KOREAN SITUATION LOOKING BAD AGAIN

IN TOTEMS—A collection of Indian totem poles at the village of Kisp'ox—for which photographer Jack V. Long travelled 1,000 miles—provided him with this prize picture in the fifth annual print show of the Commercial Photographers Association of Canada. He was awarded a Golden Trophy for first prize in the pictorial section. Photographers from eight provinces entered 600 prints in the show.

Commons Heard About Kitimat Development As Rail Bill Passes

Applewhite Expresses Appreciation—
Warns Government to Keep Up to Date

OTTAWA (Special to Daily News)—Hon. Lionel Applewhite, minister of transport, last night piloted a resolution dealing with a proposed Canadian National Railways line from Terrace to Kitimat.

He gave a comprehensive outline of the Aluminum Company of Canada's plans for electrical development at Kemano and on a smelter and township at Kitimat.

E. T. Applewhite, member for Skeena, in which district the whole development is located, expressed his appreciation and that of his constituents to the Canadian National, the minister of transport and the government for their actions to provide adequate transportation. He invited the minister to visit the area to inaugurate the railway construction and again to open the new line.

Mr. Applewhite also paid tribute to Hon. E. T. Kenney, minister of lands and forests in British Columbia, for his work in bringing this new development to B.C.

Mr. Applewhite spoke of the tremendous size of the new industrial expansion in the area and pointed out that the target dates on completion of the railway and of the smelter coincided. The northern member warned the government that other federal services such as mail services and communications should be brought up to date in keeping with industrial progress. He stressed that the new line would not serve one industry only but that several new industries could be expected to follow the great electrical development.

Mr. Applewhite concluded by expressing the pride he felt in seeing such expansion in his district and his pride that this development "is the result of an industrial and financial climate engineered by a Liberal government."

The resolution carried unanimously and the bill passed first reading. Second reading is expected on Wednesday.

Enrolment Away Higher

Enrolment at Prince Rupert city schools for April this year totalled 1476, compared with 1138 in the same month last year, according to reports presented at the regular monthly meeting of the school board last night.

Per schools the enrolment for April was as follows with April 1951 figures in parenthesis for comparison:
Booth School 516 (473)
Borden Street 294 (278)
Conrad Street 290 (266)
King Edward 376 (321)
Percentage attendances were: Booth, 91.25; Borden, 94.25; Conrad, 94.2; King Edward, 95.4.

Jail Riot In Frisco

SAN FRANCISCO (CP)—After suppressing the news for 24 hours, Sheriff Dan Gallagher disclosed belatedly Tuesday that 240 of 500 prisoners in San Francisco County Jail at San Bruno staged a destructive four-hour riot Monday. He said the rioters smashed windows, burned mattresses in the cells and flooded their areas with water.

The disorder was quelled, Gallagher reported, when he talked with the prisoners and agreed to improve food and bathing facilities.

The sheriff said he believed the underlying cause of the riot was the prisoners' knowledge of riots in New Jersey, Michigan and Montreal prisons.

Doukhobor Resettlement Old Union Fight Over

Committee Recommends Rehabilitation of Sons of Freedom

VANCOUVER (CP)—A consultative committee on Doukhobors was warned Tuesday that violence may break out afresh in southeastern British Columbia unless reforms in Doukhobor colonies are undertaken immediately.

The warning came in a 340-page report made public by the 12-member committee as rumblings of new unrest arose from the Sons of Freedom Doukhobor settlements in the West Kootenays. In recent weeks there have been scattered cases of arson.

The committee, established by the provincial government and drawn largely from the University of British Columbia, studied the Doukhobor problem for 18 months.

The report advances forty recommendations designed to break down gently hostility of Doukhobor sect, to the life of Canada.

The committee recommended that the fanatical Sons of Freedom sect—numbering about 2,000 of some 10,000 Doukhobors in B.C.—be resettled in another country providing their conflicts would be lessened and health and economic factors would be satisfactory in that nation.

Failing this, the Sons should be relocated in another part of the province if a site in "soil, climate and employment opportunities could be found." No definite site is suggested. If no new site could be found, the Sons should be assisted to rehabilitate in the areas they now occupy.

The committee also recommended that the Sons be given the right to own land and to engage in commerce.

Terrace Man Found Guilty

Robert William Parker
Convicted of Hit and
Run Driving

Robert William Parker, 33, of Terrace, was found guilty at Supreme Court assizes yesterday of intentionally leaving the scene of an accident to escape liability.

He was charged in connection with a hit and run accident last October 7 in Terrace resulting in the injury of Harry Seaton, also of Terrace.

Justice H. S. Woods reserved sentence to end of assizes at request of Defence Counsel David Sturdy.

The 12-man jury deliberated three-quarters of an hour before returning the verdict.

A double defence was presented by Mr. Sturdy, calling as witnesses the accused, Mrs. Parker and a friend of the Parkers, Willis Kallish.

None of the witnesses knew anything about the accident.

Accused and his wife swore their car had been stolen from its parking place in front of their home some time after 1:30 a.m. Shortly after 7 a.m., Parker himself found the car, front end heavily damaged, parked along a side street.

According to police testimony, Seaton had been found lying on the main thoroughfare of Terrace at 1:52 a.m., a few minutes after being struck down.

Three defence witnesses also swore Mrs. Parker did all the driving that night and early morning, although this information was not revealed to investigating police at the time or at the preliminary hearing.

Said Mrs. Parker, in answer to Justice Woods:

"I was saving that for the assizes."

"What do you mean, saving it?" asked the judge. "Don't you know that such information might very likely have caused the preliminary hearing to dismiss the case? Why incur all this expense?"

Parker accused investigating police officer Const. T. A. Brue of "browbeating" and threats.

"He told me I could get five or ten years in prison if I didn't produce the person who drove my car in the accident. He did everything in his power to make me admit I drove the car."

DEFENCE NARRATIVE
Briefly, the defence narrative was as follows:

The Parkers with two friends arrived in their car at the Skeena Hotel where they had "two glasses of beer." They left between 11 and 11:30 p.m. to see a friend in a room at the Terrace Hotel. At midnight the four landed at a village cafe where they remained about half an hour.

From the cafe, the party returned to the Terrace Hotel, again to confer with the "friend," leaving to arrive at the Columbia Cellulose Co. Ltd. compound at 1 a.m. to return the two friends to their bunkhouse.

Mrs. Parker was driving at all times with one exception. At the gates of the compound, Parker changed places with his wife to drive into the camp. The two changed places again going out of camp, some ten or 15 minutes later, arriving home—a mile and three-tenths away—before 1:30 a.m.

They went to bed at 1:35, said Mrs. Parker. She noticed the time as she wound the alarm clock. Next morning at 7, she noticed the car was gone. Parker telephoned the police and later found the car himself, parked on a side street, near the scene of the accident. They had not left the keys in the car, said the Parkers.

"How did the car get started anyway? Is there any evidence of this?" asked Justice Woods. He asked Mrs. Parker if she could start the car without a key, by crossing the wires.

She said she "never tried." Prosecuting Counsel Gilbert Hogg called the defence "incredible."

"It is unbelievable to me that the car could have been stolen in such a short space of time, then come back over the same road, the same spot where it had been previously driven by the Parkers."

Mr. Hogg asked the jury to consider strongly the evidence

Resumption of Full Scale Fighting Seen

General Ridgway Says Allies Have
Had Last Truce Word

MUNSAN (Canadian Press)—Korean truce talks sank to an all-time low today after the Communists rejected a "clear, final and irrevocable" package proposal from the Allies.

An official Allied spokesman said: "There is nothing left to discuss."

Top negotiators on each side told the other "the next move is up to you."

Agreement preparations are so remote that the United Nations command proposed an indefinite recess of the armistice talks.

However, full delegates will meet again Thursday at insistence of the Reds.

Negotiators abruptly ended secrecy which has shrouded the talks since the Allied package deal was presented April 28.

In Tokyo, General Matthew B. Ridgway announced a virtual Allied ultimatum. It is a three-point package:

1. The United Command would return 70,000 to 132,000 captured Chinese and North Koreans in exchange for 120,000 Allied troops held by the Reds. (This is crux of the deadlock.)

2. The Communists would be permitted to build and repair North Korean air fields.

3. The Reds would drop their nomination of Russia as a neutral nation to help police a truce.

Ridgway said this was the package to be accepted as a whole. He said: "Our position is one from which we will not and shall not retreat."

Meanwhile in Washington speculation arose that complete collapse of the negotiations and resumption of full scale fighting could follow the latest critical developments.

Women in House of Lords

LONDON (Reuters)—Reform measures to be urged in the House of Lords this week would permit women to sit in the House for the first time. But a tradition built up over 900 years won't be easy to break.

This "peerage suffrage" is one of a series of reforms for the Upper House that have been shimmering for some time.

In last fall's general election campaign, Prime Minister Winston Churchill pledged his government to "call an all-party conference to consider proposals for the reform of the House of Lords."

Viscount Samuel, 81-year-old Liberal leader, will take up the issue Tuesday and ask when the government plans to fulfil the pledge.

Most parties want to retain the upper House, feeling that it carries out important functions efficiently and conscientiously. It can delay laws passed by the Commons—except money bills—for 12 months.

But there has been a growing demand for changes in its composition.

At present a full house would consist of 975—860 hereditary peers, the law lords and 26 Church of England bishops and archbishops. 28 Irish peers elected for life, and 16 Scottish peers elected by the Scottish peerage for the duration of each Parliament. But there are no women.

The Liberal party feels that this predominance of hereditary lawmakers should not continue. It would like to see the creation of "lords for life"—persons of distinction in fields such as medicine, commerce and education—whose titles would lapse with their deaths.

As for the present hereditary peers, they would be able to elect a number of their fellows to represent them in the house; the dozen or so "peeresses in their own right"—whose titles are their own and not received through family or husband—would be eligible.

The Labor party also is eager for some reform, since peers come mostly from traditionally-Conservative families and give the Tories a perpetual majority.

of crown witness Fred Baker, watchman and gatekeeper of the compound, who told the court he had seen the Parker car—Parker driving—leave the camp after 1:30 and within three-quarters of a minute heard a loud crash.

Another crown witness called yesterday was T. W. McConnell Davis, of Victoria, a qualified chemist analyst, who told the court that paint smears on a jacket said to have been worn by Seaton at time of his injury, were similar to paint fragments taken from the Parker car.

Seven Die in Train Wreck

SYDNEY, Australia (CP)—A Sydney electric train plowed into the rear of another at suburban Berala station Wednesday, killing seven persons and injuring about 100 others.

The trains were crowded with Sydney-bound workers.

The trains collided in a thick fog.

Pulp Mill Reducing From Seven to Six Days a Week

"Getting down to a normal operation" was the way that Mill Manager W. C. R. Jones described the reduction which is now going on at the Watson Island pulp mill of Columbia Cellulose from a seven to a six-day working week.

"We are reducing such surplus of staff as is compatible with increased efficiency of operation," Mr. Jones added.

In the woods at Terrace and Khutzamatien, the company is operating on a regular five-day week schedule said Rae Johnson, woods manager of the company.

**Canada Backs
Policy of U.N.**

OTTAWA (CP)—External Affairs Minister L. B. Pearson is expected to issue a statement within 24 hours giving Canada's support to the United Nations policy of allowing Communist prisoners in Korea to refuse to be repatriated to their home lands.

The government has decided to commit itself to the policy of the United Nations that they should not force Communist prisoners to go home if they do not want to.

**Plant Many Trees
To Boost Fishing**

CALGARY (CP)—Planting trees to conserve game fish is one of the projects of the Calgary Fish and Game Association.

The committee has planted 10,000 willow trees in the last three years around Lac des Arcs near Exshaw, 60 miles west of Calgary, and they aim to plant more in the near future.

The idea is to prevent sand from drifting across the lake. It was through the efforts of the committee that the lake was opened for fishing.

The committee has also spent considerable time and effort in blasting a channel through to the lake to insure a constant supply of fresh water, thereby reducing the annual winter killing of fish through lack of oxygen.

**Jurors "Unable"
To Make Court**

No less than eighteen persons who had been called for jury duty at the spring session of the Supreme Court Assizes here were reported "unable" to attend when the court opened Monday.

Mr. Justice H. S. Wood issued an order calling for twenty-five additional jurors whereupon police officers went about endeavoring to round them up.

BULLETINS

LOST BOY IN HOSPITAL
WILLIAMS LAKE—Exhausted and weak from lack of food, 12-year-old Eddie Weetman, missing in the snow-packed woods for four days, is in hospital here. His condition is described as "only fair." A 75-man search party made up of cowboys, Indian riders, students and townsfolk found him late Monday. He was huddled in a thicket close to where he had abandoned his jacket.

SEES FEWER HOMES
OTTAWA—D. B. Mansur, president of the Central Mortgage and Housing Corporation today forecast a sharp decline in the number of homes started this year. In a review of the corporation's operations he said the main reason for this decline was the difficulty of obtaining lands serviced by streets, roads and sewers, water and schools. A shortage of mortgage credit also affected the number of new starts.

F. AND M. SPREADS
LONDON—Movement of all livestock was banned Tuesday throughout England and Wales as the foot and mouth disease spread to Jersey in the Channel Islands. Jersey, the home of the famous pedigree cows, is now declared in the restricted area.

SASKATCHEWAN ELECTION
REGINA—The Leader-Post says it has been informed the Saskatchewan general election will be held June 11. The last general election was in June 1948 when the CCF won 31 seats and the Liberals 19.

**Premier at
Dam Opening**

VICTORIA (CP)—Premier Byron Johnson will fly to Nechako Saturday to attend dedication ceremonies for the new Kenney dam Saturday.

Part of the mammoth Alcan development, the dam is to be named after the lands and forests minister, Hon. E. T. Kenney.

The premier is expected to look over other phases of the project and meet workers during his visit.

WEATHER—
Synopsis
It was clear and cool last night and the day promises to be sunny and warm in most areas. However, cloud will move over the north coast during the day as a Pacific disturbance develops and occasional light rain will follow tonight.

This system will give increasing cloudiness in the northern interior this evening and on the south coast late tomorrow. B.C. temperatures will continue their upward trend in all regions with the exception of the north coast.

Forecast
North coast region—Southern section sunny today, increasing cloudiness tomorrow, becoming cloudy in the afternoon. A little warmer. Light winds. Lows tonight and highs tomorrow—at Port Hardy, 36 and 58; remainder of region, cloudy and a little milder, occasional rain tonight and Thursday. Light winds becoming southeast 20 exposed areas Thursday. Lows tonight and highs tomorrow—at Sandspit, 38 and 50; Prince Rupert, 38 and 53.

Even More Houses

THE Chamber of Commerce does some forward looking and realistic thinking when it urges that there be no let-up in the campaign for more housing in Prince Rupert even though 50 new rental units may now have been started or are about to start here.

If further rental projects are to be considered, it might be well to think along more modest lines than the present 50 with lower rents. The \$65 to \$85 rent figure was one of the causes of indifference, if not opposition, to the project which is now under way—although there is no doubt that, once they are built or even before they are, there will be plenty of competition to see who will get them—no matter what the rent.

Possibly more important, however, than more rental housing would be an arrangement whereby houses could be made available for purchase—either by some provision in connection with the rental houses or an amelioration of National Housing. NHA financing in Prince Rupert at present offers little real inducement or opportunity to the ordinary person without much ready capital who might, nevertheless, be an excellent building risk.

And, after all, if a person can buy an automobile, a washing machine, a stove on a five or ten per cent down payment, why cannot the same be done with a home?

Living Index Up to Date

THE cost of living index, which has been slipping lately, will soon be traded in on a new model. This summer Canadians will get a new official price barometer which will embody several new features including a new name—Consumer Price Index.

The old index has been declining in recent months. As of April, it stood at 188.7, down 4 point from the previous month. This marked the fourth decline in the last five months.

The present index is not being discarded because of its recent record of performance. It has simply grown old and has become outmoded. Its calculations are based on pre-war standards. As everyone knows, conditions have changed since 1939. Living standards are higher, as are prices, and family expenditures cover a wider range of goods and services. The new index will take into account these changes.

The new index will be placed on a postwar footing by using the year 1949 instead of 1935-39 as the base period. That is 1949 prices will equal 100 points.

The new "basket" of goods will include some 225 items considered to be normal necessities in the average home. The present index has 160 items.

The average family now spends about the same percentage of its budget on food as it did before the war. Thus food costs are given a weight of 32 per cent in the new index as against 31 per cent in the present one. Clothing purchases take 11 per cent compared with 12 per cent in 1935-39. The average family now spends only 15 per cent of its income on rent instead of 19 per cent as before. On the other hand fuel, light, furnishings and services now absorb 17 per cent of the budget as compared with 15 per cent in the former base years.

As I See It

Billion \$ Question

ABOARD CPR EASTBOUND: At Revelstoke our train stops and just opposite us is a westbound cattle train.

The white-faced prairie steers look as if they had not a care in the world. Even the occasional "moo" seems more like a passing of the time of day than a complaint or a call for food or water.

And now, far across the prairies, we have stopped again at the eastern end of Saskatchewan. Around Regina well fed cattle lay chewing their cud in the soft sunshine. Yet the newspapers carry screaming headlines about the billion dollar question mark.

Does the new outbreak of hoof and mouth disease, far south of the original Canadian case, mean that the scourge has "got away from them"?

THE MOST disturbing feature of the new outbreak, near Weyburn, is that nobody knows how the jump was made from Regina, or if it was made.

Up till now there has been a pretty clear chain of circumstantial evidence.

A German immigrant came from an affected farm in Germany and went to a farm in Saskatchewan which shortly thereafter was affected. Some cattle from this farm went to a packing plant which later was affected. The subsequent outbreak near Moose Jaw was traced directly to meat from the original contaminated sources.

But up till now, no connection is shown between the Regina and Weyburn areas.

THE MOST ominous question which farmers hereabouts are asking, in smoking car conversations, and otherwise is this: "Did birds carry the disease from Regina to Weyburn, or how did it get there?"

Looking back over the original debates in Parliament I see that at least one speaker mentioned the fact that deer were seen grazing on the banks of the small river at Regina near the affected packing plant. That was away back at the time of the original outbreak, before the accurate diagnosis of the disease.

Were those deer affected, and if so, where are they now?

THERE is always the possibility that the Saskatchewan outbreak was not imported from Germany but from Mexico—where it has been raging for years.

People laughed about Mr. Gardiner's theory that birds may have carried it from Mexico—for no cases have been discovered in the U.S.A. But there is some motor traffic between Canada and Mexico. There is, of course, a vast amount of hoof and mouth disease even in Britain, Denmark, Switzerland and other countries with which we have considerable coming and going.

NOBODY has been thinking or rather talking as yet about the political affect of this disaster, but it is bound to be considerable. It is exactly the kind of thing which could tilt the bal-

Hunt For Uranium

OTTAWA (CP)—If you can lay hands on a geiger counter and like outdoor life, you're ready to set up as a uranium prospector.

It helps if you can find your way around in the bush, but it doesn't matter if you can't tell pitchblende from thucholite.

All these ideas of the ease of pursuing radioactive minerals are set out by the Mines Department in a new booklet aimed at stepping up Canada's known reserves of atomic-energy materials by smoothing the way for prospectors.

As the booklet sets out, the geiger counter has become the great leveller among atomic prospectors. The little machine whose clicking betrays nearby radioactivity has put the novice and the veteran almost in the same class.

Anyone, the book says, who can turn a switch and change a battery can operate a counter. It does all the work.

"Perhaps the most important qualifications for a uranium prospector are: that he should have one of these instruments, should enjoy outdoor life and should have some knowledge of bush-craft," says the booklet.

Any resident of Canada, including non-citizens, can get on the hunt, and he has a big field to pick from. The best prospects are in the pre-Cambrian rocks of the Canadian Shield, a huge horseshoe curving through sections of the Northwest Territories, Saskatchewan, Manitoba, Ontario and Québec. There are too, some radioactive occurrences in British Columbia and Nova Scotia.

Once the geiger machine points to what may be a strike, the government goes to work for the prospector. He gets free assays on radioactive materials, and usually the results are mailed out to him the same day the samples are received.

If he's in a hurry, he can even get the results telephoned. But there the official beneficence ends. The government reverses the charges.

ance against the government, in favor of the opposition.

Actually, the Liberal government seems to me to be responsible for only one fault—and that only indirectly. The civil servants handled this very badly. The experts were slow in making the correct diagnosis.

But once the outbreak was discovered the government has handled the disaster just as efficiently as was possible.

Arthritis Campaign

TORONTO (CP)—The Canadian Arthritis and Rheumatism Society plans to spend \$130,000 this year on research into the diseases which have attacked 600,000 Canadians.

The money will be part of the \$700,000 it hopes to raise in a campaign which starts in most Canadian cities on May 5 but in Ontario May 12.

The society serves patients in all provinces but Newfoundland and Prince Edward Island.

Of the Canadians affected by the disease, 100,000 are totally or partly disabled with 15,000 confined to beds or wheel chairs.

The money for research will be allocated in the form of grants and fellowships.

Leading the study of rheumatic diseases in children is Dr. John Keith of Toronto's Hospital for Sick Children who is conducting a five-year research on his little patients.

Once the leading cause of death among children of school age, the diseases now are rated in fourth place.

Worst of the rheumatic diseases are rheumatoid arthritis which affects three times as many women as men and arthritis of the spine which is basically a man's disease.

But the former is not just a disease of old age. One of Dr. Keith's patients is a two-year-old girl. Most victims of rheumatoid arthritis are between the ages of 20 and 50 years.

FINAL TOUCH

DEBIDEN, Sask. (CP)—Fire destroyed 40 acres of swathed grain, valued at about \$1,000 on the farm of Joseph Dumais. He had been forced to leave it in the fields all winter when bad weather halted harvesting last autumn.

ray ...

Reflects and Reminisces

Becoming acquainted, in Prince Rupert, is an easy enough process. Strangers notice it. Forming a friendship may take a little longer. Other things are noticed as well. The better a pal likes you, the more sure he will give you the devil to eat every now and then.

THE ECONOMIC SIDE

Observes the St. Thomas Times-Journal: "It has become increasingly apparent in the past few years that we in Canada have become aware of the potentialities of the natural resources of the country that a gradual shift in Canadian nationalism from the political sphere into the economic has taken place. We are no longer so proud of Canada's political role in the concert of nations as we are of Canada's buried treasure in copper, oil, coal and iron. It may be that we have become accustomed to our political maturity but have not yet learned to live with the fact that our natural resources make us one of the potentially richest nations in the world. We can face the political implications of joint fishing rights, U.S. aid for the seaway and American troops in the Canadian Arctic with an equanimity born of maturity, but the mere hint of American encroachment on our coal or oil raises a tempest from Halifax to the Yukon."

FINALLY FINISHED

At last, sidewalk reconstruction on Third Avenue between Second and Third Streets is nearing the finished job. Further replacement elsewhere in the business area would also be welcome. For Prince Rupert's sidewalks, assuming they are in good

shape, can arouse pride. For one thing, they have ample width. By way of contrast, take a stroll in Juneau, capital city of the vast land of Alaska.

Canada's chief city, Montreal, a community of prestige and dignity, has of late been doing a bit of stepping out. A major strike was called in one of her leading stores, which, still carrying on, slashed prices so low that the crush of buyers almost cleaned out the premises. At the same time, the prisoners in the

Bordeaux jail staged an attempted fire. The thought that what he called in French "the great fire" might have been their thoughts original.

How come? During the fading there appeared good old front page 4. A new hostility was later than April or May be repeated—but with of peevishness—How

BEAUTY—Arlene Flint of Owen Sound, Ont., was one of the prettiest fishermen to go fly-casting with the opening of the Ontario trout season May 1. Arlene didn't say whether she caught anything as large as another Owen Sound angler, David Donald, who landed a four-pound, 14-ounce brown trout the day before. But a day in the sun, with a fly rod, attractive scenery, and moving stream added up to a happy occasion. (CP PHOTO)

Fine Talent Heard At Music Festival

Adjudicator Gives Rich Praise and High Marks

Rich and varied talent which drew warm praise and high marks from adjudicator Glenn J. Nelson provided an auspicious introduction for the Prince Rupert district's fifth annual music and drama festival as it made its official opening at the Civic Centre auditorium last night.

Performing to a full house, contestants, made up mainly of adult groups, proved that the Prince Rupert area has an abundance of musical ability. This was convincingly established by Nelson who, grading 80-85 as "above average," scored an entry lower than 82 the evening.

With Mrs. Dorothy L. Becker, president of the executive committee, officiating, the four-day festival was opened by Dr. R. R. Large, school board chairman, who pointed out that a major work of the festival was the fact that 200 entrants were taking part. He thought the interest of the festival from outside the city was creditable.

During welcoming remarks, Dr. H. S. Whalen observed that the festival was a valuable chance for children to acquire poise and confidence, and that the inter-communal good-will created was an important feature of the occasion.

Dr. Whalen was the Prince Rupert band which scored 86 for its melodies from "The Star-Spangled Banner" to win the highest prize of the evening. The adjudicator was particularly impressed by the band's ability to play softly when the mood required.

In the absence of the Ketchikan instrumental trio, delayed by the single outside entry of the native choir from St. Mary's Church at Aiyansh, conducted by Reuben McMillan, which, although unable to rehearse together until just before opening, gave a moving performance in their two religious songs.

CONTEST
With awards in several of the divisions going by default, special interest centered on the vocal solo contest between Inez Amadio and Rowland Colussi. In two stirring Italian numbers which brought rousing applause, Miss Amadio proved to the adjudicator she was a "good voice of great dramatic contest." In control of her musicianship, however, Mr. Colussi felt that Mr. Miles had

limited accommodation still available on HOME LINES "SS ATLANTIC" (22,000 tons) sailing from Quebec through November special low summer fares available for June and July sailings.

LOBA Chinese Tea Colorful

Mrs. Elizabeth Thomson and Mrs. R. B. Skinner were joint conveners at a successful spring bazaar and tea held by the Ladies' Orange Benevolent Association Saturday afternoon at the Odd Fellow's Hall.

The assisting committee consisted of Mrs. A. Hamilton, in charge of the tearoom and decorations; Mrs. H. E. Blackburn, looking after the sewing; and Mrs. J. McRae, assisted by Mrs. H. Paulson, taking care of refreshments.

A colorful and unique decorating theme depicted a beautiful Chinese scene. The hall was decorated with oiled paper Chinese lanterns, fans and butterflies. Receiving more than a little comment was a very realistic cherry blossom tree.

The individual tea tables were centred with narcissi in small Chinese vases. The pourers' lace covered table attracted a great deal of attention with a miniature Chinese bridge as a table centre.

Chinese teapots were used by the pourers, Mrs. Vic Morrison and Mrs. Fred Barber.

The ladies in charge of the booths and serving tea made a charming picture in their lovely colorful satin Chinese costumes made and donated for the occasion by Mrs. A. Hamilton.

The "Worthy Mistress, Mrs. J. Hill, greeted the guests at the door. Assisting the committee were:

Mrs. A. J. Croxford and Mrs. M. Viereck at the home cooking table.

Mrs. C. Rudolph at the plant stall and Mrs. E. Mulder looked after the candy booth. Mrs. Flewin and Mrs. R. S. Traquair, home sewing.

Assisting Mrs. A. Hamilton in the tea room were Mrs. E. Johansen, Mrs. B. J. Bacon and Mrs. C. Willson.

Helping Mrs. J. McRae in the kitchen were Mrs. H. Paulson, Mrs. W. Fields, Mrs. B. Erikson and Mrs. F. Gladish.

Mrs. E. H. Moorehouse acted as cashier. Mrs. E. Thomson and Mrs. E. A. Evans took care of the raffles. Winners were the following:

Miss Frances Babchuk won the luncheon cloth with number 165. Polly Astoria, a chicken with number 253; W. D. Longwell won grocery hamper with number 598.

The "Past Mistresses of the LOBA had a booth of many lovely articles of sewing, etc., in charge of Mrs. C. M. Smith, assisted by Mrs. B. Guyan.

They raffled a large leg of pork, the winning ticket being held by Mrs. Peter Lien.

Holcombe and George Manton, Prince George; M. L. Finrow, Seattle; W. S. Dale, Miss R. Farrell, Miss I. Gillis, T. A. Brue, F. Morris, Mr. and Mrs. J. B. MacKay, Dr. and Mrs. M. K. Weir, Mr. and Mrs. R. Dubeau and Mr. and Mrs. J. Sikler, Terrace; Mr. and Mrs. R. W. Burton and daughter, Alice Ann; Mr. and Mrs. C. J. Mayes, Stewart; Leo D. Therien, North Vancouver; W. F. Hults, Salem, Oregon; F. E. Arnold, Caldwell, Idaho; H. V. Grainger, Nanaimo; C. H. Klotz, Haworth, New Jersey; H. Hagman, Houston; Dr. J. B. Harrison, New Westminster; Mrs. D. Norton and Mrs. G. Lambly, Terrace; Mrs. C. L. Lewis and Mr. and Mrs. M. G. Lee and son, Butedale; Mrs. W. Campbell, North Pacific; A. Elizabeth Eckland, Burns Lake.

Miss Charlotte Chisholm arrived in the city on Monday from Vancouver to join the staff of Booth Memorial High School here in the home economics department. She succeeds Mrs. Daphne Scott. Miss Chisholm is a graduate of University of Toronto and took teachers' training at University of British Columbia.

Bridal Pair to Live at Nechako

A quiet wedding of much interest was held last Wednesday evening when Verna Stevens became the bride of Alfred Deane. The ceremony took place at the home of Lloyd Stevens, brother of the bride, with Rev. Dr. E. A. Wright, First Presbyterian Church, officiating.

The bride chose for her wedding a blue suit with white accessories and a corsage of red roses with lily-of-the-valley.

Miss Vicki Lewis, who attended the bride, wore a grey suit with white accessories. James Internela was the groomsmen. A reception was held at the home of Pat Deane, brother of the groom. Doug Payne proposed the bridal toast.

Mr. and Mrs. Deane have left the city to reside at Nechako Dam.

Local and PERSONAL

Mrs. James M. Fields left on today's plane for a trip to Vancouver.

Charles Lundstrom, after a week's visit in the city, left by plane today on his return to Stewart.

Mayor and Mrs. Harold Whalen are leaving on tomorrow night's train for Nechako to attend the official opening of the Kenney dam.

W. R. Clerihue, Vancouver chartered accountant, arrived in the city by plane today and will be here for the coming week on professional business.

Oswald Hoskins of Smithers, Masonic district deputy grandmaster, left on Monday night's train for his home in the interior after paying an official visit to the lodge at Ocean Falls.

Dr. and Mrs. Hector Macdonald left on today's plane for a trip to Vancouver and Portland. Mrs. C. Boulter sailed Monday night on the Princess Norah for a visit in Victoria.

Dr. J. B. Harrison, Vancouver radiologist, who has been paying his monthly visit to the Prince Rupert General Hospital, is returning south on the Prince Rupert tomorrow night.

Mrs. William Cruickshank left on Monday night's train for Winnipeg where she will attend the forthcoming wedding of her son, Robert Cruickshank. Mr. Cruickshank will leave at the end of the week for Winnipeg.

Mr. and Mrs. Harry Swaffield, who have been residing in the city for the past few years, sailed on the Princess Norah Monday night for Vancouver enroute to Edmonton where they plan to make their future home.

Off For Five Months' Trip To Old Land

Mr. and Mrs. Alex MacKenzie are leaving on tonight's train for a five months' trip to the Old Country.

Mr. MacKenzie will visit his native home near Lochinver in Sutherlandshire, Scotland.

Mrs. MacKenzie, whose first visit home it will be in 41 years, goes to her home near Cardiff in Wales.

They sail from Quebec aboard the Franconia, landing in Liverpool. Returning in September, they will sail on the Samaria from Southampton in September.

John Bulger will be the speaker tomorrow at the regular weekly luncheon of the Prince Rupert Rotary Club. He will talk about precious stones.

Harold Guest, field secretary of the Canadian Institute for the Blind, who has been in the city for the past few days, leaves on tonight's train for Terrace and other interior points. Mr. Guest comes from Vancouver and makes periodical trips north.

Conrad School Teacher Resigns

Miss Claire Sirett has resigned from the staff of Conrad Street School and will leave for the south at the end of the term. Her's is the first resignation to be received by the school board.

1952's NEWER and MIGHTIER CHEVROLET TRUCKS

give you
THE BEST AND THE MOST FOR YOUR MONEY

Nineteen-fifty-two brings a new era in Truck Transportation—made possible by Chevrolet engineers! Here, for '52, are more Chevrolet Truck models to choose from than ever before! They'll carry bigger payloads! They'll haul loads faster—powered by the famous valve-in-head Chevrolet engines rated up to 120 horsepower.

It's a fact! Wherever trucks must really earn their way, wherever costs are figured down to the last cent—that's where a 1952 Chevrolet Truck, and only a Chevrolet, fills the bill! That's true whether your job calls for a sedan delivery or an extra-heavy!

See for yourself. Check Chevrolet Trucks point for point—count up the features that make Chevrolet more than ever The Leader! First in value, first in demand, first by far in actual sales!

A GENERAL MOTORS VALUE

Models for every load and purpose

Whatever your trucking needs, there's a Chevrolet truck model suited for your purpose. Whether you're in the market for panel deliveries, cab-over engines, forward controls or any other style, you owe it to yourself to see your Chevrolet truck dealer. That's where you'll find exactly the truck you want.

Complete range of wheelbases and carrying capacities

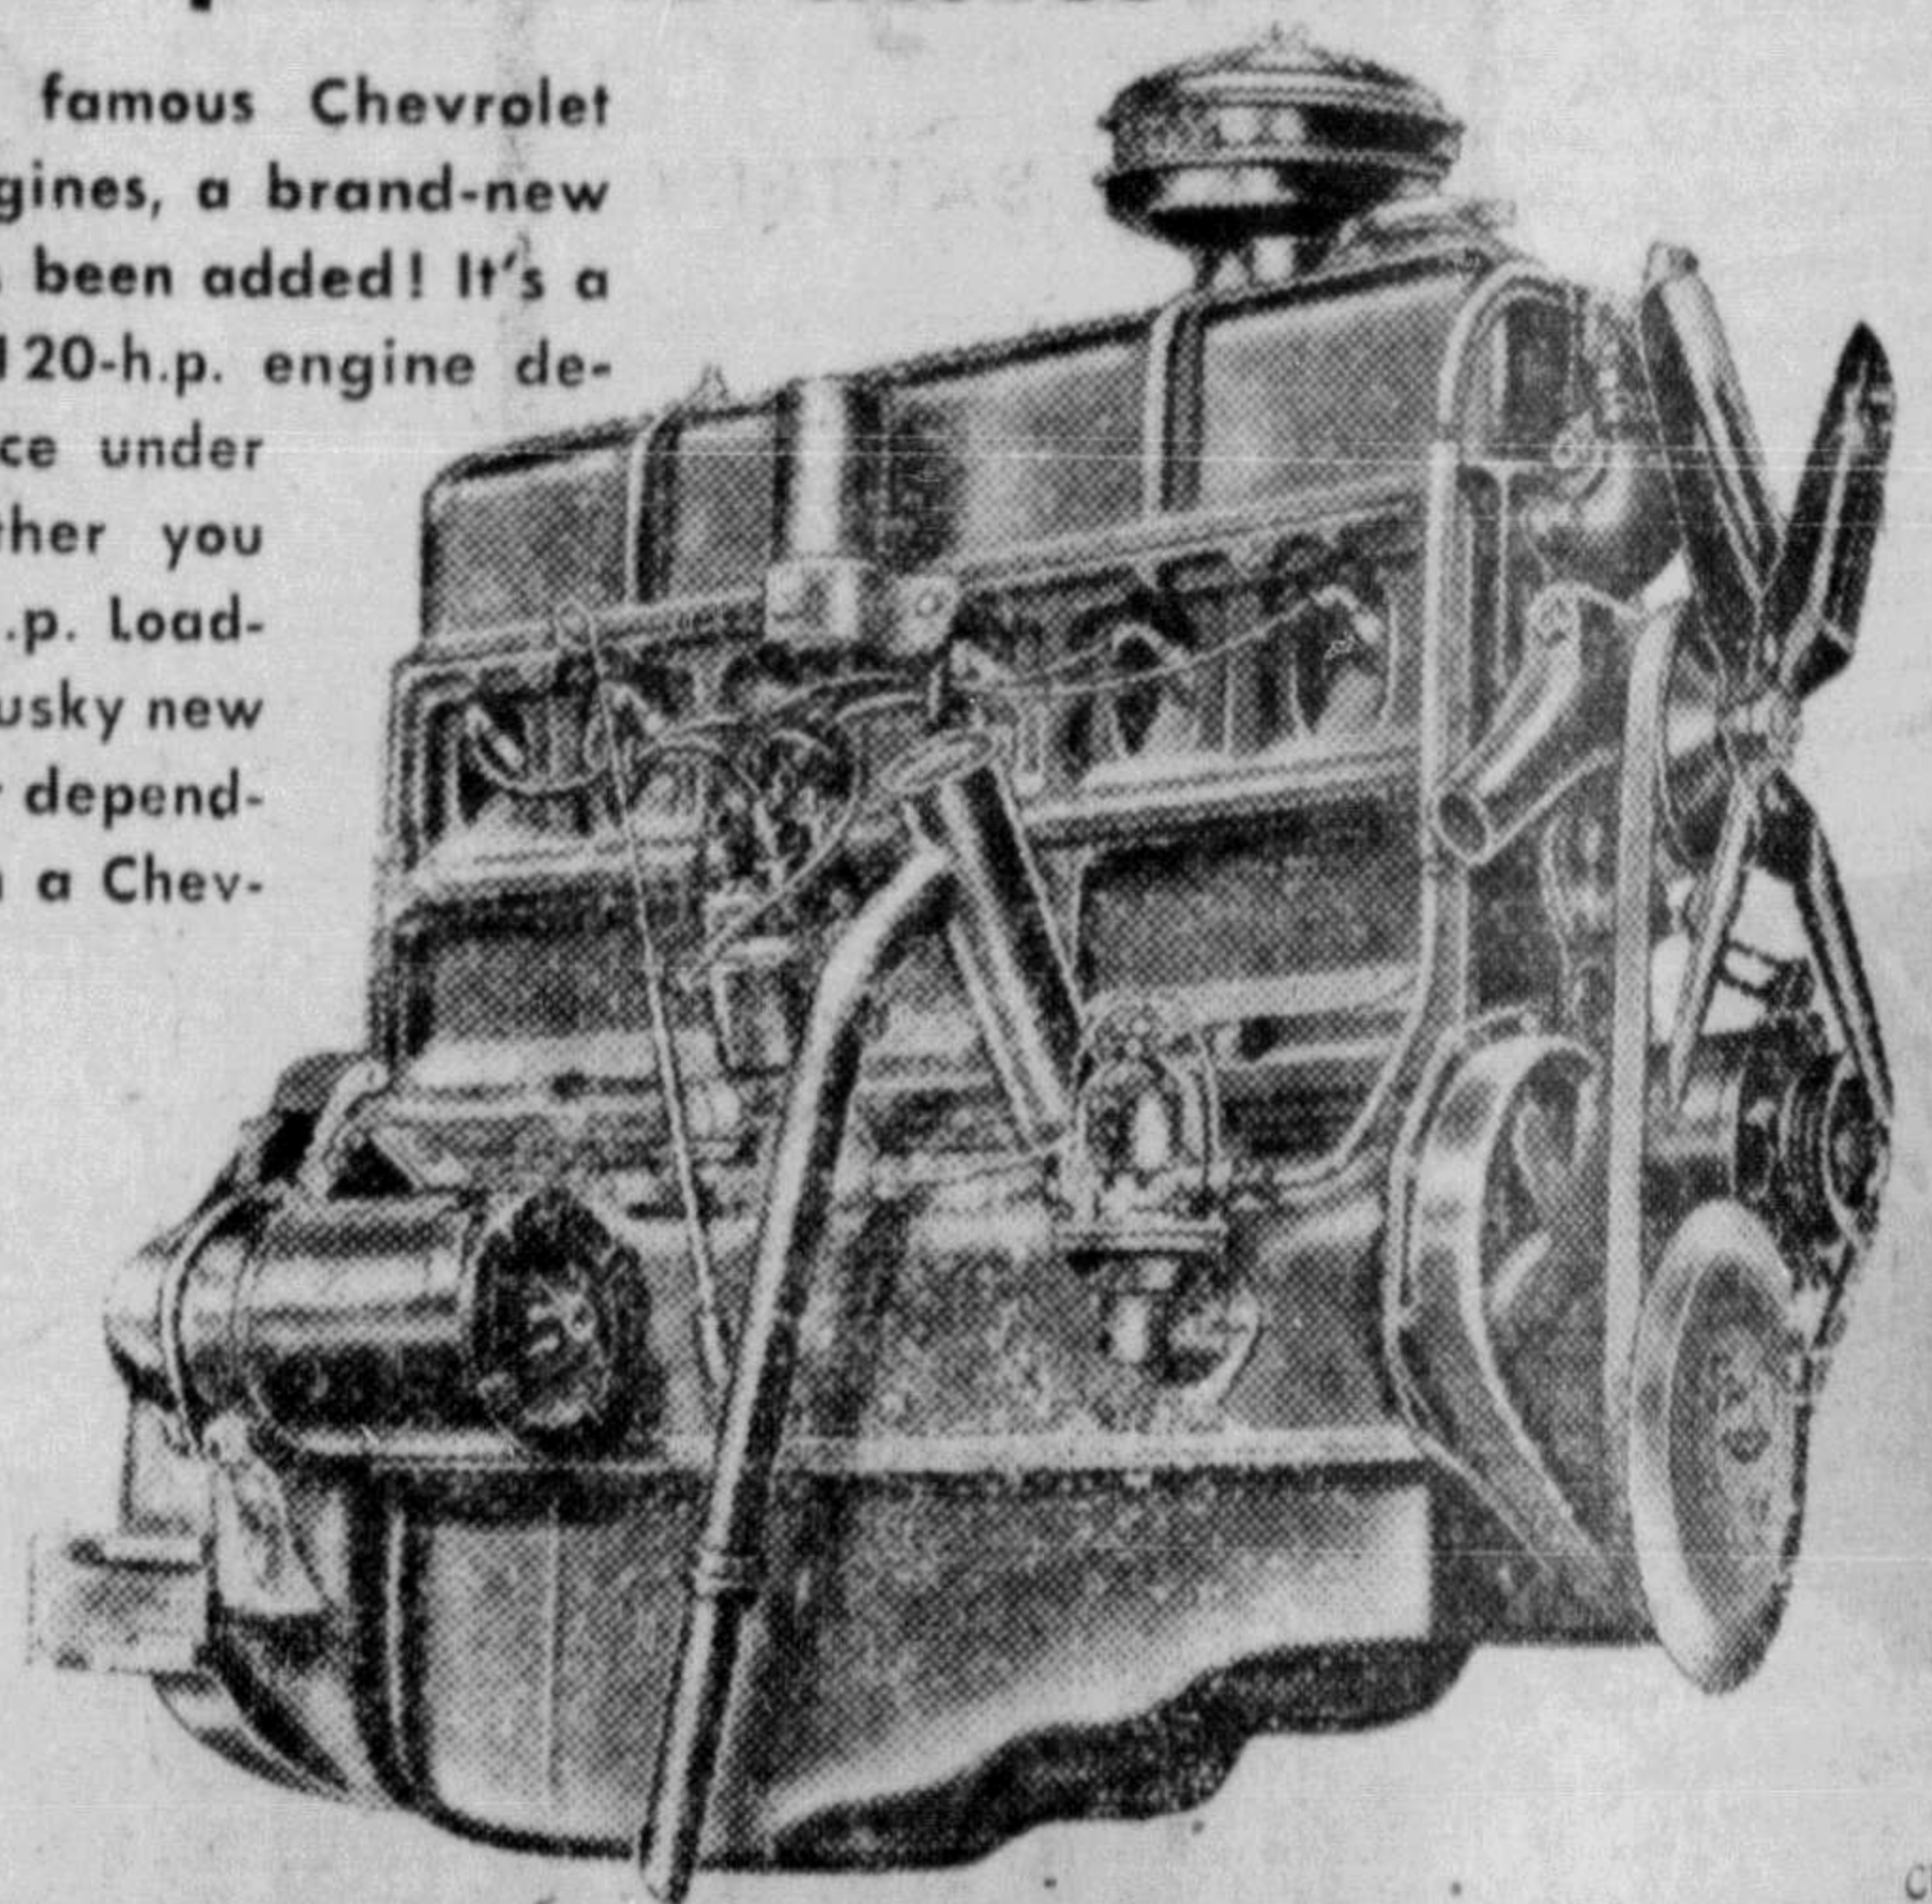

The Chevrolet truck line for '52 offers you a wider choice of wheelbases, ranging right up to 212". Carrying capacities have also been increased to 17,500 lbs. with the 1700 Heavy Duty series. And all this extra payload and carrying capacity is yours at amazingly low cost. No other truck line gives you so much for so little.

Axle capacities for every job

The right axle for any type hauling job—still another reason why the Chevrolet truck line lets you carry more payload without overloading. Chevrolet truck axles are designed to absorb the shocks and jolts caused by rough roads and heavy loads. What's more, they deliver greater pulling power with less engine effort throughout the entire speed range. And there's now a heavier two-speed rear axle available for the Heavy Duty models.

4 great power plants to choose from

To the three already famous Chevrolet valve-in-head truck engines, a brand-new fourth power plant has been added! It's a massive, heavy-duty 120-h.p. engine designed to deliver outstanding performance under the toughest working conditions. Whether you choose the 92 h.p. Thriftmaster, the 105 h.p. Loadmaster, the 114 h.p. Torquemaster or the husky new 120 h.p. engine, you can be sure of greater dependability and greater power-per-gallon from a Chevrolet valve-in-head truck engine.

Football
Starting

By JAY ESS

The football season opening has been set for this evening with the Heavy Battery playing the General Motors.

The General Motors team will be picked from the following: Tommy Boulter, Rod Robinson, Eby (captain), John Wilson, Glen Olsen, Ronnie Tait, Les Matthews, Arne Lien, Pat Wilson, A. Maron, P. Maron, Dave Murray, Jack White, Wally Price.

How long does it take to mark out a football ground? Well, last evening, in view of the fact that the Football Association had taken no steps to have the job done, two General Motors enthusiasts and a referee spent no less than three hours in marking out the pitch. The three were John Wilson, secretary of the General Motors, Alex Haig, manager of the General Motors, and Bill Baxter, who plans to referee this season.

Senior, Junior
Baseball Sees
Early Start

"Baseball Hill" in Roosevelt Park echoed last night to the crack of ball and bat and the slap of leather as all three senior baseball clubs turned out for practice before the first game next Sunday.

First league game is scheduled between Abel & Odowes and Go don & Anderson. Meanwhile, on the far side of the "Hill," Little Leaguers turned out for the first time for instruction in pitching and catching. Tonight, all Little League players who want to try out for infield are asked to be at GYRO ball park at 7 p.m. Tr's practice will be for shortstops and basemen.

Adult team managers are asked to volunteer. Three are needed. With more than 45 players aged 12 and under registered for Little League baseball, a good season is expected.

Ricardo Montalban Sees Too Much Extremes

By BOB THOMAS

HOLLYWOOD (AP)—Ricardo Montalban thinks he knows what's wrong with Hollywood's glamor and he's altering his career accordingly.

"There have been two extremes in movie publicity," the wily Latin actor said. "On one side are the sinful stars, whose scandals make big headlines. On the other side are the honey stars, who are built up to be 'just like the boy or girl next door.'"

"I think both extremes are bad for Hollywood. There is nothing exciting about sin; it is ugly and offensive to decent people. But it is also bad to make movie stars seem normal, they aren't normal or else they wouldn't be movie stars."

Montalban confessed that he had been placed in the "boy next door" category. He and his family were the subjects of countless home layouts in the movie magazine. Finally, his wife declared, "I'm getting tired of seeing my face."

"That's when I decided to soft-pedal the family angle," he remarked.

Montalban will go in for beef-cake—male cheesecake.

His first opportunity came in a prizefight picture. He strips to the waist while working in the fields for "Letter to the President." And he's currently training to appear as a trapeze artist in a future film.

"Montalban has been at M-G-M for seven years and is now in his best position for screen vehicles. He said he hasn't been impatient about the slow build-up of his career.

"At any other studio, I would have zoomed up long before now," he remarked. "But I also might have been on the way down."

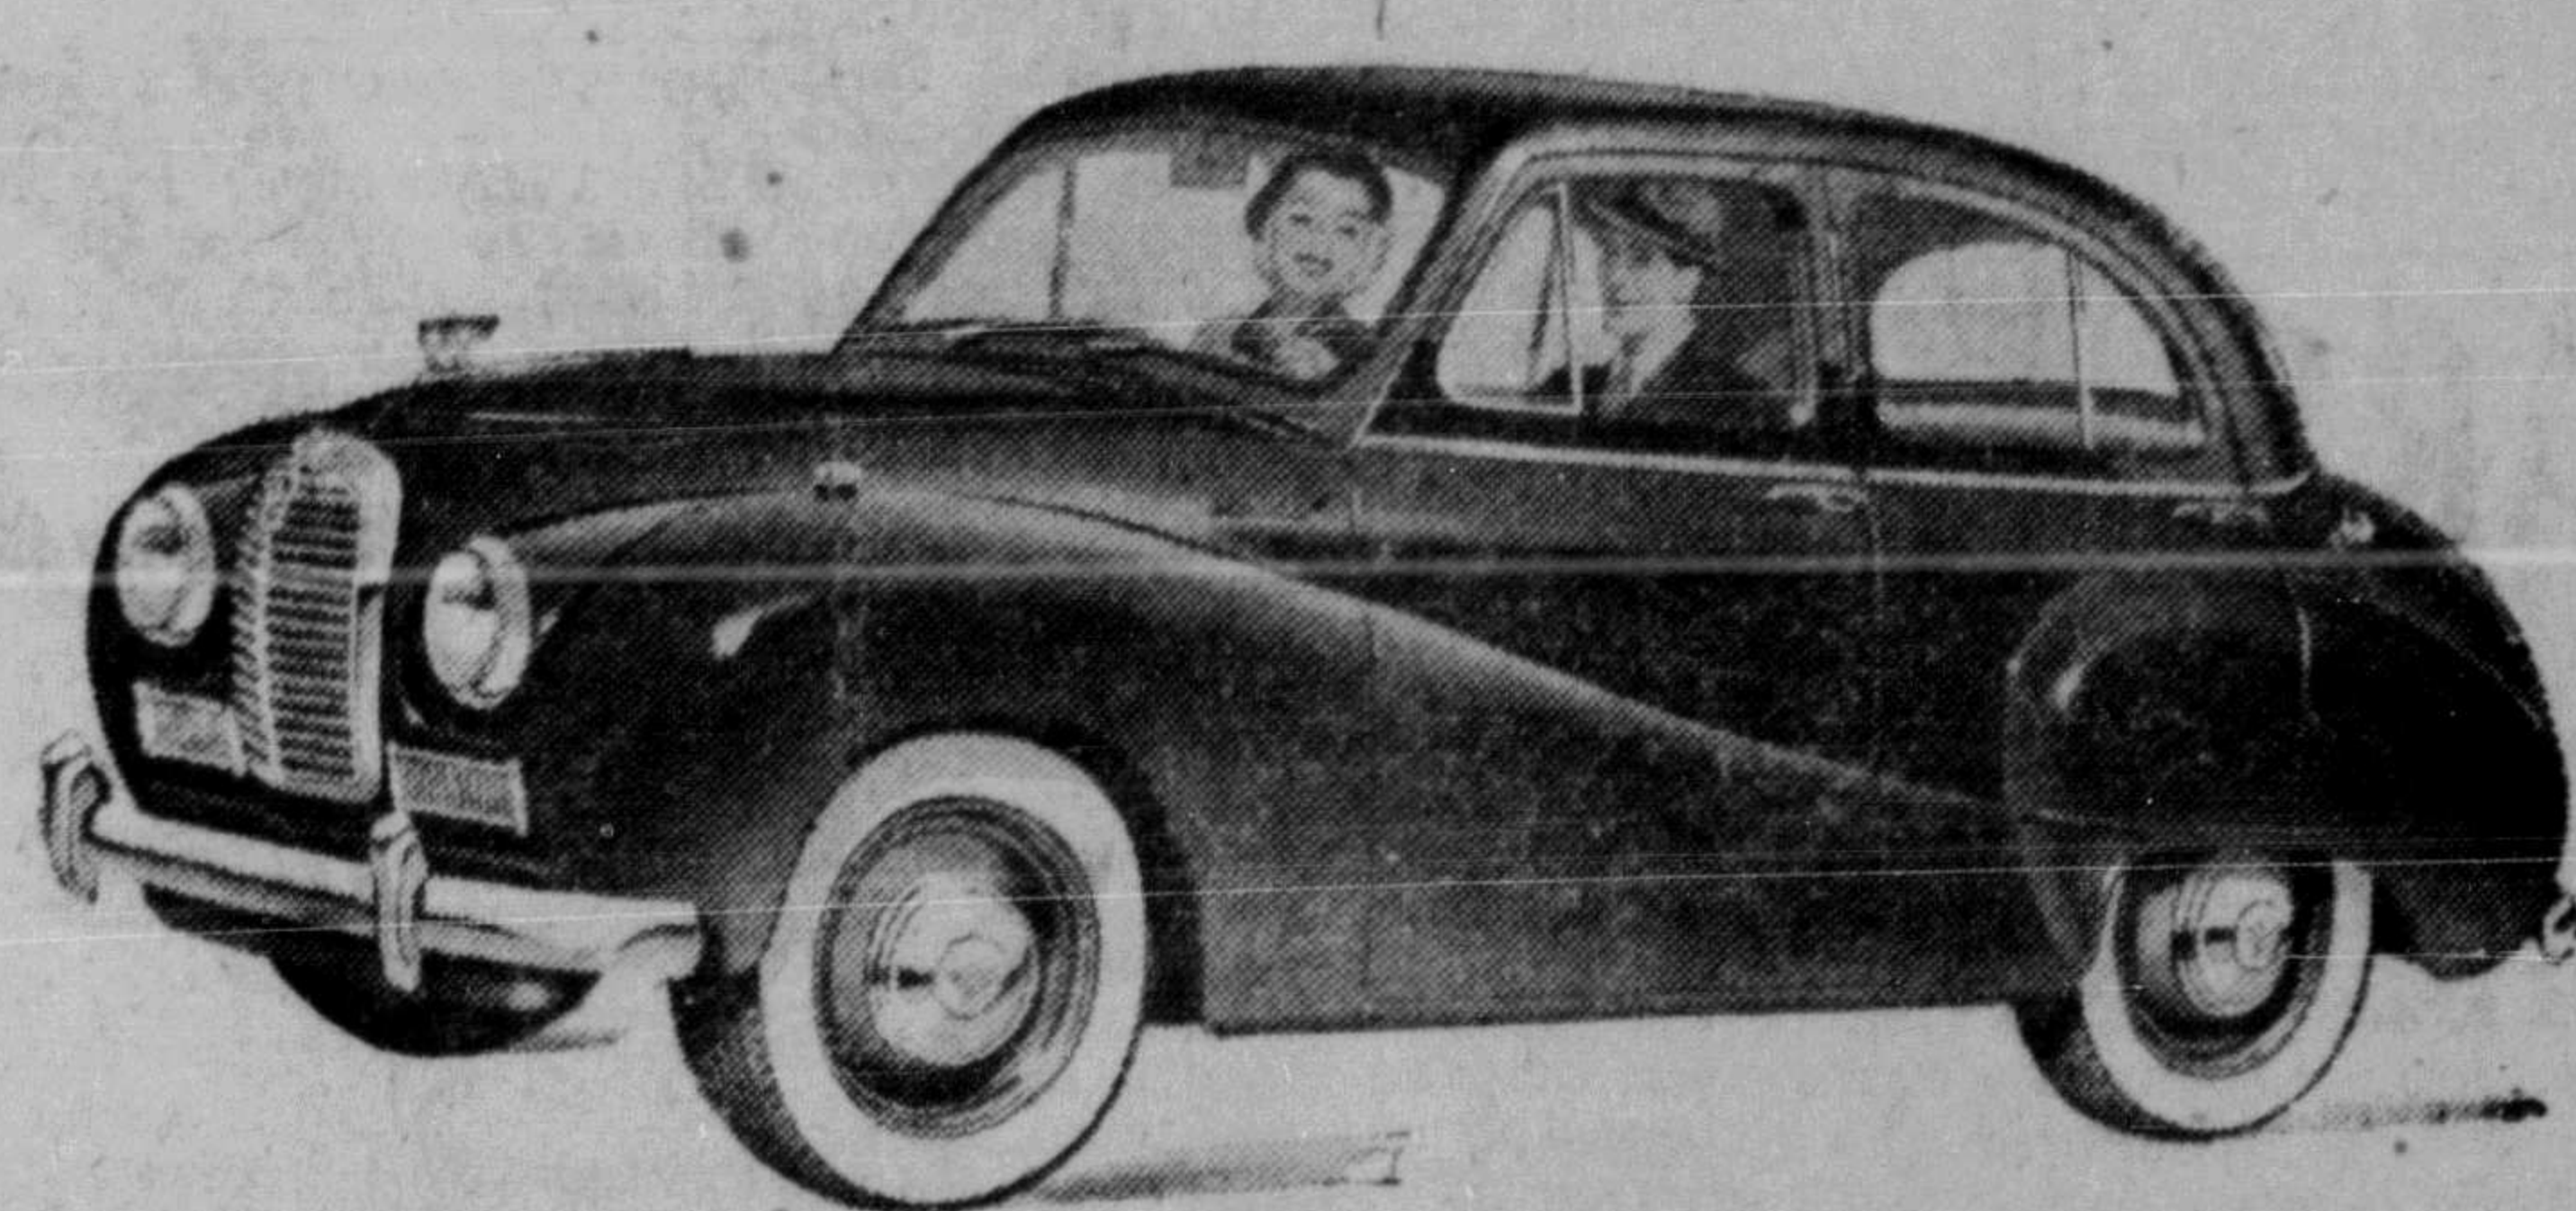

MUSIC TUITION RATE INCREASE

Beginning September 1, 1952, the music teachers of Prince Rupert are increasing their rates. The tuition for Junior pupils from Grades I to IX inclusive is \$30 a year and for Senior pupils, Grades X and A.R.C.T. \$100 a year. These rates entitle a pupil to two half-hour lessons a week.

LAND REGISTRY ACT

Re: Certificate of Title No. 22404-1 to Lot Eight (8), Block "B", of Lot Two Hundred and Thirty-Four (234), Queen Charlotte District, said to contain One Decimal Nought Two Nine (1.029) acres, more or less, Map 1260.

WHEREAS satisfactory proof of loss of the above Certificate of Title issued in the name of Harry Etheridge Wetmon has been filed in this office, notice is hereby given that I shall, at the expiration of one month from the date of the first publication hereof, issue a Provisional Certificate of Title in lieu of said lost Certificate, unless in the meantime valid objection be made to me in writing.

DATED at the Land Registry Office, Prince Rupert, B.C., this 28th day of April, 1952, A.D.
Andrew Thompson,
Deputy Registrar of Titles. (120c)

BLACKWOOD on Bridge

By EASLEY BLACKWOOD

Doubling Needs Reasoning

"I double on general principles," said Mr. Muzzy slyly, eyeing his holdings in the black suits.

"For considerably more sensible reasons," replied Mr. Champion nastily. "I redouble." Mr. Abel had no way of knowing that a club lead was the only thing that would prevent Mr. Champion from getting an overtrick worth 400 points.

He opened a diamond on the reasonable theory that his partner could probably ruff it. But Mr. Murry followed suit and Mr. Champion won with the king.

From this point, Mr. Champion knew that if Mr. Muzzy (or Mr. Abel, for that matter) had the king of spades and the king, queen of clubs, the Vienna coup would give him all the tricks. How would you play it?

There are 10 straight leads in the red suits, leaving everybody three cards. Yet to guard both black suits, one opponent must hold four cards. Thus the squeeze will be successful. But wait. What about discards from closed hand and dummy on the run of the long red suits?

On dummy's fourth and fifth diamonds Mr. Champion can safely discard a club and a spade. No problem there. But what will dummy discard on the fifth heart lead? The jack of clubs? That will remove the potential 13th winner. The six of spades? No, because then Mr. Muzzy could get down to the lone king of spades since there

May, 1952

...historic date when Printers observe
the One Hundredth Anniversary of the

INTERNATIONAL TYPOGRAPHICAL UNION

A Remarkable Record of Consistent Service To Every Person in This Community:

1850—A convention of journeyman printers from Typographical Societies in six states met in New York to consider forming a national union.

1851—Delegates met in Baltimore, set up a committee to draft a constitution and by-laws for the proposed national printers' union "for the relief and benefit of the craft."

1852—On May 5, the I.T.U. was born at Cincinnati, Ohio, by adoption of this resolution: "The stipulations of the late national convention having been complied with, the National Typographical Union is hereby declared organized."

1853—Full financial reports of receipts and expenditures began, continued without interruption since. —Convention adopted bargaining policy: "The National Union regards as injudicious a frequent resort to strikes, believing that in most cases differences can be settled by more amicable means."

1857—New Orleans convention considered a proposal for "establishment of a union printers' home for those members who have grown old in the art."

1858—Opened membership to receive printing pressmen after many such craftsmen expressed a desire for organization as part of the printing industry.

1859—Convention gave favorable support to the policy of contracts with employers "after first having invited a conference with employers." — Union pioneered in giving consideration to fight against tuberculosis and "the exposure of its members to diseases of the respiratory organs."

1860—Accepted membership of all employers who were practical printers, qualified as journeymen, and who wanted to join with their employees in the union.

1862—Convention criticized the secretary-treasurer for calling off the convention scheduled in 1861, for such a minor reason as a war between the states; instructed the president to send a letter to all southern unions "assuring them of our continued good will and fellowship."

1863—Criticized the "paper trust" for increasing paper prices, and petitioned Congress to remove from paper the "duty now charged and regulated by laws."

1864—Resolved that "monopoly of the telegraph dispatches" by the Associated Press "is hurtful to the craft and a direct infringement of the liberty of the press." — Accepted membership of, and bargained for wages for, proofreaders and stereotypers working in union shops.

1865—First proposed an eight-hour day, although most craftsmen were working ten, eleven and twelve hours and many members were paid on "piece-work" basis.

1866—Began 43-year struggle to secure copyright law which would protect American craftsmen from competition with cheaper European labor.

1869—Opened membership to women, required equal pay for equal work and barred discrimination against them. — Resolved that printers should be hired "solely on account of competency, and not for religious or political views they may entertain." — Name changed to International Typographical Union after affiliation of Canadian unions, paving the way for real friendship between Canada and the United States.

1870—Miss Augusta Lewis of New York elected corresponding secretary, the first woman to be chosen as an officer of a national or international union.

1872—Launched long campaign for repeal of the conspiracy laws of the various states, under which labor organizations were subjected to persecution. — Began chartering separate unions of printing pressmen in cities where such members desired separate charters.

1873—Birth of principles of the Fair Practices Act; Union insisted each publisher have newspaper set or reproduced in type by his own employees; men were furnished for a varying volume of work at no loss of time nor extra expense to publishers; fair practice principles still in effect, fully justified by eighty-year experience.

1876—Convention took first action to abolish sub-lists, and opened the way for a plan of priority now accepted and used throughout most industries.

1877—Local Unions provided relief funds, shared work, when great depression forced newspaper suspensions, business bankruptcies, wage reductions, widespread unemployment, and unregulated apprenticeship problems.

1879—International Typographical Union started action to organize the American Federation of Labor, instructing secretary to contact other national and international unions; also instructed local unions to "cooperate with other trades unions" at the local level "for united action."

1881—Federation of Trades and Labor Unions formed at convention called by Typographical Union delegates; announced platform demands for compulsory education of children, opposing employment of children under the age of fourteen, favoring an eight-hour day, opposing competition of prison and foreign labor, and requiring wages to be paid in lawful currency.

1885—Stereotype and electrotype members given local union charters in cities where such members desired separate local unions. — Monotype process patented; producing type from perforated paper punched from keyboard; journeyman printers learned and have operated such machines, without any question of jurisdiction, for more than sixty years.

1886—International Typographical Union adopted a Union Label "so that the product of union labor may be readily known by purchasers, and the demand for publications friendly to the cause of organized workmen may be encouraged."

1887—Maintained autonomy of international unions, announcing "the International Typographical Union would not acknowledge allegiance to nor recognize the supremacy of any other organization," would affiliate with but would not apply for nor accept a charter from the American Federation of Labor or any other organization. — I.T.U. issued charters to bookbinder members who wanted to form separate local unions.

1889—Required all amendments to constitution and all proposals to increase dues or assessments to be submitted to referendum of local union members. — Publication of *The Typographical Journal* started.

1890—Union Printers Home at Colorado Springs authorized and board of trustees chosen to arrange for erection of main

building. — Introduction of Linotype machine brought resolution: "The principal factor in the economic operation of typesetting machinery is the employment of highly skilled and intelligent labor."

1891—International Typographical Union adopted plan for burial fund, now known as the Mortuary Fund, beginning a new epoch in fraternal benefits for members. — First authorized strike for nine-hour day in Pittsburgh by commercial printers and pressmen; I.T.U. members vote voluntary assessment to assist Pittsburgh members. Employers organized association to oppose Union, secured first injunction to prohibit picketing or speaking to strikebreakers; organized labor staged huge parade in protest against use of new strikebreaking weapon, the injunction, by government agency.

1892—Union Printers Home formally opened for reception of residents, and for sixty years the I.T.U. has provided this home and hospital for afflicted, aged and infirm printers. — Two thousand pressmen members seceded and formed their own international union. — I.T.U. authorized membership for mailers and news writers.

1893—Convention provided for initiation of new laws by petitions from local unions as a further step in guaranteeing democratic rule of the Union. — By referendum of members of both organizations, the German-American Typographia united with the International Typographical Union.

1894—By resolution adopted in referendum, members asked Congress for the "abolition of monopoly privilege of issuing money by individuals and corporations, and substituting therefor a system of direct issuance to and by the people."

1896—Bookbinder members, by agreement and with the assistance of the International Typographical Union, formally established their own international union. — Convention adopted provision for electing all I.T.U. officers by popular vote of the membership.

1898—Convention adopted law to discourage and prevent outlaw strikes, by withholding benefits unless strike or lockout is authorized by the Executive Council.

1899—Established nine-hour day, six-day week by contract with commercial printing employers after many months of collective bargaining. — Organized all Linotype machinists and machine tenders working in composing rooms; required such employment to be given to competent members of the Union.

1900—Instructed the president to notify the American Federation of Labor that the I.T.U. "is not in position to arbitrate its own laws" as to jurisdiction over composing room work claimed by other crafts.

1901—First of a series of International Arbitration Agreements with newspaper publishers adopted by referendum; system continued 21 years, then replaced by voluntary arbitration.

1902—Golden Anniversary showed a total membership of 38,364, with 559 local unions. — Women's International Auxiliary organized.

1903—By agreement with the International Typographical Union, stereotype and electrotype members established their own international union.

1904—International Typographical Union locals of photo-engraver members were assisted in forming the International Photo-Engravers Union.

1906—Members in commercial printing shops struck for an eight-hour day, and carried it to successful conclusion against employers' open-shop movement.

1907—Adopted a voluntary plan of "I.T.U. Course of Instruction in Printing" offered by the Inland Printer Technical School of Chicago.

1908—Established a Pension Fund by special assessment based upon a percentage of earnings, the model for the social security plan and for most industrial pension plans.

1909—Manufacturing clause in U.S. copyright law adopted after 43-year agitation by the International Typographical Union to protect American labor from substandard foreign competition on matter protected by our copyright law.

1910—Referendum of membership adopted policy of discouraging and opposing piece-work, bonus for extra production, and sweatshop conditions.

1911—Joined with other crafts in forming International Allied Printing Trades Association, assigned title of Allied Label to joint ownership of affiliated crafts, provided voluntary co-operative action.

1912—The I.T.U. took over the Inland Printer Technical School Course of Lessons in Printing as a continuation of its apprentice training policy.

1914—Authorized sending delegates to Trades and Labor Congress of Canada, after it separated from the American Federation of Labor by agreement. Represented at every session since that time.

1916—Made ten-year arbitration agreement with commercial printing employers, but neither employers nor printers ever used arbitration during the life of the agreement.

1917—International Typographical Union guaranteed protection of jobs and priority for its 7,343 members who entered military service of Canada and the United States.

1919—Negotiated international agreement with commercial printing employers for a 44-hour week, which employers repudiated on the day it was to become effective.

1921—Commercial printers struck to enforce the 44-hour agreement made with employers in 1919; weekly half-holiday won, pattern for all crafts.

1922—Began free collective bargaining without previous arbitration commitment by either party, since record of 21-year experience proved complete freedom necessary to successful negotiation.

1930—Union survived greatest economic depression in history by sound principles and practical approach to problems, shared work and created unemployment funds, set a pattern for others.

1933—Began a five-day week at expense of members only; later federal law helped other workers get the five-day week; reduced earnings were offset by sound bargaining and co-operative practices.

1935—Wagner Act seldom used by union printers. I.T.U. gave aid to newly organized locals. — Urged American Federation of Labor to organize millions of workers in mass production industries.

1937—International Typographical Union refused to be assessed by the A. F. of L. to fight industrial organization, holding fast to the policy adopted in 1882 and reiterated in 1887 and 1900 asserting its autonomy.

1939—Tolerated suspension from American Federation of Labor for non-payment of the unauthorized assessment to create a fund for war against industrial unions.

1944—Accepted re-affiliation on same basis as in 1881, after A. F. of L. adopted policy: "International unions have complete authority to regulate the conduct of their officers and members, and to control the use of their funds and properties."

1947—International Typographical Union refused to accept any of the alleged benefits of the Taft-Hartley Act, holding fast to time-tested, sound principles of free collective bargaining, unhampered by governmental bureaucracy or other outside interference.

1952—Its 89,659 members still hold to the 100-year-old principles and practices which have made the International Typographical Union a great social force for progress and betterment, as well as the oldest and most democratic trade union in the world.

Farewelled At Stewart

STEWART.—Canadian Legion held a card party in the club-rooms on Saturday to say farewell to Mr. and Mrs. Frank Lewis who have long been active in the affairs of the Legion branch and the Women's Auxiliary.

Mr. Lewis was presented with a wallet and Mrs. Lewis with a pressure cooker. In making the presentation on behalf of the Legion and the Women's Auxiliary W. S. Orr referred to the long and valued service of both Mr. and Mrs. Lewis, the esteem in which they are held by the entire community and wished them Godspeed and success in their new home.

The departure is caused by the transfer of Mr. Lewis to the Prince Rupert district for the

Stewart Looks Up

Air Mail and Gov't Agency

STEWART.—The Stewart Board of Trade is in receipt of a communication from Ottawa that an aid mile service will be inaugurated shortly between Stewart and Prince Rupert. Word has also been received that there is every possibility of the government agency being re-opened at an early date. This is welcome news to the mining fraternity.

provincial Department of Public Works.

Cribbage was played during the evening, the men defeating the women by a score of 16,290 to 13,965. Women's first prize was won by Mrs. C. E. Gibson. The men's first prize and the sweep went to Angela Bugnelli.

On the season's play the men had a score of 111,944 and the women 99,683. Mrs. F. H. Lewis had a high score for women of 8037 and W. J. Crawford was high man with a score of 8162.

Supper was served after the cards and the evening ended with the singing of "Auld Lang Syne" and "They Are Jolly Good Fellows."

—Stewart— News

Jack McBeth, mining engineer, arrived last week to make arrangements for the season's work on the Marmot Lead and Zinc mines property on the Marmot River. There is still quite a bit of snow on the trail to the property and Mr. McBeth figures that it will be a week or so before anything can be done.

Expressions of sorrow were heard here when the death, at Prince Rupert, of Ernest Lewis was announced. Mr. Lewis was a veteran of the First world war and had been ailing for some considerable time. He was wharfinger at the government wharf and a member of the Stewart Branch of the Canadian Legion. He is survived by his widow who is presently residing in Prince Rupert and a sister in Vancouver.

Mr. William Duncan Smith, unsuccessful Coalition candidate in the last provincial election, has been selected to carry the banner of the Liberal party in the forthcoming election. A meeting was held here Thursday, May 1, in the Legion club-rooms at which Mr. Smith was the unanimous choice. Robert Macleod has been appointed as returning officer for the Atlin electoral district.

TALENT HEARD

(Continued from page 3)

for the instrumental trio of Ruth Carr-Harris, Aletta Glicker and Ray Sahlin. Mrs. Roberts and Mr. Miles gained high marks for their vocal duet, while the Rotary mixed choir completed the program with two beautifully sung selections.

Henry Pluym and Miss Olive Strand were accompanists.

Tuesday afternoon at Capitol Theatre there were school competitions. In Grade IV chorus "Fairy News," Conrad Street had greater consistency but King Edward was slightly ahead on the test piece. The former won 81 and 81; the latter, 83 and 80.

Pianoforte under 9—"Merry Go Round"—Donald MacDonald 83, Marilisa Ferguson 82, Billy Saunders 80, Margaret Sedgewick 80.

Pianoforte under 10—"Mouse in the Coal Bin"—A very large class. Gail Davidson 86, Judy Fossum 85, Dolores Gilbert 84, Jill Weise 83, Kathleen Saunders 83, Ronnie Roberts 83, Lois Antrobus 82, Lawrence Green 82, Wanda Havdale 82, Pat Whalen 82, Kathleen Johnson 80, Joanne Murray 80.

Grade VI chorus—Borden Street's two selections under baton of J. S. Wilson, principal, took the honors, 84 marks for each. King Edward group sang unaccompanied under Joe Goscoe's direction and were complimented for their fine work—83 for the first piece and 82 for the second.

Pianoforte under 11 years—"The Dance"—Anne LaSette 83, Patricia Cameron 81, Margaret Johansen 79, Joanne Procter 79, Gail Weise 79, Marilyn Anderson 78, Karen Taylor 78.

Pianoforte under 12 years—"Ballet"—Diana Davidson 84, Margaret Anfield 81, Barry Jamieson 80, Shirra Halliday 80, Nita Weise 79, Georgina Laabe 78.

Overwaiters Plans Terrace Building

TERRACE—Contract drawings for new premises to be constructed here for Overwaiters Ltd. are being prepared in the offices of architects McCarter & Co., Vancouver. Proposed new store and warehouse will be of mill construction.

JUVENILE SMOKERS
VANCOUVER (CP)—City police commissioners ordered a crack-down on smoking by juveniles. A Federal Act of 1908, prohibits smoking by children under 16 and is authority for police to seize cigarettes from youngsters. Storekeepers selling to children without a written note from their parents may also face charges.

Excitement In Navy Picture

"Destination Tokyo," starring Cary Grant and John Garfield, which shows at the Capitol Theatre here tonight, is an exciting story of submarine warfare with the United States Navy.

Cary Grant is the commander of a submarine which heads to the Aleutians to pick up an air corps officer, John Ridgely. Then Grant opens his orders to find that he has been detailed on a reconnaissance patrol to Tokyo Bay to obtain all information useful in making an air raid on Japan a success. Through careful maneuvering, the submarine is taken into Tokyo Bay. There Ridgely and John Garfield (the Wolf) are landed and obtain the necessary information. This is then radioed to a United States aircraft carrier and soon formations of bombers are winning their way to Tokyo to drop their loads of canned death.

Robert Hutton, Alan Hale and Dane Kennedy are other important members of the cast.

LONDON (AP)—A dull whistling sound puzzled the audience during a concert at the Royal Festival Hall. As the concert ended an elderly woman in the front row switched off her hearing aid and the whistling stopped.
