"But I'm absolutely convinced that the people should know about things just as soon as possible in the great

majority of cases." Mayor Mills lists three main reasons why public officials are averse to publicity:

A reply tabled in the Commons disclosed that the company headed by George Prudham has bought \$100,000 worth of property from the government-controlled Canadian National Railways in Edmonton.

Purchase has raised the question of how close members of Parliament may come to the government in business dealings. They are subject to forfeiture of seats for certain forms of direct transactions with government under the "Independence Of Parliament" clauses of

the House of Commons Act. One legal authority gave an offhand opinion that the purchase would not affect Mr. Prudham's status as a member

of the Commons. Sale to Prudham Building Supplies Ltd. involved one and nine-tenths acres of CNR property in Edmonton, including the old CNR station and freight shed. The sale was made this year by negotiation. No tenders were called.

Stalin Funeral Set To Rank With Lenin

MOSCOW (AP)—Funeral of Joseph Stalin has been set for Monday noon. It will rank with that of Nicholai Lenin as one of the greatest patriotic demonstrations in Soviet history, as Lenin's funeral was in 1924, an occasion for mass emotional patriotic outpouring.

LONDON (CP)-Georgi M. Malenkov, new Soviet Prime Minister, is not likely to be more conciliatory in his policy toward the west, judging

from his past public pronouncements. Analysis of major policy speeches made by the pudgy, round-faced party boss shows him spitting venom at the American "warmonger," accusing U.S. leaders of introducing "fascism" not only in their own country but also in "enslaved" European countries, and warning that a third world war would spell the end of world capitakism.

MOSCOW (AP)—Georgi M. Malenkov today led the Soviet Union as successor to Joseph V. Stalin and his elevation was accompanied by a wholesale shake-

up of top government personnel. Selection of Stalin's 51-yearold protege to be the new Russian prime minister was announced by the Kremlin Friday night. VICTORIA (CP)—Liberal leader E. T. Kenney to 1949. He replaced Andrei said Friday in the legislature his six-man group will support the Social Credit government in Monday's vote on wheth-

er to accept the budget. This will assure passage of the first Social Credit budget as the Liberals hold the balance of power in the House.

Mr. Kenney said that though the Liberals object to many features of the budget, they feel British Columbians do not want to spend \$750,000 on another election at this time.

Education Minister Mrs. Tilly Rolston said Thursday Mr. Kenney had implied the balance of power of the Liberals would support the CCF government and keep it in power if the occasion arose.

The resulting flare-up between Mr. Kenney and Mrs. Rolston, 66-year-old grandmother, was one of the warmest of the current legislature session. Mrs. Rolston withdrew statements three times at the insistance of the Liberal chief-

A New Cabinet Ministry

\\/\HTLE good governments and large cabinets W do not necessarily go hand in hand, a proposal worth considering which would increase the provincial cabinet membership by one has been made by Roderick Haig-Brown, author and sportsman of Vancouver Island.

Mr. Haig-Brown's idea is that a Ministry of Recreation should be created. The department he has in mind would have responsibilities for the attractions of this province which are now scattered haphazardly into various branches.

The parks division, for example, is under the department of lands and forests. There is a game department attached to the attorney-general's office. The tourist bureau is in the department of trade and industry. The result is a confused administrative system in which none of these agencies is effectively correlated with the other.

What this means, in effect, is that one of the most valuable assets of the province—its natural appeal for the traveller and sportsman-is being rated far below its real worth. As a result, there is no such thing as centralized supervision of B. C.'s wildlife, parklands, campsites, beaches, historic and scenic regions.

If the ministry which Mr. Haig-Brown suggests did exist, perhaps there would be less apprehension now about disfigurement by flooding of areas in Tweedsmuir Park.

It is even possible there would be greater concern for the value of Prince Rupert's museum. This is by no means a local consideration, although under the present system it is treated as such. Here is a collection of treasures as typical of the province as its forests and mountains which, given its due attention, would assume a distinguished place in the attractions of B. C.

There are works of nature and man in B.C. which can never be replaced. Time will destroy them unless we choose otherwise. A Ministry of Recreation would do a great deal to implement such a choice.

We Place Our Case Before The Bar of Public Opinion

FOR SEVERAL months now we, the employees of the Provincial Government, have been seeking from the Government the right to Arbitration of our conditions of work-without success This, despite the fact that during the last election campaign, 29 Social Credit candidates expressed themselves in favour of the principle of arbitration for Government employees. Eleven of these 29 were elected, of whom six are members of the present cabinetincluding the Minister of Labour. We feel that the continued refusal of the Government to grant us what is now the common possession of all other groups of employees in the Province-the right to Arbitration-forces us to seek the support of a higher authority in our request-that of The People. Why is it that Government Employees-who serve you, the public-are anxious to have this right of Arbitration?

FIRSTLY: The right of employees to cooperate with each other. and to bargain collectively with their employers over their conditions of work, has existed for generations. This right is now a civil right, guaranteed by law to all groups of organized employees in our Province, except us. This right has developed over centuries and is deeply rooted in our political and economic development It has followed logically from this that laws have been passed. enabling employees and employers to submit their differences -specting wages and working conditions to conclination and arbi

SECONDLY: In the past, Provincial Governments have passed such legislation as: The Annual Holidays Act, guaranteeing annual holidays; the Minimum Wage Act, to provide a minimum wage: the Hours of Work Act, setting forth the maximum hours that may be worked; and many similar Acts regulating working conditions of employees. The Government has also passed the Industrial Conciliation and Arbitration Act which provides the right to Conciliation and Arbitration. All this legislation has been passed by our Provincial Governments in the interests of all employees in the Province, except their own employees. Why is this so? Because Section 35 of the Interpretation Act places the Government above the laws it legislates. Thus, while the Government can pass, and has passed, legislation regulating the labour relations of all other employers in the Province, it refuses to be bound by its own laws in its dealing with its own employees. The B. C. Government Employees Association, representing 10,000 Government employees, feels that this is a complete negation of democratic principles. We believe-and public opinion agrees-that what is good enough for all other employers should be good enough for the Government.

THIRDLY: The right or arbitration has been extended to employees in the industrial or economic sector of our economy. It has also been extended to all other groups of employees who provide vital public services, such as-nurses, teachers, policemen, firemen, employees of civic and municipal governments, etc. It has never been extended to Provincial Government employees although they are prepared to forego the right to take strike action in return for the Right to Arbitration with binding award.

The B. C. Government Employees Association feels that this relegation of Government employees to a second-class level of citizenship is unfair and unwarranted discrimination. Refusal of the Government to act on our request for Arbitration forces Government employees to appeal to their last court of resource-to you, the people-for support in gaining what is not merely a condition of employment, but a civil right. We therefore ask you to write or wire your M.L.A. today, asking him to support, on the floor of the Legislature, the right of Government employees to Arbitration.

Magistrates Want Corporal Punishment. Reintroduced

LONDON (P)-In face of parliamentary opposition, the British Magistrates' Association has voted by more than two to one in favor of reintroducing corporal punishment for crimes of violence.

The association's ballot, representing the view of about half the magistrates in the United Kingdom, showed 4,412 in favor of bringing back the birch, with 1,886 against.

The vote came as members of Parliament cut across party lines to reject a private member's bill calling for revival of whipping. Home Secretary Sir David Maxwell Fyfe argued it would be premature to reverse a decision taken by the Labor government in 1948 to ban flogging.

Berg Rink Wins Trophy In Curling

A dramatic 12th-end victory last night brought curling honors and the George Cook trophy to Percy Berg's rink after scoring a remarkable comeback against Skip Chuck Ostertag and his

Brain-Spot Can Produce Extreme Fear

PEBBLE BEACH, Calif. (AP)-A London nerve specialist reported Sunday he had found a spot in the human brain which can produce-for no good reason at all—a feeling of extreme fear.

When this part of the brain is damaged, the person may have nightmarish fits of terror while awake, Dr. Donald MacRae told a meeting of nerve specialists.

Don't Try Too Hard or Fear Criticism

Mr. Abel is at his worst when playing with Mr. Champion. To avoid the great man's criticism, he tries too hard—as he did in today's deal.

For some unaccountable reason Mr. New, who is much better on the sidelines than at the table, chose to open the jack of hearts. Mr. Abel looked at the card suspiciously. He knew a wily old-timer like Mr. Dale was capable of opening the jack from queen-jack doubleton. But | West he doubted that Mr. New would be that tricky. He thought Mr. New would be

much more likely to lead the queen from that holding. He finally decided that Mr. New had led a singleton jack or from the jack doubleton. If the jack were a singleton, then Keen would have the queen South twice guarded and a finesse of the 10 on the second round of the suit would be necessary.

Mr. Abel confined his thinking to this one trick and forgot to think about the hand as a whole. He won the first trick on the board with the king of hearts and returned a small heart. After long thought, he finessed the 10. Mr. New pounced on it with the queen and returned a club.

There was no way to avoid lost the hand was down one.

CANADA AND THE UNITED STATES have signed a treaty opening the way for additional open season for halibut fishing in the North American side of the Pacific ocean and Bering sea. It is the third revision of the first halibut fisheries convention between the two countries, signed 30 years ago. Seated, left to right: William C. Herrington, special assistant for fisheries and wildlife to the U.S. under-secretary of state;

D. C. Bliss, charge d'affairs of the U.S. embassy at Ottawa, who signed for the U.S.; Prime Minister St. Laurent; Fisheries Minister Sinclair, and Veterans Minister Lapointe, both of whom signed for Canada. Standing, left to right: H. F. Feaver, Canadian chief of protocol; W. L. Rodman, of the U.S. embassy, Ottawa: L. D.
