Question of

Chamber of Commerce Not Satisfied That Liquor Store Purchase Wise Move

Wisdom of the city council in deciding to purchase the former liquor store building at the corner of Third Avenue and Second Street for use as a telephone exchange was questioned at the meeting of the Prince Rupert Chamber of Commerce with the result that the municipal committee was requested to investigate the whole question and re-

port back to the chamber. A motion to this effect by Dr. R. G. Large was approved after being given priority by the chair over a previous motion by I M. Felsenthal that the city council be asked to reconsider its decision to purchase the liquor store and select a different site for the telephone exchange which site would also allow of the erection of other city buildings such as City Hall and Fire

The matter of the liquor store building purchase came up during a general discussion of municipal affairs in which the chamber was urged by the president, T. Norton Youngs, to take

a more active interest. View appeared to be general that the liquor store property was too valuable to be kept off the tax list and that a new telephone building could be built on a less central site at a cost comparable with the expense that will be entailed in purchasing and rehabilitating the liquor

When the urgent necessity of a new City Hall and new Fire Hall was injected into the discussion, Dr. L. M. Greene took the view that these were secondary considerations to the need of water and sewer improvements, better streets-to say nothing of housing.

Canadian Dollar Tops

A MERICAN currency specialists attribute the / rise in Canada's dollar to the Dominion's "Welcome Stranger" policy towards imported capital and its ability to keep the country's economy shipshape.

Last week the Canadian dollar rose to a 17year high—\$1.025/32 in terms of the U.S. dollar accompanied by heavy buying of Canadian securities on the New York Curb Exchange.

Economists of the Federal Reserve Bank at New York said the rise was caused by a heavy flow of investment capital into Canada, but Franz Pick, currency specialist who calls the Canadian dollar ""the most interesting currency in the world," says there are deeper reasons behind it.

Pick, publisher of the "1951 Black Market Year Book" and "Pick's World Currency Report," says good management, Canada's unlimited development possibilities and its ability to support a population of millions more than it has are behind the rise.

The currency specialist looks upon the Canadian dollar as a possible rival to the U.S. dollar which has pretty well ruled the currency roost in recent years and "until the end of 1951 was king among hoarders."

Pick figures that if the Canadian dollar continues at \$1.01 or \$1.02, "the implications would create world-wide repercussions." He estimates that between \$5,000,000,000 and \$6,000,000,000 U.S. are hoarded abroad by people who want to protect their wealth.

"They will not hesitate to change their American money to any other which seems to promise better protection," he said.

The only cautionary note in the optimism over the Canadian dollar's rise has come from the other side of the Atlantic.

In an editorial last week The Financial Times of London said that the flow of investment into Canada may partly be "hot" money-of a type designed to test the financial weather and retreat at the first sign of danger.

Denationalization

A DJOURNING for a short Easter break, the British Parliament has still a mountain-two mountains-of work before it for the rest of the session. The business of undoing the nationalization of the iron and steel industry and of reshaping the public control of Transport has yet to come. The three months or so before the normal summer adjournment are short enough, in all conscience, for such a program. Many wonder if, indeed, the work can be got through in the time.

This last week before Easter keeps alight some of the controversies that have moved Parliament in both Houses in recent weeks and months. There is a lot of detailed work on the National Health Service Bill, for instance. The government is hoping for the co-operation of the Opposition in getting that finished with and sent to the House of Lords. That will probably be done.

But the Opposition has been feeling that the government gives it little cause to be co-operative, and there has been a trial of strength—even a trial of physical strength with all-night sittings-with each side trying to tire the other out and with Opposition MPs trying to make it more difficult for the government to organize the program of work and get it through.

PRUSKY ANSWERS MAYOR

Daily News:

In answer to "Defeatist Attitude" by Mayor Whalen in April 4 issue of the Daily News, stones fall as well as moulding. Last fall when a stone fell in Montreal close to Princess Elizabeth apparently from a stone building, we heard nothing in the press of a luncheon being held anywhere where the stone or piece of stone was exposed. I am quite sure need of a new city hall as it is in deplorable condition.

I noticed that Mayor Whalen avoided the issue of a fire hall, good condition, as it was not mentioned at that time, but can assure you if the John Howard Society had investigated it three or four years ago their answer would have been as positive as today. In fact the RCMP Inspector told the Mayor and the Police Commissioner that they would not tolerate these conditions much longer. This jail business is nothing new to the council. It is anything but good, I can assure you.

The parking meters may not be of any use, To my understanding these meters would be installed at no expense to the city. They would be on trial. Should they be installed the RCMP will not look after them so we must hire a man to look after them. As I see it, this would be the first step towards city policing. If the parking signs man. Furthermore why does he of the Victoria Conservative club, the authorities for possible action not bring this matter before the or of a red-faced, fierce regi- next year. city council instead of the Rotarians and the press?

I will also remind the mayor that most of the roads in the city are in deplorable condition. They are not falling but have fallen. Flease take a look at Overlook and all the work that has been done in that area through local improvement. I think the mayor is on the Police committee.

It seems that the mayor wants revenue from the old liquor store but not from parking meters. Is he afraid that he, himself will have to tip the meters?

Prince Rupert Daily News Tuesday, April 3, 1952

Kenneth Anderson, general ent, Canadian Pacific Air Lines, and J. F. L. Hughes, chiropractor, were welcomed as new members at the regular monthly meeting of the Prince Rupert Chamber of Commerce last night. Guests at the meeting were W. J. Burgess, new postmaster here, D. J. B. Harrison of Vancouver and Jack Stansfield and Chris Dahlie of Prince Rupert.

Junior Chamber of Commerce at for winter loading, A. P. Crawley, the meeting of the Senior Cham- chairman of the port committee, ber last evening. Hugo Kraup- said that the United States govner, who said he intended to ernment had no authority to take up the matter of the rat nuisance and Ernest Paulding were delegated to represent the Senior Chamber at the next Junior Chamber meeting.

Hugo Kraupper reported on recent attendance at a meeting of the British Columbia Tourist Council in Vancouver. He raid that 247 000 foreign cars had come into British Columbia last year and had left \$63 000 000 in the country. This indicated that tourist travel was now a major industry. The establishment of a tourist bureau at Blaine on the border is contemplated. The Council had been told that the Hart Highway northward from Pince George to the Peace River manda he enemed by July 1. However, it was pointed out that there would be no service stations or overnight stopping n'acces to start with and traveler on the road should take adequate fuel supplies and camp emipment with them.

The Chamber received a letter from the Minister of Transport empressing appreciation for a communication which had been sent by the Chamber commendinc the action which had been taken by the staff of the Sandspit airport on January 19 last when an American Korean airlift plane had crashed there with loss of 36 lives. The minister said the "kind words" were much appreciated and would be sent

D T. Applewhaite, M.P., advised the Chamber that the Posting ter-Gene al had rejected request that twice daily air mail

service be instituted here at the cost of carrying mail on the second flight would be \$112,000 per year and was, therefore, unwarranted. Mr. Applewhaite himself felt there were other ways in which an amount of this size might be spent to better advantage. J. W. Scott questioned that the cost of carrying air mail on the second flight would actually cost such a large figure and the Chamber accepted his suggostion that Mr. Applewhaite be asked for further explanation.

Speaking of a press report last week in regard to modification of the international load line to bring Prince Rupert and Alaska ports into the same category as Dennie Rouse v presented the Vancouver and southern ports "Continued on page 41"

Science against pain

Science progresses: For 50 years we have used little white tabletsacetylsalicylic acid-for the relief of pain. Today this familiar painkiller is available in a new form without the disadvantage of insolubility, acidity and bitter taste. It is called DISPRIN.

Why take DISPRIN?

Because DISPRIN is soluble and substantially neutral. When taken in water as recommended, it enters the stomach as a true solution and not as undissolved particles. It is therefore less liable to cause stomach discomfort.

DISPRIN is readily absorbed. Because it definitely dissolves (not merely disintegrates) it permits speedy absorption and gives quicker

DISPRIN is palatable. Even children will take it readily.

Science steps forward with

How Much To Bid Is Tough Problem For Most Beginners

Mr. New has learned what suits to bid. But he can't seem to learn how much to bid. This failing is

characteristic of beginners. Mr. New was right to open his hand with a diamond. He was right to help spades on the second round. He was wrong, however, in the number of spades he bid. He had a good, sound raise to three spades.

Mr. Champion had no difficulty making four spades and he wanted to know why Mr. New had soft-pedalled the hand. Mr New's answer is typical. "I bid my hand," he said, with a selfrighteous tone in his voice. "I opened the bidding and promptly raised you in spades. What else do you want me to do?" Mr. Champion was scornful. The bidding:

"It isn't enough to bid your North hand," he replied coldly. "You have got to bid your hand as high as his actual holding

Mr. Champion was pretty nasty about it, but as usual he was correct. When the opener raises the responder's suit (or no trump bid, for that matter) he should go all the way-

The only tire that protects you from all three driving hazards... blowouts, punctures and dangerous skids

It's here . . . the revolutionary B. F. Goodrich Tubeless Tire that needs no inner tube. The air-retaining lining is actually a part of the tire itself.

A DREAM COME TRUE

Ever since B. F. Goodrich built tires for the first automobile manufactured on this continent, the dream of tire engineers has been a pneumatic tire that would need no inner tube. During World War II, B. F. Goodrich research made such a tire possible. It was used on combat vehicles under the most difficult driving conditions. Later the Tubeless Tire was perfected for use on automobiles. In 1946 tests were made on police cars and taxi fleets. It was a complete success . . . a dream come true

. . . the B. F. Goodrich Tubeless Tire that protects against punctures, blowouts and dangerous skids.

PROVEN ON THE ROAD

The B. F. Goodrich Tubeless Tire has been used for over four years in the U.S.A. by thousands of motorists. Their acceptance and exceptional mileage reports are your guarantee that this is the finest tire you can buy.

B. F. Goodrich Tubeless Tires fit your present rims. No special fittings are needed. The scientifically designed rimseal ridges form an air-tight pressure lock against the rim. It can't come off . . . doesn't lose air.

See this revolutionary tire now at your neighbourhood B. F. Goodrich dealer.

PROTECTS AGAINST PUNCTURES

A layer of sealant rubber, under the tread, sticks to any puncturing object preventing loss of air. When the object is removed, the puncture seals itself instantly and permanently.

PROTECTS AGAINST BLOWOUTS

Most blowouts start when a tire is bruised. The damaged casing pinches and chafes the inner tube until it blows.

The B.F.G. Tubeless Tire has no inner tube to blow out. Damage to the tire can only cause pinhole leaks that lose air so slowly you have miles in which to make a safe, easy stop.

PROTECTS AGAINST DANGEROUS SKIDS

The Tubeless Tire has an amazing new tread with thousands of flexible rubber "gripblocks". These tiny blocks grip like a tank tread, giving greater traction than conventional tires . . . up to 40% more on wet roads ... up to 100% more on ice. The flexibility of this new tread increases tire mileage 10 to 15%.

Its a Deal!

It takes two people to make a deal. Years ago when the present management of this company took ove: we decided to make Wallace's Department Store a store for Prince Rupert to be proud of. Our dreams PLUS your good will has finally made this possible.

Our Faith in Prince Rupert-In Ourselves and in YOU

We have complete faith in Prince Rupert. We have faith in ourselves. We pledge ourselves to give you the merchandise you want at the price you want to pay. Wallace's everyday regular prices will be as low or lower than like auality elsewhere in Canada. Wallace's sale specials will beat sales in other cities. By building the most up to date premises in Canada, we have shown our faith in you.

Through Our Doors Pass The Nicest People in the World

Japanese Ship Here

Local Elevator Being Cleaned Out of Wheat-Barley Next

Having made a quick return voyage from Nagoya, Japan, for which port she left here March 13, the Japanese freighter Kiyokawa Maru, Capt. K. Mashima, is back at the Prince Rupert elevator today loading another full cargo for Japan.

The vessel arrived at 10:30 this morning and pouring of wheat started this afternoon. She should be away about Friday with a cargo of 310,000 bushels. Before leaving, she will take on fuel at the Imperial Oil Co. here.

With the cargo the present vessel is taking ,the elevator will be cleaned out of wheat and will now start handling barley. Already 125 000 bushels of barley is here and more is on the way.

First of four barley ships is expected about the end of the

Capt. George Coles, well known former Canadian National Steamships and Union Steamships shipmaster, is here to act as pilot for the Kiyokawa Maru. C. R. Cunningham of the Department of Agriculture and Capt. H. D. Perry of Canadian Stevedoring Co. are also here.

Frank Calder, MLA for Atlin, arrived in the city Sunday night from Alert Bay, where he has been attending a Native Brotherhood of B.C. convention. He left again today for Vancouver *to attend a CCF convention in Vancouver.

Jailed After Five Minutes Of Freedom

Fred Farrington walked out of County Court this afternoon just before press time a free man after four months of jail while being tried on a charge of retaining stolen property. But only several minutes later he was served with a notice of appeal, authorized by Crown Prosecutor T. W. Brown, QC, on instructions of the attorney

Defence Counsel Doug Hogarth won Farrington's acquittal yesterday on a point of law and his argument to have accused released at 2 p.m. today was not contested by Mr. Brown.

Case will likely be reviewed at the present court of appeal sitting in Vancouver.

A legal battle which still has not ended gave less than five minutes of freedom after four months in jail to Frederick Farrington. He was again taken into custody yesterday afternoon while Crown Prosecutor T. W. Brown, QC, is making an appeal against a County Court judge's decision.

Judge W. O. Fulton yesterday Death dealing warfare in the acquitted Farrington after disair is realistically suggested in missing a charge of retaining the dramatic story of the Kor- stolen property in connection ean conflict now showing at the with alleged disappearance of 23,320 cigarettes from a local

The role of Sergeant Zack, left the courtroom to return

Case will again come up in county court today at which time defence is likely to call for Farrington's immediate release, notwithstanding the appeal. Judge Fulton made himself

clear, however, that he was dismissing the charge on a point of law and "with a great deal of reluctance." His Honor also stated that it was "with some reluctance" that

he was unable, according to law, to give consent to a second charge of receiving. He found Farrington had "guilty knowledge" that the cig-

arettes were stolen "even before he took them up until the time that he turned them over."

Police testified earlier in the case how they had seen Farring-

ton make delivery of the cigar- CIRCUS COMES
