POLICE COMMISSION HEARS CITY SOLICITOR ON INDIANS

AS CHAIRMAN OF THE BOARD MAYOR NEWTON DESIRES INFORMATION TO HELP HIM REFUTE THE CHARGES LAID AGAINST POLICE BY ALDERMAN MONTGOMERY.

At the meeting of the Police Commission yesterday after the usual routine business had been done, the usual report on the general good behavior of the city and the little list of peccadilloes and fines dispensed with, the Mayor as chairman of the commission considered the charges made against the police force by Alderman Montgomery at the last meeting of the Council and consulted the city solicitor on the matter. It turns out that the constable who arrested the Indian for being drunk in bed at midnight was not a city constable, but Pat Phillipson, the Dominion constable, employed specially to look after Indian behavior in the district. It was also stated that the Indian in question had been noisy enough to warrant his arrest. There was a long discussion as to the rights

DEATH WON RACE AT THE WHARF

Lee Hong, Sick Chinaman Being Hurried to Hospital from Naden Harbor, Succumbed Shortly After Landing from Boat.

A poor Chinaman named Lee Hong passed away quietly on his stretcher at the wharf last night. He had been ill for about a week at Naden Harbor whaling station,

where he was formerly employed. As his complaint was beyond the skill of his mates there, and of the management. He was hurried to Rupert general hospital by the first boat and had just reached the wharf when death overtook him. Lee Hong had been only six weeks at Naden Harbor, and had left his own land only a year ago. His remains were taken charge of by the Provincial police and the funeral was entrusted to Mr. E. L. Fisher, whose new premises and chapel were recently opened.

PATCH ON SUN, NEW AND COOL, IS 10,000 MILES IN DIAMETER

SURFACE IS NEARLY TEN TIMES AS GREAT AS THE WHOLE NORTH AMERICAN CONTINENT—APPEARED ABOUT A WEEK AGO—IS THE SUN COOLING OFF?

Pasadena, Cal., July 4.—The largest sun spot which has been detected within a year, a cool patch on the sun's surface, 10,000 miles in diameter, though its mark on the seventeen inch image at the Mount Wilson observatory measures but a fifth of an inch across, is now under observation at the Carnegie observatory, and has been photographed several times since its appearance about a week ago.

The area of the sun spot is approximately 78,540,000 square miles, a surface nearly ten times the size of North America, and in which twenty-five countries of the size of the United States might be placed with plenty of margin around the edge.

Professor Ferdinand Ellerman has headed the work of photographically capturing the spot, which is now moving westward.

"As far as we know," said Professor W. S. Adams, assistant to Professor George E. Hale, head of the local Carnegie Astronomical Institution, today, "these spots are cooler than the other parts of the sun's surface."

"The question of whether the sun is growing hotter or cooler, and the effect the cooling of the body would have upon the earth, is still debatable. It would take us thousands of years to ascertain whether the sun is becoming cooler."

Mrs. Jackman, wife of Captain Jackman of the river steamer Omicron, arrived from Hazelton last evening. Mrs. Jackman is visiting with Mrs. M. Heilbronner, Sixth avenue.

REGULAR RIOT FOLLOWED THE RIVERS-WOLGAST FIGHT

Rivers Seemed to Have the Battle Pretty Well His Own Way Up to the Twelfth Round---Then Fighters Fell Across Each Other and the Referee Counted Rivers Out---Wolgast Given Official Decision---Finish of Fight Hailed With Great Dissatisfaction by the Spectators

(Special to Daily News.)

Los Angeles, July 5.—Rivers had the better of Wolgast all through twelve rounds of the fight yesterday, but the thirteenth ended the fight suddenly when

both went down and Rivers was counted out. There is great dissatisfaction, Rivers declaring he had been fouled. Wolgast also fouled, but this was admitted to be an accident caused by his falling over Rivers. The referee, however, counted Rivers out, and a miniature riot broke loose. Wolgast was given the decision officially over Rivers in the thirteenth round on a foul.

MAIL CAPTAIN MET SAD DEATH

Captain Watt, of Essington-Haysport Launch, Drowned in the Skeena Yesterday—Fell Off Boat and Was Swept Away.

An accident occurred on the Skeena River off Port Essington yesterday which resulted in the drowning of Captain Watt of Port Essington, who has been engaged for some time past in the carrying of mail by launch from Port Essington to Haysport. The sad intelligence was received in the city yesterday afternoon from Haysport.

Captain Watt was an unmarried man who was well known in this city, where he served on gasoline launches. He had been in charge of the Ka Yeh at one time, and was a first class launch man. For some time past he has been operating the craft that carried the mail between Port Essington and Haysport.

About noon yesterday, while engaged aboard the vessel, he slipped overboard and before assistance could be given him he drowned. His assistant on the launch put out in a dory as soon as he realized that his companion had fallen over and was being carried down stream, but it was too late to save his life.

FAST PRINTING OVER THE FIGHT

The Daily News Ran Four Flying Editions as Flashes Came in From Ringsides—First Ever in Rupert—Free Bulletin Final.

Excitement ran high in the city yesterday over the progress of the Johnson-Flynn and Rivers-Wolgast fights in Las Vegas and Los Angeles respectively. Bulletins fresh from the wire were read out at pool room and hotel on Third avenue and were swiftly rushed to the public in more permanent form from The Daily News office. Before the fight began The Daily News' ordinary edition was out. Five minutes after the first flash came in a second edition was issued, followed rapidly by third and fourth editions as the flashes came in up to the final, which was announced by The News on the street five minutes ahead of rivals. Later the Rivers-Wolgast bulletins came in and were bulletined free in a bunch by The News, details of that fight being given to the public in readable shape by The News ten minutes before a rival's second edition appeared.

A NEW LODGE

"Sublime Order of Goats" is Formed

Louisville, Ky., July 2.—Secretaries of the local boards attending the National Association of Real Estate Exchanges, relating one another's experiences on a steamboat excursion last night recognized, they said, a prevailing disposition to make secretaries the "goats" on all occasions, and thereupon they organized the "Sublime Order of Goats." Thus a new lodge was born.

Bruce Douglas, of Milwaukee, was elected president; Philip D. Wilson, of Los Angeles, secretary, and Stanley McMichael, of Cleveland, chairman of the committee on ritual.

BANK OF COMMERCE TO BUILD ON COMMANDING CITY SITE

Plans Provide for Handsome and Substantial Frame Building on Second Avenue Near Club House---Commodious Accommodation to be Provided and Public Offices Roomy and Finely Equipped Arranged For---Pioneer Financial House

Centrally situated on Second avenue beside the Prince Rupert club house are the cleared lots of the Canadian Bank of Commerce, the site for their permanent building. On this site on the side close to the club there will be erected at once a handsome new frame building to accommodate the increased business of the bank. The new building will not occupy the whole site available, but will be a substantial structure worthy of the bank which was the pioneer financial institution of Prince Rupert.

Forty Feet Frontage.

The main building will have a frontage of forty feet on Second avenue and will extend back a depth of sixty feet. The approach will be from Second avenue and will be raised above the street level.

The ground floor will be devoted entirely to the bank offices. In addition to this there will be a second floor, devoted to the living quarters of the staff. There will be six bedrooms on the second floor, with living room, dining room and kitchen.

Begin Work at Once.

The designs provide for a building with very handsome and imposing front elevation on Second avenue, the Bank of Commerce being thus the first conspicuous bank building approached from the waterfront. The removal of the G. T. P. Annex will make it more visible from the wharf and Centre street.

Mr. Christie expects that operations will begin at once and that there will be no difficulty in getting the work completed by the New Year.

THE HEART OF THE PROVINCE; FINE LAND AT FORT GEORGE

TH. COLLART TELLS OF HIS IMPRESSIONS AFTER PROLONGED VISIT OF INSPECTION OF HIS INTERESTS IN THAT DISTRICT—PROGRESS OF THE G. T. P. THERE.

Mr. Collart has just returned from a thirty days' trip into the "heart of British Columbia," and says that Central British Columbia is a wonderful country and will see some wonderful development in the next few years. Settlers are going in rapidly and all good lands are being taken up for pre-emption as far north as Chief Lake and Salmon River. The soil is first class and will produce fine crops. He has pictures of some fine vegetable gardens in and around Fort George. Hay and oats grow abundantly and small fruits and berries are to be found everywhere. The G. T. P. at this point is pushing the completion of the line as fast as they possibly can. Camps are established all along the line from Tete Jaune Cache to within seven miles east of Fort George. Contractor Hardy has the contract for the clearing of the right of way for one hundred miles west of Fort George and his men and supplies are coming down the Fraser River on large scows. His first shipment was eighteen men and twelve tons of supplies. Contractor Hardy has chosen Mud River, ten miles west of Fort George, as his main cache and will store there four or five hundred tons of supplies. The work on the bridge crossing the Fraser River at Fort George will be started this fall on the low water, and should be completed by next fall. On his return from Fort George he met a party of surveyors on their way to the Willow River to locate a branch line of the G. T. P. from Fort George to Barkerville to tap the Cariboo gold mines. Mr. Collart expressed himself as being greatly pleased with the prospects of Fort George and surrounding country.

BAR ROOMS AND RESTAURANTS

Police Commissioners Interested in What May Be the Province of the License Board—Bars and Lunch Counter Trade.

For a few minutes in the Police Commission meeting yesterday reference was made by the Mayor to the proximity of the lunch counters in the Empress and Royal Hotels to the bar rooms of these hotels. It was not even hinted that regular traffic like that under a restaurant liquor license was carried on, but the idea seemed to be that the proximity of the lunch counters to the bars rather favored these lunch counters over other plain restaurants apart from licensed premises. City Solicitor Peters said that he could see one of these lunch counters from his office window and had never noticed anything wrong with it. He patronized the Royal dining rooms (not the lunch counter) and prices there were no different to those prevalent elsewhere. He did not know anything about the Empress, but took it for granted that conditions there were much the same. The commissioners were satisfied and there the matter dropped.

FRIDAY, JULY 5

RESTAURANTS AND LIQUOR.

At the Police Commission meeting yesterday afternoon there was some little discussion introduced by the Mayor regarding the proximity of certain lunch counters to the bar rooms of their proprietors' hotels. Nothing definite was done in regard to the matter, which was merely commented upon, the commissioners being concerned only to assure themselves that nothing in the nature of a licensed restaurant business in liquor was being carried on. They felt satisfied that all was in order, and the city solicitor probably voiced the opinion of the License Board when he said the intention was not to issue restaurant licenses in Rupert. It is interesting to note, in this connection, that in this country, as in the United States, nine-tenths of the whole restaurant business has no connection with the liquor trade. And yet it is not so very many years since restaurant owners had to depend on bars, and were notoriously unprofitable where liquor was not sold.

NO HALF-AND-HALF STATUS.

It is to be hoped that Premier Borden will succeed in securing recognition of the full British citizenship of any foreigner who becomes naturalized in Canada. Sir Wilfrid Laurier, on his last visit to London, called attention to this matter as one urgently needing attention, and it is stated in a despatch that Mr. Borden will press the point.

At present a newcomer from the United States or any other country becomes only a British subject so far as Canada is concerned. This kind of qualified and local citizenship, if asked for by foreigners entering this or any other country, would not be granted, and should not be conferred undesignedly on strangers entering Canada.

The arrangement, while it is permitted to continue, reflects upon the full British citizenship of everybody in the country, for by means of it men are naturalized as Canadians, and their status is limited to that. It is a distinction and a difference altogether out of keeping with the idea of a British Empire.—Toronto Star.

THE CHINESE LOAN DETERMINED.

After many weeks of diplomatic communications the announcement has been definitely made that the bankers of Great Britain, the United States, France, Germany, Russia and Japan have agreed to lend the Chinese government three hundred million dollars to enable it to pay off the troops employed in the late revolution and to put the public finances in a sound condition. China has to submit to conditions that would be both onerous and odious to a solvent government, but the first four out of the six powers are friendly, and they may be trusted to see that Russia and Japan get no more advantage out of the transaction than is properly coming to them. Part of the understanding finally arrived at is that political conditions and problems are by common consent left entirely out of the international agreement. It is hardly too much to say that the slower the progress made just now under the tutelage of the friendly powers the more likely is the new Chinese political organization to prove enduring. It is safe to cite this politico-financial international agreement as a potent guarantee of general peace.—Toronto Globe.

WOLGAST WON FROM RIVERS IN THIRTEENTH

Fight at Vernon, Cal., Yesterday Resulted in a Decision for Ad. Wolgast From a Foul—Rivers Had Best of It at Start

Vancouver, July 4.—First and second rounds all Rivers, also shade in third. Up to the end of the fourth round Rivers had all the best of it; Wolgast clinching to save himself.

Rivers has big lead in sixth. Right to jaw sending him down. After being heavily punished Wolgast had a shade the best of it at the end of the eighth.

Ninth Round—As this round opened it was evident that Wolgast was improving his position. He upper cut Rivers with his left several times and landed twice on his nose. Rivers landed a

right hook to the jaw staggering Ad. The round ended in a hard clinch slightly in favor of Rivers.

Tenth Round—The opening of this round was marked by heavy fighting. Wolgast landing on Rivers' ribs and forcing him to the ropes. Rivers retaliated with two bad jabs to the neck and managed to stall him off up to the end of the round which was an even break.

The eleventh round was opened by Wolgast in an aggressive fashion. Landing one on the stomach, he followed right and

left to the jaw and forced Rivers around the ring. Rivers swung right to face and left jab to jaw, but missed right swing. Round ended in favor of Wolgast.

Twelfth Round—In this round Wolgast got in several uppercuts and Rivers put in left to jaw and got a stiff blow in exchange. Wolgast showed up strong and as the round finished landed two hard ones on Rivers' nose, tapping the claret. Rivers seems to lack punishing power, and the round closed strongly in favor of Wolgast.

Round 13—Wolgast wins on a foul.

GRAND TRUNK OBEYS ORDER

Ship Fever Monument Replaced by the Company as Ordered by Judge Mabey—Rude Monument Respected by Commission.

Montreal, July 4.—Acting under instructions from the Railway Commissioners, the Grand Trunk Railway yesterday replaced what is known as "Ship Fever Monument." This is a huge boulder of Canadian granite, weighing fourteen tons, on the face of which is inscribed the following:

"To preserve from desecration the remains of 6,000 immigrants who died of ship fever, A. D. 1847-48." This stone is to be erected by the workmen of Messrs. Peto Brassey & Betts, employed in the construction of the Victoria bridge, A. D. 1859. For nearly half a century the huge boulder rested in "Ship Fever Cemetery," at Point St. Charles. A few years ago it began to interfere with the development plans of the Grand Trunk, and was removed by the company to St. Patrick's Square, a few blocks distant. This roused the ire of the Irish residents of Point St. Charles, many of whom

were descendants of the ship fever survivors of 1847-8, and protests were made to the government and to the railway commission. After hearing both sides of the case, the late Judge Mabey ordered the Grand Trunk to replace the monument. This was done yesterday.

Pulling Down Historic Inn in England.

New York, July 4.—According to a cable from London the old Globe room in the Reindeer Inn, at Banbury, in which Cromwell held counsel before the battle of Edgehill, is being pulled down. The ceiling and paneling of this historic room is in course of removal to London by a firm which is about to re-erect them in their premises.

Up to the present it has not been decided to remove the windows and gables of the room, because the people of Banbury expressed the wish that they remain.

To-day's Impressions To-morrow's Sales

Many a September purchase is really decided in July.

Many a woman is gathering information to-day that will influence her selection of a stove two months hence.

Many a man is thinking right now about the store he will patronize for his Fall suit and overcoat.

Many an October piano purchase is really determined on the porch of a summer hotel or home in August.

How unwise, then, to put off the Advertising of these and similar articles until the actual time of their use arrives.

One advertisement seldom makes a sale. It is the repeated impressions created by Advertising that develops purchases by a discriminating public—and these impressions are seldom built up in a day, a week or a month.

Yet some manufacturers and merchants still procrastinate until the first nip of frost is felt—and then besiege the public with belated announcements of Fall clothes, kitchen ranges, home furnishings, winter underwear, and other articles usually purchased in the Fall.

Purchased in the Fall—oh, yes—but decided upon in the Summer. Decided in favor of the goods that are continuously advertised.

It's the Advertising read in July that bears fruit in September and October. For to-day's impressions inevitably lead to to-morrow's sales.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 503 London Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

BRIGHTEST ILLUMINATION IN ALL WESTERN CANADA

LETHBRIDGE, ALTA., WILL LET ITSELF LOOSE IN ELECTRICAL DISPLAY ON THE OCCASION OF THE COMING DRY FARMING CONGRESS.

Lethbridge, Alta., July 4.—Twelve thousand electric lights will make Lethbridge shine as if in the sunlight on the nights of the week of the International Dry Farming Congress, next October.

The decorative plans are being carried out under the direction of a special committee headed by A. V. Gibbons.

A feature of the display, which will far eclipse anything ever undertaken in Western Canada, will be the decoration of all the street car routes with strings of tri-colored electric light, while winding paths in Galt Park will be festooned with streamers of these colored electric lights interwoven with penants and flags.

The exposition buildings will be similarly decorated and the

large dome of the main building will be one blaze of electricity throughout the night.

The elaborateness of the decorations, especially of the electrical work, is made possible through the courtesy of the City of Spokane, Washington, which has, through its commissioners, tendered every assistance and co-operation in making the Lethbridge Dry Farming Congress the greatest ever held. Spokane was the home of the congress two years ago, and it is recognized that it was the most successful and most beneficial convention ever held in that city, which has a reputation as a convention city.

The City of Spokane has spent large sums in purchasing attrac-

tive materials for the Apple Show and other big meetings held there, and the tender of the use of this material to assist a city in Canada is an evidence of the hearty good feeling, socially and commercially, existing between these communities. The city council of Lethbridge has, through Mayor George M. Hatch, extended to the city commissioners of Spokane their appreciative thanks and recognition of this international courtesy.

FIRED ON GOVERNOR

Hongkong, July 3.—An attempt was made to assassinate the governor of Hongkong last night. Sir Francis May, while sitting in his chair, was fired upon by a Chinese, but escaped unhurt. The man was arrested.

WOMAN SINGER A TEDDY BOOSTER

Pretty Little Lady With a Sweet Voice Helped Along the Big Stick ex-President's Cause in Chicago.

Chicago, July 2.—It was a woman who brought the climax of a recent demonstration around to Roosevelt, and the T.R. boosters got more enthusiasm among the crowds along Michigan avenue by having a woman sing campaign songs. She is a chic little personage, with a sweet but powerful soprano, and her notes carry for a square when sung through a megaphone. Occasionally she varies the programme by singing "Silver Threads Among the Gold," something that always holds the other delegate. A band helps out in accompaniment.

NOT CITIZEN OF THE STATES

Hon. Geo. H. Perley is Naturalized Canuck—Was Born in New Hampshire—Took Out Papers in 1885.

Ottawa, July 1.—Hon. George H. Perley, the acting prime minister, is not an American citizen. Mr. Perley's father, the late W. G. Perley, in 1857 left New Hampshire and settled in Ottawa. He came to this country before Mr. Perley's birth, became a British subject and for a time was member of parliament for Ottawa. He did not move his family to Ottawa at once, and the present minister was born in New Hampshire soon after his father's removal to Canada, and was brought to Ottawa when an infant. Under the Naturalization Act of 1881 it was necessary for him to be naturalized, and he took out his papers on December 26, 1885.

Reception to Premier McBride

The public are invited to attend a meeting to be held in the Police Court Room, Third Avenue, at 8 o'clock, FRIDAY EVENING, JULY 5, for the purpose of arranging for a citizens' reception to be accorded Sir Richard McBride, Premier of the Province, on the occasion of his visit here.

ALL RECORDS BROKEN IN ENTRIES FOR THE OLYMPIC

ATHLETES FROM ALL LANDS, THE PICK OF THE WORLD, ARRIVE BY HUNDREDS—SEVENTEEN HEATS AND TWO QUALIFYING ROUNDS NECESSARY IN 100 METRE.

Stockholm, July 4.—The number of entries for the Olympic games is greater than on any previous occasion. Seventeen heats and two qualifying rounds will be necessary to reduce the field of 95 entered for the 100 metre dash to the six men entitled to compete in the final. One hundred men are entered for the 200 metre dash; 28 will contest in the 400 metre event, and 72 in the 800 metres. For the 1,500 metres 88 men are entered, and for the 5,000, 80. The 10,000 metre run has attracted 82 and the high hurdles 60 competitors.

The classic marathon will bring together 72 contestants. Nine nations will be represented in the 3,000 metres team race, while teams representing the United States, Russia, Italy, Hungary, England, Canada, Germany, France, Austria and Sweden will match speed and staying powers in the 1,600 metres relay.

The relay dash of 400 metres will have teams competing from the United States, Hungary, Austria, Germany, Bohemia, England, Russia, Norway, Canada, France, Italy and Sweden.

The entries for the field events are not quite so large. Sixty-five men will compete in the running high jump and the standing high jump; 89 in the running broad jump; 67 in the standing broad jump; 57 in the hop, step and jump; 47 in the pole vault.

Throwing the javelin with the best hand will bring together 65, while 32 have entered for the same event using both hands. Seventy-one will throw the discus with the best hand and 56 with both hands. The shot put with the best hand has attracted 62 competitors and the same event with two hands 27. Only 28 men will try the hammer throw, seven of these being members of the American team and twelve representing Sweden.

This imposing list of entries has surpassed all expectations, and the arrangement of heats is taxing the committee to the utmost. It is the intention, however, to extend the time allotted for the program so that conflicts may be avoided.

DREADNAUGHTS? NO! SAYS BORDEN

Canada's Premier Reaches Bristol and Is Honored There Before Proceeding to London, Where Great Reception Awaits Him.

(Special to Daily News.) London, July 5.—Premier Borden and party arrived in Bristol this morning and will reach London later. At the former place they were welcomed by the Mayor, and in London will be received by a distinguished gathering of Canadians and government officials. In an interview the Prime Minister denied that he was here to make any contribution of dreadnaughts to the navy. Such an idea was never entertained and did not emanate from any of the cabinet ministers, he said.

PROTECT THE PEDESTRIAN

Engine Drivers Must Give Warnings at Level Crossings—Railway Commission Points Out Neglect of Bells and Whistles.

Ottawa, July 2.—The Railway Commission has issued a circular to the railways throughout Canada calling attention to the fact that section 274 of the railway act is not being lived up to by some of the locomotive engineers.

The section provides that when a train is approaching a highway crossing at rail level the engine whistle shall be sounded at least 80 rods before reaching such crossing, and the bell shall be rung continuously from the time of the sounding of the whistle until the engine has crossed the highway. This section does not apply to crossings in cities and towns where municipal bylaws are in force prohibiting the sounding of whistles or ringing of bells.

Severe penalties are laid down for violation of this rule, and companies are liable for all damages sustained by reason of neglect to observe it.

His Diagnosis

Sir Arthur Conan Doyle sat at a dinner on one of his visits to New York beside a lady who asked leave to consult him about some thefts. "My detective powers," he replied, "are at your service, madam." "Well," said the lady, "frequent and mysterious thefts have been occurring at my house for a long time. Thus, there disappeared last week a motor horn, a broom, a box of golf balls, a left riding boot, a dictionary and half a dozen tin plates." "Ah," said the creator of Sherlock Holmes, "the case, madam, is quite clear. You keep a goat."

A Fast Disappearing Opportunity

To get in on the ground floor at FORT GEORGE.

Why will Fort George inevitably grow to be a great city? Because of its strategic location that assures her of a GREAT FUTURE as a distributing centre.

Because there is the centre of the richest mining district in America—the CARIBOO DISTRICT.

Because great areas of TIMBER, 1,100 MILES OF NAVIGABLE WATERS, EXCELLENT WATER POWERS, are tributary to Fort George.

Because there are 250,000 acres of good agricultural lands, open for pre-emption.

Because of all the railroad that are building or that have not their charter to build through Fort George.

Because all the grain of Alberta and Saskatchewan shall be exported through the Panama Canal, which means that all that grain shall have to come to Fort George before reaching either Prince Rupert or Vancouver.

Because Fort George has a better strategic location than Spokane and is the GATEWAY to the Pacific coast of the PEACE RIVER COUNTRY, which covers an area of 3,000,000 acres of the best agricultural land in Canada.

Within a few years Fort George will be where Vancouver and Winnipeg are today. This is the time to act. The man with a prompt decision is the man who wins, and you have everything to win if you buy right now, because this summer will see a great activity at Fort George and the prices will advance rapidly.
