International Car Smuggling Ring Smashed

British Columbian Sought Murder of French Judge

France — Police Wednesday night hunted Lorne Canadian from British Columbia, for questioning connection with the murder in this city, last Sunday of Judge, Bernard Rosselin.

Rutherford is believed to have visited the judge at his home, 1110-12th Avenue, last Sunday.

Rutherford was found trussed to a table, by the leg in his head battered in with a bottle.

Expanding at Pt. Alberni

VANCOUVER.—Announcement is made by B. M. Hoffmeister, president of McMillan & Bloedel, of a \$1,500,000 expansion program in sawmilling operations at Port Alberni.

The company's big mill at Great Central is to be closed. Some 2700 men will be employed.

How Neutral Is Russia?

TOKYO (AP)—How neutral is Russia in the Korean war?

A hitherto-secret report in Gen. Matthew B. Ridgway's headquarters asserts:

"The main source of supply for present Chinese Communist forces... is from Soviet-furnished material."

Although the United Nations' Command never has announced the capture of a Russian soldier, practically all equipment in use by the North Korean army and the Chinese Communist forces is Russian-made.

So, too, is the swift jet interceptor plane, the MIG-15, which patrols northwest Korea from Manchurian bases.

A staff officer at Gen. Ridgway's headquarters today made available the report, containing a list of captured guns, vehicles and other war machinery which it says the Russians have turned over to the North Korean and Chinese Communist armies.

Communist staff officers drafting truce-supervision terms nominated Russia as a neutral observer.

"With the exception of a small amount of Japanese material left over from the Japanese occupation of Korea and Manchuria and materials captured from UN forces in Korea, the North Korean army has been entirely equipped and re-equipped with Soviet material," his report said.

"This Soviet-furnished material... has included tanks, self-propelled armored artillery, trucks, artillery, anti-aircraft guns, machine-guns and various types of small arms. While some part of this ordnance has been manufactured in North Korea proper, the vast majority has come from either Russia or her satellite countries."

"All of the ordnance material listed herein has been captured and positively identified in Korea during present hostilities."

Ismay Post

OTTAWA.—The Minister of External Affairs, Hon. L. B. Pearson, Wednesday night officially announced the appointment of Lord Ismay as secretary-general of the North Atlantic Treaty Organization.

The announcement came in the wake of the North Atlantic Treaty Organization's annual conference in London, which closed Wednesday.

Pearson said the appointment of Lord Ismay, who has been secretary-general of the British Commonwealth since 1946, was a reflection of his willingness to take on the post.

Low Riots Football

GLASGOW (CP)—Hi-ho and it's a riot in Glasgow again. A mob of 20,000 battled an entire city police force in a street fracas outside the stadium for the great season—international football between England and Scotland. A mile long file of some of whom had been in the Glasgow riot broke ranks and approached for the open and mobbed the gates at famed Parkhead.

Hundreds went to the riot and were fined for inciting the riot.

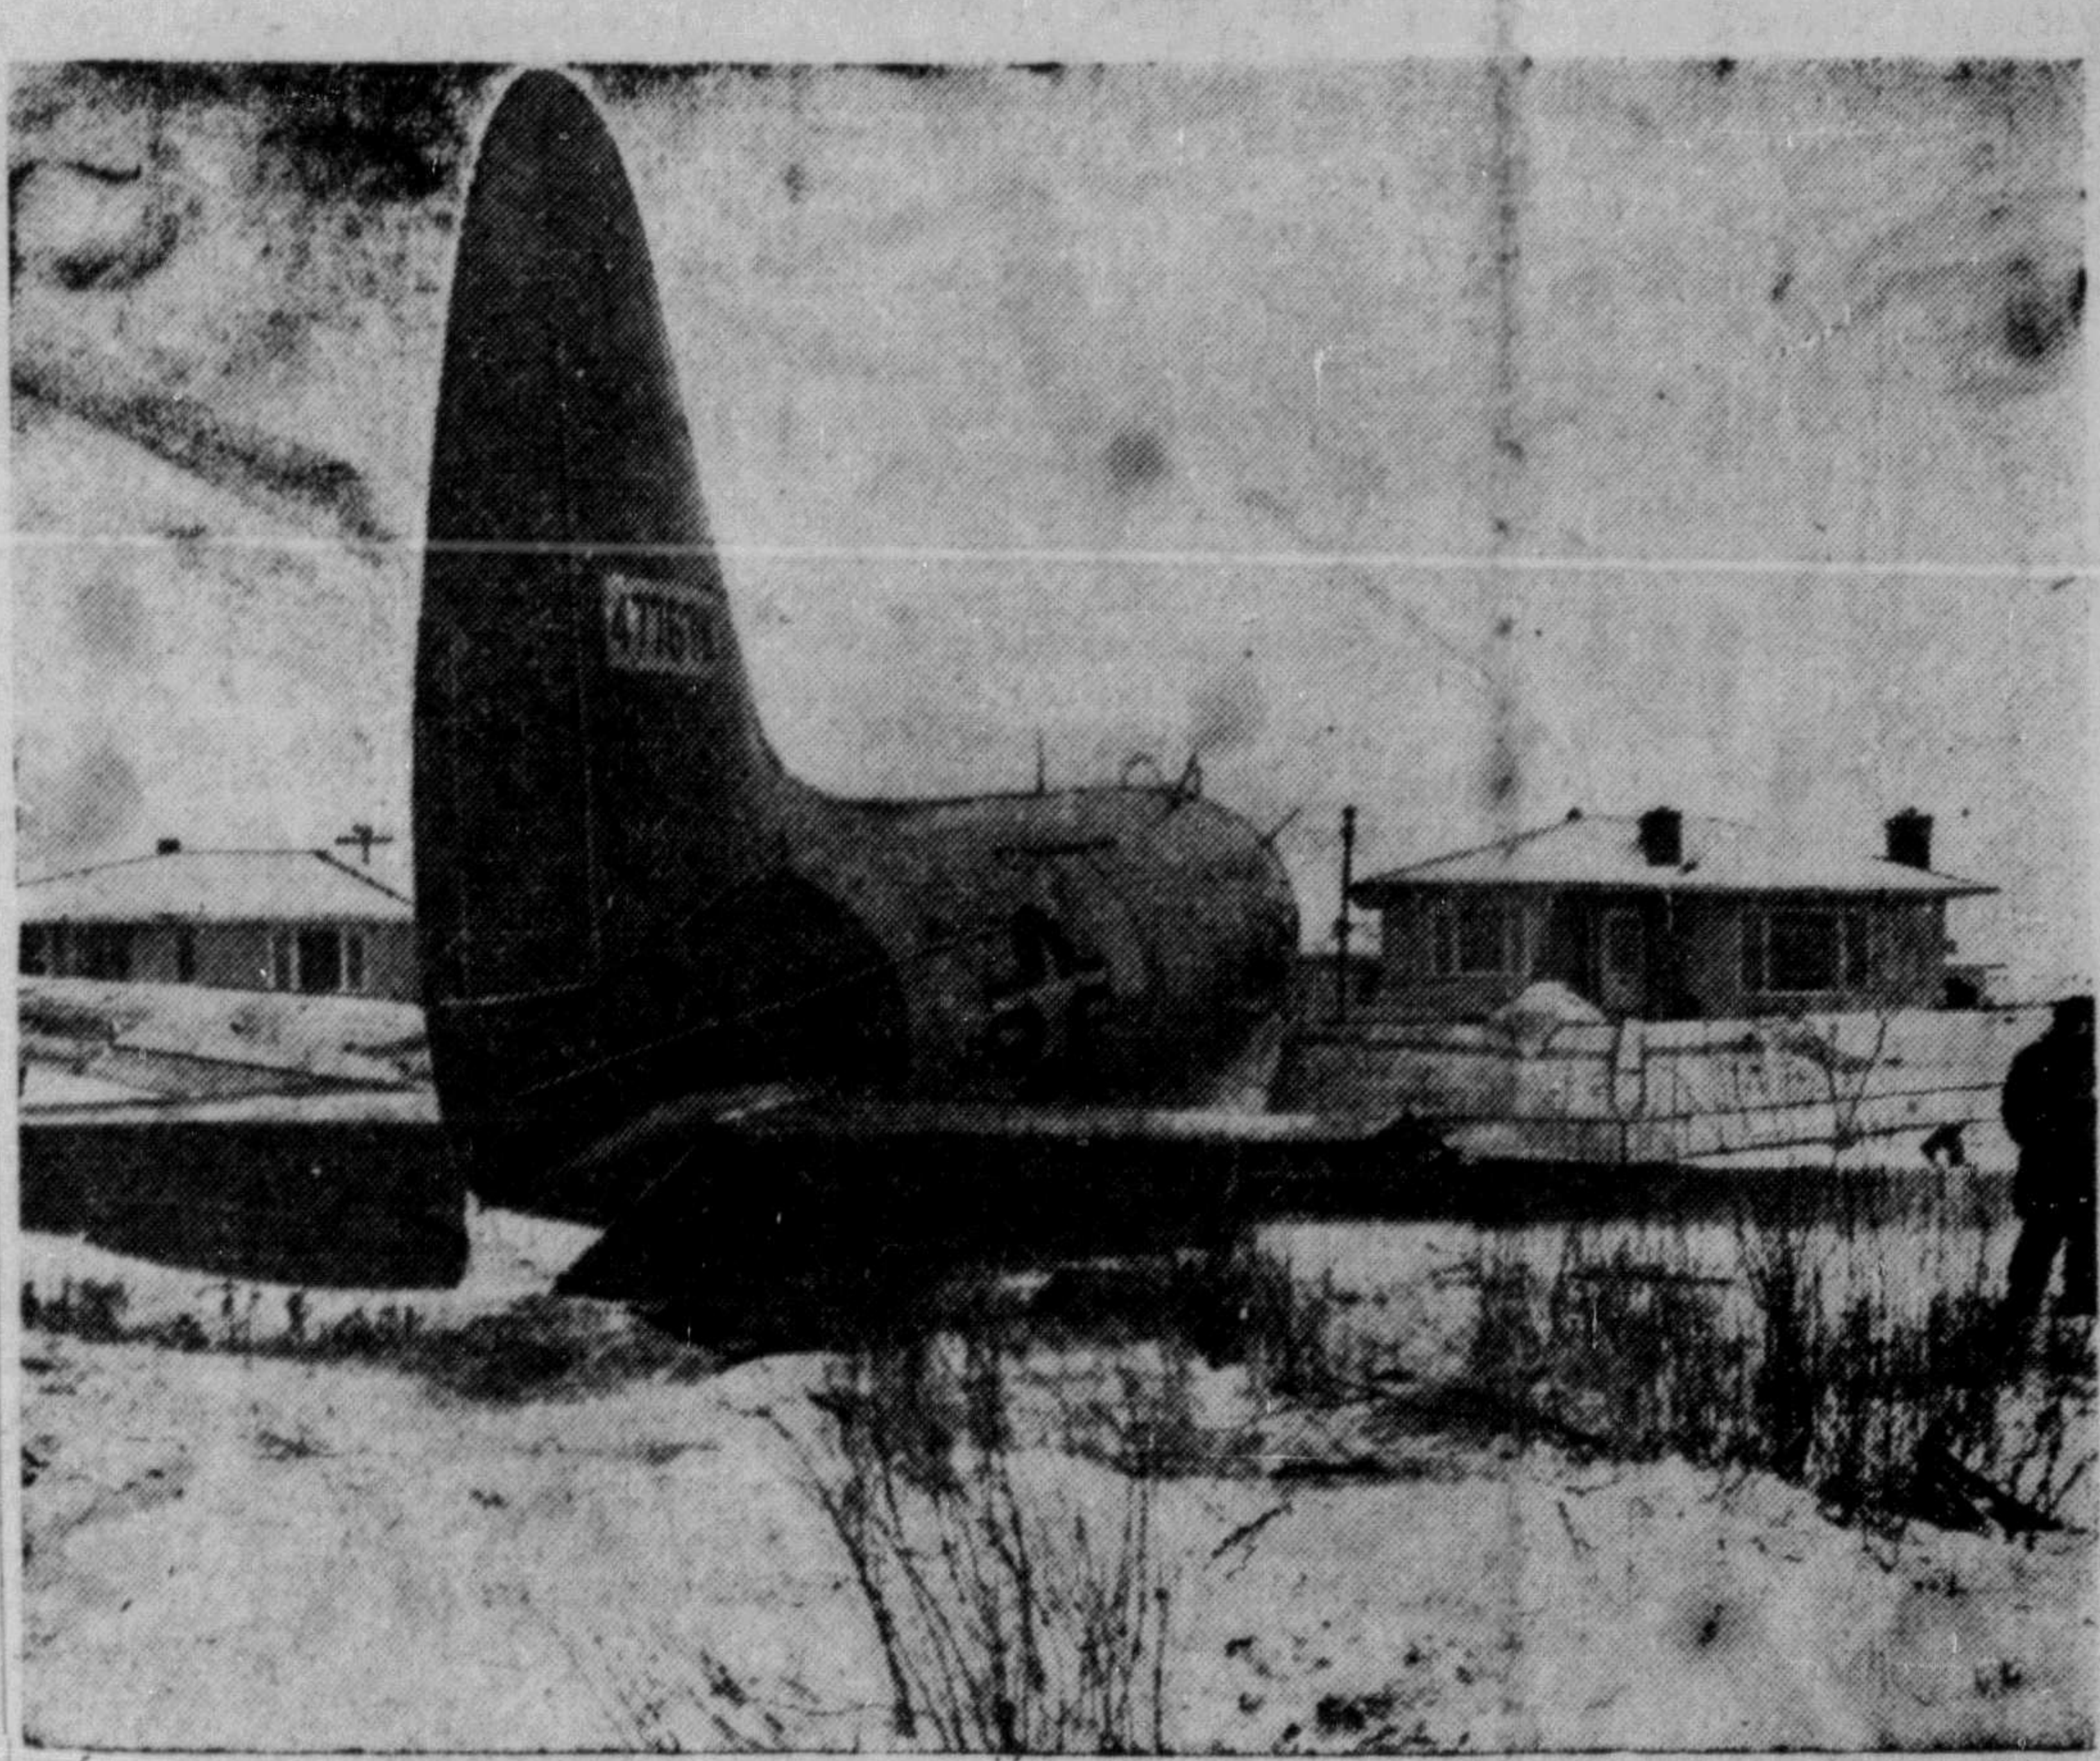

Charges Probed

OTTAWA.—The International Cross Committee said Wednesday it has agreed to investigate charges that the United Nations are waging a propaganda campaign against Communism in Korea.

The committee, secretary of the United Nations, is asking the United States, the Soviet Union and the United Kingdom to investigate.

LAIES ON STREET—This United States Air Force transport plane crashed on an Edmonton street within 75 feet of a row of houses just south of the Municipal Airport. The plane crashed soon after taking off on a flight to the far North. It skidded 800 feet across a snow-covered open area to a safe belly-landing. None of the five crew members was hurt. The plane was understood bound for a project of the Eldorado Mining and Refining Ltd., the government-owned corporation which has charge of uranium development in the north, with a load of reinforcing steel. Rangers Swamp Black Hawks by 10-2 Count

NEW YORK (CP)—Little Wally Hergesheimer scored three goals Wednesday night as New York Rangers walloped Chicago Black Hawks 10-2. It was the highest goal count made by one team in the National Hockey League game this season.

Coalitionist Disappointed

VICTORIA — H. J. Welch, Coalition member for Comox, said Wednesday he is shocked and disappointed the provincial government is not going to extend the Pacific Great Eastern Railway from Squamish to Vancouver.

Mr. Welch is one of three straight Coalitionists left in what still calls itself the Coalition government. He demonstrated his independence in the legislature by rapping the government policy on a dozen different items.

One of Welch's chief targets was Premier Byron Johnson's announced plan to build the Squamish-Vancouver highway instead of extending the rail line.

Mr. Welch contended that, if the highway is built on the proposed route, at least nine miles of it will run on the only feasible route for a rail line if it is to be completed in the future.

A rail link is needed, he said, to turn the debt-laden PGE into a "popular, well-paying railroad into the north."

CCF To Name Candidate

CCF nominating convention for the provincial riding of Prince Rupert was set for April 4 at a meeting of the local club on Tuesday night.

Candidate of the CCF in the last provincial election was W. H. Brett, former MLA and now president of the local club.

Under the CCF plan of nomination, it is required that the local choice must be checked by the provincial central executive as to eligibility.

RCMP And FBI Co-operate In Breaking up Conspiracy

MONTREAL.—Royal Canadian Mounted Police have broken up what they say is the largest international car smuggling ring in the history of Canada and the United States. Five men have been arrested and numerous cars seized. Seventy-five charges have been laid.

Police Take Desperado

Another Arrest in Montreal After Toronto Robbery And Police Shooting

MONTREAL — Leonard Jackson, second of a wanted trio of desperadoes, surrendered last night after a furious battle of blazing guns and tear gas bombs.

His pal, Steve Suchan, fell under withering police fire Friday night in an expensive apartment several blocks away.

Tear gas finally ended an exchange of more than 500 bullets. Jackson and a woman, who said she was his wife, staggered half-blinded from their basement apartment and surrendered.

Edward Alonzo Boyd is the last of the Toronto trio who have been sought since a \$24,000 bank hold-up last Tuesday in Toronto.

Jackson and Suchan are wanted on attempted murder charges, in the wounding of two Toronto policemen who were about to arrest them.

No police were injured in last night's battle. Neither was a 24-year-old woman who came reeling into the one-room apartment where the police found machine guns and hundreds of rounds of ammunition.

Jackson was taken to hospital with bullet wounds in his stomach and arms.

The girl was identified as Ann Roberts of Toronto.

Cougar Attacks Island Woman

VICTORIA — A government hunter was ordered Wednesday night to proceed to a lonely Vancouver Island logging settlement after sketchy wireless reports told of a woman being attacked by a cougar.

Word of the encounter, radioed to the Royal Canadian Mounted Police, said the animal tried to attack the woman Wednesday afternoon but that she was not harmed.

Details of the escape of the woman, who has been identified as Mrs. Carl Hanson, have not been made known. She lives at a logging camp on Holberg Inlet near the northern tip of Vancouver Island.

Fishermen vs Farmers

NEW BRUNSWICK M.P. Takes Up Cudgels For Toilers of Deep

OTTAWA — A. Wesley Stuart, Liberal, Charlotte on Wednesday asked the government in the House of Commons to give fishermen the same treatment by way of subsidies and assistance that it gives farmers.

He could not understand why "every single branch of agricultural industry requires this assistance while the fishing industry continues to be ignored."

It cannot continue indefinitely that one primary producer is singled out for special consideration while another is ignored.

The farm industry had received aid for cheese, lumber, feed, shipments, livestock, wool, fruit, apples, berries, petroleum, vegetables, potatoes, fertilizers, seeds, weed reduction and a host of other things.

Fishermen had never gone looking for a "handout" and had received little or no help. Yet this year they have faced severe storms which had ruined their equipment. Their credit was exhausted and their outlook was bleak.

Fishermen had had maladies as serious as foot and mouth disease which had struck Saskatchewan—for which recompense is being paid—but they had been given no aid.

Big Red Assault Stopped

SEOUL (CP)—American and Turkish troops stopped a Red assault battalion in its tracks Wednesday night in the heaviest Communist attack in a month. The United States 25th Division said 200 of the 750 attacking Reds were killed or wounded.

The Communists struck behind a heavy artillery barrage against the US 35th Regiment and Turkish brigade in the eastern mountains, near Heartbreak Ridge.

A curtain of Allied artillery and mortar fire halted the Reds 100 yards short of the United Nations line.

Widow of Coast Canneryman Dies

A report from Vancouver tells of the recent death of Margaret, widow of Charles R. Draney, for many years a pioneer cannery manager in northern British Columbia. He was long identified with the Kimsquit plant.

Minister Hints Early Relief of Ban on Meat

VICTORIA — The Minister of Agriculture, Hon. Harry Bowman, announced in the Legislature Wednesday that British Columbia may be able to ease her ban on livestock from the prairies within a few days. He said some cattle may soon be allowed to enter this province on a permit basis.

Cattle would be inspected and would be imported under bond.

British Columbia's border has been closed to the importation of livestock and meat for two weeks because of the fear of foot and mouth disease being transmitted from infected areas in Saskatchewan.

Mr. Bowman said that for a few days, or until the border ban is relaxed, B.C. may be short of meat.

British Columbia and Alberta, agricultural department officials are expected to confer soon on the situation.

Mr. Bowman said permits may soon be granted for the bringing in of some cattle from Alberta.

Killed in Crash Near Alert Bay

ALERT BAY — A tree-top crash of a light plane 25 miles north of this Vancouver Island village took the life of the pilot and critically injured the sole passenger yesterday.

Raymond Bernier was killed when the plane crashed into treetops while attempting to land on the bay near a logging camp.

Roy Bernier, 25, the pilot's brother, suffered burns and head injuries as well as broken leg and arm. He was brought to hospital here Wednesday by taxi eleven hours after the crash.

The float-equipped Cessna aircraft, owned by Raymond Bernier, is believed to have been from Powell River.

Superforts Crash and Fifteen Die

SAN ANTONIO, Texas — Two B29 Superforts brushed together while flying blind on instruments Wednesday and carried fifteen members of the crew to their deaths in rugged hill country of south central Texas.

One plane struck the earth and disintegrated, scattering fragments and bodies over a five-acre area.

The other plunged to earth several miles away and exploded and burned.

Cambrai Chapter Holds Birthday

In celebration of the twenty-fifth anniversary of Cambrai Chapter, Imperial Order Daughters of the Empire, eighteen members gathered at Club 27 on Tuesday for a dinner party after which a short meeting and social hour was held at the home of Mrs. C. G. Ham, Fourth Avenue West.

Two new members were welcomed into the Chapter and, among other business, it was decided to donate \$5 toward the Boy Scout Association of Prince Rupert.

KIDDERMINSTER, England (CP)—Among new arrivals at an army recruiting office here were two pythons and a crocodile. They were imported from West Africa to be shown at Lectures designed to rid soldiers of the fear of reptiles.

Mrs. Henry Smith, who has been revisiting the city, calls by the Prince George tonight on her return to Port Alberni where she now resides.

Endangered by Cattle Malady

United States Fighting Foot and Mouth Disease

By OVID A. MARTIN

WASHINGTON (AP) — The United States' \$19,000,000,000 livestock industry stands in greater danger from the world's worst animal malady—foot-and-mouth disease—than at any time since 1914.

A recent outbreak of the disease in Canada has virtually made the U.S. an island in a world dotted with areas of infection. The Mexican and U.S. governments are engaged in a joint effort to eradicate the disease in Mexico, where it bobbed up in 1947.

The disease is raging in Europe, many sections of Asia and in Venezuela and Columbia in South America.

Agriculture department officials say it will be a minor miracle if the U.S. escapes an outbreak this year. They say there has been an opportunity for the virus to be brought into the U.S. from the affected area in Canada.

They say that should it get out of control, supplies of meat, milk, leather, wool and medicinal products of animal origin might be reduced by 25 per cent. An epidemic, they say, could cost farmers upward of \$5,000,000,000 a year.

Consumers would feel the effect in reduced supplies and higher prices.

The department is trying to keep the disease from invading the U.S. by maintaining a ban against importation of cattle, sheep, goats, other ruminants and swine from areas where the disease is known to exist. The ban applies to all animals, both domesticated and wild, with the cloven foot.

It also applies to animal by-products, such as fresh, chilled or frozen meats, hides, skins, bones, wool, bonemeal. Likewise, importation of hay and straw from infected areas is prohibited.

The U.S. has had nine outbreaks of the disease, the last being in 1929. The most serious was in 1914, when the disease spread to 22 states.

The disease is caused by a virus of which there now are six distinct types. Foot-and-mouth disease spreads rapidly. The disease takes its name from visible symptoms—blisters appear on the tongue and about the mouth, on the skin above the hoof-line, on the skin between the toes, on teats and udders, and on the snouts of swine.

In most European countries the disease has gained such a foothold that it has probably become a permanent infection. Realizing that as long as the disease existed in Mexico American herds were menaced, the U.S. government has been co-operating with the Mexican government in an effort to stamp

LETTERBOX

SAFEGUARDING CANADA

Editor, Daily News.

Much is being said and written regarding the huge industrial projects that are being developed within the province. It behooves Canada as a nation not to become dazzled by all the new vistas of temptation such as our newfound wealth of various vital and very essential commodities that have been found abroad in the land.

Canada as she reaches onward and upward toward supremacy go the way of all flesh? We hope not, therefore, we should be humble in our actions and speech and in sober thinking dwell on the mighty responsibilities both moral and secular that will surely come. If we have learned anything from history we all should pray wholeheartedly and often that Canada be guided aright in order that her greatness may not be short lived as has been the fate of so many nations in the past.

Power spells unrighteousness. The infirmities of human nature are always with us. May we not lose sight of these basic truths and safeguard while we may not only the present generation but for generations yet unborn with God being our guiding spirit.

SUBSCRIBER.

Burns Lake.

CASEY RECONSIDERS

Editor, Daily News:

It now appears that the city council erred Monday night in refusing to vote \$100 in recognition of the Golden Gloves victory won by our local boys in the recent tournament in Vancouver.

Therefore, as one of the offenders, I am prepared to move for reconsideration of the question at the first council meeting.

But, Mr. Editor, may I point out that the city council is not the property of Mayor Whalen, nor of his creation. Therefore, it should not be referred to in your paper as Whalen's Council.

GEORGE B. CASEY.

out an outbreak that first occurred in 1947. The U.S. has spent \$122,000,000 of its own funds on this campaign.

No case of the disease has appeared in Mexico since last August.

Concern over the possibility of an outbreak in the U.S. has been deepened by the fact that the first occurrence of the disease in Canada was early last December. It was not finally diagnosed as foot-and-mouth disease until late in February.

In the meantime, there has been much movement of livestock from the affected area in Canada to the United States. The time of greatest danger will be in the spring, after the ground thaws.

THE EXPERTS Say...

By KAY REX

Canadian Press Staff Writer

THRIFT CAMPAIGN—A Thrift Campaign, says Mrs. Hugh Summers of Fonthill, Ont., is a "valuable instrument" to cut down the cost of living. But like all good things "it can be overdone."

Mrs. Summers is president of the 55-year-old Federated Women's Institutes of Canada which speak for women in farming communities from coast to coast.

"Where consumers refuse to buy the goods on the market, stocks pile up so that manufacturing plants are forced to cut their staffs," Mrs. Summers told the Canadian Press. "Almost before we know it we are in a depression."

Careful buying and a home freezer are Mrs. Summers' weapons against high food costs. She finds a freezer particularly valuable on a farm.

"To me this seems the ideal method for farm folk to provide their families with a fine variety of fresh food," she said.

On the Summers farm the freezer is filled with pork, beef, lamb and chickens. Fruit is brought when it is plentiful and at its best. Both time and sugar are saved by freezing fresh fruit instead of canning it.

NEAR FISHING PORTS

Fonthill is a farming community in the Niagara peninsula, not more than 30 miles from some of the chief fishing centres of Lake Erie. Mrs. Summers has taken full advantage of this location. She recalled a day last fall when the family drove to the lake and bought 25 pounds of fresh pickerel. This immediately was cached in the freezer.

"We calculated our fish dinners cost us just one half what they would cost if we bought the fish in a store," she said.

A farm is one place where it's

FOR LENT
A TASTY
MEAT
SUBSTITUTE

Libby's Spaghetti will give a lift to drab meatless menus during Lent. It's Libby's tangy sauce that makes the difference. Made with nippy old cheddar cheese processed exclusively for Libby's by the world's largest cheesemaker. Blended with pure gentle-press tomato sauce and rare imported spices. A Lenten treat the whole family will enjoy—and costs less than 5¢ a serving. Ready in a jiffy—just heat and serve.

Withdraw Stand by Firemen

Conciliation Officer Asked In Dispute With City

Voluntary recall of off-shift firemen in case of serious outbreaks or another alarm, will cease immediately. This latest move, and application for conciliation officer, was made by Prince Rupert Firefighters' Association yesterday in an attempt to force settlement of negotiations.

Union spokesmen said, after special meeting yesterday, that the city had flatly refused two terms of a proposed agreement "even though we have pared our requests to the bone."

Firefighters will accept a \$30 a month across-the-board increase—about 11.1 percent—if the city agrees to put into effect this year a higher benefit pension plan and if it agrees to extra pay for senior men, the two points refused.

Union demand is adoption of the "Crumb Report"—awarded to Vancouver firemen two years ago—in which the city increases a four percent of total wage contribution by 2½ percent, and firemen increase their contribution from four percent to a minimum of 6 percent.

Second request is for \$15 a month higher pay for four senior firemen as captains. This request already had been agreed to by the wage committee, firemen had been informed by letter.

A second letter yesterday gave a reversal of this decision.

The union spokesmen said they were "very reluctant" to take such measures as refusing further voluntary co-operation. Heretofore, off-shift firemen have voluntarily come in to the fire hall at the sounding of each alarm to stand by in case they were needed and to protect the hall when no one is there.

AGAINST LAW
"Actually, this is against the law," The Fire Department Hours of Labor Act and the Fire Department Two Platoon Act provides that off-shift men can only be recalled in case of a conflagration. If we are recalled on matters of less importance the city is liable to a \$100 fine. "From now on we are going according to the letter of the law," stated the firemen yesterday.

Three men and the fire chief are on duty on a shift, while seven men are off-shift.

Meanwhile, application also has been made for a conciliation officer.

"The superannuation plan we request was recommended by an arbitration board last year. The last three years we have had to arbitrate with the city in order

Parks And Playgrounds

Gyro Club and Board Plan Year's Program

Gyro Club playground committee and city parks board have reached a cordial basis of co-operation for improvement and operation this year of parks and playgrounds in which they are jointly interested.

Reporting to the Gyro Club last night on behalf of the playground committee, W. D. Lambie announced that the parks board will

Repair, paint and install playground equipment and dismantle it at the end of the season.

Erect seats or benches and sow grass seed around the swimming pool.

Look after the cutting of grass in all parks.

The Gyro Club will

Supply necessary matting for a walk around the swimming

pool.

Install a new spring board at the swimming pool.

Place additional equipment in McClymont Park which is becoming the principal playground centre of the whole city.

Plan for a new bathhouse at McClymont Park.

Supervision of playgrounds is now arranged between the Civic Centre Association and the Parks Board.

The matter of a new playground in the Sixth Avenue East area east of Hays Creek has been discussed but decision deferred pending more definite estimates as to cost of the project.

The future of the playground in Alder Park on Fraser Street has also been under discussion, suggestions having been made that the equipment might be removed therefrom, because of lack of patronage, and moved to another location where it would be used to fuller advantage.

Gyros Plan Active Year

Various Projects
To Be Held In Support
Of Playground Work

To add in the financing of its children's playground activities during the current year, the Prince Rupert Gyro Club, at its monthly business meeting last night, considered a number of money-raising undertakings. It was definitely decided to proceed with a spring carnival at a date soon after Easter. Other proposals are a cruise if a vessel can be obtained, a Gay Nineties show and a pre-Christmas turkey shoot. There will also be the usual tag day and apple day.

The club decided to assist the Red Cross in connection with its one-night drive for funds next Tuesday and Don Forward was named organizer of the club's canvassing teams.

The club had a message from former local member, W. M. Watts, now a member of the Nanaimo Club, who reported attending the installation of officers at the Island City. The club decided to send a letter of congratulations to local officers who made such a splendid showing in the recent Golden Gloves tournament in Vancouver.

Last night's Gyro dinner took place in the Savoy Hotel and President Marc Gormely was in the chair.

A new member was welcomed in the person of George Cook. Following the dinner meeting, Gyros continued the get-together at the Prince Rupert Club.

Convicted in Street Attack

Herbert Hunter, second man charged with assault occasioning bodily harm to J. H. Shriaberg, city business man in a recent downtown incident, was fined \$100 by Magistrate W. D. Vance in city police court yesterday afternoon. He had pleaded guilty and conviction came after hearing evidence of Mr. Schriaberg and other witnesses.

On Tuesday Albert Garant, who had been charged jointly with Hunter, pleaded guilty and was fined \$100.

Telkwa Observes Education Week

TELKWA.—During Education Week Telkwa held open house on Friday afternoon. Parents were able to view the pupils' work and see the progress made during the first part of the term. Splendid drawings were shown by the Grades 8 and 9 pupils which indicated outstanding artistic ability and great promise. Bark collections off native trees was an interesting display.

The Grade 1 work showed marked neatness in their printing and originality in the drawings.

Grades 2 and 3 took great delight in presenting a program for the guests, under the baton of one of the older pupils. The rhythm band of home made instruments was featured. The many phases of project displayed in this department were of much interest to the pupils as well as the parents.

Grades 6 and 7 had a splendid display of maps and the art by Grades 4 and 5 showed keen originality.

Tea was served later in the afternoon by the High School girls, proceeds to go to the Red Cross.

Car Crash Near Telkwa Station

TELKWA.—A Ford sedan, property of Roy Anderson and driven by Smithers resident, came to an abrupt stop when it failed to make the turn at the CNR station here and careened over the bank taking the road sign and hitting the train tracks. The vehicle was damaged considerably, having both side windows broken, rear end and top damaged. The occupants experienced quite a shaking up but were otherwise unharmed. The accident happened at 12:30 midnight.

Quick assistance was given by the coal mine bus which noticed the car below the bank and drove in to help right the disabled car.

Smithers Woman Shares Estate

According to a despatch from Smithers, Mary Remington is one of 10 nieces and nephews to share in the estate of Andrew Haworth, a farmer living near Lethbridge. The property is valued at between \$60,000 and \$70,000. Mr. Haworth was aged 83 and unmarried.

R. Hetherington, general manager of Canadian Government Elevators, is leaving by tomorrow evening's train on his return to his headquarters at Fort William after spending a few days here on official business at the local elevator.

Terrace Planning New Modern 10-Room School

Education Week Observed With Inspector's
Address Highlight

Highlight of Terrace Parent Teacher Association's Education Week meeting at the Credit Union Hall was an address by H. C. Ferguson, Inspector of Schools and Honorary President of the P.T.A. In the course of his address Mr. Ferguson disclosed plans for a new modern 10-room Junior High School at Terrace.

Education Week was defined as "A time for every citizen to clarify his thinking on Education and its many problems."

"The Curriculum Aim of Education is to help the child develop into a well integrated citizen," the inspector said. "The three R's are an important part of learning but not more so than the type of personality the child develops. We need 'Socially responsible citizens.'"

"Where to get teachers is a big problem as the teacher is the most important factor. She must be able to encourage, lead, and inspire. We are lacking in both quantity and quality. Retention of the old teachers is as important as recruitment of the new. We must improve salaries and living conditions and make teaching a challenging and satisfying career."

"School facilities too are important as even the best teacher with the best supplies cannot do a good job in poor surroundings. Many schools are in poor condition and new buildings are not keeping up with the population increase."

"Another problem is the number of pupils who leave school before they reach grade eight. Thirty-five per cent leave from grade seven never to return."

BRITISH COLUMBIA
"In our own province are the best trained, most experienced and most highly qualified teachers, but pupils have increased from 125,135 to 164,000 in the last seven years, and the cost of education has been tripled."

TERRACE DISTRICT
Terrace District in 1945 had eight schools, 12 teachers, and 315 pupils. Mr. Ferguson disclosed. In November of 1951 there were 12 schools, 28 teachers, and 850 pupils.

With cost in 1945 totalling at \$35,000 but in 1950 the total was \$150,000.

The Terrace District extends from East Kootenay to Morice town north almost to the border and south to within 12 miles of Kitimat.

"A bylaw was passed a few years ago for \$5,001 with \$5000 for the Army Buildings and \$1 for Mr. Little who sold the land that sum. The 1948 bylaw included reconversion of the army buildings, a new one-room school to be built in New Hazelton and a six-room school for Old Hazelton."

Another bylaw is to be passed shortly as the School Board plans to build a new 10-room Junior Terrace High School on an eight acre parcel of land. The new High School curriculum will include home economics, industrial arts, and typing. The building will also boast a combined auditorium and gymnasium.

"It is planned to decentralize the elementary school, reconstruct and redecorate the west school and install a new heating plant, with tentative plans for a school later to be built in the Keith Estate."

Mr. Ferguson felt that the School Board was to be congratulated for its good work as this was a very difficult District to administer.

Discussing criticism of Education, Mr. Ferguson said people are confused in their thinking with two schools of thought, namely Traditionalist and Progressive.

Traditionalist is the type of education up to 30 years ago, with a very definite curriculum where subjects were thrust at the child requiring that he pass rigid examinations before being allowed to go on from Grade 1.

Progressive education school of thought says, everything a child does is experience by which he learns and therefore the child should not be restricted.

British Columbia tried to find the happy medium. No school was strictly traditional and no school was strictly progressive.

Formerly only a select few went on to High School. Now school is a continuing process from grades 1 to 12. Education should be possible for every child.

The purpose of education was to train socially efficient citizens with habits and attitudes rated equal with skills. The primary child is graded in three categories, the intermediate child in five categories with senior children in seven categories, so that the higher a child goes the more carefully he is screened.

Annual Meeting of the Prince Rupert Rod & Gun Club Friday, March 14, 7:30 p.m. Canadian Legion. Election of officers. Film shown. Everybody welcome.

Soroptimist Fashion Show

Members of the Soroptimist Club met together for their March business meeting at the home of Miss Muriel Vance on Monday evening. President Jay Kullander was in the chair.

The club welcomed a new member—Mrs. Robert Gordon.

Principal business of the evening consisted of planning for the fashion show and tea which the club plans to hold March 27 at the Civic Centre.

Smoky Fire at Catholic Church

Slight damage was done to a wall in the sanctuary when fire broke out in Church of the Annunciation last night. Firemen were on the scene early and quelled the smoldering outbreak immediately. Smoke filled the church.

The blaze was well under way when the alarm was turned in at 9:15 p.m. by three passers-by who noticed the smoke.

Fire Chief Earl Becker said cause had been determined as coming from cupboards in which incense burners were stored. Damage was confined to walls but extent has not been estimated.

Special commendation was made by Fire Chief Becker to a group of Boy Scouts attending a meeting nearby who offered help. The Scouts were asked to keep out a growing crowd of spectators.

SEALING GROUNDS
About 80 per cent of the fur seals in the world are found at the Pribiloff Islands in the North Pacific.

"Old at 40, 50, 60?"
—Man, You're Crazy

Forget your age! Thousands are peppy at 70. Try "peppy up" with Oxyel. Oxyel is tonic for weak, rundown feeling due solely to body's lack of iron which many men and women call "old." Try Oxyel. Oxyel is tonic for pep, younger feeling, this very day. New "get acquainted" size only 60c. For sale at all drug stores everywhere.

WITHDRAW
(Continued from page 2)

to get anywhere. We thought we could get out of such a long laborious process this year and think we have cut our demands down to a minimum," said the firemen.

"We think our move is petty because it could represent hardship on the general public—but

we have to meet pettiness with pettiness. The city council has not given us one iota of consideration. Less than that—it has accused us of lack of co-operation," the firemen charged.

"As far as we are concerned, the city has closed off negotiations but we are still willing to negotiate further pending arrival of the conciliation officer."

DON'T FORGET . . .

THE CIVIC CENTRE

Teen Club DANCE

this Friday March 14, in the small gym at your Civic Centre. Time 9 till 1:00, doors close at 10:30. Price Civic Centre members 25c, non-members 50c. Refreshments.

TENDERS

TENDERS in sealed envelopes clearly marked "Tenders for Roller Rink Floor," dated not later than 14th March, 1952, will be received by the undersigned for the laying of a one and one sixteenth No. 1 maple floor on a 4500 square foot area in the pattern customary for roller rinks. The floor is to be smooth sanded and necessary lines painted for three badminton courts, and finished with three (3) coats of Penetrin, and is to be laid on top of present fir floor. Tenders will be opened on 18th March by a special committee appointed by the Executive of the Civic Centre Association. Tenders should state clearly the approximate number of days after notification that the work could commence and length of time necessary to complete the contract. Further information available on application.

The lowest or any tender not necessarily accepted.
John F. Stirn,
General Secretary,
Civic Centre Association.

DESERT PEST

The gla monster is a poisonous lizard found in the sandy waste areas of Arizona, Texas and New Mexico.

Ed Saunders, well known local printer, is among those obliged to remain at home because of the effects of influenza.

Quebec Develops Big 'Boys' Town'

MONTREAL (C)—There's a town planning scheme afoot for Canada's first "boys' town."

With the extension of the Boscoville Youth Protection School, which will be completed shortly, judges before whom teen-agers are brought should have fewer dilemmas.

For 12 years the founder, Rev. Albert Roger, has been working with small groups of boys, first at a centre at Lac des Francais north of Joliette, Que., and for the last five years at Riviere des Prairies in northern Montreal.

His scheme aims at the rehabilitation of older teen-agers based on self-government and the development of personal responsibility. The Quebec government has recognized the value of the experiment and the good results obtained with average boys referred to it by the social welfare court.

Final plans are still under consideration but the expansion will probably provide facilities for some 150 "citizens," compared with the present 20 or 30. Up to now the welfare court has had to refer many of the more serious juvenile cases to criminal court.

The usual age for reference to Boscoville is 16, and no fixed term of admission is specified. In practice, the minimum stay is about three years.

Practically every citizen of the boys' town has reacted well to the opportunity to develop his own sense of responsibility. There have been only two recorded exceptions. The idea is that once a boy has proved he is

a good citizen of Boscoville he is likely to be a good citizen anywhere. One youth is a strong candidate for a place in one of Canada's crack military colleges.

Father Rogers says he never anticipated such a career when he was studying for the priesthood. One of the determining influences was the success of Father Flanagan's experiment in New York State.

Telkwa Gets Baby Chicks

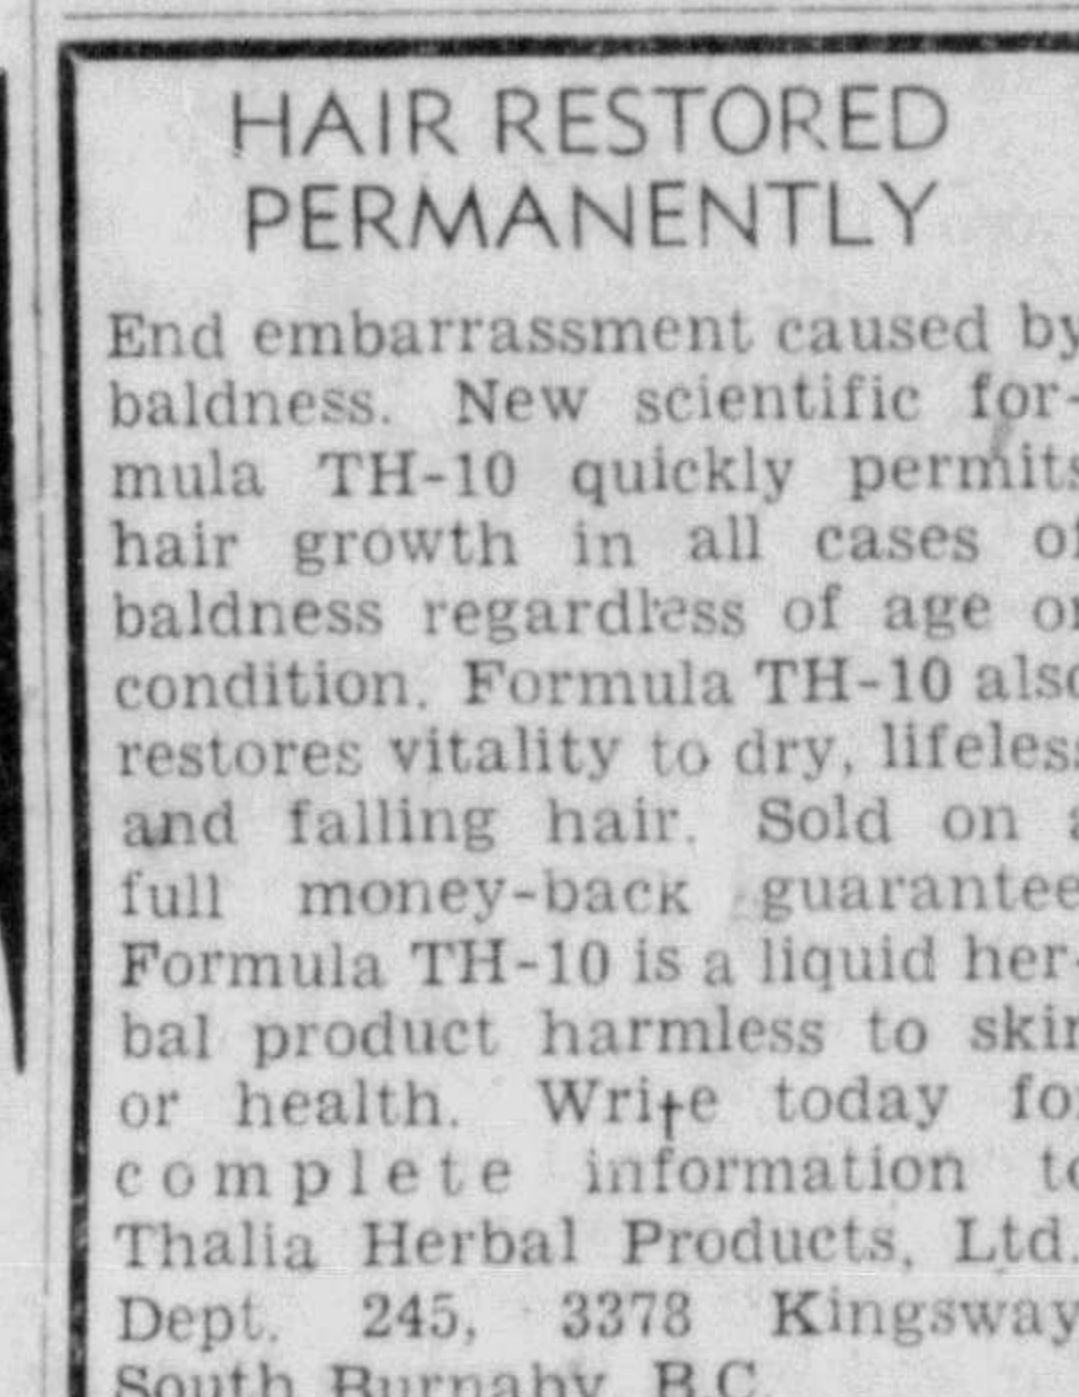

The first shipment of baby chicks this year arrived from Saskatoon for W. Bowd, who stated that another shipment was to have been sent from Edmonton but, on account of the foot and mouth disease in the east, shippers advised against it. Yet the shipment from Saskatoon came through. Apparently chickens can carry the germ also.

James Mah is sailing tonight on the Prince George for a two weeks' business trip to Vancouver.

Need Helpful Spur

A little tempest this week over the way the city council dismissed the idea of recognizing the famous Golden Gloves boxers has been discussed and it is not necessary to make further observation about it except possibly to suggest that the council might at least have been a more diplomatic in the matter.

But the incident, at least, has had the gratifying effect of focussing public interest if only for a moment on the goings on in the city council.

Of course, there are plenty of vastly more important matters than this demanding attention and of the city council. One of the vital things is that we don't need to recite the many other things which we have talked about so often and which are obvious.

Civil defence is something new that the city have to take the lead in organizing and co-ordinating. The mayor and the local civil defence coordinator have already had trips East on this matter which is of vital importance to Prince Rupert.

If we are to have the action we want from the council, we should be watching it with enthusiasm and understanding. We do not need to be critical or挑剔. The proper kind of interest would, doubtless, be appreciated by the council and could prove the greatest help in guiding, spurring and encouraging it.

Some may say there is something wrong with city council. Probably we might better say there is something wrong with ourselves. Where are our civic associations, what organizations have to study and observe and suggest in this municipal business which is our business and one of the best businesses in the community? What common and practical interest, for instance, does the Chamber of Commerce take in civic affairs except to come up with some issue and with such a cry that it cannot ignore it?

There's not very much point to people sitting and criticizing what council is doing if no body else the council is doing anything about systematically and continually advising and assisting it—on small, petty matters, but on the major problems on which it is essential we must get action if we are to keep up with the expanding march of civilization that is to be seen all around this community.

Peace Outlet

BEYOND the 55th parallel in Northern Alberta and British Columbia lies one of Nature's wonders—the rich and fertile valleys of the Peace River.

In this northern Eden, the pioneers of the Peace River have won world championship prizes. Their oil and natural gas supplies—to say nothing of the coal and some day rival the richest in Canada. Where yesterday stood wilderness, they are today building farms and schools and towns.

The people of the Peace are also modern pioneers. They drive automobiles. Their homes are equipped with refrigerators and washing machines. They farm with tractors.

The Peace River is getting up-to-date in almost everything. About the only thing they are still behind the times on is railway transportation.

It is pretty bad that this great district, after all these years, is still without its railway outlet to the Pacific Coast at Prince Rupert, its logical port.

Even here in Prince Rupert we have been dead for a long time on the Peace River railway outlet which we used to be so enthusiastic.

Fact of the matter is that today we should be burning hotter than ever on the matter.

With industrial development on enormous scale springing up around us, the Peace River outlet is a logical complement from the standpoint of transportation service.

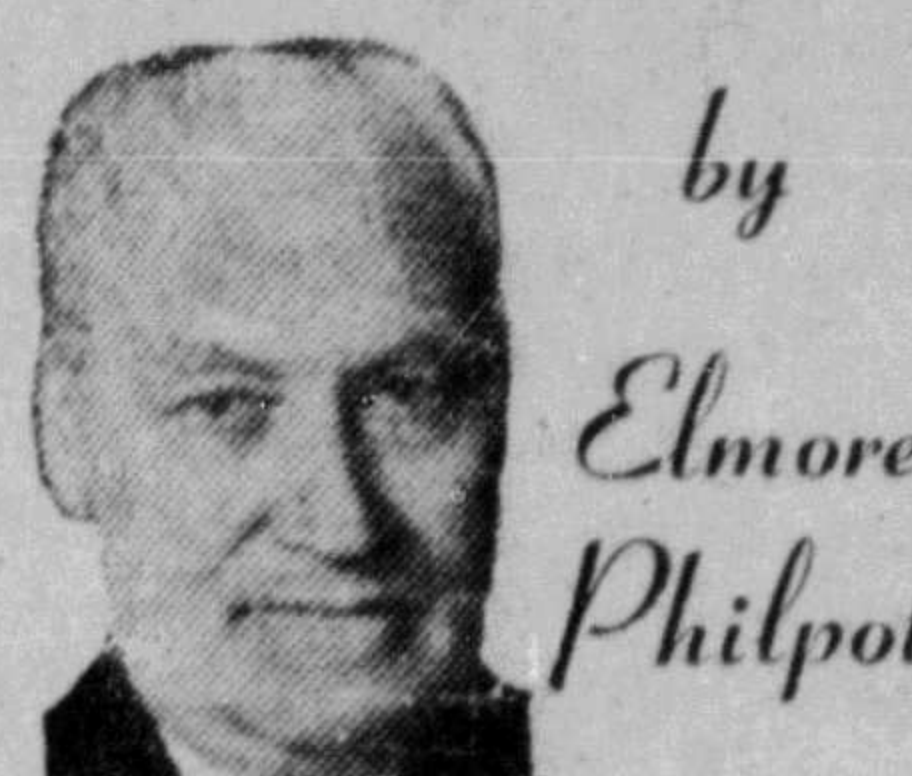

Another factor, too, is that, with this industrial development, we should be getting a large and developed agricultural hinterland immediately available to supply our needs.

Scripture Passage for Today

"Teach them as one having authority."—St. Matt. 7:29

EDMOND (CP)—Among various on shoes. When the children walk on prevention ideas in use through wet patches the slogans and safety slogans moulded are "printed" on the ground.

As I See It

Pearson and Coldwell

IT IS interesting to compare two speeches made on two successive days by Messrs. Pearson and Coldwell.

On the first day the CCF leader urged Parliament to Stop, Look and Listen about the whole business of re-armament. He particularly urged a new policy for the UN in the Far-East. This would be based on the recognition of the real government of China, and repudiation of the Taft-MacArthur line. This aims at re-building Chiang Kai-Shek's power in China proper by military invasion.

On the second day Hon. Lester Pearson spoke in New York. As one of the principal planners of the whole NATO alliance he naturally did not share Mr. Coldwell's fears that we were getting in too deep in building collective defence of western Europe. But the sum and substance of what Mr. Pearson said on China was the same as the CCF leader had said the day before in Ottawa.

Uncle Sam was told as plainly as possible that Canada will not "go along" with any U.S. policy based on armed interference in China's internal affairs.

THE NEW CCF line is not only astute party politics, but it is performance of a serious patriotic duty.

The CCF had a real responsibility for getting Canadian forces involved in Korea, for the CCF was the first of all Canadian parties to come out and urge such action, as a necessary national obligation under the UN Charter.

It is interesting to speculate on what would have happened in Canada in 1950 had the CCF reverted to the strong anti-war line for which it was famous in the crusading Woodsworth era. It is probable that the Liberal government never would have despatched an expeditionary force to Korea—for never once in all that crucial summer did even the Conservatives suggest that such should be done. Yet the Conservatives in Canada are traditionally the "war" party, just as the CCF and the progressives and ginger groups before them are traditionally the party of peace.

JUST AS the Labor party in Britain learned its lesson the hard way—that negative pacifism is no answer to a threat such as that by Hitler, Franco and Mussolini—so too with the CCF in Canada. It has strongly supported all collective security measures in UN. It has also REASONABLY supported mutual defence arrangements outside UN, for example in the NATO alliance.

But the CCF render a national service—and points up Mr. Pearson's international warning—that Canada will not "go along" with U.S.A. unconditionally.

WHAT Messrs. Pearson and Coldwell are in effect telling the world is this:

Canada will do her duty in sincere fulfillment of what might be called the Eisenhower plan—that is, to rebuild strength in western Europe to make impossible a quick military conquest of that area by Russia. If we have to fight in self-defence we surely will. But we in Canada are not "looking for trouble."

Canada will not go along in any Taft-MacArthur-Dulles plan to re-conquer China for the benefit of Chiang Kai-Shek.

In other words, the only way to keep our own country, Canada, united on foreign policy is to stick 100 per cent to the spirit of the UN Charter and the letter of the NATO alliance.

HOW CAN I?

Q. How can I make a cement for pipe joints?

A. Mix ten pounds of yellow ochre, four pounds of ground litharge, four pounds of whiting, one-half pound of hemp, cut up fine. Mix together with linseed oil to about the consistency of putty.

Q. How can I remove a rusty screw?

A. Heat a poker or spike red-hot and apply it to the head of a screw that is rusty and obstinate. When the screw has become hot it can be removed very easily.

TWO CANADIAN NAVAL OFFICERS who have carried out two full tours of duty in Korean waters are pictured above on a shopping expedition in a Japanese port shortly before their ship, HMCS Sioux, sailed for home. They are Commander Paul D. Taylor, of Victoria, right, commanding officer of the Sioux, and Lieut.-Cdr. Patrick C. Benson, of Winnipeg and Victoria, executive officer of the destroyer. Cdr. Taylor and Lieut.-Cdr. Benson have each served 15 months in the Korean war theatre.

LETTERBOX

PLEA FOR VARDEN SINGERS
Editor,
Daily News,

Recently you published a sketch of the career of the Varden Singers of Prince Rupert, mentioning that an album of recordings had been made by them. This sketch was clipped by my daughter, Mrs. Douglas Buchanan Simpson, 408 Sixth Avenue East, and sent to me, as I have been collecting records for many years. I asked her to have the album sent to me COD, not knowing what the price was, and received it in good order and have greatly enjoyed the choral numbers. I so wrote to Rudolph Olsen, who was personally responsible for packing the records, telling him how much I enjoyed them and expressing the hope that the Varden Singers would continue. In spite of the announcement that the group was likely to disband.

I noted how fortunate Prince Rupert was in having such a group and, if it were to disband, how fortunate that the album of records was available as a memento of an active group.

Brantford had a famous choral organization, the Schubert Choir which dissolved after 35 years because the conductor, Dr. H. K. Jordan, could no longer carry on—actually, his death followed within a short time afterwards. But no recordings had been made, so that today there is only the memory of those who participated in the choir's work, or those who were members of the audience for the annual concerts. So also the Canadian Choir of Brantford, which made a successful tour of London and other points in Britain, died with the passing of the conductor. Again no recordings.

Today Brantford has several choral organizations of note: Universal Coolers and the Cock-shutt Male Choir has established reputations; Calvary Baptist

Church choir has just won, for the third time, the Toronto Kiwanis Festival cup for choirs of 35 and retain permanent possession of the trophy while Wesley United Church choir was a close second to Stratford in the same competition for larger choirs. So choral work here is still highly esteemed.

If Prince Rupert is to lose the Varden Singers, the community will be the greater loser, not the members of the choir. While it is true that second generation Canadians are apt to lose touch with the music of their motherland, it is not an encouraging fact.

My wife and then my daughter were members of the Schubert Choir here, and greatly enjoyed the work, even under so strict a disciplinarian as Dr. Jordan. Surely the younger generation of Prince Rupert could be (Continued on Page 8)

Reflects and
Reminisces

A classified advertisement published in Vancouver seeks a man who is capable of looking after a baby elephant. The color is not indicated.

Next Monday will be St. Patrick's Day. Most of us, this far away, have yet to behold Ireland, and, should it be one's good fortune to do so, doubtless it will be quite unlike what is expected. Usually that is the way.

JUST TO SEE IT

Want ad in San Antonio Evening News: "Executive director from 24 to 40 to sit at desk from 9 to 5 and watch other people work. Must be willing to play golf every other afternoon. Salary over \$350. We don't have this job. We just thought we'd like to see in print what everyone is applying for."

Ever since Prince Rupert appeared on the map, more or less has been said about her strategic value. Looking at the world situation as it exists today, nowhere in Canada is there a seaport that's more so. Already, both north and south of this city, there have been attacks by Japan.

BLUE GRASS LAWNS IN LEAD
AFTER 100 YEARS OF TRIAL

A Long Established Kentucky Blue Grass Lawn

Kentucky blue grass, which for a century or longer has been grown in lawns, public and private, is said to have been brought to this country from Europe, though definite records of this seem to be lacking.

Kentucky blue grass presents a conspicuous example of the "survival of the fittest."

Kentucky blue grass tends to gain a pretty good foothold in the lawn, even when no pains are taken to establish it there.

It behooves us to make conditions as near to the liking of blue grass as possible and these will automatically be to the detriment of competitors (unwanted grasses and other weeds).

Blue grass prefers fertile, porous soil, neutral as to acidity; testing pH7. Grass seed will germinate and grow most satisfactorily if a 1/2 inch layer of weed free top soil is sifted over the newly seeded plot; the seed should not be sown deeper than 1/4 inch. In addition to fertilizing the soil prior to seeding, good maintenance involves the application of plant food annually. A good practice is to apply in September, in order to bring the

blue grass into winter in good vigor, and again in the early spring. Blue grass is a heavy feeder, especially of phosphorus and nitrogen. Plant food should be spread according to the manufacturer's directions.

Watering should be done infrequently on established lawns. Light daily sprinklings merely moisten the soil surface and are detrimental to deeper-rooted blue grass that is normally approaching semi-dormancy during dry summer periods. Its roots tend to grow toward the temporarily moist surface and are subject to the next day's drying out.

Hot weather and high soil temperatures keep blue grass relatively inactive in late summer no matter what amount of sprinkling is practiced. Chief effort should be directed toward getting deep water penetration uniformly over the area.

On the other hand, one of the most critical times in the establishment of a lawn is after the seed has started to germinate. The young seedlings will quickly wilt if the upper soil layer dries. Frequent gentle sprinkling is thus a necessity for newly seeded lawns.

Meat Running Out in City

Will Be None Left Here by
End of Next Week Unless
Embargo Lifted

Unless the embargoes are relieved by then, Prince Rupert will have no fresh meat whatever by the end of next week. Packers' stocks are already running short and will be drying up altogether within a few days. A few local butchers, however, may

have sufficient meat on hand to keep going for a couple of weeks. When the fresh meat runs out, only cooked meats will be left.

Meantime meat prices are mounting. Beef from Vancouver costs 14 cents a pound more in the carcass than from Edmonton. Consequently, prices are Nicola Valley which just about cleans up stocks available in British Columbia. This will last Vancouver a couple of days. Steak is selling at \$1.35 a pound retail and sirloin roast at 85 cents or 90 cents.

Yesterday Vancouver received some 400 head of cattle from the advanced 25 cents a pound.

Is Honored by I.O.D.E. Chapter

Members of Queen Mary Chapter, Imperial Order of the Empire, meeting in the Civic Centre Tuesday night, presented Mrs. J. R. Carr, past regent, with a handsome rose bowl as a mark of appreciation for her work during the past year.

The meeting was presided over by Mrs. M. J. Keays in the absence of the regent, Mrs. H. C. Flood. Plans were made for the annual daffodil tea to be held April 14 in Civic Centre.

The chapter is continuing to send food parcels overseas and also gave help to a family whose home was burned.

Two of the members are helping to canvass in the forthcoming Red Cross drive.

A donation was ordered sent to the Boy Scouts and a library has been sent to an adopted school.

The monthly raffle was won by Mrs. Carr.

New Cancer Drug Found

CINCINNATI (AP) — A new British drug is helping some people with one form of chronic leukemia, the blood cancer. It came from a 20-year search into the cause of cancer, and that hunt promises far better cancer-killers to come.

The drug and research were described today to the second National Cancer Conference by Dr. Alexander Haddow, director of the Chester Beatty Research Institute, Royal Cancer Hospital, in London.

The drug is GT-41, a code name in honor of George Timmis, the chemist who created it. It is a butane chemical, in a new family of anti-leukemia drugs.

In early tests on small numbers of humans in Britain and United States, GT-41 brought temporary remissions or improvements in 25 to 50 per cent of cases of meulogenous chronic leukemia, Dr. Haddow said. One patient had stayed improved for a year.

The drug does not affect any other forms of leukemia, including any of the acute or rapidly-progressing leukemias which usually affect children.

GT-41 can be taken by mouth and has no serious bad effects. Dr. Haddow termed results to date "as good as with any" other drugs used for leukemia.

The work of Dr. Haddow and associates earlier led to urethane and nitrogen mustards in tablet form for use against leukemia.

All were based upon clues turned up in their main research — of learning just how a normal, healthy cell grows, and exactly what happens to turn the healthy cell into a cancer cell.

Ilka Chase
Compares Blue Bonnet
— It's Her Favorite!

Want to get good reception? Here's an idea from Ilka Chase. Compare BLUE BONNET Margarine with any spread at any price. Like the famous television star and author, you'll love the delicate, sunny-sweet flavor of this fine-quality all vegetable margarine. You'll appreciate BLUE BONNET's nutrition. And you'll welcome its real economy. So buy BLUE BONNET and get "all 3" — Flavor! Nutrition! Economy! Use it in cooking, on vegetables, as a delicious spread.

BLUE BONNET Margarine is sold in two types — regular economy package with color water, and also in the famous YELLOW QUICK bag for fast, easy color.

REMINISCENCES
(Continued from Page 7)

anese. In this part of Canada, civilian defence is a real responsibility, as well as the realizing of what this centre could become as a national stronghold. For something like that will be needed, at least, for the next few generations. Force, and force alone, is not all that counts. That way lies peace.

Americans are finding the Universal Military Training Bill thorny enough. And this, being election year, is extra full of grief. Farmers, labor, clergymen, CIO and parents in general speak out against it. National defence is supported by everybody but opinions differ as to means and methods. Eighteen year old youths—800,000—are wanted annually for a six month period. Too young, cry dad and his partner, but millions, even younger, have worn the uniform.

OR GREENLAND!

If there is ever an attack on this continent it will be by way of the northwest. This, says Mayor Whalen who has been in Ottawa on defence business, is what people are saying in eastern Canada. Certainly it won't be by way of Labrador.

LAND MEASURE

"Furlong" is believed to be a corruption of "furrow - long," used in former years to denote the length of a square 10-acre field.

LETTERBOX
(Continued from Page 7)

given a spur to see that the Varden Singers carry on!

Look what Leslie Bell has accomplished with the Leslie Bell Singers!

When Winnipeg can produce so many first-class singers, as evidenced by the "Stars of Tomorrow" and "Opportunity Knocks" radio programs, when Canada can produce a Giselle

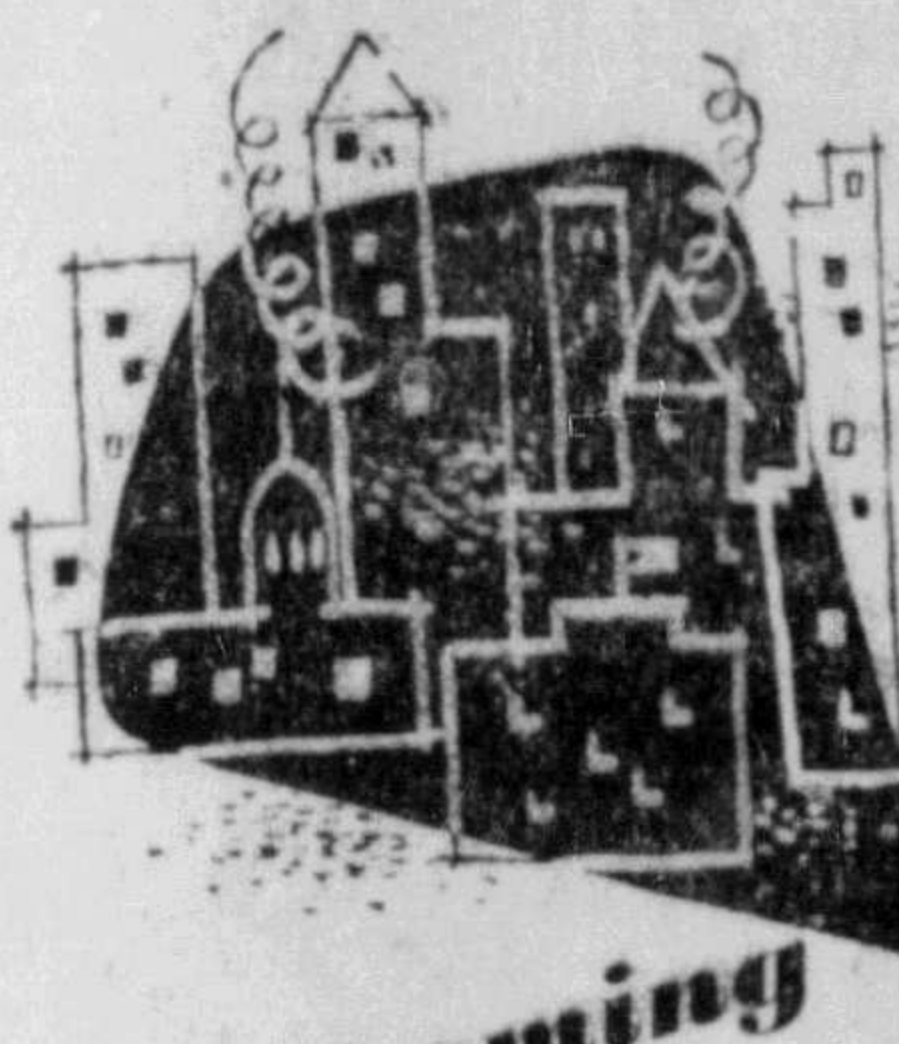

Mackenzie (LaFleche). Prince Rupert could at least look forward to many community gatherings of intense musical enjoyment with the Varden Singers.

Canada musically will become great when the second generation singers reap the advantage of the music of the motherlands of their parents and offer it for Canadian audiences. I cannot understand a word of the Scan-

dinavian tongues but choral music can be in any language—even Russian—and be thoroughly enjoyed by even a non-professional.

So here's hoping that the Varden Singers will be given encouragement to carry on their good work musically and from the community standpoint. And in the meantime, I will be often

playing their recordings many miles from where they can be heard. Mr. Olsen would be glad to let you see the photo of him if you are in seeing it. Wishing the Varden Singers continued life as a chorus. A. T. WELTON, Brantford, Ont., Canada.

Aren't these your ambitions too?

We of Columbia Cellulose Company have two simple ambitions. We're trying to realize them just as quickly as we can.

Our first ambition is to increase our production of cellulose pulp... to become a self-sustaining enterprise in the shortest possible time.

Our second ambition is equally important. It is simply to be good neighbors... to assume our full share of responsibility in this community and to support every project designed to help it grow and prosper. We believe you are working toward these same objectives.

In a word, we simply want to be good businessmen and good citizens.

Aren't these your ambitions, too?

Columbia Cellulose Company is the first unit of a rapidly expanding Canadian industrial organization. Within a few months, this organization will be combining timber from British Columbia with natural gas derivatives from Alberta to produce a wide range of fibres and other acetate products for Canadians from coast to coast. Our program of continuous forest yield ensures lasting full-time employment for thousands of Canadian workers.

HOUSEKEEPING

ST. PATRICK'S DAY SOON— GREEN DESSERTS IN LIMELIGHT

Green Desserts for Saint Patrick's Day—Beggah, if it isn't Saint Paddy's Day again soon, and it's sure you'll be wantin' to add some Irish charm to your menu. Whether it's a children's party, a bridge tea or just plain family dinner, ten chances to one desserts will take the spotlight.

Home economists suggest using green vegetable coloring to help keep the food in the spirit of the day. Petit fours and cup cakes covered with icing tinted a delicate green are appropriate for any type of menu. Colored or plain coconut, green candies and cherries are also effective in decorating. Children will love plain sugar cookies cut in Shamrock design and covered with green icing. Try tinting Blanc Marge or Lemon Snow pale green and top with a rhubarb sauce. This makes an attractive dish which isn't too heavy to serve after a hearty dinner.

Moulded desserts with plenty of eye-appeal can be made with lime gelatine. Green sherbets or ice cream may also be served. To give an added party air, top with whipped cream flowers made by beating the cream stiffly and putting it through a decorator's tube. For a very special dessert, why not make a meringue pie crust and fill it with tinted pears or other fruits, or a graham cracker crust with fruited lime jelly topped with whipped cream?

Basic pudding recipes give much scope for imagination and originality. For example, a basic Spanish Cream recipe is very

good in its own right, but it's also delicious when coffee or orange juice is substituted for half of the liquid. This is a gelatin dessert, incidentally, and does not use cream as the name would imply. Tapioca Cream is another good dessert, either plain or varied. Honey tapioca cream, made by substituting honey for sugar and adding half a cup of coconut, is delicious. A little extra tapioca may be needed to make up for the liquid in the honey. Maple, coffee, chocolate and butterscotch are a few of the other interesting flavors.

Custards are a cook's delight! The variations that can be made to the basic recipe are practically endless. To name a few, there are coconut, chocolate, marshmallow, rice, caramel, honey, maple and spice custards. Baked custards are desserts in themselves; soft custards are really sauces to be served with fruits and other desserts.

Blanc Marge and Its Variations—Made correctly, Blanc Marge is unrivaled in appearance and flavor and is nutritious as well. It should be quivery and jelly-like in consistency. To avoid lumpiness, the milk in the top of the double boiler should be boiling hot when the other ingredients are added. Always make the cornstarch and sugar into a paste with a little cold milk before adding slowly to the hot milk.

Blanc Marge need never be monotonous for there are many variations of the basic recipe. For

that delicious chocolate flavor, increase the sugar slightly and add cocoa. Coconut pudding is good too. A stiffly beaten egg white may be folded in with the shredded coconut. It is superb served with crushed fruit and fruit sauce. For a change, use maple syrup instead of sugar or serve a plain Blanc Marge with a maple syrup sauce.

George Hills, Charles Bellis and John McBride are sailing tonight on the Prince George for Vancouver where they will attend the annual meeting of the British Columbia Co-operative Wholesale Society. In Vancouver they will be joined for the meeting by K. F. Harding, general manager of Prince Rupert Fishermen's Co-operative here.

Modern Etiquette

Q. Is it considered good form to shake hands with gloves on?

A. It is not correct to remove the gloves before offering the hand, as this necessitates an awkward pause. Just shake hands and forget the glove.

Q. May a telephone be used to acknowledge a gift?

A. No, it is not good form.

Q. How should a man refer to his wife when among non-intimates?

A. As "Mrs."

Barbara Buys and Whys

MONTREAL, March 13th—On a real "howler" of a day in March... here's a thought that always cheers me up. It takes just seconds to make a delicious cup of INSTANT CHASE & SANBORN COFFEE. Yes, it takes no longer than boiling the water to make one cup—or ten—of this good instant coffee. M-m-m-m! Instant Chase & Sanborn Coffee is a real pick-me-up. I'll wager it's the best instant coffee you've ever tasted. Know why? It's made by coffee experts... folks with over 85 years of coffee experience. No wonder this instant coffee is so extra-good. The flavour's there—and there's a real lift to it. And the economy, too! You see, there's no waste. I'd like you to try it soon... Instant Chase & Sanborn Coffee with the heart-warming flavour.

When The March Wind Roars like a lion, watch out for "Peter Pain". He strikes without warning in rheumatism and neuralgia—muscular aches and chills. But there's one certain way to get rid of him. Just rub in BEN-GAY (Baume Bengie) and rub out "Peter Pain"! Ben-Gay breaks up congestion and gives wonderfully quick relief... it soothes and warms and makes you feel much better. That's because it contains up to 2½ times more of those two famous pain-relieving agents—methyl salicylate and menthol—than 5 other widely offered rub-ins. It contains skin-soothing lanolin, too. Keep Ben-Gay handy—the generous tube costs just 75¢ at your drugstore.

Like Colour In Your Home?

Then let me tell you about DOMOLITE... that wonderful vinylite plastic fabric. It's so easy to sew. You can make kitchen and bathroom curtains and drapes, food covers, garment bags, bibs, aprons and dressing table skirts with it. And Domolite is so easy to clean... just wipe with a damp cloth... and no ironing. See the beautiful colours and patterns at your department or variety store. Domolite, made by Dominion Olefin and Linoleum Company, just wears and wears... repels moisture, oil and dirt... and is inexpensive. Write to me—Barbara Brent, 1411 Crescent St., Montreal, P.Q.—for free, illustrated literature on what you can do with this brand new, budget-wise fabric!

A Favourite Lenten Menu

mine is Vegetable Soup—Buttered Toast Strips—Tossed Green Salad—and delicious K R A P T DINNER. Yes, there's many a Lenten meal that can be planned so economically around "Kraft Dinner". You see, a wonderful macaroni-n-cheese dish that makes a main dish for four at less than 50¢ a serving. And it's a real compliment-getter for the gal who does the cooking! In every package of "Kraft Dinner" is a special, fast-cooking macaroni that cooks to fluffiness in only 7 minutes. And, in the same package, there's grated cheddar cheese to sprinkle in for good cheese flavour. And so easy to prepare! "Kraft Dinner" is off the shelf—into the pot—onto the table!

I Feel Like Saying "Thanks a Million"

to the Blue-Jay Folks for giving us wonderful Phenylum. It's the greatest scientific discovery in years for people who suffer from corns and calluses. And Blue-Jay have put it in their famous Corn and Callus Plasters to give us comfortable feet. It took ten years of scientific research for Blue-Jay to develop this wonderful working medication. Now scientific tests show that it ends 95% of corns and calluses in record time. Ask your druggist today for BLUE-JAY Corn Plasters with Phenylum and end your foot-worries forever.

More Beautiful Women use

Woodbury Face Powder—why don't you? Did you know that Hollywood stars chose WOODBURY POWDER? The makers of this wonderful face powder say it's preferred because of the special blending process and exclusive foundation-cream ingredient. It's so satin-smooth, so fabulously fine and velvety, clings so beautifully for hours. And the superb Woodbury Powder shades are wonderfully flattering. See what Woodbury Powder can do for you—costs just 23¢, 45¢ and 75¢. And thrill to the vivid excitement of Woodbury lipstick—creamy, clinging—in 7 tempting shades... 23¢ and 55¢.

Don't Look Now, but baby's just

finished a second helping of his favourite food—yummy 5 Minute "CREAM OF WHEAT". And that's good—because it's so good for babies. Yes, tots and toddlers grow and glow with the goodness provided by this delicious hot cereal. For satin-smooth, good-to-eat 5 Minute "Cream of Wheat" provides Iron, Calcium and Phosphorus for diets deficient in these elements. So enjoy it yourself and treat your toddler to "Cream of Wheat" often. (To make it extra-delicious... make a funny raisin-face on top.) 5 Minute "Cream of Wheat" takes just five minutes of boiling to cook to full digestibility... so you'll enjoy having it often for a family treat.

What A Wonderful Difference

those grand new chemical soaps make at dishwashing time. Dishes wash sparkling clean in no time at all. And what a wonderful difference gentle JERGENS LOTION makes to hands dried and roughened by these new soaps. (They are hard on hands, aren't they?) That's why I use Jergens after every watery chore. Because Jergens is liquid, it quickly supplies the softening moisture that dry, thirsty skin needs. Keep a bottle of Jergens Lotion handy in both kitchen and bathroom. Make a hand-care habit of it—to keep your hands always soft, smooth and lovely—with that cared-for, lady-of-leisure look. Jergens Lotion is not expensive... just 15¢, 37¢, 65¢ and \$1.15.

Do You Often Wish

someone would step out of the blue and manage your money for you? Such wishing calls for a "Bunny Godmother", and they're in very short supply. But there are many BANK OF MONTREAL branches—over 570—and any one of these will gladly help you manage your money like an expert. There's no need for a magic wand, when you can count on B of M Savings Accounts to help you save for a rainy day... Sunshine Accounts to help you save for a sunny day that vacation you've promised yourself... Travellers Cheques to help you enjoy your vacation without worrying about the know-how of a wonderful money-management system that makes every dollar out-do itself for you. So why not visit your neighbourhood B of M branch today and ask for your free copy of "Personal Planning". Pick up a copy of "21 Ways A Million Canadians Use the B of M" at the same time... and discover just how many B of M services are specially designed to help you!

He'll Snack Your Lips

over this delicious main-course dish. Ever noticed how enthusiastic the men-folks are about HEINZ BAKED BEANS? Just serve 'em some evening soon and see, Heinz Beans make a wonderfully good, wonderfully economical meatless meal. Mellow, meaty and mouth-watering... they're one of the most versatile foods in your kitchen. For there are dozens of delicious ways to serve them. So keep a supply on hand to please the family—and for a "quickie" meal when unexpected guests drop in. And keep a supply of Heinz Cooked Spaghetti, too. It's hearty, wholesome and rich in taste appeal... an ever-welcome dish if ever I've seen one!

Have You Heard About The Travelling Salesman

who switched to BVD NYLON SHIRTS? Now he's carefree as the day is long. No more worries about shirts lost in the laundry... no suitcase jammed to the brim with a shirt supply. One BVD Nylon Shirt is all he needs to keep him looking smart as a whip. He just rinses it out at night—puts it on fresh and clean in the morning... no ironing. Made of good-looking nylon tricot that's comfortable in all kinds of weather... with fused collars and cuffs that never wilt—BVD Nylon Shirts practically take care of themselves! Definitely—if your husband travels—get him a BVD Nylon Shirt. A real "bargain" in good-looks and economy at \$12.95. Available in blue, tan, grey and white.

Out Of The Blue

... the whitest wash you've ever seen! Sounds easy and wonderful, doesn't it? And believe me it is! So easy to get sparkling white sheets, towels, pillow cases, shirts and table linen... when you use Blue! Just wash a little Blue in the final rinsing and that does the trick! Blue is kind to your finest fabrics—so you're not taking chances when you use it to get your washings snowy white! And the cost? Think nothing of it!... A few pennies a month, that's all. Yes, Blue prevents yellow tinge. And it's marvelous for rinsing white hair, too!

"SALADA" ORANGE PEKOE

Tea at its best

exciting new recipe for Creamed Salmon

So Quick and Easy to Fix

- 1 tablespoon butter
- 1 tablespoon flour
- 1/2 cup Carnation Evaporated Milk
- 1/2 cup water
- 1 flat can (half-pound size) creamed salmon

Melt butter in saucepan over medium heat. Stir in flour and heat one minute; remove from heat and add 1/2 cup milk; blend well and add 1/2 cup water. Add remaining milk and return to heat, stirring constantly until thickened and boils. Add creamed salmon and serve immediately over freshly made toast. Makes 4 to 6 servings.

For Plain or "Fancy" Cooking— Use the Milk that Whips!

CARNATION MILK—concentrated to the consistency of cream. So it's perfect for your fanciest "company" desserts, as well as all regular milk purposes!

IF YOUR RECIPE SAYS "MILK" use Carnation diluted with an equal amount of water. This way you have homogenized, heat-retained milk with all of good milk's food values, and extra creamy-smoothness.

USE IT LIKE CREAM... for whipped toppings, on fruits, cereals, puddings... in most recipes calling for costly cream. Millions prefer undiluted Carnation to cream for their coffee, too.

BLACKWOOD on Bridge

By EASLEY BLACKWOOD

More Than High Cards Necessary To Use One Trump Bid To Show "Healthy" Hand

easy way to show a hand well above minimum length is to open the bidding with one no then vulnerable, nearly all players use this low from 40 per cent to a little less than 50 of the high cards.

This is a very convenient tool to use when your distribution permits it. However, there are other requirements than the amount of high card strength. You should have some strength in all four suits and a balanced distribution. There must be no singleton in the hand and not more than one doubleton. Players prefer to bid the suit they prefer to bid the suit though many will still bid a no trump if the suit is a minor.

PLAY IS WEAK
Mr. Abel's hand today was just about right for an opening no trump bid. He had the high cards, the distribution and the kind of hand which needs "leading up to."

But Mr. Abel's bidding was better than his play. Mrs. Keen opened the jack of spades and dummy's king won. Mr. Abel could see seven tricks outside of the club suit.

Trying for two tricks in clubs, he failed to execute a fool-proof safety play. He led the trey from the board and played the 10 from his hand.

THE PROPER PLAY
Mrs. Keen won with the queen and now Mr. Dale had K 9 8 over dummy's jack. Two club tricks were simply not available and the contract was defeated.

Proper (and winning) play was to lay down the ace of clubs first. This play, with the combination of cards shown, would win against any distribution of opponents' clubs.

Try it for yourself. You can even put all five clubs in Mrs. Keen's hand or in Mr. Abel's. Still, the play of the ace first assures the winning of two tricks in the suit.

ASTRONOMER'S TERMS
The moon is said to be in perigee when nearest to the earth, and in apogee when farthest away.

NOT ALL POISONOUS
Of the roughly 2,500 identified species of snakes, about 500 are capable of secreting poison.

Korea Unit Check Reveals No Lack Of Sox, Gloves

By BILL BOSS
Canadian Press Staff Writer
WITH THE CANADIANS IN
KOREA—A "letter home" to
a father of a Canadian soldier in
Korea boomeranged into cordon-
ing off a unit by military police,
a kit inspection and a check of
unit stores.

A story based on the letter
appeared in a Nova Scotia news-
paper in mid-January. It alleged
a shortage of socks and gloves,
said there had been an issue the
day Defence Minister Claxton
visited the unit, but that these
had later been withdrawn.

When the story came to the
attention of Brig. John H. Rock-
ingham he ordered the inspection
and check, with the unit cor-
doned to ensure an unquestion-
able result.

The soldier to whom the letter
had been attributed had eight
pairs of socks in his kit-bag
besides the ones he was wearing.
He had one extra pair of black
lined gloves plus one pair of
special Canadian army mitt-
with-trigger-finger, compete with
liners. He freely signed a state-
ment denying he had alleged
the shortages and adding that no

equipment he had ever been is-
sued with had been withdrawn.
The check of unit stores showed
enough spares to re-equip com-
pletely 60 per cent of the unit.
How does it happen that scat-
tered complaints of this kind
arise where there is no apparent
cause for complaint?

Says Big. Rockingham: "It
may be that the parents for some
reason or other are dissatisfied.
They may not like the govern-
ment, for instance. Or perhaps
they were against their sons
joining the army and have not
felt they were being as well cared
for here as they would be at
home. If it does come from the
soldiers' own letters, it may be
a way of ensuring that they get
credit for simply doing their
duty—goodness knows they are
entitled to credit—day after day
in trying conditions. If that's the
way a soldier wants to earn
credit it's his own business as
long as he does his job here. But
in view of the soldier's denial I
don't think the reports originate
here."

Says Lt.-Col. Norman Wilson-
Smith, C.O. of the Princess Pat-
rick's: "Some soldiers do feel
a need for sympathy; they want
their folks to understand that if
there isn't much in the papers
these days about fighting, they
still are not having a pleasant
life. They also may feel cheated
in not having got into more of
the fighting that made Korea
such big news at one time."

Norman G. C. Newman, Van-
couver fire insurance man, is a
visitor in the city making inspec-
tions of local properties on which
his companies have cover.

Better English

1. What is wrong with this sentence? "My salary has been raised."
2. What is the correct pronunciation of "longevity"?
3. Which one of these words is misspelled? Hideous, courageous, contagious, tempoaneous.
4. What does the word "skeptical" mean?
5. What word beginning with ser means "slavery"?

Answer.

1. Say, "has been increased."
2. Pronounce long-jev-i-ti, o as in "on," e as in "let," both i's as in "it," accent second syl-
lable, and not long-jev-i-ti.
3. Contagious.
4. Pertaining to one who doubts or disbelieves. "His skeptical mind would not ac-
cept it."
5. Servitude.

Catholic Meet Hears Bishop

Monthly meeting of the Home
and School Association of An-
nunciation Church held last
night with President Walter
Lahti in the chair.

Bishop Anthony Jordan O.M.I.
spoke on the importance of the
school child and the necessity to
teach children when they are
young how to live with other
people. The Bishop presented
the Association with several
adult education records.

It was decided to hold a Home
Bake Sale on May 3.
President Lahti thanked all
those responsible for the success
of the open house at the school
last Thursday.

LONDON (CP)—Under new
prison regulations, persons fac-
ing execution in British jails
will be allowed 20 cigarettes a day,
double the previous allowance.

Huge Run Of Salmon Due 1955

VANCOUVER (CP)—When the
summer of 1955 rolls around
British Columbia fishermen ex-
pect a record catch of sockeye,
the prince of salmon.

A. J. Whitmore, chief super-
visor of fisheries here, said the
number of sockeye successfully
making their way to spawning
grounds of the Fraser River sys-
tem in 1951 was almost double
that of 1947, the previous cycle
year.

Sockeye salmon—the Number
One fish in British Columbia's
Number Two industry—are four-
year fish, returning to their
spawning grounds every fourth
year after roaming the sea.

Last year the fishing indus-
try reached an all-time-high
value of \$91,000,000—\$21,000,000
higher than 1950. Of this the
salmon haul was \$50,000,000, an
increase of \$12,000,000 over 1950.

There are five species of sal-
mon: sockeye, springs, coho,
pinkies and chums, all of great
commercial importance. Sockeye
is the most valuable because of
its canning qualities; its more
or less uniform size, the deep
red color of its flesh and its oil
content.

Fishing of salmon is done
mostly by gill netters in and off
mouths of rivers, but some by
purse seines.

In 1950 a virtual "keep out"
order was issued to Russian and
Japanese fishing fleets by the
five-man International Pacific
Fisheries Commission, which
rules the waters off the Fraser.

They said the Fraser extended
beyond the three-mile limit "in-
conveniently westward."

Previously any waters beyond
the three-mile limit had been
regarded as the high seas, and
seiners made "rich hauls" inter-
cepting sockeye before they
reached the Gulf of Georgia and
the river mouth.

DIFFICULT PROBLEMS

The problems encountered by
the B.C. Fisheries Research
Board with regard to mainten-
ance of the salmon industry are
made difficult because salmon
spawn in fast water.

Industrial and agricultural de-
velopment of the province tends
to interfere with the fish reach-
ing their spawning grounds. This
is true also of Washington state.
The removal of forests, clearing
of lands for crops, and building
of dams all have adverse effects.

In 1913 the run was almost
wiped out by a dam on the
Fraser. The dam was removed
and the spawning waters of the
Fraser.

Since that time, every fourth
year has been an increase in the
run.

Introduction of fish ladders
has been a tremendous help to
the industry. The fish, fighting
their way upstream to interior
lakes, sometimes come face to
face with an unsurmountable
fall. Fish ladders, with their
average three-foot jump, enable
the salmon to continue on their
journey.

Dams pose a special problem,
overcome by hauling fish by
cable truck from the lower level
to the top where they are placed
in the river once again.

In Washington state tests are
being carried out by an inter-
national commission to deter-
mine how many make the re-
turn trip to the sea.

International co-operation is
needed to insure the perpetua-
tion of this multi-million-dollar
industry.

MIDDLESBROUGH, Eng. (CP)—
Naturalists are trying to find out
whether birds prefer pasteurized
milk or whether they're just
color-conscious. British milk
bottles have different colored
tin foil tops denoting various
types and birds pecking at the
tops seem to prefer the pasteur-
ized color.

Western Screen Epic at Totem

One of the new big screen
epics of the wide open west
comes to the Totem Theatre this
Friday and Saturday in "Man in
the Saddle," starring Randolph
Scott with Joan Leslie, Ellen
Drew and Alexander Knox head-
ing the supporting cast.

In the new Technicolor pic-
ture Scott plays a small rancher
who is jilted by Joan Leslie. De-
spite the fact that she loves
Scott, she leaves him to marry
wealthy Alexander Knox, who
offers her financial security.
Knox, violently jealous of Scott,
tries to run him out of the area.
A violent feud erupts, with gun-
fights and fistfights said to be
unmatched in the history of out-
door films.

Scott is wounded in a gun

Seeks Companion For South Seas

VICTORIA (CP)—Victoria's pa-
radise-seeking Jim Squire plans to
sign on a local adventurer for a
jaunt to the South Seas on his
trim yacht Te Hong.

The 1950 British Columbia golf
champion, who left here recently
on the first leg of the southern
cruise with Swiss sailor Jacques
Markwalder has returned to Vic-
toria to look for a volunteer to
share the life he hopes to find in
the South Pacific.

Squire says he will be much
happier to get a local volunteer
for the cruise—he thinks he's
found one but will only say the
fellow is "about 30, an ex-logger
and very much interested in
making a trip to the South Seas."

And I hope the guy does
not get seasick, sure, there's
glamor in sailing a yacht to the
South Seas but when the Pacific
starts getting rough a fellow for-
gets what the word "glamor"
means.
