Worthy Project To Support

THERE are few more worthwhile projects than those which feature benefits for the children and the future citizens of Canada and the Second annual Labor Day celebrations being staged September 7 by the Prince Rupert Trades and Labor Council do just that.

The day, with events catering mainly to children provides a last fling of happiness and excitement for the youngsters before they return to what they often consider the more confining atmosphere of school. It also has a more serious and most praiseworthy aim in that the funds raised during the day go toward a bursary which will help a graduating girl or boy from Booth Memorial high school carry on with their higher education.

Thus Prince Rupert folk who patronize the dance are not only receiving a measure of enjoyment but are helping the Trades and Labor Council to provide a little extra financial support to a boy or girl so that either may live a better life.

A lot of time and effort has gone into the planning of the Labor Day celebrations and still more will have been expended by the time that the day is over. Chairman of the committees, the committee members and those belonging to the Trades and Labor Council have put in long hours attending to the scores of details necessary to stage the children's sports, the soap box derby and the dance at the close of Labor Day. The work put in avails committee members nothing in personal gain except the heart-warming satisfaction of knowing that they have been contributing to something worthwhile.

The fact that the goal of the Prince Rupert Trades and Labor Council is to raise funds for the educational bursary coincides aptly this year with the fact that Labor Day, 1953 marks the 80th year of progress of the T.L.C. of Canada.

Labor has become educated in the last 80 years. It has come a long and a hard way and in doing so has benefitted the working man from one end of Canada to the other. Whereas 80 years ago labor's struggle appeared more in the form of a revolution against oppression nowadays the trend is more toward a mutually beneficial relationship between management and its employees.

Thus having progressed itself, labor, and in particular the Prince Rupert Trades and Labor council finds itself in the position to help others.

For this reason we commend the Trades and Labor Council on its efforts and express the hope that citizens give the project its wholehearted support. There is no greater satisfaction in being able to help someone aid somebody else.

Reflects and Reminisces

Hot weather has been spelling more than a hundred in the United States and almost that along the east coast. And right here in northern B.C. can be found folks who are managing to say something. They foresee an almighty cold winter and too little cash. Come on! What's on your mind?

The Sons of Freedom appear capable of doing anything except what the authorities want them to do. And somehow Canada must be developing a remarkable knack of feeling disappointments regularly.

NOTHING LESS

It's not so long ago a newly-married couple said farewell to friends in London who knew their future home would be Prince Rupert away out in British Columbia. "Prince Rupert," exclaimed one Londoner "do you know I hear it rains all the time there." Give a dog a bad name, etc., etc., etc.—also etc.

Something is going to be done to reduce dining car costs on the Canadian National Railways. President Gordon says so himself. So far there will be cars equipped with lunch counters and stools like a drug store, the discounting of linen tablecloths, plainer menus and pre-cooked, plainer meals. This looks like common sense, and more cash left in one's wallet.

Headless Vaincy, from the visual standpoint, should be a horrible place. For example, it is claimed ten murders have been committed there. But it's not anywhere near so distressing as painted. The valley is in the headlines again, this time with more truthfulness and it will bear, another name. Scenic splendor is everywhere. Virginia Falls, 316 feet, is twice the height of Niagara.

Hugh Walpole had such an instinctive knowledge of how to break bad or startling news gently that he was always being called upon. "But," the author admitted, "there was a nurse in the maternity ward of a London hospital who had me beaten. One evening, for instance, I saw an excited father stop her in the hall and quaver, 'End my suspense, nurse. Is it a boy?' Calm as a cucumber, she answered him, 'Well, the one in the middle is.'—Bennett Cerf in Saturday Review.

There is to be a new steamship in Prince Rupert. The old one flourishes still, yet its high time for a change. Few coast liners made a better record, or can look back on a more worthy period of service.

Bishop Fulton Sheen's explanation of why he always speaks without notes: "An old Irish lady, watching a bishop read his sermon, once asked, 'If he can't remember it, how does he expect us to?'"

Dogs with and without collars roam the streets of Prince Rupert. Some have great lung power at all hours. If each dog has an owner some of the latter should feel ashamed if his four-legged property isn't. In other words Prince Rupert has about 70 per cent too many, under present conditions.

Brooksbank Rites Held

VICTORIA (CP)—Funeral services were held here Monday for former Prince Rupert accountant Arthur Brooksbank, 73, who died in hospital here Friday.

Mr. Brooksbank lived in the northern British Columbia port for 40 years before moving to Victoria on his retirement three years ago. He was a native of Bradford, Yorkshire, England.

Besides his wife, Lottie, he leaves two sons, Frederick and William in Port Alberni, and a daughter, Mrs. Lucille Lipsett of Vancouver.

Canon A. E. Greenhalgh conducted funeral services and burial was in Royal Oak Burial Park.

OTTAWA DIARY

By Norman M. MacLeod

It's completely safe to say that enthusiasm for the United Nations hasn't been increased in Capital circles by what happened last week in New York.

The Canadian delegation, including the news correspondents who accompanied them, have returned in definitely jaundiced frame of mind. Their hopes for the success of the pending Korean political conference are exactly nil. They're not even confident that it will ever be held.

The only bright spot in their report on the generally unsatisfactory situation is their confidence that, regardless of what

may happen politically or diplomatically, fighting will not be resumed in Korea.

But even this reassuring prospect they do not credit in any sense to UNO. Their explanation of the reason there will be no resumption of fighting in Korea is simply the realistic one that no one wants to do any more fighting there except South Korean President Syngman Rhee—and the United States is believed to be able to handle him.

The most discouraging feature of the past week's proceedings for the Canadian participants was the evidence it gave of United States determination to have its Asiatic policy accepted by UNO. The heart of the United States policy is, of course, the continued exclusion of Communist China from UNO. It is generally believed that the dominant aim of Communist China in whatever sessions may be held by the Korean political committee will be to crash the gates of UNO. And that is why the United States was so determined that India should not sit on the Korean Committee.—It feared that India might be

sympathetic to many of the aims of Communist China, including membership in UNO.

While Canada has never taken too strong a stand on the claims of Communist China to membership in UNO, it is fairly generally known that the authorities here believe that no realistic Asiatic policy can be built upon refusal to recognize that de facto nature of the Communist regime, or upon the fiction that the Chiang Kai-Shek nationalists are still the real government.

Furthermore, the idea of any important Asiatic settlement being reached without India being represented in the negotiations doesn't carry conviction in government circles here.

In brief, the whole concept of United States policy in Asia arouses profound misgivings here, instead of commanding confidence. And the past week's evidence in New York of any lack of any spirit of compromise on Washington's part increases the pessimism that is felt. It is probable that right at the moment appreciation of Washington diplomacy is at an all-time low in these parts.

Foul Play Hinted In Deaths Of Five Children

MARION, Ark. (AP)—A judge Wednesday ordered a complete grand jury investigation into the deaths of five children who suffocated in an old ice box.

Circuit Court Judge Z. B. Harrison of Blytheville said the suggestion that there was foul play is well founded. A thorough investigation is necessary. The special grand jury was called for Sept. 21. Judge Harrison ordered 25 subpoenas served immediately because of reports that several of the witnesses were leaving the state.

He said he was considering placing all witnesses under bond to insure their appearance.

The children, the five youngest of Mr. and Mrs. J. A. Hallman, were found 21 days ago, cramped into an unused ice box on the porch of their tenant farm home.

The county coroner labelled the deaths accidental. Hallman said there were too many "funny things" involved and was convinced they were murdered. His wife agreed.

Being a gentleman is like being happy—if you must try to be you aren't.—Ex.

Modern-day Pied Piper Attracts Butterflies With New Inventions

PLACENZA, Italy (Reuters) — Paolo Cavanna, part-owner of a motorcycle repair shop here, is a modern-day Pied Piper—of butterflies.

He has developed two inventions which he claims are the first improvements in the art of butterfly catching in hundreds of years.

The first is an air gun to replace the traditional butterfly collector's net.

It shoots a cloud of paralyzing gas a distance of 30 feet. Fired at a butterfly in flight, the gun brings it senseless to the ground. A motionless butterfly is paralyzed where it perches.

Cavanna's second innovation is a whistle which emits a high E-flat note.

When he blows his E-flat, Cavanna claims, butterflies gather about him.

tanned, Happy Rupert Sea Cadets Back From Camp Comox Course

thirteen tanned Prince Rupert cadets returned yesterday on the C.N.S. Prince Rupert, with reports of their two-week training spent at Camp Comox on Vancouver Island.

PERSONALS

ation time came to an end as a number of residents when Prince Rupert docked here yesterday afternoon. Among the disembarking were Mr. and Mrs. Sid Alexander and their children, who have been away on Vancouver Island.

Charles Youngman and two smallest children also came.

and Mrs. Robert Cameron returned home after spending a vacation in the United States and southern B.C.

and Mrs. James Bremner returned from vacationing in the United States.

Harry Robins was greeted by his wife and daughter Shirley Hurst as she came from the ship.

ong those passing through the city yesterday en route to the United States was Wil-Boardman (Rep-Alaska), who flew here from Ketchikan by QCA and left by car for a conference.

game of the Moose summer was a great wind-up for 18 players attending. Mrs. Elmo was top winner for and Mrs. Annetti Anderson Miss E. Wassing tied for first. Miss Wassing won the Mary Astoria won the men's and Mrs. Grace Nielson second. The pool was a tie between three players: Mrs. Sam, Miss Wassing and Mary. The game will be played this day.

RCSC Captain Cook for the summer training course were given permission to stay over in Vancouver.

Returning cadets: G. Forbes, G. Morrison, A. Twaites, G. Desautels, F. Oliver, J. Kraupner, C. Trudeau, B. Davidson, D. Flood, D. Franklin D. McLeod, R. Duncan and G. Warner.

Those staying over were Cadets G. Lugin, R. Nordine, R. Jensen.

The cadets enjoyed perfect weather during their stay on Comox Spit, former site of RCN commando training barracks in Second World War, and before that a Royal Navy base dating back to before the turn of the century.

The former naval base was re-activated last year for training of cadets of the Western division. Prior to the Prince Rupert cadets' arrival with cadets from all over British Columbia, cadets from Alberta, Saskatchewan and Manitoba had enjoyed two weeks training there.

While there the boys took part in sailing expeditions, swimming, rifle range work and sports programs besides added training in seamanship.

The Prince Rupert boys were among the top cadets in everything they took part in. On one of the sailing days, while they

were sailing small skiffs in Comox Bay, a strong wind came up, changing the bay into a choppy sea. The Prince Rupert crews were the only ones who got back to Comox Spit jetty under sail. All other boats had to be towed.

Sub-Lieut. S. E. Alexander, who escorted the boys back, reported that the Captain Cook contingent cadets conducted themselves creditably and left a good impression wherever they went.

Thompson Buys Well Known Newspaper in Edinburgh

EDINBURGH —The Scotsman, one of the oldest newspapers in Britain, added another first to its long history Wednesday night when a Canadian became its new chairman.

Terms of a change of ownership were disclosed in a Scotsman statement, to the effect that Roy H. Thomson of Toronto, president of the Thomson Company Limited, has obtained three-quarters of the shares of Scotsman Publications Limited.

"In a way," Thomson said in an interview today, "I have taken control of the Scotsman for sentimental reasons. This is my native land."

Thomson, 59, said his family has come from somewhere around Edinburgh and with all my 19 papers, I always wanted to own one in Scotland."

Thomson said he will take up residence in Edinburgh to "run this newspaper myself," leaving for Canada some time next week to complete his affairs there. That may take two months, he said.

"My son Kenneth will take over the presidency of my papers in Canada. It is a birthday present to him. He was 30 Wednesday."

Thomson added that with the purchase of the controlling interest in Scotsman Publications Ltd., operating the Scotsman, the Evening Dispatch and the Weekly Scotsman, he has no interest in further additions in the United Kingdom. Recently, he inaugurated a weekly newspaper in London called "Canada Review," designed for Canadians living in this country.

Thomson's entry on a larger scale into Britain's newspaper world is believed the first since Lord Beaverbrook's. And, in the Scotsman, he has become connected with a newspaper boasting a long list of firsts technically and otherwise. It has some of the most up-to-date equipment in the country.

Founded in 1817, the Scotsman in 1868 was the first newspaper to distribute copies by retail dealers.

In the same year, it became the first to hire a special telegraph wire for private use, and in 1868 it became the first paper outside London to establish an office there.

In 1872, it was the first to follow the Times' addition of a rotary printing press. That same year, it ran a special newspaper

morning train, and in 1921 it introduced a high-speed multiplex printing telegraph, forerunner of the modern teletype.

Seven years later, it led the world, in installing a "photo-telegraph" for transmission of pictures in a matter of minutes. At late as 1949 it could boast that it had one of the two teletypesetter systems used by newspapers in Britain.

Anfield Scores Lack of Indian Teachers, Clergy

FORT WILLIAM —The Anglican Church "missed the bus" years ago by not recognizing the need of Canadian Indians for a native ministry, says Frank Anfield, superintendent of Indian affairs at Prince Rupert, B.C.

At a joint meeting here of the executive council of the general synod and board of management of the missionary society, Mr. Anfield said, "unless the Indians raise their own clergy, teachers and nurses, they won't have any because we apparently are unable to supply them."

Several speakers said that various evangelistic sects have recently entered the Indian mission field. It was announced that a commission will be set up to study the Indian problem.

LONDON (AP)—The Big Three Allies have called on Russia to join an early four-power conference of foreign ministers on the future of Germany and Austria.

Diplomatic quarters in Moscow today said Russia is unlikely to reply to the invitation until after the West German elections Sunday.

Identical notes were sent Wednesday by the United States, Britain and France suggesting the high level talks to work out: • Arrangements for holding free Germany-wide elections as an essential first step toward restoring German unity and agreeing on a final German peace settlement;

• Final agreement on the long promised Austrian treaty of independence which Russia has been stalling.

Informants said the Allied notes rejected Soviet Russia's proposal to set up a provisional all-German government which would participate in a German peace conference to be held within six months. The Soviets suggested also that free Germany-wide elections should follow the peace conference.

The notes made it clear that the Allies believe the Soviet proposals for holding elections after a peace settlement puts the cart before the horse.

The informants said the Allies proposed the ministers meet about mid-October in Switzerland. The lakeside town of Lugano near the Italian-Swiss frontier is understood to have been suggested as a meeting place.

The Allies were answering a series of Soviet communications in Germany and Austria received during August.

The call for four-power talks comes only four days before West Germany goes to the polls in a vital general election.

The Russian proposals on Germany were generally interpreted by Western diplomats as designed in part to influence voting in the West German election by the parties between Chancellor Konrad Adenauer.

As for Austria, the Russians are understood to have turned down an invitation to sit in a four-power conference of four-power deputy foreign ministers to draft a treaty.

TWO OTTAWA SCIENTISTS, Geoffrey Hattersley-Smith, 30, (left) and Robert Blackadar, 25, inspect some of the relics they brought back after four months' travelling along an ice shelf just north of bleak and lonely Ellesmere Island, 500 miles from the North Pole. The relics are from almost-forgotten polar expeditions.

Stamp Thieves Elude Police In Country-Wide Investigation

NEW YORK (AP)—A stamp thief piles a mysterious trade. Nobody knows for certain what he does with his loot.

Police and stamp dealers know he is active. In 10 years, more than \$1,000,000 worth of valuable stamps have been stolen. Very few have been recovered.

Peter G. Keller, executive officer and secretary of the American Stamp Dealers Association, believes stamp thieves are organized by a ring which will steal anything. He says:

"These are not merely stamp thieves. They probably are cleverly directed, well-organized gangsters who also steal furs, diamonds and anything else of value."

Keller thinks stamp thieves may have the help of philatelic experts, who help direct robberies. They are the ones, he says, who keep a close watch on a dealer's shop, noting where the valuable items are kept. Then they relay the information to the ring.

That's where the safe crackers come in. They break into a stamp shop, jimmy the safe, and make off with the loot. In some cases,

complete collections have been stolen from dealers' shops.

This same method of operation, repeated time after time, is what leads Keller to think there's an organized ring.

One of the biggest difficulties facing investigators is the ease with which a collection can be broken up and sold piecemeal.

Police in many cities are working overtime trying to trace the gang, if such there is. At a recent Tampa, Fla., exhibition, \$5,000 worth of stamps vanished. Then \$10,000 worth disappeared at Wilkes Barre, Pa. A Chicago dealer lost \$175,000.

Boom in Tool Sales Created By High Costs

CALGARY —Fix-it-yourself fever in Calgary has led to an unprecedented boom in tools and building materials. The high cost of contract jobs, a trend to smaller houses and a rise in home-ownership has created the handyman husband.

Though the new activity in amateur building has been dictated by economics, the job has been made easier by new tools and materials.

Plywood, formerly used only by hobbyists for fretwork on a winter's evening, now has practically pushed heavy lumber right off the market for almost everything from home construction to boat building.

The British Columbia-manufactured plywood has become so popular with amateur carpenters that one Calgary lumber dealer reports his sales have shot up by 500 per cent since the Second World War.

UN Chief Won't Rehire Ousted U.S. Employees

Senate Committee Orders Probe of Tribunal's Rule

UNITED NATIONS, N.Y. (AP)—UN Secretary General Dag Hammarskjöld says he won't rehire American employees, ousted in connection with U.S. States loyalty probes, despite a UN tribunal's order for their reinstatement.

Hammarskjöld announced his decision Wednesday night as an internal sub-committee ordered an investigation of the tribunal's ruling that 11 American UN employees—including the four—be reinstated. All 11 had refused to answer questions about alleged communist ties.

After the ousters, the tribunal Tuesday ordered the UN to give the four back pay and pay damages to the other employees who wanted money for re-employment.

SALARIES
The four-member tribunal, a "court" created by the UN assembly to review appeals from UN staff members, said those not reinstated

should be paid damages and back salaries.

The secretary-general said he asked the tribunal to compute money awards for the four, but added he would refer all 11 cases to the general assembly, "the organ responsible for implementing decisions of the tribunal."

In his statement, Hammarskjöld said rehiring the four employees would be "inadvisable from the point of view which it is my duty to take into consideration." He did not elaborate this point, but asserted that the assembly statute setting up the tribunal gave him the authority to reject its rulings.

UN officials had estimated that indemnities and salary payments to the other seven would amount to about \$135,000.

The new Senate sub-committee probe was announced in Washington by Robert Morris, chief counsel to the investigating group. Other members of Congress expressed strong objections to the tribunal ruling.

Morris said all 11 had invoked the protection of the fifth amendment to the U.S. constitution, which the courts have construed to mean a person cannot be required to give testimony which incriminate himself.

'No Smoking' Sign Painter Pays Penalty

ST. JOSEPH, Mo. (AP)—Lester Penny was in police court Wednesday on a charge of smoking in bed. The fire department charged his smoking had started a blaze in a hotel room.

Asked if he knew it was against the law to smoke in bed, Penny replied:

"I'll say I do. I painted 50 signs for hotel rooms saying it was against the law to smoke in bed."

Sign painter Penny was fined \$25.

Braves' Allie Reynolds Pose Headache for Bums

By BEN PHLEGAR
Associated Press Sports Writer

Brooklyn Dodgers nursed a double-barrelled headache today—Milwaukee Braves and Allie Reynolds.

The pesky Braves, who apparently refuse to believe the Dodgers are a shoo-in for the flag, are causing the immediate difficulty. The big chief of New York Yankees poses a problem the Dodgers will have to deal with later, assuming they solve the Milwaukee trouble.

The Braves tripped the Dodgers 9-8 in Brooklyn Wednesday night, giving them a 5-5 split at Ebbets Field so far this year. No other club has come close to breaking even against the Dodgers in Brooklyn.

The loss cut Brooklyn's lead to 10 games with 22 to play, three more against Milwaukee.

FOURTH SUCCESS

Reynolds, regarded by many as the key to the Yankees' World Series hopes, made his third start since the end of June and pitched eight excellent innings in beating St. Louis Browns 9-1. He allowed only four hits. This was only his fourth success in a starting role this season although he's won 11 games.

Plagued by ineffectiveness and injuries in recent weeks, Reynolds appeared fully recovered on both counts.

Although they won, the Yankees didn't add to their 9½-game lead since second-place Chicago and third-place Cleveland also triumphed. The White Sox beat Washington 7-3, Cleveland defeated Philadelphia Athletics 6-3 and Boston whipped Detroit 5-2.

In the National League Robin Roberts of Philadelphia failed to win his 22nd game, bowing to the St. Louis Cardinals 10-7. Pittsburgh beat Chicago 8-1 and New York Giants shaded Cincinnati 4-3.

Rookie Jim Pendleton paced the Milwaukee attack with four hits as the Braves came from five runs behind in beating Brooklyn.

The Cardinals exploded for six runs in the seventh inning at Philadelphia, including a three-run homer by Ray Jablonski and a bases-empty blast by Steve Bilko.

GRAND-SLAM HOMER

Preston Ward hit a grand-slam home run and drove in six tallies for Pittsburgh against his former Chicago teammates. The victory was No. 42 of the season for the lowly Pirates, equalling their total for all of last year. They have 17 games left.

Ruben Gomez won his 13th game for the Giants in beating Cincinnati.

The Athletics routed Bob Lemon with three runs in the first inning at Cleveland but Art Houtteman stopped them cold the rest of the way. Wally Westlake homered twice for the Indians.

The White Sox pounded four Washington pitchers for 16 hits, a real feast after their recent diet of Yankee pitching. Nellie Fox paced the attack with three singles.

Mel Parnell won his 18th game for Boston although he needed help from Ellis Kinder in the last two innings at Detroit. Dick Gernert homered with one on for Boston.

Showdown Series Set Tonight Between Indians and Broncs

By The Canadian Press

The Spokane Indians and Lewiston Broncs square off Thursday night in the first game of a showdown series expected to determine the Western International Baseball second-half championship.

Four games are on tap in the stand at Lewiston and the winner will meet Salem, the first-half champion, in the WIL post-season playoff.

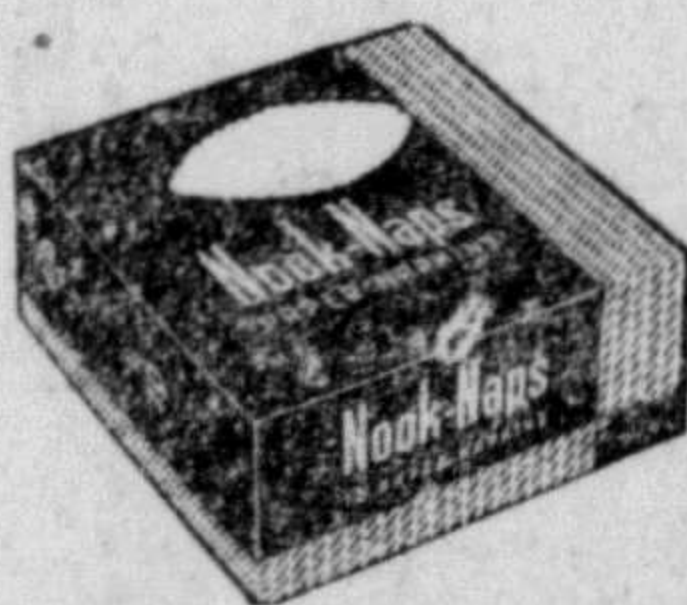

Spokane has a one-game bulge over the Broncs going into the series. The Indians regained the top berth Wednesday night when the Broncs dropped the second game of a doubleheader at Vancouver. Lewiston won the first game 4-1 while Spokane was shutting out Wenatchee 9-0. Vancouver shaded the Broncs 6-5 in the nightcap, however, to end their six-day reign as league kingpin.

In other games, Yakima smothered Victoria 9-1, Edmonton edged Salem 8-7, and Tri-City took both ends of a twin bill from Calgary, 5-2 and 8-6.

SPORTS ROUND-UP

By GALE TALBOT

NEW YORK (AP)—There is a rising suspicion in baseball circles that Brooklyn Dodgers have what it takes to whale New York Yankees this time and deprive professor Casey Stengel of his heart's desire, an unprecedented fifth straight world championship.

The latest official averages make it clear that the National Leaguers possess one of the most fearsome batting arrays since the days of Murderers' Row, that their pitching has exceptional depth and that manager Charlie Dressen has done a great job of shifting his athletes about to throw all the power at his command into the line-up.

As this is composed, no fewer than six Dodgers who figure to face the Yankees in every game of the world series a month hence are clubbing the ball at 300 or better. It might take some digging to find a National League team of modern times which boasted such a slugging array at this stage of a hot summer.

Dressen's three outfielders, Carl Furillo, Jackie Robinson and Duke Snider, were hitting .333, .329 and .318, respectively, through Monday's games. Catcher Roy Campanella continued to powder the ball at a .328 clip; third-baseman Billy Cox, in better physical shape than usual, was lending a hefty .305 to the concert, and first-baseman Gil Hodges was booming along at an even .300.

The squat Campanella, a bust in the last series, had driven across 124 runs, 34 of them representing his home run total. Snider had 109 rbi's and 30 homers. Hodges' figures were 113 and 29, Furillo's 91 and 21.

RIGHT-HANDED POWER

As this is almost solid right-handed power, Snider being the only lefty in the group, the deep thinkers already are wonder-

dering what the Yanks are going to do for right-handed hurling in the three games scheduled at Ebbets Field, where the short fences beckon. It begins to look as though Allie Reynolds will not be the answer, as he was a year ago.

The 37-year-old chief plainly is not the pitcher he was, and there seems little reason to believe that he might suddenly regain his old skill between now and the play-off.

Houston, Telkwa Meet Sunday

(Special to the Daily News)
SMITHERS—Playoffs for the Bulkley Valley Hardball League championship enter the final stage Sunday when Houston meets Telkwa in a best two out of three series. Houston will be the home team for the first two games. Should a third game be necessary it will be played at Telkwa the following Sunday.

Houston ousted league leading Hazelton Muckers in a doubleheader by one-sided scores after ending up in third place. The Muckers were handicapped by loss of their sparkplug catcher Heit.

CAPETOWN (CP)—The South African Broadcasting Corporation has erected a new medium wave station in northern Transvaal and others are planned at Kimberley and Bloemfontein. The corporation is keeping its eyes on overseas television development but has no TV plans at this stage.

French Minister of State Objects to Foreign Policy

PARIS (AP)—Minister of State Francois Mitterrand has offered his resignation from the French cabinet in protest against French policy in North Africa.

Premier Joseph Laniel refused the resignation and the two men planned to discuss the issue today.

Mitterrand raised objections in Wednesday's cabinet meeting to Foreign Minister Georges Bidault's choice of Pierre Voizard, a little-known civil servant, as the new resident general in Tunisia. The cabinet approved Voizard.

Mitterrand is generally regarded as the most Liberal member of Laniel's right-wing coalition cabinet and has been a frequent critic of Bidault's foreign policy, especially toward troubled North Africa.

Mitterrand wants France to move further and more quickly in meeting North African demands for independence.

Should Mitterrand make his resignation stick, it is not expected to endanger the life of Laniel's cabinet.

Mr. Champion Plays Hand To The Hilt

There is a certain satisfaction in reaching a major suit game and being able to lay down 11 tricks without a play of any kind.

There is more of a thrill, however, in a hand which is bid to the very hilt and brought home by perfect planning and play—or even by good luck.

Mr. Champion's four heart contract in today's deal could hardly be called a laydown. Between them the defenders had three of the kings, two of the queens and all four jacks.

Mrs. Keen led the king of spades and as usual Mr. Champion followed the commendable practice of studying the situation carefully before playing that first card from dummy.

He saw there was a sure loser in spades, one in hearts and possibly two in diamonds and one in clubs. One of the potential diamond losers could be eliminated if Mr. Dale had the king of the suit. That is, a diamond to the ace and a diamond back would make the queen a third round winner.

But on the bidding, Mrs. Keen could be figured for the king of diamonds. However, she could also be reasonably expected to hold the king of clubs and if she did, there were no club losers at all.

Mr. Champion let the king of

U.S. Allots Aid To Iran

WASHINGTON (AP)—The government announced today allotment of \$23,400,000 to continue present aid to Iran, as distinct from the special financial backing being prepared for its new anti-Communist government.

The foreign operations administration said the money would be used to continue programs and projects developed during the last three years under the point four program of technical assistance to under developed countries.

In an exchange of letters with U. S. Ambassador Loy Henderson, Premier Zahedi affirmed the assistance agreements made by his predecessor, Mohammed Mossadegh, on U.S. aid and promised his government would "expedite the fulfillment of programs designed to advance the welfare of the people of Iran."

The amount allotted is separate from the special financial and economic aid Zahedi is to receive to help tide his government over the financial crisis it inherited from Mossadegh's regime, overthrown 17 days ago.

ALBERT DORLAND, 49, of Toronto is wanted by the RCMP on narcotics charges. Warrants for his arrest were sworn out following seizure of 16 ounces of heroin, worth \$90,000 on the illegal drug market, by the RCMP at Gravenhurst, Ont. The RCMP have asked Canadians to be on the alert for Dorland.

Pahlevi Envoy Averts Revolt in Shiraz

SHIRAZ, Iran (AP)—A special envoy from Shah Mohammed Reza Pahlevi—backed by a show of force—apparently has averted a revolt by the powerful Ghashghaies tribe and staved off an invasion threat to this historic Iranian city.

All Heyat, governor of the region, who trekked into the tribal area to consult leaders of the warlike people, said today the situation is "satisfactory" and "any hypothetical danger has been averted."

The Ghashghaies were strong supporters of former premier Mohammed Mossadegh, ousted by a pro-shah uprising Aug. 19 after the young monarch had fled to a brief exile in Italy.

With Mossadegh's downfall the tribal chief, Mohammed Nasser, fled to the surrounding hills. Army intelligence reported he and his 200,000 warriors were preparing to invade Shiraz, a city of 115,000 in south-central Iran.

Heyat, after conferring with the tribal chieftain, said he had given Nasser a personal invitation from the shah to visit the monarch in Tehran. He Nasser "probably will accept."

The envoy added that chief "certainly" would accept a purge of Communist elements in the tribal rank and file.
