MARGUERITE CLARK HERE FOR TWO DAYS

In "Come Out of the Kitchen," starring Marguerite Clark, which is at the Westholme tonight, Claudia Daingerfield is a member of an old aristocratic family of Virginia, which is sadly impoverished. Her father becomes ill and it is decided to send him with Mrs. Daingerfield to New York for treatment by a specialist. To obhorse, but Randolph Weeks, who loves her, comes to her rescue the price on condition that the colored servants are replaced by white persons.

It develops that the white servants engaged refuse to go to the country, whereupon Claudia, who is desirous of leasing the home to Crane, announces to Elizabeth, her sister, and her two brothers, that they themselves will have to act as servitors. Elizabeth rebels but finally consents to serve as upstairs girl, while Paul is the butler, Charles a boy of all work, and Claudia herself, the cook.

A good deal of building is looked for during the coming year, with the present scarcity of housing in the town. It is likely too that a better class of buildings will be put up.

Are Washdays Necessary in Winter?

There was a time, back in the days of stone hatchets, when woman was hardier than she is today. A biting wind, damp air and slush underfoot did not so much endanger her then.

But is this exposure necessary now? Is woman exercising her best judgment in hanging clothes on the line in winter weather? Is man showing chivalry when he permits it? A simple and safe solution of this problem

is to send your family washing to us-especially during these days while the weatherman is surly. No washboards or heavy soaps are employed by us. We wash for you in the twentieth

century way by letting soft water and billowy suds surge through the fabric. It is a laundering method that saves clothes. So, also, is our ironing process. We give a charming lustre to your linens not with hot

irons, but with special steam heated presses that protect the textiles. Telephone us. Our driver will call at a definite time for your family bundle. At a definite time also he will return it. Our method

saves you labor and protects you from the
