

Court Frees Accused Of Manslaughter-Wounding After Two-Day Trial

12-man Assize Court Jury Late Last Night Freed John Anthony Barrie Of Charges Laid In Connection With The Death Of Elderly Peter Nelson.

A 12-man Assize Court jury late last night freed John Anthony Barrie of charges laid in connection with the death of elderly Peter Nelson.

The 30-year-old Burns Lake man, originally charged with murdering Nelson on October 14, 1951, at Burns Lake, was freed from charges of manslaughter and wounding.

The trial came after a two-day trial at which thousands of pieces of evidence were recorded.

Justice H. S. Wood dismissed the charges against Barrie after the jury found him not guilty on both counts.

The jury was the last to be sworn in this assize court headed by Justice Wood.

Justice Wood will bring his decision tomorrow on the charges against Barrie.

The jury heard evidence from the major portion of the trial proceedings.

Mr. Wood, prosecutor Gilbert Wood, of Vancouver, and Mr. Perry, defence counsel, all cross-examined the witness.

Mr. Perry stressed that head injuries sustained by Nelson did not indicate that they were caused by any particular man's hands.

Mr. Perry also scored Carlson for his "unco-operative" testimony and said the "burden is on the crown to prove that Barrie was responsible for Nelson's death."

"I suggest that if you have any doubt with so much patchwork evidence, that Barrie should go free."

Mr. Justice Wood described the seriousness of the charges and the too criticized Carlson and other witnesses for the inconsistency in evidence.

He stressed that the crown must prove the accused "is innocent until it is otherwise established in your mind beyond doubt that he is guilty."

JOINS NRC — Dr. Thorvaldson, dean emeritus of the University of Saskatchewan, Saskatoon, has been appointed to the National Research Council.

City Clean-up Supported by Health Unit

The April report of Prince Rupert Health Unit stands squarely behind clean-up, paint-up efforts in the city.

In addition to improved appearances, the removal of rubbish accumulated through the year benefits the community as a whole, the report said.

Normal Flying Resumed As Oil Curb Relaxed

Commercial flying in and out of Prince Rupert and in most of British Columbia will be back to normal tomorrow, according to airlines officials.

Despite the crippling United States oil strike, Queen Charlotte Airlines and Canadian Pacific Airlines will resume normal schedules under a directive received Thursday from Ottawa.

The U.S. oil strike is expected to be settled within 36 hours.

In Prince Rupert, CPA said normal schedules will be resumed tomorrow with two afternoon flights to Vancouver, including the scheduled stop-over of one flight at Terrace.

Only one flight to Vancouver was made today by CPA.

QACA did not curtail services here, although 64 flights were cancelled in other B.C. areas to maintain in northern division schedules.

The Ottawa directive, Canadian Press says, cancelled in part the previous order restricting sale of aviation gas in the province.

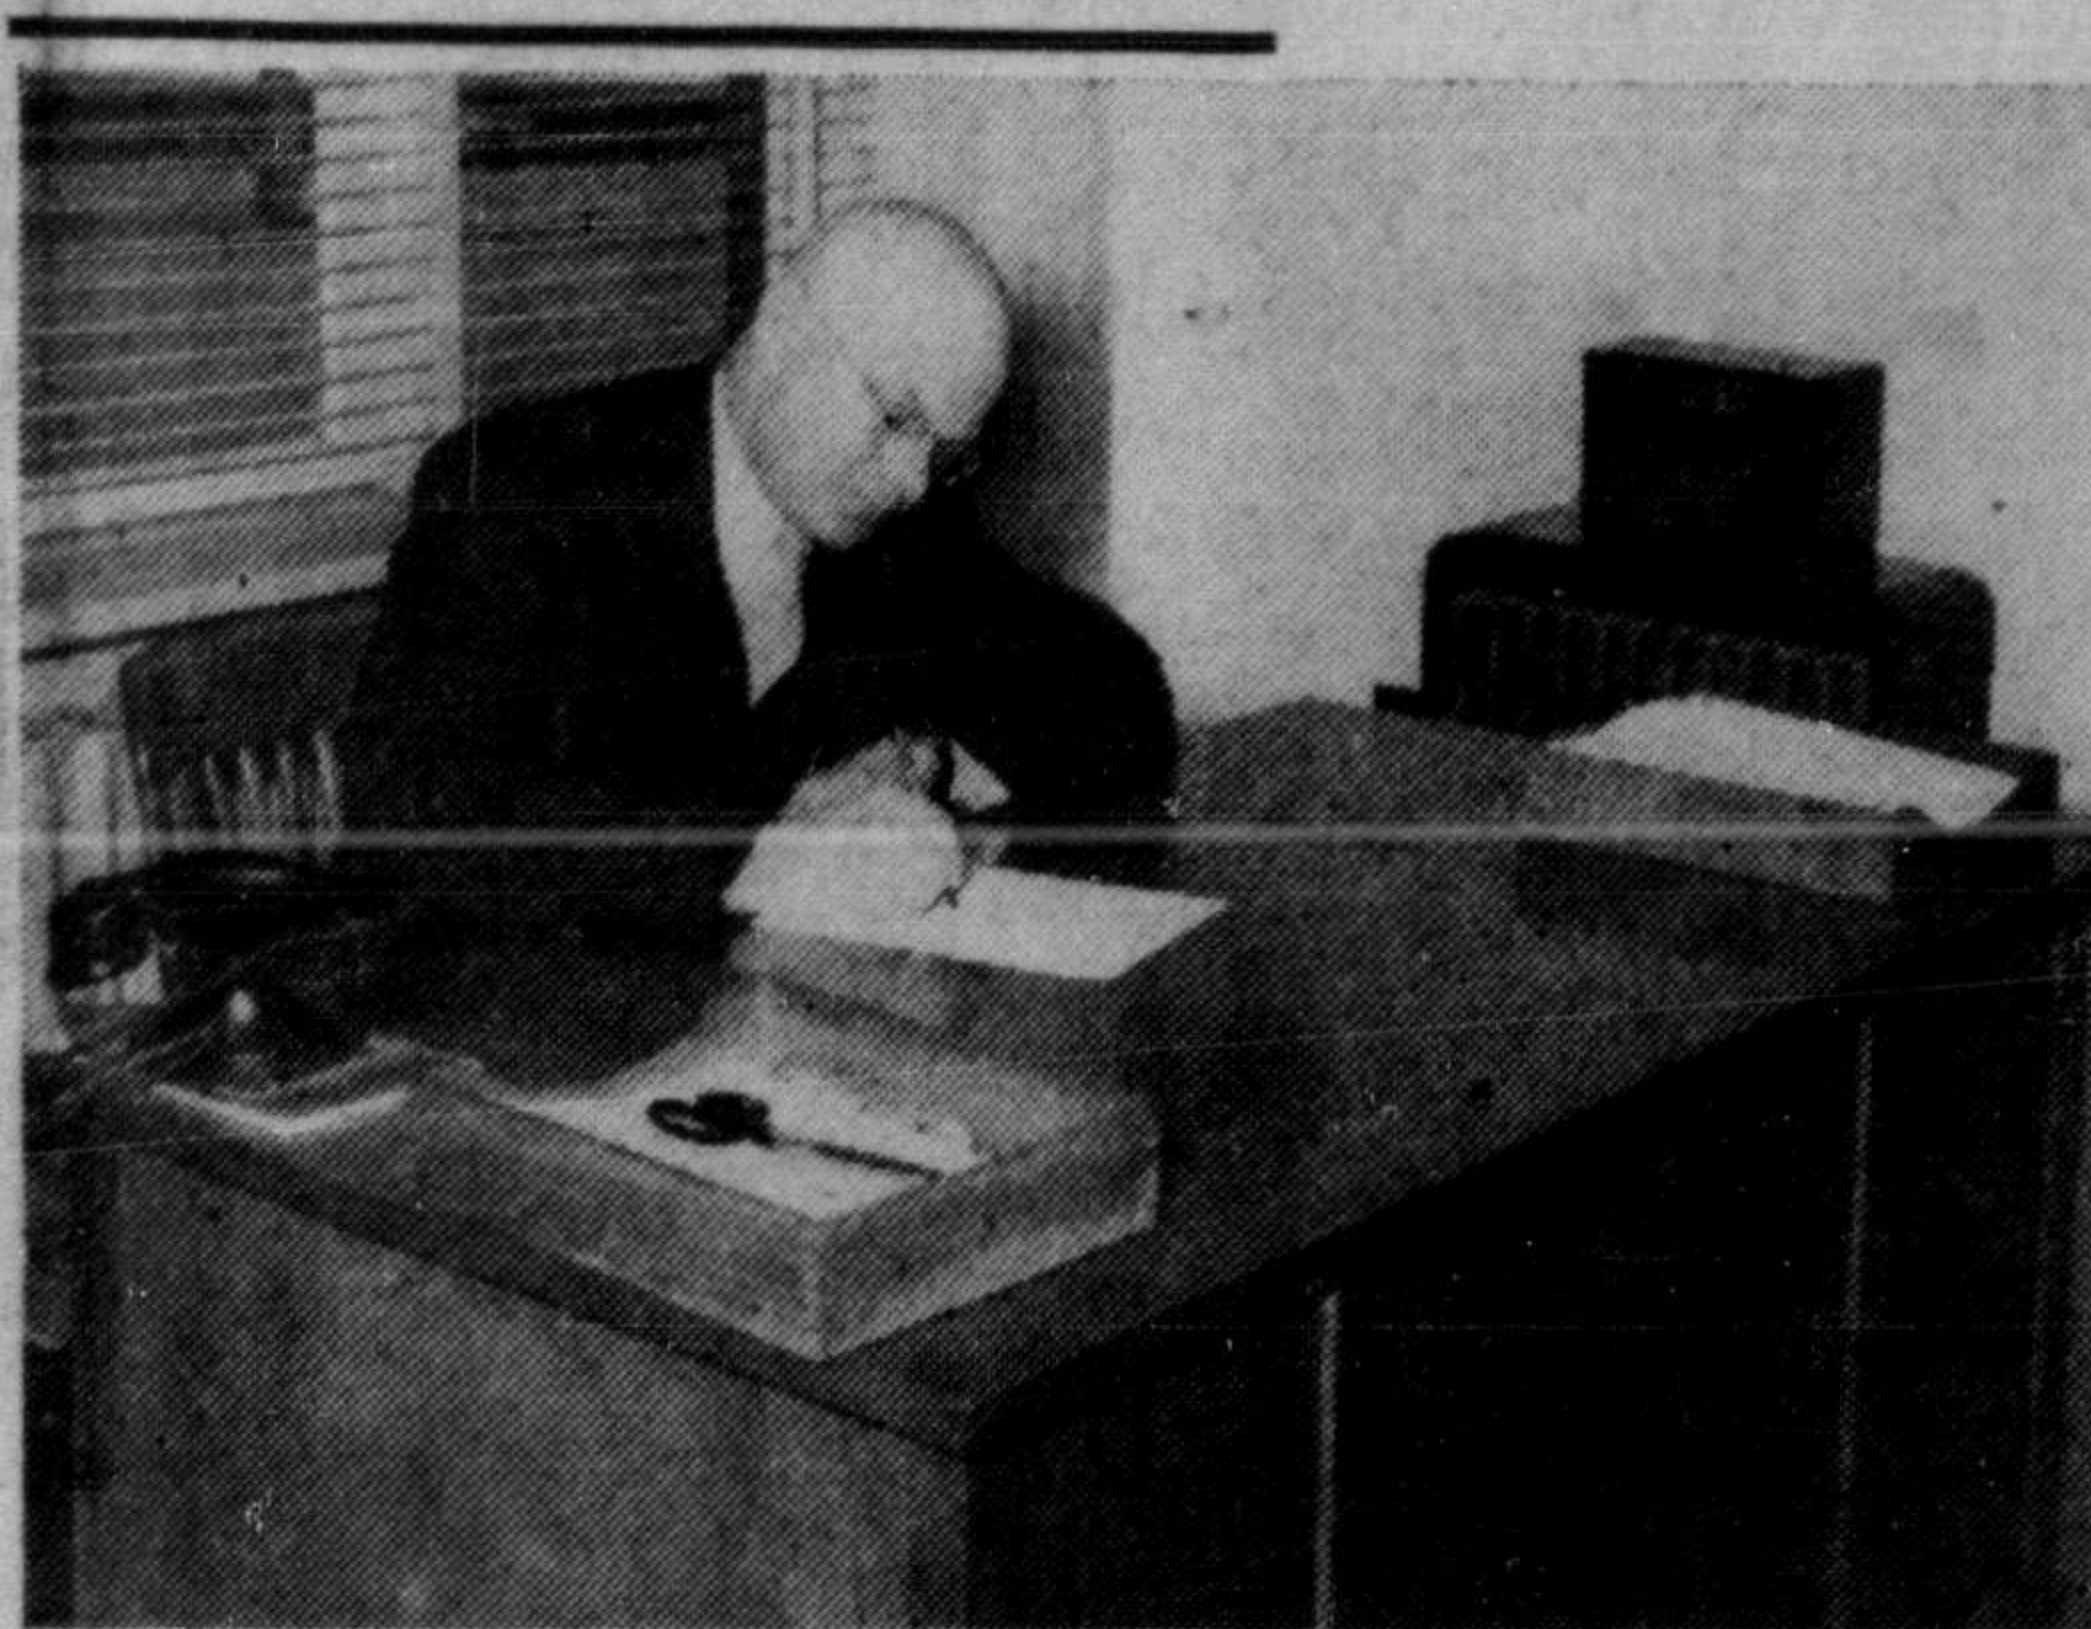

These gases are refined in B.C. from crude oil shipped in mostly from South America. They do not require components needed in higher quality fuel which must be refined in the United States.

Weather permitting, Hon. Gordon Wismer, B.C. attorney-general, will arrive here Tuesday to speak at a public meeting in the Civic Centre.

Walter Smith, publicity chairman for the Liberal committee here, made the announcement at a meeting last night.

Mr. Wismer intends to fly here for the one-night engagement and will leave the next day for other northern centres.

FUNERAL TODAY—

G. A. (ALEX) HUNTER, former managing editor of The Daily News, was buried today in Vancouver following funeral services at the T. Edwards Funeral Home.

Higher Incomes, More Jobs, Seen by Howe

Cost of Living Down

U.S. Colonized Shot Down Over Korea

U.S. FIFTH AIR FORCE, Korea — The Air Force announced today that Col. Walker M. Mahrin, one of the leading United States fighter pilots, was shot down over Korea Tuesday.

The 33-year-old sabre jet pilot, who shot down more than 25 planes in two wars, has not been heard from since he radioed, "I've been hit by flak, and think I'm on fire."

The Air Force said it did not know whether or not he had parachuted.

Native Youths Make Rescue With Canoe

HOPE (CP)—Two river wise Indian youths Wednesday were hailed as the heroes of a courageous rescue in which they rode the Fraser River rapids in a light canoe to snatch three exhausted men from the boiling waters.

Two other men were drowned when their row boat capsized.

Five loggers were attempting to cross the swirling Fraser Tuesday night when their craft was swamped in the whirlpool.

Two of the men—names withheld pending notification of relatives—went under immediately. The other three clung to the half submerged rowboat and rode it six miles down stream.

'Fireball' Trucks Turns In First No-Hit, No-Run Win

NEW YORK (CP)—Virgil (Fireball) Trucks turned on steam Thursday to hurl the first no-hit, no-run game in the current major league season for the Detroit Tigers against the Washington Senators.

Vic Wertz in a last-minute home run, with two out in ninth inning, gave Detroit a victory of 1-0.

Trucks struck out seven Washington players and allowed only three men to reach first base.

He walked one runner in eighth inning and hit two batters with pitched balls in third and sixth.

The right hand pitcher hadn't won a game this year until he uncorked Thursday's effort. It was a match for time by Bob Porterfield, who had no hitters going for five and two-thirds innings.

OTTAWA (CP)—Minister of Trade Hon. Mr. Howe said on Thursday that Canada is in the midst of rising income and employment and there is no reason to anticipate either inflation or depression.

He painted a bright picture in the House of Commons of record world trade, rising Canadian development and a further fall in the cost of living.

In a general statement as the House began consideration of estimates of \$16,400,132 for his department in 1952-53 he said the cost of living is now back to about where it was last August.

A further substantial drop in the cost of living index is in sight for the month of May.

Canada, he said, is emerging from a period of initial adjustment to defence program in a period where supply and demand are in better balance with consequent easing of pressure on prices.

In home market, demands remain strong.

In foreign trade there are indications that even where currency difficulties exist, many of Canada's basic export commodities are too urgently needed to be dispensed with.

End Seen in American Oil Strike

WASHINGTON (CP)—The simmering oil strike has started to cool off today.

Government officials, eyeing what one of them called a "pretty critical" shortage of aviation gas, set up 15 bargaining sessions between union and oil company negotiators across the United States.

O. A. Knight, leader of the coalition of unions, which have been on strike for 16 days, said in an interview that "We have called off the strike," and most strikers should be back on the job soon.

Before that could happen, 22 unions and 90,000 strikers involved would have to sign hundreds of local bargaining agreements with more than 70 oil companies.

Some tentative agreements, worked out on the basis of a wage stabilization formula, were being reported last night. Others were being awaited today.

Teacher Hit By Truck Makes Claim

BURNS LAKE (CP)—A Burns Lake school teacher who stood on a snowbound road waving a flashlight to prevent an accident, and was run down by a passing truck is claiming \$6029 damages in Supreme Court here.

Miss Mary Maud Currie, 59, was knocked down on the highway between Burns Lake and Tchesinuk Lake on February 26, 1950, by a truck driven by forest ranger Albert Rounieau.

'NOT GUILTY'

Charged With Murder, Then Manslaughter, Now Free Man

By Eric Sanderson

A young American-born Irishman opened the huge doors of Prince Rupert Court House at 7:15 p.m. Thursday and strolled leisurely down the steps to freedom.

The man — 30-year-old Jack Barrie — walked slowly, surely, down the pathway in front of the bleak red structure and never looked back.

It was the first time in more than six months that he, a member of the Royal Canadian Engineers during the Second World War in Calgary, Chilliwack and Victoria, was able to breathe freely, to open a door for himself, or feel that anyone cared.

Less than half an hour earlier he sat before a 12-man B.C. Assize Court jury facing charges of manslaughter and wounding in connection with the death in

October, 1951 of Peter Nelson.

Less than 36 hours previously, he faced a charge of murdering Nelson. The prosecution obtained a reduction in the charge on Wednesday morning.

Barrie, who was born in Chicago, where his mother now resides, was taken into custody on October 20, 1951 and the murder charge was laid after Nelson died in University Hospital at Edmonton on October 27.

He was held for questioning at Prince George following discovery of Nelson in the deceased man's cabin at Burns Lake on October 14.

Evidence disclosed that Nelson was involved in a fight at his cabin early on the morning of October 14 but did not die until 13 days later in the Alberta capital.

Owned and Operated Restaurant

Barrie owned and operated a restaurant in Burns Lake for 10 months prior to his arrest and before moving there working in cafes at Vancouver.

He was transferred from Prince George to Oakalla jail on Christmas Day, 1951. From then until May 3, he spent his lonely hours in the south wing of the prison in Burnaby.

On arrival in Prince Rupert, he was lodged in the city jail

and escorted daily to court—four blocks away—by red-coated RCMP.

He spent Thursday listening to involved medical evidence concerning the death of Nelson and it wasn't until 7 p.m. that he was able, once again, to speak freely.

Obviously moved by the lengthy trial here before Mr. Justice H. S. Good, Barrie sat silently, intent, lips quivering throughout court sessions, realizing his life rested in the hands of the jury.

Lips Quivering, He Hears Evidence

He was never called to the witness stand.

When evidence was completed shortly after 3 p.m. Thursday, he knew his fate would be known soon.

First he heard Gilbert Hogg, Q.C. crown prosecutor, relate the case against him. Then he heard his counsel, Frank S. Perry of Prince George tell jurymen it was up to them to decide whether the crown had proved that he was responsible for Nelson's death.

And before the jury retired at 4:48 p.m. he leaned heavily on

his right arm in the prisoner's dock to hear Mr. Justice Wood sum up the case and outline the points of law to the men who would decide his fate.

When the jury retired, Barrie was led from the court room by a RCMP constable to other surroundings while jurymen reviewed the case.

At 6:50 p.m. foreman Harry M. Hansen, manager of Edward Lipsett Ltd., here, notified Sheriff M. M. Stevens that jurymen were ready to return.

Jury Returns Verdict: 'Not Guilty'

Asked by Mr. Justice Wood if the jury had reached a verdict, Mr. Hansen said in a clear voice before a half dozen spectators: "We find the accused not guilty on both counts."

Mr. Justice Wood immediately ordered the prisoner discharged and the two RCMP constables who had accompanied Barrie during his trial left the court room.

Barrie, relieved and overjoyed, stepped smiling from the prisoner's box, thanked his counsel, Mr. Perry and Ray Cullinane of

Burns Lake, the jury foreman and then met and spoke with Mrs. Nelson, and her son, Edward, who came to Prince Rupert from Edmonton for the trial.

After shaking hands with his counsel, Barrie met the jury foreman as he alighted from the box. Without waiting for formal introductions, he said:

"Thank you, Mr. Foreman. I can't express how much I appreciate what you have done and what you have decided and I thank you."

Son, Wife of Victim Relieved

Edward Nelson, son of Peter Nelson, in a brief conversation with Barrie in the courtroom, said: "Mother and I are both so pleased that you have been freed. We both feel so relieved."

The three later chatted for several minutes in the corridor outside the court room then Barrie joined his lawyers for dinner in downtown Prince Rupert.

but not until he opened the big oaken doors of the court house and stepped smartly into the brilliant sunshine a free man.

Interviewed on the steps, Barrie said he doesn't know what he'll do now nor where he'll go.

"I'll know better after I see my sister. She's on her way here from Edmonton."

Fishermen Advised to Reject Price Proposal

Rejection is recommended by negotiating committees of United Fishermen and Allied Workers' Union to proposals by British Columbia fish companies to cut prices of salmon, a union official said here today.

Union has asked an overall increase.

Operators have proposed a one-cent cut of sockeye prices from last year and a cut for all other species.

Increase asked is five cents more for sockeye, four cents for coho, 3½ cents for pinks and 2½ for summer chums.

In Prince Rupert, union secretary T. E. Parkin said all locals would vote soon on the operators' proposal.

If fishermen vote for rejection, negotiations will continue, said Mr. Parkin. But if no agreement has been reached by early June when fishing season opens "there just won't be any fishing," he stated.

He said Canadians are still fighting in Korea as they have since they first landed there.

No War End In Sight, Says 'Rocky'

VANCOUVER (CP)—Brigadier John (Rocky) Rockingham said Thursday he believes it will be a "long time" before there is any settlement of the war in Korea.

Canada's bronzed, tough fighting Brigadier came home after 13 months in command of the 25th Brigade in Korea to take a new army post—Director-General of Military Training. He arrived by plane from Sydney.

He said Canadians are still fighting in Korea as they have since they first landed there.

"We can see a searchlight over Panmunjon (truce talk site) a night, and balloons during the day but it has not made any difference to our lives," he said.

New Homes Help Reduce Taxes

EST some of our readers gained the impression from a previous editorial that city tax payers will be forced to stand the cost of new housing developments, we wish to refer to other reports carried in this newspaper showing that taxes on the whole would be eventually reduced by new housing.

It has been stated that average taxes will amount to \$180 a year for each of the 50 new homes, payment of which will commence next year.

It is quite plausible to assume that although additional services will be provided by the city for the new development, little additional expense will be incurred.

Therefore, additional taxes added to the present tax role should help to reduce the overall taxation. Up to a point, more people we have paying taxes, less the mill rate should be.

City Council some months ago decided to obtain the services of a permanent assessor to reassess the residential district—a program which would take up to two years. Since that time, we have heard little about the assessor.

Probably the greatest inequality that exists in Prince Rupert today is the assessment of business establishments compared to that of residential property and improvements.

Another unreconciled inequality exists in the fact that a person building a new home is assessed at half of its present value. The taxpayer who owns an older type residence is assessed at half of its original cost, probably built 20 to 30 years ago.

It is high time these inequalities were reconciled. No doubt, the city would find itself in much more favorable financial situation if this were done.

More than 80 per cent of our residences were built when costs were down.

ray...

Reflects and Reminisces

A group of islands off northern Australia will provide the site for atomic weapon tests. But for descendants of rats and cats aboard a vessel lost off the isles fifty years ago, it is reported the regions had always been deserted. It would be just too bad to destroy life before trying to discover how traditional enemies made peace and dwelt together for half a century, when the rest of the world could not.

PASSES SOON

When tens of thousands are already trying to arrange accommodation for the coronation 13 months hence, prospects of a third world war just naturally start fading. Millions are more interested in the greatest show on earth, than in what Stalin says or does not say.

Butlers, so long as they are British, are more in demand. An American screen actor, down to assume the role, undertook to find out about 'buttlings' from an English professional. He liked the job so well he forsook the films, and became a butler himself, where he found peace, calmness, \$2,400 a year, a measure of security and four de luxe meals daily.

A grain laden steamer sailed from Prince Rupert this weekend for Japan. Plenty of these freighters carry a few passengers. The cost of a voyage there and back costs around \$600. Roaming around California and the northwest would also make a dent in \$600—and a lot of that country you've doubtless seen before.

PRETTY GORGEOUS

It's not always easy, yet one can be pretty sure he can improve on nature. This is after giving a careful scrutiny of the pictures on flower seed packets which are distributed over British Columbia every spring.

Air collisions between a B29 and a fighting plane in California and crashes in Brazil, with fatalities in each—the sky would seem to offer limitless space, but it's a fact that if car travel is criticized because of fatalities, aviation has been a competitor for years, and seems to be coming even more so.

As I See It

by

Nature Laughs Last

TORONTO: My happiest days as a boy were spent on the shores of Lake Ontario, between Oakville and Hamilton.

In those years of peace before the first world war we spent our summers at the then little fishing village of Bronte.

In front of our tiny green cottage stood an immense and lovely queen of a tree—a silver poplar. The tree, not the house, was the centre of our happy home—stead for we literally lived under her shade. As a matter of fact I spent scores of hours in her, climbing to her majestic top, and trimming off her dead branches, partly to keep the lady looking lovely but mostly because those dead branches made the most marvellous fuel for our wood stove.

TODAY the ancient queen lies ignominiously overthrown. For the high waters of the great lakes have eaten away the fifteen foot high banks. One half of the great queen trees roots have been exposed by the waters. The kind and lovely lady has collapsed into the waters of the lake.

You could multiply that tragedy tens of thousands of times over, all around the shores of the Great Lakes. For Old Mother

Nature has played one of her recurrent jokes on puny man. The waters have reached the highest level in memory. They have caused many millions of dollars worth of damage already. They threaten to sweep clean away long time landmarks, like the sand islands that form the outer ring of Toronto Bay.

THERE is a wry laugh in all this to me as a newspaperman. From 1928 to 1933 I wrote editorial articles for the old Toronto Globe. My permanent assignment was international and imperial affairs. In those days we Canucks were much wrought up about our water. Chicago had built what was called the drainage canal. That is, they had dug a ditch between the southern tip of Lake Michigan and the northern tip of the rivers which fed the vast Mississippi. Our argument was that they were stealing OUR water—and we pictured what happens to a pail of water when somebody puts a hole in the bottom.

The argument seemed sound at the time because the lake levels seemed to be falling. Later the two countries got together and to raise the levels diverted rivers which naturally flowed into Hudson Bay, into the Great Lakes system.

BUT NOW the highest experts say that all these diversions and reversions have small effect. There is some big unexplained factor. The lake levels have risen by some 17 inches, over and above what can be explained by the diversion of the rivers.

The most logical explanation that I have heard is by a top scientist engineer who says that the slaughter of our northern forests is the answer. We have cut down tens of thousands of square miles of trees, which for ages acted as water-traps. The rainfall now gushes like nau

LETTERBOX

G. A. HUNTER
GOOD CITIZENSHIP
TROPHY PROPOSED

Editor,
The Daily News:

The tragic death of Alex Hunter, late managing editor of The Daily News, has been a real loss to the community. The tributes to his work from so many different organizations and individuals emphasize the widespread impact of his unselfish work for the city and district. He gave unsparingly of his time and talents to the advancement of every worthwhile aspect of community life. He was indeed a good citizen.

To us who have known him for a long time, and I have been more or less intimately associated with him for over 25 years, the value of his work for the city will always be remembered; but to the younger generation, and to newcomers, his enviable record of service is unknown and therefore cannot be evaluated. In many centres there is an annual award of a good citizenship certificate or medallion. I have been wondering if some organization or group of individuals would consider inaugurating such an award in Prince Rupert, and naming it the G. A. Hunter Good Citizen Trophy.

In such a way the city would be doing itself a favor and at the same time honoring one who was in the very truest sense of the term a "good citizen." It would also be a challenge to the present citizens and the future citizens to carry on the good work which was so dear to the heart and

mind of Mr. Hunter. He himself, with his intimate knowledge of the many phases of community activities, would have appreciated such a move; and the work of some who do so much behind the scenes in originating and maintaining such community projects could be suitably recognized annually.

J. S. WILSON.

Palace 'Raider' Only Lampcleaner

LONDON (Reuters) — Police squad cars raced to Buckingham Palace today where a ladder had been found against a wall and a figure was reported prowling in the grounds.

Detectives jumped into the bushes, came out with the "intruder"—the palace lamp-cleaner. He had casually leaned his ladder against the wall while going about his rounds of gas lamps.

PORT
RADIUM
NORTHWEST TERRITORIES

THIS SAFE, together with everything from bank notes to pen nibs, was recently flown from Edmonton, 1100 miles due north to Port Radium, on the fringe of the Arctic circle. It is part of the equipment for a new branch of The Royal Bank of Canada, just opened to serve the men who work one of the world's greatest known deposits of uranium, on the shores of Great Bear Lake. This is the "farthest-north" bank in Canada.

Up B.C.'s rugged coast a giant new aluminum development is taking form. Since last November we have operated a branch at Kemano, site of the power house. Three sub-branches have since been opened to serve other construction crews at isolated inland points in the area.

Up north at Churchill on Hudson Bay—at the international airports of Goose Bay (Labrador), Gander (Newfoundland) and Montreal's Dorval—the Royal Bank brings modern banking services to military and civilian personnel, and to airlines and air travellers from every corner of the globe.

Pioneer camps and towns are springing up in areas of Canada which a few years ago were known only to trappers and prospectors. The Royal Bank of Canada carries on business in many of these isolated communities. Wherever the need arises, the Royal Bank heads north with the men who are establishing Canada's new frontiers.

THE ROYAL BANK OF CANADA

A BIG BANK SERVING A GROWING COUNTRY

Biz-Pro Club Instals New Executive

Officers of the Business and Professional Women's Club for this year were installed at the regular meeting Wednesday night by Past President Mrs. Jocelyn Bolton. Installed were: Miss Joan Cross, president; Mrs. Katherine Laurie, vice-president; Miss Frances Partridge, treasurer; and Miss Norma Irving, secretary.

A donation by the club of \$10 to the Canadian Arthritis and Rheumatic Society was swelled by contributions from the membership to \$20.

Souvenirs of British Columbia are being made by the club for presentation to delegates from all Canada who will attend the biennial conference of Canadian Business and Professional Women's Clubs at Vancouver in July.

It was decided to make the June meeting a picnic at the Salt Lakes.

The Wednesday meeting began with dinner at Club 27 followed by the business session in the Canadian Legion board room.

Mrs. Connie Weise won this month's draw.

Fashions Wierd And Wonderful

PARIS (AP)—Feminine fashions this summer will range from weird and wonderful to simple and unsophisticated.

Paris designers produced a lot of eye-catching nonsense but not serious new trends during the middle of the fashion season just finished.

The briefest sunsuits and bathing suits, bathing suit tops on dresses and slacks, and deeply rounded-out necklines make it look as if sunbathers will be popular. Sunlovers will be sure to approve the new styles, but as a sop for the lady who likes to keep a lily-white complexion there are also big cloche-shaped shady hats.

Three of the liveliest collections were Heim's, Schiaparelli's and Hubert de Givenchy's.

Heim made his audience gasp with audacious two-piece bathing suits and transparent open-work lace dresses worn over bathing costumes. One model was draped in an abbreviated black siren sarong.

Walking-stick handbags, sunglasses clipping over the top of the head in a man-from-Mars effect, witch doctor jewelry and toweling cloth dresses were some of the novelties adding sparkle to Schiaparelli's style parade.

She also showed strapless floor-length formal in glazed chintz, transparent plastic belts and quilted chintz cocktail clothes.

Givenchy mixed up an exciting style cocktail of frilly old-fashioned crinoline skirts with up-to-date naughty neckline blouses.

He delved in the attic trunk for nostalgic fringed fichus (triangular shawls), rhinestone shoe buckle, chignon covers and bows, and wall-paper printed chintz and cretonne. Like Patou, he made even slacks look ultra-feminine with all-over embroidery.

SWEATER QUEEN — British Columbia's candidate for the title of Canada's Sweater Queen is Audrey Crick of Vancouver. She will be one of 10 contestants — one from each province — in the finals to be held in Toronto. (CP PHOTO)

Presbyterian Missionary Society Tea

Daffodils and tulips centered the tea tables at the annual tea and home cooking sale of the Women's Missionary Society of the First Presbyterian Church, held in the church hall Wednesday afternoon.

Welcoming guests were Mrs. H. Calderwood, president, and Mrs. E. A. Wright, wife of the pastor. Conveners of the tea room were Mrs. M. J. Keays and Mrs. J. A. McRae, assisted by Mrs. George Murray.

Pourers were Mrs. Rod Morrison and Mrs. W. White; servers were Mrs. John McLeod, Mrs. H. C. Halliday, Mrs. J. W. Eastwood and Mrs. S. Whyte.

In charge of the home cooking sale were Mrs. J. Hadden Sr. and Mrs. W. Spark.

Mrs. John Bremner was the cashier.

Ladies Take Major Prizes

Ladies were predominant at the Catholic card party last night. They won four of the six prizes.

Winners at whist were Mrs. Florence Cormier and Mr. A. E. Chilton; in cribbage, Mrs. L. Williams and Mrs. L. Larsen, playing as a man. Mrs. R. E. Moore and George Cloutier walked off with honors at bridge.

Cashier for the evening was Mrs. G. R. Brett. Mrs. N. G. Galbraith was convener. Assisting with refreshments were Mrs. E. Clausen, Mrs. L. Colussi and Mrs. G. L. Vierck.

AS I SEE IT
(Continued from Page 2)

from the ground on which it falls through streams to the lakes.

I am just a layman, and can only guess as to how much truth there is in it. But last year out in the countries around the Holy Lands of the Bible I saw vast areas of waste lands on the very spot where the ancient scripture talks of a "land flowing with milk and honey." The mighty cedars which King Solomon got from his friend, and brother builder, Hiram, King of Tyre, were all cut down centuries ago. Wherever man has slaughtered his forests the desert has taken over.

ASK myself, how much wiser are we in Canada than the people of ancient Israel or Lebanon. My own forefathers came to this Canada about a hundred and fifty years ago. The whole of this Ontario was covered by mighty oaks, maples and other hardwoods. In spots, where they were slaughtered, erosion is already serious. Up around Orangetown, six feet of drifted sand have choked and covered springs which ran clear when my mother was a girl.

Nature is saying to us—Watch your step, man!

Crop Seeding Progress Satisfactory

WINNIPEG—Weather on the prairie provinces has turned cooler during the past week with low night temperatures and scattered light showers to good rains in a few sections, according to the weekly crop report of Canadian National Railway agriculture department.

Seeding is progressing satisfactorily in all sections, although some points have delayed coarse grain seeding either for wild oats or because the season is considered too early. Only a few points report minor reseeding as a result of soil drifting two weeks ago.

BLACKWOOD on Bridge

By EASLEY BLACKWOOD

Mr. Dale Makes Questionable Bid And Miss Brash Leaps to Small Slam

Mr. Dale made one of his few questionable bids today when he said two no trump on the North cards. Playing with Miss Brash it is best not to force your cards.

As soon as she heard the bid Miss Brash started leaping toward a slam. She ended up at six hearts and Mr. Muzzy led the deuce of diamonds which was taken with the ace.

Miss Brash led a heart to the ace and wasn't particularly happy when Mr. Muzzy played his lone king. She returned a heart and finessed the ten. But Mr. Champion still had the guarded jack and there were no more hearts in dummy to lead through him.

After a little thought, Miss Brash continued as follows: She cashed the ace of clubs, entered dummy with a diamond and played a third round of diamonds on which she dropped the jack of clubs.

She ruffed a club lead from dummy, then led the ace and another spade. Mr. Muzzy took the second spade and if he had returned a spade at this point he would have set the hand. Instead, however, he played right into Miss Brash's hand by leading another club.

Miss Brash ruffed, entered dummy again with a spade to the queen and led the last diamond. With everybody down to two cards, the queen and ten of trumps lay over Mr. Champion's guarded jack. When dummy led at the 12th trick, the contract was automatically home.

Mr. Dale breathed a sigh of relief and promised himself that he wouldn't tempt Miss Brash any more.

Mr. Champion remarked that Miss Brash was undoubtedly the luckiest woman in the world. "Anf you, Dale," he added, "your bidding is getting as loose as hers."

"Well I know how good she plays her cards," Mr. Dale retorted, "and I didn't think you and Muzzy would defend it right anyway."

Sharpe Turns Back Hotel For G & A Win

Gordon & Anderson overcame a two-run lead to win 3-2 over Commercial last night in their first ball game of the season, a seven-inning event.

Jack Sharpe pitched the winning game to shut out the Hotelmen after losing two runs of three hits in the first inning. He gave up four more hits, walked one and struck out eight.

Commercial, as visitors, began with a rampage that was short-lived when Bruce Simundson and Pavlikis both singled, then scored on a double down the right field by Gunn.

G & A scoring began in the bottom of the first when lead off man Ray Spring walked, stole second and scored on an error by Shortstop B. Simundson on Cornwell's grounder.

In the fourth inning, Playing Manager Cornwell's nine brought in two more runs for the winner. Ford was hit by a pitched ball, Scherk walked, and Cornwell hit safely when Commercial's catcher Lepage was late with his throw to first. Carolle's sharp single into left centre scored Ford and Scherk.

Commercial came close to a triple play, G & A had bases filled when Heinrich bloomed a ball over second. A high leap by Scott snagged the near-hit for the first out, threw in time to second covered by Simundson for the second, but Simundson's throw to first hit runner Dunbar sliding back to foil the attempt for a triple.

Losing pitcher Reynolds walked six, hit three batsmen, struck out five and gave up five hits and two earned runs.

Umpires were Stan Morin on bases and Andy Letourneau behind the plate.

Mustangs Meet Tillsonberg For Championship

LONDON —The University of Western Ontario Mustangs on Thursday night won the Canadian Intercollegiate Basketball championship by defeating the University of Alberta Golden Bears 75-62.

The Mustangs took the best of five series in three straight games.

They now meet Tillsonberg Livingstons, Canadian Amateur Association champions, for the all-Canada title, and the right to represent Canada at the summer Olympics in Helsinki.

A hedgehog may roll from great heights without injury by rolling itself into a ball, bristling with spines.

Foot, Mouth Veterinarian Strangles Self

WEYBURN, Sask. (CP)—A coroner's jury enquiring into the death of Dr. Lister Moore, Ottawa veterinarian found dead in his hotel room here May 6, yesterday returned a verdict of suicide.

The 36-year-old doctor was in charge of the health of animals branch of the federal depart-

ment of health, which is engaged in eradication of the foot and mouth disease among Saskatchewan cattle.

The coroner's jury said Dr. Moore came to his death by self-inflicted strangulation.

Dr. H. A. Brookler, who performed a post mortem examination, said cause of death was "asphyxiation by strangulation."

HEATED STARS

The surface temperature of the sun is about 5900 degrees centigrade but some more distant stars are calculated to be much hotter.

ADVERTISING IN THE DAILY NEWS BRINGS RESULTS

Dramatic Results From New Drugs Say Experts

NEW YORK—Pneumonia, one of the world's greatest killers of babies, has been treated with "dramatic" effectiveness with one of the liquid forms of terramycin, new broad-range antibiotic, according to two English child health specialists at the University of Manchester, England.

Sixty-six patients, suffering

from pneumonia and other childhood infections at the Duchess of York Hospital for Babies at Manchester were included in clinical tests conducted with the antibiotic by Drs. B. Wolman and A. Holzel of the University of Manchester's Department of Child Health. The result, they state, was "rapid and dramatic response."

Thirty-four out of 35 patients with pneumonia responded rapidly to treatment, in most cases within 24 hours, the doctors report.

Terramycin, given orally in one of its liquid preparations, also was found to bring "dramatic response" in treating children and infants with upper respiratory tract infections including those of the tonsils, throat, nose and middle ear. Pyuria, a condition characterized by the presence of pus in the urine, responded equally well, the doctors found.

First British Paper Mill in America

SOUTHAMPTON, England (Reuters)—A new \$55,000,000 newsprint mill of Britain's vast Bowater Paper Corporation will be in production at Charleston, Tenn., by the end of March, 1954, Sir Eric Bowater said here.

The mill, first in the United States to be owned by a British company, will employ 1,000 Canadian, U.S. and British workmen. Chairman of the corporation, Bowater said: "The new mill, which will produce 130,000 tons of newsprint and 50,000 tons of pulp a year, is to look after our growing business in the United States."

"But it will indirectly benefit Britain through helping world supplies as a whole."

Bowater made the statement on his arrival here aboard the liner Queen Elizabeth.

Last Rites Held For Native Lad

Special to The Daily News

KITWANCOOL—A large gathering of friends attended last rites here for Arnold Douse.

Only son of Mr. and Mrs. Walter Douse, the 16-year-old youth died in hospital at Hazelton. The remains were transported here for burial services.

On arrival at Kitwanga the Totem Pole Brass Band paraded to the ferry where they played several selections before preceding the funeral march to Kitwanga Community Hall. After a short service there the body was brought here.

Services were held in the home of Chief Walter Douse.

The St. Mark's Church orchestra played hymns and Chief Douse made a brief speech in which he thanked the many people from surrounding places who came to pay last respects to one of Kitwanga's most respected young men.

After the ceremony at home the group proceeded to St. Mark's Church for final rites.

Rev. A. C. Shindel is in Vancouver this week attending the district conference of the Pentecostal Assemblies of Canada.

—Stewart— News

An RCAF veteran and successful mining man, Tommy MacKay, opened his campaign as Progressive Conservative candidate for Atlin riding with a discussion on the future of the district.

Speaking in the Legion hall here he told of the wealth already produced and the potential which lies "untouched for want of roads."

"This," said Mr. MacKay, "is the biggest riding in B.C., with an area equal to half that of Great Britain, yet we have a population of only 20,000, while in Britain there are 40,000,000."

He spoke of recent mining developments in the district and said there were enormous power possibilities at Meziadin Lake and around Atlin.

A successful dance was held last Saturday by the women of Moose Chapter No. 16 under the leadership of senior regent Mrs. J. McKay and Portland Canal Lodge No. 1218 under governor J. J. McKenna.

Music was provided by Addie Bremser of Premier at the piano and Gordon Dick at the traps. Mrs. D. Geddes officiated at the door and W. R. Tooth helped in the culinary department.

Hospital Day was observed here on Sunday, May 11 at the Stewart General Hospital under the auspices of the Women's Auxiliary. Mrs. J. McDonald, R.N., matron of the hospital, was hostess, assisted by Mrs. H. Wilkinson and other members of the auxiliary.

Members of the Stewart Tennis Club have been busy getting the courts in shape for the summer. Resurfacing of courts is contemplated.

TERRACE TOPICS

The Pentecostal Young People of Terrace are making preparations for a rally at their church here May 24. They will be joined by groups from Prince Rupert and Hazelton.

Women's Auxiliary to the Anglican Church enjoyed one of the most beautiful spring days of the year for their successful spring tea and sale last Saturday.

The tea was officially opened by Archdeacon E. S. Hodson.

Conveners of the tea were Mrs. Laird and Mrs. R. Thomas, assisted by Mrs. Sande and Mrs. Smith.

The Catholic Women's League at their meeting last week discussed plans for the fall bazaar. New slip covers for the rectory were donated by the ladies. Next meeting will be held June 4.

Monday evening's entertainment sponsored by the Civic Centre, together with the choral group, and a play "The Bishop's Candlesticks," contributed by the Catholic Church, were well received, although the audience was small due, as D. G. Little pointed out, to lack of enough

time for proper advertising. Mr. Little thanked the participants for their efforts and the guests for their loyal support. The evening opened with three favorite numbers by Terrace popular mezzo-soprano, Harry Seaton, supported by Rhythm Aces who supplied music for the evening until choral group's presentation.
