erupted in a series of explosions Smoothing out of the issue of foreign supervision of the vote. The Canadian Pacific Railway shortly before midnight. The railway bombings occurred a short while later.

Police declined to say whether the bombings were the work of more than one raiding party and could not say immediately the type of explosives used. However, they said the distance between the two points, plus the timing of the blasts would seem to indicate more than one group was responsible.

The district has been silent since last fall, when 144 Sons of Freedom Doukhobors were arrested for nude parading.

Many were subsequently sentenced to terms ranging up to three years.

British Ship Here For Grain

A new British ship, the Stylehurst, London, England, is in harbor here, taking on a load of barley bound for Japan. .

The 10.000-ton Stylehurst, under Captain R. Masterman, docked at the grain elevator late Saturday night, and started taking on grain this morning. She will take a cargo of 9,450 long tons of barley to Japan, sailing late this week.

Launched only 18 months ago, the Stylehurst with her complement of about 40 men, came to the B.C. coast direct from Korea where she had delivered grain loaded in Vancouver. She stopped over in Victoria to pass customs before coming here.

Bulkley Valley Needs Attention

ithorized as second class mail by the Post Office Department, Ottawa

OR THOSE trying to promote the Bulkley Valley as an important farming area, there is some useful reading in a publication put out by the federal department of agriculture on the experimental substation at Smithers.

"Many other problems outside the scope of the work of the substation limit agricultural production and development," it points out. "Few farms are found with a sufficient area in crop to produce the revenue necessary to sustain the farm and farmer under present-day conditions. Thus the operator is obliged to seek, revenue from other sources, to the detriment of his farm in most instances.

"The lack of adequate water supplies for livestock and domestic use is a handicap on many farms. Distance to market and market instability are both prime difficulties. In the latter case, the lack of any organized marketing effort is the source of the trouble. Finally, it is recognized that many of the original settlers came to the district to engage in activities other than farming. They became farmers of necessity. Without an agricultural background they were at a disadvantage and it is probably a tribute to their tenacity that they did so well."

Some of the points made here are already receiving attention. In particular, the lack of any organized effort has come in for a lot of study lately by the Smithers Chamber of Commerce.

It seems unfortunate, however, that farmers in the area must suffer because their property is insufficient to produce a profitable crop. Such a condition says little for the encouragement—if any being given to those who are pioneering that country.

It is disturbing also to learn that farming there is a last resort. It is understandable from this why better marketing methods are so slow in gaining acceptance. Lacking agricultural experience, many of the farmers are probably too burdened with their immediate problems to think about expanding their markets. This appears to be another case where more official interest in the Bulkley Valley development would help. Lack of adequate water supplies might also be corrected if the farmers were given more assistance.

It is time that both the B.C. and federal governments were made aware that the Bulkley Valley soon will be called on to feed a major industrial area. A certain amount of encouragement and scientific instruction for those now opening up the land would eliminate many of the trials and errors now being encountered.

get this 15 per cent tax abolished because I don't think the 15 per cent tax should be abolished. allowed to go free in Canada, to the extent of setting up free competition with the CBC, cutting and squeezing to fit wherever the CBC now has a into a peacetime economy geared tan centres. But I believe in gram, but the aircraft branch to see free competition in public service so that TV owners right across Canada can have a choice of Canadian programs, and not be held captive to one station, or be forced to

choose between a CBC monopoly

TV outlet and private TV sta-

tions in the U.S.A. But it seems to me to be a complete fallacy to believe that we can set up a satisfactory TV system from coast to coast without a large expenditure of public money. One single CBC TV station, in Toronto, cost two and a half million dollars simply to set up. According to Mr. Abbott's budget, the 15 per cent excise tax will bring, in to the national treasury this year some \$24.8 million. That money will all be turned over to the CBC and I don't think the amount is excessive, because it is going to cost plenty to set up CBC TV stations in all provinces, as well as to build the national system of microwave transmission.

Of course, it would be possible to cut this excise tax off altogether and to vote the money for the CBC out of the general revenues of Canada. But I am personally very much opposed to an ysuch "head in the sand" ostrich-like policy.

IT SHOULD be remembered that this 15 per cent excise tax will bring in the large sum only during the next few years when exerybody and his brother in Canada is buying his first TV set After that, the annual intake

will dwindle. I do not think it is a bad thing to have this extra money coming in at the very time when the heavy capital ex-

The preachers tell us salvation To begin with, the sun was too little. There were enough is free, and I have no quarrel shining brightly and the water fishing lines for everyone to have with that. But anything the government has to do, through any er for a fishing cruise is over- On top of all these things, we subsidiary like the CBC, has to be paid for. There are only two who ways to pay for public services, caught the biggest. We arrived either by taxes or debt. I am When we assembled at the bay, back at the bay feeling warm against extra debt, and therefore in favour of having the taxes right out in plain sight

> The kind of a TV set-up which I favor for Canada as a whole is as follows: Keep the CBC as a senior partner, with first-class, modern stations, giving firstclass programs from coast coast and let this service be paid for from the taxes; but let free enterprise TV operate freely in competition with the CBC right across Canada, allowing the com-SEYMOUR, Texas A- This mercial stations to run their own only to the general laws of Can-

Lumbering Course For Students In Port Alberni

PORT ALBERNI, B.C. W-Port Alberni, Vancouver island lumbering centre, may be the first city in British Columbia to have high school courses directly related to the lumbering industry.

Trustees have approved in principle the forestry courses suggested by Principal E. Dunn, And senior officials of the department of education are reported to have given enthusiastic, though unofficial, sanction to the plan.

It is hoped to inaugurate two-year course at the start of the fall term in September.

The first year's course would be of a general theoretical nature, with the students taking more practical work, including elementary lumber grading, in the second year.

Lumber industry represent tives will be asked to join arranging details.

Work at Algoma Slated Tonight

Weather permitting, a Little League work-bee has been called for tonight between 7 and 7:30, to complete work on the diamond at Algoma Park .

A good turnout for work parties over the weekend was reported today by Archie Bowen, league president. The combined efforts of fathers and sons completed work on the backstop, and Mr. Bowen says that the extra bleachers should be completed in a couple of days.

Extra cinders have been spread over the diamond, and tonight's work-bee to rake them in should provide a good bind with the gravel, Mr. Bowen stated.

Carl Erickson, manager of the Little League Super-Valu team has called practices for tomorrow and Friday at Algoma Park at 7 o'clock sharp. Coaches Dan Johnston, John Rosedale and Dan Morrison will be on hand to put the boys through their paces.

RED SOX MANAGER LOU BOUDREAU (left) checks team signals with catcher Mickey Owen. Owen, who just turned 38 says his spot behind the plate is an easy one and expects to go on catching until he's 50. Since he joined the St. Louis Cardinals back in 1937. Mickey's 17 years on the diamond have been any thing but dull, including a short tenure with the Mexican League and a court case, now pending, in which Mickey is charged with biting a rival player while managing the Norfolk (Va.) team last year.

Africans Granted Self Government For Gold Coast

LONDON (Reuters - Great Britain has handed the Africans of the Gold Coast full control of their domestic government in the first step toward making the colony independent.

The colonial office and Prime Minister Kwame Nkrumah's government have agreed on a draft constitution under which general elections are slated for next June.

The British governor of the West African colony will retain control of defence and foreign policy until the Gold Coast is deemed ready to assume total

When your trumps are solid and dummy's holding is shorter than your own, it does not gain a trick for you to ruff in the closed hand. Your trumps are all going to take tricks anyway. You gain a trick

only by ruffing in dummy. In today's deal Mr. Abel could have made it rougher for Mr. Dale if he had chosen a trump for his opening lead. Actually, he got off to the queen of clubs opening and dummy's ace won. A beginner might have cashed

the king of clubs, led a third club and ruffed it in his hand. This would have gained absolutely nothing as the five spades in the South hand are always good for five tricks, no more and no less.

DALE IS LUCKY

Of course Mr. Dale could hard- 2 S ly be classed as a beginner. He realized how lucky he was not to have got a trump opening.

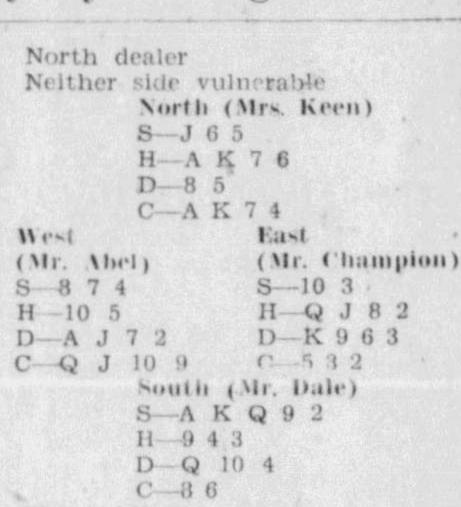

At trick two he led a diamond and put in the ten when Mr. Champion played low. Mr. Abel

won with the jack and, too late, shifted to a trump. Dummy's jack won and another diamond was led. Mr. Abel won with the ace and fired another trump. Mr. Dale won with the queen and ruffed a diamond with dummy's last spade. Thus he lost only two diamonds and a heart.

Pass

The contract was a sound one Water, chairman of the National as there were several chances Weld Trust. He said much of the for 10 tricks even with the trump money had been put back into opening. That is, if Mr. Champfarm improvements, particular- ion had held the jack of diamonds and at least one of the higher honors, Mr. Dale could have made a straight diamond trick by leading twice from the board, finessing the ten the first

There was also the chance that the hearts would break 3-3, in which case dummy's fourth heart could be set up for the tenth winner on the hand.

IN SPRING A YOUNG MAN'S FANCY . . .

It used to turn to love and poetry but in this day andage, it seems to be love and a jalopy. Lover boys don't seem to be writing poetry any more and, from what we recall of our youth, it's probably just as well.

So now that the sap is beginning to flow, most of the young swains around town seem to have their eyes on some dame, or some jalopy-or both. In either case we wish them luck. We hope they all get both. But about that jalopywhether you want some old boat to pole around in or one of the sleek newer models, we've got 'em. These and many others to choose from.

BILL BOSS, Canadian Press staff writer recently returned from the Soviet Union, says no one can get the full Soviet story because censorship and control of information are too tough. Boss took this picture of a new upper-class apartment in Baku, Soviet Central Asia. Seconds later he was taken into custody by a militia man (seen standing at the corner of the building). During a 6,000-mile trip in Russia, Boss was arrested 12 times by these state police, who did not know restrictions on use of cameras had been eased. But Boss says the treatment he got was always courteous. (CP Photo)

Canadian Envoy Popular With Moscow Diplomats

'Asia For Asians' Theme Of First Week at Geneva

By ALAN HARVEY

Canadian Press Staff Writer

GENEVA (CP)-The first week of the Geneva conference may be remembered as the time the Bamboo Curtain finally clamped down beside the iron one to shu out the West.

In the view of many delegates, his is too most significant issue merging from discussions to With Communist China naking its first appearance in he council of nations, it has become apparent that the empha- to visions of first Indo-China

Lending a nightmare urgency ating military situation in Indo-

The theme in Geneva, as developed in the first week of meetings, is Asia-for-the-Asians. China's Chou En-lai, participating in his first international conference, has made this his chief talking point-and Soviet Russia has backed him up.

LADEN WITH TRAPS

The situation is laden with traps for the West.

Lester Pearson, Canada's minister of external affairs, has repeatedly warned of the dangers of an Allied split in Asia. Geneva shows that is just what the Communists are trying to de-

Some observers here say the split has already occurred. The conflict of opinion over

Indo-China has left a sense of malaise and misgiving, and there is talk among some Australian and New Zealand delegates that the British-American differences constitute a crisis of the first order in the history of the Anglo-American alliance.

Although Australian external affairs minister Richard Casey describes the quarrel as just a Hawaiian Islands. Hauswald is ripple, the phrase "another Munich" is often heard in the conference corridors.

Canada has been in the thick ing on the Islands.

EDMONTON (P-Normal spring weather is gradually returning to against Communist rebels be the western Prairies after alltime records for cold weather were set almost daily in the last half of April. But on the eastern Commonwealth delegations ap- Prairies there is concern about the possibility of floods.

The weatherman says warmer weather is coming with tempera-Alarmed by Red military gains tures in the 55- to 65-degree in the East, the Australians and range on the western Prairies today after a cold spell that saw the mercury stay 30 to 35 degrees below the normal readings for his time of year.

The forecaster at the Edmonton weather office says the temperatures are expected to go up about five degrees each day until the normal is reached.

The brunt of the cold spell was felt in central and southern Alberta and Saskatchewan. There was snow on the ground at the end of April at many spots with the most, 10 inches. reported from Rocky Mountain House in the foothills 150 miles southwest of Edmonton.

What is causing the concern about the possibility of floods is the high level of Lake Manitoba. Water has backed up over some farm land around Delta,

Dr. Albert Hochbaum, director of the wildlife station at Delta, reported there is no sign of a MCRAE BROS. in poor condition.

Half of one 140-acre farm is under water and three quarters of a 480-acre farm is said to have been flooded. But there been no flooding in the settlements.
