DRUGS

It is expected to be laid this fall for this dream ship of the Canadian hydrographic service. The vessel, shown in this drawing, will be a 285-foot, diesel vessel designed to withstand the pressure of Arctic waters with a draft of 15 feet to enable it to chart shallow waters. It will carry a crew of 102 and have a flight deck and hangar amidships for two helicopters.

Jet-Powered Dream Ship Designed for Canadian Hydrographic Service

The men who designed and built for hydrographic service operations based on the east coast since the old Acadia was launched in England in 1914. There have been other survey ships since then but none have been designed for the job. Mr. Smith says the job of charting the Arctic seas will take 50 years to complete. But the more immediate aims will be to meet the pressing needs of defence and industry.

Defence planners want safe sea lanes in the Arctic that will enable them to reduce their reliance on air transport. And industrialists seeking to open up the mineral wealth in the North want good ports and safe sea lanes for the future.

Canada Hints Stern Measures If Far East Peace Parley Fails

Pearson Tells Reds Of "Consequences"

By ALAN HARVEY
Canadian Press Staff Writer

GENEVA, (CP)—Canada, through External Affairs Minister Pearson, has issued a warning to the Communists that failure of the Far East conference here may result in further collective measures by the Western powers.

This would apply particularly in respect to Indo-China.

The chief of the Canadian delegation issued the warning in an address at yesterday's plenary session of the conference.

At the end of his speech, he referred to the recent meeting of Asian Commonwealth prime ministers at Colombo, Ceylon. "I would like," Pearson said, "to call attention to the importance attached by these Asian leaders to the role of the United Nations in furthering the peaceful purposes of this conference, particularly in respect of Indo-China."

"If these peaceful purposes are not achieved by a just honorable and negotiated settlement, the consequences will be bad, and probably far-reaching."

MAY HARDEN DIVISION

"Failure here may well necessitate further collective consideration by those who, as a result of such failure, will feel increasingly threatened, of further ways and means to meet that threat. This, in its turn, may harden and make more dangerous the great and tragic division in the world which now exists."

"The reward for success at Geneva will be great in terms of peaceful progress; but the penalty of failure may be even greater in terms of increasing tensions and the risk of a war which would engulf and destroy us all."

Conference observers believe Pearson's warning of "further collective consideration" was designed to emphasize Canada's solidarity with the other Western powers in the event of failure of the conference.

Asked by The Canadian Press whether he had in mind the possibility that Canada might join the projected "SEATO" pact designed to strengthen security in the Southeast Asia area, Pearson replied that he did not consider that specific possibility when he wrote his speech.

The conference recessed until Friday following Pearson's speech, giving the delegates a chance to hold private consultations and clarify their positions.

The Associated Press reported today that Western diplomats are ready to break off the Korea phase of the conference once they are sure the Communists will not accept elections supervised by the United Nations.

This would clear the way for the conference to turn to the Indo-China problem.

Rescuers Work To Free Miners After Blast

RIBOLLA, Italy (Reuters)—Rescue officials here today feared 50 miners and firemen died in one of the greatest mine disasters in Italian history.

Black-shawled mothers and wives gathered again today at the entrance to a Ribolla coal mine, hoping some 30 miners trapped 800 feet below were still alive.

An explosion scored the shaft yesterday and brought tons of rock down in a cave-in.

Wails of grief went up from the waiting relatives last night and today as six more bodies were hauled to the surface, bringing the known death toll to 19. Twenty injured men have been rescued during 24 hours of frantic digging by rescue workers.

So far only 10 men of those originally trapped have been brought to the surface unharmed.

Death on Boat Said Natural

Deputy coroner George Dawes announced last night that old-age pensioner James Blake, found dead on his boat yesterday had died of natural causes. Coronary thrombosis was the actual cause, Mr. Dawes said.

Mr. Blake, 71 years of age, had lived on his boat the "Kay-O" on the Fairview wharf. He is believed to have lived in this district for the past 11 years. Mr. Blake has no known relatives in this area.

Funeral arrangements have not yet been announced.

Injured Girl Flown South

VANCOUVER (CP)—A three and one-half-year-old Smithers girl, Mavis Tennant, is in good condition in hospital here after being flown from the northern B.C. city Monday night with an eye injury.

An RCAF plane made the mercy flight after the little girl was struck by a piece of a plank which broke when someone stepped on it.

Police Nab Fugitive From Prison

Convict Taken After 15 Hours

VANCOUVER (CP)—A shot-punctured, all-night chase through bushlands ended Tuesday with the recapture of Lawrence Corbett, escaped prisoner.

The 18-year-old gunman, branded in court as a "potential murderer," escaped from Oakalla prison farm in suburban Burnaby at 2 p.m. Monday. He had 15 hours freedom.

Twice during the night as police trailed Corbett through the bush in the eastern section of the city they fired on the fugitive, who disappeared in the darkness.

Surrounded near the home of his grandmother, Corbett surrendered without a fight. He was wet and tired when taken from the rain-soaked bush.

Convicted of a series of armed holdups, he was recently sentenced to Oakalla to a term of two years less one day.

Prison officials described him as "emotionally disturbed" after he learned the suspected slayer of his 12-year-old sister was held in Oakalla.

Donna Lee Corbett was strangled with her own shoelace near her home in Quiesnel, B.C. last September. Lawrence Vincent, 26-year-old carnival worker, is in Oakalla awaiting trial, charged with her murder.

Phone Officials Here For Parley

Two officials of the North West Telephone Co. are in town today to explain the changes in radio-telephone service scheduled as a result of their company and its affiliate, B.C. Telephone Co., taking over the telephone portion of the Canadian government's telephone and telegraph system in this area. They are Miles Green, radio-engineer, and B. R. Abram, commercial superintendent.

The two will have a meeting tonight with representatives of interested organizations.

THIS POOCH can tell you that even the dogs in West Berlin are affected by the Cold War between the West and the East. Little Mohrchen crossed the zonal border into East Berlin to study one of the trees that caught his attention. Communist "People's Police" shot at the mongrel, wounding him in the right foreleg. Maybe they thought he was a spy or something. Mohrchen vows he'll now stay on his side of the Iron Curtain.

Taxi Driver Fined \$400 For Illegal Liquor Sale

For unlawfully keeping liquor for sale, taxi driver James Thomas Moran was fined \$400 and costs, or in default three months in jail, by Magistrate W. D. Vance in police court yesterday afternoon. Moran pleaded guilty to the charge.

The taxi, seized by police at the time of the offence, April 21, was released to the owner on the condition that no appeal to the sentence would be filed.

In presenting the case, prosecutor T. W. Brown, Q.C., asked that all reference to "automobile" in the information be stricken out.

Referring to the possibility of permanently impounding the car, Mr. Brown said that the prosecution found itself in a dilemma.

"In some six cases around this district where vehicles were seized, the cars were given back afterward by the attorney-general's department in 50 per cent of the cases," Mr. Brown said.

"Yet, I can quite see that taking the value of the car plus the ordinary \$300 fine would be disproportionate for a first offence."

"And," he added, "if we did proceed in this manner, the attorney-general's department would probably give back the car."

"At the same time, a \$300 fine is no deterrent."

Mr. Brown went on to stress that if this had been a second or third offence on a similar charge, he would have gone ahead with confiscation of the car.

Before passing sentence, Magistrate Vance said that it appeared heavier fines were in order if the illegal traffic in liquor was to be stamped out.

The accused told the court that he was in no position to pay a higher fine.

"You should think about such circumstances before you breach the law," Magistrate Vance said.

CORONER ADJOURNS INQUEST INTO TERRACE CAR MISHAP

SPECIAL TO THE DAILY NEWS
TERRACE—The inquest yesterday into the deaths of three persons arising from a two-car collision near Terrace Sunday night has been adjourned by Coroner Larry Pruden until Monday, following formal identification of the victims.

Killed as a result of the accident were Dennis Waters, 20, Carol Ann Bell, 18 months and Fred Wesley, 5. All told 13 persons were involved in the mishap.

Still on the critical list is Stanley Walker. Other victims, Mrs. Pauline Bell and Mrs. Joe Wesley have been transferred to Vancouver and Prince Rupert, respectively, for further treatment. The remainder of those involved are progressing favorably.

R. K. Elkins of Terrace informed the Daily News this morning that he was not the first man to reach the scene following the accident.

"I did not get there until nearly an hour afterward," Mr. Elkins states.

Living Cost Increases Boost Price Index Tenth of Point

OTTAWA (CP)—Scattered increases in living costs pushed the consumer price index up by one-tenth of a point during March to 115.6 from 115.5. It was the first rise in six months.

Food prices continued to decline and shelter costs were unchanged. But there were increases in the cost of clothing, household operations and a group of other items, including health and personal care and postal rates.

The boost in the consumer price index, based on 1949 prices equalling 100, followed a February decline of one-fifth of a point. It was the first rise since the half-point jump last September.

The index, a yardstick for measuring living costs, had been declining since last September.

In March, the food column continued to drop. A sharp decline in egg prices along with smaller declines in butter, beef, fresh pork, veal, fresh tomatoes, celery and potatoes offset boosts for coffee, tea, oranges and cured pork. The sub-index dropped by three-tenths of a point to 110.4, following a point decline in February.

SHELTER UNCHANGED
The shelter column remained unchanged at the peak of 125.6, following an increase of one-fifth of a point in February. Rents were slightly higher but these were offset by lower home-ownership costs.

The household operations col-

ENGINEER D. E. THOMAS of Bell Telephone Laboratories demonstrates that his voice can be clearly heard by his assistant (in the background) at a receiver across the lawn, as he tests the new Bell solar battery. The sun's rays falling on the battery, which he holds in his right hand; are the only source of power needed to operate the small mobile radio transmitter. Providing an operating potential of several miles for the transmitter, the solar battery is composed of strips of specially prepared silicon that can convert sunlight directly and efficiently into electricity.

Receiving Case Slated May 13

Chin Jon, charged with receiving goods valued under \$25, pleaded not guilty this morning in police court and was remanded until Thursday, May 13 pending appearance of a defence witness.

Defence counsel Robert Blair asked for the adjournment when the information was changed from "goods valued at more than \$25."

Crown witness George Grenville Turner, master of the Quathlaski 14, stated that the goods in question, a pair of binoculars, were valued at \$18.50.

He said that he noticed the binoculars missing from the wheelhouse of the boat April 11.

Defence counsel told the court that the framework of the defence had been based on a greater value being placed on the binoculars.

The board to build a new school at an estimated cost of \$330,000, saw early choice of architect and decision will be made.

It is now waiting for a recommendation for a Crown

board to build a new school at an estimated cost of \$330,000, saw early choice of architect and decision will be made.

An independent daily newspaper devoted to the upbuilding of Prince Rupert and Northern and Central British Columbia.

Two Old-Timers Depart

WITHIN a period of a few hours late Sunday and early Monday death came to two of the district's earliest settlers.

Of the two, Mr. Johnstone was perhaps the better known for his work in promoting the attractions of Lakelse Lake where he was the first to stake property and later built a hotel.

But what really distinguished both was that they had the fortitude to remain in a part of the country which at the time of their arrival was just a promise in the wilderness, and later became even less than that.

Most likely both these old-timers would have denied their living here accomplished any such thing. The sense of history is not always strong when one is such a close part of it.

Dogs' Fidelity

THE LOVE of a dog for his master is well known. There are many well authenticated cases where dogs, because of the loss of their master, have preferred death to life.

A current case was reported in The London Times last week.

Joseph Tagg, a shepherd, aged 86, had been missing since December 12 on the moors above Derment valley in the Peak district.

Tip's story ends more happily than that of the Edinburgh Scottie. Tip has been adopted by a niece of her beloved master and is happy once more.

Scripture Passage for Today

Ray REFLECTS and REMINISCES

Away up in the neighborhood of Sault Ste. Marie, people have been heard to declare that there is no such thing as a Canadian cuisine.

Kitimat is growing! Of course! Why not? And goodness only knows what it will be six months from now.

Sign in a Hollywood beauty parlor: "Where the stars wrinkle until they wrinkle."

There are times when a fellow has no wish to be bothered with a nuisance like money. Away down in the town of Muncie in Indiana recently, a grocery was robbed.

The joys of parents are secret. So are their griefs and fears.

According to a London weekly, Queen Elizabeth is bringing from her six months' world tour a plan for a royal residence in every Commonwealth country.

not guessing very well at that. Generally speaking, there would be the risk of making a mess of things all the way around the globe.

Some people lose the art of conversation without losing the power of speech.

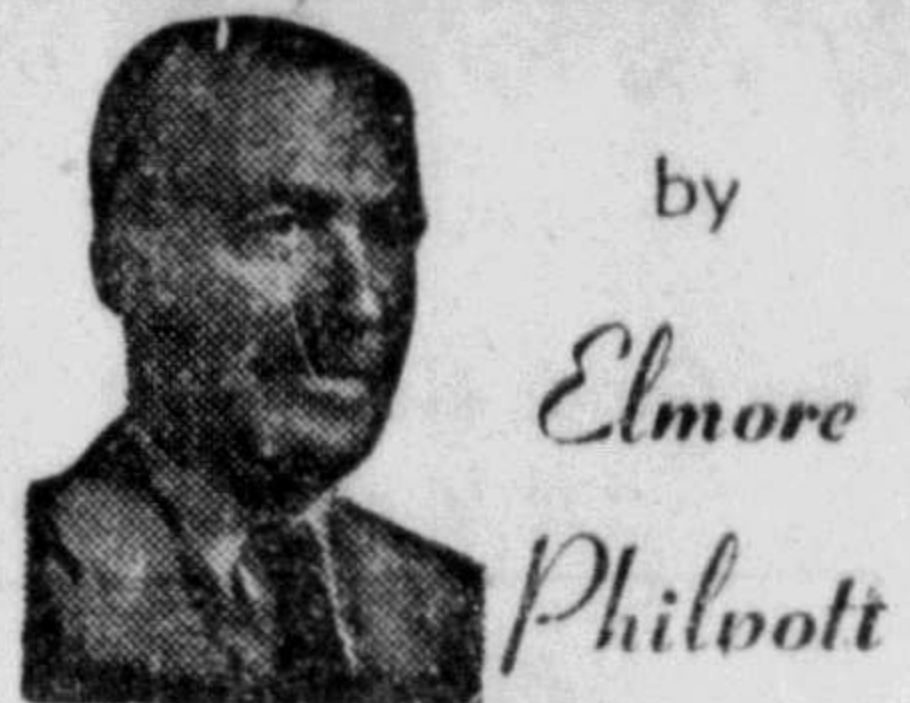

To be happy with a man you must understand him a lot and love him a little; to be happy with a woman you must love her a lot and not try to understand her at all.

IT'S DANGEROUS Not many books on etiquette are published today. Small wonder, after reading the following passage from a volume printed in London in 1863.

With blood streaming down her face, an Ohio woman quietly awaited the speeding arrival of a police car.

There is only one way to stop the further expansion of Communism in southern Asia, the Arab countries, and Africa.

As I See It

How to Stop Reds

IN HIS speech to the annual meeting of the Canadian Press, the Prime Minister went right to the core of truth in Asia.

"The West can neglect only at our peril the desire of Asians for independence. It is important for us to realize that the peoples of southern Asia, because they have had so little direct experience of Russian imperialism, Communist or otherwise, are not inoculated as we are against the false ideals and illusionary promises of Communist propaganda.

It is too bad that the clarity in the thinking of Canada's Prime Minister is not shared by John Foster Dulles, and the other effective leaders of American policy. If the Dulles school of thought were to approach the whole problem of security in Asia from the basis suggested by Mr. St. Laurent, the whole world picture would be brighter.

The main truth which has emerged from all the turmoil in East Asia and South Asia, in the past few decades boils down to this:

Asia is going to throw off the shackles of white man's imperialism. If the West does not face that fact in time, as was done in India, Burma, Indonesia and the Philippines, then the non-self-governing people of that part of the world will surely turn to Communism.

There is no greater truth, in the development of nations, than that "the enemy of my enemy is my friend." In the minds of the great masses of the people of Asia, their past backwardness, poverty, illiteracy, has been associated with the idea of imperialism—that is, government by some foreign power, primarily for the benefit of that foreign power.

Communism is itself a new and more subtle imperialism than the old fashioned Colonel Blimp, Rudyard Kipling, variety. But unfortunately it takes time to demonstrate that lesson to all concerned. In the beginning, especially in Asia, Communism presents itself to the people as the determined champion of things which even the lowliest, most impoverished, and most ignorant can understand.

Let us never make the colossal blunder of under-estimating the effectiveness of that approach, where for hundreds of years the landlord-peasant relationship has been the most visible and universal expression of social injustice.

But Communism also appeals to the native intellectuals, the half educated, who have learned just enough about the West to know that their own countries are woefully backward, and to know incidentally that the Communist form of society does provide good careers for many persons such as themselves.

Above all, Communism stands for absolute race and color equality.

These things, all together, add up to a program which constitutes a mighty challenge to competition from the West.

IT SEEMS to me to come down to this: In a contest between what we might call the old "Red-White-and-Blue" imperialism, run by Europeans for the benefit of Europeans, and the new, disguised Communist imperialism, run by Moscow and Peking, BUT OPERATING THROUGH NATIVE AGENTS, the outcome is a foregone conclusion.

The old Colonel Blimp type of imperialism has absolutely no chance against the Malenkov-Mao variety.

There is only one way to stop the further expansion of Communism in southern Asia, the Arab countries, and Africa. That is to build up, by all means possible, vital bases of democracy, such as already exist in India, Pakistan, Burma and Indonesia.

Writer Finds Russians Not Race Conscious

OTTAWA DIARY

By NORMAN M. McLEOD

When Bill Boss of The Canadian Press left Moscow after five months in the Soviet Union, his notebooks were full of sidelights on life behind the Iron Curtain.

By BILL BOSS Canadian Press Staff Writer Russians are not race conscious. It is not a Communist accomplishment but the result of hundreds of years of geographic conditioning, through being spread over one-sixth of the land area of the world.

But it is a characteristic which has important political significance when associated with the Soviet Union's tie-up with Communist China and its assistance programs for North Korea and the Communists in Indo-China.

TOP GRADUATE CHINESE Top graduate of the first Moscow medical institute last year was Chinese. A top graduate of the Bolshoi's ballet school this year is a Korean girl.

CHINESE LARGEST The Chinese Communist embassy in Moscow is one of the largest in the Soviet Union.

TRAVEL RESTRICTIONS A Westerner may travel through considerable parts of the Soviet Union without escort.

STIFF DRIVING TESTS Russian driving tests are still—but it's not too important, few Russians have cars anyway.

GM Production Shows Decline DETROIT (AP)—General Motors Corporation's United States and Canadian factories built 348,307 passenger cars and trucks last month, compared with 358,059 units built in April 1953.

GENERAL ELECTRIC Door Shelves Butterkeeper Full width Freezer 9.16 cu. ft. Regular \$364.50 SPECIAL \$299.00 5-Year Warranty

after going through the formality of obtaining permission. But this does not apply to frontier zones and certain large "security" areas.

Train and plane tickets can not be bought until the permission is inscribed on your documents.

The travel authority usually means you may go anywhere in the city you are visiting. In Baku, however, I received strict orders. I could not turn right on leaving the hotel.

FORBIDDEN GROUND

In Tashkent, capital of the Soviet central Asia republic of Uzbekistan, I found a taxi-driver more co-operative than most and decided to try to pass the city barrier.

An armed militia man asked: "Who is this man, comrade?" "I don't know."

The driver handed them over, saying: "As far as I know he is a foreigner who wants to see the collective farms."

Other foreigners with automobiles hire Russian drivers. Moscow traffic regulations alone are enough to stump the foreigner who can't read Russian.

One-way streets, right-turn-only intersections and other complications peculiar to Moscow are not the only hurdle at driving-tests. The examiner may want an explanation of the mechanism of the engine, the function of the carburetor, or the operation of turn indicators.

Yet economic events in recent months have been exactly of a nature to help the CCF cause. There has been recession, mounting unemployment, and at least some measure of the civil discontent which such conditions breed.

Yet economic events in recent months have been exactly of a nature to help the CCF cause. There has been recession, mounting unemployment, and at least some measure of the civil discontent which such conditions breed.

Says Canadians Passing Up NATO Contracts

Canadian firms may be passing up millions of dollars in new business simply because they lack interest in NATO construction work in continental Europe.

E. C. Thorne, chief of the department's machinery and metals division, says North Atlantic countries are planning to spend about \$250,000,000 this year in building new airfields, jet fuel pipelines, radio communication networks, port and radar installations and storage facilities on the continent.

But despite all efforts of the department to get Canadian firms interested in bidding for contracts, the response has been "very disappointing."

European construction forms part of "infrastructure," a French railroading term adopted by NATO to describe the huge amount of installations required to keep military forces in operational efficiency.

Canadian business men should get interested in this work, because continued lack of interest "may result in the loss of business for Canadian engineering know-how and for Canadian manufacturers," said Mr. Thorne, writing about the problem in the department's foreign trade magazine.

The 14 NATO member countries plan to contribute \$1,900,000,000 for European installation work in the five-year period ending in 1957. Canada has agreed to contribute \$116,000,000.

Conference on Highway Work Slated in Burns Lake June 16

A one-day conference on improving highway 16, to be attended by representatives of central B.C. boards of trade and the provincial government, will be held at Burns Lake June 16. This was reported at the monthly meeting of the Chamber of Commerce here which named Hugo Kraupner, its highway committee chairman, as Prince Rupert delegate.

A letter from the Burns Lake and District Board of Trade read at the meeting said that "It has been suggested that highway 16 is in some places actually deteriorating through lack of proper maintenance. It is a fact that in claiming the attention of the department of public works, of central B.C., will be competing with representatives of other areas of the province with their own highway requirements."

Following a reminder by Bruce Brown, M.L.A. that Public Works Minister P. A. Gagliardi was expected in Terrace shortly to discuss highway problems, it was agreed that Burns Lake should be so notified with a view of having Mr. Gagliardi arrange to attend the conference.

at the meeting said that "It has been suggested that highway 16 is in some places actually deteriorating through lack of proper maintenance. It is a fact that in claiming the attention of the department of public works, of central B.C., will be competing with representatives of other areas of the province with their own highway requirements."

School Board Briefs

At its meeting last night, District 52 School Board learned that its application for a school site at Roosevelt Park was acceptable to both the City Council and the Park Board.

Only rider came from the Park Board who gave the project the green light provided the facilities of the park were kept up until other park grounds were available.

The Port Edward school is almost completed, clerk of works John Currie told trustees, with the exception of installation of clox glass. Mr. Currie said that the first consignment had been broken in transit, and the second had been of the wrong type.

Extra expenditure of \$590 for two sinks for the Conrad School extension was approved last night. Of this amount \$340 will be allotted for the sinks and \$250 for cabinets.

The Board expressed regret at the departure for Victoria tomorrow of School Inspector Will Graham. Mr. Graham will replace R. C. Grant, executive assistant to the superintendent of education. He will be replaced here by D. A. Jones, school inspector for the Abbotsford area.

at the meeting said that "It has been suggested that highway 16 is in some places actually deteriorating through lack of proper maintenance. It is a fact that in claiming the attention of the department of public works, of central B.C., will be competing with representatives of other areas of the province with their own highway requirements."

at the meeting said that "It has been suggested that highway 16 is in some places actually deteriorating through lack of proper maintenance. It is a fact that in claiming the attention of the department of public works, of central B.C., will be competing with representatives of other areas of the province with their own highway requirements."

Rupert To Be Host City As Trustees Group Forms

Prince Rupert will be the host city to an organizational meeting of the North Coast Branch of the B.C. School Trustees Association, it was decided last night at a meeting of District 52 Board of School Trustees.

Only dissenting vote to the move came from Trustee Bruce Brown, who felt that there could be no practical advantage to further organization of the province's school districts.

Under the branch system, 10 groups would be finally formed to take in the 80 school districts in B.C. Each branch would select a representative to the executive of the B.C. School Trustee association.

In the North Coast branch would be the school districts of Prince Rupert, Portland Canal, Queen Charlotte, Kitimat, Terrace and Ocean Falls.

In supporting the organization of the North Coast Branch, Board Chairman Dr. R. G. Large said that the main advantage would be in negotiations, educational and financial affairs.

The 10 representatives and the executive of the Association would be able to act for all school districts in negotiating with the B.C. Teachers' Federation and the provincial government, Dr. Large said.

A further communication from the B.C. School Trustees Association urged non-support of the Hobb's plan which the Union of B.C. Municipalities has submitted to the provincial government.

The Hobb's formula for apportioning education costs calls for 30 per cent to be borne by the province and 20 per cent by the school district.

Trustee Brown said that the Board need have no worry, as he was convinced the government would never accept the Hobb's plan.

Members of the Women's Association of the First United Church enjoyed a cold plate dinner prior to their monthly business session Monday.

President Mrs. G. W. Graham was presented with a farewell gift by Mrs. A. Thompson, on behalf of the membership. Mrs. Graham and her husband, district school inspector, are leaving tomorrow for Victoria where Mr. Graham will take over duties of executive assistant to the deputy minister of education.

Mrs. R. Pollock reported on recent activities of the Cancer Society and plans for a spring sale, postponed from this week to June 3, were discussed.

at the meeting said that "It has been suggested that highway 16 is in some places actually deteriorating through lack of proper maintenance. It is a fact that in claiming the attention of the department of public works, of central B.C., will be competing with representatives of other areas of the province with their own highway requirements."

DICK AVRES

According to confusing stories in two Vancouver dailies and none whatsoever from Canadian Press, the British Columbia boxing team has been chosen by the B.C. Amateur Boxing Commission. The manner in which the choice was made and the inability of the BCABA to follow through on its selection leaves much to be desired.

In fact, the whole business of naming this representative squad, supposedly from boxers all over B.C., puts the BCABA in a very poor light, so poor that it is almost on a par with that other bumbling body the Canadian Amateur Hockey association. The reason for our ire is because Andy Marshall, Prince Rupert's 1934 Golden Gloves middleweight champion was not informed of when he was to take part in any of the three announced elimination fight cards, he wasn't told which of the cards at which he was supposed to appear and even when the final card was announced he wasn't mentioned as being a contestant. All of this mind you, after the BCABC had nominated Marshall as one of the boxers to take part in any elimination contest. Of course they listed Marshall as being from Vancouver instead of Prince Rupert, but unless this is put down to Vancouver's customary habit of claiming anything or anyone who would bring in extra laurels, then it must go into the records as still another boner on the part of the BCABC.

The slap-happy method with which the whole BEG boxing trial "dress rehearsal" was conducted is emphasized by the fact that the commission named 10 boxers to the team and then announced that four of them may not make the trip to the Toronto trials May 13, 14 and 15 because of lack of funds.

The boxers, in the order they were chosen are as follows: Norm Jorgensen, 147 lbs.; Buddy Pearson, 126 lbs.; Bill Adams, 132 lbs.; Billy Stone, 126 lbs.; Steve Phare, 156 lbs.; Gerry Boucher, 112 lbs.; Jack Barclay, 139 lbs.; Gordie McDonald, 139 lbs.; Bill McCready, 180 lbs.; and Trent Ketcheson, 165 lbs. Neither Stone nor Pearson fought in the eliminations, BCABC officials being unable to find opponents for them.

Much to the joy of the financially embarrassed commission the Army will pay the shot for heavyweight McCready, the Navy will ensure that Ketcheson gets there and the commission hopes that the Air Force will do the same for Boucher. The money-short boxing group was dealt an added blow below the belt by the fact that less than 500 fight fans were scattered in the vastness of Exhibition Gardens to watch the supposed "trials."

However, Prince Rupert fight fans, wishing to see that their local boy isn't by-passed by all this southern inhospitality, should take heart.

If money is what is taken to get a boxer to the BEG trials in Toronto, then Andy Marshall is doubly worthy of consideration. The Elks Lodge, who sponsored the Marshall-Ketcheson return bout for just this purpose should be able to see that the city's BEG contender goes down there without any trouble at all. There should be something like \$800 in the kitty which would cover both Marshall's trip to Toronto and also ensure him going to Vancouver to the Games between July 30 and August 7.

We suggest that Maurice Bishon, presently training the city's senior boxing club or the Elks Lodge boxing committee immediately contact the BCABC and ask if there's anything to stop Marshall going providing it won't cost the commission anything.

Since a member of the commission itself has already voiced the opinion that British Columbia will be lucky to place two men on the Canadian BEG boxing team, the BCABC should welcome the offer.

Stampede Sink Aces 8-1 In Edinburgh Cup Opener

CALGARY @—Calgary Stampede, champions of the Western Hockey League, thumped a somewhat befuddled Quebec Aces squad 8-1 before close to 9,000 fans Tuesday night to take the first game of their best-of-nine series for the Edinburgh Trophy. This is the first year the trophy has been up for competition.

Second game of the series will be played here Thursday night and the third at Edmonton Saturday night.

The game was a lack-lustre affair although Stampede were full value for their win.

Steve Black led the scoring parade with two goals. Singletons were scored by Johnny Michalak, Sid Finney, Jim McFadden, Steve Witlik, Archie Scott and Frank Ashworth.

The lone Quebec goal was scored by Adam Brown in the first period.

The Stampede, who Saturday won the WHL title by eliminating Vancouver Canucks,

went without two of their centres, Pat Lundy and Ray Barry. Lundy, out with a heel injury, is expected to return to action at the week-end. Barry is out for the season with a stomach ailment.

Aces, champions of the Quebec hockey circuit, had Jack Gelineau in the nets but he was unable to stem the Stampede forwards, Lorne Nadeau and Bill Burega were missing from the Quebec lineup.

Mitchell put Stampede into the lead early in the first period but Brown got the equalizer about the midway mark. After that it was all Calgary.

Stampede tore into Quebec territory for three goals in the second period and four more in the final 20 minutes.

The officials handed out four penalties, two to each club, and two figured in the goal-scoring.

In the shots-on-goal department, Brennan kicked out 18 attempts and Gelineau stopped 20.

LAST NIGHT'S FIGHTS

DETROIT—Chuck Price, 150, Detroit, outpointed Gene Parker, 149, Indianapolis, 8.
SEATTLE—Dixon Hoxsey, 139, Seattle, stopped Earl McDonald, 143, Vancouver, 5.
HONOLULU—Ramon Fuentes, 147½, Los Angeles, outpointed Frank Fernandez, 146¾, Honolulu, 10.

MAJOR LEAGUERS are keeping a close watch on young Paul Giel, who graduates from the University of Minnesota this June. The athlete is a top-notch performer on the football field (left) and on the university baseball team—equally at home on the grid and diamond. Those who know say he's really going places—so keep your eyes on him!

Braves Dump Pirates 6-1 To Climb Out of Cellar

By BEN PHILEGAR

Associated Press Sports Writer

When you're in last place and you've got a team in town you think you can beat, you play the game even if it snows.

That seems to be the current theory in Milwaukee. The Braves, who have had a rough time this spring, beat Pittsburgh 6-1 Tuesday night in a game interrupted in the sixth inning by a miniature blizzard.

The victory pulled the Braves out of last place in the National League and dropped the Pirates to the bottom.

NEAR FREEZING

Although the temperature was within five degrees of freezing at game time, 12,383 of the Milwaukee faithful paid their way into the park and had such a good time during the snow that they serenaded the chilled players with "Jingle Bells."

The wintry blasts knocked three other games from Tuesday's schedule and rain washed out a fourth. It was too cold for Brooklyn at Chicago and New York at Cincinnati in the National League and too wet for Baltimore at New York and too wet for Detroit at Boston in the American League.

In games that were played, Chicago White Sox increased their American League lead to 2½ games and a half over Detroit by whipping Washington 8-6. Bob Trice won his fourth straight as Philadelphia shaded Cleveland 3-2, and Philadelphia Phillies whipped St. Louis 14-10 in 11 innings. The Phils poured across four runs in the 11th.

The Phil-Cardinals struggle ran four hours 31 minutes, finished up in the early hours of this morning and saw a major league record set for the total number of pitchers.

The two clubs tossed 15 assorted pitchers into the marathon, starting with two of the league's best—Harvey Haddix and Robin Roberts—and winding

Bill Brenner Blanks Salem

By The Canadian Press

Vancouver Capilano handed Salem Senators their first setback of the young Western International baseball league season last night taking them 2-0 on the six-hit hurling of pitcher-manager Bill Brenner.

Victoria Tyees edged Tri-City Braves 9-8, Yakima Bears downed Wenatchee 9-4 and Edmonton turned back Lewiston 5-2.

Jim Clark and Ken Richardson scored the Capilano's two runs at Vancouver. Richardson singled Clark home in the first and in the fourth Richardson scored on an error by catcher Lloyd Ogden.

Jack Hemphill matched Brenner's six-hitter and retired the Capilano in order in the last four innings.

Oaks, Angels Repel Invasion By Northerners

By The Canadian Press

The Seattle Rainiers and Portland Beavers opened a new tour of the Pacific Coast League's California branch Tuesday night and what was planned as an invasion started out like a retreat.

Both the northern teams lost their series-openers in the south-land.

The Rainiers, who dropped recent home stands to San Diego and Sacramento, squared off against Charley Dressen's Oakland Oaks, and were humbled 7-1.

Portland who had its opener at Los Angeles all but won, but the Angels in a last-gasp rally scored twice and beat the Beavers 4-3.

Catcher Al Evans of Los Angeles was the hero.

With two on base and two down in the ninth, Evans pickled Red Adams' first pitch for a sizzling double that just eluded the frantic dive of Portland left-fielder Fletcher Robbe. The Angels, the weakest hitting team in years at Wrigley, got only six blows. Dixie Upright poled a 300-foot homer for Los Angeles and Charley Grant and Dino Restell clouted similar blows for the Ports.

Oakland scored all its seven runs in the fourth inning against Seattle. Pitcher Steve Nagy started by walking the bases full and before the inning was over three pitchers had seen service. Oakland's Gene Hermanski, who had hit safely in 14 consecutive games, was stopped. Don Ferrarese, promising southpaw, was the winning pitcher.

Roger Bowman, a good left hander who had won only one game this season against five losses, pitched Hollywood to a 5-3 decision over San Diego. The defeat for the Padres cost them first place in the standing, for Oakland, in beating Seattle, took over the top spot.

Al Cicotte hurled Sacramento to a 4-2 victory over San Francisco, allowing seven hits. Cicotte also stepped up to the plate in the seventh inning with one out and one man on base and hit a home run that won the ball game.

Remember When

By The Canadian Press

Ty Cobb banged out six hits in six trips to the plate at St. Louis 28 years ago today. The "Georgia Peach" who retired from baseball in 1928 with many major league records to his credit, hit three homers, a double and two singles as Detroit walloped the Browns 14-8.

DATES FOR RIFLE SHOTS CHANGED DUE TO FESTIVAL

Meetings of the Civic Centre Rifle Club have been shifted next week to accommodate the Prince Rupert Music and Drama Festival. Meetings have been scheduled for 2 p.m. Saturday, May 8 and 7 p.m. Monday, May 10.

The next shoot will be held tomorrow night. At last night's meeting Jim McLean topped the scorers with 98 out of 100. Other high scorers were Wayne Crow 97, Tero Paavola 96, Glen Smith 95, Ed Turcotte 95, Craig Stewart 93, Danny Pick 93, Howard Marshall 93, Joe Kraupner 93, Frank Anfield 91 and Robt. Pedersen 90.

Second Allan Cup Fixture Slated For Vernon Tonight

VERNON, B.C. @—This fruit-growing centre in British Columbia's lush Okanagan valley prepared for an invasion today as they play host to the titans of Canada's amateur hockey ranks.

Sudbury Wolves and Penticton V's meet here tonight in the second game of the best-of-seven series for the Allan Cup, symbol of senior amateur hockey supremacy. Sudbury took the opener 2-1 on Penticton ice Monday.

Vernon is only 80 miles north of Penticton, a mere step for the rabid fans who have followed their V's to the Allan Cup finals for two years in a row.

The Penticton club is fighting now the way they fight best—with the chips down and the odds against them.

"It's happened before," coach Grant Warwick said after their Monday night defeat. "The boys aren't happy unless they're in the hole. Now we'll start digging."

The record backs him up. V's took the British Columbia championship by coming from behind in eight games. Then the best-of-seven western final with Winnipeg Maroons went eight games—two wins, three ties apiece—and Penticton took the sudden-death eighth.

HAD THE ADVANTAGE

V's had the edge Monday—even Wolves' coach Maxie Silverman admits that—and threw it away.

"They should have taken us," Silverman said. "Everything was against us—the crowd, strange ice, Wolves haven't played a game for 10 days. It was Penticton's night and they didn't take us."

It was a bruising meeting between two teams which wouldn't admit that the other had an edge in any department.

And the officials, with the possibility of another six games ahead were just as rough, handing out a total of 17 penalties in an effort to ensure less rugged contests for the rest of the series. Wolves were assessed 11.

Rebel Delegation Chief Active Leftist 29 Years

PARIS (Reuters)—Phan Van Dong, 48-year-old leader of the Indo-Chinese Communist delegation to the Geneva conference, has become a key figure in the Vietnam rebel movement only since 1949.

But for the last 29 years he has been a most active figure in Indo-China's extreme left-wing nationalist circles.

Phan Van Dong was born in Annam, of a wealthy culture-mandarin family. His father was for a time secretary to the emperor of Annam, Duy-tam.

Dong first attracted attention when, as a Hanoi law student in 1925 he helped to organize a strike to commemorate the death of an Annamite nationalist leader. Police issued a warrant for his arrest and he fled to Canton, China where he joined a small group of exiled Indo-Chinese nationalists, including Ho Chi Minh.

He remained in Canton for a year, studying at the "agitators school" formed by Ho Chi Minh there, and at the end of his course became a Communist and returned to Hanoi as a teacher in a private school.

He quickly became one of the most active Communist propagandists in Hanoi and was arrested and sentenced to six years hard labor at Poulo Condore, the island detention centre for Indo-Chinese extremists.

After his release he believed to have spent several years in Russia, attending courses at schools for overseas Communists.

In 1936, he returned to Indo-China, and for two years helped put out a Communist French-language newspaper, Volonte Indo-Chinoise.

In 1938, threatened with re-arrest he fled to China with Ho Chi Minh and helped him form the Vietnam movement in 1941.

In 1943, Dong returned to Indo-China to take part in anti-Japanese guerrilla warfare in the Tonkin delta. He emerged in 1945 as a member of the "Viet Nam people's republic liberation committee" and the leader of a tiny Communist-inspired party, the "Viet Nam Dan Chu Dang" democratic popular party.

He became finance minister and secretary of state for defence in the Ho Chi Minh government set up in 1946. In June, 1949, he was president of the Viet Minh government delegation to Paris.

When the Indo-China war began in December, 1949, he went underground with Ho Chi Minh. In 1949 he was reported to have been made vice-president of the Ho Chi Minh government and president of the defence council.

BABY'S HOT LITTLE HEAD

WHEN your baby's head feels hot it may be because of simple fever common to some minor baby ailment. If so, Baby's Own Tablets will help reduce this simple fever by clearing harmful wastes out of the system. If baby's fever is not promptly relieved, consult your physician.

One Midland, Ontario Mother has this to say: "My little baby was feverish and hot. I gave her Baby's Own Tablets and by midnight she was up and around again." Baby's Own Tablets are sweet-tasting, only to take—and have been used with confidence by mothers for over 30 years. No "sleepy" stuff—no dulling effect. Equally good for restlessness and peevishness resulting from irregularity at feeding time, for constipation, digestive upsets and other minor infant troubles. Get a package today at your druggist.

More people drink Burnett's than any other dry gin

BURNETT'S WHITE SATIN GIN
BURNETT'S LONDON DRY GIN

GRAY-HAIRED Dominick Brugnolotti checks one of the merry-go-round organs in his hush shop in Brooklyn, N.Y. Ever since 1891, when he first came to the building, Dominick has been repairing hand organs, street pianos and carousal music-makers with a doctor's skill and devotion. Today, when such things as hand organs are fading from the scene, Dominick is one of the few members of his profession still active. While people still love the magic sound of merry-go-round music, though, he will be an important man. Only recently an organ was shipped all the way from Spokane, Wash., with the plea that Dominick make it play again.

BLACKWOOD on BRIDGE

By EASLEY BLACKWOOD

Good Trump Management Requires Imagination

In many situations where the winning play for declarer is to postpone leading trumps, the necessity for that action is far from obvious. In today's deal, for example, it was completely hidden—as far as Mr. Muzzy was concerned, anyway.

The best way to avoid a trap of this kind is to pause before playing that first card from dummy and plan your play. Forget about overtricks. Concentrate on the safest method of play which will bring in enough tricks for your contract, figuring on unfavorable distribution of the opposing cards.

Look at what happened to Mr. Muzzy in this hand. Mr. Champion led the nine of diamonds, the deuce went on from the board and Mrs. Keen promptly ducked. Mr. Muzzy won with the jack and smiled happily at this favorable lead.

MUZZY OPTIMISTIC

He could see no danger. As he analyzed it, he had one club loser and either one or two spade losers. If the ace of spades were on his right, he could lead up to his king and win a trick with that card on the first or second round of the suit. He could then ruff a spade in dummy and actually make five-odd.

But to lead up to the king of spades he had to enter dummy. That was easy and he led the nine of hearts to the case. A spade was returned and the king put up. Mr. Champion won with the ace and led back a trump.

Worried now, Mr. Muzzy won on the board and led another spade.

Mr. Champion won with the ten and led the last trump off the board. Now Mr. Muzzy had to lose three spades and a club for down.

"Did you think you bid five, Muzzy?" asked Mr. Champion.

MUZZY'S MISTAKES

"Certainly not," replied Mr. Muzzy hotly. "Can I help it if the ace of spades was behind my king?"

Mr. Champion grinned wickedly. "In a word, yes," he said. "In fact, I think I can prove that you were trying to make five-odd. Tell me, what would you have led at trick two if you had held three very small spades instead of three to the king?"

"I'd have led a spade," Mr. Muzzy admitted. There'd be no

reason to use a trump to enter dummy to lead a spade up to a six spot.

"Exactly," said Mr. Champion. "With a weaker holding in spades you would have made your contract. You used a vital trump at trick two just because it's usually the correct play to lead up to a king. Good trump management requires enough imagination to see the need for an unusual play now and then."

Mallock Seeks Second Appeal

VANCOUVER (C)—A second appeal may be launched on behalf of convicted drug baron George Mallock, this time in the Supreme court of Canada.

Mallock is being held in Oakalla pending a decision on application for leave to appeal to a judge of the Supreme Court by his lawyers.

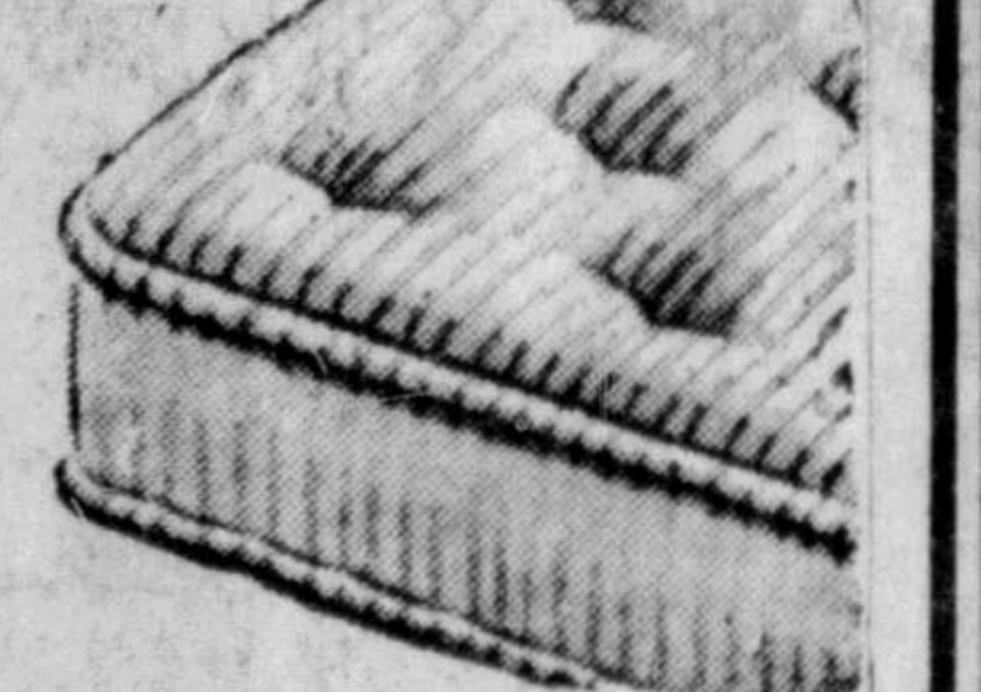

Mallock's appeal against the 28-year prison sentence imposed on him was dismissed by the B.C. Court of Appeal which confirmed the sentence.

Pamphlets Found

COPENHAGEN (C)—Pamphlets in Russian were found on the Danish island of Moen this week after planes of unknown nationality flew over the area Sunday night. The pamphlets were sent to Danish Army intelligence for investigation.

MATTRESSES

Good quality mattresses with resilient steel coil springs. Padded with soft layers of colored cotton felt. Firm border with rolled edges.

Covered with panel damask ticking in assorted patterns. Well-ventilated. Standard length.

Cheaper Food Countering Rising Rents

OTTAWA (CP)—Living costs are resisting the impact of rising rents with lower food prices.

The yardstick for measuring food costs made its fifth consecutive monthly decline in February, dropping to a nine-month low.

And while rents and home-ownership costs rose to a new high, the consumer price index, measuring rod for living costs generally, slipped by a fifth of a point to 115.5, lowest in eight months.

The March survey of the index, based on 1949 prices equaling 100, likely will be published Wednesday.

BEEF DROPS

Pork, coffee and fruits jumped in February, but beef and fresh vegetables countered with overbalancing drops, cutting the food sub-index by a fifth of a point to 110.7. This is the lowest since the 110.1 of April, 1953.

In contrast, the shelter column which includes rents and home-ownership costs, continued its historic climb to a new high of 125.6, up a fifth of a point from the previous month and three points in a year.

RELATIVE STABILITY

The opposing moves between food and rents, in some respects, give the appearance of a period of relative stability in living costs.

The drop of a fifth of a point in the consumer price index in February compared with no change in January and a drop of a tenth of a point last December.

And "there is nothing in the wind," says a federal economist, "to indicate any major shift from this period of general stability in the next few months."

Other shifts in the consumer price index during February:

The clothing sub-index eased to 109.8, as scattered decreases shaved it by a fifth of a point. Higher prices for dry-cleaning, laundry services and soaps bumped the household operations sub-group by a tenth of a point to a record 117.6.

WHALING PORT

Dartmouth, across the harbor from Halifax, was an active whale fishing port in the late 18th century.

For a good economical car try our A-30 AUSTIN. A complete car with a low price of only \$1495, that includes foam rubber seats, leather upholstery, directional signals and heater-defroster unit.

SUPERIOR AUTO SERVICE

IN SPRING A YOUNG MAN'S FANCY . . .

It used to turn to love and poetry but in this day and age, it seems to be love and a jalopy. Lover boys don't seem to be writing poetry any more and, from what we recall of our youth, it's probably just as well.

So now that the sap is beginning to flow, most of the young swains around town seem to have their eyes on some dame, or some jalopy—or both. In either case we wish them luck. We hope they all get both. But about that jalopy—whether you want some old boat to pole around in or one of the sleek newer models, we've got 'em. These and many others to choose from.
