

Are Washdays Necessary in Winter?

There was a time, back in the days of stone hatchets, when woman was harder than she is today. A biting wind, damp air and slush underfoot did not so much endanger her then.

But is this exposure necessary now? Is woman exercising her best judgment in hanging clothes on the line in winter weather? Is man showing chivalry when he permits it?

A simple and safe solution of this problem is to send your family washing to us—especially during these days while the weather-man is surly.

No washboards or heavy soaps are employed by us. We wash for you in the twentieth century way by letting soft water and billowy suds surge through the fabric. It is a laundering method that saves clothes.

So, also, is our ironing process. We give a charming lustre to your linens not with hot irons, but with special steam heated presses that protect the textiles.

Telephone us. Our driver will call at a definite time for your family bundle. At a definite time also he will return it. Our method saves you labor and protects you from the rigors of wind and weather.

SWITZERLAND IS ADMITTED TO THE LEAGUE

Swiss People Will Have to Vote on Proposal Before Effective.

(Special via G. T. P. Telegraphs.)

LONDON, Feb. 14.—The Council of the League of Nations has agreed to admit Switzerland as a member of the League, accepting the Swiss Government's conditions for maintaining neutrality and her refusal to participate in any military operations under the auspices of the League or to permit the passage of foreign troops through Swiss territory, but agreeing to participate in any economic pressure applied by the League, Switzerland's admission being subject to a Swiss referendum confirming these conditions.

Mr. Balfour, British representative, announced a commission composed of members of the Council, who would be instructed to summon a conference of the states concerned to study international exchange and finance difficulties.

The Man in the Moon SAYS:—

THAT British labor unions object to war but propose to strike because the Government will not do as they wish.

THAT strikes are simply another form of warfare.

THAT consistency is a jewel, even among labor unions.

THAT strife is more common than co-operation.

THAT it is not confined to labor and capital but is common even in families.

THAT too much sugar is not pleasant to the taste, but a little acid is needed to make life palatable.

THAT strife is the acid.

THAT too much acid is ruinous.

THAT knowledge consists very largely in knowing how to use an encyclopedia and dictionary.

THAT the idle person is the dangerous person. Watch the man who is not working and ten to one he is up to some devilry. Women who do not work—well, we know what they are.

THAT the time of year is approaching when some people count their chickens before they are hatched.

THAT there are a lot of people who need to be watched and their stories discounted. There are book agents, life insurance canvassers, subscription agents, but the one to watch and avoid is the man who sells incubators. He can show you how you can become a demi-semi-millionaire in less than a year.

THAT is another time when expectation is far ahead of realization.

THAT the question being asked around town is "Who is in the liquor ring?"

THAT there are all sorts of rumors implicating prominent citizens and it would be well to have the matter cleared up now.

THAT revelations seem to be in order.

THAT until the right men are discovered everyone will be suspecting his neighbor.

PROHIBITION PEOPLE WILL NOT MEET NEXT WEEK ACCOUNT OF FLU

The prohibition convention which was to have been held at Victoria commencing on Wednesday next has been indefinitely postponed on account of the influenza epidemic in that city. This was done on the advice of the Medical Health officer. Word to this effect was received today by Archbishop Du Vernet of this city.

Olaf Hanson went out on this morning's train on a visit to his tie camps up river.

IN PROBATE IN THE SUPREME COURT OF BRITISH COLUMBIA.

IN THE MATTER OF THE ADMINISTRATION ACT — and —

IN THE MATTER OF THE ESTATE OF JOHN BARRIMAN DODSON, DECEASED, INTESTATE.
