## Customs Levies Dip in August

TOTAL of duty, taxes and other levies collected here during August by the Dominion government Department of Customs amounted to \$44,363.21, F. W. Grimble, customs collector, said today. The August collections are more than \$5,000 lower than the total duties, excises taxes collected in July when foreign vessels coming into Prince Rupert contributed \$50,182.89 to federal coffers. Collection of \$44,363.21, however, brings the eight month total revenue for 1953 to \$414,076.10. August's total was also lower than August of 1952 when customs revenue was \$56,142.36. July of this year saw more revenue come in than in July 1952, when only \$39,626.86 was collected. Other totals for this year are as follows: January, \$46,091.58; February, \$52,712.88; March, \$53,189.96; April, \$42,365.51; May \$50,418.50; June, \$74,731.68.

HALIFAX—The third big blow of the hurricane season blew itself out over the Atlantic today after snaking across the Maritimes and leaving a trail of wreckage and distress in its wake.

## Top Jurist Dies In U.S.

By The Associated Press  
WASHINGTON—Chief Justice Fred M. Vinson of the United States Supreme Court, a Kentucky jailer's son who rose to the highest judicial office in the country, died unexpectedly of a heart attack early today.

The 63-year-old judge and former holder of many top government posts was stricken while at his Washington apartment. His wife and his son, Fred Jr., were at the apartment and summoned a physician, but Vinson died 45 minutes later. Vinson took over leadership of the U.S. Supreme Court on June 24, 1946, an appointee of former President Truman to succeed the late Chief Justice Harlan F. Stone. The Kentuckian's death paves the way for President Eisenhower to make his first appointment to the Supreme Court bench. There is some speculation that California's Governor Earl Warren would be Eisenhower's choice. Vinson's elevation to the high court seven years ago capped a public career that included service in all three branches of the government. During the Second World War he was appointed by former President Franklin D. Roosevelt to head in turn the office of economic stabilization, the federal loan administration and the office of war mobilization. Truman then chose him as treasury boss.

## Young Fisherman Drowns Here Over Week-End

Calvin Bell, 21-year-old fisherman from Masset slipped off a fish boat at Cow Bay floats Saturday night and was drowned, RCMP reported today. Prince Rupert ambulance was called to the scene but the young man who fell between two boats failed to come to the surface. Attempts to locate him failed.

## Fire Damages Garage Wall

PRINCE RUPERT fire department was called to a fire at Heppner Motors, McBride Street, at 11:30 p.m. Saturday when a fire spread from the battery charger, ignited oil on the cement floor and burned a wall. The fire crew broke the glass on the door and partly stemmed the blaze with a fog nozzle and then gained entrance and completed the job with a carbon dioxide extinguisher. It is believed the fire started from a short circuit in the battery charger.

## Man Fined \$50 on Driving Charge

Henri Young, was fined \$50 and costs, or in default one month in jail after he pleaded guilty in police court before Magistrate W. D. Vance, to a charge of driving while his ability was impaired. Charged with shoplifting, Mah Heong, pleaded guilty and was fined \$25 and costs or 14 days. Evidence showed that Heong had in his possession a can of sausages after he had completed his shopping and paid his bill at Super-Valu store at about 5:15 p.m. Saturday. George Jeffrey, charged with assaulting a police officer and occasioning bodily harm, was remanded for eight days. The charge arose following an affray in front of the Dominion Barber Shop, West Second avenue, Saturday morning. Following the same incident are Larry Wells, Bob Smith, Margaret McKay and Edna Wilson who face a charge of taking part in an affray.

## War Correspondents Score Attempts to Withhold News

PORTES DE L'ENFER, Que. (CP)—The Canadian War Correspondents Association Monday labelled as a "serious threat to the public interest" attempts by senior military officers to discourage or prevent publication of information about Canadian military activities. The association spoke out in support of three of its members whose criticisms of the morale and personnel standard of the 27th Canadian Brigade in Germany were attacked by military authorities. Also before it was a report on severe new restrictions imposed by the Canadian Army on correspondents with the 25th Brigade in Korea. The association's resolution, adopted unanimously at its week-end annual meeting in Laurentide Park, said: "The CWCA regards as a serious threat to the public interest the repeated attempts of senior military officers to discourage and in some cases to prevent free discussion of and information concerning Canadian military activities at home and abroad. "The association affirms the responsibility of the correspondent and his publication to keep the public advised on the quality and morale of the forces and the conditions and environment in which they operate, and to accept only the restraints of military security in publishing news and comment." Three association members—Bill Boss of The Canadian Press, Ross Munro of the Vancouver Province and Lionel Shapiro of Maclean's Magazine—wrote critical articles after visits to the 27th Brigade in Germany.

## Movie Company Leave Posts As Ice Crashes Down Glacier

JASPER.—A margin for error allowed by an astute Hollywood movie director Monday saved a motion picture company from heavy loss of property and injury to personnel including Jimmie Stewart, Ruth Roman and Corinne Calvert. An avalanche occurred near the location for Universal International's "The Far Country" nearly three miles up the Athabaska Glacier on the Columbia icefield. A cornice or giant overhanging jut of ice suddenly cracked and crashed down the side of the glacier with a thundering roar in the middle of a scene involving Miss Roman and Stewart. Miss Calvert was waiting back of the cameras for the following scene. The avalanche occurred at a safe enough distance from the company so that property and personnel escaped injury. However, the entire company of actors, cameramen and technicians abandoned their posts, leaving cameras still grinding. Commenting on the avalanche, superintendent Harry Dempster of Jasper National Park said today: "Good sense and the co-operation of director Anthony Mann prior to location shooting avoided a catastrophe." Tourists from Jasper Park Lodge frequently go 2½ miles up the glacier in snowmobiles but Mann, with permission of Superintendent Dempster, took the movie troupe 1½ miles further up this greatest concentration of ice south of the Arctic Circle.

## ALLEY BOWLERS TO MEET WITH MANAGER TONIGHT

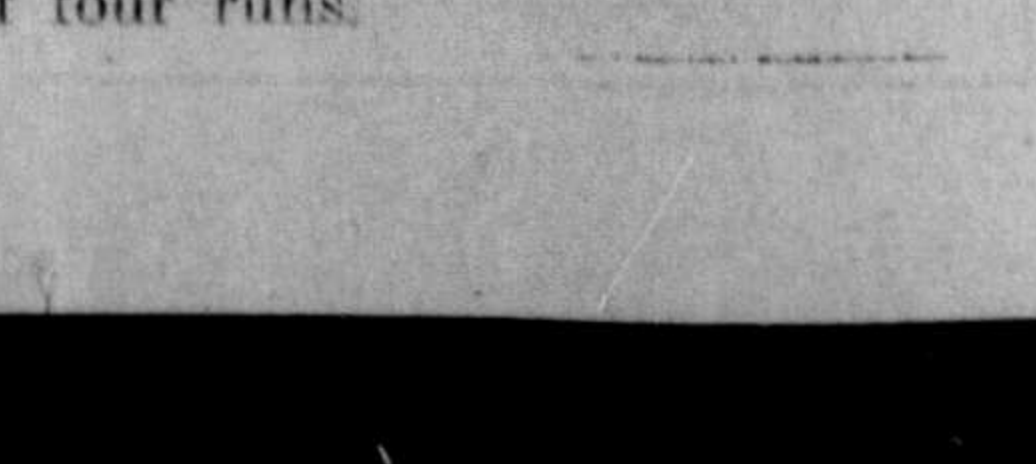

A meeting of all bowling league officials will be held in the alleys at 8 o'clock tonight to discuss the 1953-54 season with manager Jack Sedgwick. Among business to be discussed will be the new five-pin scoring method—2-3-5-3-2 approved at the annual meeting of the Canadian Bowling Association last spring. Officials of all leagues are urged to attend.

## Full-Scale Dispute Looms Over Exchange of Prisoners

PANMUNJOM (AP)—A full-scale dispute over the exchange of war prisoners is building up. The Communists accused the Allies of holding back captives and the UN command drafted a demand for the return of Allied POWs it asserts are still in Red hands. While Peiping radio claimed the UN command withheld 357 Chinese and Koreans from repatriation, Gen. Mark Clark's headquarters worked over a list of Allies believed in Red captivity. The names were collected from interviews with returned prisoners.

Britain claimed today that her new swept-wing Hawker Hunter jet (above) is the world's fastest fighter plane. She based the boast on RAF Squadron Leader Neville Duke's record-setting average speed of 727.6 miles per hour in the aircraft Monday. Duke's record, still subject to official confirmation, topped by 11.91 miles an hour the mark of 715.69 set in July by United States Air Force Lt.-Col. W. F. Barns in a U.S. Sabre. The 31-year-old British ace, a Second World War veteran with 28 confirmed kills, set his record on a measured three kilometre course at this English south coast resort. A "magic eye" timing device clocked his top speed at 738.8 mph. The official time was taken from an average of four runs.

Radium Report

RADIUM HOT SPRINGS, B.C. — The sun which has been sulking behind the heavy clouds for almost our whole two weeks here is out again as we say goodbye.

The dense summer crowds are gone from the two pools now, and the place is beginning to look relaxed again as it looked before the people in their masses "discovered" this wonderful spot.

Every time I come here I half kick myself. For in a way I feel that Radium is "my baby."

However, if I did help spoil my own fun I did my small bit to let the people know that here in the Rockies of B.C. we have one of the finest natural assets in the whole world.

ALSO, because of the fact that you and I still own this pool, through our federal government, we can still get into it for two-bits.

If these pools were privately owned, as they would be in Europe or even the U.S.A., the common people would be lucky if they got within a mile of the premises.

This summer on a single Sunday over twenty-five hundred persons paid a quarter of a dollar apiece to get into the government pools at Radium.

But even at that hundreds of cars whizz right by here—hell bent for Banff.

SOME of the same American tourists have come back from Lake Louise a bit sore at the swank hotel there—for the place is now completely fenced in and both motorists and sidewalk pedestrians have to pass separate gatemen to gain entry—only then if they are paying guests.

We have four in our family party, and we have split evenly on whether or not the hotel folks were wise to erect that sentry barrier.

OTTAWA DIARY

By Norman M. Mac

The week which got under way yesterday should be one of large-scale enlightenment in respect to the major matters which have been keeping official Ottawa circles tautly tensed-up for the past fortnight or more.

Specifically, it should reveal the post-election model cabinet which Prime Minister St. Laurent has been designing during his so-called "holiday" fortnight at his summer home at St. Patrick on the lower St. Lawrence.

In addition, the week should throw some authoritative light—in contrast to the vast amount of unofficial speculation which has been published—on the course which Hon. George Drew proposes to follow in respect to the Conservative leadership.

The authentic facts in respect to both these key situations have been remarkably well-kept secrets. It is true that the prime minister has had more than a normal amount of prompting from Liberal circles which aren't too used to being kept in the dark when a major scuffle in the party's high command is taking place.

It isn't only the news correspondents on Parliament Hill

who would like to have a daily log of the people who have been seeing Mr. St. Laurent and whom Mr. St. Laurent has been seeing during his past fortnight of political retreat.

Mr. Drew has succeeded in being equally enigmatic. Not a syllable has he uttered from the fastness of his refuge in Guelph. But his personal silence has been in noteworthy contrast to the volunteer efforts of some of his journalistic supporters to be vocal on his behalf.

Actually, of course, Mr. Drew hasn't intimated any decision, one way or the other. It is to be noted, however, that the situation against which he is contending has nothing to do with his ability; it is simply the fact that Conservatives themselves apparently will not vote for him.

Fifty-one seats is far below par for the Conservative party

Our Transportation Problems

DELIBERATIONS at the Associated Boards of Trade convention at Burns Lake demonstrated convincingly that improvement of transportation facilities is a matter of profound and urgent concern throughout the entire area of central B.C.

It was almost inevitable that highways were the subject of much of the discussion as many of the delegates arrived by car. The begrimed appearance of their vehicles and the rush business done by service stations repairing tired motors and flat tires was ample evidence of the trials of their trip.

But discussion of transportation ranged far beyond highways, even though it was apparent at times that there was much more certainty about the need for action than the course such action should take.

Perhaps the clearest example of this was provided by the divided opinion that arose over the question of opening up the country north of the CNR line. The two extremes of the argument were presented by Prince George, which favored a northward extension of the PGE railway, and Prince Rupert, which believed the resolution should be less specific so that other possible routes, such as that from Hazelton, might also receive consideration.

While it could be claimed that the two arguments were the natural results of partisan interests, that does not accurately explain the matter. The fact was that the overriding mood of the convention was that this part of the province must remain intact in its ideas if the individual sections of it are to obtain their hoped-for benefits.

The importance of air service to this country was emphasized by the presence of Grant McConachie, Canadian Pacific Air Lines president. Mr. McConachie gave the convention something to think about by observing that air transportation has become the forerunner of development and that in many cases it is cheaper to build an airport than to repair a section of highway.

When the convention finally adjourned it had placed on record a number of resolutions concerning transportation which, if put into effect, will vitalize the economy of northern and central B.C.

All Aboard By G.E. Mortimore

We learn something every day, I'm afraid. News that the Royal Canadian Air Force had several killed pipe bands came as a nasty surprise.

The RCMP may have had a band since the Riel Rebellion for all we know, and a good band at that. The fault lies with us. We can't accustom ourselves to the notion of a mountie setting off to get his man with a flute strapped to his side.

"That's the end of you, Mountie," he said with a sneer. "You'll never rise from that bunk to trouble me again."

The words were scarcely out of his mouth when he was seized in an iron grip and handcuffs snapped on his wrists.

"You!" he gasped. "Oompah of the Mounted! I just shot you as you lay in your bunk."

"That's where you made your mistake, Ben. All you did was to shoot a hole in my bassoon. I tucked it under the blankets to resemble my sleeping figure. Why did you come here to kill me, Ben?"

"It was that blasted bassoon, Mountie. You played it night and day. My cabin is two miles distant from yours, but the noise drove me mad."

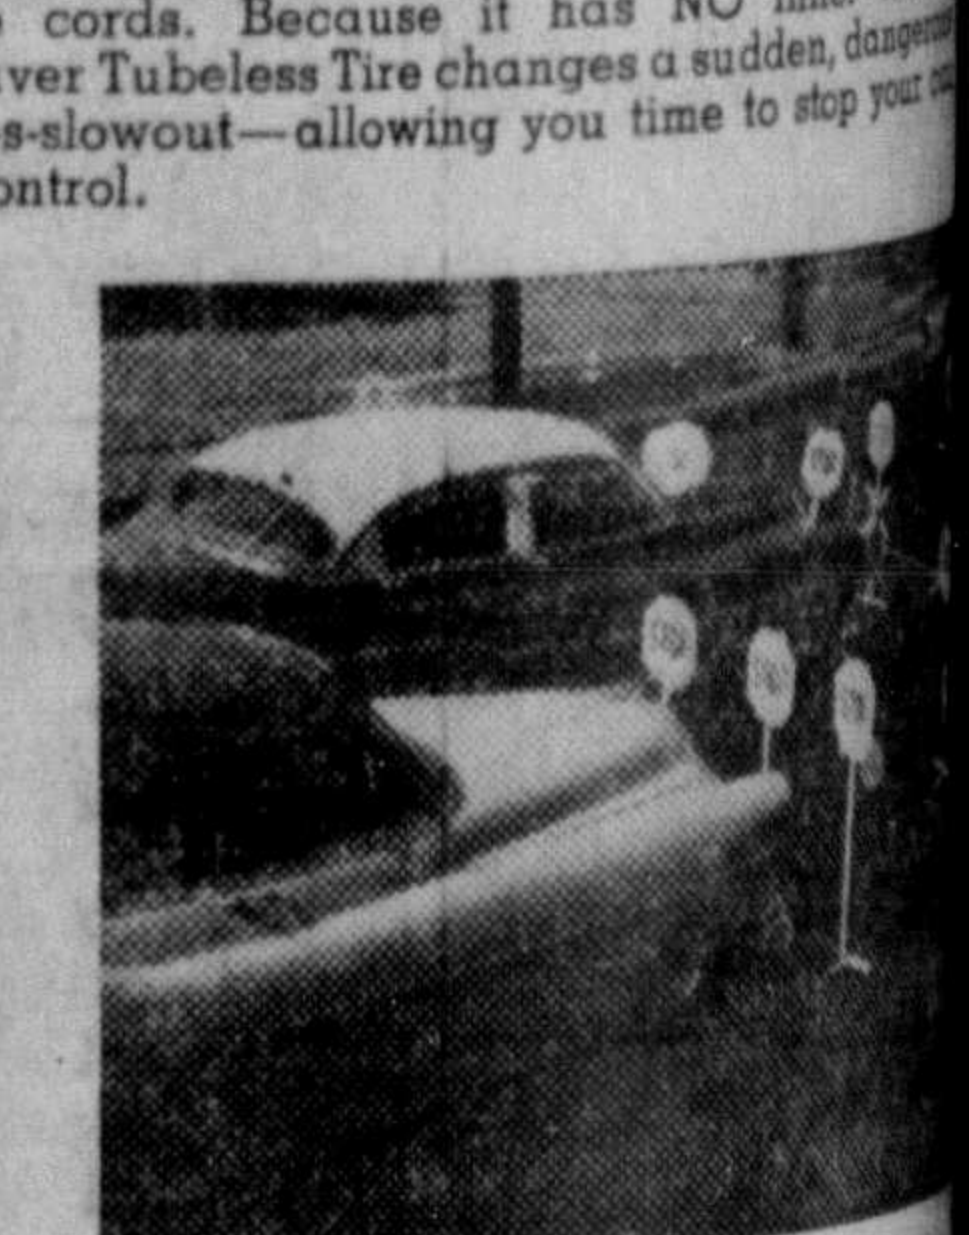

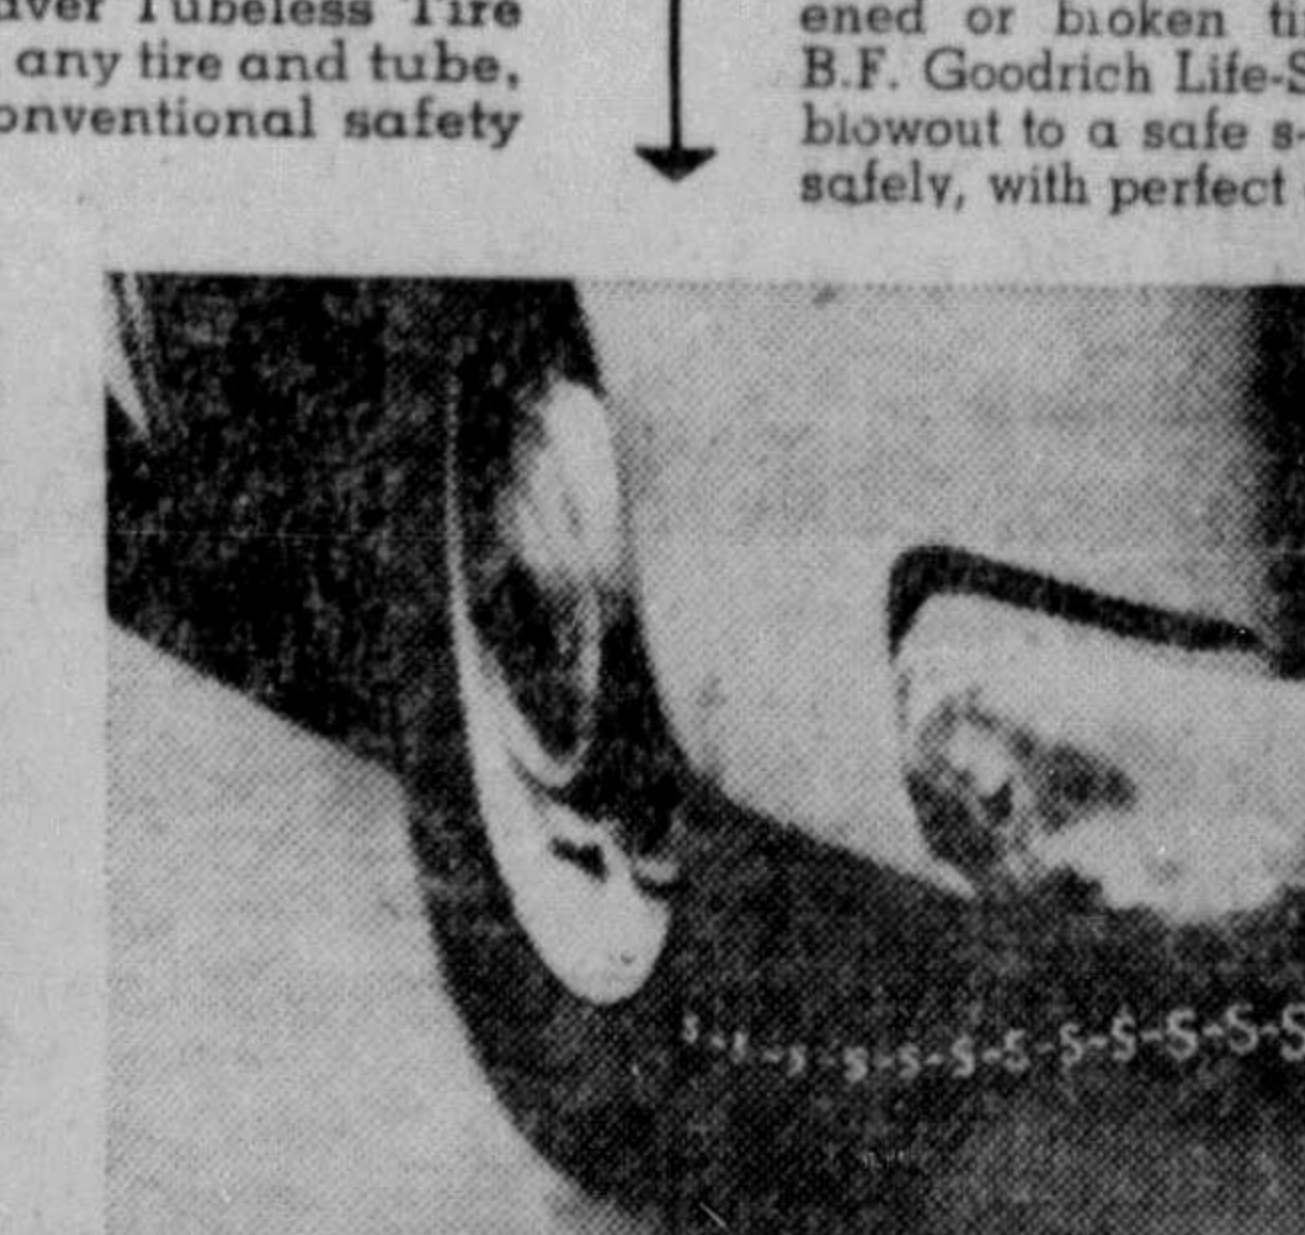

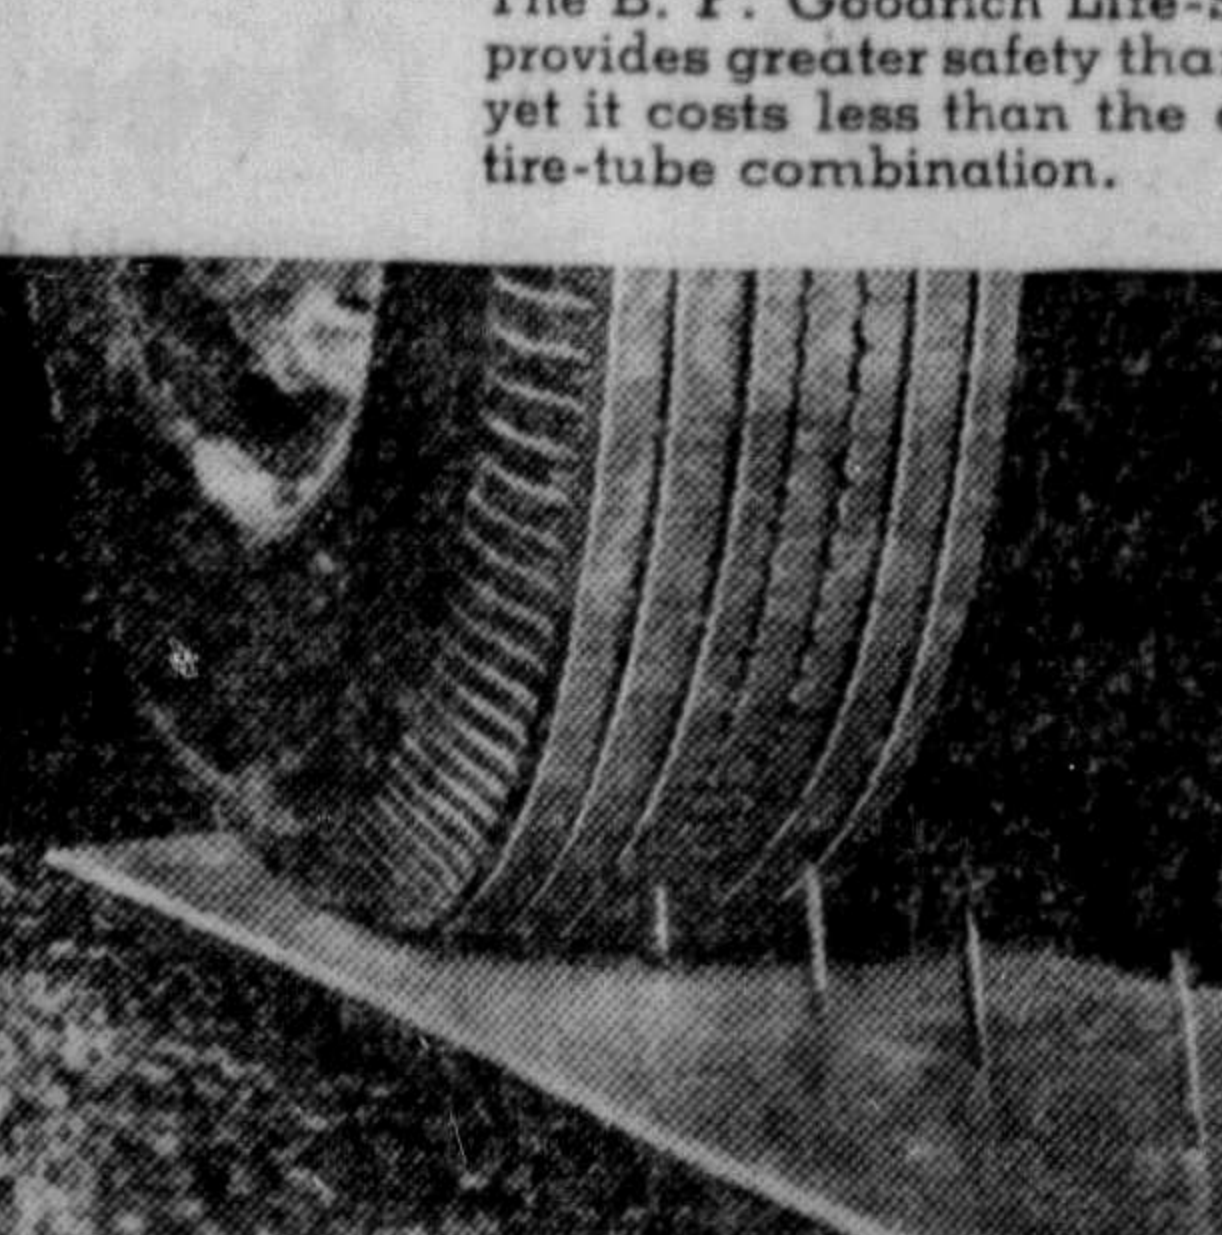

Hatred of music is no excuse for attempted murder, Ben. I'm taking you to civilization to answer for your crime."

## Parents Urged To Join P-TA

The British Columbia Parent-Teacher Federation once again is making plans for the observance of "Better Parenthood Week," September 13 to 19. All parents with children in school are urged to become members of the federation by joining local Parent-Teacher Associations.

Objectives of the association are:  
1—To make fathers and mothers more fully aware of the importance of using the best possible methods in the care and training of their children and to acquaint them with the many sources of help and information available to them in handling their family problems.

2—To encourage the formation of groups for study and discussion of child rearing problems.

3—To promote more co-operative understanding between parents and teachers and between the school and community at large.

4—To lend active support to all community efforts for better schools, child health, recreational facilities, vocational guidance, and the prevention of delinquency.

This year the goal of the membership committee is 40,000 members in B.C.

## Frizzells Here To Pay Visit With Mother

After culminating the successful sale of J. B. Roerig & Company, of Chicago, to the Pfizer Drug Company of New York, Howard Frizzell, president of the Roerig company, and Mrs. Frizzell are spending a three-week vacation with his mother, Mrs. G. J. Frizzell, 972 First Avenue West.

Mr. Frizzell, who was raised here, left Prince Rupert 25 years ago for Valparaiso University and after graduation started in business in Chicago with the Petrolagar company.

Later, with the late Joe Roerig, also formerly of this city, he formed the J. B. Roerig company, which progressed and developed rapidly.

Sale of the business recently to the Pfizer Drug Company for \$6,500,000 is one of the outstanding financial transactions in the United States for some time. Mr. and Mrs. Frizzell are enjoying a well-earned holiday renewing old acquaintances in Prince Rupert. They plan to return to Chicago, shortly stopping off at Vancouver and Portland en route.

Next June, they plan an extensive trip to Scotland and England and possibly several countries in Europe.

This is the 1953 Chevrolet Bel Air 4-Door Sedan. It's one of 16 Chevrolet models in 3 series, which add up to the widest choice in the low-price field. A General Motors Value.

## Some Chevrolet advantages worth considering when you're ready to choose a car . . .

Next to a new house, a car is probably your most important purchase. Here are some facts to help you make up your mind about which make to buy.

Isn't it a great day—the day you take delivery of a new car? You drive home cautiously and proudly, inhaling that wonderful new car aroma. Then you park out in front, while your friends and neighbors gather round to talk over your choice with you.

Naturally, you want that feeling of pride and satisfaction to last. So it's worthwhile to weigh all the factors carefully before you buy. Let's consider the important reasons why people choose one make over another and see how Chevrolet stands in those respects.

**Styling You Can Stay Proud Of**  
Styling of course, is a matter of personal taste. Because we think Chevrolet is the best-looking car in its field, doesn't necessarily mean you'll think so, too. But we can tell you that the majority of our showroom visitors prefer Chevrolet styling and compare its appearance most favorably with cars costing a great deal more.

And you might consider this: Chevrolet styling is the newest in its field. It's the kind of styling that stays new, too. For it is based, not on temporary fads or extremes, but on the fundamentals of good, clean, modern design.

**The One Automobile Body Almost Everybody Knows**  
It's not really surprising that so many people prefer Chevrolet's appearance. For Chevrolet is the lowest-priced, full size car in its field with Body by Fisher. And Fisher, as you know, is the only automobile body manufacturer with a world-wide reputation for styling, craftsmanship and quality.

Many of Canada's highest-priced cars feature Body by Fisher. Because of quantity purchases of materials and greater production, Fisher can—and does—build extra quality into the Chevrolet body and interiors.

**The Many Benefits of High-Compression Power**  
When you drive a new Chevrolet (and we hope you'll do that soon), you'll notice these things: faster acceleration from a standing start; greater passing ability in traffic and on the highway; the new ease with which you climb steep hills.

These are just some of the benefits of Chevrolet's new high-compression power. In gearshift models, there is an entirely new 108-h.p. "Thrift-King" engine with a 7.1 to 1 compression ratio. Teamed with the new Powerglide automatic transmission there is also an entirely new 115-h.p. "Blue-Flame" engine with an extra high compression ratio of 7.5 to 1.

**A Great Gain in Gasoline Economy**  
Along with remarkable new performance, Chevrolet's advanced engines give you far greater gasoline mileage. In fact, this year marks the most important gain in economy in Chevrolet history. And that includes substantial savings on over-all upkeep, as well as on gasoline.

**New Getaway in the New Powerglide\***  
Chevrolet brought you the first automatic transmission in its field. And now Chevrolet brings you

the newest and most advanced one. The new Powerglide automatically drops into "Low" range for starting and for passing in city traffic. Then, as you glide along, it slips smoothly and almost imperceptibly into cruising range. The results are much faster and more positive acceleration, and much lower fuel consumption.

One of the things we're particularly anxious for you to try out is the performance and driving ease of this new Powerglide.

**The First Power Steering in a Low-Priced Car**  
Chevrolet offers you the extra ease and convenience of Power Steering, optional at extra cost. With it, you can spin the wheel with the strength of one finger. You can see-saw in and out of tight parking places without the slightest strain. You get an additional cushion against road shocks and jars.

**A Smoother and a Safer Ride**  
Comfort's a big consideration to almost every buyer. And almost every car claims to be exceptionally comfortable. Well, here are some facts bearing on comfort that you can judge for yourself.

To begin with, Chevrolet has ample weight to give a good, road-hugging ride. It isn't just weight that's been added indiscriminately, it's weight that comes from Chevrolet's extra strength, weight that means extra protection and safety because it's been utilized in strengthening body and frame.

Then, Chevrolet is the lowest priced car with Unitized Knee-Action. That means that the entire front suspension system is assembled and balanced as a separate unit. Only Chevrolet takes this extra step.

And as you go smoothly, so you stop smoothly. Chevrolet's new brakes with their 11-inch drums

mean tremendous stopping power for emergencies—and easier, smoother stops at any time.

### Chevrolet Is the Lowest-Priced Fine Car Line

Certainly, price is one of the most important factors of all. We're glad to be able to tell you that Chevrolet is the lowest-priced line in its field. In fact, it is Canada's lowest-priced full-size car.

Now, you might well ask, "How can Chevrolet offer me more and still cost less?" There is a simple, logical answer to that.

Remember that Chevrolet builds more cars than any other manufacturer. Chevrolet, along with General Motors, has greater facilities for research, for engineering and production. So, isn't it reasonable that these greater facilities bring manufacturing advantages and economies which Chevrolet can pass on to you in terms of higher quality at lower price?

### An Endorsement Given No Other Car

Again this year, more people are buying Chevrolets than any other car. Obviously that wouldn't be true unless people liked Chevrolet better. Unless Chevrolet offered more things people want—more value.

So, when you're ready to choose your new car, wouldn't you agree that Chevrolet merits your careful consideration? Believe it or not, there are a number of things we want you to know about the new Chevrolet that we haven't had space for here!

We welcome your visit at any time, so that you can look the car over yourself and try it out on the road.

# ILC Labor Day Sports, Big Success As Hundreds of Children Vie For Prizes

The weatherman was a trifle unkind to the Trades and Labor Council yesterday as a most successful Labor Day sports and soap box derby was staged. However, the rain held off until almost the finish of the sports and the thrill of the soap box races brought a couple of hundred brave souls out despite the pouring rain.

Roosevelt Park was the site of a gala occasion as hundreds of youngsters and "oldsters" vied for prizes in the afternoon sports and thousands of tickets provided free soft drinks and ice cream for the youngsters during the afternoon.

The sports teed off at about 1:30 and kept young athletes and competitors busy until nearly 5 p.m.

More than \$500 contributed by 150 stores and businesses and 100 handse donated by another 75 saw that there were plenty of good prizes for first, second and third in all events and extras if needed.

The refreshment booth run by the Women's Auxiliary to the UPAWU did a lane-office business from 1 p.m. on and spectators and contestants alike had but an hour to leave the park before home and be downtown in time for the soap box derby.

A big crowd attended the Second Annual Trades and Labor Council Labor Day dance at the Civic Centre which wound up a well-organized day that also served to mark the 80th anniversary of the Trades and Labor Congress of Canada.

Results of the races and events with firsts, seconds and thirds listed in that order follow:

## Rainiers' Losses Give Stars Pennant In PLC For Second Straight Year

By The Canadian Press

The Hollywood Stars are the Pacific Coast League champions for the second straight year.

Hollywood back into the pennant Monday as second-place Seattle lost its first game to Sacramento, 7-3, while the Stars were being shut out by Oakland's Jess Flores, 5-0.

But the Stars came back in the nightcap to defeat the Oaks, 3-1, for their 10th win of the year.

The second games just emphasized the fact that the bunting belongs in movietown. Roy Wel-maker, a Portland castoff, pitched the Stars to their 3-1 victory while Sacramento poured it on Seattle, 13-0.

Portland took a 15-4 drubbing at San Diego in the first game of a doubleheader, then recovered for a 4-1 win in the second. San Francisco, driving for the first division, dumped third place Los Angeles twice, 5-4 and 7-2.

The first game was an 11-inning affair broken up by Johnny O'Neil's single past third with two outs.

In the WIL Spokane and Lewiston carried their stride-for-stride race for the second-half pennant down to the wire Monday with sweeps of Labor Day doubleheaders.

And whether the Indians or the Broncs meet Salem in the post-season playoff won't be known until after Tuesday night's season-ending encounters.

Spokane clipped Tri-City 15-1 and 11-6 in the Labor Day twin bill at Kennewick, while Lewiston thumped Victoria 6-1 and 7-6 at Lewiston.

Lewiston had little trouble with Victoria in their seven-inning opener but it took the Broncs

11 innings to subdue the Tyees in the nightcap.

Vancouver moved in behind Lewiston but four games off the pace, with 4-2 and 5-4 wins over Wenatchee. Edmonton downed Calgary 4-2 in a single game.

How do they drill an oil well, Dad?

You've seen me drill a hole in a piece of iron. Drilling down through rock is somewhat the same but the drill points have to be extremely hard and tough. The cutting parts of the drill are made of nickel alloy steel because it lasts longer and cuts quicker than most other materials.

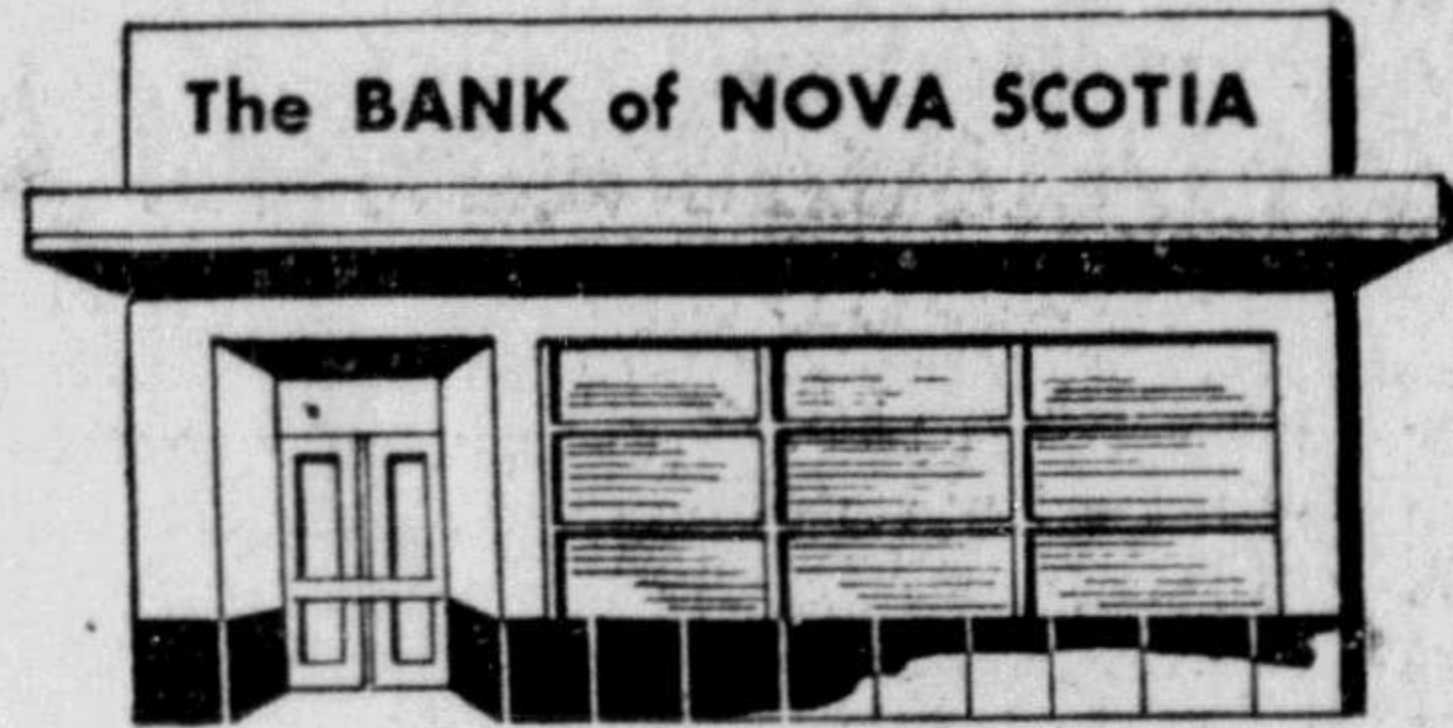

"Do they drill very deep?"

Yes, sometimes oil wells are drilled two miles deep. Pieces of pipe are joined to each other and the rock bit is screwed on the bottom end. To keep this great length of pipe from breaking it is sometimes made of nickel alloy steel which is strong and tough. It is also less subject to the corroding influence of salt, sulphur and chlorides often found in oil wells.

## School for young savers

Right now is a good time to remind yourself that your children's education doesn't stop at day-school. For instance, your neighbourhood branch of The Bank of Nova Scotia can be another school—a school where children learn the value of thrift and methodical saving—the vital lesson of planning for the future. Your part is quite simple—just suggest that they open a Savings Account at The Bank. Then let them do the rest. Your Bank of Nova Scotia is staffed by friendly people who are used to dealing sympathetically with the big problems of small persons. They will explain everything to young customers, and help this new adventure along to a happy conclusion.

And unless you've done so already, you would be setting a very good example by opening a Savings Account for yourself.

## Victories Will Give Braves Pennant This Week

**JOE REICHLER**  
Canadian Press Sports Writer

The National League pennant is in sight. The Braves have been getting the minute. Since Aug. 13, they have won 13 of 16 games to boost their record to 77-57, a 27½-game bulge over the Philadelphia Phillies.

The Braves were knocked by Chicago Cubs gave them their longest lead of 10 runs in a game.

They would have to win the remaining 16 games to clinch the pennant. Since Aug. 13, they have won 13 of 16 games to boost their record to 77-57, a 27½-game bulge over the Philadelphia Phillies.

**WILLIAMS HITTING**

Ted Williams hit his ninth homer with a man on base and singled in another run in the Red Sox 7-4 opening triumph over the Yankees. Mel Parnell won his 19th, but needed help from Ellis Kinder. Joe Collins paced the Yankees to a 5-3 second game victory with four hits including a home run.

Detroit Tigers climbed into sixth place for the first time this season, whipping the third-place Chicago White Sox twice 6-2 and 4-2.

Washington trampled Philadelphia Athletics 13-2 and 6-3 as Jimmy Dykes' crew plunged into seventh place.

Red Schoendienst and Stan Musial led the Cardinals to a double victory over the Cincinnati Redlegs 4-3 and 1-0.

Pittsburgh's last-place Pirates won their first doubleheader of the year at the expense of the Giants 9-7 and 5-3.

## With Canadian Tonight Chance For Rex Layne

**LAKE CITY (AP)** — Rex Layne will be put to the test tonight when he climbs the ropes for a heavyweight title with 10th-ranked Rocky Marciano of Edmonton.

The fight will determine the new world champion. Layne is the underdog in the fight. He is ranked 10th among the heavyweights. Layne fell out of the top 10 in his last outing against the champion Rocky Marciano. Layne suffered the worst licking of his career. Walls laid Layne out with one hard jab in the first round last July.

If Layne wins, he once again will join the list of contenders. But if he should lose, he'll have to start all over again on his climb up the fistie ladder.

Realizing this, Rex changed from his usual so-what attitude in training drills and has looked sharp and fast to onlookers as he knocked sparring partners about the ring. But the biggest change has been the 20-pound Layne has shed since he met Walls in Edmonton. Treatment of a thyroid condition has been primarily responsible for bringing his weight down to 191.

Both boxers wound up their training Monday night. Layne was expected to weigh in around 191 by ring time, a pound heavier than the Canadian champion.

As incentive for both fighters, reports from Las Vegas, Nev., that the winner will be matched against the victim of the champion Rocky Marciano-Roland Lizarza title bout.

## Fumble by Argonauts Costly As Tiger-Cats Top League

**By WALTER GRAY**  
Canadian Press Staff Writer

Toronto Argonauts suffered a sudden case of dropsy Monday and lost a game.

The 1953 Canadian football season got the highball sign during the Labor Day week-end when Ottawa Rough Riders defeated Montreal Alouettes 26-6 in Ottawa Saturday and Hamilton Tiger-Cats downed Toronto 14-12 in Hamilton Monday.

In the Ontario Rugby Football Union, Sarnia Imperials turned back Brantford Redskins 9-8 in Brantford Saturday night, the Kitchener-Waterloo Dutchmen trounced Toronto Balm Beach 24-14 in Toronto Saturday and the Beach squeezed out a 9-8 win over the Imperials in Sarnia Monday.

Only minutes remained in the Toronto-Hamilton game Monday when the Argos developed butter-fingers deep in the Tiger-Cat zone. With the score 14-12, Hamilton's Ray Truant fumbled the ball and Sculler Joe Scudero pounced on it only to lose it. Three other Argos made a bee-line for the ball, but it took another bounce and landed back in Truant's arms on the Hamilton 13-yard line. The Argos had to call it a day.

The win put the Tiger-Cats on top of the league with two wins and no losses. The Argos are tied for second place with the Rough Riders and the Alouettes with one win each.

In Ottawa Saturday, the Rough Riders shattered a powerful Alouette passing attack and broke through for four converted touchdowns and a single before 12,000 fans.

The Roughie assault was led by Tom O'Malley, who quarterbacked Ottawa to its 1951 Grey Cup win in his first season of Canadian football.

## Alan Majore Soap Box Derby Champ

Alan Majore last night captured the Trades and Labor Council Second Annual Soap Box Derby when he defeated his last year's rival Billy Watmough in an exciting 28 heat series of races on Second Avenue.

The dapper little racer lost to no one during his series of races and won handily in every race to collect \$25 first prize.

The crowd which braved the pouring rain saw an excellent selection of cars speeding down Second Avenue between the bottling works and the Civic Centre with the average time for each car being between 40 and 42 seconds.

Second place prize of \$20 went to last year's derby winner Billy Watmough and third prize went to Jackie Rudolph.

Winner of safety feature prize of \$10 went to Raymond Rudolph, originality of design prize of \$10 went to Billy Pedersen, and best-built car prize of \$10 went to Ray McIntyre.

Alan Majore in winning, won four races in four starts. His closest competitors, Billy Watmough and Jackie Rudolph, ran off for second and third place. Watmough having won five races and lost one and Rudolph having won three and lost one. Watmough won the final race to place second.

In the girls' races Roberta Reid won two races while her confere won one and lost two. Roberta won the \$20 first prize with Patsy receiving \$15.

Presentations were made by S. Grimolfson, and winners were congratulated by W. H. Brett, general chairman of the TLC Labor Day sports. Chairman of the Soap Box Derby was John G. Dyck.

## Tourists Jam Roads in Kootenay District To Take Pictures of Nude Doukhobors

NELSON, B.C. (CP)—Radical Doukhobors, whose sporadic outbreaks of track-bombings, home-burnings and nude demonstrations has kept B.C.'s Kootenay district in an uproar for weeks, proved a top tourist attraction during the Labor Day week-end.

### Dr. Carr On Trip

Dr. S. F. Carr, medical health officer here, left here by air today for Vancouver to attend the fall meeting of health officers for B.C.

A steady stream of sightseers poured up and down the Slocan Valley highway for a look at Krestova, hilltop stronghold of the radical Sons of Freedom sect, and their new tent village of Polatka some 15 miles to the north at Perry Siding.

The Sons didn't disappoint the curious onlookers. Despite the plea of RCMP, several large groups paraded in the nude and indulged in day-long praying sessions. Other groups sang and chanted in Russian, Many

of the sightseers took pictures of the groups.

Several times Sunday the narrow, dirt road leading to Polatka was blocked with the influx of automobiles.

Meanwhile more and more Sons of Freedom who have lost their homes in incendiary fires in and around the Krestova district were reported flocking to join the tent village on crown land at Perry Siding. More than 60 tents have been erected with some 400 persons crowded into them.

## Seaman Vote Expected On Thursday

MONTREAL (CP)—The result of a vote of 4,000 Canadian seamen on strike action may not be known until Thursday, a spokesman for the Seafarers International Union (AFL-TLC) said Monday night.

Ernie Hughes, chairman of the union's negotiating committee, said polling of the seamen aboard ships and in union halls across the country is progressing "rapidly and smoothly," but is not yet complete.

## TCA President Criticizes Lack of Space Provided Pilot in Modern Fighter Plane

LONDON (CP)—Gordon McGregor, president of Trans-Canada Air Lines, says the modern fighter aircraft, considering its complexity of construction, is like a "can of worms."

Speaking as guest of honor at a dinner given Monday by the Society of British Aircraft Constructors, the 52-year-old aircraft executive—himself a fighter pilot in the Second World War—said he believes the complicated wiring of modern fighter types

would lead to servicing difficulties under operational conditions.

"At the risk of being thought a heretic," he said, "might I suggest that perhaps the Japanese Zero of 1943 and the Russian MiG of more recent acquaintance represent a more realistic approach to the problem?"

McGregor said unoccupied space in the modern fighter is so limited it seemed nothing could be added as far as "plumbing and wiring" were

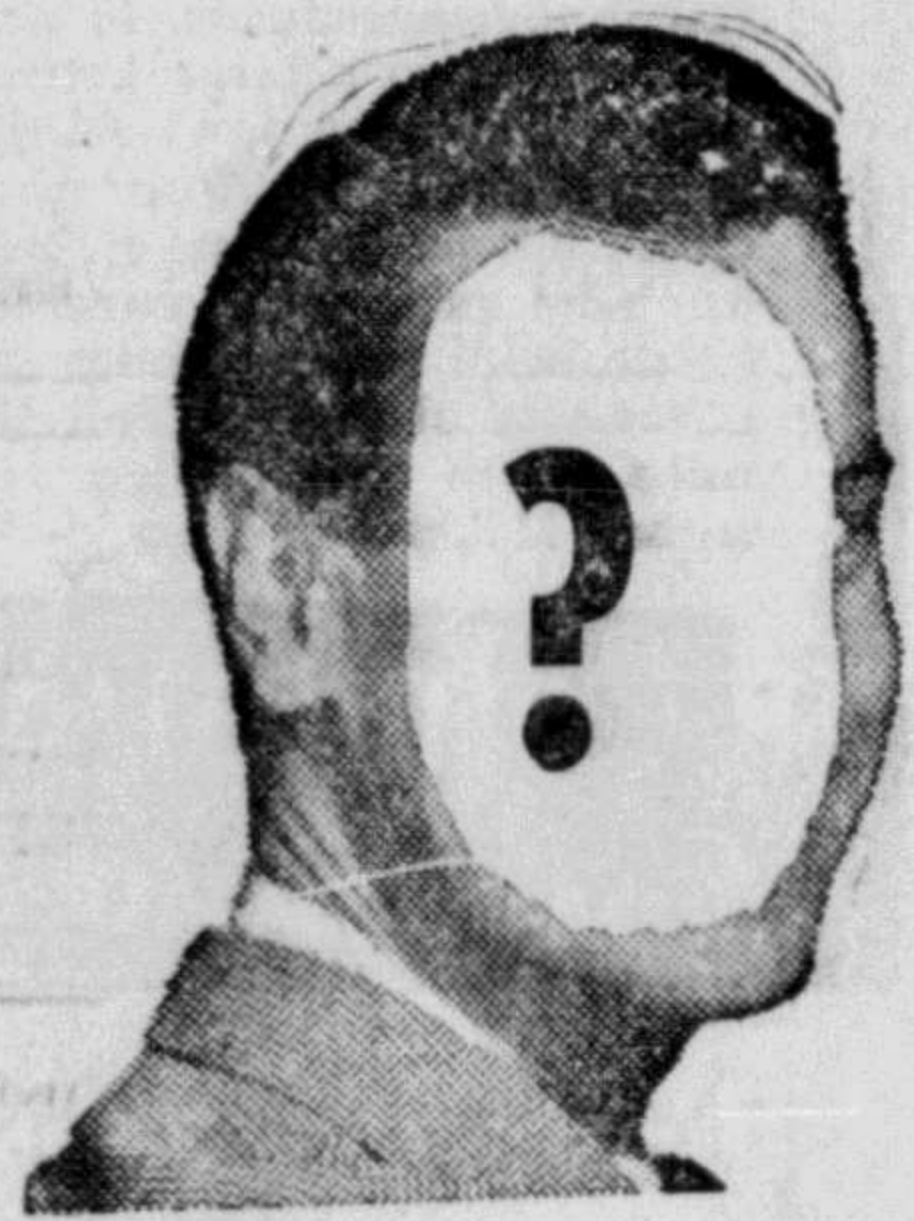

concerned. It was hard for a layman to believe that a reasonable degree of serviceability could be obtained under operational conditions in such a "can of worms" and it was even harder to believe that any country could make good the wastage in war of such a fighter fleet.

Though he was not advocating the expendable aircraft, he would like to see some simplification and less gadgetry.

**Prince Rupert Wins Shoot**

Prince Rupert Rod and Gun club won the Northern B.C. Trap Shoot Sunday at Terrace when they captured both the team event for the Corner Snack Bar Trophy and the individual high score.

Tommy Boulter of Prince Rupert was individual high score winner with a total of 22 points to win the Terrace Motors Ltd. Trophy. Runners-up were D. Edlison and C. Blackburn of Terrace both with 21.

Rupert's winning team was made up of T. Parlette (captain) 17, R. Mongom Montgomery, 18, T. Boulter 22, G. Armstrong 16, A. J. Dominato 19, for a total of 92.

The crowd was held in suspense during the sudden death elimination shoot when after six rounds R. Montgomery, J. Strong, and T. Boulter remained with no missed birds. On the seventh all three marksmen missed and on the eighth round Montgomery dropped out and it took three more rounds before Strong missed his bird.

Local marksmen praised the Terrace hospitality and a return match will be held in the future.

Prizes were as follows: F. Parlette won an overnight bag; R. Montgomery, hunting knife; G. Armstrong, back up light; A. J. Dominato, gun cleaning kit; T. Boulter, shells and game carrier; Bobby Mathews, (11 years old) won a flashlight; Mrs. Crossley won a box of chocolates.

**Bombers Tied For WIFU Lead**

**EDMONTON**—What looked like a solid lead for Winnipeg Blue Bombers in the Western Interprovincial Football Union was slashed to a first-place tie in the three games played during the Labor Day week-end.

Edmonton Eskimos started the big chop at Winnipeg's two-game lead Saturday night in Calgary as they licked the hapless Stampeders 18-6. Saskatchewan Roughriders held Bombers in check at Regina Monday afternoon with a 23-19 victory, the first loss for Winnipeg and the first win for Saskatchewan, and Edmonton slid into the tie easily Monday night on home ground with a 19-5 triumph, again over Calgary.

Edmonton and Winnipeg now have six points gained from three wins and a loss each. Calgary and Saskatchewan are tied at two points from three losses and one win.

Billy Vessels, the former Oklahoma Sooner, took the fight out of Stamps Saturday night. He ran back the opening kickoff—95 yards—for a major score.

Saskatchewan had to come from behind in the fourth quarter to ease by Winnipeg.

Riders got touchdowns from Nellie Greene, Stan Williams, Mac Sneedie and Herb Johnson. Reg Whitehouse added three points on converts. Two of Winnipeg's majors were scored by Lorne Benson while end Neil Armstrong counted the other.

hate to be fenced out of some place where there never was a fence before."

LAST NIGHT a single shot rang out and a cheery bear came to a sudden end. In these protected premises it almost took an order from Ottawa to stop that fat boy's midnight snack raids. For the law says you can't shoot bears, or anything else in this national park.

The bears, deer, moose and elk know the law better than the strange species known as homo sapiens. For there are signs all over the park warning people of a \$500 fine if they feed the bears—but the tourists pay about as much attention to that law as to the one about declaring everything bought in the U.S.A.

One lady (who is a very close and friendly reader of this column) received three nasty gashes on her wrist last week when she took a bear's picture. He was polite enough till the picture was done, but got annoyed when the camera was lowered. No doubt the spoiled boy had mistaken it for a lunch basket.

Yesterday another (male) tourist received gashes across his chin. Maybe the international experts can learn a lesson from this truth.

If the Russian bear ever gets really nasty it may be when somebody tries to snatch back what he has eyed as his lunch.

Four-fifths of the population of Romania, now under Soviet domination, are engaged in agriculture.

## Meet to Discuss Effect Of Alcohol on Driving

Special to The Daily News  
TORONTO.—The effect of alcohol on driving will be probed by representatives of more than 20 countries—from South Korea to Argentina—when the second international conference on alcohol and road traffic gets under way here tomorrow.

Purpose of the conference is to study the effects of alcohol on road traffic and to determine what can be done through scientific investigation, education, legislation and law enforcement to combat misuse of alcohol among drivers.

Taking part in the four-day conferences will be more than 200 scientists, doctors, lawyers, safety experts and law enforcement officials from every part of the world.

The first conference was held in Sweden in 1950. Since then, research on alcohol detection devices such as the breath-alcohol test and the alcometer has been conducted in Canada and elsewhere. Surveys and experiments in various phases of drinking and driving have been made during the past two years the results of which will be presented at the conference.

## BLACKWOOD on Bridge

By EASLEY BLACKWOOD

Dale's Craftiness Puts Abel Down One

Here is one of the devices you can use when you are almost strong enough to make a force to game after an opposing opening bid. You can overcall with one more than necessary in your own suit.

This bid says, "Partner, I am not quite powerful enough to make an overcall in the suit bid by my opponent. But I don't need much help from you to make game. About a trick will do. And don't worry too much about my trump suit. It's long and strong."

Understanding this message, Mrs. Keen had enough to raise Mr. Abel's jump overcall in today's deal. Miss Brash thought a long time before passing four hearts, doubled, but as it turned out, her final decision was a profitable one.

Mr. Dale put up a sly defense based on a plan to take tricks with all three of his trumps. He opened the five of clubs, Mr. Abel won on the board with the queen and led a heart. Miss Brash discarded the ten of diamonds and the king lost to the ace.

Now Mr. Dale led his last club which was taken with the ace in the closed hand. Out came another trump and Mr. Dale was in with the queen.

He led back his small diamond, the seven, to make sure Miss Brash would win the trick. She did win, with the ace, and returned a club which Mr. Dale ruffed with the six of hearts. Down one.

Mr. Abel had no excuses. He

should have become suspicious when Mr. Dale refused to lead either of the suits bid by his side. He should have known Mr. Dale wanted to ruff a club. To eliminate the chance of that happening, he should have led a diamond at trick two. This would have taken away the only possible means of entry to Miss Brash's hand.

And with that entry gone, Mr. Dale would never have taken a trick with his six of hearts.

# The miracle on your wall

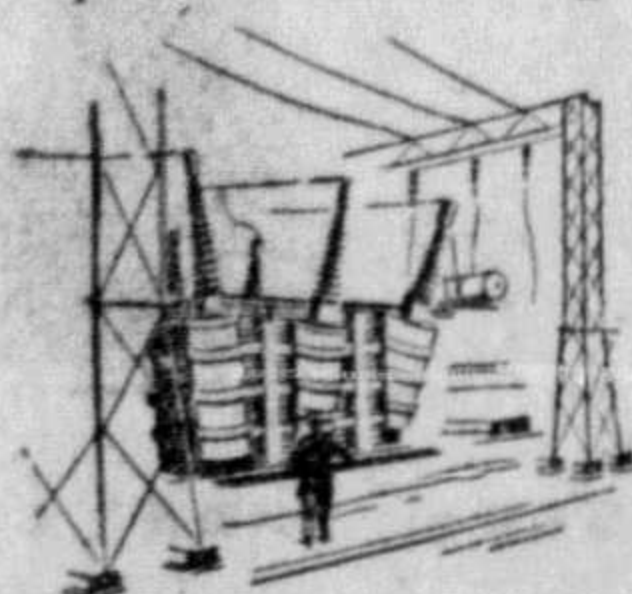

Behind the familiar wall switch lies the far-sighted planning and ingenuity of Canada's electrical industry that provides the low-cost power and efficient equipment which is helping to raise our standard of living.

When you want light in a room, you just flick a switch. It's as simple as that. And, if that minor miracle is taken for granted, consider a few of the other tasks electricity performs in the home.

It cooks complete meals while you are out—takes the labour out of cleaning, polishing, washing and ironing—keeps perishable foods in perfect condition, for months if necessary—supplies constant hot water—brings you radio and television entertainment—and helps to keep your home cosily warm in winter and delightfully cool in summer. This is fast becoming the pattern of living in even remote Canadian homes today.

While the role played by electricity in the home naturally looms large with all of us, it should always be remembered that by far the larger part of the power generated is used by industry. In fact, it is primarily because of the availability of this dependable source of power that Canada has been able to develop her aluminum,

pulp and paper, mining and manufacturing industries to their present position—which, indirectly, adds to the prosperity of all Canadians.

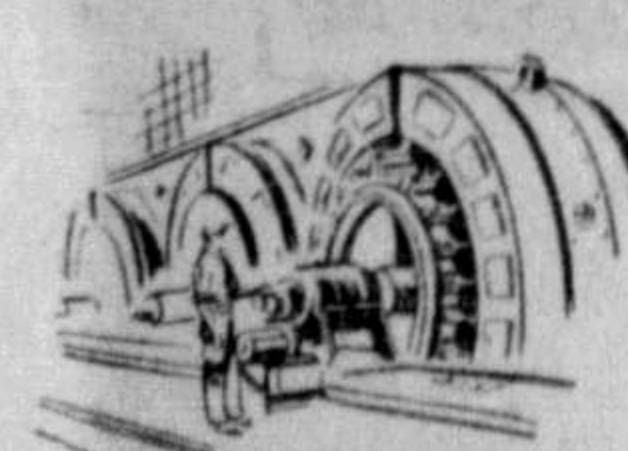

When you flip that familiar switch on the wall, have you ever given a thought to the amazingly intricate system of power equipment that lies behind it?

From the start, the story of Canada's electric utilities has been one of phenomenal increases in demand for power being constantly met, with the result that Canada has become one of the most highly electrified nations in the world. And, as always with this enlightened industry, tomorrow's needs are being taken care of by today's planning.

This Company engineers, manufactures and supplies a complete line of electrical equipment including generators, transformers, switchgear, wire and cable for the generation, transmission and distribution of electric power—as well as the motors and control, electronic devices, appliances, lamps and other products that put it to work.

We, of Canadian General Electric, take pride in the fact that electric power has become the pulse of the Canadian way of life because—as Canada's oldest and largest electrical manufacturer—we have helped to make it so.

## Uranium Found In Maritimes

HALIFAX (CP)—Mines Minister A. H. MacKinnon said Thursday uranium has been discovered over a fairly wide area of a 1,000,000-acre tract on Cape Breton Island.

He said the deposit may be of great value.

MacKinnon made the announcement at a dinner meeting of the Mining Exploration Corporation, Ltd., of Toronto, which, he said, made the discovery and intends to spend \$1,000,000 on exploration in the area during the next three years.

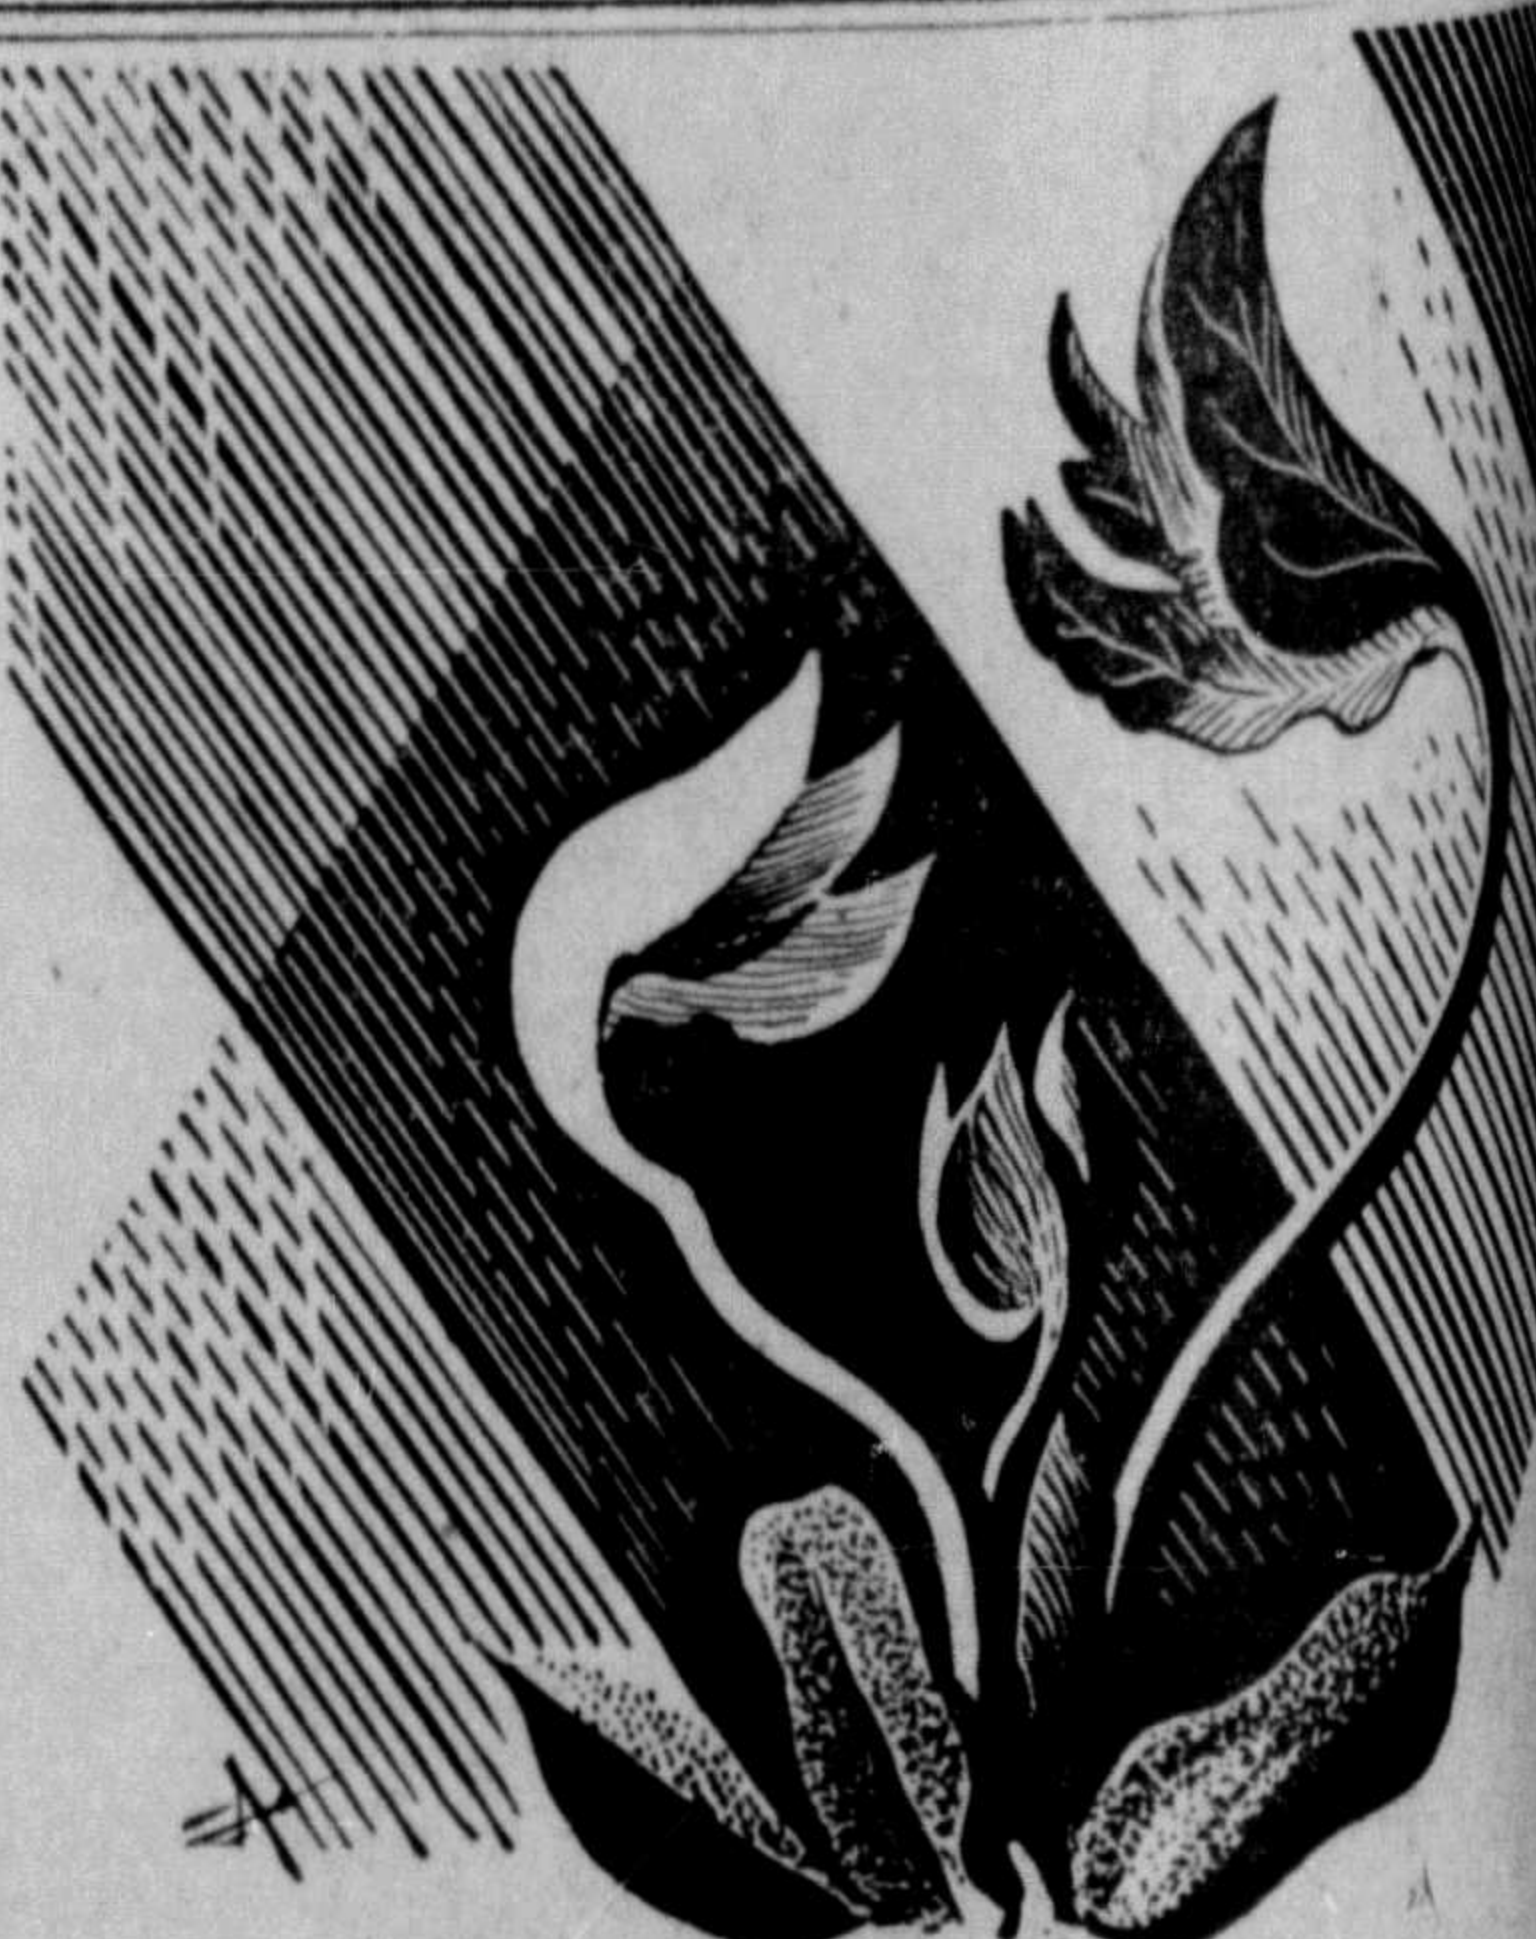

You'll Need This Care for It Now!

It's hard to think of winter's cold days with a hot sun over our heads, but any homeowner knows that his radiator is needed sooner than he thinks. That is why the wise homeowner calls us now for radiator check ups. Play safe.
