For Northern Action

T IS becoming refreshingly obvious that north-Lern B.C. is not prepared to let its Pacific outlet go by default. The right note of urgency to this effect was contained in a letter read at the Prince Rupert Chamber of Commerce this week.

Sent out by the newly organized Canadian Northwest Associated Boards of Trade, with headquarters at Fort St. John, it called upon interested hoards of trade to take unified action in influencing northern railway construction.

"This association believes that, unless we get organized now and prepare for any eventuality, we could very well be caught napping to our everlasting regret," it said. "British Columbia must some day have another deep sea shipping port besides Vancouver, and it will be farther north. The resources of the northern portion of the province are about five times those of the southern areas.

"It is not only the business of every board of trade, but of every individual citizen, to take an active interest in the immediate development of these resources. It can be done and it shall be done."

The remarkable—and commendable—part of this call to action is its quality of vigor despite the fact that it concerns a subject which has had no official encouragement for more than 40 years. It is noteworthy also that it comes from a centre deep in the area where these resources are found. When northern coastal points like Stewart, Prince Rupert and Kitimat start drawing attention to their particular advantages, there are sceptics who will question whether their argument has anything behind it other than a desire to grab Vancouver's trade

When interior points express their preference for a northern port, however, the argument becomes more difficult to answer. Obviously they have no more wish to be sold down the Fraser than we have.

Summerless Summer

CPRING came eventually in 1816, farmers sowed I their crops, green shoots appeared. Then, in the middle of June, snow came. Tradition has it that from the first fall of snow in June until the following summer the ground was not free of show.

There were no crops of any kind. All the grains rotted in the field. The population had to live on fish and meat. The latter was plentiful because there was no hay to keep cattle alive. Thus many were slaughtered. In Quebec hay had to be imported from Ireland. Flour-no grain grew-rose to \$17 a barrel, and potatoes cost a penny a pound. In New Hampshire the price of hay was \$180 a ton.

It is difficult to separate legend from fact, but the dominion meteorological office in Toronto confirms that 1816 was known as the "Summerless Year" because it was unusually cold and unusually wet. -Peterborough Examiner.

BAPTIST HI-YP PLAYS HOST AT FIRST PARENTS NIGHT

The first Parent's Night conducted by the Baptist Hi-Y.P. was held at the Baptist Church Tuesday evening, with 44 parents and young people attending.

Members of the Hi-Y.P. entertained parents with a short musical program. Performing were Adolph Wiettick, flute solo, Sharon Williams, clarinet solo, Mary and Elizabeth Gofers, vocal duet, and Sharlene Ballanger and Barbara Hinton, vocal duet.

A short talk on the purpose of the Hi-Y.P., given by Ethel Moorehouse, was followed by a color movie on Mexico.

A game period and refreshments concluded the evening's entertainment.

kinsmen Team Practice Called For This Evening

A practice of the Kinsmen entry in the Little League has been called for 6:30 tonight at Algoma Park, instead of 7 o'clock Friday as previously announced.

Tomorrow Lipsett's work out and Saturday the Super-Valu team. Monday evening the North Stars take the field for training and on Tuesday the Kinsmen again. This schedule will be followed in rotation, the league executive announced.

All practices are to be held weather permitting, and if a team is rained out, it misses that practice.

NEW PROOF THAT MILLIONS CAN END THE NEED FOR LAXATIVES

-find relief from constipation this safe, natural way-without the injurious effects of repeated laxative use.

With all the progress of medical science over the past 30 years, authorities say there is no longer any reason why irregularity should be

our most widespread human malady. Nor is there any reason for dereloping the habitual use of harsh laxatives -of dosing with one preparation after another in the vain hope of finding, in some potion or

Long-continued study of the probdem has shown that one of the most common causes of irregularity is tack of bulk in the diet. And when this is the case, the common sense correction is to be found not in the drug store but in your food store!

pill, the "secret" of lasting relief.

IT HAS LONG BEEN A MEDIC-ALLY RECOGNIZED FACT THAT NATURE HAS PRO-VIDED, IN THE NATURAL **FOODS MEN WERE INTENDED** TO EAT, ALL THE ELEMENTS NECESSARY FOR THE LIFE-LONG AVOIDANCE OF COM-

One of these elements is natural Shrous bulk, or vegetable cellulose. hich normally and naturally aids the rhythmic process of elimination.

MON CONSTIPATION.

In no natural food is this natural bulk so ideally found as in the outer layers, or bran, of the whole wheat kernel which, as you know, is lost in modern milling.

Because of the known value of bran in promoting regularity the Kellogg Company has produced a complete, hole bran-with nothing taken way to lessen its effectivenesssold under the name of Kellogg's All-Bran, the natural laxative cereal How effective is All-Bran? This has

been demonstrated in a series of systematic clinical studies reported in leading medical journals.

In one study, 135 people with known delayed bowel function were given one ounce of All-Bran daily for one week. They were studied clinically and with X-ray with tests made before, during and after they ate the All-Bran.

OF THE 135 PEOPLE, 107 SHOWED DEFINITE CLINICAL IMPROVEMENT IN JUST 7

IN A FOLLOW-UP STUDY. BETTER THAN 6 OUT OF EVERY 7 PATIENTS WHO WERE GIVEN ALL-BRAN IMPROVED.

The greatest advantage of All-Bran is that it corrects the cause of irregularity due to insufficient bulk. Chemical or drug-type laxatives, on the other hand, are intended only for overnight relief of a temporary

When people use these products habitually -in a way that laxative makers never intended -they punish their digestive system in a way that nature never intended. Instead of correcting the cause, they often actually make their condition worse.

If you think you must take a laxative preparation occasionally, do so. But do it wisely. Read the instructions completely. AVOID EXCES. SIVE USAGE. But for natural and lasting relief put your trust in nature. Just eat daily a one-ounce serving of All-Bran for breakfast and drink plenty of water.

This All-Bran plan has helped millions to re-establish and to maintain healthful regularity. Why not you?

OUTDOORS With MARTY

TOMMY BOULTER and "DOM" DOMINATO are quite reluctant to talk about the splendid luck they enjoyed over a recent weekend in Terrace. They shared a catch of eight fresh-run steelhead from the Copper River.

BOB ARMSTRONG not nearly so reticent. He is anxious to tell the world just how he whipped a 15-pound Cloyah fighter. All the fine points on "how to do it" may be had for the asking.

The female of the species are n the news again. Reports from upriver tell of the large mos- contract. quitoes already feeding on human gore and from around Telkwa comes news of a second treeing by moose of a well-known logger of that district.

This condition pertains ace was now alone on his left fore, the defenders would cash until early next fall when his and he faced the problem of re- two hearts and follow with masculinity again becomes as- turning to his hand for another club lead sertive and he seeks outlet. The diamond lead.

Win with the ace of clubs and cows right now are beginning. If he led to the ace of clubs, lead the queen of spades. When to notice the weight of their un- he would set up a club loser and Mr. Meek's 10 drops, the rest of born calves, they have had to that, with two heart losers and the play falls neatly into place. put up with the annoyance of the ace of diamonds, would beat Overtake with the king of spades, dogs, coyotes and wolves during him. So he came to his hand return a small diamond and ruff the deep snow time. Most of the with the queen of spades and led it high. Next, the four of bulls have already headed into his last diamond.

This thing I have seen so many he went. times. Living among moose in winter pasture, one gets to recognize individual animals, to Keeping ARP see the differences in temperment, to notice how certain animals move off grudgingly if at all when approached or disturbed, and to learn that the antlerless bull is invariably inoffensive. So what with cow moose and biting female mosquitoes seems to be a woman's world after all.

+ + + Ontario is now out with the policy of no bounties for predatory animals and birds. That makes the trend pretty well Can-Eua-wide, as it should be!

This column thinks that this years salmon derby should not be confined to Rod & Gun club members, since this would force visiting anglers into two payments and perhaps licence fees as well. Furthermore, the very occas enal angler might not consider himself of club membership calibre, yet be willing to chip in for his chance at a prize. Let 'em all come!

In case there are some who worry and wonder as to the welfare of the patients at Miller Bay, and whether they will be ill-affected by the noise of shooting at the newly acquired club grounds at Oliver Lake, let it be known that official shooting noise tests were made and satisfactorily passed before the lease was granted.

IN SPRING A YOUNG MAN'S FANCY

It used to turn to love and poetry but in this day and age, it seems to be love and a jalopy. Lover boys don't seem to be writing poetry any more and, from what we recall of our youth, it's probably just as well.

So now that the sap is beginning to flow, most of the young swains around town seem to have their eyes on some dame, or some jalopy-or both. In either case we wish them luck. We hope they all get both. But about that jalopywhether you want some old boat to pole around in or one of the sleek newer models, we've got 'em. These and many others to choose from.
