The ceremony took place four days before the 20th birthday of the famous quintuplets from Callander, Ont.

## Packer Saves Two Men As Fishboat Grounded

### SOS Call Answered By Co-Operator No. 2

VANCOUVER (CP)—Two Vancouver fishermen whose boat rammed a reef off Sidney, Vancouver island, were plucked from the wave-lashed rocks by another fishing vessel Thursday.

The trawler Seven Seas slammed against the rocks between Dock and Coal islands while the two aboard, Alec Vogrig and Harold Hodgkinson, were en route to fishing grounds on the west coast of Vancouver Island.

A frantic radio call for help was picked up by the RCAF air-sea rescue co-ordination centre and relayed to the new tugboat rescue unit. Capt. Cyril Andrews of the tugboat unit sent out a message for any vessels in the area to go to the assistance of the stranded pair.

The call was answered by the fish packer Co-operator No. 2 which plucked the men from the reef and continued on to Vancouver.

The Co-operator No. 2 left Prince Rupert two days ago with a big load of halibut from the Co-Op.

Vogrig and Hodgkinson were operating the boat on a share basis with owner John Safarik. Pacific Salvage tug Salvage Queen went to the scene to tow in the Seven Seas, valued by Safarik at \$17,000.

The Salvage Queen reported damage to the Seven Seas was slight and it would be lifted off the reef by a derrick early today when high tide returns.

Vogrig and Hodgkinson were transferred to the Salvage Queen in the care of Captain F. M. Lewis, owner of the island.

### Sect Women Rush Police; Tear Gas Used

GRAND FORKS, B.C. (CP)—Fifteen RCMP used tear gas to break up a rush of stone-throwing Sons of Freedom Doukhobor women near here yesterday and arrested four on assault charges.

The four were taken to Nelson, B.C., 65 miles northeast of here, tried and sentenced to two months on each of two charges. The sentences will run concurrently.

The demonstration took place at Gilpin, a Freedomite settlement near this rail-shipping town on the international border. The police were accompanying Ralph McIntosh, former RCMP constable and now truant officer who was attacked by 20 nude Sons of Freedom women Wednesday when he went to Gilpin with a proclamation ordering the women to send their children to school.

McIntosh, who served as a special RCMP constable during the outbreak of nude parading in the Kootenays last autumn, is a former RCMP officer and at one time served in the British Columbia provincial police.

He told police he was attempting to read a letter in Russian telling the women they must send their children to school when the attack occurred. He was scratched and bruised and his clothing was torn.

Thursday he went back with the police, who were rushed as they left their cars.

The RCMP fired tear gas grenades into the mob. Later, in Nelson, Inspector J. B. Harris said "it is one of the first times we've had assault charges against Freedomite offenders. But it won't be the last. From now on they will be prosecuted. RCMP in the past have had many occasions to lay charges."

For two weeks the school bus has called at Gilpin daily and driven away empty. Sons of Freedom refuse to send their children to school on the grounds that Canadian institutions teach militarism.

ALTHOUGH there's been a little bit of England wherever she went on her six-month tour of the world, Queen Elizabeth II is obviously more than a little pleased to set foot once more on home soil. This picture was taken as the Queen stepped off the boat at Thames Embankment in London.

## Combat's 70,000-Pound Catch Biggest Yet for 1954 Season

Largest individual landing at the Prince Rupert Halibut Exchange of the 1954 halibut season was made this morning by the Canadian boat Combat which unloaded 70,000 pounds.

Sold to B.C. Packers, the record catch brought a price of 14.9 cents for the 53,000 pounds of mediums, 14.8 cents for 8,000 pounds of large and 12 cents for 9,000 pounds of chicken.

Top price of 15.9 cents paid this morning at the exchange went to the U.S. boat Bonanza which landed 30,000 pounds. Co-op landings totalled 163,000 pounds.

Individual catches with the prices in brackets are as follows: Bonanza (U.S.) 30,000 pounds, mediums 20,000 (15.9); large 8,000 (15.6); chicken 2,000 (13.7) sold to Atlin Fisheries.

Combat, 70,000 pounds, mediums 53,000 (14.9); large 8,000 (14.8); chicken 9,000 (12) sold to B.C. Packers.

Barbara K., 16,000 pounds, mediums 10,000 (14.9); large 6,000 (14.8); chicken 1,000 (12.6) sold to Pacific Fisheries.

Co-op landings included the Nord with 5,000 pounds, the Arctic I with 30,000, Aleutian, 9,000, Tramp, 33,000, Parma, 50,000, Margaret I 36,000.

All landings today were from Area 2.

### Truck Driver Hurt in Mishap

John T. Parker of Rainbow Lake is in Prince Rupert General Hospital today with a fractured left ankle, sustained in a truck accident last night on Highway 16.

Mr. Parker was injured when the truck owned by Nels Carlson left the highway, rolling about 35 feet down a rocky slope. The accident occurred about three miles east of Rainbow Lake.

Dan's Service Station, which towed the truck into town, reports extensive damage to the vehicle.

In another accident six local people narrowly escaped injury Wednesday night when their car plunged off the Port Edward road into the slough near Nelson Brothers.

The three men and three women reportedly suffered nothing but wet clothes as they were thrown out of the car into the water at low tide.

Little damage was done to the car in its 300-foot plunge from the road to its landing spot in the water.

### Dismissal Asked By Labor Council

VANCOUVER (CP)—A resolution demanding immediate removal from office of police magistrate L. G. Saul of Burns Lake, B.C., has been forwarded to Attorney-General Robert Bonner by the Vancouver Labor Council. Magistrate Saul said here he had barred all Indians from beer parlors in Burns Lake. The union charges discrimination.

## Death by Misadventure Verdict for Kelly Morgan Inquest Jury

Verdict brought in last night by a coroner's jury inquiring into the May 15 death of Wallace Morgan at the Grand village float.

The verdict came after the jury heard tales of Morgan's unbridled behaviour on the night of his death, and a tale of a man and his wife who someone hit Morgan in the head and push him in water.

Dead man's brother, Willis Morgan, told the jury that he saw his brother being hit in the head by a man and his wife who someone hit Morgan in the head and push him in water.

Verdict came after the jury heard tales of Morgan's unbridled behaviour on the night of his death, and a tale of a man and his wife who someone hit Morgan in the head and push him in water.

### Mystery Yarn By City Woman To Be Printed

Mrs. St. John Madeley of Summit Apartments, Prince Rupert, had a dream come true today when she learned that a mystery story she has written has been accepted for publication in England.

Not only that but Robert Dale, London, has taken an option on the next two books she writes.

The "who dun it" which deals with a mystery in a northern British Columbia outpost, is 65,000 words long and took a little over a year to write.

Mrs. Madeley said that it was her first try at writing a book and that it was accepted by the second publisher to whom she sent it.

The new author, whose book will be published under the title "The Shining Head," by Joan Madeley drew partly on her experiences as a social welfare worker when she was in charge of that type of work for the whole northern B.C. district.

Mrs. Madeley, in telling of her book, but not any of its secrets, says that in writing it she tried to describe the plight of outposts when they are cut off from civilization without even radio communication.

She admits that in true detective story style she has littered the yarn with bodies, one of whom was shot, another strangled and another pushed over a cliff.

The successful author was born in Nelson, B.C. in 1909, daughter of Cmdr. and Mrs. Gordon Hallett. She was educated in Nelson and at UBC where she graduated with a BA and diploma in social welfare.

She worked with the social welfare branch in Prince George from 1935 until 1937 and in 1938 married St. John Madeley in Nelson. They have one daughter, Sue.

Mr. and Mrs. Madeley came to Prince Rupert, where Mr. Madeley is welfare director, in 1951.

The report said the premier learned, on his recent trip to California, that it might be necessary to drive a four-mile tunnel through solid rock in the Britannia Mines area along Howe Sound and the tunnel might interfere with mining operations, bringing the province costly lawsuits.

## FLOOD THREAT DIMINISHES AS FIRST DROP RECORDED

VICTORIA (CP)—The first drop in the Kootenay river since British Columbia rivers started to pose a flood threat was recorded Wednesday night.

A department of works official said today a "considerable" drop was recorded at Creston where the river had been just about a foot below flood stage.

Public works crews had been keeping a close watch on the dikes at Creston for fear they would get saturated with water and crumple.

The flood situation in the rest of the province is "pretty good."

## Rail Official, Bennett Deny PGE Extension Plan Changed

VANCOUVER — General manager R. F. P. Bowman, Pacific Great Eastern Railway, denied today the government has plans to drop the \$20,000,000 Squamish to West Vancouver extension of rail line.

The Vancouver News-Herald in a front-page dispatch from Victoria reported that the PGE extension may undergo "major change."

Liberal Leader Arthur Laing said at a meeting last night he had heard extensions plans would be abandoned.

Bowman was emphatic in denying reports, saying: "These are wild-eyed reports. I have no knowledge that any major change is contemplated in southern extension. It doesn't make sense."

At a meeting of Vancouver Centre Liberal Association last

## Leased Hunting Not Far Off

NANAIMO (CP)—Leased hunting looms as inevitable in British Columbia as it is in Europe, Dr. Ian McTaggart Cowan told delegates to the eighth annual B.C. Game Convention here.

Dr. Cowan head of zoology at the University of British Columbia, spoke on a two-year study of European game conditions which he made recently.

The convention ends here tomorrow.

"Though the idea of private ownership of hunting rights is foreign to us," he said, "it seems to achieve good results in Europe."

"Only water fowl hunting on the coast is wide open over there... likely here, too, it will be the only open hunting ground some day."

He said his European study had taught him "we should harvest our game heavily at the peak populations. We fail to realize our best hunting success because of inadequate harvesting and because of poor access."

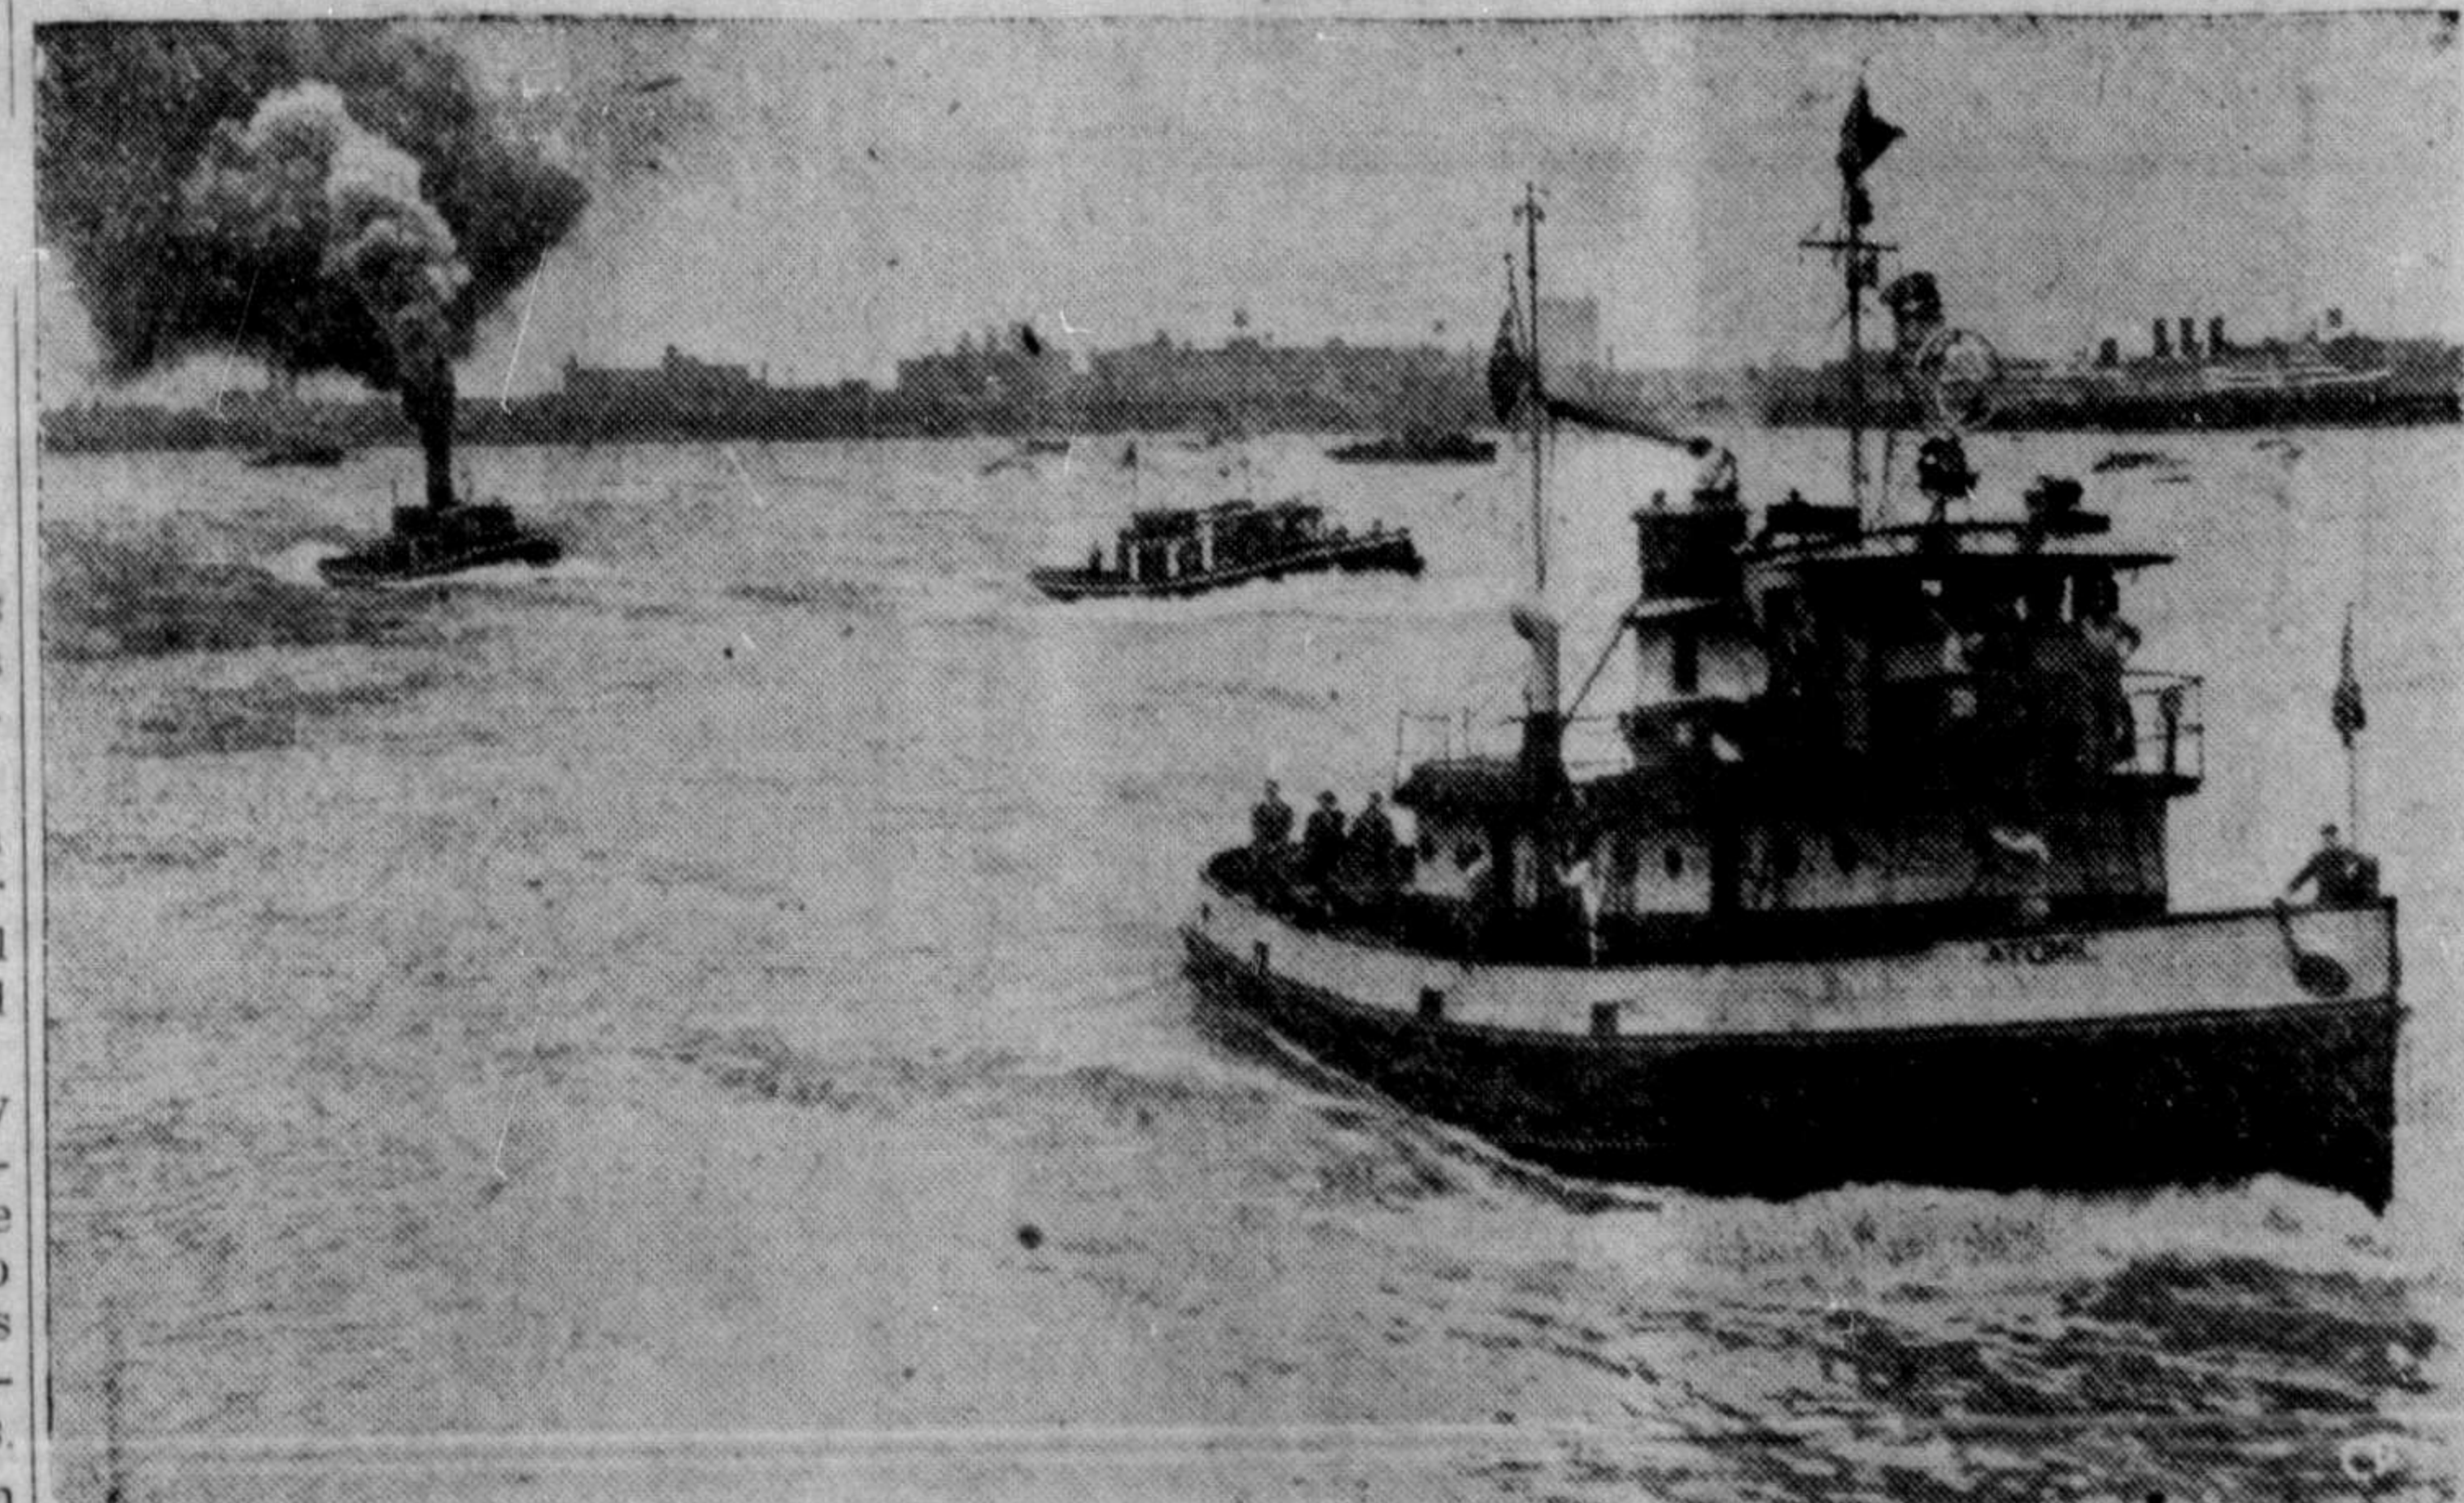

"We should concentrate on discovering the sources of winter losses. We should have smaller area divisions in our harvest plans."

### THE WEATHER

Forecast

North coast region:

Cloudy with occasional light rain today. Cloudy with sunny periods Saturday. Winds light. Low tonight and high Saturday at Port Hardy 45 and 55, Sandspit 45 and 60, Prince Rupert 45 and 65.

THE TUG ATOMIC of Amherstburg, Ont., sails across the finish line a four-length winner in the fifth annual international tugboat race on the Detroit river near Windsor. The Atomic is owned by Capt. J. Earl McQueen. (CP Photo)

## French Step Up Conscription To Bolster Indo-China Stand

PARIS—The French cabinet today decided on drastic measures to strengthen the military forces in Indo-China, and decided on the immediate call-up of men due to be conscripted in October.

This would free other soldiers now for combat in Indo-China.

Some 80,000 troops, forming the second and final group of the 1954 military conscription class, are expected to be on duty within 15 days, a cabinet spokesman said. All are men aged 20.

The cabinet acted on the recommendation of the national defence committee which has been holding day and night meetings since Gen. Paul Ely, chief of staff of the French forces, and two other generals returned with a special report on the deteriorating French position in Indo-China since the fall of Dien Bien Phu.

## Pioneer Dies In Cabin Fire

CRANBROOK, B. C. (CP)—Charles Sherman, 90-year-old watchman, was burned to death in a fire that destroyed his cabin in near Cranbrook. He settled in the area more than 40 years ago after serving with the British army in the Middle East.

## B.C. Boasts \$20,000 Fund For Wildlife

NANAIMO, B.C. (CP)—The provincial government has between \$20,000 and \$30,000 in a special fund for conservation of game, Attorney-General Robert Bonner said at the eighth annual convention here of the B.C. Game Commission.

He spoke in answer to a statement by Dr. Larry Giovando, MLA, that he did not know of such a fund.

"We can have our heavy industrial development and our hunting and fishing too, through the foresight being exercised by our game department, scientists, and conservationists," Mr. Bonner said.

He presented retiring game inspector George C. Stephenson and Game Warden Frank T. Weir with gold service buttons as recognition by the game department of their 25 years of service.

## Alaskan Comment on Power

VENTURES Ltd., and Frobisher Ltd., associated holding company in Canada, in a recent report outline their plans for cheap power by making use of the Taku river.

Their conclusions after surveys are that 4,500-000 horsepower could be developed by diverting into the Taku river waters from the upper Yukon, the Dextadeash and Salmon rivers.

It is planned to have the main storage reservoirs formed above Whitehorse by two dams, one in Miles Canyon on the Teslin river and the other one on the Yukon river where it joins the Big Salmon.

It is proposed to erect storage reservoirs with an elevation of more than 2,000 feet. Waters would be conducted southward from Atlin lake through rock tunnels.

Industrial plants on the Taku river on the Canadian side would be approximately 44 miles from the two main power plants.

There is nothing in the reports about the proposed Alcoa plant near Skagway, which must get its power from the upper Yukon on the Canadian side. The Alcoa plant, if built, will have a natural tide-water harbor. But the Canadian plant on the Taku river is above the navigable point. Possibly barges might be used to take cargo down the Taku river to American tidewater. It would seem that Alcoa might have bargaining power to get Yukon river water.

The Canadian companies plan the first unit to produce 100 tons of steel and iron a day. The other unit would treat cobalt concentrates.

Further plans would include production of calcium, and magnesium, alumina, phosphorus and "heavy water" for atomic reactors.

—Ketchikan Daily News.

## Ray REFLECTS and REMINISCES

First wine to be served with meals in Vancouver was poured last Saturday, along with gratuitous advice concerning the use of wines. The illustration was brightened with portrait of two gentlemen and a lady—each with a charming smile. We wonder if this is the beginning?—pleasure when enjoying refreshments. Surely isn't that the way it ought to be. Why wait for the dining room to become at least three or four times daily, an unlovely, unhappy sort of place. You know what's meant.

Being careful about dress helps a young man to succeed. Then he can well afford to go around looking like a bum.

**COMING UP**  
An emperor wearing a whisker and an impressive title will be in Ottawa early in June. He's been heard of before, of course. The late Mussolini tried to capture him and his country and lost out. Halle Selassie rules fifteen million Africans in Ethiopia and will be the guest of Canada's governor general, flying to the city from Boston. He is known as the Conquering Lion of Judah, Elect of God and King of Kings.

The little "actors" church (St. Peter's) for 96 years in the heart of London is to be torn down to become a jewelry store site. This venerable building has brought spiritual solace to the theatre world. Easter, more than six hundred veteran show people stood in line for an hour to get in, and some wept openly as Canon May said: "Surely there is need for a hallowed house in an area where there are so many houses that are not hallowed."

A youthful alien with home in Toronto has had his jaw and skull fractured by nine boys because, it seems, of his inability to speak the language. All of us have our own ideas concerning nation building, and the growth of population is not encouraged by assault with the odds nine to one.

It's beginning to look like a shakeup in the Senate. For example, it's recommended that four of the best men, Euler, Roebuck, Crerar and de B. Harris continue to sit and not be subject to retirement at 75. They are too useful—or so it's said. Percy Ben-gough has become a man of leisure, and, in time may listen to reason.

Some time ago we gently chided the CPR for saying it had "approximately" 58,000,000 railway ties on its right of way. We felt it ought to know exactly. Well, it does. And some day when we have time there will be another count when the ties will be laid end to end instead of cross-wise.—Standard.

An elderly woman is said to have been arrested while trying to cross from East Berlin to West Berlin with 101 eggs concealed on her person. One almost said there's a woman who doesn't believe in hiding all her eggs in one basket.

## Two Students Lost in Sea Off Oregon

COOS BAY, Ore. (AP)—Two high school boys on a class picnic were swept to sea and presumed dead from a rock at Sunset Bay, south of here. They were Frank Collins, 16, and Avery Morgan, who was observing his 16th birthday.

They were among some 50 students who came to the coast for their class outing.

Two other students, Keith Ryder and Norman Malone, were with young Collins and Morgan. They came upon a sharp rock, jutting up from the beach. Collins and Morgan decided to climb on it and work their way around on the seaward side. The other two decided not to chance it, but walked instead around the rear of the rock.

Ryder and Malone said two big waves swept in while they walked behind the rock. When they got to the other side, they discovered that Collins and Morgan, who had been about 25 feet up on the rock, were missing. They located them in the waves, about 100 feet from shore. Both were swimming, but were being carried seaward with the outgoing tide.

They disappeared from sight after they got about 300 yards out.

SIGNS DEMANDING "Independence or Death" are attached to the backs of bicycle rickshaws in Hanoi, Indo-China, as part of the Indo-Chinese government demonstration against partition at the Geneva conference.

## As I See It

BY

Elmore Philpott

### Train-Truck Merger

THE RAILROADS of Canada and U.S.A. are learning their lesson. They are taking a leaf out of the book of the cunning old war politicians who used to say:

"If you can't lick 'em, join 'em."

In the near future, all the big lines will begin "piggy-back" truck-trailer rail service.

Since 1952 both CPR and CNR have experimented in a small way with pint-size trailers. These were a special job, owned by the railways themselves, and used only between Toronto and Montreal.

Now on both sides of the border plans are underway to carry two full-length (36-foot) truck-trailers, which will fit back to back on specially built 75-foot flat cars.

THE MAIN idea of the railroads is to operate fast freights between the main cities.

But the idea offers intriguing possibilities. I have always wondered what would happen, for instance, if the CPR and CNR would offer motorists special bargain rates for overnight service between Calgary, Edmonton and Vancouver. If it were possible to drive aboard your car, as you now do to the ferries, and land next morning up in the Rocky Mountains, or vice versa, it seems to me that many people would take their cars along by train.

Of course, the price of this service would have to be moderate enough to make it attractive. But as things now stand it takes two days hard driving to get from the coast to the Rocky Mountains. The trip by train is just half that. It seems to me that the geography of B.C. is almost made to order for some kind of a combination service, for motorists, along the line where the railroads now propose to sell to eastern truck operators.

THE FIGURES for train reservations are debunking the talk of another depression.

MPs here at Ottawa are forced to book weeks ahead to get reservations for the trip home.

The government is also feeling very backed up at the latest figures for construction in Canada.

The official figures show that completions of new homes are running 11 per cent ahead of last year—and last year broke all records for construction in Canada.

IN SPITE of the sharp upturn in employment all across Canada, the government is planning more energetic measures for dealing with seasonal unemployment next winter.

The trend in recent years has been toward greater and greater winter unemployment. Quiet studies are being made to see what can be done to switch over to the slack winter months.

## 16th Century Statue Found Under Chapel

LONDON (AP)—A stone statue of Christ, believed to date back to the early 16th century, has been found beneath a chapel destroyed by bombs during the war.

Joan Evans, director of the Society of Antiquaries, and Norman Cook, keeper of the Guildhall Museum, describe the figure in an article in the Times as "certainly one of the major archaeological finds made in London during this century."

The statue, 6½ feet tall, was uncovered by workmen digging five feet below the floor of the bombed-out Mercers' Chapel, in the Cheapside district near St. Paul's Cathedral.

An original chapel on this site, built between 1518 and 1522, burned down in London's great fire of 1666. It was one destroyed by bombs was built in 1693.

Both feet, the right arm and the left hand of the statue were missing. The work shows the body of Christ lying on a bier on three beams, covered by the royal mantle given to him by Pilate's soldiers.

## French To Delay Asking U.S. Aid Until Cease Fire Talks Underway

By JOHN M. HIGHTOWER  
WASHINGTON (AP)—French diplomats today said France will delay asking United States intervention in the Indo-China war as long as cease-fire talks are under way at Geneva.

Meanwhile, Britain is reported to have proposed that prospective military talks on Southeast Asia among the Big Three Western allies, along with Australia and New Zealand, should be held at the highest military level that is, among the chiefs of staff of the five countries.

Military representatives of Britain, France, the U.S. and the two Southwest Pacific powers are expected to meet here within the next two weeks. What they can accomplish in the absence of overall political decisions, however, is not clear.

SEEN IMPORTANT KEY  
One key to such a decision perhaps now the most important one, is a proposition from the French government for U.S. intervention. The U.S. govern-

ment has told the French governments in talks at Paris that such a proposal would be necessary as a basis for future American decisions, bearing in mind that the U.S. would act only as one member of a coalition.

State Secretary Dulles told a press conference that no such bid had yet come from the French. French diplomats here say no bid is to be expected until events at Geneva take a decisive turn one way or another.

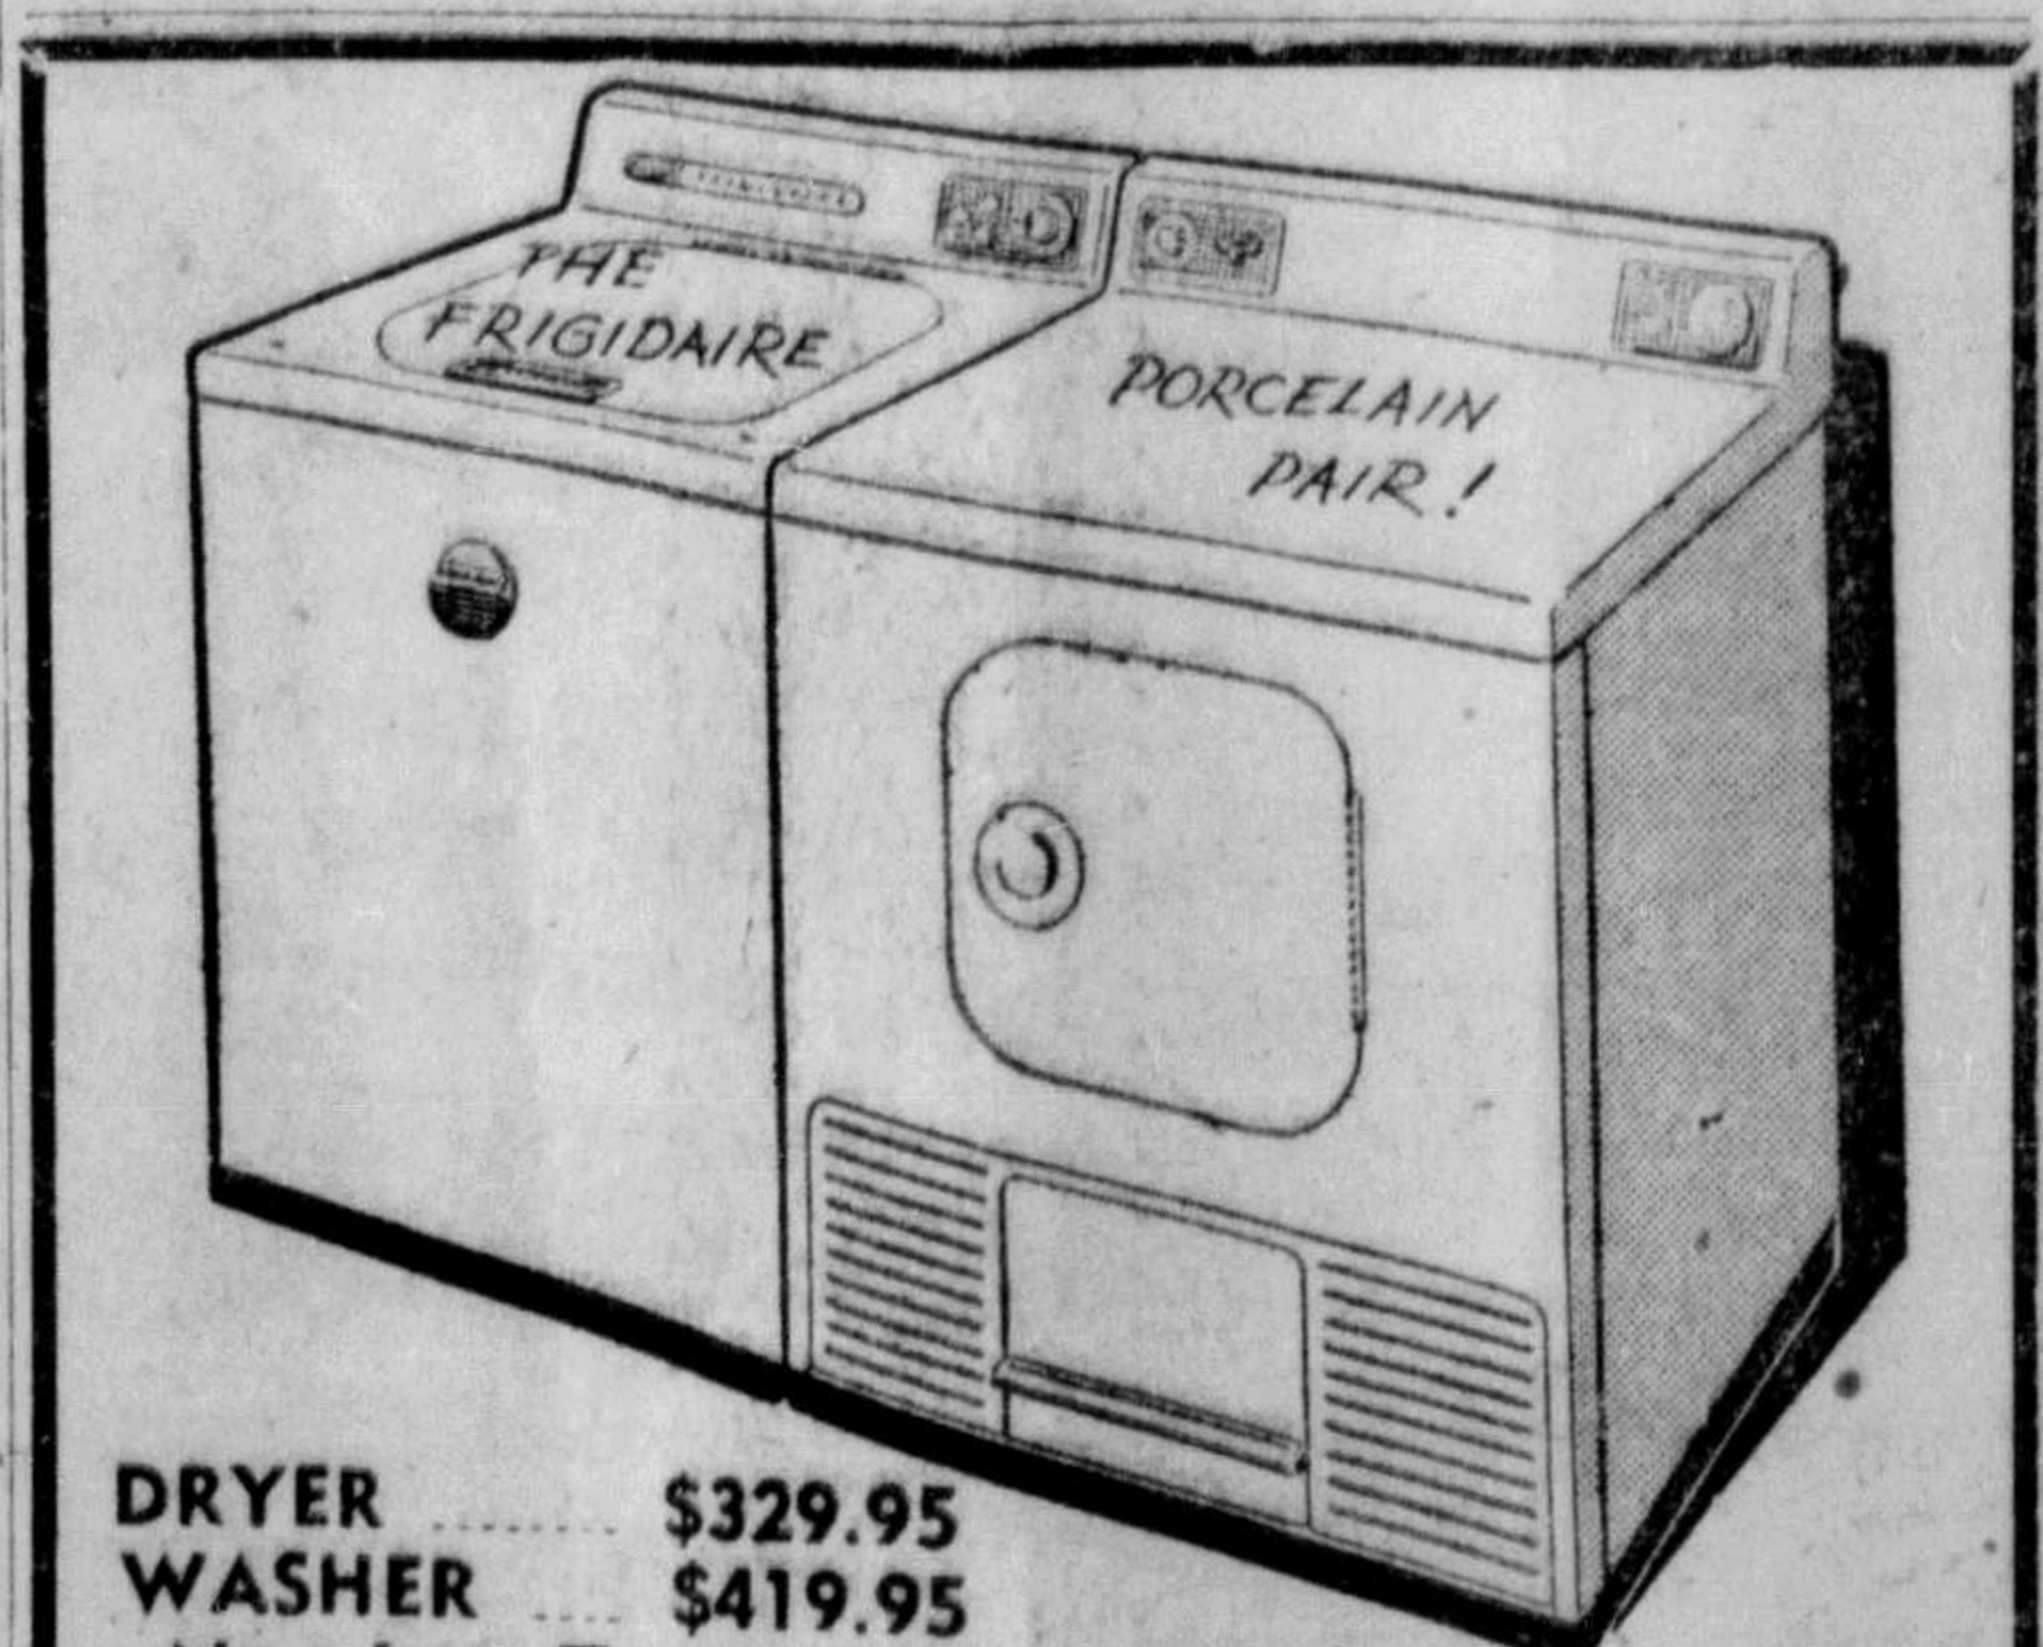

U.S. authorities privately point out that Communist negotiators now are in a position to drag out the negotiations with new moves from time to time if that is their purpose.

## OTTAWA DIARY By NORMAN M. MacLEOD

All female Ottawa—and, more secretly, most of the male population of the Capital as well—is romantically agog over the triple wedding some three weeks hence when the three very comely daughters of the Peruvian Ambassador will be married in a single ceremony.

From the standpoint of the Capital's residents, the happy event merits all the attention it is receiving. For it is very definitely an Ottawa first. Marriage records both in Canada and abroad have been combed carefully by the Capital's authorities. They have disclosed that never before anywhere have three sisters been married in a single ceremony. It is a case of Peru and Ottawa co-operating to stage the first religious ceremony of its kind in world history.

Peruvian Ambassador Fernandez-Concha, father of the three brides-to-be, is one of the Capital's most unusual as well as distinguished foreign diplomats. His appointment as an Ambassador was the sequel to a singularly unlucky accident. The son of a Peruvian Senator who at the same time was the Republic's most outstanding lawyer, he took to large-scale dairymaking as a young man and developed a herd of just under 1,000 Holstein-Friesian cattle. But a fall from a horse left one side of his body paralyzed as a result of a brain injury. His case was beyond the experience of the medical profession of Peru. So as a last resort he came to the John Hopkins clinic at Baltimore.

An operation there was partially successful and he was told that if he remained under medical care in the United States for two years it would be wholly so. He put in the time by attending the agricultural faculty of the University of Maryland. His specialty was poultry husbandry. It was in those years that Fernandez-Concha gained the knowledge of North American ways that caused him to be drafted into the diplomatic service of his native Peru. His flair was for trade and concrete business deals. When he got the Peruvian sugar quota in the United States market raised

from 9,000 tons to 51,000 tons annually, his government recognized his talents as a free enterpriser. His reward was appointment as Ambassador to Canada.

During his term of office here with his attractive wife, Fernandez-Concha has become celebrated for the assistance in hospitality that his three attractive daughters have given him. They have become widely known as one of the most pleasant features of any visit to the Embassy. Their unique marriage ceremony impresses social Ottawa as a fitting climax to the happy relationships which they have enjoyed during their stay here. No one in the Capital—male or female—quarrels with high romance for having marked them for its own.

# erts New President Festival Association

the success of the festival and election of Charles Roberts as president, highlighted the general meeting of the Prince Rupert District Music Festival Association.

First night saw the group of first honorary president Ham. He was named president of his work at the festival and others in describing all adjudicators' certificates.

Mr. Roberts succeeds R. H. Davidson in the presidency. Other officers named were: First vice-president Mrs. W. S. Kergin; second vice-president Mrs. T. N. Youngs; secretary Mrs. E. Becker; treasurer E. Bartlett. Conveners for various committees will be named at the next general meeting.

Another highlight of the session was announcement of the amounts of the three bursaries awarded at the festival. Each bursary winner will receive \$100. Winning the awards for furtherance of musical training were Roy Sieber of Prince Rupert and Lorna Melvin of Terrace, and in drama, Julie Procter of Prince Rupert.

Annual reports by various committee heads were heard, including several recommendations for improvement of future festivals, particularly with regard to the date of the festival. The recommendations were tabled for action by the incoming executive.

Giving annual reports were retiring president R. H. Davidson; Sister Mary Lawrence on syllabus; Mrs. W. S. Kergin, program; Mrs. J. Rogerson, publicity; Mrs. F. E. Anfield, awards; Mrs. R. Bird, membership; E. Bartlett, hall committee; Mrs. B. Eyolfson, billeting; Mrs. J. Ridsdale, business manager; E. Bartlett, treasurer and Mrs. E. Becker, secretary.

MR. AND MRS. R. W. MARTIN  
City Newlywed Couple Home From Ocean Falls Honeymoon

Home from a honeymoon trip to Ocean Falls are Mr. and Mrs. Reginald William Martin, whose marriage took place here recently at the First Presbyterian Church.

The Rev. E. A. Wright officiated at the ceremony, uniting Muriel Elaine, only daughter of Mr. and Mrs. E. C. Shier of Prince Rupert and the son of Mr. and Mrs. W. Martin of Victoria.

Given in marriage by her father, the bride was charming in a floor-length gown of white satin, net and lace, with long-sleeved lace jacket, featuring pearl embroidered Peter Pan collar and skirt of net over satin. A tiara of pearls secured her fingertip veil and she carried a bouquet of red roses.

Mrs. Judith Place attended the bride as matron of honor, wearing a floor-length gown of pink taffeta with net overskirt, and matching hat, and carrying a bouquet of carnations.

Miss Helen Olson as brides-

# New Gasoline Seen Re-powering Engines by Second Tankful

**Gives Up to 15% More Power**

A power-restoring job on the family car can be accomplished now simply by a trip to the service station.

The "re-powering" is achieved by a new additive which researchers say neutralizes lead and carbon deposits, and gives up to 15% more engine power.

**Tests Show Power Gain**

This encouraging news for car owners came when Shell Oil Company engineers released performance figures on tests conducted using the additive, blended into Shell Premium Gasoline and sold under the trademark TCP.

"TCP overcomes pre-ignition and spark plug misfiring caused by lead and carbon deposits. These have been two major power robbers up till now."

A spokesman pointed out that "all gasoline sold today contains deposit-forming compounds." He said these compounds built deposits in the combustion chambers of all auto engines. It was explained that the deposits often become "hot spots" when power is needed most—for quick acceleration.

for instance. As a result, fuel is pre-ignited before the piston reaches proper firing position. Vital power is lost.

"Not only does pre-ignition create power working against you," the Shell spokesman said, "but the deposits—which TCP now neutralizes—form on your spark plugs, causing misfiring, unburned fuel and considerable waste."

**TCP Well Received**

The new additive blended into Shell Premium Gasoline already has created wide enthusiasm among car owners attracted by Shell's promise of "up to 15% more power without touching a tool."

Drivers are warned, however, that these deposits constantly accumulate with modern fuels—and therefore must constantly be neutralized to keep the power gained. Shell says the only way to insure this is continued use of Shell Premium Gasoline with TCP.

Company sales officials said Shell Premium Gasoline with TCP is being handled by all Shell dealers.

# Mrs. E. M. Daly Leaves On European Pilgrimage

Off on the first leg of a pilgrimage to Europe is Mrs. E. M. Daly, popular seamstress at Miller Bay Hospital for the past eight years.

Mrs. Daly left yesterday for Vancouver where she will join a Franciscan Father's pilgrimage of 51 British Columbians, bound for Rome and the shrines of Europe, along with several other Canadian groups.

Among the many high points of the trip for Mrs. Daly, who lived at Capilano, B.C., for many years before coming here, will be a visit with her son, Phillip, in Germany, and a stop in London, where she was born.

The Canadian pilgrimage will sail aboard the Cunard Liner Scythia for Le Havre and Paris, and from there on, they will visit almost every famous shrine in Europe.

Among the many points they will visit enroute to Rome are

## Kinsmen, Sea Kings Tie In Little League Opener

It was a story book finish at Aigoma Park last night as the Kinsmen staged a big sixth inning rally to score four runs and tie up the rampaging Lipsett's Sea Kings 8-8 in a thrilling Prince Rupert Little League baseball opening game.

The game, called at regulation six-innings saw the large crowd and Vern Ciccone's bantams go wild as Jimmy Olsen's triple brought in three runs and Voagan's single scored the tying run. Up until that time Sea Kings had held a commanding lead throughout the game which was tied off in customary official Little League style.

All four teams took part in the opening before a crowd that contributed \$51.41 to the Little League cause before the showery evening was over.

On hand was the HMCS Chatham band which received a big hand. Under the direction of PO Peter Lien the band marched around the field, played several extra tunes as well as "O Canada" and "The Queen" just before Mayor Hills threw the first ball of the game.

Mayor Hills was preceded by league president Archie Bowen who introduced the managers and coaches of the Sea Kings, The Kinsmen, Super-Valu and North Star. The four teams, lined up along the baselines in their brand new uniforms, made an impressive picture. Mr. Bowen paid tribute to the men and one woman coach who had given so much time and effort to ensuring the success of Little League. He also thanked the city council, the city engineering department and also the parks board.

The president also thanked the Navy band and the sponsors who had backed and outfitted the league.

The importance of farm teams attached to the four teams was stressed by Mr. Bowen who said that "if it wasn't for the farm teams, the league couldn't operate. They provide the replacements for boys who leave town on holidays or are kept away by illness."

Umpires for the game were Don Scherk behind the plate and

Bill Sundberg. Mayor Hills mentioned the pride that both parents, the boys and Prince Rupert should have in seeing the smartly turned-out ball teams.

"It is a fine effort on the part of those responsible," the mayor said, adding that the Little League movement "will make finer boys and better citizens." He urged the boys to do all they could to keep the movement going and expressed the hope that the league would go on to greater heights.

Sea Kings' first man up Chris Downing came on to score on a single by Gary Ogilvie but Kinsmen came back in the bottom of the first inning to tally twice as Mike Greene gave up three walks and hit a batter with a pitched ball.

The Lipsett crew came roaring back in the top of the third as Downing, Bruce Robertson and Ogilvie crossed the plate on three hits, one error, a walk and two stolen bases, with Ogilvie being brought home by George Jones' single. Greene held the Kinsmen scoreless in the bottom of the third and his team-mates then added three more runs in the fourth inning.

Kinsmen's Ken Murray had turned in a fair performance up to the fourth but was in trouble after giving up a walk, an error and two singles which brought in three runs. He got a good hand as he came out to be replaced by southpaw Richard Hebb who put out the fire.

The Kinsmen closed the gap slightly in the bottom of the fourth as Greene gave up a walk, a homer to Jim Olson and two singles.

Greene was replaced by Foster who took care of the Kinsmen one-two-three in the bottom of the fifth after his teammates had gone scoreless in their half of the inning.

Jones came in to score for the Sea Kings in the top of the sixth on his own single, steals and a passed ball.

Adams started the rally for the Kinsmen, getting on by an error. A double by Hebb, a triple by Olson, and singles by Foster and Voagan tied up the ball game.

## SUPER-VALU, NORTH STAR MEET IN LITTLE LOOP TILT

Manager Andy Marshall has named right-hander Ken Cameron to start tonight in North Stars first appearance in the 1954 Little League against Super-Valu.

Brian Thom will be on the receiving end Marshall said. Relief help, should it be needed, will come from Gene Maskuluk or Ted Careless.

Super-Valu manager Carl Erickson was not available to name his starters.

## Moose Set to Meet Elks In First Pony Loop Game

The Prince Rupert unofficial Pony League will get underway tonight at 7:30 in Roosevelt Park with the Moose team meeting the Elks.

League secretary Harley Lewis said this morning that there will be no fanfare or ceremony to the opener as uniforms have not yet arrived. A more impressive ceremony is planned later, however, he said.

Complete line-ups were not named by the two team managers, but Elks have a roster of 14 from which to choose and Moose have 16.

It will be a battle for right-handers for the opener. Moose

manager Doug Wood has named Dick Bury to start, with his battery mate Billy Watmough.

Elks manager Bob Anderson will make a choice from two right-handers, John Lambie or Eddie Eyeford. Jackie Rudolph has been named to receive.

Mr. Lewis reported that the league executive have picked 7 p.m. as the time for their Sunday games, but that if any objection is raised, then an adjustment will have to be made.

On Sundays when the Terrace club of the Prince Rupert Senior League play a double-header at Roosevelt Park, the Pony loop will move ahead to Monday, Mr. Lewis said.

## Esquires Stave Off Hotelmen's Rally To Tighten Grip on Third Place

Esquire Men's Wear consolidated their position in third spot in the Prince Rupert Senior Baseball League last night at Roosevelt Park when they edged Commercial Hotel 10-8 to move half a game behind second spot Terrace and three games out of top spot.

The clothiers clouted losing pitcher Gordie Cameron for eight hits in the seven-inning affair and came within an ace of going into extra innings when Commercial put three runs across in seventh and had the bases loaded.

Only a sensational backhand pickup on Cliff Dahl's sharp blow to short by Esquire shortstop Joe Giordano prevented two runs from scoring to tie the game.

Giordano also proved his worth at the plate with a home run in the sixth and a triple in the fourth.

### HITTER'S NIGHT

It was a hitter's night, as both sides fattened up batting averages. Commercial tagged winning pitcher Jackie Sharpe for 12 hits including one double by Bill Gunn in the seventh which scored two runs.

All Esquires' eight hits came off Cameron, who was replaced in the sixth by Jimmy Flewin.

Flewin held the clothiers scoreless and issued only one free pass. Hits off Cameron included Giordano's homer, doubles by Rey McKay and Danny Bill and triples by Giordano, Andy Marshall and Maddy Sedgewick.

Esquires collected four runs in the fourth, two in the sixth and singles in the first, second, third and fifth.

Commercial's three-run rally in the seventh started when Nick Pavlikis singled and Flewin got on when first sacker Danny Bill tried to get Pavlikis at second and failed. Maurice Scott singled, advancing the runners and Bruce Simundson singled, scoring Pavlikis. Bill Gunn followed with a two-base blow that scored Scott and Flewin. Cliff

Dahl's hard hit ball to short looked a cinch for two runs until Giordano's sensational pickup that ended the game.

## SPORTS ROUND-UP

By GAYLE TALBOT

NEW YORK (AP)—Following one of the coolest receptions in history from the American boxing fraternity, Max Schmeling, the former world's heavy-weight champion, is on his way back to Germany. The man held the big title for two years, from June 1930 to June 1932.

Schmeling's return to the scene of his fistie triumphs must have been a disheartening experience. Before he left Maxie realized the trip had been a mistake.

Schmeling refereed a fight in Milwaukee, and it drew next to

nothing. He was to have stayed on and refereed a series of wrestling shows, but the promoters counted on Milwaukee house and thought better of it. Finally, the athlete who flourished in Hitler's day was firmly advised not to visit the training camps of Rocky Marciano and Ezzard Charles in the Catskills.

Though he protested to the last that he never had been a member of the Nazi party, Max took the hint and said goodbye.

If, as is rumored, the ball players are planning to insist through their attorney, J. Norman Lewis, that the club owners cease employing private detectives to check upon their after-hours activities, you may look for them to get turned down hard.

The owners feel that for the kind of salaries they pay they have every right to protect their investments. The only alternative, they say, would be for the players, themselves, to form an efficient police force within their own ranks.

**Work Party of Sportsmen Plans To Start New Club House Base**

A work party by members of the Prince Rupert Rod and Gun Club this Sunday will start on the foundations of the long awaited club house at Oliver Lake. B. J. Bacon club president, said this morning.

Senior club members will start work on the foundation while junior members ready the rifle range for operation.

"Two good days should see the range ready," Mr. Bacon said.

The range will accommodate five marksmen at a time and the work party will get the back-

The sidewalk around the lake is almost completed, Mr. Bacon said. All that is lacking is the floats from which the youngsters will fish, Mr. Bacon said.

The club president showed concern over the lack of signs near the lake to warn motorists of the presence of children fishing there.

## BLACKWOOD on BRIDGE

By EASLEY BLACKWOOD

**Save Jump Shift for Hand with Definite Slam Flavor**

When you have a good hand and partner opens the bidding with one of a suit, do you make a minimum response in a suit of your own or do you make a jump shift?

Except in those rare cases where you have such overwhelming strength that you know a slam is a laydown, the decision cannot be made properly on the basis of high card strength alone.

A good fit in partner's suit and solidity in your own suit or suits are important considerations. Here is a good yardstick. Make a jump shift when you are willing to make a slam try if partner promptly raises your suit or makes some rebid which is not of the minimum variety.

**NO REASON FOR SHIFT**

When your hand is about the equal of an opening bid or even a little better, there is usually no reason to make a jump shift. It is very probable that you have a game but each time you make a minimum bid in a new suit, partner is forced to respond again.

When you have probed enough to find your best spot, bid the game, if you wish. But save the jump shift for the hands which have a definite slam flavor.

Mr. Master's hand in today's deal was no monster as far as high card strength is concerned. But he had first round control in two suits and second round control in the other two. He had two honors in his partner's suit and an excellent seven-card suit of his own.

**MASTERS' PLAN**

When his partner rebid two no trump he knew he would find at least two spades across the table. That is, if Mr. Dale held only one spade or none, he would have either a rebiddable diamond suit or a second suit to bid.

So, after checking on aces, Mr. Masters bid the slam. He won the opening heart lead with dummy's ace and made the only correct lead at trick two—a spade to the ace. When this dropped the king, he entered dummy with the jack of diamonds to the queen, led another spade and finessed the 10, making seven.

If he had finessed the queen of spades and lost to the king

## \$170,000 Blaze Destroys School

PORTAGE LA PRAIRIE (CP)—The 50-year-old 12-room Portage la Prairie collegiate was destroyed early yesterday in a spectacular \$170,000 fire.

The alarm was turned in Wednesday night and in approximately two hours the brick-work two-storey building was rubble.

School principal P. R. Stewart will meet with the school board today to determine what will be done about the 350 students, most of whom lost the majority of their books.

## Running Antique Shop Good Way To See World and Meet People

By DOROTHY ROE

NEW YORK (AP)—Note to bored women: want to see the world, meet interesting people and have a whale of a good time?

Then open an antique or gift shop, advises Roa duBord of Harbor Springs, Mich., who does business in a hen house.

Mrs. duBord is the picture of a happy woman. Summers she sells English silver, French porcelain, modern crystal and knickknacks from all over the world in her hen house, that's the name of it, 12 miles out in the country from the resort town of Harbor Springs. Winters she and her husband, Andre, do the same thing in Bel Air, Fla. In between times she roams the world, in search of the rare and the beautiful.

## FUN MADE PROFITABLE

All this is not only fun—it's financially profitable, says Mrs. duBord. She says:

"There's no excuse for people to have drab, ugly things in their homes, because beautiful things are available at any price. The simple modern porcelains have real beauty because they're functional. The same is true of some contemporary furniture and crystal."

Mrs. duBord started a shop of her own in Toledo during the depression, found that people

## Indifferent Parents Teach Babies To Cry

By ALTON L. BLAKESLEE

NEW YORK (AP)—Babies cry because they're taught to cry by parents who fail to see or understand normal baby talk signals, according to a theory proposed by Saul Rosenzweig of the community to child guidance clinic, Washington University, St. Louis.

It has been a common belief for centuries that babies naturally cry to express their wants, he says. Parents therefore have come to expect babies to cry and feel nothing can be done about it.

Crying is, of course, a natural reaction to pain or sickness. Rosenzweig writes in the publication, Mental Hygiene.

But he says babies have other ways of "talking" to tell parents that they are hungry, cold or wet. They give up and cry if parents don't listen to these cues.

In effect, the baby's parents are teaching him that he must expect to cry to be understood, Rosenzweig says. The baby later may even cry when he has only mild needs or wants.

## LICKING IS MILK SIGNAL

Rosenzweig proposes the idea from watching his own and other babies.

One five-month-old baby apparently signals for milk by little licking motions of her tongue, and for soft solid foods by audibly smacking her lips, he writes. The baby sometimes stops sucking on her bottle, pushes it away, macks her lips and eagerly takes soft foods if offered.

The parent who assumes babies can be understood and tries to understand their talk has made an important start in training the baby to understand the world of adults, Rosenzweig says. And the baby may learn to understand earlier what the parent is saying to him.

## New Device Aids Photographers Make Good Pictures Out of Bad

WASHINGTON (AP)—Scientists at the national bureau of standards, the government's central laboratory, have come up with something millions of camera fans may come to love—a device for making good pictures out of bad ones.

But it may be in demand for other things: identification of bombing targets — catching crooks—diagnosis of disease.

A bureau of standards scientist said the process is something like this:

Say you have a photo that is dim and fuzzy.

You set the negative up in the view of an electronic scanning tube, much like the picture tube of a home TV set.

## SCANS NEGATIVE

This scanning tube examines the negative much more sensitively than is possible for the human eye. It discerns differences of light and shade that the eye cannot make out.

Thus it sharpens up the picture, making lines and sharp light and shadow areas out of what the eye could see only as fuzzy areas.

It passes the sharpened image to another electronic tube, where the picture shows up like a picture in your TV set. A new photo of the sharpened image as it appears on the face of the viewing tube makes a good picture out of a bad one.

Bureau scientists estimated that such a set might be produced commercially for between \$300 and \$500.

## FOR THAT EXTRA SPECIAL PRINT JOB CALL ON DIBB PRINTING COMPANY

MUIRFIELD, Scotland (CP)—Canada's bid for the British amateur golf title died yesterday as the last four survivors of a 10-man contingent fell before stiffening competition.

Three men were eliminated in the fifth round of match play Thursday morning The Fourth 25-year-old Bobby Fleming of Victoria, lost out in his afternoon try for a quarter-final berth.

Fleming's 2-and-1 conqueror, W. A. Stark of England, also disposed of Gordon B. Taylor of Montreal in morning play, knocking out the 44-year-old captain of Canada's commonwealth team 3 and 1.

Walt McElroy of Vancouver bottled down to the wire before losing at the 19th hole to Dick Davis, a member of the U.S. Navy who saved a year's pay to make the trip.

## PRINCE GEORGE STARTS SUMMER TRIPS TONIGHT

VANCOUVER—The summer cruise season opens tonight for the CN steamship "Prince George" when she takes members of United States Rotary Clubs on a ten-day cruise to Sitka, Alaska, and return.

The Rotarians have chartered the ship for a cruise of their international convention in Seattle June 6 to 10. The first group arrived in Vancouver this morning from Jasper.

Others are arriving during the day from Seattle.

The "George" is due to return to Vancouver June 15. She will make one more charter voyage before her first scheduled cruise, leaving here June 15.
