Controlling Interest in News Involved

John Magor Taking Over From H. G. Perry—Coming to Prince Rupert

John G. T. Perry, president and managing director of the Prince Rupert Daily News Ltd., announced today that John F. Magor, Vancouver, relations officer for the Pacific region of the Canadian Pacific Railway, had acquired a controlling interest in the company and would assume active management of the Daily News on May 1, with residence in Prince Rupert.

Mr. Perry, who has been in the news business for 15 years, recently resigned as president of the B.C. Liberal Party and has declined to run as a candidate in the coming election. He has been previously president of the Prince George and the Nechako Chronicals.

Mr. Perry stated that Mr. Magor is a fine city man and that he is a fine city man and that he is a fine city man. He said that no one was ever in the company and that he was not in the company. He said that he was not in the company and that he was not in the company. He said that he was not in the company and that he was not in the company.

B.C. Embargo Being Lifted

VICTORIA (CP)—The Minister of Agriculture, Hon. Harry Bowman, said on Thursday night that British Columbia's meat embargo will end probably in a day or two.

He made the statement after a special meeting of the cabinet had passed an order-in-council to lift restrictions on prairie meat and live stock imports.

Mr. Bowman said the order will take effect as soon as the federal government takes over—probably in a day or two.

Ottawa has announced it will assume marketing direction of meat if the provinces will lift the embargoes imposed following the outbreak of foot and mouth disease in southern Saskatchewan.

British Columbia's embargo started February 26. It was relaxed March 19 to permit importation of certified disease free livestock from northern Alberta. It still bars shipments from southern Alberta and all shipments of dressed meats.

Record Year for Alaska Travel Seen in 1952

SEATTLE—A record travel year is forecast for Alaska by the Alaska division of the Seattle Chamber of Commerce. It learned from Chuck West of the Alaska Visitors Association and others in the business that more tours already are booked for groups this year than occurred in all of 1951.

The Seattle chamber's own good will tour to the Territory will begin early in June, with a flight into Alaska and return by boat.

Rental Housing Project Deferred

Flood Level in Crisis at Omaha-Council Bluffs

OMAHA, Nebraska (Canadian Press)—The mad Missouri River threw its worst at Omaha and Council Bluffs today with an army of workers still winning the battle to hold the great river in a straightjacket of dikes. River forecasters said the river was at the cresting stage and will continue to crest all day.

At 9:30 a.m. Eastern Standard Time, the level was 30.24 feet, compared with the flood stage of 19.

The next 48 hours may determine whether the tremendous water pressures will burst through levees and cause more damage.

All night long soldiers and civilian workers—more than 24,000 of them—told under floodlights on dikes here and on levees downstream.

The great battle is to get the crest of the water safely past the narrow Omaha channel, through which the water is now flowing at a fantastic rate of 286,000,000 gallons a day.

Across the waterlogged mid-west, the Red Cross reported floods affected some 130,000 persons in 10 states, destroyed at least 290 homes and another 4107 are damaged.

Late Snow Hits City

Unusual Weather Conditions Still Experienced

More unusual weather hit Prince Rupert this month with unprecedented late snowfall today. Although unmeasurable because of its sloshy nature, the sleety snow is adding perceptibly to the high precipitation reading for April.

Up to date, 7.75 inches of moisture has been measured since April 1 at Digby Island weather station, 2.7 inches of which was snow.

Continued wet weather has seriously disrupted telephone service between Prince Rupert and Seal Cove, seepage knocking out 400 pairs in the three-mile cable. There has been no telephone communication between the areas for two days.

Telephone Superintendent Eric Jones reports several "wet spots" have been located but trouble has not been cleared. He said linesmen had located 35 such line shorting areas in another cable before lines were finally restored.

B.C. Packers, Canadian Pacific Airlines and Queen Charlotte Airlines are major firms effected by the telephone breakdown. Prince Rupert General Hospital lines, out of order yesterday, have been restored.

Meanwhile, highway conditions have improved and road to Terrace declared open for travel by local provincial public works office. Rail traffic also has been restored to normal. Telegraph service is spasmodic with occasional interference.

City Council and Commerce Chamber Move Into Action

Deferment by Central Mortgage and Housing Corporation of the proposed 50-unit rental housing project at Prince Rupert has sent city council and executive of the Prince Rupert Chamber of Commerce into emergent session today.

28 Dead in L.A. Crash

LOS ANGELES (CP)—A non-scheduled C-45 airplane with 28 persons aboard crashed near here today and all aboard are believed dead.

March Air Force base at Riverside said the plane was enroute from Phoenix, Arizona, to Los Angeles.

It was last reported at 3:17 a.m. Pacific Standard Time to Riverside airport and at that time was cleared for an approach and landing at Los Angeles international airport.

Murky weather at first hampered search operations.

All aboard the plane were reported to be civilians.

The plane is believed to have been one operated by North Continent Air Lines.

The entire housing question is expected to make top billing at a special meeting of the city council tonight. The executive of the Prince Rupert Chamber of Commerce is also called into session to deal with the emergency.

Various proposals are being advanced in order to bring public pressure to bear upon the government authorities at Ottawa to appreciate the housing emergency which exists here and to take action accordingly. The immediate calling of a mass meeting is one suggestion. Another is that a canvass of the city be taken to obtain signatures from people desiring housing. Yet another is that businessmen of the city might be organized to offer financial assistance to a housing program here.

News of the deferment of the project came today in a wire to a local contractor from T. B. Pickersgill, supervisor of B.C. region of the Central Mortgage and Housing Corporation, at Vancouver.

THE MESSAGE

The communication returned a deposit check for \$4000, with the following explanation: "We regret that we have not been able to make an award within the 30-day time limit provided for in our tender call."

"We have just received word that it is has not been possible to establish that there exists in Prince Rupert sufficient demand for the rental of these units at rents that must be charged based on current costs."

"Until such a demand can be established the project must be delayed."

"If it proceeds we will be in touch with the contractors concerned to see if their original bids will hold. If they do we will recall tenders."

Information transmitted by the city to Central Mortgage and Housing that a recent questionnaire survey on a \$15-a-month-rent basis had brought only 16 returns is believed responsible for the deferment decision. Central Mortgage and Housing officials had indicated that 100 applications were needed to assure success of the project.

Expressing indignation at the "defeatist" attitude which seemed to be assumed in civic quarters on the housing project, T. Norton Youngs, president of the Prince Rupert Chamber of Commerce, today reiterated previously expressed views that it was imperative that the city and every citizen do all in their power to bring about a culmination of the housing project even if it did cost money to the governments somewhere along the line.

"This is something that every citizen should actively concern himself in," Mr. Youngs declared.

Victim Pays For Defence Of Murderer

SAN FRANCISCO (AP)—A convicted murderer's defence will be financed by the estate of his victim.

The ironic postscript to the death of Allen Friedman was revealed when an inventory of his \$77,644 estate was filed yesterday.

Friedman's widow, Blanche, formally assigned \$8000 of her inheritance to pay for the defence of Elbert Raymond Be-lotte, convicted March 21.

The widow testified that Be-lotte had been her lover.

Shot Down Policeman

HAMILTON (CP)—A charge of attempted murder was laid today against 27-year-old Louis Cote, arrested as the man who shot down Police Constable Raymond Houlihan, aged 33, in an early morning gunfight on a downtown street.

Cote, with two bullet wounds, was taken into custody in a rooming house shortly after the shooting.

Houlihan is in critical condition after an emergency operation for wounds in groin, arm and chest.

Police say the gun battle started when Houlihan and Constable Joseph E. Gratz forced Cote's car to a curb after they recognized him. Cote opened fire when Houlihan approached his car.

One report said that Cote stopped after constables noticed him cruising slowly in front of a store. A second report said that the man stopped after he went through a red light. The car was loaded with ammunition.

Dangerous Detonators Disappear

One thousand dangerous dynamite detonators have been stolen from a storehouse of Wood & McClay, contractors, near the city limits, and the police authorities are as much concerned about the possibility of mishap occurring to people who may have them in their possession as they are about apprehending those who took them.

Special anxiety is felt in case the dangerous articles should fall into the hands of children and be exploded. They could go off by electrical influence, heat or even slight shock, with fatal results or serious injuries. Therefore, the police have requested that warning be broadcast and that there be no delay in transmitting information as to where they may be.

Removed by entrance to the storehouse by means of breaking a window, the caps are of the electrical detonating type, about 2½ inches long, ¾ inch thick and with purple casing.

Shoptlifting Play Foiled

An alert downtown merchant and quick police co-operation resulted in prompt apprehending yesterday afternoon in another shoptlifting incident.

The merchant reported that the man took a steak and walked away. He was intercepted in the store and held until the police arrived.

This morning he pleaded guilty in city police court and was given three months' suspended sentence.

New Jersey Prison Riot

RAHWAY, New Jersey (CP)—A group of 232 rebellious prisoners took over the dormitory wing of Rahway state prison and held nine guards captive today after a night of rioting.

Officials said that the outbreak was staged in sympathy with a four-day revolt of 69 convicts who barricaded themselves in the print shop at Trenton State prison, holding three prison employees hostages.

The Rahway rioters broke windows, beds and furniture in the dormitory wing.

Way Cleared For Japanese Treaty

WASHINGTON (CP)—Canada and Pakistan Thursday formally notified the State Department they have ratified the Japanese treaty, clearing the way for bringing the pact into effect.

When the United States deposits its instruments of ratification on April 28 the treaty will automatically go into force restoring Japan to full sovereignty.

Navy Planes Collide and Seven Killed

HALIFAX (CP)—Planes and ships dodged freakish weather off the Nova Scotia coast today, searching for possible survivors from two Navy planes which, apparently collided and plunged into the Atlantic Ocean last night.

There were no indications that any of the seven men aboard the planes had survived.

One search vessel reported finding wreckage—"apparently two aircraft"—but there was no sign of life.

The seven were from the fleet air arm's base at nearby Shearwater. They were aboard two Avengers—torpedo bombers used as anti-submarine craft.

The accident occurred about 79 miles off Shelburne on Nova Scotia's southwestern coast.

—WEATHER—

Synopsis
Another in a series of Pacific storms moved across the northern end of Vancouver Island this morning, bringing rain and strong easterly winds to north coast regions. The centre of the storm will pass over northern British Columbia with some light rain for that area this afternoon. Southern sections of the province will experience increasing cloudiness and showers as the southern edge of the disturbance progresses eastward Saturday promises to be partly cloudy and cooler with a few showers in western parts of the province.

GALE WARNING
North Coast region—Gale warnings issued. Cloudy today and Saturday, rain this morning, showers this afternoon. A few showers Saturday, little change in temperature. Winds—easterly (35) shifting to westerly (30) before noon and decreasing to westerly (20) this evening. Lows tonight and highs tomorrow—at Port Hardy, 40 and 50; Sandspit, 38 and 50; Prince Rupert, 38 and 50.

Thefts at Army Camp

Warrants Out For Two Officers and Four Civilians

PEMBROKE, Ontario (CP)—Two army officers and four civilians were sought last night on warrants sworn out after an investigation into thefts at nearby Petawawa military camp.

The investigation began some time ago into reports of more than \$1,000,000 worth of goods being stolen from the camp, 118 miles northwest of Ottawa. Raids from a spur line valued at \$64,000 are reported among the stolen goods.

Tom Christie Conservative Choice for B.C. Election

Nominated To Contest Prince Rupert In Progressive Conservative Interests

Thomas Melbourne (Tom) Christie was nominated candidate for Prince Rupert riding in the provincial election June 10 at a meeting of the Progressive Conservative Association last evening.

There were no other nominations, and the entire proceedings concluded within an hour. (Mr. Christie is the third candidate in the field. Others are J. D. McRae, Liberal, and Ald. George Hills, CCF.)

The meeting took place in the Civic Centre with William Lambie presiding and Mrs. P. M. Ray acting as secretary. Among other persons present in the lounge were Dr. R. G. Large, James H. Thompson, John Bremner, Mr. and Mrs. Crawford Moore, H. M. Daggett, Wendall Wright, Chris Elkins, Hugh Killen, Orme Stuart, John Bulger, D. C. Stuart, Geo. L. Rorie, Frank Skinner, F. M. Dockrill (Telkwa), Mrs. R. G. Collinson, Percy Cameron, A. M. Hurst, Hugh McKenzie, Ted Smith, John Morrison, Duncan Kerr, L. O. Lyce and James Clark.

The chairman, in opening the meeting, referred to past elections and to the fact that the Progressive Conservatives had been usually defeated although the candidates were highly regarded as most estimable citizens. In this election, he felt it came down chiefly to a matter of personality and the ability of meeting the general public and discussing public affairs with the other fellow, whatever his views might be. Mr. Lambie said they had a man who possessed

Council Called In Special Meet

Meeting in special session tonight, the city council will deal with the housing situation in view of new developments today, wage committee recommendations and will also hear the appeal for reinstatement of a chauffeur's licence by a city taxi driver who was recently convicted of selling liquor illegally.

Housing Emergency

IT WOULD BE nothing short of calamitous if anything should interfere with the 50-unit rental housing project for which the federal authorities recently called for tenders. Not only 50 houses are needed here but many more and it is inconceivable that this initial project should be allowed to fail. It would be a sorry situation, indeed, if it did.

That anyone should be thinking up objections or obstacles to discourage the fulfillment of the project is unthinkable. Here is something where a defeatist attitude is intolerable—most of all among any local authorities such as the city council.

Let's get these houses built and more after them and keep up the campaign for any and all possible means of assistance and encouragement to building in this city whose need of living accommodation is probably more acute than any other city in Canada.

If the worst comes to the worst and a loss should be entailed somewhere along the line, what is the difference? The housing situation here has reached an emergency. It is not usual to quibble over a few thousand dollars when an emergency arises—be it on the federal, provincial or municipal level.

Housing here is something that calls for positive and immediate action—not negative or temporizing consideration. And even if subsidization is needed, so what?

For Safer Driving

EXHORTATION which the Junior Chamber of Commerce heard Wednesday night that there should be a tightening up of the enforcement of regulations in regard to reckless driving is timely.

There is undoubtedly too much speeding and joy-riding in Prince Rupert these days and it is a menace to all people who use the roads and streets and certainly to other motorists.

Unfortunately, the careful driver can sometimes become the innocent victim of accidents caused by drivers who are not so careful.

Too often pedestrians and bystanders become involved in motor vehicle mishaps for which they are in no way to blame. Sometimes they are seriously injured. Sometimes they are killed.

So it is important, in a general way, that everything be done to promote safe driving and prevent reckless driving.

The authorities cannot be too strict about this, especially in a place like Prince Rupert, where, even at the best, street and road conditions are none too good.

Scripture Passage for Today

"God giveth us the victory through our Lord Jesus Christ."—I Cor. 15:57.

ray ...

Reflects and Reminisces

If floods didn't flow, strikes were not threatened, planes didn't crash and Stalin stayed about as usual, just what would the world's newspapers do for a living, anyway?

It's the skeptic who says: "Pass us the pitcher," after he hears the optimist and pessimist politely request the passing of the cream and milk.

PERHAPS IT'S STYLE

An Ottawa dispatch says that in 1951, Canadians saved away a large proportion of personal income. "While a good part of the increase in savings took the form of a reduction in consumer debt," the white paper said, "there was also some increase in liquid savings." Why cannot Mr. Abbott be a little less like a minister of finance when he chooses to say something. It's always necessary to read the stuff over again.

ALSO COAL

Oil has started to gush in a well not far from Port St. John. As usual it was struck on somebody's farm. PGE building is in its last lap into Prince George. With more cold winters

ahead and northern consumers multiplying, the time is logical to introduce Ground Hog Coal excitement.

All the other members of the city council were present when the Governor-General paid his first official visit to Montreal. His worship the mayor managed to be absent. The situation was handled in a diplomatic way, the mayor's excuse being smoothly accepted. Nevertheless, the incident made Canada's largest city look a shade small.

HE WAS, INDEED

Old Man River just keeps moving along, way down in the American Midwest. And you'd better believe several dozen waterlogged cities and towns are well aware of it.

Quick Canadian Quiz

1. Our dollar loss from forest fires is how much in a year?
2. Canada's best customer for farm products is what country?
3. Where is this country's largest sugar plant?
4. In 1939 Ottawa's revenue was \$45 per capita; at wartime peak, in 1944, it was \$234. What will it be this fiscal year?
5. How much of Canada's area is within the Northwest Territories?

Seattle To Battle

NO SEATTLE editor has yet taken my bet of \$25 that Vancouver can get more blood than Seattle in a one month's race between the two west coast cities.

But the papers there have unanimously agreed that it would be a good idea. When the Red Cross officials get their current drive for funds out of the way they may get together and set the date. Next October or November would be suitable months.

All that is necessary is simple agreement on such things as these. Date, method of checking of daily and total monthly intake in the "Battle of the Blood Givers."

Correct me if I am wrong—but I presume that blood banks, like milk plants, use a smaller pint in U.S.A. than we do here. There would have to be a correction for this in the daily totals to be announced to press and radio in both cities.

MEANWHILE the he-man of he-man small cities—Kamloops—is out to set a Canadian record for blood collection. Last year they collected no less than 2,035 pints of blood in a five day drive. Considering population, the nearest thing to this remarkable record was made by Lethbridge, Alberta.

This year Kamloops is out for the Continental first prize. Judging from what I hear about advance preparations, the Kamloops folks are not only likely to win that distinction but actually to set a world's record. This is one time I hope blood flows like water.

The date for the big drive is May 12 to May 17.

SCIENTISTS have now discovered a cheap quick way to produce Cortisone, which gives such remarkable results in many cases of arthritis and rheumatism.

The original process took thirty seven steps, using cattle bile as the raw material. The new method uses the lowly bread mold as the agent which produces a product much like Cortisone.

This will require a plant costing over \$3 million—which however should produce the new type of Cortisone at a fraction of the cost of the original remedy.

SEVERAL people have written me for further information about the RH factor in blood, which I mentioned in recent columns.

Here is the information, as given in any standard reference book, but re-written in layman's language:

About 90 percent of North Americans have RH positive blood. About 10% of them have RH negative blood.

Marriages between women who are RH negative and men who are RH positive number about 13 percent of all marriages. When the wife of such a marriage has babies complications may result.

Here is how Alton Blakeslee sums it up in his booklet BLOOD, YOUR GIFT OF LIFE:

"Usually there is no trouble at all with the first baby. The mother's blood apparently does not develop enough anti-bodies to cause serious trouble. But if she becomes pregnant several times she may develop enough anti-bodies to harm her baby. The baby's blood cells can be destroyed at a rapid rate. Usually the baby is born but suffers from jaundice and is endangered by the battle within its blood stream.

"There is greater danger if the mother with RH negative blood has ever received a transfusion of RH positive blood, even as a little girl. There is no excuse for this, to happen now.

French City Improves Milk Supply With U.N. Aid

As part of its milk conservation program the United Nations International Children's Emergency Fund (UNICEF), has supplied dried milk, bottling and pasteurizing equipment to several countries in Europe and the Middle East. Soissons was the first French city to make compulsory the bottling of milk sold at retail, and has been pro-

vided with a bottling machine by UNICEF. At the right, milk newly arrived from a Soissons farm is dumped into the pasteurizer, while the manager of the dairy M. Guerland (left) samples milk from a bottle which was filled on the machine furnished to the city by the United Nations International Children's Emergency Fund.

Nationalist Outposts Watch Red Ketchikan's Activities on Chinese Mainland Top Citizen Coming Here

[Editor's Note: Chinmen Island is Generalissimo Chiang Kai-shek's nearest outpost to Communist China—two miles from the Red-held coast at one point. Bill Boss, Canadian Press staff writer with the Canadian forces in Korea, recently flew from Formosa, Chiang's headquarters, to Chinmen. He was the first foreign newspaper man to visit there.]

By BILL BOSS

Canadian Press Staff Writer

CHINMEN, Fukien Province, China (CP)—This tiny Nationalist outpost is Generalissimo Chiang Kai-shek's nearest holding to the Communist mainland from which he had to flee.

Chinmen is an island, due west of Formosa and about 250 miles northeast of Hong Kong off the China coast. At its closest point it is a bare two miles from Communist territory.

Other Nationalist-held islands extend some 500 miles along the shore of China. In area they are almost nothing, but they have a considerable military importance.

Red tape was slashed by the highest Nationalist authorities in Taipei, Formosa, to make my visit possible. Mine was the first to Chinmen by a foreign newspaperman. The fact Canada still recognizes Nationalist China was a powerful factor in the decision to let me come.

Chinmen is a two-hour flight from Taipei by Nationalist Air Force plane. Later I flew in a Harvard training aircraft from Chinmen, over Red-held Amoy on an island nearer the coast, to look down on the mainland. I saw the island's military installations, inspected the troop-training program and interviewed the garrison commander.

As air bases, Chinmen and the other small islands enable the Nationalists to make daily checks on military activity on the Communist mainland. The Nationalists would have immediate knowledge of any build-up of transport or men for an invasion of Formosa or the coastal islands themselves.

TWICE BEATEN BACK

As garrisons, the islands are a constant worry to the Reds who twice have suffered bloody losses in assaults on Chinmen and other bits of Nationalist land. Strangely, the Communists lately have left the islands alone, abandoning their once-regular shelling.

The islands are useful for various kinds of operations against the mainland. Frequent guerrilla raids have been launched from Chinmen.

Conceivably, the islands some day might be an invasion springboard if the Nationalists attempt to regain the mainland. Chinmen resembles the British south coast during the Second World War. Its beaches are lined with barbed wire, cunningly concealed in low-lying shrubs. The island is mined and girded by a string of manned concrete pill-boxes.

Behind the defences lives an island population of about 20,000, mostly farmers. Most soldiers are billeted among the people but relations between the two groups seem amicable.

The army has under way a program of public works to keep the soldiers busy. Chinmen airport, for example, was built by hand with spades, rakes, buckets and two stone rollers. Most

Name Wrangell Disaster Area

WASHINGTON (AP)—The city of Wrangell, Alaska, may be declared a disaster area as the result of its recent million-dollar downtown fire, Delegate Bartlett (D, Alaska) says.

A decision is expected within a few days.

Bartlett said the possibility of federal assistance was discussed at a meeting of various agency representatives.

Pere F. Seward of the Housing and Home Finance Agency's bureau of Community Facilities and Special Operations said he would make his recommendation on the disaster designation as quickly as he receives a report from an agency representative now at Wrangell.

Bartlett said he felt the recommendation would be favorable to the stricken city.

If so declared, Bartlett said it would give the bureau more latitude in assisting with temporary housing. The bureau is empowered to make money grants to replace public property which has been destroyed.

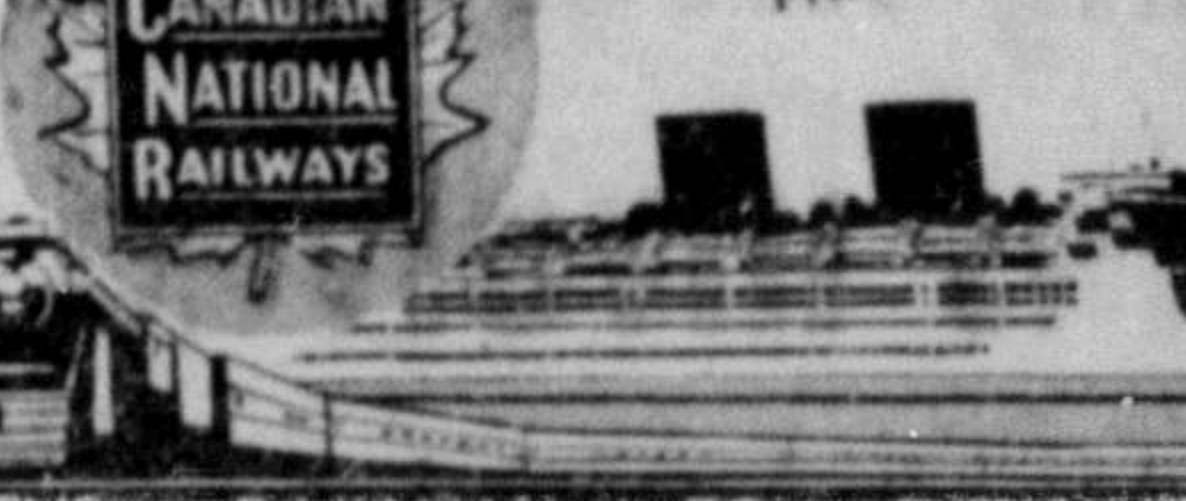

RFC MAY ACT

Moose Women's Spring Bazaar Bright Affair

The ever-popular annual
spring bazaar and tea of the
local chapter, Women of the
Moose, was held Thursday after-
noon in the Moose Temple
under the general convenership
of Mrs. M. Karasosky.

Mrs. C. McIntyre, senior re-
gent of the lodge, greeted the
guests and welcomed them to
the pretty spring affair.

The stalls were gaily festoon-
ed with pastel spring shades of
crepe paper and ribbons and
the dainty tea tables and pour-
ers' table were each centered
with daffodils and tulip bou-
quets.

The raffles were in charge of
Mrs. J. Kasper and the stalls
were attended as follows:
Candy—Mrs. J. Taylor and
Mrs. G. Wilkinson.

Home cooking—Mrs. F. Grim-
ble and Mrs. L. Grimble.
Fancywork—Mrs. A. Hinton,
Mrs. J. Anderson, Mrs. G. Mc-
Ginnis and Mrs. E. Lugin.

Novelties—Mrs. C. Erickson
and Mrs. Raabe.
White Elephant—stall and
fish pond—Mrs. F. DeBlass and
Mrs. A. Eveleigh.

Mrs. T. Christoff was con-
venor of the tea room, with as-
sistants:
Pourers—Mrs. O. Tweed, Mrs.
A. S. Hamilton, R. B. Skinner
and Mrs. G. Shenton.

Servitors—Mrs. F. Parlett,
Mrs. A. Jeffries, Mrs. R. Arm-
strong, Mrs. A. Bellamy and Mrs.
R. Gilmour.

Kitchen—Mrs. H. Paulsen,
Mrs. J. Flavin and Mrs. C.
Heise.

Mrs. J. Thompson was cashier.
Raffles were won by lucky
ticket holders as follows:
Electric deep fryer, won by
Joan McKay, Stewart, 2234.

Electric coffee percolator, won
by Jean Holmes, city, 1723.
One hundred pounds sugar,
donated by Super-Valu, won by
Frankie Hall, Hyder, Alaska,
2208.

Pen and pencil set, donated by
McRae Bros., won by Soong Yen
Chow, Hollywood Cafe, 1572.

Merchandise worth \$10, do-
nated by Star's Stylewear, won
by Mrs. Dave McPhee, city, 2873.

Lady's purse, donated by An-
nette Mansell, won by Mike
Karasosky, city, 2007.

Gent's utility kit, donated by
William F. Stone, won by Mrs.
Anne Bowker, city, 3402.

Horse figurine, donated by
Variety Store, won by Mrs. M.
Botrakoff, city, 3043.

Two pairs nylons, donated by
Fraser & Payne, won by Joan
McKay, Stewart, 2243.

Large decorated fruit cake,
donated by Mrs. M. Karasosky,
won by Maud Viereck, city, 68.

Box of candy, donated by
members, won by Irene John-
son, 85.

Little Irene Bellamy drew the
tickets.

THE EXPERTS Say...

By KAY REX
Canadian Press Staff Writer

Mrs. Halpenny is president
of the Dominion Women's Asso-
ciation Council of the United
Church of Canada, whose mem-
bers are encouraged to practice
thrift in accordance with the
homespun economy program
launched a few months ago by
the National Council of Women.

As homemaker in a family of
three adults, Mrs. Halpenny al-
ready is an expert at keeping
within a housekeeping budget,
particularly where it concerns
food.

She has found that chicken
makes an excellent substitute for
more expensive kinds of meat—
and it can be stretched almost
indefinitely.

Here is a three-point outline
of what Mrs. Halpenny usually
does with a good-sized boiling
fowl:

1. Rescues the fat—removes
most of the excess fat from the
cavity of the fowl; washes and
melts in double-boiler; strains
and uses in place of lard or
shortening.

2. Soup—Covers wing tips,
neck, gizzard, heart, liver with
three cups of water. Adds salt,
pepper, parsley, handful of pearl
barley and thinly-sliced onion.

3. Chicken Pie for Dinner—
Cuts up fowl, leaving breast in-
tact; puts in large saucepan with
tight cover (pressure-cooker
without gauge is excellent). Adds
celery stocks cut in two-inch
pieces, salt, pepper, and enough
water almost to cover. Simmers
from 2½ to three hours (de-
pending on age of the fowl).
After two hours adds three large
white onions or six small ones,
together with one small potato
for each person.

To Make Dumplings—One
cup pastry flour; one-quarter
teaspoon salt; pinch of parsley
or summer savory. Adds enough
milk to make a soft dough.
Beats well.

(Removes the breast and 1½
to two cups of stock for next
day's meal.)
Drops dumplings by table-
spoon on pieces of chicken. Cov-
ers tightly and cooks 20 min-
utes.

Then chicken, onions, dump-
lings are removed. The remain-
ing broth is thickened. Some
milk is added if necessary. The
meal is served with green or
yellow vegetables.

Mrs. Halpenny says the breast
from the chicken pie goes well
either with waffles or as curried
chicken with noodles or rice.

Between December 1, 1950, and
December 1, 1951, average hours
worked by hourly-rated wage
earners in Canadian factories
declined from 43.1 hours to 41.9,
while average weekly wages
climbed from \$46.46 to \$52.17.

Personals

W. A. Whyte, general freight
agent, Canadian National Rail-
ways, Vancouver, is arriving in
the city Sunday night by train
and will spend a few days here
on official business.

Roy Collinson, divisional
freight agent, Canadian Na-
tional Railways, returned to the
city on Tuesday night's train
after a trip over the line as far
as Prince George on official
business.

Mrs. C. V. Evitt sailed last
night on the Prince Rupert for
her home at Nanaimo after hav-
ing spent the past two or three
weeks in the city. Mr. Evitt is
continuing on here for a time in
connection with his local busi-
ness interests.

Carrot and several stocks of cel-
ery also may be added.
Simmers slowly for three hours.
Adds more liquid if necessary.

3. Chicken Pie for Dinner—
Cuts up fowl, leaving breast in-
tact; puts in large saucepan with
tight cover (pressure-cooker
without gauge is excellent). Adds
celery stocks cut in two-inch
pieces, salt, pepper, and enough
water almost to cover. Simmers
from 2½ to three hours (de-
pending on age of the fowl).
After two hours adds three large
white onions or six small ones,
together with one small potato
for each person.

To Make Dumplings—One
cup pastry flour; one-quarter
teaspoon salt; pinch of parsley
or summer savory. Adds enough
milk to make a soft dough.
Beats well.

(Removes the breast and 1½
to two cups of stock for next
day's meal.)
Drops dumplings by table-
spoon on pieces of chicken. Cov-
ers tightly and cooks 20 min-
utes.

Then chicken, onions, dump-
lings are removed. The remain-
ing broth is thickened. Some
milk is added if necessary. The
meal is served with green or
yellow vegetables.

Mrs. Halpenny says the breast
from the chicken pie goes well
either with waffles or as curried
chicken with noodles or rice.

Between December 1, 1950, and
December 1, 1951, average hours
worked by hourly-rated wage
earners in Canadian factories
declined from 43.1 hours to 41.9,
while average weekly wages
climbed from \$46.46 to \$52.17.

BLACKWOOD on Bridge

By EASLEY BLACKWOOD

Mr. Muzzy Executes a Squeeze Play

Who said Mr. Muzzy couldn't execute a squeeze play? He did it in this hand. Trouble was, he squeezed his own partner.

This is how it happened. Through a slight miscalculation in the bidding Miss Brash got into a small slam at spades with only a seven card trump suit. Six no trump would have been a more desirable contract. Mr. Muzzy opened the six of clubs and dummy's jack won. The ace of clubs was cashed and then Miss Brash took her three top spades, hoping for a 3-3 break.

Unfortunately, that left Mr. Muzzy with a sure spade winner. Correctly enough, Miss Brash now decided to lose the spade at once, and Mr. Muzzy was in with the jack, a small heart being discarded from the board.

At this point there was only one lead to beat the contract. That was a heart. It would have removed the last entry from Miss Brash's hand. She would have had to depend entirely on the diamonds breaking and, as you see, Mr. Champion had that suit surely stopped.

But Mr. Muzzy returned a club—and that effectively killed Mr. Champion's hand. The great man squirmed and swore softly under his breath. It didn't help him.

This was the seventh trick. Mr. Champion had to get down to six cards. In the dummy were the original five diamonds and the nine of hearts. Mr. Champion had his original five diamonds and the king-queen of hearts. It was his play.

Nobody but he could stop diamonds. So he let go the queen of hearts. Mr. Muzzy just might have the guarded jack of that suit and that would be enough

ANSWERS: 5. One-third. 3. At Chatham, Ont., with a 3,000 tons a day capacity. 1. About five million dollars. 4. About \$800. 2. The United Kingdom.

Gardening....

GARDEN PATHS—No matter how small the garden there will be the problem of paths. Instead of being an eyesore, these can be made into an attractive feature of the lawn or flower plots or even the vegetable patch. Where traffic is usually concentrated such as near the door or gate, it is advisable to use some solid material like flagstones, concrete slabs, bricks, cinder or gravel. With any of these the main thing is to place firmly and level with or just slightly above the surrounding grass, so that the lawnmower will trim or even run right over easily. Where the traffic is lighter, one can simply use grass for the strip of well grown, well fed and tough grass. It is surprising the amount of wear this will give. In lots of public gardens grass paths are used to divide the flower plots and they are seldom worn thin. Where cinder or gravel is used in paths or driveways one can eliminate grass and weeds by sprinkling heavily with rock salt or treating with some of the weed sprays.

FIRST YEAR GARDENS

When the builder of the new house says he's finished, the gardener is just ready to begin. He shouldn't be discouraged at the rough grading, the litter of plaster and bricks that the bulldozer has barely covered. One can hardly believe what can be accomplished in the first year. Of course we can't grow trees, shrubs and perennial vines overnight. But it is amazing what one can do with annuals alone. The best plan is to get in early

whatever nursery stock and perennial flowers are available and financially possible. Then in between these use all sorts of annuals which will soon look as if they had always been there. There are big, bushy things like cosmos, dahlias, cannas, castor oil and spider plants, ornamental sunflowers or helianthus, African marigolds and giant larkspur that can be used in the place of flowering shrubbery. Then there are quick-growing climbing plants, scarlet runner beans, morning glories, climbing nasturtiums, sweet peas, hops and such for covering trellis or fence. And as for solid beds, edging and whatnot we have at least a hundred annual flowers from which to choose.

Of course before any planting or lawn seeding is done, we must dig or cultivate thoroughly, rake as level and as fine as possible. It is also advisable, where available, to dig in some good manure or commercial fertilizer.

BE PREPARED

A very necessary piece of equipment for most gardeners is a small sprayer or duster and the materials to load it. Nothing is more discouraging than to get flowers, vegetables or shrubbery flourishing and then to discover some fine morning that bugs or disease have started to attack them. If one counter-attacks promptly, however, there is little difficulty about control. For every pest, fortunately, there is some chemical or other treatment to keep it in check. Usually a spray or dust is used. For insects that eat holes in foliage the usual remedy is a poison of some kind, such as arsenate of lead, DDT, copper sulphate, nicotine, etc. For the pests that suck out the juices a burning spray or dust incorporating sulphur is recommended, or sometimes special soap and water or some of the tobacco solutions. Use sprays when the foliage is dry. With the dust, best results are obtained on a day without wind and just after a rain or before a dew. With all chemicals one is well advised to study and follow directions carefully and make sure that the proper material is used for the particular pest concerned.

AUCTION SALE

Timber Sale N 33858
There will be offered for sale at Public Auction, at 11:00 a.m., on Tuesday, May 27th, 1952, in the office of the District Forester, Prince Rupert, B.C., the Licence N 33858, to cut 9,165,000 ft. m. of Hemlock and Spruce on an area comprising of part of Lots 1310, 4600 and 478, situated 3 miles south of Stewart, Cassiar Land District.
Three (3) years will be allowed for removal of timber.
"Provided anyone unable to attend the auction in person may submit tender to be opened at the hour of auction and treated as one bid."
Further particulars may be obtained from the Deputy Minister of Forests, Victoria, B.C., or the District Forester, Prince Rupert, B.C.

THE ROUND-UP

By LARRY STANWOOD

Anglers will be in-
possible experiment
take this summer
Fisheries Research
have far-reaching ef-
fishing there.

or larger? Quite likely, answered Dr. Forster, stopping over in Prince Rupert yesterday on his way to Lakelse.

By the way, if any anglers are seriously contemplating a fishing trip to Lakelse this summer, contact Vern McMahon, biologist in charge of research at Lakelse. A mention of our column must-head will serve as introduction to the best trout hangout of the lake. Tommy Bilton, who works with McMahon, is an ardent fisherman and has frequent battles in season with two and three-pound cutthroats.

Is Dead Again, Long Live His Memory

Swartz was ordered by city council to remove the source of offensive odors. The bones were returned to the deep from whence they first came.

A lot of noise was created by the news then that Caddy was dead. It's the same thing again. But regardless of whether the latest discovery is really Caddy, he will still make his mysterious appearances and those who see him will know and never forget that there is really a denizen of the deep.

Sport Shorts

A few more youthful baseball enthusiasts have signified intention to play little league baseball this summer: Dick Bury, Billy Smith and Robby Irvine are the latest.

Prince Rupert Rod & Gun Club executive meet tonight at the Savoy Hotel. Main discussion will surround drafting of a letter to Victoria requesting action in local fishery research and possibility of a fish hatchery.

On To Helsinki! night will be staged tomorrow by Prince Rupert Elks Lodge members in aid of its Olympic trial boxers' travelling fund.

"Oldest skier on the local hills" was the way Alex Mitchell was introduced last night at the spring banquet of Prince Rupert Ski Club. He congratulated the club for its interest in younger members.

"You are giving the youngsters one of the greatest opportunities in their lives by giving them a chance to ski, learning a great sport and what's more, teaching them to develop strong healthy bodies."

Joe Gallant and Jack Breen, this season's broken leg skiing casualties were presented with a "useful" trophy—an egg cup for each. Both are getting along well on crutches and expressed their thanks to skiers who brought them down the mountain. Marnie Bulger made the presentation.

Master of ceremonies was Eddie Dawes, while vice-president Foster Husoy presided. Films, projected by George Mostad, were enjoyed.

Appropriate decorations of crossed skis, ski poles and parkies were arranged by Marnie Bulger and helpers.

Durocher Technique

Leo Says He's Crazy About Dick Wakefield

By GAYLE TALBOT

NEW YORK (AP)—The Giants were sitting around in the locker room peeling off their uniforms after the season's opener against the Phils had been called off by rain, and Manager Leo Durocher was parrying questions from a dozen writers in his adjoining office.

The subject principally was Dick Wakefield, signed to a Giants' contract as a pinch-hitter.

Leo, who never does things by halves, had just said he was crazy about Wakefield when somebody asked him what he thought he could do about the Wakefield disposition.

"Disposition?" he yelled. "What in h— do I care about his disposition as long as he hits that ball for me? All I can tell you is that I like him and everybody on this club likes him and he's tickled to death to be with us. That's good enough for me and I'll tell you Dick's going to do all right."

"I never saw him before in my life and I'm not paying any attention to the things they say about him not liking to play baseball. He says he wants to play baseball now for us and that's all I'm interested in. He'll get a chance from me."

The listeners knew they were being subjected to the Durocher treatment, most of them having heard the same routine on other occasions, but they didn't mind. They knew that Leo really meant, or at least thought he meant, what he was saying, and they also knew that he had been getting some amazing results the last two years by pouring on the old oil.

Two seasons ago St. Louis Cardinals decided that Jim Hearn was too interested in golf and other pursuits to pitch any longer for them, and they let Leo have him at the waiver price. Leo told Jim that, personally, he thought he probably was the greatest pitcher in the National League, and Jim has come very near proving him correct.

The "new" Durocher devotes a lot of time to soaping up the boys, and they respond to it by putting out a little extra for him. We are convinced that the present generation of players will extend themselves more consistently for a manager of his type than they will for the martinet of the old school.

on The ALLEYS

Consistent high scores were bowled Tuesday night in the Ladies' League by Peggy Thompson, of Lyons (A Division), giving her a high single of 291 and a high triple of 803. In B Division, Jordis Hill of Toilers took both honors with 269 and 692.

Results

A Division — Lyons 3, Lucky Strikes 0; Savoy's 2, G & Anderson 1; McMeekins 2, Dibb Printing 1; Rosa Lee 2, Stars 1; Cloverleafs 2, Annettes 1; Wrathalls 2, Skeena Grocery 1.

B Division — Manson's 3, Cook's 0; Sunrise 3, Seventh Avenue Market 0; McKay's 2, Toilers 1; 75 Taxi 2, Big Sisters 1; Commercial 2, Co-op 1; Shenton's 2, Rupert Radio 1.

Standings

A Division — Lyons 17, Lucky Strikes 16, McMeekin's 14, Annettes 14, Rosa Lee 13, Dibb Printing 12, Cloverleafs 11, Savoy's 10, Stars 10, Gordon & Anderson 9, Skeena Grocery 9, Wrathall's 9.

B Division — Sunrise 15, Cook's 14, McKay's 14, Shenton's 14, Seventh Ave. 13, Manson's 13, Co-op 12, Commercial 11, Toilers 11, 75 Taxi 10, Rupert Radio 10, Big Sisters 7.

Brooklyn and Cleveland Win

NEW YORK (AP)—Brooklyn and Cleveland careered along on 17-hit binges Thursday but spunky little St. Louis Browns made five hits stand up for a third straight victory over Detroit.

Manager Rogers Hornsby's revamped Brownies used home runs by Les Moss and Bob Nieman to spill Hal Newhouser's comeback bid with a 3-1 win for Bob Cain against his old Detroit mates.

Little Bobby Shantz and Philadelphia A's knocked off world champion New York Yankees, beating Eddie Lopat.

Cleveland packed a 425-foot homer by Luke Easter into its 17-hit attack to whip Chicago 5-3, and Rookie Paye Thornberry hit a grand slam home run in Boston's 9-2 win over Washington in other American League action.

Brooklyn continued to muller Boston pitching, boosting its club batting mark to .378 by overpowering the Braves 8-2.

Remember when?

A crowd of 16,218 at Toronto's Maple Leaf Gardens saw the Maple Leafs beat Detroit Red Wings 3-1 to climax an amazing comeback in the Stanley Cup final, 10 years ago today. After losing the first three games, Toronto won four in a row to capture the world's professional hockey championship. This year they lost to Detroit four straight in the semi-finals.

honor that had been conferred on him. It represented the confidence felt. As for the campaign that was coming, he wished to say that the Conservative policy has much to offer. He himself had not solicited the nomination. He would be glad to do his utmost in the way of duty and in the giving of his services to the community and the province.

CONFIDENCE

There were several other speakers. It was encouraging, said Mr. Dockrill of Telkwa, to note the vigor seen in the riding. The effective way in which the campaign was beginning greatly strengthened belief in the coming victory of the Progressive Conservative nominee.

D. C. Stevenson expressed the satisfaction he felt in realizing the choice that had been made. This battle would be fought through to the finish.

Mrs. Collinson had been long acquainted with the candidate and there need be no question as to his election.

W. W. Wright, Progressive Conservative organizer, who has been travelling widely through the province, told of how for many a year popular interest in politics of all shades had fallen to a low ebb. It had even been like this when the great coast boom began. Of late, however, a great difference had set in. Today, said Mr. Wright, a live concern in public affairs was everywhere manifest. Mr.

Wright paid fitting tribute to Mr. Christie. Reviewing the general situation, he said he felt that CCF power is waning and also could be realized a decline in Liberalism.

D. C. Stuart recalled earlier campaigns, and the hard work and long conferences conducted.

John Bulger mentioned having been told of the small attendance at a Liberal convention.

The meeting was advised that there was a prospect of C. H. Orme coming here to serve as campaign manager.

THE CANDIDATE

Veteran of two world wars, having served overseas from 1914 to 1919 and in Canada during the second war, Thomas Melbourne Christie was born in Windsor, Ontario, and moved as a boy to Calgary with his family. Later they went to Edmonton and it was there that Mr. Christie finished his education, graduating from Westward Ho School and joining the Dominion Bank of Canada where he obtained his first business experience. On the outbreak of

In 1940 Mr. Christie was back in the army with the Veterans Guard and the Department of Prisoners of War and later held staff rank as captain at Ottawa.

After the war, Mr. Christie bought the residue of War Assets materials in the former United States Army warehouse here and came to Prince Rupert. "I definitely became sold on Prince Rupert and that's the reason I am still here," says Mr.

Prince Rupert Daily News
Friday, April 18, 1952

Christie. A couple of years ago a time and was later posted to he established the Woodbitt Liverpool as a demobilization Products business which he now operates. He was mustered out with rank of lieutenant in 1919 and returned to Canada.

He is a member of the Prince Rupert Chamber of Commerce and Rotary Club.

He comes of a Conservative family and is an Anglican. war in 1914, he went overseas with the First Division. He was severely wounded at Messines Ridge and, after a period of real estate and mining broker-Blighty, returned to France for age.

No World War in 1952; Soviet Not Ready Yet, Is Western Assessment

[Editor's Note: William L. Ryan, AP foreign news analyst, has travelled from Belgrade to Helsinki in a two-month tour of Europe tapping sources of information at the edges of the Iron Curtain. In this article he appraises the current status of the cold war in Europe and brings out how the Soviet Union is pushing its campaign.]

By WILLIAM L. RYAN

BERLIN (AP)—"After all," said the diplomat, "here is what the cold war is all about." He pointed to the map of Germany in the heart of Europe.

"If and when the Russians are ready for war, we will know it here first," he said. "But it will not be in 1952. The Russians aren't ready. And Stalin can wait."

"We will know a year in advance. Right now we know that their communications and transport are in no shape to start a war. We know they lack faith in their satellite armies and populations. We know they would need large numbers of troops to hold what they have now. We know they lack the technical and economic resources on a scale permitting war."

Many western diplomats agree with this assessment. The consensus here appears to be that Russia is intent now upon holding whatever it can in the west, protecting its western flank, while consolidating and pushing forward in the Orient.

NEUTRALIZE ORIENT

Thus, goes the reasoning. Russia's entire program in Europe today appears to be aimed at paralyzing the western Europeans' will to resist—to render western Europe impotent and neutral.

In the drive to neutralize western Europe, the prime target is Germany. Competent observers speculate that Stalin would even be prepared to dump the whole East German Com-

munist party if he could achieve the goal of a German vacuum.

Stalin now says the time is ripe for talks on unification of Germany. He has let it be known he is willing for Germany to be unified with its own army, sufficient to defend itself. This was a shock to the Communists, long playing on the fear of a rearmament Germany.

In May the three western powers meet with western Germany to sign a peace contract. This would finalize the split of Germany into two parts. It would preface a western Germany, able to flourish economically, fitted into the western defence scheme.

That is the last thing Moscow wants. But Moscow remembers other times when the Germans were willing to make deals at the moments when they thought Germany would reap the most benefit, and the devil take the hindmost. Possibly Moscow banks on the theory that the Germans haven't changed.

Rotary Called To Charlottes

Ten minutes is too little time to start talking about the glories of Queen Charlotte Islands, Gordon Jolliffe told Rotarians at luncheon yesterday. So, instead of speaking about his Queen Charlotte City home and surrounding territory, he invited Rotary Club members to come "when the geese are low."

Other guests at the luncheon was Clyde Paulson, of Vancouver. Visiting Rotarians were Harry Jackson and Horace Crandall, both of Vancouver; Dr. R. E. Foerster, Nanaimo, and Jim Collins, Marpole.

PEROW NOTES

Mr. and Mrs. Ralph Chorney and children left Perow on Sunday to return to their farm at Dumas, Saskatchewan.

Mr. and Mrs. Stan Ransome have moved into K. Byman's house.

Mrs. Ed. Westgarde sponsored a baby shower at her home last week, in honor of Mrs. M. Forsythe.

Spring is coming slowly in this part of the valley, with snow, rain and cloudy weather. The tremendous amount of snow up in the hills has hardly begun to melt yet.

Mr. and Mrs. Adam Turchinetz from Rose Lake are living in Sherwood Westgarde's cabin in Perow.

Lester Oppen of Quesnel has been spending a few days at his cabin here in Perow.

Mrs. Anna MacKay, Perow school teacher, and son Ronnie, have gone to Kamloops for their Easter holidays.

Mr. and Mrs. R. Fontaine have returned from Alberta where Mrs. Fontaine was hospitalized for surgery.

Intercoastal Shipping to Start Again

VANCOUVER — Return of Atlantic to Pacific shipping services is planned to offset high rail rates from eastern Canada, it was reported here Thursday. The shipping services plan to revive coastal movement discontinued during the war. The Saguenay Terminals Ltd. of Montreal, subsidiary of Aluminum Co. of Canada, and Mosen Clarke B.C. Ltd., plan to make experimental shipments in June and July. In the past few months, the charter rates on vessels have dropped sharply.

Shakedown, Big Order Not Kidnap For Trucks

MIAMI, Florida (CP) — A wealthy Miami jeweler paid \$15,200 "ransom" for return of his six-year-old son yesterday in what police called a phoney kidnapping.

The boy was never actually kidnapped, police said, although Daniel Ritcher was convinced he was buying his son's safe return with \$15,000 of jewels and \$200 in cash.

While the police and Federal Bureau of Investigation marshalled forces to meet what they thought a genuine kidnapping, the child was riding in a taxicab from private school at Miami Beach to a doctor's hospital about 12 miles away.

Police said the plotters used the school, taxi company and hospital as unwilling dupes in the shakedown.
