A Fine Tribute

AS REMEMBRANCE DAY, 1953, passes into history, a word of appreciation is in order to all those who made the memorial ceremony in Prince Rupert such an impressive occasion.

It seems generally agreed that the service parade at the cenotaph was an exceptionally fine one. Members of the armed forces and other organizations in attendance were smartly turned out, and the service itself struck exactly the right note of simplicity and sincerity. Fortunately, too, the rain held off for those few important moments as if to make its own gesture of respect.

It was altogether a worthy tribute to those who died that we might live.

While credit for success of the occasion is shared by many, our thanks must go chiefly to the Canadian Legion which was responsible for the overall arrangement. Remembrance Day does, in fact, serve as notice of the vital part that the Legion has in our community.

Besides its welfare work for handicapped veterans and their families, the Legion provides the surest guarantee that former servicemen will keep alive the memories and traditions of those extraordinary years when, with the world darkened by war, bonds of abiding comradeship were formed between those engaged in the combat.

They are ties that should always be held intact. They are proof that man's capacity for friendship is far greater and more lasting than his will to destroy.

Ray REFLECTS and REMINISCES

"If you will eat carrots regularly, you will build up resistance to colds," remarks a physician. We tried this, but all we built up was a resistance to carrots.

The basic difference between a financial and social success is that one keeps your chin up, and the other, your nose—Kitchener record.

SOMETHING DIFFERENT

A new highway menace is on the way, an American safety expert announces. In other words, the touch of a finger is powerful enough to give a car a 70-mile speed. Some roads, however, cannot be called a menace. Instead, they are 50 miles safer.

Honesty may be the best policy, but there are always people who don't seem to think they can afford the best.

From Santa Fe (New Mexico) comes the tale of a tourist who, seeing a baby in the arms of a woman pointed to the child inquiring, "Him Injun?" "Him baby Injun," replied the woman. Then turning and pointing to the nearby railroad, she added: "And part Injunee."

PERHAPS LATER

Now that Royalty is about to leave for the British West Indies, en route to New Zealand and Australia, Trinidad has introduced a new immigration ruling, restricting entry into the country of journalists and other persons connected with newspapers. Trinidad's governor, Sir Hubert Rance, classes them as "undesirable." Shocking fellows, it must be admitted, yet they might be granted an interview early next summer, after the return home.

WHEN WINTER COMES

Fog, silicosis and similar diseases cost almost 5,000 Londoners their lives last winter. Deep anxiety is again felt today. Six thousand physicians are suggesting that the big city's millions wear gas masks till spring. Prince Rupert has rain, and we can stand it. But pure rain does not create a dangerous atmosphere, or weaken lungs, or promote silicosis or cause atmospheric erosion of buildings.

There's many a man who has the notion that after tourists get the home papers they do not give a whoop what they may see elsewhere. 'Tisn't true. The chief trouble visitors of all ages have is finding words to describe the north coast, whether between the covers of a letter, or on a card.

Crime Comic Sales Hit In Montreal

MONTREAL (C)—Police said today the sale of crime comics in Montreal is scheduled to face a legal test "sometime this week."

The announcement came in the wake of Chief Justice E. A. McPherson's statement in Winnipeg Monday that publishers of comics portraying crimes being committed ought to be jailed. He dismissed a test-case appeal of a Winnipeg business man against a \$5 fine for selling a crime comic.

Police director J. Albert Langlois of Montreal said Monday officials of the juvenile morality squad are preparing evidence in connection with the sale of the comics, to be used in court "in the near future."

Asst. Insp. J. O. Pelletier, head of the juvenile morality squad, described many of the crime comics on sale as being "sadistic and cruel... definitely a bad influence on children." Church officials here lined up behind police. Under the Canadian Criminal Code, comics comprised of "matter depicting pictorially the commission of crime, real or fictitious," carry a two-year maximum penalty, or a fine.

As I See It

by
Elmore Philpott

Gunners Ahoy

NEAR WINNIPEG: In a quick hop and skip around Saskatchewan I managed to keep one jump ahead of the light snow blanket, unrolling from the north.

My wife was aboard the CPR train which I boarded at Regina. We have the better part of a carload of senators and MPs Ottawa bound.

We have also a goodly number of fine clean-cut Canadian gunners, on their way home from Japan to their permanent base in Halifax. They are as fine a lot of service men as I have ever met—and the very reverse of those "types" we hear so much about from Germany.

THE SAME thing has happened to many of these gunners as has happened to soldiers from time immemorial:

They went out across the seas expecting to find an "enemy." They came back home as ardent admirers and enthusiastic supporters of Japan as a country and the Japanese as a people.

As my wife and I drew some of these young fellows out and heard their enthusiastic answers about Japan, I thought of George Bernard Shaw's line about the men who went out to fight the crusades against the infidel Saracens—but came back home to Europe having absorbed about half the ideas which differentiated the "infidel" from themselves.

NOT THAT we have talked only Japan and Korea with these chaps. As an old time gunner myself I have been anxious to get their ideas as to the relative merits of the British 25-pound gun as compared with the American light howitzer.

As I expected, these Canucks to a man are strong supporters of the good old reliable British gun against the American piece. They have used both, so ought to know.

But in other respects the Canadians are enthusiastic boosters for the American way of army life. They say the rations they drew in the Far East—that is, American army rations—are far ahead of the regular Canadian home issue. And as everybody knows, who has served in both armies, the Canadian issue is a lot better than that served out to the British imperialists—that is, to the descendants of Tommy Atkins, of Kipling fame.

It gave me a kick to see how careful these young fellows were to point out that although Canadians drew regular American rations while in the Far East, Canada paid the American government the full price for such service.

YESTERDAY I rode from North Battleford to Regina in the same car as a pert young miss who had been working for a couple of years in Prince George, B.C.

She thought very highly of that part of our country but she was overjoyed to be getting back. See PHILPOTT Page 7.

TERRY FEAKES, one-year-old polio patient in a Winnipeg hospital, has spent almost half his life in an iron lung but has a good time at his first birthday party. Nurses decorated the lung with balloons and a tiny rabbit. A birthday cake with one candle also was brought along. Totally paralyzed, Terry had to be fed his birthday cake with a spoon. His mother couldn't attend since she also is ill in another hospital.

OTTAWA DIARY

By Norman M. MacLeod

The biggest Parliament Hill state, all combine to warn the PM against attempting to adapt himself to it at his time of life.

His decision in this matter is understood reliably to be irrevocable. Despite the obvious attractions of setting such a precedent, Mr. St. Laurent just will not become the first prime minister in Canadian history to succeed to the vice-regal office.

The prospect of the magnetic figure of "Uncle Louis" being available for leadership in the next general election is good news for Parliament Hill Liberals—but distinctly bad medicine for the PCs. As yet they haven't decided how they should react to it. They recognize that it's a development that should affect their action in their present leadership crisis.

Quite on the contrary, Rt. Hon. Mr. St. Laurent received a clear green light to continue to travel the road of public service from which he derives so great satisfaction. And that is exactly what the prime minister proposes to do. Following his receipt of the medical report, he told some of his cabinet colleagues that he had made up his mind to continue in his present post indefinitely. Unless some change overtakes his health in the meantime, his present plan now is to lead the Liberal party through still another general election.

The prime minister has made one thing crystal clear to some of his intimates: he has no thought whatever, direct or indirect, of possibly becoming Canada's first French-speaking native-born governor-general at the expiry of Rt. Hon. Vincent Massey's term. The exacting nature of the formal official duties attached to the post, the extensive travel it involves, and its generally strenuous social obligations along with the very real responsibility in all situations of

ACTION NEEDED

The Editor, The Daily News—

There are so many important things that call for action at the present time, and so little being done about anything, that I hope these few items will stimulate any one who reads this, and perhaps produce some results. I mention only a few herein.

First: We hear some criticism about farm subsidies and the high cost of living. The farmer always was the last to get a decent price, and the first to get a cut, and doubtless there will soon be a howl about farm subsidies.

Why not use brains, if any, and consider just who has been getting a subsidy—who is howling for more every year—who has been the cause of the mess we are now just about sunk into. That is a long story and involves practically every one of our present terrible problems.

Adopts Young Korean Boy

TOKYO (AP)—American authorities today granted permission for four-year-old Lee Kyung Soo, adopted Korean son of Chief Petty Officer Vincent P. Paladino of the United States Navy, to enter the U.S.

Immigration officials at Honolulu stopped Lee from entering U.S. territory two weeks ago on a technicality. With navy permission, Paladino brought the child back here to try and get a visa for him.

The visa was granted and the navy said Paladino and the youngster expect to depart for the U.S. Tuesday by navy plane. Paladino, 35, a bachelor from New Rochelle, N.Y., found Lee 11 months ago shivering in the streets of Inchon, Korea. He took the boy to his quarters and fed and clothed him.

— THE LETTER BOX —

The solving of this would settle most of our troubles at present.

Of course we have Russia to give our consideration, and it is just possible that Russia may enter into the above matter to some extent. Our governments have either failed to take into consideration everything Russia has up her sleeve, or else our government has not told us about everything she is doing for our protection. I have asked for some information, which may be considered top secret. I hope they are working on that angle as it may be of more consequence than planes for our protection.

Now the Social Crediters have some plan which might cover many of our present problems. Strikes, high wages, high prices, surplus production, lack of buying power, inability to sell to foreign country, their inability to purchase our goods, AND THE SCREWY IDEA OF GIVING AWAY OUR NATURAL RESOURCES TO ANYONE—EXCEPT CANADIANS—WHO WILL NOT GIVE US ANY THANKS FOR THEM—And the present surplus of goods piled up here, while we are paying high prices for the same thing, after paying for this stuff to be given to some gimme guys.

These are just a few of the items that have a bearing on the matter of a certain subsidy mentioned above.

Now, if the Social Credit has a plan to equalize production and consumption, or any plan to correct the present terrible conditions, it seems to me they should trot them out—no matter whether they are in power or not. The same applies to any other party. Cut out politics when the election is over, and all pull for the country.

It strikes me as rather silly

to prosecute the Doukhobors naked parades. Pick up any magazine or paper and you see is practically naked. I hope they are not coming to the swimming places in long shot. Rawther Note by Smithers, B.C.

Trespassing With Sandy

Remembrance Day has passed once more with high praise once again from all the men for the magnificent way in which the ladies waited on them at the annual dinner in the Canadian Legion.

There were smiles all round and it's safe to say all went home happy.

It would be hard to single out any one of the ladies as the hardest worker, but convenor Joyce Duncan received well-earned handshakes from the men and women for the excellent chore she did in arranging the dinner.

With the exception of Phil Ray and Keith DeWitt, who helped Mrs. Dickens and Mrs. W. A. Osborne carve the turkeys, all the work for the dinner was done by the ladies.

Six smiling girls kept the men happy as they waited on the tables but were all glad when the last dish was passed around. Moving up and down between the tables were Helen Sparks, Babs DeWitt, Elsie Anderson, Rose Morrow, Sadie Downing and Helen Denning.

A busy kitchen crew also breathed a sigh of relief when the dinner was over. Helping to fill the plates and keep the servers busy were Pat Anderson, Vi Geddes, Ruby Morrison, Hazel Gamblin, Jean Gordon, Maw Pihara, Rose Rosedale, Madge Roxborough, Ethel Ganton, Joe Taylor, Margaret McGreish, Rose Hodges and Margaret Stannard.

Always-happy Myra Gilchrist, Peggy Andrews and Isabelle Butterick greeted the veterans from their cloak-room booth and kept the many hats and coats in order while the men ate.

With the exception of a greeting from the American Legion by "sailor-boy" Jerry Esley, and an "explanation" from RCMP Inspector Taylor, the only speech made at the dinner was that by emcee Keith DeWitt.

The inspector isn't promising to bring horses here for the parade next year. He expressed regret that he could not do so this year, but he only wanted to bring the best and, he said, the top horses had been sent to England for the Coronation and the long trip here might be too tiring.

Jimmy Morvie, Jack Holden and Johnny Laurie, crewmen from the Prince George, received a big hand for their songs as did Margaret Kane, Jim Munro, and Mrs. Ralph Smith as she sang in Flanders Fields.

Karl A. Stahl, Swedish consul at Vancouver, arrived in the city on the Prince George yesterday and is staying here until Friday. Mr. Stahl, who is a long-time resident of British Columbia, is paying his first visit to Prince Rupert and will include a brief visit to Kitimat while in this area to familiarize himself with the possibilities of the two ports.

The man who "exceeds" in all sports, Tom Christie, is now trying to learn some trick shots in basketball. Whether it will do him any good is something else. Tom is organizing a team of Rotarians to challenge the Gyro Club. Ever since the Rotarians won a golf match over the Gyros at Smithers last summer, they have been waiting their chance to chalk up another victory. Many of the city's best basketball players of past years are Gyros. Tom has no worries, he says.

Jayees added another star to their chain when Gerry Pettenuzzo was admitted to the Bar at Vancouver.

Speaking at a Jaycee meeting this week, Jay Burns explained that he wasn't referring to business when he said he had a lot of red tape. He meant the scotch-lite tape for auto bumpers.

A NEW FAVORITE among London fashions is Canadian sables in wide stoles of around six skins, priced at 30 guineas (about \$90) a skin. They are elegant day or evening wear.

Borden School Children Mark Remembrance

A Remembrance Day ceremony was held at Borden Street school Tuesday when the whole school assembled to take part in a service.

The Canadian Ensign was carried by Lorraine Love and Sharon Bond, after which principal J. S. Wilson spoke on the meaning of Remembrance Day.

He told the children to remember those who fought in both world wars and in Korea, and suggested that they should also look ahead and pray for the future. It would be safe and sure if they would work and fight for the freedoms of speech and religion.

Bugler W. J. Rance sounded the Last Post and also the Reveille. The school joined in the singing of "In Flanders Fields." The ceremony concluded with the singing of God Save the Queen.

Plans to Assist Conrad P.T.A. Well-Baby Clinic

Members of Conrad School P.T.A. will help the Skeena Health Unit staff every Thursday afternoon when the well-baby clinic is held at Conrad hall. It was decided at the regular meeting Tuesday night.

Mrs. Victor Duplisea and Mrs. J. R. Ayres were named conveners to arrange dates suitable to all members.

The secretary was instructed to write a letter of appreciation to the Prince Rupert Klansmen club thanking them for their efforts on Halloween.

Miss Jean Burns, Grade 1 and 2 class won the attendance award.

At the conclusion of the business meeting the members saw two films on nutrition.

Special Movie

A special film with a religious theme will be shown at the Regular Baptist church Friday night at eight o'clock.

It is "Lord of All," a dramatic story of a talented but self-centred young trumpet player whose great ambition is to be a member of a big-name band.

Prince Rupert Newlyweds Honeymoon At White Rocks

Due home soon from a honeymoon at White Rock, B.C., are Mr. and Mrs. Gerald Sommerville, Prince Rupert newlyweds.

The bride is Marion, daughter of Mrs. Charlotte Horne, 1832 Second Avenue, and the groom is son of Mr. and Mrs. George Somerville of White Rock, formerly of Copper City.

School Social Life Topic Of Forum

A forum on high school students' clothes, make-up, and party habits at a Booth Memorial High School P-TA meeting found interested students and parents in general agreement on most of the topics.

A large attendance of P-TA members heard some of their number discuss the student customs with a group from the student council including Georgina Mitchell, Myrna and Bobby Knudsen and Jimmy Bateman, junior and senior students.

AGAINST UNIFORMS

Parents and students agreed in turning thumbs down on a uniform for school wear. Both felt that school uniforms would take away from individuality and freedom. However, parents felt there should be some limits in school attire, mentioning especially slacks, peek-a-boo nylon blouses and pin-curl hair for girls.

On the question of make-up, parents and boys students agreed that younger girls were more charming with their natural complexions than with make-up, and that if older girls wished to use make-up, they should be taught how to use it properly so as to avoid a grotesque effect. The girls took little part in this discussion.

Acting Principal R. H. Davidson, chairman of the forum, told the parents that the school had no ruling on make-up but that on occasion, the effective living teacher had given some girls help with make-up.

GRADUATION GOWNS

In a discussion on clothes for graduation ceremonies, the students came up with a tentative plan under consideration by the student council. They want to purchase graduation robes and caps which could be rented by graduating classes. The robes would be paid for in about five years through the rentals.

Parents and students also were in general agreement on the hours for school parties. The youngsters won parental approval when they explained that junior parties and dances closed at 10:30 p.m. and senior parties at midnight, though many parents frowned when the youngsters announced that the midnight closing gave them time to go down town for snacks.

PARTIES CRITICIZED

However, student house parties drew strong disapproval from parents. Students made no comment on this discussion. Some parents said that often parties

The Rev. Lawrence G. Sieber officiated at the rites in the First United Church, for which the bride was given in marriage by her uncle, Mr. Sam Currie.

She chose a gown of traditional white satin and lace, featuring an overskirt of net lace panels, and lace bodice with lily point sleeves. A coronet of lace and net secured her hip-length silk embroidered veil and she carried a lovely spray of American Beauty roses.

The bride's only attendant was her sister, Mrs. Frank Clapp, matron of honor, wearing a gown of rose sheer over taffeta with lace-trimmed bodice. She wore a floral wreath in her hair and carried a pretty bouquet of pastel mums.

Best man was Mr. Peter McLeod and ushers were Mr. Walter Carlson and Mr. Ronald Rothwell.

The home of the bride's cousins, Mr. and Mrs. Eric Jones, was the scene of the reception at which Mrs. Horne and Mrs. Currie joined the bridal party in receiving guests, the former wearing a smart ensemble of navy blue with pink carnations on corsage, and the latter in a frock of mauve printed silk, also with pink carnations.

The bride's table, covered with a hand-crocheted cloth, held a three-tier cake, topped by miniature bride and groom, with pink candles in silver holders and roses and mums.

For her honeymoon trip, via the Prince George to White Rock, the bride chose a smart boucle suit of green with pale mauve top coat, black accessories and corsage of yellow carnations.

The couple will reside at 1832 Second Avenue.

were staged in private homes, ending at three or four o'clock in the morning, and that parents of the host student left the youngsters to themselves for these parties.

During the P-TA business meeting following the forum, the group decided to donate \$250 to the Prince Rupert Music and Drama Festival association and named H. G. Clegg representative to that organization.

Wife Graham, district school inspector, was persuaded to be program convener for the remainder of the season.

ASKS DONATIONS

Miss Evelyn Hreharka appealed to members for donations through CARE for Korean relief work, and also asked members to give used magazines to the school.

The Soup's On Committee reported that the school's hot soup lunch program had opened Monday with 111 students buying the soup to supplement their lunches. Mrs. William Rothwell is in charge of the kitchen for the soup program.

Refreshments were served at the close of the meeting by Mrs. Murdo MacKenzie and her committee.

In 1952 Canadian factories produced 149,454,656 square feet of hard board.

SMILING MERNE PERRY, 20, has been chosen Miss Alouette and will represent the Big Four football team at the Miss Grey Cup contest in Toronto Nov. 23. A native of Montreal, Miss Perry is in her third year at McGill University. Last year she was chosen Canada's "Prom Queen."

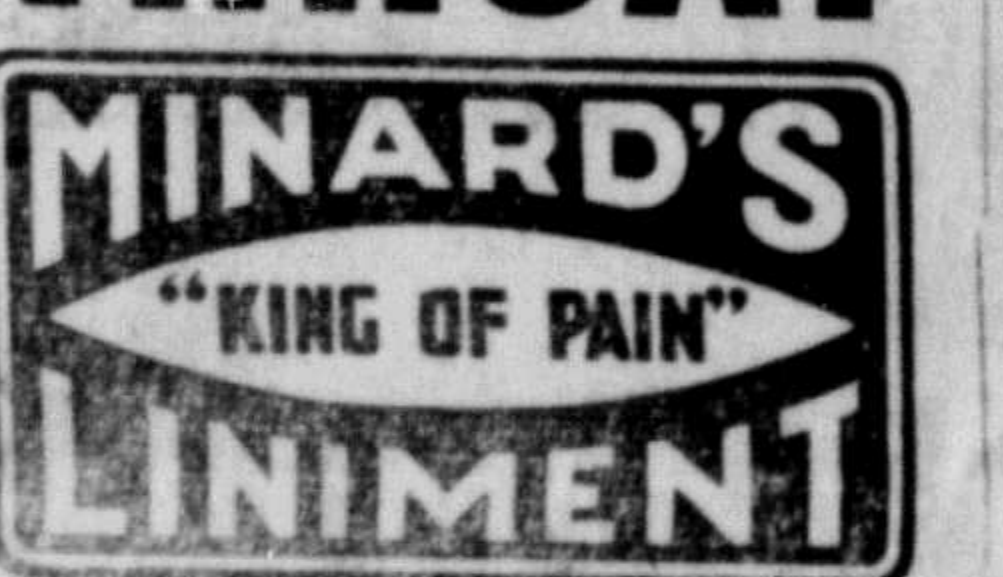

District News

STEWART—S. F. Macdonald, Slibak Premier mine manager, has been here during the past week making necessary arrangements for the care of the plant and equipment for the winter months.

There is no definite information at the moment as to whether the mine will be re-opened. It would appear, however, from the results obtained from the Indian mine operation and the Premier Border that some arrangement may be come to whereby these two companies can use the facilities of the Slibak Premier. This is, naturally, purely speculation. Meantime it is reported that arrangements have been made with the Department of Public Works to keep the road to the mine open during the winter, as there will be a small crew at the property.

Prescription for beautifully soft hands: Use the time a day after washing dishes! JERGENS LOTION... is the world's best-known beauty routine for lovely hands — and is more important than ever now, with the new detergents. For these same detergents tend to take away the natural oils and youthful softness of your hands while they're cutting into grease and grime so swiftly. Jergens Lotion contains two ingredients which doctors recommend for softening. It doesn't just "coat" your hands — Jergens penetrates deeply and helps to replace the precious softening moisture your hands need. Costs just 15c, 37c, 65c and \$1.15.

Make a Note Of It... for these are the coziest, most practical snow mittens Junior has ever had—VICEROY RUBBER SNOW MITTENS. They come in red or brown (some with Cowboy or Indian designs) and in sizes small, medium, large and now extra large for junior adults. Fleece-lined and with extra-long wristing for comfort, they're dipped in latex (rubber in its purest form) to keep water, snow and slush out—warmth in the coldest of weather. And, of course, Viceroy Rubber Snow Mittens are completely waterproof. Yes, I'm sure Junior—and you—will love his Viceroy Rubber Snow Mittens.

Wonders Will Never Cease... and here's a new one to dazzle you—NEW INSTANT CHASE & SANBORN COFFEE. As a result of endless work by its scientists, this product has all the rich aromatic qualities of the coffee bean—concentrated in granules that dissolve like magic in the moment boiling water touches them. All the flavor, color, body and heart-cheering lift of coffee at its 100% best... can now be spooned into your cup... ready in an instant! Across the country thousands of families have done away with the bothersome details of making coffee the old-fashioned way—and use Instant Chase & Sanborn's coffee. You'll find that it's coffee at its best!

Queen Plans Broadcast From Auckland

AUCKLAND, N.Z. (P)—For the first time since royal Christmas Day broadcasts were inaugurated by King George V in 1932 this year's message will be aired from outside England.

The Queen will broadcast from the opposite side of the world, speaking from government house in Auckland.

Radio experts believe that as a result of careful planning the Queen's speech will be heard by more people than ever before.

The Queen will make her speech at 9 p.m. Christmas Day, New Zealand time, which will be in the early hours of Christmas morning in Canada. The time chosen was decided upon after lengthy discussions for three reasons:

It suits the Queen's convenience.

It suits the greatest number of listeners throughout the Commonwealth.

It offers the most favorable transmission and reception conditions.

It will be a summer evening when the young Queen sits down at a simple, old-fashioned desk to make her broadcast.

GREATEST IMPROVEMENT IN YEARS

GOLDEN LINED VACUUM SEALED CANS

BUYS AND WHYS

MONTREAL, November 12th—Care-free cooking and certain triumph... is the happy lot of a woman who owns one of the new GURNEY Gas Ranges. Her work is care-free because the designers of this beautifully constructed stove have taken infinite pains to think of everything that could make cooking easier and more successful. Ask your dealer to show you the "Even-Heat" oven—which automatically keeps the heat at the temperature you need—on the sides, the top, the bottom and even the corners! Look at the automatic clock... the interior oven light... the glass panel door. But this is only the beginning—the more you know about Gurney stoves the more enthusiastic you'll be!

Positively Your Last Chance! To Earn Christmas Money — and to get the big Christmas bonus of one thousand dollars in the BLUE BONNET MARGARINE Christmas cash contest! One more week with prizes of \$500—\$200—\$100—5 of \$50 and 18 of \$25. With a Christmas bonus of one thousand dollars! Write in 30 words, or less, why you prefer Blue Bonnet Margarine. Send in as many entries as you want. Enclose with each one TWO END FLAPS (with Good Housekeeping Seal of Approval) from Blue Bonnet or reasonable facsimile. For a chance at the Christmas Bonus, write how many units of Vitamin A are in each package of Blue Bonnet. Mail to Blue Bonnet Sue, Box 2160, Toronto, Ontario.

Prescription for beautifully soft hands: Use the time a day after washing dishes! JERGENS LOTION... is the world's best-known beauty routine for lovely hands — and is more important than ever now, with the new detergents. For these same detergents tend to take away the natural oils and youthful softness of your hands while they're cutting into grease and grime so swiftly. Jergens Lotion contains two ingredients which doctors recommend for softening. It doesn't just "coat" your hands — Jergens penetrates deeply and helps to replace the precious softening moisture your hands need. Costs just 15c, 37c, 65c and \$1.15.

Quota Extended For Herring
VANCOUVER @—British Co- nounced today. Annual quota of 40,000 tons was caught by Nov. 2 after a short, intensive fishing operation. Catch was taken mainly in Por- lier Pass and Swanson Bay areas. But supplies of herring are still plentiful, department offi- cials said, so the quota is being extended.

Scrappy Millers Eke Out Win Over Last Season's Champions

A battling though disorganized Columbia Cellulose squad eked out a well-earned 39-36 victory over last year's Prince Rupert Senior B basketball champions Gordon & Anderson in a rough and tumble thriller at the Civic Centre Tuesday night.

Minus the expert coaching of Pop Pay and with Bill Sunberg sidelined with a lacerated hand, the pulp millers held Minor Simundsen's crew to a 10-10 tie at the end of the first quarter and pulled ahead by the half when the score stood 17-14.

G & A gained ground in the third quarter when they outscored the Millers 12-9 to tie the game up at 26-26.

The grueling last canto saw G & A's Tiny Carlson and Mel Thompson of CCC foul out. Don Scherk was returned to the millers' bench for unsportsmanlike conduct when he objected too strenuously and started swinging.

FOULS COSTLY

It was G & A fouls which gave the pulp millers the game despite the CCC raggedness. Half a dozen times the millers' throw-in man was left holding the ball with no one to toss to and players gave each other contradictory instructions as they tried to hold back the striving hardwaremen. G & A took the lead momentarily in the middle of the quarter 31-30 but another completed free shot tied it up for the CCC. It was tied again at 36-36 and the pulp millers sank three single shots and battled successfully to hold their slim lead.

Sid Scherk and Freddy Christensen were standouts for the winners with 12 and 11 points respectively. Joe Davis was top point-getter for G & A with 12.

Carlson with 11 points did yeoman work before he fouled out. G & A's sharpshooters were weak on free shots only netting 6 in 25 tries. The millers single-shot artists sank 13 of 21 chances. In the foul column CCC committed 18 offences to G & A's 16. Rape Holkestad of G & A and Mel Thompson of CCC also fouled out.

Bill (Mouse) Morrison with 15 points led North Star Bottling Works to a narrow 44-41 victory

Rangers Score Win Over Hawks

By The Canadian Press

New York Rangers won their first home victory since November 1, 1929 over Chicago Black Hawks last night when they scored a 3-2 victory over the Hawks. Ranger marksmen were Max Bentley, Bob Chrystal and Wally Hergeshiemer and rookie Bob Chrystal. Gus Mortson and Larry Wilson tallied for the Hawks.

At Toronto the Maple Leafs trounced the league-leading Montreal Canadiens 4-1, vaulting the Leafs into second place, two points behind the Habits and one point ahead of Detroit Red Wings who fought to a 2-2 deadlock with fourth-place Boston Bruins in Boston.

In the Western Hockey league Seattle Bombers and the Flyers at Edmonton played to a 2-2 tie that shuffled the league standings like a poker deck.

The one point moved Edmonton from a tie for last place with Saskatoon Quakers into a tie for fifth place with Victoria Cougars. For Seattle it moved them within one point of third place New Westminster Royals.

over Fraser & Payne in an Inter-A hair-raiser.

It was fouls again which made the difference as either side only netted two field goals in the final quarter which began with Fraser & Payne holding a 33-32 edge over the bottlers. The drygoods squad outscored the North Stars 13-11 in the first quarter, trailed by one point at the half and led by one point at the three-quarter mark. The game was again tied at 41-41 but fouls saw North Star get the edge and hold it.

Kristmanson who fouled out was also top scorer for Fraser & Payne. F & P committed 19 fouls and North Star 12. The winners sank 18 of 25 free shots and the losers netted 9 out of 17.

In a well-played game Mansons led by Billy Sedgewick with 7 points defeated General Motors 23-19 in the Inter-B opener. Young with 8 points led the losers who were outscored in every quarter but the third. Mansons took the first quarter 7-4, the second 6-1, lost the third 8-3 and took the final stanza 7-6. Mansons committed 11 fouls to Motors 13 and sank 5 out of 9 free shots while Motors only netted 5 out of 12.

Morrison and Sankey refereed the first game while Vern Cicone and Ole Slatta handled the winties in the last two.

Line-ups:

Inter-B League
MANSON'S: T. Sedgewick 2, Anderson 6, Jeffrey 3, Hodgkinson 4, B. Sedgewick 7, H. Webster 1, Barnes, Magnuson, Erickson, Total 23.

GENERAL MOTORS: Carlson 1, Forward, Pedersen, Stanwood, Dean 3, Leask, Young 8, Nelson 3, Shenton 4, Auld, Total 19.

Inter-A League
FRASER & PAYNE: H. McKay, Forbes, Cicone 9, Stewart 8, Sankey 7, G. Morrison 7, Kristmanson 10, Total 41.

NORTH STAR: Nickerson 10, Tait 7, Helim 4, E. McKay 4, Black 4, Turcotte, Donaldson, W. Morrison 15, Total 44.

Senior B League
GORDON & ANDERSON: Flaten 3, Holkestad, Davis 12, R. Webster 8, G. Carlson 11, Arney 2, Flewin, Abbey, Currie, Total 36.

CCC 300: D. Scherk 5, S. Scherk 12, Thompson 2, Christensen 11, Marshall 5, Cameron 1, Dumas 3, Total 39.

Dutchmen Win

KITCHENER, Ont. (CP)—Coach Gerry Tuttle of Kitchener-Waterloo Dutchmen Wednesday neared a season-long ambition: to defeat Toronto Balm Beach in the Ontario Rugby Football Union and advance to the Grey Cup semi-finals.

The Dutchmen, with Tuttle directing traffic from a half-back position, defeated Beaches 9-6 here Wednesday in the first game of their two-game total-point final series. The deciding game will be played at Toronto Sunday.

WORLD'S LIGHTWEIGHT CHAMPION JIMMY CARTER, shown getting in some light bag work during training, last night retained his title with a fifth-round knockout over Montreal's Armand Savoie. —(CP Photo.)

Devastating Right Robs Savoie Of Lightweight Title Dreams

MONTREAL (CP)—One short devastating right that travelled less than a foot was all champion Jimmy Carter needed last night to defeat Armand Savoie and explode the Montreal boy's dream of the world lightweight championship.

The little pile of points Savoie had courageously put together for a lead disappeared with the knockout blow at 59 seconds of the fifth round.

Savoie had taken the first round by a tiny margin, the second and third handed with sharp left hook and jabs and left-right combinations.

The champion began opening up in the fourth with solid belts that won him the round. Both fighters came out of it with cuts over the eyes but neither showed the slightest sign of distress.

Savoie came bouncing out of his corner for the fifth. There were light exchanges and Savoie moved in as he flicked a left. The little Negro champion saw an opening. His right fist snapped out and Savoie went down on his back.

As referee Tommy Sullivan took up the count, Savoie suddenly raised his head, shook it and appeared to realize he had to move fast if he were to beat the fatal 10. But he was still scrambling on hands and knees when Sullivan tolled it off.

The fight drew a crowd of 9,105 in the Montreal Forum. The gate was \$53,190 and the net gate \$45,855. Carter received \$25,000 and Savoie's share was 12 per cent of the gate.

The same judges who scored a decision for Savoie over Carter in a non-title fight here last February were assigned again to last night's fight. Judge Leon Germain gave the first three rounds to Savoie, the fourth to Carter. Judge Rene Olmet scored

Trio of Eskimo Stars Injured As Bombers Take Second Game

WINNIPEG (CP)—Injuries may play a big part in deciding the Western Interprovincial Football Union championships as the best-of-three final goes down to the wire Saturday night in Edmonton.

Darrel Royal's Eskimos not only came out on the short end of a 21-17 score in the second game Wednesday against Winnipeg Blue Bombers, but may have lost three top-flight players.

Eskis, who won the opener last Saturday 25-7 in their own Clarke Stadium, may go into the deciding battle without halves Billy Vessels and Don Simon and end Frank Anderson. Vessels aggravated a back injury, suffered in the final game of the regular schedule. Simon hurt his left knee and ankle and Anderson was pulled up with a knee injury.

Much of the credit of the Bomber victory went to their hard-charging defensive line, led by tackles Dick Huffin and Buddy Insley and end Tommy Lumsden who played havoc with the Edmonton attack.

Terrific line play also was responsible for holding off the Esk's last-half drive which almost wiped out Bomber's 19-5 first half lead, and which had most of the record 18,434 pro-Winnipeg crowd on edge until the final whistle.

The weather played a big part in the game. Strong down-draft winds kept the kickers and punt receivers guessing as the ball twisted and turned, slowed down and speeded up in 35-mile an hour gusts.

Import Ralph McCallister was top point getter for Winnipeg with two touchdowns. Veteran

Tom Casey, now a non-import, added another. Flying wing Buddy Korchak kicked two converts and a single. Gerry James returned a punt for a single. The other two points came on a safety touch when Rod Pantages was caught behind his own goal line.

Vessels, leading American college player last year and one of the WIFU's top scorers, this season, plunged over for one Eskimo major. Rolfe Miles took a 25-yard pass from quarter back Claude Arnold and ran the remaining 45 yards for another touchdown. Bill Synder converted both majors and booted a field goal. Pantages added another two points on singles.

MORE WOOD FROM FORESTS

OUTDOORS With Marty

By ERIC MARTIN

That old perennial comes up once again about where to place the tip of the foresight, when trying to get down on a fine target with a large-aperture peep sight. Don't worry so much about it, the ONLY way to use this excellent sight is to look THROUGH the hole in the back-sight (you may quite safely disregard its seemingly large diameter completely) and then place the tip of the foresight on the object aimed at. This goes for precision shooting also and is accounted for by the fact that there is a much greater distance between front and rear sights (about 32 inches), than with the around 16 inches offered by the ordinary vee backsight. It does not matter whether your eyes are good natural or boosted by eyeglasses, the fact remains that the normal function is for a shooter to naturally and unconsciously centre a point away from the eye, provided that he first picks up his point of aim on the target by LOOKING THROUGH THE APERTURE, prove this for yourself with a dozen rounds fired at varying ranges with consideration for the known trajectory of the projectile fired.

One may be sure that armies would not use the aperture sight if it were not as close to fool-proof as possible, you may safely do the same.

This is the time of year when the finest steelhead fishing may be had by those hardy enough to put up with a little discomfort, both Kispix and Moricetown have fish right now; Neil Stieritt of Hazelton has lately taken a 25-pounder from the former place, this splendid catch should bring more fame to the Northern Interior if it is entered in the Field and Stream contest.

Have you wondered about a suitable sturdy and waterproof bag to carry your fishing tackle, etc.? Less than five bucks buys a nylon dandy in one of our newer Third Avenue stores... would make a highly acceptable Christmas gift methinks!

Now that the road east from Bella Coola has once been traversed other adventurous spirits will beat their way through and also raise voices that will be heard in the high places, so that necessary appropriations will be made towards improving the work done under adverse conditions by residents of that wonderful valley. Already Marty has a report of the great success of moose hunters in the district, and its fame as a spot for rainbow trout in the Atlatrak and coho angling, is quickly growing. Truly the old days are gone and soon a world of sportsmen will clamor for that road!

Little need to go outside the harbor for Canada geese, a flock near Pig Island on Sunday, and a large flight near the log booms in Metlakatla Passage all last week; so far nobody appears to be bringing any of them in.

Herring are in evidence, and trollers are picking up the occa-

sional spring salmon around 12 pounds near the Dry Dock, Fred Anderson getting two. A good school of grey cod at Fairview, handliners cleaning up with both jigs and ocean worm for bait; fish in clean bright condition. Bob Armstrong took a steelhead out of the Cloyah last week, and Dick Gilker also caught one of harbor springs while plug trolling.

Stanley Park Zoo in Vancouver is very anxious to obtain an otter to occupy the sumptuous quarters (all equipped with a fancy circular slide) which is empty just now. In this connection the following quite true and recent happenstance must be told, but names are purposely withheld. A workman in a local establishment was working in the usual manner in an atmosphere strongly redolent of fish, when a dark brown furred creature entered the room and looked around as though completely familiar with the place; the worker picked the animal up and placed it in a packing box and nailed it shut. Shortly discussion arose as to whether the beast was a sea-otter or a land-otter, so an official was called in to make identification. A number of hunky males gathered around, nails were removed, the lid raised and the otter climbed out. Said otter took an eye-full of the assemblage, snorted in derision as the males made way for him, and promptly made his escape! Yes, it was a land-otter alright, but he will not disport himself in Stanley Park, I fear.

ELMORE PHILPOTT
 (Continued from page 2)

to her real home. I notice that
 the young people who are born
 and brought up on these prairies
 have a fierce attachment to the
 land that laughs to scorn all
 such talk as whether the ther-
 mometer reaches 40 or just 30
 below in wintertime. The prairie
 sunshine seems to heat their
 hearts so white hot they never
 cool off in their loyalty.
 Of course it also makes a dif-
 ference who is waiting at the
 other end of the line. In the
 case of the pert young miss it
 was a handsome Mountie—all
 complete with wedding party.
 There is room in Canada for
 a better and more intensive and
 intelligent use of farm woodlots.

Bargain Hunters Are Bagging Their Limits Here . . . Season Never Closes

CALGARIAN'S SPY EXPERIENCES IN FRANCE TO BE BOOK EPIC

CALGARY — The story of George DePre, Calgary business man who was a British intelligence agent with the French underground during the Second World War, is to be told in a book by Quentin Reynolds, United States war correspondent.

DePre, as a French half-wit, did notable work as a spy with the Maquis and suffered torture at the hands of the German Gestapo.

Born at Ponna, India, in 1903, the son of a British Army officer, DePre graduated from Cambridge with an arts degree. Later he came to Canada to serve with the Hudson's Bay Company, freighting mail, merchandise and passengers in the western Arctic — by dog sled.

ENLISTED WITH RCAF

War broke out seven years after DePre had moved to HBC's head office in Winnipeg. Shortly after enlistment in the RCAF he was chosen to study at a British spy-training school in Oxfordshire, England.

Until he was parachuted into France in 1940, DePre learned radio operation and maintenance, acquired a general knowledge of the systems of the French Maquis, then aiding the escape of Allied airmen who had been forced down.

His roommate at the school was a half-wit Briton from whom DePre adopted all the mannerisms of the feeble-minded. His conversation was to be almost incoherent, and the most he was called upon to write was "Je ne sais pas."—I don't know.

Four days after landing in France, DePre went to work as a garage sweeper in a small village, the name and location of which still is a secret. He became Paul Couchette, a French half-wit.

Couchette worked for two years in the garage, used mostly by Germans and then was taken to Hamburg to work in a submarine factory.

ARRESTED BY GESTAPO

After 10 months in the factory he was allowed to work his way back to the French village. On the way, he was picked up by an Allied plane and slipped back into the role of citizen George DePre, hospital patient suffering from the effects of German torture.

While engaged in underground activities, DePre and 19 others were arrested by the Gestapo for questioning. Among the group were seven of the Maquis.

DePre says that for two days and three nights, alternate hour-long blasts of hot and cold air

were forced into their cells through gratings.

After this softening-up process DePre was taken upstairs for questioning. Two Gestapo men seized him and his index finger was clamped in a vise. A third man kicked him, and when he fell to the floor, his finger was quickly broken.

Questions regarding the Maquis produced only a babbling "Je ne sais pas." Two days later, he again faced his tormentors.

HOT WATER TORTURE

This time he was strapped into a chair with a pad of paper, with instructions to write the answers to questions fired at him. Before him were three electric elements on which were kettles of water. The first was set at a low heat, the second at medium, and the third was set at high.

A clamp was used to force open his mouth, and the water from the low burner was poured down his throat. The questions brought only the French negative.

Finally, boiling water was poured into the half-wit's mouth but the result was still the same. He was taken to his cell and stayed there while his tongue peeled and his teeth fell from dead tissue.

Of the seven Maquis arrested by the Gestapo, none betrayed his comrades, DePre said. Three of them, including the half-wit, got the "full treatment." One of them died, and the vocal cords of another were paralyzed by the steaming water.

Today, DePre no longer resembles the starved and disfigured man picked up on the French countryside. Branch manager for a chemical firm, he is a member of the local Boy Scout council, and has undergone plastic surgery to restore damage done by the torture.

Fine Catches

HALIFAX — Official reports show 6,400 Atlantic salmon were caught in Nova Scotia rivers last season, or 1,378 more than a year ago. The season's biggest fish was a 31-pounder taken from the St. Mary's river on the eastern shore.

THE FEW LINKS with pre-war traditions of pomp and formality at the opening of the session of Parliament Thursday is the open four-horse carriage in which Governor Massey will ride for the opening ceremonies. A mounted RCMP escort accompanies the carriage. The carriage is being used for the first time since before the Second World War.

Debate on Trade Policies Expected Take Place Early in New Session

JOHN E. BIRD
Canadian Press Staff Writer

Lower taxes, economic development and trade likely will form the main debate, George Drew, the Progressive Conservative leader, likely will renew a demand that the Liberal government take the initiative in calling a Commonwealth trade conference and seek more world markets for wheat, beef, pork, lumber, butter, cheese, minerals and other products.

This demand probably will receive general support of other opposition groups. The CCF will urge efforts to sell more grain, especially wheat, to countries outside the International Wheat Agreement to relieve Canada's current glut.

Mr. Drew also is expected to

BLIND VICAR RETIRING AFTER 31 YEARS SERVICE

MORTON HEATH, England (P)—Rev. Frarey Whittle, vicar of this Surrey town for 31 years, has never seen his congregation. He was blinded as a boy. Now 73, he is turning the post to a younger man.

Nobel Peace Prize Winner Lives in Jungle Hospital

CHARLES MERCIER
YORK (AP)—Albert Schweitzer, winner of the Nobel prize for 1952, is a Christian philosopher whose personal life is the living embodiment of his principles.

At 73, when most men are in the prime of life, he still is laboring in a jungle hospital near the Lambaréne, one degree from the equator in French Guiana.

Schweitzer sailed for his home in 1951, but he has been away for years ago, he left in his four distinct careers, any which would have crowded the life of a less versatile mind.

He knew him as a person, the greatest living organ of the author of works revolutionized interpretation of Bach's music.

Others knew him as an author on Kant, as a writer whose erudition who cast a new eye on contemporary society.

Others knew him as an author and a profound thinker whose studies of the lives of Jesus and St. Paul were a new approach in scholarship.

Others knew him as an authority on that all-round subject where art and science merge.

Beginning the study of

this charge.

When he speaks in the first main debate, George Drew, the Progressive Conservative leader, likely will renew a demand that the Liberal government take the initiative in calling a Commonwealth trade conference and seek more world markets for wheat, beef, pork, lumber, butter, cheese, minerals and other products.

Mr. Drew also is expected to

urge the government to take the lead in making sterling convertible easily into other currencies so Commonwealth countries can increase imports from Canada. The sterling-dollar picture will be studied next January in Australia by Commonwealth finance ministers.

Mr. Drew is expected to reiterate his election stand that taxes should be cut by at least \$500,000,000 annually. At the same time, however, many opposition members will ask the government to increase old age and veterans' pensions.

Extensive discussion is anticipated on demands for a better financial deal for municipalities.

The Social Credit party is expected to expound its monetary theories during study of this legislation.

M. J. Coldwell, CCF leader, has said he welcomes the opportunity to study Canada's banking system.

In an interview, he said his party is "not satisfied that the present organization of our banking system is competent either to meet the needs of the Canadian people or to avert the possibility of an economic recession."

Mr. Coldwell said the CCF will try hard to persuade the government to introduce a national health insurance plan and revise federal social security legislation "to enable it to meet the needs of the Canadian people."

A dozen other controversial subjects will come before the Commons. These include international affairs, military preparedness, civil defence, the St. Lawrence seaway, the South Saskatchewan power and irrigation project, atomic energy, freight rates, television and immigration.

The New York Herald Tribune said Monday that the United States must join Canada in building the St. Lawrence seaway now that the power phase of the project is close to final settlement.

The Tribune said in an editorial that to have such a large enterprise undertaken without participation of the U.S. "would be both unwise and unworthy."

How "Skinny" Girls Get Lovely Curves

Gain 5 to 10 Lbs. New Pep
Thousands who never could gain weight before, now have shapely, attractive figures. No more bony limbs, ugly hollows. They thank Ostrac. It puts flesh on bodies skinned because blood lacks iron. Peps you up, too. Improves appetite, digestion, so food nourishes you better. Don't fear getting too fat. Stop when you gain figure you wish. Introductory or "get-acquainted" size only 60¢. Try Ostrac. Tonic Tablets for new pounds, lovely curves, new pep, today. At all druggists.

Radio-Active Gold Used to Treat Cancer

MONTREAL (P)—Radio-active gold, obtained from the Institute of Nuclear Research, at Oak Ridge, Tenn., now is being used by a Montreal hospital to treat certain types of cancer.

First shipment of the treated gold was used to treat cancer patients who accumulated excess amounts of fluids on the chest and abdomen.

Owing to precision required, and limited space in the hospital's radiology department, the number of patients treated to date with the radio-active gold has been small.

Patients must be exposed to radiation a few hours after arrival of the substance.

The speedy treatment is necessary because the radio-active power of gold diminishes by one-half every 27 days. Coupled with this, physical changes in the metal tend to change its molecular structure, transforming the gold into mercury.

Construction of a new hospital wing, now in progress, will provide one floor for the radiology department, in charge of Dr. I. Sedlezky.

Dr. Sedlezky was the only representative of a Canadian hospital to attend an advanced course in the use of radio-active isotopes held by the Institute of Nuclear Studies.

Police Seek Large-Scale Sweep Ring

SAANICH, B.C. (P)—A sharp-eyed police constable spotted an automobile loaded with lottery tickets and authorities said further investigation may uncover a large-scale sweepstake ring operating in Western Canada.

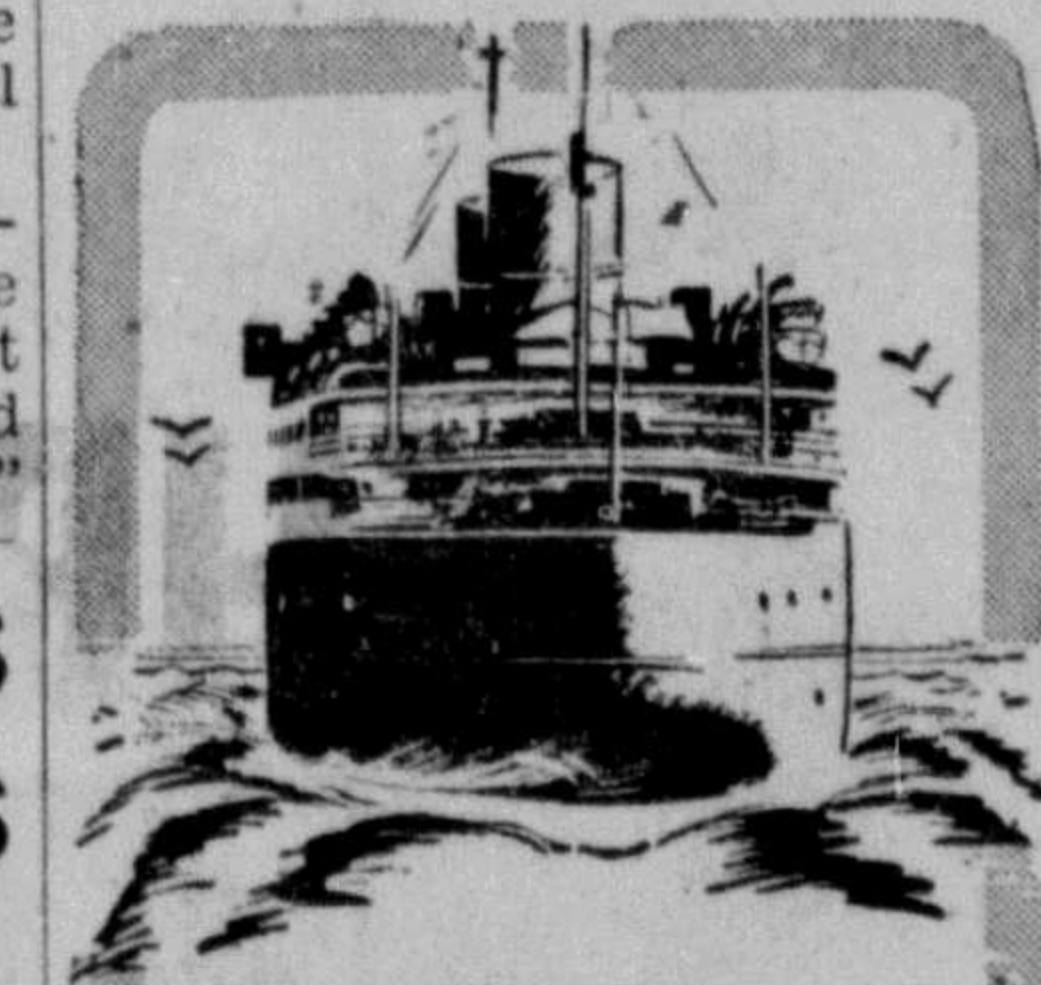

Police said they found about 10,000 lottery tickets in an automobile driven by George Herbert Coward, 50, of Saanich. He was stopped and the car searched when constable George Walton spotted suspicious-looking papers in the back of the car.

Coward, arrested Sunday, was charged in police court Monday with conducting a lottery. He was remanded for a week on \$1,000 bail.

Prosecutor Lloyd G. McKenzie asked the court to set bail at \$5,000 because "indications are that this is an operation of a wide scope."

Police said they found books of tickets for both national and international sweepstakes in Coward's automobile.

An under-water traffic artery between Brooklyn and Manhattan stretches about 9,000 feet.

Importance of Marketing Main Topic It Meet Called by Smithers Chamber

Special to The Daily News
SMITHERS. — Smithers and of farmers from the various District Chamber of Commerce areas of the Bulkley Valley to

FOUR MEMBERS of a Toronto family died in a fire in the city's east end despite heroic efforts at rescue. Fifteen others escaped. Paul Rivney (left) saved four children and his sister from an upstairs rear window. His father John (at right) escaped but Paul's mother, Mrs. Tekla Rivney, 52, a sister, Mrs. Mary Guzza, 33, and two children, Sonya Guzza, 4, and her brother Nicky, 2, were fatally injured.

FATHER TAKES ORDERS FROM SON IN HOME GUARD

DYMCURCH, England ©—It's normal for a son to bark orders at his father here. Walter Roots, Jr., is a sergeant in a home guard unit which includes two brothers and his father, Pte. Walter Roots, 63, who won the DCM for an attack on a German machine-gun in the First World War.

will invite representative groups meet with it Dec. 1. Businessmen of Smithers will also be invited to discuss the increasingly important matter of marketing of the valley's farm produce.

Possibility of the Bulkley Valley planning its production potential to meet demands of the growing outlets of Prince Rupert and Kitimat was discussed at length at the November meeting of the chamber.

It was expressed that co-operation of Prince Rupert merchants would likely be forthcoming as, if and when supply was properly organized to ensure regulated quantities to meet demands at accepted grading and marketing standards.

CONCERNS EVERYONE

It was considered the problem of marketing was not an individual one but one concerning the entire district. The system of peddling as generally practiced was not satisfactory. It was agreed that ungraded, poor products sometimes shipped were harmful to the district as a whole.

It is hoped that the meeting may engender some organized effort toward a market agency.

A request for help to get extension of electric power to a rural area west of Houston was handed over to a committee for action.

B.C. Power Commission is reported to have taken little or no action following several letters from a group of 11 farmers. The 11 outlets are within a distance of 2 1/2 miles with an estimated 1 1/2 miles of sidelines.

They are ready to slash the right-of-way, dig post holes and help erect the poles, and have expressed readiness to pay the expected high minimum rate. Their expressed desire is to bring their poultry, dairy and mixed farms up to date in order to produce the best for marketing.

For action—try Classifieds

MARIE CALVERT demonstrates a neat bundle as she is chosen "Miss Packaging of 1953" at the packaging exhibition which opened in Toronto recently. Representatives of the \$700,000,000 industry attended from across Canada with an attendance of 15,000 business men. The exhibition is the largest non-public trade show in Canada.

Love Comes To Hippo In Bronx Zoo

NEW YORK (AP)—Perhaps love has come at last to Pete, the pint-sized hippopotamus. Even if it doesn't last, it's an ear-tingling, teeth clenching romance right now.

Pete last September spurned a 700-pound girl hippo brought to the Bronx zoo as his potential bride. She was too overwhelming for the 350-pound Pete.

But the zoo kept trying and now has come up with Phoebe, a dainty 315 pounds of hippo femininity.

Reported a zoo spokesman in the breathless tones of a who's-dating-who gossip columnist: "She was formally introduced to baby Pete Monday afternoon and the two of them took to each other instantly. Little Pete demonstrated his affection by chewing on Phoebe's ear and Phoebe stood perfectly still for minutes at a time and let him nuzzle."

In the love language of the hippo, the zoo added, that means they were meant for each other.

However, there are a couple of things that keep the romance from being breathless.

It takes nine years for infant hippos to grow up enough to set up housekeeping and listen for the thunder of tiny feet. And both Pete and Phoebe have about seven more years to go.

Construction of Hospital Wing Expected to Start in Spring

Special to The Daily News
SMITHERS. — Start on construction of a \$150,000 reinforced concrete 30-bed three-floor wing addition to the Bulkley Valley District Hospital is hoped for next spring, according to

Rev. Mother Mary Luca, provincial Superior of the Sisters of St. Ann.

Mother Superior Mary Luca was here last week from Victoria to attend a meeting of the hospital board of management.

Harry Whittaker of Victoria, formerly provincial architect, presented sketch plans of the new wing. The plans were approved in principle and Mr. Whittaker was authorized to complete plans for presentation to provincial and federal authorities for approval.

Some \$70,000 of the cost has been assumed by the Sisters of St. Ann, and \$10,000 raised here in a fund drive sponsored by Bulkley Valley branch No. 53 of the Canadian Legion will go toward this amount.

The province, through the BCHIS, will contribute one-third of the total cost. The federal grant of \$1,000 per bed is expected.

Pakistan To Be Made Republic

KARACHI, Pakistan (Reuters) —The Constituent Assembly has voted to make Pakistan a republic, but left untouched the country's membership in the Commonwealth.

Hindu members, who are in a minority, walked out of the assembly, claiming that undue emphasis was being placed on the Islamic nature of the state.

The decision to establish a republic is not effective immediately, but will be incorporated in the draft constitution. This will in due course be submitted for adoption by Parliament, whose membership is identical with that of the Constituent Assembly.

The assembly voted that the country should be an "Islamic republic." Amendments had been submitted to add the words "outside the Commonwealth," but they were not brought to a vote.

India became a republic after the sub-continent was divided between India and Pakistan in 1947, but remains within the Commonwealth.

Italian Storms Isolate Villages

REGGIO CALABRIA, Italy (AP)—A two-day wind and rain storm that swept across the flood-stricken toe of Italy ended abruptly today, but left three small mountain communities isolated.

For the second time in less than three weeks, rain-filled torrents Monday cut roads and forced many inhabitants to flee. Flooded mountain torrents, fed by tremendous cloudbursts, took 55 lives and wrecked 7,000 homes in the same area Oct. 22.

Packers Urge Curtailment in Alaska Salmon Fishing

SEATTLE (AP)—Fish packers and U.S. Fish and Wildlife Service officials agreed here today that fishing in Alaska's Bristol Bay Sound must be curtailed, if not eliminated, in 1954.

Packers at a Fish and Wildlife Service hearing into Alaska fishing regulations said Bristol Bay Sound is in poor shape after a disastrous season and the fishery is being nursed slowly back into production.

Packers and federal officials are divided on Cook Inlet

fishing. Operators called for liberalization of the regulations which permit two days' fishing a week.

FWS officials said Cook Inlet's salmon yield is good but said a five-day weekly closure is needed to keep modern gear from fishing Cook Inlet out.

FWS regional director Clarence Rhode of Juneau told the hearing:

"Fishing 5½ days a week, the industry used to put up 125,000 cases a season. Now they can put that much up fishing two days a week. And still everybody's going broke on good fishing."

FWS officials indicated that because of a good 1953 catch on the Alaska peninsula and at Kodiak, a longer season may be permitted there. They said Alaska peninsula ground won't be fished quite so long in 1954 as in 1953 because the off-cycle year is coming up. But they said peninsula salmon runs are rebuilding.

Epitaph Must Be Cut To 40 Letters

LEEDS, England (Reuters)

A plain white gravestone in a local cemetery will be pulled up this week so that its simple epitaph can be altered.

The epitaph has 59 letters. But city council decided that 19 letters must be chipped out because Leeds cemetery regulations stipulate that epitaphs should have no more than 40 letters.

Now the relatives of the deceased person, who lies beneath the disputed stone are pondering how to change the epitaph, which reads: "In loving memory of a dear wife and mother. Died 26 July, 1953. Aged 75 years."

Alderman Mrs. Mary Pearce, chairman of the parks and cemetery committee, said the decision was taken because "we are trying to avoid ostentation in the cemetery."

Montreal Labor Unions Launch Fight Against Racial Prejudice, Intolerance

MONTREAL (P)—Labor unions in Montreal have launched a fight against racial prejudice and intolerance.

The fight will be carried on through a school in human relations, sponsored jointly by the Montreal Trades and Labor Council and the Montreal Labor Council.

Jacques V. Morin, director of the school, said one of the aims will be to provide scientific information on race and other questions in a manner easily understandable for the average worker. The latest adult education techniques will be used and lectures will be followed by forums and films.

Publications of the United Nations on race relations will be made available.

Claude Jodoin, president of the Montreal Trades and Labor Council, said the opening of the school was a big step forward in the accomplishment of organized labor's undertaking "to improve inter-group relations not only

Whale Tooth Shortage Hits U.K. Colony in South Pacific

SUVA, Fiji (CP)—Fijian officials by scouring the world for supplies have managed to ease the gravest shortage facing this South Pacific British colony. They have augmented the depleted supply of whale's teeth.

One official, in Britain for the Coronation, had a great windfall. A Scottish firm offered to sell several hundred whale's teeth. The offer was eagerly accepted.

Another Fijian official on a visit to New Zealand patiently searched museums and other collections for spare supplies. He returned with 33 whale's teeth.

The teeth are highly treasured in Fiji because they play an essential part in traditional ceremonies and customs, especially those connected with birth, marriage and death. Once they were used also as currency.

Down the years visitors have bought many as souvenirs, especially during the war when American servicemen bought so many that the supply was gravely depleted. It has not been possible to obtain sufficient from natural sources to replenish stocks.

This caused serious difficulties to the natives in carrying out their traditional ceremonies. Even with the new supplies there is still a shortage.

For the last five years export of whale's teeth without a permit has been prohibited. Now a total ban on export has been imposed, with one exception. This is the whale's tooth, the finest to be found in the islands, which will be presented to the Queen on her visit at the end of the year.

BLACKWOOD on BRIDGE

By EASLEY BLACKWOOD

Don't Sneer at Low Cards;
Length Makes Strength

Mr. Meek shuddered when he looked at his nine spot high hand and heard Miss Brash open the bidding with three no trump. He trembled a little and dropped several cards on the floor as he laid down the dummy hand.

But Miss Brash showed no disappointment in his cards and even smiled when she got a spade lead. She took Mr. Heinsite's queen with the king and paused to survey her prospects.

"Getting into your hand poses a slight problem, partner," she admitted. Mr. Meek winced at such blatant optimism. But Miss Brash was quite serious. In fact, she found the entry she was looking for.

At trick two she laid down the ace of diamonds and noticed with interest the fall of the 10 from Mr. Abel's hand. She followed with the nine of diamonds and, as hoped, the king dropped.

She won the 10 of spades return with the jack and cashed the queen of diamonds, felling Mr. Heinsite's jack. Here Mr. Abel discarded the six of clubs.

Next came the five of diamonds to dummy's six and Mr. Abel discarded a heart. Mr. Heinsite let go a small club. A heart was returned from the board and the jack finessed. The ace of hearts dropped the king and the queen was cashed.

Now Miss Brash played her ace of spades and put Mr. Abel in with another spade lead. At this point Mr. Abel had nothing left but the ace and queen of clubs and Miss Brash was bound to make her king for an over-trick.

"You're my favorite partner, Mr. Meek," said Miss Brash. "You always manage to hold just what I need."

Dazedly, Mr. Meek realized she was talking about his six of diamonds.

India produced a total of 3,169,000,000 coconuts during the 1951-52 season.

Tighter Dumping Law Seen

OTTAWA (CP)—Canada probably will tighten her dumping laws as a prelude to the signing of a new trade agreement lowering import trade tariffs on Japanese goods.

The Japanese trade past likely will be ready for signing within the next few months.

Concern is growing among industries that lowering of the tariff wall may invite a return to conditions of the 1930s when Japanese goods flooded the Canadian market and forced some Canadian manufacturers out of business.

Tightening of the dumping regulations may be the government's answer to the industries' fears. Dumping regulations in all countries are designed to protect domestic industry. Under them the government can boost tariffs above the normal level if an article is imported bearing a price below what is considered its "fair market value."

SENSATIONAL NEW "INSTANT" STARTS BREAKFAST VOGUE FOR "CUSTOM-MADE" COFFEE

Marvellous 100% Real Coffee Made
"Strong, Medium or Mild"
Right in the Cup

At breakfast you could always get your toast light or dark—your bacon medium or well-done—your eggs 2, 3 or 4-minute boiled. But your coffee? Well, you just got coffee!

The coffee might be too strong for you—it tasted bitter. Or too mild for you—it tasted weak. But if you were in the minority—too bad! After all, one pot of coffee can't satisfy everybody's taste.

But then came the revolution—the "Coffee Revolution"! Now the most forgotten "little man" can get just the cup of coffee he likes! (No matter if the mother-in-law can't stand such strong coffee. Or if Cousin Joe from New Jeh-sey demands it "blacker than your hat!")

Seriously, though, it's the women who make the coffee who brought on the revolution! It was they who

discovered the wonderful new Instant Chase & Sanborn, and started serving it for breakfast.

First of all, here's 100% real coffee that really tastes like it. Chase & Sanborn scientists saw to that! They took on the job of producing an "instant" worthy of Chase & Sanborn's 100-year-old coffee reputation. They never relaxed till they had succeeded in extracting from the finest coffee beans the color and texture—the rich robust flavor and aroma of freshly ground coffee.

Next, housewives decided that this definitely superior "instant" plainly belongs whenever and wherever coffee is served. And then, everybody caught on to the other important benefit. Cups of Instant Chase & Sanborn can be "custom-made" to each person's taste. Good-bye to the old one-pot handicap!

Now it's "How do you like your COFFEE?"

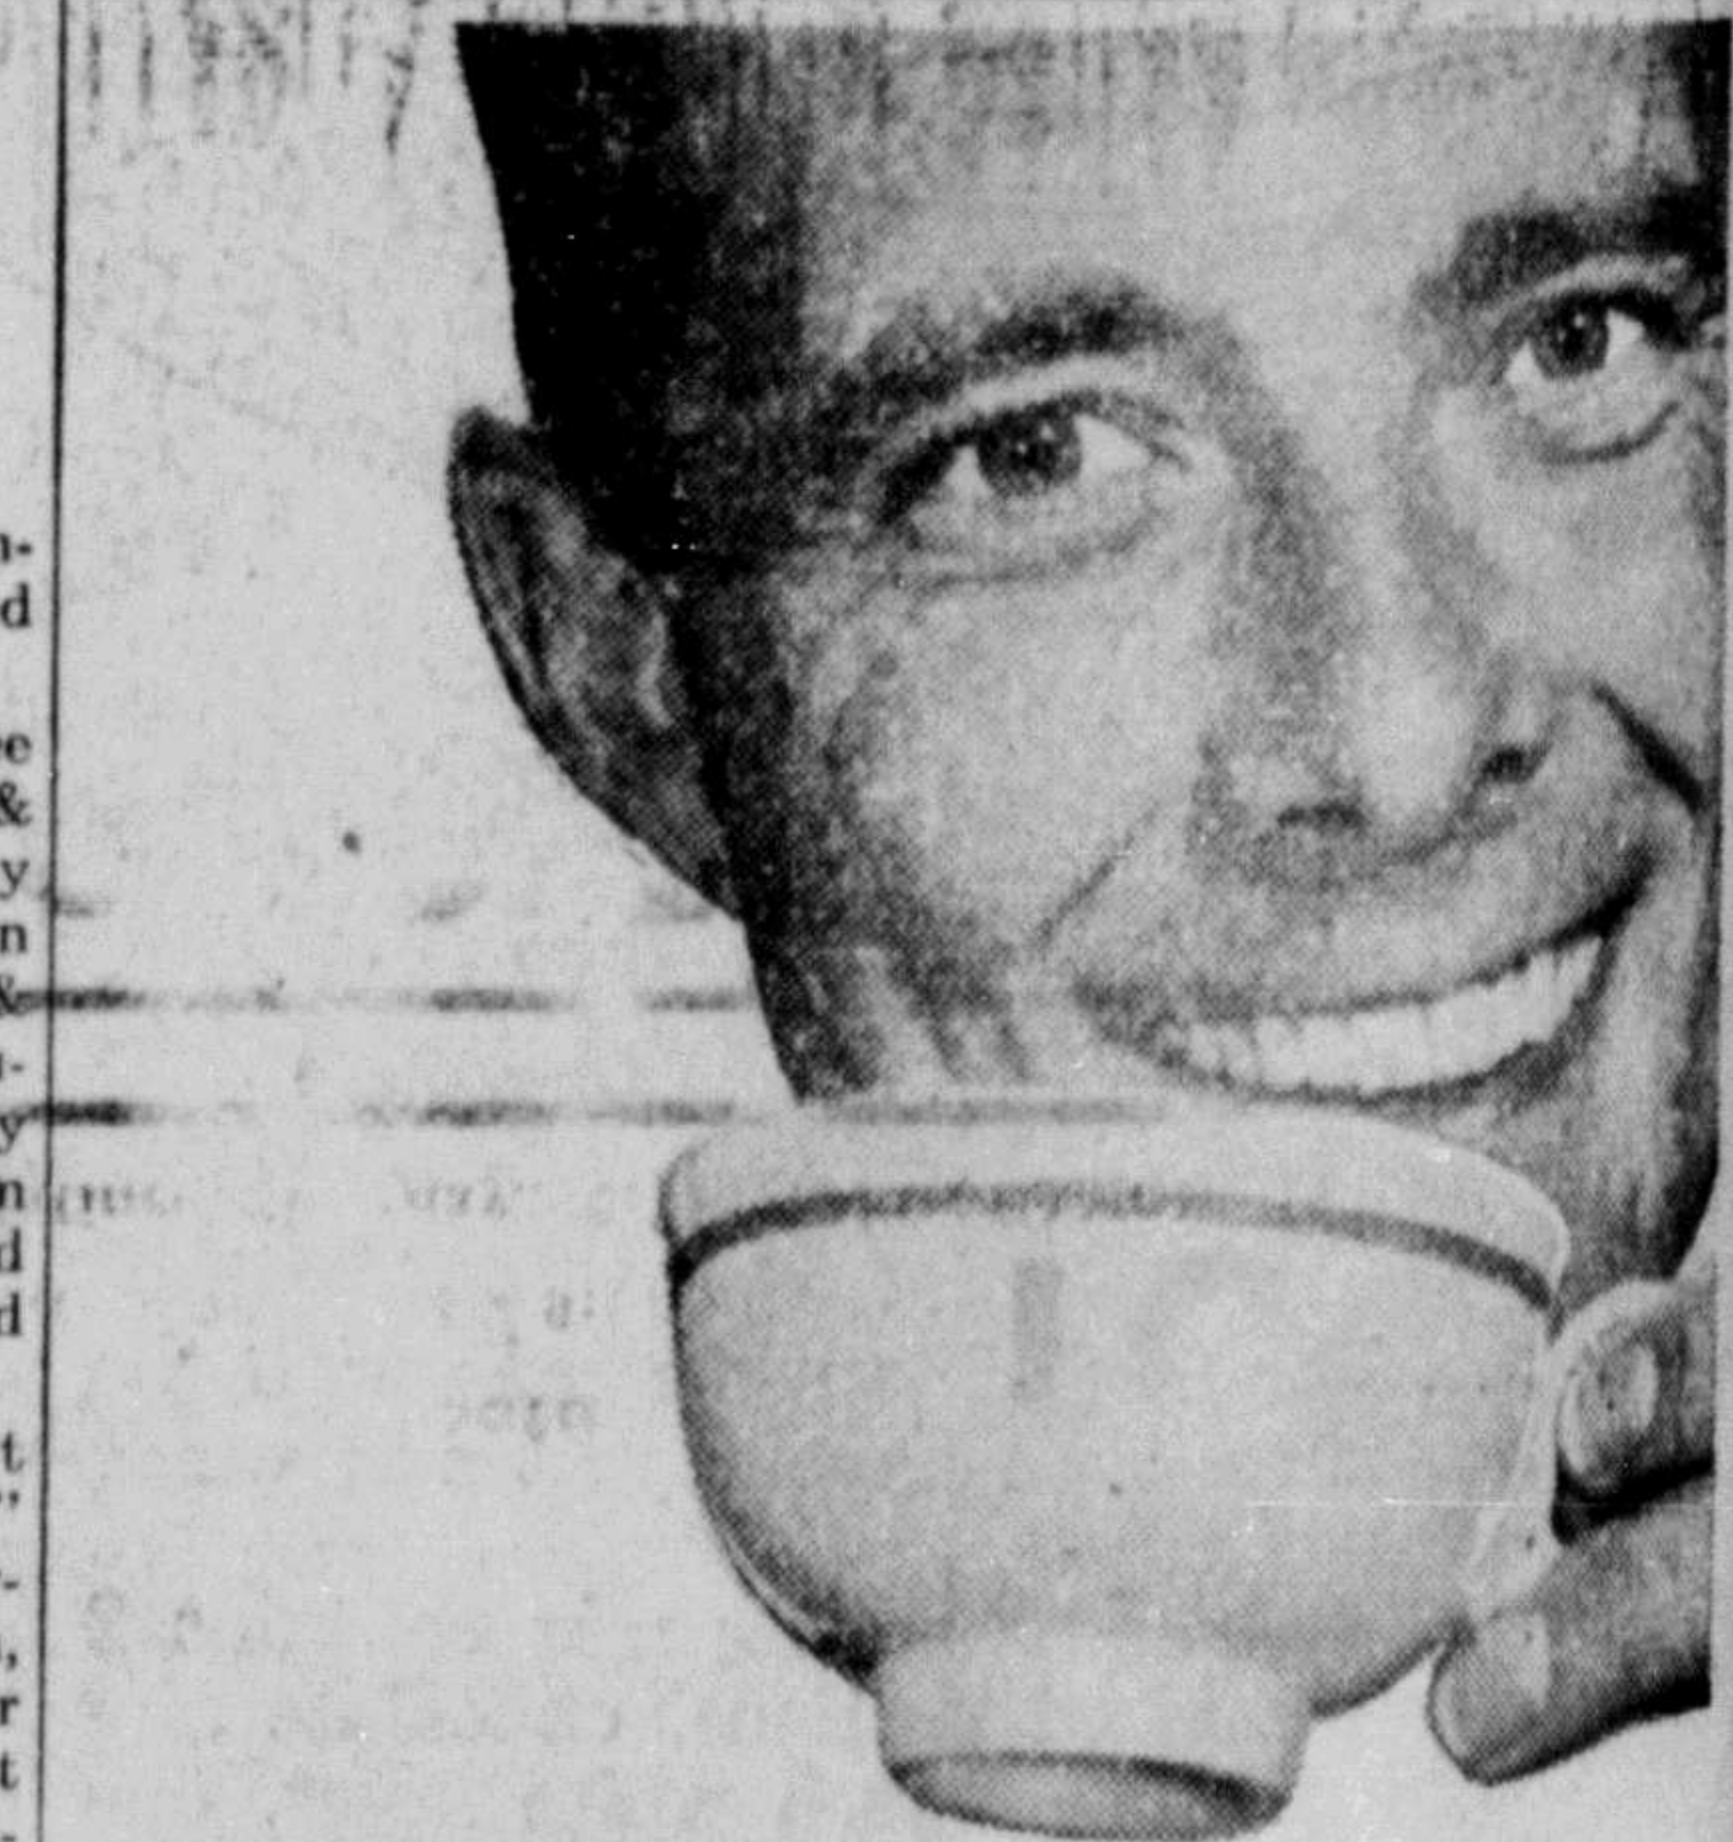

Made just the right strength for each individual taste, "custom-made" cups of new Instant Chase & Sanborn are fast becoming a breakfast vogue among Canadian families.

Farewell to Grounds

For the housewife, Instant Chase & Sanborn means the end of that doleful after-meal chore of scouring a stained coffee pot and disposing of coffee grounds. Here is the modern, dainty, trouble-free way of serving fine coffee.

Big Savings, Too

Budgeteers are excited about the savings on Instant Chase & Sanborn too. The regular size jar makes about the same number of cups as a pound of regular ground coffee. Yet it sells up to 40¢ less than a pound of regular coffee.

THIS REALLY IS MY COFFEE!

New Instant Chase & Sanborn is 100% real coffee—and tastes like it. Rousing, rich-flavored coffee—ready with its magical lift the moment you add the hot water.

It's your kind of coffee—made by people with nearly 100 years of coffee experience.

One sip and you'll agree—it's so good you'll make it your regular coffee!

Now!..the Flavor and Aroma of Freshly Ground Coffee Instantly!
