GOOD REASONS why Herb (Old Gold) Shriner has been named Television Father of the year are sitting on Herb's lap. They are six-month-old twins Will (left) and Kin (right), and after humorists Will Rogers and Kin Hubbard. In naming Shriner, the National Father's committee paid tribute to "the unique Hoosier flavor of his humor and his contributions to comedy and brotherhood." The rest of the family includes wife Eileen (Pixie), three-year-old daughter Indy, and dog Gypsy.

Anglo-U.S. Alliance Seen Stronger Dangerously Weak After Parley

C. R. BLACKBURN
Main Press Staff Writer

LONDON (AP)—Prime Minister Churchill and President Truman today faced the vital question of their White House conference and where such a line be drawn.

As the problem in simplest form and it is not simple because there is no national Communist agreement on the surface their subject of concern is Southeast Asia, ostensibly, the Communists are by civil war.

Area of disagreement between the two Western powers, has been widely magnified by press and radio, appears to be the desire of the United Kingdom and some others to compromise with the Communists, and the determination of the U.S. administration not to even recognize the Communist government of China—nor to trust in any pact signed by a Communist authority.

MUCH SPECULATION

The first day's talks brought no informative announcements and it is unlikely there will be any. There was a brief statement yesterday by White House press secretary James Hagerty to the effect that the two leaders and their aides talked about the possibility of bringing the European Defence Community to reality and about sharing atomic secrets. All the rest was speculation.

Foreign Secretary Anthony Eden this morning had his second private conference with State Secretary John Foster Dulles.

AT LOGGERHEADS

The two are reported virtually at loggerheads because of Eden's speech in London Wednesday calling for a collective security or non-aggression pact in the Far East to include the Communists.

Mr. Dulles has been advocating an anti-Communist pact in that area—a grouping of the powers and the interested states ready to fight communism in whatever form it makes armed inroads.

Canada has no part in the discussions but External Affairs Minister Pearson is reported due to arrive Monday for a Commonwealth discussion on South-East Asian problems.

Mr. Pearson was expected in any event to escort Sir Winston and his party to Ottawa Tuesday for a visit lasting until Wednesday evening.

5 Injured, 18 Seriously Streamliner Leaves Track

AM, Neb.—The Rock Railroad's fast, eastbound Mountain Rocket "started wobble" and eight of its 11 passenger and pullman cars tipped in a derailment near Friday night with at least 23 persons getting hospital treatment.

Safety patrol chief Col. Sanders at Lincoln said his investigation indicated that at least 18 persons were seriously injured.

related: "It, (the car she was in) didn't hit hard. It slid like a log into water. I didn't expect it to be that easy."

Capt. Sanders said his men listed at least 25 persons who needed ambulance transportation to Lincoln and Beatrice, Neb., hospitals, both about 20 miles away. Many others, he said, "hitched" rides with motorists to town to get lesser injuries treated.

Train mailman T. F. Danahan, one of those who hastened into town to report the wreck, said "The lights went out and the mail car overturned—there was a little fire in the engine but it was quickly extinguished."

The train was powered by three diesel units. The first two stayed on the track and the third overturned.

LITTLE FREDDIE LEADER of York, Pa., registers genuine affection as he rubs noses with his pet cocker spaniel pup, Butterball. The 4½-year-old boy is the son of George Leader, Democratic candidate for governor of Pennsylvania.

Salmon Fishing Strike At End As UFAWU Approves Prices

'Copter Service In Sight Boon as Stopgap Says Member

Okanagan Helicopters Ltd., of Vancouver have made application to the Air Transport Board to operate a regular schedule passenger air service between Prince Rupert, Kitimat and Terrace, it was learned today in a wire from E. T. Applewhaite, MP Skeena, in Ottawa.

If the proposed application is granted it will be the first service of its kind in Canada, if not North America and its inauguration would arouse great interest in air transport circles all over the continent, Mr. Applewhaite said.

It is expected that many aviation and particularly helicopter officials will attend its inauguration if it is approved.

Mr. Applewhaite, in commenting on news of the application said that the service would "be welcomed as a stop-gap, until such time as Prince Rupert has an airport capable of handling fixed-wing aircraft."

Mr. Applewhaite expressed the hope that the traffic handled by this service, if inaugurated, would demonstrate emphatically the need for such an airport, with through services terminating at Prince Rupert.

The Skeena member pointed out that construction of a suitable airport would of necessity take considerable time and that he believed the proposed service would prove a "real boon in the meantime."

"As I understand it," Mr. Applewhaite said, "the company proposes to use 14-passenger helicopters as soon as they are available and 30 passenger craft if the traffic warrants it."

THE 12,400-TON SUNRIP, largest ocean-going freighter ever built in Canada, slides down the ways at Lauzon, Que. Built by Davie Shipbuilding and Repair Company, the 475-foot vessel will carry bulk aluminum oxide from Jamaica to the Alcan smelter at Kitimat, B.C. The freighter is the first major merchant vessel to be built with an all-welded aluminum superstructure and is designed to maintain a service speed of 13½ knots. (CP Photo)

Gains Made by Union On Fringe Benefits

The week-long strike of 6,000 British Columbia salmon fishermen ended last night.

Officials of the United Fishermen and Allied Workers Union (Ind.) are reported in a Canadian Press news story from Vancouver as saying the union voted overwhelmingly to accept a price settlement worked out in negotiations with the Fisheries Association of B.C.

In Prince Rupert yesterday a meeting of approximately 400 union and Native Brotherhood of B.C. members voted just slightly more than 80 per cent in favor of accepting the operator's offer.

GETTING READY

Salmon fishermen in northern waters will start to fish at 6 p.m. tomorrow and many of them are engaged now in loading and readying gear.

Tom Parkin, northern representative of the UFAWU said today that the fishermen jammed the Legion Auditorium to cast their ballots and that 150 of them were standees. Thirty men had to be turned away from the door as balloting had already begun, Mr. Parkin said.

Fishermen at Mill Bay, Arrandale and Kincolith voted at Arrandale and the results were phoned to Prince Rupert, Mr. Parkin stated. Independent meetings were also held at Porcher Island and Whale's Island.

study the problem of weighing, but will also have a say in the allocation of weigh boats. The number of test boats will be increased to 20 over a period of two years.

Mr. Parkin said that test runs on the fishing grounds indicated there had been no great runs of fish during the strike.

Lawyers Ask Set of Rules For Reporters

VANCOUVER (AP)—The Chief Justice of British Columbia has been asked to formulate a set of rules for guidance of the press in pre-verdict criminal cases.

The request was forwarded to Chief Justice Gordon McG. Sloan of Victoria Thursday by the B.C. section of the Canadian Bar Association.

The request was instigated by Vancouver city prosecutor Stewart McMorran, who described pre-trial newspaper treatment of recent murder cases here as "disgraceful."

Legal circles here said that if the chief justice formulated the rules as requested, newspapers violating them would probably be liable to contempt of court action. They pointed out that the courts now make decisions as to what constitutes contempt and are empowered to enforce their rulings.

The B.C. section also approved a resolution calling for an amendment to the Criminal Code to prevent mention of unsworn statements by accused persons at any inquest or preliminary inquiry until the trial judge had ruled on their admissibility as evidence.

The recommendations were only passed after several members had registered disagreement.

M. M. McFarlane of Vancouver said the association should remember the large issue of freedom of the press involved. His proposal that the recommendations be referred back to the association's civil liberties committee was defeated.

S. J. Remnant, also of Vancouver, said the proposals "go too far in their attempt to limit the press" and should be confined to excluding confessions prior to trial.

Anti-Communist Rebels Set Up Own Government

By SAM SUMMERLIN
TEGUCIGALPA, Honduras (AP)—Anti-Communist Guatemalan rebels set up a provisional government Friday night amid indications the struggle for that central American nation is becoming a hot shooting war.

Insurgent planes attacked Guatemala City and the rebel radio claimed its forces were "marching victoriously" on the capital. The Communist-supported government of President Jacobo Arbenz Guzman declared, however, that its troops remained in control on all fronts.

Creation of the provisional regime, headed by rebel commander Col. Carlos Castillo Armas, was announced in a communique by the "liberation army." It said the government headquarters were at Chiquamula, a town of 8,848 people 20 miles from the Honduran border.

The communique said Chiquamula had been captured early Friday. But a dispatch from Associated Press correspondent Frank Rutledge in Guatemala City said the government's latest bulletins claimed Chiquimula was still in its hands. Rutledge's dispatch passed through Guatemalan censorship and was delayed about six hours in transmission.

Times Predicts Move to Oust Drew as Leader

VICTORIA (AP)—The Times says strong factions of the British Columbia Progressive Conservative party are going to demand a change in the party's national leadership.

"The thrust will come," said the Times on Friday, "at the quarterly meeting of the B.C. executive in Vernon, July 17. A prominent member of the executive will move a vote of non-confidence in national leader George Drew in a move aimed at forcing a national leadership convention."

The newspaper quoted a "highly-placed source" as saying: "We are going to lead all Canada in getting rid of this man Drew. We want John Diefenbaker."

The committee will not only

Arbitration Board Meeting Postponed

The arbitration board meeting scheduled for last night to hear arguments by representatives of Ideal Cleaners and Local 336 of the International Laundry Workers, (AFL-TLC), was postponed until next Friday, chairman of the board Jack McRae said this morning.

The meeting was postponed on agreement from Bruce Brown, laundry nominee and Pat O'Neal representing the union.

Meanwhile Hugo Kraupner, proprietor of Ideal Cleaners said that there was no overtime pay issue at stake. The issue involves the interpretation of a clause in the present contract covering operation of a second shift of workers who hadn't worked the 8 a.m. to 5 p.m. shift, Mr. Kraupner said.

"The union claims workers on a later shift should be paid extra," Mr. Kraupner said. "For five years the contract has stipulated that providing they have not worked a shift earlier in the day, workers on a second shift get exactly the same pay as day shift. Before this year the union never challenged it," he said.

Fire Causes Minor Damage

A fire caused by a sunlamp at the home of Mr. and Mrs. T. Pellent, 1427 Sixth Avenue East at 6:55 this morning resulted in damage to curtains and a mattress.

The Prince Rupert Fire Department reports the fire had been extinguished when they arrived on the scene.

Firemen say the sunlamp had been turned on at the same time that controls switched on an automatic radio.

\$1,000,000 Oil Blaze Under Control

LOS ANGELES (AP)—A million dollar oil fire that exploded storage tanks and sent flames towering over the harbor area was brought under control today.

One worker was reported missing and two firemen were injured, neither seriously.

Since much of the fuel was destined for military use, the navy and FBI aided by the Los Angeles arson squad began checking the possibility of sabotage.

As tanks exploded, a pool of burning oil formed within a 20-foot high fire wall around the storage area of Tide Water Associated Oil Co. But the wall held and kept the flaming mass from spreading to other sections. Fifteen of the 20 tanks within the 500 by 1,000-foot enclosure burned.

F. E. Coyle, marine terminal superintendent of Tide Water, said damage would be more than one million dollars.

Firemen estimated more than 80,000 barrels of various fuels were consumed in the flames. The fire, of unknown origin, started when a 55,000-barrel storage tank suddenly blew up, sending its lid about 250 feet into the air.

The fire fighters were successful in keeping the flames away from a 50,000-barrel tank of high-test aviation gasoline which stands in one corner of the enclosure.

One Man Dead In Boat Mishap

POWELL RIVER, B.C. (AP)—One man was drowned and a companion sent to hospital suffering from shock and exposure when their flat-bottomed speedboat overturned in choppy waters near here late Thursday.

Drowned was Ronald Grant, 40, a bachelor from Campbell River, whose body has not been recovered.

In hospital here is Gordon C. Forbes, also of Campbell River, who is married with three children.

Forbes spent two hours or more clinging to the bottom of the overturned speedboat.

Forbes was rescued by a north-bound fisherman identified only as Mr. Polson of Hammond, who heard his hysterical cries for help.

BELIEVED THE YOUNGEST amateur radio operator in Canada, nine-year-old Judy Kannegesser of North Bay, Ont., has received her government licence. To get it, she had to master the theory of radio and electricity, draw a circuit for a three-tube radio and send code at the rate of 13 words a minute. Daughter of Gordon Kannegesser, 34-year-old railway conductor, she first became interested in radio in her father's basement radio "shack." Her mother also has a radio ham's licence. (CP Photo)

Less Noise Please!

WE HAVE no wish to exhort City Council to enforce an anti-noise by-law in Prince Rupert or to clamor for the police to crack down on owners of automobiles and trucks of the more rowdy type, but complaints received by this newspaper make it imperative that some action be taken to curb the staccato sounds that echo about our streets late at night and in the early morn.

A phase that comes and goes with each generation is the "tampered-with-muffler," which provides satisfactory noises for the owner and means sleepless nights to many a hearer. Various means of making an ordinary four-wheel conveyance sound like a jet plane taking off are used. Basically, removal of the bona fide muffler and substitution of any other type of gadget is illegal and leaves the owner open to prosecution.

Since this is written as a mild warning, we suggest that owners of such illegally-fitted vehicles, themselves take steps to bring back their vehicles into line with the law. Owners of large trucks could also help keep the city quieter at night by ensuring that the exhausts on the big vehicles are not faulty, since they could not be included in the class of owner that child-like, takes in delight in producing noise for noise's sake.

At the risk of being dull, but with sincere intent we quote covering passages from the "Regulations . . . Motor Vehicle Act, Page 14, Paragraph 1."

"Every motor vehicle propelled by an internal combustion engine shall be equipped with an exhaust muffler, consisting of a series of pipes and chambers so proportioned and constructed as to allow the exhaust gases from the engine to expand and cool to a degree of noiseless expulsion; and the muffler shall not be cut or disconnected while the motor vehicle is in operation on any highway.

"No motor vehicle, the muffler of which has had any baffle plate or other part for the suppression of exhaust noises removed, or exhaust outlet opened so as to create more noise, shall be operated on any highway. Nor shall any device be attached to such motor vehicle muffler or exhaust system which will increase the noise of the exhaust."

The act is so complete that there shouldn't be any question in the minds of any car owners who might be offending, as to what their action should be. We hope that this will be the first and last time we have to write on the subject. If not, the noisy drivers may find that their "toys," instead of providing enjoyment and amusement have merely served to betray them.

Ray REFLECTS and REMINISCES

Will it be Dominion Day or Canada Day? There's a lot to be said. Lots of time between today and Thursday.

Sir Winston Churchill, in Washington today, was threatened with a second stroke in London about a year ago but managed to recover sufficiently to accompany the Queen to Bermuda. After two days in Ottawa, with Anthony Eden, he will return overseas. As for more paralysis, all engagements are "off."

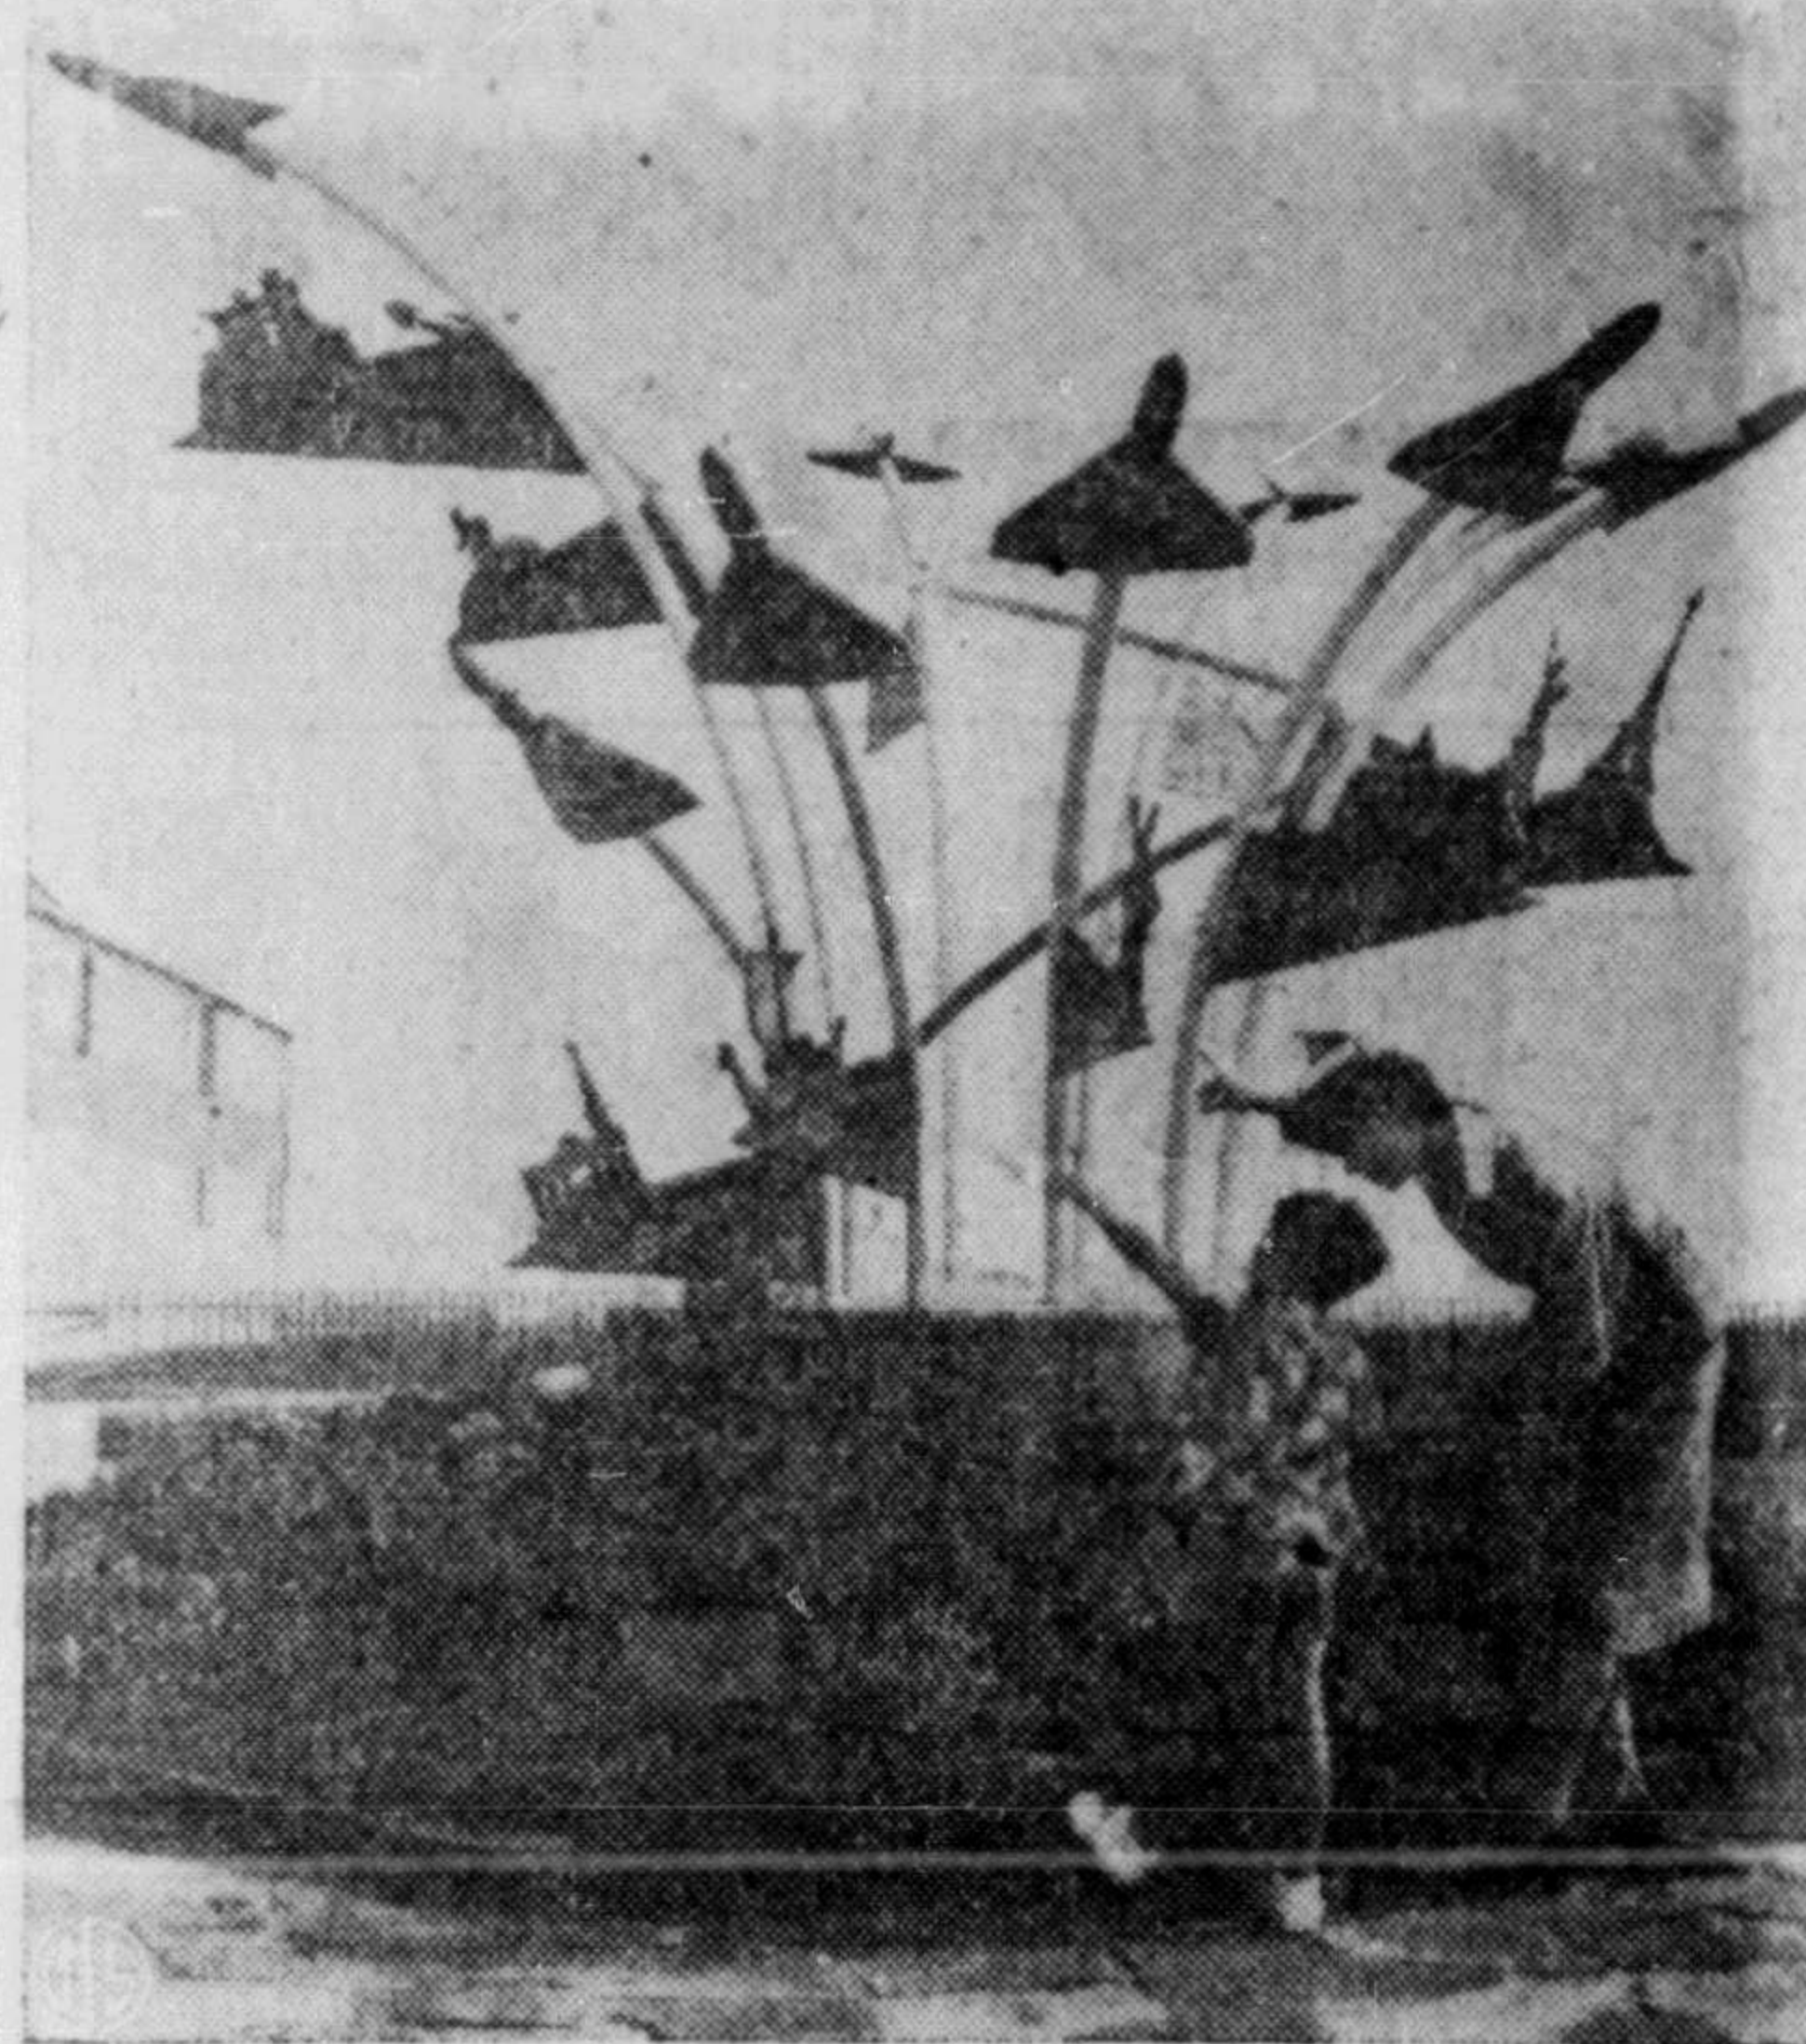

Getting a week's pay for a day's work is said to be one of the biggest evils of the modern economic system.

JUST ONE SHADE. Tourists are reported to be disappointed in Toronto. They are unable to discover a Mountie whose tunic is a particular color. Plenty of other hues are available, but nothing else will be considered, even for a moment.

Street car chivalry used to be the thing. It is now a standing joke!

A 22-storey office building has been newly completed in New York. The walls were thin, pre-fabricated sheets of aluminum, each section two storeys high. To put up an entire storey required 38 minutes. What next won't aluminum be up to? Perhaps we will need all that can be found.

By this time there appears to be no question concerning the incidence of cigarette smoking, the state of the lungs and development of cancer. Tens of thousands have ceased smoking. But it must be confessed scores of millions have done nothing of the sort.

DIRECTIONAL FOUNTAIN—Like a fountain, streamlined jet-plane models shoot into the air from a monument at Frankfurt's Rhine-Main Airport to indicate directions and flying times to world points. Flags show that London is only two hours away from the German city, and that Tokyo, almost in the opposite direction, is just 39 hours away. Note the Statue of Liberty, Eiffel Tower, and other landmarks on the appropriate signs.

Dominions' Fight for Recognition Sparked by Borden Asserts Times

LONDON (Reuters) — The Times today says that Sir Robert Borden, Conservative prime minister of Canada from 1911 to 1920, was primarily responsible for the memorandum which gave effective recognition to full nationhood for the dominions.

It devoted an editorial to Borden's career on the 100th anniversary of his birth.

"Robert Laird Borden was as successful as any of his predecessors or successors in advancing what must be the dual policy of any Commonwealth statesman—to keep his country an active member of the Commonwealth but at the same time to insist on her sovereignty as a nation." The Times says.

"It was he who, at the imperial conference of 1917, moved the resolution which was accepted as a formal recognition of the equality of the status of the dominions with the United Kingdom.

LETTERBOX

CONGRATULATIONS

The Editor,
The Daily News:

I would like to express my appreciation to Ian Dobbie and the cast of Brigadoon for a wonderful performance. Mr. Dobbie has only been here for a short time but he has done something for us that the majority of residents will never forget. I was not lucky enough to see any of your previous shows but if they came close to Brigadoon, then the Prince Rupert Little Theatre is "tops."

My impressions of Thursday night's performance are something I will always remember. Pat Bolton as Harry Beaton did a grand job; Shirley Hill as Meg should keep up the good work; Harley Lewis and Pat Wicks as Tommy and Fiona played their parts like veterans and their songs were delightful. Ed Harrington as Jeff was a grand foil for "Tommy's" seriousness. To Gordie Dell as Charlie, thanks for the two songs, "I'll Go Home with Bonnie Jean" and "Come to Me, Bend to Me." Jimmy Nicoll and Will Hankinson as the father of Jean, and the Dominic respectively, also turned in excellent performances. Marjorie Cleone as Jean won well-earned praise for her sword dance. The chorus and orchestra acquitted themselves in a truly musical fashion, making the theatre of family weeks of hard work.

Thanks again to you all for a grand show.
SCOTTY,
Prince Rupert.

"Borden's crowning achievement was to be primarily responsible for drafting the famous memorandum of 1918 which secured for the dominions separate representation at the conference."

"This was the effective recognition of full nationhood for the dominions."

The Times says the First World War "set problems, acute in any country but doubly so in a country divided by race.

"Borden not only brought a united Canada immediately into the war—with a Canadian expeditionary force springing into life without delay—but he grasped firmly the prickly issue of conscription.

UN Picketed On War Issue

UNITED NATIONS, N.Y. — More than 300 men and women picketed Thursday outside United Nations headquarters with placards reading "Stop Bloodshed in Guatemala" and "U.S. Boys Must Not Die in Central America." They handed out leaflets demanding that the UN security council enforce its unanimous resolution of last Sunday for a cease-fire in Guatemala.

As I See It

BY
Elmore Philpot
The UK-US Rift

AS THE top statesmen of Britain begin talks in Washington it is well for the rest of us to consider the main cause of the rift between them.

The Americans want some kind of a collective defense agreement for Southeast Asia which would be frankly anti-Communist in its purposes and actions.

But the British want something quite different. They want what Mr. Anthony Eden calls "an Asian Locarno" which would give China the same change to join as any other power in that area.

IN OVER-SIMPLIFIED terms we could say that the Dulles plan boils down to this:

A group of allies including the United States, Britain, France, Australia, New Zealand, plus Siam, and the Philippines would draw a line and would later use all means in their combined power to keep Communist influence outside that line.

They would say "If your Red armies cross that line we will all fight you, not only at the line you cross, but in your homelands; and we will also fight your underground armies and fifth columns even if they operate on our side of the line, as citizens."

The Eden approach is very different. He says, in effect: "Let all the nations of Asia enter into a compact similar to that which almost succeeded in laying the foundations of peace between France and Germany, before the rise of Hitler."

Under the Locarno principle,

all the nations which signed the pact would have been obligated to go to the help of France, had she been attacked by Germany. But the same nations would have been obligated to go to the help of Germany had Germany been attacked by France.

It is that same principle which Sir Winston Churchill himself has recently suggested might again be applied in Europe, and which Mr. Eden now urges as the basis for peace in Asia.

MR. EDEN'S plan drags right out into the open the deeper difference between the United Kingdom and the United States. Britain accepts the fact that a revolution has taken place in China; that the Communist government is now the effective government of China—and the sooner the whole world accepts that fact, and acts accordingly, the sooner we may reach some sort of international stability.

But the United States, to date, has resolutely refused to accept the Chinese revolution. Before he became Secretary of State, John Foster Dulles even wrote a book urging recognition of the facts of life re. Red China. But between the writing the book, and his appointment as President Eisenhower's expert in foreign affairs, things had gone from bad to worse in Asia.

Red China had intervened in the Korean war, ending it by deadlock and stalemate, instead of outright U.S. victory.

Now the near-hysteria created by McCarthyism in the U.S.A. would make it impossible for any Republican government to recognize the real government of China.

It is on this background that the leaders of two great world powers meet. To me, the very fact that they are meeting is proof that the ties which unite them are stronger than the factors which tend to pull them apart.

LT. COL. D. E. BUELL, DSO, 48, of Brockville, Ont., and Ottawa has been appointed director of militia and cadets with the rank of colonel. The directorate of militia and cadets is a new organization at Army Headquarters implemented as a result of the recent review of the reserve force by a board of senior officers. Prior to his appointment, Col. Buell was general staff officer in the directorate of military training and responsible for Royal Canadian Cadet activities. (CP from National Defence).

Envoy's Wife In Hospital

LONDON (Reuters)—Mrs. Anthony Eden, wife of the foreign secretary, entered a London hospital Thursday night after seeing her husband off to Washington with Prime Minister Churchill. It was announced today. Nature of her illness was not disclosed. Mrs. Eden accompanied the foreign secretary to the opening of the Far Eastern conference at Geneva but returned after a few weeks. She has been under doctors' care since. University College hospital, where Mrs. Eden is being treated, said her condition is "comfortable."

Gospel Ship Crew Plans Service at Civic Centre

Religious Church services will be conducted tomorrow at 3 p.m. at the Civic Centre by members of the crew of the MV Lower Light which is stopping in Prince Rupert briefly before sailing for Alaska.

The 14-foot yacht is returning on a cruise of Alaska where religious meetings were held during the past three weeks. The Lower Light, skippered by Rev. Robert Crawford and called in at Prince Rupert June 3.

Featured at the meeting tomorrow will be songs by Lower Light Quartet, composed of Mrs. Arthur Hiatt, Mrs. Agnes Heke, and Captain and Mrs. Crawford as well as instrumental numbers by Mr. and Mrs. Hiatt and Mrs. Crawford.

The versatile 13 crew members of the Lower Light not only operate the vessel but participate in all the religious services. All are musicians and can play the organ, piano, guitar, accordion and harmonica.

The Lower Light is not only bringing the Vesper trio, but is fitted for her annual voyage with a direction finder, fathom meter, automatic pilot, and ship-to-shore radio telephone. Powered by three diesel horsepower engines the vessel has an auxiliary diesel engine for supplying heat and electricity.

After leaving Prince Rupert the crew will hold services at Kitimat and Bella Coola.

THE INTERNATIONAL SERVICE of the Canadian Broadcasting Corporation has transcribed for a special broadcast on July 1, over radio stations and networks in all parts of the world, the "Coronation Suite," by the distinguished Canadian composer, Dr. Healey Willan (left). At right is Dr. Ettore Mazzoleni, the principal of the Toronto Conservatory of Music, who conducted the CBC Orchestra and the CBC Choir in Toronto for the above-mentioned transcription which also commemorates the first anniversary of the Coronation of Queen Elizabeth II. This July 1 transcription has been sent out to all Canadian embassies, legations and missions abroad. Already, some 40 stations and networks in Europe, Latin America, the British Commonwealth and in other parts of the world have made the necessary arrangements for the broadcast of the July 1 transcription over their facilities.

Newspaperman Visits City

Intrigued by stories of North-western British Columbia and Prince Rupert passed on to him years ago by a friend, Charles A. Bowman, former editor-in-chief of the Ottawa Citizen paid a brief visit to the city yesterday and made it known that he intends to return for a closer and longer look.

Mr. Bowman's friend was none other than R. G. T. Saul, founder of the Prince Rupert Optimist back in 1910 after he left his post in the east where he had been editor of the Prescott Ontario Messenger.

Mr. Bowman, who served on the Royal (Aird) Commission on Radio broadcasting in 1929 which recommended formation of the Canadian Broadcasting Corporation, served on the Ottawa Citizen from 1913 to 1946. He started his newspaper career there as an editorial page columnist. A relative of his served here at the end of the Second World War. Mr. Bowman said. He was Lt. Cmdr. Robert Bowman, who was in charge of naval engineering here after 1945. Cmdr. Bowman at that time was the oldest naval officer in the RCN.

A.Y.P.A. Planning Special Meeting To Hear Speaker

Plans were made this week by the St. Peter's Anglican Young People's Association for the special meeting Sunday when Rev. John L. Clark, field worker for young people's associations will be the guest speaker.

Rev. Clark, formerly of Mission, B.C., is presently on a tour of northwestern B.C.

The meeting discussed proposals for the improvement of the St. Peter's A.Y.P.A., contained in a letter from Mr. Stoakes.

The group was also presented with tickets to Brigadoon in return for their services as hostesses at the Civic Centre during the show's run.

A report of the June 17 young people's meeting said that the group will undertake to sell Christmas cards this year.

The meeting also decided to send a monthly report of their activities to W. H. Lemmon, former incumbent at St. Peter's, now living at Sunset Prairie.

A work party cleaned up the grounds and house formerly occupied by Mr. Lemmon prior to the meeting, it is reported.

New member at the June 17 meeting was Suzy Kergin and Len Griffiths joined at the meeting last Thursday.

HUGE EELS

Conger eels found in tropical waters sometimes reach a length of 10 feet.

How to KEEP FIT after 50

In the old days fifty seemed the signal to slow down—take things easy—watch your diet—get more rest. It's still good advice. But these days you can face fifty with many interesting and active years ahead, active, that is, if you can avoid backache and the "tired-out" feeling, due to kidney and bladder disorders, that often develop around that age. For more than 60 years Dodd's Kidney Pills have been helping men and women of all ages to keep kidneys and bladder in good order, helping them to feel better, to work better, and get more fun out of life. If you are approaching fifty, or past it, Dodd's Kidney Pills may help you, too. You can depend on Dodd's. 54

Honor Students Get Awards At Mrs. Gilker's Recital

Miniature busts of their favorite composers were presented Thursday to honor students Elaine Daniels and Gail Davidson at the annual piano recital of students of Mrs. J. C. Gilker held at her home.

The two students had received first class honors in the 1953 Royal Conservatory of Music exams. Silver award pins were also presented to Sonja Berg and Ronnie Daniels for outstanding work during the past year.

Ex-Resident Of City Dies

Word has been received here of the death of Joseph Edward Merryfield, a resident of Prince Rupert for 20 years before he took up residence in the Fraser Valley. Mr. Merryfield, who for years took an active behind-the-scenes part in Conservative Party politics here, was born 73 years ago and died after a long illness in the Matsqui-Sumas Abbot'sfield Hospital June 16. Merryfield, who made his home at Mount Lehman, near Abbotsford, is survived by two sons, Basil in Vancouver and Jack in Whalley. A private funeral was held June 18 in Abbotsford with interment at Mountain View Cemetery.

All Aboard By G.E. Mortimore

Now a scientist claims that queen bees control their subjects by turning them into dope addicts.

Dr. Colin Butler, head of a bee research project in Britain, announced his findings in a new book: "The World of the Honeybee."

The dope is "queen substance"—a kind of wax that covers the queen's body. Worker bees lick it off, and keep returning for more. They are slaves to the stuff.

This is the best news of the week. Bees have long been smugly parading themselves as examples of the diller virtues. These pompous insects led us to believe that they never wasted time. All their thoughts were for the community and the next generation. They had a place for everything, and everything in its place.

Well, they never fooled me. I had a hunch all along that there was something phony about those bees. They were too good to be true.

My hunch was right. At last they have been unmasked be-

fore the world as rakes and debauchees.

Drug addict! Hophead! Those are the words I intend to yell at the next bee that buzzes past my ear, putting on its big hard-working act.

How doth the little busy bee improve each shining hour? I'm glad you asked that question. The bee never improved a shining hour in her life.

She spends much of her time skulking around the poppies, a depraved, hollow-cheeked

denizen of the insect skidroad, with fuzzy bags under her eyes, waiting for some drone to take her in to Queenie for a "fix"—a shot of her favorite poison.

Later on, I hope science will debunk a few more of Nature's heroes and villains.

The ant may turn out to be a sluggard who inherited all his money. The beaver may be exposed as a secret drinker. The hare may be shown in a new light as a former Olympic distance runner who was wounded in the war.

"it's so much easier than in my day!"

Even Beginners make delicious sparkling Jams and Jellies with Certo

IT'S THE QUICK, EASY, SHORT-BOIL WAY

RECIPE BOOKLET
under the label of every bottle and in every package. Each recipe has special instructions that must be followed. They are not interchangeable.

WHAT CERTO IS—Certo is fruit pectin—the natural jelling substance in fruit—extracted and refined to help you make delicious jams and jellies quickly and easily.

SAVES TIME AND WORK—It takes only 15 minutes from the time your fruit is prepared to make a whole batch with Certo. That's only about a third the time needed for old, long-boil recipes.

ONE-MINUTE BOIL—With Certo you need only a ONE-MINUTE full, rolling boil. No more long, tedious boiling and stirring over a hot stove. It's so quick and easy.

50% MORE JAM OR JELLY—There's no long "boiling down"—so hardly any precious juice wastes away in steam. You average up to 50% more jam or jelly from the same amount of fruit.

NATURAL, FRESH TASTE AND COLOR—And the boil is too short to dull the fresh fruit color or spoil the lovely natural, fresh-fruit taste. They remain in your jam or jelly.

NO GUESSWORK—With Certo you get kitchen-tested recipes that end all guesswork. Follow the simple directions carefully and you can be sure of delicious, sparkling jams and jellies.

Sure Results in 1/3 the time. 50% more from your fruit

Take your Pick LIQUID or CRYSTALS
Certo in either form gives equally good results

Newswomen Plan World Tour

TORONTO (CP) — Canadian newspaper women plan a 1965 European tour, retiring president Marjorie Oliver of Toronto said Friday night.

She spoke at the concluding

dinner of the 50th anniversary meeting of the Canadian Women's Press Club attended by 250 delegates from many parts of the country.

Mrs. Oliver said the executive is arranging the visit to mark the club's growth since its formation.

During the week, members debated and introduced a new, streamlined constitution which includes membership of women television script writers for the first time.

BLACKWOOD on BRIDGE

By EASLEY BLACKWOOD

Hopeful Contract Is Set By Good 'Accident' Play

Mr. Champion had most of the high cards for the defending side in today's deal but, believe it or not, it was Mr. Muzzy's play which defeated the optimistic contract.

The opening lead was the six of diamonds and Mr. Champion's jack fell to the ace. Looking the hand over, Miss Brash saw she had just one entry to dummy, the ace of clubs. She decided not to use that card for the purpose of leading a trump from the board, as it might serve a more important purpose later.

RAY OF LIGHT

Accordingly, she banged down the ace and another spade. Mr. Champion won the second spade and returned the deuce of diamonds. The hand had looked pretty hopeless to Miss Brash but now she thought she saw a ray of light.

If the play on the diamond suit had been honest, Mr. Muzzy had opened his fourth best, which meant that Mr. Champion was now out of the suit.

Therefore if the opposing clubs lay 3-2 and if the first round of clubs be ducked into Mr. Champion's hand, there was no return lead he could make which would be damaging.

On regaining the lead, Miss Brash could knock out the last

outstanding trump, again win any return, and then run the rest of the clubs, getting rid of the two losing diamonds in her hand.

Following this plan, she won the fourth trick with the king of diamonds and quickly led the deuce of clubs. But Mr. Muzzy put up the jack.

This was a nasty (and completely unexpected) turn of events. Miss Brash was now faced with the choice of letting the jack hold, in which case Mr. Muzzy would undoubtedly cash his two good diamonds, or of giving up all hope of setting up the clubs.

She went up with the ace in dummy and returned a small club to her king, on the chance that Mr. Muzzy had started with the queen-jack doubleton. But when the queen failed to drop on the second lead, all hope was lost.

"That jack of clubs was the best play I ever saw you make, Muzzy," complimented Mr. Champion.

"I always go up with a high card to force out an ace from dummy," said Mr. Muzzy proudly.

Mr. Champion grinned. "I'm glad the result of your play was better than your reason for making it," he said.

Annette Mansell Opening New Ladies' Wear Store

Monday will mark the beginning of a new era in retailing ladies' wear in the city when Annette Mansell, popular local businesswoman, opens her new and completely modern store at 616 Third Avenue West.

The newly remodelled premises was formerly the T. Eaton Company order office. The store now displays a brilliantly-lighted modern interior of more than 1,000 square feet, fronted by a beautiful display window. Another new landmark will soon be seen on Third Avenue when the bright "Annette's" neon sign is installed shortly.

The staff of the new store will number four in addition to Annette herself who spends much of her time in the various fashion centres on buying trips.

In business since 1922 in Prince Rupert, Annette has also operated stores in the cities of Winnipeg, Calgary, Lethbridge, Kimberley, Nelson, Princeton, and Vancouver. Since opening her first store in Prince Rupert in 1927, above the premises now occupied by Ethel's Snack Bar, she has made use of various business locations. Most notable of these was the building now housing W. J. and Nickerson, the CNR uptown offices and Sweet 16. She moved to 525 3rd

Avenue in May of 1947 where she has been until this time.

Set of Photos Commemorate Canadian Role

ARROMANCHES, France (CP) — A handsomely-mounted set of colored photographs form Canada's contribution to a new French museum, commemorating the Allied landings in Normandy 10 years ago.

The museum, housed in a building at the end of the beach fronting this town, 15 miles northwest of Caen, was opened June 5 during ceremonies observing the anniversary of the invasion June 6, 1944. The exhibits, contributed by all countries which took part in the operation, form a permanent record of its planning and execution.

There are scale models of the beaches, ships, artificial harbors and many of the weapons and items of equipment used by the Allied troops. Autographed photographs of all the Allied generals and of Sir Winston Churchill cover the walls.

Big Chief May Be Key
In Yank's Pennant Drive

By BEN PILEGAR

Allie Reynolds' reluctant decision to abandon his role as an oil tycoon with an aching back in favor of one more season of pitching looks more and more like the key move in New York Yankees' drive for their sixth straight pennant.

The Big Chief from Oklahoma has been magnificent.

When he beat the first-place Cleveland Indians 11-0 Friday night it marked his ninth straight victory after losing his first decision. The third-place Yankees moved within three games of the Indians and the second place Chicago White Sox, who defeated Boston 6-4, climbed within one.

SPORTSMAN'S
DIGEST

By Hal Sharp
HOW TO CLEAN
SALT WATER TACKLE

REGARDLESS OF HOW WELL A REEL IS MADE, IT MUST BE CLEANED AFTER EACH DAY'S USE IN SALT WATER TO AVOID CORROSION.

REMOVE THE SPOOL FROM THE REEL. THEN HOLD EACH PART UNDER WARM RUNNING WATER, TURNING IT ABOUT TO RINSE AWAY ALL PARTICLES OF SALT RESIDUE. INCREASE WATER'S FORCE TO WASH THE LINE ON THE SPOOL. SALT WILL NOT HARM A NYLON LINE, BUT IT CAUSES THE LINE TO CAKE ON THE SPOOL.

SHAKE OFF WATER, THEN DRY PARTS. APPLY A GOOD BRAND OF REEL OIL TO MOVING PARTS. WAX ALL ANODIZED SURFACES.

KEEP IN WARM WATER, THEN DRY AND LURES.

BRITISH BOXING TEAM
ALL MEMBERS OF FORCES

LONDON (by cable)—Five British boxers—all Amateur Boxing Association champions—will represent Britain in the British Empire Games in Vancouver in August, it was announced here today.

All but one of the young men are in the Forces and all but one come from London.

Twenty-year-old Cpl. Bruce Wells of the RAF will represent Britain in the light middleweight class. He stands 6 feet 3 inches and is the holder of the European championship.

Youngest of the five is 18-year-old David Charnley in the featherweight class. The others are Cpl. Brian Harper, RAF, Blackpool, heavyweight; Pte. George Whelan, lightweight and Pte. Nick Gargano, welterweight.

North Stars Down Sea Kings
To Move Back Into Top Spot

By BOB MORRIS

North Stars moved back into first place in Little League standings last night with a 7-3 victory over Sea Kings at Algoma Park.

Arnold Johnson, starting on the mound for the first time this season for Sea Kings, pitched three fine innings, allowing only one hit for one run. The North Star bats began to find the mark in the fourth and when Johnson gave up three hits and a walk and an error saw another runner safe on base. Sea King coach Frank Comadina decided Johnson had done well enough for his first try. Mike Green went in to relieve and was tagged for three hits and gave up a walk before he managed to put out the fire.

Chicago Bears
Sizzling Mad
At Canadians

CHICAGO (AP)—Chicago Bears are sizzling, not in the wake of 100-degree weather but from an alleged Canadian pirating wave.

The Bears Friday filed their second damage suit in two weeks against a Canadian professional football team for allegedly swiping a player.

The suit, filed in federal court at Miami, Fla., asked \$150,000 from the Hamilton Tiger-Cats for inducing linebacker Jim Dempsey to quit the Bears.

It was coupled with a \$25,000 breach of contract suit against Dempsey, who lives in Miami and has played for the Bears since 1950. Dempsey starred for the University of Florida.

The Bears last week, in Stockton, Calif., filed a \$100,000 suit against Calgary Stampeders, of the Western Intercontinental Football Union for coaxing half-back Eddie Macon to jump his Bear contract.

"WE WANT HIM"
Owner-coach George Halas of the Bears said Hamilton and its general manager and head coach Carl M. Voyles of Vero Beach, Fla., tried unsuccessfully to lure away several other Bear players. Halas did not identify the players.

In Hamilton, Voyles said he was not disturbed about the action. Tiger-Cat president Jake Gaudar said he wasn't either. "They (the Bears) started this," Voyles said. "The Bears signed Bill Greus when he was under contract to us. The Bears have just traded Bob Cross to Los Angeles and he's under contract with us."

"I'm only going after Chicago Bears and Cleveland players," he added. "And I'm not going for players under contract—just those on the option clause. That's what they're doing to us so I guess it can work both ways."

Archie Moore
To Meet Johnson

NEW YORK (AP)—Light-heavyweight champion Archie Moore and top contender Harold Johnson of Philadelphia signed Friday for a 15-round title fight at Madison Square Garden Aug. 11.

SPORTS ROUND-UP

NEW YORK (AP)—It's a matter of opinion, but we can't avoid a small feeling of irritation every time we see Rocky Marciano referred to as awkward.

Rocky isn't exactly graceful, granted. He doesn't dance about on his toes and make picture moves. He's too busy and impatient to waste any time posing and posturing. But we insist he isn't awkward and will bet that Ezzard Charles would be the first to agree.

No man who can hit such a cagey and experienced dude as Charles the way Marciano did the other night can be awkward. Neither can he be clumsy to any marked degree. He might look so at times but the boxer who is so unfortunate as to be in the ring with him knows better in a hurry.

ELUSIVE TARGET

Those who called Rocky awkward after his last fight pointed mainly to the many wild swings he missed after he got Charles in serious trouble in the sixth round and was trying desperately to score a knockout. What they overlooked was the fact that Ezzard, though badly hurt, still had a clear head and knew how to make himself an elusive target.

Under the circumstances, we thought Rocky was rather restrained, if anything. He did not go windmilling in and let Charles tie him up. He stalked Ez. carefully and threw his looping right only as he appeared to have a clear target. That more of them did not land solidly on Ez's jaw and perhaps end the fight right there was more a testimonial to the challenger's great defensive skill than proof of the champion's awkwardness.

GREATEST CHIN?

Some observers, we have noted, accused Rocky of being less than clever because of the fact that when he missed one of his whooshing swings he left himself wide open for Charles' counter punches squarely on the button. They said that if Rocky had anything like a normal chin

he would have been knocked cold a dozen times.

Exactly Rocky has possibly the greatest chin the fight game ever saw, and he doesn't have to worry about getting hit. He can wade in with immunity and throw his own bombs without being fearful that he'll catch a few himself.

It's a wonderful way to be able to fight.

Dempsey, 59
Nostalgic
Over Old Days

NEW YORK (AP)—It was Jack Dempsey's 59th birthday, and the boxing writers and old friends of the Manassa Mauler came over Thursday night to Jack's restaurant on Broadway to say happy birthday to the 'Champ.'

Still black-haired and trim at 225 pounds, some 40 over his best fighting weight, the Mauler moved restlessly about, signing autographs and posing for pictures. The crowds gawked outside as the champ sat by the window facing the main stem.

But it was different some 37 years ago when Jack visited the big town looking for work. It was a cold town to Jack then, and the biting winds chilled his lightly-clad frame.

"If it wasn't for the free lunches in some of the bars then I might of starved," said Jack as he puffed on a fat cigar. "If you had a nickel you could buy a beer and eat a good lunch. They had salami, ham, pigs' knuckles and other stuff on tables and you could eat all you wanted—if you had the nickel. Sometimes I didn't have it."

"They had piles of hard-boiled eggs too, and if you had a chance you could put four or five in your pocket and on those you could eat for a week."
