**Little Gibraltar Hill**

ARMY TANK of the Lord Strathcona's Horse overlooks a scene that will long be remembered by members of the 1st Battalion, Royal Canadian Regiment, who fought one of their fiercest battles of the Korean war on the hilltop feature at right. The battle of Little Gibraltar Hill, to be commemorated by the unit each year, resulted in the largest number of casualties suffered by the RCR's in Korea.

## Cred's Won't Stand in Way Metlakatla Enfranchisement

STON.—Smiles tugged at his Indian countenances as cabinet minister here today in the "rougher fight I ever had" to tie the Metlakatla Indian band as a band becoming extinct, with the reserve lands reverting to the B.C. government.

Mr. Wicks, minister of labor, said he would not stand in the way of Metlakatla's citizenship.

Dr. Kelly quoted part of an article by E. T. Applewhaite, Skeena MP, published recently, which alleged that Premier W. A. C. Bennett had interpreted the enfranchisement of the Metlakatla Indian band as a band becoming extinct, with the reserve lands reverting to the B.C. government.

"There is no substance of truth in that statement made by the honorable member for Skeena," said Mr. Wicks.

"This is the first intimation the government has had on this matter."

"To the best of my knowledge no such decision has been made."

Dr. Kelly said the Brotherhood considered the alleged action of the government as a very serious thing.

"Such an attitude by a provincial government is a departure of ways, a very serious one, the first one of its kind in Canada."

Ivan Adams, son of the late Alfred Adams, first president of the Brotherhood, asked Mr. Wicks to keep the enfranchisement of the Indians above the platform of politics.

Speaking to Mr. Wicks's promise that Indians would get full consideration concerning the liquor question, Mr. Adams said: "Let's not confuse the issue. Maybe we want the right to buy liquor as the white men do, but most of all we want citizenship."

"And citizenship means to us to be well educated, assuming responsibility, so we can be an asset to our country."

Mr. Wicks, who said he was not speaking as a candidate but as a representative of the B.C. government, promised the Brotherhood that the Indian inquiry committee, established in 1951 to bring closer relations between the natives and the provincial government, would be considerably more active in the future.

The committee comes directly under the labor minister.

## FERNANDEZ DOWNS 12TH MET TO TIE WITH BAKER

STON.—Captain Manuel Fernandez shot down his 12th jet today in the "rougher fight I ever had" to tie the Metlakatla Indian band as a band becoming extinct, with the reserve lands reverting to the B.C. government.

The scrappy jet ace from Miami destroyed the MIG in a fierce battle just south of the Yalu River boundary dividing North Korea and South Korea.

Fernandez tied the mark set last month by Colonel Royal McKinney, Texas, who has gone home.

## Liberal MP Resigns After Cheque Story

STON.—Austin Dewar announced he is resigning as a member of the Saskatchewan Liberal Party after a story in the Regina Leader-Post that he had received a cheque from a contractor for \$2,500.

The burly member, elected in 1949, said the election is near and he will place his future "in the hands of my constituents," indicating he will seek office again in the general election this year.

Mr. Dewar said he and Lunam—who has held a number of government contracts—exchanged cheques between 1948 and 1951 but that he cut it out after coming to know more about parliamentary practices. He also came to the conclusion that what he was doing "might create the wrong impression."

The 40-year-old member, who lists himself as a contractor in the Parliamentary Guide, rose at the opening of the morning session on a question of privilege to discuss articles which appeared in the Toronto Telegram and which first bared the exchange of cheques with Lunam.

Mr. Dewar said he had known Lunam for years and in 1945 Lunam had advanced him money to help buy a hotel. This was repaid in 1947 when the hotel was sold. He went on: "Subsequently, I accommodated Harvey Lunam by exchanging cheques with him. This was one of his methods of financing when he was hard pressed for funds to meet his obligations. All these cheques were honored by the banks."

## Drivers Red Cent Raise

STON.—Possibility of a six-cent pay raise for highway men in Vancouver, and New Westminster Wednesday after the union board rejected most demands of their AFL-CIO highwaymen's Union.

A report of the board showed a six-cent pay raise for employees of the British Columbia Electric Railway. The union had asked for a 10-cent hourly increase and a current rate of \$2.51 for a day's work.

The union called its nine-man board for a Friday session to make a final decision but some leaders alluded to a possible increase in the award.

## Used in Mau Mau Raid

STON.—Kenya.—Bombs were used in a Mau Mau raid for the first time in a night 20-pound bombs were used in an air raid on a Mau Mau hideout in the mountains.

# Red-Led Vietminh Troops Move Toward Capital City Of Laos

## Escape Bid Cut Short By Allies

MUNSAN.—Five hundred sick and wounded Red prisoners threatened allied guards today and started a short-lived escape attempt from the hospital train carrying them to Panmunjom for return to the Communists.

Some 50 North Korean civilians touched off the demonstration Wednesday night by singing and waving flags during the trip from Pusan port to Munsan.

An unarmed guard ripped a flag from one of the Reds and was quickly surrounded by other prisoners.

Two armed guards then pointed guns at the rebelling prisoners.

Singing and flag-waving continued through the night until the train reached the unloading point north of Munsan this morning.

ISSUE WARNING  
Meanwhile at Panmunjom the allies warned the Communists they might take a short-cut through the snarled prisoner exchange problem by simply releasing 32,000 North Koreans who don't want to go home.

Lieutenant General William K. Harrison, chief allied negotiator, said turning the prisoners free in South Korea would follow a pattern created by the Reds themselves.

He also told the Communists to nominate a non-Asian country as a neutral caretaker for 48,000 Communist prisoners who don't want to go home, and made it clear the allies would discuss little else until that's done.

"All Asian nations are located very close to countries dominated by Communists and might therefore be subjected to Communist military, economic or political influence," he said.

The delegations meet again Friday.

## Victor Odlum To Seek Seat In Vancouver

VANCOUVER (CP)—Maj.-Gen. Victor W. Odlum is returning to British Columbia political wars after an absence of 25 years.

The Second World War commander of the 2nd Division of the Canadian active service force and former Canadian Ambassador to Turkey, was nominated Wednesday night to contest Vancouver-Burrard riding for the Liberals in the June 9 Provincial election.

The general's running mate will be John G. (Jay) Gould.

## Firemen Scurry For Cover

VANCOUVER (CP)—A fire, punctuated by small explosions that sent firemen scurrying for cover, destroyed a \$50,000 service station, three cars and a carrier crane here early today.

District Chief William Sinclair was struck on the hand by a flying object when the explosion occurred at the height of the blaze. It is believed a can of carbide blew up.

There were no serious injuries "but it was a narrow escape," said Deputy Chief Loren Foley. The garage was located at Harcourt and Kingsway in the south-east part of the city. The cause was not known.

## Firemen Scurry For Cover

VANCOUVER (CP)—A fire, punctuated by small explosions that sent firemen scurrying for cover, destroyed a \$50,000 service station, three cars and a carrier crane here early today.

District Chief William Sinclair was struck on the hand by a flying object when the explosion occurred at the height of the blaze. It is believed a can of carbide blew up.

There were no serious injuries "but it was a narrow escape," said Deputy Chief Loren Foley. The garage was located at Harcourt and Kingsway in the south-east part of the city. The cause was not known.

SINCE THE START of the prisoner-of-war exchange in Korea, Freedom Village, little more than a cluster of tents, has welcomed two released Canadians—L/Cpl. Paul Dugal of Quebec city and Pte. A. Baker of Montreal, both members of the Royal 22nd Regiment. Shown is the entrance to the Commonwealth section of Freedom Village.

## Applewhaite To Contest Skeena Riding Again

**Liberals Urge Governments  
Return Rights to Indians**

E. T. (Ted) Applewhaite, 54-year-old Member of Parliament for Skeena, yesterday was unanimously re-nominated to contest the seat again in the federal election later this year.

Mr. Applewhaite, who flew here Tuesday from Ottawa to attend the annual convention of Skeena Federal Liberal Association, thanked the members for the honor and promised to continue to do his best for the riding if re-elected.

At the business session, the delegates unanimously endorsed a resolution urging the federal and provincial governments to give to the native population all the rights and privileges of citizenship, compatible with their prior rights as the original citizens of this country.

**TED APPLEWHAITE**  
... make the truth known

In a brief address prior to his nomination, Mr. Applewhaite said that while he did not know the exact date of the federal vote he "assumed it will be around mid-September."

He reviewed some of the work accomplished by the Liberal government of Prime Minister St. Laurent and said that "while this primarily is a federal matter, there is no difference between a Liberal here and a provincial Liberal."

"You can't be 50 per cent a federal Liberal and the other half provincial."

Mr. Applewhaite praised the new provincial leader of the party—Art Laing—and said "he had guts and courage to give up a great future in Ottawa to

## French Reinforce Defences by Airlift

HANOI, Indo-China.—Communist-led Vietminh troops sweeping toward the royal Laotian seat of Luangprabang captured another French Laotian defence post today—this one only about 25 miles north of the town.

It was the third reverse suffered by the defending forces in as many days.

The black-clad invaders of Laos—one of the three French associated states of Indo-China—successfully stormed the defences in Muong Sung as the possibility increased of an all-out assault by the week-end on residents of the city of aged and ailing King Sisavong Vong.

Improved weather has permitted French planes to bomb the invading columns with napalm, forcing the enemy units to split into smaller groups.

French Union forces are busily reinforcing defences by airlift for a strong stand against the enemy they have fought throughout Indo-China for the last seven years.

The Vietminh, led by wily, Moscow-trained Ho Chi Minh, appear to be directing their new drive towards a morale-building, if not so strategic, capture of the royal seat and the kingdom's administrative capital of Vientiane on the southern border.

Aided by 3,000 tons monthly of military supplies from neighboring Red China, three times the amount received before the Laos invasion, the rebels then could push through the less severe terrain of Cambodia, which with Laos and Viet Nam form the Indo-Chinese Associated States under French control.

The Laotians hope the invaders will stand for a big fight on a battleground of French choice but present indications are that the Vietminh have no intention of doing so.

The French and Laotians believe they can hand Ho Chi Minh's troops a severe setback if only they can get them out of the mountains and jungle and into a spot where they can be plastered by troops equipped with vastly superior fire power. But it has long been the Vietminh tactic to avoid any open showdown battle with French Union forces.

## Eisenhower Proposes Budget Cut

WASHINGTON (CP)—President Eisenhower laid before Congressional leaders today preliminary proposals to whack approximately \$8,500,000,000 off Truman's budget.

The lawmakers who sat in on the discussion at the White House, said tentative cuts would include reduction of about \$5,000,000,000 in Truman's proposals for military spending.

IN A SCENE REMINISCENT of the dry and dusty days on the prairies during the '30s, sifting dust inches up on the wheels of a wagon on the farm of Jack Brown at Headingly, Man., 18 miles west of Winnipeg. Many southern Manitoba farmers are delaying seeding in the hope they soon will get needed rain.

**JACK MERAIE**

## Jack McRae Heads Federal Liberal Group

J. D. (Jack) McRae, former Liberal member of the provincial legislature for Prince Rupert, yesterday was elected president of the Skeena Federal Liberal Association.

His election came at the annual meeting here and was unanimous. He succeeds Clarence Bussinger of Telkwa.

Prime Minister Louis St. Laurent was elected honorary president and E. T. Kenney, former minister of lands and member of the B.C. Legislature for 24 years, was named honorary vice-president.

## TO MEET LATER

Mr. Bussinger was elected vice-president at large and vice-presidents of the five provincial districts within the federal constituency—Prince Rupert, Skeena, Atlin, Omineca and the northern portion of McKenzie—will be elected at later meetings in other centres.

Ray McLean was elected secretary.

At a meeting in the Civic Centre, there were 44 accredited delegates and 19 proxies.

Bruce Brown, Liberal candidate in the forthcoming provincial election, in a brief address to delegates, said that he felt "there is an excellent opportunity for a Liberal government to be elected."

"But," he stressed, "it will call for a lot of hard work. With a great deal of effort, we can go a long way."

## Make Safety A Habit

BESIDES performing their function as signals for motorists and pedestrians, the new traffic lights on Third Avenue can serve as a reminder next month that May is National Safety Month. Each flash of the red light might be regarded as good advice that, if we watch our step or brake, we watch our health or someone else's.

Experts in the field say that safety is mostly attitude. Wake up in the morning with a smile, they claim, and the chances of reaching the office with our car or physique in an equally agreeable condition are very much improved.

But attitude is an elusive quality. There is no way of guaranteeing that the necessary smile will be at one's command when the alarm goes off. Even if the world is particularly bright on a certain morning, the car driver or pedestrian in question has often reached the office before he is sufficiently awake to realize it.

The experts concede the point and therefore go on to add that the most effective safety measure is education. The theory is that if the public is made sufficiently aware of the perils of motor traffic and the way to avoid them, safety will become not an attitude but a habit.

The Canadian Automobile Chamber of Commerce puts it this way:

"Safety is a painstaking proposition of instilling in people the truth of the old maxim that 'an ounce of prevention is worth a pound of cure.' It is a community problem. In many cities throughout Canada last year, property damage caused by automobile accidents exceeded by far the total police force budgets. Safety is everybody's big business.

"Approximately 92 per cent of traffic accidents are caused by the errors of drivers and the remaining eight per cent by faulty mechanism of automobiles. Nevertheless, if only a fraction of the three million-odd motor vehicles in Canada are safety-checked during May, there is bound to be a progressive reduction of preventable accidents—a substantial advance on the road to a safety-conscious Canadian public."

It is a good suggestion and, for their own well-being, pedestrians and cyclists should be equally conscientious about taking precautions.

Through their Scotch-lite campaigns for cars and bicycles, the Junior Chamber of Commerce and the Parent-Teacher Associations have done much locally to promote the idea. It is in the personal interest of everyone to take heed.

## Scripture Passage for Today

"I heard the voice of many angels round the throne."  
—Rev. 5:11.

## Ray REFLECTS and REMINISCES

One trouble today is that so many people try to learn the tricks of the trade instead of learning the trade.

The province's attorney-general, Mr. Bennett, is on his way to Ottawa to tell the government something not new. He says the Sons of Freedom have been the west's troublemakers for half a century. And of course, a federal election is pending, of course!

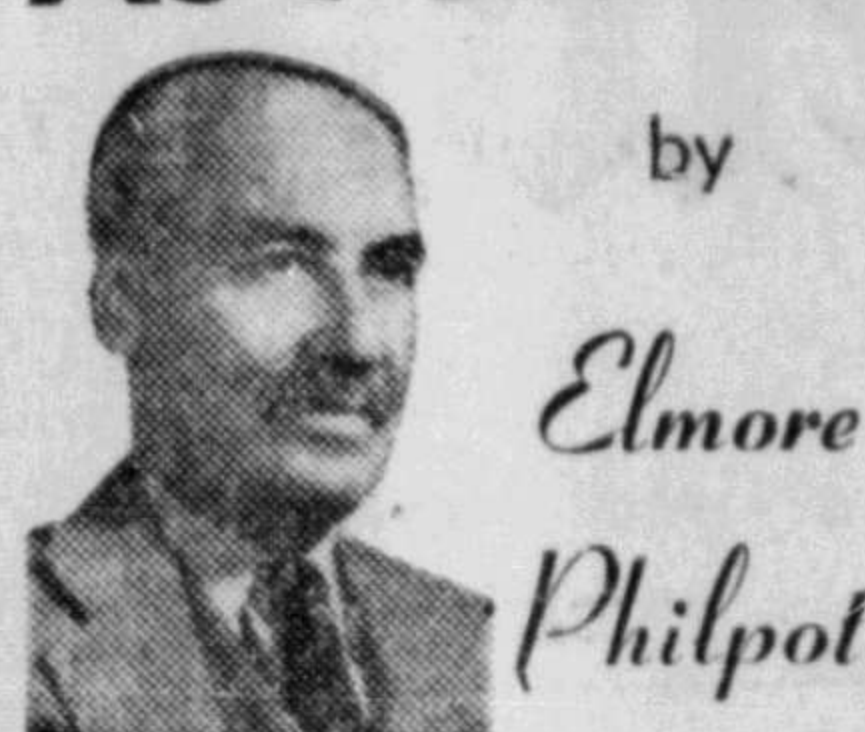

Comic Relief—When the life of the party goes home.

When a grain elevator at Prince Rupert was first urged on Ottawa, the idea met with many a rebuff from members. It was plain there was a lot of misinformation. One day Benny Benson, pioneer photographer, and a reporter strolled down to the lonely looking water front and took a good picture of the elevator site, along with all kinds of harbor. Numerous copies of that long ago photo were sent to Ottawa. Evidently it was scrutinized more than once.

Five British admirals are learning horsemanship. A new and a painful process is reported to be in progress. They will ride in the Coronation parade, directly behind Her Majesty, with the nation confident all will do their duties.

OUR FISH  
Hecate Strait sometimes warns up the pages of Hansard. Last month, for example, Mr.

## As I See It

Premier on Hot Spot

GEORGE MILLER, veteran Vancouver alderman and MLA, knows more about municipal finance and school taxes than anybody else in B.C. public life.

He shows with crystal clarity that the Social Credit school tax formula would mean \$30 per year extra taxes for the average Vancouver home owner.

Municipalities would lose their guaranteed one third out of the provincial sales tax. They would get a sliding grant from the government based on the 1952 budget—plus the Rolston formula.

A Vancouver family living in a \$7000 home would have to pay \$30 per year extra taxes by 1955.

THE MOST detailed, reasoned criticism of the Rolston school formula is in the March issue of the "B.C. Teacher," official organ of the Teachers' Federation.

It shows that the Rolston formula would "perpetuate past discrepancies between school districts." Since the government's grant is now to be based on the actual operating budget for 1952 of the individual school district, the district which has had to economize to the detriment of its school standards is "compelled to continue to do so, while the district that spent freely in 1952 is subsidized in continuing to do so."

The Teachers' magazine gives some glaring examples to show how the Rolston formula would actually help most of the districts which need help the least.

MEANWHILE the Social Credit MLA from Salmon Arm who made the sensational attack on the Effective Living course in B.C. schools has thus put his own leader, Mr. Bennett, on the hot spot.

"The premier told me in caucus that I had done a good thing, and that he was behind me 100 per cent," Mr. Reid declared.

In view of the fact that Hon. Tilly Rolston repudiated Mr. Reid's charges on the floor of the House immediately after he had made them, the people of B.C. will surely want the whole truth.

Granted that Mr. Reid may have been a bit excited when he made this latest revelation. He was faced by a crowd of indignant constituents, some of whom charged that he had disgraced the name of Salmon Arm by his astounding speech in the Legislature.

Mr. Reid now says in effect that his own leader, the Scored Premier, was a party to a dubious game of double talk; that while he was publicly giving the public the impression that he deplored the Reid attack on the Effective Living course, privately he was "behind me 100 per cent." Is it true or false?

MR. REID also claims "he had conducted a personal investigation in Vancouver and Victoria schools and had students' notes which he wouldn't read publicly, but which he had shown to the Premier, Mrs. Rolston, and every Social Credit MLA."

Mr. Reid has already said too much to be allowed to stop. The public should know whether or not the new "revelations" are just a smoke screen behind which to put through the Scored school tax boosts. It may or may not be pure coincidence that the Vancouver schools which are hit by Mr. Reid's new insinuations are also hardest hit by the Rolston formula.

Albert can never reconcile himself to seeing the MP's depart. He's part businessman and part sentimentalist. And both traits in his make-up feel aggrieved when the calendar brings the annual season of hopeful "au revoirs," mixed with the sprinkling of final "good-bys" from the MP's who know or suspect that they won't be returning.

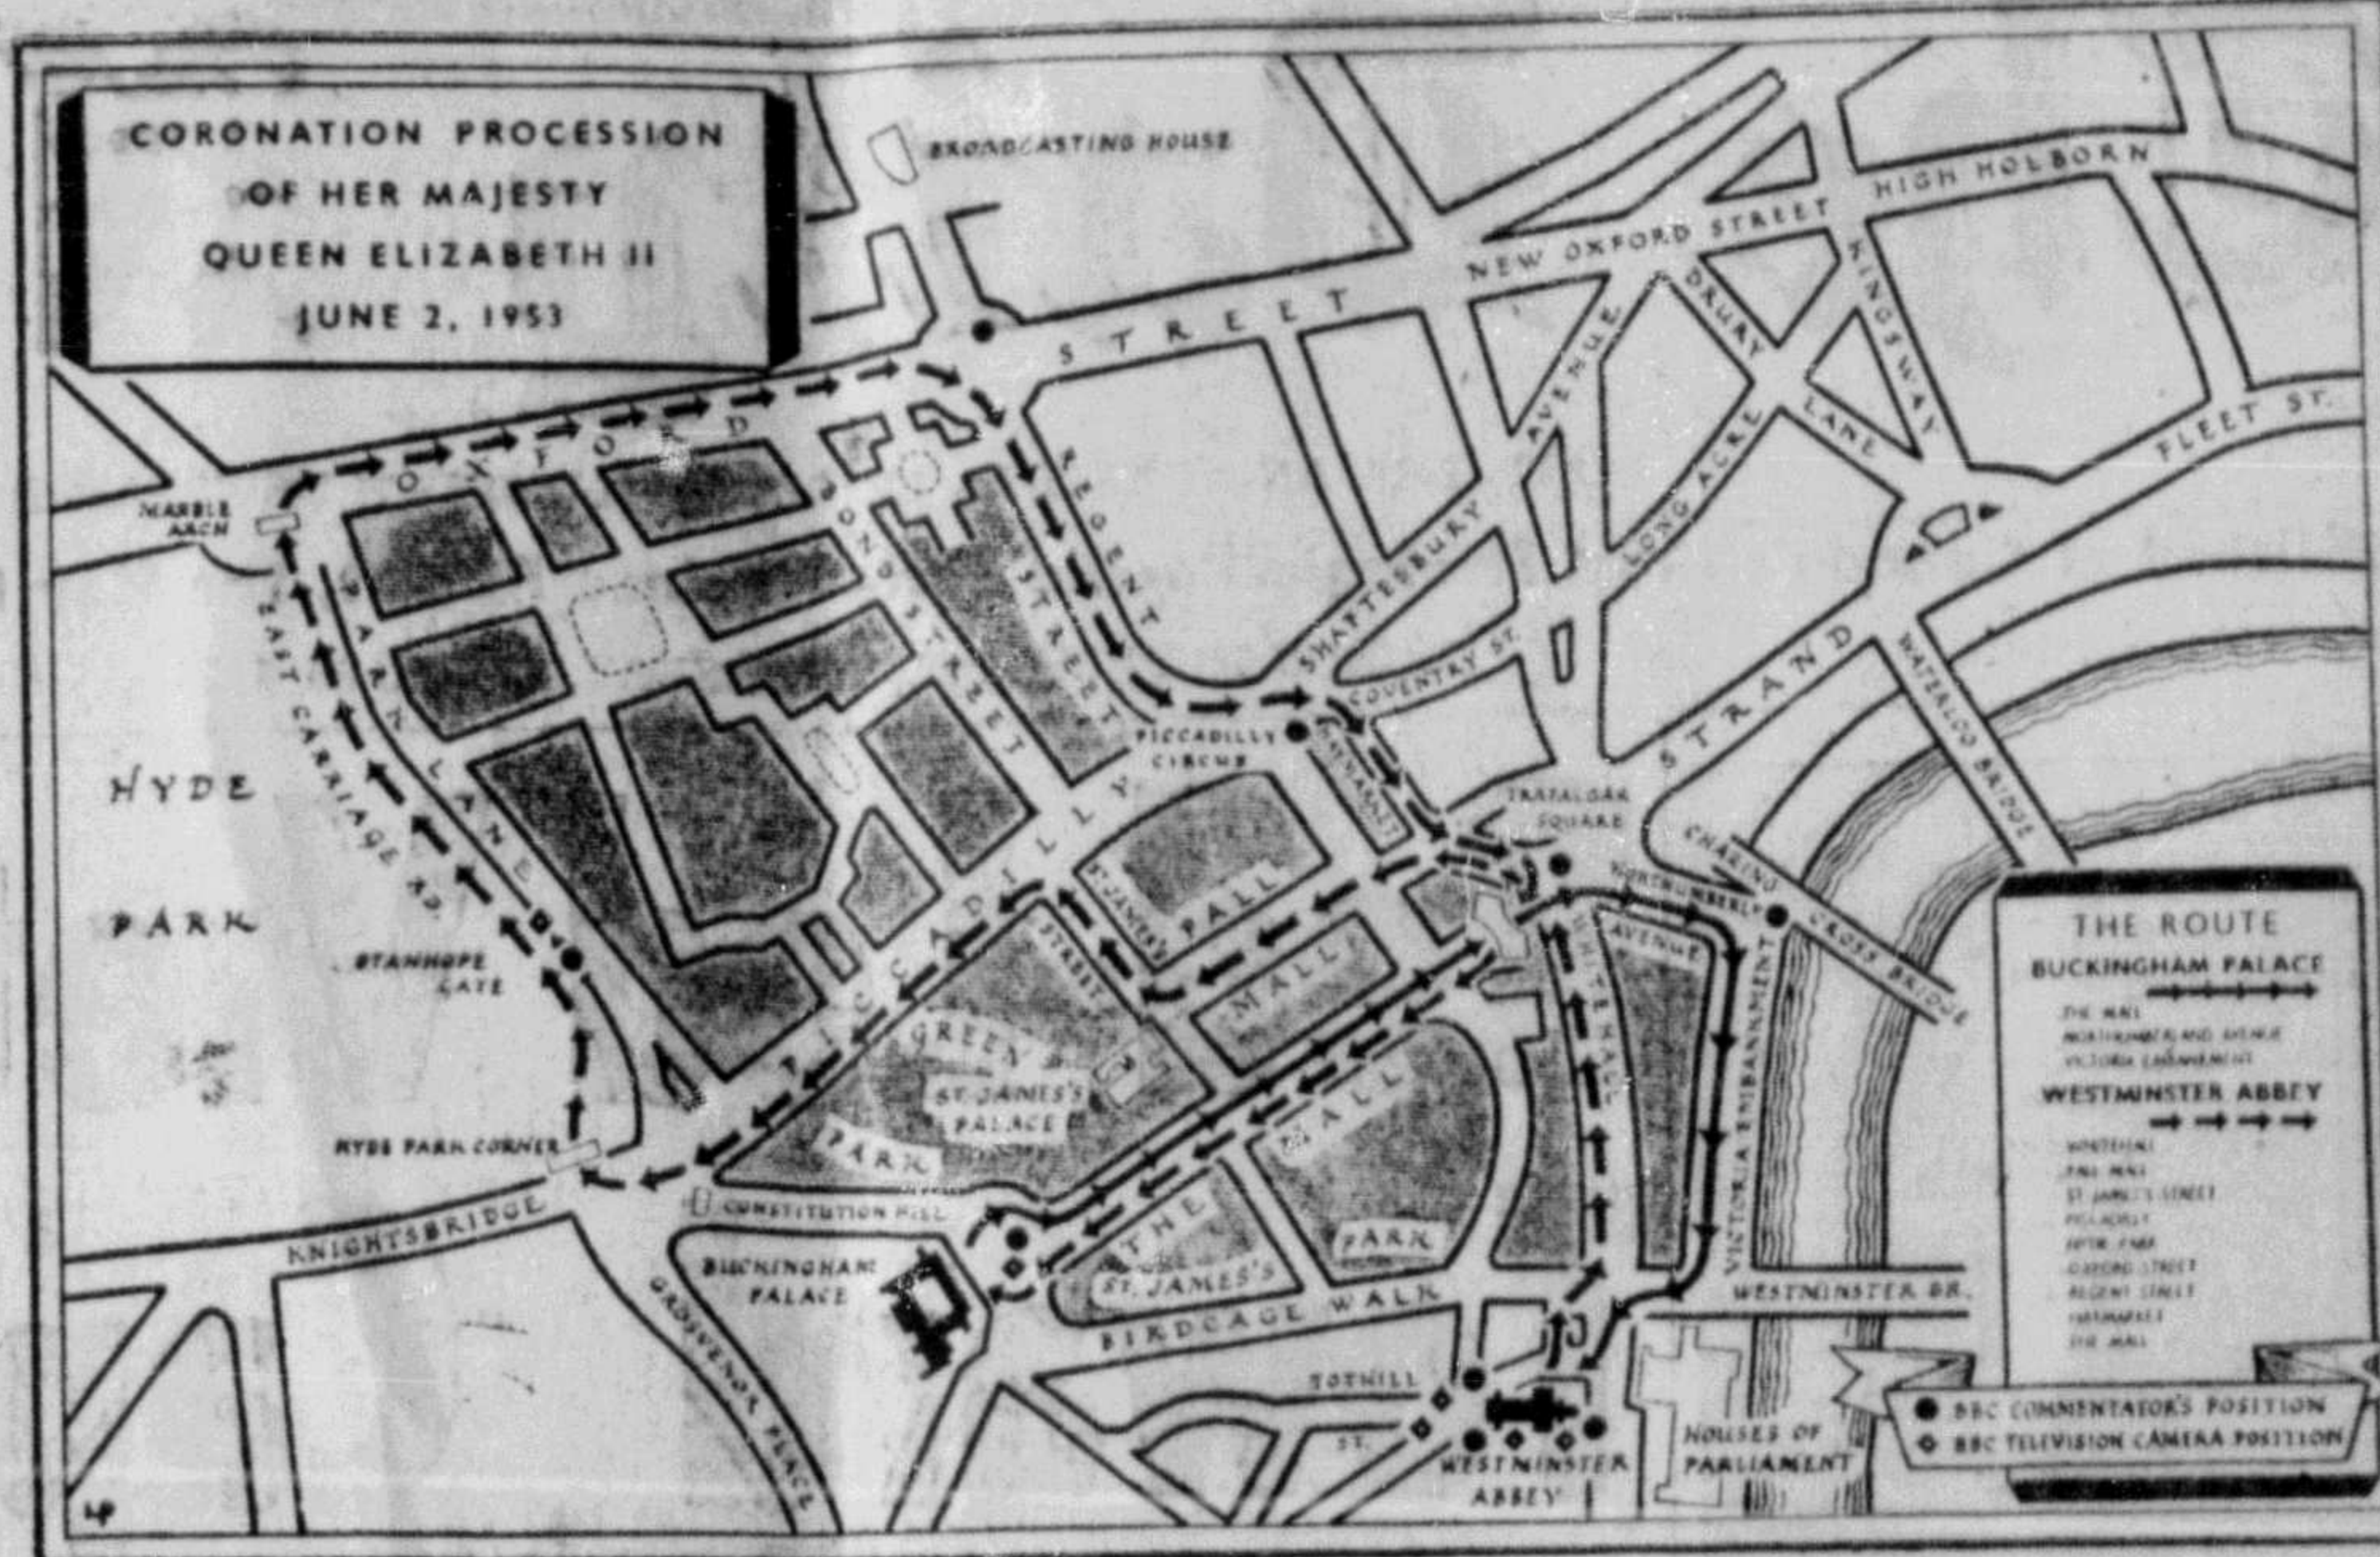

Albert is a firm opponent of short Parliamentary sessions. His views run directly contrary to the general trend of popular opinion in respect to their contention that Parliament's main defect isn't that the MP's talk too much, but rather that they talk too little.

"Some MP's," Albert complains occasionally to Artie, "don't hardly talk at all. Well, how are the voters to know whether these guys are fit for their jobs or not?"

When Albert gives out with the wisdom in this fashion, non-descript Artie generally manages to assume an attitude suggestive of a deferential old family retainer. Actually, he's not too deeply impressed. He suspects that his boss is too much of a philosopher to be a really effective member of the world. But he rarely contradicts him.

But this occasion was one of the exceptions. Artie pondered Albert's logic for a suitable interval. Then he replied: "Boss, I couldn't agree less. Most of those guys just wouldn't be smart to talk more than they do. Better they should open their mouths just for fly-traps, than open them to put both feet in them."

It follows exactly the same line of strategy the socialists (CCF) used in Saskatchewan last year when they held their election day before B.C.'s. "This step by Manitoba Liberals shows clearly it is an action of fear."

## VICTORIA REPORT By J. K. Nesbitt

VICTORIA—The election this year won't be quite so costly as last year's. This year there's no new voters' list, and that saves a lot of money. Too, this year, it's not necessary to advertise so extensively the whys and wherefores of the alternative system of voting. The government figures if the electorate doesn't know all about it now, it never will.

Last year the election cost \$750,000; this year the cost should be held down to about \$500,000.

Organization of a general election is a tremendous undertaking. There are some mighty expenses: 3,000 deputy returning officers at \$12.50 for election day; 3,000 poll clerks at \$10; hundreds of supervising deputy returning officers at \$15; dozens of special constables at \$8. If you rent your house for a polling division you get \$12 for the day, for one ballot box, and \$6 for each additional box.

In addition there are 41 returning officers. No one seems quite sure how much they get. They work six weeks or two months, so it's considerable, but the fees are not made public.

It seems now that Liberal Mr. Straith was right when he said at the recent session that if he could find out when milk prices will be decontrolled, he'd be able to tell the date of the election.

Mr. Straith insisted that the election would be a week after controls go. He tried to smoke out Agriculture Minister Kenneth Kiernan to this effect, but Mr. Kiernan wouldn't be smoked out.

There have been rumors recently milk price control would go May 1. Now it appears it will be delayed to June 1—and the election will be June 9, so Mr. Straith wasn't far out in his suspicion. Mr. Straith was sure, at the session, and still is, probably, that lifting of milk price controls is just one big Social Credit bribe to the electorate.

Chief Justice Gordon Sloan is being sworn in this week as administrator of government affairs during the absence at the Coronation of Lieut.-Governor Clarence Wallace. His Honor and his wife, with Mrs. Wallace's private secretary and her personal maid, sail in mid-May from New York in the liner Queen Mary and, in London, will put up at exclusive Dorchester House in Park Lane. They'll be back by June 30.

This is the fourth Coronation at which British Columbia has been officially represented. In 1838, when Victoria was crowned, there was no British Columbia. In 1902 Premier and Mrs. James Dunsmuir went to the Coronation of King Edward VII and Queen Alexandra; in 1911 Premier and Mrs. Richard McBride were at the coronation of King George V and Queen Mary; in 1937 Lieut.-governor and Mrs. Eric Hamber were in Westminster Abbey for the crowning of King George VI and Queen Elizabeth.

Albert can never reconcile himself to seeing the MP's depart. He's part businessman and part sentimentalist. And both traits in his make-up feel aggrieved when the calendar brings the annual season of hopeful "au revoirs," mixed with the sprinkling of final "good-bys" from the MP's who know or suspect that they won't be returning.

Albert is a firm opponent of short Parliamentary sessions. His views run directly contrary to the general trend of popular opinion in respect to their contention that Parliament's main defect isn't that the MP's talk too much, but rather that they talk too little.

"Some MP's," Albert complains occasionally to Artie, "don't hardly talk at all. Well, how are the voters to know whether these guys are fit for their jobs or not?"

When Albert gives out with the wisdom in this fashion, non-descript Artie generally manages to assume an attitude suggestive of a deferential old family retainer. Actually, he's not too deeply impressed. He suspects that his boss is too much of a philosopher to be a really effective member of the world. But he rarely contradicts him.

But this occasion was one of the exceptions. Artie pondered Albert's logic for a suitable interval. Then he replied: "Boss, I couldn't agree less. Most of those guys just wouldn't be smart to talk more than they do. Better they should open their mouths just for fly-traps, than open them to put both feet in them."

It follows exactly the same line of strategy the socialists (CCF) used in Saskatchewan last year when they held their election day before B.C.'s. "This step by Manitoba Liberals shows clearly it is an action of fear."

Premier Bennett was invited to the Coronation of Elizabeth II, and desperately wanted to go. But political business came up at home, and that's much more important to him, naturally.

Political leaders this year are not making the exhausting province-wide tours that were made last campaign. Premier Bennett isn't bothering with places he's positive will go Social Credit, or places he feels sure Social Credit can't take from the CCF. He's concentrating on those ridings he thinks he might take away from the CCF, such as Revelstoke, and places that might turn their backs on Social Credit—such as Salmon Arm and Prince George. He's going to spend a lot of time in Vancouver City and on Vancouver Island. That's where he'd like some seats—on the Island. Last election, I did not elect one Social Creditor. Mr. Bennett is determined to change that.

Salmon Arm is bound to be a hot spot. That's the home riding of Social Creditor J. A. Reid, who started the rumour about education. Mr. Reid said the other day that the Premier approved what he said, which was a shock to the Premier. Said Mr. Reid: "The Premier told me in caucus I had done a good thing, and that he was behind me 100 per cent."

Doesn't Mr. Reid know MLAs aren't supposed to run around talking about what went on in caucus, even after they're no longer MLAs? The new Reid statement has added to the confusion, for an hour after Mr. Reid had spoken in the House, Education Minister Rolston, on behalf of the government, repudiated Mr. Reid and most of what he said about B.C. education.

## LETTERBOX

The Editor,  
The Daily News:  
As there is little use for me to argue against the solid seven mass mind prevailing in city council where one alderman does the thinking for all, including the mayor, therefore my only recourse is an appeal to the public.  
Being deadly opposed to the per diem rate of \$17.50 per day recently established, plus traveling expense in transportation, something must be done about it.  
We yell our heads off about the 5 per cent increase awarded the firemen, but waste more money in obtaining so-called expert opinion on simple common sense questions, and joy rides of city officials, than a 5 per cent increase to all workers would amount to in a year.

ALD. GEO. B. CARR  
HAZELTON  
By CECIL BLUNT  
In Hazelton I met a man Up from the Caribou. And on his back, Was a well-worn pack. And a pick and shovel too.  
Tell me, I said, (and I know my cap, For an old pioneer was he Do you go South To the Fraser's mouth, Or Westwards to the sea?

Feller, he cried, and he pined North. In them thin hills lies gold Where the wolf and the bear Both have their lair. And the mountains are centuries old.  
For far to the East lies the sunrise, And far to the West lies the sea, But away to the North, Where I go forth, Lies half unexplored B.C.  
Away he went, on his legs bent, I stood and I watched him. And I've often thought Of that grand old sport, And hoped that he made dough.

Play To Be Staged In Abbey June 10  
LONDON (CP)—The first play to be staged in Westminster Abbey since the Reformation will be presented for three weeks starting June 10 in aid of the £1,000,000 fund for preservation of the ancient church.  
The play will be "Out of the Whirlwind" by Christopher Hassall, noted British dramatist, poet and musician.

The author describes the play as a modern version of the Biblical story of Job. But Job's counterpart in the play is a British woman called Martha, and Hassall presents seven stages in her life, from her wedding in 1914 to her death in the autumn of 1951, against a background of conflicts that beset Britain during that period. References to Westminster Abbey recur throughout the play.  
The Coronation dais including the site of the throne in which the Queen will receive homage after her crowning will be within the acting area for the play.

Aids Sufferers  
CAPETOWN (CP)—First of its kind in South Africa, a modern cancer clinic was opened here. The clinic, equipped with the latest equipment from Europe and America, was built by voluntary contributions.

## INCOME TAX QUIZ

Q. What happens if I fail to file my 1952 return by the due date.

A. Today is the deadline date for individuals to file their 1952 income tax returns. If your return is not filed on time, you will have to pay a late filing penalty of 5 per cent of the tax unpaid as at 30th April.

Q. My wife receives income from securities and property which I transferred to her. How should this income be reported?

A. If the wife files an income tax return, she should not report the income from the assets transferred to her by her husband. The husband must report on his return the income which his wife received from assets which he transferred to her.

Q. Is strike pay taxable?

A. Where a member receives assistance from his union for a period when he was on strike, the amount received need not be reported as it is not considered as income for tax purposes.

Coronation Announcer  
LONDON (CP)—Bernard Braden, native of Vancouver who has become popular in the British entertainment world, will be one of the corps of television announcers for the BBC during the Coronation proceedings.

## Need For Export Trade Expressed by Visitor

Britain's urgent need to export even though it is depriving her people of much-needed commodities was described last night by the new British Commissioner to Canada, Sir Archibald Nye, in an address sponsored by the Women's Canadian

Club at an audience that included the Canadian Legion and the Canadian Legion Auxiliary. Sir Archibald Nye, who arrived in Prince Rupert last night, described the circumstances that led to the last war which put Britain in a tight economic position. He pointed out that in shipping alone, the loss of tonnage at sea was estimated at the whole of the British fleet in 1939. It was pointed out that the whole of the British fleet in 1939 was estimated at the whole of the British fleet in 1939.

Recalling that Britons were accused recently of being an idle race, the high commissioner said that while it was true that the rise of trade unionism has caused a reduction in the length of working hours, production has increased 50 per cent since before the war. He also pointed out that the average working time per man in British industry in 1951 was 45.6 hours per week, compared to 42 hours per week in Canada, and 40.5 hours per week in the U.S.A. for the previous year.

Sir Archibald emphasized that Britain cannot buy more Canadian goods until it has more dollars from sales to this country. He said the recent large order to buy B.C. salmon was made as a friendly gesture and there were no strings attached. He added, however, that if Canada needed tinplate to can the salmon, Britons hoped this country would buy it from them.

He refuted charges that his country was through or that the people were depressed. "Our head is high and our position improving," he said. "In general the prospect is becoming brighter but we are under no illusions. We do not stand with a beggar's bowl asking other people to give us things. We have asked for trade, not aid, and we must continue to strive for it."

Sir Archibald was introduced by Mrs. F. E. Anfield, president of the Women's Canadian Club. Thanks were expressed from the audience by Bill Smith. Sir Archibald, his wife and party left immediately after the address by train for Vanderhoof.

## Many Attend Opening Of Library

TERRACE. — Terrace Public Library opened its doors to the public last Saturday.

The opening was held in the room allocated to the library in the new Provincial building on Lakeside Avenue and was attended by many interested citizens.

Miss Jeanette Sargent, branch librarian of the Public Library Commission at Prince George was in attendance representing the Public Library Commission and assisting in the opening details.

Mr. L. D. Leighton, chairman of the board of directors of the library board was the first speaker. He gave a general outline of the work of the board since its inauguration last October and introduced members of the board as follows: Mrs. Howard Harper, secretary; Rev. E. C. Dukelow, Mrs. P. Van Heek, W. J. Havelaar and Vern Harper.

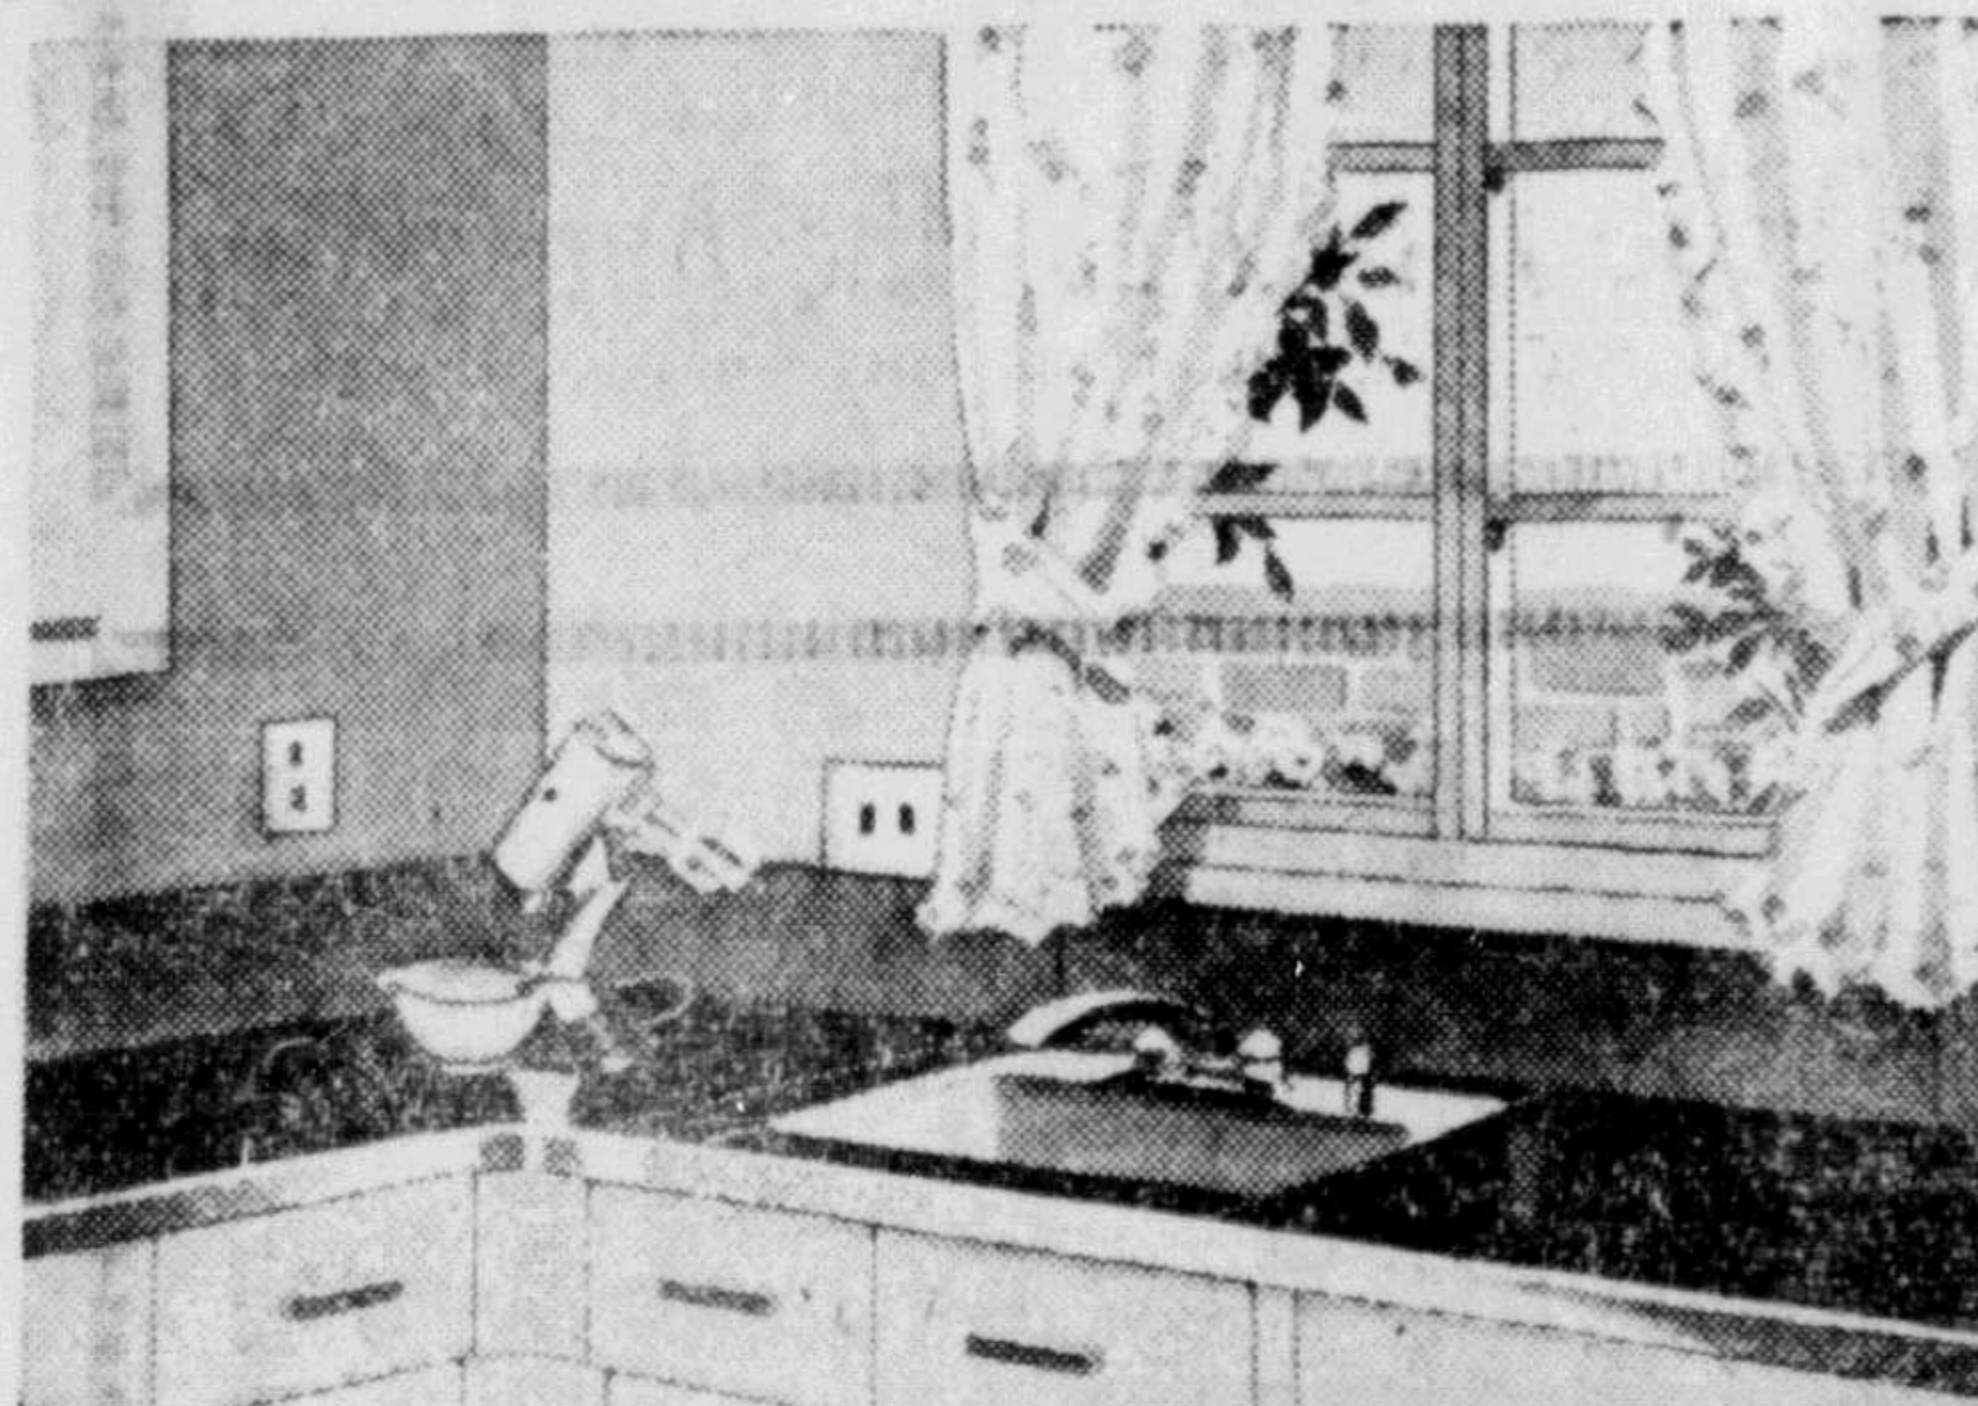

Greetings were read from Mr. C. K. Morrison, superintendent of the Public Library Commission at Victoria, Mr. Dobie, local government agent and L. Houle, president of the Junior Chamber of Commerce.

Miss Sargent gave a brief outline of her part in the library work at Prince George. Mr. G. Lambly, representing the village commissioners cut the ribbon which marked the official opening of the library room.

Others speaking briefly were Mr. Mackin for the school board and Mr. T. Rose, board of trade. Mrs. W. R. Wellings is to act as librarian with the following assisting as custodians.

Mrs. F. Hall, J. McConnell, A. C. Shindel, F. Clifford, N. Douglas, Wm. Christie and the Misses Pat Pendergast, Mary Little, B. Amdam, Bonnie McColl, E. Loveless, Joan Kennedy and Mary Ann Brandis.

A BRAZILIAN youngster collects his weekly ration of milk from a child welfare clinic in Sobral where rain has fallen only two months in three years. The milk, desperately needed in the drought area, is prepared from powdered milk sent by the United Nations International Children's Emergency Fund.

## Supplies Moved On 'Free' Road

TOKYO (AP)—The Communists used the attack-free routes of convoys carrying disabled and war supplies to the battlefront, a repatriated U.S. soldier said here.

American reconnaissance pilots who flew over the prisoner-convoys rolling south from the Yalu River reported many trucks on the road. The pilots assumed they were supply trucks.

"On the road down there were quite a few trucks carrying supplies," Pte. Robert W. Fleming of Memphis, Tenn., said in an interview at Tokyo army hospital.

"They were filled with large and small crates. It could have been ammunition or gasoline."

Have you ever tried BAKING with soup? The flavor of many a biscuit, muffin, or hot bread—surprising as the idea may seem—can be stepped up by using canned condensed soup as a liquid.

Down in the deep South, there's a tradition of teaming chicken 'n corn pone. And what a tempting combination it is! Working on the theory that the two flavors are close akin, the Home Economics Department of H. J. Heinz Company, one of Canada's largest soup producers, has developed a corn bread recipe using velvet cream of chicken soup as a binder. The result—a bright yellow bread flecked with tender bits of chicken and echoing the richness of a golden slow-simmered broth. It's a hot bread that rates "A-A" nutrition-wise, too.

**CHICKEN-CORN BREAD**  
1 cup corn meal  
1/2 cup all-purpose flour  
2 teaspoons baking powder  
1/2 teaspoon salt  
1 tablespoon sugar  
2 tablespoons salad oil or melted shortening  
2 eggs, beaten  
1 10-ounce can condensed cream of chicken soup, undiluted

Heat oven to 425 F. (hot). Sift together first 5 ingredients. Combine remaining ingredients; mix well. Add to dry ingredients mixing just enough to moisten. Fill greased muffin tins two-thirds full or pour into greased 9" x 9" square pan. Bake at 425 F. 25 minutes or until done. Makes 9 muffins or 9 servings.

A can of condensed cream of mushroom soup used instead of the milk produces a biscuit that's perfect with a salad of greens, a vegetable, plate, or a scrambled egg. There's a definite flavor of mushroom here and the kind of biscuits.

tender-mixture that comes from making biscuits with thick country cream.

For variation, cream of chicken soup can be substituted for the mushroom.

**SALAD BISCUITS**  
2 1/2 cups sifted all-purpose flour  
4 teaspoons baking powder  
1 teaspoon salt  
6 tablespoons shortening  
1 10-ounce can condensed cream of mushroom soup or cream of chicken soup, undiluted

Heat oven to 450 F. (hot). Sift first 3 ingredients together. Cut in shortening until size of coarse cornmeal. Add soup, stirring quickly until a soft, but not sticky, dough is formed. Turn onto lightly floured board, knead into a smooth ball. Roll or pat to 1/2" thick, cut with 2-inch biscuit cutter. Place on a lightly greased sheet, 1/2-inch apart. Bake at 450 F. 12 to 15 minutes.

## BUYING FOR YOUR HOME

### Style, Comfort Combined In Outdoor Furniture

By ELENORE LESTER

Sunshine, fresh spring grass, the first blossoms invite us to move out of doors these days—and life out of doors was never so comfortable and attractive.

Gone are the days when a beach chair and a couple of benches constituted outdoor furniture. The indoor-outdoor living trend has produced furniture that is both practical and beautifully designed.

Metal furniture of all types leads the summer furniture fashion parade. White, black, and green wrought iron look spruce and cool, especially with brightly colored plastic seats. Sharp colors, like coral, lemon yellow and chartreuse look wonderfully gay in the sunshine.

A new woven fiber metal that is rust-proof and comes in green, red, bronze or yellow is used for a group of dining and seating pieces. The frames of chairs and tables are of black steel, and the table top is made of wood-grain laminated plastic.

Black and white metal mesh are used in many convenient tea carts, serving tables and card table groupings. One dining group combines a birch table and birch chair backs with wrought iron legs.

### HIGH STYLES CLASS

Redwood and rattan are also getting into the high style class. Many of these pieces of furniture will be part of living and dining rooms as well as rumpus rooms during the winter. News to eight dollars, depending on the redwood and rattan size.

places is the use of wrought iron on chairs, sofas and benches.

One of the beauties of this furniture is its comparative inexpensiveness. For \$50 or \$60 you can have a highly attractive dinette set. For \$50 you can get a whole rattan living suite, consisting of a small sofa, two chairs and a table. Upholstered rattan is more expensive but still reasonable considering the additional comfort it offers.

Half the fun of being out of doors in the spring and summer-time is dining there. Many new accessories make this delightful summer custom more enjoyable.

There are barbecue grills on which you can cook a full meal, and they sell for as little as \$49.95. One unit, which has two adjustable fireboxes, electric motor-driven spits, a steak broiler, an earthenware dish and sauce containers and two wooden cutting boards, sells for about \$85.95.

One of the most wonderful new accessories for summer serving is a portable refrigerator and serving cart which may be wheeled about the house. Tri-cycle wheels and tubular steel handle bars make wheeling this refrigerator a simple matter, and a handy tray across the top eases the serving problem.

The folks who don't plan to go in for such elaborate comfort this summer can enjoy their cool drinks from picnic jugs and parting rooms as well as rumpus rooms during the winter. News to eight dollars, depending on the redwood and rattan size.

## Sixty-Seven Children Treated

## Dental Clinic Continues Good Work

Reports of the secretary-treasurer Frank Derry to the monthly meeting of the Prince Rupert Children's Preventive Dental Clinic on Tuesday indicated the good work being done by the clinic for the younger children in the schools.

At present the capacity for such treatments has been reached and further plans will have to be considered to take care of future cases.

The report showed that in the two months from February 25 a total of 67 children had been treated and 44 had been completed in 31 sessions.

There are a few points that parents are not clear about. The coverage offered by the clinic does not take care of cases that require hospitalization or anaesthesia. And all appointments must be made through the secretary-treasurer.

Gratification was expressed at the financial support given by the organizations listed below: Borden Street School P.T.A., King Edward School P.T.A. and Conrad Street School P.T.A., Edinburgh Chapter I.O.D.E. and the Municipal Chapter I.O.D.E., Trades and Labor Council, Sul-

phite and Paper Mill Operators, Association, International Union of Operating Engineers and one forthcoming from the City of Prince Rupert.

Value of the work done through the clinic is considered of vital importance by the local Health Unit, and the contribution to the future health and happiness of the growing citizens can hardly be over-estimated, said one member.

# Drives in Three Goals To Lead 10 to 6-4 in Opening Soccer Game

## Enthusiastic Crowd Watches As Motors Go Down to Defeat

The 1953 football season got off to a fine start tonight when in the first game of the North Star League the CYO came from behind and defeated the General Motors eleven 6-4. There was an enthusiastic crowd in attendance.

The Motors got off to a good start when Mills scored from a taken corner kick by Pat Morven added a second goal on pressure shot. But the CYO came back and beat Boulter with a fine CYO got the ball in again as offside.

After punched clear a beautiful Vanierland. Then a penalty kick for a handerland made the scores Boulter an out and picker kick clear after a very fine move.

The fast CYO forwards went back and Tambourini a goal up and half the CYO leading by goals to two.

The sun behind them the expected to have the

General Motors—Boulter; Eckert, Eby, Maron, Sundberg, Mills, Pat Wilson, Persamo, Tait, Morven, Murray.

Referee—Bill Baxter.

**PITCH NOTES**—The CYO was the better team with a solid defence, and a set of fast-breaking and fast-shooting forwards, Carrell and Hurley defended surely. Rutton used his height and weight to advantage and bottled up Tait, though his methods incurred the referee's disfavor and resulted in two penalty kicks. Letourneau was an aggressive

## Joe Adcock Slams Record Home Run

NEW YORK — Milwaukee's Joe Adcock hit a record 475-foot home run into the centre field bleachers at the Polo Grounds Wednesday to set the baseball world talking about another Ruthian blast.

No player ever hit one into the Polo Grounds bleachers in a regular major-league game since the seats were built in 1923.

Schoolboy Rowe of Detroit did it in the practice game before a 1933 exhibition game and Luke Easter of Cleveland, then playing in a Negro league, also slammed the ball into those distant bleachers.

After Adcock's feat it was ironic that the Milwaukee club had to win the game on a wild pitch by knuckleballer Hoyt Wilhelm in the ninth, giving the Braves a 3-2 edge over the New York Giants.

## SPRING BUDGET SAVERS

## TIPS FROM . . . SEWING CENTRES

**NEW SPRING FABRICS FOR DAYTIME** wear and children's clothes seen in sewing centres this year are really planned for the woman who wants to sew and save. Less than seven dollars for material gives you this blue Sierra linen dress for Spring street wear. Choose a pattern with easy-to-fit kimono sleeves, and few pattern pieces for simple cutting. Perky red and white child's frock of washable embossed cotton can be run up on the sewing machine for about \$2.50. Try ruffled sleeve style, available in variety of patterns for time saving sewing. Add dainty rick-rack braid by machine. Cotton can be perked back into shape by hand after washing—needs no ironing.

## Lady Five-Pin Bowlers Start League Playoff on Week-end

Kay Johnston, bowling for Cloverleafs, topped all bowlers in the Ladies' Five Pin "A" League this week with a high single of 297 and high three of 765. Team single of 1021 was taken by Cloverleafs while Annettes copped high three of 2811.

**Results:** Annettes 4, Savoy's 0; Stars 4, Gordon & Anderson 0; Lucky Strikes 3, Lyons 1; New Laurel 3, 20m's 1; Cloverleafs 2, Manson's 2, Sunrise 2.

In the "B" division, Jean Ramsay of Bulger's took high single with 251 while high three went to Pat Anderson with 666. Bulger's scored a clean sweep with high single game of 971 and high three of 2737.

**Results:** Bulger's 4, 75 Taxi 0; P. R. Plumbing 4, Rupert Radio 0; Big Sisters 3, Skeena 2.

## Inactive Boy Wins Boxing Championship

CALGARY.—A young man who hadn't fought in Calgary or nearly 18 months is the new Pacific Northwest welterweight champion.

Johnny Salkeld scored an easy third-round TKO over Ernie Kemick on Tuesday to claim the title.

Salkeld fought on the Coast under the direction of Jack Hurley.

He flattened Kemick twice in the first round and an equal number of times in the second.

**THE CORONATION OF QUEEN ELIZABETH** this June will be the fifth attended by Canada's famed "Mounties," starting with Queen Victoria's in 1837. Top picture shows the troop selected from the old North West Mounted Police, fore-runner of the RCMP, for Queen Victoria's Diamond Jubilee in 1897. Bottom picture shows a group of Royal North West Mounted Police, chosen for the coronation procession in 1911 of King George V, lined up for inspection. Commissioner A. Bowen Perry, carrying sword, is Lord Kitchener on his right and the Duke of Connaught on his left. Mounted is Inspector G. L. Jennings.

## Wayne-Shuster Show 'Packs 'em In' At Theatre Near Korean War Front

By BILL BOSS  
Canadian Press Staff Writer

IN KOREA (CP)—A couple of theatres hereabouts are "packing 'em in" these days with the most ambitious all-Canadian show to hit Korea.

It's the John Wayne-Frank Shuster show, streamlined and adapted for soldiers at war. With men perched on the rafters, theatres built for 300 are holding 650 these days.

Wayne and Shuster, together with seven other entertainers and a staff of technicians, arrived as the 25th Canadian Infantry Brigade returned to the front after more than two months in reserve.

### DOWN FROM HILLS

That's how it happens that the show is playing in the two theatres instead of touring the units as the visitors would have liked. Units send men down from the hills and up from the rear areas in daily quotas to attend.

Says John Wayne:

"We give 'em a 1½-hour show. We could give 'em 2½ hours but it's long enough as it is. Those aren't theatre seats the boys are sitting on—there're ammo boxes."

The show glitters with witticisms based on the local atmosphere.

"Get those cameras," says Wayne, noting that almost every soldier over here acquires a fine camera inexpensively either in Japan or through army shopping facilities.

"You can't hear the mortars for the shutters clicking."

### PLAY AT "DRURY LANE"

They live at rear headquarters of the division, a duty 30-minute jeep drive from "Drury Lane," a pre-fab theatre on the "sharp side" of the Imjin River. They give matinees there every afternoon. Evening shows are in the theatre at the rear division. "What we didn't expect to find in this war," says Wayne,

is that the biggest enemy of the men here—apart from Communist shells—is boredom, the lack of things to do.

"All the fellows tell us that. They get a kick out of just talking with new Canadian faces. So we've had lots of plain old bull sessions."

LINDSAY, Ont. (CP)—Provincial officials say one of the biggest runs of pickers ever seen in the Kwartha district can be expected when the season opens May 15. One man was fined \$25 and had his rod and reel confiscated a few days ago when caught fishing for pickerel at the Cobocok dam.

## Catholic Church May Change Use of Latin in Ceremonies

By PATRICK CROSSE

VATICAN CITY (Reuters)—The Roman Catholic church is considering allowing the use of the modern languages of everyday speech at ceremonies which for at least 16 centuries have been conducted in Latin or other languages now dead.

After 30 months' study by a special commission of experts, the sacred congregation of rites has already, as an experiment, allowed Italian priests to administer the sacrament of baptism in Italian.

If the experiment shows good results in Italy, it may be extended to other countries.

The commission was established toward the end of the 1950 Holy Year following a request by the Pope for a comprehensive study of the whole problem of the languages used in the ceremonies of the Catholic church.

For the vast majority of the world's 400,000,000 Catholics, the language used at most ceremonies and particularly for the sacraments is Latin. But 11 other languages are used among small Catholic communities which do not belong to the Latin rite.

If the experiment with baptism is successful, the new practice may next be extended to

other sacraments and particularly to confirmation.

One argument expected to be advanced against the change is that the use of Latin inspires among Catholics a sense of universality since they can hear the familiar rites recited in the same language in any part of the world.

One argument expected to be advanced against the change is that the use of Latin inspires among Catholics a sense of universality since they can hear the familiar rites recited in the same language in any part of the world.

## Wicks Blames Opposition For Fall of Government

Special to The Daily News

SMITHERS.—Lyle Wicks, Sacred Labor Minister, opened the provincial election campaigning here in an air of goodwill and humor before an audience of mixed political adherents.

Among those present was Frank Howard, CCF candidate for Skeena riding.

C. Sheford, member for Omicron in the last Legislature, also spoke.

K. O. McAmmond, defeated Social Credit candidate in the last election, was chairman. Mr. McAmmond is Smithers' candidate for nomination at the forthcoming Sacred convention at Hazelton.

Mr. Wicks spoke of growing support of the defeated government's Rolston bill. He placed the full blame for lack of accomplished legislation on the shoulders of the opposition parties. Action on the liquor question was forestalled by defeat forced by them, he declared.

### SOUND ECONOMY

In spite of the short session, Mr. Wicks maintained that no government had accomplished more in such a short time. His party's policy of pay-as-you-go government was sound economy and while in office had saved the people \$10 million by proper methods of tendering. In granting of tenders he claimed a preference had been shown B.C. business and labor.

At the same time the largest program of public works in the province's history had been launched.

In speaking on the Rolston formula he claimed it a means to relieve the burden of education borne by the municipalities. While perfection was not reached at once, he felt it a

step in the right direction. He explained that no municipality would get less and many would have gotten more than under the existing system.

### MISLEADING REPORTING

Mr. Wicks made reference to misleading reporting by the press on what had been accomplished by his government.

On later questioning he opined that this was probably due to opposition attacks on the government as being possibly considered more sensationally newsworthy.

He deplored the harm done by strikes but claimed that sometimes they cannot be avoided. He placed the responsibility for the present grain handlers' strike in Vancouver on the federal government and those parties directly concerned.

For the farmers in the district he stated there was a definite move being made by the government and the B.C. Power Commission to relieve the rural electrification situation.

Question of establishment of an agricultural school, perhaps in the vicinity of Armstrong, was being considered.

On the matter of daylight saving time being voted against by a majority of constituencies Mr. Wicks countered with the fact that the majority of the people of the province wanted it.

"There is no patronage in this government," declared Mr. Wicks in answer to intimation of political patronage being reintroduced by the Socialists.

## Legion Sending VC Winner To Coronation

TORONTO (CP)—Maj. Handley Geary, VC, and his wife are going to the Coronation because Mrs. Mary Cox had a dream.

Maj. Geary is sergeant-of-arms in the Ontario legislature. Both he and Mrs. Cox reside at nearby Woodbridge.

Mrs. Cox says she fell asleep in a chair. "When I woke up I remembered dreaming Major Geary was at the Coronation. Then I thought it would be a good idea if the Gearys went to the Coronation and told my husband about it."

The Cox's suggested the idea to the Woodbridge branch of the Canadian Legion, of which Maj. Geary is a past-president. The Legion agreed to finance the trip.

Merritt, VC, 44, of Vancouver, the CO, won the Empire's highest award for valor at Dieppe, and Lt.-Col. Paul Triquet, VC, earned his VC during the battle for Ortona in 1944.

Spain's great empire in the Americas was mostly explored and colonized by the end of the 16th century.

## Firemen Battle Nearly 7 Hours

MONTREAL (CP)—Firemen battled 6½ hours Tuesday night to bring a spectacular fire under control in a \$3,000,000 oil plant in Montreal's East End.

For four hours flames threatened nearby tanks containing 150,000 to 200,000 gallons of explosive naphtha gas. At the height of the blaze, flames shot within 80 feet of the tanks.

Firemen today continued to pour a steady stream on the white stone, three-storey plant of the Canadian Oil Company, built a year ago.

Divisional Fire Chief Loucille said the fire would be under control "when it burned itself out."

Believed to have started in the plant's laboratory, the fire spread rapidly to grease and oil storage sections at the rear of the plant.

**WARNING**

Princing will be carried out at the Prince Rupert Rifle Range from May 1953, until further notice.

The Range property comprises the following area:

- Lots 1 to 7 and 27 to 34, B.C. 32; Lots 8 and 19 to 19, B.C. 33; Lots 1 to 16, B.C. 35; Lots 1 to 12, B.C. 47; Lots 7 to 23 and 30 and 46, B.C. 48; Lots 9, 10 and 19, B.C. 49; All in Sec. 9, Plan 92.

No unauthorized person may enter this area and trespassing is strictly prohibited.

By Order,  
C. M. DRURY,  
Deputy Minister

OTTAWA, Canada,  
March 9th, 1953.  
EG 5140-2 Vol. 3. (10)

cal nomenclature is largely due to Antoine Lavoisier, great French chemist who died in 1794.

The Cathedral of St. Canice in Kilkenny, in Ireland's Leinster county, dates back to 1255.

## 97 Selected To Contest B.C. Seats

VANCOUVER (CP) — Ninety-seven candidates already have been nominated for the June provincial election.

Social Credit has 32 nominees in the 48 ridings and plans to contest all seats.

The CCF has named 27 and have 20 still to choose, but

*Bridg*  
By EASLEY BLACK  
Give Muzzy  
And He'll R  
Mr. Heinsite frequ  
knowledge is a dangerou  
a little more knowledge  
realize how dangerous it  
thing at all.  
For example, he recently de  
livered an unsolicited lecture o  
the subject of safety plays in  
the trump suit. He told Mr.  
Muzzy that with a nine-car  
trump suit missing only the jack  
and three small cards, it is al  
ways best to lead first the top  
honor from the hand holding  
two of the top three honors.  
Unfortunately, Mr. Muzzy too

This was won on the board with the ace and now Mr. Muzzy led a small heart and put up the ace after Mr. Abel followed suit with the deuce. At this point, there was no way to avoid the loss of a trump trick and the contract was down one.

Left to his own devices, Mr. Muzzy undoubtedly would have led the first heart at random from his own hand or dummy. That would have been a 50-50 chance. All Mr. Heinste's lecture did was to reduce those chances exactly to zero.

If Mr. Abel had held J 4 3 in spades, then of course the right play would have been to lead the ace of hearts first. That would have made sure that a heart trick would be lost.

When the jack 10 and two small cards are out against two

**THIS DEADLY WATER MOON**  
**CASIN SNAKE** bit Armand  
 Couillard, a Montreal carnival  
 worker, whose condition was  
 grave until serum was rushed

by plane from Hamilton, Ont. Couillard was taken to a Montreal hospital, his arm many times its normal size. A broadcast report of the accident was heard by Robert Lang of Hamilton who proved the snake-bite antidote.

---

**-His Two-Cents Worth**

A cartoon illustration showing a man with a large snake bite on his arm, holding a newspaper and a bag, walking past a woman. The man is looking at the newspaper with a concerned expression. The woman is looking at him with a surprised expression. The man's arm is wrapped in a bandage, and the bite is visible. The woman is wearing a hat and a coat. The man is wearing a suit and a hat. The background is a simple street scene with a building and a sidewalk.

## Communists' Power 'Broken' in Malaya

By WILLIAM PARROTT  
SINGAPORE (Reuters)—British high commissioner for Malaya, confidant his stringent measures have at last broken the power of the Communist terrorists, is turning his attention toward the problems of peace.

First step in General Sir Gerald Templer's new program was the removal of an important emergency regulation granting powers of mass detention and deportation — "the need for which no longer exists."

He announced his new program in a recent 10,000-word policy speech in which he devoted less than 10 per cent of the text to the campaign against the terrorists.

The general said he wants to

apply to the whole administration the principle underlying "operation service," a highly successful police experiment aimed at establishing friendly relations and a spirit of confidence between the police and the public.

As a high priority, his plans included the inauguration and guidance of elected local, town and municipal councils.

Employment exchanges are to be inaugurated and new labor legislation aimed in part at "encouraging the growth of responsible trade unions" is to be introduced.

The high commissioner's plans include improvement in the amenities of Malay villages, increasing the country's rice harvest and better marketing.

# Canada's Fisheries Should be Protected From Possible Ill Effects of Projects

OTTAWA — Senator Thomas Reid, chairman of the International Pacific Salmon Fisheries Commission, has urged that Canada's fisheries be protected from possible ill effects of water conservation and power projects.

JOHN E. MOTZ

THE PRESIDENT AND PUBLISHER of the Kitchener-Waterloo Record, John E. Motz, was elected first vice-president of the Canadian Daily Newspapers' Association at the organization's 34th annual meeting in Toronto.

EMILE CASTONGUAY

Emile Castonguay, general manager of L'Action Catholique of Quebec, was elected second vice-president.

## Barbara Brent's BUYS AND WHYS

MONTREAL, April 30th—I bought a garden yesterday... at the B of M! Thanks to Personal Planning, I had saved just enough to realize one of my home-improvement dreams—a real landscaping job... something I'd put off for years. On my last trip to the BANK OF MONTREAL, I happened to mention to the manager that I was going to "flow" my savings. He, bless his heart, came up with a better idea—"Why not save your savings and buy our improvements with a low-cost B of M Personal Loan? In this way," he explained, "you keep your savings intact and pay back the loan in easy monthly instalments." I jumped at the idea, and in less than two hours the deed was done. If you have home-improvements on your mind or any other major expenditure, drop in and have a chat with your nearest B of M manager. And, while you're at it, ask for a copy of the booklet, "Personal Planning." You'll find it makes good sense.

Here's a Recipe I know you'll like... Potato Pancakes, made with delicious FRENCH'S INSTANT POTATO...  
 1/2 cup French's Instant Potato Powder  
 1/4 cup sifted flour  
 1/4 cup milk  
 1/4 cup salt  
 1/4 cup separated egg whites  
 1/4 cup oil  
 Mix French's Instant Potato Powder, flour and salt. Beat egg yolks slightly, combine with milk and add slowly to dry ingredients, beating smooth. Beat egg whites stiff, fold into first mixture, form into cakes. Bake on hot griddle, turning to brown on both sides. Yield: about 2 dozen pancakes.  
 M-m-m-m!—wonderful! And that's just a sample from a 25c, 32-page illustrated cook-book called "Culinary Art"—that's yours for just 10c. Simply write to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—for your copy.

Wow! It's not quite that quick—but there's nothing slow about the way babies grow. And it's wise, mother, to keep up with your baby's rapid growth by giving him nourishing, wholesome food made especially for him. First of all, he'll grow healthy and strong on Heinz Pre-Cooked Cereals. Then he can graduate to HEINZ STRAINED BABY FOODS... meat food products, vegetables and desserts—all expertly blended to give him needed nourishment. Pre-cooked, too, to suit his taste and tummy. When he's a little older, he'll be ready for HEINZ JUNIOR FOODS. Your dealer has all of the Heinz Baby Foods. Look for them next time you're shopping.

You'll Like It. You'll like the fresh, sweet flavour of BLUE BONNET DE LUXE MARGARINE. And you'll like the shape of the De Luxe Blue Bonnet quarters. They go right from the package to the plate... and they're handy to slice into patties, too. Four separate, golden-yellow quarters, by the way—each individually wrapped in pure aluminum foil. That's to preserve the delicate, sweet flavour of De Luxe Blue Bonnet... delicious fresh from the refrigerator—or when served melting hot on toast, meat or vegetables. Another De Luxe convenience—the chart on the package shows exactly where to cut for recipes, so forget your measuring cup.

You'll Be His favourite wife when you succeed in keeping his shirts whiter than white. And success comes easily when you use Blue— for Blue does the best job of all in keeping clothes from turning yellow. You know you must rinse your wash to get the clothes clean, then simply put a dash of Blue in the water—to get them really white. Those precious sheets you got for your wedding anniversary—the linens that show your pride and joy—don't take chances—use Blue to keep them white. Costs just a few pennies a month—and that makes good sense, doesn't it? Yes, for the whitest wash, use RECKITT'S BLUE.

One Of The Nicest Meals Of The Week... that's Sunday supper with the family. And it's a special treat when you serve Salmon Supper Cakes with tangy lemon wedges. SUNKIST LEMONS, of course. They're the finest, juiciest grown—

Did You Know That You Can get bathroom tissue in dainty pastel shades to match the color-scheme of your bathroom? It's NANCY "TRIPLE-SOFT" TISSUE priced at only 20c per 800-sheet roll. I've found that this inexpensive way to add a pleasing note of color harmony to the bathroom is really catching on in a big way. And you'll like the extra softness of this 3-ply tissue. It's made of genuine facial-quality tissue by the Face-Elle people. You'll see it in the stores packaged in the distinctive wrapper with the red ends. You can also get Nancy in 2-ply white tissue. I can recommend either as being a wonderful improvement over the ordinary type of bathroom tissue.

bian Liberal, spoke during debate in the Senate on a measure authorizing the federal government to pay part of the costs of small conservation projects.

The Senate gave the bill approval in principle and sent it to a committee for further study.

Senator Reid suggested that the federal government approach the provinces with a view to having laws passed that no river may be dammed unless the plans are first investigated by fisheries authorities. Similar laws in Washington state ensured that the fishing industry would not suffer from conservation or power projects.

Senator Reid also urged that the government form a body composed of officials of the agriculture, resources and fisheries departments and the Prairie farm rehabilitation administration to oversee projects which may affect the fisheries.

He said it is about time the government departments "got out of the watertight compartments which seem to surround them."

He said the Fraser river is in particular danger from construction of dams which would hamper salmon from reaching their spawning grounds and returning to the sea.

He said many spawning grounds have been ruined by logging companies dragging timber through the shallow waters. Dams were built to protect river valleys from floods without any attention being paid to the effect on spawning grounds.

Senator F. W. Gershaw (L-Alberta) sponsor of the measure, said the bill provides specifically that fisheries and wild life must be guaranteed protection in any conservation project undertaken with financial help from the federal government.

Senator Reid also gave the government a few words of advice on the appointment of personnel to the fisheries research board. He spoke during debate on a bill to increase the board's membership to 19 from 15. The bill was given final approval.

Senator Reid said the government should make sure that the scientists on the board are working under the direction of a layman.

If left to themselves, the scientists would accomplish nothing, he said.

He described a visit to one fisheries research station where he said a scientist told him of 10- or 12-year tests to find out about the amount of salt in the sea.

"I asked him some questions... and he couldn't tell me a thing about the sea," Senator Reid said.

Senator John T. Haig, Progressive Conservative leader, said he agreed with Senator Reid's remarks about laymen directing such operations. However, without the fisheries and agricultural scientists Canada would be in a bad way.

The work of agricultural scientists on wheat had made possible the huge wheat crops of recent years.

### Promising Cure

PRETORIA, South Africa (CP) — A drug now being tested here may prove a "wonder cure" for leprosy. The drug, para amino salicylic acid, was praised by Lieut. Jack Millar of the United States Navy, attached to the American Leprosy Foundation.

JOHN J. DEUTSCH, 41-year-old director of the finance department's international economics division, has been appointed one of Finance Minister Abbott's senior advisers. He has been elevated to the rank of assistant deputy minister. Born and raised on a Saskatchewan wheat farm, Mr. Deutsch becomes one of the finance department's three assistant deputies all advising on budget matters.

## Socialists Hope to Oust Churchill

LONDON (Reuters) — Britain's Socialist leaders have agreed on a five-year blueprint with which they hope to sweep Sir Winston Churchill's Conservatives from office at the next general election.

But in deference to growth from Britain's 3,000,000-man Trades Union Congress, which controls the Labor party purse strings, the leaders decided to ease up on certain nationalization and other proposals urged by the party's left-wingers.

The 27-member national executive committee of the party Sunday night concluded a three-day conference on their five-year plan. Party secretary Morgan Phillips told reporters the plan aims "to achieve the solvency and independence" of Britain and to enable her to make a contribution towards the world's under-developed areas.

He said the final draft would be passed by the national executive May 19. Sunday's conference decided to postpone the final shaping of the foreign-policy section of the program.

### All The Comforts

## London Gets Face-Lifting For Colorful Coronation

By DONOVAN BESS

LONDON (Reuters)—It's only 34 days until the Coronation, and sombre old London is having her face lifted.

People who have been out of the city for a month are amazed on their return to see miles of grandstands flanking the route from Buckingham Palace along the Thames to Westminster Abbey.

Their cars are caught in endless traffic jams caused by street-mending being done to present the capital at Sunday-best for an expected 800,000 Coronation Year tourists.

Brightly-painted heavy wooden gates already have been put up to seal off streets and sidewalks leading from the critical "C Day" area.

### DOZENS OF BLEACHERS

Parliament Square, under Big Ben, already looks like a baseball stadium. There are so many bleachers that you can't see the traditional centre greenward.

Grandstands almost completely line the route to be taken by the Queen June 2. Roofs now are being hammered out to most of them, where more than 100,000 spectators will sit. Many familiar statues of Britain's greats have been boarded up to protect them from the throngs that soon will pack the city.

Staid London shops are doing a lively business in hawking Coronation souvenirs. You can get all kinds of knickknacks or neckwear emblazoned with "E.R." or the Imperial Crown or the abbey.

### LOOKS FRESH

The centuries-old abbey looks fresh in the spring sunshine after a thorough scrubbing of its historic walls. The sprucing-up and painting has been going on all over town, even in the humblest dwellings. And on Buckingham Palace's gates the Queen's monogram has been repiged.

During the next 34 days the pre-Coronation flutter will rise in a steady crescendo—for there

### Colorful Display

OSLO — Workers at the municipal gardens in Oslo planted 30,000 tulips to bloom in the middle of May. After that display is finished they will plant 500,000 summer flowers.

## TRADE WITH CHINA

KARACHI — The government of Pakistan has signed a contract with the Chinese Communist government to purchase 200,000 tons of Chinese coal. China has agreed to purchase 10,000 tons of cotton from Pakistan.

## ALL ANCHORAGES FILLED IN HARBOR AT VANCOUVER

VANCOUVER (P)—For the first time in 20 years anchorages in Vancouver harbor are filled to the brim.

The reason is the prolonged grain strike which has tied up shipments for some 70 days.

A National Harbors Board survey showed 16 deep sea cargo ships riding at anchor last Saturday plus another out in English Bay awaiting entry into the harbor.

Ships make periodic trips to dock but only long enough to take on fresh water and return to anchorage. Supplies are taken out on privately chartered launches.

## Wounded Soldier Tells How Prisoners Buried Comrades In Shallow Graves

TOKYO (AP)—"Twelve of us went to bed one night in a little room like this," the thin, blond soldier recalled. "The next morning . . . I was the only man alive."

Sgt. Albert L. Howard of Nashville, Tenn., said other allied prisoners at camp No. 5 dug shallow graves and said simple burial services for those who died.

The Tokyo army hospital room in which Howard was interviewed was about 12 by 12 feet. The death room was in a mud hut at a prison camp near the Yalu River, where he was taken after he was captured Nov. 4, 1950.

Many men died at the camp of malnutrition, Howard said. "One day I remember exactly 37 died. I helped bury them."

He said every prisoner was a member of a burial detail.

"A man would help bury someone else one day, and the next day he would be buried," Howard said. "The graves were only a foot deep. We said what services we could for them."

He said the deaths were almost all prior to June, 1951, when the Korean armistice talks began. After that, he said, the Chinese Communists gave them more food.

Howard, 33, was captured at Anju, North Korea, Nov. 4, 1950, soon after the Chinese Communists entered the war.

## BARLEY LEAVES VICTORIA ELEVATOR FOR S. KOREA

VICTORIA (P)—First full shipment of prairie barley from the recently re-opened Ogden Point docks leaves here this week.

The between 9,000 and 10,000 tons are consigned to South Korea. The grain was shipped to Port Mann and thence to the Victoria elevators by Canadian National Railways train ferry.

## Old English Paper Describes Sailing of Spanish Armada

BIRCH HILLS, Sask. (CP)—The sailing of the Spanish Armada, the "Black Death," the fire of London and Lord Nelson's funeral are reported in British newspapers dating back to 1583 and now in the possession of Charles Serle.

Serle, a pioneer resident of this area 25 miles southwest of Prince Rupert, received the papers from his stepmother in England. They had been owned by his father.

The oldest newspaper in the collection is the English Mercurie, printed in 1588, which relates the arrival of the news of the sailing of the Spanish Armada.

The report gives an elaborate description of the tenseness of the English and the news that Sir Francis Drake had set out to meet the Spaniards.

### Romantic Spot

LOUGHBOROUGH, Eng. (P)—Six new park seats were built in a public garden in this Leicestershire district and four days later were officially turned over to the town. In the meantime, they had been liberally carved with lovers' initials.

Scott invites you to compare BLUE BONNET Margarine at any price! You'll find the mother of Canada's margarine. The Am: DELUXE BLUE is fresh, sweet, flavor wins everyone! You'll love BLUE BONNET's nutritional And what convenience! BLUE BONNET's pre-cut in quarter pounds, each individually wrapped. No measuring cup needed! And convenience and quality—yellow DELUXE BLUE margarine today.

# Federal-Provincial Conference On Housing Demanded by PC

OTTAWA (CP)—A federal-provincial conference to plan means to beat Canada's housing shortage—estimated at 500,000 units—has been demanded by spokesmen from Parliament's

opposition benches. The Commons, in the first major debate on housing since Parliament opened last November, heard a series of suggestions on how the housing problem might be tackled. They included a federal-provincial meeting, smaller down payments, cheaper interest rates and longer payment periods.

The federal-provincial conference idea came from Donald Fleming (PC—Toronto-Eglinton) and got support from spokesmen for other parties in opposition.

C. E. Johnston (SC—Bow River) said the government should rid itself of the "white elephant" financing agency, Central Mortgage & Housing Corporation, and get the down payments on housing loans reduced to the \$500 level so low-income men could build a home.

The debate was precipitated by a government resolution preparatory to a bill making a number of changes in the National Housing Act. The bill eventually was introduced and given first reading.

Resources Minister Winters said that the measure will increase the total of the home-

ownership loan fund to \$500-000,000 from \$300,000,000 and the rental housing loan fund to \$250,000,000 from \$150,000,000. It also widens slum-clearance provisions.

Mr. Winters said the total funds already out on loan or committed for home-building are such that without the increases there would not be enough money for 1953 operations. Housing starts so far this year, he said, are running ahead of those for the same period of 1952.

Mr. Fleming said a federal-provincial conference is necessary to work out an understanding on tax sources. Some municipalities now were so hard-pressed that they were discouraging house-building projects because they couldn't finance necessary services like sewers, sidewalks and electricity.

Mr. Johnston suggested that the federal government provide a \$500,000,000 revolving fund from which loans could be made to municipalities at not more than two-per-cent interest to prepare land for house-building. The municipalities then would oversee housing standards.

## ANNOUNCEMENT

Eye, Ear, Nose and Throat Specialists will be in Prince Rupert from May 4 to 9 inclusive.

Appointments should be made through your family doctor.

Prince Rupert Medical Association

APPOINTMENT of James H. Black as vice-president of Canadian Chemical and Cellulose Company, Ltd., has been announced by M. W. Mackenzie, executive vice-president. Mr. Black will continue as treasurer of the company, a position he has held since its formation a year ago. Prior to joining Canadian Chemical and Cellulose Company, Limited, he was associated with the Celanese Corporation of America.

### Valuable Services

DUNGENESS, England (CP)—Gold badges have been presented to two of Britain's few remaining women lifeboat launchers Midge Tart, 63, and her sister-in-law, Mrs. Ellen Tart, 69. They have had nearly 50 years' service with the Dungeness lifeboat.

### Familiar Sight

CRAWLEY, England (CP)—London women who moved to this new town in Sussex missed the "barrow boys," London's famed merchants on wheels. Council now plans to build an open market with street stalls.

## Top British Operatic Team To Appear in Calgary Show

By MURIEL NARRAWAY  
Canadian Press Staff Writer

LONDON (CP)—Webster Booth and Anne Ziegler, Britain's top man-and-wife operatic team, will ditch a well-earned holiday to fly 8,800 miles to a one-night

## Eisenhower Favors Full Employment

WASHINGTON (AP)—President Eisenhower has assailed the stupidity of mass unemployment and pledged "every useful measure, private and public," to avoid it in the future.

In a letter to CIO president Walter Reuther, the President said he "firmly" subscribes to the Employment Act of 1946, which established the Council of Economic Advisers and made it public policy to "promote" full employment.

The letter, made public by the CIO, was hailed in the CIO News as "a clear outline for a liberal economic philosophy for America, the sort of economic philosophy which has proven so beneficial to the country and its people during the past 20 years."

Eisenhower's letter was in answer to one Reuther sent him April 6. Reuther asked the President to summon a "broadly representative conference at the earliest possible date to draft a work sheet for full production and full employment."
