PRICE FIVE CENTS

CONSUL'S SPEECH: POWER OFFER: THE OLYMPIC

PORPOISE HARBOR POWER PLANT PROPOSALS FOR PRINCE RUPERT

City is Offered Opportunity of Availing Itself of Extra Electrical Energy Produced at Neighboring Power Station by Prince Rupert Hydro-Electric Company---Outline of the New Proposition and Possible Advantages Therefrom Being Considered by the City Council

The proposition is one to augment considerably Prince Rupert's present supply of electrical power.

It was placed before the Council last night by Mr. William McNeill, representing the Prince Rupert Hydro-Electric Power Co.

Two thousand horse power or over is the amount of additional power offered.

It will be developed at Porpoise Harbor by an oil combustion steam plant at first, afterward from the Hocsall water power.

The preliminary proposals are a forty year franchise, power price to be agreed on; city to accept power delivered at its transformer station to be reduced for light and small powers; the company to supply users of over fifteen horse power; the city to have privilege of use of the company's pole line, for which the company will pay the city rental.

Fifty thousand dollars will be laid out at once by the company, and the Porpoise Harbor plant will be ready in six or eight months.

Above are the outlines of an important proposal made last night to the City Council by Mr. William McNeill. That further proposals of this nature will come up soon the citizens were fairly well aware. The City Council last night heard a very clear and straightforward setting forth of the proposals by Mr. McNeill, and the aldermen made various enquiries and commenced discussion of the matter, which cannot be definitely decided upon for some time and until the people have had their say upon it.

Not Old Proposition.

Mr. McNeill mentioned that there had been a former proposition before the people of Prince Rupert. That proposition might be forgotten as far as this one was concerned. The present scheme is that the city may benefit by the erection of a new oil consuming power generating plant at Porpoise Harbor, which the company is to put up at a cost of at least \$50,000. If Prince Rupert desires it the plant will be made big enough to supply the extra power which the city can use during its development for the next few years. The Porpoise Harbor plant is required in any case for purposes of power consumption outside of Prince Rupert, but while the work is in hand there is the chance for Prince Rupert to avail itself of the plant, which would be built so much the larger.

Proposition in Brief.

Mr. McNeill, who is also in touch with the Western Canada Power Company, which is at

present supplying power to Vancouver and New Westminster, selling thousands of horse power, mentioned these systems. For the city of Prince Rupert he proposed a forty year franchise for the delivery of power at a price to be agreed upon. The city was to take the power at a transformer station and reduce it for its own lighting and also for small users of power. The hydro-electric company, on the other hand, was to take all the users of power from fifteen horse power up. The city, he suggested, would be at liberty to use the poles of the company for city uses only, as for street lighting and fire alarm system. The power company would pay an annual rental for the poles used solely for their own purposes and a smaller rental for the poles that were used jointly.

Aldermanic Opinion.

There was considerable aldermanic discussion of the scheme propounded by Mr. McNeill, who explained that the plant proposed was to be erected at once and the Hocsall water power speedily developed. Alderman Montgomery was interested regarding the cost of power production by means of oil. He fancied it might be dearer than the city's method. Mr. McNeill said he would be prepared to meet the city's own price and give a discount. Alderman Morrissey went into a dissertation on the city's own scheme and did not think the city should consider any outside proposition until it had reached the limit of its own power. Alderman Kerr was in favor of getting increased power for industries incoming, but being careful with franchises. Alderman Douglas desired a proposition supplying power at the city limits, but this Mr. McNeill is not prepared yet to make.

The Mayor's Views.

A motion was carried to have the proposition in writing. One was proposed for a city limits scheme, but as this would not be entertained at this stage it was not pressed. Alderman Morrissey thought it would complicate matters. The Mayor expressed himself in favor of having the two propositions to present to the people for the final verdict, and had no use for any proposition which he could not feel was likely to be a popular one. Mr. McNeill made an eloquent appeal to the city fathers to have faith in Prince Rupert, faith enough to provide for the extra power which incoming industries would demand. He pointed out that the ideas of his company and of the city are identical. Both desire the establishment here of a huge industrial community. The company asked for no exclusive privileges, no monopoly. They were prepared to spend money at once, the spending of which will lead

to the speedy establishment here of great industries employing long, busy pay rolls—the pay rolls which count in the making of great cities.

City Band Practice.

Tonight the city band, still in its initial stage but progressing toward full strength, will hold a practice in the city hall. The Council the other night granted the use of the hall to the band, which will practice either in the library or council chamber. A full attendance of all interested is requested.

DUKE'S DRESS HINT.

(Special to Daily News.)
Winnipeg, July 11.—At luncheon at the opening of the fair, the Duke of Connaught appeared in democratic dress, gray suit with soft hat. All others present, some 200, were dressed in full regalia, frock coat and silk hat.

REGINA FEARS RIOT AT POLLS

Special to Daily News
Regina, July 11.—Polling takes place today in the Saskatchewan provincial elections. So tense is the feeling in different parts of the province that rioting is feared at the polls.

Important Notice.

There will be a meeting of the Board of Trade in the old police court room tomorrow night at 8 o'clock sharp.

Warm, clean rooms at Savoy.

CANADIAN CLUB LUNCHEON TO THE CHINESE CONSUL

Many Prominent Citizens of Prince Rupert Listen to Inspiring Address by Dr. Chang Kang-Jen

There was a large gathering of Prince Rupert's prominent business men and members of the Canadian Club in the G. T. P. Inn today at the luncheon in honor of the Chinese Consul. Dr. Chang Kang Jen delivered in his brightest style a very breezy address, some of the scintillations of which are here given:

"China is awakened—that is the gist of the news flashed over the wires in the dying year of 1911. "Trade must follow the line of least resistance, and that your port is two days nearer the Orient than your rivals farther south must assure you in the future absolutely first consideration in the eyes of the commercial world." "The opening of the Panama Canal marks a new era in ocean bound commerce. This ought to prove a veritable Godsend to the Pacific coast and Prince Rupert." "Changed conditions in China will create new wants, and China will have to go to the foreign markets to

meet the demand. As one of the first aids to expansion the establishment of a bank of your own with offices at Yokohama, Shanghai and Hongkong is of great importance. If it is not possible to have a B. C. consul at each of these places, it would be advisable to have trade representatives, keeping the name of British Columbia generally, and Prince Rupert particularly, before the eyes of the merchants and traders." "Your city is well named. In history Prince Rupert stood for dash, resourcefulness and enterprise. You are known to possess these qualities in a marked degree. It seems to me you have gone your namesake one better; you are builders and developers of resources, and with your sister cities co-moulders of the destinies of your province. Further, you have far higher ideals and loftier aims than the great soldier ever felt, so far as recorded, and you have already done more for the name than its original owner.

PRINCE RUPERT'S PROSPECTS FROM WHEAT

(LETTER TO THE EDITOR.)

Dear Sir: One of the great problems confronting the grain growers of Western Canada, and also the Pacific coast ports is the handling of the increasing wheat crop which will be shipped to Europe through the Panama Canal. Very few people realize what an enormous quantity of grain will come this way. The fact that the Canadian railways are expressing anxiety about the means of handling the enormous crop in prospect for this year is a fair indication of what traffic will come to the Pacific coast as soon as the railway shall be completed. In 1908 the crop was 106,000,000 bushels; this year's crop is expected to be 250,000,000 bushels. By 1915 our wheat crop will not be far short of 400,000,000 bushels, and following this proportion our wheat crop should reach from 750,000,000 to 950,000,000 bushels in 1920, if that grain were loaded in cars holding on an average of 750 bushels each in train loads of thirty cars we would have from 23,000 to 40,000 trains, hauled by as many locomotives. Put all these trains in one train and it would be from 8,000 to 10,000 miles in length. It is safe to say that at least one-third of this grain will come to the Pacific coast on its way to Europe, and that on account of the grade on the G. T. P. the great bulk of this grain will reach Prince Rupert through the Yellowhead Pass and Fort George. These 300,000,000 bushels will take 13,333 train loads of thirty cars each, which will mean the arrival at the Pacific coast during one whole year of forty-five train loads every twenty-four hours, or nearly a trainload every thirty minutes. The great bulk of this shipment, or not less than 150,000,000 bushels, will have to be forwarded within four months after harvesting, and will require three train loads every hour, which will cover 18 miles of sidetrack in each twenty-four hours, and this will necessitate not less than an area of one thousand acres. The transcontinental railroads now built or under construction cannot handle this enormous shipment, which proves the necessity of the building of other roads to the Pacific coast. When the late President Hays said that by 1915 the G. T. P. would ship through Prince Rupert 100,000,000 bushels of wheat he knew whereof he spoke. The handling of this wheat from this port will require an army of men, the building of elevators, flour mills, etc., the empty cars will be returned loaded with merchandise from the Orient, and Alaska.

Yours truly,
Th. COLLART.

PRINCE RUPERT'S FIRST POLICE COURT.

In view of the recent removal of the city police force under that genial old timer, Chief "Billy" Vickers, the accompanying picture of the very first tabernacle of law and order in the city is especially interesting. Mr. Vickers himself, William Manson, Judge Young and the ever popular, omnipresent Mr. L. Crippen may be seen in the picture.

THE ITALIANS MAKE PROTEST

That Unpalatable Term Against the Use of Which Ald. Montgomery Raised His Voice in Council is Justly Resented.

To the Editor of The News:
Dear Sir,—Referring to references in your yesterday's issue about the word "Dago," often applied in a derogatory sense to Italians, allow me to say a few words for publication.
How many know that we are all Italians so far as we have in us any of the results of education, knowledge, restraint, and the accumulated wisdom of the world?
How many are aware that what we call western civilization is nothing but the spread of Roman Empire civilization?
How many ever reflect that all the culture we have we drew from the shores of the Mediterranean on the Adriatic?
How many ever stop to think that if there had been no such thing as the spirit of Italy we might all be barbarians this day?
For all the modern world Italy is the mother of every art. We owe to her music, painting, architecture and sculpture, poetry and drama.
Mr. Editor, we the fellow citi-

zens of Caesar, Dante and Marconi, cannot tolerate without protesting such vulgar qualification.
Yours,
V. BASSO-BERT.

CANADA GAINS OLYMPIC GLORY IN THE WATER

(Special to Daily News.)
Stockholm, July 11.—The Canadian, Hodgeson, brought glory to the Dominion by his victory today in the 1,500 metre swimming contest which had hung up records. In the race Hatfield of England was second and Hardwick of Australia third. The record made by Hodgeson was 1,000 metres in 14 minutes 37 seconds, and 1,500 metres in 22 minutes flat. This beat previous Olympic records by 2 minutes 33 seconds. Hodgeson continued swimming, completing the mile in record time, which was not cabled. Finals in six events were completed today and of 36 points the United States scored 13, England 6, Germany 6, Canada 3, Australia 3, Finland 3, France 2. England won the greatest race of the Olympic so far, the 1,500 metre run, in which Jackson, an Oxonian, broke the record by more than six seconds. Finland won the 5,000 metre race.

WRECK ON THE INTERCOLONIAL

(Special to Daily News.)
St. John, N. B., July 11.—The Maritime Express of the Intercolonial Railway smashed up this afternoon. Three were killed and several injured. The dead are Engineer Clark, Fireman McGill and a tramp. The engine and all the coaches left the rails at Grand Lake station.

University Congress Closed.

London, July 11.—Lord Strathcona, the venerable chancellor of the University of Aberdeen, and also of McGill University in Montreal, occupied the chair yesterday at the concluding sessions of the Congress of the Universities of the Empire.

R. L. BORDEN'S EPOCH MAKING LONDON SPEECH

(Special to Daily News.)
London, July 11.—Before the largest gathering of British parliamentarians and public men ever assembled at the Colonial Institute Hon. R. L. Borden, Canadian Premier, delivered an historic address that is the talk of the metropolis. Borden, as guest responding to the toast of honor, declared that Canada stood for one king, one flag, one empire, one navy, and that all Canadians sprang from races that have never yet failed to realize their responsibilities.

DAILY EDITION. THURSDAY, JULY 11

THE POWER AT OUR DOORS.

Amongst the most valuable of all the tremendous resources available for Prince Rupert in Northern British Columbia are the water power of the district. One of these water powers—a tiny one it is true, but still a water power—Prince Rupert has secured for the city's own exclusive use. It cost the city some \$30,000 to purchase the sole use of that water power, and before it can be developed and put to work within the city limits a good deal more money must be spent, provision for which has already been made against the city's credit. It is not likely that Prince Rupert will be ready to supplant the city's own 2,500 horse power Woodworth water power by hastily handing over the power franchise to the 25,000 horse power water power which the owners of the Hoesall power can offer, with the many times greater power which the Khatada proposition can place at Prince Rupert's disposal. And yet, while holding on to her own power proposition and taking all possible pride in it, may not Prince Rupert possibly have use before very long for rather more than twenty-five hundred horse power from water?

APPLIES CLOSELY TO PRINCE RUPERT.

While the problems of municipal government on this continent are such that they present no mean task to the most capable men, few would venture to suggest that the best men are giving themselves to this service.

Among the best governed cities today are those of Germany, where the social standing of the officials who correspond to our aldermen is such that the position is sought by some of the ablest and most successful men in the community. The mayor is chosen as a railroad president is chosen here, because of his proved abilities in administration, and is frequently not a resident of the city whose affairs he is chosen to direct. Permanent officials are also better trained for their work there than here, as it customary for them to choose the municipal service as a life profession and to undergo special training, for which adequate provision is made in the schools and colleges of the country.

The public life in the older countries gains by the presence of a leisured class. Men of ability, who have retired from business and who are willing to devote their energies to the public service, are more numerous there than here. On this continent fewer men retire from business until they are forced to do so by declining years.

Our main hope must be that some of our abler business men will recognize that it is a duty, none the less insistent because it involves some sacrifice of valuable time and energy, to give their services to the community in which they live.—Calgary Albertan.

WANTED—A PATH TO GOD'S ACRE.

Editor of The News, Prince Rupert.

Dear Sir: May I, through your columns, draw the attention of the citizens to a most urgent requirement, viz., a way of easier access to Fairview Cemetery? Suffice it to say were the difficulties encountered on reaching it—which some of us learned for the first time recently—generally known, public sentiment would demand the necessary improvement. Many are the needs of a city such as yours, destined undoubtedly to be of world wide importance; but should not God's acre be cared for and adequate provision made for the reverent interment of the victims of that common enemy of mankind which was here before the earliest settler and will remain, defying banishment until the strongest and the youngest of Prince Rupert's residents are gone.

Sincerely yours,
 W. HARDY ANDREWS.

HON. COCHRANE FOR ENGLAND

Minister of Railways is Appointed Delegate—Will Attend International Good Roads Congress in England.

The announcement was made the other night at a complimentary dinner tendered by the Ontario Motor League to Mr. W. Rees Jeffreys of the Road Board of Great Britain that the Dominion government had appointed

Hon. Frank Cochrane as their delegate to attend the third International Road Congress, to be held in London, England, next June. Representatives of the Provincial governments and some of the larger municipalities also will attend. Invitations have been extended to every nation in the world, and it is expected about forty will be represented.

ITALY'S HONOR MAINTAINED

Adolphe Azzali, Champion of the Land of Art and Music, Proves Himself an Athlete of Mettle—Walks Away from Rivals

There were doubts regarding the walking race on Dominion Day, and Adolph Azzali, champion walker of Italy, challenged the decision as he maintained a level walking pace throughout the race in accordance with rules, while rivals had trotted. The race was re-walked on Tuesday night in good order, and Azzali is today adjudged officially the winner. His time for two miles was eighteen minutes. The course was over two miles long by

1102 feet. Azzali covered the whole distance in twenty minutes. His rivals were Youngman and Olesen. Olesen was only ten seconds behind the winner.

CHILDREN HAD GLORIOUS TIME

Anglican Sunday School Picnic to Porcher Island in Charge of Rev. W. T. Rushbrook Proved a Signal Success—Youngsters Had Time of Their Lives

Tuesday the Anglican Sunday schools of St. Andrew's, Centre Street, and St. Peter's, Seal Cove picnicked at Warner's Beach, Porcher Island. This is probably the largest, finest and safest beach in the neighborhood of

Prince Rupert. Much of the success and unalloyed happiness of the event was due to Capt. McKroskrie, who had arranged a roomy-fenced, canvass covered scow, so that the sea trip to and from the beach—over a sea of glass—had every moment filled with pleasure, round games, skipping contests, etc.

One little Seal Cove lass expressed the feelings of at least the children, when she exclaimed on leaving the scow, "Gee, I wish we were going again tomorrow, don't you?"

Mr. C. G. LeBree, passenger agent of the Canadian Northeastern Railway Company, with terminus at Stewart, Portland Canal, is in the city, en route to the latter place after a visit east as far as Toronto.

You Do Not Know

Where to Invest?

Let us tell you. There should be no difficulty about a matter of this kind if you take the trouble to exercise ordinary care and common sense. You would not select an old decaying city whose pulse has almost ceased to beat, would you? NO, you would put your money into a going concern where there is life and hope!

Well! Why Don't You Try the West?

We suggest the west, because the west spells Progress! Here are the cities of the future, where hamlets existed a few years ago. Here are the towns which possess both sea and rail transportation facilities! Here are the towns whose strategic positions ensure them becoming large commercial distributing centres in the near future! Here is Alberni, the future Liverpool of Canada.

A Seaport Town of no Small Renown

So situated at the head of Alberni Canal on the west coast of Vancouver Island, its importance as a seaport town cannot be doubted, or too strongly emphasized. This canal opens itself out into the Pacific Ocean, after its land locked course from Alberni, extending for a distance of 25 miles. Its water is of great depth, permitting of safe navigation to the largest vessels plying the west coast, being one to three miles in width. An investment in a place possessed of such enviable features.

Must Surely be One of the Best!

Yes! Without a shadow of a doubt it is one of the best! Don't be asleep to these great chances, which do not come too often. Remember, Alberni is at present served by one great transportation railway system, the Canadian Pacific Railway, and by the end of the year the Canadian Northern will have completed its track into Alberni. Then will come the dredging of Seymour Narrows, connecting the island with the mainland. Mail and passengers from the Orient and other routes via the Panama Canal, to be opened next year, will be landed at Alberni, and transported by rail to Vancouver, saving from eight to twenty-four hours to the present route.

ALBERNI therefore is where you should invest.
 Lots can be bought for \$150, inside the town limits. Easy terms, 10% cash, 5% per month.
 Test it for yourself. Buy a lot today and help to develop the west.

BITS BLOWN FROM REGINA

Half a Column of Items Showing How Serious Have Been and Still Are Matters for the Citizens of the Stricken City

Hon. George H. Perley, acting premier, has been deluged with cablegrams from England, Scotland and Ireland, asking for details and names of any old country victims of the Regina disaster.

Special Assessment
 It has been suggested that a special assessment should be levied upon the citizens at large to raise a million dollars or more if necessary in order that the ruined district may be rebuilt without delay.

C.P.R. Activities
 Since the disaster the C. P. R. have had a large gang at work erecting new freight sheds, the operations being continued into the night, and the large temporary structure is now completed.

Good Business
 The Dominion Express company has announced that it will carry free all shipments consigned to the relief committee at Regina.

Relief Fund Swells.
 The relief fund is growing steadily. The Saskatchewan government has contributed \$25,000, Manitoba, \$10,000; Alberta, \$10,000; Edmonton, \$5000; Winnipeg, \$5000; Fort William, \$2,000; the C.P.R., \$5000; the C.N.R., \$5000; Lord Strathcona, \$1,000, and Mayor McEara \$1000.

Work for Hundreds
 As the city is considering the erection of thousands of houses there will be any amount of work for all. The trades needed most are: Carpenters, bricklayers, electricians, plasterers and tinsmiths, although there is a dearth of all trades.

Threaten to Go to Regina
 Winnipeg, July 8—If a settlement of the differences between the carpenters and employers, including the stationery engi-

LIVELY LIGHTWEIGHT

Kid Lucas Will Become Fireman and Live in Calgary.

Kid Lucas, the crack little lightweight, who has been Billy Allen's sparring partner, will not go east with Allen. Lucas has caught the Calgary fever and says that he likes the sensation. He is an expert fireman and has obtained a position on the city fire department and will make his home in Calgary. There are already some fairly good boxers at fire headquarters, and they are all planning to get some lessons from Lucas.

ALMOST AN AUTO HURT

Howard Dotterer Fell over a Dog Right in Front of Frizzell's Auto and an Idea Got Round That He Had Been Run Over.

A man by the name of Howard Dotterer fell and was badly bruised this morning in front of eely's drug store. He apparently was hurrying to get out of the way of Frizzell's motor wagon, and tripped over a dog that was endeavoring to do the same. He was quickly attended to by one of Frank Keeley's staff, and later removed to the General Hospital, where the last word was that he was doing well.

How Many Affected?
 A special committee of a hundred citizens have been engaged throughout the week, making a canvas of the citizens of the destroyed area with a view to having an official record of the people affected.

Estimating the Damage.
 Another committee of contractors have been engaged in compiling an estimate of the damage done. With these statistics to work on, the authorities will be in a better position to make arrangements for the necessary financing required for rebuilding.

REVISED VERSION (Life)

He fought, and then
 Ere he ran away
 To fight again
 Another day.

That day came round,
 He fought anew,
 And soon he found,
 As such folks do.

Who turns to flee
 Ere his fight's done,
 Will always be
 Kept on the run.

Who runs to give
 The fight away,
 Must fight to live
 Another day!

Best meal in town at Savoy.

WROTE MANY PRETTY LILTS

Florodora Composer, Maker of the Dainty Musical Double Sextette Sung by the Pierotti's of Prince Rupert a Bankrupt

London, July 9—Leslie Stuart, composer of "Florodora" and several other musical plays and songs, appeared in the bankruptcy court today. Mr. Stuart said that he had for some years been in the hands of money lenders who received the bulk of his royalties. His liabilities are \$25,000. His income has amounted to between \$20,000 and \$25,000 a year.

Next Time, Scoop, Bury That Pass in Your Sock

—Drawn for the Daily News by "Hop"

THE COMING SHOW COMPANY

An Excellent Aggregation of Talent in Mistrionic Art is Promised by Advance Agent, Who Praises Rupert's Theatre.

The Del S. Lawrence Stock Company, which is to be in Prince Rupert for a limited engagement, starting Wednesday evening next, is undoubtedly the finest which has ever visited our city. It was organized by Messrs. Lawrence and Sandusky some eight years ago and has played uninterruptedly ever since. The personnel has changed somewhat from time to time, but all changes have been made with an eye to improvement, and today they stand unquestionably at the very top of the tree in their chosen profession. All plays are produced under the direct personal supervision of Mr. Lawrence and mounted and staged with a lavish disregard of expense and that careful attention to detail which spells success. They carry their

own scenic artist, Mr. Frank Cutler, one of the acknowledged king pins in his line, and many of their sets are revelations in stage craft. The list of plays which will present in Prince Rupert has been carefully selected and something can be found in them to suit the most exacting, ranging as they do from the tense emotion of "Camille" and "Three Weews" to the rollicking comedy of "Yon Yonson" and "Going Some." The Westholme Opera House would be a credit to a much larger city, and its efficient manager deserves well of his townfolk for his enterprise in securing such an attraction as the Lawrence players.

ST. ANDREW'S SOCIETY.

A meeting of St. Andrew's Society will be held in Carpenters' Hall Friday evening, July 12th, to discuss important matters concerning the society. Members of the Caledonian Football Club and other Scotsmen in the city are invited to be present. S. D. MACDONALD, Secretary.

RESULTS OF JUMPING TESTS

Cars Carries Off Most of the Honors, and also the Cup for the Highest Average of Excellence in Athletics for the City

Following are the results of the jumping contests held last night, postponed from Dominion Day:

Standing broad jump—First, Watt, 8 feet 5 3/4 inches; second, Cars, 8 feet 5 inches.

Running broad jump—First, Cars, 18 feet 1 3/4 inches; second, Watt, 16 feet 3/4 inch.

High jump—First, Cars, 4 feet 10 1/2 inches; second, Watt, 4 feet 9 3/4 inches.

Running hop, step and jump—First, Cars, 37 feet 9 inches; second, Holmquist, 35 feet 9 3/4 inches.

In the high jump Watt gave an exhibition jump, making 1 inch higher than the winning test. In the running hop, step and jump, 39 feet was made as an exhibition jump.
