Franco-West German Relations Endangered By Saarland Vote

Northern Highway On List \$60,000,000 In Work Set

NELSON (CP)—The British Columbia government is including the northern trans-provincial highway among its projects to complete the five highways considered the key to B.C. development.

The statement was made here Saturday by Premier W. A. C. Bennett and Highways Minister P. A. Gagliardi as they announced government plans of letting \$60,000,000 in new highway construction.

The announcements were made following a sod-breaking ceremony at the West arm bridge over the Kootenay Lake at Nelson on Highway No. 2.

Premier Bennett and six ministers were in the Kootenays for the third in a series of cabinet meetings being held throughout the province.

Mr. Bennett said his government plans to complete as soon as possible the five trans-provincial highways he considers the key to development of B.C.

They are the Trans-Canada highway, the northern provincial highway, the Peace River highway, the Yellowhead highway and the southern provincial highway.

Also announced was the fact that the government expects revenue from oil and natural gas to remove tolls from highways and bridges in the province.

Part of the money will be made up of federal funds allocated for the B.C. section of the Trans-Canada highway.

The Cordova issued a recall

broadcast over radio station CF

PR at 2:50 p.m. for ship's crew to

shore leave and sailed 10

minutes later, facing heavy seas

and winds carrying gusts up to

60 miles an hour.

The minesweeper, which has

been in Prince Rupert for reserve

training exercises, will leave for

her home base of Esquimalt some

time this week.

Commanded by Lt. Roger Freeman and carries a complement of two officers and 26 crew.

School Board To Consider School Names

VANCOUVER (CP)—The Vancouver police commission is expected to meet early this week to consider police chief Walter Mulligan's request for dismissal from the job he has held for 10½ years.

Mayor Fred Hume declined comment on Chief Mulligan's letter which asked that he be relieved as head of Vancouver's 750-man police force. But he said the three-man police commission will meet early this week to consider the request.

Meanwhile, four Vancouver aldermen said Saturday that the police commission should relieve Chief Mulligan of his duties as soon as possible for the benefit of the department.

Decision was reached after a delegation from the Prince Rupert Parent Teacher's Council met with four members of the board last week.

As there was not a full turn-

out of seven board members to hear the delegation, the matter was referred to the next regular meeting of the board.

PT Council delegation, headed

by Mrs. A. L. Bell, proposed four names for the Roosevelt Park School. They were Gordon School, Aeroplane School, Summit School and Hilltop School.

Board's decision to name the school after its location, an bus stop in many other instances in the city, came under fire from Parent Teacher groups in Prince Rupert.

Groups felt that U.S. connotation was unnecessary for a Canadian School.

Easy College Degrees

A HORNET'S nest has been stirred up in U.S. educational circles by former Secretary of War Kenneth C. Royall who said in a recent address: "I am sure that today thousands are streaming into college not actually for educational purposes but for social or athletic or other purposes which bear little if any relation to real education."

Mr. Royall's critics, who are legion, charge him with "ox-cartage" thinking and with total lack of regard for the role of higher education in providing needed leaders and thinkers.

The truth is that Mr. Royall is right and his critics are wrong. Higher education, to be effective in bringing forth real talent, needs to be highly selective. Instead the trend is towards encouraging all, regardless of ability or intellectual potential, to seek degrees or diplomas, all too frequently at public expense.

A college degree these days is all too frequently treated as a letter of reference which is useful in landing a job. It is not, as it should be, incidental to the tremendous benefits to be derived from attending a centre of higher learning. Instead it is regarded as an end in itself and a student will often take all the "snap" courses he can find merely to reach the stage when he can receive his precious sheep-skin. He feels then that he has an introduction into the world, totally unaware that he has overlooked most of the opportunities in study which would give him an introduction of real and lasting worth.

The myth that a university degree is synonymous with education dies hard. A higher education for everyone, and a corresponding lessening in the degree of selection, will do much to deprecate the real currency of learning.

Bright Mind

CANADA'S top technologist in the field of nuclear power, Dr. O. M. Solandt, is retiring as chairman of the defence research board, to take a position with the Canadian National Railways. This is unfortunate—for the defence research board—but a very good move on the part of the government-owned transportation system. For Dr. Solandt is one of the brightest minds in Canada. And it is likely, although his direct responsibility will be to the CNR, that he would be available to the nation in the defence field should an emergency ever arise. That is comforting.

The mainstay of our Canadian transportation system are the railways. They carry the great bulk of the traffic linking the provinces from coast to coast, an integral part of Canada's overall economy. The railways have been having their difficulties and Dr. Solandt's great capacity in the field of practical research should be of inestimable value to that vital industry.

The CNR under President Donald Gordon is reflecting the general trend toward increased service and better and faster service by the railway lines on the North American continent. There has been a decided stepping-up all along the line and the attraction of Dr. Solandt to the Canadian National organization is evidence that this new efficiency drive is to be pressed further.

—Lethbridge Herald.

Costs \$25,000,000

A SURVEY shows that traffic congestion in New York City costs motorists \$25,000,000 a year in wasted gasoline, which means an additional \$3,000,000 in taxes. Traffic jams, therefore, are patriotic, and aren't you glad you did your bit to make them bigger last weekend? —Hamilton Spectator.

Terrace Views and Comments....

By FRANK HEELEY

ardent citizens view the present petition is that of the shack. It is said by those in the know trend to zoning regulations, next to the mansion. What use then is the shack next to many cities throughout the length of Canada are troubled by having had inadequate zoning regulations. This may be quite true. For in the early days it is likely. The thing that matters is that the shack detracts from the beauty of things" people thought, the possible theoretical value of having a shack to live in the mansion. That is one point cause if they don't others are ready to do so.

In Terrace there is now an effort to extend the village and more of the home as large boundaries. This campaign on "investment." Whether right or wrong, this column will have its possible fruition in the future. One boy thought of possible financial gain that perhaps many of our brought to the fore in support of their daily task.

NOT ONE COLD THIS YEAR!

Coughs and colds help drag you down even further when your resistance is low! A good way to help build up your resistance is to take Wampole's Extract of Cod Liver regularly. A favorite health tonic with Canadians for three generations—it's a real "builder"—rich in sunshine vitamin D, mallow, calcium, iron, phosphorus and other minerals necessary for good health. Pleasant tasting too! Contains no oil. Try it.

WIFU Playoffs Settled

Leos 130 Points Out Of Third Spot

By The Canadian Press

The men have been separated from the boys in the Western Interprovincial Football Union after 36 scheduled games.

For all practical purposes, the play-off lineup has been settled. First-place Edmonton Eskimos get a bye. Second-place Saskatchewan Rough Riders play Winnipeg Blue Bombers in the semi-final and British Columbia Lions and Calgary Stampeders wait until next year.

Eskimos defeated Blue Bombers 12-0 in Edmonton Saturday. Marlow, Tom Ford and Pete Thodos. Quarterback Frank Trichuk was the hero in the win. Roughriders trounced the Lions 33-7 in Regina.

British Columbia could still tie the third-place Bombers in a touchdown pass to Ford and points, but are on the short end when it comes to a comparison of points for and against and have an almost non-existent chance of changing the situation. Lions scored a single when a 54-yard punt by Vic Chapman bounced over Carpenter's head.

In the East, Montreal Alouettes routed Toronto Argonauts 43-12 a 36-yard goal line pass to Gil Bartosh in the last quarter and gripped on first place in the Big Four race.

The win kept the Alouettes two points in front of the Hamilton Tiger-Cats who came from behind at the half and 27-1 at the end of the third.

Royals Edge Cougars 4-3 For First Home-Ice Win

By The Canadian Press
New Westminster Royals cracked the win column on home ice for the first time this season while Seattle Americans came from behind to win their contest in the coast division of the Western Hockey League Saturday.

In the Prairie division, Regina took over sole possession of third place as Lucien Dechene hung up his initial shutout of the year.

The Royals edged Victoria Cougars 4-3, Seattle took Vancouver 6-4, Regina beat Saskatoon 2-0 and Winnipeg won over Calgary 5-4 in overtime.

The Royals were forced to

hang on gamely against Victoria as the Cougars unleashed a strong third period attack. The first period was scoreless but New Westminster built up a 3-0 second period lead.

McLEAN GOT WINNER

The Cougars tied it up with three goals in the third but Motto McLean came through for the Royals at 17:30 for the win.

Gord Fashoway, Blinks Boyce and Larry Thibault scored the others for Royals. Colin Kilburn with two and rookie Paul Strasser beat Bev Bentley in the Royal net.

Vancouver took a 2-0 first period lead but the Americans came back with four in the second.

Canucks tied it up with two quick ones in the third by Freddie Brown. Jim Bedard and Rudy Filion sewed up the game for Seattle.

Other Seattle marksmen went to Alex Kuzma, Ollie Dorohov, Bill Bell and John Bownass. Cal Kaiser and Les Liley scored Vancouver's other goals.

In Saskatoon, Regina broke a third place tie with Saskatoon Quakers when Lucien Dechene shut out the Doug Bentley-coached crew.

SENICK SCORED FIRST

George Senick turned on his old teammates to score the first goal early in the second period. Newcomer Norm Johnson made it 2-0 at 17:27 of the same period. Calgary fought with Winnipeg for 3:41 minutes of the overtime session before Paul Masnick drilled one past the Caigary goalie after pulling him out of position.

The win by the Warriors prevented Calgary from pulling even with Edmonton at the top of the Prairie division.

Bill Shvetz led the Stampeders with a brace. Sid Flinney and Steve Willuk connected for the others.

Warriors took a 2-1 first period lead after Caigary opened the scoring and were ahead 3-2 going into the third.

Regina is at Edmonton tonight in the only action scheduled.

Remember When
By The Canadian Press

Hamilton Tigers won the Canadian senior lacrosse championship seven years ago by defeating New Westminster Advances 12-8. That was their third victory in a row after Hamilton had lost the first two of the best-of-five series.

Irvin Gets Rough Treatment On First Trip to Old Home

By RON ANDREWS
Canadian Press Staff Writer

TOOK KICKING POINT

Saskatchewan scored five converted touchdowns, two of them

by Ken Carpenter) and field

goal. End Joe Aguirre collected

and Calgary Stampeders wait

until next year.

Besides Carpenter the touch-

downs were scored by Bobby

Marlow, Tom Ford and Pete

Thodos. Quarterback Frank Tril-

lus had a slim chance to make second

place. Roughriders trounced the

their, while ex-Virginia quarter-

Charlie Harding threw a 58-yard

Forum since he left to take over

12,947 fans at Toronto. Creighton

evened the score as he back-

handed Jack Evans' rebound into

Leafs' net four minutes later.

Both teams were shorthanded a

man at the time. Sloan circled

New York's net to fire home a

waist-high shot at 11:37. There

was no scoring in the middle

period.

LEGAL NOTICE

Fishermen Seeking Aid in Off-Season

VANCOUVER.—A delegation from the United Fishermen & Allied Workers' Union (Ind.) met Deputy Minister of Fisheries George Clark, M.P., the Fisheries Department offices Friday, when union officials stressed the extremely poor fishing season which had been experienced by the 6,000 salmon net fishermen and asked for special measures to alleviate their distress.

First proposal was that the federal government aid fishermen by providing for cash payments comparable to unemployment insurance to all fishermen who find themselves in financial difficulties this winter. The union pointed out the federal government had a major responsibility and could not pass it back to either the province or the municipalities.

Union Secretary Homer Stevens proposed that the Department of Fisheries as well as the Department of Transport and each set of documents in the form of a certified cheque made payable to the Receiver General of Canada. This deposit will be refunded upon return of the drawings and specifications in good condition to the Chief Engineering and Construction Service, Indian Affairs Branch, Department of Citizenship and Immigration, Ottawa, Canada, within one month from the date on which tenders close.

To receive consideration tenders must be submitted on the forms provided and must be accompanied by a certified cheque drawn on a chartered Bank in Canada, payable to the Receiver General of Canada in an amount equal to ten per cent (10%) of the tender price, or Bearer Bonds of Canada or of the Canadian National Railway Company and its constituent companies, as specified in the form of tender.

The Department reserves the right to reject any or all tenders, and the lowest tender will not necessarily be accepted.

LAVAL FORTIER, Deputy Minister, Department of Citizenship and Immigration, October 5, 1955. (249)

49 ARCHIE

SAN FRANCISCO.—San Francisco and the East Bay area was rocked Sunday night with the second, damaging earthquake within seven weeks.

Windows were shattered, telephone lines went dead, statues fell from niches in a chapel, dishes fell from shelves and overhead lights swayed dizzily back and forth.

At Oakland an apartment house fire started soon after the quake and burned to death an 85-year-old woman, Ora Bell. Tom Dolard, a battalion fire chief, estimated damage at \$25,000 and said the fire was "definitely caused by a gas explosion."

Ruth Aldinger, 49, jumped out of a second-story window during the fire and suffered serious injuries.

Oakland firemen also blamed the quake for a \$3,000 house fire. Battalion chief Bernard Dooley said it either cracked gas pipes or extinguished a pilot light, causing an explosion. Manuel Ortega was hit by flying glass.

Dr. Charles Richter at California Institute of Technology said his seismograph at Pasadena rated the tremor at 5.5, "enough to cause damage in the immediate area of source."

Lord Mountbatten Silent On Topic of Royal Romance

MONTREAL ♦ — The tall, handsome man listened intently, what did you expect me to say?" he added with a grin and a jab of his finger.

"There've been many stories. That was a highlight of a about the royal romance dawn arrival today as the wartime hero stepped from a plane and..."

"And you want me to tell you for a brief visit to Canada and all about it?" said Earl Louis the United States, accompanied by his wife Lady Mountbatten, Britain's first sea by his wife Lady Mountbatten.

Uncle of the Duke of Edinburgh, he left no doubt that he wished only to talk in general terms of naval matters, without reference to the reported romance between Princess Margaret and Group Capt. Peter Townsend.

Welcome Lord Mountbatten was Vice-Admiral E. R. Maleney, Canada's chief of naval staff, and other naval officers. Lady Mountbatten, who is Commonwealth head of the St. John Ambulance Brigade, was met by a delegation headed by Margaret MacLaren, Canadian superintendent-in-chief of the organization.

It is the fifth visit to Canada for the Mountbattens, who immediately left by automobile for Ottawa where they will be guests at Government House.

The Mountbattens leave for Washington early Thursday after a busy round of social events and speeches in Ottawa and Kingston, Ont., where the earl will speak at the National Defence College, the Army Staff College and inspect Royal Military College cadets.

Lady Mountbatten said she was delighted to be back in Canada and recalled her brief honeymoon visit at Niagara Falls "oh many years ago." She was sorry not to be able to visit "my beloved Winnipeg."

Lord Mountbatten said his visit is purely routine and that he will talk over naval matters in Canada and the U.S. with top officials. He will meet Prime Minister St. Laurent and Governor-General Massey at Ottawa.

THE QUEEN'S COLOR left and Regimental Color will be presented to the 2nd Battalion, The Royal Canadian Regiment by the Duke of Edinburgh October 17 at Esen, Germany. The ceremonial parade will take place shortly before the unit's return to Canada after service with NATO forces in Europe. (CP from National Defence)

British TV Viewers Puzzled By American Brand of Humor

LONDON ♦ — Invasion of American TV is enlivening Britain's battle between insired and non-commercial television — but really, when should one laugh and when should one just titter?

Some Englishmen, while appreciating the subtleties of the Yankee shows, don't understand the raucous laughter that fills them, think, in the viewer's place.

American comedy films are presented here with the sound effects in belief, sound intact.

Ramadan, Oct. 1, Evening

"This is often a severe trial for these American bellhoppers over a gag that would bring to a Briton only a titter. It's just a difference in sensed humor."

Both the British Broadcasting Corp. and the independent TV network which has been broadcasting, are using some American programs.

Liberace Sundays

BBC, another Sunday night, presents "Ames and Andy," "The

Burns and Allen Show" and "I married Joan."

Independent TV has countered

with the pianist Liberace, who appears on a choice Sunday afternoon slot, "Dinner" and "I Love Lucy."

English versions of American shows like "People Are Funny" have brought sharp criticism.

Kendall McDonald, London Evening News critic, commented:

"A gentleman from the audience mounted the platform in full knowledge that someone might either cover him with whitewash or set fire to his trousers."

"What they did was to pour over him a sort of fish stew ... to the accompaniment of scatological exclamations in the audience. This did not seem a time to prove in any way the contention that people are funny but just that they are rather sad. Or, perhaps, that we laugh at vastly different things."

Difference of Opinion

Liberace has created a wide difference of opinion. Daily Sketch critic Le Poer-Watson summed up his review of the show this way:

"We love him, Liberace, in many moods ... he patted, coaxed with emotion. But I think he ought to be sacked. Not because Mr. Liberace is a wonderful ... musical master. But I have to say a word of warning to the public about all of his 'values.'

BLACKWOOD on BRIDGE

By EASLEY BLACKWOOD

Strip Opponents' Hands Before Surrendering Lead

Of course Mr. Champion knows the importance of the time element in connection with the throw-in play. Before surrendering the lead, he knows it is best to strip from the opponents' hand all cards which they could lead back without damage to their side.

Applying that principle to today's hand, he noted how desirable it would be to have Mr. Meek lead a spade or a club. He was able to arrange that in the following manner.

Mr. Meek opened the king of diamonds. Mr. Abel properly played the jack and Mr. Champion ducked. Next came the queen of diamonds and Mr. Champion won with the ace.

Clearly Mr. Meek could now be thrown in with a third round of diamonds, but before doing that Mr. Champion wisely led out three rounds of hearts, stripping the hand on his left of that suit. On the third heart Mr. Meek dropped the deuce of spades.

NO FINESSE

At this point there were eight tricks in sight—one spade, four hearts, a diamond and two clubs. For his ninth trick Mr. Champion could finesse the queen of spades or the Jack of clubs. He did neither.

Also, he did not cash his fourth heart winner at this stage because he could not spare a diamond from his hand in view of the play he had in mind.

He led a diamond, graciously presenting the lead to Mr. Meek. "Too bad," said Mr. Muzzy, who was kibitzing. "Pulled the wrong card, didn't you?"

"I never pull the wrong card," snapped Mr. Champion modestly. "I merely need a little help from my opponents to make this hand and this is the way to get it."

MR. MEEK LEADS

He was right. Mr. Meek won the diamond lead and cashed two more tricks in the suit. Mr. Champion discarded two spades from dummy and the four of spades and four of clubs from his own hand.

Mr. Meek had two cholers for his next lead, both of them revolting. He could lead a spade into the ace-queen, or he could lead away from his queen of clubs into the King-Jack. He chose the latter and Mr. Champion won three club tricks, the ace of spades and dummy's fourth heart for his contract.

Not so very many years ago, people with a history of certain ailments or diseases were unable to buy the life insurance they needed. Often, this resulted in considerable hardship for their families. But today... thanks to the results of new knowledge and research in controlling diseases, many such people are now accepted by life insurance companies -- and can provide their families with vital financial protection.

This is another example of the many ways in which the life insurance companies in Canada have advanced with the times... offering better service to Canadians in all walks of life!
