TEN MILLION DOLLARS DAMAGE DONE AT REGINA

"WE'D HATE TO HAVE TO, BUT-- WE MAY TAX IMPROVEMENTS"

Mayor and Council Last Night Hold Club Drill for the Benefit of the General Public, With the Protested By-Laws as Background---Mayor Does a "Roosevelt" With the Big Stick

"It seems to me this discussion is a little out of place. We don't know what we are talking about."—Alderman Dybhavn.

After frittering away the best part of the early evening last night in resultless discussion, and their elementary but evidently much needed lesson in the nature and qualities of cements by Mr. London, the City Council warmed up toward midnight and began to talk longer and louder. They got to enquiring about the bylaws which have been protested, and asked the city solicitor how soon they could know definitely whether these bylaws were to stand or not.

Late October Date.
City Solicitor Peters was reluctantly compelled to inform the Council that the soonest date at which he could hope the ordinary legal processes involved in the appeal to quash would be late in October. Alderman Montgomery in a thunderous speech defiantly suggested that the Council should go ahead, ramstam, head down, and carry the bylaws and the matters for which they provide clear through as if there had been no protest. He wanted the debentures advertised in London without bothering the bank, and sold for what they would fetch in open market. Gently but firmly

the city solicitor soothed Alderman Montgomery's bull-of-bashan mood by telling him that with an appeal to quash against their bylaws the debentures would be a drug on the market.

Trot Out the Club.
Then the Mayor made mysterious and woebegone allusions to the task of striking the tax rate which is ahead of the council to be attended to on Thursday in meeting of the full council as Finance committee. The Mayor fears that the taxes will be terrible now the bylaws are hung up and hints dark and dismal were made regarding the taxation of improvements. The Council feared that, however reluctantly, they would be compelled to tax improvements unless the bylaws stood. The Mayor suggests a double barrelled rate covering extra taxation if needed and subject to a rebate should the bylaws get through all right.

Better Have Deficit.
"Rather than have this council go down to history as the first council to tax improvements in this pioneer city, where so much depends on the man who makes improvements, I would have us end our term with a deficit!" boldly declared Alderman Morrissey.
"If the worst comes to the worst, and there is no help for

it, then I fear we must tax improvements, much as we dislike to do it," remarked the Mayor gloomily; and then Alderman Dybhavn, the silent member of council, whose rare utterances are generally full of common sense, said softly: "It seems to me that this discussion is a little out of place. We don't know what we are talking about."
In which opinion a meagre audience seemed heartily to concur.

MONTGOMERY MAKES CHARGES AGAINST THE CITY POLICE FORCE

Holds Mayor Responsible as Chairman of the Police Commission for Alleged Abuse of Authority by Officers Whom He Accuses of Unwarranted Intrusiveness on Peaceable Persons

In the city council last night at a late hour Alderman Montgomery, who seemed to wake up toward midnight, made some severe charges against the police force in Prince Rupert, and to their faces held the Mayor and Alderman Bullock-Webster responsible as police commissioners for the conditions he complained of.

The Charges Made.
Alderman Montgomery rose just as Alderman Bullock-Web-

ster was retiring from the council for the night with a request to be excused. Before Alderman Bullock-Webster could reach the door Alderman Montgomery had stayed him. "I want Alderman Bullock-Webster to hear this," he said. "You bet your life I will," returned the retiring alderman, not at all perturbed. He came back to his seat. Alderman Montgomery then went on fiercely to denounce the city constables as meddlers and interferences with the peace of law abiding citizens, the boarders in certain hotels and rooming houses. He understood that the unwarranted intrusions were made with the deliberate connivance of the Mayor.

A Particular Case.

One case in particular he cited, that of an Indian visitor to the city on Dominion Day who had, unfortunately got intoxicated. This poor man had been taken care of by his wife and family and quietly put to bed to sleep off his debauch. The police had sleuthed him out, hauled him out of bed, forced him to dress and dragged him limply and mandrily protesting in the small hours, to the police cell. It may have been brilliant detective work, but it did not appeal apparently to Alderman Montgomery.

Commissioners' Defense.

The other cases were more general. Alderman Montgomery charged that the rooming houses which he named were subject continually to police raids without rhyme or reason and without warrant. Rooms were entered at all hours and the sleepers in them rudely disturbed. In one recent case Alderman Montgomery said a man thus intruded upon had drawn a gun upon the officer, "and small wonder. I would have done it myself," added the alderman.

In their defense as commissioners, both the Mayor and Alderman Bullock-Webster spoke quietly. The Mayor said that he was not aware that the police were thus intruding, but if they were he believed it was by authority of a magistrate's warrant. He added that in the case of one of the rooming houses named by Alderman Montgomery he would willingly give a search warrant himself at any time, as he thought the premises had at a previous time been insufficiently fined for an offense which frequent search would preclude. Commissioner Bullock-Webster spoke in defense of the commission and vouched for his own and Commissioner Thompson's innocence of complicity in what Alderman Montgomery called "not police prosecution but police persecution." There the matter dropped.

REGINA'S DEATH ROLL THIRTY; TEN MILLION DOLLARS DAMAGE

Regina, July 3.—Search among the ruins for victims of Sunday's storm will continue all today and tonight, although so far no more bodies have been recovered. The death list stands at thirty today. The Federal government and the governments of Manitoba, Alberta and Saskatchewan, with many of the large cities of Canada, have voted large sums of money to aid the sufferers in the stricken city. The fund now reaches well over a hundred thousand dollars. The work of rebuilding is to commence at once, and skilled artisans are greatly in demand. The damage is now estimated at between six and ten million dollars. It is possible that no voting will take place here and that election day, July 11th, will be postponed on account of the disaster.

ANOTHER BIG COLD STORAGE PLANT FOR PRINCE RUPERT

Construction Work Soon to Start on an Undertaking for the Prince Rupert Fish and Cold Storage Company

With a fully paid up capital of \$500,000 and all arrangements about complete for the building of its plant, the Prince Rupert Fish and Cold Storage Company has been organized and successfully financed in Eastern Canada and England, according to the managing director of the

new company, Frank S. Evans, who arrived from London by the Prince George this morning. The officers of the company are, Sir Murland DeG. Evans, Bt., of London, England, president; John Gilbert Beatty, of Toronto, vice president; Hugh A. Philpott, secretary and treasurer; Frank S.

Evans, of Prince Rupert, managing director, and James Bacon, also of this city, general superintendent. The secretary, Mr. Philpott, is expected to arrive in Prince Rupert within two weeks, when plans for a complete modern cold storage plant will be taken up and contracts let for the erection of the buildings.

THE COUNCIL AND CEMENT

Interesting Talk About a Burning Subject of Which More May Be Heard Anon, Though Nothing Was Done Last Night.

Last night the City Council spent a pleasant hour learning about cement. It seems that after all the coil about German Aisen cement ordered for the Acropolis Hill reservoir against Vancouver Brand cement there is not enough Aisen cement on the coast for the job. The Westholme Lumber Company explained that they had had enough in stock at first, but had obliged the Marine department with some, which left them short. M. Albert had hunted high and low for Aisen cement, but failed to find any. He suggested the substitution of Condor cement, imported from the States. Mr. London, who knows a little about cements, told the Council quite a deal last night, but they could not decide definitely to accept the substitute, however excellent the accounts given of the cement. The matter after an hour's discussion was laid on the table while a test is conducted of the Condor brand of cement.

Holiday for Mr. Oakley.

A. C. Oakley has applied for ten days' leave of absence from the City Engineering department. Leave granted.

POWER PLANT PROMISES

Performance of Plant Seems to Fall Short Owing to Failure of Others.

Probably the day load for the supply of power in Prince Rupert will have to be abandoned by the power plant, as apparently the profit calculated upon by Mr. Matthews has dwindled, owing to the fact that some large prospective users of power have gone out of the field. There is apparently some difficulty in settling the rate at which power can be profitably supplied to suit all users, and until a larger number of users come onto the market the plant can be run profitably for power only for a limited number of hours.

Prince George Arrivals.

The Prince George arrived on schedule with about two hundred passengers. The saloon list for Prince Rupert included:

Reynolds, Fred Hobbs, Miss Carson, Mr. Collins, Mr. Gruness, Mr. Fraser, Mr. Holland, Mr. and Mrs. Brown, Mr. Wren, Mrs. and child Richards, Mr. Greenman, Mrs. Greenwood, Miss Keisey, Mr. and Mrs. Davies, S. BRIDGE RIVER GOLD CLAIMS

A Gold Bearing District in This Province Which Has Never Been Given Due Credit Yet May Soon Be Developed.

A gold mining district in British Columbia that has never been given a fair opportunity is that of Bridge River. It is true that for a time prospecting in this field was reasonably active and much territory was "blanketed," but in no instance was development systematically and persistently undertaken. There was reason enough for this, in that the quartz veins or masses, although frequently large, carried low value, probably not averaging 85 a ton, and there was no inexpensive way of taking in supplies or machinery. It is likely, however, that railway extensions will make the Bridge River readily accessible in the near future, in which event some of the quartz veins in the district would be well worth further attention.—B. C. Mining Journal.

CRACKED PIPE IS DELIVERED

Several of the Big Tubes Going to the Pipe Line on Eleventh Avenue Found Faulty—Question of Liability in Council.

Five or six of the pipes shipped for the city water supply have been found cracked on the trench where delivered. They have escaped the vigilance of the men who tested the pipes at the slings of the steamer Director. Alderman Morrissey has detected one or two more which are cracked in the piles at the wharf. Last night the City Council went at length into the question of responsibility for these pipes. Mr. London, of the Balfour, Guthrie Co., expressed willingness to take responsibility for the few found to date cracked on the job though he said this was ex gratia.

Much discussion followed, and eventually it was decided that inspectors should be appointed and the pipe checked and tested for cracks at the wharf and at the point of delivery. Responsibility does not rest, however, with the city for cracked pipe until the pipe is actually in the trench, according to engineers and city solicitor.

PUTS CRIMP IN WELLS

Bombardier Knocked Cold by Most Hopeful Looking "White Hope."

New York, July 1.—Al. Palzer, the local heavyweight with "white hope" aspirations, knocked out Bombardier Wells, the heavyweight champion of England, in the third round of a scheduled ten round bout in Madison Square Garden.

Palzer, who had been knocked down by the Britisher in the opening round, sent Wells to the floor toward the end of the second round and knocked him down twice in the third. Wells was no sooner up the second time than Palzer planted a hard right below the heart. Wells sank to the floor, crumpled up in a heap, and lay there helpless while his seconds threw up the sponge, saving the referee the trouble of counting the man out.

It was a rapid and exciting fight from the start, but Palzer's weight began to tell on the Englishman after the opening round.

DOMINION HOLIDAYS.

In comparison with the incidence of holidays in Britain and other parts of the Empire, the arrangement of the statutory holidays of the Dominion could not well be bettered. In Great Britain the people's holidays are, with one exception, relics of saints' days and holy days, and their occurrence is erratic, taking no note of the weather or seasons. The great church feasts of Easter and Whitsuntide are notable holidays in Great Britain, but sometimes they occur at a time of the year quite unsuitable for outdoor holiday making. From Whitsuntide to Christmas there is but one holiday, namely the first Monday in every August, sometimes known as St. Lubbock's Day, in memory of the scientist whose efforts created it. Canadian holidays, in comparison, are well arranged—Christmas, Victoria Day, Dominion Day, Thanksgiving Day, are all well recognized and suitable holidays. There seems to be considerable misunderstanding and ambiguity in the public mind with reference to the observance of June 3rd, the King's birthday, and employers of labor object with justice to the observance of three holidays so close together as May 24th, June 3rd and July 1st, at the busiest time of the whole year. Victoria Day, originally established in memory of the greatest Queen who ever sat upon the throne of the Empire, the first Queen-Empress, has become an established part of the life of Canada. It is today associated with Empire Day, with the imperial idea. By all means let its observance be perpetuated and strengthened, so that round it may grow all the associations so dear to the Briton, be he from the homeland or from over the seas. But the attempt to make a regular public holiday of the King's birthday is a mistake, and will result in blurring the great memories bound up with Victoria Day, and but a half hearted observance of the King's birthday, which, in the natural course of events, will some other day yield place to the natal day of another king. In Great Britain the observance of the King's birthday means merely the closing of the law courts, the trooping of the colors and other purely formal observances connected with the King's position as the head of the army and navy, and the embodiment of the supreme power of the realm. It would be a thousand pities to disturb the present most admirable arrangement of Canadian holidays—May 24th, the feast of our imperial associations; July 1st, the natal feast of our national entity, and Thanksgiving Day, the very name of which signifies its own intent.—Canadian Mining Journal.

**LITTLE ALF. SHRUBB WANTS
A RUN AT HIS OWN DISTANCE**

THOUGH FORCED TO LEAVE THE TRACK IN THE FAMOUS FIFTEEN MILE WITH LONGBOAT, THE PLUCKY CHAMPION IS GAME FOR EVENT THAT WILL ATTRACT WORLD NOTICE.

The man who feels his defeat of Saturday night at the Island Stadium is Alfred Shrubbs, the idol of all English followers of athletics. The little Englishman did everything but cry when he broke down at the Stadium, yet at that he was game enough to come out and congratulate the victorious Indian and say to the crowd: "Longboat is the greatest living fifteen miler." He followed that up by letters to the newspapers congratulating the Onondaga wonder.

"I had intended Saturday night's race to be my last one," he said today. "I felt in such good shape and had shown such grand trials in my training and in my races at Springfield and Port Perry that I felt that I could go out and just about win that race. At any rate, I expected to lead that bunch such a merry dance for ten miles that my own world's record of 50:40 3-5 would be equalled once again, but just as I was feeling like forcing the pace my ankle gave out and I was like a man with crutches, and instead of winning in a blaze of glory I had to quit the track.

"There is just one thing I want and I think my record entitles me to it, and that is a crack in that fellows at my own distance. I

have raced Longboat, Wood, Queal, St. Yves, Svanberg, Johansen, Ljungstrom and the entire outfit of them at their own distances, and they have won fame by meeting me—a world's champion. Now I want them to give me some consideration. I want them to meet me at five miles, a distance I know I can step at my best speed. Just say for me that I will meet any man in the world at five miles and run him in two weeks, here or any place on the continent, providing a suitable purse is hung up."

Shrubbs is right. He is entitled to consideration at five miles. A race with Shrubbs, Queal, Wood, Longboat, Abbie Wood of Montreal, Smallwood, St. Yves, Al. Raines, Svanberg and other flyers in would be a clincher. It would be a battle of giants, and it would not be surprising if Shrubbs' marvelous world's record of 24:33 2-5, made eight years ago, would be upset.

Shrubbs ran it in 25:19 with Wood, Queal and the Indian on his heels Saturday night. If they all ran themselves out, as they would have to do with Shrubbs in the race, the record would get a severe shaking. At any rate, it would be a race that would draw a record crowd.

Warship Builder Tells of Great Danger of War at Early Date—Germany Held Off Merely by Strength of British Navy.

Port Arthur, June 30.—That Great Britain's naval strength is the only factor which prevents war between Germany and Great Britain was the statement made here recently by James N. Vickers, of the firm which makes nearly all of Britain's dreadnoughts and heavy ordnance. This was coupled with admission that relations between the two countries are undoubtedly strained, and no better than represented in British despatches. The dreadnoughts on the stocks for Great Britain now are none too many. Mr. Vickers thought that war would never be while England maintained her present policy of two power strength. Mr. Vickers was here with the British manufacturers.

**THE MINING OUTLOOK NOW
THROUGH BRITISH COLUMBIA**

REPORT BY E. JACOBS OF VICTORIA ON VARIOUS MINERAL GETTING CONCERNS IS VERY FAVORABLE.—AN INCREASED OUTPUT MAY BE EXPECTED FROM MINES THIS YEAR.

The following review and forecast of mining operations and mineral production in British Columbia in 1912 has been prepared by Mr. E. Jacobs, of Victoria:

"The outlook for mining in British Columbia for the current year is more promising than has been the case at the corresponding period of any of several recent years, as the following summary will indicate.

"Hydraulic operations for the recovery of placer gold give promise of being larger on the whole than for some years, for, in addition to those in Atlin division of Cassiar district and Cariboo division of Cariboo district, there are those of the Quesnelle Hydraulic Gold Mining Company in Quesnel division, Cariboo, which company has not heretofore been a producer of gold.

"Lode gold mining has had the addition of the operations of the Motherlode Sheep Creek Mining Company, which commenced crushing early in May; beside which the Hedley Gold Mining Company may be expected to considerably increase its output this year, its tonnage for the first three months of the year having shown an increase of fully 35 per cent.—16,974 tons this year, as compared with 12,559 tons to April 1, 1911—and an almost proportionate increase in net profit, the average of which, in 1911, was \$5.34 per ton of ore milled.

"Silver and lead, also, will probably show an appreciable large increase, for the Sullivan mine, in East Kootenay, promises to be in considerable measure compensate for the loss of output of lead caused by the closing of the St. Eugene mine, while at Ainsworth division, the Blue Bell and some smaller mines also non-productive in 1911, are on this year's list of producers, and the Slocan will have the Rambler-Cariboo, Rio, Slocan Star, Stan-

dard, and several others, to increase its productions of both silver and lead.

"Then, the larger copper mines, namely, Granby, British Columbia, Copper, and Britannia—are expected to make an enlarged output of copper, and will also add their quota of silver and gold, which is associated with copper in the mines of the first and second of these, and in smaller degree in the last mentioned.

Keep Out the Weeds

Weeds unchecked will ruin the crop.

It isn't sufficient to plough and sow well in Spring and Fall and leave the rest to nature.

There are weeds to fight.

There are weeds in Business, too—weeds of competition and opposition—of public indifference from without, and of lack of enterprise from within—weeds that unchecked seriously retard business growth.

Cultivation is the only effective weed-killer. Keep cultivating and the weeds never get a chance to thrive.

There is a combination plough and harrow, fertilizer and spray, for every business—an effective weed-killer that will keep out the weeds.

It is Advertising

It is not enough to plough and sow well with advertisements in Spring and Fall and leave the rest to human nature.

Human nature and the respect your customers bear you are not proof against the Summer weeds that can thrive on rest and apathy.

You must keep busy in the hot weather—you must keep cultivating.

JUDGE PARKER STRONG FOR RECIPROCITY WITH CANADA

BIG DEMOCRAT SAYS RECIPROCITY WOULD BE OF BENEFIT TO BOTH COUNTRIES AND BELIEVES MISS CANADA MAY YET CHANGE HER MIND ON THE MATTER.

Judge Parker, former candidate for president, and who won out in his fight against William J. Bryan for the chairmanship of the Baltimore convention, in his keynote speech favors reciprocity, says it would reduce the cost of living in both Canada and the United States and believes that on sober second thought will induce the Canadian people to reconsider their action of last year.

"The temporary failure, owing to the action of the electorate of Canada, of the effort to effectuate reciprocity with that country is regrettable. The agreement proposed was in the interest of the people of both countries.

"Its immediate and laudable purpose was to lessen the cost of living in each country.

"Whether the mutual advantage of our respective people shall be appreciated by our neighbors across the border, the consciousness with which we took the right course should content us. In all probability, however, the sober second thought of the people of Canada will induce reconsideration of their action last year. The temporary reduction of the duty on cement by the Canadian opponents of reciprocity is significant of the results that in due course may be expected.

"All honor to the Democratic House which stood for the good of the nation as a whole and prevented the repeal of the reciprocity act, thus leaving the door open to Canada if her people shall later elect to accept our proposition."

PASTOR HAS WHOLESOME HORROR OF POLYGAMISTS

MORMONS GREAT "MENACE TO CIVILIZATION" DECLARES REV. W. D. REID—TWENTY THOUSAND ARE IN SOUTHERN ALBERTA EXTENDING THEIR INFLUENCE.

Montreal, June 30.—"Every farm that is put up for sale in Southern Alberta is bought by the Mormons," said Rev. W. D. Reid in the course of an address to the committee of ministers who have been appointed by the Ministerial Association of Montreal to examine the Mormon question, Mr. Reid has just returned from Alberta, where he was superintendent of missions for the Presbyterian Church, to take the pulpit of the Stanley Street Church here.

Mr. Reid said he knew the Mormons at close range and they were a great menace to the civilization of the present time. There are 20,000 Mormons in South Alberta. The little town of Raymond alone sent out thirty missionaries to Great Britain and the Mormons claim that they have 800 missionaries at work in Great Britain today. Their converts are coming in through the port of Montreal at the rate of 100 a week and something should be done in the matter. It was announced at the meeting that this morning ninety-three converts had landed in the city.

BIG STRIKE OF CLEAN COPPER ON BONANZAA CLAIM, GRANBY

PROPERTY BELONGS TO HENRY DOYLE OF MILL BAY—GRANBY SMELTER CO. HAS BONDED IT FOR NEARLY HALF MILLION AND WILL DO DIAMOND DRILL WORK AT ONCE.

Rev. Father Hartman, who has just returned from a nine day trip to Granby Bay, Alice Arm and vicinity, brings news of the latest wonderful discovery of copper ore at Granby Bay. On the property belonging to Henry Doyle, of the Mill Bay Cannery, and his associates, miners while engaged in carrying on assessment work on the claims which are known as the Bonanza group, a huge outcropping of first class copper ore over 250 feet wide was uncovered. This tremendous ore body is said to be clean copper ore of exceptional value from wall to wall. On the Bonanza claims several tunnels already driven have disclosed ore bodies of good value, but not of the extent of the present discovery measures up.

new discovery by diamond drills and by driving tunnels into the mountain on the ore. The Bonanza properties are located two miles from the Granby Company's mines.

Father Hartman said that the Granby Bay country was one of immense potentialities, and that before another year had elapsed a very large output could be expected. He said that the Government would commence the erection of a wharf at Bonanza point within a week or so. This is the spot where the townsite of Frank McKinnon is located. The hotel of McKinnon's is a good one with ample accommodation for travellers, and a launch runs regularly from there to the Granby Company's dock. Father Hartman says that Mr. McMordeie, of Prince Rupert, has a contract for a new dock for the Granby Company, work upon which will start this week.

At Alice Arm good mineral showings exist in many of the properties. One property has a streak of silver ore said to assay from \$1500 to \$2000 per ton.

FAIR PLAY WANTED

Kitsumkalem Lake Settlers Urgently Need a Road.

To the Editor:

Sir: There seems to be a great deal of agitation of the road question now. There also seems to be a determination to expend the most of road appropriations in favored localities. So the Kitsumkalem Lake Settlers' Association are wondering why the upper valley is so quietly ignored in the matter of roads. We have been told by those who seem to know that if our name had been Conservative instead of Settlers' Association we would have been able to demand a road over which we could safely travel at last.

As it is, we are put on a level with Siwash and compelled to do our freighting with boats, at the risk of our lives or abandon our claims in disgust.

One member of our association, Alvin Gabler, has lost his life while trying to get in provisions, and Fire Warden Fred Vincent had a narrow escape from drowning while on his way to the head of the lake, where a forest fire was raging. The wind came up suddenly and upset his canoe, throwing him into the water. Fortunately, he was near the shore at a point of low land and was able to get to shore, but there are many places along the lake that are rock bluffs, affording no landing place in case of accident. That is why the lake shore road is so very necessary to the people living at the north end of the lake.

Why does one place get so much money for road work where it is not needed, and why are only a favored few employed on this work in order to make a long job for some foreman and friends, while other men, bona fide settlers, must seek work at some distant point? It doesn't look fair, and I think many of those men will recall these facts when the polling time comes around again and will be more careful whose cigars they smoke.

MRS. ANNIE ROSS, Sec.-Treas. Kitsumkalem Lake Settlers' Association.

ANOTHER PRETTY WEDDING

Miss Olga Wesch Becomes Bride of Mr. Charles E. Nicholls.

In the Anglican Church on Saturday evening at 9 o'clock Bishop Du Vernet solemnized the marriage of Miss Olga Wesch to Mr. Charles Ernest Nicholls.

The bride wore a dainty gown of pink silk and carried a bouquet of roses. Mr. and Mrs. Ballinger attended as groomsmen and maid of honor, and a large attendance of friends filled the church.

Miss Wesch came from Lunden, Germany, some time ago to reside in Rupert, and is very popular. Mr. Nicholls, who came from Wichita, Kansas, is well known and well liked. Congratulations are coming to both, and to the Pioneer Laundry, which in this case again reveals its matrimonial propensity in connection with this wedding. The bride was a valued employee there.

ALBERNI

A GREAT SEAPORT IN THE MAKING!

Only When Canada Stops Growing Will Investors Cease to Make Money on Land

Do you think Canada is going to stop growing soon? No, of course not. She has only fairly started.

And as Canada grows so must new centres of population develop.

The place for the investor to make big profits is in some town or city where development is inevitable.

Take Alberni for Instance

Alberni is as certain to become a large shipping centre as was Vancouver. Situated on the west coast of Vancouver Island—some eight to twenty-four hours nearer the east than is Vancouver—Alberni will shortly see the largest boats of the Pacific docking at her waterfront.

With the Canadian Pacific Railway already there, and the Canadian Northern Railway rushing its tracks toward the city as fast as possible.

Alberni will develop within the next year in a way that will surprise you all.

Your chance to buy a lot in Alberni is something which you cannot afford to overlook.

We do not ask you to buy because of the few reasons we have given above.

But we do want you to get our new booklet about Alberni. It is handsomely illustrated and will tell you about Alberni in a way that is convincing. Get it today.

Lots can now be bought for \$150 on easy terms. See us and talk it over.

A Fast Disappearing Opportunity

To get in on the ground floor at FORT GEORGE.

Why will Fort George inevitably grow to be a great city?

Because of its strategic location that assures her of a GREAT FUTURE as a distributing centre.

Because there is the centre of the richest mining district in America—the CARIBOON DISTRICT.

Because of great areas of TIMBER, 1,100 MILES OF NAVIGABLE WATERS, EXCELLENT WATER POWERS, are tributary to Fort George.

Because all the grain of Alberta and Saskatchewan shall be exported through the Panama Canal, which means that all that grain shall have to come to Fort George before reaching either Prince Rupert or Vancouver.

Because Fort George has a better strategic location than Spokane and is the GATEWAY to the Pacific coast of the PEACE RIVER COUNTRY, which covers an area of 3,000,000 acres of the best agricultural lands in Canada.

Within a few years Fort George will be where Vancouver and Winnipeg are today. This is the time to act. The man with a prompt decision is the man who wins, and you have everything to win if you buy right now, because this summer will see a great advance in the price of land and the prices will advance rapidly.
