

A LIFETIME OF SUFFERING

Prevented by "Fruit-a-tives"
The Wonderful Fruit Medicine

58 MAISONNEUX ST., HULL, QUE.
"In my opinion, no other medicine is so good as 'Fruit-a-tives' for Indigestion and Constipation."

For years, I suffered with these dreaded diseases, trying all kinds of treatments until I was told I was incurable.

One day a friend told me to try 'Fruit-a-tives'. To my surprise, I found this medicine gave immediate relief, and in a short time I was all right again."

PRINCESS ENA HERE WITH CANNERY CARGO

C. P. R. Freighter Arrived From Voyage to Japan Where Rice Riots Were in Progress.

The C. P. R. freighter Princess Ena, Capt. T. Cliff, was in port yesterday discharging freight at the Government wharf. She brought cans for Tucks Inlet, box shooks for Wales Island and general freight for Port Edward and Skeena points.

This is the first trip north for the Ena since she crossed the ocean to Japan with a cargo of explosives for the quarries at Chinnampo in Korea and Kobe in Japan.

The steamer arrived at Kobe just at the time of the rice riots. Some rich Japs had cornered the rice market and forced the price up from about twenty sen per sho (5 lbs.) to sixty-five sen. The result was that the poorer people found it difficult to get enough to eat. They protested and to enforce their protest they went around the town with clubs, breaking all the windows and generally smashing things up. This roused the Government and they shipped in rice and brought the price down.

The steward of the Ena, who is a first rate amateur photographer, took a number of photographs of the barricaded windows and the crowds.

CATTLE IMPORTATIONS TO BULKLEY VALLEY

Land Settlement Board of Provincial Government Arranging for Shipment of 300 Head..

A great impetus to the cattle industry in Bulkley Valley, with more of this year's bumper crop of feed finding its way to market on four legs, may be expected as the net result of arrangements completed this week between the land settlement board and a number of the district farmers, whereby cattle will be brought in from the southern parts of the province to relieve the feed situation there, says the Interior News.

Commissioner D. D. Munro, of the land settlement board, arrived in the district last Saturday and spent several days among the farmers, taking applications for cattle, and that farmers were alive to the opportunity this activity of the board presented for starting or augmenting their herds is shown by the number of cattle arranged for.

Mr. Munro completed his work in the early hours of Thursday. Several farmers were hustled out of bed after midnight to sign applications in the moonlight in the chilly night in their pyjamas. It is estimated that three hundred cattle were arranged for.

The Land Settlement Board has bought a lot of southern cattle to save them from slaughter; necessitated by the failure of fodder crops in that section. Mr. Munro left on Wednesday to take applications for cattle at Houston and in the lake districts.

The committee which was appointed some time ago to secure data with the object of erecting a cold storage plant and ice factory at Cow Bay is still working and before very long will have something definite to place before those interested. They do not wish to report until they have secured all possible information in regard to the project.

Kitchener was right

when he said—

"Either the Civilian population must go short of many things to which it is accustomed in times of peace or our armies must go short of munitions and other things indispensable to them."

NOW, the only way we can possibly live up to that obligation is by going without in order that our soldiers may have. For the money we waste is not money at all—it is equipment, clothing, shot and shell that are urgently needed in France.

By denying ourselves, therefore, we enable Canada to procure to the fullest extent the materials and labor which she and our Allies need for the successful prosecution of the war.

What happens when we fail to save?

A pull on labor by the Government in one direction and a pull on labor by the people

in the opposite direction. Hundreds of millions of dollars are of no use to the country if goods and services can be secured only to the extent of eighty millions of dollars. So we must do everything in our power to release both goods and labor for the purposes for which Canada needs them.

WHETHER it be food, coal, wool, steel, leather, labor or transportation, the result in all cases is the same. Whoever competes with the nation by freely satisfying his own desires, selfishly appropriates to his own use that which is so urgently required for our fighting men in France.

For the sake of your country and the boys "over there," spend cautiously. Think of what Lord Kitchener has said, and ask yourself first, "Is this something I really need or can I do without it?"
