## FIGHT EXTRA--JOHNSON AWARDED THE DECISION

### GREAT MEN IN RAIL CIRCLES SET OUT ON TOUR OF WEST

**Hon. Frank Cochrane, Minister of Railways, and Commission of Distinguished Men Appointed to Investigate G.T.P. Transcontinental, Have Reached Winnipeg on Their Way to Prince Rupert---President Chamberlin Precedes Party on a Personal Tour of Inspection**

(Special to Daily News.)  
Winnipeg, July 4.—The Hon. F. Cochrane, minister of railways, arrived in the city accompanied by George Staunton and F. P. Gutelius, the commission appointed to investigate transcontinental. Major Leonard, chairman of the Transcontinental, Railway Commission; Gordon Grant, chief engineer of the road, and G. W. Yates, the minister's private secretary, accompany them. The party is making an extended tour of the west as far as Prince Rupert with a multiplicity of objects.

**Inspect G. T. P.**  
Among them will be the thorough inspection of the Transcontinental by the minister and investigation commission. The party leaves Friday for Edmonton and Prince Rupert, returning to Winnipeg probably by way of the Crow's Nest Pass Railway. From this city they depart for the north to give Hon. F. Cochrane the opportunity of deciding the respective merits of Churchill and Nelson as the terminus for the Hudson Bay line.

Winnipeg, July 4.—E. J. Chamberlin, president of the Grand Trunk Pacific Railway, left for the western parts of the system

today on a tour of inspection. He was accompanied by M. Donaldson, the new general superintendent. Questioned before his departure as to what new work would be done in the west this year, Mr. Chamberlin replied: "We have as much on hand now as we can complete. You see, at the close of the year we had 600 miles of grade on which to lay steel, and this will all be finished this year. We have also another one hundred miles of the grade ready, but it is doubtful if we can get in material to complete it this season." Mr. Chamberlin said he intended to go with Mr. Donaldson as far as the end of steel. Mr. Donaldson will then go on to the Pacific coast, while the president will return to the Atlantic coast.

**Boxers Are Rematched.**  
Calgary, July 4.—"Billy" Allen of Ottawa and "Joe" Bailey of Victoria have signed articles for the Canadian lightweight championship. Considerable dissatisfaction was caused by "Tommy" Burns's decision, awarding the fight to Bailey, and when Allen clamored for another chance, Burns secured the signatures of both principals. The fight will be for fifteen rounds and will take place near Calgary during the first week in September.

### JOHNSON BEATS FLYNN IN THE NINTH ROUND

**Fight Stopped Owing to the Disgraceful Fouling on Part of Both Fighters**

**Rounds 1 and 2**—All Johnson's. **Round 3**—All Johnson's. Flynn got in several slight blows to stomach, but was badly cut about face. **Round 4**—Johnson's, with Flynn finishing hard. It is evident that the champion is holding himself in check. Flynn gave a solid left to jaw and put the champion against the ropes at the end of the round. **Round 5**—Johnson kept up a running conversation with his wife and had his stomach covered against Flynn. The round was all Johnson's. **Round 6**—Flynn butted with his head three times and was warned by the referee. Johnson sent in a right and left to body and one straight to Flynn's head. **Round 7**—Johnson plays with Flynn as with a kitten and buffets him about the ring, obviously not trying for a knockout. Flynn misses left uppercut and receives three in return. Blows right in Flynn's face, which is a pitiful sight as he goes to the corner. Johnson's round.

**Rounds 8 and 9**—Johnson's. Both fighters using foul tactics. Captain Coles in explaining his action in stopping the fight in the ninth round said: "I stopped the fight because it was no longer a boxing contest nor even a prize fight. It had become degrading and brutal and Flynn was doing too much fouling." Ed. Smith declared both fighters were fouling, but Flynn was the worst. "After Coles' interference," he said, "I could do nothing but award the fight to Johnson."

**Official Decision.**  
Johnson won the fight in the ninth round when the police stopped the battle. Flynn was in a helpless condition. Johnson's round after round, landed on him at will and at no stage did Flynn have any chance. Johnson is officially declared the winner.

**PRINCE RUPERT TWENTY MINUTES AGO**  
Weather fairs up specially to keep the fireworks dry for celebration of the glorious Fourth by young America in Rupert. Everybody wondering if Alderman Montgomery will make his charges against the police force stick at the Police Board meeting.  
Rival wired attractions, Rivers-Wolgaast bout and Johnson-Flynn fight, drawing their respective crowds on Third avenue. Merely Mabel says she's no political chameleon, but she's quite ready to welcome Sir Richard as at least a man whom the King hath delighted to honor.

#### SUSTAINS LICENSE BOARD.

The application of Mr. E. J. Maynard for mandamus to compel the local board of license commissioners to renew his bottle license has been dismissed by Mr. Justice Morrison, with costs.

### FIRST FLASH: FIGHTERS FACE

Vancouver, July 4.—Johnson entered the ring at 2:36 p. m. Flynn is in his tent. Flynn entered the ring at 2:37 amid tremendous applause. Johnson received very little of it.

Johnson was accompanied by Watson Burns, Tom Flanagan, Marty Cutler, George Debray and Job Watson.  
Al. Palzer wired a challenge to the winner, saying he had posted \$5,000 forfeit in Cincinnati. Luther McCarthy wired Flynn a win or lose challenge, the fight to be in New York, if accepted.

### CONGRESS OF WORLD KNOWN EXPERTS TO VISIT RUPERT

**Mineral Resources of the Territory Adjacent to Prince Rupert and Hazelton to be Investigated Specially by Members of the International Geological Congress---First Visit of World Recognized Association to Canada---Importance of Rupert's Tributary District Acknowledged**

For the first time in history the Dominion of Canada is to be visited specially by the members of the International Geological Congress. This is an important event for the Dominion and for those districts and cities of it specially selected for excursions of the congress, as the congress is composed of men whose opinions are of world value and whose attention to any district of Canada is in itself a compliment to the importance of the place. Prince Rupert is included in the program of special geological excursions by the congress. The mineral formations and wealth of

our own tributary territory are to be investigated by experts of the world. Following is the extract from the program covering this district:

**Prince Rupert and Skeena River.**  
Starting from Vancouver, this excursion permits of a sea voyage of five hundred miles along the west coast of British Columbia, which is notable for its mountains and floods. From Prince Rupert, the terminus of the Grand Trunk Pacific Railway, the journey will be made by rail up the Skeena River valley to Hazelton.

Since the first meeting of the congress in Paris in 1878, meetings have been held in Italy, Germany, England, the United States of America, Switzerland, Russia, Austria, Mexico and Sweden. At the last congress, held in Stockholm in 1910, there was an attendance of 850, and it is expected that this number will be exceeded in Canada next year.

Geologists from every quarter of the globe will attend the congress, and for many it will be their first visit to Canada. They will include professors from the leading universities and mining schools, officers of the various government geological surveys and mining departments and geologists and mining engineers in private practice.

#### Prince Rupert Particularly.

The value of the annual mineral output of Canada has steadily increased year by year for the last thirty years and is now over one hundred million dollars. Considering, however, the known resources and the enormous territory whose resources are unknown, this output is small, and Canada needs more men and more money for prospecting, development and operation. This she can best secure by attracting, not the general public, but those people whose business it is to engage in such industries and who understand their management. Geologists and mining engineers are obviously those best able to influence opinion in their own countries on the subject in which they are recognized authorities, hence the opportunity afforded by the meeting in Canada of so many eminent specialists should not be neglected.

Every effort should be made to show to the world that while our known mineral resources are large, we have an immense undeveloped territory awaiting the advent of the trained prospector. It is this aspect which makes the visit so important to Prince Rupert.

### DEMOCRATS CHOOSE WOODROW WILSON

Baltimore, Md., July 3.—On the forty-sixth ballot the Democratic National Convention decided on Governor Woodrow Wilson of New Jersey as Democratic presidential candidate for the United States. Underwood withdrew and Champ Clark magnanimously released his supporters so that the majority rolled up for Wilson was a large one. The New York delegates moved that the nomination be made unanimous, and there was no opposition to the idea. The result of the forty-sixth ballot was: Wilson, 990; Clark, 84; Harmon 12. Absent delegates, 2. Governor Marshall of Indiana was chosen for vice president on the fourth ballot.

A meeting has been announced for Friday evening at 8 o'clock in the police court room, when citizens interested and of all shades of political opinion will unite in discussing arrangements for a celebration or welcome which will do Prince Rupert credit and be remembered by the Premier.

### BALL CARTRIDGES SERVED OUT AT CAMP OF SOLDIERS

**WONDER IS THAT MANY WERE NOT KILLED—HOLDING ENQUIRY TO FIND OUT HOW MISTAKE WAS MADE—MANY MEN IN PERIL FROM FLYING BULLETS.**

Kingston, July 1.—Through some mistake ball ammunition was served to members of the Eighth and Ninth Brigade regiments at Barriefield camp this afternoon. It was nothing less than a miracle that there were not a number of men killed. The only reason given for the mistake is that, perhaps, the ammunition came through the stores department with the wrong label.

Colonel the Hon. Sam Hughes was on his way out of the camp grounds for the railway station when the bullets whistled through the ranks.

The affair caused a big sensation, and those in charge of the camp were anxious that nothing be said about the episode. Captain Prideaux is president of the court of enquiry. No announcement has yet been made by it.

For sale—Best buy in Section 1, lots 1 and 2, block 2, double corner on lane, \$15,500; \$6,500 cash, balance 1 and 2 years at 7%. Bainter & Sloan, Phone 387.

New York, July 3.—The highest price, according to dealers, ever paid for food cattle in this part of the country was paid the other day for a carload of live beefs, sixteen in all, at the stock yards in Jersey City. A slaughterer paid for the lot the rate of \$9.50 per hundred, live weight, just as the cattle stood in the cars. The animals had been grown in the west and fattened at Lancaster, Pa.

## WHEN THE COMMISSION COMES WEST.

It cannot be too strongly realized by the boards of trade throughout the west that they have a duty to perform in arranging to have convincing proof furnished to the Railway Commission at every point it visits that there is a solidly united and determined west behind the demand for just railway rates. The points in the west at which the Commission will sit, and the dates, as set forth in an Ottawa despatch are as follows:

Fort William, Wednesday, July 17; Winnipeg, Thursday, July 18; Moose Jaw, Saturday, July 20; Regina, Monday, July 22; Saskatoon, Tuesday, July 23; Edmonton, Wednesday, July 24; Calgary, Thursday, July 25; Vancouver, Saturday, July 27; Victoria, Tuesday, July 30.

The western rates investigation has for some time been in the stage where it is the railway companies' move. By the last judgment of the Commission pronounced by Judge Mabee, Mr. Cowan was declared to have established that the whole existing scale of western rates is discriminatory against the west and that, therefore, under Section 77 of the Railway Act the railway companies must show cause why the discrimination shall not be done away with by an order of the Commission for a complete revision of the rates. Mr. Cowan also established, from the official figures furnished under oath by the railway companies themselves, that the cost of operation is lower, not higher, in the prairie provinces than in the east.

It is stated that "these western hearings may reveal certain traffic conditions which may be of value later in the formation of a judgment." What every Western Canadian has reason to desire with all earnestness is that everything which can in any way possibly assist in the clearing up of the whole question of western rates shall be brought to light. The surest way—in fact, the only way—toward the securing of just treatment of the public by the railways is the way of absolute publicity in regard to the traffic conditions and all the other workings, the expenditures, the revenues, the accounts and everything else there is to be found out in regard to these most important of public utilities.

What the west desires is the full daylight of publicity upon all these matters, so that the Commission can see its way clearly to the enforcement of a square deal, placing the rates from end to end of the whole country on the basis of justice to all with discrimination for none. It is for the boards of trade throughout the west to frustrate any strategic attempt on the part of the cunning, adroit and craft corporation counsel to make it appear that in this demand for justice the people of Western Canada are not standing shoulder to shoulder, without distinction of section. All that the west wants is a square deal; and that is what all the west wants.

## BOY'S SILENT PLEADING GAINS FATHER LIBERTY

**LITTLE FELLOW TUGS AT FATHER'S HAND IN POLICE COURT AND THE MAGISTRATE SETS MAN FREE—STRENGTH OF APPEAL IN LITTLE LAD'S SILENCE.**

An incident with a pathos which rarely creeps into the routine of the Toronto police court was found the other morning when a 10-year-old boy presented himself before the officials to plead for his father. The man was Alexander Bain. He had been intoxicated and was in a condition which Magistrate Ellis wouldn't usually excuse, but the court couldn't resist the appeal of the child, whose strongest point was that he said nothing.

Bain had been mugged up by a

street car, he was scarred, his clothes were blood stained and generally he wasn't a pretty sight, but that didn't prevent the boy seizing his hand and tugging at it.

"For the sake of the boy," the magistrate suggested, with more than usual mildness, and as far as the couple could be seen from the court room door, the boy was the leader of the man.

Orangemen Lent Hall to Catholic Priest

Montreal, July 2—A happy exchange of courtesies between Orangemen and Roman Catholics has been unearthed at Waterville, Que. The Catholic church was burned down, and the Orangemen then offered the use of their hall to the local priest for services. The offer was gladly accepted, and mass was celebrated there for a considerable period.

The incident was related by W. Galbraith, Past Provincial Grand Master of the Orange Lodge who was jollied by his friends after he had been seen walking down the street in cordial conversation with Rev. Father Choquette, the priest at Waterville.

President of Seamen's and Firemen's Union Wins Applause at Gathering at Victoria

Victoria, July 4—An illustration of how to conduct a public meeting was afforded here by Mr. Havelock Wilson, president of the Seamen's and Firemen's Union of Great Britain.

Mr. Wilson's speech was interrupted several times by a member of the audience, who insisted on asking questions. Finally Mr. Wilson became annoyed.

"I know you, Jack Brown," he said, "I'm going to call you by name."

Then Mr. Wilson came down from the platform, clutched his friend, ran him down the length of the room and threw him into the street. The audience greeted these proceedings with great applause and there was no more trouble.

**THE AUTO FIEND**

Awful Slaughter on the Streets of London.

London, July 3.—The fatal accident to the Rev. Elmer Weld in Cockspur street a few days ago has drawn attention to the ever increasing number of accidents caused by mechanically propelled vehicles. In the streets of London last year there were 410 killed and 14,254 injured.

Certain places have become veritable death traps, especially for the old and infirm.

Some of the local authorities have provided subways at busy crossings, but it is curious how unwilling pedestrians are to make use of them.

**FAKE TROPHY**

That Quebec Gun Wasn't Captured at All.

Quebec, July 3—An interesting letter in connection with the Bunker Hill gun has just been written to a local paper by Colonel Neilson, the President of the Quebec Literary Society and Historical Society. He says the gun was not captured at Bunker Hill, but always belonged to the British.

The idea that it was taken in war was given out so as to make it interesting to American visitors.

**HONEST HOBBO!**

From Blind Baggage to a Motor Cycle

St. Thomas, July 3—C. Briery, of Detroit, while passing through St. Thomas the other day on a motor cycle dropped into the city hall and paid Treasurer 45 cents to cover cost of railway ticket issued him by the city on July 16, 1900. Brierly at that time was taken off a freight train on which he was stealing a ride, but appealed to the city for aid, and a ticket to London was given him.

**IF.**

If all the noisy candidates who took the brazen horn—if all of these and kindred skates were busy plowing corn, we wouldn't need to fret and fuss about the nation's good; prosperity, as never yet, would rule our neighborhood. If tariff thinkers and the like would drop their futile loads, and work with shovels on the pike, we'd have the finest roads! Then every town would prosper well, the people'd sing a song, and merry as a marriage bell the world would roll along! If all the loafing Jims and Jakes who on the corners stand, would fix themselves with hoes and rakes and cultivate the land, a million wives who wash and scrub and carry in the wood, might say farewell to mop and tub, and live as matrons should. And ragged children, short of seeds, their cheeks by famine thinned, might live in comfort if their dads would just cut out the wind. If all the men who take a horn some empty times a day, would just pass up J. Barleycorn and walk the sober way, sidestepping joints where lager foams to tempt the thirsty boy, then in a million darkened homes the wives would weep for joy.

### OKANAGAN'S GREATEST CROP

Demand for Fruit Farming Labor in B. C. is Most Pronounced in the Okanagan, Which Expects a Bumper Crop This Season.

As a result of an enquiry conducted by the British Columbia Fruit Growers' Association throughout the various fruit districts of the province, asking what labor would be required for the current year, it is of interest to note that the fruit districts are much more thoroughly supplied with labor than was the case two years ago, when the last general enquiry was instituted. At that time fruit growers made application for 1,450 men, as a result of the present enquiry they have asked for only 300.

Wages in the fruit districts have advanced slightly in two years and the conditions of the working man have also improved in that fruit growers are more generally supplying comfortable lodgings and suitable board. From the enquiry it was learned by the British Columbia Fruit Growers' Association that on Vancouver Island and in the lower mainland suitable help can be secured with little difficulty without any special effort on the part of organizations for the purpose. It is true, however, that in these districts the Chinese and Japanese to some extent receive the preference over white men. The Okanagan, which will have the largest crop of fruit in its history this year, has made the most enquiries for labor, and it is evident that there will be suitable employment for men adapted to the work of harvesting and handling fruit.

### CORD OF POTATOES

Novel Feature of International Dry Farmed Products Exposition.

Lethbridge, Alta., July 4.—One of the most novel features ever shown at a fair or exposition will be the display made by the united commercial clubs of Stevens County, Washington, at the Dry Farmed Products Exposition next October, when a pile of mammoth potatoes, perfect in size and enormous in dimensions and weight, will be shown in the form of a cord. It is already planned to bring to Lethbridge sufficient of these spuds to stack like wood. An ingenious method has been devised to keep them in such shape as to cause people to wonder.

### CHARMING CHOCOLATIERE

Mrs. W. E. Williams Entertains in Honor of Mrs. Andrews.

A charming "at home" was held yesterday afternoon by Mrs. W. E. Williams in her residence on Borden street. The occasion was arranged in honor of Mrs. Andrews, who is at present the guest of Mrs. Williams. A large number of Mrs. Williams' friends attended and the at home, which took the form of a "chocolatier" in the latest fashion, was much enjoyed and very favorably commented upon.

### A Fast Disappearing Opportunity

To get in on the ground floor at FORT GEORGE. Why will Fort George inevitably grow to be a great city? Because of its strategic location that assures her of a GREAT FUTURE as a distributing centre. Because there is the centre of the richest mining district in America—the CARIBOO DISTRICT. Because there are 250,000 acres of good agricultural lands, open for pre-emption. Because of all the railroad that are building or that have got their charter to build through Fort George. Because all the grain of Alberta and Saskatchewan shall be exported through the Panama Canal, which means that all that grain shall have to come to Fort George before reaching either Prince Rupert or Vancouver.

Because Fort George has a better strategic location than Spokane and is the GATEWAY to the Pacific coast of the PEACE RIVER COUNTRY, which covers an area of 3,000,000 acres of the best agricultural land in Canada. Within a few years Fort George will be where Vancouver and Winnipeg are today. This is the time to act. The man who will make a fortune is the man who wins, and you have everything to win if you buy right now, because this summer will see a great activity at Fort George and the prices will advance rapidly.
