

UNITED STATES CONTRACT TO BOOST KITIMAT PROJECT

Man Makes Extreme Foreign Aid Appeal to Congress And People

WASHINGTON, D.C. (Canadian Press)—President Truman asked a critical Congress today to vote on his \$7,900,000,000 new global foreign aid program to meet the Soviet threat against "civilization."

Of mounting congressional ire over aid spending, the President will go on every radio and television network tonight to carry the message to the people.

Lack Funds For Railway

VICTORIA (CP)—Premier Byron Johnson told the Legislature that he is deeply disappointed that financial reasons prevent the government from going ahead at the present time on extension of the Pacific Great Eastern Railway from Squamish to Vancouver.

Mr. Johnson said in his budget speech in the Legislature that the government is in no position to borrow the \$14,000,000 needed for the extension.

BC Pensions On Increase

VICTORIA—According to W. R. Bone, regional director of old age security, 1,500 more British Columbians received checks in February compared with January, the initial month of the federal payment.

The February total payment amounted to \$2,849,200 which went to 70,825 pensioners.

Part of the increase can be attributed to persons moving to British Columbia from other parts of Canada.

In February 485 came to this province, while 182 left. Most of the newcomers came from the prairie provinces.

New Railway Pension Plan

CNR Scheme Extended And Liberalized
MONTREAL—A new pension plan for Canadian National Railways was announced today by Donald Gordon, chairman and president. It will take effect as from January 1, 1952 and consists of two parts.

The first part continues an existing plan, liberalized to make better provision for present and future employees who may become disabled and also for early retirement.

The second part is designed for employees who are willing to commit themselves to compulsory contributions in return for a higher pension.

The first part provides a basic or service pension at the expense of the company and a supplemental pension based on joint contributions. The employee contributes from 1 per cent to 10 per cent of his wages and, after 10 years' service, the company matches his contributions up to 5 per cent.

The amount of the supplemental pension is that which the joint contributions with compound interest will buy.

Under this part disabled employees who have attained the age of 50 and who have at least 28 years allowable service will be permitted to retire on pension.

If the portion of the pension payable at the company's expense is less than \$40 a month the company, by special allowance, will increase its portion to \$40 until the employee is 65. If an employee with these age and service requirements should die in service, his surviving spouse or dependents may be granted half the applicable pension, exclusive of the special allowance, in lieu of a refund of his contributions.

SECOND PLAN
Those who elect to follow part two of the railway's pension plan must contribute 5 per cent of their compensation from January 1, 1952, or from the date on which they entered service to the date of retirement. On reaching age 65, they will receive a pension based on their average compensation during the last five or ten years of service, whichever is more favorable to the employee.

The percentage will be one per cent for each year's service up to 20 years; one and a quarter per cent for each year during the next 10 years; and one-half per cent for each year over 30

Electric Washers 98c—Stoves \$1.98 in Victoria—Trade in \$150 For Any Old Ice Box

VICTORIA (CP)—One retailer offered a second-hand electric washing machine for 98c as a price war on heavy electrical appliances got into high gear.

The same dealer priced used electric ranges for \$1.98 and wooden ice boxes were going at 49c.

Three large retailers are leaders in the price war. Trade-ins took an opposite tack. Merchants have offered up to \$150 on "your old ice box or what have you?"

Kamloops Wants No Conference On Cattle

Foot and Mouth Disease Crisis Still Discussed At Ottawa

OTTAWA (CP)—Announcing that the government plans to call a federal-provincial conference at the "earliest possible" date to deal with problems arising from the outbreak of foot-and-mouth disease among the livestock of southern Saskatchewan, Rt. Hon. J. G. Gardiner, minister of agriculture, told the House of Commons yesterday that the conference will be held with the provinces as soon as they can be given proof that there is no danger of the disease spreading through movement of livestock and meat from one province to another.

In the House of Commons, M. J. Coldwell, CCF leader, suggested that British Columbia and Manitoba may have exceeded their constitutional powers in banning imports of livestock meat from Alberta and Saskatchewan. He suggested that the federal government study the constitutional angle.

Yesterday the House gave third reading to a bill to compensate farmers in the affected area on "a fair and reasonable" basis for losses they may have sustained as a result of the outbreak of the disease. Progressive Conservative and CCF amendments to increase and extend the scope of compensation were unsuccessful.

John Dieffenbaker, Progressive Conservative, Lake-Centre, asked what it was proposed to do in connection with surplus of beef due to interprovincial embargo restrictions. He asked if the possibility of sending Canadian cattle to the British market was being fully explored.

Mr. Gardiner replied that everything possible was being done and the government certainly preferred sending to the British market if possible.

BILL TO SENATE
Now adopted by the House after being given third reading, the emergency bill for compensation of the farmers now goes to the Senate.

The legislation provides for "fair and reasonable" compensation to farmers whose livestock, buildings and crops were destroyed in efforts to eradicate the foot and mouth disease.

Compensation will apply only to farmers in a 40-mile square quarantined area around Regina.

Progressive Conservatives tried to change the legislation so that compensation would be based on "economic value" of the cattle destroyed rather than on a nebulous "fair and reasonable" provision proposed by the government.

Gannet For Bronx Zoo

Rare Bird To Be Televised From New York Tonight
NEW YORK.—The first gannet from Canada ever to be televised will make a personal appearance tonight over a New York television station before becoming a resident of the New York Zoological Gardens.

The gannet, originally from Bonaventure Island off Quebec's Gaspé Peninsula and more recently one of three at the Quebec Zoological Gardens, will be presented to the Bronx zoo by Claude Melancon of Montreal, noted Canadian naturalist and assistant director of public relations for the Canadian National Railways.

Pinay Faces Test Today

PARIS (CP)—The right-winger Antoine Pinay formally agreed yesterday to try to form a new French cabinet and said he would ask the National Assembly to confirm him as Premier today.

Churchill Wins Vote

LONDON—Prime Minister Winston Churchill won a vote of confidence for his government in Parliament yesterday.

A Labor vote of censure of the government's handling of the rearmament program was rejected 314 to 219.

Aneurin Bevan and 50 or 60 left wing Laborites, because of disagreement with Clement Attlee and the moderate Laborites abstained.

In its attempt to overthrow Prime Minister Churchill's government, the Labor party filed its motion of non-confidence on the grounds that the government was moving too slowly in rearmament.

However, the split in the Labor ranks, combined with the normal Conservative majority in the House, led to the burial of the motion under an avalanche of votes. Thus Churchill's handling of the rearmament program won approval.

Bevan and his left wing rebels accentuated the party split and revolted against both the government program and the Labor party leadership by sitting out the vote.

Rush Relief to 'Quake Victims

TOKYO (CP)—United States occupation forces and the Japanese government continued today to rush relief supplies to victims of the earthquake and tidal waves in northern Japan.

Planes, trains and boats are carrying blankets, medicine and food to the stricken areas of sparsely-settled eastern Hokkaido Island and the more populous sections of northeastern Honshu Island.

Thousands of homeless are suffering from bitter cold and driving snowstorm which followed Tuesday's earthquake.

Official United States Army estimate is that thirty-one Japanese are dead and 170 injured. The quake left one fishing village submerged and pushed up a new 40-foot hill. Most of the 1691 villagers are marooned on top of submerged homes.

Train Death Toll Now 119

RIO DE JANEIRO (CP)—Death toll after Tuesday's railway disaster near here—the worst in Brazil's history—was set yesterday at 119 with nearly three hundred persons injured, many seriously.

The all-metal electric train, so crowded with passengers that they were hanging out of the doors, sideswiped the derailed section of another train on a bridge.

BLESSES ALCAN
Hon. C. D. Howe

Tax Deal Approved

Winch Urges Provision for Educational Aid

VICTORIA (CP)—Over the objections of some Progressive Conservative and CCF members, the Legislature yesterday gave second reading approval—in principle—to the bill which would authorize continuation of the Dominion-provincial tax agreement.

The CCF leader, Harold Winch, contended the federal government will soon have to make grants to the provinces to help meet the rising costs of education and that some provision should be made for this in the agreement.

Education now comes entirely under provincial jurisdiction. Second reading was also given the bill setting a uniform valuation across British Columbia for taxation purposes on a pipe line to be started this spring by the Transmountain Oil Pipe Line Company. Assessment will mean the Transmountain company would pay an annual maximum tax of \$377,000.

All Recovering After Collision

GARY, Indiana (CP)—All fifty-four persons injured yesterday when a commuters' train ran into a siding here and hit an empty car are recovering.

A four-car, South Shore and South Bend Railroad train, travelling slowly was preparing to stop at the station. A police statement says ice on the switch may have caused it to take the wrong siding. The train was not derailed and only the front unit was damaged. The track was cleared and traffic resumed within an hour.

-TIDES-

Friday, March 7, 1952
High 10:56 17.5 feet
Low 5:04 10.4 feet
17:32 5.5 feet

-WEATHER-

Synopsis
Cloud now covers most of British Columbia but its amount will decrease slowly during the day and there should be some sunshine in most regions.

The low pressure centre which caused gales in the coastal waters yesterday has moved off to the south leaving the province in the weak circulation of Pacific air. Another storm is developing west of the ocean weather station Peter but its progress towards the coast will be retarded somewhat by a ridge of high pressure which lies west of the coastline. It will, however, cause rain on the north coast tomorrow and increasing cloud on the south coast tomorrow evening.

With cloud cover thinner, temperatures tonight, especially in the southern portions, will be a few degrees colder than last night. Daytime temperatures tomorrow will be much the same as of the last few days.

Forecast
North Coast Region—Variable cloudiness today. Cloudy tomorrow. Rain beginning in the northern portions tomorrow morning, spreading to northern Vancouver Island by tomorrow night. Little change in temperature. Winds—North (15) today, south (20) tomorrow. Lows tonight and highs tomorrow—At Port Hardy and Sandspit, 30 and 44; Prince Rupert, 30 and 40.

Howe Gives His Blessing

B.C. Project Would Be Fully Completed
550 MILLION TONS PER YEAR

To Help Bolster Supply South of Line

OTTAWA (CP)—Production Minister C. D. Howe yesterday gave his official blessing to Canadian-American negotiations covering increased supplies of aluminum for the United States and said he hopes the negotiations will be consummated soon.

At Montreal the Aluminum Co. of Canada said the value of a long-range contract (which Washington intimated yesterday was being negotiated) would, if completed, be about \$70,000,000 at current market prices.

Mr. Howe said the agreement will allow the company to complete a further part of the huge Kitimat project in British Columbia which would, otherwise, have been left untouched.

First stage of the gigantic project likely will be completed next year at a cost of about \$160,000,000.

Initial production at the new development may run about 83,000,000 tons a year but, when it is completed, the output may be stepped up to about 550,000 tons annually.

Mr. Howe was commenting on a Washington dispatch reporting that the United States government has opened discussions with United States aluminum producers to step up production at home and proposing to sign a seven-year agreement with Canadian producers. This would call for delivery of 250,000 tons of ingots from Canada annually.

Gardening....

MENU FOR SUMMER MEALS IS
GUIDE FOR GARDEN SCHEDULE

Fastest Grown Vegetables are Radishes, Lettuce and Onions from Sets

Sow Each of These Vegetables Several Times

Vegetable	Harvest from one sowing lasts	Grow for one serving
Beans, snap	4 weeks	1 foot
Beets	6 weeks	1 foot
Carrots	8 weeks	2 feet
Cucumbers	4 weeks	2 feet
Endive	6 weeks	1 foot
Lettuce	6 weeks	1 foot
Kohlrabi	3 weeks	2 feet
Turnips	2 weeks	1 1/2 feet
Spinach	2 weeks	3 feet
Sweet corn	10 days	4 feet
Onion sets	4 weeks	1 foot
Peas	2 weeks	3 feet
Radish, early summer	1 week	1 foot
Radish, winter	2 weeks	1 foot

To prepare a production schedule for a garden is a matter of arithmetic. Take carrots, for example. How often do you serve carrots to your family? Once a week, twice a week, or three times? It should not be hard to decide that.

The harvest of carrots from a single sowing will last in top condition at least eight weeks. During that period, say, you will serve carrots 16 times, or twice a week. A row of carrots two feet long will provide an ample serving for the average family. So your first sowing of carrots should be 32 feet long.

This should be followed by a second sowing, timed to mature when the first crop has been harvested; and three sowings should see you through the season, so far as table use is concerned.

If you will estimate the number of family servings each week you expect to use of all short-harvest vegetables, you can figure out the number of sowings and the length of row for each, from the data in the accompanying table.

This lists the vegetables, of which several sowings should be made, and gives data to enable you to plan successive sowings, and also the space which will be required for each crop in order to produce enough for family needs without waste.

Column 1 gives the time each harvest lasts from one sowing, and in Column 2 the space to plant in the garden row to provide one serving for a family of four.

Data on days to table size are given in most seed catalogues for every vegetable variety. Early varieties of lettuce will be ready in 40 days; while late head lettuce may take 90 days to mature. By sowing early and late varieties at the same time, you can have a longer harvest. This is advisable for sweet corn, because late varieties do better in late summer and early fall weather. But this practice re-

quires more space, since the slow maturing varieties occupy soil which could be used for something else if a succession of quick growing crops were sown. Peas, lettuce, radishes and spinach will not do well in July and early August, so do not plant these crops to yield in the hot weather, but sow them for early summer and fall harvests only. All the others should be sown two or three times or more, with the last sowing timed to mature before killing frosts arrive. Do not follow a leaf crop, seed crop or root crop with one of the same class; but use a different type, to avoid disease and soil exhaustion. Before sowing a second crop, dig up the soil and apply plant food again, 2 pounds to 100 square feet or 100 feet of row.

Freight for the Alcan projects at Kitimat and Kemano is beginning to pile up on docks at Vancouver faster than the coastal vessels can call to pick it up. More ships are being pressed into service and those already in operation are speeding up to handle the traffic. Shipping interests are looking for the biggest year in history and it will be that way for many years to come, it is anticipated.

Premier's Daughter Seeks Stage Career

REGINA (CP)—The ambition of 18-year old Shirley Douglas, daughter of Premier T. C. Douglas of Saskatchewan, is to do her life work on the stage. But diminutive Shirley has no hankering for the political stage. Ever since childhood she has wanted to be an actress. Shirley, five feet two, weighing less than 100 pounds, took an important step in that direction recently when she won the best actress award in the annual Saskatchewan Regional Drama Festival. She will attempt a repeat in the Dominion finals. Her first part was at the age of five when she played an angel in a Sunday School Christmas pageant in Weyburn, Sask., where she was born. Shirley's first lead was a fairy in a school play, also at Weyburn. She was in Grade Two at that time. Last summer she attended the Banff School of Fine Arts and took part in two Shakespearean dramas, "Midsummer's Night Dream" and "Comedy of Errors." She likes this type of role exceptionally well. Her success in the regional Drama Festival is made all the more remarkable by the fact this is her first year in the Regina Little Theatre. She won the award while playing only her second role in a Little Theatre production. She played a 12-year old girl in "Tomorrow the World."

Adjudicator Pierre Lefevre said she "sustained her role with variety and was in character throughout."

Mr. Lefevre said he thought a 12-year old girl had been exceptionally well cast for the role and was amazed to find that it was taken by a "young lady of 18."

"Never for a moment did she step out of character," he said. Shirley has also done extensive modelling in Regina fashion shows, taken on deliberately to help her poise in walking on stage.

Co-op Business Mounting Naval Ship Visits Port

Consumer Turnover up \$100,000—Fish Output 2,500,000 Pounds

Increases of \$100,000 in consumer business and 2,500,000 pounds of fish production were reported by Manager K. F. Harding to the Prince Rupert Fishermen's Co-operative Association yesterday. Approximately one hundred members attended the annual general meeting in the Canadian Legion hall. Full reports of the past season's operations will be given to this meeting.

Visitors from out of town are T. H. Sorenson and A. V. Hill of the Fishermen's Co-operative Association, John Donaldson, George Greenway and H. Blake of the Fishermen's Co-operative Association, also O. Smith, a delegate from Masset, and Robert Donaldson of the University of British Columbia, Department of Education.

Before adjourning for the day last evening, the secretary announced that Dr. John Hart of the Pacific Biological Station in Nanaimo would speak to the meeting on Friday on the work that has been carried out by that institution. The meetings are expected to continue until Saturday.

has already been plenty of construction within a few hundred miles of the coast. Skeena Crossing is one of the principal examples and another the high level span over the Bulkley River between old and New Hazelton. There already is an impression that the one being planned will out-rank among the most important.

Prince Rupert and Halifax, in certain respects, resemble one another. Each has a splendid harbor. Each has an eminence, rising to a considerable height from the centre of the townsite. But there, similarity stops. Halifax has no lofty peaks gleaming in the distance. But on the other hand, Prince Rupert is not a military and naval centre. Nor has Prince Rupert any history. Halifax can look back across several centuries. Her high ground, known as the Citadel, mounts heavy artillery. Queen Victoria's father, the Duke of Kent, was the man who started the fortifications. Prince Rupert is surrounded by vast forests. Halifax isn't. Halifax has a handsome hotel. Prince Rupert hasn't. One could go on indefinitely.

Yukon fears a meat scarcity while the foot and mouth disease remains a menace. Any shipments north would, of course, have to pass through British Columbia. For many a year it has been a common enough practice to see fresh meat sent south, instead of toward the Arctic. It was reindeer, instead of beef.

The Terrace-Kitimat railway will involve bridge building across the Skeena River. There

Pensioners To Get Free Drugs

VICTORIA (CP)—The government has rescinded an order which the CCF contended would have restricted benefits of free drugs for old age pensioners and social welfare cases in British Columbia.

Hon. A. D. Turnbull, minister of health and welfare, said his department had issued the order because of steeply rising costs of drugs. However, he added, the matter had been "grossly exaggerated" but, because of "rather widespread misunderstanding," the order would be withdrawn.

When it was decided to call the A-topolis, Roosevelt Park, Prince Rupert was occupied by United States soldiers who had been here for years. An American General came up from San Francisco to take a leading role in the dedication ceremony on the mill. The gesture was considered eminently fitting. So that was that. But there were, however, a few hard-boiled old sour-doughs who, if shy on sentiment, were strong on finances. How long would it be before the city could ever find funds enough to transform a rocky, rugged piece of country into a sea-level port, honoring a great nation and halloving the memory of a wartime leader?

But what they asked did not matter. A noble park would arise, somehow, some time. Seven years have passed, but there is no sign of it. A two-by-four start was made, but it would have been better had this never been attempted. A Yankee tourist once, after a glance, asked why, it was Prince Rupert had a grudge against the president. Small wonder! And so, the fund originally intended to be devoted to park purposes, may now be used in other ways, and the most made of the memorial, such as it is. And that cannot be much. Arrested development rarely is.

Aussie Emancipation

The university of Adelaide founded in 1874 was the first sea, the first in the world to grant degrees for women students.

A Canadian Navy vessel on a combined training cruise and oceanographic survey on the west coast tied up in Prince Rupert harbor for a few hours yesterday for minor engine repairs and taking on stores and fresh water.

She was the former Algerine-class minesweeper EMCS Sault Ste. Marie, commanded by Lt. Cdr. B. T. R. Kassel, RCNVR. Also on board was Dr. J. P. Taylor, oceanographer attached to the Fisheries Research Board of Canada.

The "Soo" is tender to HMCS Malahat, reserve division at Victoria, and is manned by reserve personnel. Her present cruise is of approximately three weeks' duration. Lt. Cdr. Kassel was married three days before the ship left port.

Perfect Tuna Casserole

IF ever a dish deserved the compliment, "How Perfect," this tuna combination is it. One try and you'll see. It's so perfectly easy to make, perfectly grand to eat.

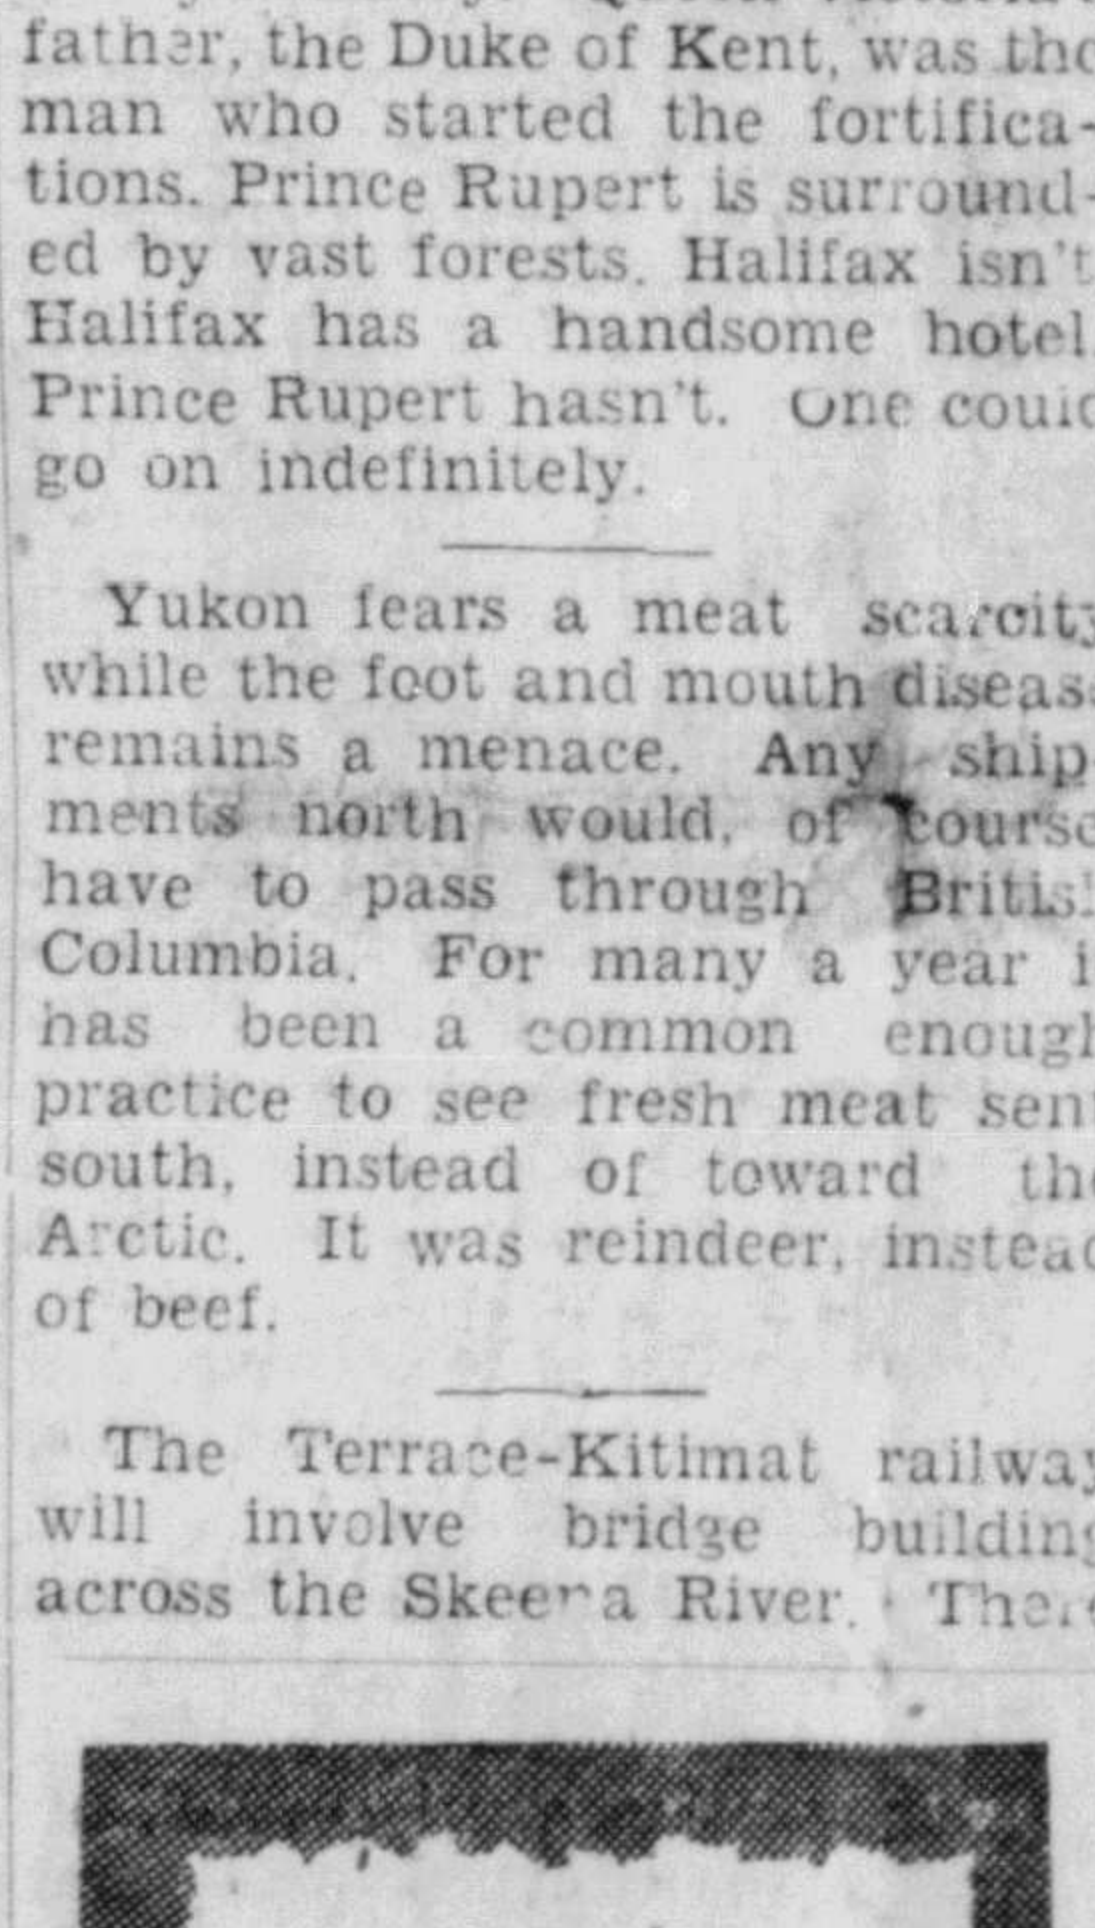

The luscious flavor team of condensed cream of mushroom soup and tuna give the dish its high-powered come-on for eaters. And if you want a Lenten dish, just use cream of celery soup instead of mushroom. Results are equally pleasing.

Right on your kitchen shelf, you can keep the makings for this one. A can each of mushroom soup, tuna, and green peas—plus a bag of potato chips, it turns suppers into something special, is a perfect choice for luncheon parties. The cost will cheer you too.

Perfect Tuna Casserole
1 can (1 1/4 cups) condensed cream of mushroom soup
1/2 cup milk
1 1/2-ounce can (1 cup) tuna, drained and coarsely flaked
1 1/4 cups crushed potato chips
1 cup cooked green peas, drained
Empty soup into a small casserole; add milk and mix thoroughly. Add tuna, 1 cup potato chips and peas to soup; stir well. Sprinkle top with remaining 1/4 cup potato chips. Bake in a moderate oven (350° F.) for 20 minutes. Makes 4 servings. Garnish with whole potato chips around edge if desired. Note: For Lent, use condensed cream of celery soup instead of mushroom soup.

SOUP SCOOPS
Springtime Garnish For Soup: Cream of celery soup looks all dressed up for spring with a bright green garnish like chopped chives or parsley. Treat the family to this on St. Patrick's Day or the First Day of Spring.
Hi-Hat Spaghetti Casserole: A Lenten dinner to be proud of is this. Pour 2 cans (3 1/2 cups) of spaghetti in tomato sauce with cheese into an ungreased 1 1/2-quart casserole; place in a moderate oven (475° F.) for 20 minutes. Meanwhile beat 4 egg yolks lightly; combine with 1/4 cup shredded Cheddar cheese. Beat 4 egg whites until stiff; fold in yolks. Pile eggs on top of spaghetti; continue baking at 375° F. for 30 minutes or until lightly browned. 6 servings.
"Soup-Prise" For Lent: A soup combination that calls for extra big bowls is made by mixing 1 can each of condensed clam chowder and cream of celery soups. Add 2 cans of milk slowly, stirring constantly. Simmer about 5 minutes.

TENDERS
TENDERS in sealed envelopes clearly marked "Tenders for Roller Rink Floor," dated not later than 14th March, 1952, will be received by the undersigned for the laying of a one and one sixteenth No. 1 maple floor on a 4500 square foot area in the pattern customary for roller rinks. The floor is to be smooth sanded and necessary lines painted for three badminton courts, and finished with three (3) coats of Penetrim, and is to be laid on top of present fir floor. Tenders will be opened on 16th March by a special committee appointed by the Executive of the Civic Centre Association. Tenders should state clearly the approximate number of days after notification that the work could commence and length of time necessary to complete the contract. Further information available on application.
The lowest or any tender not necessarily accepted.
John F. Stin, General Secretary, Civic Centre Association, Box 340, Prince Rupert, B.C. (64c)

Many Visitors At Conrad St.

More than 150 visitors thronged to Conrad Street School Tuesday afternoon to take advantage of "Visitor's Day" in the school—another Education Week feature.

Instead of the usual class-to-class visiting, Principal T. G. Bateman arranged a program for the visitors in the assembly hall in the school basement which featured demonstration lessons actually being taught. The demonstrations thus presented by the pupils proved to visitors the tremendous strides which methods of teaching had taken within the past few years. "Our schools now try to teach in each grade the knowledge the child will actually require and use within his own age group," Mr. Bateman said. "Gone are the days when Grade four spelling consisted of words like philosopher or 'psychology,' which a Grade 4 child would never use. The new spellers teach them only words useful to them NOW."

Following the singing of "O Canada," the Flag Salute was given by Lucy Olsen.

The program continued as follows: Rhythm exercises by Miss N. Irving's Grade one class. Choral reading, "A Wanderer's Song" (John Masefield), by portion of Principal T. G. Bateman's Grade Five class. Play, "The Boy and His Goats," by pupils from Miss C. Sirett's Grade Two. Folk dance, "French Minuet," by some of Miss M. Hamilton's Grade Three class. Choral reading by Grade Three pupils from Mrs. C. Weise's class. Play, "The Princess Who Never Laughed," by pupils from Miss M. Hamilton's Grade Three. A unit in spelling demonstrated by pupils of Mrs. C. Weise's Grade Four class. Choral reading, "Sir Brian Botany," by pupils from Mr. Bate-

man's Grade Five, followed by a demonstration reading lesson also by the Grade Fives. Square dancing by pupils from Mr. G. Olson's Grade Four and Five class.

Following the program tea was served by ladies of Conrad P.T.A. under the convensership of Mrs. J. F. Denning and a committee consisting of Mrs. K. Berg, Mrs. L. B. Lewis, Mrs. W. Davidson, Mrs. J. Pedersen, Mrs. L. Murdoch, Mrs. J. Kurdziel, Mrs. A. Bussanien, Mrs. C. Marneau and Mrs. W. Murdoch. Mrs. W. D. Griffiths was cashier.

JOHANNESBURG, South Africa (CP) — Leopold Premyslav, a violinist who was a friend of Brahms and Richard Strauss, died here. Native of Germany, he once played for the Czar of Russia and settled in South Africa 14 years ago.

IN RE ESTATE OF JOHN GEORGE SWAN, DECEASED.
TAKE NOTICE that as Administrator, duly appointed by the Court, of the estate of John George Swan, who died at Prince Rupert, British Columbia, on the 19th day of December, 1951, I require all creditors and others having claims against the said estate to send the same to me, properly verified, at the address mentioned below on or before the 15th day of April, 1952, after which date I shall proceed to distribute the estate to those entitled by law, having regard only to such claims which I shall then have been notified.
AND FURTHER TAKE NOTICE that all persons indebted to said estate are required to pay their indebtedness to me forthwith.
DATED at Prince Rupert, B.C., this 27th day of February, 1952.
GORDON FRASER FORBES, Official Administrator, Prince Rupert, B.C. (F28.M6.13.20c)

IN THE SUPREME COURT OF BRITISH COLUMBIA
IN PROBATE
IN THE MATTER OF THE ESTATE OF JOHN GRAHAM
—and—
IN THE MATTER OF THE "ADMINISTRATION ACT"
TAKE NOTICE that by Order of His Honour Judge W. O. Fulton, made the 6th day of February, A.D. 1952, I was appointed Administrator of the Estate of JOHN GRAHAM, deceased, late of Victoria, B.C., in the Province of British Columbia.
ALL PARTIES having claims against the said Estate are hereby required to furnish same properly verified to me on or before the 15th day of February, A.D. 1952, after which date claims filed may be paid without reference to any claims of which I then had no knowledge.
ALL PARTIES indebted to the said Estate are hereby required to pay the amount of their indebtedness to me forthwith.
DATED at the City of Prince Rupert, in the Province of British Columbia, this 6th day of February, A.D. 1952.
G. F. FORBES, Official Administrator, Prince Rupert, B.C. & Hornar, Prince Rupert, B.C. (57c)

CHALLENGERS leave next Wednesday for Penticton to tackle for the first time the "A" provincial basketball championship. Players (left to right), back row, Joe Scherk, Rupe Holkestad, Art Olson, J. M. Flaten, Herb Morgan; front row, Ray Spring, Mickey Webster, Coach Alex Bill, Les Mathews, Miskey Webster. Penticton semi-finals begin March 14. Carlson, who is boxing in the Gold n' Glove Friday, will join the team in Vancouver.

TOP SHOOTING star and front liner is Don Scherk with 148 points in 11 games this season. Always a threat in any lineup, Don's basketball career began in high school, the home of all Prince Rupert hoop prowess. This is his third year as member of Prince Rupert all-star cagers.

MICKEY WEBSTER is the man to watch in future basketball. Playing guard and forward alternately, Mickey is a driving force on the lineup. He never plays an easy game and is best when things are toughest. Coach Alex Bill is putting a lot of stock on this newcomer, who might be termed the "outstanding rookie of the year." This is Webster's first year in Senior basketball.

RAY SPRING demonstrates the "spring" technique whistling through the air four feet from the floor, then letting go the melon with an underhand flick for a quick basket. Spring and Webster are the two youngest members of the Challengers. —Daily News staff photos

Detroit Backs Into NHL Championship

Toronto Downs Canadiens So Neither Can Now Get Above Second Spot

TORONTO (Canadian Press) — Detroit Red Wings backed into their fourth straight National Hockey League championship when Toronto Maple Leafs whipped the second place Montreal Canadiens here Wednesday night. Neither the Leafs nor Canadiens can now catch up with the Wings who were idle.

NHL Bad Men Really Good

NEW YORK (AP) — Hockey's men are some of the nicest. If you don't think so, ask the boys. Like baseball's bats, they have their own ideas, they seldom jibe with the idea of the average fan. Alex Marchfeld of New York handles the sticks for visiting players. One of his favorites is Toronto's Gus Mortson, a frequent carpet trodder in the National Hockey League as President Clarence Campbell. "Maybe Mortson wouldn't think about wrapping the business end of his stick around his mother," says Marchfeld. "Off the ice he's a gentleman. When most players want to hear just say 'water, boy!' Mortson, he's different. The night on the bench I'm going next to him and he says 'will you please get me a glass of water?' I start to go for it and he says: 'Not now, Alex. You get up. Not now!' Earlier that day Mortson was for a hearing in Campbell's court. He was supposed to have been the Rangers' 'H' Buller. When he was sitting next to me he says: 'I didn't kick Buller. All I do is raise my foot, everybody says I kicked him.' Just then, Buller breaks up a man rush by himself, and then judges me: 'Another and Buller will be one of the best defencemen in this league. He's great.'"

Hockey Scores

Round-Up on The ALLEYS

Joe Long of Hotshots bowled men's high single of 306, a season's new high in the Wednesday Mixed League, and also bowled high three with 733. Marg Leavitt, also of Hotshots, bowled ladies' high single with 225 and high three of 548. With five players, Hotshots captured team honors with its game of 997.
Season's high averages are still maintained by Jack Wiese and Hal Wendt, both of Daffy Dribblers, with score of 204 and 203, respectively. Glen Morgan of Dribblers came close to the season's highest score, but blew on the tenth frame and ended with an even 300.
Results—Kayettes 1, Hotshots 3; Nunels 1, Screwballs 3; Dingbats 1, Daffy Dribblers 3.
Standings—Hotshots 18, Daffy Dribblers 15, Kayettes 12, Nunels 10, Screwballs 10, Dingbats 7.

VITAL AREA
Because of its rubber and tin production, Malaya is described as the greatest dollar-earned in the commonwealth sterling bloc.

Another donation comes from Smithers. R. J. Collison, building contractor, has sent up five sheepskins from the Bulkley Valley for sweeping the ice.

Round-Up

By Larry Stanwood

The coming bonspiel this month—first one ever to be held in Prince Rupert—is the big talk among local curlers at this time. And along with the 'spiel, many an impressive trophy supplies the centre of attraction.
The Grand Challenge trophy has been donated by A. J. Dominato and can be seen in the window of what was formerly the People's Store. Other trophies donated, but not yet arrived from eastern manufacturers, are by North Star Bottling Works, E. T. Applewhait, MP, and Rupert Motors.
A Grand Aggregate trophy, for most points scored in the bonspiel, has been donated by Frizell Motor Products Ltd. Several other trophies will be given by local firms for club competitions such as the Gordon's Hardware and Cook's Jewellers trophies.

These prizes are magnificent pieces of workmanship and present an enticing objective in winning the game. They stand 21 inches high and each costs in the neighborhood of \$100.

Another donation comes from Smithers. R. J. Collison, building contractor, has sent up five sheepskins from the Bulkley Valley for sweeping the ice.

same bracket as Rupert's Chubby Stacey in the Vancouver event.
Tonight is likely to see another battle on the Civic Centre basketball floor as Mansons and Elks lock horns for the second of the final championship games. Mansons won the first in a seven-point upset that brought a good house to its feet.
Vancouver Ellers meet Alberni Athletics tomorrow night in the south and Saturday in the first two of the best of five Senior "A" semi-final series. After a four-day lapse, the series picks up again on March 13 to 15, if necessary. Winner will meet either Penticton or Prince Rupert in Vancouver March 20, or thereabouts. It has not been finally decided whether the

same bracket as Rupert's Chubby Stacey in the Vancouver event.
Tonight is likely to see another battle on the Civic Centre basketball floor as Mansons and Elks lock horns for the second of the final championship games. Mansons won the first in a seven-point upset that brought a good house to its feet.
Vancouver Ellers meet Alberni Athletics tomorrow night in the south and Saturday in the first two of the best of five Senior "A" semi-final series. After a four-day lapse, the series picks up again on March 13 to 15, if necessary. Winner will meet either Penticton or Prince Rupert in Vancouver March 20, or thereabouts. It has not been finally decided whether the

Hecate Straits Lighting

The establishment at Kitimat, a short distance south of Prince Rupert, of the Aluminia of Canada smelter, major industrial development in Hecate Straits will again be projected into the limelight.
In many years the lighting of Hecate Straits subject which commanded much attention at Kitimat, as we endeavored to remove a barrier to the development of shipping through the straits because of the lack.
With the opening up of Kitimat and the transport from the Caribbean of alumina, the key to the manufacture of the aluminum ingots in the smelter will produce, ocean vessels will be able to approach from the south and, no matter how they approach from the north, will have to traverse Hecate Straits some other way.
Without doubt, Alcan interests have the problem of shipping approach to Kitimat under advisement. Nevertheless, it is a subject of keen interest to Prince Rupert as well as Kitimat.
Hecate Straits will now command more attention—a shipping lane and the provision of aids to navigation—lighting is only one in this modern age of extensive project. It is something for which Kitimat must keep alive to.

Educational Eye-Opener

Many Prince Rupert people have been getting an eye-opener during this week about what is going on in our schools—the new methods and conditions under which our educational work is being conducted.
The environment counts for anything, the new schools which have recently gone into operation will, indeed, be conducive to good results. A long time has been taken since last Education Week in the development of the tools with which to carry on pedagogical work and all its modern ramifications.
The schools have, indeed, come a long way in providing amenities, conveniences and comforts for the most of us got our elementary and secondary education. If the young people are appreciative of the due advantage of all the new things that have been provided to make their life of learning more pleasant and pleasant, it will be well worth while to carry on pedagogical duty to make them so appreciative.

Teaching or Life

TEACH the pupils how to earn a living is of increasing importance an increasingly important part of modern education. Frequently overlooked, though just as important, is what the pupil does with what he learns.
The technician—a man who knows everything about his job except its ultimate purpose—is not what we desire. If economics, science, technology, organization were all that were needed, there would be nothing wrong with Germany!
There must be a balance between the arts, science and the humanities. Without this, education can never achieve its fundamental objective: not to make a good living, but how to make a good

KOREA SURVEY

Street Urchins Create Serious Seoul Problem

[Editor's Note: Bill Boss, Canadian Press staff writer in Korea, has completed a two-week survey of conditions among the civilian population during the Korean winter. This article is the ninth of a series of interviews with United Nations, Korean Republic and civilian sources.

By BILL BOSS
Canadian Press Staff Writer

SEOUL, Korea (CP)—The jeep had barely stopped before a boy with bright black eyes popped up beside it from nowhere. "Want whisky?" he asked with easy familiarity. "Canadian whisky?"

His name was Lee Dong Soo, 16. The whisky was \$12 a bottle. Lee said he would get 2000 won (34 cents) if he sold it.

That proved he was a middleman, not in business for himself. He was getting his commission in won on a dollar transaction.

Lee knew what soldiers liked and what they usually had to sell. He knew where they could get what they wanted and who would buy what they offered.

Lee dealt in anything from women to army boots, from whisky and beer to chocolate bars and cigarettes.

The United Nations Civilian Assistance Command estimates there are 10,000 youngsters like him in Seoul and 17,000 in the whole of Seoul province.

Says the CAC provincial team commander: "They're a terrific problem, caused by the breakdown or disappearance of the home influence and the lack of schooling."

EARNINGS HIGH

Some, like Lee, are nominally cigarette boys. Others are either shoeshine boys or newsboys.

"They get 1000 won (about 17 cents) a shine. Two a day gives them more than a laborer earns. Some earn as much as 10,000 or 12,000 won a day.

"Every one helps worsen inflation, and some are petty thieves and pickpockets."

The superintendent of Seoul's civilian police said he is trying to work out a licensing system, authorizing boys who help support their families to shine shoes and sell newspapers. The other urchins would be rounded up and put in institutions.

That, said a CAC welfare officer, is wishful thinking at this stage.

"For the time being we have all we can handle with the children already in institutions."

Meanwhile boys like Lee live by their wits on the streets. He had completed his first year of technical high school when hostilities began. He worked with United States Army units, then returned home two weeks before to find his mother keeping her

URCHINS ROAM STREETS—Ten thousand child black-marketers and beggars roam the streets of Seoul, a constant worry to police and civic administrators in the Korean capital. This small beggar girl with sack-cloth shawl is typical of Seoul's street urchins, though most are boys. (CP from National Defence)

self alive by dealing in firewood and doing needlework, earning 6000 won (\$1) a week.

He hadn't enough money to set himself up as a cigarette dealer, so he patrolled a corner far from the congested centre of the city. He said he averaged as much as other boys—between 3000 and 5000 won a day—because in town they forced one another to divide their earnings.

The smile vanished and an unexpected tear dropped when he was asked what he thought of himself and his work.

"A year ago I'd have said I was a bad boy," he said.

"Today some neighbors say I'm bad, but others say I'm good because I'm doing this to help my mother. What do you think?"

reach the age of one, usually from dysentery."

Elections are a farce in Persia: "The Army comes with the ballot boxes and ballots. The ballots are already printed, there is one name on them—the name of the candidate the Army wants. We line up, receive our ballots, march by the box and drop them in."

Soviet propaganda literally floods over the borders. That is partly by radio broadcasts, partly by word of mouth reports. But the strongest Russian asset, reports Douglas, is the fact that the poor people and peasants did get the beginnings of a much better life when the Red armies were actually in occupation of the northern half of Persia.

Land rents were cut to a fraction of what the peasants paid before and after that occupation.

For all that, most of the peasants and their potential leaders are torn between two pulls. On the one hand they are convinced they would be vastly better off economically under Russian style Communism, than they are now. On the other hand they have a shrewd conviction that they would change one set of masters for another. They have a fierce longing for real freedom.

ACCORDING to Judge Douglas the most influential radio broadcasts in that part of the world are those from the VOICE OF INDIA.

He believes that the western nations could still beat Russia in winning these peoples' support, as follows:

"Why not make Maku a show window of democracy? A land distribution system, modern houses, schools, churches, roads, hospitals—all these could be had for a tiny fraction of the billions appropriated for foreign aid. We can build factories in Italy to make a few men rich. Why not build on the Soviet border at one of the most troubled spots in the whole world a model, democratic community? Then when people ask 'what does America stand for in her foreign policy?' we could proudly reply 'Maku'."

Judge Douglas is in my opinion on the right track and the only track that will keep all Arabia and Africa from going Russianized.

LETTERBOX

WAR OR DEPRESSION?

Editor,
Daily News,
This is Education Week, when all people who have ideas, whether they be words of wisdom or otherwise, are expected to divulge their honest thoughts on questions affecting the lives, liberties and happiness of all. Therefore, my contribution is hereby tendered. If of no value to others, it need not be accepted.

However, during the period of my life, several wars affecting our people have been indulged in. First the Spanish American War, Boer War, World War 1, World War 2 and now every indication points to World War 3 in addition to the present Korean struggle, which, to me, appears as a muddle from the start—only imposing cruelty beyond description on an innocent, helpless people. The purpose of this war is said to be to repel aggression through its practice by foreign powers under the direction of the United States of America in an effort to establish its rule in Asian affairs.

However, it appears to me that the worst is yet to come unless a sudden awakening takes place in the minds of the people and some real authority is asserted on the side of peace.

We will commit civilization to certain destruction. The American atomic stockpile will appear about as feeble as a mouse. Dr. Brock Chisholm, who is the head of the world health Organization, has told us many times atomic warfare can never be a fraction as deadly as biological warfare, a device already in the hands of all great powers. If war comes, these will be used and there will be no effective protection against them.

In face of such impelling facts, why do people remain so unconcerned over the gathering war clouds? Note the havoc in Saskatchewan from the hoof and mouth germ imported from Germany by an innocent immigrant boy. If it must be a choice between war or depression, let the depression come! We will have some chance to cope with poverty but none against atomic and biological warfare. If you are tired of life and wish to end civilization, boost for World War No. 3. If you are a civilized person, speak up for "peace on earth and goodwill to all men."

GEO. B. CASEY.

DEMANDS EXPOSE

Editor,
Daily News,
I read with great interest your editorial on "Rupert, Vancouver's Rival," and felt that it should receive a reply.

The greatest error and bit of amusement is the statement that Prince Rupert will in time be a place of great beauty. This will only happen when people or persons are struck blind by the atom bomb.

Please pardon me for the obvious sarcasm that is found in this correspondence but, having lived in Prince Rupert for the past eleven months, I feel that I can write with a little bit of authority on the subject of our town.

With all your glowing statements regarding the great metropolis of Prince Rupert, you fail to regard the real issues at stake, namely housing facilities and rent controls. Needless to say, there is no such thing as rental control nor any form of determining what is fit for rent or sale. Of course everybody in this city is supposed to be making a million at the Celanese and other assorted industries so rent control is not needed.

Rent increases are not based on any improvements that have been made but, apparently, on the fact that if you live in Prince Rupert, you should be sucker enough to pay any increase that money-hungry landlords of this city are willing to demand.

In the light of such circumstances, I fail to see where an editor of the local paper can print encouraging reports of a town that is obviously so corrupt and rotten and, apparently, endorse the actions of local racketeers.

I would suggest that you devote more of your editorial space to exposing those who dictate the civic policy of this town, rather than refer to history of past events, which seems to be a favorite of yours.

DANIEL C. JONASON.

David Geddes, special agent of the CNR investigation department, arrived on the Prince George yesterday to relieve regular agent William Beaton who is on holidays. Mr. Geddes was stationed here 20 years ago as CNR policeman.

BABY'S COLDS

Help Nature To Fight Them Off

Medical Science denies there is any such thing as a cure for colds—only Nature herself can do it. So when baby's sniffles, or stuffy breathing warn you of a cold's presence—cooperate at once with Nature.

See that baby is kept warm, gets plenty of sleep and take extra care that the bowels are thoroughly cleared of harmful wastes. To do this without upsetting baby's whole system and further weakening it, try Baby's Own Tablets. Mild, yet act promptly in getting rid of irritating materials that make baby restless and feverish.

One Nova Scotia Mother says: "My baby of 26 months caught a nasty cold so I tried Baby's Own Tablets and she threw this cold off quicker than ever before. I certainly am for Baby's Own Tablets from now on." Effective also in teething troubles, constipation and other simple baby ills. Get a package today at drugstores, 30c.

DIG LESS PEAT

OSLO (CP)—Due to labor shortages less peat is being dug in Norway, despite government price support and loans to producers. Last year about 31,000,000 cubic feet of peat was dug, equal to about 140,000 tons of coal.

EARLY RAILS

Cast iron was used for early British railways, until steel rails began to be produced about 80 years ago.

If You Do Not Pay Your News Subscription, the Boy Loses

Subscribers of the Daily News who receive their papers by carrier boys are reminded that these boys—our little merchants—are charged for every paper they take out. If you are receiving the paper and are delinquent, the boy has to finance you. This is a reminder to people who may be in arrears, whether it is their custom to pay the boy or pay at the office. It is not the office that loses if you fail to pay. It is the boy. We hope this reminder will expedite the payment by those who may have fallen behind. Prompt payment of your newspaper subscription is a legitimate obligation. The fact that your creditor is one of our boys or girls should make the respecting of the obligation the more desirable.

As I See It

by
Elmore Philpott

BELMORE PHILPOT Judge Douglas' Book

ONE of the finest books written in recent years is

STRANGE LANDS AND FRIENDLY PEOPLE, by William O. Douglas. It is published by Harpers, in Canada for \$5.00.

Mr. Justice Douglas is a member of the U.S. Supreme Court. He is a liberal, in the U.S. meaning of that word, and is sometimes mentioned as a possible candidate for the Democratic nomination in the presidential election.

After reading this book I am convinced that he has a better understanding of the vital WORLD issues, which will come up for decision in the next few years, than has any other possible contender, including General Eisenhower.

JUDGE DOUGLAS spent much of 1949 and 1950 in that crucial part of the world between the Mediterranean and India. He deals sketchily with both India and Greece, but his best chapters are on the Muslim lands—Syria, Lebanon, Iraq, Persia.

He gives the most human account that I have seen yet of the struggle of the people for a better life. He shows better than any previous writer just WHY the Russian system is sure to sweep over all those lands sooner or later unless the west gets in there with large scale plans to improve the lot of the common people.

HERE ARE some of the facts that emerge out of the Douglas book:
"In urban Persia 80 percent of the children die before they

Modern Education And Christian Community

(Prepared on behalf of the Ministerial Association
by Canon B. Prockter)

A Christian community not on its toes will allow itself to be pushed into some obscure corner of life to say prayers and preach sermons. It will agree with those who say that education of politics or industry are not church business. But the Unity of all life under the One Purpose and the One Redemption does not allow that anything is outside the purview of the Christian Faith. Therefore, we have something positive to say and do about modern education.

We believe that the Christian attitude of mind and heart matters supremely in the school. Whether Bible teaching is possible or not, Christian concern of life and for individual personality is at all times possible and necessary. There are innumerable things which state regulation can neither bring about nor enforce and these things make all the difference.

In the world of our time, with its mechanization and industrialization, the family is not the important unit of society that it used to be. For millions there is no such thing as properly ordered family life. So, for the child, the most powerful factor is the school. Every young Christian should consider whether to give his or her life in the teaching profession. Facilities are there for great service and great usefulness for the good of this nation and all nations. Everything now depends on those who offer themselves to do the work. And the rest of us must accord all proper sympathy and support that the right kind of education may flourish more and more among us.

Mrs. Stewart Donaldson returned to the city on the Prince George yesterday from a trip to Vancouver.

Mrs. James Mason Compares Blue Bonnet — It's Best Seller!

Try this idea from Mrs. James Mason, Compare Blue Bonnet Margarine with any spread at any price. Like the famous actor's wife and novelist, you'll love the delicate, sunny-sweet flavor of Canada's fine-quality all vegetable margarine. You'll appreciate BLUE BONNET'S nutrition. And you'll welcome its real economy. So buy BLUE BONNET and get "all 3" — Flavor! Nutrition! Economy! Use it in cooking, on vegetables, as a delicious spread. Blue Bonnet Margarine is sold in two types — regular economy package with color water, and also in the famous YELLOW QUIN bag for fastest, easiest color.

INFECTED PREMISES—This is the farm of Leonard Wass of McLean, Sask., where the outbreak of foot-and-mouth disease in the Regina area was first discovered. The barn housed his herd of 37 cattle which will be destroyed in the slaughter program being carried out to eradicate the disease. (CP Photo)

... HOUSEKEEPING ...

TIME FOR MAPLE SYRUP, HONEY AND LUSCIOUS HOT BREADS

It's time for hot breads to be back on the table. It's maple syrup time and what could be better than hot muffins dripping with maple syrup? Every day is honey day so your muffins can be dripping with it.

Homemakers today do not serve some of the good things that our mothers served. Often, they made a graham flour cake. It was made the same as an ordinary one or two egg cake except that graham flour was substituted for white. It was served hot with maple syrup or honey. It was filling too, and made an ideal luncheon dessert.

Hot coffee cake is another dessert which just begs to be eaten with butter and maple syrup, and hot popovers and honey certainly need no build-up. Everyone loves corn bread, so serve it often. It's easy to make, easy to serve and oh! so good. Home economists say that farina may be used in place of corn meal. If your luncheon menus are sometimes a little on the scanty side why not whip up a Johnny cake and be sure to serve lots of Canadian maple syrup and honey with it.

Maple Syrup in Small Cans—

Home economists have some new information to pass on. In the past, maple syrup was sold in a gallon can or glass bottle. The bottle was attractive but costly, and a gallon can was a lot of syrup to use. The Quebec producers of maple syrup are for the first time this year selling small cans of maple syrup. These small cans contain 26 ounces by weight of syrup. Maple syrup, which must be sold by weight, must weigh not less than 13.2 pounds per gallon. These small cans should be handy; just punch two holes in the top and pour out the luscious syrup. There's little waste. If these cans of maple syrup have not reached your grocer's shelves, ask him about them.

Honey for Hot Breads—

It's not known when mankind first kept bees for the very earliest records show that bee keeping was then already a flourishing industry. In certain countries, notably Egypt, bee keeping was well established four thousand years before Christ and perhaps even earlier. Canadian honey is a luscious food which runs, hives, flowers and bees together produce. The colors and flavors of honey vary with the source of the nectar. Just like ice cream, honey comes in different flavors. White honeys are obtained from clover, basswood, raspberry and fireweed; amber from dandelion, fruit bloom and golden rod and the dark chiefly from buckwheat. Most everyone likes light, mild honey such as clover honey but some are partial to a dark, strong flavored honey such as light buckwheat. Home economists state that it's a boon that honey is graded, as it's one food which should be bought according to quality. True, not all is graded, but any honey shipped from one province to another must be graded in Canada according to Federal Government regulations as No. 1, No. 2 and No. 3. Along with this grade, honey is graded according to color as white, golden and dark.

Pasteurized honey may be preferred because it never becomes granular. Pasteurizing the honey gives it a creamy, smooth texture. This honey should not be heated to reliquify it. Special liquid honey may be bought if it is preferred.

JENNY CAKE

¾ cup sifted all-purpose flour or ½ cup sifted pastry flour
4 teaspoons baking powder
½ teaspoon salt
¼ cup sugar
1 cup farina, uncooked
2 eggs
1 cup milk
3 tablespoons mild flavored fat, melted.

Mix and sift flour, baking powder, salt and sugar. Add farina

and stir well. Add beaten eggs to milk. Add melted fat to liquid and quickly combine with dry ingredients. Stir well and immediately pour into a greased 8"x8" cake pan or muffin tins. Bake in moderately hot oven, 375 F., allowing 25 to 30 minutes for cake and 20 minutes for muffins. Serve hot with honey or maple syrup. Yield: One cake 8"x8".

SPICED COFFEE CAKES

¼ cup sugar
1½ cups sifted pastry flour or 1½ cups less 3 tablespoons sifted all-purpose flour
¼ teaspoon salt
3 teaspoons baking powder
1 teaspoon cinnamon
1 egg
½ cup milk
½ cup shortening, melted

Mix and sift sugar, flour, salt, baking powder and cinnamon. Combine beaten egg, milk and melted shortening and add all at once to dry ingredients. Stir vigorously just long enough to mix. Half fill greased muffin tins. Bake in a moderately hot oven, 375 F., for 20 to 25 minutes. Serve hot with butter and honey or maple syrup. Yield: 12 medium cakes.

GRAHAM CAKE

½ cup shortening
¾ cup sugar
2 eggs
1 teaspoon vanilla
3 teaspoons baking powder
¼ teaspoon salt
2 cups Graham flour
¾ cup milk

Cream fat until fluffy; gradually cream in sugar. Add beaten eggs and vanilla and beat thoroughly until light and creamy. Add baking powder and salt to flour, mixing thoroughly, and add a third at a time alternately with milk, combining lightly. Bake in a greased 8"x8" cake pan in a moderate oven, 350 F., for 40 to 45 minutes. Serve hot with butter and honey or maple syrup. Yield: one cake 8"x8".

Timely RECIPES

Savory Rice and Sardine Loaf

2 cups cooked rice
¾ cup milk
¾ cup grated American cheese
3 ¾ ounce cans sardines, packed in mustard sauce
2 hard cooked eggs, sliced (for garnish)

To make 3 liberal cups of fluffy rice; put 1 cup uncooked rice, 2 cups of cold water and 1 teaspoon of salt in a two-quart saucepan and cover with a tight-fitting lid. Bring to a vigorous boil and then turn the heat as low as possible—leave over this low heat for 14 minutes. Turn off the heat. This cooking time results in firm grains of cooked rice. For extra tender grains,

allow the rice to steam—with the heat off—for an additional 5 minutes before removing the lid. Never remove lid nor stir rice while it is cooking. After rice is cooked, remove lid, left gently with fork to allow rice to steam dry to the desired consistency. It is then ready—perfectly cooked—with all the grains separate and fluffy.

This method allows all the water to be absorbed and the full nutritional value of the rice to be retained.

METHOD: Thoroughly grease a 9½"x5½"x3½" oven-proof loaf pan with a thick coating of melted butter or margarine. Mix the rice, milk and cheese. Place 1/3 of this rice mixture in the

bottom of the pan and firmly press with a spoon. Lay 1/3 of the sardines on top of the rice layer. Add 1/3 of the rice mixture. Top with the second 1/3 of the sardines. Press the last of the sardines to garnish the loaf. Place the loaf pan in a 350° F oven and bake 20 minutes. To unmold, run a knife around the edge of the pan to loosen the loaf. Place a platter over the loaf and invert the pan together. Gently lift the loaf from the platter. Serve with the individual serving dishes. Arrange egg slices and 1/3 of the sardines around the loaf and on the top. This makes 7 servings.

ANCIENT ORPHANAGE
BEDDINGTON, England (CP)—The historic orphanage in this Surrey town where Henry VIII dined and where the first oranges were grown in Britain, has been sold to municipal authorities. The ancient banqueting halls will be used as classrooms to ease crowding in a nearby school.

HOME OF SEALS
The Pribiloff Islands in the North Pacific are the breeding grounds each year for more than 4,000,000 Alaska fur seals.

Forests that never die

All of us have looked up at bare, logged-over hillsides in this Province of ours. We've seen once green areas now charred and blackened by fire or rusted with blight. This is an all too common picture—a tragic picture of waste and economic loss.

But in the mountains back of Prince Rupert a very different picture is developing. Here are the forests that will never die . . . timber tracts which are constantly protected and renewed by the Columbia Cellulose Company. We call this new job of ours "tree farming". Here's how it works.

Instead of cutting all the timber at once, we take out selected patches of timber. Surrounding blocks of trees are left standing to re-seed the logged-off lands. Should this natural re-seeding fail, Company foresters replant the area. Long before we need them again there will be a healthy stand of mature spruce and hemlock on the same spot.

Successful tree farming takes time and money. Every year, Columbia Cellulose will spend thousands of dollars on forest care. As the young seedlings grow, they will be protected from fire and pest with every known resource of modern scientific forestry. All cutting for our big mill at Port Edward will take place under government supervision and will provide a major source of government revenue. And these forests remain open to hunters and fishermen to enjoy.

Ours is truly a huge investment. Yet we believe there is no better investment for all of us in this Province than forests continuously renewed . . . forests that never die.

Columbia Cellulose Company is the first unit of a rapidly expanding Canadian industrial organization. Within a few months, this organization will be combining timber from British Columbia with natural gas derivatives from Alberta to produce a wide range of fibres and other acetate products for Canadians from coast to coast. Our program of continuous forest yield ensures lasting full-time employment for thousands of Canadian workers.

Education Week

(This is another of a series of essays for Education Week by pupils of Booth Memorial High-School. The subject: Should John Quit School and Get a Job?)

(By N. HILL)

John is about to quit school. Every year, a great many John's quit school to go to work, generally leaving in the Ninth or Tenth Grade. Every boy wants spending money of his own and, for most of the average boys, the only way to get it is by working. Still, an after-school job should give a 16-year boy enough money.

In some families, the parents have had little or no education and do not think it is necessary for their John to go to school beyond the time allotted by the law. Most 15 or 16 year olds are only too glad to get out of school and don't need too much persuasion by their anti-education parents.

John's position in the family is one of the most important factors in this question. Are both his parents alive, working? John may, being the oldest son, suddenly find himself the sole support of the rest of his family. In that case, there is no chance of remaining in school.

John's physical condition is important. He may be a big, husky fellow who could go to school from nine until three-thirty, and work from four until midnight and nothing would suffer except his homework. On the other hand, he may not be strong enough to be doing two things at once, and will have to decide between school and work.

One must also consider John's attitude towards school. Does he show an interest or special leaning towards any one subject, or does he have a general interest? If so, he should by all means remain in school. Or does he just go to school to play basketball and waste time? If so, he should have quit school long ago. Ability, of course, is of extreme importance. If John has nothing in his cranium but muscles and air spaces, he should be out digging ditches. On the other

hand, a boy with superior or even average intelligence should not be wielding a shovel, but pushing a pen.

Another important consideration is whether John has a job lined up that he could go to immediately when he quits school. If he had would it be a job with a future or a seasonal thing? If he quit school to work on a construction job that was only going to last a few months, he would be extremely foolish, for the loss of a few school months could set him back a great deal if he wished to return to school. Also, which is better: to quit school and work as a laborer for a company, or remain in school and, after graduation, get a better job at that same company with more pay and easier work?

We still do not know if John should or should not quit school and get a job but we have tried to show that there is more reason to remain in school than to quit, and, in fact, John should quit school only in a very extreme situation.

HAPPY VETERANS
LONDON (CP) — Many Chelsea pensioners, some of whom were in the British army as far back as 1885, are again lustily singing the old song, "We're Soldiers of the Queen, My Boys." They fought for Queen Victoria in the Boer War and proudly swore allegiance to Queen Elizabeth II.

RUSH CALL
MORILEN, England (CP) — Basil Hart, 42, a building foreman and expert on termites, received an urgent call from France and left for St. Helena to save the house in which Napoleon lived during exile. The house, still owned by the French government, has been ravaged by termites.

A WEEKLY INFORMATION SERVICE

MONTREAL, Mar. 6th. — \$5,000.00 PRIZE MONEY! Here's your Big Chance to win the \$1,000.00 First Prize or any other of the 143 Cash Awards to a total of \$5,000.00. Second prize is \$200.00, third prize is \$100.00 and there are 140 prizes of \$5.00 each. All of these prizes will be DOUBLED if the Prize Winning Contestant has attached only one box-top, label or facsimile from any one of the following products: Velvetta box-top; Crown Brand Corn Syrup label or top; Crown Brand Corn Syrup label or top from cone topped tin; box-top from any "Junket" Rennet Powder or "Junket" Rennet Tablets; Tintex Dye or Color Remover box-top; Tender Leaf Tea box-top from a container of tea or tea bags; Bovril box-top or label; Real-Lemon lemon juice label; Vi-Tone can top; Miracle Whip Salad Dressing label; Bromo-Seltzer box-top or label; Silver Gloss Starch box-top; Robin Hood Cake Mix box-top —White, Chocolate or Gingerbread; Johnson's Pride Furniture Wax label; Davis Gelatine box-top; Lavaris box-top or label; Zubes Cough Lozenges paper disc; Milk-Ko box-top; Chase & Sanborn Coffee front panel from bag or metal strip from tin; Kraft De Luxe Slices label; box-top from an S.O.S. container. You need just one box-top, label or facsimile to DOUBLE your prize money. And you can win a SPECIAL \$1,000.00 BONUS, too. Read about it under heading "1,000.00 BONUS".

\$1,000.00 BONUS
At the time of the judging, a Special \$1,000.00 Bonus will be awarded to the first contestant, with correct solution, who has enclosed one box-top, label or facsimile from any six of the products mentioned above. The judging will commence, if necessary, beyond the awarding of the other 143 prizes until a correct solution is found which qualifies for this Special \$1,000.00 Bonus!

CONFIDENTIALLY YOURS, the popular new week-end newspaper column, presents this Great and Easy Contest. This is all you have to do: Find and circle 19 letters of the alphabet in this column, which if placed in order, would spell CONFIDENTIALLY YOURS. Here's a winning tip, just read back a few lines and you will find the word "Contest". Circle each of the first three letters and you are on your way to the Big Prize Money! You will find the remainder of the letters scattered throughout the column. The order in which you circle does not matter. You may circle the letters in this column or on a separate slip of paper write the complete words from which you took the key letters which spell out your solution. These key letters must then be circled. In this way you can send in as many entries as you wish! Contest closes March 31st, 1952. Be sure to include your name and address. Only first class mail with sufficient postage accepted. Remember \$2,000.00 is the First Prize if correct solution contains a box-top, label or facsimile from any of the above products. THERE ARE 143 OTHER PRIZES FOR A GRAND TOTAL OF \$5,000.00! Major prize winners' names will appear in this column within a few weeks. A complete list of winners will be furnished on request. Mail your entries and enclosures to CONFIDENTIALLY YOURS, P.O. Box 350, Station H, Montreal. Increase your chances of winning by rushing as many entries as possible.

I can't afford to be without it!

These days you can't afford to waste a morsel of food. That's why Hand-e-wrap is so wonderful! It's so easy to tear off just the right amount from the handy dispenser box with the metal cutting edge . . . to wrap meat, fish, vegetables and other perishables to keep them fresh, moist and full of nourishment. There's a wonderful saving, too, when you keep left-overs wrapped in Hand-e-wrap, because its double-waxed surface seals in goodness and prevents food taint. Hand-e-wrap has a hundred uses around the home. You can't afford to be without it!

Hand-e-wrap HEAVY WAXED PAPER

... Saves precious Food dollars!

Embassy Napkins

for Lovely table settings
Made from three thicknesses of soft Cellulose . . . they drape and fold like fine linen.

My Favourite Time-Of-Day . . . when the dinner dishes are done and I relax by the fire for a quiet chat. Ah — haven't you noticed when the dinner's been especially good — it's a particularly happy time. That's why I'm sure HEINZ OVEN-BAKED BEANS will be one of your favourite main-course dishes. They're so easy to prepare in lots of budget-wise, taste-tempting ways . . . and they're always so delicious — mellow and meaty, with real baked-in savour. Yes, this famous meatless dish makes a happy meal . . . so easy on the budget and the cook — and so very easy to eat. You'll want to keep a supply of Heinz Beans always on hand to please the folks. And try Heinz Cooked Spaghetti, too — for the same reasons!

"Mothers-In-Law are mighty handy people — at least that's the way I feel about mine!" Alice said the other day. Her mother-in-law told her how to get sparkling white washes and Alice says she'll be forever grateful. She says it's so easy — so inexpensive — and it really works! Blue does the trick! Prevents clothes from turning yellow. Just a swish or two of Blue in the final rinse and your wash will be snow white! And, when you use Blue, you're not taking chances with anything that might damage fabric for Blue is kind to all fabrics. Inexpensive, too. Costs just a few pennies a month for snowy, brilliant beautiful washes!

Yes, for the whitest wash, it's RECKITT'S Blue.

The Whole Family will be giving you compliments on this delicious fish dish . . . flavoured with the spicy excitement of SUNKIST CALIFORNIA LEMONS. M-mmm! Sunkist Lemons are the finest, juiciest lemons grown! Try them tonight with this Salmon Cheese Ring Loaf:

- 3 Sunkist lemons (quartered)
- 2 c. (1 lb.) canned salmon
- 1 c. grated Canadian cheese
- 1 c. cracker crumbs
- 1 egg, beaten
- 2 tsp. melted butter
- 1/2 c. Sunkist lemon juice
- 1/2 tsp. salt
- 1 tsp. celery salt
- Dash of pepper
- 2/3 c. milk

Drain and flake salmon, reserving 1/3 or 1/2 cup for decoration. Combine salmon with other ingredients, except the lemon quarters. Shape by hand into oval with a sliced shallow baking dish. Top with reserved salmon flakes, dot with butter, bake in moderate oven (350 deg. F.) about 30 minutes, or until golden-brown. Fill center with hot parsley-buttered potatoes and garnish with Sunkist lemon quarters. Serve with medium-thick white sauce. Serves 6.

Hoot Mon! But it's a bonny sight to me to see the way my budget is balancing these days. One of my thirteenth tricks is to serve Jell-O desserts — often. Try it, and see the family applaud this economical . . . because JELL-O JELLY POWDER desserts are so wonderfully tempting and flavorful. With 7 exciting "locked-in" flavors to choose from, each member of the family will have a favorite. And that fresh Jell-O flavor is locked right in each tiny particle until you release it by adding hot water. It's hard to believe — but perfectly true — Jell-O costs only about 2¢ a serving. Serve Jell-O desserts and salads regularly.

Running Out Of Ideas For Nutritious Lenten Meals? Then you'll be glad to know that on every package of KRAFT DINNER there are several helpful suggestions. And, of course, delicious "Kraft Dinner" is an ideal main dish for a Lenten meal. A wonderful macaroni-n-cheese combination — it cooks to tasty lightness in only 7 minutes . . . costs less than 3¢ a serving. And there are four servings in every package of "Kraft Dinner". So easy to prepare . . . "Kraft Dinner" is off the shelf — into the pot — onto the table. So for truly economical — completely delicious — jiffy-quick Lenten meals — ask your grocer tomorrow for "Kraft Dinner" in the new yellow and red package.

Are You Planning A Spring Wedding? Well, when all the excitement has died down — here's something I'd like you to remember. Something every bride should know about is that truly satisfactory method of feminine hygiene . . . ZONITOR. Zonitors are graceful, stainless, snow-white vaginal suppositories — dainty and convenient to use — powerfully germicidal, yet absolutely safe to delicate tissues. Ask your druggist for Zonitors — and for some important facts about feminine hygiene — write to me — Barbara Brent, 1411 Crescent St., Montreal, P.Q. A free booklet will be sent to you in a plain wrapper.

Like To Be A "Comparison Shopper"? Well, the folks at Blue Bonnet would like you to compare their margarine with any spread at any price. They're so sure you'll find, as thousands have, that BLUE BONNET MARGARINE is "tops" in flavour, nutrition — and economy! Being a girl who likes a "bargain" . . . I've already compared Blue Bonnet with several other spreads and I agree — "Flavour! Nutrition! Economy!" Blue Bonnet Margarine gives all 3! Just try it for yourself and see! Look for the fresh, bright yellow package with Blue Bonnet Sue on the front. I'm sure you'll thank me again and again — for introducing you to this budget-wise margarine with the delicate country-sweet flavour.

Public Aid In Germany Staggering

By BRACK CURY

BONN, (AP)—Western Germany is shelling out public aid to almost 13,000,000 persons—or one out of every four in the population.

That's the total of war victims, pensioners, unemployed and others who look to the government for assistance or support.

The crushing burden of social welfare nicks the west Germans for 52 per cent of all tax revenues and 22 per cent of the national income. These costs are rising. The number of aged eligible for pensions is growing. The endless flow of destitute refugees from the Communist east goes on.

From a population of 48,000,000, more than 1,300,000 Germans now are jobless. More than 250,000 live in barracks or the ruins of bombed buildings. Some 20 per cent of the population draws pensions of one type or another.

These are some of the hard

facts of German life backing the German claim that their taxes and social charges are higher than in any other European country.

The federal government's annual report says social welfare is costing the country 17,800,000,000 marks (\$4,094,000,000).

This includes: 7,345,000,000 marks (\$1,689,000,000) for unemployment insurance, 1,250,000,000 marks (\$287,500,000) for pensions, 9,205,000,000 marks (\$2,117,000,000) for payments to war victims housing, food subsidies and assistance to isolated Berlin.

REFUGEES PROBLEM

The social burden is almost as great as the entire federal budget. The federal government cites this heavy burden as an argument against increasing west Germany's financial contribution to western defence, despite sensational increases in industrial output and foreign trade.

Some 9,000,000 refugees have crammed into overcrowded west Germany since 1945—and they still flock in at the rate of 1,009 a day.

Most are penniless. Many are too old or too sick to work. Many depend on government handouts to keep alive.

Aside from the aged and the refugees, Germany's pension burdens extend to the families of 3,500,000 war dead and 2,000,000 war maimed people.

Sees Need For Hotel

Full Advantage of Tourist Possibilities Not Taken—

Railway Official Enthusiastic

With more and more tourist visitors coming to Prince Rupert and prospects that their number this season will be the greatest yet, Allan Griffin, district passenger agent for Canadian National Railways with headquarters in Vancouver, sees more adequate hotel accommodation here as a pressing need.

Now that more frequent service is being provided by the railway in the way of trains and buses, Mr. Griffin thinks that tourists would commence staying over here for longer visits if the accommodation were available. "One way things are now, visitors are nervous that they might not be able to get accommodation at all."

"And couldn't the railway do something itself about a hotel here?" Mr. Griffin was asked. That was a question which was out of his jurisdiction, he replied.

Mr. Griffin said that the response to the six-days-a-week train service on the Prince Rupert-Jasper line of the railway was gratifying. It was being well patronized now and "we are confident it will grow," he said.

The passenger official also expected that the bus service between Prince Rupert and Smithers would win popularity as an alternative daylight run to the trains.

Mr. Griffin anticipates the possibility of tourist travel into Tweedsmuir Park area from Burns Lake receiving more attention on the part of tourist visitors.

"And all this new traffic and business centres on our port of Prince Rupert," admitted Mr. Griffin with comment in keeping with the new and friendly attitude toward this port and line which has been so apparent of late among Canadian National officials.

Mr. Griffin and William Cruickshank, general agent, passenger department at Prince Rupert, are making the round trip to Ketchikan on the Prince George today. Returning this evening, Mr. Griffin will proceed by train to Jasper enroute back to Vancouver.

Preventive Dental Clinic, PTA Accomplishment, Starts

Another accomplishment of the Prince Rupert Parent-Teacher Associations is the children's preventive dental clinic which came to fruition yesterday.

Emanating from the Parent-Teacher Council, a committee has been at work and their first foray came yesterday when 18 Grade 1 children visited the three dentists in town and received their first examination.

The regular sessions will be held each Wednesday forenoon with the children being elected at their respective schools and taken to the dentists.

Six children are being given treatment as far as possible in each three-hour session. Some require less time than others.

'Open Day' At Borden Street

Visitors Find That "Three R's" Are As Soundly Done As Ever

"Open Day" at Borden Street School in connection with the observance of Education Week was again a notable success with 120 parents in attendance including several men. Visits were made to the different classrooms where the parents say their own children and the teachers at work and also had an opportunity to see the work of other children on display.

"I wish I were back at school now," said one parent. "Things are more attractively done than when I attended school," and the speaker agreed with the teacher who remarked that the "Three R's" were just as soundly done as in the old days.

"Oh, I know that, for my boy can do things I am sure I could not have done at his age." The parents visited rooms generally and this was perhaps done to a greater extent than in previous years, probably due to the "more at home" feeling of the parents as a result of recent years and the "open day."

Visitors signed the Visitors' Book as they were welcomed to the school by Grade Six girls. The varied displays of hand work and practical art were favorably commented upon by the parents and the creative originality of the pupils was the subject of much admiration.

In connection with "open day" a tea was put on by the Parent-Teacher Association under the general convener'ship of Mrs. A. Logan, president. Cashiers were Mrs. A. J. Dominato and Mrs. H. J. Marchant. In charge of the kitchen were Mrs. Lineham, Mrs. Ridsdale and Mrs. E. Thompson. Serviteurs were Mrs. A. B. Brown, Mrs. A. Oglvie and Mrs. George Cook. Presiding at the tables and pouring were Mrs. A. S. Nickerson and Mrs. R. Greissel.

The room was tastefully decorated with white and green trimmings and the table carried out the St. Patrick's motif with shamrocks. Outly designed hats also featuring the shamrock provided attractive headdress for the ladies.

Co-op Officials Here for Meet

To participate in the annual meeting of Prince Rupert Fishermen's Co-operative Association, several officials arrived yesterday from Vancouver. They included T. H. Sorenson, general manager of the Fishermen's Co-operative Federation; J. Donaldson, president of the Federation; G. T. Greenwell, general manager of the Fishermen's Co-operative Association of Vancouver; H. Blake, Association delegate; A. V. Hill, director of membership relations of the Federation, and Robert Donaldson, a representative of the University of British Columbia extension department working with co-operatives.

SHIPS AND WATERFRONT

US Coast Guard Hemlock departed early yesterday after spending a day on the pontoons of Prince Rupert Dry Dock. The vessel damaged a propeller, likely on a watersoaked log, said Lt. Commander Glatz, the captain. Outside the three-mile limit, the vessel's closest port of aid was Prince Rupert.

CNSS Prince George arrived yesterday at 10 a.m. on her regular scheduled voyage with 62 passengers out of Vancouver, 30 of whom disembarked here.

G. E. Moore, local fisheries inspector, who has been on a trip to Vancouver on departmental business, returned to the city on the Prince George yesterday.

Both Legs Amputated

Olof Holm, who until he was struck by a train a year ago, having been hospitalized in Vancouver, has been discharged from the hospital in Vancouver. His legs have now been amputated.

Vic Giraud, fisherman at Terrace, and Louis Spector at Smithers, have been on a trip to Vancouver on departmental duties yesterday and proceeded interior by the evening.

Mr. and Mrs. Albert have been revisiting the past few days, and returned to Seattle on the Prince George tonight.

Cattle Import Ban Remains

VICTORIA—Hon. H. R. Bowman, minister of agriculture, states that there is no immediate intention of relaxing the ban on importation of British Columbia live and dressed cattle. The minister had been earlier reported as saying there might be early lifting of restrictions.
