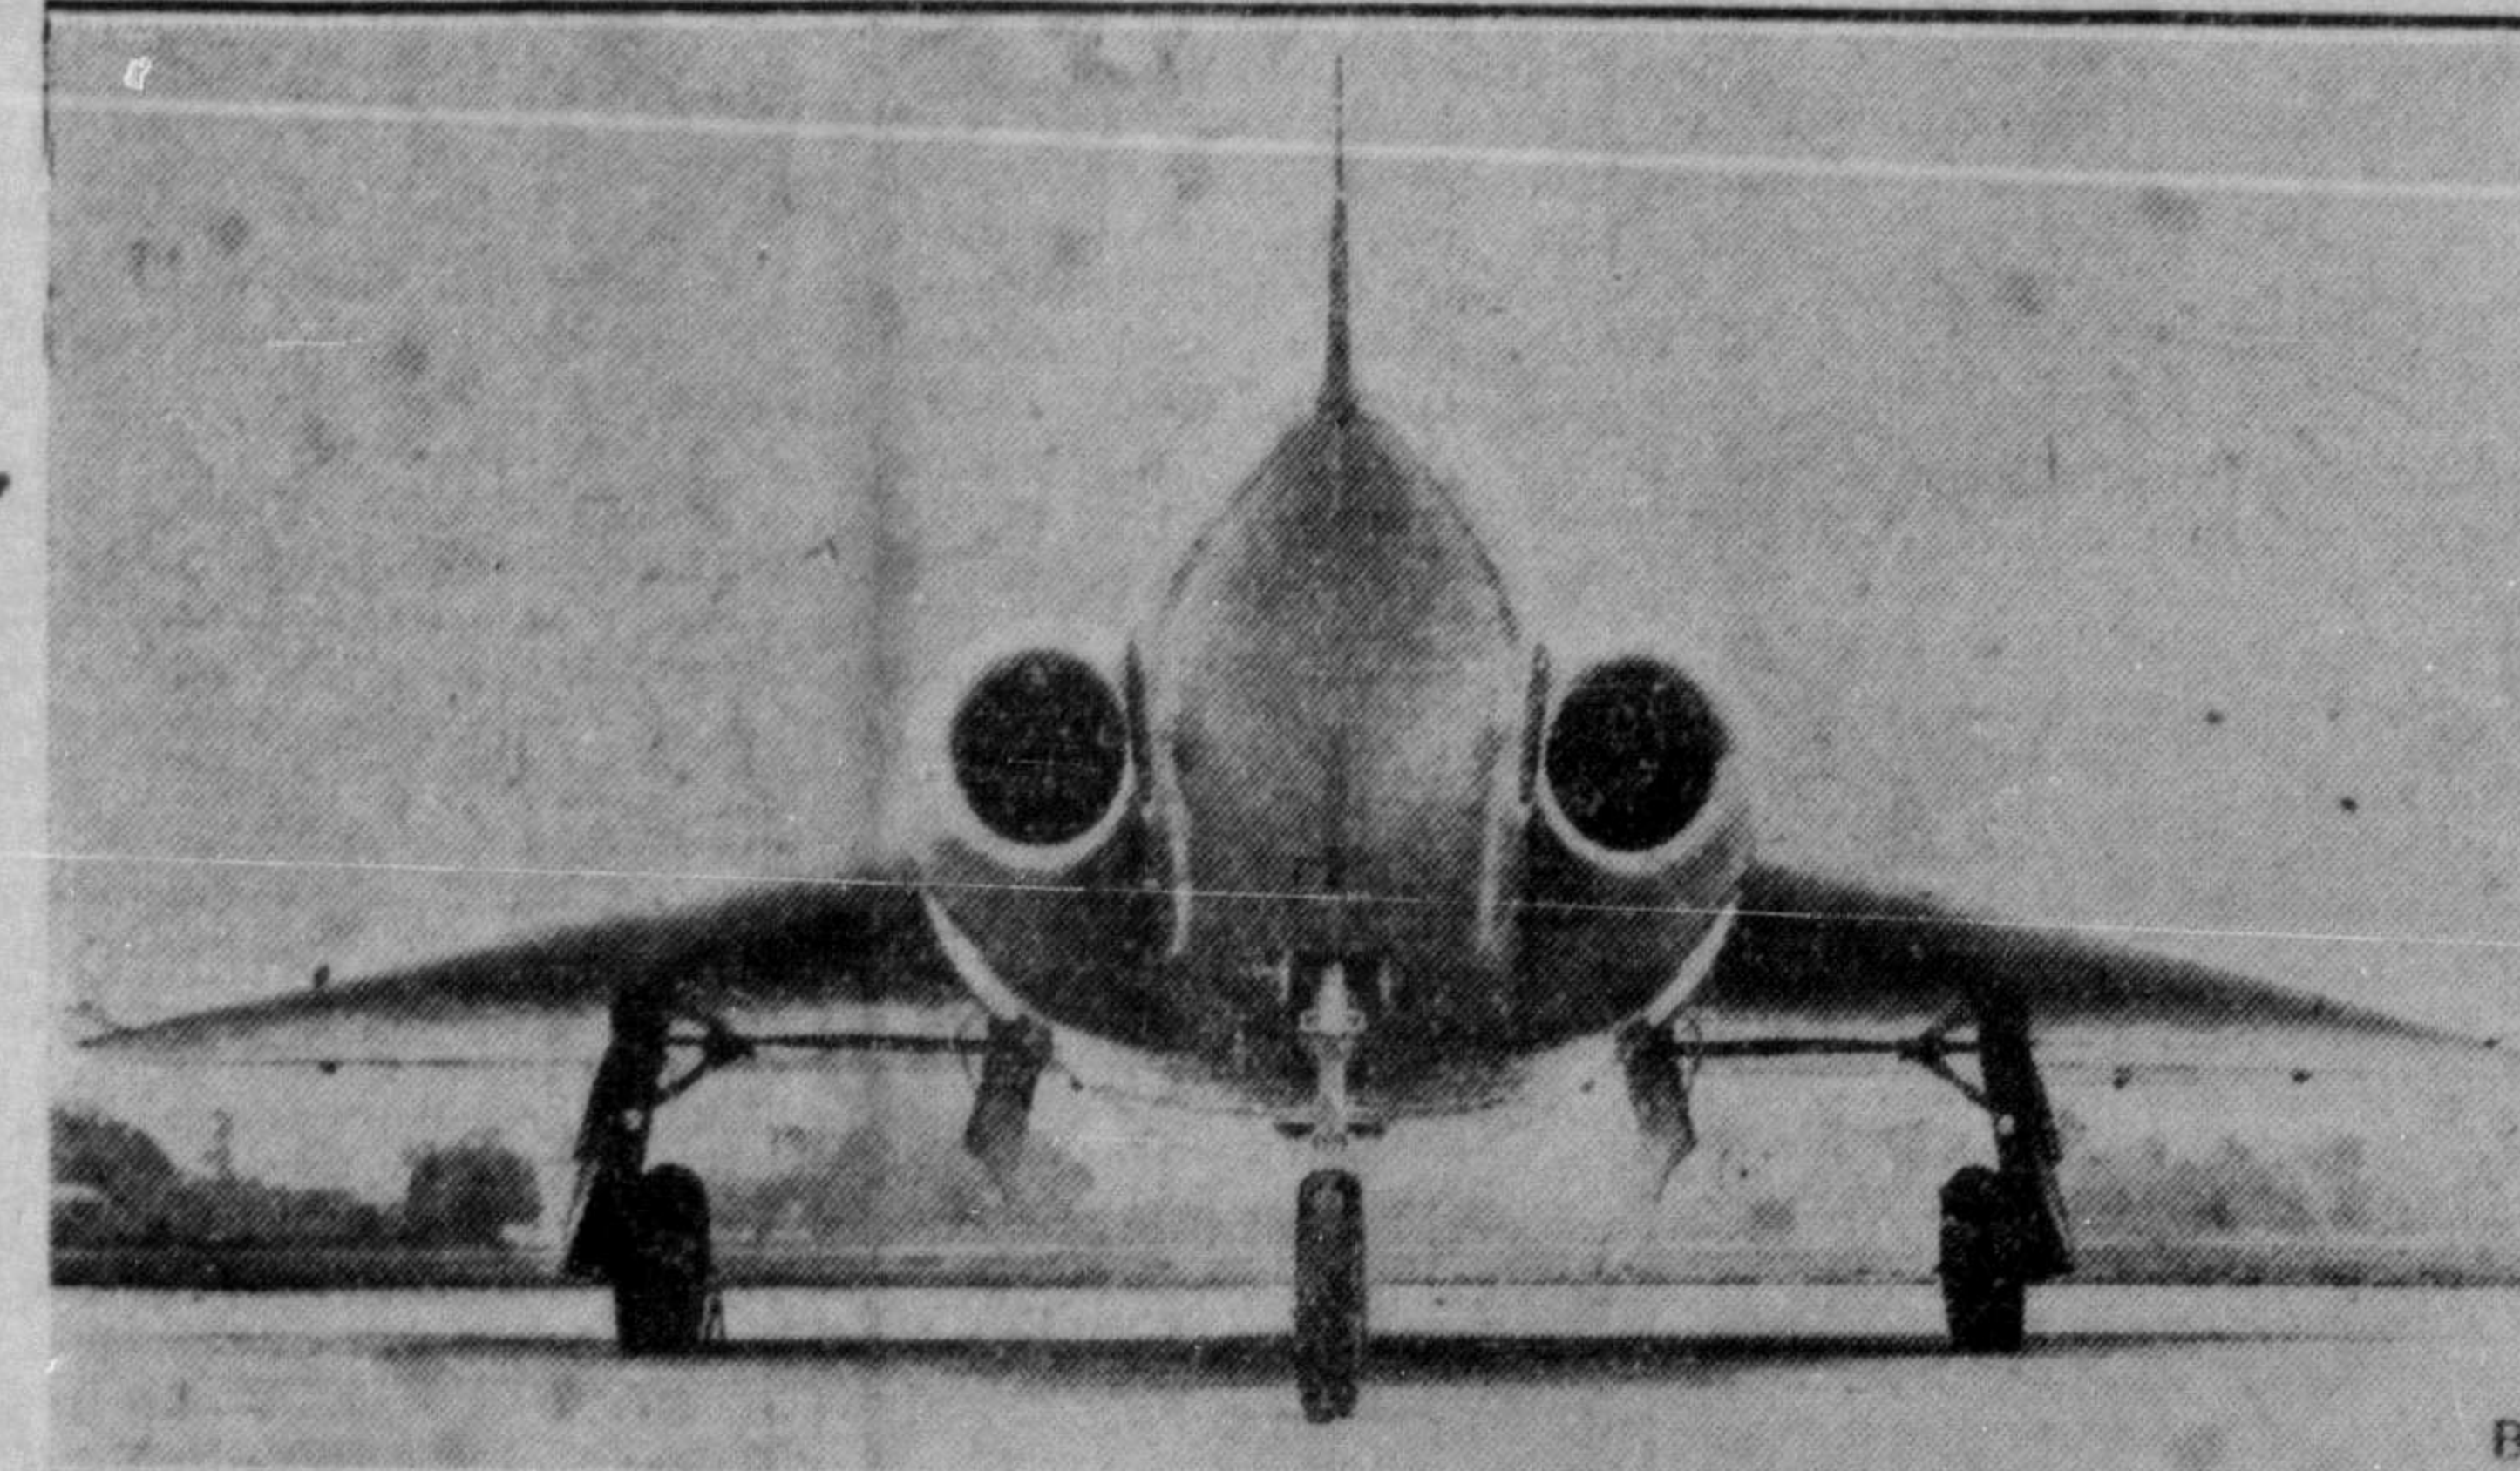

## Police charged tomorrow with murder

The victim was Martha Louise McCullough, aged 7. Her foster parents are Mr. and Mrs. Savin McCullough. Both are in their late forties.

McCullough has been an accountant and office manager of the Winnipeg Chamber of Commerce.

The police chief, Charles MacIver, said the child was struck by a bottle and strangled as she lay in bed after her parents had taken part in an all night session of prayer.

## First Peep Is Allowed at Mystery Fighter

OFF THE SECRET LIST of Britain recently came this new jet aircraft which has been described as "the mystery fighter." In releasing the first and only photograph, the British claimed the aircraft to be the world's first twin-engine operational Delta (delta is the Greek letter d, shaped like a triangle).

Other details were scarce, but, in naming it the GA 5, its manufacturers, Hawker-Siddeley, mentioned that the triangular design was helpful at sonic speeds. It is known to have the formidable power of two Sapphire jets, to be a day-and-night, long-range all-weather jet, and as the British have proved they have something when it comes to jets, this latest should be important to western defence.

## Transmitter Here Would Cost \$305,000

OTTAWA — A bill authorizing an annual parliamentary grant of \$625,000 to the publicly-owned Canadian Broadcasting Corporation has been approved by the radio committee of the Commons. The establishment of 57 relay transmitters across Canada to improve coverage in outlying areas would cost \$228,000. A transmitter on the west coast to provide coverage for Yukon would require \$150,000. Cost of a transmitter at Prince Rupert would be \$305,000.

## Thought They'd Be Home Soon — French Seamen to Go Back to Japan Instead

Most of the crew of the French freighter Jean L. D. who have been away from their homes for several months now thought they were on their way back to France—even if indirectly—when they left Yokohama 10 days ago. But it will be likely several more months before Third Mate Garcel Francois Hubert will see his wife Marie.

Rumors that the 6,500-ton Jean L. D. was going to take on a cargo of grain for Italy turned out wrong. The freighter is heading back to Japan and if all goes well, should leave Monday.

Third Mate Hubert is also chief steward on this trip and says he's been "very, very busy." But not busy enough to take note of the heavy seas his ship battled for the last two days.

"She was rolling so and so—it was terrific," he described with gestures and in good mixture of French-English. The Master and most of the crew stood watch continuously for most of the 48 hours the vessel was buffeted by 60 mile an hour gales west and north of the Queen Charlotte Islands.

Master J. Batas was not a friendly man to talk to—not at a time when he was desperately trying to tie up loose ends after the strenuous hours.

"Did he have time to speak to a reporter?"  
"Reporter? No, no, no, no—I have not time at all."  
"Would he have time — some other time?"

OTTAWA (CP)—In spite of increasing rate of Canada's defence expenditures, the federal government's budgetary surplus has risen to \$721,600,000 in the first nine months of the current fiscal year—the highest in history.

Last April Finance Minister Douglas Abbott estimated his 1951-52 surplus would be about \$30,000,000.

## North Korean General "Too Big for Britches"

MUNSAN (CP) — An Allied truce negotiator today told the North Korean Major General Gen. Lee San Cho that he was "getting a little too big for his britches."

## Conflict of Stories in Girl's Death

PORTLAND, Oregon — Body of a three-year-old girl, Sherie Ellen Kader, was found last night in a gas company sump well in southeast Portland.

Police said the girl's mother, Mrs. Jada Kader, led them to the body.

The mother told conflicting stories. First she said the girl was killed Wednesday by her four-year-old sister. Later she claimed her mother's Chinese stepfather had committed the crime.

Police searched for the missing girl for two days after the mother reported her daughter had been kidnapped.

## Death Was Accident

The late John Albert Teng met his death accidentally through burns due to a freak accident which occurred at the Canadian National Railways round house in Prince Rupert on the afternoon of January 17, a jury which sat inquest before Coroner E. D. Forward found on Thursday afternoon.

## Stripper Is Deported

MIAMI, Fla. — Deportation to Canada of Jeannette Wilby, Miami Beach night club stripper, was ordered Friday after a hearing by immigration authorities.

Miss Wilby, who dances under the name "Dark Venus," declined to comment on the verdict. (She formerly lived in Prince Rupert.)

Walter Sahli, the assistant district immigration director, said Miss Wilby slipped across the border into the United States at St. Vincent, Minn., in November, 1949, and falsely claimed American citizenship when she re-entered the country last June after a trip to Cuba.

GLoucester, England — Leslie James, 60, went to hospital suspecting he had a fracture but x-rays showed no injury. Ten minutes later he was back in hospital with a real injury. On the way home he had slipped and broken a leg.

## Curling Rink Ice in Few Days Expected

Efforts of Local Enthusiasts Soon To Have Culminating Reward

Final testing under 100 pounds water pressure of refrigeration pipes for the new curling rink proved satisfactory last night and lowering of the pipe network is to be carried on this week-end, says Curling Club President Neely Moore.

## WEATHER

Synopsis  
With moist Pacific air covering the B.C. coast, mild rainy weather will continue over this district for the week-end. An active storm is developing over the Pacific today and will give strong southeast winds over the north coast tonight and over the south coast tomorrow.

Cloudy skies and some snow flurries are expected in the interior over the week-end with temperatures in all regions showing a gradual rise.

Forecast  
North coast region — Cloudy with showers today, continuous rain tonight. Cloudy with showers tomorrow. Little change in temperature. Wind — southerly (20) today becoming southeast (40) tonight. Southwest (20) tonight. Lows tonight and highs tomorrow—Port Hardy, 32 and 42; Sandspit, 38 and 42; Prince Rupert, 35 and 42.

Provided enough voluntary labor can be obtained over the week-end and next week "it should only be a matter of a few days before we make ice."

And it is still intention of the club to provide a week's skating in the rink for children before curling commences, says Mr. Moore.

## The Golden Rule in Action

UNDOUBTEDLY we have problems. We are faced on the one hand by the recurring wage demands of unorganized labor which inevitably result in higher prices, whatever labor leaders may argue. On the other side are governments, civic, provincial and federal, each busily demanding more and more of our depreciated dollars in taxes. Small wonder that the average man who can neither impose taxation nor enforce higher wages, should feel helpless and frustrated. It is fatally easy for him to forget his old-time belief in freedom and independence and the initiative to make the most of his own talents. It is easy for him to settle for that dubious "mess of pottage" we call "security," which has so singularly failed to secure against inflation.

Is there any way out of this impasse of spiraling costs that has made our dollar sign a farce, that has impaired all forms of saving and largely nullified the benefits of the welfare panaceas provided by government? Of course there is, if we have the courage and intelligence to take it. But it will not be achieved by pressure methods or without the co-operation of all groups and sections and interests.

Granted this much, would this be an answer? If all governments, for instance, instead of spending more and more should decide to spend less and less on the savings in the form of reduced taxation. If labor instead of devoting its energies to securing more for the relatively few, should put the emphasis on lower prices for all. If industry, relieved of inordinate taxation and constant wage strife, should devote all its efforts not to fighting unreasonable demands but to developing efficiencies and economies and improving techniques to the end of producing high grade goods at lower prices.

These are all we need for sanity and security. This is not one of the easy solutions so much in vogue — such as more welfare or more regulation or restricted profits or subsidized effort, or any of the other popular battle cries which have proved so ineffective. It is a working together, recognizing our neighbor's needs as being as important as our own. Perhaps in that way, and possibly only in that way, can inflation be stemmed or reversed. There is no trick about it, no complicated machinery. It is only the Golden Rule in action.

—Joseph Lester Ruthledge

## Shake-Up in Red Observers

BERLIN — The Soviet Union has ordered a shake-up in its staff of "observers" in Western Europe, according to informed diplomatic circles here.

The order arose from disappointment within high Soviet circles over failure of the information network abroad to correctly gauge events, especially in West Germany and France.

Diplomats regarded as neutral, inasmuch as their countries are not directly engaged in the East-West dispute in Europe, said the purge dictate came from the highest levels of the Kremlin.

They speculated that the Soviet Politburo has been especially annoyed over the information from Bonn, the West German capital. Its appointed "observers" have misled their chiefs on numerous major questions within the

past year. As a result, the Russians were unaware of the following:

1. That advances by high East Germans to high West Germans to bypass the United Nations on the unity question would be summarily rebuffed.

2. That the Schuman Plan for pooling West European industrial resources would be certain of approval in the Bonn Parliament.

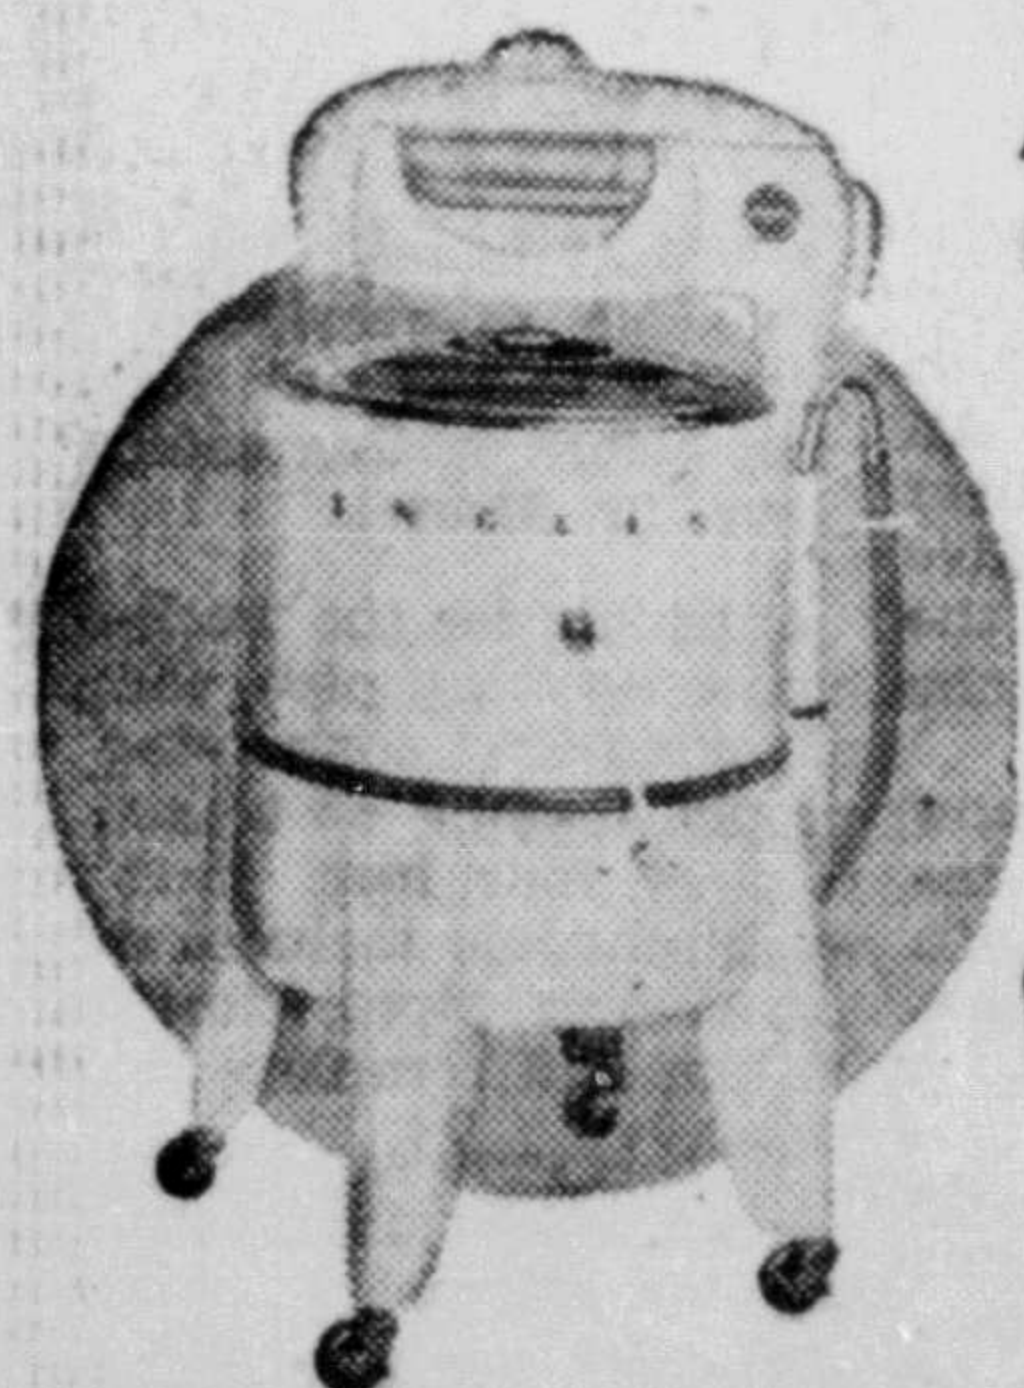

3. That the West German, while sensitive to an "all-German" appeal for voting, is still wary enough to want some international protection against either Communist or Soviet dictate.

Foreign circles said the "Russians also have discovered with some dismay that their information from France was a delusion, leading them to believe the French would resist any ties with the Germans in West European defense.

Foreign circles said the "culprits" in France were largely Russians but in West Germany the axe may fall on German Communists.

## Presbyterian Annual Meeting

Successful Year Indicated  
By Reports at Annual  
Congregational Meeting

An interested congregational meeting on Monday night heard satisfactory reports of a successful and expanding year in church work and activities Monday night when members and adherents of First Presbyterian Church met in annual session.

George Mitchell acted as chairman and Duncan McRae was secretary.

Considerable improvement in the church's financial position over last year was indicated by the report of the treasurer.

Reports were presented as follows:

The Session—James Hadden. Ladies' Aid—Mrs. H. C. Halliday.

Minister—Rev. Dr. E. A. Wright. Restoration Fund—Rev. Dr. E. A. Wright.

Cradle Roll—Mrs. H. M. Foote. Mission Band—Mrs. W. H. Wilson-Murray.

Women's Missionary Society—Mrs. Harry Calderwood. Sunday School—E. J. Smith.

Ladies' Guild—Mrs. J. W. Eastwood. Board and Managers, Treasurer and Budget—E. J. Smith.

Men's Club—R. L. Eby. Choir—Mrs. E. J. Smith.

The minister expressed appreciation to all those who had presented reports.

H. M. Foote, George Murray and J. W. Eastwood were elected to the session.

Albert Wood and T. H. Wilford were added to the board of managers.

Robert Strachan was re-elected auditor.

## Japan Is Not Signing Peace With Soviet

TOKYO. — Premier Yoshida said today that Japan would not sign a peace treaty with Soviet Russia or Communist China but would with Nationalist China. He pointed out that Russia was still holding 340,000 prisoners of war.

## ray . . . Reflects and Reminisces

They are telling a new story about Churchill. Chief of Staff, describing a more modernized type of army rifle, said it had been designed originally as part American and part British. For want of a better term, it could be termed "bastard." The prime minister chuckled. That rifle, he remarked, reminded him of himself. For his mother was a New York girl.

When weather uncertainties more or less affect the smooth workings of service industries, it all reacts on the comforts and conveniences of consumers and citizens generally. All towns are alike in this respect, and it's easy enough to lose patience. Possibly Prince Rupert has not too much to complain about.

The King will shortly change the muggy English winter for the sparkling air and blue skies of Natal. His Majesty needs the contrast. The voyage to the Indian Ocean will be another tonic. Anyone, with part of his lungs removed, can stand a lot of sunshine, and "way down by the Cape of Good Hope is where it's to be found.

A new hotel, such as described in Friday's News, will have an importance not easily realized. Lack of accommodation has always been this city's worst advertisement.

Someone in B.C. has said that when Herbert Anscomb was relieved of his duties as finance minister, it was the first time in Canada's history a prime minister had ever dismissed a member of his cabinet. Let's beg to differ, and solemnly declare that around the turn of the century Laurier fired Israel Tarte, a member of his official family.

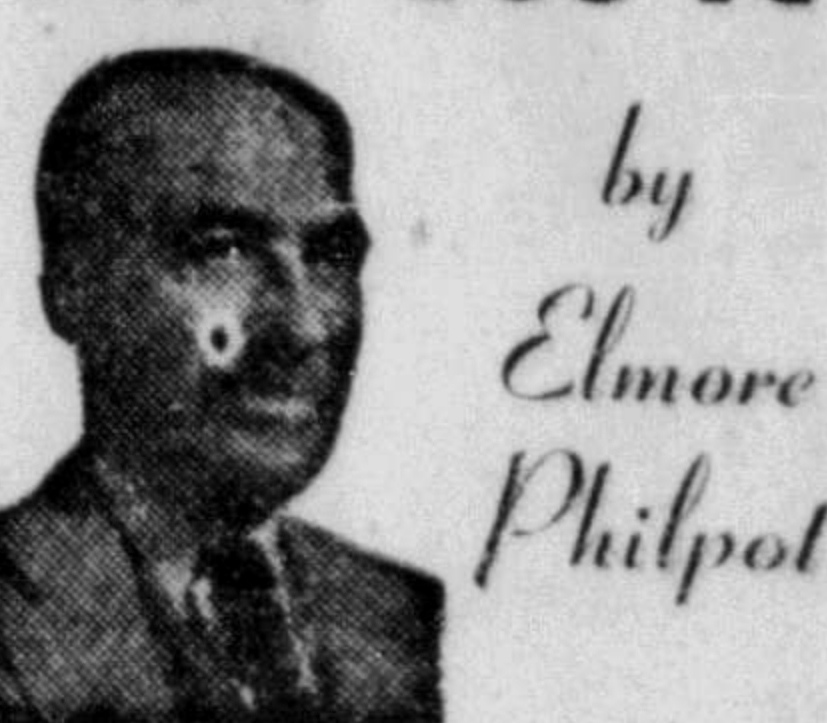

Roller skating being planned for the Civic Centre. The news would interest Luke Marren, who came with the first and built a rink on Sixth Avenue near where the armory now stands. This was all of forty years ago. Luke, like everybody else, rolled this way a bit too early.

## LETTERBOX

FROM MAJOR KERR

Editor, Daily News:  
You may be surprised to get this note from an old time Salvation Army officer of the north country. There came to me home today a copy of the Prince Rupert Daily News dated January 7, sent to me by Mrs. Envoy Walker of Kitseles, with a very fine editorial on the Salvation Army, of its past and present. It was in the summer of 1910 that the present Citadel was erected and we started our street meetings and had our indoor meetings in the old theatre on Second Avenue on the Sundays. Those days it was a Man's Town and in October that year we got into our New Citadel. It is indeed true we did a great work, and the Army has been doing a great work ever since. But had it not been for the co-operation of the press and the people of Prince Rupert we could not have accomplished what has been done. I always remembered you.

## As I See It

Churchill Let-Down

THE NET RESULTS of Mr. Churchill's visit to the U.S.A. are so disappointing from the British point of view, that they could bring down the new government.

In any event they make it probable that Mr. Churchill will soon step down as party leader, with Mr. Eden taking over.

For, however you look at it, Mr. Churchill has failed to do the things which he asked the British electors to give him his great chance to do. He has not only had to give way to the United States where British pride is cut to the quick. But he has had to "go along" on a mixed-up foolish American policy of intervention in China to which many millions of British people will resist and try to repudiate.

LET US EXAMINE the hard results of the Churchill-Truman talks. They are:

1. Britain buys a million tons of steel, and in return U.S. buys Canadian aluminum and Malay tin.

2. U.S. agrees not to use atom bomb bases in Britain for war without Britain's advance consent.

3. An American admiral gets command in the Atlantic.

4. U.S. and British policies in the now-blasting Middle East are to be co-ordinated.

5. Churchill reverses the Labor government's policy of "hands off Formosa" and says that U.S.A. is justified in her intervention there.

ONLY ONE of the above points—the swap of metals—did Mr. Churchill break even in his deals at Washington. Let us ignore the pin-prick about the nationality of the Admiral to command the joint Atlantic forces. The very fact that Britain has to win back the "right" to veto American use of atom bomb bases in Britain is the most significant thing about the meeting.

Britain gets no guarantee that a single U.S. soldier will help hold the Suez, but Mr. Churchill has, in effect "gone along" on what millions of Britons regard as an illegal, disastrous U.S. tie-up with Chiang Kai-shek.

Both the Labor government of Britain, our own government of Canada, and many other members of the UN, including India, have always held that President Truman had no right to proclaim the formal protection of Formosa. Formosa is a Chinese Island. To "protect" it while Chiang Kai-shek had the remnants of his beaten army there was in fact a gross interference in the affairs of another country.

MR. CHURCHILL of course has not said that Britain will unconditionally "go along" with the U.S.A. in protecting Chiang Kai-shek. But Reuter's reports dated Rangoon, Jan 21 state that Chiang's troops are using both Thailand and Burma as bases for attack against the new government of China. Thus they are giving China excuse and even legal grounds for invading Burma and Thailand.

If this happens, there is sure to be a major war in Asia. Mr. Churchill asked the British people for a mandate to try to make peace with Stalin. Mr. Truman vetoed that move and made the confusion much more confounded in Asia. It's not what the British people voted for.

POWER COMPANY AND WATER

Editor, Daily News:  
Your references in two recent issues to water used by the Northern B. C. Power Company's Steam Plant would give the impression that this has a large bearing on water supply to the City of Prince Rupert.

May we suggest that you obtain proper knowledge before publishing such inferences as the amount of water used by steam normally represents only approximately from 3 to 4% of the total gallonage recently delivered by the booster pump to one city per day.

Northern B.C. Power Co., Ltd.  
T. J. BLACK  
General Manager

yourself coming to our quarters early Monday mornings to get the news items of our week-end doings or happenings, and you gave us the best.

You may know that Major and Mrs. Johnstone have passed on some years ago and are buried near San Francisco. Their curly-headed boy, then at seven years, is now Lt.-Col. George Johnstone and is divisional commander for the State of Washington. He has five sons and two of them are married and are Salvation Army officers in the U.S.A.

As to Mrs. Kerr and myself, we are officially retired, yet still working in the Army. Our five boys are all active in the Salvation Army. Our oldest is Lieutenant Wm. G. Kerr and is stationed in Yorkton, Sask. Our second boy, Douglas, is in his fourth year as C.A. Douglas was born in Prince Rupert, Oct. 2, 1929, and has Rupert in his name. All are active in the Army and all very good musicians in the band here.

We all keep very well and would like to visit the North ever so much perhaps some day. We meet many folks from Rupert and Yukon when we get around.

MAJOR WM. KERR.  
Vancouver.

## New Bishop Being Elected

Rev. James B. Gibson, Bishop of Caledonia, who sailed Thursday night on the Prince George for Vancouver, will attend a meeting of the Anglican House of Bishops, where it is expected Rev. H. E. Sexton of Victoria will become Archbishop and Metropolitan of British Columbia in succession to Rev. W. R. Adams, who recently retired.

Later next week the executive committee of the provincial synod will convene to elect a new Bishop of the Yukon to replace Archbishop Adams as the head of that diocese. Other representatives from here at that meeting will be Rev. Canon Basil S. Procter, leaving Sunday night on the Chelcote for the south, and Judge W. E. Fisher, now residing in Victoria.

## Services in the Church

## Saturday Sermon

### "A Simple Solution"

(By Rev. L. A. Thorpe, Regular Baptist Church)

"For Christ also hath once suffered for sins, the just for the unjust, that He might bring us to God."

If we ask ourselves, in serious moment, what is wrong with the world, our nation or our city, can we rightfully evade or improve the simple diagnosis given by God in His Word? We do not read there that racial prejudice, lack of education, poor working conditions or any other social conditions are the cause.

Our Father goes far deeper when He reveals the cause of His creature's troubles. So must we if we are to find the reason for the bloodshed and dishonesty in the international picture, or for the crime, poor politics and harmful habits of drug and drink, of the national picture. This is even more evident if we are to sound out the reason for the unrest, dissatisfaction and failure of our personal picture.

Is there one thing at whose door the blame for all these troubles can be laid? Our Creator, who knows more about the inner workings of this globe and our heart than we ever will, tells us that there is such a basic wrong. He has summarized the root cause of the world's sadness and sickness in the brief verse: "For all have sinned and come short of the glory of God." When sin, man's break with God by the elevating of the creature's will and wisdom over that of the Creator's, came into the world it brought with it the seeds of all the present world's ills. Thus God, watching mankind wallowing in the consequences of his own rebellion, sadly describes him as "losing out on the goodness and favor of God."

For those who sincerely search, the cure for sin is as clear as the diagnosis. Our verse quoted above reveals three significant but simple facts, the PERSON, PLAN and PURPOSE of God's cure for sin.

We must never get away from the personal aspect of salvation. God would have us come, as an individual, into a living, experience-receiving relationship with Jesus Christ, His Son. "He who hath the Son hath life, and he that hath not the Son hath not life." The PLAN of redemption is substitution, "the just for the unjust." God knowing that we

# Credit Bureau Functions for Welfare of Everyone

By PHIL LINZEY  
Grandpa was a young man, a general store, sold yard goods, cottons, practically everything and nylons. He was a credit business, and he lived down the street. He could see his place through the window of the store. Grandpa all his life never needed a cent in the fall, when he was done and he had to pay his bill. Grandpa Smith well and good. He knew that he could more than make up for the needs of his six Smith kids.

Merchants can't get their customers. Grandpa knew Bill Smith, and he knew more customers than any. Then, too, they were their customers. The south windows of the store, but it's just as if they knew the customers and to pay. A simple method. Merchants and men pool their ledger at a Credit Bureau. Under a central filing system reports are given.

Grandpa Bureau serves the community by listing the names of those who want, or who need. When John Doe is in account with a merchant, Credit Bureau is called. The record of his paying the Credit Bureau. In the other merchants with John has traded to get information for the merchant. The new account, the bureau does not pass. The Credit Bureau says that John Doe is a risk. The Credit Bureau presents the facts and information they have on file. Having it entirely up to the merchant to determine whether or not he shall be granted from the credit.

Grandpa Bureau is to enjoy the credit, his paying must follow him where he goes. As he moves from town to town he should make the Credit Bureau in his path. He has his credit record, that he may use it to his convenience. That is the Associated Credit Bureau of Canada and America. The local picture. The Credit Bureau of Prince Rupert is only a small part of the credit records in the world. By its affiliation with the United States, and the United States, one of the 2000 Credit Bureaus in every town in Canada, the United States, and most of the speaking countries of the world.

John Doe is a newcomer to Prince Rupert, his credit record is not in the town. He comes. If he says "I" and the clerk agrees, are he has earned his credit. If he says "charge" the clerk reports that he has to pay cash, maybe the merchant is doing Mr. Doe. It is not his fate soul.

Grandpa credit is a practical thing. It's truly the mark of a man and a tribute to one's credit. You don't realize credit in our way of life.

## Sweet Potato For Decoration

One that likes house plants might try this interesting attractive, yet inexpensive bit of green decoration for the dull winter months. Buy a large bulb sweet potato, about 10 inches in circumference, place the pointed end down in a wall bracket with about 2 inches of water, wait for about 2 weeks in which time it will start to take root and then enjoy the transformation. Plenty of water must be added as the growth is tremendous. The sprouts will grow on the average of 4 inches every 24 hours and have lovely heart-shaped leaves.

## Breakfast Club Popular Idea

"It's very encouraging to see so many merchants who are anxious to have their key girls join the Credit Women's Breakfast Club," says Mrs. Catherine Laurie.

More than twenty girls have already joined and indications are that the Club will have at least thirty members when it gets under way. The Club will become a part of District No. 10 of the Credit Women's Breakfast Clubs of North America. An informal get-together is planned next Tuesday at which time leading business men will tell the members about the purposes, aims and objects of the Club.

is a necessity. Even if you don't have many charge accounts, you will get your electricity and telephone service on credit. There are many families—and thrifty ones too, who might never get their homes furnished and enjoy their pleasures and comforts, if their credit was snatched away from them. Your local Credit Bureau was organized in 1950 and has over 8000 personal credit records on which "factible" information is recorded. Many business men give much time and effort to add the Bureau in its efficient operation.

**NOTHING MYSTERIOUS**  
There is nothing secretive about the operation of a Credit Bureau, but the information is highly confidential. Information is given to the Bureau in confidence and is treated as such by its staff and members. People make their own credit ratings by the way they handle their obligations and all the Credit Bureau does is merely record that information from ledger history and facts. Contrary to some beliefs, many more good reports are given than bad ones. The Credit Bureau does more than protect its members against losses. It also protects the careless buyer from getting too far in debt.

This background of facts and vital information is helpful in many ways other than the extension of credit. Loyalty and personal reports are a big volume of today's Credit Bureau business. The employer is constantly on the alert for the "better than average" employee and the Credit Bureau files play an important part of his investigation.

Through the splendid co-operation of the business men of Prince Rupert, the Credit Bureau functions for the general welfare of all.

## Beautiful Snow

(Contributed by J. C. Brady, former M.P. for Skeena)

Oh! the snow, the beautiful snow!  
Filling the sky and the earth below,  
Over the housetops, over the street,  
Over the heads of the people you meet:  
Dancing.

Flirting.

Skimming along,  
Beautiful snow! it can do no wrong,  
Flying to kiss a fair lady's cheek,  
Clinging to lips in a frolicsome freak,  
Beautiful snow from the heaven above,  
Pure as an angel, gentle as love!

Oh! the snow, the beautiful snow!  
How the flakes gather and laugh as they go!  
Whirling about in the maddening fun,  
It plays in its glee with every one.

Chasing.

Laughing.

Hurrying by,  
It lights on the face and it sparkles the eye.  
And the dogs, with a bark and a bound  
Snap at the crystals that eddy around.  
The town's alive, and its heart is aglow,  
To welcome the coming of the beautiful snow.

Ringling.

Swinging.

Dashing they go  
Over the crust of the beautiful snow,  
Snow so pure when it falls from the sky  
To be trampled in mud by the crowds rushing by  
To be trampled and tracked by thousands of feet  
Till it blends with the filth in the horrible street.

Once I was pure as the snow—but I fell!  
Fell like the snowflakes from heaven to hell,  
Fell to be trampled as filth in the street,  
Fell to be scoffed, to be spit on and beat;

Pleading.

Cursing.

Dreading to die,  
Selling my soul to whoever would buy,  
Dealing in shame for morsels of bread,  
Hating the living and fearing the dead.  
Merciful God! have I fallen so low?  
And yet I was once as the beautiful snow.

Once I was fair as the beautiful snow,  
With an eye like a crystal, a heart like its glow;  
Once I was loved for my innocent grace—  
Flattered and sought for the charm of my face,

Father,

Mother,

Sisters, all,  
God, and myself, I've lost by my fall:  
The veriest wretch that goes shivering by  
Will make a wide sweep lest I wander too high.  
For all that is on or about me, I know  
There's nothing that's pure like the beautiful snow.

How strange it should be that this beautiful snow  
Should fall on a sinner with no where to go?  
How strange it would be when the night comes again,  
Fainting.

Freezing.

Dying alone,  
Too wicked for prayer, too weak for a moan  
To be heard in the streets of the crazy town.  
Gone mad in the joy of the snow coming down  
To lie, and so die in my terrible woe,  
With a bed and a shroud of the beautiful snow.

—(Author unknown)

## Snow Holds Up Local Curlers

Due to delayed train service, Prince Rupert Curling Club rink headed by Bill McKenzie, was unable to enter competitions at Smithers, being a day late on arrival.

Pleasure curling, however, was enjoyed. All bonspiel visitors displayed great interest in the Prince Rupert curling rink, soon to be opened.

**Rainfall Brings Street Danger**  
Rain during last night helped reduce the snow but there is still no lack of it, as well as ice. Walking—or trying to—remains treacherous, and there are still more or less risks where cars and buses are concerned.

**BLACKBURN, England**—Albert Duxbury, 69, a retired shuttlemaker, died the day after the New Year's honors list showed he had been awarded the British Empire Medal.

**BIRMINGHAM, England**—To reduce absenteeism, a factory here awards small money prizes annually to those employees who have not missed working during the year.

## New Winners at Sons of Norway

Sons of Norway card players set up 13 tables at their whist drive last night and a new list of winners chalked up high scores. Ladies—Mrs. Helen Johnson, first; Mrs. Olga Pettersen, second. Men—K. Dahl, first; Ben Skalmard, second.

Mrs. Lilly Pedersen won the chair prize; Mrs. Steve Eriksen, the door prize.

Mrs. Barney Roald was in charge of refreshments, assisted by Mrs. Wilkinson, Miss Dolly Bontsen, Carl Mostad, Leroy Olsen, Hans Pettersen.

Dancing was enjoyed after cards to music of Mike Colussi.

Mrs. D. Orchard McLeod returned to the city this week from a trip to Vancouver. She is leaving shortly for a visit in Florida.

## Navy News

## Inspection Team Here

Help for Power Company—Gift from Applewhite

An inspection team headed by Osborne Beamish is presently engaged in inspecting the naval stores at Chatham. A ship's naval stores besides all articles of clothing carries just about everything from a sailmaker's needle to a 2½-ton truck so the team of Mr. Beamish, G. Marks, C. W. Mahoney, A. C. Borland and R. C. Murray finds little spare time on its hands.

## TRADE TRAINERS

Lieutenant (E) A. E. Webster, RCN, arrived from headquarters to interview heads of Prince Rupert firms to establish a system of testing tradesmen who are entering the Naval service in the branch of their profession. Results were good and Lt. Webster expressed his appreciation for the co-operation given by local firms.

Lt.-Cdr. Barrett, RCN, staff officer trade, on the staff of FOPC, is due to arrive January 30 aboard the Prince George. Lt.-Cdr. Barrett will be speaking to the Gyro and Rotary clubs on "Seaborne Trade and the Navy."

Chatham offered the services of the Navy tug Marysville to assist Northern B.C. Power Co.'s barge, loaded with stores for the power station and battling ice in the Skeena River, but word was received late today that the barge had succeeded in reaching the power station.

## WRENS

During the first period of last evening's lectures, the Wrens gathered around the whaler on the upper deck of the drill hall and an interesting hour was spent learning the various parts of the boat and their use.

A pleasant break from the usual routine of the evening classes was experienced by the girls, when during the second period they gathered in the ship's office, where Mr. Beamish and Mr. Mark, inspectors, assisted the girls in getting a properly-sized uniform. As usual the Navy is up to par and sizes received were either too large or

## A Fragment

Yestreen, I sallied forth so gay  
To honor Scotland's bardie's day  
An' toot my horn wi' a' my vim  
An' hoist a dram  
A bicker fu' t'brim.

But first a toot my horn did gie  
For I got word frae oversea  
Tae mend my ways and be more prim

And ordered me  
My Lightsome gails to trim.

Fae gay Paece I got the news  
That auld Vish didna share my views.  
To rant and rant wi' visage grim  
Did me accuse  
Of racial discrim.

—Burns Admirer.

too small, but it won't be long now before the Wrens will be coming aboard Chatham in full uniform.

## CUSTOMS

The "Foul Anchor" which is on Naval buttons is the badge of the Lord High Admiral. It was first used in 1604 by Lord Howard of Effingham, the victor of the Spanish Armada, as his official seal, and has descended with various temporary alterations to us. It seems quaint that a Navy which is renowned for its seamanship should have a foul anchor as its badge, which is hardly a seamanlike emblem.

The Broad Arrow used to mark government stores was the seal of Lord de L'Isle, who was the first commissioner of ordnance in the reign of Queen Elizabeth.

## SEA CADETS

An interested member of the League and a person who has done much, both for the cadets and community, is the local member of Parliament, E. T. Applewhite. At a general meeting of Prince Rupert branch, Navy League of Canada, realizing that to maintain and properly run the local corps would cost money, Mr. Applewhite started a "Drive for Funds" campaign with a \$50 cheque.

## BLACKWOOD on Bridge

By FASLEY BLACKWOOD

Trump Management Is Also Important  
For the Defenders

You read a lot about the declarer's handling of the trump suit. It is usually called "trump management." But how about trump management on the part of the defenders? There is not so much written on that subject, but it is just as important as declarer's play.

Mr. Dale got off to a good lead in today's deal, the deuce of diamonds. Dummy played small and Mr. Masters won with the queen and cashed the ace. A glance at the dummy convinced him that any further tricks for his side would have to come from the trump suit.

His next play is one which is almost always considered a horrible boner. He led a third round of diamonds, knowing it would give Mrs. Keen a sluff in one hand and a ruff in the other. Actually Mr. Masters was launching an insidious attack on declarer's trump suit.

## TOUGH INDEED

Mrs. Keen discarded a club and ruffed in dummy. She led the eight of hearts and Mr. Masters ducked. Next came the nine of hearts and again Mr. Masters ducked. The easy-looking contract now began to appear very tough indeed. In fact it was impossible.

If Mrs. Keen led another heart here, Mr. Masters would win and return another diamond. It would take Mrs. Keen's last trump to win this and then Mr. Masters would still have a trump to get in and run the rest of his diamonds.

# the WORLD of SPORT

**REGULAR HOCKEY SCHOOL**—About 950 young players, between 10 and 18, get instruction in the fundamentals from former experienced players at Quebec city's Hockey School. Coach Paul Poulin is shown telling three youngsters to "keep both hands on your stick and the feet on the ice." Pupils are, left to right: Gilles Gauthier, 13; Marcel Marcéau, 12, and Jean Thibault, 13.

## Ketchikan Once Again Easy Victims of Locals

Hope to Make Better Showing Tonight With Arrival of Star Front-Liner Challengers 70, Rockets 38

Ketchikan Rockets slumped into even a deeper slump last night as they entered the second of a three-game series against Rupert Challengers without their starting front-liner. Dwaine Vincent, who has been trying to catch a plane from Vancouver up here, was "bumped" yesterday in favor of longer-waiting challengers.

Rockets—Brewer 5, Manson 7, Erikson 10, Johanson 11, Hinman, Mackie 3, Farstad.

Even though last night's game was a one-sided affair, action picked up in the second half to give fans a thrilling minutes. Guard Erikson's dazzling long pass supported by Johanson in the back began the rally.

Right from the start Challengers ripped into Rockets' defense for 19 points to eight in the first quarter, and 16-3 in the second. Holkestad began the scoring spree with 14 points. Don Scherk finished it off.

Mathews was stripped for a star turn-out for the first time and entered the lineup in the last half.

Breese Gurnie and Slatta were pretty busy with the puck, too. The game was played in spots as 21 personal fouls were called on the Challengers, sending Sid Scherk off the floor for the full count. Mathews were charged with 14 fouls.

**CHALLENGERS** — Holkestad 14, Davis 4, D. Scherk 19, Scherk 6, Carlson 10, Webster, Mathews 5.

## Stampeders Join Union

**CALGARY (CP)**—The Calgary Stampeders will play football in the Interprovincial Football Union next fall.

President C. E. C. Chesser last night announced the Calgary Stampeders intend to exercise its franchise and play in 1955.

Calgary had supported the Vancouver entry in WIFU but the coast bid was turned down at a meeting in Regina last Saturday.

## on the ALLEYS

Striking out the season's top score with 334 in a single game last Tuesday was **Pat Smith**, of Shenton's in B Division. In her division she was also high scorer with a three-game total of 663.

In A Division, **B. Hardy** of McMeekins took high single honors with 283, while **Bertha Peterson** of Wrathalls made her 875 score in three games count high for the evening.

### RESULTS

**A Division**—Wrathalls 3, Dibb Printing 2, Lyons 2, Gordon & Anderson 2, Savoys 2, Rosa Lee 2, Annettes 1, McMeekins 1, Skeena Grocery 1, Cloverleafs 1, Lucky Strikes 1, Stars.

**B Division**—Commercials 3, Seventh Ave. Mkt. 3, Co-op 2, Bib Sisters 2, Sunrise 2, Shenton's 2, Cooks 1, Manson's 1, McKays 1, Rupert Radio 1, Tollers, 75 Taxi.

### LEAGUE STANDING

**A Division**—Annettes 15, McMeekins 13, Rosa Lee 13, Lyons 13, Skeena 11, Cloverleafs 11, Q & A 10, Stars 9, Wrathalls 9, Savoys 8, Dibb Printing 7, Lucky Strikes 7.

**B Division**—Seventh Ave. 18, Mansons 14, Bib Sisters 11, Sunrise 11, 75 Taxi 11, Co-op 10, Tollers 10, Commercials 9, McKays 9, Rupert Radio 9, Shenton's 3, Cook's 6.

**LANGLEY, England** (CP)—Professor C. G. Drew of Bristol University is supplying free drinks to volunteer motorists as part of a test to determine how much alcohol it takes to make a driver dangerous.

## BASKET BUZZES

The Ketchikan-Rupert series, no doubt, is proving a disappointment not only to fans but players as well. And the Basketball Association may not be too happy about it either from a financial viewpoint. It seems that no one looked into the set-up too carefully before they jumped.

First of all, Ketchikan was invited down for a three or four-cornered tournament, such as was seen here last year. But arrangements fell through when New Metlakatla decided their team could not come—for the time being.

Then came a rush call for Ketchikan to play Prince Rupert in a three-game series.

Ketchikan, however, was not

ready to entertain many ideas of outside competition. Fact is, most of the players in the six-team senior league still are not in condition, says "Vince" Vincent, manager-coach of the visitors, "and neither are our all-stars."

"We only started playing in December. We couldn't get the boys together."

And the seven men with him have only played together once before, shortly before their arrival here in which Metlakatla out-edged them.

Coach Vincent admitted that his team was not ready to face opposition of the Challengers type, due to lack of endurance and practice of his all-stars.

But he thinks it would be a different story if high-scoring playmaker Art Olsen could have made the lineup. Olsen (of Ketchikan) manages a fish company

and couldn't get away. Then there is Dwaine Vincent, another front-liner who could have aided the cause immensely. Dwaine has been stuck in Vancouver trying to get a plane to Prince Rupert, and thinks he'll make it today.

"And if Dwaine gets here, we'll still give Rupert a thing or two to think about," said the boys' "pop" last night.

The coach, who has been in Ketchikan for seven years looking after the business of the Elks there, has been connected with most of the sport in his city.

"Vince" was here last summer with his baseball team, playing against Rupert all-stars. His interest in sports is kept alive mostly because of his two sons.

The younger is 14 years now, and there is Dwaine Vincent, another promising athlete, he says proudly. And if the Armed Services didn't have a call out for 21-year-old Dwaine, his father says there'd be a try-out for pro-baseball this summer. But as it is, Uncle Sam has beckoned and the US Coast Guard will probably see a lot more of Dwaine than anyone else—at least for a while.

**BRADFORD, Eng.** (CP)—Authorities in an institute for the deaf here say television has been a big success. Patients follow the spoken parts with the help of an attendant who provides brief "sub-titles" by spelling with his fingers.

## King Edward Pee-wee Winners

King Ed 25, Helldivers 17

Spurred on by a group of Grade VI girl cheer leaders and support from classmates on the balconies, King Edward Thursday afternoon gained eight points over Helldivers to hold their lead in the Pee-Wee basketball league.

Ed Johnson and John Lambie of King Ed spearheaded the fast passing offensive while Cristoff played a starry role for the Helldivers.

Quarter scores were 7-4, 11-6, 18-8 and 25-17, King Ed leading.

### SCORING

King Ed—MacIntosh 4, Hodgkinson, Lambie 11, Johnson, 10, Thom, Adams, Irish, F. Johnson, Petersen.

Helldivers—Kelsey 3, Luigrin 4, Cristoff 6, Bowes 2, D. McLeod 2, Kilborne, Twaites, B. McLeod.

**BIGGEST FLOATING TOWN**—Considered the world's largest floating town, Holberg lies on the shores of Quatsino Sound, Vancouver Island. Owned by a pulp and paper company, the entire lumber town is moved periodically to the vicinity of new cutting areas. Two workmen, Howard Scott, left, and Jack Hedges, are shown walking along "Plank Alley" on their way to work. (CP from National Film Board)

## WATERFRONT -- WHIFFS

First French Ocean-Going Vessel Here—  
New Crab Boat at Massey

The coming of a French vessel to Prince Rupert to load grain, or for any other purpose, is rather unusual. It is not easy, in fact, to recall just when the last French ship was here, or if there ever was one before. Deepsea ships, while few enough, have nearly always been British, Canadian, Japanese, Scandinavian or American.

Because of improvements in types of construction and larger size, barges on this coast are becoming about twice the size. Today they are as a rule not much less than a hundred feet long. The general trend, as well, is more toward steel than timber. For example, the B.C. Packers have a large steel barge in general use.

Sam Simpson of the Queen Charlotte Cannery Ltd., is having plans drawn for a 60 by 16 crab boat to help carry along on a more extended scale this type of industry of the north coast. It will be more of an overseas type of fishing craft. It will be of sawn frame construction and have a round bottom. The plans call for framing with Queen Charlotte yellow cedar. The designer is Alex Wylie, the father of Bob Wylie, master of the crab craft "Argonaut" working out of Massett. It was during, or about 1919 that the crab trade was established on the north coast. The cannery was first built at Naden Harbor west of Massett, the business becoming later established at Massett.

Operations of the Dolmage Towing Co. of Vancouver are being extended, it being planned that one of her strongest and most modernized vessels "Sea Monarch" run as far north as the Queen Charlotte Islands. Auxiliary machinery will include two lubricating oil pumps, one auxiliary air compressor, one fire pump, and other necessities. The "Sea Monarch" was formerly called the "Nemaha."

It will be of interest to the north coast to learn that the former Shelly yacht, the "Cora Marie," widely known in B.C. waters until sold to United States interests, has been purchased by the Morrison-Knudson Co. The deal was transacted at a port in the southern states. The vessel will be brought to Vancouver and converted to a passenger carrier. She will carry no freight and be 107 feet in length. The Morrison-Knudson people are actively identified with the Alcan Aluminum development.

Tonnage is expanding on the north coast. Between Prince Rupert and Vancouver, and at way points, the volume of freight traffic is showing an increase, according to observation over the past six months.

**HERRING BIG BUSINESS**  
Herring fishing may appear a somewhat prosaic enough subject in some ways but this cannot be said of what's been going on lately so far as Prince Rupert and the waters near this port are concerned. The sea swarms with fish. Newspaper stories have been extensive and well described. Catches were and con-

tinued to be on a huge scale. There have been fleets, rather than just boats. As twilight deepened and lights came on, it seemed that sea vistas had changed in a sudden and mystifying way, to a far spreading, twinkling city. Herring had become big business.

Since start of Korean war, Japan's deep sea fleet has more than trebled. It has now a total of 176 ships. The actively employed bottoms include 26 tankers and 150 cargo craft. Thirty-four are identified with the American run, 26 to the Philippines and 21 to India.

A brand new steel harbor tug will take care of much of the

## Teen-agers can't damage P.V. Hardboard

## BUILDS TOUGH, GLASS-SMOOTH WALLS THAT LAST A LIFETIME

Here's a place for teen-age jam sessions (and grown-up parties too) . . . a game-room built of P.V. Hardboard that will not crack, scuff or damage. P.V. Hardboard is the strongest, toughest, most rigid product in the low-cost panelling field . . . goes right on the studs without backing. The smooth, glass-like surface takes paint like a charm. Whether it's a game-room, attic bedroom or a whole new home interior, you'll build it better and at less cost with P.V. Hardboard.

## Banker Heads Burns Lake Trade Board

**BURNS LAKE**—The annual meeting of the Burns Lake and District Board of Trade was held in the Elementary School and brought a large and representative attendance. President Charles W. Beck was in the chair and made a report on the activities and accomplishments of the organization, which was substantiated by the reports of V. A. Montaldi, the secretary.

A vote of thanks and appreciation was passed of the work by the retiring president during his two-year term of office.

Mr. Beck pleaded pressure of business as a reason for his retirement, and called for nominations for the presidency.

R. Drayson, local manager of the Burns Lake branch of the Royal Bank of Canada was elected new president.

For vice-president Ward Taylor was elected. V. A. Montaldi was re-elected secretary.

Walter Wilson was re-elected and a vote of appreciation was passed for his untiring efforts in the study of the Western Route to an Alaskan Highway.

The Transportation Committee will be headed by Geoffrey Woodall while J. S. Brown will head the lumbermen's committee and look after their interests.

Keen interest was shown in the working of the Village Commissioners and it was proposed

work to be performed at Kemano in the way of assisting in handling scows, docking, towing, fire-fighting and ice-breaking. She has been named "Kemano" by the owners, Morrison-Knudson Co. of Canada, Ltd. The vessel is thirty feet overall with oil fuel capacity of 500 gallons, and was specially designed. The deck-house is finished with aluminum front, in way of the compass.

A tender submitted by the Skeena River Pile Driving Co. Ltd. for renewing the federal approach and float at Osland amounted to \$24,010.

that one active member of the Board of Trade should attend the monthly meetings.

It was ordered that a sum of \$50 be sent to the secretary of the Associated Boards of Trade and that an honorarium of \$300 be paid annually to the secretary to whom a vote of thanks and appreciation of his untiring efforts on behalf of the organization was passed with applause.
