### Settling Strike With Longshoremen.

The G. T. P. officials express willingness to arbitrate the differences with the men and the Longshoremen also seem willing to arbitrate, but each side seems to fear that if they apply for a board they will be asknowledging defeat. Possibly by the time this is printed some action will have been taken to bring the two sides together and secure a settlement. The port has been tied up for several weeks already and everybody is losing money over it, the longshoremen and the company most of all. It seems a pity that a little matter of sentiment should keep business at a standstill.

### Protect Witnesses At Assizes.

There should be some protection for the witnesses at the assizes and also in the police court against having to take an oath by pressing their lips to a dirty book. The Bible is used for this purpose, but its sacred character does not prevent the spread of dire diseases from the lips of witnesses coming in contact with its polluted pages. If it is necessary to kiss the Bible in order to take the oath, a new book should be provided for each witness and the dirty ones destroyed. Some of the witnesses in certain cases are a positive danger to those who follow.

Apart from its hygienic danger, the kissing of a book is a superstition that does not make for betterment. There is no efficacy in the Bible which makes an oath taken on it more binding than if taken with the raised hand or in any other manner. It simply degrades the Bible. In these days of enlightenment we should discard all relics from the dark ages. Let the grand jury, the Canadian Senate and kissing the Bible pass into the limbo of forgotten things.

### Farmers Oppose Shipbuilding.

The farmers are not interested in shipbuilding. Farming is one of the industries on which the government of the country spends immense sums. Experimental farms are kept up and officials go about the country educating farmers in how to carry on their business. Official pamphlets are issued regularly both by the Dominion and Provincial Governments. Seldom a day passes but the newspaper offices are flooded with articles prepared under government instruction dealing with how to run a farm or some department of farming. Farmers' Institutes are subsidized and every activity of the farmer is a subject for Government aid or supervision. Only a few days ago a government creamery was established at Vanderhoof for the use of the farmers, which will be sold to them as soon as it has become a paying institution. The farmers are pap-fed by all governments.

There is good reason for giving aid to the farming industry, but there is no reason why they should be the only ones to receive government aid. There are other industries that are important and that of shipbuilding is one and fishing is another. In these Prince Rupert is interested.

The farmers have taken a stand against aid to the industries and in doing so they are showing themselves to be very selfish. It is anything but good form for members of an industry that is reared on government aid, to object to a little aid to another industry. Mr. Crerar and his fellow "Progressives" would live up to their name better if they would get a wider outlook on the affairs of the country and see that there are other businesses than farming which need consideration.

Low, 7:18 a.m., 3.3 feet.
19:11 p.m., 8.2 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

Washing after every wearing saves Silk Underthings

HALF the charm of silken things lies in keeping them fresh and sweet. Moreover perspiration discolors and shortens their life. Why not wash them after every wearing?

It's delightfully simple. Use the pure, gentle, cleansing LUX suds. Make just a bowlful, anywhere, any time. Just dip them up and down—press out the water—rinse—iron with a warm iron—and it's done.

LUX will hurt no fabric that pure water may touch. Sold at all grocers and departmental stores.
