**SHAR CLOUD** resembling sky-writing forms over the heads of craning spectators on a beach at Ft. Bragg, N.C., during the "Exercise Flashburn" atomic war games. The cloud formed by the aerial explosion of a simulated atomic bomb and differs from the "mushroom" cloud formation of land-exploded A-bombs.

## Frobisher Outlines Potential Of Northern Power, Resources

### Hydro Plans Given In Annual Report

TORONTO (CP)—Cheap power and year-round ocean transportation should make northwestern British Columbia a metallurgical and electro-chemical centre for refinement of ores from many parts of the world, say the annual reports of Ventures, Ltd., and Frobisher, Ltd., associated holding companies.

The proposed site on the Taku river, say identical statements in the two reports, will have ocean transportation within 25 miles, and should develop into an important Canadian industrial centre.

The reports envisage a wide range of developments, including steel and heavy water for atomic reactors.

Frobisher and its subsidiary, Quebec Metallurgical Industries, Ltd., have been surveying the water power resources for northern British Columbia and Yukon Territories since 1952.

Their conclusion is that 4,500,000 horsepower can be developed economically by diverting into the Taku river waters from the Upper Yukon, the Deadeach and Salmon rivers, and that ultimately 5,000,000 can be developed.

The project would utilize the upper watershed of the Yukon in Yukon Territory and northern British Columbia.

Main storage reservoirs would be formed by two dams, one in Miles canyon on the Teslin river above Whitehorse, Y.T., and the other on the Yukon river below its confluence with the Big Salmon.

Storage for these reservoirs, with elevations of above 2,000 feet, would be conducted southward from Atlin lake through rock tunnels, to be used under heads totalling 1,900 feet.

Besides storing Upper Yukon waters, water would also be diverted to the reservoirs from watersheds east and west of the main Yukon river. Industrial plants on the Taku river would be a maximum of 44 miles from the two main power plants. Power would be generated at very low cost.

Basic surveys are being continued this year concerning location of tunnels, dam sites and other data.

Formal applications for conditional water licences will be submitted to both the federal and British Columbia governments "in the near future."

It is planned, the reports state, to erect two units on the west coast of British Columbia near established power sources as soon as plans can be completed.

The first unit would aim at production of 100 tons per day of iron or steel in a form in which it could be sold on the North American west coast.

The second unit would have to do with treatment of cobalt concentrates originating in concessions which Quebec Metallurgical Industries controls in New Caledonia.

Further plans for the Taku river area would include facilities for production of calcium and magnesium, alumina, phosphorus, and heavy water for atomic reactors.

"Negotiations are being conducted with other mining and metallurgical groups who are interested in securing substantial blocks of power."

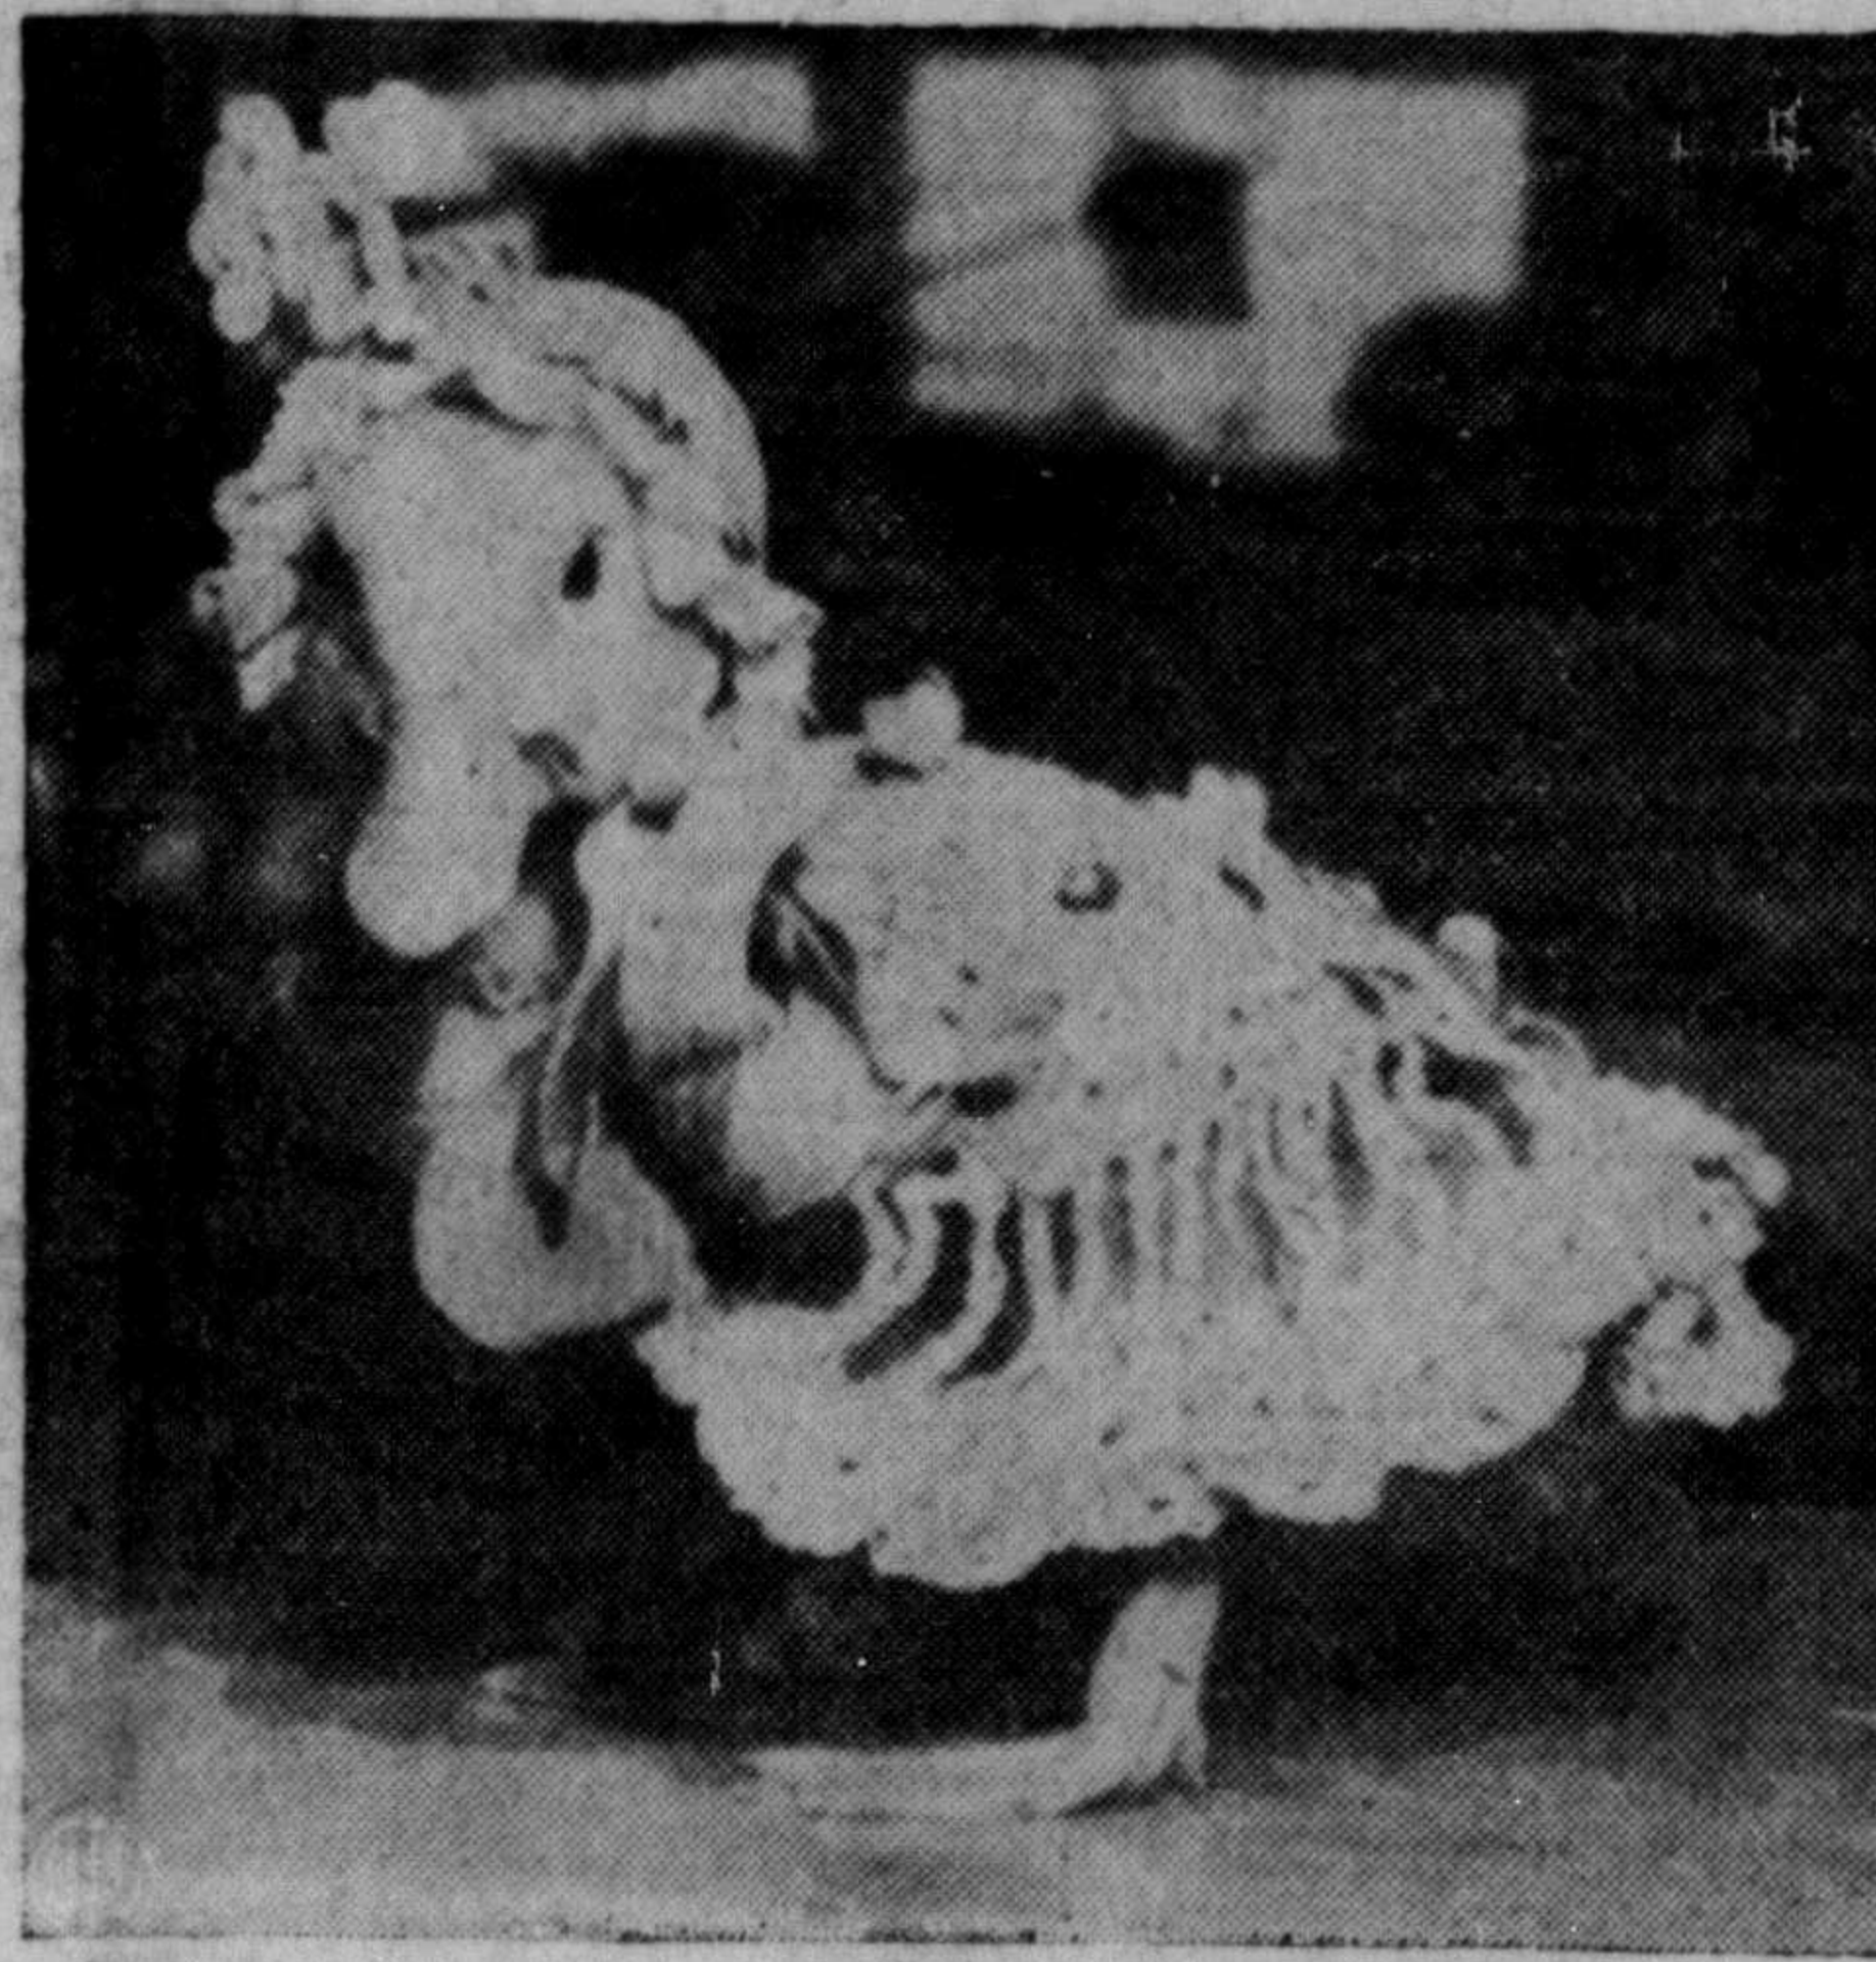

### Halibut Prices Up This Year

#### Top Skeena Boat Nets 6147 Lbs.

First across the board sales at the Halibut Exchange in Prince Rupert brought 14.3 cents for medium and large fish and 12.5 cents for chickens, the department of fisheries reports this morning.

A 24,500-pound landing was made this morning from the "Souffin" and was taken by Bacon Fisheries. Of the catch 14,000 pounds were medium, 500 pounds large and 10,000 pounds chicks.

Last year the price was 11 to 12 cents for chicks with mediums bringing 13 to 14 cents and large 13½ cents. Top prices of 13 to 16 cents paid last year on the first day of fishing were the lowest in 14 years. First day prices in 1952 ranged from 16 to 21 cents.

**TAKING SOLE PART** in a one-duck fashion parade, this style-conscious "quacker" displays a "bill" accompanying her best Sunday finery. The nameless webfoot lives in Miami Beach.

**AVERAGE CATCH DOWN**  
Landings at Squadare are lighter this year and the average catch is down there. Approximate total landings so far are about 45,000 pounds.

For the Skeena fleet, the Elsie K No. 1, belonging to Bob Karlinger, is high boat with a catch of 6,147 pounds. The biggest fish landed in this area weighed in at 119 pounds. Large fish are generally reported scarce, and mediums appear very uniform in weight, coming in at 12 to 13 pounds.

The packer Chamois is doing double duty this year, packing for both B.C. Packers and the Canadian Fishing Company.

The fisheries department reports there is little change in the size of catches in the southern area.

### Kitimat, Kemano Prepare For Vice-Regal Visit

Officials of the municipality of Kitimat and workers at the giant Aluminum Company of Canada smelter there and workers at Alcan's Kemano power plant site were in a flurry of activity today for the two-day visit of the Rt. Hon. Vincent Massey, Governor-General of Canada who is scheduled to arrive early Thursday morning.

The governor-general, accompanied by his son and daughter-in-law, Mr. and Mrs. Lionel Massey, will arrive aboard the HMCS Sioux at 6 a.m. Thursday and the official party will disembark at 9 for the start of the Alcan tour.

The vice-regal party will see both plant and townsite, before attending an informal public reception at noon, followed by an informal luncheon.

The Sioux is scheduled to sail at 3 p.m., arriving at 7 p.m. in Kemano. The official party will spend the night in the guest house at Kemano, embarking on a tour of the power house site in the morning.

A special event for the governor-general will be a trip via an aerial tramway to the 2,600-foot level where the main tunnel will be viewed.

In Kemano, too, there will be a public reception in the afternoon, after which the party will board the Sioux for the return trip south.

Mr. Massey and his party arrived last night in Vancouver and today the governor-general decorated a group of 31 servicemen at Jericho army base. Later he attended the 39th annual congregation at the University of British Columbia where he gave the main address and received an honorary degree.

### Sally Priest Dies in South

Mrs. Sally Priest, 42, well-known nurse of Terrace, formerly of Prince Rupert, died Sunday in Vancouver where she was taken on an emergency flight from Terrace after a sudden illness.

Wife of W. M. "Bill" Priest, former Queen Charlotte Airlines agent here, she was one of Prince Rupert General Hospital's most popular nurses during her two-year service, prior to her marriage two years ago.

She and her husband moved about 18 months ago to Terrace where she nursed in the Terrace General Hospital up until 12 days ago when illness struck.

Born in Ontario, she is survived by her mother, Mrs. Heathersall of that province, as well as her husband.

Mr. Priest, who flew to Vancouver with his wife, will return with the remains Friday night, and funeral service is expected to be held in Terrace Saturday.

### Comox Boy Receives George Medal

VANCOUVER—A 14-year-old boy stood among a roomful of uniforms today, the only civilian as 31 persons were decorated by Governor-General Vincent Massey.

And the deed which won Robert Thomas Waters the George Medal stood out among those listed on the 31 citations for gallantry. Of the rest, 24 awards went to the army, five to the RCAF and one to the RCN.

The incidents which led up to the moment when the young schoolboy stood up before the queen's representative in Canada, began Nov. 24, 1952 at the RCAF base at Comox, B.C.

A Vancouver Island-based Lancaster was coming in for a landing after a short hop from Vancouver with a crew of two and six trainees returning from leave.

The plane undershot the runway and piled in a flaming heap into a swamp.

The citation tells it from there:

Robert Waters fought his way through heavy bush and swamp to reach the aircraft. Despite the intense heat and danger of explosion, Waters displayed complete disregard for his own safety by entering the flaming wreckage and dragging the dazed and injured pilot to safety. His courageous action under the most harassing circumstances was undoubtedly responsible to a large degree in saving the pilot's life.

He was 13 years old at the time.

The Governor-General leaves for Kitimat tonight aboard HMCS Sioux.

### Test Into Morgan Death Postponed Jury Unable To Decide on Verdict

Jury inquiring into the death of Kelly Morgan, whose body was found in the waters near the Port Edward wharf, has been adjourned for a week.

George Dawes, coroner, announced the postponement of the jury's return after the evidence presented by George Abbott did not feel satisfied that evidence had been put before them to reach a verdict.

Before summing up the evidence, deputy coroner Dawes stated that he was not personally satisfied with the evidence until Kelly Morgan's movements between 8:30 and 11:15 Saturday night could be established.

Port Edward resident, Herbert Wesley told the jury that he had seen the deceased at 8:30 of the night he was drowned. At that time, he said, Morgan did not appear to be walking straight.

Wesley and Percy Barton, a neighbor, both told of going down to the float after hearing Mrs. Agnes Benson scream that "someone had gone overboard."

"When I got to the float I could see someone struggling," Percy Barton said.

"I could not find a pike pole or a rope, so I ran to a boat tied at the float," he said.

By that time there was nothing in sight in the water, Barton told the jury. He confirmed Wesley's evidence that when he had seen Morgan earlier in the evening, Morgan appeared to be drinking.

RCMP Constable Gordon of the Port Edward detachment stated that he had been informed of the mishap at 11:15 p.m. Saturday night. He said that he was able to get dragging operations underway within three minutes. Identification of the drowned man was not possible, Const. Gordon said, until the body was recovered at 12:35 Sunday morning. The body had been identified by Herbert Wesley.

The constable reported that Kelly Morgan had gone to Port Edward from Prince Rupert by car at about 6:30 p.m. Earlier Morgan had tied up his boat at a float in Port Edward after arriving from Cassiar, but that it was not the same float where his body was picked up Sunday morning, he said.

Const. Gordon went on to explain that the catwalk leading down to the float came within three feet of the edge. In his estimation, he said, even a man with full control of all his faculties would have trouble getting down there on a dark night.

Before retiring to consider evidence, jury foreman Abbott drew attention to the statement submitted by Dr. Donald Oakley which stated that "there was no sign of external violence." Mr. Abbott said that there appeared to be a bruise on the deceased's forehead. Also serving on the jury are Stanley Leonard, Hardy Christenson, Thomas Jassome, Arthur Beaulieu and Mike Zahinchuk.

### NO PREMIUM REFUND MAY 22 WRITE BCHIS

Health Minister Eric Martin said yesterday that hospital insurance premiums is almost paid by those persons who have not received cheques should write in for them.

Statement, the minister said since the refunding of almost \$3,800,000 has been mailed to 380,000 persons, there were a "fairly large number" of cheques not to the service because of incorrect addresses or registrants had left the province.

Persons writing in are requested to give their names, addresses and past and present addresses.

### Card Says Operators' Stand Showing Short of Hypocrisy

He noted that Conciliation Officer R. Clements was trying to bring the parties together but predicted that Clements' efforts would be of no avail if the companies would not give one group of their employees the same treatment which they had given others.

"Generally the market conditions have improved considerably, and we should have successful negotiations this year. However," he said, "we could take a page from the Boy Scouts and be prepared for the worst."

**THREE GIRL PIPERS** gather in front of the Super Constellation which is inaugurating Trans Canada Air Lines' new transatlantic service from Toronto to Britain. The 63-passenger airliner cruises at 300 miles an hour at 20,000 feet, and is one of eight purchased recently. The pipers, members of the Toronto All-Girl Pipe Band are left to right: Lottie Murray, pipe major; Ruth Munro, and Phyllis Lee. (CP Photo)

**FIVE BEARDED** members of the pioneer platoon of the 2nd Battalion of the Queen's Own Rifles of Canada, prepare to lead off a parade in Korea celebrating the regiment's 94th birthday. Pioneers, only classification in the army allowed to wear beards, are part of every infantry battalion and their work includes laying and clearing minefields, crossing obstacles, demolition and road improvement. Cpl. Bill Taylor of Toronto holds Deucehorn, regimental mascot. Behind him are: (left to right) L/Cpl. Bunny Wilson, Toronto; trailman Jimmy Racette, Regina; and Phillip McLean, St. Stephen, N.B.; and L/Cpl. John Chris, Toronto.

### Workers Trapped By Oil Explosion

NORWALK, Calif.—An explosion touched off a roaring fire among petroleum tanks in Rothchild Oil Company refinery today. First reports said several employees were trapped in the fire-rimmed building.

Heat from billowing flames was too intense for anyone to approach the structure. At least eight big tanks were enveloped in the inferno.

### RCAF, Cadet Officers Expected For Big Inspection Tonight

Six RCAF and air cadet officers scheduled to arrive here by plane this morning on an inspection trip, were held up by bad weather at Smithers and had not arrived by 3 p.m. They were due here for the annual inspection of City of Prince Rupert Squadron 559, Royal Canadian Air Cadets.

The big inspection will now be held at 8:30 tonight in front of the court house or, in case of rain, in the drill hall at HMCS Chatham.

Tonight's inspection will wind up months of heavy drilling by the cadets who are competing for a national trophy awarded the squadron making the best showing in annual inspections across Canada.

Following the inspection a reception will be held in the wardroom at Chatham, attended by members of the sponsoring committee and their wives, and officers of the squadron and wives.

The inspecting officers, flying here from Prince George where another inspection was held, are headed by Wing Commander D. C. S. MacDonald, Air Commodore W. A. Orre, originally scheduled to make the trip, was unable to come.

Others in the party are Capt. F. L. Clarke, B.C. committee chairman of the Air Cadet League of Canada; V. R. Cleghane, past chairman of the B.C. committee; J. A. Brown, committee member; V. E. Forbes of Powell River, committee member-at-large and Flight Lt. H. E. Carling, air cadet liaison officer.

The public is invited to watch the inspection tonight.

**THE WEATHER**  
Forecast  
North coast region—Cloudy with showers today and Wednesday. Little change in temperature. Light winds except occasionally southeast 20 in exposed areas today. Low tonight and high Wednesday at Port Hardy 45 and 58, Sandspit and Prince Rupert 45 and 55.

Independent daily newspaper devoted to the upbuilding of Prince Rupert and Northern and Central British Columbia.

As I See It

by Elmore Philbott

India's Wise Men SUPPOSE this newspaper carried a front page report that George Drew had given up the leadership of the Conservative Party.

Suppose the story declared that the Conservative leader was to devote the remainder of his life to persuading rich Canadians freely to give most of their wealth to provide for the poor of this country.

The above would be roughly equivalent to what has just happened in India, where the leader of the second most important party in that vast country has just renounced politics, and thrown himself into "free land gift" campaign.

The Indian leader's name is Jaya Prakash Narayan. He is the founder and leader of India's Socialist party, which is second only to Nehru's Congress party in mass support throughout India.

Mr. Narayan is 51 years of age, extremely well educated. He spent eight years in the United States, where he was converted to Communism.

But, like many other persons of good will and intelligence, his actual experience taught him that Communism was leading the world in exactly the opposite direction from what he wanted it to go.

He saw that Communism was just a new form of materialism, in some ways worse than that which it sincerely but mistakenly sought to supersede.

IT IS ONE of the miracles of our time that a non-Christian, the late Mahatma Gandhi, was the first great world leader to demonstrate the validity of the social teachings proclaimed by Jesus Christ in His sermon on the mount.

There is no more mistaken description of Gandhi's teaching than that it was "non-resistant." The very heart and soul of Gandhi's way of life was that it is the duty of every human being to resist evil.

Incidentally, all the Indian gurus teach that it is better to resist evil, even by violent means, than not to attempt to resist evil at all.

What was new about Gandhi's principle was that he taught and demonstrated that it was possible to resist evil by applying the principles which Jesus taught on the hills of Galilee—that is, by means which did not compound the evil itself.

When Gandhi died, his mantle fell on Vinoba Bhava. This great soul and true sage travelled by foot throughout India calling on the people freely to give up part of their land, for the benefit of those who had none.

Up till last month he had persuaded the rich and poor of India voluntarily to give up over two and a half million acres of land.

Bhava is no fair weather fighter, either. He goes to the parts of the country where the class struggle is the keenest. He has been known to work in areas where the Communists were holding chunks of the land by force of arms.

The early Christianity, which triumphantly survived the execution of its founder, was a movement with a dynamic social doctrine.

The very name "Communist" and its derivatives, such as "communism" and "communism," has come right down to us from the records of the early Christian church.

It was this church which was based on the principle of purely voluntary communism, which in fact grew throughout the ancient Roman Empire, and finally triumphed over that Empire itself.

The difference between the ancient, free, voluntary communism of the early Christians and the Communism taught by Karl Marx and applied by Lenin, Stalin, Malenkov and Mao, was that the original communists based their community on the principle "voluntarily pool your goods for the good of all."

The revised, materialist version of Karl Marx was "Seize the goods of the rich."

India's modern Wise Men are going back to the first type.

"HAW, HAW, HAW—HERE HE COMES AGAIN."—By Robert W. Chambers in Halifax Chronicle-Herald. (CP Photo)

OTTAWA DIARY

By NORMAN M. MACLEOD

Despite the heavy crop of rumors that have been associating External Affairs Minister L. B. Pearson with the post of Secretary-General of NATO, Parliament Hill isn't saying goodbye to him just yet.

For there is at least a hopeful chance that the widely popular "Mike" will not be going anywhere at all, but will end up by staying right here.

In the past Hon. "Mike" has been mentioned for various top international jobs. In those cases his failure to land always has been due to Soviet opposition.

When NATO was organized, British Prime Minister Winston Churchill was particularly insistent upon its headquarters being located in London.

The French wanted Paris, Washington, too, favored the French capital. The great Churchill wasn't easily over-ruled. He finally acquiesced only on condition that the chief administrative post—that of Secretary-General—should go to some one from the United Kingdom.

Ottawa opinion isn't too clear as to whether that undertaking expires with Lord Ismay's term of service, or whether it is a permanent arrangement. But the majority view inclines to the latter belief.

If this majority view is correct, Hon. "Mike," whose qualifications for the post otherwise are widely conceded, would be ineligible.

Most people on Parliament Hill openly express the hope that that is the case. It isn't that they begrudge Hon. "Mike" advancement on the stage of international diplomacy; it is simply that he would be so greatly missed from the Cabinet here.

So long as present tensions remain, foreign affairs are the top concern of the government. And Hon. "Mike" has made them a life study. He would be a hard man to replace in the government.

In any event, the issue will not have to be faced until some time in the New Year. The latest word from Paris is that Lord Ismay has agreed to remain on the job until the end of this year at least, instead of leaving office in September as he had planned.

By most people this is taken as a hint that his successor is to be from the United Kingdom, and that he himself is simply staying on to meet the convenience of the British government in replacing him. That obviously would mean that Hon. "Mike" isn't going to be in the running for the post.

And that will meet with general Parliament Hill approval, even if it leaves Hon. "Mike" a trifle disappointed.

South Korea Making Little Gain Toward Self-Sufficient Economy SEUL (Reuters)—South Korea is making little or no progress towards a self-sufficient economy.

About \$400,000,000 in the form of goods and cash has flowed into South Korea since the first relief organizations were formed in the early days of the war. But there is little to show for it.

On the credit side, trains are running again and there is some form of transport, communications and lighting in the main cities.

The dikes and ditches of bomb-blasted rice paddies have been rebuilt and enough farm tools and fertilizer imported to bring most of the pre-war agricultural areas back into production.

These steps paid off last autumn, when South Korea had her biggest rice crop in 12 years.

MAJOR PROJECTS HELD UP Two textile mills are back in operation with 54,000 spindles imported by the United Nations Korea reconstruction agency, and three briquette factories are in production, also with imported equipment.

As far as major rehabilitation projects are concerned, however, there is planning but no progress.

The planners agree that South Korea urgently requires power. South Korean power plants now produce 80,000 kilowatts an hour. This is not enough to light the country's homes, far less to provide power for its factories.

Petrov Documents Disclose Australians Blackmailed Into Spying For Russians

CANBERRA (AP)—The planks of a railway bridge near Canberra served for a time as the hiding place for documents passed between Vladimir Petrov and other foreign agents, Australia's royal commission on espionage have learned.

W. J. V. Windeyer, chief government counsel, told the commission government authorities learned of the hiding place when they translated one of the documents turned over to them by the former Soviet embassy third secretary when he requested political asylum last month.

It was Petrov's disclosures that touched off the investigation into what Windeyer described today as a "remarkable counter-part" of what was discovered in Canada following the defection of Igor Gouzenko, a Soviet embassy cipher clerk, in 1946.

One of his documents, Windeyer said, contained orders to Petrov from Moscow to stop using the railway bridge as a hiding place because it was inspected regularly by railway employees.

The government counsel said in his opening statement Soviet agents had blackmailed Australians into spying for them.

Petrov, who was given political asylum as was his wife when she decided not to go back to Russia, told investigators the Red agents employed blackmailing tactics if they knew any thing detrimental about a person they wished to use the spy ring, it was not a person to get out.

Since 1951, however, jets had found it "difficult" to find anyone who would work with them.

The car took off down the street, charged over the sidewalk into the gas station and hit 69-year-old Herman Metter, who suffered head injuries.

Douglas' mother, who didn't know how to drive, sat frozen with fear in the front seat beside him. Screaming in the back seat were his frightened brother, Arthur, 9, and their cousin, Susan Germano, 14.

As the car emerged from the gas station, Mrs. Nemetz pulled the child away from the accelerator and the car coasted to a stop.

Family Outing Becomes Nightmare As Youngster Drives Away With Car NEW YORK (AP)—A Brooklyn family's Sunday outing ended in a terror-filled auto ride with three-year-old Douglas Nemetz at the wheel.

The boy's escapade, in which a pedestrian was run down, brought his father a summons for leaving the family car unattended with the motor running.

Arthur Nemetz, 51, left the car in front of his sister-in-law's house. The automatic transmission was at "drive" and only a little pressure on the accelerator was needed to put the vehicle in motion.

While waiting for his father to stop talking with Mr. and Mrs. Charles Germano and return to the car, Douglas squirmed into the driver's seat, grabbed the steering wheel and stepped on the accelerator.

Large Program Sees Alberta Cut Predators JASPER, Alta. — Major Fred Brewster, veteran guide and outfitter in the Canadian Rockies and one of the country's leading campaigners for wildlife protection in national parks, said here today the number of predatory animals in Alberta was greatly reduced in 1953.

"The excellent results in the war against destructive animals in Alberta were entirely due to a concentrated program carried out by the provincial department of lands and forests, which should be commended highly for its work," Major Brewster said.

"The menace of voracious predators in national parks is always a serious one and we hope operations will be intensified in the future with the aim of exterminating these beasts," he declared. "Alberta has made excellent progress in this respect," Major Brewster said.

In a constructive and vigorous campaign Alberta hired a band of 150 trappers to carry out the war to the latter part of 1953. The following number of predators had been destroyed: foxes 36,400; coyotes 20,600; lynx 4,200; wolves 3,100; bears 1,700; and cougars 30.

"The results, especially in Jasper National Park, have been very satisfactory," he said. "The department of lands and forests has embarked on an errand of mercy to wildlife and we hope to co-operate with them to the fullest degree."

Tide of Northern Industry

IN THE departure of a ship from Jamaica bearing alumina for Kitimat we have the first positive sign that the great Alcan project is soon to reach fruition.

An industrial undertaking which has been described as the most ambitious of modern times is about to start the process of paying off the millions of dollars and thousands of hours which have gone into making it work.

Although there can be no doubt that ultimately the new industry will have a pronounced influence on the development of the whole Skeena district, those who are expecting sudden great changes are almost certain to be disappointed.

Alcan's own experience proves that costs and other problems of moving to a comparatively isolated area are inclined to exceed even the most careful estimates. Housing and transient labor are two such items which come immediately to mind.

While Alcan has pioneered the way and made it easier for other industries to follow, the situation is by no means so settled that the course of future development is all cut out.

An example of the difficulties encountered even when certain facilities are already available was provided by the Columbia Cellulose Co. Without a pool of trained labor to draw from and without hope of attracting enough workers from outside because of the housing shortage, Columbia Cellulose filled its positions almost entirely with local untrained help.

Although the company is now operating efficiently, it was a bold stroke at the time and presented a challenge which other companies considering a move to this part of the country will think about twice. Moreover, it is a problem which will persist to some extent even after the company's operations are underway.

As northern industry inches forward, these obstructions will disappear—but it is moving like the tide, not a river in flood. So let's not get excited if we seem to be wading in too little instead of drowning in too much.

Ray REFLECTS and REMINISCES

People who take cold baths all winter seldom have colds. But they have cold baths.

There is something about May 24 that seems to be worth waiting for. The British Columbia weather picture cannot be called happy, for there's ten more days to count. Somehow, that mysterious influence involving the month of May, and a motherly looking old lady still stands.

ONLY TWENTY-THREE Twenty-three divorce decrees were granted in Vancouver about a week back. In the western news world, that's just a stray item today. In fact, hardly bothering with that extra little word "stray."

Canadian judges who net \$900 a month may get a raise, says the Vancouver Sun. And adds, "who says crime doesn't pay?"

"During my years in the theatre," remarked John Barrymore, "one of my chief regrets is that I couldn't sit in the audience and watch me act."

According to advice from Ontario, Canada's official hangman is not well, and on the point of resigning. There may be need- less cause for alarm but could there be a country without a PE, and several fellows down for an appointment?

Things looked pretty black for the English major. He was being court martialled for chasing, completely in the nude, a young lady in a negligee through a hotel corridor in Cairo. But the major's attorney was alert and resourceful and won for his client an acquittal. Basis for defence was this paragraph from the Army manual: "It is not compulsory for an officer to wear a uniform at all times, so long as he is suitably garbed for the sport in which he is engaged."

NOTHING DOING THIS YEAR This year, Canucks in Canada will seek jobs in Canada, assuming they need them, instead of newly arrived strangers from across the Atlantic. These may total 150,000, the Ottawa radio announced Wednesday. In this case there will be fewer strange

faces on the street corners all busy talking a line most of us here cannot savvy.

Away back in Brockville, Ont., people are asking that surely by this time we know the name and words of the National Anthem. It's known, of course. But what's going to be done? "What's 'O Canada' doing to be called? And where does 'God Save the Queen' come in? We have stood up in more than one audience where both tunes were played and sang at the same time. But it makes an odd sound."

Never go back, is the advice of the fellow at the next desk, who made a sentimental pilgrimage to the city of his youth. It seems he found all his old friends either dead, rich or on the wagon. The former is from the Port Arthur News-Chronicle. Well, if a man waits long enough, the old gang will usually be found anywhere on earth, except where one deliberately seeks them.

There has been a lot of controversy about capital punishment and all that sort of jolly rot lately, so this may be a useful time to mention that prisoners in Canadian penitentiaries, jails and reformatories have reached a new grand total number today, being a record of 16,383.

The Civic Centre is convenient, as well as handsome and useful, yet there go some times when even scanty seating in the lobby is just about impossible to find. But this does not mean the property will not be seen again. It will, though, taking a little time. Perhaps it is quite correct to assume that under certain circumstances, comfortable furniture can be borrowed. However, a room the size of the lobby without even a chair or a stool, gives an embarrassed feeling.

That African dignity, Emperor Selassie of Ethiopia will be in Ottawa this month. It will be his first visit to this continent. He is said to have a weakness for maple syrup, marmalade and mince pie. We'll say his general judgment is safe and sound.

## Cleveland Has Strategy Back Fire As Williams Walks, Jensen Homers

Cleveland's slim hold on first place in the American League is in jeopardy. Ted Williams is in town.

### Walls Gets Nod Over Beshore

EDMONTON—Canadian heavyweight champion Earl Walls outpointed Freddy Beshore of Los Angeles in a 10-round non-title bout here Monday night. The decision was unanimous.

The 25-year-old Walls, who has 26 knockouts in 36 professional fights and ranks eighth as contender for the world heavyweight title, kept the Californian at the end of repeated left jabs throughout. There were no knockouts.

The Canadian Negro, who held advantages in weight, height, reach and age, found little difficulty with 31-year-old Beshore's close-in style. Beshore's only effective punches were looping rights.

### Weinmeister Suit Starts

SEATTLE—Trial of New York Giants, suit against Arnie Weinmeister, former star tackle of the professional football club, opened here Monday before Judge Lloyd Shorett.

The Giants, seeking to prevent Weinmeister from playing with or coaching any other team for a year, contend they exercised an option to extend his contract to May 1, 1955.

Weinmeister, signed as a player-line coach with Vancouver Lions, denies the Giants' claim and says he and the club agreed orally last year that the 1953 football season was to be his last with them.

The Giants were denied a temporary injunction against Weinmeister earlier by Judge John L. Langenbach.

game series with the league-leading Indians, starting with a night game tonight. If there's one player who can knock the tribe from their top perch, it's Williams.

Just ask the Detroit Tigers. Monday the Tigers decided not to pitch to Williams, and it wound up costing them the game.

Williams came to bat in the eighth inning with the Red Sox trailing 3-1. There were two out and a runner on second.

Fred Hutchinson, Tiger skipper, ordered pitcher Ned Garver to pass Williams intentionally. Jackie Jensen, next up, hit Garver's first pitch into the seats for a three-run homer—and gave Boston a 4-3 win.

In the National League, Walter Alston's Brooklyn Dodgers are in an exact first-place tie with Philadelphia Phillies.

The Dodgers benefitted from Monday night's intra-league warfare when the Philadelphia Cardinals split a pair Philadelphia whipped St. Louis 8-4 in a game started as the second

### Red China Bid For Olympics In '56 Accepted

ATHENS (AP)—Red China was admitted to the 1956 Olympic Games at Melbourne, and a Russian sports leader has announced the Soviet Union will ask that Moscow be chosen as the site for the 1960 summer games.

The International Olympic Committee, in a close 23-21 vote, approved Communist China's participation in the 1956 Games after voting down East Germany, 31-14. Nationalist China thereupon announced it would withdraw from the Olympics.

Red China's bid was sponsored by the Communist bloc, and supported by British votes, an informant declared. The action came at the final session of the IOC's 49th meeting.

half of Sunday's doubleheader and suspended after six innings by Pennsylvania curfew. In the regularly scheduled game, St. Louis won 8-0. Joe Presko scattered seven hits for the first St. Louis shutout of the season.

In the only other game, the Cubs defeated Pittsburgh 10-7. The other clubs weren't scheduled.

Prince Rupert Daily News Tuesday, May 18, 1954

### More Curling Ice To Be Discussed

A meeting to discuss the possibility of adding two more sheets of ice to the Prince Rupert curling rink has been called for tomorrow night at the Civic Centre.

The move was decided upon at the annual meeting of the Prince Rupert Curling Club last night at the Civic Centre. Decision of the meeting to restrict future Sunday afternoon curling to members only, will necessitate three draws being made each night of the regular curling season instead of two, as in past seasons.

Bill McKenzie was named president of the Curling Club in the annual election of officers. Others elected were Harold Thom, first vice-president; T. G. Bateman, second vice-president, and Bob Rudderham, treasurer.

Two-year directors elected at last night's meeting were Percy Berg, Dr. A. A. Miller, Jack Paul, Allan McBroome and Eddie Garner. One-year directors who were elected are Bert Field and Peter Bird. Directors who still have one year to serve on the executive are Ken Warren, Gene Hollister and Bill Baxter.

Reports submitted to the meeting show a fairly successful year, club secretary Roy Brown reported today. The members also were shown a film on the 1953 Winnipeg Briar.

The semi-annual meeting of the Curling Club is scheduled for October 18.

## Fourth Ranking Heavyweight Ready For Matthews Rematch

By JEFF RYAN Canadian Press Staff Writer

LONDON (AP)—Don Cockell, written off not so long ago as a boxing has-been, figures he's within punching distance of the world heavyweight title.

The British and Empire heavyweight champion, a tubby one-time blacksmith now ranked fourth behind champion Rocky Marciano, increased his status in the boxing world with a recent decision over Roland LaStarza. The cheer he manufactured within the gloomy British fight scene, bereft of a successful heavyweight contender since Welsh miner Tommy Farr met the young Joe Louis twice, will expand considerably if Cockell wins again June 1.

The opponent is Seattle's

### MAJOR LEAGUE LEADERS

By The Associated Press

NATIONAL LEAGUE				
	AB	R	H	Pct.
Jablonski, St. Louis	126	15	47	373
Hammer, Philadelphia	100	13	37	370
Snider, Brooklyn	108	19	39	361
Musial, St. Louis	111	30	40	360
Moon, St. Louis	104	31	37	356
Runs—Moon, St. Louis, 31.				
Runs batted in—Musial, 32.				
Hits—Jablonski, 47.				
Doubles—Snider, 11.				
Triples—Irvin and Mays, New York; Roberts, Pittsburgh, and Schoendienst, St. Louis 3.				
Home runs—Sauer, Chicago and Musial, 11.				
Stolen bases—Barton, Milwaukee 7; Pitting—Podres, Brooklyn and Raschi, St. Louis 4-0-1,000.				
Strikeouts—Haddix, St. Louis, 42.				

AMERICAN LEAGUE				
	AB	R	H	Pct.
Avila, Cleveland	111	26	42	378
Michals, Chicago	58	10	21	362
Rosen, Cleveland	103	20	37	359
Agganis, Boston	84	9	23	356
Boone, Detroit	89	17	30	349
Runs—Avila, 26.				
Runs batted in—Rosen, 33.				
Hits—Avila, 42.				
Doubles—McDougal, New York, 9; Triples—Minnoso, Chicago, 6.				
Home runs—Boone, Detroit, Berra, New York, Vernon and Sivers, Washington, and Rosen, 6.				
Stolen bases—Jensen, Boston and Kaline, Detroit, 4.				
Pitching—Lemon, Cleveland and Lopat, New York, 5-0-1,000.				
Strikeouts—Turley, Baltimore, 83.				

Harry Matthews, the fighter Cockell beat last year on the west coast. The new cockier Cockell is confident it's just another fight.

Cockell, only five feet nine inches weighs more than 210 pounds. Critics once claimed he fought best at the table.

His tendency to put on pounds and drastic "trimming" cost him the British and Empire light-heavyweight title in June, 1952, when Randy Turpin won on a technical knockout.

After that, fights were scarce. Cockell, 25, had to start at the bottom again, but in six months was heavyweight king of Britain and empire and he has never lost a fight in his class.

Cockell, a boxing barrel, has a deceptive style.

He can hook with both hands, take a punch and get out of trouble. His fights with both LaStarza and Matthews indicate he knows a bit about boxing. He's not noted for knockout punching, but he can put victims away.

At heart, says Cockell, he is really more of a farmer than anything else. Most of his spare time is spent on his Sussex pig-and-poultry farm.

## PENALTY GOAL GIVES SCOTS FIRST WIN OF CANADIAN TOUR

MONTREAL (AP)—A penalty goal within 10 minutes of the final whistle by veteran George Young gave Glasgow Rangers a 1-0 victory over Chelsea of London in an international exhibition soccer game played before 10,920 fans.

The victory gave Glasgow a 1-0 lead in their best-of-three North American challenge series against the pensioners. They meet at Toronto June 5 and again at New York June 6.

## Parks Board Approves Fence For Roosevelt Park Diamond

At a special Park's Board meeting last night, approval was given to the construction of an outfield fence at Roosevelt Park.

The construction work will be a joint responsibility, with the Park's Board putting in the posts and the Baseball League Executive erecting the fence itself. The fence will extend 275 feet along third and first base lines, giving centre field a maximum depth of approximately 400 feet.

The fence will be a removable type and City Clerk Bill Long, Park's Board chairman Pat Forman and a representative from the baseball association will meet shortly to decide on responsibility for the new boundary.

The Park's Board in conjunction with the city's works department completed a sturdy backstop at Roosevelt Park. The new backstop, which was put to the test last Sunday, includes an overhead wire apron.

 Floats. (120p)

**HUGE TREES**  
 The Sitka spruce trees of the  
 British Columbia coast may  
 reach heights of 250 feet.

THE GRIMNESS of the business at hand is reflected in the faces of the principals in the McCarthy-Army controversy currently being aired in Washington. These candid studies were made as the sensational hearings stretched into the second week. Top row, left to right: Senator Joseph R. McCarthy; Army Secretary Robert T. Stevens; H. Struve Hensel, Assistant Secretary of Defense; bottom row, left to right) Roy M. Cohn, chief counsel to Senator McCarthy; Joseph N. Weizen, special counsel for the Army; and Ray H. Jenkins, special impartial counsel to the Senate Investigations sub-committee hearing the dispute.

## Russians Deny School Military Training But Playground Exercises Like Drills

Editor's Note—When Bill Bess, Canadian Press staff writer, returned to Canada after five months in the Soviet Union, he brought notebooks crammed with sidelights on life behind the Iron Curtain. Here are some extracts from his handwritten records which the Russian censor did not see.

of a necktie.  
 "Most people are wearing them now," he said. "Pretty soon we'll have invented them."  
 The censor wouldn't let me tell that story when I tried to send it from Moscow.  
 Here is what the newspaper said about speeches made at the time of the March elections:  
 Assistant party secretary Pospelov: "Long applause."  
 Lazar Kaganovich: "Thunderous applause."  
 Nikita Krustchev: "Thunderous and prolonged applause, everybody stood."  
 Clementi Voroshilov: "Long and thunderous applause growing into an ovation, welcoming shouts of 'Hurrah' and everybody stood."  
 "In a country where they concentrate divisions of troops for anything from a parade or a funeral to the opening of a new store, we'd have to be pretty good to do it."  
 Because Pravda is official mouthpiece of the Communist party, the phrases it uses to describe reception of Red leaders' speeches is a safe key to those leaders' popularity with officialdom.  
 Every Soviet education authority I talked to denied there is military training in Russian elementary and high schools. But enough fair-minded observers in Moscow have told me they have seen schoolyard exercises resembling cadet drills to make me doubt the Russians.  
 Conscripted in the USSR starts at 18 and is basically for three years though it may be longer or shorter depending on the armed services' need for particular tradesmen.  
 University students are exempt from conscription but must attend military lectures and drill as officer cadets. They go to military camp for two to four weeks during summer vacations and may qualify as reserve officers.  
 Soviet claims to have invented almost everything aren't accepted without question by every Russian.  
 A student commented that certain practices previously considered "bourgeois" are now re-appearing. One is the wearing of neckties.  
 Basset found himself in way over his head against Orlando Zulueta at Brooklyn's eastern parkway and lost a unanimous verdict to the clever Cuban who is ranked second among light-weight contenders.  
 Khalif used superior speed and a solid right hand punch to offset Saddlers left-hand punching and roughing tactics. Zulueta, at 13-to-59 choice, was as pleased over Bassett.

## Saddler, Bassett Both Decided By Underdogs in New York Bouts

NEW YORK—Featherweight champion Sandy Saddler and Percy Bassett, the "interim" king, had better stick to the 126-pound class from now on.  
 The champ expected to romp home against Hoacine Khalif, a three-to-one underdog, Monday night at St. Nicholas arena and lost a split decision to the fleet Algerian lightweight.  
 Bassett found himself in way over his head against Orlando Zulueta at Brooklyn's eastern parkway and lost a unanimous verdict to the clever Cuban who is ranked second among light-weight contenders.  
 Khalif used superior speed and a solid right hand punch to offset Saddlers left-hand punching and roughing tactics. Zulueta, at 13-to-59 choice, was as pleased over Bassett.

**Cabin Cruiser Now Demonstrating Latest Device For Scanning Seas**

VANCOUVER — A 40-foot cabin cruiser, the Miss Honeywell, is here showing Fraser river fishermen and tugboat operators the latest device for scanning watery depths.

She is equipped with the "sea scanner," a development of wartime Asdic which was invented by British scientists to locate submarines below the surface.

On the secret list for a long time, it is being developed commercially to locate schools of fish and giving warning of navigational hazards.

One of the first commercial sets built was installed last year

in the whale-catcher Nahmint and proved successful in locating whales. Another set installed in the fishing boat Pacific Sunrise was used last season to find herring schools with good results.

**HELP IN FOG**

The instrument should be of great assistance to Fraser river tugboatmen, especially in fog, for it gives a true picture of surroundings below the surface. It will give warning of shoals, snags, bridge headings and channel walls.

It has a vertical range like an echo sounder, and a horizontal range of 1,600 feet on an arc of 240 degrees.

Like radar, a picture lights up on an indicator screen, but there is also an audible ping which has a different frequency for different objects, making it easy to distinguish between a school of fish and a buoy.

GUS KYLE (left), captain of Calgary Stampede, stands ready to accept the Edinburgh Trophy for the Stamps' after they defeated Quebec Aces 4-2 in the final game of the East-West hockey finals at Calgary. With Kyle at the presentation of the newly-inaugurated trophy are Al Leader (centre) president of the Western Hockey League, and Frank Currie, Stampede coach. Calgary won the sixth game of the best-of-nine playoffs to win the series five games to one. (CP Photo)

**Celco League Bowling Prizes Given Winners**

The grand roll-off trophy for the Celco City Mixed Bowling league was presented to the Miller Bay Wildcats at the wind-up banquet and dance held at the Canadian Legion Auditorium.

Making the presentation master of ceremonies Jerry Lord and sharing in the trophy were players Maxime McFadden, Albert McFadden, Mary Hayward, Jack Sedgewick, Tony Wade, Betty Wade and Nancy Hunchak.

Guests of honor for the evening were Mr. and Mrs. George Cook and Mr. and Mrs. Lloyd Rice.

Mr. Cook presented the George Cook Trophy to Bule's, the winning "A" Division team.

Sharing honors on the Cook trophy were players Bill Collins, Jessie Collins, Clare Marneau, Mamie Marneau, Don Llewellyn, Daisy Llewellyn, Inez Parkhouse and M. Herlak.

League treasurer Lloyd Rice presented the "B" division trophy, which was sponsored by the CCC 300 Club, to the winning Timber-Tics sextette. The players were Carol Brentzen, Reg Phillips, Mildred Wide, Bert Edgars, Irene Lindsay, Joe Long, Rod Larson and Tiny Carlson, who is now in Vancouver.

Individual trophy winners were: A division—Men's High Average, Byron Lofgren with 200; Ladies' High Average, Mary Postuk with 203; Men's High Three, Byron Lofgren with 791; Ladies' High Three, Mary Postuk with 756; Men's High Single, Bill McChesney with 371 and Ladies' High Single, Shirley Ginn with 311.

B Division—Men's High Average, Joe Long with 195; Ladies' High Average, Mildred Wide with 171; Men's High Three, Don Fraser with 728; Ladies' High Three, Mildred Wide with 709; Men's High Single, Jim Wright with 320 and Ladies' High Single, May Murray with 301.

**Nine Homers Scored in WIL**

By The Associated Press  
Western International League pitchers are generous with the home run ball this season.

Only three games were played Monday night but nine home runs were listed in the total of 68 safe hits counted in ball parks at Calgary, Tri-City and Salem.

Four homers were in the short-fenced park at Calgary, where the Edmonton Eskimos trounced the hometown Stampede 10-8. Gus Stathos, first man up for Calgary, lifted one out of the park and Andy Skurski and Larry Manier of Edmonton and Dan Lundberg of the Stampede matched the feat.

At Kennewick, Marv Williams and Dick Greco homered for Vancouver in the first inning to set the Caplanos on the way to an eventual 9-3 victory. Len Tran contributed a four-master for Tri-City in the eighth.

Joe Joshua and Tom Perez found the range at Salem as Victoria racked up a 12-3 triumph over the Senators.

Victoria won the game early. The Yanks scored five runs in the second inning and never were threatened.

By EASLEY BLACKWOOD

'Forcing' Play Can Also Work For Declarer

Most textbooks discuss at some length the matter of "forcing" declarer — that is, leading good cards in the side suits to make declarer ruff until his trump length is reduced beyond the danger point.

There is no reason why this shouldn't work both ways, although the textbooks are strangely silent on the subject of declarer forcing a defender. Mr. Masters found it necessary to use that line of play in today's deal.

Against the four spade contract Mr. Champion led the king of hearts. Miss Brash elected to overtake with the ace and return a club. Mr. Champion squirmed slightly in his chair at this development. Whenever his partner makes an out of the ordinary play he immediately suspects it of being an error. In fact it is an error to him—until proven otherwise.

**HOW TO UPSET PARTNER**

This endearing trait is one of the successful methods of throwing partner off his game — if you're interested in accomplishing that. Actually, Miss Brash's club shift was a good shot as it eliminated Mr. Masters' only entry to the board outside the trump suit itself.

Mr. Masters realized he would

**Rope Mishap Fatal to Boy**

CAMPBELL RIVER, B.C. — Separate strangling mishaps took the life of a 12-year-old boy and put another in hospital here.

Dead is Edward David Hutchinson who was found hanging by a rope in a shed near his home.

Lourdes Hospital said Eddie Quatel, three-year-old son of Mr. and Mrs. Sam Quatel of the Indian reserve near here is in improved condition.

On the seriously ill list Saturday night, he was rushed to hospital after he was nearly choked to death when he apparently became entangled in one of the supporting ropes of a swing.

RCMP said the Hutchinson boy was found by his father, Elwood, when he arrived home from work just before six p.m. All attempts to revive him failed. He was last seen alive about 4:30 p.m.

**INLAND WATERFOWL**

The double-crested cormorant which inhabits some inland lakes is about the size of the loon, blackish in color.

**Where oh where does the money go?**

That's a question we all ask ourselves! We ask it at Imperial too. And the answer is to be found in our annual report.

Here is where each Imperial dollar went last year.

- 53½¢ went to buy crude oil and other raw materials.
- 28½¢ went to operating costs ... including pay cheques to our employees.
- 10¢ was gobbled up in taxes ... and this doesn't include the provincial gasoline tax.
- 4¢ was used to replace worn-out equipment.
- The rest ... 4¢ ... was dividends to our shareholders for the use of plants and equipment bought with their money.
