## Potential for Power Increased

### Estimate Upped to 560,000 HP

OTTAWA (CP)—Potential power resources of northern British Columbia - Yukon area in Northwest Power Industries, Ltd., plans development, has been raised further 560,000 horsepower from the previous estimate of 4,300,000 horsepower.

J. Lichty, general manager of Quebec Metallurgical Industries Ltd., parent company of Northwest, gave the increased estimate yesterday at the Quebec Metallurgical's annual meeting. Report prepared by J. M. Fields, consulting engineer, says that the power plant on the river near its meeting with the Yukon river, would use the waters of the Taku and north-west watersheds to provide the increased potential. Preliminary plans of the site are planned after this year.

The original 4,300,000 horsepower, according to proposals already announced, would be developed by diverting the waters of the upper Yukon, Dezadeash and Salmon rivers into the Taku. The expectation that ultimately more than 5,800,000 horsepower could be developed. Wardle's report says the project can be made easier and less expensive by using Sikoa as a power canal, thereby eliminating a mile of main tunnel.

Lichty said construction to begin the first major phase of 500 horsepower, can be undertaken as soon as interim licenses are issued by the federal and provincial governments.

## J. MacLean Dies Aged 54

Veteran of the two world wars who saw service in both the British and Canadian armies yesterday in Prince Rupert Hospital aged 54.

was Alexander John McLean who up till recently was employed as a steward on the Alberni of the Department of Transport. Mr. McLean was in service in the first war during the Second World War in the Dieppe raid.

in Glasgow. He came to the city 34 years ago and to Prince Rupert 16 years ago at the time he started with the Department of Transport. His wife died in January 1940 when she entered the army. Mr. McLean rejoined the department in March 1948 to serve on the SS Birnie.

34-year member of the Canadian Legion, Mr. MacLean also belonged to the Omineca Lodge of the I.O.O.F. and was a member of the Kaelen Chapter of the Arch here.

He survived by two brothers, one in Smithers and John in Australia.

body will be taken tonight for burial.

## Planning Committee Named for New Civic Buildings

Selected and five non-representatives were named by Mayor George Hills to form a planning committee to study the matter of new civic buildings for Prince Rupert.

making the announcement, Mayor said that he had

## Unanimous Council Vote Quashes Bid For Permit

City council by a unanimous vote last night rejected the appeal of B. C. Loucks against cancellation of his city chauffeur's permit.

Loucks, who was recently convicted of unlawfully keeping liquor for sale, stated by letter that cancellation of the permit prevented him from making a livelihood. His communication was accompanied by a letter from his doctor, stating that Loucks had had his leg shattered during the Second World War while serving with the RCAF and could not endure long periods of standing.

## 8 Boats Land 445,000 Pounds

There were no halibut landings at the Prince Rupert Halibut Exchange this morning, but four United States and four Canadian vessels unloaded a total of 445,000 pounds yesterday.

Individual catches with the prices for mediums, large and chicken were as follows:

U.S. Billy Marie, 36,000 pounds (18.3, 17, 14) sold to Atlin Fisheries. Faith, 42,000 pounds (18.3, 17, 14) sold to Pacific Fisheries. Marconia, 60,000 pounds (18.2, 17, 14) sold to B. C. Packers. Sunset, 48,000 pounds (18.2, 17, 14) sold to Atlin Fisheries.

Canadian landings, San Tomas, 70,000 pounds (18, 17, 14) sold to B. C. Packers. New Queen, 72,500 pounds (18.5, 17, 14) sold to Atlin Fisheries. Tanza, 47,000 pounds (18.5, 17, 14) sold to B. C. Packers. Kaare, 70,000 pounds (18.5, 17, 14) sold to Booth Fisheries.

## No Fire Caused By Back-Flash

Smoke damage only resulted from a back-flash of the furnace at the Ideal Cleaners, 326 McBride Street, at 5:30 p.m. yesterday.

The Prince Rupert Fire Department which answered a call to the premises reports that no fire was started by the explosion although smoke filled the building.

wanted to include the entire council but did not wish the committee to be so large as to be unwieldy.

Mayor Hills will be chairman, and other elected members will be Aldermen Phil Lyons, Norman Bellis, Ray McLean and Mike Krueger. Also on the committee will be Neely Moore, Art Ogilvie, Scott McLaren, George Beaton, city works superintendent and city clerk W. R. Long.

The group will plan and recommend to council the site, scope and costs of new civic buildings.

The sum of \$2,000 was put into the 1954 budget for planning of new buildings for the city.

Mayor Hills told the council that the meetings would be open and that aldermen not named to the committee would be notified when the group met.

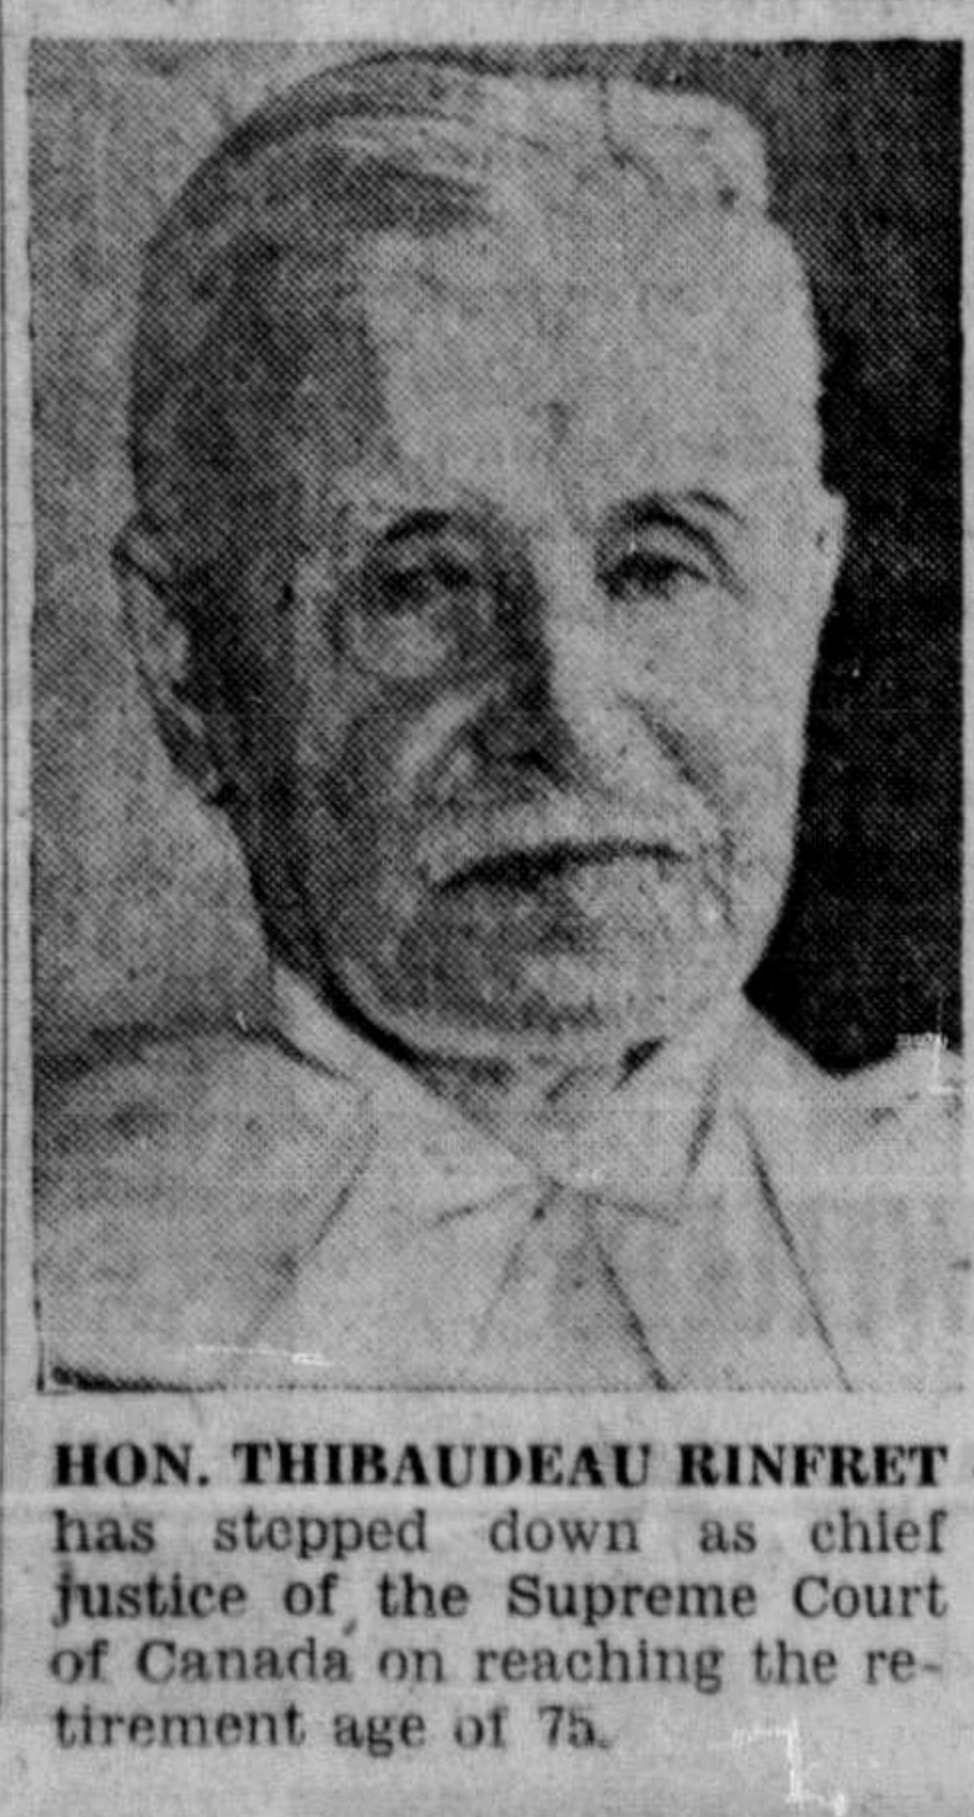

## Churchill Power Undimmed As He Urges U.S. Patience

WASHINGTON (AP)—They came by the hundreds to have a look at him, perhaps for the last time, and he obliged with all the rugged grace of a mellowed old bulldog.

They cheered and applauded from the picket fence of the White House to the sleek lobby of the Hotel Statler to the austere gates of the British embassy.

"Attorney, Churchill!" they cried forgetting his knighthood, his 79 years and the decorum due the prime minister of Great Britain.

They cheered the man and the

# Armour Salvage Gets Contract For Reconstruction Of Floats

## Good Oil Located In B.C.

### Discovery Good Quality

VICTORIA (CP)—The first oil discovery of commercial importance in the history of British Columbia was made Monday 45 miles from Fort St. John in the Peace river area.

Premier W. A. C. Bennett announced here that "B.C. is in the oil business," with the proving of Pacific West Buick Creek No. 3. The premier said he was told of the discovery in a telephone call from George McMahon, head of Pacific Petroleum.

"We have lots of gas wells up there," the premier said. "But this is the first oil well in B.C."

Premier Bennett said the oil was of "good quality" with gravity of 35-37.

In 1951 a similar discovery was made near Fort St. John, but later tests showed the oil could not be separated from large quantities of water in the oil pool, and the well was later abandoned.

**THIS IS A RECENT** photo of the Duke of Edinburgh who will visit Canada next month. He wears the kilts as Colonel-in-chief of the Queen's Own Cameron Highlanders. He will fly to Canada July 28 for a three-week, cross-country trip. He will visit the British Empire Games at Vancouver and tour Canada's expanding northland. (CP from U.K. Information)

## \$15,000 Bid Taken For Cow Bay Project

Contract for almost complete reconstruction of the Cow Bay floats has been awarded to Armour Salvage Ltd., of Prince Rupert.

Armour officials, who place cost of the job at about \$15,000, received word of the award in a telegram from Ottawa last night and today announced that work on the project would get underway as soon as construction materials were available.

The project will see construction of three complete new floats, one 120 feet long, one 110 feet and one 90 feet. They will replace the existing floats, one of which is badly broken up and the other in "fair" shape, both of which will be discarded. Of the existing setup, only the gangway and approach floats will be retained, J. M. Fields, manager of Armour Salvage, said.

## No Deal Made To Drop Pay Say Firemen

City firemen, members of Local 559 of the International Association of Fire Fighters, have "emphatically" denied entering into any agreement with the city to give up call-out pay for time off.

In a letter to council read last night, J. S. Furness secretary-treasurer of the local fire fighters union stated that not only had they not agreed to such a plan, but they had not authorized any officer, member or members of the Fire Fighters Association to become a party to such an agreement.

Mr. Furness acknowledged, with thanks, receipt of a portion of the minutes of a regular council meeting of February 22, 1954, which his letter states as saying:

"In order to bring about agreement on the above points the firemen agreed to give up payment of call-out pay and to arrange some system of time off in lieu of payment for call-outs."

Mr. Furness continued that the letter from Mayor George Hills which accompanied the extract from the minutes, was the first formal notification the Association had received concerning the misunderstanding.

In view of this, the letter continued, the firemen asked that the arrangement entered into by the city and the firemen in May 1952 be honored. This calls for \$3 to be paid for day call-ins and \$4.50 for night call-ins.

Mr. Furness concluded his communication by stating that the Fire Fighters Association was quite prepared to place before the city the regular facilities for consideration of the misunderstanding.

On a motion by Alderman Ray McLean, the city agreed to write Robert Forrie, provincial conciliation officer for his views of the meeting February 22 which he attended in his official capacity along with City Clerk W. R. Long who represented the city. J. C. Ewart, president of Local 559 represented the Fire Fighters February 22.

## Letter Boxes Set For July 1

Three new street letter boxes have been received by the Prince Rupert Post Office, and will be installed immediately, with first collection slated for July 1.

Postmaster Jack Burgess said today that the new mail boxes will be installed at the intersections of Eighth Avenue East and Goddard Street, Ninth Avenue West and McBride Street and Piggott Avenue and Parmenter Street.

He also noted that the letter box at present located at Graham and Atlin Avenues will be moved around the corner to the intersection of Second Avenue west and Atlin.

A parcel receptacle also will be installed at Fifth Avenue East and Green Street.

Collection hours will be noted on the various boxes.

The new street letter boxes, which bring the total in the city up to 21, were requested by Prince Rupert City Council some time ago. The box locations are those suggested by the council.

## Persons Wishing Phones Must Reaffirm Request

Persons wishing telephone service, who have applications on hand now at the City Hall will be asked by the city to re-affirm their desire for telephones before the change-over to automatic service October 1.

The request comes out of a city council meeting last night at which it was announced that the new Prince Rupert Telephone directory would be published soon that it will need no changes until December 1955.

City Clerk W. R. Long stated that there are 500 applications for phones on hand at City Hall now, but the city did not know how true a picture it presented of the present desire for phone service. Some of the applications have been on the books for years and many of the people who are listed as needing phones have moved to other cities, or other residences.

The re-application will apply not only to new phone subscribers but also to those people wishing a change from party lines to main lines and also those establishments wishing an increase in the number of phone lines to their place of business.

Mr. Long explained that although enough lines were being installed to service not only the entire city, but to provide for the future growth of Prince Rupert, the switch to automatic service would not necessarily see everyone have phone service on "cut-over" day.

However, Mr. Long stated, if everyone notified the city of their need for a phone, then the names would be listed in the new directory and a number assigned even though they might not have their phone. Then as phones were installed, the newly serviced homes and business houses would be assured of being listed.

Special forms are being made up for telephone applications and those people still needing telephones are asked to call at City Hall and fill out an application, Mr. Long said.

People with applications of long standing will be given preference wherever possible, it was announced, but where new phones would be connected more quickly on an engineering basis, this latter policy would be followed, rather than the "first come—first served" basis.

Phones applied for will be installed as soon as possible after the change-over to automatic service, Mr. Long asserted.

Regarding the printing of the

## J. S. Kinross Dies Aged 89

James Stirling Kinross, 622 Third Avenue West died last night in Prince Rupert General Hospital at the age of 89.

Mr. Kinross was born at Gannochran, Scotland and came to this country 43 years ago to farm for many years at Louheed, Alberta. He was a widower and for the past five years has been living in Prince Rupert at the home of his daughter, Mrs. Nancy Kennedy. Also surviving are a son Cecil Kinross, VC of Louheed, Alta., a daughter Mrs. Ellie Kelmam of Ganges, B.C., six grandchildren and six great-grandchildren.

Funeral arrangements will be announced later.

### Automobile Co-Pilots

THE NEXT time your wife or your husband suddenly calls you a back-seat driver, don't take it sitting down unless you're in a closed car. Tell him you are an automobile co-pilot.

And you can prove it, if you take this advice from J. A. Langworthy, vice-president of the Canadian Automobile Corporation. Mr. Langworthy should know because his company operates a fleet of more than 100 cars which are driven about two million miles a year. He agrees it is true that the type of back-seat driver you hear jokes about can be both a nuisance and a nuisance. But a good back-seat driver can be a great help to the person at the wheel.

The function of a good back-seat driver, according to Mr. Langworthy, is to take care of all map reading, planning the shortest or best routes to destinations; help read highway warning signs; call out directions and turns well in advance; and spot street addresses for the driver so he can concentrate on traffic.

On the other hand, you are a back-seat driver in the worst sense of the word if you heckle the person at the wheel; give frantic directions at the last minute; urge the driver to go faster, or take his direction from the road. And you should never, never grab the wheel or the driver in an emergency.

Mr. Langworthy has something there, and husbands should remember to give the little woman credit when she carries out her duties as outlined. Tell her she's a real automobile co-pilot. There is no higher praise.

### Worth \$10,000

IF AN employer thought enough of an employee to pay him \$10,000 a year plus \$2,000 in expenses, he would be quite justified in expecting the employee to keep his nose to the grindstone.

A roll call of the members of the house of commons, the men and women charged with the responsibility of running the business of the country, would provide an interesting report for the employers—the people.

Tracing down the absentees would provide the employers with an absorbing story on their whereabouts. Some would be found beyond Canada's borders on other than government business, collecting travelogue memories on the taxpayers' \$10,000 per annum.

In private business, of course, many of the members could not earn \$10,000 a year, which is no reflection on their ability but rather a tribute to the cannyness of the employer who has to be shown that the productive return is compatible.

How many members of the house of commons can conscientiously feel that they earn the \$10,000 by absenteeism when the house is in session?

—Sudbury Star.

## Ray REFLECTS and REMINISCES

In Osaka, Japan, a price war has broken out among the barbers. The price of a haircut, a shave and a shampoo has been cut to a dime. What a place to go for your vacation.

### HIGHLY CONVENIENT

An inspiring vocalist had just completed a lesson. "Professor," she asked, "do you think I shall ever be able to do anything with my voice?" "Well," answered the instructor, "it might come in handy in case of fire."

It was 100 years ago June 21, since the Victoria Cross came into existence. On that occasion Lieut. Lucas picked up a Russian shell, liable to explode any second, and threw it overboard. This was aboard HMS Hecla in the Crimea. Efforts to pawn the Cross have been made. But it can't be done.

There are some folks who always feel nervous about making a call. There's always the chance of interrupting that family quarrel.

Two out of every three Canadian households have a motor car. The third wishes it had one.

### STILL A PROBLEM

The United States tobacco industry, while not deeply worried in uneasy. That much is certain. More study is necessary. A survey of nearly 200,000 men disclosed that cigarette smokers have a death rate from all diseases as much as 75 per cent than that of non-smokers.

"The move reflected Judge Hensley's policy of tempering justice with money." From the Portales (New Mexico) Tribune.

"ON STAGE" with Ian Dobbie

PRESENTED BY

ORMES DRUGS LIMITED

COMING west on the train I chatted with a man high in the public service of Canada. He was deeply concerned at anti-American feeling in Canada, and thought it was being deliberately whipped up by Communists.

It is no secret that a great many Canadian, British, and other citizens of countries allied with the U.S.A. are highly critical of American international policies. We can be sure that the Communists are doing everything possible to aggravate these feelings.

BUT there is another side to this. People forget that in the period when Britain was the leading world power, Canadians grumbled and rebelled against British world policies, such as they now do against American policies.

In those years when Canada was being, by public criticism and private grumbling, to resemble the Empire into a Commonwealth, we always "went along" with Britain in the real world.

We did not "go along" blindly when we disapproved of some provocative act. For instance, Canada turned down Lloyd George and Winston Churchill in 1922, when those over-enthusiastic statesmen were trying to get us into a silly war with the Turks.

But in the six world show-downs we went along. True, we went along—always grumbling—but we went along.

NOW THE United States has replaced Britain as our senior partner. Indeed a pessimist might say that we are now in a far more dangerous colonial position in relation to Uncle Sam, than we were in the previous century to John Bull.

The war which our British Empire connection established us in were wars fought beyond vast oceans. The war which might be started by Russian aggression or U.S. calculation, or U.S. miscalculation, would be a war which might bring actual annihilation to our shores.

No wonder Canadians grab and kick when they figure their "Uncle Sam" is not handling things well—for our own fate is plainly involved.

THERE is a right kind and a wrong kind of anti-American criticism. If it is the mere negative kind, designed to suggest that the American policies are just about as bad as the Russians, it does no good and could do plenty of harm.

But if it is the kind of constructive criticism—such as helped transform the old British Empire into the new Commonwealth of free and equal nations.

### Oil Industry In Germany Enjoying Boom

The West German oil industry, prostrate at the end of the Second World War now ranks among continental Europe's most important oil refineries.

Refining capacity has gone up to 10,500,000 tons a year. The entire refining capacity of Europe, including Britain, in 1953 was just short of 90,000,000 tons.

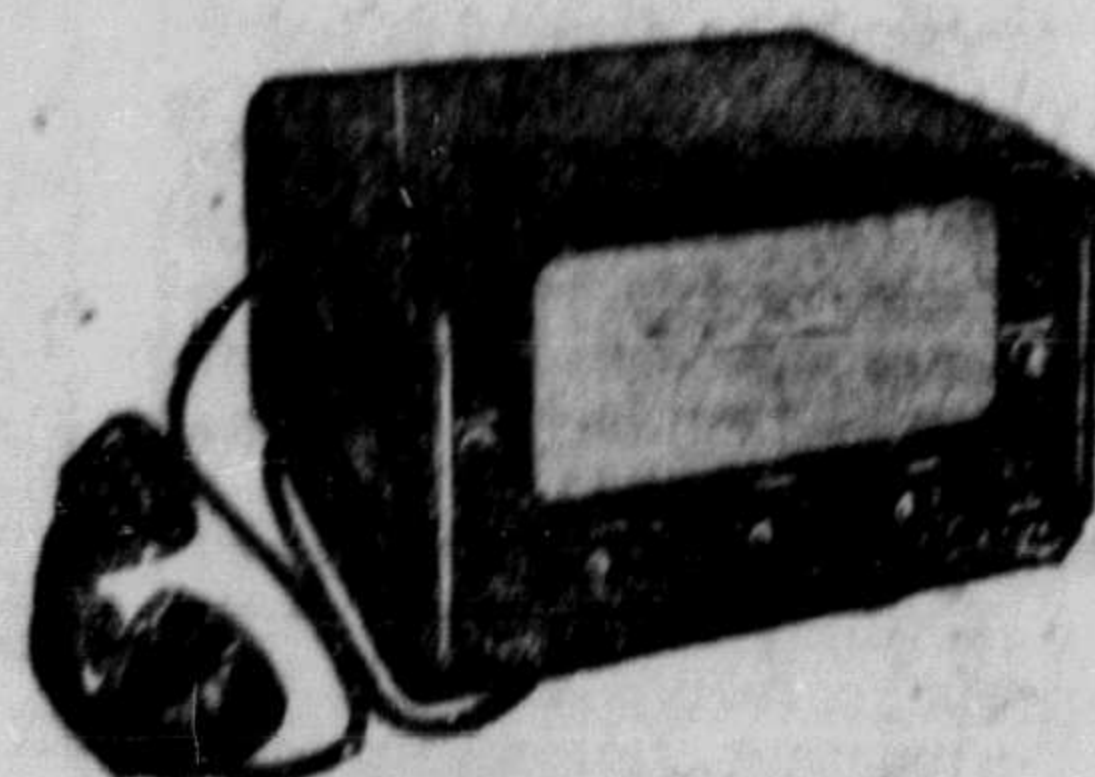

During the war Germany built up a considerable synthetic oil industry to make her panzer divisions independent of outside supplies. Large quantities were then imported from East Europe.

West Germany today gets 9/10ths of her imported oil from the Middle East and the rest from South America.

## OTTAWA DIARY

By Norman M. MacLeod

Major interest in the Cabinet appointments which are the main item of the Parliamentary session centres around two principal predictions, namely:

That Citizenship Minister Walter Dill Scott is slated to succeed Hon. Douglas Abbott as Minister of Finance.

That Defence Minister Brooke Claxton is to retire from public life in order to become a consulting executive of a large insurance company.

From everything that can be gleaned from the most authoritative government circles, complete evidence may be placed in the accuracy of these forecasts. They look like the real McCoy.

These will be, of course, other changes as well. It is generally accepted that Transport Minister Lloyd Chevrier will retire to head the new St. Lawrence company. He is equally sure to be replaced by Veterans Affairs Minister Hugues Lapointe. It is equally sure that Finance Minister Douglas Abbott is regarded as a certainty for appointment to the Supreme Court of Canada.

None of these changes is entirely inconsiderable. In their aggregate they amount to the greatest alteration in the Ottawa

political bridge that has taken place since the accession of the present Prime Minister.

From the standpoint of the Liberal Party, the greatest political loss will be the retirement of Finance Minister Abbott. So long as Hon. "Doug" was available, Federal Liberalism had an acceptable successor in Hon. Mr. St. Laurent ready to hand. That happy situation admittedly will be changed by his disappearance. Among those who will be left, there is no one who ranks with the capable, likable Abbott either in prestige or in qualities of wide acceptability to all sections of the nation.

Actually there are those in government circles who consider that Hon. Mr. Abbott's continuance in public life would have been purchased at too high a price if it had cost a change in the party leadership at the present time. Informed Liberal circles say, however, that even if Hon. Mr. St. Laurent had been ready to retire, there is no assurance that Hon. Mr. Abbott would have been willing to step.

The fact seems to be that under modern conditions, whether in time of war or peace, the port-

folio of Finance Minister has become a seller. At the start of his Cabinet career Hon. J. L. Haskin was a potential Liberal leader of some future date. But he retired soon-out at the end of the war. And now Mr. Abbott is being claimed as a casualty. The lesson for the Liberal Party is clear: it shouldn't put in that portfolio anyone whom it hopes to see later as leader.

## Local Seaman Returns Home From British Navy Jubilee

OS Eric G. Brown of HMCS Chatham has returned home from London, England, where he was a member of the Royal Canadian Navy (Reserve) contingent taking part in the Jubilee of the Royal Naval Volunteer Reserve.  
Seaman Brown, who was the youngest member of the Canadian contingent, returned home Sunday.  
Cmdr. T. A. Johnstone, commanding officer of Chatham, also participated in the event

which saw representatives of Canada and other Commonwealth countries and colonies form one of 21 divisions which were inspected by the Queen on the Horse Guards Parade. Following the inspection, Her Majesty paid tribute to the traditions and record of the naval reserves.  
The Canadian contingent sailed back to Canada aboard the HMCS Micmac. Cmdr. Johnstone is now in Montreal and is expected to return to Prince Rupert in a few days.

## Residents of East Ninth Seek Extension of Road

Continued study will be given by the board of works committee and the public works department whether to extend Ninth Avenue East to Hays Cove Circle or improve a lane behind residences fronting on a proposed extension of Ninth.

Two residents of the area, J. F. Denning of 1126 and L. Colussi of 1140 Ninth Avenue East approached council last night to ascertain what the outcome had been of a committee appointed to study the problem.

Mayor George Hills told the delegation that no conclusion had been reached as yet.  
Acting as spokesmen for the residents, Mr. Denning said that it was the general feeling of householders that the road should be put through, so that the houses would not be facing the wrong way.

Alderman Norman Bellis pointed out that to put a road in front of the present level of Conrad School grounds would leave quite a bank, which would present a problem for fuel deliveries.

Mr. Denning replied that this could be accommodated by steps to each house. He added that quite a lot of fill would be needed, and that the residents felt that the city was responsible for the fill.

Mayor Hills explained that in previous years the city had taken sand from the Conrad area, as it was handy, and had dug into the bank at the north end of the school. The mayor pointed out that whereas it was the responsibility of the city for taking the sand, it was up to the residents of the area to absorb the costs for the road. The mayor admitted that the cost had been increased through the city's using the area as a sand pit.

Alderman Mike Krueger explained that Conrad School may

want the entire area as a playground. He added that if a road was put through, the present lane would likely be closed.

Mr. Denning replied that the reason he had come before council was that he understood, as did the others concerned, that no consideration was being given to the extension of Ninth Avenue, and that the lane was going to be finished.

Cost of the two jobs was estimated by council to be about the same.

## Three Rupert Teachers Leave Tomorrow For European Tour

Three Prince Rupert school teachers will leave by train tomorrow night on the first lap of an extended tour which will see them visit the capitals of Europe.  
Miss Helen Langley, Miss Edith Jack and Miss Nancy Hopkins are the travelling trio who plan to spend almost a year overseas.  
They will travel from here to New York where they will board the crack luxury liner the "United States" for their voyage to England, sailing from New York July 8. They plan visits to many European points during their stay overseas.

## DISTRICT NEWS

**STEWART**—At a card party, held by the Stewart Branch of the Canadian Legion, Past President J. J. McKenna was presented with a Past President's badge.  
Past President Sam Kirkpatrick made the presentation. Cribbage was played with Mrs. Vera Lawrence winning ladies' first and Mrs. Vi Kirkpatrick the consolation.

Plans are well underway for the Dominion Day celebrations here. Many novel events are being arranged, including log-rolling, bucking and climbing a spar tree. The committee is under the chairmanship of Robert Cornwall. A Dominion Day Queen contest is part of the scheme and the three candidates are Miss Cynthia Aole, Miss Gloria Lawrence, and Miss Patricia Morrison.

The Portland Canal Chapter No. 16 Women of the Moose held a shower for the Geddes family at their home. About 35 members were present and many useful gifts were presented to Mrs. D. Geddes, whose husband left the district a week ago to undergo medical treatment at Tranquille.

Hunter Smith and crew are expected to arrive here within the next two weeks to commence the season's operations on the Silver Tip Mine.

## Fred MacMurray, June Haver Wed By Civil Rights

OJAI, Calif. (AP)—Actress June Haver and actor Fred MacMurray were quietly married Monday night by a judge in picturesque Ojai Valley Inn.

They slipped away from the film capital for a double ring-civil ceremony.

The civil rites, churchmen have said, will deprive the actress of the sacraments of the Roman Catholic church, of which she is a devout member. This is because she was wed previously in the church to musician Jimmy Zito and the brief marriage ended in divorce. MacMurray is a Presbyterian.

For both Miss Haver, 28, and MacMurray, 45, the marriage culminated a romance each had entered after heartbreak. The actor's wife of 17 years, Lillian, died a year ago.

Miss Haver became engaged to Dr. Duzik, a Beverly Hills dentist, after her divorce from Zito, but in 1949 Dr. Duzik died. Friends said grief over his death was one of the reasons she entered a convent early last year to study to become a nun. After seven months she left the convent and returned to Hollywood.

# TCP Re-powers Your Engine

TCP, a Shell-discovered additive blended into Shell Premium Gasoline, sets free the captive power formerly locked in by lead and carbon deposits. It's the greatest gasoline development in 31 years.

Acts so fast it repowers your engine before you've finished your second tankful.

Did you know that up to 15% of your engine's power is actually trapped . . . that you are paying for power you aren't getting?

The reason is this: Every gasoline sold today contains deposit-forming compounds. And, as gasoline is burned, lead and carbon deposits form on the walls of the combustion chamber and on the tips of the spark plugs. In the combustion chamber these deposits become red hot, especially when you are accelerating, and set off the gasoline-air mixture before the piston reaches its proper firing position. Power works against you, not for you. This condition is called pre-ignition and it not only wastes power and fuel—it is also responsible for a most severe kind of knock—engineers call it "wild ping."

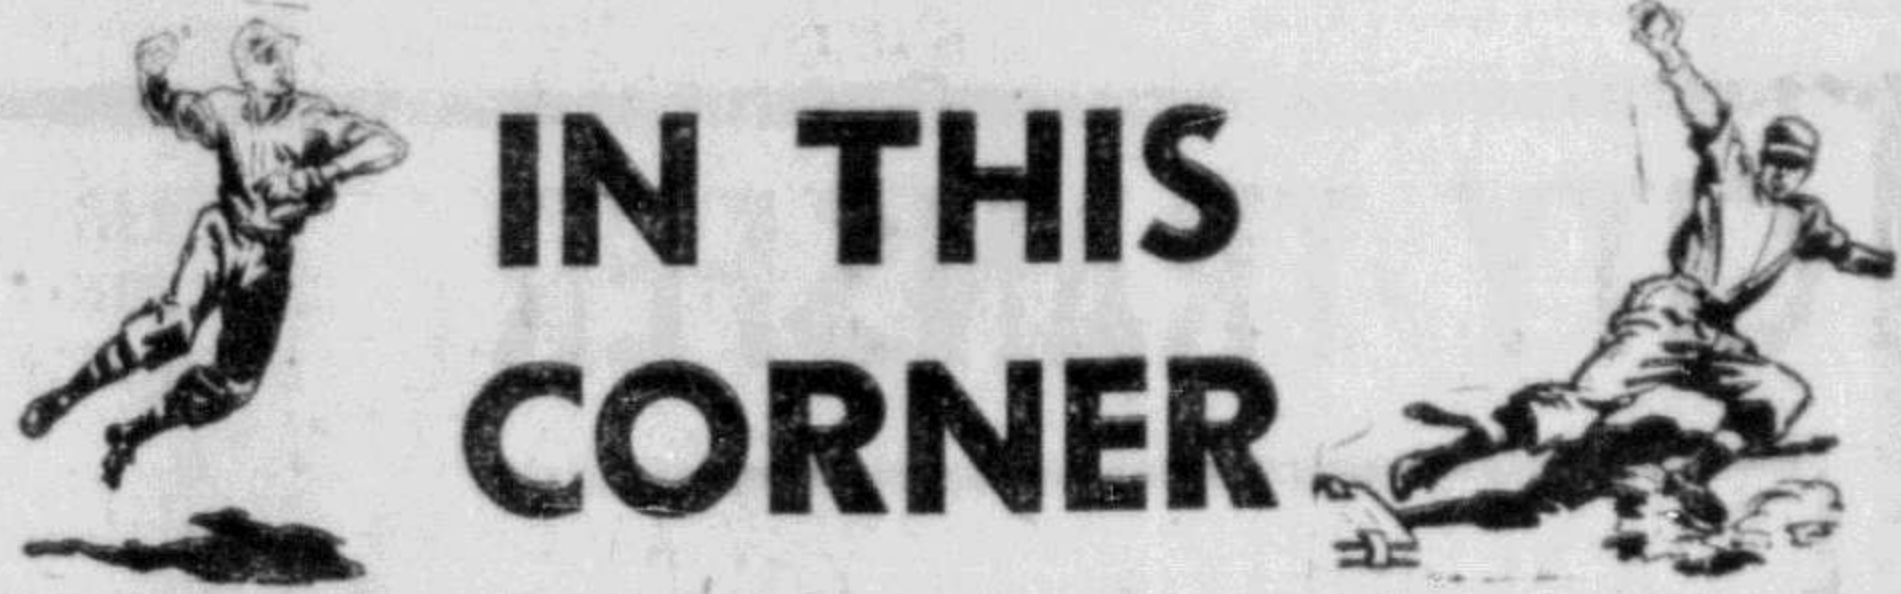

These deposits also cause power loss by short-circuiting spark plugs, causing them to misfire when you need power most.

Now, however, there is a way to release the imprisoned power in your engine—and quickly!

**SHELL PREMIUM WITH TCP**  
The Greatest Gasoline Development in 31 years

DICK AYRES

Good baseball session coming up folks tomorrow night and twice on Thursday when Harry Ludwigen brings down his Ketchikan All-Stars to do diamond-battle with Rusty Ford's local All-Star aggregation. Weather permitting, that is.

The Prince Rupert Baseball Association, sparked by Prince Rupert's ace promoter Art Murray are going all out to make this Dominion Day holiday one to remember.

If arrangements are completed to enceed Murray's satisfaction there should be on hand, Mayor George Hills to welcome the Alaskan team, the Navy Band under maestro Peter Lien, the field decorated with flags and bunting to mark the 87th birthday of the Dominion of Canada. It is also hoped that the mayor of Ketchikan will also be along to see his countrymen uphold the honor of America's national pastime.

On top of all this the Canadian Broadcasting Corporation represented here by Will Hankinson has assured us that the first game of Thursday's double-header will be broadcast.

Thanks to Don Hawryluk of Esquires, manager Miner Simonsen of Commercial Hotel and mentor Ford of G & A and the All-Stars, the sparkling new fence around Roosevelt Park should be complete for the Ketchikan series. This worthy trio has practically erected the fence themselves, as fast as the signs were painted on them.

## Giants Fight To Keep Lead Over Dodgers

By ED CORRIGAN  
Associated Press Sports Writer

The team that finished 35 games out of first place last season fights for its slim one-game hold on the National League lead tonight against the scrambling defending champions.

If Leo Durocher's New York Giants can salvage one victory in their three-game set with the Brooklyn Dodgers, they still will be at least tied for first place after the series.

In the American League, the three teams fighting for the lead—Cleveland, Chicago and New York—all take on clubs that they hope to use to fatten their averages. The league-leading Indians play Baltimore, The White Sox, a game and a half back, entertain the Detroit Tigers in a doubleheader, and the Yankees, three games in arrears, journey to Boston.

For the first time this season, New York baseball fans are battling for tickets for "The game. Giant officials predict a capacity house of between 43,000 and 50,000 at the Polo Grounds with about 40,000 seats sold in advance.

**MARLENE STEWART**  
DEFENDING CHAMPION  
Marlene Stewart won her third-round match in the British women's open championships today, defeating Margaret (Wiffy) Smith of Pasadena, Calif., 4 and 3, at Ganfon, England. The tiny champion from Fonthill, Ont., who trailed for a time in her first-round match Monday, ran up a three-hole margin on her 17-year-old power-hitting opponent at the turn. Miss Smith reduced her lead by winning the 11th hole, but Marlene won the 13th and closed out the match two holes later when her opponent three-putted for a five to the champion's four.

## Stars Lead PCL Despite Death Of Sluggers

By The Associated Press

The Hollywood stars are leading the Pacific Coast League standing but they have only two 300 hitters as of Tuesday—Jack Phillips at 330 and Dale Long at 300 even.

Third place Oakland, 6½ games off the pace, is the top hitting team with a .281 mark, while Hollywood and San Diego, the second place squad, are tied with .268.

The Pacific Coast League supposedly is a hitter's league, but there is not an abundance of select swatmen among the regulars. San Francisco has only one, Ted Beard, who is hitting at a .341 clip. Harry Elliott, San Diego's top hitter, is leading the league with .356. Seattle has only one select hitter, Artie Wilson with .333, and Oakland has Al Cuitti with .333. Sam Chapman with .323 and Russ Rose, 318. Sacramento's best are Nippy Jones, Richie Myers, Bob Dillinger and Joe Brovia, and Portland has Fletcher Robbe and Walt Judnich in the 300 class.

But that's the extent of it, and the pitching is getting better all the time. Pitching should tell the story in the next two months, and Hollywood isn't as strong in this department as it has been. The pennant fight may be much closer than some of the critics thought a few weeks ago, when it was generally agreed that the Stars would win just about as they pleased.

Hollywood starts a seven-game series Tuesday night in Portland, and the way the Beavers have been going it might be a fine opportunity for the Stars to lengthen their margin over San Diego, which ties into Los Angeles. The Angels seem to be coming out of a prolonged hitting slump.

## Remember when

Maxie Rosenbloom became light-heavyweight boxing champion of the world by winning a 15-round decision over Jimmy Slattery at Buffalo 24 years ago today. The previous champion, Tommy Loughran had retired undefeated in 1929 and Slattery was recognized as champ by the New York state athletic commission. Maxie lost his crown four years later to Bob Olin.

The Atlas mountains divide Algeria from the Sahara desert in North Africa.

## Kerr Stars in 10-9 Victory As Sea Kings Down Kinsmen

By BOB MORRIS

Bruce Kerr pitched, hit and caught a fine game for the Little League Sea Kings last night as they downed Kinsmen 10-9 to force the service clubbers one game deeper into the league cellar.

Kerr pitched the first five innings for the Lipsett team, giving up 10 hits, three walks and striking out three to let the Kinsmen bring in their nine runs.

Dougie Turner pitched the first four innings for the Kinsmen giving up nine hits and seven walks striking out four allowing in the ten Sea King runs. Duncan who has been brought up from the farm team came in the fifth striking out two and allowing the third batter a popup which catcher Johnny Olsen handled easily.

Kinsmen brought in five big runs in the first inning.

Adams scored for the Kinsmen in the top of the third hitting a double and scoring later when Jimmie Turner made a single. Bobbie Ogilvie brought that one back to the Sea Kings in the bottom of the third when he got on with a walk moved around when Kerr got on an error and came in on a hit by Downing.

Kinsmen were held scoreless in the top of the fourth and Sea Kings moved into the lead in their half of the fourth. Gary Ogilvie, Robertson and Jimmie Schuman loaded the sacks with

singles, McLeod and Jones moved two runs in with their walks and then Bruce Kerr came up to clear the basepaths with a hit for three bases but found that lane between third and home crowded with Kinsmen who tossed the ball back and forth until the catcher finally tagged him.

Kinsmen called in Stew Duncan to relieve Turner in the bottom of the fifth and he let the Sea Kings down quickly. However, when Kinsmen got another runner on base with a hit in the top of the sixth Sea King's coach, Frank Comadina, called in Mike Greene to clinch the deal.

## Meeting Tonight

A meeting of the Little League Baseball Association has been called for 7:30 tonight at the Civic Centre.

All parents, interested friends and team representatives are asked to attend as the meeting will draw up an umpiring schedule.

Also up for discussion is the farm loop and it is expected that the farm team league will be set in motion.

A practice session has been slated for the North Stars at 7 p.m. at Algoma Park for regular team members and farm clubbers.

## Elks Victorious Over Moose In Free Scoring Pony Game

In a free scoring loosely played game last night at Roosevelt Park, Elks of the Prince Rupert unofficial Pony League bested the Moose entry by a 16-11 tally in a contest marred by too many delays and conferences between players.

The game also featured some fine hitting by Elk's Ken Gulbranson and Jaek Rudolph both of whom doubled while catcher Gulbranson garnered a circuit clout and Rudolph tripled.

The second inning saw the Elks bat through the order to rack-up seven runs which gave them a 9-4 edge going into the fourth. Moose rallied for three runs in the third and added two in the sixth and singletons in the fourth, fifth and seventh.

Elks crossed the plate with three in the third, two in the fifth and one in the fourth and sixth.

Elk's starter John Lambie was relieved in the fourth by Fred Lindstrom while Moose starter Per Halverson went all the way for the losers. Dick Bury came in to take T. Halverson's place behind the plate for Moose in the third.

Lambie gave up seven runs on three hits and three walks while striking out none. Lindstrom gave up four runs on four hits, walked two and struck out four.

## Last Night's Fights

NEW YORK—Cisco Andrade, 135, Compton Calif., knocked out Johnny Digillo, 140, Bayonne, N.J., 10.

BROOKLYN—Walter Cartier, 164½, New York, outpointed Tuzo Kid Portuguese, 161, Costa Rica, 10.

MONTREAL—Billy Lauderdale, 151½, Haleah, Fla., outpointed Johnny Greco, 141½, Montreal, 10.

LOS ANGELES—Don Jordan 138½, Los Angeles, outpointed Freddie Babe Herman, 142, Los Angeles, 10.

BUTTE, Mont.—Ramon Tiscareno, 145, Los Angeles, outpointed Paolo Mellis, 146, Italy, 10.

## Bears Cut Cap's Lead by One As WIL Nears Half Way Mark

By The Canadian Press

The Yakima Bears, still holding faint hopes of catching the Vancouver Caplanos before the Western International Baseball League ends the first half of its split season, gained a full game on the leaders Monday night.

The Bears, who must have an all-winning week to stay in contention, opened it with a 3-5 victory over Wenatchee while Salem was turning back Vancouver 8-5. The combination reduced Vancouver's margin to five games.

Lewiston beat Victoria 5-3 in the league's other game. Tri-City and Edmonton were idle.

Salem and Vancouver staged a wild slugfest at Vancouver. Vancouver broke a 2-2 deadlock in the last of the eighth with a four run outburst but Salem came back with six tallies in the top of the ninth.

Victoria outlit Lewiston 17-11 but left 16 men stranded as John Marshall righthanded his way to

**Reynolds Gets \$175,000  
In Suit Against Pegler**

NEW YORK (AP)—Author Quentin Reynolds today won a tremendous cash award as well as a moral victory in a federal libel action against newspaper columnist Westbrook Pegler.

An award of \$175,000 levied against Pegler, the Hearst Corporation and Hearst Consolidated Publications, Inc., was believed to be one of the largest, if not the largest libel award ever made in a U.S. court.

**Fine Gallery**

STOCKHOLM. (AP) The Swedish National Gallery has been reopened after a thorough restoration with important new donations added. The hall containing 17th century Flemish art, including seven Rembrandt masterpieces, has been given a par-

IF YOU CAN'T IDENTIFY VARIOUS WOODS, BUILD A SMALL FIRE FIRST TO TEST FOR SPARKS.  
IF FORCED TO USE SPARKING WOOD, CLEAR AREA FIRST AND DON'T LEAVE FIRE UNTENDED!

The jury also awarded Reynolds one dollar to compensate him for loss of earnings, damage to his reputation and mental anguish suffered over the past four years from a defamatory Pegler column on which the \$500,000 suit was based.

Reynolds in the course of the seven-week case had claimed he lost a fortune in the magazine and entertainment fields because of the Pegler column.

Federal judge Edward Weinfeld in charging the jury declared the column, published in 1949, was defamatory and libelous in itself as a matter of law.

**"COMMON SENSE" URGED**

He urged them to "use your common sense" in determining what compensation was due Reynolds for his principal claims of injury.

In effect, the jury which had been deliberating since noon Monday decided he was not injured gravely at all.

The \$175,000 was awarded as punitive damages, which the judge had explained took in "actual malice . . . ill-will, spite, hatred, intent to injure" and was also designed to prevent repetition of the offence and serve as a warning to others.

For Pegler it marked the end of a carefully cherished claim that he has never been successfully sued for libel. Previous libel cases have been settled out of court with Pegler claiming he has never been assessed a penny in settlements.

**CHARGES ASSESSED**

The jury divided its \$175,000 levy among the three defendants: \$100,000 against Pegler; \$50,000 against the Hearst Corporation, which distributes the Pegler columns to 186 newspapers; and \$25,000 against Hearst Consolidated Publications which publishes the local Pegler outlet, the New York Journal-American.

Actually, because of protective clause in Pegler's contract, the Hearst interests and not Pegler will have to pay the fine levied against him.

There was an immediate reaction by Pegler's lawyer to set aside the verdict on the grounds of excessive damages being granted. Judge Weinfeld who will hear the motion Friday, granted a 20-day stay in the award.

**Alaska Faces  
Isolation  
If Ships Go**

WASHINGTON (AP)—Rep. Pelly (R-Wash.), said Monday every city and town in Alaska is again faced with partial or complete isolation as a result of the decision by Alaska Steamship Co. as to winter operation of passenger service to Alaska.

In a speech to the House, Pelly said the company announced last year it would suspend its winter passenger operations but changed its plans after the Military Sea Transport Service "farmed out" transportation of some service personnel.

He added, however, that "unfortunately this proved to be only a temporary solution" and the company is again considering abandonment of its passenger operations.

"This threatens bankruptcy to the store and small businesses to whom the tourist trade means the difference between profit and loss," Pelly said.

**Supply of Gamma Globulin  
Distributed in Canada**

MONTREAL (CP)—Gamma globulin, one of the antibodies against polio, soon will be available on doctor's prescription in all parts of Canada.

The first commercially produced supply of gamma globulin have been sent from laboratories here to centres in Vancouver, Edmonton, Winnipeg and Saint John, N.B. From these points it will be delivered on order to hospitals and drug stores.

The gamma globulin has been produced by Lederle Laboratories, a division of North American Cyanamid Limited. Production was started in early March, but announcement of its availability was delayed until supplies were sufficient to service all of Canada.

Based on human blood, gamma globulin has been found by medical authorities to offer only temporary immunity. An injection has been found to offer protection from paralysis for periods of high incidence of the disease when it either wards off

the disease or reduces its severity.

Gamma globulin has been described as that part of the human blood which prevents an individual from catching some infectious diseases twice. When the blood from a thousand or more different individuals is pooled together, medical authorities say the pool is certain to contain antibodies against polio and possibly other diseases.

**Crew's Crude Surgery  
Fails to Daunt Skipper**

LIVERPOOL, N.S. (AP)—Fishing crew members told Monday how they performed crude surgery at sea on their steel-nerved skipper after he was almost hauled into a trawl winch by a fish-hook driven through the bridge of his nose.

Captain Warren Levy, 41, had been standing by the rail of his Janet Irene flipping aboard halibut as a winch drew in the trawl line with its dozens of dangling hooks.

One of the big hooks flew up, gashed Levy's forehead and was yanked through the bridge of his nose. Arthur Dalby leaped for the winch and stopped it seconds before Levy would have been drawn face first into the meshing gear.

His teeth clenched against the pain, the stocky captain let his men grind the eye of the hook with a course file. They worked

Player Confuses Opponent And Luck Helps Her Win

Miss Brash's jump to five diamonds accomplished its purpose of preventing her opponents from getting together in a major suit. But it took a bit of luck and shrewd timing of the play to bring the contract home.

Wednesday, June 30, 1954

Mr. Meek's opening lead was the five of hearts. One look at the dummy convinced Miss Brash that she was probably down one, with two losers in clubs and one in hearts. One of the opponents was going to have to commit an error and it was up to her to make that error easy to commit.

Dummy still had a trump and Miss Brash had plenty of them. She next led a club and Mr. Abel was in with the king. He had nothing left to lead except a spade or a heart and either was ruinous. He chose a heart and Miss Brash threw off her losing club and ruffed on the board.

Note that if Miss Brash had taken out trumps and cleared the spades before making her first club lead, Mr. Abel would have known exactly what was going on and it would have been much easier for him to drop the king of clubs under the ace.

The bidding:  
North 1 C East 5 D South All Pass West 1 C

Mr. Abel won the first trick and continued hearts. Miss Brash ruffed and immediately led a small club to dummy's ace. She figured that if the player who held the king of clubs held only one other card in the suit, there was still a chance.

**DIDN'T SEE IT**

Now Mr. Abel had to drop his king of clubs under the ace to beat the hand. But would you? Mr. Abel thought he would look pretty silly dropping his king if Miss Brash had started with two or three clubs headed by the queen. Of course, one way of looking at it was that if the defenders couldn't win two clubs, they couldn't beat the contract. Anyway, Mr. Abel didn't see it that way. He played the jack of clubs.

Now Miss Brash took two rounds of trumps and followed with the king, the ace and a third round of spades which she ruffed in her hand.

**CLEAR SAILING**

At this point she had eliminated all of the spades and hearts from her hand and dummy.

**Historic Siege**

LONDON (AP)—The house in Steppney where three Russian anarchists died in the "siege of Sidney street" in 1911 is to be demolished. Sir Winston Churchill, then home secretary, directed operations against the gunmen who slew several policemen in the battle.
