## EUROPE AGAIN SEES A LIVE ROYALIST REVOLT

### TOMMY BURNS CHALLENGES WORLD'S CHAMPION JOHNSON

**Under Marquis of Queensberry Rules With Clean Breaks and No Hitting in Clinches, Burns Believes He Can Beat the Big Black Bruiser in a Ten-Round Battle---Calgary Challenger Has Posted a Thousand Dollars to Back Up Challenge---Johnson's Reply Eagerly Awaited**

(Special to Daily News.)

Calgary, July 8.—Tommy Burns today issued a challenge to Jack Johnson for a match for the heavyweight championship of the world.

If the challenge is accepted the bout will be a ten round affair under Marquis of Queensbury rules, with clean breaks and no hitting in clinches. Under these

conditions Burns claims he can beat the "big smoke," and has posted \$1,000 to make good his claim.

Best meal in town at Savoy.

### DETECTIVE SHOT IN THIGH

**Vancouver Police Officer Narrowly Escapes Death at Hands of Ruffian Whom He Still Successfully Arrests.**

Special to Daily News  
Vancouver, July 8.—Just as he was about to make the arrest of a man named William Morris, whom he suspected of being implicated in recent holdups, Detective Campbell was shot in the thigh by Morris. Despite his wound Campbell held his man and landed him in the station. The officer is in the hospital and will recover.

Loyal Order of Moose candidates are requested to attend a meeting in McIntyre Hall this evening at 8 o'clock. Important.

### WORLD'S LATEST INDUSTRY IS PROMISING FOR RUPERT

**Artificial Rubber Produced From Fresh Sea Fish is the Newest Commercial Product Devised to Meet Inexhaustible Demand ---British Consul Reports on the Erection of Plant Near Amsterdam to Utilize North Sea Fish---Immense Possibilities for Prince Rupert in Invention**

In the latest weekly report of the Department of Trade and Commerce of Canada there is contained an item of information which points in the direction of an important new industry possible for Prince Rupert. The information is placed before the

Department of Trade and Commerce for the benefit of those interested in Canada by the British consul at Amsterdam, Mr. W. A. Churchill, who reports that a factory is in course of erection at the fishing harbor of Ymuiden for the manufacture of artificial rubber from fresh sea fish, the process being the patent of a doctor of medicine at Amsterdam.

Low Cost to Produce.  
It is claimed that the product has the same qualities as vegetable rubber and is not affected by benzine or heat. It is calculated that fish rubber can be produced at a cost representing only about one-sixth that required for the manufacture of real rubber; the cheapness of the former is due to the simplicity of the process and to the manufacture of a valuable by-product in the shape of a concentrated tonic food containing phosphorus albumen.

### POLICE MATTERS FOR WEEK END

**Several Prisoners Taken South by the Prince Rupert Today to Serve Sentences—Two Passengers for Insane Asylum.**

Three prisoners and two insane patients were taken south to New Westminster today on the Prince Rupert in charge of Chief Constable Owen and Constable F. C. Belson of Hazelton. The three prisoners were each under sentence of nine months' imprisonment. William Crosby received two terms of nine months each, to run concurrently, for stealing tools and oats respectively. William Mooney was sentenced for nine months for the theft of a gasoline light tank from J. D. Allen. There were six others stolen and found in the prisoner's possession, but the other charges were not pressed. William McKechnie was sentenced to nine months' imprisonment for forgery.

### SUFFRAGETTE IN TROUSERS

**Enthusiast for Woman's Rights Cause Got Rather Rough Handling Recently at Home Rule Meeting in Bristol.**

New York, July 5.—A London cable says: "An exciting incident took place last night at the close of a home rule meeting in Bristol, at which the principal speakers were C. E. Hobhouse, chancellor of the Duchy of Lancaster, and William Redmond.

"Mrs. Dove Wilcox, leader of the local militant suffragettes, was found in an ante-room disguised as a man, wearing a soft felt hat, a dustcoat and trousers. She was discovered by the police and ejected.

"She was afterward followed through the streets by a large crowd and was roughly treated and kicked about the shins. Eventually she got away in a tram car.

**Sixty Lives Lost.**  
St. Petersburg, July 8.—Sixty persons were burned to death in a fire which destroyed the sugar factory at Lipseks this morning.

### THE VISIT OF CHINA'S CONSUL

On Thursday, the 11th inst., at the T. P. Inn the Canadian Club of Prince Rupert will hold its second luncheon this season and the guest of honor will be Dr. Chang Kang Jen, the Chinese consul in Canada. The importance of the Chinese consul's visit and address to the Canadian Club is great. Not only is Dr. Chang Kang Jen a most interesting and cultured speaker, but he is essentially in touch with the great trade conditions of the Orient which count so high in the calculations for the future prosperity of Prince Rupert, the nearest port to the Orient of all Canada. A big attendance of citizens vitally interested in the welfare of the city is assured for Thursday's Canadian Club luncheon, which will be held between 1 and 2 p. m.

Warm, clean rooms at Savoy.

### STRIKERS SHOT AT LAKE CHARLES

**All Night Clashes Result in Fatal Firing by Guards of Mills on Molesting Laborers—Four Are Killed, Four Wounded**

Lake Charles, La., July 8.—Clashes lasting all night between the union and non-union mill workers have already resulted in four being killed and four seriously wounded. Guards who were protecting the mills fired on the strikers.

PRINTERS HAD OUTING

Enjoyable Launch Trip Around Harbor Yesterday.

In the swift and beautifully equipped power boat Alice B the members of the Typographical Union had another splendid outing yesterday. The boys were delighted with the facilities provided by Captain Thomas for pleasure jaunters in his pretty boat. Just about sunset the party returned to Prince Rupert.

Mrs. E. Demers left this morning on the Prince Rupert for Vancouver and Victoria on a short business trip.

### FIRE OUTBREAK IN PREMIER

**Hotel Staff Quenched Blaze in Kitchen Roof—Brigade Made Smart Turnout, but Fire Was Out Even Quicker.**

A little excitement was caused at the Premier Hotel last evening by a small blaze starting up on the roof of the kitchen. It was noticed immediately and promptly put out by the efficient action of the hotel staff with their own apparatus. In conversation this morning with a News representative they spoke very strongly about the low water pressure obtainable. The water furnished was almost useless and it would have been the same for the city fire brigade. They consider it a merciful dispensation of Providence that the fire was checked at the moment it was, or nothing could have been done to save the place from being burned to the ground.

### RED REVOLT IS LOOSE IN LISBON

**Long Expected Royalist Struggle Breaks Out—Revolutionists Kept at Bay in Outskirts—Bombs and Bloodshed.**

(Special to Daily News.)  
Lisbon, July 8.—The long expected Royalist movement began yesterday, but the outbreaks were confined to small districts in the north and the Royalists were kept beyond the border. The telegraph wires have been cut and it is impossible to get accurate details. A bomb exploded today in the centre of this city, killing two men and destroying the roof of a house. It is believed that the victims were making bombs ready for an uprising.

TRIBUTE TO DEAD

(Special to Daily News.)  
Ligonier, Pa., July 8.—Every store and factory remained closed here from 10 o'clock this morning until 4 this afternoon, while the town paid a last tribute to the victims of Friday's train wreck.

### THREE HUNDRED THOUSAND QUIT CHICAGO

**Frightful Conditions in the Great Lake City During Scorching Heat Wave---Terrible Electric Storm Breaks, Firing Homes.**

(Special to Daily News.)  
Chicago, July 8.—Damage aggregating \$150,000 was caused by an electrical storm which beat upon Chicago last night, when five inches of rain fell. The storm brought relief from the heat wave. Lightning struck a tenement in West Lake street and twenty families were made homeless by the fire which followed.

Chicago, July 7.—Ten deaths from the heat and twenty-two prostrations were reported today.

NOT OUR LINE

**From Vancouver to Fort George Road Will Be Started Soon.**

Vancouver, July 6.—The first sod of the Pacific Great Eastern Railway was turned at North Vancouver by Sir Richard McBride on July 1. This road is to be built by Messrs. Foley, Welch & Stewart, to connect this city with Fort George and is eventually to be used as the Vancouver connection of the Grand Trunk Pacific. The railway is to be built under a guarantee of bonds for \$35,000 per mile for 450 miles of its length.

### CANADA TO BE CENTRAL POINT

**Whole British Empire Will Revolve About the Dominion Before Long is Startling Prediction of Scientific Expert.**

London, July 6.—That the increased efficiency, due to climatic conditions, of the transplanted Britisher will soon make Canada the central point of the British Empire, is the statement with which Professor Willis Moore, chief of the United States Weather Bureau, has startled Londoners.

Professor Moore declares it can be scientifically demonstrated that the climate of the North American continent is producing a race which in mental and physical energy promises to be distinctly more efficient than any past nation of the Northern Aryan race. He bases his theory on the fact that the northwest winds of the American continent, blowing with great velocity from an extreme altitude of vast electrical potentiality release more ozone in the proper state for human breathing than in any other place in the world. Consequently the American weather expert maintains that the Canadian can no more control that nervous energy which is the marvel of Europe than he can stop his own breathing.

### RECORD JUMP BY SIFTON'S HORSE

**Seven Feet Five and a Half Inches Cleared at International Horse Show—Blue Ribbon Secured Over Competition of the Best.**

London, July 6.—Confidence, the splendid jumper from the stable of Hon. Clifford Sifton, continued its successes, winning the high jump in the International Horse Show at Olympia, clearing the great height of 7 feet 5½ inches, breaking the world's record. The performance is all the more notable as the show is the largest in the world and all the best jumpers of continental Europe take part in the competition.

Confidence has always been a reliable jumper and has a long record of blue ribbons at American and Canadian horse shows. It was only at Montreal about a month ago that he established a record and since arrival in England won the high jump at the R. Lindon show. He was not extended at that time, clearing only 6 feet 5 inches. Confidence has made the trip across the pond before and has figured in the summary of most of the big shows in Europe. The record made here is the world's record in competition.

MINE DISASTER

**Nine Foreigners Meet Death in Nevada Explosion.**

Reno, Nev., July 8.—Nine were killed and several injured this morning when a premature explosion took place in the Nevada Consolidated Mine, near here. All of the killed were foreigners.

### BASEBALL SCORES

Northwestern.  
Vancouver 6, Portland 4.  
Seattle 9, Victoria 3.  
Spokane 3-2, Tacoma 2-1.

### PATIENCE REWARDED

**Brothers Waited 70 Hours to Get Choice Land.**

Edmonton, July 6.—After waiting on the steps of the land office from last Friday night until Monday, two men of some fifty-five years, Max and Alb. Greenberg, brothers, from Carrington, North Dakota, filed on a coveted half section just one mile north of the town of Edson on the Grand Trunk Pacific.

Pantorium Pioneer Cleaners.  
Phone 4.

### BRITISH SHIP CLIPS RECORD

**H. M. S. Conqueror, Britain's New Vessel, Beats the Fastest of the German Dreadnoughts—Exceeded the Contract.**

London, July 6.—All speed records for dreadnought battleships were smashed the other day when H. M. S. Conqueror, on an eight hour trial at full power, made a speed of 23.25 knots, instead of the 21 knots as stipulated in the contract.

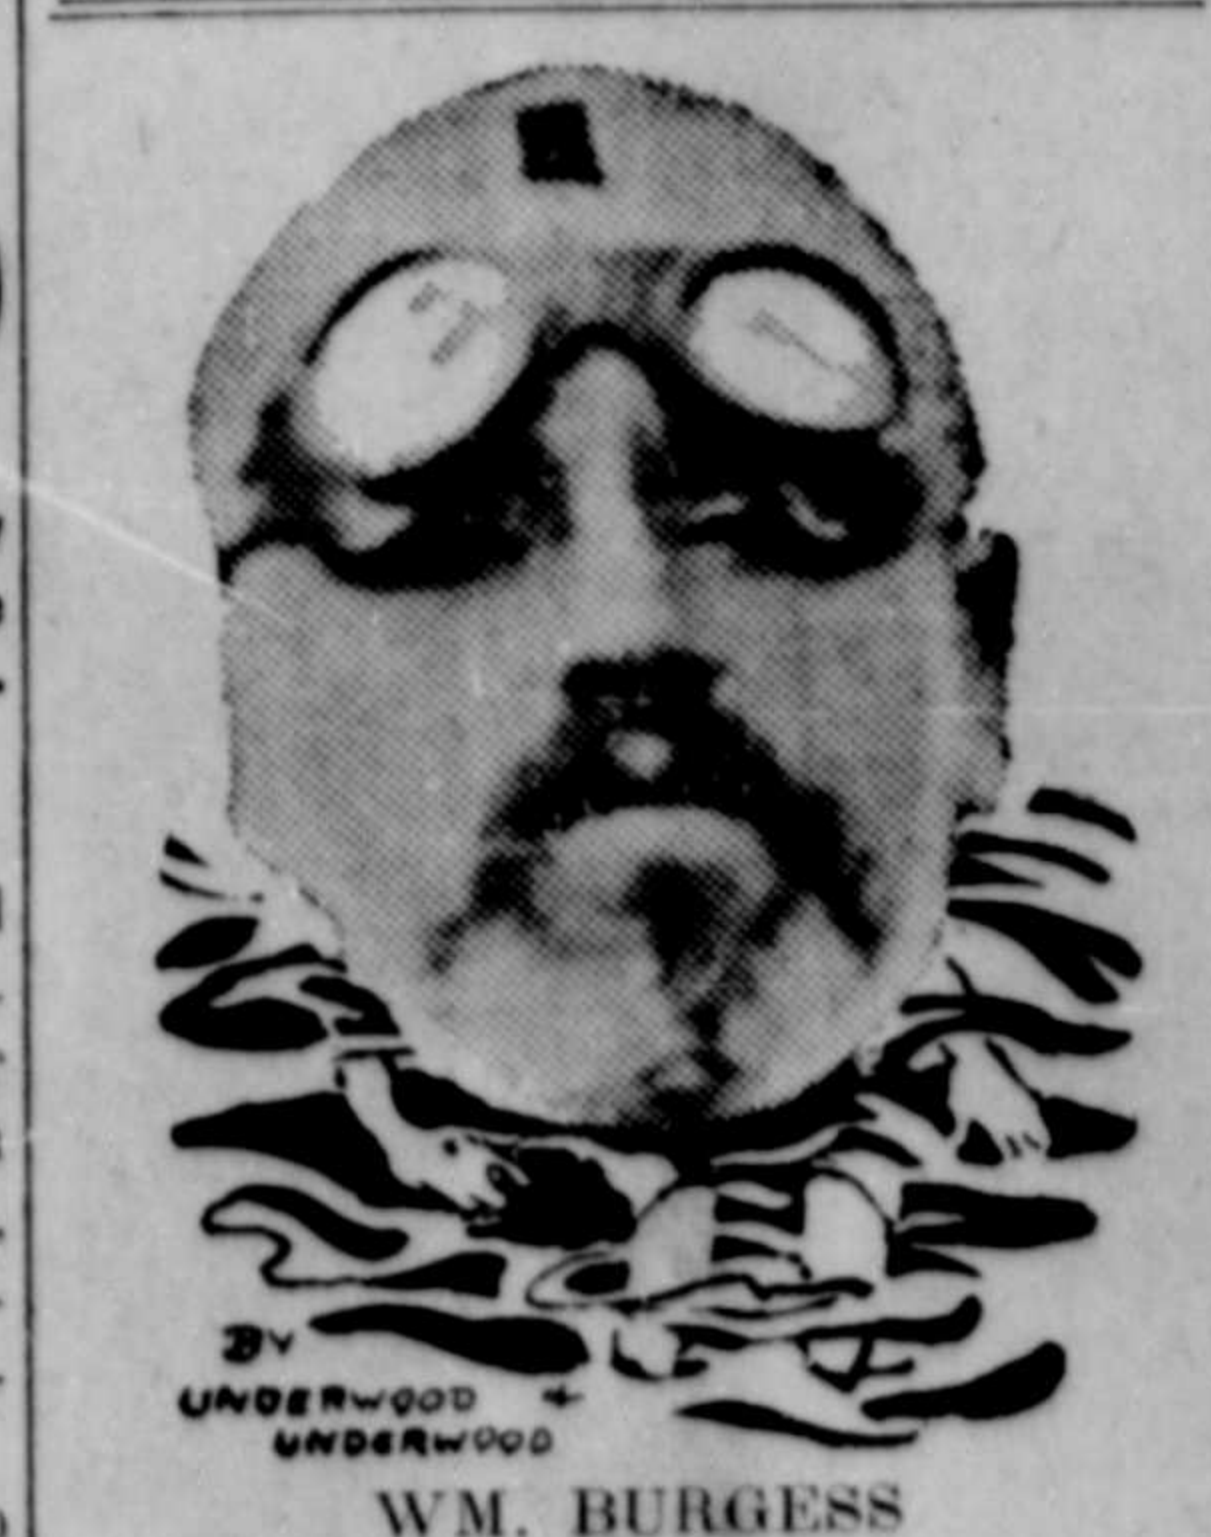

The fastest British battleship hitherto was the Vanguard, which did 22.1 knots on her trial two years ago.

The fastest German dreadnought is the battleship Oldenburg, which had her trial recently and attained a speed of 22.4 knots.

DISTRUST CANADA

**Old Land Investors Seeking Protection Against Land Sharks.**

London, July 6.—The Canadian Chamber of Commerce in London, with a view to protecting land investors from buying worthless lots near new western towns, have asked the leading firms dealing here in Canadian land to pledge themselves to refuse to sell unless the plans follow certain detailed conditions.

The stalwart Yorkshireman, and channel swimmer, who is now coaching several ambitious aspirants after the honor first achieved by the celebrated Captain Webb.

MONDAY, JULY 8

## TO GET THE BEST FOR THE WEST.

Most encouraging of all the many interesting features of the Panama Canal Convention, held in Calgary, is the evident recognition by the delegates, from whatever quarter of the west, of the need for the fullest co-operation of every section in the interest of the whole. There is no room for the strife of conflicting claims among the members when the whole body may gain or lose so much. Rivalry there must be, where opportunities are so numerous and development so rapid, but only rivalry of the sort that makes for efficiency by stimulating well directed effort. That the delegates realized this was evident, for the unanimous opinion was that now, as never before, British Columbia, Alberta and Saskatchewan must stand shoulder to shoulder and use their united strength in forcing a path to a common goal. If the recognition of this truth by the people of the three provinces had been the sole fruit of this conference it would have justified its existence.—Calgary Albertan.

## SYMBOL OF CIVILIZATION.

To the unquestioned fact that it embodies within itself so completely the modern ideals of ugliness and discomfort, we must attribute the extraordinary appeal which the silk hat holds for all savage and semi-civilized peoples. Next after whisky, it is the one gift of the white man that finds universal acceptance. It seems impossible to question the essential unity of the human race when we find the Parisian man of fashion and the Zulu chieftain exhibiting the same aesthetic standards. It is true that the African chieftain too frequently staves in the top of the hat and wears it as an ornament around his ankle, but that is only a matter of detail. To both men the silk hat is a thing that takes a high polish and creates discomfort and looks like nothing in nature, and as such it serves admirably as a symbol of civilization.—New York Nation.

## A NEW EXCUSE FOR DYING.

One of the latest communications from the spirit world is a message, expressed in execrable English, from the late W. T. Stead, in which he declares that he has now recovered from the shock of the disaster of which he was a victim. The world beyond must be a dull place when so brilliant a man can find so little to say and say it so badly. Gladstone, when communicated with a year or two ago, was still worrying about politics. What would be the use of dying if it were not for the high cost of living?

HAZELTON NOW COUNTS ON  
GREAT THINGS FROM THE  
HARRIS MINES ON NINE MILE

Harris Mines has arrived. If this ore assayed \$80 at the widest point and \$140 where it is 16 inches wide. The aim of the two Harris brothers, Duke and Al, who are running things is to get in shape to commence shipping just as the G.T.P. rails get to a point where the ore can be taken to the cars without using a steamboat. Many handlings of ore cost money.

Sinking from the bottom will be started again on July 2nd and the shaft carried down to the 200 foot level by August 1, when drifting will be commenced both north and south on the vein. It speaks well for the mine and the district that although this shaft was started last September and carried down to 87 feet and then left to stand over the winter that not a single bucket or drop of water has yet been hoisted out of it.

Number 2 vein is the biggest surface showing of high grade ore on the property. A tunnel over 300 feet long was driven last winter to cut this vein at 130 feet depth but the ore was not

HON. MR. ASQUITH PROPOSES  
IMPORTANT IRISH VISIT

BRITISH PREMIER WILL ADDRESS HUGE ASSEMBLY IN DUBLIN NEXT WEEK ON THE BURNING SUBJECT OF HOME RULE—JOHN REDMOND WILL PRESIDE.

Dublin, July 5.—Prime Minister Asquith has fixed the date of July 15th as the date of his visit to Dublin. The Irish people are preparing to give the Premier a magnificent welcome. On the day of his arrival here Mr. Asquith will address a meeting in the Theatre Royal, the largest auditorium available. Already almost every seat has been allotted and many persons will be disappointed owing to the impossibility of giving tickets to all applicants. John Redmond will preside at the Dublin demonstration, at which John Dillon and Joseph Devlin, among other Irish members of parliament will testify to the fealty of the Liberal leader to the cause of Irish

home rule. Mr. Asquith will spend only three days in Ireland and will not speak in Belfast as he had first intended. His visit recalls Gladstone's greatest disappointment. After the flying of the famous Hawarden kite in 1886, when the "grand old man" risked splitting his party on home rule, Gladstone promised Parnell that if a majority were obtained he would go to Dublin to solidify the friendship between the people of both countries. He never realized his ambition. When the Commons passed his second bill in 1893 it was evident to everybody that the Lords would throw it out, as they did. So ill health and discouragement prevented him from fulfilling his pledge.

where it should be, and the finding of the ore was left to wait another day and the work concentrated on No. 3 vein.

No. 1 vein is a big fine surface showing of high grade silver lead ore, from two to five ft. wide and has a shaft down 37 feet; this summer the shaft is to be continued down to at least 100 feet.

No. 4 vein, about 18 inches wide, shows fine ore but no work has been done beyond surface stripping.

Hoisting at the shaft is done with a horse whim. 1000 ore sacks, the first to be received, were sent to the mine this week and are being filled from the dump and the ore that is being hoisted from day to day.

The ore that is coming out now, if it were being shipped as it is being hoisted, would show a nice profit above working expenses, but the difference of \$7 or \$8 a ton between transportation costs now and five months from now, when the rails can be reached with a sleigh, is causing the management to hold back to realize the best possible profit out of their shipments.—Omineca Herald

## DANGERS OF GASOLINE

Something Everybody Living in Prince Rupert Should Know.

How many persons know what happens when a pint of gasoline is left open in a room? If the temperature is normal the liquid entirely evaporates in twenty-four hours. The vapor is heavier than air and therefore sinks to the floor. Unless disturbed, it will remain there for hours and by mixing with the air form an explosive compound about seven times as powerful as gunpowder. One pint of gasoline will make two hundred cubic feet of this compound. It is not necessary that a lighted match come in contact with it. A spark struck by a nail in a shoe will explode it. So will a gas jet or even the enclosed fire in the kitchen stove. If it is necessary to use gasoline for cleaning gloves or other articles, there is only one safe place to do the work. That is outdoors.

The modern, high class place for billiards and pool. Seale's, Third avenue. tf

THE IDEAL  
IN WIVES

Also Woman's Usual Idea Concerning Good Husbands—How Happy Marriages Are Made—Not All Housekeeping.

"There is not a woman in the world who, if given her choice, wouldn't rather have a husband who came home drunk once a month and gave her a black eye, but who was amiable and pleasant and agreeable all the balance of the time, than to be married to a man who was as sober as the village pump, but who was always grouchy and cross, who never spoke a pleasant word in the family circle.

"And precisely the same thing may be said concerning women. The worst wife on earth, and the one that can bring most misery down on her husband's head, is the nagging wife. Compared with her the woman who is a poor cook, the woman who is a bad manager, the woman who is extravagant, even the vain and flirtatious woman is a capital prize in the matrimonial lottery.

"In proof of this, if you will notice, you will observe that as long as a man's wife is sweet and affectionate and cheerful and good natured and sufficiently liberal to give him some degree of individual freedom he will put up with a deal of bad housekeeping and wastefulness from her."

## Professional Affinity.

"There goes a happy couple." "How did she happen to marry him?"

"Oh, they had common interests. She was a brick throwing suffragette and he was a professional bondsman." — Kansas City Journal.

## Hope.

"And you still have hopes of influencing old Titewad to become a regular attendant at your church?"

"Yes; and I am more sanguine than ever."

"You are?"

"Yes. If the government really begins the coining of half cent pieces I regard it as a cinch." — Houston Post.

Jogging Laziness  
into Activity

The merchant whose business lags in the summer has himself to thank.

To slacken the selling pace in the hot season—to lessen Advertising activity—indicates a resignation which has no place in modern business.

If we think we cannot keep our business booming in summer time, we surely will not.

What a jolt it must have been to the fur trade, when the first mid-summer fur advertisement was run in a daily paper! Now many fur stores are following the example of that progressive fur man who dared to believe that fur sales need not go down as the mercury goes up.

Energy, linked with Advertising, has turned the month of January into the biggest selling season for white goods. Advertisements of a high stimulative power, combined with a disregard of "seasons," have opened up automobile selling two months earlier than was once thought possible. Advertising has started Christmas shopping early in October instead of the middle of December.

Advertising rises superior to seasons and thermometers. The right kind of Advertising strikes a responsive cord in human nature—and human nature is the same in August as in December.

## POULTRY RAISING PROSPECTS PEOPLE OF PRINCE RUPERT

HOW TO START AND MAINTAIN THE GOOD PAYING HOBBY OF KEEPING CHICKENS—HATCHING, REARING AND FEEDING POULTRY IN A PIANO CASE.

Poultry raising works in splendidly as a profitable hobby in Prince Rupert. Very little is required in the way of outlay, and the returns in proportion thereto are a good many times larger than in any other branch. The poultry houses need not be expensive, just so long as they are of the serviceable kind—the kind that give results. There is much waste every year that could be converted into poultry and eggs very easily at a handsome profit. Only about four pounds of grain are required to produce one pound of chicken, which is less than is required to produce one pound of beef, mutton or bacon. The labor required to successfully manage a flock of poultry is proportionately small. The market demands are practically unlimited, and the price of dressed poultry and eggs is sufficiently high at all times of the year to make poultry keeping a paying business, even when prices are at their lowest. From these facts we see that poultry can be made very profitable with but very little in the way of initiative expenditure.

**Best Way to Start.**  
To begin poultry raising start with a few settings of eggs the first season and hatch chickens from the eggs, and then have your own stock the second season. This way of starting is the cheapest. Where a person wants to invest a little heavier a better start can be made by buying ten to twenty birds and hatching chickens from these the first year. This means, of course, a heavier expense, but then one would be a year ahead in getting returns already the first year.

**The Poultry House.**  
The poultry house should be located fairly close to the home and should be protected from the north winds. The idea is to have the poultry house well lighted, dry, well ventilated and free from draught, and also fairly cheap. One of the best houses is the straw loft poultry house, built 16 feet wide and any length desired. This house has a peak or gable roof, is seven feet high from sill to plate and has the south side made of one-third boards and the remainder one-half glass and one-half curtain. Such a house is not very expensive and answers the purpose very well for the raiser of chickens.

**Small Equipment.**  
The equipment required to operate a poultry department on a dry farm need not be very large. All appliances should be as possible. The less machinery about a poultry yard the better it will be. Drinking pans, feed hoppers, nest boxes and so on should be as simple as possible.

**Incubators.**  
The appliances required to raise chickens are not very numerous. Incubators and brooders, of course, become a necessity where large numbers are hatched and raised, or where early hatched pullets are wanted for winter egg production, but where only a few chickens are raised the investment would hardly be profitable. The brooder is usually superior to the old hen for raising chickens, providing it is properly handled.

**Let Fowls Run.**  
The ideal place to raise chickens is on the kind of ground where insect life is fairly abundant. Chickens raised on free range with hens or with brooders will always be healthy, strong and vigorous, and they develop quicker than those raised on a limited range.

Exercise is essential for laying stock. Make them work for the whole grain, of which wheat is probably the best. Feed crushed oats in a feed hopper, always within access. Buttermilk is the best drink for them. Give grit and oyster shell, and also green food.

**Feed for Chicks.**  
Little chickens should be fed on stale bread pressed dry (after being soaked in milk) and mixed with hard boiled eggs. Add charcoal and finely cut onion leaves to this. Give chick food five times a day and gradually change to whole wheat, so that at the age of six weeks they will get all wheat. Start them on dry mash made of equal parts of corn meal, flour and ground oats scrap, charcoal and corn meal, and feed this a few times a day in low pans. After six weeks of age hopper feed both grain and dry mash in order to lessen the labor. Give buttermilk to drink and also feed grit. Provide shade of some kind.

The simplest colony house can be made by placing two piano boxes back to back, first taking off the backs and the flat tops. Run up the steep sides so as to form a hip roof, then cover with roofing. Securely fasten the two boxes together and place them on 4x4 runners; put a door and runway in one end, and the house is ready for use.

**Raising Chicks.**  
For raising chickens the colony house should be fitted up with a detachable lamp box and a hover which can be taken out just as soon as the chicks are old enough to roost. A colony house can be made and a detachable brooder can be purchased at the same price. One can buy an outdoor brooder complete, and the former can be used from the time the chicks are hatched until ready to go to the regular poultry house, whereas the latter answers the purpose satisfactorily only for the first six weeks.

**DISSOLUTION OF PARTNERSHIP.**

Notice is hereby given that the partnership heretofore subsisting between the undersigned as contractors and carriers, under the firm name of Holmes & Mulvey, in the town of Hazelton, county of Athol, province of British Columbia, has been this day dissolved by mutual consent. All moneys due to the said partnership are to be paid to George M. Holmes, at the office of the said partnership, and all partnership debts will be paid by the said George M. Holmes, provided bills for same are presented on or before July 1, 1912.  
GEORGE M. HOLMES,  
T. L. MULVEY.

Hazelton, B. C., June 7, 1912. 129

**WATER NOTICE.**

For a License to Take and Use Water.  
Notice is hereby given that the Prince Rupert Hydro-Electric Co., Ltd., of Montreal, Canada, will apply for a license to take and use 100 cubic feet per second of water out of McNeill Creek, which flows in a northerly direction through Wm. Agnew application to purchase, and empties into Hecall River about 1 mile above the mouth of Browns Creek. The water will be diverted at McNeill's Lake and will be used for power purposes on the land described as Wm. Agnew application to purchase.

This notice was posted on the ground on the 25th day of May, 1912. The application will be filed in the office of the Water Recorder at Prince Rupert, B. C. Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.

THE PRINCE RUPERT HYDRO-ELECTRIC CO., LTD., Applicant.  
By W. M. Agnew, Agent.  
Pub. June 2, 1912.

**NAVIGABLE WATERS PROTECTION ACT.**

Notice is hereby given pursuant to the provisions of Chapter 115 of the Revised Statutes of Canada and Acts of the Dominion of Canada a plan of a certain wharf and other works proposed to be constructed by the company and a deposit of the said plan and description of the works for the said wharf at Cousins Inlet, Coast District, Vancouver Island, British Columbia, and that the said company has also filed at the office of the Registrar of Deeds at Victoria, British Columbia, being the proper registry in that behalf, a copy of the plan and description of the works and will apply to the Governor General in Council for approval thereof.

Dated this 28th day of May, A. D. 1912.  
at Vancouver, B. C.  
TUPPER & GRIFFIN,  
Solicitors for the Said Company.  
Pub. June 3, 1912.

**CERTIFICATE OF IMPROVEMENT.**

Lost Rocker Mineral Claim, situated in the Skeena Mining Division of Cassiar District. Where located: On the west side of the entrance to Goose Bay, Observatory Inlet.

TAKE NOTICE that I, W. T. Kergin, as agent for F. S. Dakers, Free Miners' Certificate No. 33955B, intend 60 days from date hereof to apply to the Mining Recorder for a certificate of improvement for the purpose of obtaining a Crown grant of the above claim.

And further take notice that action under the provisions of the Mining Act, R.S.C. 1906, for the issue of such certificate of improvement, will be taken on or before the 1st day of May, 1912.

Dated this 1st day of May, 1912.  
Pub. May 4, 1912.  
W. T. KERGIN.

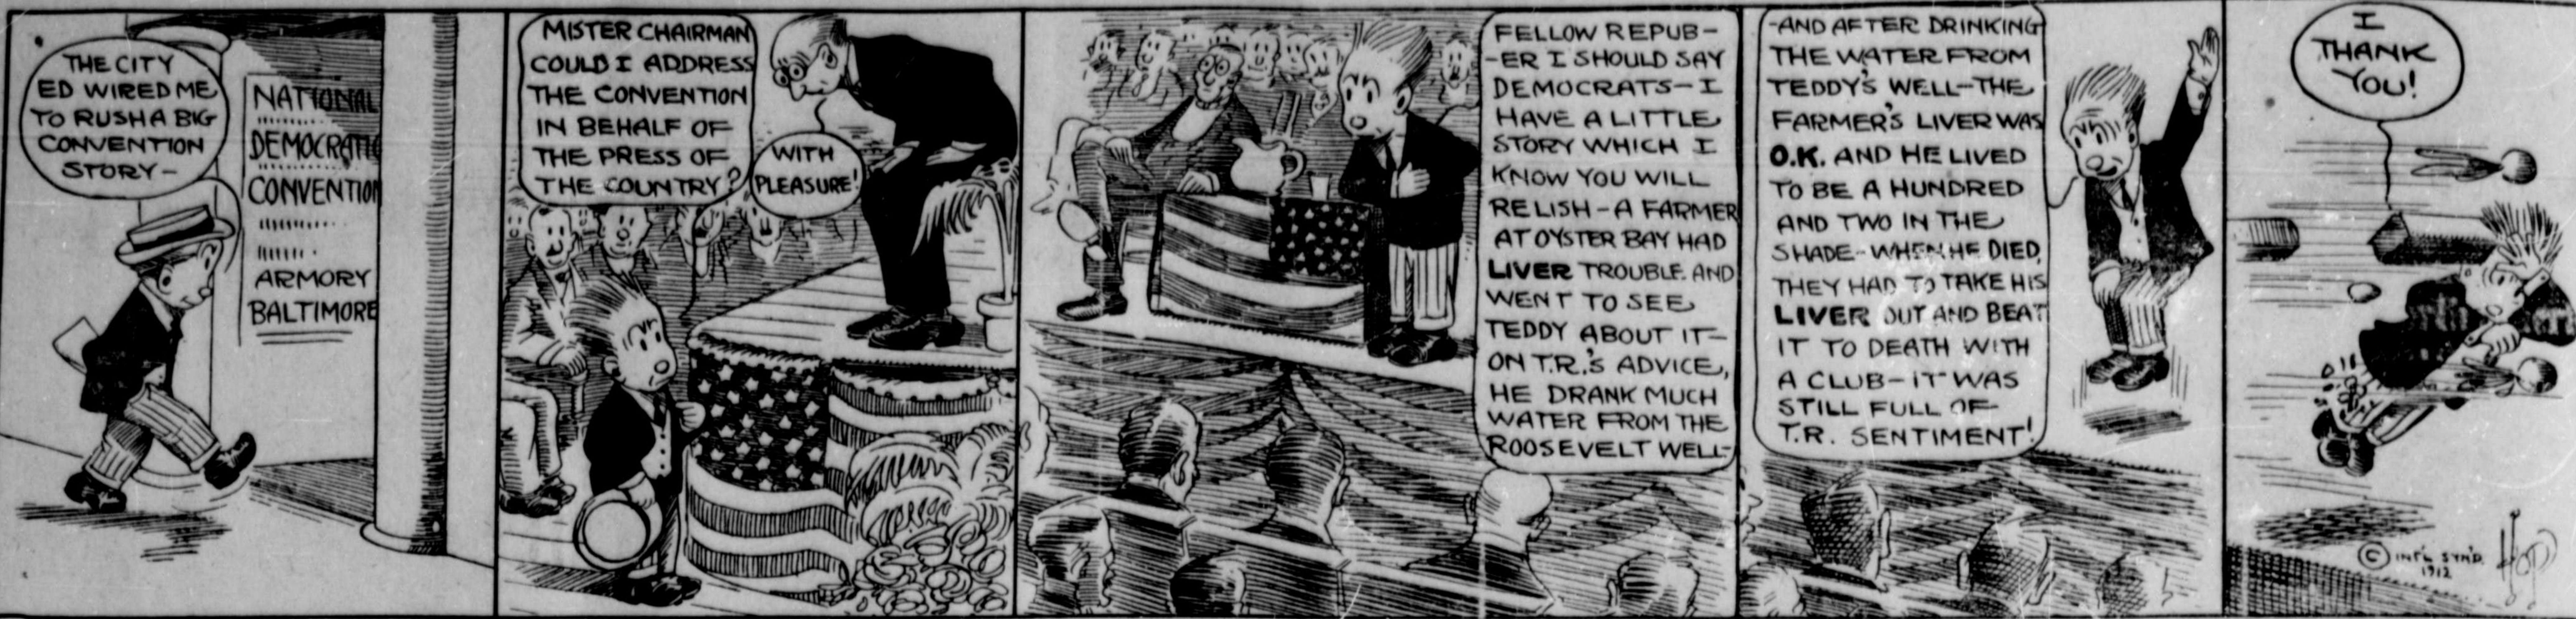

**WATER NOTICE.**

For a License to Take and Use Water.  
Notice is hereby given that Lakelse Development Co., Ltd., of 3 Haddon Bldg., Victoria, B. C., will apply for a license to take and use 400 cubic feet per second of water out of Williams Creek, which flows in a westerly direction through Southeast Lakelse Valley and empties into Lakelse Lake near North End. The water will be diverted at a point 3 miles above the mouth of Browns Creek, to the point of commencement, and will be used for irrigation and power purposes on the land described as Lakelse Valley between Skeena River and Lakelse Lake.

This notice was posted on the ground on the 6th day of May, 1912. The application will be filed in the office of the Water Recorder at Prince Rupert, B. C.

—Drawn for the Daily News by "Hop"

### A Fast Disappearing Opportunity

To get in on the ground floor at FORT GEORGE.

Why will Fort George inevitably grow to be a great city?

Because of its strategic location that assures her of a GREAT FUTURE as a distributing centre.

Because there is the centre of the richest mining district in America—the CARIBOO DISTRICT.

Because great areas of TIMBER, 1,100 MILES OF NAVIGABLE WATERS, EXCELLENT WATER POWERS, are tributary to Fort George.

Because there are 250,000 acres of good agricultural lands, open for pre-emption.

Because of all the railroad that are building or that have got their charter to build through Fort George.

Because all the grain of Alberta and Saskatchewan shall be exported through the Panama Canal, which means that all that grain shall have to come to Fort George before reaching either Prince Rupert or Vancouver.

Because Fort George has a better strategic location than Spokane and is the GATEWAY to the Pacific coast of the PEACE RIVER COUNTRY, which covers an area of 3,000,000 acres of the best agricultural land in Canada.

Within a few years Fort George will be where Vancouver and Winnipeg are today. This is the time to act. The man who wins, and you have everything to win if you buy right now, because this summer will see a great activity at Fort George and the prices will advance rapidly.

ALL INFORMATION FREE FOR THE ASKING.

By Giving You the Biggest Bargains Ever Offered in Prince Rupert

We Have No Alternative for the Landlord Has Leased the Land  
Our Store Now Stands on to the Premier Hotel People and Has Given Us a 30 DAY NOTICE TO GET OUT!

You know the expense connected, when you move into a new house, say nothing about the breakage of dishes, etc.—it is always a third more than you had figured at the very least. So in order to eliminate as much as possible of this expense we have decided to dispose of everything we possibly can at a very big sacrifice. Some prices will be cut in two;

### COMPLAINER FOUL MOUTHED

Dan McInnis, Who Charged John Kelly with Unlawfully Wounding, Warned and Fined for Swearing—Kelly Committed.

Magistrate Carss held his court this morning for the first time in the fine, new court room in the city hall. There were only two cases, those arising out of the fracas that took place in the early hours of Saturday morning. John Kelly, who seems to have acted under extreme provocation, was committed for trial on the charge of wounding with a knife.

Dan McInnis, foreman for J. Hidditch, who was complainer in this case, was shown to have been around early in the evening in an intoxicated condition and giving a great deal of trouble. He was fined \$25 and \$2 costs and severely reprimanded by the magistrate for using coarse and obscene language in the public streets and acting in a disorderly manner generally.

### THE HOSPITAL AND EXPENSES

Satisfactory Monthly Report Received by the Board the Other Day—Meals Are Supplied at Remarkably Low Average Cost.

Receipts by the General Hospital during the past month amounted to \$82234.50, and expenditure to \$2014.73, giving an excess of revenue over expenditure of \$193.77, which is considered satisfactory by the board at their meeting last week, though with a new building ahead every economy is necessary.

The monthly report of the secretary as to the cost of the kitchen supplies and the help for the month showed that the meals, including the cost of the coal used in the kitchen and the cook's way and that of her assistant, had been only 21.84 cts. apiece.

In the matter of the contracts with the city employees the matter was left over until the council had ascertained the wishes of the employees in the matter.

### FUNERAL OF MISS M'DONALD

Late Resident of Rupert Who Died on Friday Will Be Interred Tomorrow on Garden Island—Young Old Timer Passes Away.

It has been arranged that the funeral of the late Miss Mary McDonald, who died at the general hospital on Friday as the result of severe pneumonia and complications, will be held tomorrow from E. L. Fisher's funeral parlors to Garden Island cemetery. Deceased, who was only twenty-seven years of age, was well known in Prince Rupert and had many friends here. She was an old timer of the city, having been here over three years. Within the past year she had taken a trip home to the old land, and the trouble which ended her life gradually developed after her return to Rupert.

Chief Owen and Constable F. C. Belson of the Provincial police left on the Prince Rupert this morning with three prisoners and two insane patients for New Westminster.

Commanding Officers

Mrs. F. McB. Young and Miss Young, wife and daughter of Judge Young, left for a few weeks' visit to the southern cities on the Prince Rupert this morning.

### You Do Not Know Where to Invest?

Let us tell you. There should be no difficulty about a matter of this kind if you take the trouble to exercise ordinary care and common sense. You would not select an old decaying city whose pulse has almost ceased to beat, would you? NO, you would put your money into a going concern where there is life and hope!

### Well! Why Don't You Try the West?

We suggest the west, because the west spells Progress! Here are the cities of the future, where hamlets existed a few years ago. Here are the towns which possess both sea and rail transportation facilities! Here are the towns whose strategic positions ensure them becoming large commercial distributing centres in the near future! Here is Alberni, the future Liverpool of Canada.

### A Seaport Town of no Small Renown

So situated at the head of Alberni Canal on the west coast of Vancouver Island, its importance as a seaport town cannot be doubted, or too strongly emphasized. This canal opens itself out into the Pacific Ocean, after its land locked course from Alberni, extending for a distance of 26 miles. Its water is of great depth, permitting of safe navigation to the largest vessels plying the west coast, being open to three miles in width. An investment in a place possessed of such enviable features

### Must Surely be One of the Best!

Yes! Without a shadow of a doubt it is one of the best! Don't be asleep to these great chances, which do not come too often. Remember, Alberni is at present served by one great transcontinental railway system, the Canadian Pacific Railway, and by the end of the year the Canadian Northern will have completed its track into Alberni. Then will come the dredging of Seymour Narrows, connecting the island with the mainland.

Mail and passengers from the Orient and other routes via the Panama Canal to be opened next year, will be landed at Alberni, and transported by rail to Vancouver, saving from eight to twenty-four hours to the present route.

ALBERNI therefore is where you should invest.

Lots can be bought for \$150, inside the town limits. Easy terms, 10% cash, 5% per month.

Test it for yourself. Buy a lot today and help to develop the west.
