**Breaks Relations  
With Israel**

MOSCOW (CP) — The Soviet Union broke off diplomatic relations with Israel Wednesday night.

Adults and one child were killed in the Israeli legation bombing in Tel Aviv. The Israeli legation was backing at once to Moscow.

Russians acted, a government note to Israel said, because of the bomb explosion at the Soviet legation in Tel Aviv, Israel's capital.

The note accused Israeli government leaders of inciting a pogrom against the Soviet Union.

The Soviet government, the note said, "recalls the Soviet Union and the Soviet legation in Tel Aviv." It breaks off relations with the Israeli government.

The note states that further relations with the Israeli government are impossible, and that the Soviet Union will leave the Soviet Union.

The note turned aside the Israeli government's apology for the bombing, and stated that the Israeli government was using it as a "systematic policy of hatred and enmity against the Soviet Union and its people."

**'Big Man'  
In East  
Handles Loot**

VANCOUVER — Convicted burglar Roland Desroches is handling thousands of dollars worth of loot.

Desroches, who is serving a two-year term in the B.C. Penitentiary, is handling the loot while in custody.

Desroches is a well-known figure in the underworld, and has been involved in numerous crimes.

**Pact Signed**

Foreign Secretary Aneurin Bevan today told the House of Commons that the British and Egyptian governments have agreed on the Sudan.

**THE NEW ROYAL Canadian Artillery band** performs as Lieutenant-Governor Allister Fraser arrives at the Nova Scotia legislature in Halifax. Called "coronations" because they were designed for the coronation of King George VI, the four-foot-long instruments are the only ones in an army band in Canada.

**Penny a Pitch**

GOVERNOR-GENERAL VINCENT MASSEY tosses coins into a penny pitch at Ottawa's May Court Ball. Mr. Massey, one of 1,100 attending the Coronation year version of the ball, played every game, waltzed and did the samba. Mrs. Melville Rogers, president of the club, and Mr. Massey's aide-de-camp, Flt. Lt. Arthur Titus, coach the governor-general in the game.

**'52 Salmon Catch 50 Million Pounds Below Previous Year**

Graphic results of the 1952 strike-ridden fishing season in British Columbia show up in catch statistics released today by the department of fisheries of Canada, Pacific area.

Total salmon catch of 151.13 million pounds was down 50 million pounds from the 1951 catch, due to the fall strike which cut sharply the take of pinks and chum.

**EVERYONE USES 18 TONS OF MATERIALS EACH YEAR**

Is life a burden? Sure it is, because each of us uses 18 tons—36,000 pounds—of materials every year. According to the N.Y. Journal of Commerce, the man who retires at 65 will have needed 1,170 tons, or 2,340,000 pounds, of material things.

Annual requirements include 14,000 pounds of fuel, 800 pounds of metals, reduced from 5,000 pounds of ore, 1,600 pounds of food, 4,100 pounds of cotton, wool, pulpwood, and other agricultural products, 800 pounds of non-metallic materials, and 10,000 pounds of building materials.

**North Vancouver Decides To Operate Own Hospital**

VANCOUVER — Suburban North Vancouver will continue to operate its own 110-bed hospital.

Mayor Frank Goldsworthy announced the decision Wednesday when he returned from a meeting with government officials in Victoria. He said the North Vancouver delegation have been assured of a \$14.05 fixed daily payment for each patient this year as in 1952.

"This guarantees us a revenue for the year which we can count on and we are now in the position to negotiate with labor," he added.

Nurses and other hospital employees are seeking a 40-hour week and wage increases, which would raise the hospital budget by \$72,000 annually. There are 150 workers.

Hospital administrators last week announced no patients would be admitted after Wednesday and that the hospital would close February 27.

Two reasons were given: The budget-freeze order from Health Minister Eric Martin holding operating expenses to the 1952 level and staff demands for pay increases.

The decision to remain open followed conferences in Victoria with Premier Bennett and hospital authorities.

**Blizzard Continues In England**

LONDON (CP) — A blizzard raged over northern England and Wales today for the third successive day, cutting off more villages and bringing the worst traffic pile-up in years.

The blizzard also hit the continent hard.

In north England, hundreds of cars and trucks lay buried under the snow. Farm workers struggled thigh-deep in drifts to rescue sheep.

Hastily repaired sea walls along the coast held during the night.

An excessively high tide is expected tonight and 24,000 British servicemen and volunteers are working to bolster the levees still more.

**British Freighter Evades Attacker**

HONG KONG — The 3,539-ton British freighter Incharran today steamed undamaged toward Hong Kong after being chased and attacked in Formosa Strait by a tank-landing ship believed here to have been a Chinese Nationalist.

British naval authorities said the Incharran flashed a distress signal early today and 22 minutes later signalled she had successfully evaded her attacker.

Even at five cents a pound, lowest price offered to the fishermen last season for full salmon, loss to B.C. fishermen alone totalled \$250,000,000.

In Prince Rupert, the proportionate loss was somewhat alleviated by the large sockeye run which was fished under threat of continual strikes but with only three days stoppage.

With more than twice the sockeye catch of 1951, last season's take of more than 10 million pounds in the Prince Rupert area was a third of the season's catch and nearly 8,000,000 pounds more than caught here in 1951.

Meanwhile, the herring industry which normally fills a stopgap in seasonal employment was drastically hit by the complete stoppage of fishing during the three-month production period of October, November and December.

**FISHERMEN LOSE**

The 1952 catch of 189.2 million pounds was only slightly more than half of the 1951 take of 365.5 million pounds and represented a loss of some \$550,000 to fishermen alone. A major slice of this amount would ordinarily have been gained by Prince Rupert fishermen for practically no herring were taken from the highly productive adjacent areas.

Losses to fishermen in both the salmon and herring fisheries do not take into consideration losses to shoreworkers in canneries and process plants, which constitutes several million dollars.

**COLLECT INSURANCE**

Under normal circumstances, for instance, the Port Edward Nelson Bros. herring plant would be operating at full capacity at this time. Today, only a few wheels are turning.

Where normally, several hundred persons would be employed there, today they number less than 20. Among the 100 families resident in the Port Edward community normally depending on the fishery for their livelihood, most of them now exist on unemployment insurance cheques.

**EXPLORE IDEAS**

While several good income years in Prince Rupert — some have called them boom years — preceded 1952 and are cushioning the shock, it would not take more than another year of a like drop in fisheries production to make this a "poor" city.

It is the opinion of not one, but several businessmen and operators in the fishing industry as well.

Some operators have very definite opinions on what is behind all the strife in their industry. They say there is a definite move afoot to create dissension and dissatisfaction among union members.

**To Celebrate Jubilee**

INNISFAIR, Alta. (CP) — This town 84 miles north of Calgary is planning jubilee celebrations for the summer, probably on July 1. It was called Poplar Grove until 1893, when it was named after Innisfair in Scotland.

**Transfer To Be Sought Of Roosevelt Park Fund**

**Commissioners Want To Develop Algoma**

Prince Rupert parks board definitely will ask that a referendum be placed before the people this year requesting transfer of the Roosevelt Park Beautification Fund for the development of Algoma Park.

All park commissioners agreed to such a move at last night's regular meeting.

The board also will request an interim budget (an advance) so it can continue work on Plaza Park immediately.

The 1953 estimates, which run into five figures this year, already have been presented to the city council finance committee.

At the end of this year, there will be approximately \$25,000 in the Roosevelt Park fund, obtained by setting aside one mill a year since 1949. This special fund was authorized by referendum.

The parks board has decided that Roosevelt Park is not suited for much further development and will now concentrate on the development of Algoma, bordering McBride Street near Ninth Avenue, as a recreational park.

**SPECIFIC PROJECT**

Last year, park commissioners sought to have the fund transferred to a general parks use but later rescinded the motion on grounds that the money should represent a capital investment and should be used and earmarked by a specific development.

"We have now decided on such a development and will ask the public to support us in allowing the transfer of this fund," said Pat Forman, chairman of the board.

**FIRST ATTEMPT**

This will be the first concrete attempt in Prince Rupert to develop a recreational park. But the board sees one major obstacle—that of some 20 squatters, mostly old-age pensioners who have taken up residences in shacks along the bank of Hays Creek and Wantage Road which also runs through the park.

"The park board can't see any other way out but that the squatters must go when we begin further development of that park," said Mr. Forman.

Commissioners will make a special survey of the "squatters' site" accompanied by the sanitary inspector and medical health officer to investigate claims that squatters are polluting the creek.

**FLAWS THROUGH PARK**

The creek flows through adjacent McClymont Park which is the main children's playground in the city, equipped by the Gyro Club and also holds the Gyro swimming pool.

Bulk of the estimated expenditures for 1953 is earmarked for development of this park where close to an acre of clearing along the stream bank was done last year. Grass is to be sown along the banks, flower-

**beds planted, and picnic tables and chairs erected.**

The Plaza Park development in section 7 (in the Seal Cove area) is planned to be completed by summer. The interim budget asked for last night is to cover immediate expenditure there.

Park commissioners have been assured by the Gyro Club that it will provide playground equipment this year for Plaza.

**Curfew Lifting Protested**

NELSON — A warning that any future raids on railway tracks by Doukhobor terrorists might lead to strike action by men who run the trains was issued here Wednesday night.

The warning came at a union meeting called to protest the lifting of the night curfew on operations of trains in the Canadian Pacific Railway Kootenay Division.

The CPR Monday gave notice to engine and train service men. Restricted hours of work in effect since June, 1951, have been cancelled.

Under the curfew, which followed track bombings and incendiaryism blamed on fanatics of the Sons of Freedom sect, no traffic moved over Kootenay rails between the hours of 9 p.m. and 3 a.m.

The meeting was called by the Brotherhood of Railway Trainmen and the Brotherhood of Locomotive Firemen and Engineers.

A resolution was passed authorizing local representatives to contact representatives of the brotherhoods to "protest this arbitrary action . . . and further in event of track bombing, they be asked to take strike action if necessary to enforce safe working conditions."

**Labor Brief Scores B.C. Hospital Plan**

VICTORIA — Government attempts to "sell" British Columbia's modified co-insurance plan are fraudulent, the B.C. Federation of Labor said Wednesday in a brief presented to the Social Credit Cabinet.

A four-man delegation met with Premier Bennett, Attorney-General Robert Bonner, Health Minister Martin and Labor Minister Lyle Wicks.

The federation said the government's attempts to sell its revised \$1-a-day co-insurance plan as "a day hospital insurance plan" were "not correct and . . . to a degree, fraudulent."

When premiums and paid there should not be further payments for hospital treatment, the brief said.

The federation also said premiums should be reduced to 1950 levels and co-insurance abolished.

**Fire Doused On Freighter**

TOKYO (CP) — The U.S. navy today said crew members of the American freighter President Pierce late today put out a fire and escorting ships are bringing in nine American passengers and two injured crew members.

Navy headquarters said the ship is proceeding slowly toward Yokohama.

The explosion-kindled fire swept through two holds of the Pierce, 100 miles southeast of Yokohama.

It was not reported what caused the explosion.

**AT AN EMERGENCY CLOTHING supply centre at Rotterdam, Margaret Wilson of Toronto, executive secretary of the Canadian Red Cross Society, speaks with a serious-faced flood refugee and her young mother. Miss Wilson flew from Canada a week ago with a plane-load of supplies for flood victims. More than 300,000 persons in the Netherlands lost all their possessions in the recent disastrous floods. Prince Rupert's flood relief campaign begins tonight.**

**Flood Relief Drive Begins Here Tonight**

Canvassing in one part of the downtown section yesterday by the Prince Rupert European Relief Committee netted \$218.50 to make a total of \$344.53 so far collected.

Returns from the entire business section were not available at press time.

This morning, the door-to-door residential canvass got under way and continues until Friday night. Headquarters for the drive are located at the former Bulkley Market store on Third Avenue.

Saturday, a sale of Dutch homecooking will be held there. The public will be served by women dressed in Netherlands national costume.

All funds collected will be receipted and amounts donated may be deducted from income tax returns, Harry Scholten, secretary-treasurer, has announced.

**C.J. Lundquist Retired City Carpenter Dies**

Funeral will be held in Vancouver Monday for a retired city carpenter who came to Prince Rupert 44 years ago.

He is, Carl Johan Lundquist, 74, of 106 Hays Cove Circle, who died Tuesday.

He is survived by his wife Marie; two sons, Barney of Prince Rupert and Harry of Westview; three daughters, Mrs. Anna Barnes, Newport Beach, California; Mrs. Hjordis Gordon and Mrs. Clara Nielson, both of Vancouver; and seven grandchildren.

Before his retirement, Mr. Lundquist was employed at the drydock. His remains will be shipped to Vancouver tonight.

**Rosenbergs Must Die**

WASHINGTON (CP) — President Eisenhower Wednesday refused to spare the lives of Julius and Ethel Rosenberg, sentenced to death in the electric chair for conspiring to pass atomic secrets to Russia.

"Their crime," he said, "far exceeds that of taking the life of another citizen. It involves the deliberate betrayal of the entire nation and could very well result in the death of many thousands of innocent citizens."

**—WEATHER—**

Forecast  
North coast region: Gale warning issued. Rain today, cloudy with showers tonight and Friday. Not much change in temperature. Southeast gales, 40, shifting to westerly gales, 35, this evening and decreasing to westerly, 20, early Friday morning.

Low tonight and high tomorrow at Port Hardy, Sandspit and Prince Rupert, 38 and 45.

## Support the Boy Scouts

TWELVE years ago there died at the age of 84 a remarkable man who, though christened distinctively as Robert Stephenson Smyth, became better known by his surname, Baden-Powell.

At an early age Baden-Powell found it entertaining to hide in trees when Indians were about in the shape of masters of his English school looking for boys out of bounds. It is not recorded what value he gained from this pastime, but the fact remains that Baden-Powell became perhaps the greatest exponent of wood-lore in modern history. It is said that he could follow a spoor like a Zulu. What is more important, he started a scouting movement that promises to endure and grow as long as there are boys on earth.

His endowments take on particular significance for Prince Rupert at this moment as an appeal is being made to support the youthful fraternity which he founded, that of the Boy Scouts.

Although Baden-Powell was an enthusiast of outdoor life, his first interest was in the successful growth of boy into man. In looking for a code by which youth might guide itself, he was not occupied by stern and joyless thoughts. On the contrary, he was a genial individual whose beliefs went like this:

"I believe that God put us in this jolly world to be happy and enjoy life. One step towards happiness is to make yourself healthy and strong while you are a boy, so that you can be useful and so you can enjoy life when you are a man. But the real way to get happiness is by giving out happiness to other people."

In this spirit the Scout Law was evolved. Here it is:

1. A Scout's honor is to be trusted.
2. A Scout is loyal.
3. A Scout's duty is to be useful and to help others.
4. A Scout is a friend to all and a brother to every other Scout.
5. A Scout is courteous.
6. A Scout is a friend to animals.
7. A Scout obeys orders of his parents, Patrol Leader or Scoutmaster without question.
8. A Scout smiles and whistles under all difficulties.
9. A Scout is thrifty.
10. A Scout is clean in thought, word and deed.

If there is a better code for boy or man, it is yet to be reported. To keep alive the movement which gets its inspiration from these unselfish precepts, we are being asked by the local Boy Scouts Association to help.

It may seem selfish to say so, but if we respond generously, we will be doing a good deed not only to others but to ourselves as well.

## OTTAWA DIARY By NORMAN M. MacLEOD

To the romance that's inseparable from a mineral rush anywhere—regardless of whether it is for precious or for base metals—the current stampede of prospectors into New Brunswick contributes a novel embellishment all its own.

It is the only known mineral rush in history for which the activities of a pack of German U-Boats can be said to be directly responsible.

### ROMANCE IN NEW BRUNSWICK

Back during World War II, German submarines were having far better hunting near Canada's Eastern coast line and in the Gulf of St. Lawrence than the readers of the nation's daily newspapers ever dreamed. And amongst the shipping which fell prey to their deadly torpedoes more commonly than almost any other class were the relatively slow-moving freighters carrying cargoes of coal. These ships were being lost between Newfoundland and the lower St. Lawrence in numbers that intensified appreciably the wartime coal shortage which Canada already was experiencing.

To meet the situation some of the New Brunswick coal mines which hadn't been in operation for a considerable time were reopened. They became literally hives of wartime activity. Then when the war was over they were surveyed afresh to see if they possessed any hitherto undetected resources which would justify their continuance. The first survey, taken shortly after the war, detected no sensational mineral deposits. But more recently new and improved electric prospecting methods were

tested in the field. The present spectacular finds were the result. Underneath the coal in the mines apparently major bodies of copper-silver-lead ore were detected. They might never have been found at all, if the depredations of the German sub pack upon ocean coal-carriers hadn't led to a re-opening of the New Brunswick coal properties.

### MAJOR ORE BODY

Government geologists who literally were on hand at the birth of New Brunswick's great new mineral field are being asked on all sides these days how important the find really is. They answer cautiously, so as not to inflame speculative ardor irresponsibly. But it is apparent to all in the Capital here that they regard the discovery as a very major strike.

One government official who has been close to all phases of the discovery put it this way to this reporter: "Exploration already has proven a metal-bearing depth of 200 feet. If further exploration confirms a metal-bearing depth of 2,000 feet, then there'll be more ore than the developing companies will mine in several generations."

### More Winter Fowl

PORT STANLEY (CP)—The mid-winter survey of water fowl in this Lake Erie district showed the number of birds was about 50 percent greater than at this time last year, due to the mild winter. The biggest proportion, about 30 percent, were canvas-back ducks.

William Gilkison was the founder of the town of Elora in Wellington county, Ont., in 1832.

## As I See It

by

Elmore Philpott

### In Hitler's Steps

SEVERAL readers have sent me copies of the "obnoxious pamphlet" recently denounced from all sides of the British House of Commons.

It is titled "Plans of the Synagogue of Satan—For Free Distribution. Obtainable from British Israel Association of Greater Vancouver."

It explains on page five how an ex-Communist Bulgarian diplomat fled from home, hid out in Budapest where he obtained a copy of a speech supposedly given by "Rabbi Emanuel Rabinovich before a special meeting of the Emergency Council of European Rabbis in Budapest, Hungary, January 12, 1952." He smuggled this text out to Germany, says the pamphlet, and then to U.S.A. where he gave it to one Eustus Mullins. It has been published in several U.S. and Canadian Jewish-baiting sheets before the reprint in Vancouver. The second-to-last link in this infamous chain was a Canadian paper run by ex-Social Crediters who were expelled from the party by Premier Manning for doing in a small way what the British Israelites now do in a big way.

THE imaginary Rabbi's "speech" is so ridiculous (so obviously faked) that it would not deceive an intelligent child of ten. But that was true of Hitler, too.

We are asked to believe that the Jews through the "Synagogue of Satan" whipped up World War Two, and deliberately produced Hitler and Co., who killed off over five million Jews!

The "Rabbi" is made by these obvious forgers to say: "We must now work with every means at our disposal to precipitate World War III within five years. . . . I can safely promise you that before 10 years have passed our race will take its rightful place in the world with every Jew a king and every Gentile a slave."

"We are counting heavily (the fake continues) on reports of anti-Semitic outrages in Russia to whip up indignation in the United States. . . . simultaneously we will advance through new sources large sums to outspoke anti-Semitic elements in America to increase their effectiveness. . . ."

"I can state with assurance that the last generation of white children is now being born. Our Control Commission will, in the interests of peace and wiping out inter-racial tensions, forbid whites to mate with whites. The white women must cohabit with members of the dark races, the white men with black women. Thus the white race will disappear. . . ."

"We shall embark upon an era of ten thousand years of peace and plenty, the Pax Judaica, and our race will rule undisputed over the world."

WHO SAID Hitler was dead, anyway? Never, at their lowest and most diabolical, did Hitler, Goebbels and his chief Jew-hater Rosenberg descend to such depths as have the inventors of this foul fake.

It is to the credit of the Bennett wing of the B.C. Social Credit party that they immediately enforced the "resignation" of the former prominent Social Creditor of Duncan, B.C., whose name appears on this pamphlet.

It seems strange that a quasi-religious "Christian" organization would spread far and wide—even across oceans—the foul.

(Continued on Page 5)

THE BAND OF THE ROYAL CANADIAN REGIMENT on parade at a ceremony at the National War Memorial in Ottawa leaves shortly for a tour of duty in Korea with Canada's 25th Infantry Brigade. The band follows bands of the Princess Patricia's Canadian Light Infantry and the Royal 22nd Regiment which have completed tours of duty in the Far East.

## Ray Reflects and Reminisces

Down east a boy infant whistled when a few days old. It would seem that just now, babies are smarter, or nurses are becoming more beautiful.

Now is the time for seed catalogues, instead of staying in seclusion to give a whoop and a hullo.

The ten-mile tunnel at Kitchik has a drop sixteen times that of Niagara Falls. But then there won't be nearly so many newly-weds. And isn't that something?

A communist is sometimes described as yearnings for equal division of unequal earnings.

We hear the old-fashioned doctor has disappeared. Probably eloped with the old-fashioned girl.

Commencing this month, Canada's newest and latest postage stamp became effective. It is for a dollar and replaces the fisheries. It is doubtful if there is anything in the service more typical. Nothing, no matter how remotely, is borrowed or adopted. It is Canada—or at least an

## Sun Life Again Holds Top Canadian Record For '52 New Business

\$545 Millions Sold; Total Insurance in Force Now Over \$5 Billions; Policyholders' Dividends \$22 Millions During 1952—Upped by \$2 Millions

With \$545 million of new business secured during 1952, the Sun Life Assurance Company of Canada continues to hold the record for another year, topping all Canadian life companies over the same period. Total Sun Life insurance now in force amounts to more than \$5 billions, marking yet another milestone in the progress of Canada's leading life company. George W. Bourke, President, in presenting Sun Life's 82nd Annual Report, announced that policyholders' dividends during 1952 will amount to \$22 millions, up two millions from last year.

Stating that the objective of the business of life insurance was to make available its services to as many people as possible, Mr. Bourke emphasized that the Sun Life is playing a leading role in this purpose. Last year, new Sun Life business amounted to \$545,581,000 as compared with the 1951 figure of \$461,776,000, an increase of 18%. The Sun Life of Canada operates in nearly 30 countries throughout the world, but the major part of this new life insurance was secured in Canada, United States and Great Britain. Group insurance included in the new business total amounted to \$165,487,000, an increase of \$71 millions over 1951. The importance of Group life insurance, said Mr. Bourke, is being increasingly recognized as a valuable social factor by responsible industrial and business leaders, who are finding that well-rounded insurance and retirement programmes help both to secure and to retain valuable employees and promote sound staff relations in both large and small organizations.

At the end of 1952, total Sun Life insurance in force stood at \$5,222,947,000, an increase of \$421,431,000—nearly 9% over the amount at the end of the previous year. Group insurance in force, included in this amount, has now reached \$1,493,561,000, an increase of 15%. Annuity payments which the Company has undertaken to provide immediately or in the future, through individual contracts or group pension plans, amount to \$117,833,000 per annum. The number of policies and group certificates now in force is 1,912,000.

**BENEFIT PAYMENTS**  
Mr. Bourke referred to life insurance as the most popular and effective method of permanent saving, because it provides an immediate estate in the event of death, and also assures financial security when working years are over. The payments made to Sun Life policyholders and beneficiaries during 1952 amounted to \$118,618,000, or \$467,000 for each working day

of the year. Of this sum \$81,632,000 was paid to policyholders, and \$36,986,000 to the beneficiaries of deceased policyholders. The total amount of benefits by the Sun Life since the policy was issued in 1901 now reached \$2,604,884,000.

**ASSETS AND INVESTMENTS**  
Total assets of the company at the end of the under review were \$1,200,000, an increase of \$100,000 over 1951. These were invested in many and private enterprise principally in industrial public utility bonds, mortgages. The income bond investment and wages amounted to \$425,000 and \$23,668,000 respectively. It is interesting to note that Sun Life investments in 40,000 home mortgages total sum of \$168,000,000, an average of \$4,150 per house. The company is a prominent part in providing homes for the modest means. The lowest rate earned during the year was 3.84% as compared to 3.70% in the previous year. This increase, commented Mr. Bourke, was important in the interest rate and additional earnings for dividend distribution thereby reducing the life insurance to the holder.

The total surplus and contingency reserve now stood at \$113,697,000.

**LIFE INSURANCE NATIONAL ASSOCIATION**  
Mr. Bourke mentioned in all countries where Sun Life operates, and particularly in Canada, United States and Great Britain, men and women were increasing their life insurance and family security meant for more and more people. It also means money saved and invested in national projects, and goods for more people. Canada alone more than a million policyholders are increasing their life insurance for whom the national insurance fund of more than \$5 billions represents a great benefit. The country's large reserve of long-term investment resources in developing highways, roads, public utilities, building, hospitals, and other branches of Canadian social and business life.

A copy of the complete 1952 Annual Report to Policyholders, including President's review of the year, is being sent to each holder, or may be obtained from T. A. McKinnon, supervisor, or J. A. Rae, local representative.

# Alt Large Installed President Gyros in Shipboard Ceremony

unique shipboard ceremony. Dr. Alf Large was last installed as president of the Prince Rupert Gyro Club. A large number of Gyro members, wives and guests presided at the ceremony in the ballroom of the Prince George Hotel. The executive committee of the Gyro Club, consisting of Bert Kelowna, lieutenant-governor of Gyro District No. 4, Dr. Large on the new president, and other members, were present. Mr. Johnston paid credit to the Prince Rupert club for its congenial spirit. "I feel very much at home among you," he said. "The club here has firmly caught the spirit of Gyro which welds us together in common brotherhood and understanding."

Mr. Johnston, who was accompanied here by "Babe" Nicholson, immediate past president of the Kelowna club, expressed the regret of Bob Brimacombe, Vancouver, governor of district number 4, for being unable to attend.

Special guests of the occasion were Mayor and Mrs. Harold Whalen, Harry Black, president of the Prince Rupert Rotary Club, and Mrs. Black, and Harry Sheardown, president of the Kinsmen Club, and Mrs. Sheardown.

Dinner aboard the Prince George preceded the ceremony which was followed by dancing with Andy McNaughton at the piano.

## Mrs. Lyons Elected Regent Of Cambrai Chapter IODE

The regular monthly meeting of the Cambrai Chapter of the Imperial Order of Daughters of the Empire was held at the Civic Centre, Tuesday.

Nominations for the new term were accepted as follows: Regent, Mrs. G. P. Lyons; 1st Vice-Regent, Mrs. L. Griffiths; 2nd Vice-Regent, Mrs. J. E. Tasman; Assistant Secretary, Mrs. A. A. Brebner; Treasurer, Mrs. A. A. Miller; Educational, Mrs. M. L. Pettenuzzo; Echoes, Mrs. B. Wilson; Standard Bearer, Mrs. V. H. Miller.

Annual reports for the past term were read by the various committees, which showed a very successful year, due to the efforts and co-operation of the members.

Plans were completed for the Founder's Day tea to be held at the home of Mrs. Jack McRae on Friday.

A stool was donated by the Chapter to the Cambrai Room at the Prince Rupert General Hospital.

Mrs. G. E. Moore was welcomed as a new member.

Refreshments were served after the meeting.

**HOUSEWIFE-AUTHOR**  
CALGARY (CP)—A young Calgary housewife, Mrs. Prior A. Philip, has had her first book accepted for publication by a New York firm, Arcadia House. The book, "Muted Murder," is a 60,000-word murder mystery.

Bing Crosby tells his own story, "Call Me Lucky." It starts in this week's Saturday Evening Post. Don't miss it! Get your copy... it's on sale today!

# Sport Fans in Britain Bet Against All Types of Weather—No Money Back

By ARCH MacKENZIE  
Canadian Press Staff Writer

LONDON — Sport fans in these islands regularly bet the entry fee to sport spectacles against fog, rain or ice.

Rain checks are practically unknown in Britain. Plunking down the price of admission and hoping for the best is in contrast to the Canadian practice where fans get their money back if none or only a stipulated part of the event is played.

The pay-and-pray practice is taken for granted by most British fans. One loud dissenter is the Daily Mirror's Tom Phillips, who devoted a long, angry article to a cancelled soccer game between Newcastle United and Swansea.

Fog blanketed the field after eight minutes of play and 63,000 persons left the grounds with the prospect of having to pay again to see the same match. The replay attendance was 61,000, making total club receipts of nearly \$49,000.

Phillips called unsuccessfully for a boycott of the replay as the only way to force a rain-check rule.

"GENTLE BOOING" "In any other country in the world there would have been a riot, broken heads, burnt-out stands, overturned cars, hospitals full of injured and jails bursting with demonstrators," he said.

Yet there was only a "little gentle booing" when the referee called this game.

The Football Association commented that the system of rain checks is "ingenious" but entirely a matter for the clubs themselves.

"They aren't obliged by law to refund money," said a spokesman. "Any club can install this system if it wants to. But the association can do nothing until a club or clubs sponsor such a rule for a membership vote."

UP TO REFEREE Referees are responsible for ruling on cancellations and the generally-accepted standard is to call it off when the referee can't see either goal from centre field. Pre-game cancellations are made, the spokesman said, to inconvenience the fewest possible fans, depending on ice or fog conditions.

AL (MR. MURDER) MILLS was ready to hurl the bell (the timekeeper's) at Woody Strode during a wrestling match in Edmonton. Strode is a former footballer who played end for Calgary Stampede when they won the Grey Cup in 1948. The officials got the bell away from Mills before anyone was hurt.

## SPORTS ROUND-UP

By GAYLE TALBOT

NEW YORK (AP)—Frank Lane of Chicago White Sox cemented his position as the tradingest general manager in the history of baseball when he obtained first-baseman Ferris Fain from Philadelphia Athletics in the winter's most important deal.

## Wings, Rangers In 2-All Tie

NEW YORK (CP)—John Wilson's goal at 6:25 of the third period gave Detroit Red Wings a 2-2 tie with New York Rangers Wednesday night.

The deadlock increased Red Wings' National Hockey League lead over second-place Montreal.

Wilson's tally came on a 25-foot screened shot which slipped between the pads of Lorne Worsley.

## Historic Synagogue

MONTREAL (CP)—The oldest synagogue in Canada, the Shearith Israel Synagogue here, will celebrate its 185th anniversary with a week-end of rededication and a banquet on May 18. It was founded in 1783 by Jewish soldiers who came with the British forces to Canada.

IT PAYS TO ADVERTISE

## Army Nurses To be Moved Nearer Front

KOREA — Canadian Army nursing sisters shortly will be serving closer to the Korean front line.

They are expected to be posted to the 25th Canadian field dressing station, in the general area of Tokchong, within a month. Tokchong is 25 miles north of Seoul.

Canadian nurses first were posted to Korea last September, when a re-organization of Commonwealth division medical facilities was begun by Col. G. L. Morgan Smith of Barrie, Ont., director of the division's medical services.

## CAME FROM JAPAN

Morgan Smith moved the station out of Seoul and formed in its place a "communications zone hospital" with nurses attached from the Commonwealth Base General Hospital in Kure, Japan. The station was moved forward to undertake a greater share of the work from the immediate front.

## RELEASE, ORDERLIES

Surgical nursing at the station has been done until now by nursing orderlies of the Royal Canadian Army Medical Corps. Morgan Smith says they have done a "terrific" job but have borne "unfair responsibility."

Post-operative nursing should be done by graduate nurses, trained for the job, freeing the orderlies for work in the medical wards.

## Service Vehicles Must Pay To Park Unless On Duty

The radio gag line that urges the listener to "put something in the pot, boy," doesn't always apply to the Army if the "pot" concerned is a parking meter.

The office of the Judge Advocate General of the forces ruled that parking meter fees demanded by some cities need not be paid by operators of service vehicles on official duty.

Although the ruling permits parking free of charge where meters are located, members of the armed forces operating service vehicles have been told to limit the length of time they are parked and not take undue advantage of regulations.

Fines for illegal parking or other traffic offences come out of the soldier's own pockets and, when he's in the wrong, he may get a second disciplinary slap from the army after the civilian court has finished with him.

On the whole, army headquarters said, driving a service vehicle entitles a driver to few if any privileges. Free parking in certain areas is one of them.

## Mrs. Jim Coleman Puts on Blue Bonnet — Reports it Best!

Mrs. JIM COLEMAN says: DELUXE BLUE BONNET Margarine is always my first choice for Flavor, Nutrition and Economy! "Like the wife of the noted sports writer, you'll love DELUXE BLUE BONNET's sunny sweet flavor and its luscious golden-yellow color — just as delicious when melting-hot as when fresh from the refrigerator. And the money DELUXE BLUE BONNET saves is headline news for all who want to stretch food dollars! It's pre-cut in handy quarter pounds, each quarter is individually wrapped in pure aluminum foil with inner parchment lining. Get golden-yellow DELUXE BLUE BONNET for a real taste treat."

## Kid Gavilan Retains Welterweight Crown

CHICAGO (CP)—Cuba's Kid Gavilan, rugged champion from the school of hard knocks, floored college-bred, Chuck Davey four times Wednesday night with his explosive punching to hold his world welterweight title on a 10th-round technical knockout.

The previously-unbeaten Davey was unable to answer the bell for the 10th after absorbing a bloody beating in the savage ninth.

Gavilan flunked the Michigan State grad in the finals of his graduate course in pugilism.

After the bout stopped, Gavilan

languidly danced a few rhumba steps in his corner while waving to a roaring crowd of Davey partisans.

It was no contest, although the game Davey kept flicking his impotent punches in annoying fashion against the 27-year-old champ.

Gavilan immediately clamored for a shot at the middleweight crown against Randy Turpin or Bob Olson.

He said he wanted to take on the winner of the proposed tournament to screen some 11 contenders for Sugar Ray Robinson's vacated 160-pound title. "Let Turpin or Olson find out who champion and then I fight that guy," said Gavilan.

## D. Arney Tops 10-Pin Bowlers

DON ARNEY of Chumps topped the mixed ten-pin bowlers this week with his high single of 222 while Bill Anderson of Delnor captured the high three score with 542. Other men bowling over 200 games were Anderson and Joe Long of Art Murrays, both with 212.

For the ladies, E. Anderson of Delnor captured both high scores with games of 136, 128 and 179 for a total of 443.

Team honors went to the Chumps who rolled high single of 830 and a triple of 2,338.

Results—Chumps 4, Delnor 0; Spares 4, MCs 0; Art Murrays 3, Northern Distributors 1.

Agnes Pierce of Lyons headed all lady five-pinners this week as she knocked over pins for a 320 high single score, and Jessal Shenton of New Laurels added up three games for an 844 total, highest so far bowled in the league.

Her team also captured the single and triple high scores, establishing a new record with 1,132 and 3,151.

In B Division, Bobbi Kohlruss of Bulgars topped the keggers with a single of 260 and Winnie Glass of McKays stretched out three games for a triple of 701.

Bulgars nabbed both team honors with scores of 1,014 and 2,759. This week marked the end of the second "third" in the ladies' league with Doms and Gordon & Anderson going into the final stretch tied for first spot. In B Division, a four-way tie for first place between the following will be played-off Sunday: 75 Taxi, Commercial, P.R. Plumbing and Bulgars.

## Results

A Division—New Laurel 4, Stars 0; Savoy 4, Dibbs 0; Lyons 3, Doms 1; Cloverleafs 3, Sunrise 1; Mansons 3, Lucky Strikes 1; Gordon & Anderson 2, Annettes 2.

B Division—Skeena 4, Tollers 0; McKays 4, Rupert Radio 0; Cooks 3, 75 Taxi 1; Commercial 3, Big Sisters 1; Bulgars 3, Co-op 1; 7th Ave. Mkt. 2, P.R. Plumbing 2.

## BLACKWOOD on Bridge

By EASLEY BLACKWOOD

"Slow" Bids, Too Much Delay  
Considered Unethical Play

There are several examples of unethical practices in today's deal. The first was Mr. Sharpe's action after Mr. Dale opened the bidding with one spade. He squirmed and frowned over his cards for quite a long time before passing.

Now, when your right hand opponent deals and makes a startling and out of the ordinary opening—five diamonds for example—you are entitled to take a little time to decide what to do. However, there was no reason for Mr. Sharp to be taken off guard by the actual one spade opening. Most hands are opened with one of a suit. He knew he had no bid and he should have passed promptly.

After his slow pass, everyone at the table knew he had a fair hand—almost enough to enter the bidding, vulnerable. Mr. Rank was not entitled to have this valuable information.

Of course, Mr. Masters noticed Mr. Sharp's "invitation" to his partner to get into the bidding and he made that as difficult as possible by going straight to four spades. There was nothing unethical in Mr. Masters taking advantage of Mr. Sharp's hesitation—although he did so at his own peril.

Obviously Mr. Rank did not have nearly enough to come into the bidding at this point. However, he knew (illegally) that his partner had some strength and he thought a long time before passing. It would have been highly unethical for him to bid here. In fact, taking advantage of partner's slow pass is worse than making the slow pass.

Against the final contract of four spades, Mr. Sharp led the ace of clubs. And again Mr. Rank went into a long huddle. He thought the best defence was to continue with clubs but he couldn't spare the queen as a come-on, owing to dummy's holding in the suit.

After fingering first one card, then another, he finally rapped the trey on the table—with emphasis. Mr. Sharp could hardly fail to get the message and he led a second club. With fine justice, this turned out to be the lead Mr. Dale wanted. He ruffed, knocked out the ace of hearts and later discarded dummy's losing diamond on his set up hearts. Thus he lost just a spade, a club and a heart.

## Russians Order German Reds To Stop Flight of Refugees

By TOM REEDY

BERLIN (AP)—The East German Communist purge, forcing a mass flight of refugees to the West, has shown some signs of boomeranging. A new crop of East Germans who fled to West Berlin Sunday brought these reports:

1. The Russians have ordered the German Communist regime to put a halt to the exodus, which West Berlin's mayor, Ernst Reuter, calls a "colossal, peacetime tragedy."

2. Twenty-four border police have been arrested for helping residents escape.

3. Workmen have started erecting new barricades on the frontier between the Soviet zone and the Soviet sector of Berlin to plug the big leak.

The actions came at the end of a week in which 8,560 East

Germans reported to West Berlin refugee centres. The pace impelled Reuters to forecast a February total of 30,000. There were more than 25,000 in January.

The Russian reaction is described as one of mixed embarrassment and annoyance. In the first place the refugee flood has fastened sympathetic world opinion on the plight of Soviet-zone Germans, including Jews. Second, the already-wobbly Communist economy is being hit hard by the flight of experienced farmers and technicians.

A check of the Soviet sector-zone border Sunday showed definite barricade construction. Most of the refugees have come to East Berlin first and then crossed into the west sectors, the last big opening left to them.

## Skating Star Likes to Cook

NEW YORK (CP)—Canada's Barbara Ann Scott is as much at home in the kitchen as on the ice.

The blonde star of the Hollywood Ice Revue now playing at New York's Madison Square Garden, is also a musician, a golfer and a horsewoman but, she told interviewers, her daily preoccupation is with cooking.

Wherever she goes two trunks go with her. One carries her personal wardrobe and skating equipment. The other holds an electric oven, toaster, coffee maker, plus pots, pans and jars of preserves.

"I don't care about the other hotel accommodation," said Barbara Ann. "But I always insist that the suite must have a kitchen."

"It's silly, but I love home so much and in the life I lead I'm never home, so I take it along with me."

## Artistic Display of Curios Featured At P-TA Brotherhood Week Celebration

An interesting artistic display of curios, a "smorgasbord" of foods from many lands, and a program of international song and dance were highlights of Conrad Street School Parent-Teacher Association's second annual celebration of Brotherhood Week.

The program was held during the association's monthly meeting in Conrad Street School on Tuesday.

The curio display, set up by Mrs. Linda Patzold, was centred about a huge colored pre-war map of Europe drawn by Mrs. Patzold herself. Below the map a large table was sectioned off to display curios from each country. Each section was centred with a flag from the country where the surrounding curios originated.

Among other things were books and spoons from Germany, colored wooden plates and pictures from Estonia, coins from Ireland, a large fur rug from Mexico, carved ivory salt

and peppers from Alaska. The huge table of many and varied food delicacies was presided over by Mrs. K. Faught, with the assistance of Mrs. J. Kurdziel and Mrs. L. Murdoch. More than 100 people made the rounds.

There were fish cakes from Norway, spaghetti from Italy, pickled herring from Estonia, prune cakes from Denmark, sweet and sour from China, crisp cookies from Germany, a rice dish from India, and plate upon plate of others, to present an almost infinite variety.

An interesting international program of entertainment was as follows: Swiss yodelling songs, M. Girardet; bagpipe selections, J. D. S. Robertson; South African boer songs, Mrs. W. Murdoch, accompanied by Mrs. G. V. Hanley; Italian song, M. Girardet; Polish song, Mrs. W. Murdoch.

These items were interspersed with community singing of

songs from various countries, led by the jovial master of ceremonies, Frank Derry.

Accompanist for the program was Miss Marian Calne.

During refreshments, a record player provided background music from China, Japan, India, Czechoslovakia, Germany, France and Poland.

The entire Brotherhood Week program was convened by Mrs. W. Murdoch, Mrs. M. Reeves, Mrs. G. Patzold and Mrs. K. Faught.

During the business meeting, members reviewed resolutions to go before the annual convention of the B.C. Parent-Teacher Federation in North Vancouver in April, and instructed their delegate to the convention, W. D. Griffiths, how to vote.

Another of Conrad P-TA's popular card parties will be held March 20 with Mrs. H. Thomas as convener, assisted by Mrs. Roy Johnson, Mrs. A. Mellor, Mrs. S. Ballinger and Mrs. Painter.

## Course Hazard

WORKINGTON, England (CP)—A crow with a fondness for golf balls is estimated to have carried 100 away from a course in this Cumberland tract.

# U.S. Needs More Help to Settle Korean War

By FRANCIS W. CARPENTER

UNITED NATIONS, N.Y. (AP)—The United States today was reported shaping up an emphatic call to its UN allies for more help in Korea.

State sources here said the U.S. policy indicated a move would be part of a grand strategy being worked out by the Eisenhower administration for ending the conflict.

Reports circulated here after the UN released a saying a quick \$1,750,000 aid-and-investment program necessary to save war-torn South Korea. It added

## Express Shipments at Record

NIPEG—More shipments handled by the Canadian Express in 1952 than in any year in the company's history.

T. H. Martin, Montreal general manager, told a group of top CN Express officials here.

Establish this all-time record, the company picked up and shipped 24,547,248 shipments throughout the 10 provinces of Canada, an increase of 1,392,493 over the previous year of 1951.

The increase in traffic was generally improved business conditions throughout Canada to the ability of the company to meet the public's demand for increased express service.

Mr. Martin said the three-day service here, he explained, was the last year's expansion; to discuss ways of improving the service wherever possible, and plan new methods, early those concerned with speeding up of express at terminal points.

that black marketing and illegal profiteering are rife in the embattled country.

There also are indications that diplomatic experts are studying a possible blockade of Red China. Some sources said, however, there is little chance of such a move although there may be a widening of economic restrictions now in effect.

The U.S. took over general council direction of the Korean war in 1950 shortly after the security council decided the UN must meet the Communist aggression. Britain, Canada, Australia and a number of other countries answered appeals by Washington and by UN Secretary-General Trygve Lie for help but since then there has been almost no increase in military aid for the UN.

The U.S. in fact, has turned down some military aid because it was offered in small units and the cost of equipping, training and transporting them would have been far more than it was worth to the UN. It also has not accepted the Nationalist Chinese offer of three divisions.

The U.S. government made it known last year in the UN assembly in Paris that it desired more help in Korea. Almost nothing happened, for other countries answered they were doing all they could.

But the new administration is laying down in straight terms what it expects the UN partners to do.

The UN survey on South Korean needs said that outside investments of about \$1,350,000,000 in industry, fisheries, agriculture, reforestation and transport plus \$400,000,000 in outright relief would be necessary to put Korea on its feet.

**BABY BURNS**, daughter of Mr. and Mrs. Joseph Burns of Montreal, wails a bit to show her two teeth. They were there when she was born. It was nine days later before she got around to having her picture taken in Montreal's St. Mary's hospital.

## Blasting Powder In Bag Used To Fight Fire

NELSON, B.C. (CP)—Three linemen didn't know it at the time, but they fought a pole-line fire with a 10-pound bag of blasting powder.

One pole had been blasted by a dynamite charge and a second was set afire.

The linemen were called out in pre-dawn darkness. They fought the fire at the base of the pole, using the bag to beat out flames.

After it was over, a peek in the bag showed it was loaded with blasting powder. A fuse was attached to the powder, but it did not explode.

The poleline blast occurred in the Doukhobor district near Nelson. The men are employed by the West Kootenay Power and Light Company.

## Negro Minister Accepts Call to 'White' Parish

BURKS FALLS, Ont. (CP)—A Negro minister, Rev. Wilfred Sheffield, has accepted a call to a Baptist church here with an all-white congregation.

The 29-year-old minister is believed the first Negro to take charge of a church with an all-white following in Canada.

He accepted the call at the demand of the parishioners. He spent two weeks at Burks Falls on an evangelical campaign and since then the congregation has been asking for his appointment.

Rev. D. A. Burns, superintendent of the home mission board, said there are other ordained Negro ministers in Canada but they either work with Negro congregations or are in missionary and administrative fields.

"It is a very happy situation," Mr. Burns said. "The Burks Falls congregation has recognized his gifts irrespective of his color and appreciate the Christian qualities of the man."

Burks Falls is a summer holiday vacation centre 48 miles south of North Bay.

## Canada to Help Mexico Develop 4 Pacific Ports

MEXICO CITY (CP)—Informed sources said Tuesday Canada will help develop four of Mexico's Pacific ports in order to boost trade between the two countries.

The ports are Mazatlan, Manzanillo, Acapulco and Salina Cruz.

Canadian capital will augment Mexican financing.

Canadian wheat, machinery and other products will be shipped directly to the newly-modernized ports, and in return Mexico hopes to sell Canada more of her own products.

## Father Plans Another Visit To Find Son

VANCOUVER (CP)—John L. Sutherland, 70, of Vancouver

plans to leave next month to keep his fifth Easter Sunday vigil under the clock at London's King's Cross station.

He will be looking for his son, Wilfred Sutherland, an RCAF observer who was shot down over Holland 10 years ago. He

was listed as missing and presumed dead.

Five years ago Sutherland returned to his native England and went on an impulse, he says—to the clock at King's Cross station.

He was "petrified" to see his

son looking at him. He lost him in the crowd before he could speak to him.

Sutherland believes his son is suffering from loss of memory. He has checked dozens of English towns and villages looking for information of him.

### Barbara Buys and Whys

MONTREAL, February 12th—No trouble getting up—even on dark, dismal mornings... not since I began eating hot Cream of Wheat for breakfast. I just "rise and shine" at the thought of the good breakfast I'm going to have. And it doesn't take long to prepare! Just five minutes of boiling (do it while the coffee's perking) and Quick Cream of Wheat is cooked to delicious smoothness. Gets you off to a quick start, too! It contains iron for good red blood, and calcium and phosphorus for diets deficient in these elements. It's a treat for the whole family—CREAM OF WHEAT, the hot cereal for quick starts. Enjoy it soon!

**You Get Them Both**... convenience and extra protection... when you buy BLUE BONNET DE LUXE MARGARINE. It's pre-cut in golden-yellow quarter pounds, each quarter pound individually wrapped in pure aluminum foil with inner parchment lining that seals in Blue Bonnet's sunny-sweet flavour—seals out ice box odours. And Blue Bonnet's "De Luxe" quarter pounds are so convenient. No seeping—no slicing or rewrapping. Just unwrap what you need and serve. What's more, you can forget your measuring cup when you're cooking with De Luxe Blue Bonnet. The handy chart on the package shows exactly where to cut for recipes.

**I've Never Seen A Husband As Proud** as Mary's was the other night! He beamed with delight when we all asked for second helpings of Mary's wonderful cake. She told us her cake success "secret"... SWANS DOWN CAKE FLOUR. Surprised? No, I'll bet you're not if you use Swans Down. For you know that it makes cakes as light as a dream... beautiful, tender cakes that melt in your mouth. But do you know why Swans Down makes such wonderful cakes? Firstly—it's made by cake-flour experts. And it's sifted and resifted 'til it's 27 times as fine as ordinary flour. Don't take chances when you're cake-baking... to all your precious ingredients—add the "wisdom" of Swans Down Cake Flour.

**There's A Family Conspiracy** in our house... The kids love it... and insist on it... and I cook with it... in fact, we'd be downright unhappy without HEINZ TOMATO KETCHUP to add zest, colour and exciting tomato flavour to our meals. We call it "Red Magic"—and so will you when you find out what it does for food at the table and in the kitchen. Buy two bottles at a time... one to set before the folks at mealtimes... one to cook with. Heinz Ketchup works wonders with leftover meats, stews and casseroles. Ask your grocer for Heinz Tomato Ketchup—from the famous family of Heinz Tomato Products on display in his store.

**Worried About The High Cost Of Living?** I can tell you a wonderful way to cut your milk bill in half. Just use MIL-KO for drinking, baking, cooking and whipping. I find that a one pound package gives me four quarts of delicious, nourishing skim milk... at half the cost of ordinary milk. You see, Mil-Ko is actually "the lean meat" of milk—fresh, sweet and pasteurized—with only the fat and water removed. High in food value and low in calories, Mil-Ko is excellent for reducing diets. Ask your doctor about it... I'm sure he'll agree. Do try Mil-Ko soon... prove to yourself how good for your health, for your waistline and for your budget Mil-Ko is!

**He'll Be Your Valentine Forever** if you treat him to INSTANT CHASE & SANBORN COFFEE. It is so quick—so easy—to make. Takes no longer to make than boiling the water. In a jiffy it's ready to delight your coffee-loving man. M-mmm! Delicious! The flavour's there—and the body—and the real lift. That's because Instant Chase & Sanborn Coffee is the instant coffee made by coffee experts. Ask for it. The regular-size jar of Instant Chase & Sanborn gives you the same number of cups as a pound of ground coffee and there's a big difference in price.

**Modern Science** has contributed brilliantly to a problem that concerns us women—intimate feminine cleanliness. ZONITORS are the result of much research and the most satisfactory method of feminine hygiene they've ever used. Gentle—stainless—snow-white vaginal suppositories... Zonitors are dainty and convenient to use—powerfully germicidal, yet absolutely safe to delicate tissues. For frank facts about the important subject of feminine hygiene, simply write to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—and I'll send you a free booklet in a plain wrapper.

## New Banking System Predicted

By ARTHUR L. GAVSHON  
LONDON (AP)—Britain is expected to ask the U.S. to underwrite with dollars a giant new global banking system when informal economic talks begin in Washington next month.

This is one of many plans Britain and other Commonwealth partners have to beat the dollar shortage, expand world trade and give the pound sterling more punch.

Other proposals Britain intends making on behalf of the Commonwealth:

U.S. dollars should be sunk in Commonwealth development.

The U.S. should lower tariffs, ease customs regulations and cut import quotas to help other countries earn more dollars.

**INCREASE GOLD PRICE**  
The world price of gold should be increased from its present level of \$35 an ounce.

These ideas, together with an outline of what the Commonwealth is ready to do, were handed to President Eisenhower last month by Prime Minister Churchill. They will form the basis of policy-making talks scheduled to start in Washington early in March among Foreign Secretary Anthony Eden and the chancellor the exchequer, Richard A. Butler, for Britain, and John Foster Dulles and George Humphrey, state and treasury secretaries for the U.S.

This is what the Commonwealth is offering in return: Broader, freer world trade patterns.

Eventual pound freedom—this means that sterling will become freely exchangeable for any other money, including the dollar.

Opening of Commonwealth markets to U.S. goods by removal of trade bars.

Defence, political and business matters are closely bound up in all these complex problems which face not only the Commonwealth but the entire non-Communist world.

Leaders of the Commonwealth met here in December for the purpose of charting new trade and money courses, courses which taken together would form a program of economic co-operation between the main trading areas. These are the Commonwealth, the U.S.-led world and Europe.

Britain's idea is that there should eventually be a world economic conference to hammer out these things. Existing international agencies governing trading, money and business relations need revision, Britain thinks.

## Students Chose Subjects For Discussion

TORONTO (CP)—Toronto schools have introduced a new form of group therapy for 15- and 16-year-old boys who present problems of emotional unrest.

Dr. C. G. Stogdill, who is in charge of the therapy service, said the method takes the form of weekly discussions on subjects that the group wish to raise.

Dr. Stogdill said that these sessions help the adolescent overcome his loneliness and to see that other children have the same problems.

The worker stays in the background and avoids impressing his views on the group," said Dr. Stogdill. "The adolescent learns to suppress some of his inclinations for the sake of being included in a group of his peers. The markedly seclusive adolescent is one of the most difficult persons to help—one must find some way of getting him interested enough to participate. Group therapy offers real promise in this regard."

## Private Bill Seeks Change In Legislation

OTTAWA (CP)—Senator G. H. Ross (L-Alberta) appealed in the Senate for support of a private bill that would make it possible to collect damages in legal actions from Indians.

He said present legislation makes it impossible to collect damages from Indians when the courts find them liable. The law originally was intended to protect Indians from unscrupulous non-Indians, but was outdated.

He said Indians should be treated as others if the courts find them liable for proper damages.

Senator Wishart Robertson, government leader, adjourned debate on the bill sponsored by Senator Ross.

## Pass the Soup and Crackers, Please

**ANNOUNCE "Soup for Supper"**  
on a cold night, and you're sure of an eager response. There's something warmly friendly about the sight of a table set with steaming bowls of good hot soup.

Also, you can be ready with this meal in mere minutes. Just rely on your handy shelf of condensed soups. Shall it be hearty vegetable beef soup or creamy chicken soup? Reach to the shelf; take your pick. If it's for Lent, serve one of the meatless soups—tomato, vegetable, cream of celery, clam chowder, cream of asparagus or green pea.

With the soup goes a basket of crisp toasted crackers, of course. Folks like the crunchiness of crackers as contrast to hot soup. The crackers also call for wedges of cheese or cheese spreads. And then for a fuller meal, perhaps grilled franks and citrus fruit salad.

For some soup menu suggestions, try these. Fine fixings for many a lunch and supper.

**Vegetable Soup**  
**Toasted Crackers**  
**Grilled Franks**  
**Sliced Orange and**  
**Cottage Cheese Salad**  
**Blueberry Pie**  
**Milk** **Coffee**

**Tomato Soup**  
**Crackers 'n' Smoked Cheese**  
**Scrambled Eggs**  
**Lettuce-Cucumber Salad**  
**Apricots** **Cookies** **Coffee**

### SOUP SCOOPS

**Valentine Appetizer Brightens**  
Table: Sparkling glasses of vegetable juices look like a valentine greeting when you place each glass on a white-lace paper doily. Refreshing way to start lunch or dinner. Have these crackers with the juice.

**Give Beans a Tempting Topping:**  
Green pepper rings and cheese put a fine finishing touch on beans and pork. First pour 2 cans (15 fluid-ounce size) of beans and pork into a casserole. Heat in moderate oven about 20 minutes. Place 4 or 5 thin rings of green pepper atop the beans; sprinkle grated cheese inside each ring. Heat under broiler just until cheese melts and green pepper is slightly cooked.

**Combine Spaghetti, Shrimp:**  
For a grand good spaghetti dinner, to serve during Lent, fix this. Brown 1/2 cup minced onion and 2 tablespoons minced green pepper in 1/4 cup hot shortening. Stir in about 1 cup cooked or canned shrimp, and 2 cans (15 fluid-ounce size) spaghetti in tomato sauce with cheese. Season with 1 teaspoon vinegar, 4 drops Tabasco sauce, 1/4 teaspoon salt, and pepper. This makes dinner for 4. Goes well with buttered Italian bread, and salad of lettuce, green pepper and cucumber.

## Lack of Ordinary Housing Main Complaint in Germany

By IAN FRASER

BONN (Reuters)—Life in West Germany is getting steadily better for the ordinary citizen, with employment at its highest and unemployment—about one million—at its lowest since the war.

"Ordinary citizen" does not, however, include the millions uprooted from their homes in former East German territories and now trying to settle down in the west.

The average West German is a hard worker and his main interest at present is getting on with his job and earning enough money to make both ends meet, with perhaps a little over to buy a few luxuries from some of the best stocked stores in Western Europe.

Expensive food and lack of housing are the two main grumbles of the man-in-the-street.

Visitors to West Germany are frequently impressed by the tremendous amount of rebuilding done since the war. But many Germans complain that too much capital and materials have been spent on building stores, restaurants, cinemas, banks, and blocks of offices and not enough on ordinary housing.

### Chief Retires

REGINA (CP)—Police Chief Duncan McDougall of Regina retires March 15 after 45 years as a policeman, including eight years as chief of the Regina police force. Deputy chief Richard Anderson will succeed him.

## Government Upheld in Vote

OTTAWA (CP)—The Commons Tuesday upheld the government against a CCF want of confidence motion based on policy concerning the \$250,000,000 South Saskatchewan River irrigation-power project.

The government was sustained by a vote of 136 to 61 in the first of two non-confidence motions before the House concerning the South Saskatchewan issue.

The Eiffel tower, with a height of 984.25 feet, is one of the tallest structures in the world.

# HEINZ SOUPS WIN IN DOZENS OF TASTE-TESTS!

## Try this taste-test in your own home

In test after test recently Heinz soups scored top rating among groups of dietitians, housewives, women office workers, and members of young people's clubs. Preference ratings from 64% to 76% were recorded.

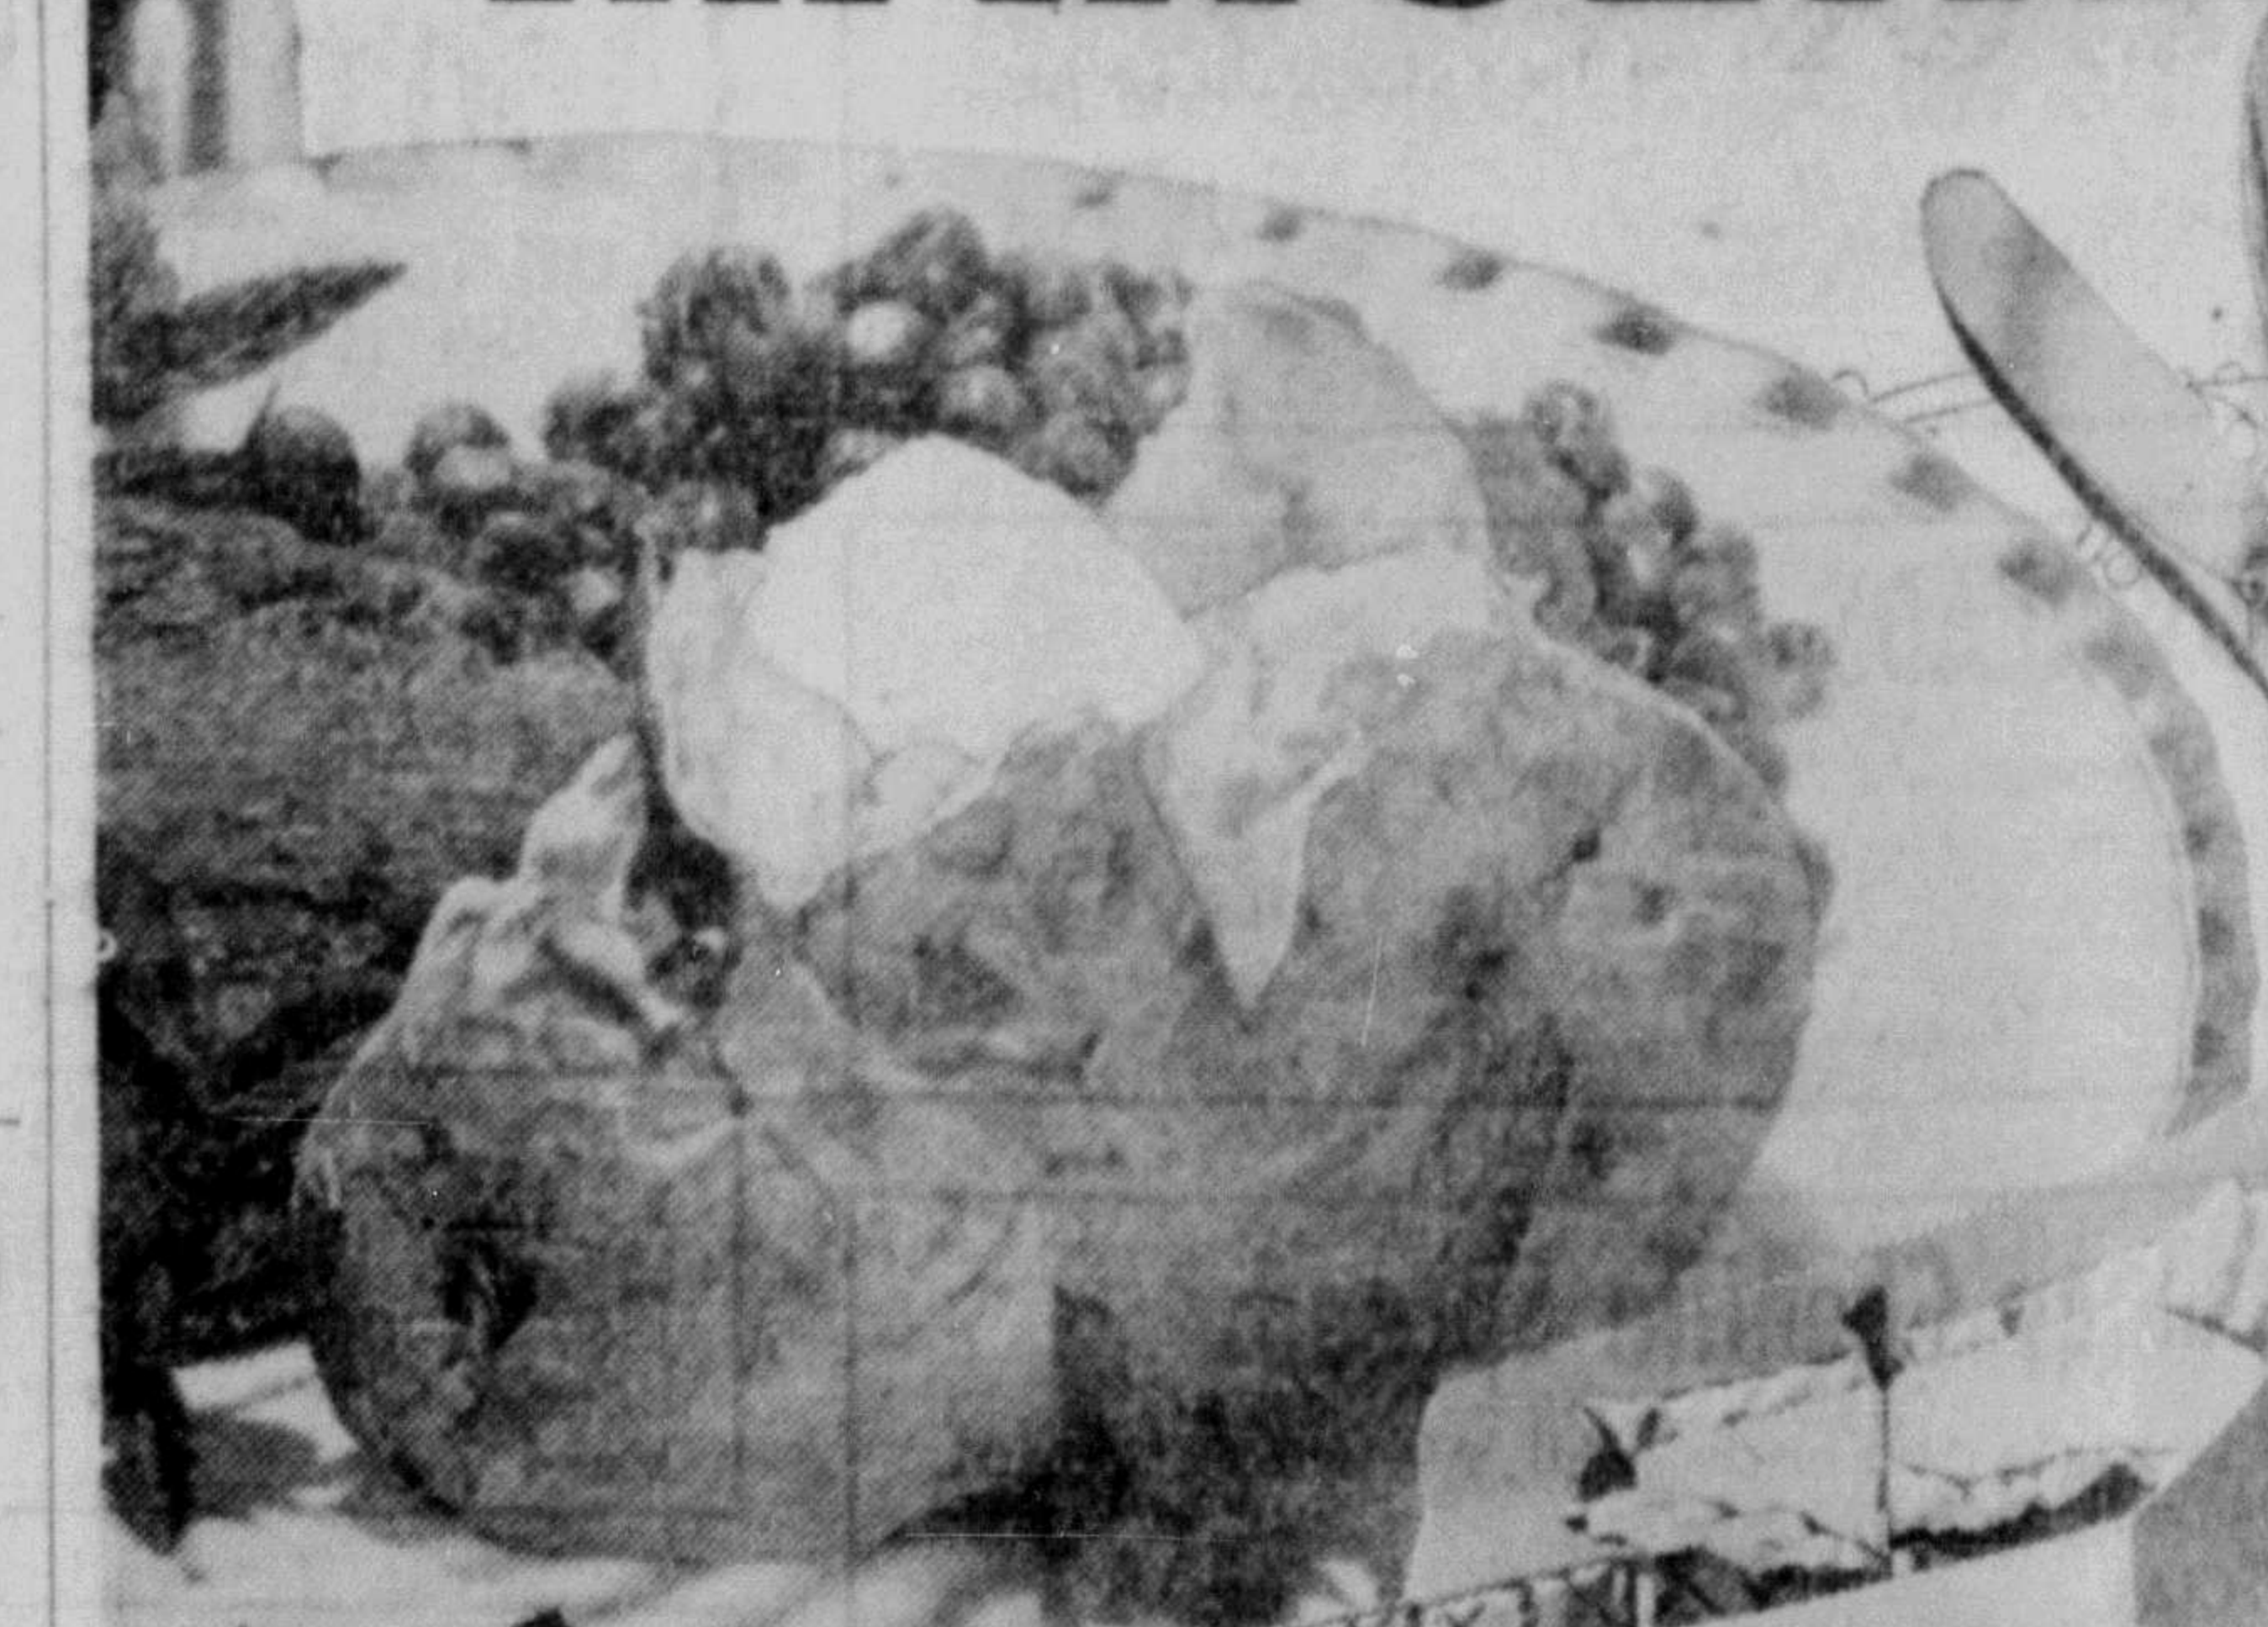

A taste-test in your own home will probably result in a similar verdict. Simply heat a tin of Heinz Condensed Soup and a tin of any other brand. Serve half-helpings of each. Then take a vote when your family has tasted the wonderful difference. Chances are it will be two to one for Heinz. Buy several varieties of Heinz Condensed Soups next time you shop.

**FREE RECIPE BOOK!** For your free copy of "57 Ways to Use Heinz Condensed Soups," write today to H. J. Heinz Company of Canada Ltd., Dept. S. P. 7, Leamington, Ontario.

**HEINZ**

You'll never know how good margarine can be... until you try MARGENE.

The secret of its flavour is **Freshness!**

# World Set to Celebrate Pancake Day Tuesday

Next Tuesday Canadians celebrate Shrove Tuesday, the last great Christian Festival before Easter. It's "Fastelavn" in Copenhagen, "Vastenavond" in Brussels, "Sirna Sedmitza" in Bulgaria, and is known by a host of other names in as many countries round the globe.

Perhaps the Spanish best express it in their "Carnival" or possibly the Italians in their "Martedì Grasso," better known as the Mardi Gras of New Orleans. Mexico and Latin America, wherever it is, the day is a happy holiday feast, with the appetizing pancakes as its king.

Throughout the English-speaking world, from England to Australia, it is called Shrove Tuesday (Pancake Day) . . . the day when feasts of syrup-soothered pancakes make many a table gleam.

Actually, the real credit for the invention of pancakes should go to the stone age ancestors. They started it with a simple mixture of ground wheat and corn roasted on hot stones. The result, however, would certainly not be recognizable in the fluffy, golden-brown pancakes of today with their many tempting variations.

But even way back in the early human times, pancakes were good and everybody loved them. . . . ate them for breakfast, lunch and supper. When, following ancient Biblical custom, the Church declared that no meat could be eaten during the 40 week-days preceding Easter, pancakes became even more popular during the Lenten season as a substitute for meat.

Immediately preceding a 40-day fasting period, it isn't so surprising that Pancake Day soon became the year's biggest excuse for merrymaking and holiday feasting. Between Shrove Sunday (somebody originally named Quinquagesima Sunday, a name which, for some reason, never did become popular) and the last day before Lent, anything can happen—and often does.

In old England, at the little village of Olney, Bucks, a Pancake Day race has been staged every year since 1445. Housewives race from the village pump to the church, flipping their pancakes on the way. The winner gets a traditional kiss from the rector.

**WINS MONEY**  
At Westminster School in London, Pancake Day is eagerly awaited each year. At 11:00 a.m. the Headmaster solemnly emerges from the school kitchen, followed by a cook bearing a large pancake. The pancake is thrown into a crowd of waiting boys, who fight for possession, and the lad who emerges with the largest piece wins a sum of money from the school funds.

In Paris, Rome, New Orleans and Rio de Janeiro they have their Mardi Gras, that fantastic day of days (and sometimes weeks) when the masquerade combines with the dance, the wedding and the feast to create

## Floods Claim 11 Relatives Of Emigrant

**HALSTEREN, The Netherlands**—Mrs. Johanna Roks-Nefs, Netherlands emigrant now living in Canada, arrived on a vacation visit here to find nearly all her relatives—11 of them—had been drowned in the floods.

News of the flooding was received in mid-Atlantic while Mrs. Roks-Nefs, who lives at Niagara, Ont., was sailing from New York in the Dutch liner *Amsterdam*.

At Rotterdam she was met by two brothers-in-law who told her that a brother-in-law, three sisters-in-law, the father of one of the sisters-in-law and six cousins were dead.

## Netherlands Army Receives Plaques For Canadian Guns

Bronze plaques bearing the names of Defence Minister Brooke Claxton and Lt.-Gen. Charles Foulkes, chairman of the Canadian chiefs of staff, have been placed on two self-propelled guns now in use by the Royal Netherlands Army. A. H. J. Lovink, Netherlands ambassador to Canada, revealed today.

Manufactured in Canada and at one time used by Canadian troops, the two guns were shipped to Europe in November 1950 as part of a huge arms shipment to the Netherlands. At that time armament equipment for an entire division was shipped from Montreal as the first step in a \$300,000,000 Canadian scheme to bolster Canada's

partners in the North Atlantic Treaty Organization.

Mr. Lovink, who accepted the shipment on behalf of his government, named the guns—the "Brooke Claxton" while it still was in the Longue Pointe, Que., ordnance depot, and the "Charles Foulkes" while it was being loaded aboard ship at Montreal. He made representations to his government that the two guns, huge tank-like weapons, always be known by the names he had bestowed upon them.

That was more than two years ago. This week Mr. Lovink passed on to army authorities word that his almost forgotten request had been fulfilled by his government.

## Lots of Beets

**PETERBOROUGH, Eng. (CP)**—A beet sugar factory in this old Northamptonshire city completed a non-stop run of 116 days, during which 51,000 tons of sugar and 20,000 tons of molasses were extracted from 375,000 tons of beets.

## BABY'S COLDS

Help Nature To Fight Them Off

Medical Science denies there is any such thing as a cure for colds—only Nature herself can do it. So when baby's sniffling, or stuffy breathing warns you of a cold's presence—cooperate at once with Nature. See that baby is kept warm, gets plenty of sleep and take extra care that the bowels are thoroughly cleared of harmful wastes. To do this without upsetting baby's whole system and further weakening it, try Baby's Own Tablets. Mild, yet act promptly in getting rid of irritating materials that make baby restless and feverish. One Nova Scotia Mother says: "My baby of 26 months caught a nasty cold so I tried Baby's Own Tablets and she threw this cold off quicker than ever before. I certainly am for Baby's Own Tablets from now on." Equally good for restlessness and peevishness resulting from irregularity at teething time, for constipation, digestive upsets and other minor infant troubles. Get a package today at drugstores.

## New Tribe of Pygmies Found By Danish-Born Professor

MANILA (AP) — A Danish-born professor has located the main band of a newly-discovered tribe of pygmies leading a primitive bow-and-arrow existence, practising polygamy and believing in good and bad fairies.

The tiny people, whose ancestors are believed to have migrated to the Philippines 10,000 years ago, have been caught up in the struggle between communism and democracy. They were driven out of their forest home by fierce Communist Huk guerrillas.

Dr. Tage Ellinger, Danish-born scientist now teaching at the University of the Philippines, first discovered a few of the pygmies, known as Abenlens, last month in the Huk area about 70 miles northwest of Manila.

The announcement of his finding stirred such interest that Ellinger decided to revisit the region in search of the main elements of the tribe.

Ellinger said he found the Abenlens had a high degree of intelligence and a "remarkably better" standard of living than the Negritos, the Philippine jungle tribe.

This is what he uncovered about the Abenlens:

The present chief is a four-foot-four man, 40 years old, known as Docot, which means grass.

An Abenlens male may take up to three wives. Divorce is not permitted. All wives are treated

as equals. Families are small. "I think there is an enormous degree of inbreeding because you see so few children," Ellinger said.

The Abenlens have rarely intermarried with the Negritos, and only in recent years.

The Abenlens believe that God made the earth. "They have no relations with God unless they are in trouble, and then they ask his help."

"They also believe in fairies—good ones who live in trees and bad ones who live in termite hills," said Ellinger. "That is why they never step on termites."

## History Test Results Shock Masters

LEEDS, England (CP)—Results of a history test at Leeds University Institute of Education shocked the masters.

Of 1,000 students, only 75 per cent knew that Neville Chamberlain was prime minister at the time of Munich. More than 200 named Winston Churchill, who was not in the government at the time; Ramsay MacDonald, who died in 1947, and David Lloyd George, prime minister from 1916 to 1922.

"Many answers shocked me so much I could not believe them," said Rev. J. W. Packer, a lecturer.

The pupils, aged 15 to 20, muffed other questions. Out of every 100, 33 believed England lost Calais through the French Revolution of 1789, instead of by war in 1558.

Many did not know that Good Friday is the anniversary of Christ's death or that Christmas is the birthday of Christ.

Natives in Southwest Asia began cultivating cereal crops about 7,000 or 8,000 years ago.

Appointment of THOMAS W. MORGAN as Superintendent Engineer has been announced by Union Steamships Ltd. Mr. Morgan, who takes over from Robert M. Logan, recently retired, is a chartered Marine Engineer and Associate of the Institute of Marine Engineers (U.K.). Following completion of his education, part of which was at Royal Technical College, Glasgow, Mr. Morgan was engaged in engineering projects and as a consultant in that city. He served with Donaldson and City Lines and in World War II was with the British Merchant Marine as well as being on loan to the Royal Navy supervising ship conversions. Before joining Union, Mr. Morgan was engaged in steamship service on both east and west coasts of Canada.

Mr. Logan became Superintendent Engineer in 1937. He joined the company in 1911 after service in the P & O Eastern trade. In the first world war he served with several of H.M. ships and was at one time senior engineer aboard H.M.S. New Zealand. During his many years with Union, Mr. Morgan was Chief Engineer on most of the Company's vessels and in that capacity brought S.S. Lady Cynthia and S.S. Chilliwack from Scotland.

Cherrapunji in Assam, India is recognized as the world's wettest place with more than 424 inches of rain annually.

## Chef to Use Three-Foot Knife Carving Ox on Coronation Day

LONDON (CP)—The Coronation is going to mean a few food bonuses for the British people—but nothing as hearty or mouth-watering as the non-restricted fare of other coronings.

In fact, government concessions for the great occasion—a few extra ounces of margarine a person plus sugar and candy—fell a little flat. Newspaper editorials greeted them with thinly-veiled irony.

Still, there was one beefy sop to the stomach, recalling the lavish and meaty days when great roasts turned lazily on open-air spits. Anybody will be able to hold a Coronation ox barbeque—all you need is the ox, fuel and cook. And you've got to give the meat away.

Luckier than most centres is Wokington, Berkshire, which had either an ox or venison promised long ago to provide a party for the elder citizenry.

An 80-year-old member of the fire department, veteran of the 1937 coronation barbeque, is scheduled to start things at 10 p.m., the evening before Coronation Day. Oak log fuel will be lit in the town square, the ox will be spitted and the carcass shifted into grilling position on the steel tripod used first for the barbeque marking Queen Victoria's jubilee.

Delicious juices will be captured in special pans while the basting of hundreds of precious rations continues all night under the eye of the fire department.
