## Five Killed, 10 Injured Wreck

**By The Canadian Press**  
LONDON.—Transport officials today announced that nine killed and 10 injured in Wednesday's shattering crash of a jam-packed London subway train.

Rescue workers more than 10 hours to cut their way through the tangled wreckage to recover the last four bodies.

The injured, eight were in serious condition.

They were brought out down after being pinned nearly 10 hours in the collapsed tunnel between stations of Stratford and Doctors had to amputate a man's leg to free him. A crash occurred at the moment of the homeward rush by workers.

A train pulled out of Stratford and piled into the tunnel a mile away.

A train carried eight and about 600 passengers.

Coaches of the standing and leading coaches of which hit it buckled under the impact of splintered wood and steel.

The tunnel, which provides 18-inch clearance above the tracks, was corked with the wreckage.

### Battle of the Beaches

WHEN SEVERAL HUNDRED of the city's prettiest beach girls held a surf carnival on the golden beaches of Sydney, Australia, the Surf Life Saving Association promptly protested. Male members of the association said they were not in favor of girls competing in surf carnivals. The girls replied that they drew bigger crowds than the men and raised money to help the men's club pay for a new building. With banners flying the girls are shown in a march past.

## Top Cage Event Here Tonight With Senior B Finals Opener

The biggest event of the basketball season gets underway tonight with the opener of the two-game senior B provincial championship series between Prince Rupert Co-op Challengers and Kamloops Merchants.

The seven-man Kamloops squad arrived yesterday afternoon headed by Coach Art Barton.

Neither Barton or Challenger coach Alex Bill ventured to forecast any developments as both teams are unknown to each other.

Barton, however, considers Kamloops may have an edge in the fact Challengers have not played this season as a body against outside competition.

On the other hand, the visitors won both the league and playoff championships in the five-team inter-city league of the southern interior which includes Vernon, Kelowna, Summerland, Penticton and Kamloops.

The championship gave Kamloops the right to play Trail in the quarter finals, defeating the Cominco in a close two-game series. Over the Easter week-end, Barton's squad downed Cloverdale in the semi-finals.

The Kamloops team features no "extra" height but has an average of six-foot cagers backed by speed and accuracy.

Barton himself is a veteran cager who played forward for UBC Thunderbirds when they captured the Dominion senior men's championship in 1941. He played for Kamloops for five seasons and was named coach of the team this year.

Barton was playing-coach when the visitors were downed here four years ago in the senior B finals. The games were highly protested by Barton on the basis of refereeing and at that time decided he wouldn't play here again with local umpires.

"But I've got full confidence in your referees now. I hear they are among the best in the country," said Barton today.

First game will be refereed by Fred Calderoni and Ole Slatta.

Following are brief sketches of the visiting lineup:

**Keith (Buck) Buchanan**—Six-foot-two forward, second year senior B, one of top scorers.

**Jack Fowles**, six-foot-two centre, top team scorer and third in inter-city league. Good ball handler.

**Don Merriott**, six-foot forward, fast ball handler.

**Harold Foulger**, five-foot-eleven guard and veteran of club who faced Rupert here in 1949.

**Ben Camp**, six-foot-one guard, former UBC cager but native of Kamloops.

**Len Fowles**, five-eleven forward, played on Normal School team.

**Gordie Farquharson**, six-foot forward.

All players have a minimum of two senior B seasons playing time and all are local Kamloops men.

"We have no imports," laughed Barton.

The main event gets underway at 8:30 in the Civic Centre gym.

A fast and furious cage duel has been planned for the preliminary which features the final game of the best-of-five inter A championship series between North Star and Fraser & Payne.

F-Ps came back Tuesday to tie the series 2-all in one of the fastest games here of the season and another hard-fought duel is expected tonight.

This game starts at 7:30 p.m.

## BOARD SEEKS SUPERVISOR FOR GYRO SWIMMING POOL

The board of parks commissioners is looking for a supervisor of the Gyro swimming pool for this summer following resignation of Mrs. Lalla Svendsen, supervisor and instructor.

Mr. and Mrs. Svendsen are leaving for Regina to spend the summer there.

Meanwhile, the board of works will be asked tonight to resurface the Rotary tennis court, said parks board chairman Pat Forman. Jagged rocks protruding through the surface are considered a playing hazard and ruinous to tennis balls.

The courts under management of the parks board will be opened as soon as the surfacing has been completed.

The Roosevelt Park playing field has been authorized graded and rolled in preparation for Sunday's opening soccer game.

## Duncan School Principal Heads B.C. Teachers Group

VANCOUVER (CP)—W. V. (Bill) Allester, 32-year-old principal of Duncan Elementary School, Wednesday became the youngest person ever elected president of the B.C. Teachers Federation.

An Air Force veteran and a graduate of Victoria Normal School and the University of B.C., Allester was the choice of the BCTF executive.

He won the presidency without opposition from the floor of the annual convention here.

In an address to the 700 delegates to the 34th annual convention, Education Minister Mrs. Tilly Rolston defended "cut-backs" in her department.

"Some reductions have been effected," she said, "but in practically no instance will the service be cut."

Mrs. Rolston took issue with an editorial in the B.C. Teacher which "questioned" the Social Credit government's policies of economy in education.

All economy measures taken in the education department were justified, she said. B.C. education dollars must be useful ones.

She urged that the education system keep pace with the changing world.

"I have not advocated sweeping changes in the curriculum, but to have a balanced curriculum I feel we should have industry representatives as well as academic leaders on the curriculum committee."

The thorny problem of education was a top issue at the convention.

A survey showed that most of the teachers favor a re-vamping of school grants under the present Cameron formula. Most said the Social Credit-Rolston formula does not provide the answer for financing education.

## -WEATHER-

**Synopsis**  
Cloudiness from a disturbance centred over Oregon covers the southern fringe of the province. Overnight temperatures were considerably warmer than yesterday. At Vancouver the minimum was 45 compared to 34 on Wednesday morning.

Elsewhere, minimums were generally below freezing.

Sunny skies are expected in all regions on Friday.

**Forecast**  
North Coast Region: A few clouds today and Friday. Not much change in temperature. Winds light.

Low tonight and high Friday—At Port Hardy, 31 and 55; Sandspit and Prince Rupert, 35 and 55.

## Alaska Forming Territorial Police Force Similar to RCMP

U.S. Alaska (AP)—Alaska is to establish its first police force to cope with law enforcement in an area one-fifth the size of the United States.

The Alaskan equivalent of the RCMP will be the territorial legislature vote to create the force as one of its final acts before adjournment last month. The law will become effective in 90 days, with a \$750,000 "kitty" for financing the organization for two years.

The need for the force grew from the same sources which have brought the territory's military personnel, the boom-town development from huge military construction projects and the hangers-on who accompanied them.

It will take over from the present territorial highway patrol, which will be abolished.

The big law enforcement problems have developed in the Anchorage and Fairbanks areas, where military construction has brought booms rivaling the gold rush era.

# Art Laing Elected Leader Of Liberal Party In B.C.

## AUSSIE SOLDIERS RETURN WITH 39 JAPANESE WIVES

BRISBANE (Reuters)—The 1st battalion of the Royal Australian Regiment landed here from Korea, exactly a year after it first went into action with the Commonwealth division. The men brought home 39 Japanese brides.

## Reds Agree to Major Points in POW Proposal

MUNSAN, Korea.—The Communists unexpectedly agreed Thursday to all major points of the allied proposal for exchanging sick and wounded prisoners. The agreement may be signed Friday.

Agreement on the mechanics of trading the disabled prisoners came during a meeting of staff officers which followed the regular session of liaison groups.

If the agreement is signed tomorrow, the exchange of sick and wounded prisoners could start within 10 days.

The Reds reiterated earlier Thursday that they will return no more than 600 allied prisoners—including probably not more than 125 Americans.

The formal signing and ironing out of minor technical details could pave the way for restitution of full-scale armistice talks to resolve the long remaining issue, blocking trade in Korea—an overall exchange of prisoners.

A highly-placed American source said the Communists already have begun gathering together sick and wounded for repatriation through Panmunjom and that the exchange probably will take place within 10 days.

The allies have said they are ready to send back 5,800 disabled Red captives—5,100 North Koreans and 700 Chinese.

## Police Bullet May Cripple Holdup Man

VANCOUVER (CP)—The police bullet that cut short a \$6,000 bank hold-up here may have crippled 26-year-old Patrick Bell for life.

Bell, charged with holding up the Renfrew branch of the Royal Bank of Canada, in an emergency operation had the bullet removed from his spine.

He was shot Tuesday as he stepped out the bank door with a shopping bag stuffed with money and an unloaded gun in his hand.

Bell's 28-year-old wife, mother of a four-year-old girl, is a patient in the tuberculosis hospital.

Wednesday night police announced the man they suspect of being an accomplice in the robbery also has been charged with robbery with violence. They identified him as Victor Leslie John Sparkes.

Sparkes was arrested near the scene of the robbery. He was sitting in a car, which police said they believe Bell planned to use in fleeing from the bank.

## Russ, Red China Return Japanese Boats, Fishermen

TOKYO (AP)—Russia and Red China have returned without notice 171 Japanese fishermen and five fishing boats captured by Communist vessels last year.

Three ships, carrying 147 fishermen, arrived at Nagasaki, North Kyushu, from Shanghai. Two other vessels, with 24 fishermen aboard, arrived at Wakkanai, northernmost Japanese port, from Soviet-held Sakhalin Island, north of Japan.

Neither Russia nor Red China notified Japan beforehand of the decision to release the fishermen.

## Girl Injured In Tree Fall

A 13-year-old girl is in Prince Rupert General Hospital in good condition after suffering a severe fracture above the knee from a fall yesterday.

She is Jeanette Maundrell, daughter of Mr. and Mrs. Chuck Maundrell, 144 Ninth Avenue East, who fell from a tree while playing.

## Party Urges More Aid To Education

VANCOUVER.—British Columbia Liberals on Wednesday approved an election platform proposing reductions in taxes and calling for increased government aid in the financing of education.

The platform and 43 resolutions were passed by nearly 800 convention delegates as they prepared for the June 9 provincial election.

The finance division of the platform pledged the Liberals to reduce all passenger car licences to \$10 and remove the sales tax on meals and on all purchases of 30 cents and under.

At the same time, delegates rejected motions calling for raising of the sales tax to five per cent. It was proposed that the extra two per cent be used to finance the province's compulsory hospital insurance scheme, eliminating the present premiums.

The convention went on record as favoring redrafting of the liquor laws to permit sale of liquor by the glass as approved in the plebiscite last June. This would be done on a local option basis.

Northward extension of the Pacific Great Eastern Railway into the Peace River area was approved.

IN 1902 A TROOP of the old North West Mounted Police was trained and sent to London for the coronation of King Edward VII. In this photo they are shown heading a group of Canadian troops in a march-past before the Duke of Connaught. When Edward's coronation was postponed because of the monarch's illness, the troop was sent home. The NWMP later was represented by two constables.

## Movies 'Out' For Juveniles

Four juveniles appearing in County Court before Judge W. C. Fulton were given two-year suspended sentences, deprived of going to movies and told to "learn to play chess" after pleading guilty to several counts of breaking and entering.

The charges were laid following raid of Peter's Delicatessen in Terrace. One of the accused is a Prince Rupert boy.

## Concerts Here to Stay

LAST NIGHT the curtain was rung down on the last of the Alaska Music Trail concerts for this season. The applause that followed the final encore was a tribute to tenor Raymond Manton, but indirectly it was also an expression of appreciation for the group which has steered the series through the most successful period since its inception.

Despite the wide appreciation of good music here, it is not easy to put on concerts which will not only give enjoyment but show profitable financial return as well. The latter is essential as it helps to balance off the heavy expenditures the Civic Centre must make to maintain the facilities which add so much to our general pleasure.

By dint of experiment and a certain amount of disappointing experience, those who volunteered their time to organize the concerts have, with the unsparing help of the Civic Centre staff, brought the concerts to a level where they are paying as well as pleasing. Because this has been accomplished, Prince Rupert can look forward with the warming thought that the Alaska Music Trail concerts are here to stay.

There is only one way of saying it to those who have made this possible—Thank you.

## Retirement Leaves a Gap

RETIREMENT of Ed Kenney from B.C. politics brings to an end—as far as one can see at this point—a career made notable by outstanding, though sometimes controversial, accomplishment.

Mr. Kenney was handed the important portfolio of Minister of Lands and Forests at a time when the natural resources of this province were becoming recognized by industry as one of the great wonders of the modern world.

That was just over eight years ago. Until the defeat of the government last June, the peppery little legislator from Terrace bore the awesome responsibility of being real estate agent on the public's behalf for this incredibly vast and valuable property.

The crucial test came in the latter part of his term when the Aluminum Company of Canada expressed interest in spending millions of dollars on a hydro-power development in the northern coastal range. Mr. Kenney closed the deal which led to the project now underway at Kemano and Kitimat, and with which his name will forever be associated in the form of the giant Kenney Dam at Nechako.

There are those who say he did not drive a hard enough bargain. There are others who maintain he skillfully clinched an enormous business for B.C. which might have gone elsewhere. There is no call to rehash that now. It has all been argued before.

The point is that, unmotivated by personal profit, Mr. Kenney did what he considered right for the province. Not many of his critics can claim to have reached a position in public service where it mattered whether their decisions were right or not.

Even though the last year has been an anti-climax in his political career, this native Maritimer can look back on a life of usefulness to his adopted province on the Pacific, and particularly to this piece of it.

It is hoped that he will remain long in these parts and that some of the younger constituents headed into public life will pick up a few lessons on the way from the respected old master in their midst.

## Western Europe Still Bewildered With 'Somersaults' in Soviet Policy

By TOM OCHILTREE  
LONDON (AP)—Western Europe is watching with bewilderment the apparent somersaults in Soviet domestic and foreign policy, but there are signs of hope that the long winter of the cold war is nearing an end.

Neither Foreign Office officials nor men in the street know definitely the complex motives behind the Kremlin's conciliatory moves. But this half-formed theory is gaining ground: Stalin's death may have removed the immediate threat of an East-West conflict.

Voice has been given also to dozens of other theories ranging from the rosiest optimism to the darkest pessimism. Unquestionably the atmosphere in Western Europe has changed. East-West relations seem to have taken on a more-civilized tone.

However, for every expression of hope there are warnings from public men and newspapers telling the people of the West to keep alert and not lower their guard.

Lord Beaverbrook's Sunday Express summed it up with this quotation from "Alice Through the Looking-Glass": "Why, sometimes I've believed as many as six impossible things before breakfast."

The same newspaper said editorially: "A revolution has taken place in Russia since Stalin's death. A revolution in policy."

"The aggressive actions, the cold rejection of Western overtures for a peaceful understanding, the bitter threats that marked Russia's foreign policy have been replaced by soft words, conciliatory gestures, and Eastern overtures to peace."

The Sunday Observer spoke of Premier Georgi Malenkov wiping the slate clean. It wondered whether the move to change the Stalin line arose from reasons of conviction or reasons of expediency. If expediency is the reason, the new bosses of the Kremlin may need to restore morale in Russia and the satellites, ease the stress of the cold war and put the West off guard.

## As I See It

by Elmore Philpott

### From War to Peace

IT NOW looks as if peace is about to break out, temporarily at least.

I see no sign that North America is prepared for peace. On the other hand, I see plenty of signs that if peace came overnight the whole economy of the U.S. might slump.

It seems to me you could picture Uncle Sam and Uncle Joe as two heavyweight wrestlers who have been grunting and growling for years to see who could throw the other fellow. But suddenly the pressure is released from Uncle Joe's side (in real life by death). Unless Uncle Sam is careful, he can fall forward, flat on his face.

THE GREAT FACT we must never forget is that since 1929 the western world has never been able to give all its people jobs, nor distribute its full production, except in time of war.

It is a fact—beyond all serious argument—that the western nations never did recover from the Great Depression until the coming of Hitler—and the armament race he started.

The inevitable end of that race was Hitler's war. But the end of that Hitler war was followed by the new "threat of plenty"—too many unsold goods. Had it not been for the "cold war" forced by almost incredible Russian truculence, North America would long since have faced an economic crisis at least as deep as that which produced the stock market slump of 1929.

WHERE over-dogmatic doctrinaire Marxists go wrong—and where even many mild social democrats in the CCF are off the beam—is this:

They assume that because there was a big crash of 1929 there must necessarily be an even bigger crash of 1953? That assumption takes for granted that U.S.A. and Canada have learned nothing in a tragic quarter century. It just is not true.

Actually, the very dilemma that faces the western nations may soon compel them to take a drastic, bold new step which could give us the greatest social advance in our entire history. We can do all this by adapting war techniques to peace.

Suppose that, when peace comes, the governments of the western countries keep right on doing what they have done through the Hitler hot war and the Stalin cold war—namely, supply a government guaranteed-in-advance market for the entire output of their nations.

Suppose instead of building droves of planes, or rockets, we build hundreds of thousands of new homes, bathtubs, stoves, refrigerators. Suppose instead of building barracks for boys in uniform we build new hospitals, schools. Suppose we take a fraction of the money now spent for tanks, or guns, and spend that on superb highways, pipelines to carry cheap natural gas from one end of this vast country to another.

Suppose in a word that we wage war on poverty, scarcity, ignorance and disease in Canada as we twice waged war against Germany—and as we have been reluctantly preparing to wage war against Russian aggressive expansion.

We can finance all that exactly as we have been doing it ever since 1914—actually on a "pay as you go" plan since 1945.

But we cannot do that unless we face up to the most fundamental question of all: Is abundance a blessing or a curse?

During the 1952 season 25,322 vessels locked through Canadian canals, about 800 more than in 1951.

## Ray Reflects and Reminisces

Sign in a bowery pawnshop: "Learn the true value of money; try to borrow some."

Once upon a time the English magazine Punch could be bought in Prince Rupert news stands. This was long ago. But nevertheless, what sounds like a little cautious laughter can be faintly heard every few months.

United States crab fishermen operate in Hecate Straits, although many a Canadian has the impression they have no business there. All the same, they have business there, or at least think so. In Federal parliament a few weeks ago it was announced the whole coast waters will be brought to a standstill. That still remains a mystery. Lord knows it's about time the body knew.

### Raymond Manton Recalled by Concert Crowd

With a rich, clear and sparkling tenor voice, Raymond Manton of San Francisco last night sang through a variety-filled program to the delight of a good attendance at the last Alaska Music concert here.

Under the leadership of his accompanist, Donald Jones, twice Manton sang a short piece from the opera Rigoletto, the song "You Are My Delight."

With a lot of power and fine control, Mr. Manton's talent was best displayed in his rendition of two selections, "C" and "Air Chamberlain" in several instances.

In performance the tenor struck high C with great sweetness and clarity.

He also showed an unusual familiarity with his repertoire in his chosen program, Italian and English selections as well as English selections.

Manton was ably assisted in his performance by his accompanist, Mr. Jones played in the concert.

Miss Faure's exhibit takes place in the ladies' lounge April 16-18.

### Shooting Deer Out of Season Brings \$100 Fine For Native

SMITHERS—Maximum penalty of \$100 and costs or 45 days was handed down by Supendary Magistrate O. H. Hoskins Tuesday to Arthur Tom, native Indian of Quick for infraction of Game regulations April 6.

Tom pleaded guilty to a charge of shooting a doe deer during a closed season. Charge was investigated by Game Warden L.

Cox on information from government predatory hunter A. Fletcher.

In the course of his duties Fletcher found fresh bloodstained snow and followed the tracks to remains of carcasses. A buck deer and a doe the morning of April 7. He reported to Game Warden Cox and subsequent search of an Indian settlement near Quick, 25 miles east of Smithers, revealed large quantities of meat, mostly moose. Much of the meat was in a state of decay.

Fresh blood was found on the floor of the dwelling of Arthur Tom.

Tom told court he was hunting coyotes at 7:30 p.m. April 6.

He fired in the dark only to find he had shot two deer. He claimed he did not know what he was shooting at when Magistrate Hoskins confronted him with possibility that it might have been a man.

Bulkley Valley Rod and Gun club recently made recommendation for a closed season on deer in the district because of rapid decrease in numbers.

save you money!

### Barbara Brent BUYS AND WHYS

MONTREAL, April 9th—In love with your new Spring hat? You'll look your very prettiest in it if you're feeling fine and dandy. And I know a sure cure for that sluggish, "early Spring" feeling. I'm just one of the many who find that a daily glass of lemon water, taken first thing on arising in the morning, helps the system regulate itself. Lemon in water alkalizes and aids digestion. There's none of that unnecessary irritation sometimes caused by harsh laxatives. This natural, fresh fruit drink is good for you—it's full of Vitamin C. But—do be sure to insist on SUNKIST CALIFORNIA LEMONS. Their full-flavoured juice makes all the difference.

Here's A Gift For You! A wonderful gift that you'll find will be a big help to you in your sewing. It's a special set of leaflets... "What to Know About Slight Fasteners", prepared for you by the Lightning Fastener Company Limited. Want to know how to get that "professional look" when you sew in your zippers? These leaflets will tell you exactly how. Easy-to-follow instructions, with illustrations, show the "tricks of the trade" that guarantee you a wrinkle-free job every time. Yes, there are dozens of tips in these leaflets to help you. So be sure to write to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—for your FREE SET of leaflets today!

Baby's Getting Quite grown up, thanks to the good nourishment of Heinz special foods for babies. And now it's time to begin giving him the exciting variety of HEINZ JUNIOR FOODS. What a thrill for him to begin on almost-grown-up fare... good things like Junior Vegetables, Lamb and Liver, Junior Vegetable Fish Dinner, and Junior Creamed Tomato Vegetables and Rice. Incidentally, these Junior Foods make wonderful soups for the pre-school age child. Until your youngster is five or so, it's usually a good idea to give him soup in more milky seasoned form. Because of their milder seasoning, all the Heinz Junior Foods are kind to tender young tummies.

How Thick Should A Tissue Handkerchief Be? — Two ply? — Three ply? That's a matter of how it is to be used. But only FACE-ELLE offers you a choice of 2 or 3 ply tissues... So remember, it's Face-Elle 2-ply in the GREEN box and Face-Elle 3-ply white in the PINK box. (You can also get 3-ply in the extra big Face-Elle for Men size and Face-Elle En Pastels.) You'll always appreciate the super strength and absorbency which only a 3-ply tissue can give you... But you'll want it especially when you have a heavy head cold. It is made of a pure, soft-fibred cellulose so it's non-irritating to even the most sensitive nose. And actually it's an economy to use 3-ply Face-Elle because I've found you use fewer of these super absorbent tissues. Try it once and you'll agree that it's "one of the better things of life!"

With A Happy Hint of Spring Perhaps Your Family has a habit of rising at different times... Pop at seven-fifteen; Bill at eight-oh-five; Jill — just as late as possible. Then you know how handy INSTANT CHASE & SANBORN COFFEE can be! Because you can make just one cup at a time, whenever the folks want it... and there's no waste. That makes it very economical—even more so when you consider that Instant Chase & Sanborn saves you up to 40¢ a pound compared with ground coffee. Make it as strong or as mild as you like, there's still a saving. And of course Instant Chase & Sanborn is good. You see, it's made by experts with nearly 100 years' coffee experience. No, you can't beat Instant Chase & Sanborn for convenience, economy and downright goodness!

No More Wash-Day "Let-Downs" For Me. Now when my wash is done, it's not only clean, it's sparkling white... truly a "dream wash". And you know the simple secret? Just use Blue. Yes, it's easy to get sparkling white sheets, towels, pillow cases and table linen when you use Blue. You and I know you have to rinse clothes clean, then it's simple to put a dash of Blue in the water to get them really white. Blue is kind to your finest fabrics—you're not taking chances when you use it to get your washings snowy white. And the cost? ... A few pennies a month, that's all. Yes, for the whitest wash, use RECKITT'S BLUE.

A Letter From A Reader Says "I'm so glad I read about Zonitors in your column. It's difficult to find out about the best method of feminine hygiene as it's not a widely discussed subject. I'd just like to say that Zonitors are as effective as I'd hoped they'd be!" Yes, thousands of women are finding ZONITORS the most satisfactory method of feminine hygiene. These greaseless, stainless, snow-white vaginal suppositories are dainty, convenient—powerfully germicidal—yet absolutely safe to delicate tissues. For further helpful facts on the important subject of feminine hygiene—simply write to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—and I'll send you a free booklet in a plain wrapper.

THIS GEORGIAN-STYLE CHAPEL is on the campus of St. Francis Xavier university at Antigonish, N.S., founded in 1853 as a theological college out which has gained international fame for its leadership in the field of co-operative enterprise. Accommodation for 750 worshippers is provided in the chapel, completed in 1948. The basement is used as an auditorium.

### Prosecutions Ordered In Paper Combine Case

OTTAWA—The justice department has ordered prosecutions launched in an alleged combine in Canada's fine paper industry, Justice Minister Garson announced in the Commons. Existence of the combine involving 44 manufacturing and merchandising firms from Halifax to Vancouver was charged in a report made to the government last November by combines commissioner T. D. MacDonald. Mr. Garson said the question of whether prosecutions would be justified has been under study for the last few months by Norman L. Matthews, QC, of Toronto. Mr. Matthews found that the evidence justified prosecution of "some or all of the manufacturers and some or all of the merchants," the minister said. The minister added the nature of the prosecutions to be launched has not been determined. The combines report named seven manufacturers of fine papers—those making such products as stationery and book and magazine papers—and 37 companies merchandising these items. He alleged the group employed "loyalty discounts" to restrict competition and combined to fix prices.

### First Aid Centre Planned For Smithers

SMITHERS—A St. John First Aid centre for Smithers district took form with election of G. H. Beley as chairman. J. R. Nicholson was elected vice-president; Mrs. G. L. Charleston, secretary-treasurer. Executive members are Mrs. J. F. MacDonald, S. A. Breiddal, W. D. Yorke-Hardy and C. M. Peterson of Telkwa. A resolution will be forwarded to the provincial secretary of the St. John Ambulance Association at Vancouver for formation authority. The district is requested to be the same as Smithers school district No. 54 which takes in an area of the Bulkley Valley from Moricetown to Houston. Purpose of the centre is to organize and provide instruction in first aid to sick and injured, home nursing, hygiene and sanitation as an aid to medical practitioners in time of peace or war.

### Cabinet Authorizes Damming Project on Buttle Lake

VICTORIA—The provincial Cabinet has authorized B.C. Power Commission to proceed with damming of Buttle Lake and construct two new hydro-electric plants in the province. Authority for the three moves was given by order-in-council. The order respecting Buttle Lake includes 12 special conditions for preserving the aesthetic value of the lake which were recommended to the last session of the Legislature by the special committee which investigated the dam proposal, and recommended that a dam be allowed. The two power plants which the Cabinet has authorized will be located on the Puntledge River, near Courtenay, and at Spillmacheen, in the Rockies.

There may be some opposition to the Cabinet move authorizing the Buttle Lake dam. In some minds there is a question of whether the Cabinet has authority to make such an order. While the special legislative committee filed its report with the House before it prorogued, the report was never considered by the House.

Opposition Leader Harold Winch had a motion on the order paper to have the House consider the report in committee of the whole but the House dis-

### Smithers to Get Funeral Home

SMITHERS—Construction of a \$15,000 funeral home will be started early in May providing this village and district with up-to-date undertaking accom-

modation, it has been announced by P. B. Emerson. Evergreen Funeral Home will be operated by Mr. Emerson's son C. P. Emerson.

# Health Plan to Give More Aid to Disabled

OTTAWA.—The federal government is planning a three-pronged expansion of its multi-million-dollar national health program.

Health officials said today the features, to be outlined in the Commons shortly by Health Minister Martin, likely will concentrate on aid for disabled persons and expectant mothers. Initially, the expansion is expected to add another \$5,300,000 a year—and eventually a lot more—to \$100,000,000 spent during the last five years.

The national health program, which provides federal grants to provinces to aid control of diseases, hospital construction and medical training, was set up in 1948 by the former prime minister, Mackenzie King.

Officials recalled that Mr. King had said the program would be reviewed at the end of five years. The program celebrates its fifth birthday next month and the federal government is reported to be so satisfied with it that it has decided on this three-way expansion:

- Concentrate on medical aid and rehabilitation of disabled grown-ups, in the same way as crippled children have been aided. This may develop in the establishment of special hospitals for the disabled, but this will be a matter for federal-provincial planning.
- Provide funds for appointment of provincial directors and other trained personnel to concentrate on pre-natal and post-natal care for expectant mothers. This program would include education of women in child-caring and construction of special clinics in areas where none are provided now.
- Construction of laboratories to aid doctors in obtaining accurate diagnosis of a patient's ills. Concentration would be on building laboratories in communities where none now exist.

A HOLLYWOOD Academy award was given to Norman McLaren's short feature "Neighbors," made by the National Film Board of Ottawa. The documentary was produced by McLaren who joined the board in 1939.

J. P. GARNEAU is the spry 82-year-old owner of a Quebec city book store which dates back to 1844. The atmosphere of the store, with its 40,000 books, is unchanged since it was founded by Octave Cremazie, father of French-Canadian poetry. A landmark of the Latin Quarter, the store has supplied books to Quebec cardinals, members of the French Academy and international personalities who visit the old city.

# Crysteine Pill May Prevent A-Bomb Radiation Sickness

By ALTON L. BLAKESLEE  
CHICAGO (AP)—A big fat pill costing about \$4 probably would save you from radiation sickness or death from an A-bomb, scientists said today. You'd have to take it just before the bomb exploded. The pill appears to be the best practical bet so far to guard against radiation. It was described by scientists presenting reports to the Federation of American Societies for Experimental Biology. The pill would weigh about two ounces, for a 150-pound person. It would be smaller for someone smaller, bigger for a fat individual. It would be made of cysteine, one of the amino acids or building blocks of proteins such as muscle fat and nerves. Given to animals about two hours before they're exposed to x-rays, cysteine saves most of them. It apparently would do the same for humans. Dr. Harvey Patt, with the atomic energy commission, said: "I would take it (cysteine) if an attack were imminent. But I wouldn't want to take a daily dose over a long period, for then the cysteine might damage body organs." Cysteine costs about eight cents a gram, which is 1-28th of an ounce. About 50 grams—or \$4 worth—would protect a person weighing 150 pounds, he estimated. The important thing about cysteine is that it is the first chemical which protects against both x-rays and neutrons, both of which come from A-bombs. Other scientists said Belgian doctors are giving cancer patients cysteine before they get big doses of x-rays to kill their cancers, to protect them from radiation sickness. Cure or treatment of radiation sickness after exposure is a more difficult matter, the scientists agreed.

ROBERT D. ARMSTRONG, 36, director of finance and administration for A. V. Roe Limited, Toronto, has accepted an appointment as Associate Comptroller of the Canadian National Railways. He will join the company in Montreal, June 1.

# Philosopher Dr. Joad 'Very Ill'

LONDON (AP)—Dr. Cyril E. M. Joad, Britain's philosopher, is "very ill" at his home here, it was reported today. He is 61. Joad, who heads the philosophy department of London University's Birkbeck College, has been in poor health for some time. The nature of his illness was not disclosed. He is well known for his books on philosophy, his broadcasts as a leading member of the BBC's "brain trust" panel of experts and for his barbed criticisms on life in general. Of American children, he once said in an essay: "They are spoiled little brutes."

The name Nokomis for the grain-growing centre in Saskatchewan was taken from Longfellow's poem "Hiawatha."

# Rupert Woman's Father Dies At Smithers

SMITHERS.—Funeral services were held Thursday for James Davidson, retired railroader, who died here after a brief illness. He was 82 years old.

Born in Scotland in 1864, he brought his family to Canada in 1907. He first homesteaded at Ferry Point, Alberta. In 1911 he came west with the Grand Trunk Pacific.

Remaining with the railway, he was retired in 1935, making his home in Smithers for the past several years with his son and daughter-in-law, Mr. and Mrs. J. Davidson. Besides his son, he leaves a daughter, Mrs. A. B. Crawford of Prince Rupert.

Service was conducted from the Smithers United Church by Rev. Canon C. A. Hinchliffe, rector of St. James Anglican Church, in the absence of Rev. R. H. Woolham.

Palbearers were W. A. Ivers, B. A. Sherlock, J. Chilton, H. W. Leach, C. R. Goodacre and J. R. Nicholson.

# Ore Hauling Makes Progress

CLEVELAND (AP)—Great Lakes freighters, off to an early start this spring because of the mild weather, already have a 1,000,000-ton jump on their 1952 ore-hauling performance. The Lake Superior Iron Ore Association, reporting this today, said the lake fleet has moved 1,139,569 tons of the season's goal of 100,000,000 tons of iron ore. Every elevator in the two harbors at the lakehead are dumping grain into 25 lake freighters, and another 45 carriers are awaiting their turns.

# Chinese Return Relatives

OTTAWA.—The federal government will be asked to permit the return of relatives of Chinese-Canadians from whom they were separated by war. Second World War separated 200 Japanese-Canadians and relatives and now a brief report presented to Citizen-Minister Harris to allow return from Japan of close relatives taken by the Japanese. The conference of the Japanese-Canadian Citizens' Association represents about 20,000 Japanese-Canadians of Japanese ancestry.

Oakland 2, Hollywood 1.

## BEST FOR COOKING

Pacific Milk adds extra flavor and nourishment to recipes.

**BUY B.C. PRODUCTS**

Construction has begun on the large clubhouse near the Kitimat River bridge site. Steel and clay pigeon ranges have been laid out and plans are underway for interclub competition between Terrace and Prince Rupert.

Principal aim of the group, says president Fred Ryan, is game conservation and good sportsmanship.

The following fishing competitions now are underway:

1. For the largest fish caught in Kitimat River. First prize, a rod and reel, donated by Bob Thompson; second prize, hip waders, donated by Bert Fitzpatrick.
2. Largest fish caught by a lady. First prize, collapsible landing net, donated by K. Ludwig; second prize, fishing basket, by S. Wynne-Jones.
3. Largest steelhead in April or May. First prize, fishing haversack donated by Theo Ward; second prize, landing net, by J. McLean.
4. Largest cut-throat trout from river. First prize, telescopic gaff, by George Malby; second prize, hip waders, by Charlie Ingram.
5. Largest fish by school-ager. First prize, rod and reel, by Mr. Leverett, and "something else" by the Rod and Gun Club. Individual entrance fee is \$2 and \$3 covers the whole family in all contests.

**NORM PERRY OF SARNIA**, a former mayor of the Ontario city and a one-time football great, was elected president of the Canadian Rugby Union at the annual meeting in Edmonton. He succeeds Art Chipman of Winnipeg.

## Vickerman Leads Way In Derby

A 16-pound, 13-ounce steelhead weighed in by Stan Vickerman tops the entries in the Rupert Rod & Gun Club derby now open to members.

Other fish weighed in at Dan's Service Station since the derby opened last Friday are a 13-pound, two-ounce entry by Bob Armstrong and a 12-pound, nine-ounce by Joe Latoski. Many steelhead are reported to be heading up Cloyah River but anglers are finding difficulty in offering them a lure they will take during day fishing.

In the Rod & Gun Club's open salt-water derby, junior division, a 10-pound, 14-ounce cod heads a list of a dozen entries and present champion angler is Billy Watmough. He also weighed in the second heaviest fish so far—a 10-pound cod.

In the senior division (open to anglers over 16), only two fish have been entered topped by a seven-pound cod.

This derby closes April 25 and will be followed by a salmon derby, likely run on a month-to-month basis.

Prizes for the salt-water derby—fishing tackle for juniors and cash for seniors—will be awarded at the May 5 meeting of the Rod & Gun Club.

## Remember When

Beau Jack, the former world lightweight champion, won a close slugging match over Canadian welterweight champion, Johnny Greco, five years ago tonight at Montreal. A crowd of 10,500 contributed to a gross gate of \$41,832 to see the out-punched Georgia Negro out-punch Greco. Greco weighed 146, Jack 139.

**TO ADVERTISE IT PAYS**

## SPORTS ROUND-UP

By GAYLE TALBOT

**NEW YORK (AP)**—You may put it down as nearly certain that the greatest rookie coming into the big leagues this year is Daryl Spencer, the tall young infielder brought up by New York Giants from their Minneapolis farm club.

Having watched the boy with the long jaw play since the day he reported to the Giants' training camp at Phoenix, Ariz., we will go on record as predicting that he will within a year or two assume the "Mr. Shortstop" mantle relinquished by Marty Marion. He has the height of Marion, 6-2½, and his 190-odd pounds assure his durability.

Nominating Spencer for shortstop immortality at this stage might seem risky, because it is far from certain that he will see any great amount of service at that position in his first season. After all, the Giants have a 300 hitting shortstop named Alvin Dark who was good enough to play on two pennant winners.

But it really isn't risky. Sooner or later—and probably sooner—Manager Leo Durocher will be forced to turn the big job over to Spencer and install Dark at second, for such fielding genius as this rookie appears to possess can be utilized fully only at shortstop.

All we have seen him do at short, second and third is make an unbroken string of stops and throws on every kind of ball there is. His throwing arm is about as great as we ever saw.

**STANDOUT PLAY**  
One play he made stands out. In a game against Cleveland at Albuquerque, N.M., one of the Indians laid a perfect bunt down the third-base line. Spencer, who was playing the near corner that day, came in like an express to scoop the ball and, in one motion and without slackening, made a perfect throw to first for the putout.

Almost to a man the players on the Cleveland bench shouted "Great play!" and we do not imagine that happens too often. Durocher later said it was as

## Clover Leafs Take Lead

**VANCOUVER (CP)**—Vancouver Clover Leafs took a 2-1 lead in the best-of-five Western Canada senior men's basketball final Wednesday night as they outthudded University of Alberta Golden Bears 63-54.

The winners led 18-13 at the end of the first quarter after being ahead 17-6 at one time. They held a 32-24 edge at half-time and were in front 50-37 by three-quarter time.

## Train Schedule

**STANDARD TIME**  
For the East—Daily except Sunday... 8 p.m.  
From the East—Daily except Monday 9:30 p.m.

## Ernie Lombardi Near Death

**OAKLAND, Calif. (CP)**—Ernie Lombardi, former major league catcher who twice won the National League batting championship, was found with his throat slashed from ear to ear Wednesday night.

His wife, Bernice, and police said Lombardi resisted first attempts to take him to hospital, yelling "Let me die."

Hospital authorities said they did not expect the 45-year-old Lombardi to live.

# 'Ford Company Plans Nation-Wide 'Party' to Celebrate Anniversary

Ford Motor Company of Canada celebrates a birthday this year. It was just 50 years ago that a little "horseless carriage" factory started up in Detroit, doing business under the name of Ford Motor Company. Today the giant Ford companies of Canada and the United States, and companies bearing the Ford name in 23 other countries, demonstrate the amazing success of Henry Ford's magic idea: "I will build a motor car for the great multitude."

The anniversary year finds Ford of Canada well into the biggest expansion of its history, and one of the largest industrial expansion programs Canada has ever seen. In May cars will begin coming off the line in the giant new assembly plant at Oakville, Ont. And in the traditional automotive centre of Windsor an equally large expansion is underway as Ford of Canada invests an estimated \$32½ million in a program to modernize and enlarge every aspect of its manufacturing operations.

To celebrate this 50th anniversary, the company is planning a nationwide "birthday party" on June 16, the day on which Ford Motor Company was founded. In the big manufacturing plants in Windsor and Oakville, and in dealerships across the country there will be informal gatherings to recall the Ford story—the days of the Model T, the Model A and first V-8—and to take a look at Ford's future in a booming Canada.

A Canadian-produced anniversary radio program will be broadcast June 17, featuring the role of the automobile in the lives of Canadians during the past half-century.

During the early summer a motion picture presentation of the colorful story of Henry Ford will be premiered in Canada and the United States. Early in May the Ford Archives, largest institution of its type in industry, will be dedicated at Dearborn, Michigan. Some of the world's leading scholars, archivists and historians, including a number from Canada, are expected to attend the ceremony.

High point of the U.S. celebration will be the dedication on June 15 of a new \$50,000,000 research and engineering centre which will incorporate the most modern industrial research and testing equipment.

At the ceremonial opening of the centre, leaders of government, business and other fields will be given a glimpse of the automotive miracles of the next half-century. But they will also take a backward look at the real automotive miracle man—Henry Ford, who put the world on wheels.

### Britain Protests Argentina Base

BUENOS AIRES (AP)—Foreign Minister Jeronimo Remorino says Britain has protested to Argentina that establishment of a new Argentine base in disputed territory in the South Shetland Islands near the Antarctic circle.

The Argentine navy ministry said that a new base had been set up at Bahia Luna, on Livingston Island.

ALLAN T. PATTON has been named director of pulp sales for Canadian Chemical & Cellulose Company, Limited. He has been associated since 1945 with Mead Sales Company, New York, in a pulp sales capacity. In 1932, he was with Fraser Companies Ltd., both in Canada and the United States, and remained with that company until World War II.

### Screen Actor Being Sued For Damages

LOS ANGELES (AP)—Actor Robert Cummings is being sued for \$20,341 damages by a sheriff's deputy who accused him of "wanton and malicious" assault.

Deputy William Conroy, 28, alleged in a civil action that he was injured when he tried to serve a court summons on Cummings last December 18.

## Pro-Cons Enter Election Campaign Fighting Mad

Deane Finlayson, Progressive Conservative party leader in B.C. in accepting nomination as candidate in Oak Bay riding in the June 9 election, said: "I am in this election leading the Conservative party fighting mad. This is the approach that all Conservatives must adopt."

"More than 129,000 people voted for us in the last election. These same people and thousands more will vote for us again."

"It is to them we owe a responsibility. We shall be equal to our task and fulfill our obligation."

"The high hopes that the people held for the Social Credit party have been shattered. While there are many fine people following the Social Credit party, the control has fallen into the hands of self-seeking, self-righteous and ambitious political opportunists."

Mr. Finlayson said the nucleus of the Progressive Conservative party today is youth. "It is to the young men and women of this province I urgently appeal. Our fight will not be an easy one. It will demand the best of all of us. The main ingredients of our campaign will be tireless effort, concrete action and sheer guts."

Two major Progressive Conservative party policy disclosures were made by Mr. Finlayson dealing with the controversial education cost issue, which

led to the fall of the Social Credit government, he said: "It is the Progressive Conservative party's aim to take the burden off the landowner—the people who want to build and own their own homes."

"We propose that 80 per cent of the operational costs of education be borne by the provincial government and 20 per cent by the cities and municipalities. On construction costs the split would be 50-50."

Attacking what he termed the recent "brutal and callous treatment" of civil servants, Mr. Finlayson said: "The Progressive Conservative party will establish a civil service commission which will remove the civil service from all political influence."

"People who are prepared to make a life work of civil service should be made secure from political interference and should be encouraged to give their utmost in service and efficiency. Only in this way can the taxpayers reasonably expect value for their money."

### Doctors Named For First Aid

LONDON — Elaborate arrangements have been made to provide emergency treatment for any casualties that may occur among the more than 7,000 guests attending the Coronation in Westminster Abbey next June. A panel of 25 prominent practitioners, including many lists from London's famous Strand, has already been named for the first-aid assignments. Doctors were chosen by Sir Mittee headed by Sir Evans, the Queen's physician.

## Hand-e-wrapsodies

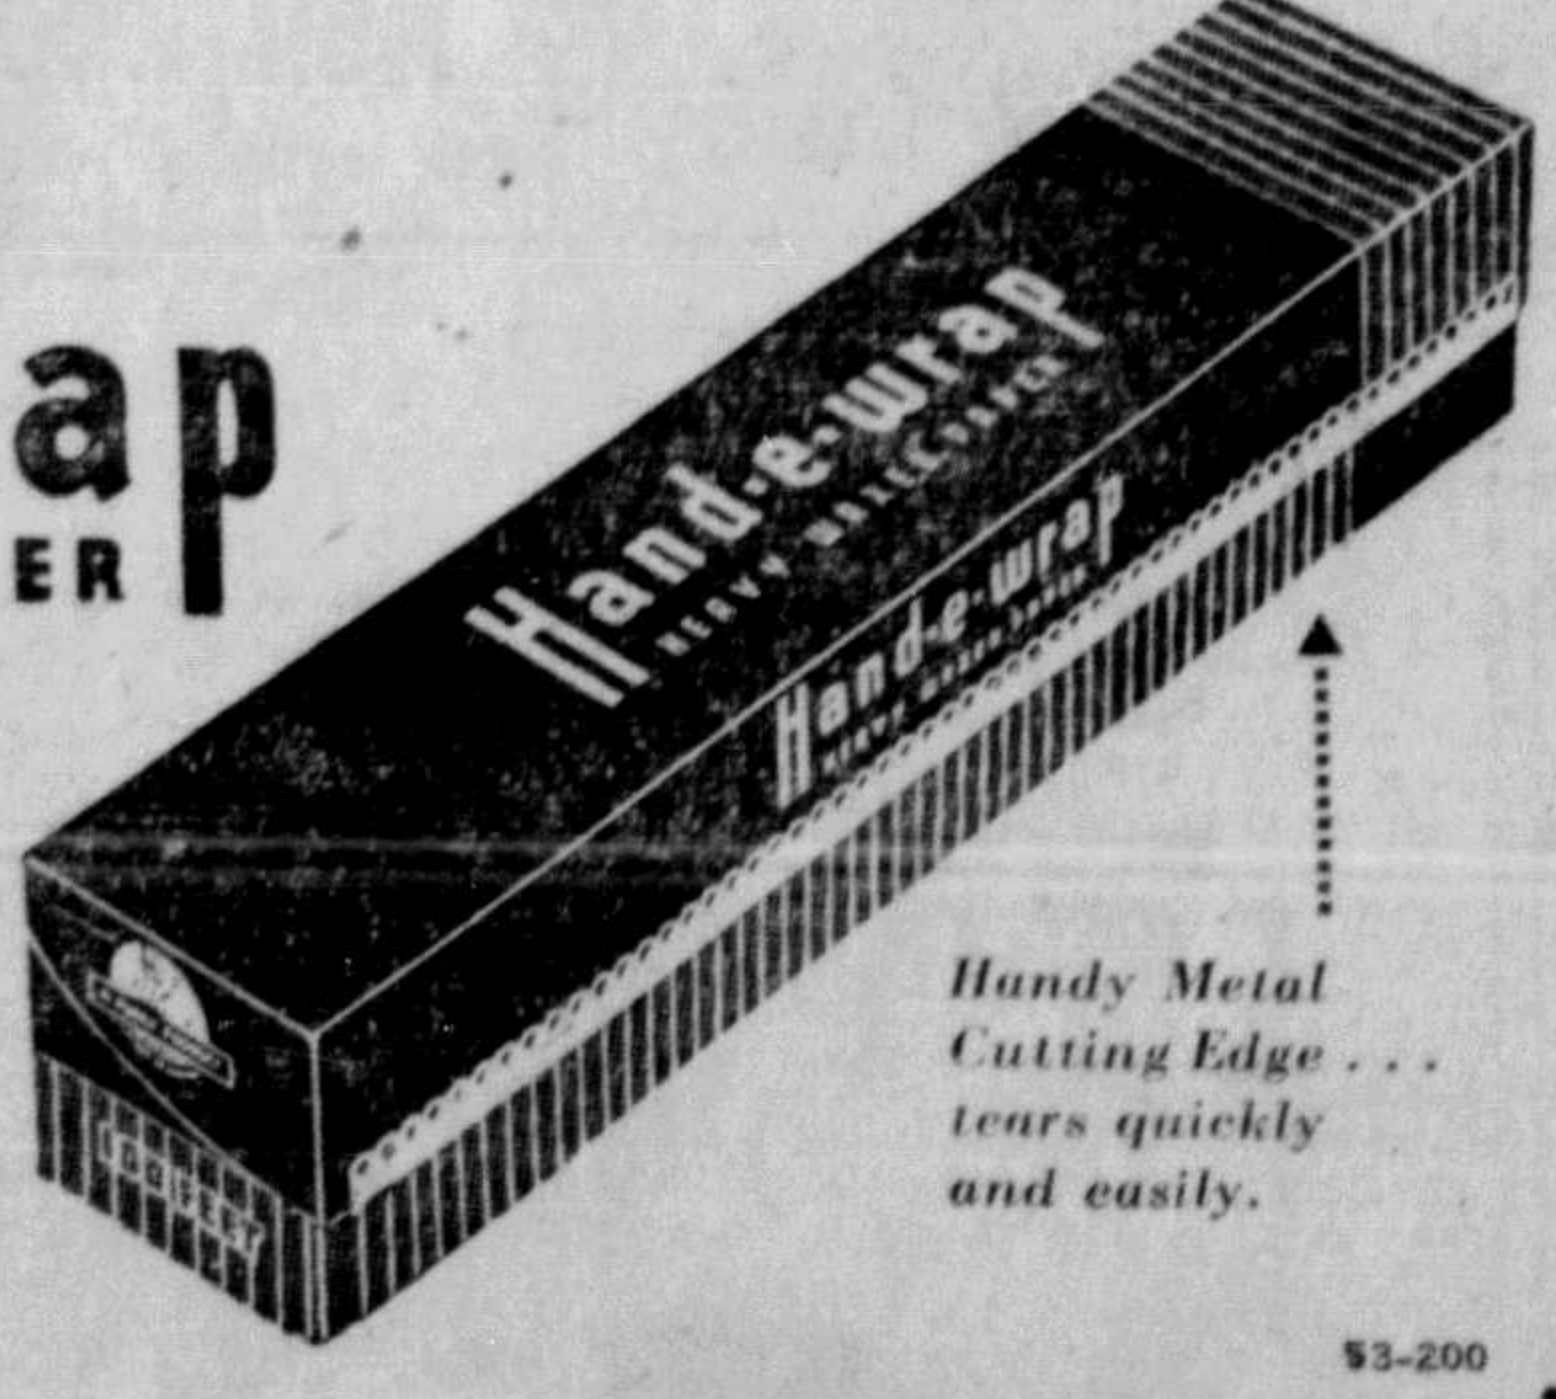

A perfect cook is Mrs. D.,  
Her roasts are great--on Sunday.  
But left unwrapped they lose their zest  
And turn out flat--on Monday!

But Mrs. J., a wiser lass,  
In Hand-e-wrap preserves 'em;  
Her roasts stay fresh and flavorful  
No matter when she serves 'em!

## Hand-e-wrap HEAVY WAXED PAPER

It's smart kitchen economy to wrap your meat, fish and vegetables in heavy, double-waxed Hand-e-wrap. No other product so completely preserves food flavor and prevents waste.

Handy Metal Cutting Edge... tears quickly and easily.
