# Britain Hard Hit by Flood

Farmlands  
errun by Sea

EDWIN S. JOHNSON  
Canadian Press Staff Writer

Britain's floods have  
a staggering blow  
to the country's drive to  
increase food production at

Primary surveys show that  
20,000 acres, some of the  
farmlands in the British  
island have been overrun by the  
floods.

Cultural authorities admit  
that on farms under salt  
water, mainly winter wheat and  
as well as extensive areas  
of land will be written off for the  
forever.

With some 30,000 acres  
under water, it is among the coun-  
try's worst winter wheat and  
as well as extensive areas  
of land will be written off for the  
forever.

Some districts farmers re-  
ceive loss of stored food-  
stuffs. Estimated destruction of  
the will run into hundreds  
of thousands of pounds. The  
loss of hundreds of small  
farms has been wiped out.

Some inundated districts  
the water is particularly  
deep. It is thought it may be as  
two or three years be-  
fore the land can be restored to  
its former fertility.

Mr. James Scott-Watson,  
scientific adviser to the  
British government, is more  
optimistic. He says that in  
long we must wait un-  
derground land becomes  
flooded crops depends on a  
number of things, he said. "Of great  
importance is how long the  
land is submerged in salt  
water. The extent of rainfall  
and the nature of the soil—  
sand, clay or loam."

Means of neutralizing the  
salt in the land has been  
known for years, said Sir  
James. "Where even without the  
flood, the soil is sandy, and  
has been under sea water  
for weeks, has started pro-  
ducing after one year. At  
extreme, heavy land  
from the sea may be  
producing anything but  
about five years."

**Williams Brings  
Turning Jet  
Safely to Land**

Ted Williams slid  
safely to land.

Former Boston Red  
 Sox pitcher, now a Marine  
 pilot, crash-landed  
 burning Panther jet  
 bomber at a forward  
 air base taking part in a  
 strike in Northern

Williams, on his first Korean  
 mission, fought his  
 way across the lines and  
 landed when his wheels  
 jammed.

The harrowing flight, his  
 plane out, his ailerons  
 jammed, the plane was on fire and  
 the speed indicator quit.

Williams was able to walk  
 away from his damaged plane.

## Grain Shipment At Standstill As 250 Workers Call Strike

### 21 Ships Stalled By Work Stoppage

VANCOUVER.—Millions of bushels of prairie grain, destined for world ports, is tied up today by strike action in two British Columbia ports.

A strike by 250 grainhandlers stopped movements from four giant elevators in Vancouver and one in nearby New Westminster.

Five elevators affected are: Alberta Wheat Pool, Pacific Elevators, Kerr-Gifford, and United Grain Growers, all of Vancouver, and Searle Grain of New Westminster.

The strikers, members of the Grain Elevator Workers Union (TLC), voted to strike last night at an 11th-hour meeting.

Edward C. Sims, international representative of the union, said the men voted overwhelmingly to strike to back up demands for a five-cents-an-hour wage increase.

He said the companies had refused to negotiate further after turning down the majority recommendation of a conciliation board.

The companies have elected to hold the line at the present \$1.50-an-hour wage scale.

Port officials said there are 7,500,000 bushels of grain stored in Vancouver's elevators and another 250,000 in New Westminster.

Grain shipments out of the two ports is at an all-time high. Twenty-one ships were loading 4,000,000 bushels of grain for 14 different countries during the week-end.

The tie-up is not likely to affect Prince Rupert's shipping unless the strike is of long duration.

(Arnold Mills, superintendent of the Dominion elevator in Rupert, said this morning he did not believe any shipping would be diverted to this port, but said if additional staff was taken on the elevator "possibly could handle two more ships a month.")

(Present quota for Prince Rupert is averaging at three ships a month. At present the freighter Lake Atlin is loading, completion scheduled for tomorrow.)

(The Lake Atlin entered drydock here last Tuesday for annual inspection and overhaul and left the ways again Thursday.)

### CCF Select H. Archibald

Harry Archibald was chosen CCF candidate for the federal riding of Skeena at a nominating convention here Saturday.

Mr. Archibald was the riding's representative at Ottawa prior to the last Dominion election.

Present member for the constituency is E. T. Applewhite, Liberal.

Mr. Archibald's nomination was announced at a banquet in the Broadway Cafe, following counting of mail-ballots during the afternoon.

It was not announced how many were nominated, but W. H. Brett, in a brief address to the banquet, congratulated Mr. Archibald and said that while he was an unsuccessful candidate he felt members had made a very good choice.

Mr. Archibald, who has been in the fishing business on the Queen Charlotte Islands for the past 3½ years, was defeated by Mr. Applewhite in the 1949 general elections.

### SPANIEL DOOMED TO DIE UNLESS HOME FOUND SOON

A two-year-old golden brown spaniel is under sentence of death unless a home can be found in Prince Rupert for him immediately.

"Goldie," who belonged to Dr. Duncan Black, former city health officer here recently transferred to Vernon, could not accompany his owner because of the ban on moving dogs from this area.

Unless a home is found for the friendly, well-bred spaniel, he will have to be destroyed, says Syd Hamblin, 420 Fourth Avenue East, city poundkeeper.

Mr. Hamblin's telephone number is 341.

### BULLETINS

VICTORIA—Premier Bennett said today the budget probably will be brought down in the legislature Wednesday.

TOKYO.—Two United States jet planes challenged two Russian-type fighters over northern Japan today, damaged one in a brief skirmish and chased both intruders to the Soviet-held Kurile Islands.

Far East air force reported U.S. planes opened fire when the intruders ignored an order to land.

VANCOUVER.—Only minor damage was caused when fire broke out between the boiler and the engine room of the Canadian Pacific Steamships' freighter Yukon Princess here during the week-end as the vessel was preparing for the Alaska run. It was extinguished by the crew.

NEW YORK (CP)—Execution of atomic spies Julius and Ethel Rosenberg today was set for the week of March 9 by Judge Irving Kaufman.

### Murder Feared In Couple's Disappearance

KAMLOOPS.—Murder was suspected today in the mystery disappearance of a man and his wife from a Kamloops auto court three months ago.

Mr. and Mrs. Frederick Joseph Labrie, formerly of Williams Lake, vanished Nov. 17. Their furniture and personal effects were left untouched in the auto court suite.

Police today said foul play was feared, but gave no reason for their suspicions.

Mr. and Mrs. Labrie came to Kamloops from Williams Lake early in November. They were accompanied by a man, but police have not disclosed his name.

### Aged Fisherman Dies on Troller

A retired fisherman ill for some time and living on his troller tied up at the Fairview floats, died yesterday.

He was Daniel Charles McLaughlin, 73, who had been trollying with the boat Onawa for the Prince Rupert Fishermen's Co-op for 10 years. Known as "Big Dan" along the waterfront, he stopped going out a year ago when he became too ill to continue fishing.

B.C. Undertakers are in charge of funeral arrangements.

### WEATHER

Forecast

North coast region: Gale warning. Cloudy with scattered showers. Rain or snow today and Tuesday. Not much change in temperature. Winds westerly 25 in exposed areas, otherwise light.

Logs For Paper

A WORKMAN LOADS LOGS from the pulpwood forests of the Gatineau valley near Ottawa. Woodmen follow pre-marked trails during the winter season felling trees. They are cut into four-foot logs and stacked on the sides of paths for picking up by horse and sleigh teams to be hauled to the highways. Trucks take them to frozen lakes where they wait the spring thaw and log drive to the pulp and paper mills.

### Socreds Change Prayer Used at Daily Sitzings

VICTORIA (CP)—The prayer which opens each daily sitting of the British Columbia Legislature has been modernized.

Speaker Thomas Irwin, Social Credit member for Delta, said the principal reason for the change was that the language of the old prayer was "archaic."

He said, too, that the old prayer was taken virtually from the liturgy of the Church of England. He thought it would be better to substitute a prayer which would be more acceptable to all faiths, although there had never been any complaints about the old one. The speaker is himself an Anglican.

Mr. Irwin took his problem to the leaders of the Anglican,

United and Roman Catholic churches in Victoria and together they wrote the prayer now being used. Mr. Irwin told them it must be less than 500 words in length, not take up more than three minutes' time, and include, of course, mention of the Royal Family, Lieutenant-Governor and Legislature.

There were 267 words in the old prayer and there are 221 in the new one.

Mrs. Nancy Hodges, Liberal member for Victoria and speaker of the previous three years, condemned the change in her address Wednesday in the Throne Speech debate.

Both prayers end with the biblical Lord's Prayer; that is, they end "but deliver us from evil. Amen" instead of with the commonly used "but deliver us from evil. For Thine is the kingdom, the power and the glory, for ever and ever. Amen."

### Father Reports Son Drowned

Drowning of a young boy at Alice Arm yesterday is being investigated by RCMP here who left for the Portland Inlet mining centre on the police launch ML15 today.

A telegram was received by RCMP here yesterday from C. E. Carlson that his son Bruce was drowned at 4 p.m.

### Alaska Volcano Erupts

KODIAK, Alaska (CP)—Famed Mount Katmai on the Alaska peninsula, quiet for 41 years, blew its top late Sunday in a major eruption that sent a column of smoke towering 30,000 feet into the air and started filling nearby valleys with ash.

There was no immediate word whether any villages in the primitive and sparsely-populated area were threatened.

Military fliers who flew near the 7,250-foot volcano said it still was belching fire and smoke late Sunday night.

But Kodiak residents were reassured by frequent bulletins from the navy base here that there was no danger from the new eruptions.

### Walls Holding Against Tide In 3 Countries

LONDON.—Battered sea walls of England, the Netherlands and Belgium held fast against still-rising spring tides today and forecasts of calm or only light winds raised hopes that the vast flood disaster of two weeks ago would not be repeated.

In all countries, however, an emergency army of military and civilian workers stood by or toiled to further bulwark soggy sea defences, breached at hundreds of points and only temporarily plugged.

### Taxi Driver Fined \$100; Loses Licence

George Ferguson, city taxi driver, was fined \$100 and his licence suspended for six months after being convicted in police court today of driving a car while intoxicated.

Witnesses gave evidence that they were in the taxi which was driven by Ferguson while he was under influence of liquor.

Magistrate Walter Vance passed sentence.

### Dust Storms Lashes Midwest

DENVER, Colo.—Winds up to 80 miles an hour scoured up black blizzards Sunday similar to the dustbowl blows of the 1930s in parts of Nebraska, Kansas and Colorado.

They swirled dust 12,000 to 13,000 feet high in western Kansas, smashed windows and pushed over trees in western Nebraska and tore down telephone and power lines in Colorado.

No loss of life is reported.

PUSSY WILLOWS are budding in Kitchener, Ont. an advance sign of spring. Two-year-old Gary Baggey (right) shows some he found near his home to brother David, 3. They are sons of Mr. and Mrs. Michael Baggey of Kitchener.

### Good Citizen of 1952 To Be Named Tomorrow

One of five candidates for the Alex Hunter Good Citizenship Award will be named winner for 1952 at a banquet tomorrow night at the Commodore Cafe.

Candidates, chosen by a committee representing most city organizations, are F. E. Anfield, Mrs. T. J. Boulter, Dr. J. P. Cade, Dr. R. G. Large and Peter Lien.

The award, initiated and sponsored by the Junior Chamber of Commerce, will be presented by Mayor Harold Whalen to the candidate whose work in the community has been voted as most outstanding.

The award is being given in honor of the late Alex Hunter, managing editor of the Daily News, who was killed in a Keman Bay accident last May.

At the banquet tomorrow, to which 100 persons from all city groups have been invited, a plaque will be presented to the winner. This plaque will be displayed in a prominent place in the Civic Centre and each year presented to future Good Citizenship award winners in recognition of the citizen's work in the community.

### All Aboard U.S. Plane Feared Dead

NEW ORLEANS.—Scant hope was held today that any of 46 persons aboard a National Airlines DC-6 plane survived a crash into the stormy waters of the Gulf of Mexico, 44 miles south-east of Mobile, Ala.

Seventeen bodies were recovered when darkness interrupted the huge air-sea search Sunday night.

The ill-fated four-engined plane, flying in 100-mile-an-hour winds, was en route from Tampa, Fla., to New Orleans when it crashed Saturday—less than five minutes from possible safety.

### Police Stop Jail Break

PRINCE GEORGE.—Guards thwarted a jail break attempt at the city jail here Saturday night after eight prisoners broke down the main cell-block door.

Police rushed the prisoners as they broke through the door into the jail corridor and forced them back into the cell-block.

The jail, built to house 12 men, was occupied by 30 at the time of the attempted break.

Major W. C. Poulton of the Salvation Army will give a talk on the meaning of good citizenship and J. S. Wilson will tell the banquet why the award has been named in honor of Alex Hunter.

Bert Jefferies, president of the Junior Chamber of Commerce, will be master of ceremonies.

PREMIER BENNETT  
... answers critics

### Government Not Trying To Cut Session

VICTORIA.—Premier Bennett said the government has no intention of deliberately trying to shorten the current session of the legislature.

He told a press conference that all Social Credit members will speak in the budget debate. No private Social Credit members are joining in the throne speech debate. He said the government wants to get all its legislation before the house so it can be discussed intelligently before all the members are worn out.

Social Credit private members had chosen not to speak in the throne speech debate so they would be able to discuss all government policies later in the budget debate. The government had no intention of trying to stifle debate.

The premier said Attorney-General Robert Bonner will wind up the throne speech debate for the government.

### Model Would Rather Paint Pictures Than Continue as Star on Broadway

THE NEW YORK POST.

"I couldn't make a living as a painter at \$25 a picture," she told Wilson. "I was just a weekend painter... till this thing happened."

"A woman handed me a small 13th century religious picture from the Catholic Church. She asked whether I could copy and enlarge it."

"It came out good. The woman wanted several at \$50 a picture."

But she kept her secretary's job, awaiting further encour-

agement for her painting, until she saw an article about Msgr. Fulton J. Shean, best known for his country-wide Catholic Hour broadcasts.

"I was an Episcopalian," she said. "But I knew this man would affect my life."

She sent him a painting for Christmas. He wrote to her:

"Whenever I receive such a gift, I ask myself why I should be so favored. It is certainly not because of what I am but rather because you and your faith have seen in me the One whom I so unworthily represent."

"I shall consider myself as the glove, but the Hand that receives and the Hand that rewards you shall be the Lord himself."

That started Joyce painting. She soon had 20 orders—and attained her great ambition—to get away from New York.

Now she plans to visit Majora.

"Living's cheap there. The climate's beautiful. I'll paint seriously—maybe even try some landscapes."

## Let's Hear Road Policy

"IN ORDER that the wealth of resources in our lands, forests, mines and agriculture, together with our scenic beauty, may be made more accessible, a well-considered policy of highway construction has been formulated."

This part of the announced policy of the provincial government, as contained in the Speech from the Throne, fills us not only with high hope but also with a certain amount of nervous curiosity. What will the government's definition of "well-considered" turn out to be?

While there has been a great deal of persuasive talk—which we do not necessarily dispute—about the need for attention to the southern transprovincial highway, Vancouver Island roads, Okanagan Valley connections and one or two other worthy projects, what we are straining to hear is a little more discussion about us up here.

If this appears to be a parochial attitude, we are obliged to observe in all modesty that there are those who seem to think this is a worthwhile part of the country to cultivate.

To take transportation companies alone—Canadian National Railways is preparing to do a major maintenance job on its Smithers division which last year proved the most profitable on the system; Canadian Pacific Air Lines is about to introduce a new service to include Prince Rupert, Terrace, Smithers and Prince George; Ellis Air Lines has found the district sufficiently interesting to start regular flights between here and Ketchikan; Queen Charlotte Airlines has established a new northern headquarters in this city and commutes regularly to Kitimat. By water there is also a busy traffic moving in and out of this port.

In the middle of all this hustle and bustle, which we respectfully suggest is not of small limited importance to the province as a whole, there is the uninspiring sight of ill-paved and dead-end Highway 16.

It may be argued—and again we do not dispute it—that we do not have a sufficiently realistic perspective about highway construction and repair. No doubt we could be given details about costs which would sound very alarming indeed. But even in ignorance we will stand our ground and let the experts speak for us.

This is what C. W. Gilchrist, OBE, managing director of the Canadian Good Roads Association, has to say:

"If our ordinary difficulties are not enough to contend with, we have yet to consider the road requirements of the potentially rich areas of the Northeast and Northwest (that's us—Ed.), two of the few remaining sources of natural resources in the world. In the next quarter of a century they will undoubtedly become keys to the continent's industrial might.

"Road transport will be a valuable component of our transportation systems into these areas. They will make exploitation of mineral wealth economically feasible. We have hardly begun to build the roads these areas will need.

"Regarded as an investment, roads into these areas will pay rich dividends as they have relatively recently in the Chibougamou, Quebec, area. . . . The question is not whether we can afford modern highways but whether we can afford not to have them."

It should be borne in mind that, in making these remarks, the northeast and northwest areas were the only ones Mr. Gilchrist singled out from all Canada for emphasis of this sort. We offer his observations as coming within the definition of "well-considered."

## Son of Noted Dentist Fails To Upset Provision in Will

SAN FRANCISCO (AP)—Dr. Edgar Randolph Parker, Jr., only son of the late chain dentist, Dr. Painless Parker, has failed in an attempt to upset his father's will—and perhaps disinherited himself completely from an estate valued at upwards of \$200,000.

The elder Parker's will, which split the estate evenly among his son and two daughters, carried a provision that an heir who disputes it shall be disinherited. But his son, a 41-year-old den-

tist from Vancouver, contested it anyway, saying his father had promised him half the estate.

He charged his sisters, Mrs. Jane Hewson of Rolling Hills, Calif., and Mrs. Helen Korn of Gilroy, Calif., unduly influenced their father to win bigger shares.

Superior Judge Timothy I. Fitzpatrick, who ruled the will valid, will be asked when the estate is distributed to decide if Parker's action actually disinherits him.

## As I See It

Philpott

### Time Bomb in Milk

THE Social Credit government of B.C. has been quick to remedy some of its blunders.

For instance the aspene order forbidding ordering more than a glass of beer at a time—though you could guzzle a quart bottle! The outraged roars of the beer parlor patrons made the government see the error of its ways.

It will take a little more time to bring the milk crisis to a head. But the government's new milk policy is contradictory and self-defeating. It is like selling some milk at bargain counter rates—but with a delayed time bomb in every bottle.

HERE is the Social Credit government's new milk policy:

1. Price controls on milk are abolished, except as paid to the farmers for liquid milk, as distinguished from milk used in food factories. This means that Safeway and other chain stores will be able to sell milk cheaper than it is now sold by household delivery.

2. Importation into B.C. or sale in B.C. of butter substitutes "other than margarine" is banned.

Considered together, these rules are so contradictory as to border on the ludicrous. It has been well known for years past that some milk could be sold on a cash-and-carry basis through Safeway, etc., cheaper than all milk could be sold at the kitchen door by a milk-route driver. But the distributors were always able to show that if they were to lose a large slice of their total business to the big stores, like Safeway, they would be unable to stay in business, in many districts.

TO USE a figure of speech—the distributors argued that if Safeway and such companies were allowed to take off the cream of the cash milk market they—the household delivery men—would be left with the skim milk. They say that exactly the same thing will happen in milk as happened in bread—that home deliveries will shrink, and maybe end all together in many districts because they can't be made to pay their way.

They also say that the inevitable first effect of the new system will be to drive down the price to the farmer—control or no control. They say that the small distributor will tell the farmer "either you will have to accept a lower price, to enable me to compete with the chain stores, or I will have to go out of business—and the milk you now sell through me will have to be sold at low rates through the by-products factories."

They say that only about half the total milk produced has ever gone into the households as bottled whole milk.

One authority, who has no axe to grind, tells me the first effect of the Social Credit milk policy will be a two-cent cut in the price of milk sold in stores—but with a several-cent raise in a year or two after large numbers of farmers are forced to sell off their dairy herds.

THE MORE foolish part of the policy is the absurd attempt to ban "butter substitutes other than margarine." This is probably illegal and certainly illogical. All the arguments that Hon. Tilly Roulston and others used to legalize margarine apply against this fool rule.

If butter could not retain its "holy cow" position against margarine, how come margarine is now the new Sacred "holy cow"?

## AFL Demands Higher Wages For Workers

MIAMI BEACH, Fla. (AP)—The American Federation of Labor has demanded a higher wage level for millions of workers, and predicts "a cut in production, a drop in business and a heavy rise in unemployment" if "present trends are permitted to continue."

In a heavily-documented report on "wages and future economic stability," the AFL executive council said wages are not keeping pace with productivity. The statement, complete with charts and statistics, is an indication that AFL unions will put heavy stress on productivity as a reason for wage increases in the coming months of labor-management contract negotiations.

AMBASSADOR HENRY CABOT LODGE Jr., permanent representative of the United States to the United Nations, looks at the bas-relief panels of one of the doors to the public entrance to UN headquarters in New York. The seven nickel-plated doors were designed by Montreal architect Ernest Cormier and donated by Canada. On the exterior of each door are four panels in bas-relief symbolizing peace, justice, truth and fraternity.

## Parliament Hill

By Edward T. Applewhite, M.P., Skeena

I seem to have the darndest luck! Just when the Currie Report is such a dead issue that no one wants to hear it mentioned again, I find myself on a committee which has been discussing nothing else. However, it seems to me that even the committee is now tiring of the subject, very fast.

Politics seem to be raging in the province of Quebec, with Mr. Duplessis getting himself into hot water over his anti-labor moves. As far as I can gather, Mr. Duplessis is not nearly as important a figure from the federal point of view as he would like to be. In fact, when it comes to personalities, Mr. St. Laurent carries more weight than a dozen Duplessis.

The rulers of the U.S.S.R. have tried (so far without success) to quench the fires of nationalism in the Ukraine. In applying to the Canadian Department of External Affairs' passport officer for a certificate of identity it is necessary for the applicant to state his nationality. In hard fact there is no Ukrainian nation today. Recently an applicant was so advised; the wording was official and impersonal and the reaction could be one of discouragement. But some day the Ukraine may be freed from its enslavement by a Communist dictatorship, and a free Ukrainian nation will emerge.

HOWE RETURNS  
Right Hon. C. D. Howe has just returned from his trade tour of South and Central America. Mr. Howe is one of those people whom the sun bakes a deep valent shade of brown. He returned here among us all with our mid-winter pallor looking like a well-browned Hawaiian. "C. D." got a most vociferous welcome on his first appearance in the House after his return.

I don't know what was intended to be the point of Dave Fulton's question on the order paper, "Have any Royal Canadian Air Force squadrons originally intended to be equipped with CF-100 aircraft been converted to F-86 Sabres instead?" Anyway, the answer was no.

In reply to a question by "Scotty" Bryce, Mr. Campney advised the House that enlistments for military service in the past three years have been: 1950, 57,564; 1951, 68,748; 1952, 54,915; total, 180,757. So don't let anyone tell me that the spirit of adventure or the spirit of service is dead in Canada!

F. S. Folwell, Liberal member for Hastings South, who very seldom speaks in the House, made an excellent short speech on the resolution dealing with conservation of water. He was sure that members on all sides

of the House would join in supporting the Minister (Mr. Winners) in moving forward this resolution.

He outlined several works which conservation authorities have already undertaken in his district to hold back an amount of water for conservation, and also to stop flooding. He pointed out that water is extremely cheap—and so, often wasted. It is only when we have a shortage that we who seem to have an abundance consider the necessity for preserving and conserving water.

Alastair Stewart, CCF of Winnipeg, has asked a lot of questions about "Operation Smack." Mr. Campney informed the House that no Canadian troops took part in "Operation Smack," consequently the Canadian government has no information relating to this matter beyond what has appeared in the press.

## OTTAWA DIARY

By Norman M. MacLeod

One of the senior cabinet ministers recently referred to the decisions of the pre-Christmas Commonwealth Economic Conference as "the best kept international secret since World War II."

The comment was official Ottawa's first intimation that the Commonwealth Economic Conference had achieved anything to be secret about. Previously the impression had prevailed that the meeting had concerned itself with general principles and had stopped short of concrete decisions. The belief was that any drastic changes in policy would be made only after another conference at which both the United States and European countries outside of the Iron Curtain would be represented.

But ever since the highly authoritative tip from a cabinet minister that top-secret material is involved, Parliament Hill circles have become a hot-bed of rumor and speculation. Some of the surmises are at least intelligent and bear interesting signs of authenticity. The most arresting of them are two, namely:

That the Commonwealth Economic Conference agreed upon an international banking plan which would result in early currency convertibility.

That the Commonwealth Economic Conference also agreed in principle to an upward revision in the price of gold.

Both decisions require the co-operation of Washington. And that co-operation is reported to be the purpose behind the mission to Washington of British Foreign Minister Eden and Chancellor of the Exchequer Butler.

The possibility that currency convertibility and a higher price for gold are involved in the Eden-Butler mission to Washington has served to intensify interest in it in this capital. Both projects are of top-level interest to the Canadian economy. Trade statistics are beginning to level off from their recent record peak, and one of the main factors held responsible is the spreading dollar scarcity. In addition, Canadian gold mines have been finding it increasingly difficult to operate under the present price which the yellow metal commands. One reason is that many of the mines have exhausted their richest ore and now are having to work on the lower grade ore. If the price of gold were increased substantially, a number of mines that have become uneconomic could be reopened profitably.

### Popular Transport

LONDON — British Comet jet airliners now are being sold on five continents. Purchases were made by U.S. and Canadian airlines, Brazil and Venezuela, Japan and Australia, in addition to Britain and France.

The upsurge in highway accidents is charged by traffic experts to "open weather, open roads and closed minds."

### INTERESTING AS WELL?

If a woman has been loved, hated and envied, her life was worth living—Ex.

A bishop from the Arctic, Rt. Rev. Donald Marsh, mentions the \$40 old age pensions. Sometimes electric clocks adorn igloo walls. An Eskimo might wish to know the time when night can last for days and days.

### DRAWING NEARER

Like enough there is scant difference in the way tourists feel, be they up north or down south. Yet we have a notion that a brilliant day or moonlight hours off British Columbia or Alaska can take a lot of beating. Let's cheerfully admit the southland has its charms, but the scenic majesty of mile high mountains guarding blue water sticks in memory.

### BOY MEETS GIRL

To the Bank of America in Yokohama, a banking-by-mail customer in Korea sent a signature card filled out as follows: "Father's name: John. Mother's maiden name: Agnes. Introduced by: They just met casually."

Usually, something or other that sounds new concerning

## EXTRA SPECIAL ..... 12.00 / 2.00

*So startlingly new!  
So wonderfully different!*

THE STRIKING NEW 1953  
"TWO-TEN" 4-DOOR SEDAN

# CHEVROLET FOR '53

## Entirely New STYLING

Chevrolet's lower in height, with long, flowing, smoothly rounded lines to give you the newest look in cars! New interiors are richer, roomier — color-matched to exterior finish.

## Entirely New POWER

New 115-h.p. high-compression "Blue Flame" engine with Powerglide models.\* New 108-h.p. high-compression "Thrifty-King" engine with gear-shift models.

## Entirely New POWERGLIDE\*

New automatic starting and passing range gives you flashing getaway from a standing start, greater passing ability in city driving. Gas consumption is substantially reduced!

## Entirely New ECONOMY

You go much farther on every gallon of gas! Greater over-all economy of operation and upkeep! And, again in 1953, Chevrolet is the lowest-priced line in its field.

## Entirely New SAFETY

Greater ease and safety of control. Greater visibility with a new, one-piece curved windshield. Finer, smoother brakes. It's the safest Chevrolet you ever drove!

## Entirely New DURABILITY

Beneath the brilliant new beauty is heavier, stronger, more rigid construction. This means even longer life for a car always famous for durability and dependability!

## Entirely New POWER STEERING

You park and steer with finger-tip ease, yet you retain the familiar feel of the road. Power steering, optional at extra cost on Powerglide equipped models.

\*Combination of Powerglide automatic transmission and 115 h.p. Blue Flame engine optional in "Two-Ten" and "Ten" models at extra cost. (Continuation of standard equipment and trim illustrated is dependent on availability of material.)

## BLACKWOOD on Bridge

by EASLEY BLACKWOOD

## Sticking To Only One Line Of Play Leads to Defeat

Mr. Abel became obsessed with one line of play in today's hand—to the exclusion of all others. As is usual, when that happens, he lost his contract when he could have made it.

Mr. Masters got off to the killing lead of a low club. Mr. Champion put up the king and the ace won. Mr. Abel's prospects were now dreary indeed. He had a club loser, a spade loser and two losers in the trump suit.

He immediately began thinking how he might lead trumps so that the ace and king would fall together. Should he go to dummy with the ace of diamonds and lead back the queen of hearts, hoping Mr. Champion had the doubleton king and would cover? Or should he lead a low heart from his hand, hoping Mr. Masters had the king doubleton and would go in with the king?

Playing against such formidable opponents, he was wasting his time along these lines but in any case he finally decided on the latter alternative. He led a low heart and Mr. Masters promptly played the trey, knowing that if Mr. Abel had the ace of trumps he either would have laid it down or would have gone to the board and led a heart up for a finesse.

Thus Mr. Abel lost two hearts, a spade and a club. But he needn't have lost all these tricks. His best bet was to start leading diamonds at trick two. If the diamonds were divided 3-3, he had an excellent chance.

South dealer  
Neither side vulnerable  
North (Mrs. Kreen)

H-J 10 8 5 4  
D-K Q J 3  
C-C J

1 H Pass 2 H Pass 3 D Pass 4 H Pass 5 All pass

The way he actually played the hand, there was no chance at all.

As you see, the diamonds did break and on the fourth lead of that suit what was Mr. Masters to do? If he ruffed with the king, dummy's last club would be discarded and only two hearts and a spade lost.

If he ruffed low, again the last club would be played from dummy. Now, as soon as Mr. Abel gained the lead again, he would lead a trump and the ace and king would fall together—just as he had hoped in the first place.

## Flood Scenes in Holland Have Likeness to Canada

by FRED EDGE

BERGEN OP ZOOM (CP)—With one difference Holland today could have been British Columbia's Fraser Valley in 1948 or Manitoba in the spring of 1950.

There is a sameness in the stunned look of refugees being ferried to safety in lumbering army ducks, in the tired, swollen eyes of thousands of volunteer-like workers and in the ironically dusty streets ending at rippling flood waters.

The difference is that this is a killer flood. On a tour of observation for the Canadian Red Cross Society it was difficult to remember that this was Overlake, Holland, instead of Asquith, B.C.

Examinations for the position of Assistant Forest Ranger will be held at the following centres at the dates and times indicated:

Tuesday, March 3rd, 9:00 a.m.—Burns Lake  
Wednesday, March 4th, 9:00 a.m.—Smithers  
Friday, March 6th, 9:00 a.m.—Terrace  
Saturday, March 7th, 9:00 a.m.—Prince Rupert

Application forms and full particulars may be obtained from the District Forester at Prince Rupert or the Forest Ranger's office at examination centres. Completed application forms should be forwarded to the District Forester by February 22nd, or failing this must be presented to the examiner at the time of the examination.

These examinations are being conducted to establish eligible lists for 1953 fire season employment. From such lists appointments to positions now vacant will be made according to candidates' standings in the examinations.

Employment will be for period of six (6) months at starting salary of \$225.00 per month and expenses away from headquarters. Candidates must be citizens of one of the nations of the British Commonwealth and must have resided in British Columbia for one year. The candidate must be physically capable of the work.

Candidates must be 21 years of age. No examination fee is charged. (F2,9,16,23)

## IN THE SUPREME COURT OF BRITISH COLUMBIA

IN PROBATE IN THE MATTER OF THE "ADMINISTRATION ACT"

IN THE MATTER OF THE ESTATE OF SYLVESTER HENRY SUNDERMAN, DECEASED, INTEREST.

TAKE NOTICE that as Administrator duly appointed by the Court of the estate of Sylvester Henry Sunderman, who died at Tulsequah, British Columbia, on or about the 19th day of August, 1952, I require all creditors and others having claims against the said estate to send the same to me, properly verified, at the address mentioned below on or before the 13th day of April, 1953, after which date I shall proceed to distribute the estate to those entitled by law, having regard only to such claims of which I shall then have been notified.

AND FURTHER TAKE NOTICE that all persons indebted to the said estate are required to pay their indebtedness to me forthwith.

DATED at Prince Rupert, B.C., this 13th day of February, 1953.

JAMES RYLEY, Official Administrator.

ATLIN, British Columbia. (F16,17,23,24c)

## Oil Firm Head Denies Story

ABERDEEN, Wash. (AP)—The president of Ocean City Oil Fields, Inc., says that two men, one described as a former associate of Al Capone and the second an attorney who represented the late Chicago gang leader, are in no way connected with his firm in its oil exploration activity in western Grays Harbor country.

R. A. Brossard, Vancouver, B.C., capitalist, made the comment at a special meeting called Monday following a Seattle newspaper's Sunday story.

The Seattle Times said that Joseph C. Fusco, whom it described as a principal Capone

syndicate lieutenant during the prohibition era, and Abraham Teitelbaum, who as a lawyer represented Capone, are among backers of oil exploration activity at Ocean City.

Brossard said the men are associates of Tom T. Hawksworth, Chicago capitalist, who has a lease block in the Ocean City area.

"They are not in any way, nor is Hawksworth, connected with Ocean City Oil Fields, Inc.," Brossard said.

He explained that the Ocean City Oil Fields, Inc., is backed by eight Canadian firms.

## GORDIE HOWE PASSES 200-GOAL MARK IN NHL

By The Canadian Press

Detroit's Gordie Howe reached and passed the 200-goal mark in National Hockey League competition as Red Wings downed Chicago Black Hawks 4-1 Sunday night.

In the night's other games, two goals by rookie Eric Nesterenko gave Toronto its first victory in the last six games, a 2-1 triumph over Rangers at New York.

At Boston, Milt Schmidt's second period goal was all the Bruins needed to edge Montreal 1-0, and goalie Sugar Jim Henry chalked up his seventh shutout of the season.

Howe counted twice to help his team increase its league lead to two full games over Montreal.

Tony Leswick also scored twice, both goals coming in the first period after Howe converted Ken Lindsay's pass into the goal at 1:04. Bill Mosienko counted the lone Chicago goal at 12:13 of the second period.

### Turkish Sugar

ANKARA, Turkey (P) — Sugar consumption in Turkey has increased 40 per cent in the last three years and is stated to be an indication of the nation's advancing standard of living. Beet sugar factories are being expanded to produce 200,000 tons of sugar in 1954.

The victory also gives Helge Holkestad's pulp millers another chance to work their way into the playoffs. CCCs must win all remaining four games in order to place second in the league.

G-A's downfall Saturday night was caused by a combination of careless defence in spots, low percentage shooting and ball-fumbling. Many penalty shots also were missed by the G-As.

Loser outshot the millers

## G & As Outshoot CCC Pulpmillers Two-to-One But Lose Cage Contest

### Combination of Errors Leads to 58-55 Defeat

Cellar-dwelling CCCs edged out second-place Gordon & Andersons 58-55 in Saturday night's senior basketball league to upset the hardware squad's drive to close the gap between them and league-leading Mansons.

The victory also gives Helge Holkestad's pulp millers another chance to work their way into the playoffs. CCCs must win all remaining four games in order to place second in the league.

G-A's downfall Saturday night was caused by a combination of careless defence in spots, low percentage shooting and ball-fumbling. Many penalty shots also were missed by the G-As.

Loser outshot the millers

about two to one but percentage of scores was low. Outstanding among those failing to make good their attempts was Jim Flaten, star guard for Alex Bill's squad.

Teammate Joe Davis, however, played standout ball, scoring 16 points for the game's high total and was the team's mainstay on the floor throughout the evening.

For the winners Sid Scherk racked up a 15-point total, but was fouled out in the last quarter, as was second-high man, Glen (Tiny) Carlson.

Carlson stunned the spectators several times with his phenomenal shots in the first quarter as the husky centre scored 12 consecutive quick points.

While the basketball wasn't of top brand calibre, the game provided many thrills for spectators, especially in the final quarter when a sudden rally by G-As, spearheaded by Davis, got the losers within four points of winning, while gaining five of their eight-point deficit.

Tuesday night, CCCs face top-of-the-league Mansons for another game they must win or lose their chance for the playoff berth this year.

Meanwhile, if Mansons win this major event, they clinch their first place and the league championship of the season.

In the inter "A" division, North Star ousted league-leading Fraser & Payne with a 45-37 drubbing, and in the inter "B" preliminary, General Motors edged Booth 25-23 in a slow scoring event.

Lineups:

### SENIOR

CCC—Sundberg 8, Carlson 14, D. Scherk 6, S. Scherk 15, Thompson 10, Marshall 4, Ratchford, Dumas. Total 58.

G-A—Holkestad 10, Davis 16, Flaten 14, Webber 4, Arney 11, Currie. Total 55.

### INTER "A"

Fraser & Payne—Kristmanson 11, Nickerson 1, Ford, Christensen 8, Tait 6, Clecone 7, Sheppard 1, McAfee 3. Total 37.

North Star—Sankey 2, Young 5, McKay 10, Morrison 9, Black, Cameron 6, Helin, Letourneau 11, Becker 2. Total 45.

### INTER "B"

General Motors—Morrison 2, Stewart 8, Nelson 6, Strand 5, Sankey, Young, Shenton 2, Sedgwick, Forbes. Total 25.

What keeps a jet plane  
from burning up, Dad?

"Nickel alloys, son. The problem with early jet engines was the terrific heat which caused metal parts to warp and crack. Then new alloys containing nickel were developed to stand up under the intense heat. Jet engines became more efficient. Today engineers keep trying to develop better and better nickel alloys to make jet engines more efficient still."

"It's a good thing we have nickel in Canada, isn't it, Dad?"  
"It sure is, son. Most of the nickel for planes, battleships and other defence equipment for Canada, Great Britain and the United States comes right from our own Canadian nickel mines."
