**TWO-MILE ICE JAM** in the Grand river north of Galt, Ont., followed by heavy rain, caused some sections of farm lands near the city. Parts of highway 24 between Galt and also were flooded.

## Mayor Tells Ratepayers City Not 'Benevolent Association'

Mayor Harold Whalen told the ratepayers' association at a meeting last night that the city is not a "benevolent association." He said that the city had received a grant from the province last year "and in my opinion these kind of grants were given mainly for public relations purposes as these groups promote Prince Rupert."

Ald. Mike Krueger told the meeting the museum also received a grant from the city last year "and in my opinion these kind of grants were given mainly for public relations purposes as these groups promote Prince Rupert."

Mayor Whalen said that the city had received a grant from the province last year "and in my opinion these kind of grants were given mainly for public relations purposes as these groups promote Prince Rupert."

## Milk Price Plans 'Scrapped'

**VICTORIA.**— Agriculture Minister Kenneth Kiernan filed documents in the British Columbia Legislature Wednesday purporting to show that the previous Liberal government scrapped plans to decontrol milk prices after a protest from a prominent Liberal.

Mr. Kiernan said he was filing the documents "without comment."

Mr. Kiernan filed affidavits showing that the provincial milk board informed distributors in January, 1952, that the government intended to remove milk price controls above the producer level the following month.

He then read three telegrams, dated three days after the milk board informed distributors of its decision, and which he said were signed by Senator J. W. Farris, Q.C., of Vancouver, prominent B.C. Liberal.

**THOMAS A. STONE**, (right) Canadian ambassador to the Netherlands, presents a cheque for 3,308 guilders (about \$827) to aid in flood relief, to Lt.-Gen. P. Alons, director of the Dutch national disaster fund at the Canadian embassy in The Hague. The money was contributed by officers and men of the 27th Canadian Infantry Brigade Group at Hannover, Germany. Representing the brigade were Major R. A. Briggs (right rear) of Vancouver and Capt. L. W. Garen (left rear) of Chatham, Ont.

## Churchill Acts After Incident

**LONDON.**— Informed sources said Prime Minister Churchill has called an emergency conference of high government officials tonight to discuss the shooting down of a British bomber by Soviet jets in Germany.

**LUENEBURG, Germany.**— A four-engined British plane was shot down by two Soviet fighter planes in North Germany today, German authorities reported.

The pilot of the RAF Lincoln bomber survived and was taken, injured, to a German hospital, but at least four British airmen were killed.

Three bodies were found near the wreckage, which landed mostly in this town in the British zone.

The navigator, with a bullet wound in his shoulder, died of a broken neck en route to hospital.

The incident came two days after two MiG-15 jets from Czechoslovakia shot down an American jet near the Czech-German border.

German authorities said the plane was seen to fall in flames near the border of West Germany and Soviet-occupied East Germany.

## Province To Appeal Rail Hike

**VICTORIA.**— Attorney-General Robert Bonner said Wednesday that British Columbia will appeal the decision of the Board of Transport Commissioners granting a seven-per-cent increase in freight rates to the railways.

He said he expects he will be supported in the appeal to the federal cabinet by other western provinces and the Maritimes. No date has yet been fixed for the appeal.

Earlier this week Premier Bennett proposed the \$38,500,000-a-year increase be held up, or that the federal government pay the railways the amount, pending a hearing by the board on equalization of rates.

He said the new increase will bear inequitably on B.C.

In Ottawa, Prime Minister St. Laurent said in the Commons, the cabinet will hear any provincial government appeal against the new freight rate increase but indicated it will not suspend the increase until the appeal is heard.

The boost is due to go into effect next Monday.

## Alcan Speaker Refutes Charges of 'Ruin'

Refuting charges that there will be general ruination of wild life and scenery in the Tweedsmuir Park area as the result of flooding by the Aluminum Company of Canada, George Vincent, of Alcan, claimed here today that those who make such predictions actually are doing harm to B.C.

"By construction of several hundreds of miles of road leading to the area, we have brought the park to the people," Mr. Vincent said in a luncheon address to the Rotary Club. "Splendid opportunities have arisen as the result of the coming of Alcan and much more will arise."

"I wonder if those who give a lurid picture of ruin to fish, game and scenery, which does not in fact exist, realize that they may be doing a grave disservice to north-central B.C. and its gateway towns of Prince George and Prince Rupert by frightening potential newcomers and new investors away, rather than encouraging them to come in."

Mr. Vincent maintained that the real question is whether or not the people of B.C. want to see this province in the forefront of world aluminum production, with all the attendant economic and other advantages that go with the manufacture of this vital metal.

"Some people are always bound to be upset by the advent of any new industry such as ours, and change always produces criticism, frequently unfounded or based on misapprehension as to the realities of the situation."

"The important thing is to assess results on the balance and on the long term, and there is overwhelming evidence that the people of B.C. want to see our industry develop to the maximum here, and that the vast majority of them are already benefiting and will benefit thereby," he declared.

Observing that there is great water power available in other parts of the world, Mr. Vincent said Alcan's basic reason for deciding to locate its project in B.C. was because the people of this province are "friendly, stable, co-operative and progressive."

## Operator Fined \$300 On Liquor Charge

Frank Stewart, city taxi operator, was fined \$300 at a sitting of police court last night after being found in charge of keeping liquor for sale.

The case was heard before Stipendiary Magistrate Don Stewart.

Other persons fined in police court were William Campbell, \$50 and Howard \$15 for infractions under the Indian Act. Fred Bennett of Masset was fined \$25 for causing a disturbance in a city cafe.

## Daughters Given \$100 Awards Expenses For Trip

Money raised will go towards a travelling fund for the drill team which has to bear its own expenses.

An Easter tea and sale also has been planned for April, says Alex Mitchell, drill master.

The 32-member girl team was heartened by a letter and gift of \$100 from a private citizen, received by Margaret Giske, drill team captain, at practice last night.

The letter, sent by John McNaughton, says in part: "I realize that it is not all sunshine preparing for the trip, but I do feel the girls will win out. You have done it before and I know you will do it again. I hope you will accept this gift. It may help a little. Please don't think it is a donation. It's just to show my appreciation of your past accomplishments."

## Waneta Dam Workers Strike

**TRAIL.**— A sympathy strike of 800 workers on the \$30,000,000 Waneta Dam project was called today as pickets patrolled the big construction job.

The walkout was ordered following failure to settle a dispute of 300 workers on the \$9,000,000 fertilizer plant at Kimberley.

Both projects are under construction by contractors Stone and Webster for Consolidated Mining and Smelting Co. Ltd., of Canada.

Workers at the Kimberley project struck in a dispute over interpretation of their contract clause relating to travel time and return fares to hiring points.

Workers claimed the contractors failed to implement arbitration terms.

## Additional Saving

Ald. Krueger said the council also decided to send "an alderman" back east to drive the machine to Rupert at a saving of an additional \$700.

Many members complained about 1953 assessments on their property and the meeting decided to take no action in the matter until they discuss assessments further at another meeting.

Ald. Krueger and Mayor Whalen both explained that the city could not roll back the assessment roll to the 1952 figures, as suggested in a letter from the ratepayers' association to council, because it would mean no additional or new revenue to the city coffers this year.

"If it was rolled back, no new homes or structures in the city could have been taxed this year," said Ald. Krueger, explaining that that acting-assessor Bill Long "did a remarkable job in the short time available."

## Difficult Task

Several members criticized the assessments drawn up by Harry Daggett prior to his illness before Mayor Whalen said neither council "nor anyone else knows the basis on which Mr. Daggett made his assessments."

Said the mayor: "The assessor does not take any orders or instructions from city council. Only the court of revision can make suggestions to him."

"The court of revision this year was faced with a very difficult task. One that few courts have ever had to face. Your guess is as good as ours as to how Mr. Daggett based his assessments..."

One member of the association suggested council reconsider its recent decision to levy a \$15 fine on persons having chimney fires. Aldermen agreed the suggestion had merit and the association decided to write council on the matter.

Following a discussion on the power situation here, the mayor and aldermen explained that while the people in a referendum at the last civic election authorized council to have the B.C. Power Commission take over the supplying of power here, city fathers were "trying to get the best deal possible for the people of Prince Rupert."

For that reason, it was explained, council is still carrying on discussions with Northern B.C. Power Company and the Commission.

Mayor Whalen said he had hoped the Commission "would come up with something concrete on what they could or would do if we asked them to take over, but so far they have made no commitments..."

## Eight-Inch Snowfall Covers City

Winter whipped down last night on surprised city folk and dumped an eight-inch blanket of snow over the city. By mid-day water was streaming down streets after the sun came out and temperatures turned mild.

Highway 16 between Prince Rupert and Terrace remained open by consistent clearing of public works snow ploughs. Late reports said it was still snowing at Kwintsa, the heavy precipitation belt, 40 miles east of here.

Driving, however, is hazardous in spots and motorists are warned to use chains. A washout due to heavy rains earlier in the week has been repaired.

Forecast for the north coast region is for variable cloudiness on Friday and scattered showers of rain and snow. Temperature at Prince Rupert tomorrow, 32 and 40.

## Nationalists To Get U.S. Jets

**TAIPEH, Formosa (AP).**— The Chinese Nationalist air force will soon be strengthened by the addition of American jet fighters, its commander said today.

Lt.-Gen. Wang Shu-min declined to say how many U.S. jets he expected. But he did say in an interview at least 150 are needed to give Formosa a protective screen against air assaults from the Red mainland.

## Ike Nominates Heintzleman

**WASHINGTON.**— President Eisenhower Wednesday nominated Frank Heintzleman of Juneau as governor of Alaska. Heintzleman, 65, has been regional forester for Alaska since 1937.

## Plane Blew Up

Two bursts of machine-gun fire were heard and then the bomber blew up, a British official said.

Reuters News Agency quoted Berlin airport officials as reporting that a Russian plane exploded in mid-air near where the British plane was attacked. There was no immediate indication whether the report was in any way connected with the shooting down of the British plane.

Before Mr. Churchill called the night meeting, the Foreign Office announced Britain will make a "very strong protest" to the Russians.

The Foreign Office said it was "far too early to decide" if the incident shows a new pattern of Russian tactics linked with Stalin's death.

The new incident, said German reports, chilled Europe with fear.

The attack heightened the east-west crisis in one of the most dangerous areas of cold war conflict.

In Washington, House Speaker Martin told reporters: "We can't be expected to let them raid our territory without doing something about it."

He declined to elaborate.

## Air Alert Signal Called

**FAIRBANKS, Alaska.**— The Fairbanks News-Miner reported Wednesday a yellow air attack alert was called in Alaska Saturday night at 10 o'clock from the Aleutian Islands to Anchorage and Fairbanks.

The paper said it was the first alert since the Second World War that "definitely was not a practice alert."

The News-Miner added that the Civil Aeronautics Administration range stations shut down and jet pilots on leave were ordered back to their bases.

## Park Board Awards Plaza Contract to M. J. Saunders

A one-vote majority by the five-member board of park commissioners last night awarded the contract of levelling, grading, draining and filling Plaza Park to M. J. Saunders.

Mr. Saunders' tender was for \$1,750. Only other tender received was for \$4,423.33 from A. E. Pongracz.

Commissioners Art Murray and Bob Armstrong voted against immediate acceptance because of the big difference between the two tenders. They favored investigation before the contract was let.

The parks board will supply planks to be used as fill base and for a short plank road leading to the park. Cinders for fill are to be hauled by the contractor from Columbia Cellulose Co. Ltd. pulp mill at Watson Island, but will be supplied free by the company.

Contractor must supply gravel and tile.

Voting for immediate acceptance of the bid were Commissioners Bob Eby and Charles Balagno and Chairman Pat Forman.

Bill Lambie, chairman of the Gyro Club playground committee, promised full co-operation of the club to have ready for installation playground equipment when the park grounds are completed.

Commissioners voted to leave installation of equipment with the Gyros and said the park would be completed in about six weeks.

Application of Mrs. Lalla Svendsen, Civic Centre worker, as supervisor of the McClymont swimming pool this year was accepted. Members expressed satisfaction with the way Mrs. Svendsen had supervised the pool last season.

### Birth of A City

A BILL before the provincial legislature calling for creation of a district municipality to be known as "The Corporation of the District of Kitimat" is the first step in putting the stamp of formal recognition on Prince Rupert's new neighbor.

More than that, it heralds the birth of what will one day be a great city bringing untold possibilities of industrial expansion to this part of British Columbia.

For the tiny Indian settlement of Kitimaat it has been a strange history. After slumbering for hundreds of years on the shores of this beautiful location at the end of Douglas Channel, the quiet little village suddenly found itself on a site selected as the heart of the vast multi-million-dollar aluminum and power project of the Aluminum Company of Canada.

The white man brought all his magic with him. To an extent that is amazing even modern science, he is changing the course of rivers, penetrating mountains and, from these wonders, is about to produce the most astounding miracle of all—electricity.

As their plans take shape, Alcan officials make it clear it is not their wish to make Kitimat a company town. Property owners will be free to elect their own independent council which, in turn, will appoint a municipal manager. Residents will be encouraged to build their own homes and merchants will be invited to conduct their business in their own way, provided the company has first satisfied itself that their intentions are ethical and that they have sufficient resources to offer good service on a long-term basis.

As the project develops, the triangle marked off by Kitimat, Terrace and Prince Rupert will assume a singular place in the economy of B.C. With Terrace at the apex, it will draw traffic from the interior never before seen in this region.

Coastwise, shipping lines will have an added inducement to make the long trip from Vancouver, and it is not inconceivable that this traffic lane will one day become as busy as that between Vancouver and Victoria.

Kitimat will be a welcome neighbor to Prince Rupert. For almost half a century this city has been a lone bastion on the northern coast which, with its solitude, has experienced neglect. With this important newcomer beside us, there is hope that this part of the country will no longer be the forgotten corner of B.C.

### Scripture Passage for Today

"Peace be unto you."—St. John 20:19.

### Government Helps Those Wishing To Enter Teacher-Training Course

Substantial financial assistance is available from the Provincial Government for students wishing to enter teacher training, according to information disclosed at the regular monthly meeting of the Conrad Street School Parent-Teacher Association.

Members felt that students interested in entering teacher training often failed to do so because they did not know about the Government's financial help available to them to the extent of about \$300 per year. Of this amount, approximately \$180 is an outright gift, and the other \$120 must be repaid in installments after a year of teaching, according to information received here.

Further information indicated that tuition fees for one year at Normal School are only \$50. Books cost approximately \$20 and room and board averages from \$50 to \$60 a month, bringing total cost of a year's tuition at normal school to around \$1,000.

Conrad P-TA members voted to donate \$100 toward a bursary set up by the Prince Rupert Parent-Teacher Council to assist a deserving student to enter teacher-training. All city P-TAs have expressed their desire to participate in this bursary.

The Conrad School P-TA's annual White Elephant Sale which will be held on March 28 will be convened by Mrs. L. Murdoch and Mrs. H. Maki.

Members voted to take over the sponsorship of the Conrad

Cub and Scout groups, and to render all assistance possible.

"Report Cards for Parents" were enthusiastically adopted by members and will be sent out in September for parents to fill out and return to school. The "report card" is a questionnaire to be answered by parents regarding habits and personality traits of the child which will enable the teacher to better understand him.

Mrs. J. F. Denning was chosen to represent the Conrad P-TA at the dinner meeting of the Prince Rupert unit of the Canadian Cancer Society on March 30, and to report back to the next meeting.

Votes of thanks were extended to Mrs. J. Kurdziel and Mrs. G. Patzold; the former for her able convener-ship of the tea on the school's "Open House" day, and the latter for drawing several artistic display posters advertising the White Elephant Sale.

The usual financial support was voted for the sending of a delegate to represent local P-TAs at the annual convention of the F.C. Parent-Teacher Federation in North Vancouver early next month. This year the delegate will be W. D. Griffiths, a member from Conrad's own ranks.

Mrs. W. Murdoch, president, was in the chair.

The pennant and prize money awarded each month to the class with most parents attending meetings, was won this month by Mrs. C. Weise's Grade 3 Class.

### As I See It

by  
 Elmore  
 Philpott

#### Stalin Saved Sam

THE late Joseph Stalin was a most invariably pictured by U.S. cartoonists as a smiling man, smoking a huge pipe and thoroughly enjoying the stewing sweat in which he kept Uncle Sam—usually shown as a boob or sucker.

The legend was that Uncle Joe was a fellow of diabolical super-cunning who made his American rival look like a bewildered yokel.

The truth is a bit different. Stalin was a very able ruler who (as Howard K. Smith remarked) left a greater mark on the twentieth century than any other individual. He was not all bad. But he was not a good man, like Gandhi for instance, whose achievements were primarily those which radiated from a great soul.

But Stalin was great in power politics, like Caesar, Alexander, Queen Elizabeth, Napoleon, Wellington, Nelson or Cromwell were great. He treated his rivals with no more justice or mercy than Elizabeth treated Mary of Scotland, or the numerous Englishmen, like Raleigh, who served her well, but nevertheless had their heads chopped off later.

I THINK later history will clearly show that Stalin's fundamental blunder after Hitler's war temporarily saved the western capitalist system which he, Stalin, was out to destroy.

Suppose Russia had remained on the conciliatory and co-operative line which she followed from 1941 to 1945. Suppose she had fully lived up to the spirit and letter of the various treaties which were made in wartime. Suppose she had really let the liberated nations of eastern Europe run themselves in their own way, with complete, real democratic freedom.

Can anyone doubt that long before now there would have been an economic crisis as bad or worse than that after 1929?

MORE than half the total production of the west now goes into the gigantic war preparation. Yet again we have vast surpluses like butter, cheese, dried milk, salmon, metals, lumber.

Stalin's truculence supplied that vast bottomless arms market without which Wall Street would long since have hit the skids.

I say "Stalin" did this—though of course that is not quite accurate. For my interpretation is that Stalin was more enlightened, more co-operative-minded, than the men around him.

SUPPOSE we get that third world war which many people think is inevitable.

Suppose, for the sake of argument, that U.S. is able to win a quick, complete victory. Suppose the U.S. were then to emerge as the one great surviving power on earth—with not a single rival able to question her will by armed power.

What would take the place of the world arms market Uncle Joe provided for Uncle Sam?

Are we willing to substitute an organized war against poverty at home for war preparations against the enemy abroad? And, if so, how?

### Scientists Embalm Stalin's Body

LONDON (Reuters) — The body of Stalin may be seen by future generations of Russians, according to claims made by Soviet scientists.

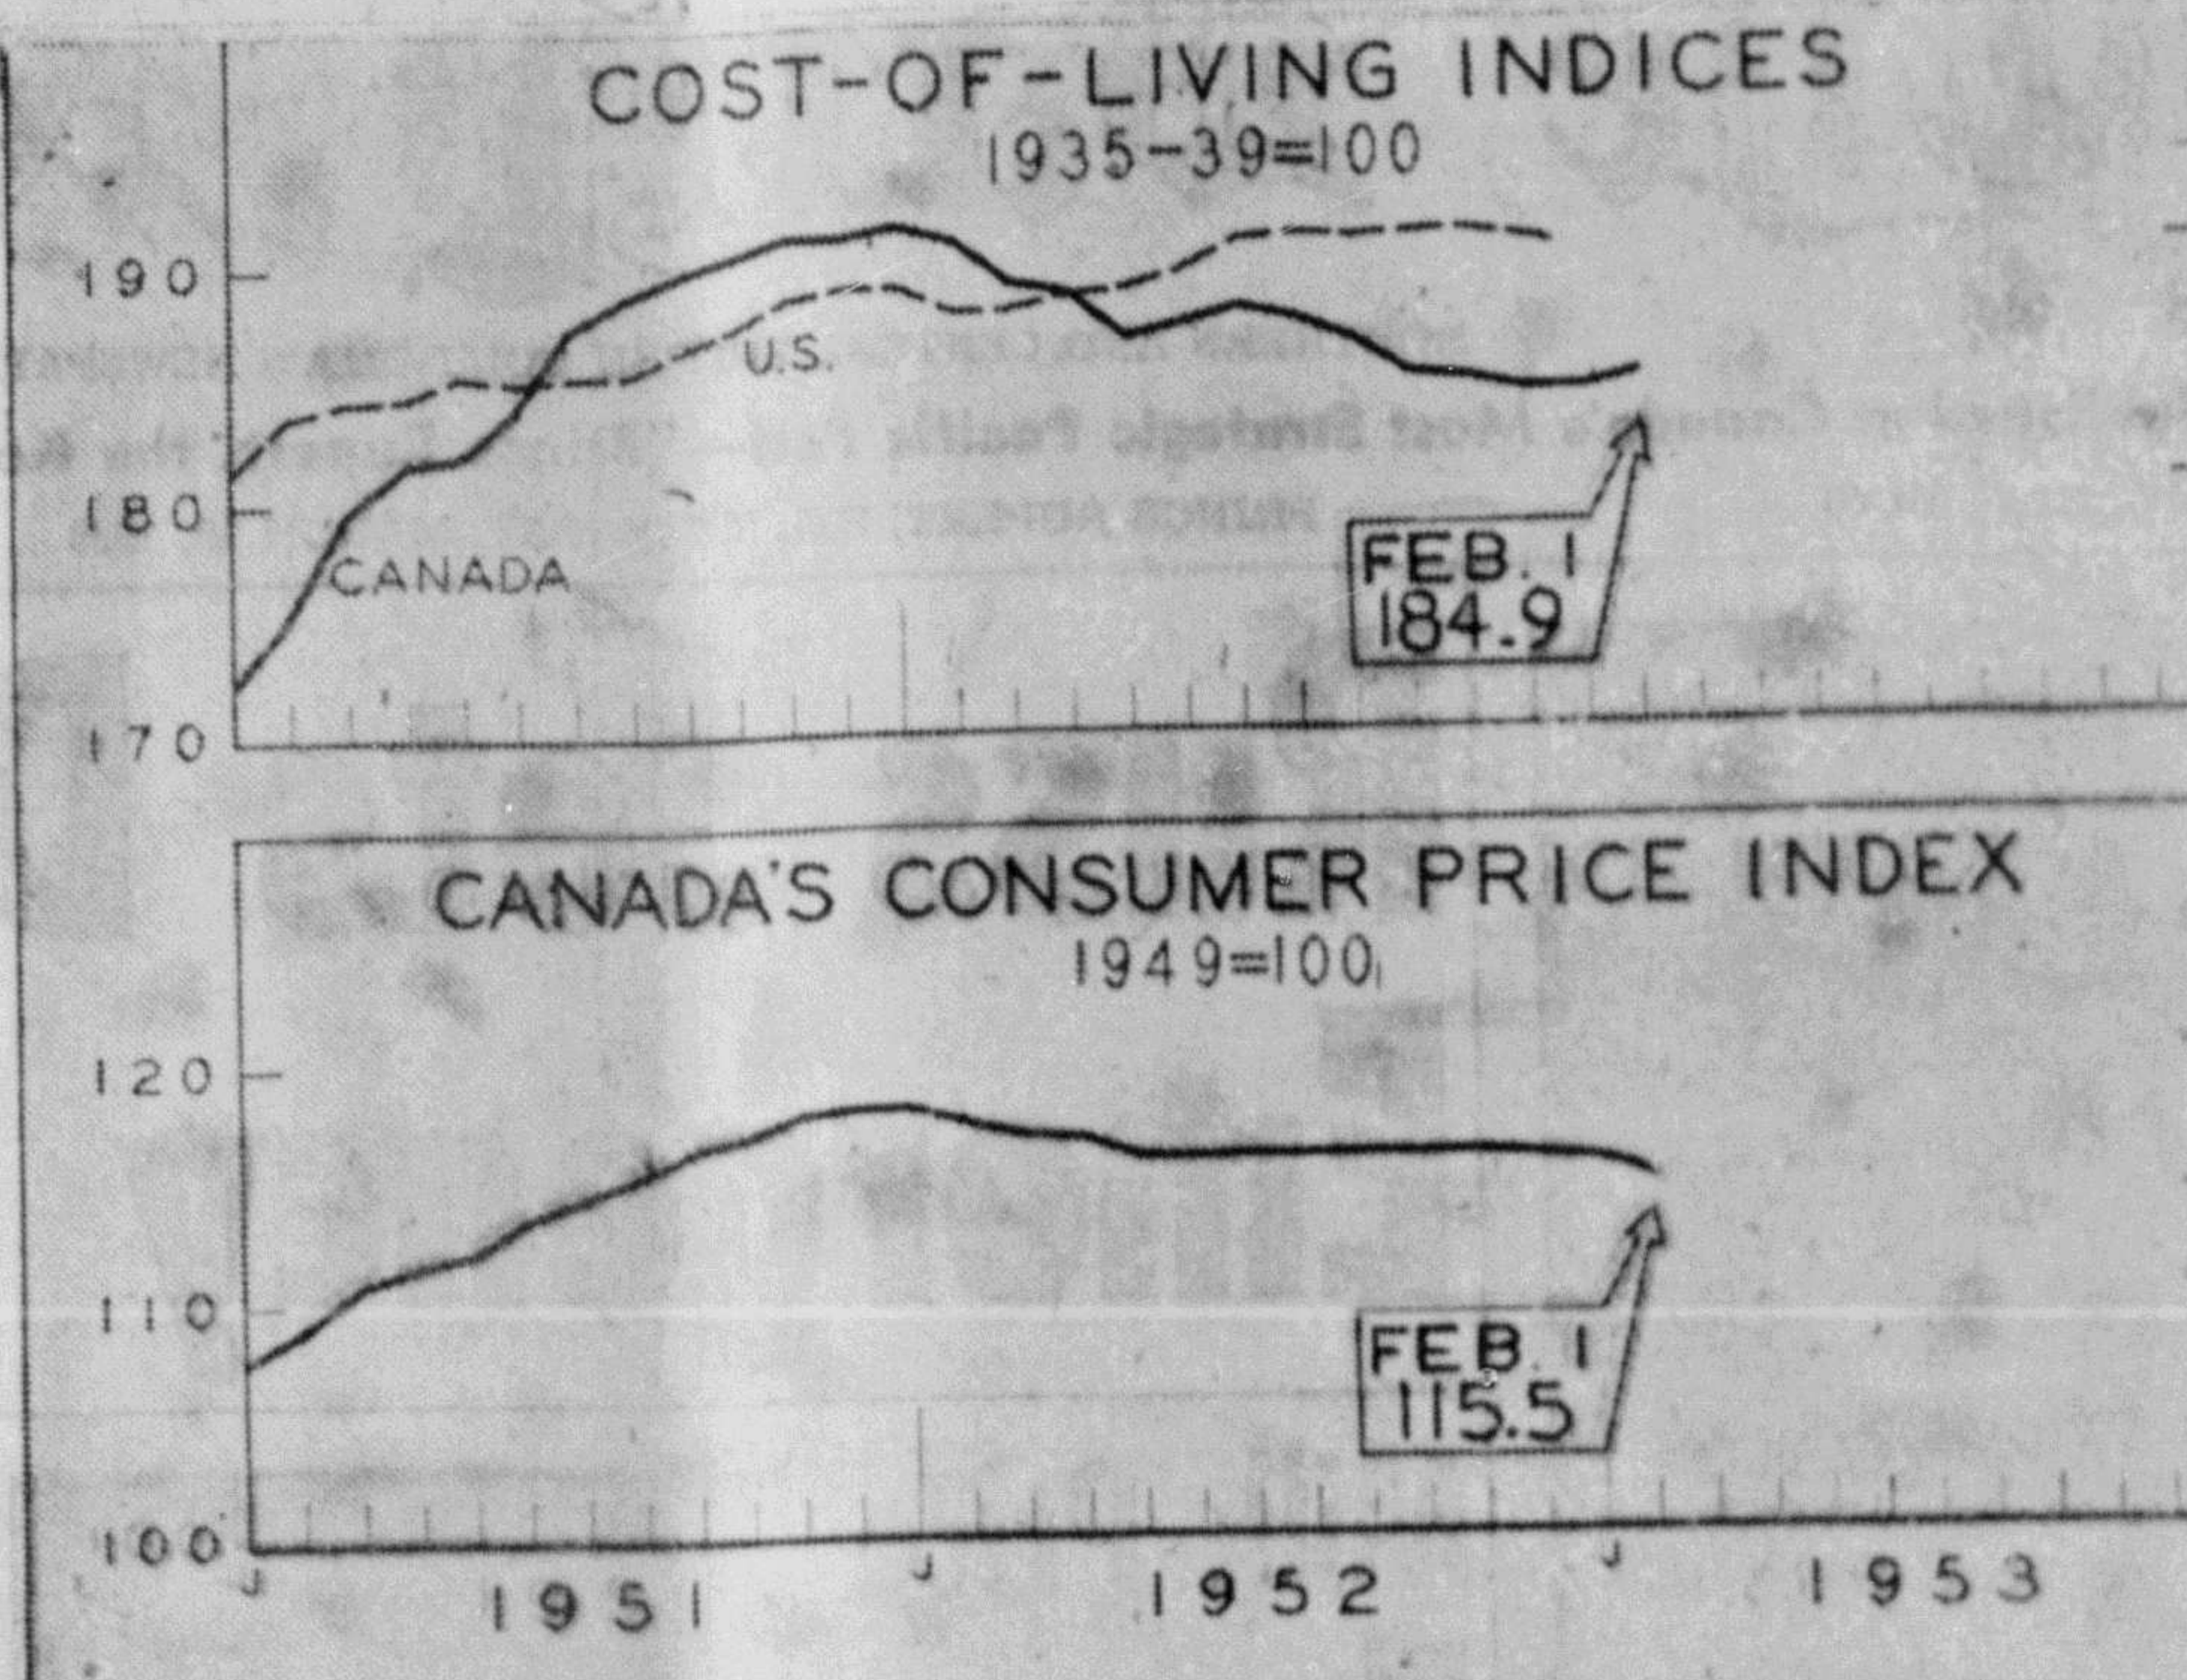

They report perfecting an embalming process which preserves the human body in every feature and detail for an indefinite period.

An ancient Egyptian process of embalming presupposes desiccation as a result of which organs shrink and skin shrivels. Mummies are dark brown, almost black corpses.

The body of Lenin, who died in 1924, was embalmed under the new process by Professors B. Zbarsky, biochemist, and V. Voroblov, an anatomist.

Zbarsky said a few years ago: "We are convinced that Lenin's body will remain in its present state for hundreds of years to come."

Stalin's body has been embalmed presumably by the same process.

LIVING COSTS IN CANADA as reflected by the new consumer price index dropped one-fifth of a point during January to 115.5 from 115.7. It was the third successive monthly decline. The peak of 118.2 was reached in December, 1951, based on 1949 prices equalling 100. However, the old cost-of-living index, based on 1935-39 prices equalling 100, increased by one-half of a point to 184.9 from 184.4. It was the second consecutive monthly increase in this index. The bureau said the divergence was because the new yardstick shows seasonal changes in food-buying habits while the old index does not. Its peak was 191.5 December, 1951. The dotted lines show the United States' consumer price index which stood at 190.7 at Dec. 15, 1952. These indices measure percentage changes in prices in each country but should not be used to compare actual levels of prices between the two countries.

### CBC CHANGES

MARCEL CARTER has been appointed director of personnel and administrative services for the Canadian Broadcasting Corporation. Born and educated in Ottawa, he was secretary-treasurer and office manager of Le Droit before joining the radio commission in 1944. He was with the CBC in Montreal and Ottawa before receiving his present appointment.

RENE P. LANDRY has been appointed director for Quebec province. He started his career in national broadcasting in 1933 when he was appointed secretary of the Canadian radio broadcasting commission. He was loaned to the government at the start of the Second World War and was chief radio censor for Canada.

MARCEL OULMET has been appointed assistant director of programs. He joined the CBC as a bilingual announcer in Montreal and in 1940 was appointed senior news editor. In 1943 he headed a team of French-speaking war correspondents for the CBC. In 1947 he was made director of the French-speaking network and, for a time attended National Defence College at Kingston, Ont.

### LETTERBOX

#### PATROL AT NIGHT

The Editor,  
 The Daily News.  
 Five women strongarmed in the same vicinity, in the last few weeks, and that is not counting cases not reported to the police, seem to be a rather terrifying total.

With all due respect to our police force, it seems about time that the very laudable activity of walking along Third Avenue with an inch ruler be changed to a bit more active patrolling at night.

I was glad to notice, in your last reported outrage, that the police were on the scene within minutes. That at least is a distinct improvement as in Miss King's case it took over half an hour.

However, the situation is becoming serious with unescorted women quite apparently not safe on our streets. I believe Prince Rupert people have a perfect right to demand that more intensive steps be taken to see to it that the contemptible coward at present on the rampage in our midst is given some of the treatment at present reserved for drunken natives.

Having strong objections to anonymous letters, I respectfully sign myself,  
 ERIC FAURE.

#### PATROLS ESSENTIAL

The Editor,  
 The Daily News.  
 In view of recent events in regard to criminal activities in the city of Prince Rupert, may I make a few comments.

First, it is essential that all areas of the city be patrolled by men either on foot or horseback. This measure should be taken to prevent crime, rather than to wait until it has been committed.

If it is not possible for the present police force to do this, I would suggest that city council authorize responsible citizens to cover the areas much in the same fashion as air raid wardens. In the event there are not enough men to volunteer their services, I strongly recommend that the women of this city be enlisted for the job.

Second, that coffee time for constables in uniform be kept to a minimum.

#### WHO'S AT FAULT?

The Editor,  
 The Daily News.  
 In your issue of March 4, Mr. T. B. Black, although not too clear, indicated that there is only 60 or 70 thousand horsepower of hydro economically available to this city. From Simpson playing for the champions were Styles, Stalker, Morrison, Lambie, Johnson, Cross and Keisey.

I exhort, therefore, that, first of all, supplications, prayers, intercessions and giving of thanks be made for all men; for kings, and for all that are in authority; that we may lead a quiet and peaceable life in all godliness and honesty. For this is good and acceptable in the sight of God our Saviour. (1 Tim. 2:1,2,3)

EDWARD W. GREEN.

#### 20 Years Ago Today

For the first time in years a Prince Rupert team won the northern B.C. basketball championship when the Canadian National team defeated Port Simpson playing for the champions were Styles, Stalker, Morrison, Lambie, Johnson, Cross and Keisey.

#### 10 Years Ago Today

The appointment was announced from Victoria today of M. M. Stephens as sheriff of the county of Prince Rupert, succeeding S. A. Nickerson who has retired.

#### Eden To Meet Premier Tito

LONDON (Reuters) — Foreign Secretary Eden will return here from his trip to Washington in time to welcome Marshal Tito, head of the Yugoslav state, who arrives March 16 on a private visit.

## Ray REFLECTS and REMINISCES

Nearly all members, from H. Worship down, had differences of opinion Monday evening. It reminded me, in some ways, of years and years ago. For then, remarks were to the point, and more emphatic than polite. The council chamber was more apt to be crowded than roomy. Many a one had his question to fire.

NEVER A DOUBT.  
 The first city council meeting ever held in Prince Rupert did not occur in what has long been the city hall. Mayor Stork and his official family gathered on the top floor of what we have long known as the museum, although on that distant day none of them dreamed that a couple of first rate totum poles would stand at the entrance. Local politics, once citizens began to be called aldermen, started warming up. Any city father who suspected he might be disliked never had the slightest doubt.

Prince Rupert's first Canadian Bank of Commerce stood at the junction of Centre Street and Rupert Road, way down handy to the waterfront, and it was here the council met until the permanent bank block went up on Second Avenue. It was during this time a plague of rats appeared. There must have been thousands.

CALLS CONSTABLE  
 When Seville Martineau Newton was mayor he never hesitated to do what he thought best in the event of what he believed might be an emergency. One evening, for some

# String Pianist Thrills Packed Auditorium

M. Sencan is not only an accomplished pianist and a technician of the keyboard but also a man with talent to faithfully play the music he plays. He has 500 music lovers and cheered lustily in a show of appreciation for the French Moroccan pianist who performed at the Alaska Music Trail.

Two hours Monsieur Sencan held his audience's attention and demonstrated some of his own techniques and which have won him the world's reputation.

Opening selections of Chopin's "Nocturne in E-flat major" and "Nocturne in G-flat major" by the pianist's hand (left) composed of his own entitled "Romantic," M. Sencan displayed his brilliance.

Especially favored by his audience were the selections by Chopin, the Nocturne in E-flat major and two waltzes in A-flat and E-flat major.

M. Sencan played as his first encore a selection in the upper register he called the "Music Box," composed by himself. It indeed interpreted the tinkling tunes of European-type music boxes in a true and artistic manner.

Other selections played were the Sonata in G major by Mozart in three movements; Schumann's "Carnaval, Op. 9," three preludes by Debussy, "La Fille aux Cheveux de Lin," General Lavine-Eccentric," and "Fex d'Artifice;" and the "Sixth Rhapsody" by Liszt.

John Magor, publisher of the

Daily News, addressed the audience briefly following intermission, speaking on the work of the Alaska Music Trail Auxiliary.

Mr. Magor praised the accomplishments of the Auxiliary in organizing the concerts and for interesting itself not only in European talent but in Canadians and local talent as well, citing eastern Canada's James Milligan and the local Shrine Band concerts here.

Mr. Magor announced that another local concert would be presented March 27, featuring the Prince Rupert Symphony Orchestra, and the final AMT concert date of April 8.

He said, too, that a group organized for "appreciation of good music" directed by Rusty Thain was proving popular "all of which shows that Prince Rupert is in-

terested in good music.

"The work of these people is tremendously worthwhile, to the community."

M. Sencan, who left on the steamer for Alaska following the concert, is scheduled to perform at 11 centres in the northland before he leaves on a 65-concert tour of South America.

In Rio de Janeiro, he will remain three months to teach a course in music interpretation.

M. Sencan came to Canada a month ago, but entered the United States for his first visit to America last year when he appeared at 25 concerts in the first exchange between the National Music League and Les Jeunesses Musicales de France and Les Jeunesses Musicales du Canada.

# IODE Chapter Holds Dinner On Anniversary

The 21st birthday of the Cambrian Chapter, IODE, was observed by a dinner at Club 27. Covers were laid for 23 persons.

A toast to the Queen was proposed by the Regent, Mrs. G. P. Lyons.

The meeting that followed was at the home of Mrs. J. Munthe.

Mrs. R. G. Moore was elected secretary for the coming year.

Conveners were chosen for the Reg Cross drive and members requested to attend the annual meeting of the Cancer Society.

Plans were made for a spring tea and fashion show late in April. Four new members were welcomed into the chapter.

Following the meeting, a social hour was enjoyed.

# Delores Green Honored at Pretty Shower

Mrs. Stella Basso and Mary Basso were joint hostesses at a surprise shower in their home for Delores Green, whose marriage to Jack MacIntosh takes place April 2.

Upon arrival, the bride-to-be was seated in a gaily-decorated chair and presented with a carnation corsage.

Bingo was played during the evening. Winners were Mary Basso, Paulette Telseth, Mrs. Chaprun, Delores Green, Mrs. George Scott and Mrs. MacIntosh.

A pretty decorated baby carriage laden with many useful gifts was placed before the guest of honor.

Delicious refreshments were served by the hostesses.

Present were Mrs. MacIntosh, Mrs. George Scott, Mrs. Chaprun, Mrs. Iona Campagnola,

Mrs. Stella Basso, Mrs. Evelyn Hill, Paulette Telseth, Mary Zebasso, and the Misses Delores Gas, Stella Chaprun, Marna Green, Marilyn Roos, Nancy Mark and Mary Basso.

# Browns Hope To Sign Bobo Hollman, Hero of Caribbean League Finals

By The Associated Press

Maybe the St. Louis Browns ought to tell short-stop Willie Miranda to spend a few more days in Cuba so he can bring another player with him.

Miranda wired the Browns he's leaving immediately for their San Bernardino, Calif., training camp after a season of winter baseball in his native Cuba.

## Curlers Busy Preparing For Bonspiel

One of the busiest spots these days is the Seal Cove curling rink where preparations are underway for the annual open bonspiel which begins March 21. Two additional fans have been installed to counter the problem of condensation in the rink and have proved successful. Houses are being repainted and the ice whitewashed.

First round of the pre-bonspiel competition has been completed with the following results: Wilson beat Shier, Holliston beat Johnson, Warren beat Berg, Rowbotham beat Eyoifson.

Here are the draws for Thursday (tonight): 7:15—High School vs Moore; Willson vs Bateman. 9:15—Rowbotham vs Warren; Stewart vs winner of Ford vs Matthew.

**R. A. (BOB) SNYDER**, 50, prominent as a player and coach with a number of United States' teams, has been signed as coach of the Calgary Stampers of the Western Inter-provincial Football Union. As a player he was quarterback with Cleveland Rams and Chicago Bears. Later he was a coach with Cleveland, Los Angeles, Notre Dame, Green Bay Packers and Toledo University.

## Seattle Cager Sets National Scoring Mark

SEATTLE (AP)—Seattle university's Johnny O'Brien added another national record to his collection Tuesday night as he paced the Chieftains to a 94-82 basketball victory over College of Puget Sound.

The 5-foot-8-inch shotmaker tallied 31 points, including 13 free throws. That raised his season's free throw total to 269, eight over the national record for a single season set by Dick Groat of Duke in 1951.

O'Brien's 31 points boosted his season total to 709 (an average of 28.4) and his career total of 3095.

## Rocky Ready To Sign Again With Walcott

CHICAGO (AP)—Heavyweight champion Rocky Marciano and Jersey Joe Walcott are ready to make official their April 10 title fight at Chicago stadium.

Marciano, the unbeaten Brockton, Mass., slugger, won the title by knocking out Walcott in the tenth round.

The stadium has been scaled 13th round in Philadelphia Sept. for a gross gate of \$858,000. The bout will be broadcast and telecast nationally, with the Chicago area blacked out.

## North Stars Lead Men's 5-Pin League

North Stars head the top six teams in the men's five-pin league to enter the championship roll-offs next Monday following the last scheduled league play this week.

Next five teams are Canadian General Electric, Sedgwicks, Moose, Short Circuits and Mansons.

Magnus Halverson of the Moose topped all scoring in the final league competition with a 352 single and a triple count of 838. Team high single score was tied at 1217 between Moose and North Stars, but the latter went on to capture high three score of 3407. Hidden score of 329 was won by A. Alker.

**Results:** Short Circuits 3, JCs 1; North Stars 4, CNRA 0; Industrials 2, Sedgwicks 2; Moose 3, CGE 1; 70 Taxi 3, Watson Islanders 1; Watts & Nickerson 1, Woodbutchers 3; Firemen 4, Cooks 0; Savoy Hotel 3, Family Mkt. 1; Mansons 1, Kalen Industrials 3; Electrolux 3, Nelson Bros. 1.

**Final Standings:** North Stars 63, CGE 60, Sedgwicks 56, Moose 54, Short Circuits 51, Mansons 50, 70 Taxi 49, Watson Islanders 44, CNRA 43, Kalen Industrials 42, Electrolux 42, Watts & Nickerson 41, Savoy Hotel 40, JCs 36, Cooks Jewellers 31, Woodbutchers 31, Firemen 31, Family Mkt. 30, Nelson Bros. 23, Industrials 20.

In the mixed ten-pin league, men's high single of 212 was rolled by Don Hartwig of Art Murrays and high three was captured by Art Olson of Spares, adding games of 211, 184 and 182 for a total of 577.

For the ladies, L. Erickson of Chumps was high with a single game of 176 while team-mate Ethel Geogerson added games of 170, 168 and 173 for a high total of 511. Team honors went to Chumps with scores of 771 and 2226.

**Results:** Chumps 4, Delnor 0; Spares 4, MCs 0; Northern Dist. 3, Art Murrays 1.

**Standings:** Chumps 30, Spares 29, Art Murrays, 22, Delnor 21, N. Dist. 18, MCs 12.

Holloman climaxed a season of winter ball Tuesday night by hurling Puerto Rico to the Caribbean championship, working with only two days rest at Havana. He gave up six hits and knocked in a pair of runs in whipping Venezuela, 9-2. Saturday night he beat Cuba, 7-4.

The 26-year-old Georgian is working his way back to the big leagues after an unsuccessful trial with the Chicago Cubs in 1950.

## EIGHT YANKS UNSIGNED

Money talked this week, particularly in the training camps of the New York Yankees and Philadelphia Athletics. Yankees came to terms with pitcher Alie Reynolds, outfielders Hank Bauer and Mickey Mantle, and first baseman Joe Collins. It was believed Reynolds got \$38,000, Bauer \$21,000, Mantle \$18,000, and Collins \$15,000. Eight members of the world champions, including pitchers Vic Raschi and Ed Lopat, are still unsigned.

The A's signed first baseman Robinson to a two-year contract from an estimated \$30,000 per year. This makes the ex-Chicago White Sox player the highest-paid man on the squad and the figure is the fourth highest ever paid to a member of the Athletics. The A's also have eight men demanding more dough.

## U.S. Reported Amplifying Atomic Report

WASHINGTON (AP)—A special atomic report compiled recently at White House direction probably is being amplified to reassess Russia's nuclear weapons program under the new Kremlin regime.

The report, carrying a high-secrecy label, was understood to have been prepared for President Eisenhower following his White House talk with the Atomic Energy Commission a few weeks ago.

Along with details of U.S. progress and plans in the atomic field, it presumably contains the latest available information from both scientific and agent sources on Soviet efforts. But since then a new regime has come to power in Moscow.

Under that regime, the already considerable state and political power of Lavrenti P. Beria, a ruthless and coldly calculating official, appears to have become greater.

## HOCKEY SCORES

WHL: Edmonton 4, New Westminster 7.  
WHL: Trail 2, Kimberley 8. (Best-of-five semi-final tied 1-1.)

## Gift For Queen

VANCOUVER (CP)—A painting of the construction of the historic road from New Westminster to Vancouver has been completed by V. R. Timms here as a gift for the Queen. It is expected Lieutenant-Governor Clarence Wallace will take the painting when he goes to London for the Coronation.

THERE WAS A HALF CENTURY difference in the ages of these two curlers who entered the Canadian curling championships at Sudbury, Ont. Hal Worth, 21, who plays second on the Delsie, Sask. rink, exchanges greetings with Peter Gilbert, 73, skip of the Chatham curling club, representing southern Ontario.

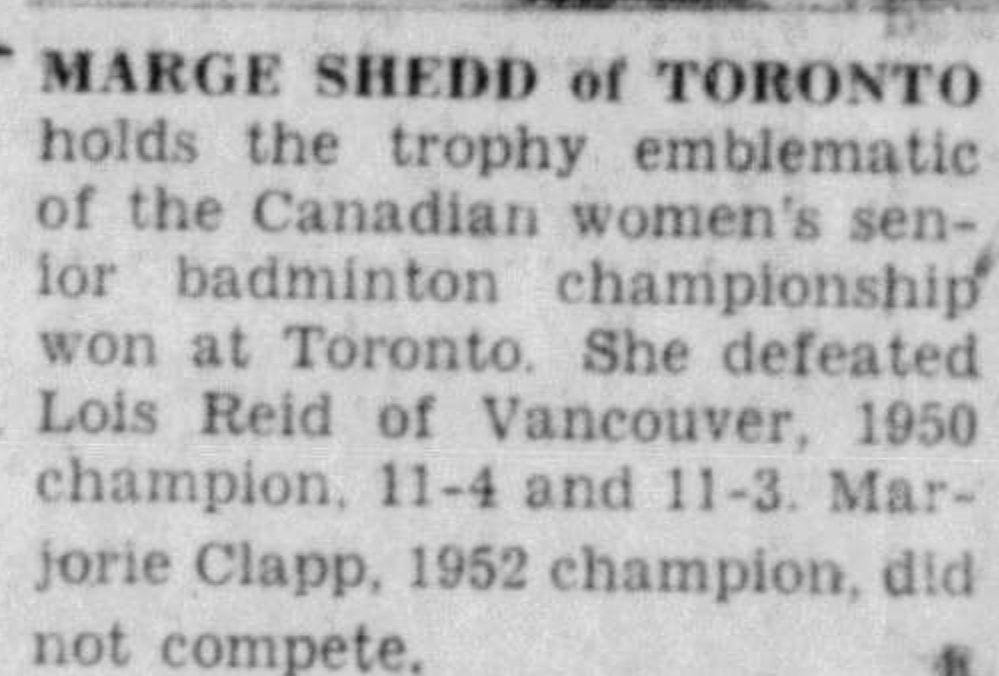

## Yanks Ask Chiang To Order Surrender of Guerrillas

RANGOON, Burma (AP)—The United States is putting strong pressure on Chiang Kai-Shek to order the surrender of an estimated 12,000 Chinese Nationalist guerrillas reported fighting the Burmese army.

Guerrilla bands have been trained and armed since 1950 in the Burmese mountains and jungles near Red China's remote Yunnan province border.

But instead of striking across the border at Chinese Communists, the Nationalist forces have turned their guns on the Burmese. The unexplained switch has alarmed neutral Burma and the U.S., particularly because open fighting may be used as an excuse by Red China to send troops over the border to "help" in the disturbance.

Burma is reported being asked to allow Nationalists who wish to do so to go to Formosa on condition they surrender their arms to the Burmese army, which opened an offensive last week.

MARGE SHEDD of TORONTO holds the trophy emblematic of the Canadian women's senior badminton championship won at Toronto. She defeated Lois Reid of Vancouver, 1950 champion, 11-4 and 11-3. Marjorie Clapp, 1952 champion, did not compete.

DON SMYTHE of TORONTO last week won his third consecutive Canadian men's singles badminton championship at Toronto. He defeated Gord Simpson of Montreal, Quebec champion, 10-15, 15-4, 15-7 in the men's finals. Smythe also teamed with Budd Porter of Toronto to win the men's doubles title.

## Howe Scores 47th Goal as Wings Win

NEW YORK (CP)—Gordie Howe scored his 47th goal of the season as Detroit Red Wings blanked the last-place New York Rangers 2-0 in Madison Square Garden Wednesday night.

Howe now is only three tallies behind the all-time NHL record set by Montreal's Maurice Richard and he still has six games left to play in which to eclipse Richard's mark.

## BABY'S COLDS

Help Nature To Fight Them Off  
Medical Science denies there is any such thing as a cure for colds—only Nature herself can do it. So what? Baby's colds, or stuffy breathing warn you of a cold's presence—cooperate at once with Nature. See that baby is kept warm, gets plenty of sleep and take extra care that the bowels are thoroughly cleared of harmful wastes. To do this without upsetting baby's whole system and further weakening it, try Baby's Own Tablets. Mild, yet act promptly in getting rid of irritating materials that make baby restless and feverish. One Nova Scotia Mother says: "My baby of 26 months caught a nasty cold so I tried Baby's Own Tablets and she threw this cold off quicker than ever before. I certainly am for Baby's Own Tablets from now on." Equally good for restlessness and peevishness resulting from irregularity at feeding time, for constipation, digestive upsets and other minor infant troubles. Get a package today at drugstores.

## Backs Japanese Timber Deals

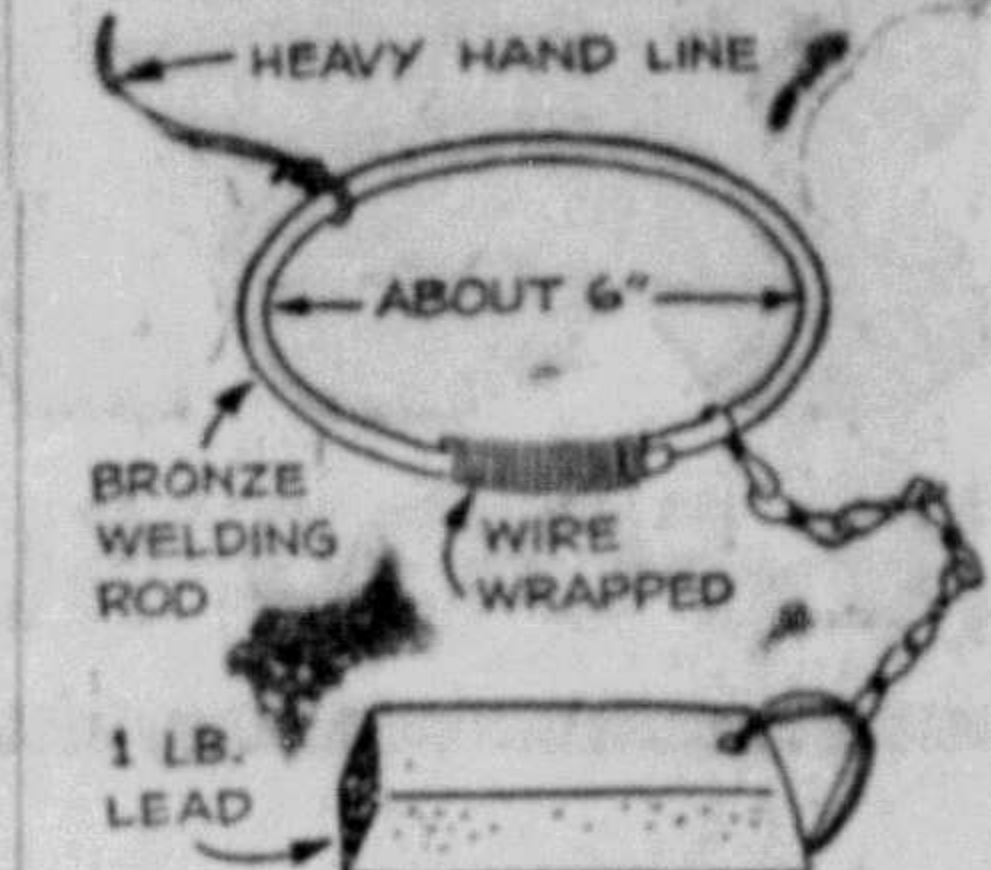

JUNEAU (AP)—Alaska's senate went on record Wednesday in favor of the proposed cutting of timber in the Territory's national forests for Japan, providing it is done through an American company.

Senate approval came in a memorial to congress which passed without a dissenting vote.

The house passed four bills during the afternoon session. One of the house passed measures was an education committee bill to raise the compulsory education age to 18 unless the school district is without a high school.

## SPORTSMAN'S DIGEST

**F.L.T. ROBERT DEAN CAREW**, 28, of Quebec City is the 16th RCAF officer to go to Korea for a tour of operations with the United States Air Force. A veteran of the Second World War, he was a jet instructor at Chatham, N.B., before his new appointment. He will make 50 missions or stay six months, whichever is shorter.

## SKUNK IN PUMP PROBLEM SOLVED BY SECTION MAN

**FERGUS, Ont.**—The pump that supplies the water tower at the Canadian National Railways station here went on the blink. An electrician went to the pump-house to investigate and found a skunk inside.

The electrician paid a retreat and wired the equipment superintendent in Toronto. The equipment superintendent wired the division superintendent at Stratford, who wired the station agent at Fergus. The station agent, who already had received inquiries from engineers wondering how to run their engines without water, sent for a section man.

The section man solved the problem with a brick.

## 1,100 Troops Heading For Korea Front

**SEATTLE (CP)**—A new major rotation turnover is underway for Canada's forces in Korea.

More than 1,100 soldiers are crossing the Pacific today, the biggest movement from this port for some months. They will relieve men who have had a year's service in Japan and Korea.

They sailed recently, military secrecy shrouding the actual departure day and the name of the United States Army troopship carrying them to the Far East.

The men will relieve units of the 25th Infantry Brigade in Korea.

## Fire Destroys Machine Shop

**HALIFAX (CP)**—Fire destroyed the Halifax Shipyards machine shop Wednesday causing one million dollars' damage. The privately-owned shipyards, one of the city's largest industries, employed 200 workers in the machine shop.

There is no indication of how the blaze started in the big one-storey building.

The president of the Republic of Korea is elected directly by the people for a seven-year term.

## LOWERING OF FLAG BRINGS EXPULSION FROM SCHOOL

**LANGLEY, B.C.**—Three Langley high school boys lowered the school flag to half mast to mark the death of Premier Stellan.

The unidentified grade 12 students were expelled by Principal Roy Mountain immediately following their noon-hour prank.

## Eight Missing In Oil Tanker Fire, Blast

**HALIFAX (CP)**—At least eight persons, including a woman, are missing in the stormy Atlantic after a fire and explosion aboard the oil tanker Angy south of Newfoundland.

Search-and-rescue crews here said today the merchant ship Clairborne took aboard 28 other crew members, but said the captain, his wife, all mates, radio operator and three seamen are still missing.

The tanker caught fire and exploded 350 miles south of Newfoundland three days ago.

The fore part of the tanker broke away and it is possible the missing men might have been aboard that section.

TWO MEMBERS OF AN RCAF bush-survival course on the McLeod river near Edmonton supplement their rations with a rabbit they caught in a snare. LAC. Ken Harding (left) of Taber, Alta., and FO. Murray Couch of Lucky Lake, Sask., are among a group of airmen on the winter phase of the course intended to teach them to live comfortably in the bush and to acquaint them with the far-northern country over which they may have to fly.

### Britain Again Rejects Plan For Tunnel

LONDON (Reuters) — Britain has decided to remain a tight little island, turning thumbs down on a plan for a tunnel under the English channel.

North Atlantic Treaty headquarters has given its support to Napoleon's 150-year-old dream of a tunnel but can do nothing without the full backing of Britain and France.

One of Britain's main objections to the plan is that the tunnel would provide an attacker with a ready-made invasion highway into the British Isles, never occupied by a modern enemy.

Transport Minister Alan Lennox-Boyd told the House of Commons that even if there were money available to build a tunnel it would be better spent on roads in the British Isles.

Allied headquarters early this month approved a plan by French architect Andre Basdevant, backed by a French parliamentary committee, for a \$300,000,000 tunnel under 26 miles of water connecting Folkestone, on the coast of Kent, with Bazin-ghen, near Boulogne. Basdevant says his tunnel would take two to three years to build.

THE EARL OF BESSBOROUGH contributed to the cultural life of Canada during his term of office as governor-general 1931-1935 by founding Canada's National Dramatic Festival. This year the Dominion Drama Festival celebrates its 20th anniversary with the presentation of eight full-length plays at Victoria, B.C., May 4-9. Vere Brabazon Pons-ony, 9th Earl of Bessborough, was born Oct. 27, 1880.

### Passenger Travel to Alaska Up 11 Per Cent During 1952

Passenger movements between the United States and Alaska continued to increase during 1952, a rise of 11.1 per cent being recorded over the previous year.

Total passenger traffic totalled 237,017 persons, compared with 213,265 during 1951. Arriving in Alaska during 1952 were 117,200 passengers, those departing totalled 119,817. Respective figures for the previous year were 111,570 and 101,695.

The 1952 monthly average was 9,766 passengers inbound and 9,976 outbound. Comparative figures for 1951 were 9,297 and 8,474.

Airlines carried 58.1 per cent of the total traffic, steamships 14.7 per cent, Alaska Highway 25.2 per cent, and Haines Highway 1.9 per cent.

During the peak tourist travel months—June through August—the total inbound traffic amounted to 51,371, compared with 50,070 during the previous year, an increase of 1.2 per cent.

From the data available it was not possible to determine how many of the 51,371 were tourists, but it can be assumed the bulk of the steamship traffic during those months consisted of vacationists.

More than twice as many persons travelled to and from Alaska via scheduled airlines in 1952 than by any other means of transportation. The airlines carried 72,091 passengers north, an average of 6,007 per month.

Peak travel month was June, the northward travel movement totalling 13,178 persons. During June, July and August, 28,589 passengers arrived in Alaska compared with 22,144 in 1951, an increase of 29.3 per cent.

Four steamship companies were engaged in the Alaska passenger trade during 1952. Three of the companies were Canadian.

Only the Alaska Steamship Company offered service to both Southeastern and Westward Alaska. This line's service was interrupted twice during the year by maritime strikes, the most crippling tie-up occurring during the early part of the tourist season.

The four lines carried 17,514 passengers to Alaska, a decrease of 12.1 per cent from the 19,945 travelling in 1951.

### Papers Praise U.K. Move Doubts Action Will Harm China

LONDON (Reuters)—Britain's decision to tighten restrictions on shipments of strategic materials to Communist China was a smart diplomatic move because it consolidated Anglo-American partnership, influential British newspapers agree. But they doubt whether the move will harm China much.

The Liberal Manchester Guardian says editorially that the decision, announced during the current Anglo-American conference in Washington, will likely "have a greater effect on American public opinion than on China's supplies."

The Conservative Daily Telegraph says that though Britain has loyally observed an embargo on strategic shipments, "her hesitated and harmless trade with China is an irritant to American opinion; and these fresh restrictions affecting not only British registered vessels but also bunkering of foreign ones will be a valuable gesture."

The Times of London says Stalin's death prompted British and American leaders to review the Russian situation and this may be the most significant factor of the whole conference.

"The test of the Washington talks will be found in what follows after," it says. "This will show whether the meeting of minds during this visit has shown a sufficient community of practical insight and wisdom to make a foundation for policies in aid of prosperity and peace."

## East German Farmers Want To Come to Canada

BERLIN (Reuters) — Canadian officials say East German farmers fleeing to West Berlin are queuing up at a rate of 100 a day outside the Canadian labor office here to get details about emigration possibilities.

After hearing all the conditions, between 40 and 50 a day actually apply to emigrate.

Fit farmers aged between 19 and 45 get labor contracts for one year or more if selected. They have to prove that they have not belonged to any political party in East Germany, though membership in farmers' unions, which are also Communist-dominated, is not held against a man.

The Canadian immigration mission, which has its headquarters in Karlsruhe in West Germany, regularly sends officials to Berlin to select farmer-emigrants.

During their last visit to West Berlin, mission officials granted 273 visas out of a total of 700 applications filed.

### PERMANENT OFFICE

Officials of the Canadian labor office, a permanent advisory office here, which also collects applications, said that when the Karlsruhe representatives next come here they will have to handle over 2,000 applications.

The West German chancellor, Dr. Konrad Adenauer, proposed

when he visited Berlin in February, that German farmers should be allowed to go to Canada for periods of up to four years while retaining their German nationality. After that time, they should return "to recolonize" East Germany, once German unity was restored.

Under the present Canadian plan, farmers, while having to sign contracts for at least one year, must promise to pay back by instalments the fare to Canada. The cost of the fare is advanced by the Canadian government.

Farmers have to pay between \$160 and \$180 in fares to reach Canada, and another \$75 to \$100 for railway fares to destinations inside Canada.

In Canada, they begin working for about \$40 a week which can be raised to \$80.

Married farmers go alone, though their wives can follow them when family living quarters have been found.

Refugee farmers who have already emigrated have written to relatives here saying: "Pay is high and living is cheap. But one has to work hard. Canada is no paradise."

## Royalty 'Robb' Royal Navy An Outstanding Officer

was reported stung, British papers brushed this criticism aside as "sniping by busy-bodies."

The tall, athletic ex-Prince of the Hellenes, with his blond good looks and ability to wear crisply-cut uniforms, is definitely a man's man—with an eye for an attractive woman. An Australian woman, having passed along the receiving line at a royal reception, decided to go around again. When she came up the second time, Philip said with a smile: "Haven't we met some place before?"

Like all Mountbattens, Philip has salt water in his veins. At 21 he was second-in-command of the destroyer Wallace, which landed troops in Sicily for the 1943 invasion. Royalty, it seems, robbed the Royal Navy of an outstanding officer.

### SOLICITOUS HUSBAND

In civilian matters, too, the Duke shows a quick brain. He assimilates scientific matters readily and often impresses guides on industrial tours with his ability to reel off long technical terms. At school, classics and history were his worst subjects.

Toward the Queen, Philip displays a tender protectiveness. It is said that when the couple returned from Kenya a year ago after George VI's death, Elizabeth broke down just as their plane landed at London airport. The Duke spoke quietly to the pilot. The plane taxied slowly to the waiting party of officials by the longest route, giving the Queen time to recover her composure.

This then is Prince Philip, Duke of Edinburgh — sailor, sportsman, student of science and technology, uninhibited, an easy mixer with a basic seriousness.

FLAMES ENGLUF the small tanker Mollie G. at her home pier at East Saint John, N.B. Six men were injured when oil and gasoline explosions ripped the coastal vessel. It was destroyed.

## Delicate Creations Fashioned from Shells

OSHAWA, Ont. (CP)—Shellcraft, the fashioning of delicate floral patterns or a replica of a bride in a flowing gown and train from the myriad shells of sea life, has fascinated Mrs. F. R. MacDonald for the last eight years.

Her craftsmanship in her delicate and painstaking hobby was recognized recently when she was awarded first prize for her exhibit at the Canadian International Hobby Fair in Toronto.

Like all keen hobbyists, Mrs. MacDonald surrounds herself with her craft. In her home she has a collection of floral ar-

rangements, gophers, birds, and uncanny creatures of her own imagination made from whelk and cockle shells.

A pair of conch shells is one of her principal treasures. In each of them she has installed a light bulb to reveal the delicate translucent quality of the shell which glows with the warm orange-pink of a sunset.

In her prize-winning exhibit, Mrs. MacDonald showed a bride with a flowing gown and train held by two flower girls, and five bridesmaids in crinolines and poke bonnets carrying nosegays. She also displayed a white dresser set ornamented with fish scales and centred with gold leaves encircled by green leaves.

Perhaps her most delicate creation is a little bowl of lilac. The bowl is a sea-urchin; the stalks are fish bones and each floret is made of minute shells, painted in real-life colors.

A flair for using the right shell for a chosen project has enabled Mrs. MacDonald to produce a fragile wild-rose to adorn a blue plastic box, and to devise a realistic water lily with green sand-dollar pads for a centerpiece.

But she has one complaint. There is a distinct shortage of shells in hobbycraft stores. The dealers say shells formerly were gathered by natives and beachcombers and cost dealers little. Now, they say, the shell-gatherers demand an hourly wage and, at the same time, more people are interested in shellcraft.

## Shooting Of U.S. Jet Alarms Europe

WIESBADEN, Germany (CP)—A grave new incident in the cold war—shooting down of an American jet fighter by Communist MiG-15s over the United States zone of Germany—alarmed western Europe today.

It was the first time Red aircraft had shot down a U.S. plane over American-held territory.

Swooping out of Red-ruled Czechoslovakia, the Soviet-built trespassers destroyed a U.S. Air Force F84 Thunder jet in one blazing pass Tuesday. It crashed and burned 15 miles inside American-occupied Bavaria.

The pilot parachuted to safety and escaped with scratches and bruises.

U.S. Ambassador George Wadsworth at Prague was ordered by Washington to draft and deliver the "strongest possible protest" to the Czech Communist regime.

American high commissioner James Bryant Conant in Germany denounced the "wanton shooting" and warned that U.S. forces here will know how to deal with future incursions of this type.

Lieut. Warren G. Brown, pilot of the Thunder jet, said the attack came without warning but he did not fire back. Asked why he did not shoot in self-defence, he replied he'd rather not answer that question.

A second Thunder jet turned and streaked back to base near Munich.

WASHINGTON (CP)—The U.S. Air Force aims to shoot down any more flying Communist bushwhackers who come gunning into U.S.-controlled territory in Western Germany, it was indicated today.

A Defence Department official said American pilots are expected:

1. To return fire, if possible, when attacked.
2. Upon finding Red plane has invaded U.S.-controlled territory, to order Red pilot to land at nearest U.S. airfield.
3. If order is disobeyed, to compel obedience by gunfire.

## Girl Teaches Chinese Boys, Girls English

TORONTO (CP)—Janice Lum looked at her class of Chinese boys and girls learning English. "They soak it up like blot- ters," she said.

"Young Phillip Lee has been here only a few days. He can name anything in the room. One of our other students arrived from China only two months ago but his English has already earned him a job."

Miss Lum, a Chinese-Canadian, is a volunteer teacher in a class started by the Chinese-Canadian Association in Toronto. Before the Second World War there was almost no language problem for Toronto's long established Chinese residents. But since 1946 the Chinese community has doubled.

Under relaxed immigration laws, Chinese-Canadians now may arrange for young relatives to join them in Canada.

Last May, English classes for Chinese immigrants from eight to 18 years old were started at the Chinese community centre. All the dozen teachers, like Miss Lum, are volunteers from among Chinese-Canadians.

Now 80 students attend classes. "Quite a few have never seen a book," Miss Lum says. "We have to start from scratch, not only with English but with reading, and writing generally." Pronunciation is one of the big difficulties for the children. Chinese has no sound corresponding to the English "th" or "r". "Fank you" instead of "thank you" and "leading" instead of "reading" are common errors.

"But the younger they are, the quicker they learn. Some of the children who joined our first classes have real Canadian accents now."

MAJ. JAMES JOSEPH VALLEY, 47-year-old Roman Catholic chaplain, is returning to Korea where he went first in 1950 with the first group of Canadian troops. Appointed senior RC chaplain of the First Commonwealth Division, Maj. Valley is a native of Ireland, a former missionary to China and speaks Korean dialects.

## Woman Opens CA Office In Toronto

TORONTO (CP)—Gwendolyn C. Conmee is the first woman chartered accountant in Ontario to have her own business and thinks she may also be the first in Canada.

But Miss Conmee, a brisk, decisive blonde, says she will have to work hard to get recognition in a field traditionally dominated by men.

"I am just starting from scratch and expect to have to work very hard. Women are still comparatively new in chartered accountancy—there are 50 or 60 among 5,000 in Canada—and still have to establish their efficiency and competence on a level with men."

Miss Conmee became interested in accountancy in 1945 while working in a bank. She took a certificate course in business at the University of Toronto and her professors suggested a chartered accountant's course.

"To do that I had to article to a firm for five years and carry a course at the same time. That was in 1945 and firms weren't very willing to take in women."

However, she took the Institute of Chartered Accountants course through Queen's University and was graduated in 1950 at the head of a class of 400.

After graduation she remained with the firm to which she had been article until February when she struck out on her own.

## Aircraft Firm Buys 119 Acres

VANCOUVER (CP)—The de Havilland Aircraft Company of Canada has purchased 119 acres on Sea Island near Vancouver's International Airport but has no immediate plans for a plant here.

Some weeks ago it was reported de Havilland planned a \$70,000,000 plant on Sea Island, but G. J. Mickelborough of Toronto, a director, said:

"The land was purchased merely as an investment in the future. We do not contemplate any immediate development of the Sea Island property."

## Mine Union Against Layoffs

CALGARY (CP)—A policy of dividing available work among all employees in the mining and smelting industries rather than the acceptance of "layoffs" was approved here at the 5th Canadian annual convention of the International mine, mill and smelter workers' union.

The decision was taken in accordance with the recommendation contained in the union's annual report, which stated that security of employment was one of the most urgent problems facing the union, and that "it is the responsibility of the government to insure jobs for all who are willing and able to work."

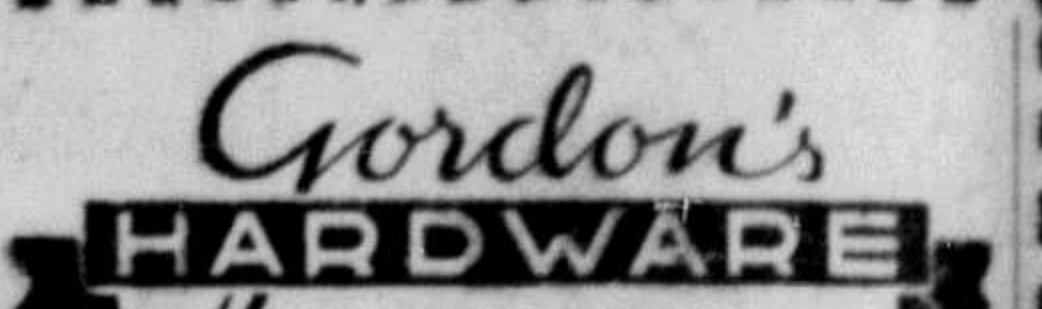

Harvey Murphy, international board member from Trail, declared that in all bargaining it should be made a hard and fast rule that layoffs be opposed.

"A layoff to a worker in a one-industry town means that he must pack up and leave," he said. "It is surely better that he has some work rather than none."

El Salvador is the only Central American republic without a coastline on the Caribbean.

# There is no "overnight cure" for irregularity

But there is a simple, natural answer to the common problem of irregularity due to lack of bulk

There are men and women (perhaps you're one of them) who won't let "nature take its course". THEY TRY TO SUBSTITUTE UNNATURAL "FORCING ACTION" FOR THE NATURAL REGULARITY WHICH SENSIBLE DAILY HABITS AND SUFFICIENT BULK IN THE DIET COULD PROBABLY MAINTAIN.

Many fall into the habit of using laxatives in a way laxative makers never intended. They take "big doses" willy-nilly without even reading the directions on the label.

Naturally, such overdoing—with products intended only for overnight relief of a temporary stoppage—exerts upon the delicate digestive system an unusual strain.

There's nothing wrong, of course, with taking laxatives occasionally. If you feel you have to take a laxative, just be sure you take it wisely—in an accurate, recommended dose.

**BUT THERE IS A WAY TO AVOID TAKING DRUG-TYPE LAXATIVES AND TO PLACE YOUR DEPENDENCE ON NATURE, IF LACK OF BULK IN THE DIET IS YOUR TROUBLE.**

In many natural foods—such as certain vegetables, fruits, and grains—nature grows abundant natural bulk which normally and naturally aids the rhythmic process of elimination.

In no other natural food is natural bulk so ideally found as in the outer layers of the whole wheat kernel, known generally as bran.

Bran is nature's "laxative food instead of a medicine". When properly processed and shredded, whole wheat bran yields smooth natural bulk that the digestive system can handle in a natural way.

The Kellogg Company has whole wheat bran in its breakfast cereal—Kellogg's Bran.

**CELLOGG'S ALL-BRAN FORMS NATURALLY DRUG-TYPE LAXATIVES CHEMICALLY. IT IS CLEAR THE INTESTINES WASTE IN A NATURAL WAY. IT PROVIDES SOFT BULK FOR EASY ACTION.**

There is no stomach churning, no after-effects, no feeling of soreness, no meat that comes with normal elimination.

To obtain lasting relief, Kellogg's All-Bran must be taken regularly. You can have breakfast every morning with the knowledge that it is forming.

More than one million Kellogg's All-Bran users each day. This popularity is proof that the natural cereal lives up to what it is about it.

But even better proof are thousands of satisfied users. They write of their will to tell us what success they receive from eating Kellogg's All-Bran daily and drinking water.

EAT KELLOGG'S ALL-BRAN EVERY MORNING. BREAKFAST FOR THEM, IF YOU'RE NOT COMPLETELY SATISFIED, THE EMPTY CARTON TELLS YOU. GET DOUBLE YOUR BUCK.

Remember—Kellogg's All-Bran has helped millions. Write

# Reds Tighten Defences in Truce Area

By ROBERT B. TUCKMAN  
Canadian Press Staff Writer

### PANMUNJOM, Korea

—The Communists have tightened a menacing ring of trenches, bunkers, barbed wire and guns around almost all the Panmunjom neutral truce area.

From this frozen patch of attack-free ground between the opposing armies you can see an intricate system of deep Communist trenches, at some places less than 30 yards from the neutral border line. There remains only a corridor on the Allied side, through which United Nations personnel may pass.

Truce talks broke down here last October 8 after months of bitter wrangling. Now the UN command the Reds maintain only small security and service detachments within the 1,000-yard-radius circle.

The Allied command, replying to a Red protest, admitted an accidental shelling of the armistice site, but protested in turn that the Communists invited such incidents by "setting up machine-guns and other weapons immediately adjacent" to the circle and "the United Nations is compelled, in self-defence, to direct artillery fire against these positions."

I received a cold, menacing welcome from the Reds inside the circle, and noted many changes in the surrounding area.

What once was farm land or small hills covered with scrub growth now teems with Chinese soldiers in green quilted winter uniforms.

Outside the neutral border a Chinese held a burp gun pointed toward the circle.

### NO RESTRICTIONS

There are no restrictions forbidding the Reds to take positions around the circle, but they must remain outside.

Apart from mail exchange, Panmunjom's only other use these days is a place for meetings of liaison officers. There have been 52 such meetings since the suspension of truce talks, 37 of them called by the Reds to lodge protests.

The UN command keeps 41 men in the neutral circle, including security guards, balloon and searchlight crews, cooks and service personnel. The Communists have about the same number.

Four balloons hover over the area to warn away planes. The neutral circle is marked with bright red cloth panels.

### 17-Year-Old Boy Receives Pilot's Licence

MACDONALD, Man. (P)—A 17-year-old high school student in this town, 20 miles northwest of Portage la Prairie, is probably one of Canada's youngest licensed pilots.

Douglas Fulton, who lives at Oakland, nine miles from here, recently received his licence at the Portage Flying Club and has logged more than 40 hours flying time. Doug was 17 in November.

The boy's father, Russell Fulton, an Oakland farmer, thinks Doug will make a career of flying. He drives nine miles to school each morning and has included algebra and diesel engineering in his course of study. He is an active athlete with a fine reputation as a baseball player. His winter activities consist of hockey and curling.

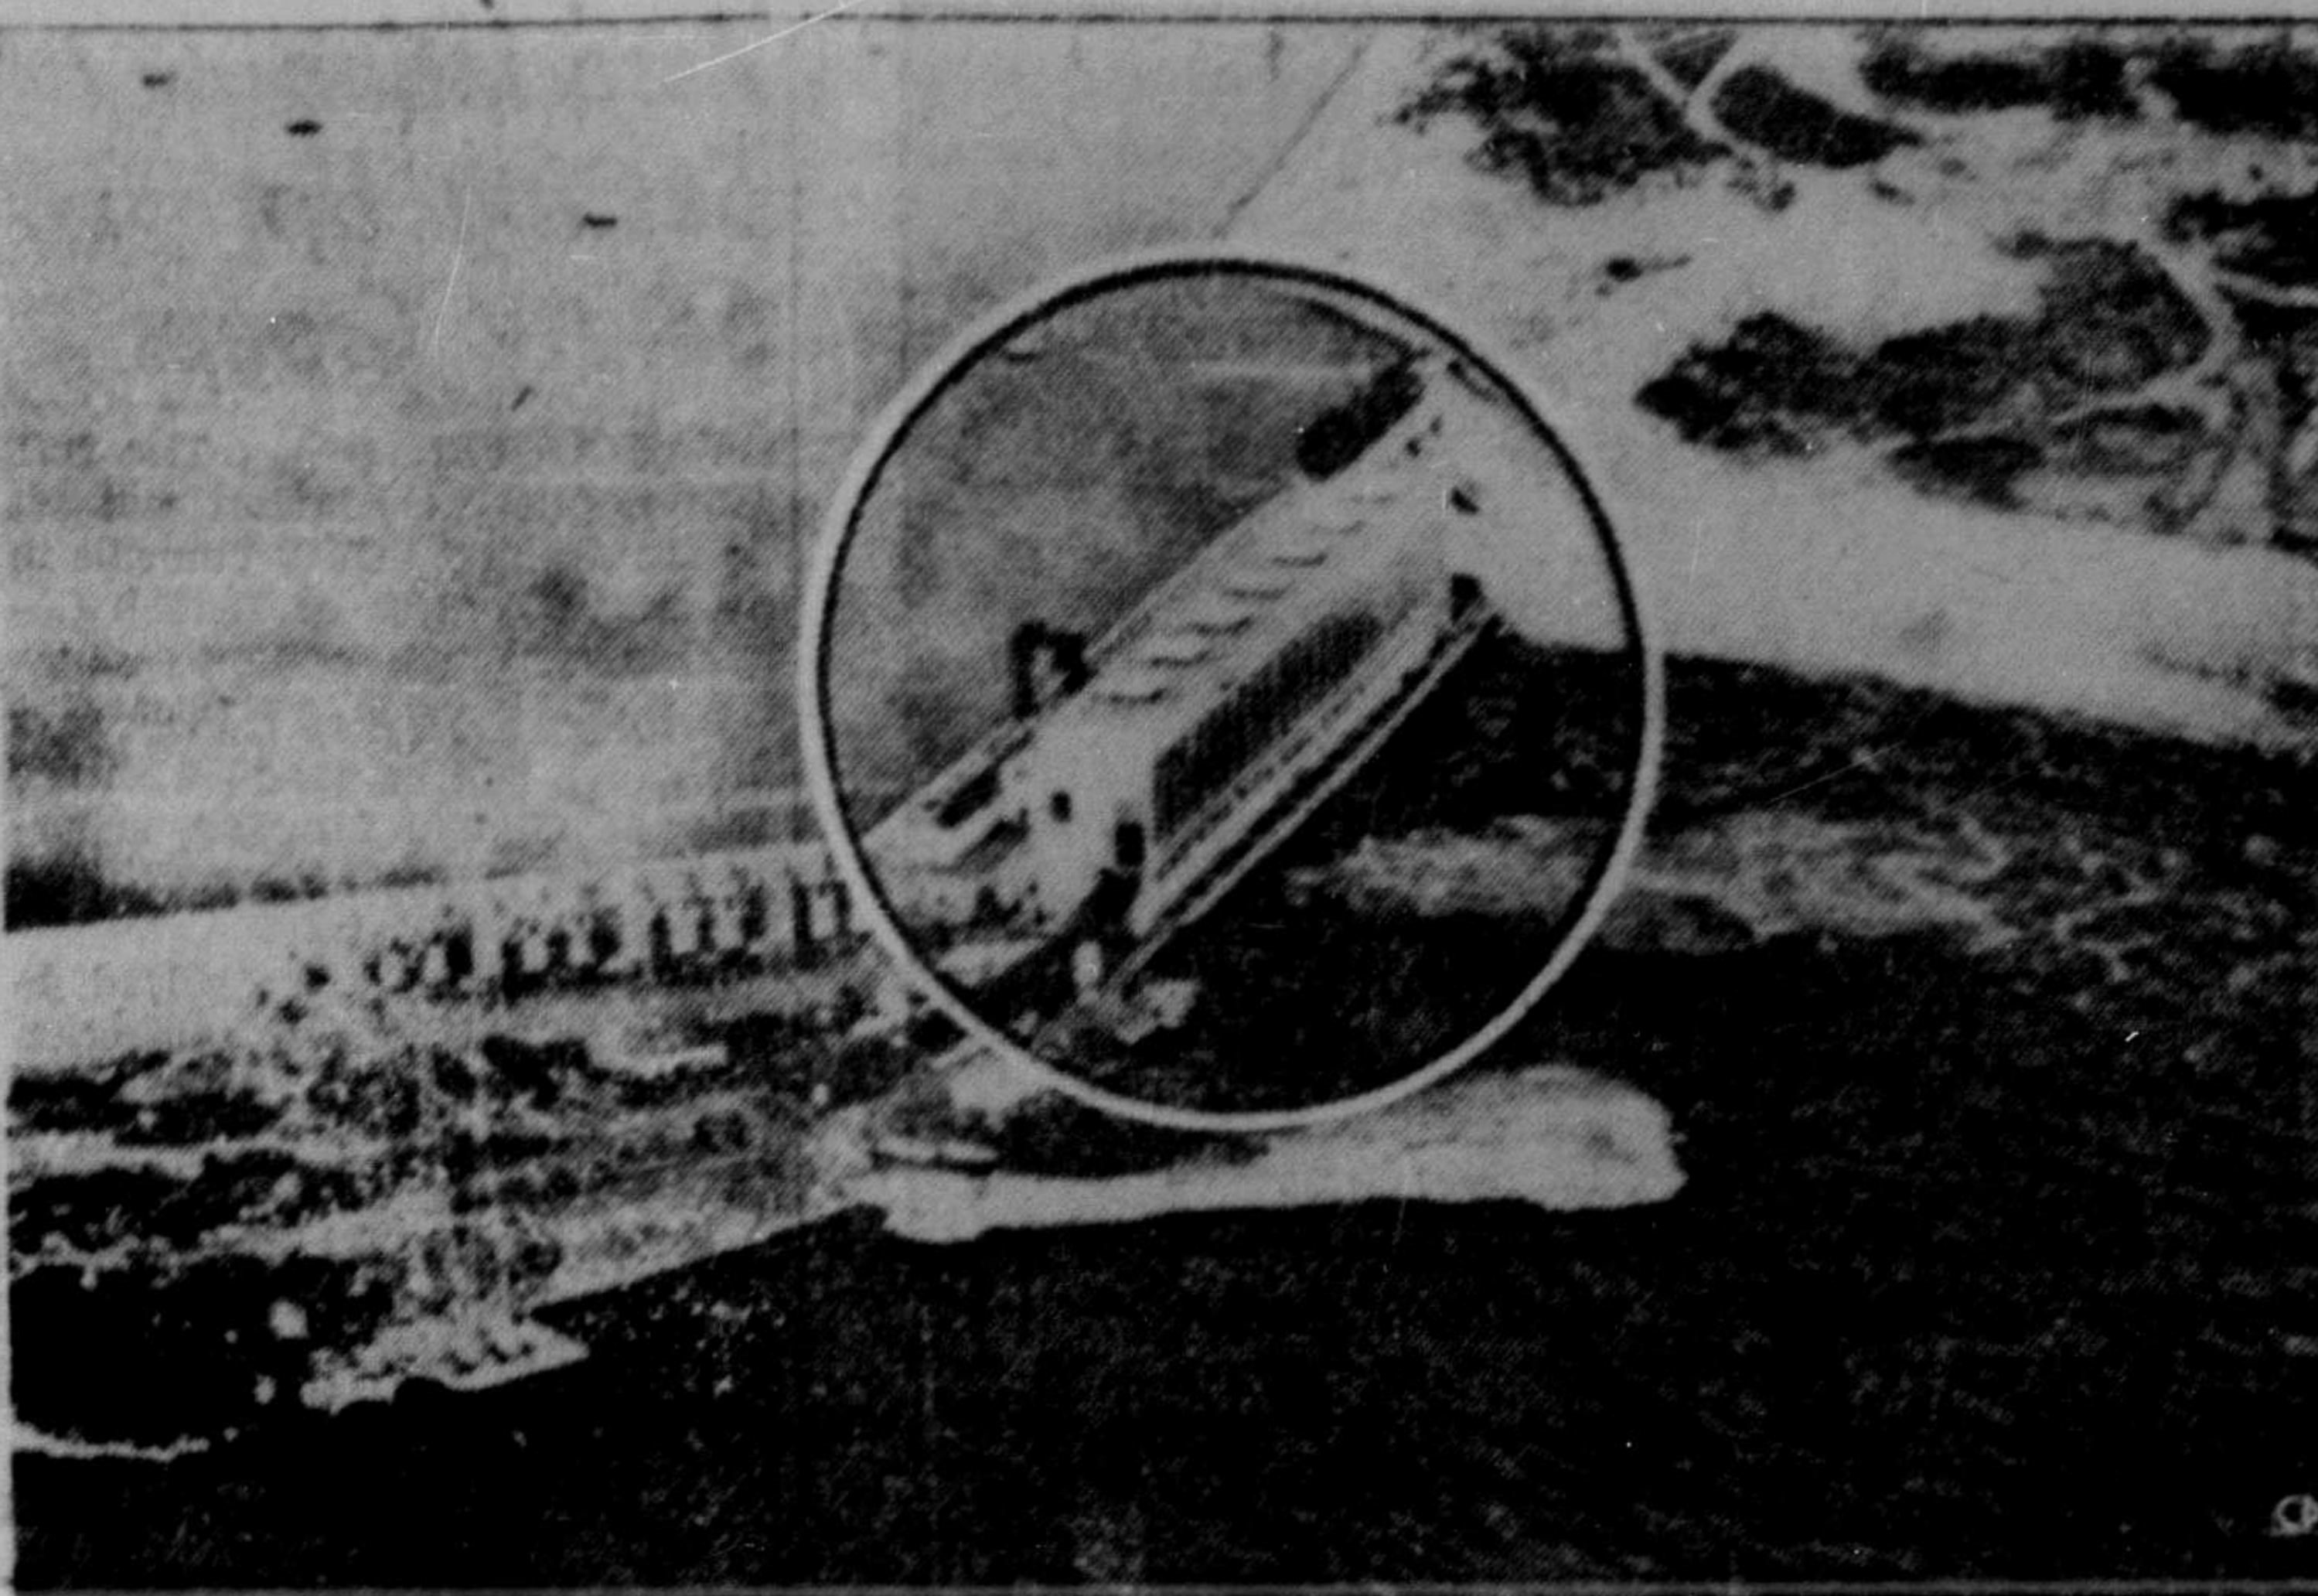

### Co-Operation Urged in Housing Field

OTTAWA (P)—Prime Minister St. Laurent indicated Tuesday he feels more could be accomplished in the housing field through closer co-operation among federal, provincial and municipal governments.

He told a delegation from the Canadian and Catholic Confederation of Labor that he had spent Monday visiting housing projects in the Toronto area.

"I would like to see the projects matched on the outskirts of our large cities," said Mr. St. Laurent.

The projects were the result of understanding and co-operation at federal, provincial and municipal level.

**FIRE WHICH SWEEPED** the huge Chats Falls powerhouse (circled) near Ottawa last week caused \$5,000,000 damage. This airview shows the \$20,000,000 plant, owned jointly by the Ontario Hydro and the Ottawa Valley Power Company, and located on the Ottawa river, 30 miles west of Ottawa. Four generating units of the plant were in ruins, cutting off the 220,000 horsepower output of the plant which supplies Toronto and other southern Ontario centres.

# Naguib Government Takes Egypt Out of Red in Seven Busy Months

By ED POLLAK  
CAIRO (AP)—The government of Gen. Mohammed Naguib has taken Egypt out of the red in seven action-packed months.

When they took over last July, Naguib and his team inherited an economic situation fringing on bankruptcy.

The state's coffers were empty. Foreign currency reserves had dwindled to practically nothing. Cotton, the backbone of Egypt's economy was not selling. Inflation was spiralling sky-high.

The soldier premier and his men tackled economic problems with military thoroughness. Recently a cabinet minister announced that Egypt, for the first time since the end of the Second World War, would have a balanced budget in 1953-54.

Furthermore, Fund Galal, minister of national guidance, announced \$114,800,000 extra funds will be spent on several industrial and development projects during the next 12 months, won their economic battle.

First, they went all out against soaring prices. Prices of foodstuffs and commodities were frozen. Army officers were attached to the ministry of supply to see that ceiling prices were applied and halt black market operations. Several merchants were arrested and jailed. Simultaneously a 15-per-cent slash on house rents was decreed.

With the problems of the cost of living settled, the government tackled the job of selling Egypt's cotton which accounts for nearly 75-per-cent of this country's exports.

Cotton sales, especially to Britain, a long time major buyer, had slumped to insignificant figures since 1950. The main reason was that the price was artificially kept far above world prices by the old Wafdist

government, for speculative reasons.

The new government closed at once the Alexandria cotton futures exchange and decreed henceforth the government itself would handle the cotton trade. Prices were based on those of the New York cotton exchange, plus a percentage for long staples.

At the same time Naguib entered trade talks with Italy, France, The Netherlands, Holland, Turkey, West and East Germany, Japan, and other countries behind the Iron Curtain. Recently it was announced an agreement with Red China was under way for exchange of Egyptian cotton with grains and other commodities. A deal with Russia also was reported.

To replenish the almost empty treasury, Naguib's government decided that all citizens, with no distinctions, were to pay their taxes.

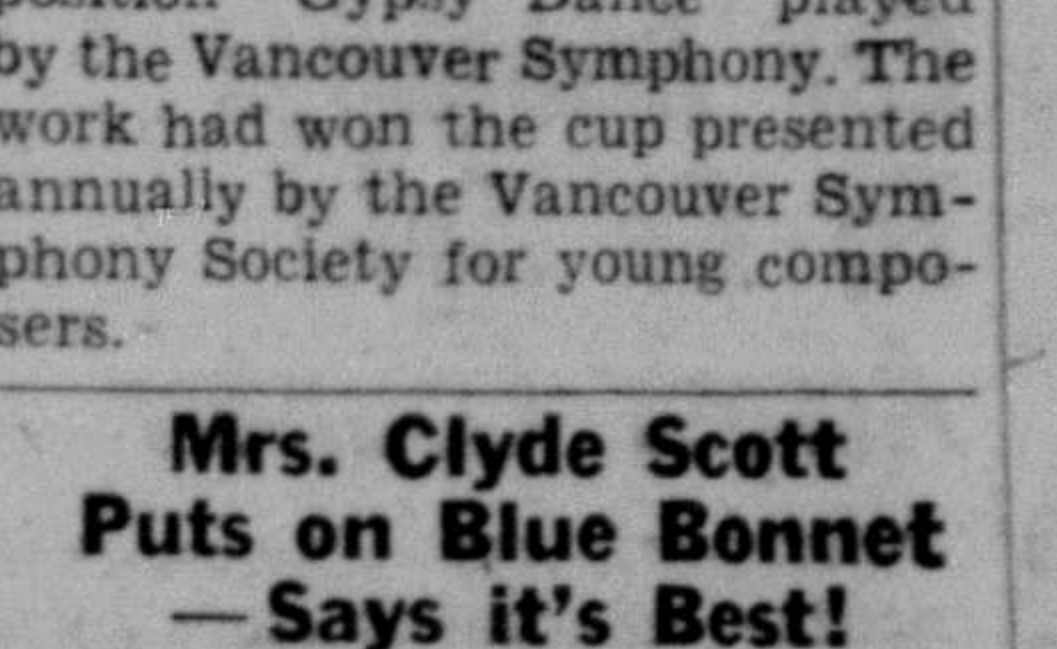

The administration has started a big drive toward collecting taxes long overdue. Several million pounds are being claimed from ex-king Farouk and the royal family alone.

One of the first measures enforced by the new regime aimed at enticing more foreign investments. That was an amendment of law which prohibited more than 49-per-cent foreign ownership in corporations. The new legislation allows foreigners to own up to 51-per-cent, a controlling majority.

### Young Composer

VANCOUVER (P)—Vivienne Rowley, 10, heard her own composition "Gypsy Dance" played by the Vancouver Symphony. The work had won the cup presented annually by the Vancouver Symphony Society for young composers.

# CP, CN Charge Higher Fares Than PGE

VANCOUVER (P)—Board of transport commissioners was told Tuesday that passenger fares charged in British Columbia by Canada's two major railroads are lower than those of the B.C.-owned Pacific Great Eastern Railway.

Figures of comparison were introduced by the Canadian Pacific and Canadian National Railways at the hearing on B.C.'s application for removal of the mountain differential on passenger fares.

First-class fares are based on a 4 1/2-cent-a-mile rate in B.C. compared to PGE charges of 4.6 cents a mile with no distinction between first class and coach whereas they charge 4.5 cents for first class and four cents for coach.

The PGE is owned entirely by the provincial government. Earlier counsel for the CPR admitted passengers riding major railroads in B.C. do pay more for tickets than those in the rest of Canada.

The republic of India, covers 1,138,000 square miles; Pakistan has 364,000 square miles.

# Barbara Brent's BUYS AND WHYS

MONTREAL, March 12th—Who says women can't agree? All of my friends (and, incidentally, their husbands, too) agree wholeheartedly on the subject of soup. *They like Heinz.* And now I hear that in dozens of recent taste-tests, HEINZ CONDENSED SOUPS scored top rating with groups of dietitians, housewives and women office workers. *There's popularity for you!* And, if you'll make a taste-test of your own, I'm sure you'll agree it's well deserved popularity. Just heat a tin of Heinz Condensed Soup and a tin of any other brand. Serve half-cupfuls of each. Then take a vote. My bet is that it will be 2 to 1 for Heinz!

### Coffee and Cake, Coffee and Cake

What a good combination they make! Especially when the coffee is INSTANT CHASE & SANBORN COFFEE. That's the "instant" made by coffee experts. The flavour's there—and the body—and the real, delightful lift. And that's not all—you'll like about Instant Chase & Sanborn. You'll appreciate its wonderful economy. The regular-size jar of Instant Chase & Sanborn gives you the same number of cups as a pound of ground coffee and there's a BIG difference in price. Instant Chase & Sanborn is quick and easy to make, too. Takes no longer to make than boiling the water—and it's as easy to make ten cups as one.

### Spring Is In The Air and, if you're like me, you'll be planning to make a suit for Spring's lovely days. Yes, I'm "stocking up" now on lightweight suiting material... and the skirt. Style No. 805 is the ideal zipper for skirts. It's the one Canada's leading women's suit manufacturers choose for—they know that only Lightning gives you everything you need for zipper satisfaction. It's fine, it's flexible, and it never slides down—the secret automatic lock makes sure of that. Every Lightning has it, and only Lightning has it. Be sure, then, to ask for Lightning No. 805. You can get it in any colour and length you need, and you'll fit your suit with the finest.

### Looking For A Delicious Way to give your family a quick start?

Simply serve hot "CREAM OF WHEAT" with a big spoonful of thick, luscious strawberry jam folded in. Top with milk or cream. Delicious! Yes, and easy, too. You know, Quick "Cream of Wheat" takes only five minutes of boiling to cook to perfect smoothness. And best of all, hot "Cream of Wheat" is truly good for you. It contains iron for good red blood and calcium and phosphorus for diets deficient in these elements. So give your whole family—children and grown-ups too, a good start—a quick start for the day. Treat them all to their favorite hot "Cream of Wheat".

### Enthusiasm — lots of it — is what you'll get when you serve HEINZ OVEN-BAKED BEANS to your family. Yes, all five kinds of Heinz Oven-Baked Beans... with Pork in Tomato Sauce; with Sliced Wieners; Boston Style or Heinz Red Kidney Beans... they're all family "favourites". And you'll like them because they're so easy to prepare. And so versatile. There are, literally, dozens of delicious ways to serve them. So keep a supply of Heinz Oven-Baked Beans on hand to please the family—and for a "quickie" meal when unexpected guests drop in. Heinz Beans make a wonderfully good, wonderfully economical meatless meal.

### But I Paid That!

Have you ever thought you'd paid for something you'd bought, and then received another bill for it? That kind of thing used to happen to me now and then... and it was always embarrassing and sometimes downright troublesome. That, of course, was when I used to run my finances on cash payments and wasn't too careful about my "book-keeping". But no more of that. Now, I pay for everything I possibly can by cheque and know exactly what's been paid at the end of the month when I pick up my cancelled cheques from my neighborhood BANK OF MONTREAL branch. It's the simplest, yet most efficient way I know to keep track of my spending. Why not try it? Open a Chequing Account at your nearest branch of the BoM today. You'll find it a great help in keeping your finances in order.

### You Can Take A Bow

when your husband raves about his snow-white shirts. But give some of the credit to Blue—for Blue does the best job of all in keeping clothes from turning yellow. When you're rinsing your wash to get the clothes clean, simply put a dash of Blue in the water—to get them really white. Blue is safe for the fine fabrics in your wash. Those beautiful sheets you get for your anniversary—the lachcon set that's your pride and joy—don't take chances—use Blue to keep them white. Costs just a few pennies a month—and that makes good sense, doesn't it? Yes, for the whitest wash, use RECKITT'S BLUE.

### Are You Letting A Lack of Knowledge about feminine hygiene take the glamour out of your marriage?

Modest women who want a completely satisfactory method of feminine hygiene use ZONITORS. Zonitors are effective, greaseless, stainless, snow-white vaginal suppositories—powerfully germicidal, yet absolutely safe to delicate tissues. And they're so very dainty and convenient to use. Ask your druggist for Zonitors tomorrow... and write to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—for a free booklet giving important-to-know facts on feminine hygiene. It will be sent to you in a plain wrapper.

**Korean Casualties Kept Down**

By HOWARD C. HEYN

LOS ANGELES (AP) — Front-line psychiatry and the armored vest have proved vital aids in reducing Korean casualties to a level approaching the absolute minimum, says Maj-Gen. Silas B. Hays.

Hays, the army's deputy surgeon-general, also credited such improved medical techniques as the use of blood extenders, which work like plasma, in fighting shock.

Among Americans wounded in Korea only about 2½ per cent die, Hays told the opening session at the alumni convention of the College of Medical Evangelists.

During the Second World War, about 4½ per cent of the wounded succumbed, against eight per cent in the First World War.

Statistics on the effectiveness of the vests are incomplete, but Hays said he had heard reports of only one fatality in nine wounded among those wearing vests, and added: "When the figures are in we expect the ratio to be about one in six, perhaps one in seven."

Of all American casualties sent home from Korea, those suffering psycho-neurotic breakdowns account for only four per cent, compared with 22 to 23 per cent in the First World War, he said.

"The number of breakdowns proportionately is about the same for all three wars—World War I, World War II and Korea—but we have been able to do much better in the field in Korea, and the number sent home is far less than before."

Try Daily News Want Ads

GEORGE MONTGOMERY STARS in Columbia Pictures' "Cripple Creek," in color by Technicolor opening tomorrow at the Capitol Theatre. Jerome Courtland, right, is featured in the new action drama about the great Colorado gold robbery.

**Many Ancient Regulations Still Exist in Edmonton**

EDMONTON — In a city impounded cows twice daily, getting use of the milk as compensation.

Besides being an offence to permit a horse, mule, bull, steer, cow, goat, sheep, swine or poultry to run at large in the city, it is illegal to let pigeons loose.

Exercising the pitching arm with snowball throwing is as much against the law as throwing stones and ice, or using bows and arrows or sling shots.

One bylaw which seems to contradict even civic practice says that salt is not to be used on sidewalks or roads for dissolving snow and ice. Also, there is a much-abused law which states that it is an offence to wash your car on the street.

**Car Insurance To Be Sold Across Counter**

VICTORIA (CP) — Across-the-counter department store sales of cheap car insurance in British Columbia are practically assured, a government spokesman said Wednesday.

All-State Insurance, an American firm operated by Sears-Roebuck, has received a federal licence, and application for a B.C. licence is sure to be approved.

Attorney-General Robert Bonner, in a speech in the Legislature last Friday, hinted that across-the-counter car insurance sales were in the offing.

**Association Setting Up Safety Groups**

VANCOUVER — The B.C. Automobile Association will set up traffic and safety councils in the main centres of British Columbia.

President Harry Duker says the move will be made with the help of George Lindsay, Superintendent of the Motor Vehicles branch.

"If accidents are reduced then insurance rates will come down," Mr. Duker said formation of traffic and safety councils was requested by Attorney-General Robert Bonner.

★ **SCREEN FLASHES** ★

All the thrills of the wide open west, photographed in magnificent color by Technicolor, are brought to the screen in Columbia Pictures' "Cripple Creek," which opens tomorrow at the Capitol Theatre.

Starring George Montgomery and featuring Karin Booth, Jerome Courtland and William Bishop, the new film tells the whole spectacular story of the great Colorado gold robbery, one of history's most daring plots. When the story of "Cripple Creek" takes place, the town is the centre of the Pike's Peak gold rush, which rivalled the earlier California gold rush in intensity, if not in magnitude. Silver Kirby, the owner of the Silver Palace, the dance-hall and gambling casino of "Cripple Creek," is the leader of a gang looting the rich Colorado mines.

Mistress-of-ceremonies of the Silver Palace is lovely Julie Hanson, who rules the place with a velvet-iron hand. When government agents Bret Ivers and Larry Galland ride into town, they make the Silver Palace their base of operations. The lawmen quickly discover the only way they can smash the outlaws is by joining them first. This they contrive to do.
