Liberal Meeting Called
 Will Be Held in Vancouver soon after the Easter week-end, it was reported here today.
 Liberal leaders are laying out the party, which will meet at a time when federal elections are expected to be held in the British Columbia province.
 The party has voted a \$94-million budget for the next six months following agreement of all parties after the government Tuesday announced its educational bill.
 W. A. C. Bennett said today that he will ask the Legislature next week and, if it is passed, an election will be held in June.

FINES TODAY
 A man is expected to prosecute today under an agreement for passing controversial measures. Controversial bills are expected for passage.
 The supply bill of approval of \$11,500,000 municipalities as their share of the supply bill of \$16,000,000 for schools, \$57,322 for the fiscal year ending March 31, 1952, and \$3,638,612 for supplementary estimates for the fiscal year ending March 31, 1953.
 An election will be held in the additional supply bill.

WEATHER—
 Synopsis
 Centre which is developing off the coast of Vancouver is sending a circulation of moist air over the province.
 Forecast
 Coast Region: Gale
 with frequent showers and gusty Saturday. Not much change in temperature. Southerly winds increasing to southerly by late afternoon. Low and high tomorrow at Prince Rupert, Sandspit and Prince George.

Arrested Patient
 11 Persons
 A patient imagined fears went to the tuberculosis hospital Thursday and stabbed persons before a young man was taken into custody.
 Esteban Ruzero, 37, told authorities "I lost my mind."
 Patients at Firland were knifed, one others wounded were employees.

Young Millworker Fined \$100
 for 'Doing Mischief by Night'
 A 19-year-old mill employee was fined \$100 and costs for mischief by night in the city for two months in jail by Magistrate Walter Vance for "doing mischief by night" and damaging property at more than \$100.
 Kurik, who said he was in the city for two months in jail by police for making a jail radiator rattling when locked up on charge.
 Magistrate Vance said he did not "condone your type of attitude at all," speaking to Kurik in the prisoner's box.
 "I think you were just a show-off. I've run into your type before."
 Kurik admitted earlier in the witness box that he had made a noise and had "demanded my cigarettes" and had "demanded to make a phone call to my boss" when he was locked up Saturday night at about 11:30.
 Mrs. Ray asked for a dismissal on grounds that the radiator had been shaken loose by other prisoners who rattled the pipe "for perhaps as long as 40 years."
 Crown counsel A. Bruce Brown called for a conviction saying it was "deliberate and wilful destruction following the actions of the accused."
 Sidney Elkins, city plumber called to shut off the escaping steam after the radiator crashed to the floor, breaking into many pieces, stated replacement would cost \$50.

THIS PHOTO OF QUEEN MARY was taken when she was Princess May of Teck, shortly before she became the bride of the Duke of York, later King George V.

Death Opens Way For Duke's Return

LONDON (CP)—As Britain prepared to bury beloved Queen Mary, the *Beaverbrook's Daily Express* said the death of the royal matriarch is a cue for her eldest son, the Duke of Windsor, to return to England to live.
 "Let the mourning end his exile," declared a heading over an Express editorial. The Duke is in England. The Duchess remained in New York.
 She never was received at court since the Duke gave up the throne 16 years ago to marry her.
 Most observers consider Queen Mary—a stickler for conventions—was at the bottom of the boycott.
 The Daily Sketch said today the Duke of Windsor and his American-born Duchess may quit Britain forever unless he receives an official appointment of some kind from Prime Minister Churchill.
 "His friends believe the Duke of Windsor will leave Britain forever now that his mother, Queen Mary, is dead," the Sketch said.
 "Her death has severed his strongest link. Only one thing might prevent him staying away permanently—the offer of an official post. His wife is waiting in New York to hear what he plans to do."
 The Queen will be buried Tuesday at a private service in St. George's Chapel at Windsor Castle, final resting place of English Kings and Queens since Tudor times.
 Her body will be placed in a tomb on the south aisle of the chapel beside that of her husband, King George V.

U.S. Marines Battle for Vegas Outpost

SEOUL (CP)—United States Marines and Chinese Reds were locked in savage battle today for Vegas Outpost, captured by a fierce 3,500-man Communist attack on a 5½-mile stretch of the Korean western front.
 Reno, second Marine outpost lost in the screaming Red attack, remained in Communist hands.
 The Chinese also clung to devastated Old Baldy, 52 miles north of Seoul, captured Wednesday from the U.S. 7th Infantry Division.
 Both sides have taken heavy losses in the mounting western front fighting.
 Nearly 2,000 Chinese casualties have been counted.

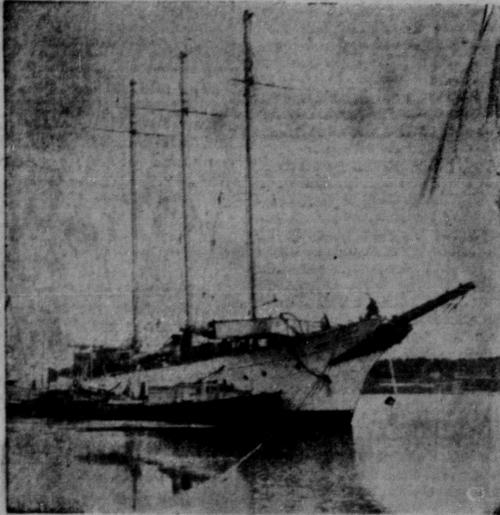

Credit Grantors Meeting Tonight

Jim Taylor, manager of the Royal Bank of Canada, here, will be guest speaker at the dinner meeting tonight of the Credit Grantors Association.
 His subject will be "an analysis of your statement from your banker's point of view." The meeting will be at the Civic Centre, starting at 6:30.

Mau Mau Terrorists Massacre Villagers In Midnight Strikes

200 Killed by Gangs In Surprise Move

NAIROBI, Kenya.—Mau Mau terrorists massacred an estimated 200 African men, women and children north of Nairobi during the night—beginning the open war they promised against white settlers and pro-government Africans in the British colony.
 The anti-white cultists went on the warpath in a seven-mile strip of Kikuyu settlements, hacking men, women and babes-in-arms to pieces, shooting, and burning huts at will.
 Another gang stormed into the town of Naivasha, 55 miles north of Nairobi, and swept through the police station, killing five African policemen.
 They ransacked the station and seized 50 rifles, 12 sub-machine guns, carbines and thousands of rounds of ammunition.
 An hour after the Mau Mau gangs launched their midnight attacks, the village of Lari in Kaimba, a reserve 10 miles from Nairobi, was in flames from end to end.
 Dozens of Kikuyu families died in the roaring furnaces of their wooden huts.
 All victims of the attack on Lari were Kikuyu home guards or government servants and families.
 Mau Mau—Hidden Ones—recruit most of their members from the nearly 1,000,000-strong Kikuyu tribe.
 Some of the Mau Mau gangs were estimated to have numbered between 300 and 500 men.
 Nearly 300 persons, most of them Africans who refused to join the Mau Mau, have been killed in the last year by the fanatic terrorists.

THIS SLEEK THREE-MASTER is being made ready for a new career as a hydrographic survey vessel for the Canadian government. Built in Denmark in 1923, the 535-ton steel-hulled yacht Vema went into service for the United States government in 1941. She now has been purchased by Capt. Louis Kennedy to replace the City of New York, Admiral Byrd's old exploration ship, which was lost off the Nova Scotia coast this year. The Vema is shown tied up at Dayspring, N.S.

Emergency Powers Act Extended

By The Canadian Press
 OTTAWA.—The Commons voted Thursday night to extend for another year power enabling the government to act without consulting Parliament in the event of an emergency.
 Members voted 107 to 50 to extend the Emergency Powers Act to May 31, 1954, after Prime Minister St. Laurent said its provisions were as necessary for Canadian security as was the country's huge defence program.
 George Drew, Progressive Conservative leader; M. J. Coldwell, CCF leader, and other opposition members had criticized the government for seeking renewal of the act. They said it is not necessary.
 They forced formal divisions on second reading as well as on the third and final reading.
 At the suggestion of the Progressive Conservatives, the government accepted a last-minute amendment. It removed the provision under which legislation could be continued beyond May 31, 1954, merely by an address to the Senate and Commons.
 The bill now goes to the Senate for approval.

Moore Named Head Of Hospital Board

Robert G. Moore, principal of King Edward elementary school, was named president of the board of directors of the Prince Rupert General Hospital Association at last night's annual meeting.
 P. H. Linzey, provincial government representative, is the new vice-president.
 Others on the board are Bill Scuby, Norm Bellis, J. D. McRae, Jack Martin and E. A. Evans, elected, and the following appointees: Mrs. R. G. Moore, representing the Women's Hospital Auxiliary; Dr. L. M. Greene, retiring president, representing the Prince Rupert Medical Association; Ald. Ray McLean, representing city council.
 Problems of increased cost of operation of the hospital which may this year create a deficit of more than \$50,000, and improvements to the hospital were major topics discussed.
 While last year's operation of the hospital at a cost of \$361,083.88 showed a net loss of \$9,745.62, this year's estimated budget is \$51,000 greater than in 1952.
 Meanwhile, all hospitals have been told by the B.C. government that grants will not be increased this year.
 "We hope to realize enough additional funds to plan for an enlarged completely modern hospital. It is hoped that within the next few months we will be able to complete our plans and commence the final phase of our modernization program," he told members.
 D. C. Stevenson, hospital administrator, reported an average of 80.9 patients per hospital day during 1952, an average increase of 5.7 over 1951. Number of patients days had spiralled to 31,735 from 27,474 in 1951 and number of patients admitted were 3,915 compared to 3,823 the year before.
 Mr. Stevenson pointed out that increased hospital costs compared with the increased living costs over the past five years, saying that since 1948, costs had risen 30.65 per cent.
 Dr. Greene added that "correspondence from the responsible minister would indicate that he is fully aware of the problem and not entirely unsympathetic to ward it."
 ACCEPT RESIGNATION
 The retiring president expressed concern over resignation of consulting radiologist Dr. B. J. Margarine Heir Sent to Jail
 NEW YORK (CP)—Minot (Mickey) Heir, heir to the oil-magnate fortune who was convicted of inducing a number of girls to become prostitutes, was sentenced today to three to six years in prison.

MRS. ALICE BOYSE SHAW, 60, of Winnipeg, is seeking \$148,423 from the war claims commission as payment for being a Japanese prisoner in the Second World War. She testified that Japanese internment killed her 70-year-old husband and that her own weight dropped from 135 to 81 pounds during the confinement. The couple was interned in the Philippine Islands.

Russ Patrol Seen Near Alaska Tip

By The Canadian Press
 JUNEAU, Alaska.—Alaska's National Guard adjutant reported Thursday night Eskimo scouts sighted a three-man armed patrol hiking across the ice from Russia's Big Diomed Island toward the American Little Diomed two weeks ago.
 Col. Larry Johnson, adjutant, said the alert sounded and the trio returned to Big Diomed after members of the Eskimo scout battalion hurried to the defence and lookout positions on the west side of Little Diomed.
 Johnson said the three first were sighted by two Eskimo guardsmen and that they said the three approached to within about 1¼ miles of Little Diomed.
 The islands are about three miles apart in Bering Strait, closest of any Russian and American territory.
 It is the first case of scouts reporting an unidentified group approaching American territory, but the colonel said the Eskimos have reported numerous instances of vapor trails which apparently were from highflying but unidentified aircraft.
 The colonel said witnesses reported two of the intruders wore white uniforms and carried a sub-machinegun and a rifle, respectively. The other, in a dark uniform, carried no visible weapon.

British Youths To Explore In Cariboo

LONDON (CP)—The annual expedition sponsored by the British Schools Exploring Society will send more than 50 British youths into British Columbia's mountain wilderness this summer.
 Boys between 16 and 18 are to camp for a month in the Cariboo district, mapping and collecting naturalist lore for British museums.
 From Montreal, where the group is scheduled to arrive August 4, the party travels to Vanderhoof, B.C.
 Supplies will be brought from Britain.
 The organizers hope to accommodate some interested Canadian youths.
 Total cost of the expedition will be about \$14,000.

Money Refused For New Bridge

LONDON (CP)—The recent conference of Commonwealth ministers has just had an impact in London. The British treasury has refused to release funds for a bridge in New Zealand.
 The link between the two events—the Commonwealth economic conference and the New Zealand bridge—is simply that the Commonwealth ministers decided that future investment should be related where possible to projects that have something to do with earning or saving dollars.

Baby Bonus Payments Up

VICTORIA—Five hundred and thirty families with 1,450 children were added to the British Columbia Family Allowances rolls during March, bringing the total to 173,933 families and 347,610 children, according to W. R. Bone, regional director.
 A part of this increase can be attributed to the entry to the province of 335 families from other parts of the Dominion. During the same time 288 families left. The prairie provinces and Ontario were responsible for the bulk of this movement in both cases.
 During March, family allowances payments totalled \$2,091,923.00 as compared with February's \$2,084,764.00.

Agreement Reached

BERLIN (AP)—The United States high commission's newspaper, Neue Zeitung, says East Germany and Czechoslovakia have agreed on a system of exchanging military information and training. The treaty was worked out by Soviet Marshal Leonid A. Govorov in Czechoslovakia.

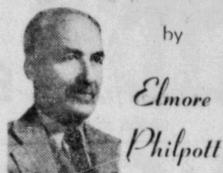

Novel Basketball Contest Set for Saturday Night

The stage is set for a novel basketball feature Saturday night when a major lineup of former cage greats face today's senior all-star Challengers in an exhibition fixture.
 The Challengers will face a formidable squad and plenty of competition as even their regular coach, Alex Bill, will be playing on the floor against them.
 Other old-timers on the line-up will be Jack Lindsay, Sev Dominato, Fred Calderone, Mel and Helge Holkestad, Don and Ted Arney, Vern Ciccone, Ole Slatta, Nick Pavlikis, Don Fitch, Herbie Morgan and Joe Davis.
 While no referee mate has been found yet for R. H. (Slim) Davidson, Basketball Association president Art Murray indicated he would take on the job himself.

As I See It

Salmon Bottleneck

THAT plan for cheaper shipment of Canadian gift parcel salmon to Britain has touched a live public nerve.

Almost as soon as it appeared in print business men as well as ordinary citizens were phoning or writing me about it. They tell me of an almost unbelievable bottleneck.

Here is the almost incredible truth which comes from the most responsible exporters in B.C.:

Up to date we have not been allowed to keep stocks of salmon etc., in Britain, from which Canadians can forward gifts, because the British government will not permit that. Believe it or not, the present British Conservative government stands pat on exactly the same policy as did the Labor government. It probably doesn't know the situation exists—it may seem small! So far as Canadian business men can discover, the principle behind the strange policy of exclusion seems to be this:

The idea behind food rationing was that everybody was to get "fair shares." Hence, the British government reasoned, if stockpiles were permitted in Britain from which people living across the seas could regularly send parcels to families in Britain those latter families would be in a preferred position over the others.

LAUDABLE as this policy may have been in the early years of dire scarcity in Britain, it is clearly out of date now.

Maybe readers of this column will clip and send it to friends, newspaper editors, M.P.'s, or cabinet ministers in Britain. It will let them know exactly what it is we in Canada are trying to get, and what is the British government's short-sighted policy which is blocking us.

Our plan is this: Canadian salmon packers would forward to Britain a stock of canned salmon. When people in Canada wished to send parcels to friends in Britain they would place the order here, as they do now, at any store co-operating in the plan. But the order would go forward airmail. The parcel would actually be packed in Britain and delivered to the lucky family in Britain within a week or so—from the stockpile in Britain.

The savings would be truly tremendous, not only in time but in money. Postal charges are now \$2.25 to a 10 to 14 pound parcel and \$3.25 for one from 15 to 20 pounds. It takes several weeks for individual delivery.

B.C. SALMON men thought out an ingenious system a few months ago to pool gift parcel sending. Parcels were consolidated into shiploads at Canadian eastcoast ports. But this proved too clumsy and too complicated at the far end. Among other things, the losses from pilfering at the ports were very heavy.

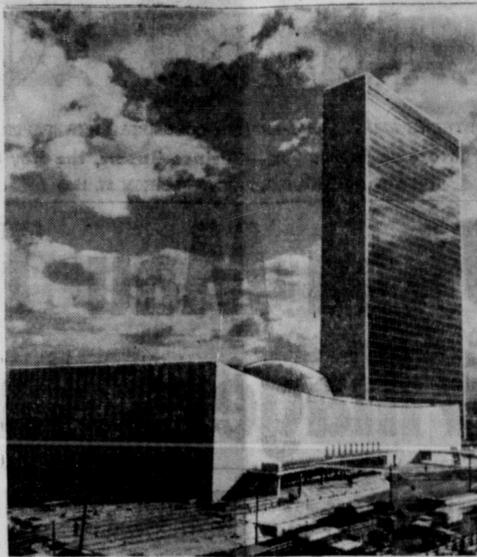

But one can get an idea of what savings there might be when one notes that under the consolidated parcel shipping plan it was possible to send six tins of choice B.C. salmon to Britain for \$2.95. When the consolidated shipping plan had to be abandoned the rate went up to \$3.75 for the same six tins.

PLEASE LET your friends and editors in Britain know, through this column if you wish, that we in Canada are not asking Britain to spend any of her very scarce dollars on this plan. We want to set up in Britain a stockpile of the finest salmon in all the world. We would own it. From that stockpile, Canadians could send parcels of salmon to friends in Britain.

All that we ask is this: We want to keep on spending the same amount that we are now spending on parcel gifts to friends in Britain. But we want to save the vast sums now lost on shipping and inefficient handling.

Allied Troops Quit 'Old Baldy'

SEOUL (CP)—American troops today abandoned Old Baldy to the victorious Chinese. Under cover of darkness, the U.S. 7th Division infantrymen pulled out. It is the worst beating for United Nations troops since they were thrown off the Kumhwa ridges five months ago.

THE U.N. GENERAL ASSEMBLY BUILDING is in the foreground, the 39-floor Secretariat Building rises in back of it. The two are connected by a third main structure, the Conference Building (not visible on this photo) to make up the permanent headquarters of the U.N.

OTTAWA DIARY

By Norman M. MacLeod

Whether by accident or design, M.P.'s from the Maritime provinces are in process of demonstrating that, as strategists, they aren't above taking a leaf out of the book of their colleagues from the Western Prairies.

Timing their move tactically on the eve of a general election, they have raised the claims of the Maritime coal industry—the small mines especially—for Federal assistance.

At the moment it looks as though their crusade is going to achieve some measure of success. For on both first and even subsequent glances the arguments of the Maritimers are fully equal to those which in the past have pried tens of millions of dollars loose from the national treasury for the benefit of the wheat growers and livestock producers of Western Canada.

It follows that if the government wishes to retain the support of the Nova Scotia and New Brunswick coal mining areas when election day comes, it cannot afford to turn a deaf ear to the powerful representations which the Maritimers currently have succeeded in making.

The situation in a nutshell is that the small mines of the Maritime provinces can only survive if the CNR buys their coal. But CNR President Donald Gordon says the CNR can only buy their coal if it is priced competitively with coal available from United States sources. For the CNR to pay more for it would involve an indirect subsidy to the Maritime mines. And President Gordon properly takes the stand that subsidies are a matter for Parliament to decide, not for the CNR.

That puts the problem right in Parliament's lap at a moment when the first rumbles of the election campaign guns already can be heard. President Gordon

made this plain when he said that the CNR "needs and will buy all the coal that Maritime mines produce—if prices are competitive." He told the Commons Railway Committee that United States coal laid down in Moncton cost the CNR \$12.33 per ton, while Canadian coal laid down at the same point cost \$13.04 per ton. That leaves a margin to be covered by subsidy of 71 cents per ton.

Since CNR purchases of anything above 50,000 tons per year would solve the problem of the small Nova Scotia mines, the amount involved is reasonably modest when measured against the huge grants which have been paid out to Western farm interests over the years on grounds of compassion and equity alike. It is important to note that during wartime Nova Scotian mines supplied the CNR with coal below the market price at that time. That puts them in a position comparable to the Western wheat growers who sold wheat to Britain during the war at lower than world prices. Subsequently the wheat growers received \$60,000,000 from the public treasury as compensation. A small fraction of this amount will meet the temporary problem of the Nova Scotian mines and its fair wage that they will get it.

Amateur Spotters

LONDON (CP)—Amateur "spotters" who study the movements of trains, airplanes and buses have become so numerous in Britain that a special publication, "every spotter's weekly," has been launched.

Ray Reflects and Reminisces

Don't ask a judge to give you a little of his time. He's apt to be more generous than you expect.

A fine thing about Mr. St. Laurent is that he is never ashamed to speak proudly of Canada. He wears, in this respect, his heart upon his sleeve, with the happy result that Canadians everywhere respond to his words and themselves feel the better for it—Montreal Star.

It has taken about a century and a half to discover the correct place near Quebec where Wolfe and Montcalm shouted unkind remarks at one another. Historians declare the battle of the Plains of Abraham did not take place there but at what is known as "Neveu's Knoll" at the upper centre of the ground. As fighting areas go, the exact location hardly makes much difference. But what does matter, where this one is concerned, were the results flowing from it. Consequences can be considered the most historic in the continent's history.

Seattle is at last realizing Prince Rupert's planned barge service to Ketchikan and, doubtless will, give Seattle a body blow. Then Puget Sound people have long known this, and are sports to admit it. The whole coast has been familiar with local advantages, but somehow

christ's mother, aged 102, not far from Belfast, Ireland.

With elections and all that, this looks like an empty-dumpty sort of summer in B.C. And then, along comes Attorney-General Bonner to introduce double beers, together with pretzels, cheese straws and chips. By jingo, this is living!

SOON OR LATE
Seattle is at last realizing Prince Rupert's planned barge service to Ketchikan and, doubtless will, give Seattle a body blow. Then Puget Sound people have long known this, and are sports to admit it. The whole coast has been familiar with local advantages, but somehow

these could never be met react in a practical way. Day, times are changing.

Nothing To Fear

THERE has been a great deal of talk lately about the ripening future of Prince Rupert and environs. The question now arises, what happens to us?

Us, to play havoc with the English language, are the people. It is very well to picture this region as a great centre of industry and development, but unless it has some corresponding benefit to the spirit of the people, there is no reason to be enthusiastic.

Communists will interject at this point that there cannot possibly be any such benefit until the whole system is changed. In their minds, nothing will be right until the industry concerned becomes the property of those it now employs.

The fallacy of the Communists—and those of Prince Rupert are included—is that they advocate an existence even more materialistic than the one we already have. Friederich Engels, who wrote most of the script for Karl Marx, expressed the opinion that the process of life is determined entirely by its material production.

On this premise, Lenin and his heirs closed down the church, demanded that all creative impulse fit the party line and viewed the individual as a unit producing so many ergs of work for so many amperes of human energy.

If this view were allowed to prevail here, in this particular area, it is unlikely that we would draw any satisfaction from whatever growth may be in store. There would be nothing inspiring in the efforts of men and women to extend the boundaries of development because their efforts would be those of duty, not of desire. There would be no gratification once this was accomplished because, under Communism, the individual's pleasure belongs first of all to the state.

As long as the people of Prince Rupert move ahead without forgetting that the material development is meaningless unless it is accompanied by the spiritual, there is nothing to fear and everything to hope for.

Scripture Passage for Today

"O come, let us worship... the Lord."—Psalm 95:6.

Captain Tisdall Made Commodore On Taking Over Duties at Halifax

INCOME TAX QUIZ

Q. My 18-year-old daughter was dependent on me until she graduated from school in June, 1952, and went to work. She earned \$850 during the balance of 1952. Can I still claim my daughter as a dependent?

A. No. Irrespective of the fact you supported your daughter for six months of the year, you cannot claim her as a dependent because her income during the year was in excess of \$600.

Q. I am a single person and was formerly resident in Europe. I entered Canada to take up residence on July 1, 1952. I was employed for five months and earned less than \$1,000 but tax was deducted at source. How does the income tax law work in the case of new Canadians?

A. Persons entering Canada to take up residence, or leaving Canada to take up residence in another country, during the year are taxable only on income earned or received while resident in Canada. Accordingly, they are entitled only to a portion of their exemptions and deductions in accordance with the length of time they were resident in Canada during the year. In your case, since you were resident in Canada for a period of six months during 1952, your personal exemption as a single person will be reduced from \$1,000 to \$500. You are therefore subject to tax on the amount of your income in excess of \$500. It is important that new Canadians who entered Canada last year, state the date of their arrival as requested on the income tax forms.

OTTAWA (CP)—Capt. Ernest Patrick Tisdall, 46, of Duncan, B.C., has been promoted to the rank of commodore on taking over duties as commodore of the RCN barracks at Halifax.

A native of Newchwang, North China, with 30 years' experience with the RCN, Commodore Tisdall has commanded the West Coast training cruiser Ontario for the last 1 1/2 years.

He attended the University school at Victoria after coming to Canada in 1918, and attended the Royal Naval College at Esquimalt, B.C., during the 1921-22 term.

Commodore Tisdall resumed his naval training in 1924 when he went to the Royal Navy as a RCN cadet.

While with the Royal Navy, he specialized in gunnery and it was as gunnery officer that he was appointed to HMCS Stadacona, Halifax naval establishment in 1933.

Commodore Tisdall commanded the Royal Guard at Victoria for King George VI during the 1939 royal visit and was in command of the parade at which the late King presented the King's Colors to the RCN.

His posts during the Second World War included command of the destroyer Skeena, executive officer of HMCS Stadacona, director of naval training at headquarters, commander of the destroyer Assiniboine, superintendent of the naval armament depot, Dartmouth, N.S., and commander of the Ontario.

In 1946, he took over the post of executive officer at HMCS Naden, naval establishment at Esquimalt, and from 1947-49 he served at headquarters as director general of naval ordnance and then director of weapons and tactics. He was promoted to captain on Jan. 1, 1948.

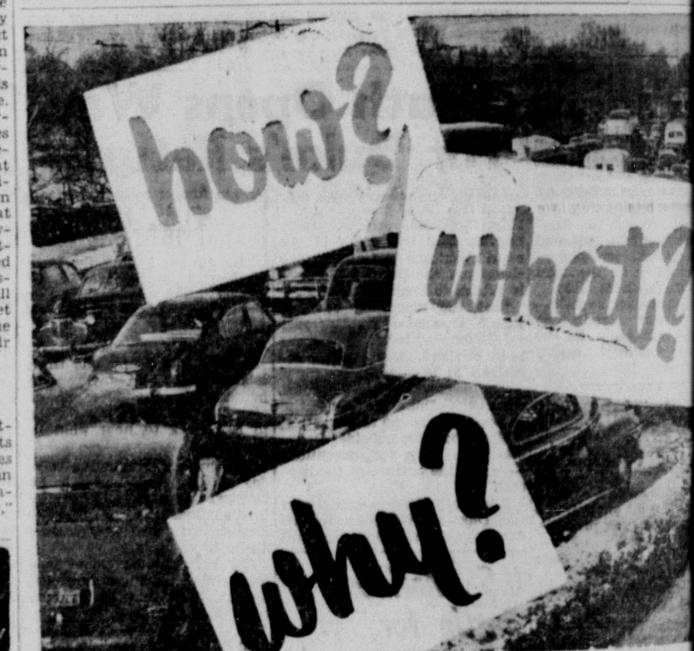

He returned to the Ontario in 1951 and his ship was chosen to convey the Royal couple from Charlottetown to Sydney, N.S., and St. John's, Nfld.

HOW much have automobile insurance rates increased?

- In relation to other car costs they've gone down.
- Each \$100 of insurance carried takes a smaller portion of the motorist's dollar than ever before.
- But cars are more expensive. You can't insure the \$2,400 car of today as cheaply as the \$850 car of 1939.
- So, in dollars, how much have auto rates gone up? An average of 30% for Public Liability and Property Damage. An average of 60% for full coverage.

WHAT affects the cost of automobile insurance?

- The number of accidents
- The average cost of accidents
- The costs of doing business
- The profit or loss of the insurance company

WHY have rates gone up in dollar cost?

- Because accident rates have been soaring.
- Today one person is killed every four hours in Canada—one person is injured every fifteen minutes—a fender is smashed every two minutes.

BECAUSE accident costs have been soaring.

A wrecked car costs two to three times as much to replace as in 1939—a damaged car costs twice as much to repair—these lenders every two minutes cost three times as much.

BECAUSE medical and hospital costs have increased an estimated 165%.

The bill for injuries is the highest in history.

BECAUSE average Canadian earning power is up 150%.

That means higher payments to settle "lost time" claims.

THEN HOW have insurance companies kept rates from going much higher?

- By cutting operating costs. Overhead is higher but operating costs per vehicle have been slashed.
- By losing money. Auto insurance companies paid out \$65,000,000 in claims last year. They lost \$6,300,000 doing it.

THE REMEDY

- Reduce accidents. When the accident rate goes down—unless the cost of each accident goes way up—insurance rates will go down too. Competition makes that certain.

REMEMBER—
The accident that doesn't happen never costs anybody a dime.

Work of Local Artists Adds Colorful Variety to Show

Visitors arriving steadily throughout the afternoon and evening at the art exhibition held at Booth Memorial school was rated by its organizers as a complete success. The display of the paintings on display reported to have been the best yet seen in the city. The display was the work of J. B. Taylor, A.O.C.A. He made a specialty of the scenes in Alberta and the Taylor's paintings attract much favorable attention.

Members of the local art club who have received instruction from Mr. Amadio showed the benefit of this in the paintings they had on display. Their work was skillfully done and added colorful variety to the exhibit. Those who had paintings on display were:

Mrs. G. Hill, Mrs. Thomas Priest, David Radford, Mrs. Sid Elkins, Mrs. Bessie Wackley, Mrs. G. Beauchemin, Mrs. Herb Young, Miss Isobel Magee, Miss Lillian Wasuta, Mrs. J. F. Magor, Mrs. J. T. Harvey, Mrs. M. Daugherty, Mrs. Jim Rogerson, Mrs. L. M. Greene, Mrs. G. Smith, Mrs. J. O. Husvik.

The puppet show put on by students under the supervision of Miss Magee added to the enjoyment of the occasion. Tea was served both afternoon and evening.

Rotary Choir Asked to Make Record For CBC

Prince Rupert's Rotary Choir has been asked to record a 15-minute audition for the Canadian Broadcasting Corporation's "Parade of Choirs" network program.

Rehearsals for the audition take place Monday and Tuesday. All choir members are asked to be present at the Civic Centre at 8 p.m. both days.

The recording will be made on Wednesday. If the audition is accepted, the Rotary Choir will appear on the regular Friday evening program at 10:30.

Hobby Show To Be Held In Centre Next Month

Dates for the Prince Rupert and district hobby show planned for several weeks by Rowland Miles, Civic Centre handicrafts instructor, have been set for April 24-26.

Invitations have gone out to all known hobbyists in the district to enter a display. There is no entry fee and no competition. The show is open to every person who follows a hobby but not to professionals.

Such displays as leathercraft, needlework, woodwork, photography and artificial flower-making are expected to take a prominent part in the display which will take up space in both the Civic Centre gymnasium and the auditorium.

Actual demonstrations in leathercraft and coppercraft are planned and a tea is to be served for guests.

Another feature of the display will be a continuous showing of films dealing with hobbies and handicrafts.

Mr. Miles, who has instructed handicraft classes in the Civic Centre here for several years, is enthusiastic about this year's show.

"It will be open for the first time to hobbyists outside the Civic Centre classes. We hope also to attract a good display of native art and crafts."

"I know there are many people here ingenious in various hobbies. It will be a privilege for us to display their work and should be of much interest to the general public."

He will also deliver the annual Congregation address May 19, first day of the two-day congregation.

Mr. Wilgress, a native of British Columbia, attended schools in Vancouver and Victoria before studying at McGill University, Montreal.

Dana Wilgress To Get Degree

VANCOUVER (AP)—Dana Wilgress, Canadian under-secretary of state for external affairs, will receive an honorary degree of Doctor of Laws at the annual Spring Congregation at the University of British Columbia.

He will also deliver the annual Congregation address May 19, first day of the two-day congregation.

Mr. Wilgress, a native of British Columbia, attended schools in Vancouver and Victoria before studying at McGill University, Montreal.

He will also deliver the annual Congregation address May 19, first day of the two-day congregation.

Perfect Shot With Last Rock Wins Grand Challenge For Rowbotham

Marciano Training 'Too Hard'

HOLLAND, Mich. (AP)—There are those who think heavyweight champion Rocky Marciano is training too hard for his title bout with Jersey Joe Walcott April 10 in Chicago.

These critics think Rocky is "too fine," despite the fact the champion went through a brisk workout Wednesday.

They say he started training too early—high work started Jan. 6 in New York—and he may be stale by the time April 10 rolls around.

But the two men whose business it is to see that such a thing doesn't happen—manager Al Weill and trainer Charlie Goldman—only laugh.

"How could you be too far ahead?" asks Goldman sarcastically, and then answers his own question:

"Sure, if you're forcing a boy by taking off a lot of weight, and then trying to keep him there maybe you can be too fine. But with Rocky, it's different. He can put on weight and take it off in a hurry."

"Of course Rocky has his bad days, but so what, everybody has 'em, don't they? There are no decisions here. The point is, he's out there working and getting ready. That's what counts."

"About that long training business," interrupted Goldman. "Rocky depends on condition to back up that wallop of his. He likes to train."

HOCKEY SCORES

WHL Playoffs
Edmonton 5, Calgary 4. (Edmonton leads best-of-five quarter-final 2-0.)

Saskatoon 4, New Westminster 2. (First game of best-of-seven semi-final.)

Dominato Wins Other Primary Competition in Annual 'Spiel'

With his last rock and a perfect shot, Bert Rowbotham last night came from behind to win the Grand Challenge Fashion Footwear competition, 9-8, against Rusty Ford's rink in the second annual Prince Rupert Curling Club bonspiel.

Rowbotham also captured the Grand Aggregate trophy donated by Frizzell Motors with a winning average of 91.66 per cent, but lost to Dominato 16-3 in the Superior Auto primary competition.

The Superior Auto loss was the only defeat in the 'spiel' suffered by the Rowbotham rink.

In the secondary events, Prince Rupert's Warren narrowly defeated McConnell of Terrace to win the Applewhite trophy. Skip Warren's last rock, a perfect draw shot, gained the one-point victory after the two rinks tied 8-8 in the 11th end.

The toughest match of all was the North Star secondary event, won by Gordie Bateman and his crew in an extra end, downing the Smithers Cliff DeLage rink, 13-12.

Close all the way, DeLage counted two in the 12th end to tie the score at 12-all. Bateman's sensational draw shot with his final rock in the extra end gave him the victory.

In the consolation event, the Wilson rink of Prince Rupert downed another local rink skippered by Percy Berg, 11-9, to win the Bacon Fisheries trophy.

Awarding of trophies and prizes was a major event following the curling, but also necessitated four top skips to take again to the ice.

Bill McKenzie, skip of Dominato rink, drew closest to the button in a tie breaker shot to win prizes for the largest end scored in the 'spiel.'

Four rinks were tied for the prize, each having scored a six-

ender—Dominato, Kellough, McConnell and Bateman.

Other awards were for the outside (visiting) rink winning the most games and not winning a prize, won by Ward Carey of Smithers; rink losing by the greatest number of points in any one game, to Sieber of Prince Rupert who lost to Bateman, 24-4.

Following are the prizes which accompanied the trophies:

Grand Challenge trophy by A. J. Dominato—first prize, four campers' kits to Rowbotham, four shirts and ties, Ford; four cases motor oil, Shier; four hams, Robertson.

Superior Auto Service Ltd., primary competition by Otto Quast—first prize, four club bags, Dominato; second prize, four Stetson hats, Rowbotham; third prize, four cases salmon, Rustad; fourth prize, four air cushions, Carmichael.

Applewhite trophy (secondary), by E. T. Applewhite, MP for Skeena—first prize, four fly rods, Warren; second prize, four electric clocks, McConnell; third prize, four cases oil, Laurie; fourth prize, four beverage glass sets, Kellough.

North Star Bottling Works secondary competition by Johnnie McLeod—first prize, four lamps, Bateman; second prize, four comforters, DeLage; third prize, four pen and pencil sets, Warren; fourth prize, four sides bacon, Collinson.

Consolation trophy by Bacon Fisheries—first prize, four lamps, Wilson; second prize, four hams, Berg; third prize, quarts of oil, Wakley; fourth prize, cufflinks, Scott.

Grand Aggregate trophy by Frizzell Motors—winner, Rowbotham; prize, four toasters.

E. W. DOWNWARD, civil defence director for International Falls, Minn., found himself in the middle of a giant muddle after he was quoted as saying cup-sized atom bombs had been dropped on the Red Lake, Minn., bombing range. He said it took three hours to eat a meal one day because of telephone calls from newspapers as far as London. He admitted atomic bombs were discussed at the civil defence meeting in nearby Fort Frances, Ont., but denied making any definite statement.

Menzies Offers Funds To Build Village

CANBERRA (CP)—Prime Minister Menzies announced today that the Australian government had offered to lend the state of Victoria £2,000,000, interest free, to finance erection of a village to house athletes for the 1956 Olympic Games.

Menzies said the offer in connection with housing—a major stumbling block of Melbourne's hopes of holding the games—was "the last effort to save the games for Melbourne and Australia."

"If the offer is not accepted these interested in having the games held in Australia will know who is responsible," he said.

Menzies said the government would loan the money during 1955-56 to be repayable during 1956-57. He said federal government officials rejected a proposal by Arthur Coles, chairman of the Olympic control committee that the Commonwealth advance £2,000,000, with the sum to be deducted from Victoria's 1956-57 housing allocation.

Menzies said rejection of Coles' plan was on the basis that it probably would not be acceptable to states other than Victoria. The offer today has the same effect but a slightly different financial method.

Group Honors Canadian 'Ring Doctor'

LONDON (CP)—Dr. Philip Magonet, Canadian doctor who has become a recognized specialist in medical hypnosis in Britain, has been admitted to the 63-year-old Order of Water Rats—a vaudeville organization with charitable aims.

Dr. Magonet, formerly of Glace Bay, N.S., came to London in 1939, is a familiar figure as "ring doctor" in local boxing arenas, and has conducted experiments in hypnosis among Canadian hockey players here.

For a man outside vaudeville to be invited to join the Order of Water Rats is considered an honor as only 12 outsiders are admitted. Among them are Sir Alan Herbert, the playwright, and Gwilym Lloyd George, Britain's food minister.

REMEMBER WHEN

Winnipeg's famous Elmwood Millionaires junior hockey team defeated Ottawa Primroses at Ottawa in the third and deciding game for the Memorial Cup 22 years ago today. Billy McKenzie was a potent factor in the Winnipeg victory and Bill Cowley was a star with the Ottawa club.

Coaching School Plan Turned Down

OTTAWA (CP)—A plan for a federally-assisted national coaching school for track and field sports has been turned down for this year at least, Dr. G. F. Davidson, deputy welfare minister, said today.

The proposal, sponsored by the Canadian Sports Advisory Council, was submitted too late for appropriations to be included in the 1953-54 estimates, Dr. Davidson said.

The CSAC discussed plans at a meeting early last December for a "pilot plan" school to open this spring. It was to have been a three-week "college" for track and field sports only, with the school being extended to other sports if the experiment proved satisfactory.

Plans were not completed for another month, however, and it was not until early in January that a CSAC delegation approached Dr. Davidson with a request for a \$12,000 grant for establishment of a school by the end of March.

By this time it was too late for an appropriation to go into the estimates, Dr. Davidson promised to try to make provision in the supplementary estimates, but these were too late for such early establishment of the school.

"The track and field school has not been turned down as an idea," Dr. Davidson said. "We are still considering it, but it is too late for this year."

Denmark normally produces more bacon than any other country except the United States.

Coast League Clubs Start Spring Training

SEATTLE (AP)—Spring training is just around the corner—some clubs will even swing bats and loosen up winter-tightened muscles the first time this week—as the far-flung Western International League prepares for the 1953 baseball season.

This year the class A loop has expanded into the prairies, reaching clear into the prairies for two members, Edmonton and Calgary.

However, the rugged 165-game schedule of 1952, at the end of which the Victoria Tyees walked off with the title, will be shortened.

Only 144 games are scheduled, with the season split into two halves at the July 4 week-end.

Here's how spring training camps size up:

Victoria—Starts at Sonoma, Cal., April 1. Manager Cec Gattiot is at the reins again.

Spokane—The 1952 second-place club started working out at their home Ferris Field on Tuesday. Don Osborn's boys will open the home season with double-headers against Calgary May 2 and 3, after starting the season on the road against Victoria April 23.

Edmonton—The newcomer Eskimos started spring training Monday at Compton, Calif.

Calgary—Playing-manager Gene Lillard, who expects to handle the catching, says he is going to demand a hustling

club. The Stampede start spring training Saturday at Porterville, Calif.

Vancouver—Last year's third-place Capillans have been completely overhauled and are in training at Healdsburg, Calif. The new general manager, Dewey Soriano, formerly of Prince Rupert, replaces Bob Brown, who has taken over as league president.

Salem—Spring training starts this week at Castoga, Calif. Manager Hugh Luby is now at Monterey, Calif., trying to land some Sacramento Solons rookies.

Yakima—Manager Dario Lodigiani, starting his 20th season in baseball and the second at the Bears' helm, will call his men out at Yakima April 1.

Tri-City—Edo Vanni has moved here from Vancouver to become the Braves' playing-manager.

Wenatchee—The Braves are training at their "banana belt" home field. General manager Bill Brenner has spent two weeks in California looking for players.

Wenatchee—Chiefs, who opened training yesterday at Lindsay, Calif., expect a top-notch assist from the Oakland Acons.

The Channel Islands off the French coast are not bound by acts of the British Parliament unless named specifically.

Detroit Held at Bay By Tight Bruin Defence

By The Canadian Press
DETROIT.—A vest-tight defence, fitted around Sugar Jim Henry, carried Boston Bruins to a convincing 5-3 victory over Detroit Red Wings Thursday night and squared their Stanley Cup hockey season at one game apiece. The third game is in Boston Sunday night.

Boston built up a 5-1 lead and then its famed close-checking defence went into action, frustrating the Red Wings time after time.

Boston would play five men back and this worked until the last 2½ minutes of play when Metro Prystai clicked twice for the Detroiters within 30 seconds. But by this time the Bruins had the game locked up.

At Montreal the Canadiens overtook and outfought Chicago Black Hawks to win 4-3 in a rousing, wide-open game for their second victory in their best-of-seven Stanley Cup semi-final.

The wild spurge of goals all came in the first two periods of the hardhitting struggle that had the 14,217 fans in an uproar.

Dick Gamie's goal in the final minute of the middle period broke the deadlock.

British Honduras in Central America produces chiefly mahogany and tropical fruits.

MAX BENTLEY, 33, dippy-doodle Toronto Maple Leafs centre from Delisle, Sask., has been chosen best stickhandler in the National Hockey League. In a poll conducted by The Canadian Press among sports writers and sportscasters in the six NHL cities, the veteran collected nine votes, six more than Elmer Lach of Montreal Canadiens and Gordie Howe of Detroit, tied for the runner-up spot with three each.

Ladies' Bonspiel On Today

The Prince Rupert ladies' first open bonspiel, named the "Totem Bonspiel" begins today at 4:45 p.m. There are 19 rinks entered, 16 from the city and three out-of-towners.

The spiel will be officially opened by Jack Laurie at 2 p.m. tomorrow.

Visitors are: Mrs. Herman and Mrs. Heggie of Smithers, and Mrs. Roine of Prince George.

The bonspiel continues until Monday and concludes with a banquet on that night in the Canadian Legion auditorium at 5 p.m. for lady curlers and their husbands.

TOMMY MALLON OF TORONTO is winner of the Ontario five-pin bowling championship. He defeated runner-up Joe Dunphy, Kingston regional champion. Thirteen district contenders, representing the province's estimated 600,000 bowlers, competed in the finals held at the Canadian National Sportsmen's show in Toronto. Mallon bowled 2,636 in the final 10 games against Dunphy's 2,380.

U.S.-Born Hockey Player Leads AHL Point Makers

NEW YORK.—Eddie Olson of Cleveland Barons, with a total of 86 scoring points, finished the American Hockey League's regular season at the top of the list.

He is the first United States-born player ever to lead a professional league.

Olson automatically became the winner of the Carl Liscombe Trophy and a league bonus of \$300 by setting the scoring pace with 32 goals and 54 assists.

Guyle Fielder of St. Louis Flyers finished second with 22 goals and 61 assists for 83 points.

Third place in scoring went to Jackie Gordon of Cleveland with 78 points. Kelly Burnett of Syracuse Warriors was fourth with 76, and Ike Hildebrand of Cleveland fifth with 72.

Hildebrand was leading goal scorer with 38, one ahead of his teammate Steve Wochy, last season's leader.

Final Standings:

	W	L	T	F	A	Pts.
Cleveland	42	20	2	248	164	86
Pittsburgh	37	21	6	223	149	80
Syracuse	31	31	2	213	201	64
Hershey	31	32	1	208	217	63
Providence	27	36	1	215	254	55
St. Louis	26	37	1	212	258	53
Buffalo	22	39	3	100	236	47

James Pierce Sets Pace

Pierce of Lyons topped five-pin scoring this morning with scores of 328 for 10 and a 730 triple game.

Lyons counted a high of 1017 for team honors.

Gordon & Andersons rolled high three team count.

Davidson, Mary Kearley of Lyons rolled high single of 276.

Commercial 3, Rupert 3, P.R. Plumbing 3, McCreary 2, 7th Ave.

SPORTS ROUND-UP

By GAYLE TALBOT

SAN BERNARDINO, Calif. (AP)—From here on, manager Marty Marion will at least know where his St. Louis Browns are to play their home games, which is much more than he knew Monday afternoon. It represents progress.

Going into his opening exhibition against a big league club, Cleveland Indians, Marty was wondering whether, in the event the transfer to Baltimore went through, his lads should continue to wear their old uniforms with the big "Browns" across the front or should perhaps be equipped with space suits pending a major tailoring job.

Such problems as that can worry any manager, and it is well known that a man managing the Browns should not have to shoulder outside worries. Now that he has received the word from Tampa, Fla., Marty can settle down and worry exclusively about his pitching and hitting.

"We're going to be a much finer fielding club than we were last year," said the former great shortstop. "Therefore I think we'll be a better club than the one that finished seventh. Maybe it's because I was a fielder first and a hitter second, but I think the thing you've got to concentrate on first is supporting your pitchers."

"Our biggest improvement is at shortstop. This Bill Hunter is really going to show you something. We were lousy at short last year, but with this boy in there we'll have as tight an infield as there is in the league. He and Bobby Young at second will give us a real double play combination, too."

Hunter, one of the spring's most-heralded rookies, is another product of the Brooklyn system. He hit 284 for Fort Worth last season and drove in 75 runs. He set Bill Veeck back \$90,000 cash and five players.

"I don't know whether he will hit big league pitching," Marty continued. "But I don't care whether he hits or not as long as he goes and gets those balls for me."

Discrimination Clauses Ordered Removed at UBC

VANCOUVER (CP)—Fraternalities and sororities at the University of British Columbia have been ordered to remove any discrimination clauses from their institutions or be barred from the campus.

The order came from the spring general meeting of the student body. Greek letter societies were told to remove any offending clauses within a year or have the university's recognition of them withdrawn.

Backers of the move said groups which barred members on racial or religious grounds have no place in a university. Fraternity members said they themselves did not approve of the discriminatory clauses but that the regulations were contained in the national constitutions of the fraternities.

Only a few of the UBC's fraternities will be affected by the ruling.

Slavery Still Exists In World

By A. I. GOLDBERG

UNITED NATIONS, N.Y. (AP)—A three-year survey by the United Nations shows that actual crude slavery still exists in some sections of the world, but information is incomplete and the solution is not easy.

UN Secretary-General Trygve Lie summed up the situation in a report calling on the UN Economic and Social Council to study further steps to meet the slavery problem when it meets here March 31.

In Lie's report, based on the work of a special committee which has been studying the slavery problem since 1950, Lie told the council no satisfactory definition of slavery ever has been reached.

The world has been trying to control slavery under an international treaty framed by the League of Nations in 1926. This defines slavery as "the status or condition of a person over whom any or all of the powers attaching to the right of ownership are exercised."

The special committee reported that other forms of servitude include debt bondage, serfdom or peonage on farms, contracting out persons for hire, marriage customs where the woman is deprived of free human rights, and child transfers for payment or other conditions which exploit the child.

The special committee divided up the world for the survey, each making an intensive study of his area. It got the UN to send questionnaires to all countries to get further data.

Nine UN members and seven non-members did not answer requests for governmental information. Lie listed them as Cuba, Haiti, Liberia, Nicaragua, Paraguay, Poland, Saudi Arabia, the Ukraine and Yemen, all UN members; and Albania, Andorra, the sultanate of Muscat and Oman, Portugal, Romania, San Marino and Spain.

The Ukraine answered only by calling attention to a Soviet Union reply that "the problem of slavery... does not arise in the Soviet Union."

No Monies Allocated For Celebration

VANCOUVER — Alderman Halford Wilson said that the City of Vancouver will not spend civic funds on special ceremonies to mark Coronation Day, June 2.

He said the special council committee will act as a central clearing house for all organizations that have coronation plans.

"Our job will be to find out just what is planned and by whom, lend them organizing facilities and publicize the events," he said.

"The city is not allocating money for any particular show." Tentative plans call for coronation services in all city churches, special programs for school children and on Tuesday, Coronation Day, a military parade.

The Naldiva Islands, a British-protected state near Ceylon, cover only 115 square miles.

RSM. HERB E. FOURNIER, 32, youngest regimental sergeant-major in the Canadian army, calls his men for their final parade before leaving Canada for Korea. His unit, the 81st field regiment, Royal Canadian Artillery, left its training ground at Petawawa, Ont., to join the 25th Infantry Brigade in Korea. RSM. Fournier has been in uniform since he was nine, when he signed on as bugler in a Navy reserve unit in his native Kingston, Ont. He joined the permanent army artillery at 14.

Molotov Appears Defenceless Against Malenkov, Beria Plans

By WILLIAM L. RYAN
Associated Press News Analyst

In the post-Stalin regime in the Kremlin, Vyacheslav M. Molotov seems to be in the position of the unwanted but slightly feared "third man."

As the affairs of the regime of Georgi M. Malenkov progress, Molotov may find the atmosphere warmer and warmer. Without any particularly powerful allies, he would seem virtually defenceless against whatever plans Malenkov and his secret police chief, Lavrenti, P. Beria might have in store for him.

As matters stand, there seems little doubt that the power is held by Malenkov, the new prime minister, with the tolerance and support of Beria, Molotov and Malenkov frequently have not seen eye to eye.

It may be Molotov's 35 years of devoted service to Stalin that will keep him in the upper registers of the regime for the time being. His very connection with the name of Stalin may give him enough power to make him feared at the top.

In following the fortunes of foreign Minister Molotov, it may be in order to watch what happens to his former deputy, Andrei Y. Vishinsky, prosecutor for the blood purge of the 1930s. For Vishinsky, no longer foreign minister, there may be cause for worry in the current violent campaign in the Soviet press against "spies and wreckers" inside the U.S.S.R.

Vishinsky was a Menshevik—that is a member of the minority in the old social revolutionary party, under Trotsky, when the Bolsheviks majority took over the power.

Vishinsky had spent much time in the United States. Some Westerners even profess to ad-

mire his wit. For Vishinsky, that is not good. He may survive it, but if he doesn't, things will look bad for his mentor, Molotov.

Another thing which may make Molotov uncomfortable is the anti-Jewish campaign now raging in the Soviet Union. Molotov's wife, Polina Zirmchuzina, is Jewish and has been said to have had Western leanings.

It was Malenkov who was responsible for firing Mrs. Molotov as commissar of fisheries 12 years ago, and Molotov didn't like it. But for all his apparent demotion in the shake-up which followed Stalin's death, Molotov cannot yet be counted out.

Confucius, the Great Chinese sage died in 473 BC at the age of about 72.

Rates 'Unfair'

VANCOUVER, (CP)—Canadian railways charge lower freight rates for carrying American lumber from Seattle, Wash., to Eastern Canada and the Prairies than they charge for British Columbia lumber going to the same destinations, the B.C. Lumber Manufacturers' Association said today.

The association demanded, in a hearing before the board of transport commissioners, that the board remove "this discrimination" and order Canadian railways to reduce rates from Vancouver to points between Regina and Winnipeg "to a level equal to the rates applicable from Seattle to the same destinations."

K. D. Spence, counsel for Canadian Pacific Railway, said there is a move by the railways to raise lumber freight rates in the Pacific northwest region of the U.S. to parity with those from the B.C. coast.

Lonard Andrews of the association said B.C. mills must cut their prices drastically to meet the "discriminating differential" in freight rates.

"Our shipments to Prairie points over the last three or four years have shown drastic declines," he said. B.C. coast lumber sales to Alberta declined 15 per cent between 1948 and 1952, those to Saskatchewan went down 39 per cent and sales to Manitoba 42 per cent.

Walter Campbell, a member of the lumber association, said lumber freight rates from the coast to the Prairies have more than doubled since 1948. This increase means \$3.90 more per 1,000 board feet on lumber shipments to Winnipeg, he said.

Israeli Ratifies Agreement

JERUSALEM (AP)—The Israeli cabinet has ratified the agreement by which West Germany promises to pay Israel \$322,000,000 in reparations for Nazi persecution of the Jews.

The agreement was signed in Luxembourg last Sept 10 by Foreign Minister Moshe Sharet of Israel and Chancellor Konrad Adenauer of Germany. West Germany's Parliament completed ratification over the weekend.

The exchange of ratification instruments, the last step in making the agreement effective will take place at United Nations headquarters in New York, a foreign office spokesman said.

Under the agreement, Germany will send Israel 1,000,000 worth of goods in the 12 to 14 years. Mainly the aid Israel is settling new immigrants. The goods will include such as pumps and pipes to be used in irrigation projects.

In addition, West Germany to pay \$107,000,000 as token compensation for Jewish assets seized by the Nazis and not claimed because there were no heirs.

THE SUREST KILL
THE LUNG AREA TARGETS THE LARGEST TARGET, CONSISTENTLY KILLING FASTEST!

A GOOD EXPANDING BULLET PLACED IN BACK OF THE SHOULDER AND THROUGH THE LUNGS CAUSES HEAVY BLEEDING. SOON THE CHEST IS FILLED WITH A GALLON OR SO OF BLOOD AND SUFFOCATION RESULTS QUICKLY. AN ANIMAL RARELY TRAVELS 30 YARDS WHEN IT IS SO HIT. SUCH ANIMALS ARE PERFECTLY BLEED IF THE HEART IS NOT HIT.
THE ANIMAL DROPS INSTANTLY IF THE HEART IS HIT WHEN IT IS FULL OF BLOOD BUT IF HEART IS EMPTY (UPON IMPACT) ANIMAL MAY RUN FOR SOME DISTANCE!

BLACKWOOD on Bridge
By EASLEY BLACKWOOD
Sweeps on to Game After a Tight Squeeze
Mr. Abel's hand was a no trump type. But he was quite right in his decision not to open the bidding with one no trump. His hand was too strong for that opening. There are many combinations Mr. Dale could hold which would not fulfill the requirements for a raise to two no trump, yet which would offer a fine play for game.
Wisely, Mr. Abel preferred a one club opening. Over his partner's one heart response he then told his story with a jump to two no trump. This bid promises about half the deck in high cards—possibly a little less with good intermediates or a fairly solid five card suit.
Knowing this, Mr. Dale had no hesitation in going on to game.
Mr. Champion led the queen of diamonds and Mr. Abel was on the verge of winning with the king when he paused to consider. His first quick estimate was that he could make five-odd—three spades, three hearts, two diamonds and three clubs. He realized in time that this involved knocking out two enemy aces and that before he could accomplish this, the defenders would have their diamond suit set up.
If Mr. Champion had as many as five diamonds and both outstanding aces, Mr. Abel wasn't even going to take nine tricks. But if one of those aces was in Mrs. Keen's hand, the contract could be saved by proper play.
Mr. Abel saw the play. He let the queen of diamonds hold. Diamonds were continued and he won the second round but had no diamond to return. She led a spade and Mr. Abel won with the ace. He now knocked out Mr. Champion's ace of clubs, won the diamond return with the ace and spread the hand for four-odd.
If he had taken the first trick, that would have left Mrs. Keen with a diamond which she undoubtedly would have led after winning with the ace of hearts. And in that case, Mr. Abel would have been down one, losing three diamonds and two aces.

Northland Soon to Seek Own Govt.

OTTAWA (CP)—J. A. Simmons (L-Yukon-Mackenzie river) says Canada's northland is developing so fast that it won't be long before the Yukon and Northwest Territories will be in a position to seek self-government such as other provinces.

It is only natural, he told the Commons that the northern peoples now supervised by the federal government, should want self-government. Development of mineral, oil and power resources was coming so fast that self-government was something within the foreseeable future.

"It would be in the best Canadian tradition," he said, "to allow them self-government just as soon as there is sufficient population and industry."

The so-called "frozen north" is on the threshold of the greatest development Canada has ever known, Mr. Simmons said. Development of hydro - electric power permitting establishment of industries there was in the forefront.

He outlined investigations in the Yukon river basin which could lead to development of between 4,000,000 and 5,000,000 hydro-electric horsepower. Hydro, he said, is the key to development of aluminum, ore, crude oil and other rich resources of the north.

He hoped the government would give every assistance to private enterprise in bringing power development to the north. Power could mean the development of a "vast hidden mineral treasure" not only for Canada but for the free world.

He hoped the government would do what it could to bring more transportation to the north, more roads and possibly even a railway.

A rail line was needed "from the heart of America to Alaska." He suggested it could be a continuation of the Canadian National Railways from Prince George, B.C. to Whitehorse, Y.T. and then to Fairbanks, Alaska. The Americans had considered such a line during the war.

RANDOLPH SCOTT, Philip Carey and Lina Romay as they appear in Warner Bros. Technicolor action picture, "The Man Behind the Gun," beginning at the Capitol Theatre tonight. Patrice Wymore has the leading female role in the film directed by Felix Feist.

Col. McNaughton to Change Name in Accord With Will

KINGSTON, Ont. (CP)—Lt. Col. E. M. D. McNaughton, son of Gen. A. G. L. McNaughton, has given notice that he will seek to change his surname to "Leslie" in accordance with the terms of a will left by his aunt, Mrs. James Norman Stuart Leslie of Kingston.

A legal advertisement appearing in Ottawa newspapers gave

notice that Edward Murray Daziel McNaughton would apply to a county court judge in Ottawa April 27 to change his surname.

Last August Mrs. Leslie's will left a home and \$250,000 to Col. McNaughton on condition that he change his name "legally and publicly" to Leslie.

His father is chairman of the Canadian section of the International Joint Commission and commanded Canadian troops in England during the early part of the Second World War.

When the legacy was first announced, Col. McNaughton was on duty in Korea and at that time said: "I haven't the least idea what I'm going to do." He intimated that he would wait for at least a year before coming to a decision but added: "If the old girl (Mrs. Leslie) sincerely wanted me to continue the family name it very possibly will be a matter of personal honor with me."

Two weeks ago Col. McNaughton's legal representative, T. J. J. Rigney, said in Kingston that the amount of succession duties was still in the process of being determined.

The many holdings of the late Col. and Mrs. Leslie had caused delay. Some of these were in United States and European securities and they had to be assembled and valued.

Col. Leslie predeceased his wife by about a year and liquidation of his extensive holdings had not then been completed.

The will also said that if Col. McNaughton, a bachelor, declined to change his name, children of any future marriage were to be given a similar opportunity.

Primitive Cookstove On Display

By FORBES RHUDE

A cookstove, made of rubble, with a garbage can for an oven, is a feature at the convention and exhibition of the Canadian Restaurant Association now being held in Toronto.

This primitive cookstove is set amid thousands of gleaming utensils and gadgets of sleek restaurant operation. It is not there, however, for contrast—and it is not there to show how the science of food-serving has progressed.

It is there to show people how to get to work quickly if war of disaster should set them to foraging amid ruins.

PART OF EXHIBIT

The cookstove is part of an exhibit by civil defence welfare services, which was opened by Maj-Gen. F. F. Worthington, federal civil defence co-ordinator.

Electric and gas - operated equipment of restaurants may be put out of commission, but anyone, if he knows how, can quickly set up an emergency kitchen with things that are around him.

He can build a stove from rubble, using mud for cement. He can set an oven in its centre, even if, as with the current exhibit, it is only a garbage can. He can provide a fuel space underneath which will burn wood, or hold a flash pan for oil and water.

In Britain, some 60,000 women are being taught how to go to work quickly with such "curbside" cookery. British experience is that people in their first distress and shock need something "hot and sweet"—probably tea or coffee. The "curbside" cookstove can provide that and follow up quickly with sustaining stews.

Restaurants and other cooking and baking establishments are being asked to make arrangements so that they can quickly put emergency facilities to work, if their modern kitchens are put out of action.

And shortly, communities across Canada will be asked to send representatives to Ottawa to take instruction in emergency cooking and feeding. These representatives will, in turn become teachers in their own communities.

Garnishee Law Changes Being Studied

VICTORIA (CP)—The provincial government is expected to introduce legislation at the current session easing out-of-date garnishee regulations.

The present law, enacted 40 years ago, says a garnishee order can take all a married man's salary except \$60 a month. This figure is expected to be increased to \$100 or \$120.

Leo Nimsick (CCF-Cranbrook) already has introduced a bill providing for an increase to \$120, but it is understood he will withdraw his bill if the government brings in similar legislation.

SCREEN ★ ★ FLASHES

Falling off a horse is an occupational hazard of any star of outdoor pictures, states Randolph Scott, and any actor who claims he doesn't take an occasional spill never gets up speed in the saddle.

Scott commented on the set of "The Man Behind the Gun," Technicolor outdoor drama opening tonight at the Capitol Theatre, as he brushed himself off after being thrown. The animal had slipped and fallen to its side during a gallop as Randy, playing a cavalry officer, held his sabre at the ready position.

He was riding between Philip Carey and Robert Cabal and fell between them. He remembered to throw the sharp-pointed sabre to one side so it hurt neither him, Carey nor Cabal. The saddle accident was the star's first since "Canadian Pacific" some years ago.

"I have fallen many times going riding scenes," admitted Randy, one of the most popular of all outdoor actors. "What horseman hasn't?"

"The best protection for a rider is in knowing how to fall when the time comes. I try to land as far away from the horse as possible. However, no one can give advice on this. Every such incident is different, and often made more hazardous by having other riders alongside or behind."

He has never been hurt in any fall from a horse. His worst injury during many years of outdoor action roles came from the horn of a placid Brahma bull the player was riding during a slow scene. The bull turned its head suddenly and jabbed the point of its horn in Randy's arm.

Bylaws To Go Before Ratepayers

SMITHERS—Pressing need for increased classroom accommodation at Smithers, Telkwa and Houston will necessitate presentation of a money bylaw to district ratepayers.

Additions and new buildings under consideration by Smithers District School Board No. 54, include a five-room new elementary school at Smithers.

Smithers Parent-Teacher Association has voiced disapproval of the proposal as inadequate. The present junior grade, four-

room building is over 30 years old. They want it torn down and replaced with a new building. An increase in school tax from 30¢ in 1949 to 40¢ in 1953 is indicated. The steady growth of the Smithers Junior-Senior school and Smithers elementary school total of 395 also equals the 1949 total. Telkwa Superior school totals 163; Houston Superior, 15; Glenora, 29 and Walcott, 1.

Aged Motorist Has Solution For Crossings

LONDON (CP)—An 85-year-old motorist who has driven 800,000 miles sees a solution to Britain's highway problem in what he calls a "half-moon" and a "string of pearls."

The motorist, F. S. Bennett, suggests installing a row of reflectors 50 yards on each side of the highway to warn drivers of a crossing. This he calls the strings of pearls.

The half-moon is a semi-circular safety zone at each end of the crossing. Here pedestrians could stand so that motorists could see they intended to cross.

Bennett advanced his proposals at a national conference of the Pedestrians Association.
